GAMCO Global Gold, Natural Resources & Income Trust (the Fund, we, or our) has entered into a sales agreement with G.research, Inc. (the Sales Manager), dated April 11, 2013, relating to the common shares of beneficial interest, par value \$0.001 per share, (common shares) offered by this prospectus supplement and the accompanying prospectus. In accordance with the terms of the sales agreement, we may offer and sell up to 9,000,000 of our common shares from time to time through the Sales Manager, as our agent for the offer and sale of the common shares. Under the Investment Company Act of 1940, as amended (the 1940 Act), the Fund may not sell any common shares at a price below the current net asset value of such common shares, exclusive of any distributing commission or discount. The Fund is a non-diversified, closed-end management investment company registered under the 1940 Act. The Fund s primary investment objective is to provide a high level of current income. The Fund s secondary investment objective is to seek capital appreciation consistent with the Fund s strategy and its primary objective. The Fund s investment adviser is Gabelli Funds, LLC (the Investment Adviser). An investment in the Fund is not appropriate for all investors. We cannot assure you that the Fund s objectives will be achieved.

Our common shares are listed on the NYSE MKT LLC (the NYSE MKT) under the symbol GGN. As of June 30, 2014, the last reported sale price for our common shares on the NYSE MKT was \$10.98 per share. As of June 30, 2014, the net asset value per share for our common shares was \$10.72. Our 5.00% Series B Cumulative Preferred Shares are also listed on the NYSE MKT under the symbol GGN PrB.

Sales of our common shares, if any, under this prospectus supplement and the accompanying prospectus may be made in negotiated transactions or transactions that are deemed to be at the market as defined in Rule 415 under the Securities Act of 1933, as amended (the 1933 Act), including sales made directly on the NYSE MKT or sales made to or through a market maker other than on an exchange.

The Sales Manager, G.research, Inc., will be entitled to compensation at a commission rate of 1.00% of the gross sale price per share for daily trading amounts up to 100,000 common shares and a commission rate of 0.75% of the gross sale price per share for daily trading amounts in excess of 100,000 common shares sold under the sales agreement, as may be further agreed upon by the Fund and the Sales Manager from time to time. In connection with the sale of the common shares on our behalf, the Sales Manager may be deemed to be an underwriter within the meaning of the 1933 Act and the compensation of the Sales Manager may be deemed to be underwriting commissions or discounts.

The Sales Manager is not required to sell any specific number or dollar amount of common shares, but will use its reasonable efforts to sell the common shares offered by this prospectus supplement. There is no arrangement for common shares to be received in an escrow, trust, or similar arrangement. The offering of common shares pursuant to the sales agreement will terminate upon the earlier of (i) the sale of all common shares subject to the sales agreement

and (ii) the termination of the sales agreement by either the Sales Manager or the Fund.

The Sales Manager is a wholly-owned subsidiary of Gabelli Securities, Inc., which is a majority-owned subsidiary of the parent company of the Investment Adviser, which is, in turn, indirectly majority-owned by Mario J. We may offer and sell up to 9,000,000 of our common shares from time to time through the Sales Manager, as our agent for the offer and sale of the common shares. There is no guaranty that there will be any sales of our common shares pursuant to this prospectus supplement and the accompanying prospectus. The table below assumes that we will sell 9,000,000 common shares, at a price of \$10.98 per share (the last reported market price per share of our common shares on June 30, 2014). Actual sales, if any, of our common shares under this prospectus supplement and the accompanying prospectus may be less than as set forth in the table below. In addition, the price per share of any such sale may be greater or less than \$10.98, depending on the market price of our common shares at the time of any such sale. To the extent that the market price per share of our common shares on any given day is less than the net asset value per share on such day, we will instruct the Sales Manager not to make any sales on such day.

The following table sets forth the audited capitalization of the Fund as of December 31, 2013, and its adjusted capitalization assuming the common shares offered in this prospectus supplement had been issued.

Table of Contents**TABLE OF FEES AND EXPENSES**

The following tables are intended to assist you in understanding the various costs and expenses directly or indirectly associated with investing in our common shares as a percentage of net assets attributable to common shares. Amounts are for the current fiscal year after giving effect to anticipated net proceeds of the offering, assuming that we incur the estimated offering expenses, including any preferred share offering expenses.

Shareholder Transaction Expenses

Sales Load (as a percentage of offering price)	1.00%
Offering Expenses Borne by the Fund (as a percentage of offering price)	0.00%
Dividend Reinvestment Plan Fees	None (1)

	Percentage of Net Assets Attributable to Common Shares
Annual Expenses	
Management Fees	1.08% (2)
Interest on Borrowed Funds	NONE
Dividends on preferred shares	0.37% (3)
Other Expenses	0.10% (2)
Total annual fund operating expenses and dividends on preferred shares	0.47%
Total Annual Expenses	1.55% (2)

- (1) You will be charged a \$1.00 service charge and pay brokerage charges if you direct the plan agent to sell your common shares held in a dividend reinvestment account.
- (2) The Investment Adviser's fee is 1.00% annually of the Fund's average weekly net assets, with no deduction for the liquidation preference of any outstanding preferred shares. Consequently, inasmuch as the Fund has preferred shares outstanding, the investment management fees and other expenses as a percentage of net assets attributable to common shares are higher than if the Fund did not utilize a leveraged capital structure. Other Expenses are based on estimated amounts for the current year assuming completion of the proposed issuances.
- (3) The Dividends on preferred shares represent distributions on the preferred shares outstanding.

Example

The following example illustrates the expenses you would pay on a \$1,000 investment in common shares, assuming a 5% annual portfolio total return.*

Total Expenses Incurred	\$ 26	\$ 58	\$ 94	\$ 193
-------------------------	-------	-------	-------	--------

* **The example should not be considered a representation of future expenses.** The example assumes that the amounts set forth in the Annual Expenses table are accurate and that all distributions are reinvested at net asset value. Actual expenses may be greater or less than those assumed. Moreover, the Fund's actual rate of return may be greater or less than the hypothetical 5% return shown in the example.

USE OF PROCEEDS

Sales of our common shares, if any, under this prospectus supplement and the accompanying prospectus may be made in negotiated transactions or transactions that are deemed to be at the market as defined in Rule 415 under the 1933 Act, including sales made directly on the NYSE MKT or sales made to or through a market maker other than on an exchange. There is no guaranty that there will be any sales of our common shares pursuant to this prospectus supplement and the accompanying prospectus. Actual sales, if any, of our common shares under this prospectus supplement and the accompanying prospectus may be less than as set forth in this paragraph. In addition, the price per share of any such sale may be greater or less than the price set forth in this paragraph, depending on the market price of our common shares at the time of any such sale. As a result, the actual net proceeds we receive may be more or less than the amount of net proceeds estimated in this prospectus supplement. Assuming the sale of all of our common shares offered under this prospectus supplement and the accompanying prospectus, at the last reported market price of \$10.98 per share for our common shares as of June 30, 2014, we estimate that the net proceeds of this offering will be approximately \$97,831,800 after deducting the estimated underwriting discount.

The Investment Adviser anticipates that the investment of the proceeds will be made in accordance with the Fund's investment objectives and policies as appropriate investment opportunities are identified, which is expected to substantially be completed within three months; however, changes in market conditions could result in the Fund's anticipated investment period extending to as long as six months.
