PRESS RELEASE

Amsterdam, 21 October 2013

ING announces size of planned sale of shares in ING U.S.

ING announced today that it plans to sell approximately 30 million shares of common stock of ING U.S., Inc. in an SEC-registered public offering, representing a stake of 11.5% in its U.S.-based retirement, investment and insurance subsidiary. ING Group intends to use the proceeds of the planned transaction for the reduction of Group core debt.

The sale of 30 million shares would reduce ING Group's stake in ING U.S. from approximately 71% to approximately 60%. Under the planned offering, ING Group would grant the underwriters for the transaction an option to purchase up to 4.5 million additional shares, which, if fully exercised, would further reduce ING Group's stake in ING U.S. to approximately 58%. The final timing, size and offer price for the planned transaction have not yet been determined and remain subject to market and other conditions.

The transaction announced today will not impact the profit and loss account of ING Group. The transaction is expected to have a negative impact of approximately EUR 0.5 billion on the Shareholders' Equity of ING Group (excluding the possible exercise of the underwriters' option to purchase additional shares). This amount reflects the difference between the anticipated net proceeds of the transaction, based on the current market price of ING U.S. common stock, and the estimated IFRS book value of the stake being sold. The actual amount of any decrease in ING Group Shareholders' Equity will depend on the pricing and number of shares sold and will be reflected in the fourth-quarter financial statements of ING Group.

ING has previously announced its intention to divest its remaining stake in ING U.S. over time, in line with its strategy to separate and divest its insurance and investment management businesses. In this context, ING sold shares of ING U.S. through an initial public offering in May 2013. As announced on 13 September 2013, ING U.S. filed a registration statement with the SEC in connection with the possible sale of additional shares of ING U.S. by ING Group. ING U.S. filed an amendment to this registration statement today, including information on the size of the planned offering by ING Group. If this offering is completed, any sale of ING Group's remaining ING U.S. shares is expected to be subject to a lock-up period of 90 days from the pricing of the offering (subject to certain exceptions and the underwriters' ability to waive lock-up restrictions). ING U.S. common stock is listed on the New York Stock Exchange under the ticker symbol **VOYA**.

In light of ING's intention to divest its remaining stake in ING U.S. over time, as of 30 September 2013, ING U.S. will be classified as held for sale and reported in ING Group's IFRS financial statements under net results from discontinued operations.

The amended registration statement filed today also includes the following information regarding current ING U.S. expectations for its financial results for the quarter ended 30 September 2013;

ING U.S. currently is in the process of preparing its consolidated U.S. GAAP financial statements for the quarter ended 30 September 2013. Subject to the conduct and completion of its financial closing procedures, ING U.S. anticipates that its operating earnings before income taxes will be higher, in the aggregate, than the results ING U.S. reported for the quarter ended 30 June 2013, and that its ongoing business adjusted operating earnings before income taxes will be generally consistent, in the aggregate, with the results ING U.S. reported for the quarter ended 30 June 2013.

ING U.S.'s independent registered public accounting firm has not audited, reviewed or performed any procedures, and does not express an opinion or any form of assurance, with respect to ING U.S.'s anticipated third quarter financial results. ING U.S.'s actual results may differ materially from its current expectations due to the completion of financial closing procedures, final adjustments and other developments, including subsequent events, if any, that may arise between now and the time that the consolidated financial statements for this period are issued. The foregoing information is qualified by, and should be read together with Management's Discussion and Analysis of Results of Operations and Financial Condition and the consolidated financial statements and the related notes included in the registration statement.

The information on financial results in the amended registration statement relate to ING U.S. only and are based on U.S. GAAP. ING Group will publish its third quarter IFRS results on 6 November.

The registration statement relating to these securities filed with the SEC has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. The registration statement relating to the offering may be obtained by visiting the SEC website at www.sec.gov.
