COMPANY OUTLOOK

Upon the cessation of our original core business of LCM production and the change of name of our Company from Nam Tai Electronics, Inc. (NYSE Symbol: NTE) to Nam Tai Property Inc. (NYSE Symbol: NTP), we have formally transformed our core business from the EMS industry to property development and management as previously announced. In addition, we plan to sell our manufacturing facilities in Wuxi to third parties and sell back the land we acquired in Wuxi to the local government. Currently, we are thoroughly focusing our efforts on developing the two parcels of land in Gushu, Shenzhen, and Guangming, Shenzhen, respectively, by converting these two parcels of land into high-end commercial complexes as previously announced.

We are happy to announce that we have obtained the project initiation approval for the development of phase 1 of Gushu land (which consists approximately half of the entire parcel of land in Gushu) from the land department of the local government and we will continue to apply for all other necessary permits and approvals in due course. We expect that it will take approximately one year for us to obtain all permits and approvals for the commencement of the phase 1 construction. After the completion of phase 1 construction (which is expected to take approximately three years), we intend to apply the necessary permits and approval for the construction of the phase 2 (on the other half of the Gushu land). However, we have not established a definitive timetable yet. For the time being, the property at phase 2 has been rented out to a third party lessee for a term of three years.

Regarding the parcel of land in Guangming, a feasibility study report has been prepared by a professional real estate advisory firm and the report is expected to become available within the next few days on the Company's website for your reference. For this parcel of land, no project initiation approval for the development is required and we are in the process of applying for other necessary permits and approvals.

We are currently recruiting talents and gathering intelligence for our property development projects. In the meantime, we are also collecting all the relevant information and will pass them to our board of directors for their consideration and approval by the end of July 2014. However, there can be no assurance that we will be able to obtain all requisite permits and approvals from relevant government authorities in relation to the redevelopment of the land, or to successfully redevelop the two parcels of land.

Regarding new employee for the new core business:

We have recently appointed an experienced Project Director, Mr. Eddie Tsui, age 40, to be in charge of our property development projects. Eddie is an award winning urban designer and architect, practicing integrated planning, urban design and architectural design, with over 15 years of experience in geographies covering Mainland China, Hong Kong, United States, South East Asia and South Korea.

Eddie was the managing director of the Hong Kong Design Planning and Economics Group of AECOM Technology Corporation (NYSE symbol: ACM) (AECOM), leading a team of over 140 staff and focusing on managing and cultivating business through delivery of quality projects, as well as its strategic planning and growth. Before this, he was the managing director for the Guangzhou and Shekou offices responsible for developing AECOM's Southern China business.

Eddie received a master of architecture degree from Harvard University and a bachelor of arts degree from the University of Pennsylvania, Eddie is fluent in English, Mandarin and Cantonese, verbally and in writing. He has also acted as the overseas representative of the People's Political Consultative Committee of Shaoxing City in Zhejiang province since 2003.

The information contained in or that can be accessed through the websites mentioned in this announcement does not form part of this announcement.
