Notes to Consolidated Financial Statements (unaudited)

Note 1 Business and Organization

Diamond Hill Investment Group, Inc. (the Company), an Ohio Corporation, derives its consolidated revenues and net income primarily from investment advisory and fund administration services. The Company has three operating subsidiaries.

Diamond Hill Capital Management, Inc. (DHCM), an Ohio corporation, is a wholly owned subsidiary of the Company and a registered investment adviser. DHCM is the investment adviser to the Diamond Hill Funds (the Funds), a series of open-end mutual funds, private investment funds (Private Funds), and also offers advisory services to institutional and individual investors.

Beacon Hill Fund Services, Inc. (BHFS), an Ohio corporation, is a wholly owned subsidiary of the Company. BHFS provides certain compliance, treasury, and other fund administration services to mutual fund companies. BHIL Distributors, Inc. (BHIL), an Ohio corporation, is a wholly owned subsidiary of BHFS. BHIL provides underwriting to mutual funds. BHFS and BHIL collectively operate as Beacon Hill.

Note 2 Significant Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. Certain prior period amounts and disclosures have been reclassified to conform to the current period financial presentation. Book value per share is computed by dividing total shareholders' equity by the number of shares issued and outstanding at the end of the measurement period. The following is a summary of the Company's significant accounting policies:

Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company and its subsidiaries. All material inter-company transactions and balances have been eliminated in consolidation.

Segment Information

Management has determined that the Company operates in one business segment, namely providing investment management and administration services to mutual funds, institutional accounts, and private investment funds. Therefore, no disclosures relating to operating segments are required in annual or interim financial statements.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market mutual funds.

Table of ContentsNote 2 Significant Accounting Policies (Continued)Accounts Receivable

Accounts receivable are recorded when they are due and are presented in the balance sheet net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Company's historical losses, existing conditions in the industry, and the financial stability of those individuals or entities that owe the receivable. No allowance for doubtful accounts was deemed necessary at either June 30, 2013 or December 31, 2012.

Valuation of Investment Portfolio

Investments held by the Company are valued based upon the definition of Level 1 inputs and Level 2 inputs. Level 1 inputs are defined as fair values which use quoted prices in active markets for identical assets or liabilities. Level 2 inputs are defined as quoted prices in markets that are not considered to be active for identical assets or liabilities, quoted prices in active markets for similar assets or liabilities, and inputs other than quoted prices that are directly observable or that may be corroborated indirectly with observable market data. The following table summarizes the values of the Company's investments based upon Level 1 and Level 2 inputs as of June 30, 2013 and December 31, 2012:

	June 30, 2013	December 31, 2012
Level 1 Inputs	\$ 27,658,778	\$ 16,922,720
Level 2 Inputs	3,991,509	3,650,561

Level 1 investments are all registered investment companies (mutual funds) and include \$10.5 million and \$4.1 million, respectively, of money market mutual funds that the Company classifies as cash equivalents. Level 2 investments are all limited partnerships. There were no transfers in or out of the levels.

The changes in market values on the investments are recorded in the Consolidated Statements of Income as investment income.

Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC (the "General Partner"), the general partner of Diamond Hill Investment Partners, L.P. ("DHIP"), Diamond Hill Research Partners International, L.P. ("DHRPI"), and Diamond Hill Valuation-Weighted 500, L.P. ("DHVW") (collectively, the "Partnerships"), each a limited partnership whose underlying assets consist of marketable securities.

DHCM, in its role as managing member of the General Partner, has the power to direct each Partnership's economic activities and the right to receive investment advisory and performance incentive fees that may be significant to the Partnerships. The Company evaluated these Partnerships to determine whether or not to consolidate the entities in accordance with FASB ASC 810, Consolidation. Certain of these Partnerships are considered to be variable interest entities ("VIEs") while others are considered to be voting rights entities ("VREs"), both of which are subject to consolidation consideration. The Company would consolidate VIEs where the Company is considered the primary beneficiary or VREs where the General Partner is considered to control the Partnership. For the Partnerships that were considered VIEs, the Company was not deemed to be the primary beneficiary. For the Partnerships that were considered VREs, it was determined that the DHCM in its role of managing member of the General Partner did not control the Partnerships. Therefore, the investments are accounted for under the equity method rather than being consolidated in the accompanying financial statements.

Table of Contents

Note 2 Significant Accounting Policies (Continued)

Limited Partnership Interests (Continued)

DHCM's investments in these Partnerships are reported as a component of the Company's investment portfolio, valued at DHCM's proportionate interest in the net asset value of the marketable securities held by

the Partnerships. Gains and losses attributable to changes in the value of DHCM's interests in the Partnerships are included in the Company's reported investment income.

The Company's exposure to loss as a result of its involvement with the Partnerships is limited to the amount of its investments. DHCM is not obligated to provide financial or other support to the Partnerships, other than its investments to date and its contractually provided investment advisory responsibilities, and has not provided such support. The Company has not provided liquidity arrangements, guarantees or other commitments to support the Partnerships' operations, and the Partnerships' creditors and interest holders have no recourse to the general credit of the Company.

Certain board members, officers and employees of the Company invest in DHIP. These individuals receive no remuneration as a result of their personal investment in the Partnership. The capital of the General Partner is not subject to a management fee or an incentive fee.

Furniture and Equipment

Furniture and equipment, consisting of computer equipment, furniture, and fixtures, are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

Deferred Compensation Liability

Deferred compensation liability represents compensation that will be paid out upon satisfactory completion of certain performance-based criteria specified in employee award agreements issued pursuant to the 2011 Equity and Cash Incentive Plan. See Note 5.

Revenue Recognition - General

The Company earns substantially all of its revenue from investment advisory and fund administration services. Mutual fund investment advisory and administration fees, generally calculated as a percentage of assets under management (AUM), are recorded as revenue as services are performed. Managed account and private investment fund clients provide for monthly or quarterly management fees, in addition to periodic variable incentive fees.

Revenue Recognition - Incentive Revenue

The Company manages certain client accounts that provide for variable incentive fees. These fees are based on investment results over rolling five year periods. For variable management fees based on a formula, there are two methods by which incentive revenue may be recorded. Under Method 1, incentive fees are recorded at the end of the contract measurement period; under Method 2, the incentive fees are recorded periodically and calculated as the amount that would be due under the formula at any point in time as if the contract was terminated at that date. Management has chosen Method 1, in which incentive fees are recorded at the end of the contract measurement period for the specific client in which the incentive fee applies. The table below shows AUM subject to incentive fees and the incentive fees, as calculated under each of the above methods:

Table of ContentsNote 2 Significant Accounting Policies (Continued)Revenue Recognition – Mutual Fund Administration (Continued)

Beacon Hill has underwriting and administrative service agreements with certain clients, including registered mutual funds. The fee arrangements vary from client to client based upon services provided and are recorded as revenue under mutual fund administration on the Consolidated Statements of Income. Part of Beacon Hill's role as underwriter is to act as an agent on behalf of its mutual fund clients to receive 12b-1/service fees and commission revenue and facilitate the payment of those fees and commissions to third parties who provide services to the funds and their shareholders. The amount of 12b-1/service fees and commissions are determined by each mutual fund client, and Beacon Hill bears no financial risk related to these services. As a result, 12b-1/service fees and commission revenue has been recorded net of the expense payments to third parties, in accordance with the appropriate accounting treatment for this agency relationship.

Mutual fund administration gross and net revenue are summarized below:

Third Party Distribution Expense

Third party distribution expenses are earned by various third party financial services firms based on sales and/or assets of the Company's investment products generated by the respective firms. Expenses recognized represent actual payments made to the third party firms and are recorded in the period earned based on the terms of the various contracts.

Table of ContentsNote 2 Significant Accounting Policies (Continued)Income Taxes

The Company accounts for income taxes through an asset and liability approach. Deferred taxes are provided on an asset and liability method, whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Deferred tax assets are reduced by a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company is subject to examination by various federal, state and local jurisdictions for various tax periods. The Company's income tax positions are based on research and interpretations of the income tax laws and rulings in each of the jurisdictions in which the Company does business. Due to the subjectivity of interpretations of laws and rulings in each jurisdiction, the differences and interplay in tax laws between those jurisdictions, as well as the inherent uncertainty in estimating the final resolution of complex tax audit matters, the Company's estimates of income tax liabilities may differ from actual payments or assessments. The Company regularly assesses its position with regard to tax exposures and records liabilities for these uncertain tax positions and related interest and penalties, if any, according to the principles of FASB ASC 740, *Income Taxes*. As of June 30, 2013, the Company has not recorded any liability for uncertain tax positions.

Earnings Per Share

Earnings per share (EPS) is computed by dividing net income by the weighted average number of Common Shares outstanding for the period. For the periods presented, the Company has unvested stock-based payment awards that contain nonforfeitable rights to dividends. For the periods presented, the Company does not have dilutive securities outstanding.

Note 3 Investment Portfolio

As of June 30, 2013, the Company held investments (excluding money market funds, which are included with cash and cash equivalents) worth \$21.1 million with an estimated cost basis of \$14.4 million. The following table summarizes the market value of these investments:

Accordingly, these financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto of the Company included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the financial statements have been included. The results of operations for the three and six month periods ended June 30, 2013 are not necessarily indicative of the results which may be expected for the entire fiscal year.

Table of Contents**Assets Under Management**

The Company's revenue is derived primarily from investment advisory and administration fees. Investment advisory and administration fees paid to the Company are generally based on the value of the investment portfolios managed by the Company and fluctuate with changes in the total value of the AUM. Such fees are recognized in the period that the Company manages these assets. The Company's primary expense is employee compensation and benefits.

Revenues are highly dependent on both the value and composition of AUM. The following is a summary of the Company's AUM by product, investment objective, and a roll-forward of the change in AUM for the three and six months ended June 30, 2013 and 2012:

Three Months Ended June 30, 2013 compared with Three Months Ended June 30, 2012

The Company generated net income of \$4.7 million (\$1.45 per share) for the three months ended June 30, 2013, compared with net income of \$3.3 million (\$1.07 per share) for the three months ended June 30, 2012. Operating income increased by \$1.3 million period over period primarily due to an increase in AUM, resulting in a \$3.7 million increase in revenue. The revenue increase was offset by an increase in operating expenses of \$2.4 million, primarily related to an increase in compensation and related expenses. The Company's corporate investments also contributed to the overall increase in net income. Operating profit margin remained flat at 36% for the second quarter 2013 and 2012. The Company expects that its operating margin will fluctuate from period to period based on various factors including revenues; investment results; employee performance; staffing levels; development of investment strategies, products, or channels; and industry comparisons.

Revenue

	2013	2012	% Change
Investment advisory	\$ 17,090	\$ 14,101	21%
Mutual fund administration, net	2,803	2,060	36%
Total	\$ 19,893	\$ 16,161	23%

As a percent of total second quarter 2013 revenues, investment advisory fees accounted for 86% and mutual fund administration fees made up the remaining 14%. This compared to 87% and 13%, respectively, for second quarter 2012.

Investment Advisory Fees. Investment advisory fees increased by \$3.0 million, or 21%, from the quarter ended June 30, 2012 to the quarter ended June 30, 2013. Investment advisory fees are calculated as a percentage of average net AUM at various rates depending on the investment product. The primary contributors to the increase in investment advisory fees were an increase of 16% in average AUM quarter over quarter and an increase of three basis points in the average advisory fee rate from 0.61% for the quarter ended June 30, 2012 to 0.64% for the quarter ended June 30, 2013. The increase in the average advisory fee rate is primarily due to a shift in the composition of AUM where long only strategies, which pay a lower advisory fee, made up 52% of total AUM as of June 30, 2013 compared to 57% of total AUM as of June 30, 2012, while long-short strategies, which have a higher advisory fee, made up 28% of total AUM as of June 30, 2013 compared to 24% of total AUM as of June 30, 2012.

Mutual fund administration fees include administration fees received from the Funds, which are calculated as a percentage of average mutual fund AUM, and all Beacon Hill fee revenue. The increase in the mutual fund administration fee is due to a 32% increase in average Funds AUM from \$4.7 billion for the quarter ended June 30, 2012 to \$6.2 billion for the quarter ended June 30, 2013 and an increase of two basis points in the net administration fee rate from 0.14% for the quarter ended June 30, 2012 to 0.16% for the quarter ended June 30, 2013.

General and Administrative. General and administrative expenses increased by \$237 thousand, or 20%, from the quarter ended June 30, 2012 to the quarter ended June 30, 2013. The increase is primarily due to an increase in the average Funds AUM of 32% from the quarter ended June 30, 2012 to the quarter ended June 30, 2013 offset by a decrease in shareholder maintenance costs during 2013.

The Company's corporate investments also contributed to the overall increase in net income. Operating profit margin remained flat at 36% period over period. Liquidity and Capital Resources

Sources of Liquidity

The Company's main source of liquidity is cash flow from operating activities which is generated from investment advisory and fund administration fees. The Company's entire investment portfolio is in readily marketable securities, which provide for cash liquidity, if needed. Investments in mutual funds are valued at their quoted current net asset value. Investments in private investment funds are valued independently based on readily available market quotations. Inflation is expected to have no material impact on the Company's performance. Cash and cash equivalents, accounts receivables, and investments represent approximately 86% and 84% of total assets as of June 30, 2013 and December 31, 2012 respectively. The Company believes these sources of liquidity as well as continuing cash flows from operating activities will be sufficient to meet current and future operating needs for at least the next 12 months.

Uses of Liquidity

In line with the Company's primary objective to fulfill its fiduciary duty to clients and secondary objective to achieve an adequate long-term return for shareholders, the Company anticipates the main uses of cash will be operating expenses.

The Board of Directors and management continually review various factors to determine whether the Company has capital in excess of that required for the business and the appropriate use of any excess capital. The factors considered include the Company's investment opportunities, the Company's risks, and future dividend and capital gain tax rates. Evaluating management's stewardship of capital for shareholders is a central part of the Company's investment discipline that it practices for its clients. The Company holds itself to the same standard when evaluating investments for its clients.

For the six months ended June 30, 2012, net cash used in financing activities totaled \$335 thousand primarily related to the payment of taxes withheld on employee stock transactions offset by excess income tax benefit from stock-based compensation.

Table of Contents**Use of Supplemental Data as Non-GAAP Performance Measure****Net Operating Income After Tax**

As supplemental information, we are providing performance measures that are based on methodologies other than generally accepted accounting principles (non-GAAP) for Net Operating Income After Tax that management uses as benchmarks in evaluating and comparing the period-to-period operating performance of the Company and its subsidiaries.

The Company defines net operating income after tax as the Company's net operating income less its income tax provision, excluding investment income and the tax impact related to the investment income. The Company believes that net operating income after tax provides a good representation of the Company's operating performance, as it excludes the impact of investment income on financial results. The amount of the investment portfolio and market fluctuations on the investments can change significantly from one period to another, which can distort the underlying earnings potential of a company. We also believe net operating income after tax is an important metric in estimating the value of an asset management business. This non-GAAP measure is provided in addition to net income and net operating income and is not a substitute for net income or net operating income and may not be comparable to non-GAAP performance measures of other companies.

(in thousands, except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Net operating income, GAAP basis	\$ 7,152	\$ 5,831	\$ 13,779	\$ 11,851
Non-GAAP adjustments:				
Tax provision excluding impact of investment income	2,876	2,212	5,307	4,416
Net operating income after tax, non-GAAP basis	\$ 4,276	\$ 3,619	\$ 8,472	\$ 7,435
Net operating income after tax per share, non-GAAP basis	\$ 1.32	\$ 1.17	\$ 2.63	\$ 2.42
Weighted average shares outstanding, GAAP basis	3,248	3,101	3,223	3,066

The tax provision excluding impact of investment income is calculated by applying the tax rate from the actual tax provision to net operating income.

It does not have any obligation under a guarantee contract, or a retained or contingent interest in assets or similar arrangement that serves as credit, liquidity or market risk support for such assets, or any other obligation, including a contingent obligation, under a contract that would be accounted for as a derivative instrument or arising out of a variable interest.
