Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this communication that refer to New Medtronic's, Medtronic's and/or Covidien's estimated or anticipated future results, including estimated synergies, or other non-historical facts are forward-looking statements that reflect Medtronic's and/or Covidien's current perspective of existing trends and information as of the date of this communication. Forward-looking statements generally will be accompanied by words such as anticipate, believe, plan, could, should, estimate, expect, forecast, outlook, guidance, intend, may, might, will, possible, potential, project, or other similar words, phrases or expressions. It is important to note that these goals and expectations are not predictions of actual performance. Actual results may differ materially from current expectations depending upon a number of factors affecting New Medtronic's business, Medtronic's business, Covidien's business and risks associated with the proposed transactions. These factors include, among others, the inherent uncertainty associated with financial projections; restructuring in connection with, and successful close of, the Covidien acquisition; subsequent integration of the Covidien acquisition and the ability to recognize the anticipated synergies and benefits of the Covidien acquisition; the risk that the required regulatory approvals for the proposed transactions are not obtained, are delayed or are subject to conditions that are not anticipated; the anticipated size of the markets and continued demand for Medtronic's and Covidien's products; the impact of competitive products and pricing; access to available financing (including financing for the acquisition or refinancing of Medtronic or Covidien debt) on a timely basis and on reasonable terms; the risks of fluctuations in foreign currency exchange rates; the risks and uncertainties normally incident to the medical device industry, including competition in the medical device industry; product liability claims; the difficulty of predicting the timing or outcome of pending or future litigation or government investigations; variability of trade buying patterns; the timing and success of product launches; the difficulty of predicting the timing or outcome of product development efforts and regulatory agency approvals or actions, if any; potential for adverse pricing movement; costs and efforts to defend or enforce intellectual property rights; difficulties or delays in manufacturing; reduction or interruption in supply; product quality problems; the availability and pricing of

third-party sourced products and materials; risks associated with self-insurance and commercial insurance; successful compliance with governmental regulations applicable to New Medtronic s, Medtronic s and Covidien s facilities, products and/or businesses; changes in the laws and regulations, affecting among other things,

pricing and reimbursement of pharmaceutical products; health care policy changes; risks associated with international operations; changes in tax laws or interpretations that could increase New Medtronic's, Medtronic's and/or Covidien's consolidated tax liabilities, including, if the transaction is consummated, changes in tax laws that would result in New Medtronic being treated as a domestic corporation for United States federal tax purposes; the loss of key senior management or scientific staff; and such other risks and uncertainties detailed in Medtronic's periodic public filings with the SEC, including but not limited to Medtronic's Annual Report on Form 10-K for the fiscal year ended April 25, 2014, in Covidien's periodic public filings with the SEC, including but not limited to Covidien's Annual Report on Form 10-K for the fiscal year ended September 26, 2014, and from time to time in Medtronic's and Covidien's other investor communications.
