UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10 Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 000-50976

HURON CONSULTING GROUP INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

01-0666114
(IRS Employer
Identification Number)

550 West Van Buren Street

Chicago, Illinois

60607

(Address of principal executive offices)

(Zip Code)

(312) 583-8700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of October 22, 2014, 22,868,714 shares of the registrant's common stock, par value \$0.01 per share, were outstanding.

Table of Contents

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

1. Description of Business

Huron Consulting Group is a leading provider of operational and financial consulting services. We help clients in diverse industries improve performance, transform the enterprise, reduce costs, leverage technology, process and review large amounts of complex data, address regulatory changes, recover from distress, and stimulate growth. Our professionals employ their expertise in finance, operations, strategy, and technology to provide our clients with specialized analyses and customized advice and solutions that are tailored to address each client's particular challenges and opportunities to deliver sustainable and measurable results. We provide consulting services to a wide variety of both financially sound and distressed organizations, including healthcare organizations, leading academic institutions, Fortune 500 companies, governmental entities, and law firms.

2. Basis of Presentation

The accompanying unaudited Consolidated Financial Statements reflect the financial position, results of operations, and cash flows as of and for the three and nine months ended September 30, 2014 and 2013. These financial statements have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC) for Quarterly Reports on Form 10-Q. Accordingly, these financial statements do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America (GAAP) for annual financial statements. In the opinion of management, these financial statements reflect all adjustments of a normal, recurring nature necessary for the fair statement of our financial position, results of operations, and cash flows for the interim periods presented in conformity with GAAP. These financial statements should be read in conjunction with the Consolidated Financial Statements and notes thereto for the year ended December 31, 2013 included in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q for the periods ended March 31, 2014 and June 30, 2014.

Certain amounts reported in the previous year have been reclassified to conform to the 2014 presentation. Our results for any interim period are not necessarily indicative of results for a full year or any other interim period.

During the fourth quarter of 2013, we identified that accrued capital expenditures were incorrectly classified as Purchases of property and equipment, net within the investing activities section of the Consolidated Statements of Cash Flows. The Consolidated Statements of Cash Flows for the nine months ended September 30, 2013 presented herein have been revised to reflect the correction of this error. The result of this correction was an increase in net cash used in investing activities of \$2.0 million and an increase in net cash used in financing activities of \$0.5 million in the first nine months of 2013 with an offsetting increase in net cash provided by operating activities of \$2.5 million. This classification error was not considered material for any period impacted.

3. New Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This ASU requires management to evaluate, at each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about an entity's ability to continue as a going concern within one year after the date the financial statements are issued and provide related footnote disclosures. The guidance will be effective for the Company for the fiscal year ending December 31, 2016, with early adoption permitted. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, *Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*. This guidance requires that a performance target that affects vesting and could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification (ASC) 718, *Compensation - Stock Compensation*, as it relates to such awards. This guidance is effective for the Company beginning in the first quarter of 2016, with early adoption permitted. The amendments of ASU 2014-12 may be applied either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter, with the cumulative effect of applying the amendments as an adjustment to the opening retained earnings balance as of the beginning of the earliest annual period presented in the financial statements. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

Table of Contents

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, as a new Topic, ASC 606. The new revenue recognition standard provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for the Company beginning in the first quarter of 2017 and is to be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. We are currently evaluating the potential effect of adopting this guidance on our consolidated financial statements, as well as the transition methods.

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. This guidance includes amendments that change the requirements for reporting discontinued operations and require additional disclosures about discontinued operations. Under the new guidance, only disposals representing a strategic shift in operations that has (or will have) a major effect on the entity's operations and financial results should be presented as discontinued operations. Examples include a disposal of a major geographic area, a major line of business, a major equity method investment, or other major parts of an entity. Additionally, the revised guidance requires expanded disclosures in the financial statements for discontinued operations as well as for disposals of significant components of an entity that do not qualify for discontinued operations presentation. This guidance is effective for the Company beginning in the first quarter of 2015. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This guidance requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented in the financial statements as either a reduction to a deferred tax asset or separately as a liability depending on the existence, availability and/or use of an operating loss carryforward, a similar tax loss, or a tax credit carryforward. The Company adopted ASU 2013-11 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

In March 2013, the FASB issued ASU No. 2013-05, *Parent's Accounting for the Cumulative Translation Adjustment Upon Derecognition of Certain Subsidiaries or Groups of Assets Within a Foreign Entity or of an Investment in a Foreign Entity*, which amends current accounting guidance on foreign currency matters. This guidance requires that the entire amount of a cumulative translation adjustment related to an entity's investment in a foreign entity should be released when there has been a: (i) sale of a subsidiary or group of net assets within a foreign entity and the sale represents the substantially complete liquidation of the investment in the foreign entity, (ii) loss of a controlling financial interest in an investment in a foreign entity, and (iii) step acquisition for a foreign entity. The Company adopted ASU 2013-05 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

4. Goodwill and Intangible Assets

The table below sets forth the changes in the carrying amount of goodwill by reportable segment for the nine months ended September 30, 2014.

	Huron Healthcare	Huron Legal	Huron Education and Life Sciences	Huron Business Advisory	Total
Balance as of December 31, 2013:					
Goodwill	\$ 355,880	\$ 53,159	\$ 111,504	\$ 159,077	\$ 679,620

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

During the first quarter of 2014, we reorganized our internal operating structure to better align our service offerings and moved our Enterprise Performance Management (EPM) practice (formerly referred to as Blue Stone International, a business which we acquired during the fourth quarter of 2013) from the Huron Education and Life Sciences segment to the Huron Business Advisory segment. As a result of this change, we reassigned the goodwill balance of the EPM practice, which totaled \$16.7 million as of March 31, 2014, from the Huron Education and Life Sciences reporting unit to the EPM reporting unit, which is part of the Huron Business Advisory segment.

In conjunction with the goodwill reassignment, we performed an interim impairment test for the goodwill balances within our Huron Education and Life Sciences and EPM reporting units as of March 31, 2014. Our goodwill impairment test was performed using the quantitative two-step process. Based on the results of the first step of the goodwill impairment test, we determined that the fair values of our Huron Education and Life Sciences and EPM reporting units exceeded their carrying values, including goodwill. As the fair value of each reporting unit exceeded its carrying value, including goodwill, the second step of the goodwill impairment test was not necessary.

During the first quarter of 2014, the Company completed the acquisition of The Frankel Group Associates LLC, a New York-based life sciences consulting firm, within the Huron Education and Life Sciences segment. The acquisition date fair value of the consideration transferred totaled \$18.0 million, which included the fair value of contingent consideration of \$0.6 million. As part of the purchase price allocation, we recorded \$5.7 million of intangible assets and \$8.3 million of goodwill.

During the second quarter of 2014, the Company completed the acquisition of Vonlay, LLC, a healthcare technology consulting firm, within the Huron Healthcare segment. The fair value of the consideration transferred totaled \$34.5 million. As part of the purchase price allocation, we recorded \$8.3 million of intangible assets and \$21.7 million of goodwill.

Intangible assets as of September 30, 2014 and December 31, 2013 consisted of the following:

	Useful Life in Years	September 30, 2014		December 31, 2013	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Customer contracts	1	\$ 1,257	\$ 791	\$ 689	\$ 226
Customer relationships	3 to 13	41,975	19,445	31,946	14,814

Identifiable intangible assets with finite lives are amortized over their estimated useful lives. The majority of customer relationships are amortized on an accelerated basis to correspond to the cash flows expected to be derived from the relationships. All other intangible assets are amortized on a straight-line basis.

Intangible assets amortization expense was \$2.8 million and \$8.3 million for the three and nine months ended September 30, 2014, respectively. Intangible asset amortization expense was \$1.4 million and \$4.3 million for the three and nine months ended September 30, 2013, respectively. Estimated annual intangible assets amortization expense is \$11.0 million for 2014, \$8.4 million for 2015, \$6.0 million for 2016, \$4.3 million for 2017, \$3.0 million for 2018, and \$1.4 million for 2019. Actual future amortization expense could differ from these estimated amounts as a result of future acquisitions and other factors.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)****5. Earnings Per Share**

Basic earnings per share excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period, excluding unvested restricted common stock. Diluted earnings per share reflects the potential reduction in earnings per share that could occur if securities or other contracts to issue common stock were exercised or converted into common stock under the treasury stock method. Earnings per share under the basic and diluted computations are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Net income from continuing operations	\$ 12,219	\$ 17,161	\$ 66,258	\$ 44,344
Income (loss) from discontinued operations, net of tax		10		(31)
Net income	\$ 12,219	\$ 17,171	\$ 66,258	\$ 44,313
Weighted average common shares outstanding basic	22,488	22,386	22,573	22,293
Weighted average common stock equivalents	487	487	479	419
Weighted average common shares outstanding diluted	22,975	22,873	23,052	22,712
Net earnings per basic share:				
Income from continuing operations	\$ 0.54	\$ 0.77	\$ 2.94	\$ 1.99
Income (loss) from discontinued operations, net of tax				
Net income	\$ 0.54	\$ 0.77	\$ 2.94	\$ 1.99
Net earnings per diluted share:				
Income from continuing operations	\$ 0.53	\$ 0.75	\$ 2.87	\$ 1.95
Income (loss) from discontinued operations, net of tax				
Net income	\$ 0.53	\$ 0.75	\$ 2.87	\$ 1.95

The anti-dilutive securities excluded from the computation of the weighted average common stock equivalents presented above were as follows (in thousands):

	As of September 30,	
	2014	2013
Unvested restricted stock awards	14	
Outstanding common stock options		37
Convertible senior notes	3,129	
Warrants related to the issuance of convertible senior notes	3,129	
Total anti-dilutive securities	6,272	37

See Note 6 Financing Arrangements for further information on the convertible senior notes and warrants related to the issuance of convertible notes.

In February 2014, the Company's board of directors authorized a share repurchase program pursuant to which the Company may, from time to time, repurchase up to \$50 million of its common stock through February 28, 2015 (the February 2014 Share Repurchase Program). The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements. In the three and nine months ended September 30, 2014, we executed share repurchases of 567,790 shares and 725,640 shares, respectively. Such repurchased shares were settled for \$35.6 million and \$45.1 million, respectively.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)****6. Financing Arrangements**

A summary of the carrying amounts of our debt is as follows (in thousands):

	September 30, 2014	December 31, 2013
1.25% convertible senior notes due 2019	\$ 211,119	\$
Senior secured credit facility	150,000	168,750
Total debt	361,119	168,750
Current maturities of debt	(27,500)	(25,000)
Long-term debt, net of current portion	\$ 333,619	\$ 143,750

Convertible Notes

In September 2014, the Company issued \$250 million principal amount of 1.25% convertible senior notes due 2019 (the Convertible Notes) in a private offering. The Convertible Notes are governed by the terms of an indenture between the Company and U.S. Bank National Association, as Trustee (the Indenture). The Convertible Notes are senior unsecured obligations of the Company and will pay interest semi-annually on April 1 and October 1 of each year at an annual rate of 1.25%. The Convertible Notes will mature on October 1, 2019, unless earlier repurchased by the Company or converted in accordance with their terms.

Upon conversion, the Convertible Notes will be settled, at our election, in cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock. Our current intent and policy is to settle conversions with a combination of cash and shares of common stock with the principal amount of the Convertible Notes paid in cash, in accordance with the settlement provisions of the Indenture.

The initial conversion rate for the Convertible Notes is 12.5170 shares of our common stock per \$1,000 principal amount of the Convertible Notes, which is equal to an initial conversion price of approximately \$79.89 per share of our common stock. The conversion rate will be subject to adjustment upon the occurrence of certain specified events but will not be adjusted for accrued and unpaid interest, except in certain limited circumstances described in the Indenture. Upon the occurrence of a make-whole fundamental change (as defined in the Indenture) the Company will, in certain circumstances, increase the conversion rate by a number of additional shares for a holder that elects to convert its Convertible Notes in connection with such make-whole fundamental change. Additionally, if the Company undergoes a fundamental change (as defined in the Indenture), a holder will have the option to require the Company to repurchase all or a portion of its Convertible Notes for cash at a price equal to 100% of the principal amount of the

Convertible Notes being repurchased plus any accrued and unpaid interest. As discussed below, the warrants which were entered into in connection with the Convertible Notes effectively raise the initial conversion price of the Convertible Notes from approximately \$79.89 to approximately \$97.12 per share.

Holders of the Convertible Notes may convert their Convertible Notes at their option at any time prior to July 1, 2019, only under the following circumstances:

during any calendar quarter (and only during such calendar quarter) commencing after December 31, 2014 if, for each of at least 20 trading days (whether or not consecutive) during the 30 consecutive trading day period ending on, and including, the last trading day of the immediately preceding calendar quarter, the last reported sale price of the Company's common stock for such trading day is equal to or greater than 130% of the applicable conversion price on such trading day;

during the five consecutive business day period immediately following any five consecutive trading day period (such five consecutive trading day period, the measurement period) in which, for each trading day of the measurement period, the trading price (as defined in the Indenture) per \$1,000 principal amount of the Convertible Notes for such trading day was less than 98% of the product of the last reported sale price of the Company's common stock for such trading day and the applicable conversion rate on such trading day; or

upon the occurrence of specified corporate transactions described in the Indenture.

On or after July 1, 2019 until the close of business on the second scheduled trading day immediately preceding the maturity date, a holder may convert all or a portion of its Convertible Notes, regardless of the foregoing circumstances.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

In accordance with ASC 470, *Debt*, we have separated the Convertible Notes into liability and equity components. The carrying amount of the liability component was determined by measuring the fair value of a similar liability that does not have an associated convertible feature, assuming our non-convertible debt borrowing rate. The carrying value of the equity component representing the conversion option, which is recognized as a debt discount, was determined by deducting the fair value of the liability component from the proceeds of the Convertible Notes. The debt discount is amortized to interest expense using an effective interest rate of 4.837% over the term of the Convertible Notes. As of September 30, 2014, the remaining life of the Convertible Notes is 5 years. The equity component will not be remeasured as long as it continues to meet the conditions for equity classification.

As of September 30, 2014, the Convertible Notes consisted of the following (in thousands):

Liability component:	
Proceeds	\$ 250,000
Less: debt discount, net of amortization	(38,881)
Net carrying amount	\$ 211,119
Equity component ⁽¹⁾	\$ 39,287

(1) Included in Additional paid-in capital on the consolidated balance sheet as of September 30 2014. The transaction costs related to the issuance of the Convertible Notes were separated into liability and equity components based on their relative values, as determined above. Transaction costs attributable to the liability component are capitalized and amortized to interest expense over the term of the Convertible Notes, and transaction costs attributable to the equity component were netted with the equity component of the Convertible Notes in stockholders' equity. Total debt issuance costs were approximately \$7.3 million, of which \$6.2 million was allocated to liability issuance costs and \$1.1 million was allocated to equity issuance costs.

The following table presents the amount of interest expense recognized related to the Convertible Notes (in thousands):

**Three and Nine
Months Ended**

	September 30, 2014	
Contractual interest coupon	\$	182
Amortization of debt issuance costs		68
Amortization of debt discount		406
 Total interest expense recognized	 \$	 656

In connection with the issuance of the Convertible Notes, we entered into convertible note hedge transactions and warrant transactions. The convertible note hedge transactions are intended to reduce the potential future economic dilution associated with the conversion of the Convertible Notes and, combined with the warrants, effectively raise the price at which economic dilution would occur from the initial conversion price of approximately \$79.89 to approximately \$97.12 per share. For purposes of the computation of diluted earnings per share in accordance with GAAP, dilution will occur when the average share price of our common stock for a given period exceeds the conversion price of the Convertible Notes, which initially is equal to approximately \$79.89 per share. The convertible note hedge transactions and warrant transactions are discussed separately below.

Convertible Note Hedge Transactions. In connection with the issuance of the Convertible Notes, the Company entered into the convertible note hedge transactions whereby the Company has call options to purchase a total of approximately 3.1 million shares of the Company's common stock, which is the number of shares initially issuable upon conversion of the Convertible Notes in full, at a price of approximately \$79.89, which corresponds to the initial conversion price of the Convertible Notes, subject to customary anti-dilution adjustments substantially similar to those in the Convertible Notes. The convertible note hedge transactions are exercisable upon conversion of the Convertible Notes and will expire in 2019 if not earlier exercised. We paid an aggregate amount of \$42.1 million for the convertible note hedge transactions, which was recorded as additional paid-in capital in the consolidated balance sheets. The convertible note hedge transactions are separate transactions and are not part of the terms of the Convertible Notes.

Warrants. In connection with the issuance of the Convertible Notes, the Company sold warrants whereby the holders of the warrants have the option to purchase a total of approximately 3.1 million shares of the Company's common stock at a strike

Table of Contents

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

price of approximately \$97.12. The warrants will expire incrementally on 100 different dates from January 6, 2020 to May 28, 2020 and are exercisable at each such expiry date. If the average market value per share of our common stock for the reporting period exceeds the strike price of the warrants, the warrants will have a dilutive effect on our earnings per share. We received aggregate proceeds of \$23.6 million from the sale of the warrants, which was recorded as additional paid-in capital in the consolidated balance sheets. The warrants are separate transactions and are not part of the terms of the Convertible Notes or the convertible note hedge transactions.

The Company recorded a deferred tax liability of \$15.4 million in connection with the debt discount associated with the Convertible Notes and recorded a deferred tax asset of \$16.5 million in connection with the convertible note hedge transactions. The deferred tax liability and deferred tax asset are included in non-current deferred tax liabilities on the consolidated balance sheets.

Senior Secured Credit Facility

During 2011, the Company and certain of the Company's subsidiaries as guarantors entered into an Amended and Restated Credit Agreement with various financial institutions, as amended by the first, second, third, fourth, and fifth amendments to the credit agreement dated as of August 31, 2012, September 25, 2013, February 14, 2014, June 27, 2014, and September 3, 2014, respectively (as amended and modified, the 2011 Credit Agreement).

The 2011 Credit Agreement consists of a senior secured credit facility in an aggregate principal amount of \$450.0 million comprised of a five-year revolving credit facility (Revolver) under which the Company may borrow from time to time up to \$247.5 million and a \$202.5 million five-year term loan facility (Term Loan) that was funded in a single advance on the closing date of the first amendment. The 2011 Credit Agreement provides for the option to increase the revolving credit facility in an aggregate amount of up to \$50 million subject to certain requirements as defined in the 2011 Credit Agreement. The proceeds of the senior secured credit facility were used to refinance existing indebtedness and will continue to be used for working capital, capital expenditures, and other corporate purposes.

The obligations under the 2011 Credit Agreement are secured pursuant to a Security Agreement with Bank of America, N.A. as Collateral Agent. The Security Agreement grants Bank of America, N.A., for the ratable benefit of the lenders under the 2011 Credit Agreement, a first-priority lien, subject to permitted liens, on substantially all of the personal property assets of the Company and the subsidiary guarantors. The Revolver and Term Loan are also secured by a pledge of 100% of the voting stock or other equity interests in our domestic subsidiaries and 65% of the voting stock or other equity interests in our foreign subsidiaries.

Fees and interest on borrowings vary based on our total debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio as set forth in the 2011 Credit Agreement. Interest is based on a spread over the London Interbank Offered Rate (LIBOR) or a spread over the base rate, as selected by the Company. The base rate is the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate and (c) except during a Eurodollar Unavailability

Period, the Eurodollar Rate plus 1.0%.

As of September 30, 2014, the Term Loan had a principal amount outstanding of \$150.0 million, which is subject to scheduled quarterly principal payments. The current quarterly principal payments are \$6.3 million and increase to \$7.5 million beginning June 30, 2015 until the maturity date of September 25, 2018, at which time a final payment of \$40 million, plus any accrued and unpaid interest, will be due, as set forth in the 2011 Credit Agreement. All outstanding borrowings under the Revolver, as amended, will be due upon expiration of the 2011 Credit Agreement on September 25, 2018. As of September 30, 2014, the Company has made all scheduled quarterly amortization payments as they have come due in accordance with the Term Loan.

Under the 2011 Credit Agreement, dividends are restricted to an amount up to \$50 million plus 50% of cumulative consolidated net income from the closing date of the 2011 Credit Agreement plus 50% of the net cash proceeds from equity issuances.

The 2011 Credit Agreement contains quarterly financial covenants that require us to maintain a minimum fixed charge coverage ratio of 2.25 to 1.00 and a maximum leverage ratio of 3.00 to 1.00, as those ratios are defined therein, as well as a minimum net worth greater than \$150 million. At September 30, 2014, we were in compliance with these financial covenants with a fixed charge coverage ratio of 4.77 to 1.00, a leverage ratio of 1.13 to 1.00, and net worth greater than \$150 million. At December 31, 2013, we were also in compliance with the financial debt covenants.

The borrowing capacity under the 2011 Credit Agreement is reduced by any outstanding letters of credit and payments under the Term Loan. At September 30, 2014, outstanding letters of credit totaled \$5.1 million and are primarily used as security deposits for our

Table of Contents

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

office facilities. As of September 30, 2014, the unused borrowing capacity under the 2011 Credit Agreement was \$242.4 million. Borrowings outstanding under this credit facility at September 30, 2014 totaled \$150.0 million. These borrowings carried a weighted average interest rate of 2.0%, including the effect of the interest rate swaps described below in Note 8 Derivative Instruments and Hedging Activity. Borrowings outstanding at December 31, 2013 were \$168.8 million and carried a weighted average interest rate of 2.0%.

7. Restructuring Charges

During the third quarter of 2014, we incurred a \$0.2 million pretax restructuring charge primarily related to updated assumptions for the lease accrual of the London office space vacated in the second quarter of 2014. During the second quarter of 2014, we incurred a \$1.0 million pretax restructuring charge related to the consolidation of office spaces in Chicago, New York, and London. Of the total \$1.0 million charge, \$0.6 million related to the accrual of our remaining lease obligations at vacated spaces, net of estimated sublease income, and \$0.4 million related to accelerated depreciation of assets disposed as a result of the space consolidation. The vacated locations in Chicago and New York were acquired as part of business acquisitions during 2013 and 2014. During the first quarter of 2014, we incurred a \$0.1 million pretax restructuring charge related to workforce reductions in our London office to better align our resources with market demand in our Huron Legal segment.

During the second quarter of 2013, we incurred a \$0.6 million pretax restructuring charge related to the consolidation of office space in Washington, D.C. The charge primarily consisted of the accrual of remaining lease payments for an office we vacated during the second quarter of 2013.

As of September 30, 2014, our restructuring charge liability is \$0.6 million, and primarily consists of the present value of remaining lease payments for our vacated office spaces in Chicago, London, New York, and Washington, D.C. The restructuring charge liability is included as a component of Accrued expenses and Deferred compensation and other liabilities.

8. Derivative Instruments and Hedging Activity

On December 8, 2011, we entered into a forward amortizing interest rate swap agreement effective on February 29, 2012 and ending on April 14, 2016. We entered into this derivative instrument to hedge against the interest rate risks of our variable-rate borrowings described in Note 6 Financing Arrangements. The swap had an initial notional amount of \$56.6 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.9875%.

On May 30, 2012, we entered into an amortizing interest rate swap agreement effective on May 31, 2012 and ending on April 14, 2016. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings. The swap had an initial notional amount of \$37.0 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.70%.

On April 4, 2013, we entered into a forward amortizing interest rate swap agreement effective on March 31, 2014 and ending on August 31, 2017. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings. The swap has an initial notional amount of \$60.0 million and amortizes such that, collectively with our other two interest rate swaps, we are effectively fixing the interest rate on 80% of our Term Loan borrowings throughout the term of the swap agreement. Under the terms of the interest rate swap agreement, we will receive from the counterparty interest on the notional amount based on one-month LIBOR and we will pay to the counterparty a fixed rate of 0.985%.

ASC 815, *Derivatives and Hedging*, requires companies to recognize all derivative instruments as either assets or liabilities at fair value on the balance sheet. In accordance with ASC 815, we have designated these derivative instruments as cash flow hedges. As such, changes in the fair value of the derivative instruments are recorded as a component of other comprehensive income (OCI) to the extent of effectiveness and reclassified into interest expense upon settlement. The ineffective portion of the change in fair value of the derivative instruments is recognized in interest expense. As of September 30, 2014, it was anticipated that \$0.5 million of the losses, net of tax, currently recorded in accumulated other comprehensive loss will be reclassified into earnings within the next 12 months. Our interest rate swap agreements were effective during the three and nine months ended September 30, 2014.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

The table below sets forth additional information relating to these interest rate swaps designated as cash flow hedging instruments as of September 30, 2014 and December 31, 2013.

Balance Sheet Location	Fair Value (Derivative Asset and Liability)	
	September 30, 2014	December 31, 2013
Other non-current assets	\$ 821	\$ 752
Accrued expenses	\$ 757	\$ 765
Deferred compensation and other liabilities	\$ 14	\$ 140

All of the Company's derivative instruments are transacted under the International Swaps and Derivatives Association (ISDA) master agreements. These agreements permit the net settlement of amounts owed in the event of default and certain other termination events. Although netting is permitted, it is the Company's policy to record all derivative assets and liabilities on a gross basis on the Consolidated Balance Sheets. All of the Company's derivative instruments as of September 30, 2014 and December 31, 2013 were held with the same counterparty.

We do not use derivative instruments for trading or other speculative purposes. Refer to Note 10 Other Comprehensive Income (Loss) for additional information on our derivative instruments.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)****9. Fair Value of Financial Instruments**

Certain of our assets and liabilities are measured at fair value. ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value and requires companies to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy consists of three levels based on the objectivity of the inputs as follows:

- Level 1 Inputs Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2 Inputs Quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs Unobservable inputs for the asset or liability, and include situations in which there is little, if any, market activity for the asset or liability.

The table below sets forth our fair value hierarchy for our financial assets and liabilities measured at fair value on a recurring basis as of September 30, 2014 and December 31, 2013 (in thousands).

Table of Contents

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

Promissory note: As part of the consideration received for the sale of our Accounting Advisory practice on December 30, 2011, the Company received a \$3.5 million promissory note payable over four years. During the first quarter of 2014, we agreed to restructure the note to temporarily decrease the quarterly payment amounts, increase the interest rate and extend the term of the note to mature on October 31, 2017. During the second quarter of 2014, we agreed to amend and restate the note such that principal payments will be paid to the Company annually based on the amount of excess cash flows earned each year by the maker of the note until the maturity date of December 31, 2018, at which time the remaining principal balance and any accrued interest is due. The fair value of the note is based on the net present value of the projected cash flows using a discount rate of 17%, which accounts for the risks associated with the note. The decrease in the fair value of the note during the first nine months of 2014 reflects principal payments received, the amendment of terms, and the increased discount rate of 17%, less the accretion of interest income in excess of interest payments received. The portion of the note expected to be received in the next twelve months is recorded as a receivable in Prepaid expenses and other current assets. The remaining portion of the note is recorded in Other non-current assets.

Interest rate swaps: The fair value of the interest rate swaps was derived using estimates to settle the interest rate swap agreements, which are based on the net present value of expected future cash flows on each leg of the swaps utilizing market-based inputs and discount rates reflecting the risks involved.

Convertible debt investment: In July 2014, we made a \$10 million investment, in the form of zero coupon convertible debt, in Shorelight Holdings, LLC (Shorelight), the parent company of Shorelight Education, a U.S.-based company that partners with leading nonprofit universities to increase access and retention of international students, boost institutional growth, and enhance an institution's global footprint. In August 2014, we purchased an additional \$2.5 million convertible note of Shorelight, increasing the cost basis of our investment to \$12.5 million. The notes will mature on July 1, 2020, unless converted earlier.

We account for our investment as an available for sale security in accordance with ASC 320, *Investments Debt and Equity Securities*. As such, the investment is carried at fair value with unrealized holding gains and losses excluded from earnings and reported in other comprehensive income. We estimated the fair value of our investment using cash flow projections discounted at a risk-adjusted rate and certain assumptions related to equity volatility, default probability, and recovery rate, all of which are Level 3 inputs. In arriving at the estimated fair value, we also considered the probability weighted likelihood of conversion of the notes, in accordance with the various conversion features of the notes. An unrealized gain of \$0.3 million was recorded in Other comprehensive income for the three and nine months ended September 30, 2014. The fair value of the convertible debt investment is recorded in Long-term investment.

Deferred acquisition payment: Deferred acquisition payments are included in the total purchase consideration for certain business acquisitions made by the Company and represent fixed future payments owed to the sellers of those businesses. The fair value of our liability as of December 31, 2013 was based on the net present value of one final

payment related to a 2012 acquisition. The payment was made in July 2014.

Contingent acquisition liability: In the first quarter of 2014, we recorded the initial acquisition date fair value of a contingent acquisition liability that resulted from the Frankel acquisition described in Note 4 Goodwill and Intangible Assets. The initial fair value of \$0.6 million was calculated using Level 3 inputs and a probability weighted estimated payout model based on financial projections and then discounted to fair value. As of September 30, 2014, we determined that the likelihood of the contingent acquisition payout was remote and reduced the value of the contingent acquisition liability to zero.

Financial assets and liabilities not recorded at fair value are as follows:

Senior secured credit facility

The carrying value of our senior secured credit facility is stated at cost. Our carrying value approximates fair value, using Level 2 inputs, as the senior secured credit facility bears interest at variable rates based on market rates as set forth in the 2011 Credit Agreement. Refer to Note 6 Financing Arrangements.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)***Convertible Notes*

The carrying amount and estimated fair value of the Convertible Notes are as follows (in thousands):

	September 30, 2014	
	Carrying Amount	Estimated Fair Value
1.25% convertible senior notes due 2019	211,119	241,563

The difference between the \$250 million principal amount of the Convertible Notes and the carrying amount represents the unamortized debt discount. As of September 30, 2014, the carrying value of the equity component of \$39.3 million was unchanged from the date of issuance. Refer to Note 6 Financing Arrangements for additional details of our Convertible Notes. The estimated fair value of the Convertible Notes, which we have classified as a Level 2 financial instrument, was determined based on the quoted bid price of the Convertible Notes in an over-the-counter market on September 30, 2014.

Based on the closing price of our common stock of \$60.97 on September 30, 2014, the if-converted value of the Convertible Notes was less than the principal amount.

Cash and cash equivalents are stated at cost, which approximates fair market value. The carrying values for receivables from clients, unbilled services, accounts payable, deferred revenues and other accrued liabilities reasonably approximate fair market value due to the nature of the financial instrument and the short-term maturity of these items.

We hold our cash in accounts at multiple third party financial institutions. These deposits, at times, may exceed federally insured limits. We review the credit ratings of these financial institutions, regularly monitor the cash balances in these accounts and adjust the balances as appropriate. However, these cash balances could be impacted if the underlying financial institutions fail or are subject to other adverse conditions in the financial markets.

10. Other Comprehensive Income (Loss)

The tables below set forth the components of other comprehensive income (loss), net of tax, for the three and nine months ended September 30, 2014 and 2013 (in thousands).

	Three Months Ended September 30, 2014			Three Months Ended September 30, 2013		
	Before Taxes	Tax (Expense) Benefit	Net of Taxes	Before Taxes	Tax (Expense) Benefit	Net of Taxes
Other comprehensive income:						
Foreign currency translation adjustment	\$ (1,127)	\$	\$ (1,127)	\$ 1,019	\$ 6	\$ 1,025
Unrealized gain on investment	\$ 250	\$ (98)	\$ 152	\$	\$	\$
Unrealized gain (loss) on cash flow hedges:						
Change in fair value	\$ 255	\$ (98)	\$ 157	\$ (549)	\$ 218	\$ (331)
Reclassification adjustments into earnings	246	(99)	147	142	(56)	86
Net unrealized gain (loss)	\$ 501	\$ (197)	\$ 304	\$ (407)	\$ 162	\$ (245)
Other comprehensive income (loss)	\$ (376)	\$ (295)	\$ (671)	\$ 612	\$ 168	\$ 780

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

	Nine Months Ended September 30, 2014			Nine Months Ended September 30, 2013		
	Before Taxes	Tax (Expense) Benefit	Net of Taxes	Before Taxes	Tax (Expense) Benefit	Net of Taxes
Other comprehensive income:						
Foreign currency translation adjustment	\$ (735)	\$	\$ (735)	\$ 62	\$ 57	\$ 119
Unrealized gain on investment	\$ 250	\$ (98)	\$ 152	\$	\$	\$
Unrealized gain (loss) on cash flow hedges:						
Change in fair value	\$ (427)	\$ 173	\$ (254)	\$ 308	\$ (122)	\$ 186
Reclassification adjustments into earnings	630	(252)	378	421	(168)	253
Net unrealized gain (loss)	\$ 203	\$ (79)	\$ 124	\$ 729	\$ (290)	\$ 439
Other comprehensive income (loss)	\$ (282)	\$ (177)	\$ (459)	\$ 791	\$ (233)	\$ 558

The before tax amounts reclassified from accumulated other comprehensive loss related to our cash flow hedges are recorded to Interest expense, net of interest income.

Accumulated other comprehensive loss, net of tax, includes the following components:

	Foreign Currency Translation Adjustments	Net Unrealized Gain on Investment	Net Unrealized Gain/(Losses) on Derivatives	Net Unrealized Gain/(Losses) on Accumulated Other Comprehensive Loss
Balance, December 31, 2013	\$ (716)	\$	\$ (81)	\$ (797)
Current period change	(735)	152	124	(459)
Balance, September 30, 2014	\$ (1,451)	\$ 152	\$ 43	\$ (1,256)

11. Income Taxes

The Company's effective tax rates for the three months ended September 30, 2014 and 2013 were 36.8% and 42.2%, respectively. The Company's effective tax rates for the nine months ended September 30, 2014 and 2013 were 28.4% and 43.1%, respectively. The effective tax rate for the third quarter of 2014 was lower than the statutory rate, inclusive of state income taxes, primarily due to the favorable settlement of the IRS audit for years 2009, 2010, and 2011. The effective tax rate for the first nine months of 2014 was lower than the statutory tax rate, inclusive of state income taxes, primarily due to the impact of a tax election made in the first quarter of 2014 to classify one of our wholly-owned foreign subsidiaries as a disregarded entity for U.S. federal income tax purposes (commonly referred to as a "check-the-box" election). As a result of this election, we expect to realize an income tax benefit of \$13.8 million, of which \$2.4 million is unrecognized, resulting in a net recognized tax benefit of \$11.4 million. This recognized benefit was partially offset by \$1.2 million in expenses in the first quarter of 2014 related to the establishment of a valuation allowance for certain foreign tax credits and increased deferred tax liabilities as a result of the aforementioned election.

The effective tax rates for the three and nine months ended September 30, 2013 were higher than the statutory rate, inclusive of state income taxes, primarily due to the impact of foreign losses with no tax benefit and certain non-deductible business expenses, partially offset by the impact of certain credits and deductions.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)****12. Commitments, Contingencies and Guarantees****Litigation***Qui Tam Action*

On December 9, 2009, plaintiff, Associates Against Outlier Fraud, filed a first amended *qui tam* complaint against Huron Consulting Group Inc. and others under the federal and New York state False Claims Act (FCA) in the United States District Court for the Southern District of New York. The federal and state FCA authorize private individuals (known as relators) to sue on behalf of the government (known as *qui tam* actions) alleging that false or fraudulent claims were knowingly submitted to the government. Once a *qui tam* action is filed, the government may elect to intervene in the action. If the government declines to intervene, the relator may proceed with the action. Under the federal and state FCA, the government may recover treble damages and civil penalties (civil penalties of up to \$11,000 per violation under the federal FCA and \$12,000 per violation under the state FCA). On January 6, 2010, the United States declined to intervene in the lawsuit. After the Court granted Huron's motion to dismiss without prejudice, on September 29, 2010, the relator filed a second amended complaint alleging that Huron and others caused St. Vincent Catholic Medical Center to receive more than \$30 million in inflated outlier payments under the Medicare and Medicaid programs in violation of the federal and state FCA and seeking to recover an unspecified amount of civil penalties. On March 8, 2013, the Court granted Huron's motion for summary judgment and dismissed the relator's second amended complaint in its entirety with prejudice. As a result, we reversed the charge of \$1.2 million relating to settlement discussions which we recorded in the second quarter of 2012, in accordance with ASC 450, *Contingencies*. The relator filed an appeal on April 2, 2013. On April 8, 2013, Huron filed an appeal of an earlier denial of a motion to dismiss filed by Huron which argued that the relator's action was barred because, under the FCA jurisdictional bar, the action was based on publicly disclosed information and the relator cannot qualify as an original source. On May 22, 2014, the United States Court of Appeals for the Second Circuit upheld the lower court's decision, which granted summary judgment to Huron. The relator did not file a petition for writ of certiorari with the United States Supreme Court, and therefore the litigation is concluded.

Tamalluk Business Development LLC v. Huron Consulting Services LLC (Abu Dhabi Court of First Instance)

On August 22, 2013, we learned that Tamalluk Business Development LLC, who was Huron's agent in Abu Dhabi, and its principal, Mubarak Ahmad Bin Hamouda Al Dhaheri, filed a claim against Huron Consulting Services LLC in the Abu Dhabi Court of First Instance. The lawsuit alleges that under the agency agreement, Tamalluk was entitled to a commission on certain amounts that Huron collected from Abu Dhabi clients, and that Huron breached the agreement with Tamalluk and caused damages by declining to enter into a client engagement in Abu Dhabi and subsequently terminating the agency agreement with Tamalluk. Claimants allege they are entitled to \$50 million for damage to reputation and defamation and another \$50 million for breach of contract. Huron submitted its written response on September 25, 2013. The response states that Huron had the right to terminate the agency agreement with Tamalluk, and Huron had the sole discretion whether to accept or reject an engagement. Huron also filed a

counterclaim on October 10, 2013 seeking a judicial order to permit the cancellation of Huron's commercial license to allow Huron to cease doing business in Abu Dhabi. On December 17, 2013, the Abu Dhabi court ruled in Huron's favor on all claims and held that Huron permissibly terminated the contract with Tamalluk and Huron does not owe Tamalluk any compensation related to Tamalluk's claims. In addition, the court terminated the Local Sponsorship Agreement as requested by Huron in its counterclaim. Tamalluk appealed the decision, and on March 18, 2014, the appellate court upheld the decision in Huron's favor. Tamalluk filed an appeal on May 18, 2014 to the Court of Cassation, which is the highest court in Abu Dhabi. On October 21, 2014, the Court of Cassation referred the case back to the appellate court for consideration of Claimants' allegations relating to damage to reputation and defamation, which the appellate court had not previously addressed. The Court of Cassation ruled in Huron's favor on the other claims and on Huron's counterclaim. We continue to believe that the remaining claims are without merit and intend to vigorously defend ourselves in this matter.

Physiotherapy Associates

In 2011, Huron was engaged to design and implement new processes, software, tools, and techniques to assist Physiotherapy Associates, Inc. ("PA") in reducing older accounts receivable levels and optimizing cash flow. The engagement agreement specifically provides that Huron will not be auditing financial statements and that Huron's services are not designed, and should not be relied on, to disclose weaknesses in internal controls, financial statement errors, irregularities, illegal acts, or disclosure deficiencies.

In November 2013, Physiotherapy Holdings, Inc., and certain subsidiaries and affiliates (including PA) filed a voluntary petition for bankruptcy pursuant to Chapter 11 of the Bankruptcy Code, which resulted in part from claims related to an alleged overstatement of PA's revenues and profitability in connection with the sale of PA in 2012. The Joint Prepackaged Plan of Reorganization (the "Plan"), which was confirmed by the Bankruptcy Court in December 2013, establishes and funds a Litigation Trust to pursue certain claims on

Table of Contents

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

behalf of certain beneficiaries. The Plan discloses a lengthy list of potential defendants and witnesses regarding these claims, including but not limited to the debtors' officers, directors, certain employees, former owners, investment bankers, auditors, and various consultants. This list of potential defendants and witnesses includes Huron, as well as three of Huron's current or former employees.

The Plan suggests that Huron, among others, was involved in actively marketing PA for sale and provided opinions to unnamed parties defending the quality of PA's earnings. The Plan further states that the damages to be sought by the Litigation Trust will exceed \$300 million. The Litigation Trust has not specified against which potential defendants it will bring claims, if any. We believe the Litigation Trust's allegations with respect to Huron are without merit and will vigorously defend ourselves should any claim arising out of these alleged facts and circumstances be asserted against us by the Litigation Trust.

From time to time, we are involved in legal proceedings and litigation arising in the ordinary course of business. As of the date of this Quarterly Report on Form 10-Q, we are not a party to any other litigation or legal proceeding that, in the current opinion of management, could have a material adverse effect on our financial position or results of operations. However, due to the risks and uncertainties inherent in legal proceedings, actual results could differ from current expected results.

Guarantees and Indemnification

Guarantees in the form of letters of credit totaling \$5.1 million and \$4.9 million were outstanding at September 30, 2014 and December 31, 2013, respectively, to support certain office lease obligations as well as Middle East performance and bid bonds.

To the extent permitted by law, our bylaws and articles of incorporation require that we indemnify our officers and directors against judgments, fines and amounts paid in settlement, including attorneys' fees, incurred in connection with civil or criminal action or proceedings, as it relates to their services to us if such person acted in good faith. Although there is no limit on the amount of indemnification, we may have recourse against our insurance carrier for certain payments made.

13. Segment Information

Segments are defined by ASC 280, *Segment Reporting*, as components of a company that engage in business activities from which they may earn revenues and incur expenses, and for which separate financial information is available and is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision maker manages the business under five operating segments, which are our reportable segments: Huron Healthcare, Huron Legal, Huron Education and Life Sciences, Huron Business Advisory, and All Other.

Huron Healthcare

Our Huron Healthcare segment provides consulting services to national and regional hospitals and integrated health systems, academic medical centers, community hospitals, and physician practices. This segment provides consulting services related to hospital or healthcare organization performance improvement, revenue cycle improvement, clinical quality and care variation, labor productivity, non-labor cost management, information technology, patient flow improvement, and physician practice management.

Huron Legal

Our Huron Legal segment provides advisory and business services to assist law departments of major global corporations and law firms with their cost and risk effectiveness, organizational design and development, and operational efficiency. These services add value to organizations by helping them enhance client service and reduce the amounts spent on legal services. Our expertise focuses on strategic and management consulting, cost management, and technology and information management, including matter management, records management, document review, and discovery services. Included in this segment's offerings is our Integrated Analytics solution, which is designed to deliver an innovative, comprehensive process resulting in more affordable and predictable discovery costs.

Huron Education and Life Sciences

Our Huron Education and Life Sciences segment provides management consulting services and software solutions to the higher education, academic medical center, pharmaceutical and medical device, and research industries. We work with our clients to develop and implement performance improvement, technology, and research enterprise solutions to help them address challenges relating to financial management, strategy, operational and organizational effectiveness, research administration, and regulatory compliance.

Huron Business Advisory

Our Huron Business Advisory segment (formerly referred to as Huron Financial) provides financial advisory; interim management; operational improvement; capital advisory; valuation; enterprise systems planning, design, and implementation; and enterprise performance management services. We assist clients in a broad range of industries and across the spectrum from healthy, well-capitalized companies to organizations in transition, creditors, owners, investors, and other key constituents in connection with out-of-court restructurings and bankruptcy proceedings. Our professionals consist of certified public accountants, certified insolvency and restructuring advisors, certified turnaround professionals, MBAs, JDs, and chartered financial analysts as well as former chief restructuring officers, chief executive officers, chief financial officers, and professionals with significant board governance experience.

All Other

Our All Other segment consists of any line of business not managed by our other four operating segments. These businesses include our public sector consulting practice and our foreign healthcare and strategic consulting operations based in the Middle East.

During the first quarter of 2014, we reorganized our internal operating structure to better align our service offerings and moved our EPM practice (formerly referred to as Blue Stone International, a business which we acquired during the fourth quarter of 2013) from the Huron Education and Life Sciences segment to the Huron Business Advisory segment.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

Segment operating income consists of the revenues generated by a segment, less the direct costs of revenue and selling, general and administrative costs that are incurred directly by the segment. Unallocated corporate costs include costs related to administrative functions that are performed in a centralized manner that are not attributable to a particular segment. These administrative function costs include costs for corporate office support, certain office facility costs, costs relating to accounting and finance, human resources, legal, marketing, information technology, and Company-wide business development functions, as well as costs related to overall corporate management.

The table below sets forth information about our operating segments for the three and nine months ended September 30, 2014 and 2013, along with the items necessary to reconcile the segment information to the totals reported in the accompanying Consolidated Financial Statements.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013

All Other	630	257
Unallocated assets ⁽²⁾	934,276	706,661
 Total assets	 \$ 1,130,562	 \$ 885,600

- (1) The December 31, 2013 segment asset balances have been reclassified to reflect the move of our EPM practice from the Huron Education and Life Sciences segment to the Huron Business Advisory segment.
- (2) Goodwill and intangible assets are included in unallocated assets, as management does not evaluate these items at the segment level when assessing segment performance or allocating resources.

At September 30, 2014, no single client accounted for greater than 10% of our combined receivables and unbilled services balances. At December 31, 2013, one Huron Healthcare client's total receivables and unbilled services balance represented 14% of our total receivables and unbilled services balance. No other client's total receivables and unbilled services represented greater than 10% of our total receivables and unbilled services balance at December 31, 2013. No single client generated greater than 10% of our consolidated revenues during the three and nine months ended September 30, 2014 and 2013.

14. Subsequent Events

Effective October 1, 2014, we completed our acquisition of Threshold Consulting, Inc., a provider of cloud-based Software as a Service (SaaS) applications, data warehousing and business intelligence (BI) solutions, as well as customer relationship management (CRM) consulting services. The results of operations of Threshold will be included within the Huron Business Advisory segment.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, the terms "Huron," "Company," "we," "us" and "our" refer to Huron Consulting Group Inc. and its subsidiaries.

Statements in this Quarterly Report on Form 10-Q that are not historical in nature, including those concerning the Company's current expectations about its future requirements and needs, are forward-looking statements as defined in Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by words such as "may," "should," "expects," "provides," "anticipates," "assumes," "can," "will," "meets," "could," "likely," "intends," "might," "predicts," "seeks," "estimates," "plans" or "continues." These forward-looking statements reflect our current expectations about our future requirements and needs, results, levels of activity, performance, or achievements, including, without limitation, current expectations with respect to, among other factors, utilization rates, billing rates, and the number of revenue-generating professionals; that we are able to expand our service offerings; that we successfully integrate the businesses we acquire; and that existing market conditions continue to trend upward. These statements involve known and unknown risks, uncertainties and other factors, including, among others, those described under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013 and under "Item 1A. Risk Factors" in this Quarterly Report on Form 10-Q that may cause actual results, levels of activity, performance or achievements to be materially different from any anticipated results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. We disclaim any obligation to update or revise any forward-looking statements as a result of new information or future events, or for any other reason.

OVERVIEW

Our Business

Huron Consulting Group is a leading provider of operational and financial consulting services. We help clients in diverse industries improve performance, transform the enterprise, reduce costs, leverage technology, process and review large amounts of complex data, address regulatory changes, recover from distress, and stimulate growth. Our professionals employ their expertise in finance, operations, strategy, and technology to provide our clients with specialized analyses and customized advice and solutions that are tailored to address each client's particular challenges and opportunities to deliver sustainable and measurable results. We provide consulting services to a wide variety of both financially sound and distressed organizations, including healthcare organizations, leading academic institutions, Fortune 500 companies, governmental entities, and law firms. Huron has worked with more than 425 health systems, hospitals, and academic medical centers; more than 400 corporate general counsel; and more than 350 universities and research institutions.

We provide our services through five operating segments: Huron Healthcare, Huron Legal, Huron Education and Life Sciences, Huron Business Advisory, and All Other.

Huron Healthcare

Our Huron Healthcare segment provides consulting services to national and regional hospitals and integrated health systems, academic medical centers, community hospitals, and physician practices. We deliver solutions to empower our clients to address challenges in the rapidly-evolving healthcare environment and improve quality, increase revenue, reduce expenses, and enhance patient, physician, and employee satisfaction across the healthcare enterprise. Our people provide a depth of expertise across the healthcare industry, and our culture of collaboration extends to our

client engagements, enabling teams to effectively implement successful client projects.

Huron Legal

Our Huron Legal segment provides advisory and business services to assist law departments of major global corporations and their associated law firms with cost and risk reduction, organizational design and development, and operational efficiency. These services add value to organizations by helping them enhance client service and reduce the amount spent on legal services. Our expertise focuses on strategic and management consulting, cost management, and technology and information management, including matter management, records management, document review, and discovery services. Included in this segment's offerings is our Integrated Analytics solution, which is designed to deliver an innovative, comprehensive process resulting in more affordable and predictable discovery costs.

Table of Contents

Huron Education and Life Sciences

Our Huron Education and Life Sciences segment provides management consulting services and software solutions to the higher education, academic medical center, pharmaceutical and medical device, and research industries. We work with our clients to develop and implement performance improvement, technology, and research enterprise solutions to help them address challenges relating to financial management, strategy, operational and organizational effectiveness, research administration, and regulatory compliance.

Huron Business Advisory

Our Huron Business Advisory segment provides financial advisory; interim management; operational improvement; capital advisory; valuation; enterprise systems planning, design, and implementation; and enterprise performance management services. We assist clients in a broad range of industries and across the spectrum from healthy, well-capitalized companies to organizations in transition, creditors, owners, investors, and other key constituents in connection with out-of-court restructurings and bankruptcy proceedings. Our professionals consist of certified public accountants, certified insolvency and restructuring advisors, certified turnaround professionals, MBAs, JDs, and chartered financial analysts as well as former chief restructuring officers, chief executive officers, chief financial officers, and professionals with significant board governance experience.

All Other

Our All Other segment consists of any line of business not managed by our other four operating segments. These businesses include our public sector consulting practice and our foreign healthcare and strategic consulting operations based in the Middle East.

How We Generate Revenues

A large portion of our revenues is generated by our full-time consultants who provide consulting services to our clients and are billable to our clients based on the number of hours worked. A smaller portion of our revenues is generated by our other professionals, also referred to as full-time equivalents, all of whom work variable schedules as needed by our clients. Other professionals include specialized finance and operational consultants and our document review and electronic data discovery groups, as well as full-time employees who provide software support and maintenance services to our clients. Our document review and electronic data discovery groups generate revenues primarily based on number of hours worked and units produced, such as pages reviewed or amount of data processed. We translate the hours that these other professionals work on client engagements into a full-time equivalent measure that we use to manage our business. We refer to our full-time consultants and other professionals collectively as revenue-generating professionals.

Revenues generated by our full-time consultants are primarily driven by the number of consultants we employ and their utilization rates, as well as the billing rates we charge our clients. Revenues generated by our other professionals, or full-time equivalents, are largely dependent on the number of consultants we employ, their hours worked, and billing rates charged, as well as the number of pages reviewed and amount of data processed in the case of our document review and electronic data discovery groups, respectively.

We generate the majority of our revenues from providing professional services under four types of billing arrangements: time-and-expense, fixed-fee (including software license revenue), performance-based, and support and maintenance for the software we deploy.

Time-and-expense billing arrangements require the client to pay based on either the number of hours worked, the number of pages reviewed, or the amount of data processed by our revenue-generating professionals at agreed upon rates. We recognize revenues under time-and-expense billing arrangements as the related services are rendered. Time-and-expense engagements represented 44.6% and 45.3% of our revenues for the three months ended September 30, 2014 and 2013, respectively, and 45.1% and 46.3% of our revenues for the nine months ended September 30, 2014 and 2013, respectively.

In fixed-fee billing arrangements, we agree to a pre-established fee in exchange for a pre-determined set of professional services, which may include the deployment of our proprietary software. We set the fees based on our estimates of the costs and timing for completing the engagements. It is the client's expectation in these engagements that the pre-established fee will not be exceeded except in mutually agreed upon circumstances. We generally recognize revenues under fixed-fee billing arrangements using a proportionate performance approach, which is based on work completed to-date versus our estimates of the total services to be provided under the engagement.

Table of Contents

We generate revenues from licensing two types of proprietary software to clients: revenue cycle management software and research administration and compliance software. Licenses for our revenue cycle management software are sold only as a component of our consulting projects, and the services we provide are essential to the functionality of the software. Therefore, revenues from these software licenses are recognized over the term of the related consulting services contract. License revenue from our research administration and compliance software is generally recognized in the month in which the software is delivered.

Fixed-fee engagements (including software license revenue) represented 39.6% and 37.8% of our revenues for the three months ended September 30, 2014 and 2013, respectively, and 39.4% and 38.5% of our revenues for the nine months ended September 30, 2014 and 2013, respectively.

In performance-based fee billing arrangements, fees are tied to the attainment of contractually defined objectives. We enter into performance-based engagements in essentially two forms. First, we generally earn fees that are directly related to the savings formally acknowledged by the client as a result of adopting our recommendations for improving operational and cost effectiveness in the areas we review. Second, we have performance-based engagements in which we earn a success fee when and if certain predefined outcomes occur. Often, performance-based fees supplement our time-and-expense or fixed-fee engagements. We do not recognize revenues under performance-based billing arrangements until all related performance criteria are met. Performance-based fee revenues represented 12.1% and 13.2% of our revenues for the three months ended September 30, 2014 and 2013, respectively, and 12.3% and 11.8% of our revenues for the nine months ended September 30, 2014 and 2013, respectively. Performance-based fee engagements may cause significant variations in quarterly revenues and operating results depending on the timing of achieving the performance-based criteria.

Clients that have purchased one of our software licenses can pay an annual fee for software support and maintenance. Annual support and maintenance fee revenue is recognized ratably over the support period, which is generally one year. These fees are billed in advance and included in deferred revenues until recognized. Support and maintenance revenues represented 3.7% of our revenues for both the three months ended September 30, 2014 and 2013, and 3.2% and 3.4% of our revenues for the nine months ended September 30, 2014 and 2013, respectively.

Our quarterly results are impacted principally by our full-time consultants' utilization rate, the billing rate we charge our clients, the number of our revenue-generating professionals who are available to work, and the amount of performance-based fees recognized, which often vary significantly between quarters. Our utilization rate can be negatively affected by increased hiring because there is generally a transition period for new professionals that results in a temporary drop in our utilization rate. Our utilization rate can also be affected by seasonal variations in the demand for our services from our clients. For example, during the third and fourth quarters of the year, vacations taken by our clients can result in the deferral of activity on existing and new engagements, which would negatively affect our utilization rate. The number of business work days is also affected by the number of vacation days taken by our consultants and holidays in each quarter. We typically have fewer business work days available in the fourth quarter of the year, which can impact revenues during that period.

Time-and-expense engagements do not provide us with a high degree of predictability as to performance in future periods. Unexpected changes in the demand for our services can result in significant variations in utilization and revenues and present a challenge to optimal hiring and staffing. Moreover, our clients typically retain us on an engagement-by-engagement basis, rather than under long-term recurring contracts. The volume of work performed for any particular client can vary widely from period to period.

Business Strategy, Opportunities and Challenges

Our primary strategy is to meet the needs of our clients by providing a balanced portfolio of service offerings and capabilities, so that we can adapt quickly and effectively to emerging opportunities in the marketplace. To achieve this, we continue to hire highly qualified professionals and have entered into select acquisitions of complementary businesses.

To expand our business, we will remain focused on growing our existing relationships and developing new relationships, execute our managing director compensation plan to attract and retain senior practitioners, continue to promote and provide an integrated approach to service delivery, broaden the scope of our existing services, and acquire complementary businesses. We will regularly evaluate the performance of our practices to ensure our investments meet these objectives. Furthermore, we intend to enhance our visibility in the marketplace by refining our overarching messaging and value propositions for the organization as well as each practice. We will continue to focus on reaching our client base through clear, concise, endorsed messages.

Table of Contents**CRITICAL ACCOUNTING POLICIES**

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with GAAP. We regularly review our financial reporting and disclosure practices and accounting policies to ensure that our financial reporting and disclosures provide accurate information relative to the current economic and business environment. The preparation of financial statements in conformity with GAAP requires management to make assessments, estimates, and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Critical accounting policies are those policies that we believe present the most complex or subjective measurements and have the most potential to impact our financial position and operating results. While all decisions regarding accounting policies are important, we believe that there are four accounting policies that could be considered critical: revenue recognition, allowances for doubtful accounts and unbilled services, carrying values of goodwill and other intangible assets, and valuation of net deferred tax assets. For a detailed discussion of these critical accounting policies, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies in our Annual Report on Form 10-K for the year ended December 31, 2013. Below is an update to our critical accounting policy relating to the carrying values of goodwill and other intangible assets, as well as a description of the accounting treatment of our 1.25% convertible senior notes issuance during September 2014. There have been no material changes to our other critical accounting policies during the first nine months of 2014.

Carrying Values of Goodwill and Other Intangible Assets

During the first quarter of 2014, we reorganized our internal operating structure to better align our service offerings and moved our Enterprise Performance Management (EPM) practice (formerly referred to as Blue Stone International, a business which we acquired during the fourth quarter of 2013) from the Huron Education and Life Sciences segment to the Huron Business Advisory segment. As a result of this change, we reassigned the goodwill balance of the EPM practice, which totaled \$16.7 million as of March 31, 2014, from the Huron Education and Life Sciences reporting unit to the EPM reporting unit, which is part of the Huron Business Advisory segment.

In conjunction with the goodwill reassignment, we performed an interim impairment test for the goodwill balances within our Huron Education and Life Sciences and EPM reporting units as of March 31, 2014. Our goodwill impairment test was performed using the quantitative two-step process. Based on the results of the first step of the goodwill impairment test, we determined that the fair values of our Huron Education and Life Sciences and EPM reporting units exceeded their carrying values by 46% and 12%, respectively. Since the fair value of each reporting unit exceeded its carrying value, the second step of the goodwill impairment test was not necessary.

In estimating the fair value of these two reporting units, we relied on a combination of the income approach and the market approach, utilizing the guideline company method, with a fifty-fifty weighting. For companies providing services similar to those provided by us, the income and market approaches will generally provide the most reliable indications of value because the value of such companies is dependent on their ability to generate earnings.

In the income approach, we utilized a discounted cash flow analysis, which involved estimating the expected after-tax cash flows that will be generated by the reporting units and then discounting those cash flows to present value reflecting the relevant risks associated with the reporting units and the time value of money. This approach requires the use of significant estimates and assumptions, including long-term projections of future cash flows, market conditions, discount rates reflecting the risk inherent in future cash flows, revenue growth, perpetual growth rates, and profitability, among others. In estimating future cash flows, we relied on an internally generated seven-year forecast. For periods after the seven-year forecast, we assumed a long-term annual revenue growth rate of 3.5% for the Huron

Education and Life Sciences reporting unit and 3.0% for the EPM reporting unit. Our forecast is based on historical experience, current backlog, expected market demand, and other industry information. Our discounted cash flow analysis assumed a weighted average cost of capital (WACC) discount rate of 13.0% for the Huron Education and Life Sciences reporting unit and 17.0% for the EPM reporting unit.

In the market approach, we utilized the guideline company method, which involved calculating valuation multiples based on operating data from guideline publicly traded companies. Multiples derived from guideline companies provide an indication of how much a knowledgeable investor in the marketplace would be willing to pay for a company. These multiples were then adjusted for factors similar to those used in a discounted cash flow analysis and applied to the operating data for our reporting units to arrive at an indication of value.

Table of Contents

Determining the fair value of a reporting unit requires us to make significant judgments, estimates and assumptions. While we believe that the estimates and assumptions underlying our valuation methodology are reasonable, these estimates and assumptions could have a significant impact on whether or not an impairment charge is recognized and also the magnitude of any such charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will not differ significantly from our projections. We will monitor any changes to our assumptions and will evaluate goodwill as deemed warranted during future periods. Any significant decline in our operations could result in goodwill impairment charges.

The table below presents, based on the goodwill impairment test performed as of March 31, 2014, the decrease in the fair value of our Huron Education and Life Sciences and EPM reporting units given a 100 basis point increase in the assumed discount rate or a 100 basis point decrease in the assumed long-term annual revenue growth rate.

	Huron Education and Life Sciences		Enterprise Performance Management	
	Percentage by		Percentage by	
	Decrease in	which	Decrease in	which
	Fair Value of	Fair	Fair Value of	Fair
	the Reporting	Value Exceeds	the Reporting	Value Exceeds
	Unit	Carrying	Unit	Carrying
	(in thousands)	Amount	(in thousands)	Amount
Discount rate increase by 100 bps	\$ 9,600	39%	\$ 700	9%
Long-term growth rate decrease by 100 bps	\$ 7,900	40%	\$ 250	11%

1.25% Convertible Senior Notes

In accounting for the issuance of the 1.25% convertible senior notes (the Convertible Notes), we separated the Convertible Notes into liability and equity components. The carrying amount of the liability component was determined by measuring the fair value of a similar liability that does not have an associated convertible feature, assuming a borrowing rate reflective of a company of our size and risk profile. The carrying value of the equity component representing the conversion option, which is recognized as a debt discount, was determined by deducting the fair value of the liability component from the proceeds of the Convertible Notes. The debt discount is amortized to interest expense using the effective interest rate over the term of the Convertible Notes. The equity component will not be remeasured as long as it continues to meet the conditions for equity classification. In accounting for the transaction costs related to the issuance of the Convertible Notes, we separated the total amount incurred into liability and equity components based on their relative values, as determined above. Transaction costs attributable to the liability component are capitalized and amortized to interest expense over the term of the Convertible Notes, and transaction costs attributable to the equity component were netted with the equity component of the Convertible Notes in stockholders' equity.

Table of Contents**RESULTS OF OPERATIONS**

The following table sets forth, for the periods indicated, selected segment and consolidated operating results and other operating data. Segment operating income consists of the revenues generated by a segment, less the direct costs of revenue and selling, general and administrative costs that are incurred directly by the segment. Unallocated costs include corporate costs related to administrative functions that are performed in a centralized manner that are not attributable to a particular segment.

- (1) Consists of our full-time professionals who provide consulting services and generate revenues based on the number of hours worked.
- (2) Utilization rate for our full-time billable consultants is calculated by dividing the number of hours all of our full-time billable consultants worked on client assignments during a period by the total available working hours for all of these consultants during the same period, assuming a forty-hour work week, less paid holidays and vacation days.
- (3) Average billing rate per hour for our full-time billable consultants is calculated by dividing revenues for a period by the number of hours worked on client assignments during the same period.
- (4) Consists of consultants who work variable schedules as needed by our clients, as well as other professionals who generate revenues primarily based on number of hours worked and units produced, such as pages reviewed and data processed. Also includes full-time employees who provide software support and maintenance services to our clients.
- (5) During the second quarter of 2014, we revised the methodology we use to allocate revenue between our billable consultants and our full-time equivalents in our Huron Legal segment to better reflect the nature of the work

being provided. Operating data for the three and nine months ended September 30, 2014 and 2013, as presented above, reflects this change.

Table of Contents**Non-GAAP Measures**

We also assess our results of operations using certain non-GAAP financial measures. These non-GAAP financial measures differ from GAAP because the non-GAAP financial measures we calculate to measure Adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA), Adjusted net income from continuing operations, and Adjusted diluted earnings per share from continuing operations exclude a number of items required by GAAP, each discussed below. These non-GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows, or liquidity prepared in accordance with GAAP. Our non-GAAP financial measures may be defined differently from time to time and may be defined differently than similar terms used by other companies, and accordingly, care should be exercised in understanding how we define our non-GAAP financial measures.

Our management uses the non-GAAP financial measures to gain an understanding of our comparative operating performance, for example when comparing such results with previous periods or forecasts. These non-GAAP financial measures are used by management in their financial and operating decision making because management believes they reflect our ongoing business in a manner that allows for meaningful period-to-period comparisons. Management also uses these non-GAAP financial measures when publicly providing our business outlook, for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. We believe that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does and in comparing in a consistent manner Huron's current financial results with Huron's past financial results.

The reconciliations of these financial measures from GAAP to non-GAAP are as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013

Table of Contents

These non-GAAP financial measures include adjustments for the following items:

Restructuring charges: We have incurred charges due to the restructuring of various parts of our business. These restructuring charges have primarily consisted of costs associated with office space consolidations including the accelerated depreciation of certain leasehold improvements, and severance charges. We have excluded the effect of the restructuring charges from our non-GAAP measures as a means to provide comparability with periods that were not impacted by a restructuring charge. Additionally, the amount of each restructuring charge is significantly affected by the timing and size of the restructured business or component of a business.

Litigation and other gains: We have excluded the effect of the litigation gain recorded in the first quarter of 2013 and the remeasurement gains related to the contingent acquisition liability because their exclusion permits comparability with periods that were not impacted by these items.

Amortization of intangible assets: We have excluded the effect of amortization of intangible assets from the calculation of Adjusted net income from continuing operations presented above. Amortization of intangibles is inconsistent in its amount and frequency and is significantly affected by the timing and size of our acquisitions.

Non-cash interest on convertible notes: We incur non-cash interest expense relating to the implied value of the equity conversion component of our Convertible Notes. The value of the equity conversion component is treated as a debt discount and amortized to interest expense over the life of the Convertible Notes using the effective interest rate method. We exclude this non-cash interest expense that does not represent cash interest payments made to our note holders.

Tax effect: The non-GAAP income tax adjustment reflects the incremental tax rate applicable to the non-GAAP adjustments.

Net tax benefit related to check-the-box election: We have excluded the effect of the net tax benefit from our check-the-box election to treat one of our wholly-owned foreign subsidiaries as a disregarded entity for U.S. federal income tax purposes during the first quarter of 2014 because its exclusion permits comparability with periods that were not impacted by this item.

Income tax expense, Interest and other expenses, Depreciation and amortization: We have excluded the effects of income tax expense, interest and other expenses, and depreciation and amortization in the calculation of EBITDA as these are customary exclusions as defined by the calculation of EBITDA to arrive at meaningful earnings from core operations excluding the effect of such items.

Three Months Ended September 30, 2014 Compared to Three Months Ended September 30, 2013

Revenues

Revenues increased \$23.3 million, or 13.3%, to \$198.0 million for the third quarter of 2014 from \$174.7 million for the third quarter of 2013. Revenues for the third quarter of 2014 included \$18.9 million from businesses that we acquired subsequent to the third quarter of 2013.

Of the overall \$23.3 million increase in revenues, \$22.3 million was attributable to an increase in revenue from our full-time billable consultants and \$1.0 million was attributable to our full-time equivalents. The increase in full-time billable consultant revenues was driven by an increase in the average number of billable consultants and average billing rate, partially offset by a decrease in the consultant utilization rate. The increase in revenue from full-time

billable consultants primarily reflected strengthened demand for our services in the Huron Healthcare, Huron Business Advisory, and Huron Education and Life Sciences segments. The increase in full-time equivalent revenue was primarily attributable to an increase in the average number of full-time equivalents, partially offset by a decrease in revenue per full-time equivalent. Revenue attributable to full-time equivalents primarily reflected an increase in demand for our discovery services in the Huron Legal segment and an increased use of contractors in the Huron Healthcare segment, partially offset by a decrease in the use of contractors in the Huron Education and Life Sciences segment.

Total Direct Costs

Our total direct costs increased \$24.4 million, or 22.8%, to \$131.1 million in the three months ended September 30, 2014, from \$106.8 million in the three months ended September 30, 2013. The increase primarily related to a \$15.1 million increase in salaries and related expenses for our revenue-generating professionals, a \$6.2 million increase in bonus expense for our revenue-generating professionals, a \$2.4 million increase in contractor expense, and a \$0.4 million increase in intangible asset amortization expense. As a percentage of revenues, our total direct costs increased to 66.2% during the third quarter of 2014 compared to 61.1% during the third quarter of 2013. This increase primarily reflected increases in salaries and related expenses and bonus expense for our

Table of Contents

revenue-generating professionals as percentages of revenues during the third quarter of 2014, as well as an increase in contractor expense as a percentage of revenues during the period.

Total direct costs for the three months ended September 30, 2014 included \$3.9 million of share-based compensation expense and \$1.2 million of amortization expense for intangible assets and software development costs, primarily representing customer-related assets and software acquired in business combinations. Total direct costs for the three months ended September 30, 2013 included \$2.8 million of share-based compensation expense and \$0.7 million of amortization expense for intangible assets and software development costs. The increase in share-based compensation expense was primarily attributable to an increase in the amount of restricted stock awards granted to employees in the first nine months of 2014 and an increase in the number of performance-based awards that are expected, as of September 30, 2014, to be earned in 2014 based on 2014 performance, compared to those that were expected, as of September 30, 2013, to be earned based on 2013 performance. The increase in amortization expense was primarily related to the amortization of intangible assets from businesses acquired during the fourth quarter of 2013 and the first half of 2014, as well as an increase in amortization expense for certain software development costs.

Operating Expenses and Other Operating Gains

Selling, general and administrative expenses increased \$2.1 million, or 5.6%, to \$39.3 million in the third quarter of 2014 from \$37.2 million in the third quarter of 2013. This increase was primarily related to a \$1.7 million increase in salaries and related expenses for our support personnel, a \$0.9 million increase in promotion and sponsorship expenses, and a \$0.5 million increase in facilities and other office related expenses, partially offset by a \$0.5 million decrease in legal expenses, a \$0.3 million decrease in accounting, tax and audit fees and a \$0.3 million decrease in severance expense. As a percentage of revenues, selling, general and administrative expenses decreased to 19.8% during the third quarter of 2014 compared to 21.3% during the third quarter of 2013. This decrease primarily reflected revenue growth that outpaced the increase in salaries and related expenses for our support personnel and decreases in legal expenses, practice administration and meetings expense, accounting, tax and audit fees, and severance expense.

During the third quarter of 2014, we determined that the likelihood of payout of the contingent consideration liability incurred in connection with a business acquisition was remote and reduced the fair value of the liability to zero, which resulted in a \$0.2 million remeasurement gain. There was no remeasurement gain or loss for the comparable period last year. During the third quarter of 2013, we reached a settlement agreement to resolve a lawsuit brought by the Company, resulting in a gain of \$5.3 million during that period.

Depreciation and amortization expense increased by \$1.3 million to \$6.3 million in the three months ended September 30, 2014, from \$5.0 million in the three months ended September 30, 2013. The increase primarily related to the amortization of intangible assets from businesses acquired during the fourth quarter of 2013 and first half of 2014. Intangible asset amortization included within operating expenses relates to certain customer relationships, non-competition agreements, trade names, and licenses acquired in connection with our acquisitions.

Operating Income

Operating income decreased \$9.8 million, or 31.6%, to \$21.3 million in the third quarter of 2014 from \$31.1 million in the third quarter of 2013. Operating margin, which is defined as operating income expressed as a percentage of revenues, decreased to 10.7% in the three months ended September 30, 2014, compared to 17.8% in the three months ended September 30, 2013. The decrease in operating margin was primarily attributable to the increases in salaries and related expenses and bonus expense for our revenue-generating professionals as percentages of revenue during the third quarter of 2014, as well as the decrease in litigation and other gains during the third quarter of 2014 compared to the same period last year.

Other Expense, Net

Total other expense, net increased by \$0.5 million, or 35.4%, to \$1.9 million in the third quarter of 2014 from \$1.4 million in the third quarter of 2013. The increase was primarily attributable to the increased interest expense due to our Convertible Notes issued in September 2014. For the month of September 2014, the interest expense related to the coupon of the Convertible Notes was \$0.2 million and the non-cash interest expense related to the amortization of the debt discount and amortization of debt issuance costs totaled \$0.5 million. For the fourth quarter of 2014, we expect interest expense related to the coupon of the Convertible Notes to be \$0.8 million and non-cash interest expense related to the amortization of the debt discount and amortization of debt issuance costs to be \$2.0 million.

Table of Contents**Income Tax Expense**

For the third quarter of 2014, we recognized income tax expense from continuing operations of \$7.1 million on income from continuing operations of \$19.3 million. For the third quarter of 2013, we recognized income tax expense from continuing operations of \$12.5 million on income from continuing operations of \$29.7 million. Our effective tax rate for the third quarter of 2014 was 36.8% compared with 42.2% for the same period last year. The effective tax rate for the three months ended September 30, 2014 was lower than the statutory rate, inclusive of state income taxes, primarily due to the favorable settlement of the IRS audit for years 2009, 2010, and 2011. The effective tax rate for the three months ended September 30, 2013 was higher than the statutory rate, inclusive of state income taxes, primarily due to the impact of foreign losses with no tax benefit and certain non-deductible business expenses, partially offset by the impact of certain credits and deductions.

Net Income from Continuing Operations

Net income from continuing operations was \$12.2 million for the three months ended September 30, 2014, compared to net income from continuing operations of \$17.2 million for the same period last year. The \$4.9 million decrease in net income from continuing operations was primarily due to the decrease in operating income, partially offset by the decrease in income tax expense, as discussed above. As a result of the decrease in net income from continuing operations, diluted earnings per share from continuing operations for the third quarter of 2014 was \$0.53 compared to \$0.75 for the third quarter of 2013.

EBITDA and Adjusted EBITDA

EBITDA decreased \$7.9 million to \$28.8 million for the three months ended September 30, 2014, from \$36.8 million for the three months ended September 30, 2013. Adjusted EBITDA decreased \$2.6 million to \$28.9 million in the third quarter of 2014 from \$31.5 million in the third quarter of 2013. The decrease in EBITDA was primarily due to the decrease in the litigation gain and the decrease in segment operating income, as discussed below in Segment Results, while the decrease in Adjusted EBITDA was primarily due to the decrease in segment operating income.

Adjusted Net Income from Continuing Operations

Adjusted net income from continuing operations decreased \$0.6 million to \$14.2 million in the third quarter of 2014 compared to \$14.8 million in the third quarter of 2013. The decrease was primarily attributable to the decrease in segment operating income.

Segment Results**Huron Healthcare****Revenues**

Huron Healthcare segment revenues increased \$10.9 million, or 12.5%, to \$97.8 million for the third quarter of 2014 from \$87.0 million for the third quarter of 2013. Revenues for the third quarter of 2014 included \$7.6 million from Vonlay, a business that we acquired in the second quarter of 2014. During the three months ended September 30, 2014, revenues from time-and-expense engagements, fixed-fee engagements, performance-based arrangements, and software support and maintenance arrangements represented 7.9%, 66.9%, 19.6%, and 5.6% of this segment's revenues, respectively, compared to 1.6%, 67.1%, 25.9%, and 5.4%, respectively, for the comparable period in 2013.

Of the overall \$10.9 million increase in revenues, \$10.0 million was attributable to our full-time billable consultants and \$0.9 million was attributable to our full-time equivalents. The increase in demand for our services reflected the continued pressures our clients face as the result of evolving business models, rising costs, and declining reimbursements from government and commercial payers. The increase in full-time billable consultant revenues reflected an increase in the average number of full-time billable consultants, partially offset by a decrease in the consultant utilization rate. Performance-based fee revenue was \$19.2 million during the third quarter of 2014 compared to \$22.5 million during the third quarter of 2013. We expect performance-based fees to be greater in the first half of 2014 than in the second half of 2014. The level of performance-based fees earned may vary based on our clients' preferences and the mix of services we provide. Performance-based fee arrangements may cause significant variations in revenues, operating results, and average billing rates due to our level of execution and the timing of achievement of the performance-based criteria. With regard to our full-time equivalents, the Huron Healthcare segment experienced an increase in the average number of full-time equivalents, partially offset by a decrease in revenue per full-time equivalent in the third quarter of 2014 compared to the same period last year.

Table of Contents**Operating Income**

Huron Healthcare segment operating income decreased \$3.0 million, or 9.9%, to \$27.7 million in the three months ended September 30, 2014, from \$30.8 million in the three months ended September 30, 2013. The Huron Healthcare segment operating margin, defined as segment operating income expressed as a percentage of segment revenues, decreased to 28.3% for the third quarter of 2014 from 35.4% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in salaries and related expenses and bonus expense for our revenue-generating professionals as a percentage of revenues, as well as an increase in intangible asset amortization expense as a percentage of revenues.

Huron Legal**Revenues**

Huron Legal segment revenues increased \$0.9 million, or 2.0%, to \$46.1 million for the third quarter of 2014 from \$45.3 million for the third quarter of 2013. Revenues from time-and-expense engagements, fixed-fee engagements, and performance-based arrangements represented 92.3%, 2.8%, and 4.9% of this segment's revenues, respectively, during the three months ended September 30, 2014. During the comparable period in 2013, revenues from time-and-expense engagements, fixed-fee engagements, and support and maintenance arrangements represented 95.9%, 3.4%, and 0.7% of this segment's revenues, respectively.

Of the overall \$0.9 million increase in revenues, \$1.5 million was attributable to an increase in revenue generated by our full-time equivalents, partially offset by a \$0.6 million decrease in revenue generated by our full-time billable consultants. The increase in revenue attributable to our full-time equivalents was the result of an increase in the average number of full-time equivalents. The decrease in full-time billable consultant revenue reflected a decrease in the average number of full-time billable consultants, partially offset by an increase in the average billing rate and consultant utilization rate.

Operating Income

Huron Legal segment operating income decreased by \$4.2 million, or 27.7%, to \$10.9 million in the three months ended September 30, 2014, from \$15.1 million in the three months ended September 30, 2013. Segment operating margin decreased to 23.7% for the third quarter of 2014 from 33.4% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in contractor expense and bonus expense for our revenue-generating professionals as percentages of revenues. Increases, as a percentage of revenues, in bonus expense for our support personnel and promotion and sponsorship expenses also contributed to the decrease in operating margin. These decreases in operating margin were partially offset by a decrease in salaries and related expenses for our revenue-generating professionals.

Huron Education and Life Sciences**Revenues**

Huron Education and Life Sciences segment revenues increased \$1.7 million, or 4.9%, to \$36.5 million for the third quarter of 2014 from \$34.8 million for the third quarter of 2013. Revenues for the third quarter of 2014 included \$3.5 million from The Frankel Group Associates, a business that we acquired in the first quarter of 2014. Revenues from time-and-expense engagements, fixed-fee engagements, and software support and maintenance arrangements represented 71.3%, 23.9%, and 4.8% of this segment's revenues, respectively, during the three months ended

September 30, 2014, compared to 84.3%, 11.6%, and 4.1%, respectively, for the comparable period in 2013.

Of the overall \$1.7 million increase in revenues, \$3.4 million was attributable to an increase in revenue generated by our full-time billable consultants, partially offset by a \$1.7 million decrease in revenue generated by our full-time equivalents. The increase in revenue from our full-time billable consultants primarily reflected increases in the consultant utilization rate and average billing rate, partially offset by a decrease in the average number of full-time billable consultants. The decrease in revenue from our full-time equivalents was driven by a decrease in both revenue per full-time equivalent and the average number of full-time equivalents.

Operating Income

Huron Education and Life Sciences segment operating income increased \$1.7 million, or 21.7%, to \$9.5 million in the three months ended September 30, 2014, from \$7.8 million in the three months ended September 30, 2013. The Huron Education and Life Sciences segment operating margin increased to 25.9% for the third quarter of 2014 from 22.3% in the same period last year. The increase in this segment's operating margin was primarily attributable to decreases in contractor expense, practice

Table of Contents

administration and meetings expense, and severance expense, as well as a decrease in salaries and related expenses for our revenue-generating professionals as a percentage of revenues. These increases to the operating margin were partially offset by an increase in bonus expense for our revenue-generating professionals.

Huron Business Advisory

Revenues

Huron Business Advisory segment revenues increased \$9.9 million, or 137.3%, to \$17.1 million for the third quarter of 2014 from \$7.2 million for the third quarter of 2013. Revenues for the third quarter of 2014 included \$7.7 million from our EPM practice (formerly referred to as Blue Stone International, a business that we acquired during the fourth quarter of 2013). Revenues from time-and-expense engagements, fixed-fee engagements, and performance-based arrangements represented 68.8%, 15.6%, and 15.6% of this segment's revenues, respectively, during the third quarter of 2014, compared to 71.4%, 22.0%, and 6.6%, respectively, for the comparable period in 2013. Performance-based fee revenue was \$2.7 million during the third quarter of 2014, of which \$2.5 million was generated by Huron Transaction Advisory LLC, our registered broker-dealer established in the first quarter of 2014. The level of performance-based fees earned may vary based on our clients' preferences and the mix of services we provide. Performance-based fee arrangements may cause significant variations in revenues, operating results, and average billing rates due to our level of execution and the timing of achievement of the performance-based criteria.

Of the overall \$9.9 million increase in revenues, \$9.3 million was attributable to our full-time billable consultants and \$0.6 million was related to our full-time equivalents. The increase in revenue from our full-time billable consultants was driven by an increase in the average number of full-time billable consultants, partially offset by decreases in the average billing rate and consultant utilization rate. The increase in revenue from our full-time equivalents was the result of an increase in the average number of full-time equivalents.

Operating Income

Huron Business Advisory segment operating income increased by \$3.7 million to \$4.4 million in the three months ended September 30, 2014, compared to \$0.7 million in the three months ended September 30, 2013. Segment operating margin increased to 25.7% for the third quarter of 2014 from 9.2% in the same period last year. The increase in this segment's operating margin was primarily attributable to revenue growth that outpaced the increase in salaries, bonuses, and related expenses for our revenue-generating professionals and support personnel, as well as a decrease in severance expense, partially offset by increases in contractor expense, practice administration and meetings expense, and promotion and sponsorship expense as percentages of revenues.

Table of Contents**Nine Months Ended September 30, 2014 Compared to Nine Months Ended September 30, 2013****Revenues**

Revenues increased \$109.0 million, or 21.4%, to \$618.2 million for the first nine months of 2014 from \$509.2 million for the first nine months of 2013. Revenues for the first nine months of 2014 included \$44.9 million from businesses that we acquired subsequent to the third quarter of 2013.

Of the overall \$109.0 million increase in revenues, \$86.4 million was attributable to our full-time billable consultants, while \$22.6 million was attributable to our full-time equivalents. The increase in full-time billable consultant revenues was driven by an increase in the average number of billable consultants and average billing rate, partially offset by a decrease in the consultant utilization rate. The increase in revenue from full-time billable consultants during the first nine months of 2014 primarily reflected strengthened demand for our services in the Huron Healthcare and Huron Business Advisory segments when compared to the first nine months of 2013. The increase in full-time equivalent revenue was primarily attributable to an increase in the average number of full-time equivalents, as well as an increase in revenue per full-time equivalent. Revenue attributable to full-time equivalents primarily reflected increased demand for our discovery services in the Huron Legal segment, as well as increased use of contractors in the Huron Healthcare segment, partially offset by a decreased use of contractors in the Huron Education and Life Sciences segment.

Total Direct Costs

Our total direct costs increased \$64.3 million, or 20.3%, to \$381.4 million in the nine months ended September 30, 2014, from \$317.1 million in the nine months ended September 30, 2013. The increase primarily related to a \$39.8 million increase in salaries and related expenses for our revenue-generating professionals, an \$11.5 million increase in bonus expense for our revenue-generating professionals, an \$11.5 million increase in contractor expense, and a \$1.6 million increase in amortization expense for intangible assets and software development costs, partially offset by a \$0.6 million decrease in technology expense. As a percentage of revenues, our total direct costs decreased to 61.7% during the first nine months of 2014 compared to 62.3% during the first nine months of 2013. This decrease primarily reflected revenue growth that outpaced the increase in salaries and related expenses for our revenue-generating professionals during the first nine months of 2014, as well as the decrease in technology expense during the period, partially offset by increases in contractor expense and bonus expense for our revenue-generating professionals as percentages of revenues during 2014.

Total direct costs for the nine months ended September 30, 2014 included \$11.7 million of share-based compensation expense and \$3.6 million of amortization expense for intangible assets and software development costs, primarily representing customer-related assets and software acquired in business combinations. Total direct costs for the nine months ended September 30, 2013 included \$9.7 million of share-based compensation expense and \$2.0 million of amortization expense for intangible assets and software development costs. The increase in share-based compensation expense was primarily attributable to an increase in the amount of restricted stock awards granted to employees in the first nine months of 2014 and an increase in the number of performance-based awards that are expected, as of September 30, 2014, to be earned in 2014 based on 2014 performance, compared to those that were expected, as of September 30, 2013, to be earned based on 2013 performance. The increase in amortization expense was primarily related to the amortization of intangible assets from businesses acquired during the fourth quarter of 2013 and the first half of 2014, as well as an increase in amortization expense for certain software development costs.

Operating Expenses and Other Operating Gains

Selling, general and administrative expenses increased \$19.8 million, or 19.8%, to \$120.1 million in the first three quarters of 2014 from \$100.3 million in the first three quarters of 2013. This increase was primarily related to a \$7.3 million increase in salaries and related expenses for our support personnel, a \$5.9 million increase in bonus expense, a \$2.9 million increase in promotion and sponsorship expenses, a \$1.3 million increase in facilities and other office related expenses, a \$0.9 million increase in outside professional service expenses, and a \$0.8 million increase in practice administration and meetings expense, partially offset by a \$0.8 million decrease in severance expense. As a percentage of revenues, selling, general and administrative expenses decreased to 19.4% during the first three quarters of 2014 compared to 19.7% during the first three quarters of 2013. This decrease primarily reflected revenue growth that outpaced the increases in salaries and related expenses for our support personnel and facilities and other office related expenses, as well as the decrease in severance expense, partially offset by an increase in bonus expense as a percentage of revenues.

Restructuring charges for the nine months ended September 30, 2014 totaled \$1.4 million, primarily consisting of a \$1.2 million pretax charge related to the consolidation of office spaces in Chicago, New York, and London. Of the total \$1.2 million charge, \$0.8 million related to the accrual of our remaining lease obligations at vacated spaces, net of estimated sublease income, and \$0.4

Table of Contents

million related to accelerated depreciation of assets disposed of as a result of the space consolidation. The vacated locations in Chicago and New York were acquired as part of business acquisitions during 2013 and 2014. Also included in the total \$1.4 million restructuring charge is a \$0.1 million pretax charge related to workforce reductions in our London office to better align our resources with market demand in our Huron Legal segment. Restructuring charges for the nine months ended September 30, 2013 totaled \$0.6 million, primarily relating to the consolidation of office space in the Washington, D.C. area that was acquired in the AdamsGrayson acquisition in 2012.

During the nine months ended September 30, 2014, we recorded remeasurement gains totaling \$0.6 million related to the contingent consideration liability incurred in connection with a business acquisition. The initial acquisition date fair value of this liability was \$0.6 million. During the second quarter of 2014, we determined that the fair value of our contingent consideration liability had decreased and, as a result, recorded a \$0.4 million remeasurement gain. In the third quarter of 2014, we determined that the likelihood of payout of the contingent consideration liability was remote and reduced the fair value of the liability to zero. As a result, we recorded a \$0.2 million remeasurement gain to write off the remaining balance of the liability. There was no remeasurement gain or loss for the comparable period last year.

We recorded litigation settlement gains of \$6.5 million for the nine months ended September 30, 2013. During the third quarter of 2013, we reached a settlement agreement to resolve a lawsuit brought by Huron, resulting in a gain of \$5.3 million during that period. During the second quarter of 2012, we conducted preliminary settlement discussions with the relator in the *qui tam* action discussed in Legal Proceedings and in Note 12 Commitments, Contingencies and Guarantees, and as a result, we recorded a charge of \$1.2 million, in accordance with Accounting Standards Codification (ASC) 450, *Contingencies*. On March 8, 2013, the Court granted Huron's motion for summary judgment and dismissed the relator's second amended complaint in its entirety with prejudice. As a result, during the first quarter of 2013, we reversed the charge of \$1.2 million taken during 2012.

Depreciation and amortization expense increased by \$4.0 million to \$18.6 million in the nine months ended September 30, 2014, from \$14.6 million in the nine months ended September 30, 2013. The increase primarily related to the amortization of intangible assets from businesses acquired during the fourth quarter of 2013 and first half of 2014, as well as the depreciation of network equipment and leasehold improvements that were placed into service during the second half of 2013 and first half of 2014. Intangible asset amortization included within operating expenses relates to certain customer relationships, non-competition agreements, trade names, and licenses acquired in connection with our acquisitions.

Operating Income

Operating income increased \$14.1 million, or 17.0%, to \$97.1 million in the first nine months of 2014 from \$83.0 million in the first nine months of 2013. Operating margin, which is defined as operating income expressed as a percentage of revenues, decreased to 15.7% in the nine months ended September 30, 2014, compared to 16.3% in the nine months ended September 30, 2013. The decrease in operating margin was primarily attributable to the decrease in litigation and other gains, as well as increases, as a percentage of revenue, in bonus expense for both our revenue-generating professional and support personnel and contractor expense during the first nine months of 2014 compared to the same period last year. These operating margin decreases were partially offset by revenue growth that outpaced the increase in salaries and related expenses for our revenue-generating professionals and support personnel, as well as decreases in technology expense and severance expense.

Other Expense, Net

Total other expense, net decreased by \$0.6 million to \$4.6 million in the first nine months of 2014 from \$5.1 million in the first nine months of 2013. Interest expense, net of interest income decreased by \$0.3 million, primarily resulting from a decrease in our borrowing levels under our senior secured credit facility, partially offset by interest expense recorded for our Convertible Notes issued in September 2014. For the month of September 2014, the interest expense related to the coupon of the Convertible Notes was \$0.2 million and the non-cash interest expense related to the amortization of the debt discount and amortization of debt issuance costs totaled \$0.5 million. For the full year 2014, we expect interest expense related to the coupon of the Convertible Notes to be \$1.0 million and non-cash interest expense related to the amortization of the debt discount and amortization of debt issuance costs to be \$2.5 million.

Income Tax Expense

For the first nine months of 2014, we recognized income tax expense from continuing operations of \$26.3 million on income from continuing operations of \$92.6 million. For the first nine months of 2013, we recognized income tax expense from continuing operations of \$33.5 million on income from continuing operations of \$77.9 million. Our effective tax rate for the first nine months of 2014 was 28.4% compared with 43.1% for the same period last year. The effective tax rate for the nine months ended

Table of Contents

September 30, 2014 was lower than the statutory rate, inclusive of state income taxes, primarily due to the impact of a tax election made in the first quarter of 2014 to classify one of our wholly-owned foreign subsidiaries as a disregarded entity for U.S. federal income tax purposes (commonly referred to as a "check-the-box" election). As a result of this election, we expect to realize an income tax benefit of \$13.8 million, of which \$2.4 million is unrecognized, resulting in a net recognized tax benefit of \$11.4 million. This recognized benefit was partially offset by \$1.2 million in expenses related to the establishment of a valuation allowance for certain foreign tax credits and increased deferred tax liabilities as a result of the aforementioned election. The effective tax rate for the nine months ended September 30, 2013 was higher than the statutory rate, inclusive of state income taxes, primarily due to the impact of foreign losses with no tax benefit and certain non-deductible business expenses, partially offset by the impact of certain credits and deductions.

Net Income from Continuing Operations

Net income from continuing operations was \$66.3 million for the nine months ended September 30, 2014, compared to net income from continuing operations of \$44.3 million for the same period last year. The \$21.9 million increase in net income from continuing operations was primarily due to the increase in operating income, as well as the decrease in income tax expense, as discussed above. As a result of the increase in net income from continuing operations, diluted earnings per share from continuing operations for the first nine months of 2014 was \$2.87 compared to \$1.95 for the first nine months of 2013.

EBITDA and Adjusted EBITDA

EBITDA increased \$19.7 million to \$119.4 million for the nine months ended September 30, 2014, from \$99.6 million for the nine months ended September 30, 2013. Adjusted EBITDA increased \$26.4 million to \$120.2 million in the first nine months of 2014 from \$93.8 million in the first nine months of 2013. The increase in EBITDA was primarily due to the increase in segment operating income, as discussed below in Segment Results, partially offset by the decrease in litigation gains and an increase in corporate expenses, while the increase in Adjusted EBITDA was primarily due to the increase in segment operating income, partially offset by an increase in corporate expenses.

Adjusted Net Income from Continuing Operations

Adjusted net income from continuing operations increased \$18.3 million to \$61.7 million in the first nine months of 2014 compared to \$43.4 million in the first nine months of 2013. The increase was primarily attributable to the increase in operating income, partially offset by a higher tax expense when excluding the tax benefit related to our "check-the-box" election.

Segment Results**Huron Healthcare****Revenues**

Huron Healthcare segment revenues increased \$61.7 million, or 25.2%, to \$306.3 million for the first nine months of 2014 from \$244.6 million for the first nine months of 2013. Revenues for the first nine months of 2014 included \$12.7 million from Vonlay, a business that we acquired in the second quarter of 2014. During the nine months ended September 30, 2014, revenues from time-and-expense engagements, fixed-fee engagements, performance-based arrangements, and software support and maintenance arrangements represented 5.1%, 67.3%, 22.8%, and 4.8% of this segment's revenues, respectively, compared to 1.6%, 69.2%, 24.1%, and 5.1%, respectively, for the comparable period

in 2013.

Of the overall \$61.7 million increase in revenues, \$59.6 million was attributable to our full-time billable consultants and \$2.1 million was attributable to our full-time equivalents. The increase in demand for our services reflected the continued pressures our clients face as the result of evolving business models, rising costs, and declining reimbursements from government and commercial payers. The increase in full-time billable consultant revenues reflected increases in average number of full-time billable consultants and the average billing rate, partially offset by a decrease in the consultant utilization rate. Performance-based fee revenue was \$69.9 million during the first nine months of 2014 compared to \$59.0 million during the first nine months of 2013. We expect performance-based fees to be greater in the first half of 2014 than in the second half of 2014. The level of performance-based fees earned may vary based on our clients' preferences and the mix of services we provide. Performance-based fee arrangements may cause significant variations in revenues, operating results, and average billing rates due to our level of execution and the timing of achievement of the performance-based criteria. With regard to our full-time equivalents, the Huron Healthcare segment experienced increases in both the average number of full-time equivalents and revenue per full-time equivalent during the first nine months of 2014 compared to the same period last year.

Table of Contents**Operating Income**

Huron Healthcare segment operating income increased \$26.0 million, or 28.4%, to \$117.4 million in the nine months ended September 30, 2014, from \$91.4 million in the nine months ended September 30, 2013. The Huron Healthcare segment operating margin, defined as segment operating income expressed as a percentage of segment revenues, increased to 38.3% for the first nine months of 2014 from 37.4% in the same period last year. The increase in this segment's operating margin was primarily attributable to revenue growth that outpaced the increase in salaries and related expenses for our revenue-generating professionals, partially offset by an increase in bonus expense for our revenue-generating professionals as a percentage of revenues.

Huron Legal**Revenues**

Huron Legal segment revenues increased \$23.1 million, or 17.6%, to \$154.4 million for the first nine months of 2014 from \$131.3 million for the first nine months of 2013. Revenues from time-and-expense engagements, fixed-fee engagements, performance-based arrangements, and software support and maintenance arrangements represented 95.9%, 2.5%, 1.5%, and 0.1% of this segment's revenues, respectively, during the nine months ended September 30, 2014. During the comparable period in 2013, revenues from time-and-expense engagements, fixed-fee engagements, and software support and maintenance arrangements represented 95.3%, 4.2%, and 0.5% of this segment's revenues, respectively.

Of the overall \$23.1 million increase in revenues, \$20.9 million was attributable to an increase in revenue generated by our full-time equivalents and \$2.2 million was related to our full-time billable consultants. The increase in revenue attributable to our full-time equivalents was the result of an increase in both the average number of full-time equivalents and revenue per full-time equivalent. The increase in full-time billable consultant revenue reflected increases in the consultant utilization rate and average billing rate, partially offset by a decrease in the average number of full-time billable consultants.

Operating Income

Huron Legal segment operating income increased by \$10.4 million, or 35.9%, to \$39.2 million in the nine months ended September 30, 2014, from \$28.9 million in the nine months ended September 30, 2013. Segment operating margin increased to 25.4% for the first nine months of 2014 from 22.0% in the same period last year. The increase in this segment's operating margin was primarily attributable to a decrease in salaries and related expenses for our revenue-generating professionals. Decreases in technology expense, rent and utility expense for our document review centers, restructuring expense, and severance expense also contributed to the increase in operating margin, partially offset by increases in contractor expense and bonus expense for our revenue-generating professionals and support personnel as percentages of revenues.

Huron Education and Life Sciences**Revenues**

Huron Education and Life Sciences segment revenues increased slightly to \$107.8 million for the first nine months of 2014 from \$107.7 million for the first nine months of 2013. Revenues for the first nine months of 2014 included \$10.6 million from The Frankel Group Associates, a business that we acquired in the first quarter of 2014. Revenues from time-and-expense engagements, fixed-fee engagements, and software support and maintenance arrangements

represented 71.2%, 24.3%, and 4.5% of this segment's revenues, respectively, during the first nine months of 2014, compared to 81.1%, 15.0%, and 3.9%, respectively, for the first nine months of 2013.

Of the overall \$0.2 million increase in revenues, \$2.2 million was attributable to an increase in revenue generated by our full-time billable consultants, which was mostly offset by a \$2.0 million decrease in revenue generated by our full-time equivalents. The increase in revenue from our full-time billable consultants reflected an increase in consultant utilization rate and average billing rate, partially offset by a decrease in the average number of full-time billable consultants. The decrease in revenue attributable to our full-time equivalents reflected decreases in both revenue per full-time equivalent and the average number of full-time equivalents.

Operating Income

Huron Education and Life Sciences segment operating income decreased \$1.1 million, or 4.0%, to \$27.5 million for the nine months ended September 30, 2014, from \$28.7 million for the nine months ended September 30, 2013. The Huron Education and Life Sciences segment operating margin decreased to 25.5% for the first nine months of 2014 from 26.6% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in salaries and related expenses for

Table of Contents

both our revenue-generating professionals and support personnel as a percentage of revenues, as well as an increase in promotion and sponsorship expenses as a percentage of revenues, partially offset by decreases in contractor expense and practice administration and meetings expense.

Huron Business Advisory

Revenues

Huron Business Advisory segment revenues increased \$22.0 million, or 87.9%, to \$47.1 million for the first nine months of 2014 from \$25.1 million for the first nine months of 2013. Revenues for the first nine months of 2014 included \$21.6 million from our EPM practice (formerly referred to as Blue Stone International, a business that we acquired during the fourth quarter of 2013). Revenues from time-and-expense engagements, fixed-fee engagements, and performance-based arrangements represented 78.8%, 14.1%, and 7.1% of this segment's revenues, respectively, during the first nine months of 2014, compared to 77.1%, 19.0%, and 3.9%, respectively, for the comparable period in 2013. Performance-based fee revenue was \$3.3 million during the first nine months of 2014, of which \$2.5 million was generated by Huron Transaction Advisory LLC, our registered broker-dealer established in the first quarter of 2014. The level of performance-based fees earned may vary based on our clients' preferences and the mix of services we provide. Performance-based fee arrangements may cause significant variations in revenues, operating results, and average billing rates due to our level of execution and the timing of achievement of the performance-based criteria.

Of the overall \$22.0 million increase in revenues, \$20.8 million was attributable to our full-time billable consultants and \$1.2 million was related to our full-time equivalents. The increase in revenue from our full-time billable consultants was driven by an increase in the average number of full-time billable consultants, partially offset by decreases in the average billing rate and consultant utilization rate. The increase in revenue attributable to our full-time equivalents reflected an increase in the average number of full-time equivalents, partially offset by a decrease in revenue per full-time equivalent.

Operating Income

Huron Business Advisory segment operating income increased by \$4.1 million, or 51.1%, to \$12.1 million in the nine months ended September 30, 2014, compared to \$8.0 million in the nine months ended September 30, 2013. Segment operating margin decreased to 25.7% for the first nine months of 2014 from 31.9% in the same period last year. The decrease in this segment's operating margin was primarily attributable to increases in salaries and related expenses for our revenue-generating professionals and contractor expenses as percentages of revenues. Increases in promotion and sponsorship expense, intangible asset amortization expense, and practice administration and meetings expense, all as percentages of revenues, also contributed to the decrease in the segment's operating margin, partially offset by a decrease in bonus expense for our revenue-generating professionals as a percentage of revenues and a decrease in severance expense.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

Cash and cash equivalents increased \$167.8 million, from \$58.1 million at December 31, 2013 to \$225.9 million at September 30, 2014. As of September 30, 2014, our primary sources of liquidity are cash, cash flows from our U.S. operations, and debt capacity available under our credit facility.

Cash Flows (in thousands):	Nine Months Ended	
	September 30,	
	2014	2013
Net cash provided by operating activities	\$ 92,121	\$ 47,762
Net cash used in investing activities	\$ (81,700)	\$ (18,291)
Net cash provided by (used in) financing activities	\$ 157,382	\$ (23,829)

Operating Activities

Net cash provided by operating activities totaled \$92.1 million for the nine months ended September 30, 2014, and \$47.8 million for the same period last year. Our operating assets and liabilities consist primarily of receivables from billed and unbilled services, accounts payable and accrued expenses, accrued payroll and related benefits, and deferred revenues. The volume of services rendered and the related billings and timing of collections on those billings, as well as payments of our accounts payable and salaries, bonuses, and benefits to employees affect these account balances. The increase in cash provided by operations was primarily attributable to higher net income and increased collections of receivables from clients during the first nine months of 2014 when compared with the first nine months of 2013, partially offset by an increase in the amount paid for annual performance bonuses during the first quarter of 2014 and an increase in unbilled services from clients during the first nine months of 2014 when compared with the first nine months of 2013.

Investing Activities

Net cash used in investing activities was \$81.7 million for the nine months ended September 30, 2014, and \$18.3 million for the same period last year. The use of cash in the first nine months of 2014 primarily consisted of \$51.7 million for purchases of businesses, \$16.7 million for purchases of property and equipment, and \$12.5 million for the purchase of a convertible debt investment. The use of cash in the first nine months of 2013 primarily consisted of purchases of property and equipment totaling \$16.4 million.

We estimate that the cash utilized for purchases of property and equipment in 2014 will be approximately \$30.0 million, primarily consisting of information technology related equipment and leasehold improvements to support the continued growth of our document review and processing services, as well as information technology related equipment to support our corporate infrastructure.

Financing Activities

Net cash provided by financing activities was \$157.4 million for the nine months ended September 30, 2014, compared to net cash used in financing activities of \$23.8 million for the same period last year. In September 2014, we issued \$250 million principal amount of the Convertible Notes, which provided proceeds of \$242.7 million, net of issuance costs. In connection with the issuance of the Convertible Notes, we paid \$42.1 million for the convertible note hedge transactions and received \$23.6 million for the sale of warrants. Borrowings made under our credit facility to fund operations during the first nine months of 2014 totaled \$129.0 million, with repayments during the period

totaling \$147.8 million. During the first nine months of 2014, we repurchased and retired \$45.1 million of our common stock under the February 2014 Share Repurchase Program. Under this program, which was authorized by the Company's board of directors in February 2014, the Company may, from time to time, repurchase up to \$50 million of its common stock through February 28, 2015. The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements. As of September 30, 2014, \$4.9 million remained available for share repurchases under the February 2014 Share Repurchase Program. In October 2014, we completed the February 2014 Share Repurchase Program.

In October 2014, our board of directors authorized an additional share repurchase program pursuant to which the Company may, from time to time, repurchase up to \$50 million of its common stock through October 31, 2015. The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements.

Table of Contents

Borrowings made under our credit facility during the first nine months of 2013 totaled \$83.5 million, with repayments totaling \$101.0 million.

Financing Arrangements

At September 30, 2014, we had \$250 million principal amount of our 1.25% convertible senior notes outstanding and \$150 million outstanding under our term loan, as discussed below.

1.25% Convertible Senior Notes

In September 2014, we issued \$250 million principal amount of the Convertible Notes in a private offering. The Convertible Notes are senior unsecured obligations of the Company and will pay interest semi-annually on April 1 and October 1 of each year at an annual rate of 1.25%. The Convertible Notes will mature on October 1, 2019, unless earlier repurchased by the Company or converted in accordance with their terms.

Upon conversion, the Convertible Notes will be settled, at our election, in cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock. Our current intent and policy is to settle conversions with a combination of cash and shares of common stock with the principal amount of the Convertible Notes paid in cash, in accordance with the settlement provisions of the Indenture.

The initial conversion rate for the Convertible Notes is 12.5170 shares of our common stock per \$1,000 principal amount of the Convertible Notes, which is equal to an initial conversion price of approximately \$79.89 per share of our common stock.

In connection with the issuance of the Convertible Notes, we entered into convertible note hedge transactions and warrant transactions. The convertible note hedge transactions are intended to reduce the potential future economic dilution associated with the conversion of the Convertible Notes and, combined with the warrants, effectively raise the price at which economic dilution would occur from the initial conversion price of approximately \$79.89 to approximately \$97.12 per share.

For further information see Note 6 Financing Arrangements within the notes to the consolidated financial statements.

Senior Secured Credit Facility

During 2011, the Company and certain of the Company's subsidiaries as guarantors entered into an Amended and Restated Credit Agreement, as amended, with various financial institutions (as amended and modified, the 2011 Credit Agreement).

The 2011 Credit Agreement consists of a senior secured credit facility in an aggregate principal amount of \$450.0 million comprised of a five-year revolving credit facility (Revolver) under which the Company may borrow from time to time up to \$247.5 million and a \$202.5 million five-year term loan facility (Term Loan) that was funded in a single advance on the closing date of the first amendment. The 2011 Credit Agreement provides for the option to increase the revolving credit facility in an aggregate amount of up to \$50 million subject to certain requirements as defined in the 2011 Credit Agreement. The proceeds of the senior secured credit facility were used to refinance existing indebtedness and will continue to be used for working capital, capital expenditures, and other corporate purposes.

The principal balance of the Term Loan is subject to scheduled quarterly principal payments. As of September 30, 2014, the quarterly principal payments are \$6.3 million and increase to \$7.5 million beginning June 30, 2015 until the

maturity date of September 25, 2018, at which time a final payment of \$40 million, plus any accrued and unpaid interest, will be due, as set forth in the 2011 Credit Agreement. Any outstanding borrowings under the Revolver, as amended, will be due upon expiration of the 2011 Credit Agreement on September 25, 2018.

Under the 2011 Credit Agreement, dividends are restricted to an amount up to \$50 million plus 50% of cumulative consolidated net income from the closing date of the 2011 Credit Agreement plus 50% of the net cash proceeds from equity issuances.

The borrowing capacity under the 2011 Credit Agreement is reduced by any outstanding letters of credit and payments under the Term Loan. At September 30, 2014, outstanding letters of credit totaled \$5.1 million and are primarily used as security deposits for our office facilities. As of September 30, 2014, the unused borrowing capacity under the 2011 Credit Agreement was \$242.4 million. Borrowings outstanding under this credit facility at September 30, 2014 totaled \$150.0 million. These borrowings carried a weighted average interest rate of 2.0%, including the effect of the interest rate swaps described in Note 8 Derivative Instruments and Hedging Activity. During the first nine months of 2014, the average daily outstanding balance under our credit

Table of Contents

facility was \$170.3 million. Borrowings outstanding at December 31, 2013 were \$168.8 million and carried a weighted average interest rate of 2.0%.

For further information see Note 6 Financing Arrangements within the notes to the consolidated financial statements.

Future Needs

Our primary financing need has been to fund our growth. Our growth strategy is to expand our service offerings, which may require investments in new hires, acquisitions of complementary businesses, possible expansion into other geographic areas, and related capital expenditures. We believe our internally generated liquidity, together with our available cash, the borrowing capacity available under our revolving credit facility, and access to external capital resources will be adequate to fund our long-term growth and capital needs arising from cash commitments and debt service obligations. Our ability to secure short-term and long-term financing in the future will depend on several factors, including our future profitability, the quality of our accounts receivable and unbilled services, our relative levels of debt and equity, and the overall condition of the credit markets.

CONTRACTUAL OBLIGATIONS

For a summary of our commitments to make future payments under contractual obligations, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Contractual Obligations in our Annual Report on Form 10-K for the year ended December 31, 2013.

In September 2014 we issued the Convertible Notes described above. We are not required to make principal payments under the Convertible Notes prior to maturity. If the Convertible Notes are not converted to shares of our common stock prior to their maturity date, we are required to repay the \$250 million in principal on October 1, 2019. We are also required to make interest payments on a semi-annual basis at the annual rate of 1.25%.

There have been no other material changes in our contractual obligations since December 31, 2013.

OFF-BALANCE SHEET ARRANGEMENTS

We are not a party to any off-balance sheet arrangements.

NEW ACCOUNTING PRONOUNCEMENTS

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-15, *Presentation of Financial Statements Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This ASU requires management to evaluate, at each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about an entity's ability to continue as a going concern within one year after the date the financial statements are issued and provide related footnote disclosures. The guidance will be effective for the Company for the fiscal year ending December 31, 2016, with early adoption permitted. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, *Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*. This guidance requires that a performance target that affects vesting and could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in ASC 718,

Compensation Stock Compensation, as it relates to such awards. This guidance is effective for the Company beginning in the first quarter of 2016, with early adoption permitted. The amendments of ASU 2014-12 may be applied either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter, with the cumulative effect of applying the amendments as an adjustment to the opening retained earnings balance as of the beginning of the earliest annual period presented in the financial statements. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, as a new Topic, ASC 606. The new revenue recognition standard provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This

Table of Contents

guidance is effective for the Company beginning in the first quarter of 2017 and is to be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. We are currently evaluating the potential effect of adopting this guidance on our consolidated financial statements, as well as the transition methods.

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. This guidance includes amendments that change the requirements for reporting discontinued operations and require additional disclosures about discontinued operations. Under the new guidance, only disposals representing a strategic shift in operations that has (or will have) a major effect on the entity's operations and financial results should be presented as discontinued operations. Examples include a disposal of a major geographic area, a major line of business, a major equity method investment, or other major parts of an entity. Additionally, the revised guidance requires expanded disclosures in the financial statements for discontinued operations as well as for disposals of significant components of an entity that do not qualify for discontinued operations presentation. This guidance is effective for the Company beginning in the first quarter of 2015. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This guidance requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented in the financial statements as either a reduction to a deferred tax asset or separately as a liability depending on the existence, availability and/or use of an operating loss carryforward, a similar tax loss, or a tax credit carryforward. The Company adopted ASU 2013-11 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

In March 2013, the FASB issued ASU No. 2013-05, *Parent's Accounting for the Cumulative Translation Adjustment Upon Derecognition of Certain Subsidiaries or Groups of Assets Within a Foreign Entity or of an Investment in a Foreign Entity*, which amends current accounting guidance on foreign currency matters. This guidance requires that the entire amount of a cumulative translation adjustment related to an entity's investment in a foreign entity should be released when there has been a: (i) sale of a subsidiary or group of net assets within a foreign entity and the sale represents the substantially complete liquidation of the investment in the foreign entity, (ii) loss of a controlling financial interest in an investment in a foreign entity, and (iii) step acquisition for a foreign entity. The Company adopted ASU 2013-05 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

SUBSEQUENT EVENTS

Effective October 1, 2014, we completed our acquisition of Threshold Consulting, Inc., a provider of cloud-based Software as a Service (SaaS) applications, data warehousing and business intelligence (BI) solutions, as well as customer relationship management (CRM) consulting services. The results of operations of Threshold will be included within the Huron Business Advisory segment.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risks primarily from changes in interest rates and changes in the market value of our investments.

Market Risk and Interest Rate Risk

The value of the Convertible Notes is exposed to interest rate risk. Generally, the fair value of our fixed interest rate Convertible Notes will increase as interest rates fall and decrease as interest rates rise. In addition, the fair value of our Convertible Notes is affected by our stock price. The remaining carrying value of our Convertible Notes was \$211.1 million as of September 31, 2014, which represents the liability component of the \$250 million principal balance. The total estimated fair value of our Convertible Notes at September 30, 2014 was \$241.6 million, and was determined based on the quoted bid price of the Convertible Notes in an over-the-counter market as of the last day of trading for the third quarter of 2014, which was \$96.625 per \$100 principal amount.

Concurrent with the issuance of the Convertible Notes, we entered into separate convertible note hedge and warrant transactions. The convertible note hedge transactions are intended to reduce the potential future economic dilution associated with the conversion of the Convertible Notes and, combined with the warrants, to increase the initial conversion price to approximately \$97.12 per share. Under the convertible note hedge transactions, we have the option to purchase a total of approximately 3.1 million shares of our common stock, which is the number of shares initially issuable upon conversion of the Convertible Notes in full, at a price of approximately \$79.89, which corresponds to the initial conversion price of the Convertible Notes, subject to customary anti-dilution adjustments substantially similar to those in the Convertible Notes. Under the warrant transactions, the holders of the warrants have the option to purchase a total of approximately 3.1 million shares of our common stock at a price of approximately \$97.12. If the average market value per share of our common stock for the reporting period exceeds the strike price of the warrants, the warrants will have a dilutive effect on our earnings per share.

We have exposure to changes in interest rates associated with borrowings under our bank credit facility, which has variable interest rates tied to the LIBOR, Federal Funds Rate, Prime Rate, or Eurodollar Rate. At September 30, 2014, we had borrowings outstanding under the credit facility totaling \$150.0 million that carried a weighted average interest rate of 2.0% including the effect of the interest rate swaps described below. A hypothetical 100 basis point change in this interest rate would have a \$0.3 million effect on our pretax income including the effect of the interest rate swaps.

On December 8, 2011, we entered into a forward amortizing interest rate swap agreement effective on February 29, 2012 and ending on April 14, 2016. We entered into this derivative instrument to hedge against the interest rate risks of our variable-rate borrowings described above. The swap had an initial notional amount of \$56.6 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.9875%.

On May 30, 2012, we entered into an amortizing interest rate swap agreement effective on May 31, 2012 and ending on April 14, 2016. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings described above. The swap had an initial notional amount of \$37.0 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.70%.

On April 4, 2013, we entered into a forward amortizing interest rate swap agreement effective on March 31, 2014 and ending on August 31, 2017. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings described above. The swap has an initial notional amount of \$60.0 million and

amortizes such that, collectively with our other two interest rate swaps, we are effectively fixing the interest rate on 80% of our Term Loan borrowings throughout the term of the swap agreement. Under the terms of the interest rate swap agreement, we will receive from the counterparty interest on the notional amount based on one-month LIBOR and we will pay to the counterparty a fixed rate of 0.985%.

Including the impact of the above swap agreements, the effective interest rate on \$120.0 million of our variable-rate debt, which equals the notional amount of the swap agreements in effect at September 30, 2014, was 2.2%.

We have a non-interest bearing convertible debt investment in a privately-held company, which we account for as an available for sale security. As such, the investment is carried at fair value with unrealized holding gains and losses excluded from earnings and reported in other comprehensive income. As of September 30, 2014, the fair value of the investment was \$12.8 million, with a total cost basis of \$12.5 million.

Table of Contents

From time to time, we invest excess cash in short-term marketable securities. These investments principally consist of overnight sweep accounts. Due to the short maturity of these investments, we have concluded that we do not have material market risk exposure.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of September 30, 2014. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2014, our disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports we file or submit under the Exchange Act and such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Qui Tam Action

On December 9, 2009, plaintiff, Associates Against Outlier Fraud, filed a first amended qui tam complaint against Huron Consulting Group Inc. and others under the federal and New York state False Claims Act (FCA) in the United States District Court for the Southern District of New York. The federal and state FCA authorize private individuals (known as relators) to sue on behalf of the government (known as qui tam actions) alleging that false or fraudulent claims were knowingly submitted to the government. Once a qui tam action is filed, the government may elect to intervene in the action. If the government declines to intervene, the relator may proceed with the action. Under the federal and state FCA, the government may recover treble damages and civil penalties (civil penalties of up to \$11,000 per violation under the federal FCA and \$12,000 per violation under the state FCA). On January 6, 2010, the United States declined to intervene in the lawsuit. After the Court granted Huron's motion to dismiss without prejudice, on September 29, 2010, the relator filed a second amended complaint alleging that Huron and others caused St. Vincent Catholic Medical Center to receive more than \$30 million in inflated outlier payments under the Medicare and Medicaid programs in violation of the federal and state FCA and seeking to recover an unspecified amount of civil penalties. On March 8, 2013, the Court granted Huron's motion for summary judgment and dismissed the relator's second amended complaint in its entirety with prejudice. As a result, we reversed the charge of \$1.2 million relating to settlement discussions which we recorded in the second quarter of 2012, in accordance with ASC 450, *Contingencies*. The relator filed an appeal on April 2, 2013. On April 8, 2013, Huron filed an appeal of an earlier denial of a motion to dismiss filed by Huron which argued that the relator's action was barred because, under the FCA jurisdictional bar,

the action was based on publicly disclosed information and the relator cannot qualify as an original source. On May 22, 2014, the United States Court of Appeals for the Second Circuit upheld the lower court's decision, which granted summary judgment to Huron. The relator did not file a petition for writ of certiorari with the United States Supreme Court, and therefore the litigation is concluded.

Tamalluk Business Development LLC v. Huron Consulting Services LLC (Abu Dhabi Court of First Instance)

On August 22, 2013, we learned that Tamalluk Business Development LLC, who was Huron's agent in Abu Dhabi, and its principal, Mubarak Ahmad Bin Hamouda Al Dhaheri, filed a claim against Huron Consulting Services LLC in the Abu Dhabi Court of First Instance. The lawsuit alleges that under the agency agreement, Tamalluk was entitled to a commission on certain amounts that Huron collected from Abu Dhabi clients, and that Huron breached the agreement with Tamalluk and caused damages by declining to enter into a client engagement in Abu Dhabi and subsequently terminating the agency agreement with Tamalluk. Claimants allege they are entitled to \$50 million for damage to reputation and defamation and another \$50 million for breach of contract. Huron submitted its written response on September 25, 2013. The response states that Huron had the right to terminate the agency agreement with Tamalluk, and Huron had the sole discretion whether to accept or reject an engagement. Huron also filed a counterclaim on October 10, 2013 seeking a judicial order to permit the cancellation of Huron's commercial license to allow Huron to cease doing business in Abu Dhabi. On December 17, 2013, the Abu Dhabi court ruled in Huron's favor on all

Table of Contents

claims and held that Huron permissibly terminated the contract with Tamalluk and Huron does not owe Tamalluk any compensation related to Tamalluk's claims. In addition, the court terminated the Local Sponsorship Agreement as requested by Huron in its counterclaim. Tamalluk appealed the decision, and on March 18, 2014, the appellate court upheld the decision in Huron's favor. Tamalluk filed an appeal on May 18, 2014 to the Court of Cassation, which is the highest court in Abu Dhabi. On October 21, 2014, the Court of Cassation referred the case back to the appellate court for consideration of Claimants' allegations relating to damage to reputation and defamation, which the appellate court had not previously addressed. The Court of Cassation ruled in Huron's favor on the other claims and on Huron's counterclaim. We continue to believe that the remaining claims are without merit and intend to vigorously defend ourselves in this matter.

Physiotherapy Associates

In 2011, Huron was engaged to design and implement new processes, software, tools, and techniques to assist Physiotherapy Associates, Inc. (PA) in reducing older accounts receivable levels and optimizing cash flow. The engagement agreement specifically provides that Huron will not be auditing financial statements and that Huron's services are not designed, and should not be relied on, to disclose weaknesses in internal controls, financial statement errors, irregularities, illegal acts, or disclosure deficiencies.

In November 2013, Physiotherapy Holdings, Inc., and certain subsidiaries and affiliates (including PA) filed a voluntary petition for bankruptcy pursuant to Chapter 11 of the Bankruptcy Code, which resulted in part from claims related to an alleged overstatement of PA's revenues and profitability in connection with the sale of PA in 2012. The Joint Prepackaged Plan of Reorganization (the Plan), which was confirmed by the Bankruptcy Court in December 2013, establishes and funds a Litigation Trust to pursue certain claims on behalf of certain beneficiaries. The Plan discloses a lengthy list of potential defendants and witnesses regarding these claims, including but not limited to the debtors' officers, directors, certain employees, former owners, investment bankers, auditors, and various consultants. This list of potential defendants and witnesses includes Huron, as well as three of Huron's current or former employees.

The Plan suggests that Huron, among others, was involved in actively marketing PA for sale and provided opinions to unnamed parties defending the quality of PA's earnings. The Plan further states that the damages to be sought by the Litigation Trust will exceed \$300 million. The Litigation Trust has not specified against which potential defendants it will bring claims, if any. We believe the Litigation Trust's allegations with respect to Huron are without merit and will vigorously defend ourselves should any claim arising out of these alleged facts and circumstances be asserted against us by the Litigation Trust.

From time to time, we are involved in legal proceedings and litigation arising in the ordinary course of business. As of the date of this Quarterly Report on Form 10-Q, we are not a party to any other litigation or legal proceeding that, in the current opinion of management, could have a material adverse effect on our financial position or results of operations. However, due to the risks and uncertainties inherent in legal proceedings, actual results could differ from current expected results.

ITEM 1A. RISK FACTORS

The following information updates, and should be read in conjunction with, the information disclosed in Part 1, Item 1A, Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which was filed with the Securities and Exchange Commission on February 26, 2014.

Our indebtedness could adversely affect our ability to raise additional capital to fund our operations and obligations, expose us to interest rate risk to the extent of our variable rate debt, and adversely affect our financial results.

At September 30, 2014, we had outstanding indebtedness totaling \$361.1 million, including \$250 million principal amount of our 1.25% convertible senior notes. Our ability to make scheduled payments of the principal of, to pay interest on, make payments upon conversion or to refinance our indebtedness, depends on our future performance. Our business may not continue to generate cash flow from operations in the future sufficient to satisfy our obligations under our current indebtedness and any future indebtedness we may incur and to make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as reducing or delaying investments or capital expenditures, selling assets, refinancing or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our current indebtedness or future indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on the current indebtedness or future indebtedness.

Table of Contents

In addition, our indebtedness, combined with our other financial obligations and contractual commitments, could have other important consequences. For example, it could:

expose us to the risk of increased interest rates because some of our borrowings are at variable interest rates;

make us more vulnerable to adverse changes in general U.S. and worldwide economic, industry and competitive conditions and adverse changes in government regulation;

limit our ability to obtain additional financing and flexibility in planning for, or reacting to, changes in our business and our industry;

place us at a disadvantage compared to our competitors who have less debt or have better access to capital resources; and

require us to dedicate a larger portion of our cash from operations to service our indebtedness and thus reduce the level of cash for other purposes such as funding working capital, strategic acquisitions, capital expenditures, and other general corporate purposes.

Any of these factors could materially and adversely affect our business, financial condition and results of operations. In addition, if we incur additional indebtedness, the risks related to our business and our ability to service or repay our indebtedness would increase.

The accounting method for convertible debt securities that may be settled in cash, such as our convertible notes, could have a material effect on our reported financial results.

Under GAAP, an entity must separately account for the debt component and the embedded conversion option of convertible debt instruments that may be settled entirely or partially in cash upon conversion, such as our convertible notes, in a manner that reflects a company's economic interest cost. The effect of the accounting treatment for such instruments is that the value of such embedded conversion option would be treated as an original issue discount for purposes of accounting for the debt component of the notes and that original issue discount is amortized into interest expense over the term of the notes using an effective yield method. As a result, over the term of our convertible notes, we will initially be required to record a greater amount of noncash interest expense. Accordingly, we will report lower net income in our financial results because of the recognition of both the current period's amortization of the debt discount and our convertible notes' coupon interest, which could adversely affect our reported or future financial results, the trading price of our common stock and the trading price of our convertible notes.

Under certain circumstances, the shares of common stock underlying convertible debt instruments (such as our convertible notes) that may be settled entirely or partially in cash are reflected in earnings per share utilizing the treasury stock method, the effect of which is that such shares of common stock are not included in the calculation of diluted earnings per share except to the extent that the conversion value of the notes exceeds their principal amount at the end of the reporting period. Under the treasury stock method, for diluted earnings per share purposes, our convertible notes are accounted for as if the number of shares of common stock that would be necessary to settle such excess, if we elected to settle such excess in shares of common stock, are issued. The accounting standards in the

future may not continue to permit the use of the treasury stock method. If we are unable to use the treasury stock method in accounting for the shares of common stock issuable upon conversion of our convertible notes, then our diluted earnings per share could be adversely affected.

In addition, if the conditional conversion feature of our convertible notes is triggered, even if holders do not elect to convert their convertible notes, we could be required under applicable accounting rules to reclassify all of the outstanding principal of our convertible notes as a current, rather than long-term, liability, which would result in a material reduction of our net working capital.

Table of Contents

We may not have the ability to raise the funds necessary to pay the amount of cash due upon conversion of our convertible notes, if relevant, or the fundamental change repurchase price due when a holder submits its convertible notes for repurchase upon the occurrence of a fundamental change, and our debt may contain limitations on our ability to pay cash upon conversion or required repurchase of our convertible notes.

Upon the occurrence of a fundamental change as defined in the indenture governing our convertible notes, holders of our convertible notes may require us to repurchase, for cash, all or a portion of their convertible notes at a repurchase price equal to 100% of their principal amount, plus accrued and unpaid interest, if any. In addition, upon conversion of our convertible notes, we will be required to make cash payments in respect of our convertible notes being converted, including if the conditional conversion feature of our convertible notes is triggered, unless we elect to deliver solely shares of our common stock to settle such conversion.

We may not have sufficient financial resources, or may be unable to arrange financing, to pay the fundamental change repurchase price if holders of our convertible notes submit their convertible notes for purchase by us upon the occurrence of a fundamental change or to pay the amount of cash (if any) due if holders of our convertible notes surrender their convertible notes for conversion. In addition, the occurrence of a fundamental change may cause an event of default under agreements governing our or our subsidiaries' indebtedness. Agreements governing any of our future debt may restrict our ability to make each of the required cash payments even if we have sufficient funds to make them. Furthermore, our ability to purchase our convertible notes or to pay cash (if any) due upon the conversion of our convertible notes may be limited by law or regulatory authorities. In addition, if we fail to repurchase our convertible notes or to pay the amount of cash (if any) due upon conversion of our convertible notes, we will be in default under the indenture. A default under the indenture or the fundamental change itself could also lead to a default under agreements governing our other indebtedness, which in turn may result in the acceleration of such other indebtedness we may then have outstanding. If the repayment of the other indebtedness were to be accelerated, we may not have sufficient funds to repay that indebtedness and to repurchase our convertible notes or to pay the amount of cash (if any) due upon conversion.

The fundamental change provisions associated with our convertible notes may delay or prevent an otherwise beneficial takeover attempt of us.

The fundamental change purchase rights, which will allow holders of our convertible notes to require us to repurchase all or a portion of their convertible notes upon the occurrence of a fundamental change, and the provisions requiring an increase to the conversion rate for conversions in connection with certain other circumstances may delay or prevent a takeover of us that might otherwise be beneficial to investors.

The convertible note hedge transactions and the warrant transactions may affect the value of our convertible notes and our common stock.

In connection with the pricing of our convertible notes, we entered into privately negotiated convertible note hedge transactions with affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities as hedge counterparties. The convertible note hedge transactions collectively cover, subject to customary anti-dilution adjustments, the number of shares of common stock that initially underlie our convertible notes. We also entered into separate privately negotiated warrant transactions with the hedge counterparties relating to the same number of shares of our common stock, subject to customary anti-dilution adjustments.

We expect that the hedge counterparties and/or their affiliates may modify their hedge positions with respect to the convertible note hedge transactions and the warrant transactions from time to time by purchasing and/or selling shares of our common stock and/or our convertible notes in privately negotiated transactions and/or open market transactions

or by entering into and/or unwinding various over-the-counter derivative transactions with respect to our common stock. This activity could also cause or prevent an increase or decrease in the market value of our common stock. In addition, the hedge counterparties and/or their affiliates may choose to engage in, or to discontinue engaging in, any of these transactions with or without notice at any time, and their decisions will be in their sole discretion and not within our control.

The hedge counterparties are financial institutions which will be subject to the risk that one or both of the hedge counterparties might default under their respective convertible note hedge transactions. Upon a default by any hedge counterparty, we may suffer adverse tax consequences and more dilution than we currently anticipate with respect to our common stock. We can provide no assurances as to the financial stability or viability of the hedge counterparties.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Our 2012 Omnibus Incentive Plan and our 2004 Omnibus Stock Plan, which was replaced by the 2012 Omnibus Incentive Plan, permit the netting of common stock upon vesting of restricted stock awards to satisfy individual tax withholding requirements. During the quarter ended September 30, 2014, we reacquired 4,791 shares of common stock with a weighted average fair market value of \$66.96 as a result of such tax withholdings.

On February 20, 2014, the Company's board of directors authorized a share repurchase program pursuant to which the Company may, from time to time, repurchase up to \$50 million of its common stock through February 28, 2015 (the February 2014 Share Repurchase Program). The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements.

The following table provides information with respect to purchases we made of our common stock during the quarter ended September 30, 2014.

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased that may yet be as Part of Publicly Announced Plans or Programs		Dollar Value of Shares Purchased under the Plans or Programs ⁽²⁾	
July 1, 2014 – July 31, 2014	3,237	\$ 69.68			\$	40,460,749
August 1, 2014 – August 31, 2014	95,710	\$ 62.58		94,690	\$	34,530,037
September 1, 2014 – September 30, 2014	473,634	\$ 62.61		473,100	\$	4,908,377
Total	572,581	\$ 62.64		567,790		

(1) The number of shares repurchased includes 3,237 shares in July 2014, 1,020 shares in August 2014, and 534 shares in September 2014 to satisfy employee tax withholding requirements. These shares do not reduce the repurchase authority under the February 2014 Share Repurchase Program.

(2) As of the end of the period. In October 2014, we purchased 79,752 shares for a total cost of \$4.9 million, completing the February 2014 Share Repurchase Program.

In October 2014, our board of directors authorized an additional share repurchase program pursuant to which the Company may, from time to time, repurchase up to \$50 million of its common stock through October 31, 2015. The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
