SUMMARY

This is only a summary of the offering. To fully understand an investment in the notes, you must consider this prospectus supplement, the accompanying prospectus and the detailed information incorporated by reference into them, including the financial statements and their accompanying notes.

For purposes of this prospectus supplement, unless we have indicated otherwise or the context otherwise requires, the terms the Company, we, our or like terms refer to D.R. Horton, Inc., a Delaware corporation, and its predecessors and subsidiaries.

D.R. Horton, Inc.

D.R. Horton, Inc. is one of the largest homebuilding companies in the United States. We construct and sell homes through our operating divisions in 77 markets in 27 states, under the names of D.R. Horton, *America's Builder*, Emerald Homes, Breland Homes and Regent Homes. Our homes generally range in size from 1,000 to more than 4,000 square feet and in price from \$100,000 to more than \$1,000,000. For the year ended September 30, 2013, we closed 24,155 homes with an average closing sales price of approximately \$249,400. For the three months ended December 31, 2013, we closed 6,188 homes with an average closing sales price of approximately \$263,500.

Through our financial services operations, we provide mortgage financing and title agency services to homebuyers in many of our homebuilding markets. DHI Mortgage, our 100% owned subsidiary, provides mortgage financing services primarily to our homebuilding customers and generally sells the mortgages it originates and the related servicing rights to third-party purchasers. DHI Mortgage originates loans in accordance with purchaser guidelines and sells substantially all of its mortgage production shortly after origination. Our subsidiary title companies serve as title insurance agents by providing title insurance policies, examination and closing services, primarily to our homebuilding customers.

Our financial reporting segments consist of six homebuilding segments and a financial services segment. Our homebuilding operations are the most substantial part of our business, comprising approximately 97% and 98% of consolidated revenues of \$6.3 billion and \$1.7 billion, respectively, for the year ended September 30, 2013 and for the three months ended December 31, 2013. Our homebuilding operations generate most of their revenues from the sale of completed homes, with a lesser amount from the sale of land and lots. In addition to building traditional single-family detached homes, we also build attached homes, such as town homes, duplexes, triplexes and condominiums. The sale of detached homes generated approximately 91% of home sales revenues for both the year ended September 30, 2013 and the three months ended December 31, 2013. Our financial services segment generates its revenues from originating and selling mortgages and collecting fees for title insurance agency and closing services.

For more information about our business, please refer to the *Business* section in our most recent annual report on Form 10-K filed with the SEC and incorporated by reference in this prospectus supplement and the *Management's Discussion and Analysis of Financial Condition and Results of Operations* sections of our most recent annual report on Form 10-K and quarterly report on Form 10-Q filed with the SEC and incorporated by reference in this prospectus supplement.

Our principal executive offices are located at 301 Commerce Street, Suite 500, Fort Worth, Texas 76102. Our telephone number is (817) 390-8200, and our Internet website address is www.drhorton.com. Information on or connected to our Internet website is not a part of this prospectus supplement.

Recent Developments

Senior Notes Maturity

On January 15, 2014, we repaid the remaining \$145.9 million principal amount of our 6.125% senior notes which were due on that date.

Quarterly Cash Dividend

In January 2014, our board of directors declared a quarterly cash dividend of \$0.0375 per common share, which was paid on February 18, 2014 to stockholders of record on February 7, 2014.

Current Industry Conditions

In the first quarter of fiscal 2014, demand for new homes increased in many of our markets as compared to the prior year quarter, while the supply of homes for sale was limited relative to demand. This favorable supply and demand environment resulted in increased sales volume, higher average sales and closing prices and improved gross margins in our homebuilding segments compared to the prior year. During the three months ended December 31, 2013, the number and value of our net sales orders increased 4% and 14% compared to the prior year, and the number of homes closed and home sales revenues increased 19% and 33% compared to the prior year. The average selling price of our homes closed increased 12% and our gross margins on homes closed increased by 350 basis points in the first quarter of fiscal 2014 as compared to the prior year period, as favorable market conditions have allowed us to increase sales prices or reduce sales incentives in many of our communities over the past year. Pre-tax income was \$189.7 million in the three months ended December 31, 2013, compared to \$107.9 million in the prior year period. These results reflect the general improvement in housing market conditions, strong operating results from our land, lot and housing investments and tight controls of our selling, general and administrative (SG&A) expenses and interest costs.

After generating strong increases in net sales volume and home prices in the first half of fiscal 2013, our net sales volume growth moderated in the second half of fiscal 2013 and into fiscal 2014. We believe several factors contributed to this moderation, including increased mortgage interest rates, higher home prices and our efforts to align our sales pace with our construction activities in many of our communities. We believe that housing demand in our individual operating markets is tied closely to each market's economy, as measured by job growth, household incomes, household formations and consumer confidence. The U.S. economy appears to be slowly improving, which we expect will allow slow to moderate growth in housing demand in markets where job growth is occurring.

We believe our business is well-positioned to continue to profitably grow during the housing recovery due to our strong balance sheet and liquidity position, our finished lot and land position, our inventory of available homes and our broad geographic operating base. We increased our investments in land, lot and home inventories during the first quarter of fiscal 2014 in response to the improved market conditions, and we will continue to adjust our strategies and investments based on housing demand and our performance in each of our markets. Nevertheless, the pace of the housing recovery and our future results could be negatively affected by weakening economic conditions, decreases in the level of employment and housing demand, decreased home affordability, significant increases in mortgage interest rates or tightening of mortgage lending standards.
