PROXY STATEMENT

2013 ANNUAL MEETING OF STOCKHOLDERS

May 15, 2013

This proxy statement is being furnished to you in connection with the solicitation of proxies by the Board of Directors of Insight Enterprises, Inc. Your vote is very important. For this reason, the Board of Directors is requesting that you allow your common stock to be represented at the annual meeting by the persons named as proxies on the enclosed proxy card. **This proxy statement is being sent to you in connection with this request and has been prepared for the Board of Directors by our management.** The terms we, our, Insight and Company refer to Insight Enterprises, Inc. and its subsidiaries. This proxy statement is first being sent to our stockholders on or about April 5, 2013.

PROXY SUMMARY

Who can vote?

You are entitled to vote your common stock if our records show that you held your shares as of March 22, 2013, the record date for our meeting. At the close of business on that date, 44,586,827 shares of common stock were outstanding and entitled to vote. Each share of common stock has one vote. The enclosed proxy card shows the number of shares that you are entitled to vote. Your individual vote is confidential. We use our transfer agent to tabulate votes, but we will not disclose your vote to others.

How do I vote?

If your common stock is held by a broker, bank or other nominee (i.e., in street name), you will receive instructions from the registered holder that you must follow in order to have your shares voted. If you hold your shares in your own name (i.e., as a holder of record), you may vote your shares by telephone, via the Internet or by mail. To vote by mail you may instruct the persons named as proxies how to vote your shares by signing, dating and mailing the proxy card in the envelope provided. You may vote by telephone or Internet 24 hours a day, 7 days a week until 12:00 p.m. (CT) on May 14, 2013. The enclosed proxy card contains instructions for telephone and Internet voting. You may also come to the meeting and vote your shares in person.

Table of Contents

How may I revoke my proxy instructions?

You may revoke your proxy instructions by any of the following procedures:

1. Send us another signed proxy with a later date;
2. Vote or re-vote by telephone or over the Internet at a later date;
3. Send a letter to our Corporate Secretary, at 6820 South Harl Avenue, Tempe, Arizona 85283, revoking your proxy before your common stock has been voted by proxies at the meeting; or
4. Attend the annual meeting and vote your shares in person.

How are votes counted?

The annual meeting will be held if a majority of our outstanding shares entitled to vote is represented at the meeting. If you have returned valid proxy instructions or attend the meeting in person, your shares will be counted for the purpose of determining whether there is a quorum, even if you wish to abstain from voting on some or all matters introduced at the meeting.

Shares of common stock represented by properly executed proxy cards received by the Company in time for the meeting will be voted in accordance with the instructions in the proxies. If you return a signed proxy card without giving specific voting instructions, your shares will be voted as recommended by the Board of Directors, as follows:

Proposal No. 1 FOR the election of all Class I director nominees

Proposal No. 2 FOR the advisory vote to approve named executive officer compensation

Proposal No. 3 FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm

We are not aware of any other matters to be presented at the annual meeting except for those described in this proxy statement. However, if any other matters not described in this proxy statement are properly presented at the meeting, the persons named as proxies will use their own judgment to determine how to vote your shares. If the meeting is adjourned, your shares may be voted by the persons named as proxies on the new meeting date as well, unless you have revoked your proxy instructions prior to that time.

Edgar Filing: INSIGHT ENTERPRISES INC - Form DEF 14A

A broker non-vote occurs when a broker or other nominee holding shares for a beneficial owner does not vote on a particular proposal because the broker or other nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner. Broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the annual meeting but are not counted for the purpose of determining the number of shares entitled to vote on any proposal in respect of which the broker or other nominee lacks discretionary authority. Broker non-votes are not considered to be shares entitled to vote on proposals where the broker does not have discretionary authority and will not be considered in determining the number of votes necessary for approval and will have no affect on the outcome of any vote at the meeting to which the broker or other nominee lacks discretionary authority.

Table of Contents

An abstention is generally viewed as the voluntary act of not voting by a stockholder who is present at the meeting and otherwise entitled to vote. An abstaining stockholder is present at the meeting and entitled to vote, and therefore, will be counted for purposes of determining whether a quorum is present. Where the proposal requires a majority of the shares outstanding and entitled to vote on the proposal, an abstention will be counted as a vote against the proposal. Where, however, the proposal requires a majority of the votes cast, an abstention will not be counted, since it is not a vote cast for or against the proposal.

May I attend the annual meeting?

If you are a holder of record, you may attend the annual meeting. If you plan to attend the annual meeting, please indicate this when you return your proxy. If you are a beneficial owner of common stock held by a broker or bank, you will need proof of ownership to be admitted to the meeting. A recent brokerage statement or letter from a broker or bank showing your current ownership and ownership of our shares on the record date are examples of proof of ownership. If you want to vote in person shares you hold in street name, you will have to get a proxy in your name from the registered holder before the annual meeting.

What vote is required?

With respect to Proposal No. 1 (Election of Directors), each of the three nominees for director will be elected upon the affirmative vote of the majority of votes cast with respect to the director's election, which means the number of votes cast for a director nominee must exceed the number of votes cast against that director nominee. Any incumbent director nominee who is not elected by a majority of votes cast must tender his or her resignation to the Board, and the Nominating and Governance Committee will make a recommendation to the Board on whether to accept or reject the resignation, or whether other action should be taken. In such a situation, the Board will act on the Nominating and Governance Committee's recommendation and publicly disclose its decision and the rationale behind its decision within 90 days from the date of the certification of the election results. In the event of a contested election, director nominees who receive the most votes for the number of seats up for election will be elected.

Proposal No. 2 (Advisory Vote to Approve Named Executive Officer Compensation) and Proposal No. 3 (Ratification of the Appointment of KPMG LLP as our Independent Registered Public Accounting Firm) will be adopted upon the affirmative vote of the holders of a majority of the voting power of the shares entitled to vote on such proposal, present in person or represented by proxy at the annual meeting.

Broker non-votes shall not be treated as votes cast and will have no effect on Proposal No. 1 and Proposal No. 2.

With the exception of Proposal No. 1, in determining whether each of these proposals has received the requisite number of affirmative votes, abstentions will have the same effect as a vote cast against the proposal. Abstentions will have no effect on Proposal No. 1.

We will, upon request, reimburse brokers, banks and other nominees for their expenses in sending proxy material to their principals and obtaining their proxies. PROPOSAL NO. 1

ELECTION OF DIRECTORS

There are three nominees to our Board in this year's election. Michael M. Fisher and Bennett Dorrance are standing for re-election to the Board and Richard E. Allen was appointed as a Class I director on January 19, 2012 and will stand for election at the 2013 annual meeting of stockholders. Messrs. Fisher and Dorrance have served as directors since 2001 and 2004, respectively. All are Class I directors. Messrs. Fisher, Dorrance and Allen each qualify as an independent director as defined in NASDAQ Listing Rule 5605(a)(2). Unless otherwise instructed, the proxy holders will vote for the election of Messrs. Fisher, Dorrance and Allen.

Table of Contents

Each of the nominees was nominated by the Nominating and Governance Committee and has agreed to be named in this proxy statement and serve if elected, and we know of no reason why any of the nominees would not be able to serve. However, if any nominee is unable or declines to serve as a director, or if a vacancy occurs before the election (which events are not anticipated), the proxy holders will vote for the election of such other person or persons nominated by the Board.

Information concerning each director nominee is set forth below, along with information about other members of our Board and about our executive officers.

Vote Required

To be elected, a director nominee must receive the affirmative vote of the majority of votes cast, meaning that the number of votes cast for a director nominee must exceed the number of votes cast against that director nominee. Abstentions and broker non-votes will have no effect on Proposal No. 1.

None of our current directors who were directors during 2012 attended fewer than 75% of the aggregate of Board and relevant committee meetings during 2012. The Company's corporate governance guidelines provide that each director should make every effort to attend the Company's annual meeting of stockholders. All nine of the Board members attended the annual meeting of stockholders in May 2012. The Board has an Executive Committee, an Audit Committee, a Compensation Committee and a Nominating and Governance Committee, and all of these are standing committees.

The Board has determined that all of our directors, except for Mr. Lamneck, our President and Chief Executive Officer, meet the independence requirements of the Listing Rules of the NASDAQ Stock Market. The independent directors hold executive sessions without management present on a quarterly basis and more often as they determine appropriate.

The Executive Committee

The Executive Committee consists of Messrs. Crown (Chair), Ibarguen and Lamneck. The Executive Committee is empowered to act on Board matters that arise between meetings of the full Board or matters that require immediate attention if a quorum of our Board cannot be convened, unless such matters are required to be acted upon by independent directors. The Executive Committee did not meet in 2012. Under the Executive Committee's charter, the Executive Committee may not exercise powers delegated to other committees of the Board or powers which, under Delaware law, may not be delegated to any committee.

The Audit Committee

The Audit Committee, established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (the Exchange Act), consists of Messrs. Allen (Chair), Fisher, Gunning, Ibarguen and Jones. The Audit Committee met 10 times in 2012. The Audit Committee assists the Board in fulfilling its responsibilities for generally overseeing our financial reporting processes and the audit of the Company's consolidated financial statements, including the integrity of the consolidated financial statements and the Company's system of internal control over financial reporting established by management, our compliance with legal and regulatory requirements, the qualifications and independence of our independent registered public accounting firm, the performance of our internal audit function and our independent registered public accounting firm, our financial risk assessment and financial risk management, and our finance and investment functions. The Vice President of Internal Audit reports directly to the Chair of the Audit Committee. In addition, the Audit Committee reviews and discusses with the Chief Executive Officer and the Chief Financial Officer the procedures undertaken in connection with their certifications included in the Company's annual and quarterly reports filed with the Securities and Exchange Commission (SEC). The Audit Committee has the authority to obtain advice and assistance from, and receive funding from the Company for, outside legal, accounting or other advisors as the Audit Committee deems necessary to carry out its duties. The Audit Committee operates pursuant to a written charter, adopted by the Audit Committee and approved by the Board and reviewed annually. The charter may be viewed online on our website at <http://nsit.client.shareholder.com/governance.cfm>.

The Board has determined that the responsibilities of the Audit Committee, as reflected in its charter, are in accordance with applicable SEC rules and NASDAQ Listing Rules for audit committees. Further, the composition and attributes of its members meet the requirements of the NASDAQ Listing Rules, including, without limitation, the independence requirements of the NASDAQ Listing Rules. All Audit Committee members possess the required level of financial literacy, and our Board has determined that Mr. Allen and Mr. Fisher, independent directors, each qualifies as an audit committee financial expert as defined by the SEC's rules and regulations.

The Compensation Committee

The Compensation Committee consists of Ms. Pushor (Chair), and Messrs. Allen, Dorrance, Fisher and Jones. The Compensation Committee met nine times in 2012. Each member of the Compensation Committee is an independent director as defined in the NASDAQ Listing Rules, as amended in 2013. The Compensation Committee is charged with: reviewing and approving the base salary, annual incentive compensation, long-term incentive compensation and other compensation, perquisites or special or supplemental benefits to be paid or awarded to the Chief Executive Officer and other executive officers; reviewing and recommending to the Board new equity-based incentive compensation plans and changes to existing plans; performing an annual evaluation of the Chief Executive Officer's performance and effectiveness; reviewing the Company's talent management and succession planning activities for top management; and reviewing and discussing the Compensation Discussion and Analysis with management and recommending to the Board that the Compensation Discussion and Analysis be included in the Company's proxy statement.

The Compensation Committee operates pursuant to a written charter, adopted by the Compensation Committee and approved by the Board and reviewed annually. The charter may be viewed online on our website at <http://nsit.client.shareholder.com/governance.cfm>. In 2012, the Board of Directors confirmed the independence of all Compensation Committee members under the heightened independence rules of the NASDAQ. The Compensation Committee also reviewed the independence of its independent compensation adviser, Compensia, Inc. (Compensia) under the new NASDAQ Listing Rules regarding compensation adviser independence and found no relationships or other matters which would preclude a finding of independence under the new rules. See further information regarding the Compensation Committee's responsibilities in the following section, entitled Compensation Discussion and Analysis.

The Nominating and Governance Committee

The Nominating and Governance Committee consists of Messrs. Ibarguien (Chair), Dorrance, Gunning and Jones and Ms. Pushor. The Nominating and Governance Committee met six times in 2012. The Nominating and Governance Committee, which recommends candidates to be nominated for election as directors at our annual meeting, supervises the evaluation process for the Board of Directors and the Board committees and the Chair of the Board as well as independent self evaluations of directors and peer evaluations of directors. In addition, the Nominating and Governance Committee leads the external recruiting process for Chief Executive Officer candidates and coordinates the assessment process and the selection and appointment of any Chief Executive Officer candidate, should the need arise. The Nominating and Governance Committee operates pursuant to a written charter, adopted by the Nominating and Governance Committee and approved by the Board and reviewed periodically. The charter may be viewed online on our website at <http://nsit.client.shareholder.com/governance.cfm>. Each member of the Nominating and Governance Committee is an independent director as defined in the NASDAQ Listing Rules.

The Nominating and Governance Committee is responsible for identifying, recruiting and evaluating candidates for the Board, when appropriate, assessing the appropriate size of the Board and making recommendations to the Board regarding the membership of the committees of the Board. The Nominating and Governance Committee charter provides that the Nominating and Governance Committee is responsible for reviewing criteria for Board membership. The Nominating and Governance Committee shall, when screening potential Board candidates, give due consideration to diversity, breadth of business experiences and skills, prominence and professional reputation, global business perspective, concern for the long-term interests of the stockholders of the Company, personal ethics, integrity and judgment and other areas that are expected to contribute to an effective Board. Diversity may encompass a candidate's gender, race, national origin, educational and professional experiences, expertise and specialized or unique technical backgrounds and/or other tangible or intangible aspects of the candidate's qualifications in relation to the qualifications of the then current board members and other potential candidates. The Nominating and Governance Committee does not have a formal policy specifying how diversity of background and personal experience should be applied in identifying or evaluating director candidates, and diversity is but one of many factors the Nominating and Governance Committee may consider. This general approach has been followed in the last six appointments of directors.

Two of the three nominees for director being voted upon at the annual meeting, Mr. Fisher and Mr. Dorrance, are directors standing for re-election, and Mr. Allen is standing for election after having been appointed to the Board in 2012. In determining to recommend the nomination for election as Class I directors of Messrs. Fisher, Dorrance and Allen, the Nominating and Governance Committee believes that, among other things, each of the nominees provides valuable oversight, contributions and perspective into the business of the Company.

The Nominating and Governance Committee will evaluate nominees recommended by stockholders in the same manner as described above.

Governance Initiatives

During 2012, the Board of Directors and its various committees undertook a number of governance-related initiatives, with particular focus on the areas of strategy and Chief Executive Officer succession. The Board of Directors was actively involved in the strategic planning process, including the planning and determination of the scope of the exercise, and including individual interviews at various stages of the process. For the second consecutive year, the entire Board of Directors held its strategic planning meetings in connection with a visit to the headquarters of one of the Company's principal partners and spent several hours in management presentations on industry trends by executives of the partner. The Board of Directors and its various committees also devoted significant time to the topic of Chief Executive Officer succession planning, refining the responsibilities of the various committees with respect to Chief Executive Officer succession planning and with renewed attention to the internal succession planning process. Other governance-related activities included: regular review and discussion of governance-related articles by nationally recognized experts; consideration of the annual policy updates of prominent proxy advisory services; review of public company governance surveys conducted by prominent national organizations; an annual review of related party transactions; reviewing the director skills inventory maintained by the Nominating and Governance Committee; review and consultation with outside counsel of various governance issues; and a review of the director education guidelines, including attendance by all of the Company's directors at a seminar or training session conducted by a national governance organization, national accounting firm or both. In-person training of directors during the last twelve months included a review of industry trends in cloud computing by the Company's independent registered public accounting firm and a presentation on crisis management and directors' duties by outside counsel, together with a crisis communications consultant. These initiatives were in addition to the Board of Directors' review of all committee charters, governance guidelines and Board-level policies and continued focus on the Company's enterprise risk management and compliance programs. In addition, the Nominating and Governance Committee regularly reviews governance issues.

Table of Contents

Briefly, our corporate governance framework includes the following:

A majority vote provision in the Company's Amended and Restated Bylaws requiring any director who does not receive a majority of votes cast in an uncontested election to tender his or her resignation to the Board. The Board must then decide whether or not to accept their resignation;

Elimination of stockholder rights plan through a Bylaw provision requiring the Company to seek stockholder approval prior to its adoption of a stockholder rights plan (commonly referred to as a poison pill), unless the Board, in the exercise of its fiduciary duties, determines that, under the circumstances existing at the time, it is in the best interests of the Company's stockholders to adopt or extend a stockholder rights plan without delay (and in that event, the plan will provide that it will expire unless ratified by the stockholders within one year of adoption);

Separation of the Board Chair and Chief Executive Officer positions;

An annual say-on-pay advisory vote;

A commitment to director independence reflecting the Board's belief that the independent directors and management have different perspectives and roles in strategy development. The only non-independent member of the Board is the Chief Executive Officer. Independent directors bring experience, oversight and expertise from outside the Company and sometimes from outside the industry, while the Chief Executive Officer and other members of management bring company-specific and industry-specific experience and expertise. Accordingly, the Board has delineated its role in overseeing the development of strategic direction and management's role in execution of strategy;

Appointment of a Presiding Director through a Corporate Governance Guidelines provision appointing the Chair of the Nominating and Governance Committee, currently Anthony A. Ibarguen, to serve as the Presiding Director and, as needed, to: review and propose revisions to the Company's Corporate Governance Guidelines and Board procedures, after consultation with the full Board; review and recommend to the Chair or the Corporate Secretary agenda items and materials for Board meetings; and perform such other roles and responsibilities as are assigned from time to time by the Nominating and Governance Committee or the full Board. In addition, in the event of an unforeseen vacancy in the position of the Chair of the Board, the Presiding Director serves as interim Chair of the Board for the sole purpose of calling and holding a meeting of the Board to elect a new Chair.

Prohibition of hedging and speculative transactions through the Company's Investor Relations/Stock Trading policy which, among other things, prohibits all directors and employees from pledging Company securities and hedging or otherwise engaging in short-term or speculative transactions involving Company securities;

Attention to committee membership rotation and chair assignments through regular review of regulatory requirements, committee workload and individual skills. The Nominating and Governance Committee actively monitors the assignments and makes recommendations to the Board of Directors as necessary or appropriate, a practice which has resulted in planned rotation of all three committee chair positions and other committee assignments in the last three years;

Table of Contents

A thorough Board evaluation process focusing on Board of Directors and committee governance, priorities and effectiveness. The Board of Directors conducts board, committee, chair, self and peer evaluations annually. The Chair of the Board of Directors and the Chair of the Nominating and Governance Committee discuss the results individually with each director, and the overall results are discussed collectively within each committee and with the full Board of Directors;

Executive compensation recovery, providing for clawback of incentive compensation from executives under certain circumstances; and

A policy of not providing gross-up provisions in employment agreements (there is, however, one legacy employment agreement with such provisions which has been in place for a number of years).

Risk Management

The Board has an active role, both as a whole and at the committee level, in overseeing management of the Company's risks. The Board and the Audit Committee regularly review information regarding the Company's credit, liquidity and operations, as well as the risks associated with each. The Company's Compensation Committee oversees the management of the risks relating to the Company's executive compensation plans and arrangements. The Audit Committee oversees management of financial risk and reviews the results of the Internal Audit function's annual risk assessment process. The Nominating and Governance Committee oversees management of risks associated with the independence of the Board of Directors, potential conflicts of interest, and corporate governance issues. The Chief Executive Officer, the Chief Financial Officer, the General Counsel and other members of senior management conduct regular quarterly assessments of risks to the enterprise and provide a comprehensive report on its results at least twice per year, or more frequently as necessary, to the Board of Directors. Management and the Audit Committee have also aligned the focus of the Company's Internal Audit function to address certain of the principal risk areas identified.

Compensation Consultants

Compensia, a Silicon Valley-based compensation consultant with many technology clients, advised the Compensation Committee in connection with the Company's executive compensation plans for 2012 and 2013. To maintain Compensia's independence and reporting relationship to the Compensation Committee, no other services were provided by Compensia to the Company outside of those performed directly for the Compensation Committee. Also, the Compensation Committee's Chair approves the consulting fees for services provided by any compensation consultant utilized by the Compensation Committee. The Compensation Committee also reviewed the independence of Compensia under the new NASDAQ rules regarding compensation adviser independence and found no relationships or other matters which would preclude a finding of independence under the new rules.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis (CD&A) addresses and explains the numerical and related information contained in the summary compensation tables and includes a discussion of key actions regarding executive compensation that occurred after the end of 2012, including the award of bonuses related to 2012 performance, and the adoption of our 2013 compensation programs.

Executive Summary

The Compensation Committee believes its compensation philosophy has been effective in attracting and retaining key personnel while aligning the interests of executive officers with those of the stockholders and paying for performance. We believe our long-term success depends on our ability to attract and retain individuals who are committed to the Company's vision, strategy and core values of client service, respect, teammate development, integrity and operational excellence. We structure our executive compensation program so the compensation of our executive officers, including our named executive officers, is tied meaningfully to our strategy and the success of the Company. Accordingly, our general philosophy of executive compensation is to offer competitive base salaries, but to emphasize cash and equity-based incentive compensation which is competitive in the marketplace and which (i) permits us to attract and retain highly-qualified executives, (ii) encourages extraordinary effort on behalf of the Company and (iii) rewards the achievement of specific financial and strategic goals by the Company and the individual executive. We believe this aligns the interests of management with the interests of our stockholders, promotes retention and is financially sound. The Compensation Committee carefully monitors the mix of base salaries and the performance-based or variable compensation components of our executive officers' compensation. The Compensation Committee also places substantial emphasis on the mix of long-term and current compensation, with long-term compensation comprising a significant amount of an executive's total potential compensation.

The Compensation Committee designs the overall executive compensation program to pay for performance toward financial and strategic goals, and a substantial portion of potential executive compensation is performance-based. Positive results in 2010 and 2011 resulted in increased overall compensation.

Entering the 2012 fiscal year, the Compensation Committee recognized that the Company's 2011 performance was very strong but believed there remained uncertainty in the Company's markets. Accordingly, the Compensation Committee considered the targeted financial objectives to be challenging in that the target performance levels required significant improvement, but not so challenging as to make achievement highly unlikely in an uncertain market.

Financial results were relatively flat for the Company in 2012, with diluted earnings per share (EPS) of \$2.07, which was below internal expectations. These results reflect softer market conditions than were expected at the beginning of 2012, as macro-economic concerns globally led to lower capital spending for IT products, particularly with larger enterprise clients, resulting in a decrease in market share. As many of the financial performance measures were not fully met, overall executive compensation levels decreased in 2012, and annual cash incentive compensation levels decreased significantly from 2011.

Table of Contents

In addition to basing a substantial amount of executive compensation on performance-based criteria, the Company has recently taken a number of steps and adopted policies intended to further align our executives' interests with those of stockholders. These include:

Stock ownership guidelines for our executive officers;

A *clawback policy* that permits the Company to recover incentive compensation that was based on having met or exceeded performance targets if an executive officer engaged in fraud or intentional misconduct that resulted in an increase in his or her incentive compensation;

The absence of many pay practices considered to be unfriendly to stockholders, such as extensive perquisites, guaranteed salary increases and non-performance-based bonuses. Additionally, the Company has only one remaining employment agreement that calls for the gross-up of excise taxes imposed on change-in-control payments under Section 280G of the Internal Revenue Code, as amended. This agreement has been in place for a number of years; however, it is the policy of the Compensation Committee not to approve any new agreements with such provisions;

An independent compensation consultant retained directly by the Compensation Committee, with payments to the consultant approved by the Chair of the Compensation Committee, specific actions to eliminate other services provided by the consultant to the Company and annual confirmation of the consultant's independence;

A compensation risk assessment whereby the Compensation Committee reviews the Company's incentive compensation programs and discusses the concept of risk as it relates to the compensation programs to ensure the Company's compensation programs do not encourage excessive or inappropriate risk taking; and

A lengthened vesting schedule for the service-based restricted stock units (RSUs) granted to the named executive officers and other executives. Based on market and peer comparison data and in order to align our practices with the market and promote retention, starting in 2011, the Compensation Committee lengthened the vesting schedule from three to four years.

Further, to continue to improve the alignment of the Company's compensation plans with the interests of its stockholders and focus on attracting and retaining qualified executives, the following considerations were reflected in our 2013 executive compensation plans:

The Compensation Committee continued its commitment to tie pay to performance in establishing the 2013 compensation plans for executive officers and to align the executive compensation programs with the Company's strategic goals.

Reflecting the focus of the Company and the Compensation Committee on the strategic objective of increasing U.S. market share, the cash incentive plan for 2013 again incorporates the performance measure of market share for all named executive officers (other than Mr. Fenton), which requires the Company to increase its share of U.S. hardware sales as measured by an independent third party market research company, and its share of U.S. software sales based on data provided by a major U.S. software partner. Reflecting the focus of the Company and the Compensation Committee on the strategic objective of increasing services gross profit, the plan again incorporates a performance measure of services gross profit for all named executive officers, with consolidated services gross profit, North America services gross profit and EMEA services gross profit all being performance measures for 2013. In addition, the plan will include performance measures for consolidated earnings from operations (EFO), North America EFO and EMEA EFO. The Compensation Committee also believes these performance measures will be important drivers of stockholder value.

Table of Contents

For 2013, consistent with 2012, the number of performance-based RSUs for named executive officers will increase or decrease depending on the Company's results related to return on invested capital (ROIC).

Discussion and Analysis

Our Named Executive Officers

The purpose of this CD&A is to provide information about each material element of compensation that we pay or award to, or that is earned by, our named executive officers. For 2012, our named executive officers were:

Kenneth T. Lamneck, President and Chief Executive Officer;

Glynis A. Bryan, Chief Financial Officer;

Stuart A. Fenton, President, Insight EMEA;

Steven W. Dodenhoff, President, Insight United States; and

Michael P. Guggemos, Chief Information Officer.

Executive Compensation Philosophy and Objectives

Our long-term success depends on our ability to attract and retain individuals who are committed to the Company's vision, strategy and core values of client service, respect, teammate development, integrity and operational excellence. Our general philosophy of executive compensation is to offer competitive base salaries and emphasize cash and equity-based incentive compensation that:

is competitive in the marketplace;

permits us to attract and retain highly qualified executives;

encourages extraordinary effort on behalf of the Company;

rewards the achievement of specific financial, strategic and tactical goals by the Company and the individual executive that aligns the interests of management with the interests of our stockholders; and

is financially sound.

Each year the Compensation Committee goes to great lengths to develop an executive compensation program that is mindful of stockholder interests and expectations while at the same time is fair and motivating to our executives.

Compensation Consultants and Benchmarking

The Compensation Committee utilizes management to help it carry out its responsibilities, consults with other members of the Board in connection with its decision making, as appropriate, and has consistently over time engaged independent consultants to assist it in fulfilling its responsibilities. The Compensation Committee has the authority to obtain advice and assistance from, and receives funding from the Company for, outside advisors as the Compensation Committee deems necessary to carry out its duties.

In 2011, the Compensation Committee retained Compensia, a management consulting firm providing executive compensation advisory services, as its independent compensation consultant to advise the Compensation Committee on all matters related to executive compensation and to set compensation for executives for 2012. In late 2011, Compensia provided a competitive analysis of the compensation of the Company's most senior executives, including the Company's named executive officers. The Compensation Committee plans to obtain such analyses at least every other year. The Compensation Committee began its process of setting executive compensation for 2012 in 2011. Compensia advised the Compensation Committee on a wide range of issues, including market studies at the time of hire and at the time of promotions for specific positions. Compensia's 2011 study, which was used to set 2012 executive compensation levels, measured the competitiveness of the Company's compensation relative to two groups of companies (the comparison groups) summarized below, plus a broader benchmark database if the other groups do not provide adequate comparisons. The comparison groups were approved by the Compensation Committee based upon management's and the Compensation Committee's concerted review of competitors and relevant industry comparisons, and on the advice of Compensia.

The primary characteristics of the comparison groups were:

First, a small group of seven companies that we consider to be our competitors, particularly with respect to competition for talent, customers or suppliers (the Tech Distribution Peer Companies). The Tech Distribution Peer Companies, which comparison group was used to assess compensation levels for the Chief Executive Officer and Chief Financial Officer, includes seven publicly-traded technology distribution companies with revenues of less than \$10 billion. The median revenue of this comparison group was \$4.4 billion, and the median market cap was \$800 million;

Second, a group of companies in the broader distribution business with comparable business and financial characteristics (the Broad Industry Peer Group). The Broad Industry Peer Group, which comparison group was used to assess compensation levels for the Chief Executive Officer, Chief Financial Officer, President, Insight EMEA and President, Insight United States, includes 14 publicly-traded companies from the technology, technology distribution and broader distribution industries with revenues from \$2.5 billion to \$10 billion. The median revenue of this comparison group was \$4.7 billion and the median market cap was \$1.4 billion; and

Table of Contents

Third, a broad database to provide a reference point where the other groups might not provide adequate comparisons (the 2011 U.S. Mercer Benchmark Database). The 2011 U.S. Mercer Benchmark Database, which was used to assess compensation levels for all of the Company's most senior executives, including the Company's named executive officers, includes publicly-traded companies from a group of cross-industry companies (excluding companies from financial, insurance and energy industries) with revenues between \$1 billion and \$4 billion. The revenues of the U.S. Mercer Benchmark Database are somewhat lower than the other distribution peer groups identified above to reflect the economics of the distribution industry.

While the Tech Distribution Peer Companies comparison group comprises companies that are competitors and are close comparisons in terms of sales and market capitalization, it is a relatively small group of only seven companies. Moreover, the other groups are not limited to companies that are merely competitors or that are close comparisons in terms of sales and market capitalization. Accordingly, the Company does not necessarily consider these groups to be comparison groups for other purposes.

The companies included in the Tech Distribution Peer Companies comparison group in the Compensia analysis were as follows:

Anixter International, Inc.	PC Mall, Inc.
Brightpoint, Inc.	SYNNEX Corp.
CDW	ScanSource, Inc.
PC Connection, Inc.	

Five of the seven companies included in this comparison group were the same companies included in the primary comparison group from the competitive analysis that was utilized by the Compensation Committee's previous compensation consultants. The two new companies added were CDW and ScanSource, Inc.

The companies included in the Broad Industry Peer Group comparison group in the Compensia analysis were as follows:

The Andersons, Inc.	Nash-Finch Company
Anixter International, Inc.	Owens & Minor, Inc.
Brightpoint, Inc.	Sanmina-SCI Corporation
CDW	United Natural Foods, Inc.
Diebold, Incorporated	United Stationers Inc.
ManTech International Corporation	Watsco, Inc.
MEMC Electronic Materials, Inc.	WESCO International, Inc.

None of the companies included in this comparison group were included in the secondary comparison group from the competitive analysis that was utilized by the Compensation Committee's previous compensation consultants.

The 2011 U.S. Mercer Benchmark Database was also utilized as another point of comparative data in the Compensia analysis. The companies included in the third-party Mercer survey were not adjusted by Compensia in preparing their analysis.

Table of Contents

The Compensia study provided the Compensation Committee with data for base salary, annual cash incentives and long-term equity-based incentive compensation on an aggregate basis for the combined comparison groups. The study showed that total target compensation for 2012 for the Company's executives, with variations from position to position, was positioned between the 50th and 75th percentiles. With respect to total cash compensation for 2012, which included base salaries and target cash incentive compensation, the Compensia study showed that, with variations from position to position, the Company was competitive, with base salary levels competitive and actual total target cash compensation levels near the 50th percentile. With respect to long-term equity-based incentive compensation, the Compensia study generally indicated that the Company's target long-term equity-based compensation for 2012, which included the grant date fair value of the 2012 equity-based incentive compensation awards to the Company's executives, was positioned between the 50th and 75th percentiles.

The Compensation Committee also used the 2011 Compensia study in addition to other relevant sources of information, such as existing pay levels and other publicly available information about trends in executive compensation, in setting compensation for executives for 2013. Additionally, Compensia advised the Compensation Committee and the Company regarding executive compensation programs generally and provided advice on trends in compensation.

Role of Executives in the Compensation Setting Process

The Compensation Committee has the overall responsibility for approving the cash-based incentive compensation for the officers that are subject to the reporting requirements of Section 16(a) of the Exchange Act (Section 16 officers). To facilitate this process, the Chief Executive Officer and other members of the management team prepare and present information and recommendations to the Compensation Committee for review, consideration and approval.

With respect to the cash compensation of all other teammates, the Compensation Committee functions in an oversight role as these decisions are considered the responsibility of management. With respect to equity-based compensation, the Compensation Committee approves the annual RSU program grants, including grants to all Section 16 officers, as well as the pool of available shares from which the Chief Executive Officer may make discretionary or new-hire RSU grants, or both, throughout the year to individuals other than non-employee directors or Section 16 officers. The Compensation Committee reviews reports on such discretionary grants on a quarterly basis.

The Chief Executive Officer does not have the ability to call Compensation Committee meetings and does not attend those portions of the Compensation Committee meetings where his compensation is discussed. During 2012, the Chief Executive Officer did not meet with Compensia outside of Compensation Committee meetings or retain any other compensation consultant.

Compensation Programs Design

The principal components of compensation for the Company's named executive officers are:

base salary and benefits;

short-term cash incentive compensation; and

long-term equity-based incentive compensation.

As a result of our executive compensation philosophy, a significant percentage of total potential compensation is allocated to performance-based or variable compensation. The Compensation Committee has allocated between cash and equity, and between short-term and long-term incentive compensation, based on the comparisons to the peer group companies and market data utilized by the Compensation Committee at the time. Moreover, the different elements of compensation are designed to support and encourage varying performance levels and behaviors that the Compensation Committee believes will contribute favorably to Company strategy and performance in the period covered by each plan, consistent with the Compensation Committee's commitment to pay for performance.

Table of Contents

For 2012, the Compensation Committee reviewed the new comparison groups to ensure that the market comparisons for the two primary comparison groups included companies with similar business and financial characteristics (as discussed above). This resulted, in general, in placing the Company in comparison groups the Compensation Committee believes will provide even greater accuracy and fairness by focusing on more companies in the same or similar industries and with similar business and financial characteristics. Moreover, given the economic outlook at the time, the Compensation Committee decided to remain cautious and for 2012 (i) increased base salaries for its Section 16 officers (other than the Chief Executive Officer) by 2.5% and (ii) left cash incentive compensation targets for the Company's Section 16 officers (other than the Chief Executive Officer) at the same levels as in 2011 (except for three officers, including Mr. Guggemos, whose cash incentive compensation was expressed as a percentage of base salary). The target values of equity awards for the Company's Section 16 officers (other than the Chief Executive Officer) for 2012 also remained equal to 2011 and 2010 values, and the Compensation Committee continued its practice of granting a combination of service- and performance-based RSUs. However, the number of shares awarded to each officer decreased due to the increase in the price of the Company's common stock in 2012 over the 2011 level at the time of grant. In order to align with peer group comparisons and enhance retention value, the Compensation Committee elected to increase the Chief Executive Officer's compensation levels for 2012, as detailed below.

Base Salaries

Base salaries are designed to attract and retain executives by providing a fixed compensation based on competitive market practices. This component of compensation is designed to reward an executive's core competency in his or her position relative to skills, experience and expected contributions to the Company and to provide the executive with a fair, predictable and reliable component of compensation for his or her service.

The Compensation Committee reviews base salaries annually and, in setting base salaries for 2012, the Compensation Committee worked with its compensation advisor, Compensia, and relied on the 2011 Compensia market study. In setting 2013 executive compensation, the Compensation Committee reviewed the same competitive market data utilized in the 2011 Compensia market study. Management recommended, and the Compensation Committee agreed, that there would be a 2.5% increase in base salary for 2013 (other than for Mr. Dodenhoff who was recently promoted in October 2012). The approved 2013 salaries, which reflect the 2.5% increase, and the comparable 2012 salaries for named executive officers are as follows:

Kenneth T. Lamneck, President and Chief Executive Officer \$691,875 (\$675,000 2012);

Glynis A. Bryan, Chief Financial Officer \$432,858 (\$422,300 2012);

Stuart A. Fenton, President, Insight EMEA \$482,057 (\$485,188 2012)

Steven W. Dodenhoff, President, Insight United States \$375,000 (\$375,000 effective on date of promotion, October 1, 2012); and

Michael P. Guggemos, Chief Information Officer \$346,706 (\$338,250 2012).

1 Mr. Fenton's base salary is shown in U.S. dollars for presentation in this proxy statement, but Mr. Fenton is paid in British Pounds Sterling (GBP). Approved 2013 and 2012 base salaries were GBP 321,371 and GBP 313,533, respectively.

Table of Contents***Short-Term Cash Incentive Compensation***

The Compensation Committee views cash incentive compensation as a means of closely tying a significant portion of the total potential annual cash compensation for executives to the financial and operational performance of the Company, or the portion of the Company for which the executive has management responsibility, depending on the executive's position.

For 2012 and 2013, the cash incentive plan was designed to reward performance based on defined financial objectives of the Company. All Section 16 officers, including our named executive officers, have an annual cash incentive plan. The financial objectives for each Section 16 officer are approved by the Compensation Committee and are set at the beginning of the year. These objectives and goals are integrated into the overall cash incentive plans for the Company's management employees throughout the organization to foster a team environment whereby the entire Company is focused on the same or similar set of objectives and goals.

The Compensation Committee annually reviews financial objectives and target cash incentive compensation. The Compensation Committee generally targets cash incentive compensation for executive officers at or near the 50th percentile of the comparison groups utilized by the Compensation Committee at the time and adjusts, as appropriate, for tenure, performance and variations in actual position responsibilities from position descriptions in the comparison groups. The Compensation Committee utilized the 2011 Compensia analysis to set 2012 and 2013 cash incentive targets, which study showed that the Company's cash incentive compensation is competitive based on its comparison group analysis.

2012 Cash Incentive Plan

For 2012, the Compensation Committee continued its emphasis on cash incentive compensation by setting cash incentive plans for executive officers so that a significant portion of total cash compensation would be awarded if performance targets were met.

The 2012 cash incentive plan (the 2012 Plan) provided incentive award opportunities for select employees, including executive officers. The 2012 Plan was adopted pursuant to the Amended Insight Enterprises, Inc. 2007 Omnibus Plan (the Amended 2007 Omnibus Plan). Under the 2012 Plan, the Company established defined financial objectives for each of its named executive officers and established the percentage of total cash incentive compensation to be tied to each of the specified financial objectives, as follows:

Position	EFO	Market Share	Services GP	EMEA	
				EMEA EFO	Services GP
President and Chief Executive Officer	50%	25%	25%		
Chief Financial Officer	50%	25%	25%		
President, Insight EMEA	25%			50%	25%
President, Insight United States	50%	25%	25%		
Chief Information Officer	50%	25%	25%		

Table of Contents

For purposes of the 2012 Plan, EFO was calculated on a consolidated non-GAAP basis, with non-GAAP EFO being defined as the Company's actual 2012 consolidated earnings from operations, excluding certain items, specified and approved in advance by the Compensation Committee, that were not considered to be part of ongoing business. EMEA EFO was calculated on a non-GAAP basis, with non-GAAP EMEA EFO being defined as the actual 2012 earnings from the Company's EMEA operating segment, excluding certain items specified and approved in advance by the Compensation Committee, that were not considered to be part of ongoing business. Services GP was based on the change in the Company's actual 2012 consolidated services gross profit compared to 2011. EMEA Services GP was based on the change in the actual 2012 services gross profit from the Company's EMEA operating segment compared to 2011. Market Share was based on growth in market share from 2011 to 2012 utilizing data for U.S. hardware sales as provided by the NPD Group, Inc. (NPD), a third-party market research company that provides market share information on the commercial purchasing of IT products sold through a group of national corporate resellers and direct marketers in the United States who have agreed to share their data with NPD. This data is adjusted by management, as agreed to by the Compensation Committee at the time the targets were set, to reflect variations in the percentage of the Company's U.S. hardware sales submitted to the third party, which can vary by month.

The 2012 Plan required that the Company or the relevant operating segment achieve a certain threshold percentage of the budgeted amounts for the particular performance measure for any payment to be made to an executive with respect to that performance measure. Therefore, it was possible that an executive would have different levels of achievement for each of the three separate performance measures, and perhaps receive no payment at all, depending on performance against the goal for each performance measure. The levels of performance were set in conjunction with the Company's overall annual budget and were considered to be challenging, but achievable, given the uncertain economic environment and the tactical and strategic plans that were developed for 2012. The following levels of achievement, and the corresponding levels of payment of targeted cash incentive compensation, were used for the 2012 consolidated EFO and EMEA EFO performance measures set forth above, with 200% of target being the maximum each executive could earn:

- 1 Mr. Fenton's 2012 target and earned cash incentive compensation are shown in U.S. dollars for presentation in this proxy statement, but Mr. Fenton is paid in GBP. The target was 145,503 GBP, and the amount earned was 30,701 GBP.
- 2 Mr. Dodenhoff's cash incentive target cash incentive amount for 2012 represents the annualized amount per Mr. Dodenhoff's promotion offer letter in September 2012. The target amount that Mr. Dodenhoff was entitled to for 2012 and the amount he actually earned in 2012 were pro-rated based on the effective dates of his employment and subsequent promotion during 2012.

Table of Contents2013 Cash Incentive Plan

For 2013, the Compensation Committee continued its emphasis on cash incentive compensation by setting cash incentive plans for executive officers so that a significant portion of total cash compensation will be awarded through cash incentives if performance targets are met.

The 2013 cash incentive plan (the 2013 Plan) provides incentive award opportunities for select employees, including named executive officers. The 2013 Plan was also adopted pursuant to the Amended 2007 Omnibus Plan. Under the 2013 Plan, the Company established defined financial objectives for each of its current named executive officers and established the percentage of total cash incentive compensation to be tied to each of the specified financial objectives, as follows:

Position	EFO	Services GP Growth	U.S. Hardware Market Share Growth	U.S. Software Market Share Growth	North America EFO	North America Services GP Growth

For purposes of the 2013 Plan, EFO will be calculated on a consolidated non-GAAP basis, with non-GAAP EFO being defined as the Company's actual 2013 consolidated earnings from operations, excluding certain items, specified and approved in advance by the Compensation Committee, that are not considered to be part of ongoing business. North America EFO will be calculated on a non-GAAP basis, with non-GAAP North America EFO being defined as the actual 2013 earnings from the Company's North America operating segment, excluding certain items specified and approved in advance by the Compensation Committee, that are not considered to be part of ongoing business. EMEA EFO will be calculated on a non-GAAP basis, with non-GAAP EMEA EFO being defined as the actual 2013 earnings from the Company's EMEA operating segment, excluding certain items specified and approved in advance by the Compensation Committee, that are not considered to be part of ongoing business. Services GP Growth will be based on the Company's actual 2013 consolidated services gross profit compared to 2012. North America Services GP Growth will be based on the actual 2013 services gross profit from the Company's North America operating segment compared to 2012. EMEA Services GP Growth will be based on the actual 2013 services gross profit from the Company's EMEA operating segment compared to 2012. U.S. Hardware Market Share Growth will be based on data for U.S. hardware sales as provided by the NPD Group, Inc., with adjustments to data similar to those made under the 2012 Plan. U.S. Software Market Share Growth will be based on market share data for the U.S. as reported by a major software partner, with certain adjustments by management, as agreed to by the Compensation Committee at the time the targets were set.

The 2013 Plan requires that the Company or relevant operating segment achieve a certain percentage of the target amounts for the particular performance measure before any payment may be made to an executive with respect to that performance measure. Therefore, it is possible that an executive will have different levels of achievement for each of his or her separate performance measures and could receive no payment at all, depending on performance against the goal for each performance measure. The levels of performance were set in conjunction with the Company's overall annual budget and are considered to be challenging, but achievable, given the tactical and strategic plans that have been developed for 2013, with no payment below a threshold level and with 200% of target being the maximum each executive may earn.

The approved 2013 target cash incentive compensation amounts for each of our current named executive officers are set forth below. Some 2013 target cash incentive compensation amounts reflect a change from 2012 in that they are calculated as a percentage of base salary.

Kenneth T. Lamneck, President and Chief Executive Officer Target 100% of 2013 base salary, or \$691,875;

Glynis A. Bryan, Chief Financial Officer Target 100% of 2013 base salary, or \$432,858;

Stuart A. Fenton, President, Insight EMEA Target 46% of 2013 base salary, or \$221,746

Steven W. Dodenhoff, President, Insight United States Target 62% of 2013 base salary, or \$232,500; and

Michael P. Guggemos, Chief Information Officer Target 45% of 2013 base salary, or \$156,018.

1 Mr. Fenton's 2013 target cash incentive compensation is shown in U.S. dollars for presentation in this proxy statement, but Mr. Fenton will be paid in GBP, with a target payout of 147,831 GBP.

The target award for each of the executives is intended to define the amount that would be earned by the executive if the Company achieves the budgeted financial objectives for the 2013 Plan. The Compensation Committee also sets award levels for performance below the target performance level and seeks to encourage outstanding executive performance by setting achievement levels above the target performance, up to the maximum level.

Long-Term Equity-Based Incentive Compensation

The Compensation Committee views long-term equity-based compensation as a critical component of the overall executive compensation program. The principal objectives for long-term equity-based compensation are to:

enhance the link among Company performance, the creation of stockholder value and long-term incentive compensation;

facilitate increased equity ownership by executives;

encourage executive retention through use of multiple-year vesting periods; and

provide competitive levels of total compensation to executive officers if expected levels of performance are achieved.

Table of Contents

Long-term equity-based incentives are currently issued in the form of service and performance-based RSUs. Consistent with the practice adopted in 2009, the Compensation Committee decided that the Company's executive officers would receive 60% of their RSU awards in performance-based RSUs and 40% in service-based RSUs. To encourage continued employment with the Company, service-based awards vest over a four-year vesting schedule. Performance-based RSUs are issued only if predetermined annual financial performance goals are achieved and are then subject to a three-year vesting period. One of the Compensation Committee's goals in granting 40% of the RSUs in the form of service-based RSUs vesting over four years is to provide retention benefits, whereas the other 60% of the RSUs are performance-based, which the Compensation Committee believes aligns the interests of management and the stockholders. To encourage overachievement of targets, significant upside potential exists related to the number of RSUs ultimately issued. The number of performance-based RSUs ultimately issued varies based on the achievement of threshold levels of financial performance, with greater numbers of shares awarded for higher levels of financial performance. If the Company's financial performance does not meet or exceed a set performance threshold, no performance-based RSUs are issued. All grants of equity-based compensation are currently made under the Amended 2007 Omnibus Plan. The Compensation Committee believes that the 60/40 split of performance-based and service-based RSUs has demonstrated its value in paying for performance and promoting retention.

For 2012 and 2013, the Compensation Committee determined target equity-based incentive compensation for executive officers considering comparison group data in the market analysis prepared by Compensia in 2011. Based on this recent study as well as market data prepared by previous consultants, the Compensation Committee believes that the equity-based incentive compensation plan, including the use of performance-based RSUs and the target level of grants to each executive, is competitive with market practice, and the 60/40 split of performance-based and service-based RSUs continues to reward executives for performance and promotes retention of the Company's executives.

In order to link equity-based incentive compensation to annual performance and to continue to align the interests of management and stockholders, the Compensation Committee initiates annual grants of equity-based incentive compensation awards to executives early in the year (as opposed to later in the year or periodically throughout the year) in connection with the annual budgeting process. Also, early in the year, the Compensation Committee approves the annual RSU program grants as well as a pool of shares from which the Chief Executive Officer may make discretionary and/or new hire RSU grants throughout the year to individuals other than non-employee directors or Section 16 officers. The pool of RSUs is based on the recommendation of management and review of the overall equity compensation expense expected to be recorded in current and future years in the Company's consolidated financial statements.

Table of Contents2012 Equity-Based Incentive Plan

The 2012 RSU awards for executive officers, which were 40% service-based and 60% performance-based, were approved on February 15, 2012. The service-based RSUs vest in four equal annual installments beginning on February 20, 2013. The performance-based grants, to the extent earned, vest in three equal annual installments beginning on February 20, 2013, and the number of RSUs issued was dependent on the Company's actual ROIC for the fiscal year ended December 31, 2012, on a consolidated non-GAAP basis, with non-GAAP ROIC being defined as actual 2012 consolidated EFO, excluding certain items not considered to be part of the ongoing business, as approved in advance by the Compensation Committee, divided by Invested Capital. Invested Capital is defined as average equity, plus average debt, less average cash balances, as reported by the Company during the year ended December 31, 2012. The averages were computed using the five most recent quarter-end balances (December 31, 2011 through December 31, 2012) and included the assumption that acquisition goodwill was not impaired and continued to be present in all periods (i.e., average equity was not reduced for the non-cash goodwill impairment charge that was taken in 2008). For the performance-based RSUs, the Company's actual ROIC fell in the range for 2012 of 10.71% - 10.96%, which equated to 50% of the target number of RSUs being issued to each named executive officer. The ROIC target range was set in conjunction with the Company's overall annual budget and was considered to be challenging, but achievable, given the tactical and strategic plans that were developed for 2012. The following levels of achievement, and corresponding levels of award of targeted equity-based incentive compensation, were used for the ROIC performance measure, with 200% of target being the maximum each executive could earn:

ROIC Range	% of Target RSUs

Table of Contents2013 Equity-Based Incentive Plan

The 2013 RSU awards for executive officers, which are 40% service-based and 60% performance-based, were approved on February 13, 2013. The service-based RSUs will vest in four equal annual installments beginning on February 20, 2014. The performance-based grants will, if earned, vest in three equal annual installments beginning on February 20, 2014, and the number of RSUs to be issued, if any, will vary depending on the Company's ROIC for the fiscal year ending December 31, 2013, on a consolidated non-GAAP basis, with non-GAAP ROIC and Invested Capital being defined consistent with 2012 (as discussed above). For the performance-based RSUs: if the Company achieves less than 94% of its 2013 ROIC target range, no RSUs will be issued and if the Company achieves greater than 115% of its 2013 ROIC target range, 200% of the target number of RSUs will be issued. The ROIC target range was set in conjunction with the Company's overall annual budget and is considered to be challenging, but achievable, given the tactical and strategic plans that have been developed for 2013.

In determining the amount of equity-based incentive compensation for 2013, the Compensation Committee considered its goal to provide retention value for senior executives through stock price improvement, which the Compensation Committee believes aligns the interests of management and the stockholders. Based on the Compensation Committee's careful review of the 2011 Compensia analysis of the competitiveness of the Company's compensation levels, including its equity-based award levels, and on the Compensation Committee's review of the Company's 2013 budget and the recommendations of Compensia, the Compensation Committee awarded RSUs to executive officers in 2013 equal in value (as of the grant date) to the 2012 awards.

The 2013 service-based and performance-based RSUs, granted on February 20, 2013, included the following awards for our current named executive officers:

Named Executive Officer	Service-Based RSUs (#)	Target Number of Performance- Based RSUs (#)(1)
Kenneth T. Lamneck, President and Chief Executive Officer	37,055	55,583
Glynis Bryan, Chief Financial Officer	12,616	18,924
Stuart A. Fenton, President, Insight EMEA	9,752	14,627
Steven W. Dodenhoff, President, Insight United States	6,826	10,239
Michael P. Guggemos, Chief Information Officer	7,314	10,970

- (1) Target award, which is based on the Company achieving 100% of its 2013 ROIC target range, as defined by and calculated in accordance with the 2013 equity-based incentive plan. As discussed above, if the Company achieves less than 94% of its 2013 ROIC target range, no performance-based RSUs will be issued and if the Company achieves greater than 115% of its 2013 ROIC target range, a total of 200% of the target number of performance-based RSUs will be issued.

Severance and Change in Control Plans

Severance and change in control plans are designed to facilitate the Company's ability to attract and retain executives as the Company competes for talented employees in a marketplace where such protections are commonly offered. Severance benefits are designed to provide benefits to ease an executive's transition following an unexpected employment termination by the Company due to changes in the Company's employment needs. Change in control benefits are intended to encourage executives to remain focused on the Company's business in the event of rumored or actual fundamental corporate changes. See further detail under the section entitled "Employment Agreements, Severance and Change in Control Plans."

Benefits and Perquisites

Our named executive officers participate in benefit plans generally available to all of our teammates, including medical, health, life insurance and disability plans. Our named executive officers other than Mr. Fenton are also eligible to participate in the Company's 401(k) plan, and receive Company matching contributions, to the extent made by the Company, which are generally available to our teammates. Mr. Fenton is eligible to participate in a group personal pension plan in the United Kingdom and receive Company matching contributions, to the extent made by the Company, which is a benefit generally available to our teammates in the United Kingdom. Mr. Fenton also receives an automobile allowance, which is a benefit generally available to executives in the United Kingdom. These benefits are part of our broad-based total compensation programs offered in the geography in which each of the executives resides.

We provide our executive officers with relatively limited perquisites that we believe are reasonable and in the best interests of the Company. We promote wellness initiatives in our employee health insurance plans and make premium payments for long-term disability insurance for all of our named executive officers. In 2012, Mr. Fenton was provided with an automobile allowance and private medical coverage, which are benefits generally available to management in the United Kingdom where Mr. Fenton works and resides. Except for perquisites provided to Mr. Lamneck, Ms. Bryan and Mr. Fenton, the value of perquisites did not exceed \$10,000 in the aggregate for the other named executive officers during 2012. The costs of perquisites and other personal benefits provided to our named executive officers during 2012 are included in the Summary Compensation Table in this proxy statement and identified in the footnotes thereto.

Nonqualified Deferred Compensation Plan

Prior to the termination of the plan effective May 31, 2012, named executive officers other than Mr. Fenton (as well as other eligible U.S. employees) could participate in the Insight Nonqualified Deferred Compensation Plan ("Deferred Compensation Plan"), a nonqualified deferred compensation plan adopted and approved by the Compensation Committee and ratified by the Board of Directors. The Deferred Compensation Plan permitted participants to voluntarily defer receipt of compensation, and participants earned a rate of return on their deferred amounts based on their selection from a variety of independently managed funds. The Company did not provide a guaranteed rate of return on these deferred amounts, and the rate of return realized depended on the participant's fund selections and market performance of these funds. The Company did not make any contributions to the Deferred Compensation Plan and, other than immaterial administrative costs, incurred no expense with this program. The Deferred Compensation Plan's assets will be liquidated and participant account balances will be paid out by July 2013.

Stock Ownership Guidelines

In February 2007, the Board, upon the recommendation of the Compensation Committee, adopted stock ownership guidelines that:

are designed to align the interests of key executives, Board members and stockholders;

provide a five-year transition period for each new executive and each new Board member to reach ownership guidelines; and

define which ownership interests will count towards the guidelines.

The guidelines specify that, subsequent to the five-year transition period, as of each January 1, each executive and each Board member is expected to hold shares of Insight common stock with a value at least equal to a specified multiple of his or her annual base salary or retainer. For the President and Chief Executive Officer, two times annual base salary is required, for all other Executives, one times annual base salary is required, and for Board members, two times the annual base retainer is required. Failure to meet or to show sustained progress toward meeting the Stock Ownership Guidelines may result in a reduction in future long-term incentive grants and also may result in a requirement to retain some or all stock attained through Company grants of equity until the Stock Ownership Guidelines are attained.

Executive Compensation Recovery

We have an incentive compensation recovery policy that applies to our executive officers. Under this policy, in the event of a material restatement of our financial results, we may recover from an executive officer any incentive compensation that was based on having met or exceeded performance targets if an executive officer engaged in fraud or intentional misconduct that resulted in an increase in his or her incentive compensation.

Chief Executive Officer Compensation

The Compensation Committee determines compensation for the Chief Executive Officer using the same criteria it uses for other executives, placing relatively less emphasis on base salary and, instead, creating greater performance-based opportunities for short-term and long-term incentive compensation (cash and equity, respectively).

In setting the Chief Executive Officer's compensation for 2012, the Compensation Committee used Compensia's 2011 market study, which indicated that total cash compensation for 2011 for the Company's Chief Executive Officer fell below the 25th percentile relative to the companies cited in the Compensia study, while long-term equity-based incentive compensation levels for the Chief Executive Officer fell generally between the 25th and 50th percentile. Based on the work conducted by the Compensation Committee and Compensia, the Compensation Committee decided to increase the Chief Executive Officer's compensation in 2012 to approximate the 50th percentile of the Tech Distribution Peer Group Companies comparison group included in the 2011 Compensia market study, with an adjustment to make base salary competitive, while emphasizing cash and equity-based incentive compensation. As a result, Mr. Lamneck's base salary and target cash incentive compensation for 2012 were each raised to \$675,000 (from \$618,000 and \$600,000, respectively), and his target equity-based compensation was raised from \$1,500,000 to \$1,900,000, for total target direct compensation of \$3,250,000 (from \$2,718,000). As noted above, the Compensation Committee approved a 2.5% increase in base salaries for 2013 for the Company's executive officers, including Mr. Lamneck, raising his base salary to \$691,875 for 2013. Also as noted above, executive officer target cash incentive compensation is reflected as a percentage of base salary (100% in Mr. Lamneck's case) resulting in an increase in Mr. Lamneck's target cash incentive award from \$675,000 in 2012 to \$691,875 in 2013. Also as noted above, target equity-based compensation approved by the Compensation Committee for 2013 reflect no increases from 2012. As a result, Mr. Lamneck's total target direct compensation for 2013 is \$3,283,750 (compared to \$3,250,000 in 2012).

Response to Last Year's Say-on-Pay Vote

At our 2012 annual stockholders' meeting, we held a non-binding advisory stockholder vote on the compensation of our named executive officers, commonly referred to as a say-on-pay vote. Our stockholders approved the compensation of our named executive officers, with over 90% of stockholder votes cast in favor of our 2012 say-on-pay resolution. As we evaluated our executive compensation practices since that vote, we were mindful of the strong support our stockholders expressed for our pay-for-performance compensation philosophy. Nonetheless, the Compensation Committee undertakes an annual review of our executive compensation philosophy and our general approach to executive compensation and continually refines the executive compensation programs to align them with the Company's strategic goals and to emphasize pay-for-performance.

Tax and Accounting Considerations

Deductibility of Executive Compensation

Section 162(m) generally prohibits a public company from taking an income tax deduction for compensation over \$1 million paid to the principal executive officer and any one of the three highest paid executive officers (other than the principal executive officer or the principal financial officer) as of the close of the applicable taxable year, unless certain conditions are met. While the anticipated tax treatment of compensation is given some weight in making compensation decisions, the Compensation Committee has not adopted a policy of limiting awards of compensation to amounts that would be deductible under Section 162(m) because the Compensation Committee believes that awards of compensation which would not comply with the Section 162(m) requirements could at times further the long-term interests of the Company and its stockholders. Nevertheless, the Compensation Committee believes that it is important to maximize the corporate tax deductibility of executive compensation. Therefore, to help maximize the deductibility of payments made beginning in 2008, the Company sought and received stockholder approval of its Amended 2007 Omnibus Plan.

Accounting for Stock-Based Compensation

Stock-based compensation is measured based on the fair value of the award on the date of grant, and the corresponding expense is recognized over the period during which the executive is required to provide service in exchange for the reward. Compensation expense related to service-based RSUs is recognized on a straight-line basis over the requisite service period for the entire award. Compensation expense related to performance-based RSUs is recognized on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards (i.e., a graded vesting basis).

- (1) In conjunction with Mr. Lamneck's employment effective January 1, 2010, the Company agreed to compensate Mr. Lamneck for incentive compensation foregone at his previous employer by making a one-time payment of \$500,000 in addition to the one-time award of service-based awards described below.
- (2) These amounts reflect the grant date fair value of the RSU awards granted to our named executive officers. For awards subject to performance conditions, the grant date fair value reported was based on the probable outcome of the performance conditions, determined as of the grant date.

For 2012, the grant date fair value was calculated based on the closing price of the Company's common stock on February 17, 2012 (the last trading day immediately preceding the grant date because the grant date was not a trading day) of \$21.98 multiplied by the target number of RSU awards, as the target was considered to be the probable outcome as of the grant date. For the 60% of the 2012 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. For Mr. Lamneck, Ms. Bryan, Mr. Fenton, Mr. Dodenhoff and Mr. Guggemos, the maximum value of RSUs assuming the maximum achievement at the highest level of performance was \$3,040,032, \$1,035,038, \$800,006, \$559,998, and \$600,010, respectively. For Mr. Dodenhoff, this amount includes a stock award with a grant date fair value of \$120,000 in service-based RSUs on February 10, 2012 that Mr. Dodenhoff received in conjunction with his employment by the Company effective January 30, 2012 and an award that Mr. Dodenhoff was granted in connection with his appointment as President, Insight United States, effective October 1, 2012. Upon his promotion, Mr. Dodenhoff was granted RSUs having an aggregate value of the difference between a target award of \$350,000 and the target award amount of \$250,000 that he was granted on February 20, 2012, prorated for the remainder of 2012. The grant date fair value of this incremental award was calculated based on the closing price of the Company's common stock on November 9, 2012 (the last trading day immediately preceding the grant date because the grant date was not a trading day) of \$15.50 multiplied by 62.5% of the target number of RSU awards, as that percentage was considered to be the probable outcome as of the grant date. As discussed in the CD&A section of this proxy statement, the actual award for 2012 was 50% of the target number of performance-based RSUs.

Table of Contents

For 2011, the grant date fair value was calculated based on the closing price of the Company's common stock on February 18, 2011 (the last trading day immediately preceding the grant date because the grant date was not a trading day) of \$18.32 multiplied by the target number of RSU awards, as the target was considered to be the probable outcome as of the grant date. For the 60% of the 2011 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. For Mr. Lamneck, Ms. Bryan, Mr. Fenton and Mr. Guggemos, the maximum value of RSUs assuming the maximum achievement at the highest level of performance was \$2,400,012, \$1,035,007, \$800,016 and \$600,017, respectively. The actual award for 2011 was 125% of the target number of performance-based RSUs.

For 2010, the grant date fair value was calculated based on the closing price of the Company's common stock on February 19, 2010 (the last trading day immediately preceding the grant date because the grant date was not a trading day) of \$13.25 multiplied by the target number of RSU awards, as the target was considered to be the probable outcome as of the grant date. For the 60% of the 2010 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. For Mr. Lamneck, Ms. Bryan, and Mr. Fenton, the maximum value of RSUs assuming the maximum achievement at the highest level of performance was \$2,784,607, \$1,035,011 and \$800,009, respectively. The actual award for 2010 was 200% of the target number of performance-based RSUs. Additionally, in conjunction with Mr. Lamneck's employment effective January 1, 2010, the Company agreed to compensate Mr. Lamneck for incentive compensation foregone at his previous employer, by making a one-time award of 131,349 service-based RSUs, which equated to an aggregate value of \$1,500,000, based on the closing price of the Company's common stock on December 31, 2009 (the last trading day immediately preceding the grant date of January 1, 2010 since the grant date was not a trading day) in addition to the one-time cash bonus payment of \$500,000 described above. On March 10, 2010, the Compensation Committee awarded a special RSU grant to Mr. Fenton of 56,604 shares as a retention incentive, vesting over a 5-year period, with no shares vesting on the first anniversary of the award and 25% vesting on each of the second, third, fourth and fifth anniversaries of the award. The grant date fair value of the special award to Mr. Fenton was calculated based on the closing price of the Company's common stock on March 10, 2010 (the grant date) of \$14.27.

For all three years for which grant date fair value is presented in the table above, no estimate of forfeitures is included in these amounts, nor were any actual forfeitures included in these amounts.

- (3) Non-Equity Incentive Plan Compensation represents bonuses earned by executives under the 2012, 2011 and 2010 cash incentive plans, respectively. The cash incentive plan compensation for 2012 was paid to the named executive officers prior to March 15, 2013.
- (4) All Other Compensation for 2012 represents payments to:

Mr. Lamneck for enhanced healthcare benefits, expenses incurred related to premium payments made on his behalf for long-term disability insurance, matching contributions to his 401(k), value received related to an annual sales incentive trip and an allowance for cell phone expenses. We consider the cost of the enhanced healthcare benefits, premium payments for long-term disability insurance and value received related to an annual sales incentive trip to be perquisites.

Ms. Bryan for enhanced healthcare benefits, expenses incurred related to premium payments made on her behalf for long-term disability insurance, matching contributions to her 401(k) and an allowance for cell phone expenses. We consider the cost of the enhanced healthcare benefits and premium payments for long-term disability insurance to be perquisites.

- (1) Represents awards under the 2012 cash incentive plan discussed under the heading "2012 Cash Incentive Plan" of the CD&A in this proxy statement. The maximum estimated future payouts under non-equity incentive plan awards was computed as 200% of the target cash incentive compensation component that was based exclusively on three specific financial objectives for each named executive officer. Actual amounts are reflected in the Summary Compensation Table in the Non-Equity Incentive Plan Compensation column, and there are no future payouts related to these awards.

- (2) Pursuant to the 2012 equity-based incentive compensation program, grants of service-based (40%) and performance-based (60%) RSUs to our named executive officers were made on February 20, 2012. For the 60% of the 2012 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. The number of actual performance-based RSUs ultimately awarded was 50% of the target, as actual consolidated ROIC was below the target range for the fiscal year ended December 31, 2012.
- (3) The grant date fair value for the annual plan-based awards was calculated based on the closing price of the Company's common stock on February 17, 2012 of \$21.98 multiplied by the target number of RSU awards, as the target was considered to be the probable outcome as of the grant date. The grant date fair values of stock awards are also reflected in the Summary Compensation Table. Mr. Dodenhoff also received a stock award with a grant date fair value of \$120,000 in service-based RSUs on February 10, 2012 in conjunction with his employment by the Company effective January 30, 2012. Upon his appointment as President, Insight United States, effective October 1, 2012, Mr. Dodenhoff was also granted RSUs having an aggregate value of the difference between a target award of \$350,000 and the target award amount of \$250,000 that he was granted on February 20, 2012, prorated for the remainder of 2012. The grant date fair value of this incremental award was calculated based on the closing price of the Company's common stock on November 9, 2012 (the last trading day immediately preceding the grant date because the grant date was not a trading day) of \$15.50 multiplied by 62.5% of the target number of RSU awards, as that percentage was considered to be the probable outcome as of the grant date. As discussed in the CD&A section of this proxy statement, the actual award for 2012 was 50% of the target number of performance-based RSUs.
- (4) Mr. Fenton's cash incentive target and maximum amounts for the 2012 cash incentive plan were translated into U.S. dollars for presentation in this proxy statement. - (5) Mr. Dodenhoff's cash incentive target and maximum amounts for the 2012 cash incentive plan represent the annualized amounts per Mr. Dodenhoff's original offer letter in December 2011 and his promotion offer letter in September 2012. The actual target and maximum amounts that Mr. Dodenhoff was entitled to for 2012 were pro-rated based on the effective dates of his employment and subsequent promotion during 2012.

- (1) Under various service-based equity incentive compensation programs, our named executive officers have received varying levels of grants of service-based RSUs that vest ratably over four years (for grants pursuant to the 2012 and 2011 equity-based incentive compensation plans) or three years (for grants pursuant to the 2010 equity-based incentive compensation plans).

Pursuant to the 2012 equity-based incentive compensation program, grants of service-based (40%) and performance-based (60%) RSUs to our named executive officers were made in February 2012. For the 60% of the 2012 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. The number of actual performance-based RSUs ultimately awarded was 50% of the target, as actual consolidated ROIC was below the target range for the fiscal year ended December 31, 2012. As of December 31, 2012, upon the Company's achievement of the actual ROIC amount for the fiscal year ended December 31, 2012, the RSUs effectively became service-based RSUs, vesting ratably over the three years following the grant date. All of these grants of RSUs were made under the Amended 2007 Omnibus Plan.

Pursuant to the 2011 equity-based incentive compensation program, grants of service-based (40%) and performance-based (60%) RSUs to our named executive officers were made in February 2011. For the 60% of the 2011 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. The number of actual performance-based RSUs ultimately awarded was 125% of the target, determined by over-achievement of targeted consolidated ROIC of the Company for the fiscal year ended December 31, 2011. As of December 31, 2011, upon the Company's achievement of the actual ROIC amount for the fiscal year ended December 31, 2011, the RSUs effectively became service-based RSUs, vesting ratably over the three years following the grant date. All of these grants of RSUs were made under the Amended 2007 Omnibus Plan.

Pursuant to the 2010 equity-based incentive compensation program, grants of service-based (40%) and performance-based (60%) RSUs to our named executive officers were made in February 2010. For the 60% of the 2010 awards that were subject to performance conditions, the maximum award attainable was 200% of the target number of RSU awards. The number of actual performance-based RSUs ultimately awarded was 200% of the target, determined by over-achievement of targeted consolidated non-GAAP diluted EPS of the Company for the fiscal year ended December 31, 2010. As of December 31, 2010, upon the Company's achievement of the actual non-GAAP diluted EPS amount for the fiscal year ended December 31, 2010, the RSUs effectively became service-based RSUs, vesting ratably over the three years following the grant date. All of these grants of RSUs were made under the 2007 Omnibus Plan.

The amounts in the table represent the gross number of shares and value realized on vesting for each of the named executive officers. EMPLOYMENT AGREEMENTS, SEVERANCE AND CHANGE IN CONTROL PLANS

Our current employment agreements with executives and our incentive compensation plans reflect our compensation philosophy. The employment agreements for our named executive officers provide for continually renewing terms (one year for Messrs. Lamneck, Dodenhoff and Guggemos and two years for Ms. Bryan and Mr. Fenton). All change in control benefits are double trigger (which means that they are triggered by two events, a change in control plus a triggering termination under the change of control agreement), provided, however, that under the terms of the Amended 2007 Omnibus Plan, applicable to all employees, a change in control would result in all stock awards becoming fully exercisable and vested to the full extent of the original grant, any restrictions would lapse and all performance-based awards would be earned and payable in full at target levels.

The Company's employment agreements with its executives are intended to comply with Section 409A of the Code (other than Mr. Fenton, who resides in the United Kingdom). The material terms of the employment agreements with our current named executive officers are as follows:

Table of Contents**Kenneth T. Lamneck**

- (i) Effective as of January 1, 2010.
- (ii) A severance payment upon termination without cause, by Mr. Lamneck for good reason, as those terms are defined in the agreement, or at the expiration of the term due to the Company's issuance of a non-renewal notice. In the event of such termination and subject to a release of claims against the Company by Mr. Lamneck, he will be entitled to receive severance pay in the amount of \$1,800,000, payable in equal installments over a period of 12 months following the date of termination.
- (iii) In the event of Mr. Lamneck's death or disability, as such term is defined in the agreement, he or his estate shall receive payment for earned, but unpaid base salary, accrued but unused vacation, unreimbursed business expenses and any vested benefits he may be entitled to receive under any Company disability or insurance plan or other applicable employee benefit plan.
- (iv) The agreement also provides for non-disclosure by Mr. Lamneck of our confidential information and includes covenants by him not to compete with Insight or solicit its employees, suppliers or customers for a period of 12 months following termination of employment.

The table below outlines the potential payments to Mr. Lamneck upon the occurrence of certain termination triggering events assuming a hypothetical effective date of termination of December 31, 2012:

Triggering Event	Severance	Stock Based Compensation Awards (1)	Benefits	Total
Termination Without Cause or for Good Reason as defined in the employment agreement	\$ 1,800,000	\$	\$	\$ 1,800,000
Change in Control Involuntary Termination	1,800,000	4,166,160		5,966,160
Change in Control Without Termination		4,166,160		4,166,160
Disability				
Death				

- (1) The value of stock based compensation awards is based on the closing price of the Company's common stock on December 31, 2012 of \$17.37 per share.

Glynis A. Bryan

- (i) Effective as of January 1, 2009.
- (ii) A severance payment upon termination without cause or termination by Ms. Bryan for good reason, as those terms are defined in the agreement, payable upon termination, equal to two times her annual base salary, plus one times the annual cash incentive bonus during one of the two immediately preceding fiscal years that would produce the higher award, plus a prorated portion of any current quarterly or annual cash incentive bonus, plus benefits continuation until the earlier of (1) 24 months or (2) the day on which she is eligible to receive substantially similar benefits without being required to pay any premiums with respect to such benefits.

Table of Contents

- (iii) A severance payment following a change in control of the Company if Ms. Bryan terminates her employment for good reason, or the Company terminates her employment without cause, as those terms are defined in the agreement, prior to the expiration of 24 months after the change in control occurs, equal to two times her highest annual base salary in effect during the term of the agreement plus two times the higher annual cash incentive bonus during one of the two immediately preceding fiscal years which would produce the higher award, plus a prorated portion of any current quarterly or annual cash incentive bonus, plus benefits continuation through the earlier of (1) 42 months following termination or (2) the date on which she is eligible to receive substantially similar benefits without being required to pay any premiums with respect to such benefits. All payments made following a change in control are to be grossed-up for Ms. Bryan's excise taxes if the payment exceeds prescribed limits.

NONQUALIFIED DEFERRED COMPENSATION TABLE

Effective January 1, 2008, the Company established the Deferred Compensation Plan. The Deferred Compensation Plan is a nonqualified deferred compensation plan maintained primarily to provide deferred compensation benefits for a select group of management or highly compensated employees as defined by the Employee Retirement Income Security Act of 1974, as amended, and was designed to comply with Section 409A of the Code. The Deferred Compensation Plan permits participants to voluntarily defer receipt of compensation including salary, bonuses and any other cash compensation, up to 90% of base salary and up to 100% for other cash compensation. Participants earn a rate of return on their deferred amounts based on their selection from a variety of independently managed funds. Employees are fully vested in their deferrals, but withdrawals at times other than deferral dates selected by participants are not permitted until retirement, termination of employment, disability or death, except in case of unforeseen emergencies. The Company does not provide a guaranteed rate of return on these deferred amounts, and the rate of return realized depends on the participant's fund selections and market performance of these funds. The Deferred Compensation Plan was terminated effective May 31, 2012. The Deferred Compensation Plan's assets will be liquidated and participant account balances will be paid out by July 2013.

Table of Contents

- (2) The Company does not make any matching or discretionary contributions to the Deferred Compensation Plan and incurs immaterial administrative costs to maintain the plan.
- (3) The amounts are deemed investment returns in 2012 on executive contribution balances.
- (4) The balances are the balances of the named executive officers' accounts as of December 31, 2012. All of the salary and non-equity compensation amounts voluntarily deferred by the named executive officers have been included in the salary and non-equity incentive compensation amounts reported for the named executive officers in the Summary Compensation Table.

DIRECTOR COMPENSATION

Mr. Lamneck did not receive any separate compensation for his Board service or activities. In 2012, each non-employee director received \$20,000 per quarter for serving on the Board. Through May 14, 2012, an additional \$2,500 per quarter was paid to the director serving as Chair of a committee and, commencing May 15, 2012, the quarterly rates for service as a committee Chair were increased to \$6,250 and \$5,000 for the Chairs of the Audit and Compensation Committees, respectively, and no change was made to the payment for service as Chair of the Nominating and Governance Committee. For 2013, each non-employee director will again receive \$20,000 per quarter for serving on the Board, and payments for serving as Chair of a committee will remain unchanged as well. In lieu of standard compensation for directors, because of his time commitments to the Company as Chair of the Board, Mr. Crown was paid a retainer of \$110,000 through May 14, 2012, and commencing May 15, 2012, Mr. Crown's retainer was increased to \$130,000. For 2013, the Compensation Committee has recommended to the Board for approval and the Board has approved a \$130,000 retainer for Mr. Crown for service as Chair of the Board. We reimburse non-employee directors for their reasonable expenses incurred in connection with service as directors, and non-employee directors may elect to participate at their own cost in the medical and dental benefit programs offered to all teammates.

For 2012, existing non-employee directors received a grant of RSUs with a grant date fair value equal to \$80,016, calculated at the closing price of the Company's shares on the date of its 2012 annual meeting. For 2013, existing non-employee directors will continue to receive a grant of RSUs with a grant date fair value equal to approximately \$80,000, calculated at the closing price of the Company's shares on the date of its annual meeting. Upon joining the Board, new non-employee directors will receive a pro-rata share of the last annual grant of RSUs to the other non-employee directors, based on service before the next regularly scheduled annual meeting date. RSU awards to non-employee directors vest ratably over three years, and awards to non-employee directors made beginning in May 2011 will fully vest upon retirement, resignation or disability, subject to risk of loss if the non-employee director ends service on the Board without proper notice to the Board.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under the securities laws of the United States, our directors, executive officers, and any persons beneficially owning more than 10% of our common stock are required to report their initial ownership of our common stock and any subsequent changes in that ownership to the SEC. Specific due dates for these reports have been established, and we are required to disclose any known failure to file by these dates. Based upon a review of such reports furnished to us, or written representations that no reports were required, we believe that these filing requirements were satisfied in a timely manner during the year ended December 31, 2012, except that one filing was made one day late on November 15, 2012 with respect to the grant of restricted stock units to Mr. Dodenhoff on November 10, 2012.

RELATED PARTY TRANSACTIONS

Transactions with Related Persons

No director, executive officer or any beneficial owner of more than 5% of our outstanding capital stock had any direct or indirect material interest, in any transaction with us required to be disclosed during 2012 or since the commencement of the 2013 fiscal year.

Related Party Transaction Approval Policy

Our Board of Directors has adopted a written related party transaction policy, which is administered by the Audit Committee. This policy applies to any transaction or series of transactions in which the Company is a participant, the amount involved exceeds or is expected to exceed \$120,000 in any calendar year and any related person has a direct or indirect interest. For purposes of the policy, related persons consist of directors or executive officers, any stockholder beneficially owning more than 5% of the Company's common stock or immediate family members of any such persons. Under the policy, the Audit Committee will review all applicable related party transactions for approval, ratification or other action unless the transaction falls within the following list of categories of pre-approved transactions: employment of an executive officer if compensation is otherwise subject to disclosure requirements or approved by the Compensation Committee; director compensation subject to disclosure requirements; in the ordinary course of business, sales to or purchases from another company where a related party is employed or a director if the aggregate amount involved does not exceed the greater of \$1 million or 2% of the other company's total annual revenues (for sales) or \$50,000 (for purchases); any charitable contribution, grant or endowment where the related party is employed or a director if the aggregate amount involved does not exceed the lesser of \$10,000 or 2% of the charitable organization's annual receipts; any transaction where the related party's interest arises solely from the ownership of common stock and all holders of common stock received the same benefit on a pro rata basis; any transaction with a related party involving the rendering of services as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or governmental authority; and any transaction with a related party involving services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture, or similar services. In general, the Company is of the view that these transactions with related persons are not significant to investors because they take place under the Company's standard policies and procedures or are otherwise subject to review. Any related party transaction requiring individual review will only be approved if the Audit Committee determines that such transaction will not impair the involved person's service to, and exercise of judgment on behalf of, the Company, or otherwise create a conflict of interest that would be detrimental to the Company.

Table of Contents

We also require that each executive officer, director and director nominee complete an annual questionnaire and report all transactions with us in which such persons (or their immediate family members) had or will have a direct or indirect material interest (except for directors fees). Management reviews responses to the questionnaires and, if any such transactions are disclosed, they are reviewed by the Audit Committee. The types of transactions that have been reviewed in the past typically include the purchase from, and sale of products and services to, companies for which our directors serve as executive officers or directors, including purchases of marketing services for our use and products for resale to clients and the sale of products, software and services.

CODE OF ETHICS

We have adopted a Code of Ethics that applies to directors and all employees, including our Chief Executive Officer and our senior financial executives. The Code of Ethics may be viewed online on our website at <http://nsit.client.shareholder.com/governance.cfm>. We intend to satisfy the disclosure requirement under Form 8-K regarding any amendments to, or waivers from, a provision of our Code of Ethics by posting such information on our website at the location specified above, unless otherwise required by NASDAQ Listing Rules to disclose any such waiver on Form 8-K. To receive a copy, you may also write to our Corporate Secretary at 6820 South Harl Avenue, Tempe, Arizona 85283.

PROPOSAL NO. 2

ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 requires us to obtain an advisory vote (non-binding) from our stockholders on the compensation of our named executive officers as disclosed in this proxy statement, which is often referred to as a say-on-pay proposal. At the 2011 annual meeting of stockholders held on May 18, 2011, the Board of Directors recommended an annual vote on the compensation of our named executive officers (say-on-pay), and the stockholders voted for holding future advisory say-on-pay votes annually. Based on the voting results, the Board affirmed its recommendation and elected to hold future advisory say-on-pay votes on an annual basis. Our next vote on the frequency of our say-on-pay votes will be held on or before our 2017 Annual Meeting of Stockholders.

As described in the CD&A section of this proxy statement, our executive compensation philosophy is to offer competitive base salaries and emphasize cash and equity-based incentive compensation that encourage extraordinary effort on behalf of the Company. The objective of our executive compensation plans is to reward the achievement of specific financial, strategic and tactical goals by the Company and the individual executive that aligns the interests of management with the interests of our stockholders.

Table of Contents

We are asking that our stockholders indicate their support of our executive compensation for our named executive officers as described in this proxy statement. While this advisory vote on our executive compensation is non-binding, our Board and the Compensation Committee will review the outcome of this vote and take the vote into consideration when reviewing our compensation policies and procedures. This vote is not intended to address specific items of compensation, but rather the overall compensation of our named executive officers and our executive compensation policies and procedures as described in this proxy statement. AUDIT COMMITTEE REPORT

As described more fully in its charter, the purpose of the Audit Committee is to assist the Board in its general oversight of the Company's financial reporting, internal control and audit functions. The Company's management is responsible for the preparation, presentation and integrity of our consolidated financial statements, accounting and financial reporting principles, internal controls and procedures designed to assure compliance with accounting standards, applicable laws and regulations. The Company's independent registered public accounting firm, KPMG LLP ("KPMG"), is responsible for performing an independent audit of the consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States).

Among other matters, the Audit Committee monitors the activities and performance of the Company's internal auditors and KPMG, including the audit scope, auditor independence matters and the extent to which KPMG may be retained to perform non-audit services. The Audit Committee has the ultimate authority and responsibility to select, evaluate, and when appropriate, replace the independent registered public accounting firm. The Audit Committee also reviews the results of the internal auditors' and KPMG's work with regard to the adequacy and appropriateness of the Company's financial, accounting and internal controls, including obtaining progress reports throughout the year on the Company's compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002. The Audit Committee engaged in regular discussions with the Vice President of Internal Audit and KPMG without the presence of members of management during 2012. Management and KPMG presentations to, and discussions with, the Audit Committee also covered various topics and events that have significant financial impact on the Company or were the subject of discussions between management and KPMG. In this context, the Audit Committee met 10 times during 2012. As needed at such meetings, the Audit Committee held executive sessions with the Chief Financial Officer, the General Counsel and Secretary, the Principal Accounting Officer, the Vice President of Internal Audit and KPMG.

Management has reviewed and discussed the Company's audited consolidated financial statements with the Audit Committee including a discussion of the quality, not just the acceptability, of the relevant accounting principles, the reasonableness of significant judgments made in connection with critical accounting estimates and the accuracy and clarity of disclosures in the consolidated financial statements. In addressing the quality of management's accounting judgments, members of the Audit Committee asked for management's representations that the audited consolidated financial statements of the Company have been prepared in conformity with United States generally accepted accounting principles.

The Audit Committee discussed with KPMG the matters required to be discussed with the Audit Committee under Statement on Auditing Standards No. 61, "Communication with Audit Committees" and Rule 2-07 of Regulation S-X, "Communication with Audit Committees." KPMG also provided to the Audit Committee a letter with the written disclosures required by the applicable requirements of the Public Company Accounting Oversight Board regarding independence, and the Audit Committee has discussed with KPMG its independence.

Based on the Audit Committee's discussions with management and KPMG and its review of the representations of management and the reports of KPMG to the Audit Committee, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in Insight's annual report on Form 10-K for the year ended December 31, 2012 filed with the SEC.

Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933, as amended, or the Exchange Act, as amended, that incorporate future filings, including this proxy statement, in whole or in part, the foregoing Audit Committee Report does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any such filings.

RELATIONSHIP WITH INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG served as our independent registered public accounting firm for the year ended December 31, 2012 and has served in that capacity since being appointed in 1988. The Audit Committee has reappointed KPMG as our independent auditor for the year ending December 31, 2013. Pursuant to its charter, the Audit Committee has sole authority to retain (subject to ratification by stockholders) and terminate the Company's independent registered public accounting firm.

Fees and Independence

Audit Fees. KPMG billed us an aggregate of \$2,251,000 and \$1,936,000 for professional services rendered for the audit of our consolidated financial statements, reviews of our consolidated financial statements included in our quarterly reports on Form 10-Q and statutory audits for foreign subsidiaries for the years ended December 31, 2012 and 2011, respectively.

Audit-Related Fees. Audit-related fees billed by KPMG for the years ended December 31, 2012 and 2011 were \$107,000 and \$116,000, respectively, and primarily included examinations associated with the Company's Service Organization Controls reporting.

Tax Fees. Tax fees billed by KPMG for the years ended December 31, 2012 and 2011 were \$160,000 and \$176,000, respectively, and included fees for services relating to tax compliance and tax planning and advice, including assistance with tax audits.

All Other Fees. There were no other fees paid to KPMG for the years ended December 31, 2012 and 2011.

The Audit Committee has determined that the provision of services by KPMG described in the preceding paragraphs is compatible with maintaining KPMG's independence. All permissible non-audit services provided by KPMG in 2012 were pre-approved by the Audit Committee. In addition, no audit engagement hours were spent by people other than KPMG's employees, KPMG member firms located outside the United States and other third-party service providers operating under KPMG's supervision.

Table of Contents

The Audit Committee has adopted procedures for pre-approving all audit and permissible non-audit services provided by KPMG. For each non-audit service, as defined in the policy, performed by KPMG, an engagement letter confirming the scope and terms of the work to be performed is obtained by management. The terms of the engagement are summarized by management and submitted to the Audit Committee for pre-approval. Any modification to an executed engagement letter must also be pre-approved by the Audit Committee. As permitted by Section 10A(i)(3) of the Exchange Act, the Audit Committee has delegated pre-approval authority to the Chair of the Audit Committee for all engagements under \$100,000. The Chair of the Audit Committee must report any pre-approval decisions to the Audit Committee for ratification at its next regular quarterly meeting. Pursuant to Section 202 of the Sarbanes-Oxley Act of 2002, our Audit Committee has approved all auditing and non-audit services performed to date and currently planned to be provided related to the fiscal year 2012 by KPMG. The services include the annual audit, quarterly reviews, statutory audits for foreign subsidiaries, issuances of consents related to SEC filings and certain tax compliance services.

PROPOSAL NO. 3

RATIFICATION OF THE APPOINTMENT OF KPMG LLP

AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has retained KPMG as our independent registered public accounting firm for the year ending December 31, 2013, and we are asking stockholders to ratify that appointment. Although ratification by stockholders is not required, the Board is submitting the selection of KPMG to our stockholders as a matter of good corporate practice. In the event the stockholders fail to ratify the appointment, the Audit Committee will reconsider this appointment but will not necessarily select another firm. Even if the appointment is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and our stockholders.

We expect that representatives of KPMG will attend the annual meeting, have an opportunity to make a statement and be available to answer questions.

Vote Required

The affirmative vote of the holders of a majority of the voting power of the shares entitled to vote on the proposal, present in person or represented by proxy at the annual meeting, is required for the advisory approval of Proposal No. 3. Abstentions will have the same effect as a vote cast against Proposal No. 3.
