Dear Covidien Vascular Investigators and Teams:

I am pleased to share with you some exciting news.

This week Covidien and Medtronic announced a definitive agreement under which Covidien has agreed to combine with Medtronic. This combination will create the world's premier medical technology and services company with a comprehensive product portfolio and broad global reach that is better able to improve healthcare outcomes.

Like Covidien, Medtronic is a global leader in medical technology, services and solutions, with an extensive portfolio of therapy, procedural and systems innovations, including treatments for heart disease, diabetes, and chronic pain. Joining Medtronic's and Covidien's highly complementary product portfolios will allow the combined entity to offer customers one of the broadest and most compelling offerings possible to improve patient care and control costs. Ultimately, our increased breadth and enhanced R&D will strengthen our ability to build win-win, value-based partnerships with you, our valued customer.

When this transaction is completed, which is subject to certain conditions but which we expect will occur in the fourth calendar quarter of 2014 or early 2015, we will be presenting the new value propositions to support your hospital/practice. Importantly, our commitment to our customers is unwavering.

Until the close of the transaction, we will continue to operate independently, and without any changes to the quality of service you have come to expect from Covidien. We fully expect your interactions with us will remain unchanged and that this transition will be seamless for you.

We would like to thank you for all the great work you are doing with our active clinical programs. We value this partnership and your continued attention and commitment to our clinical programs.

We are committed to keeping you informed of important developments. If you have any questions, please feel free to reach out directly or to your usual Covidien contact.

Thank you for your continued support of Covidien.

Sincerely,

Brian Verrier

including, if the transaction is consummated, changes in tax laws that would result in New Medtronic being treated as a domestic corporation for United States federal tax purposes; the loss of key senior management or scientific staff; and such other risks and uncertainties detailed in Medtronic's periodic public filings with the SEC, including but not limited to Medtronic's Annual Report on Form 10-K for the fiscal year ended April 26, 2013 and from time to time in Medtronic's other investor communications.
