D. Major Businesses

(1) Wireless business

The Company provides wireless telecommunications services, characterized by its competitive strengths in handheld devices, affordable pricing, network coverage and an extensive contents library. Since the introduction of services employing LTE technology in July 2011, the telecommunications market for such services has grown as demand for fast data transfer speeds and differentiated services has increased. Having reached one million subscribers by January 2012 and over 10 million subscribers by April 2013, the Company has solidified its leadership position in LTE services as it has done with its 3G services. In June 2013, the Company became the first telecommunications service provider in the world to provide commercial LTE-Advanced (LTE-A) services using carrier aggregation technology, and in June 2014, the Company reaffirmed the Company s technological leadership by becoming the first to provide commercial 225 Mbps wideband LTE-A services, which is three times faster than LTE. In December 2014, the Company launched tri-band LTE-A, which is four times faster than LTE. The Company also launched unlimited LTE data plans and other innovative data plans such as Rush hour / Subway Free plans that are unlimited data plans based on time, place and occasion (or, TPO), reflecting the data pattern usage of customers and their lifestyles. The Company also launched new customer-focused products in 2014 such as the T-Phone, T-outdoor and T Kids Phone -Joon. In addition, the Company launched services for pet owners, Pet Fit and T-Pet, as a means of addressing the rapidly growing pet market. The Company plans to increase its profitability by strengthening its retention strategy in the era of data-intensive services by leveraging its competitive advantages.

In the business-to-business (B2B) area, the Company is strengthening its solutions business through the implementation of five main solution products: Smart Store, Smart Work, Smart Cloud, Green & Safety and M Ad & Payment. Since the commercial launch of its mobile IPTV services, B tv Mobile, in October 2012, the Company has gained over one million paying subscribers as of March 2014. The Company is the first telecommunications services provider in the world to provide full high definition streaming services using its LTE-A network. In 2014, the number of its mobile IPTV service subscribers increased by 1.56 million to reach 2.37 million subscribers by the end of the year and as of March 31, 2015, the number of subscribers was 2.80 million. In the area of healthcare, the Company achieved the following milestones during 2014: point-of-care diagnostic devices manufactured by a company of which the Company is the largest shareholder received approval from the U.S. Food and Drug Administration, the Company entered the Chinese healthcare market and the Company was the first Korean company to export medical information systems. As with the healthcare business, the Company plans to continue to find and develop new growth engines in the mid- to long-term. The Company also plans to seek out new growth engines in existing businesses, including the intelligence business, by utilizing its technologies relating to big data.

In addition, in order to strengthen our sales channels, the Company has been offering a variety of fixed-line and wireless telecommunication convergence products to its customers through PS&Marketing Co., Ltd. (PS&Marketing), one of its subsidiaries. Through Service Ace Co., Ltd., another subsidiary, the Company operates customer service centers in Seoul and provides telemarketing services. Furthermore, Network O&S Co., Ltd., the Company s subsidiary responsible for the operation of the Company s 2G to 4G networks (including its CDMA, WCDMA and LTE networks), provides customers with quality network services and provides the Company with technological know-how in network operations.

(2) Fixed-line business

SK Broadband Co., Ltd. (SK Broadband) is engaged in providing telecommunications, broadcasting and new media services and various other services that are permitted to be carried out by SK Broadband under relevant regulations, as

well as business activities that are directly or indirectly related to providing those services. In 1999, SK Broadband launched its high-speed Internet service in Seoul, Busan, Incheon and Ulsan, and currently provides such service nationwide. SK Broadband also commercialized its TV-Portal service in July 2006 and its IPTV service in January 2009 upon receipt of permit in September 2008.

4

(3) Other businesses

With respect to the Company s e-commerce business, 11th Street, a platform service that connects various sellers and purchasers online, continues to gain market share. In the commerce platform business area, the Company, utilizing the existing network of partner businesses of OK Cashbag, Korea s largest loyalty mileage program with 39 million members, consumer information from big data, information technology, and other sources of competitive edges that can lead the industry, launched Syrup to provide smart shopping services to consumers and Syrup Store to provide integrated marketing solutions to partner businesses in June 2014. Syrup, a mobile wallet service upgraded and rebranded from its predecessor service, Smart Wallet, reached 13.9 million users as of March 31, 2015 and leads the online-to-offline commerce. In the location-based services business area, users of the Company s T-Map Navigation service reached 18.1 million as of March 31, 2015. T-Map Navigation provides real time traffic information and various local information. Utilizing location-based service technology in other services, including leisure, logistics and travel services, the Company provides increased convenience and added value to customers. In the digital contents business area, the Company provides high-quality digital contents in its leading mobile contents marketplace, T Store, which had 23.6 million subscribers as of March 31, 2015 and which the Company plans to expand. In the media business area, the Company provides Hoppin service that enables subscribers to access various multimedia contents through personal computers, mobile devices and other digital devices. In the advertising business area, the Company is engaged in advertisement production, promotion services and research and consulting services to substantively help businesses increase their value in a rapidly evolving business environment. SK Planet Co., Ltd. (SK Planet) will continue to provide value to customers by constantly developing and improving its services.

SK Communications Co., Ltd. (SK Communications) provides integrated Internet portal services through NATE and instant messaging services through NATE-ON. Key sources of revenue for SK Communications are display advertising, search engine-based advertising, and contents and other services. Display advertising consists of image, video and Flash-based multimedia advertising carried on NATE and NATE-ON and aims to give greater exposure to the advertiser s brand name to the public. The increased effectiveness of online media as an advertising outlet has resulted in a greatly expanded advertiser base, and the increasing variety in the format of advertising has contributed to the growth of display advertising. Search engine-based advertising refers to the type of advertising that embeds advertisements within search results produced by searches of certain keywords on the NATE portal site. Search engine-based advertising has a certain appeal to small and medium-sized advertisers. Contents and other services include contents sales and providing certain types of services. Revenues from contents and other services are generated through revenues from NATE-ON instant messaging, custom decorations for mobile phones, cartoon strips, fortunetelling, movies and other contents services. In addition, SK Planet receives revenue from its services agreement with the Company in connection with operation of WAP wireless NATE services and application development.

Allocation of new shares

In accordance with Articles 530-2 through 530-12, the spin-off is a simple vertical spin-off and all shares of SK Planet were allocated to SK Telecom.

(2) Acquisition of shares of SK hynix Inc. (formerly, Hynix Semiconductor Inc.) In accordance with the resolution of the Company s board of directors on November 14, 2011, the Company purchased 146,100,000 shares of SK hynix Inc. (formerly, Hynix Semiconductor Inc.) (SK Hynix) (aggregate purchase price of Won 3,374,726 million) on February 14, 2012 in order to acquire control of SK Hynix. The Company had a 21.05%

equity interest in SK Hynix after the purchase.

(3) Merger of SK Planet and SK Marketing & Company Co., Ltd.
On January 11, 2013, the Company acquired the remaining 50% equity stake in SK Marketing & Company Co., Ltd.
(SK Marketing & Company), a company providing e-commerce and advertising services, from SK Innovation Co., Ltd. and gained control of both SK Marketing & Company and its subsidiary, M&Service Co., Ltd. The Company thereafter contributed the 100% equity stake in SK Marketing & Company to SK Planet and merged SK Marketing &

Company into SK Planet as of February 1, 2013.

(4) Acquisition of shares of PS&Marketing

On February 20, 2014, the board of directors of the Company resolved to invest an additional Won 100 billion (20 million common shares) into PS&Marketing, an affiliated company, in order to increase its mid- to long-term competitiveness in distribution. The estimated date of investment is April 2, 2014 and the cumulative investment amount will total Won 330 billion.

(5) Disposition of shares of iHQ Inc.

On March 10, 2014, the Company disposed of 3,790,000 shares (its 9.4% equity share) of iHQ Inc. to rebalance its investment portfolio.

9

(6) Acquisition of shares of Neosnetworks Co., Ltd. (Neosnetworks) In order to acquire a new growth engine, the Company acquired a controlling stake in Neosnetworks, a building security company, with the purchase of 31,310 shares (a 66.7% equity interest) of Neosnetworks. on April 2, 2014. The Company acquired an additional 50,377 shares in Neosnetworks in April 2015 through a rights offering, resulting in an increase of its ownership to 83.9% as of May 4, 2015.

(7) Acquisition of shares of Iriver

In order to foster application development and smartphone accessories as part of the Company s growth engines, the Company purchased 10,241,722 shares (a 39.3% equity interest) of Iriver Ltd. (Iriver) from Vogo-Rio Investment Holdings Co., Ltd. and KGF-Rio Limited on August 13, 2014. As of December 31, 2014, the Company holds a 48.9% equity interest of Iriver by acquiring additional shares in its rights offering. The Company does not hold a majority of the voting rights of Iriver but the Company concluded that it has effective control as it holds significantly more voting rights than any other shareholder or any organized group of shareholders.

(8) Acquisition of shares of Shopkick, Inc. (Shopkick)
On October 10 2014, SK Planet America LLC, a subsidiary of the Company, acquired (through its 95.2%-owned subsidiary Shopkick Management Company, Inc.) a 100.0% ownership interest in Shopkick, a developer of a shopping app for mobile devices that provides benefits to customers for visiting stores, in order to penetrate the mobile commerce market in the United States.

(9) Disposition of Shenzen E-Eye shares

In 2014, the Company entered into an agreement to dispose of its equity interest in Shenzen E-eye in order to focus its business portfolio in the Chinese market on high-growth business areas in the field of information and communication technology (ICT). The sale was completed on March 23, 2015.

(10) Disposition of a portion of KEB Hana Card shares

On April 3, 2015, the Company sold 27,725,264 shares (10.4% out of the 25.4% equity interest the Company held prior to the sale) of KEB Hana Card Co., Ltd. to Hana Financial Group for cash. With the proceeds of such sale (Won 180 billion), the Company acquired equity interests in Hana Financial Group on April 17, 2015 through participation in a rights offering by Hana Financial Group. The Company plans to maintain its strategic alliance with, and pursue opportunities to create synergies with, Hana Financial Group.

(11) SK Broadband - Comprehensive Share Exchange
On March 20, 2015, the Company s board of directors resolved to approve the Share Exchange.

Share Exchange ratio: Shareholders of one common share of SK Broadband will be allotted 0.0168936 common shares of SK Telecom

Shares to be exchanged: 2,471,883 registered common shares of SK Telecom

Date of Share Exchange agreement: March 23, 2015

ø The aforementioned schedule of events is subject to change due to consents or approvals required under applicable laws or based on discussions with relevant institutions. Please refer to the Form 6-K furnished to the U.S. Securities and Exchange Commission (the SEC) on March 20, 2015, the Form 6-K/A furnished to the SEC on April 8, 2015 and the Form CB filed with the SEC on April 21, 2015 for other relevant information.

[SK Broadband]

(1) Merger

On July 26, 2012, the board of directors of SK Broadband resolved to merge Broadband D&M Co., Ltd., its wholly-owned subsidiary, into SK Broadband after transferring Broadband D&M Co., Ltd. s network maintenance business to Network O&S Co., Ltd. The merger was effective as of September 26, 2012. In connection with this merger, SK Broadband did not issue any new shares.

On October 25, 2012, the board of directors of SK Broadband resolved to merge Broadband CS Co., Ltd., its wholly-owned subsidiary, into SK Broadband after transferring Broadband CS Co., Ltd. s customer service business to Service Ace Co., Ltd. The merger was effective as of December 26, 2012. In connection with this merger, SK Broadband did not issue any new shares.

On January 3, 2013, the board of directors of SK Broadband approved the merger of Broadband Media Co., Ltd., its wholly-owned subsidiary, into SK Broadband. The merger was effective as of March 22, 2013 and was recorded as of March 25, 2013. Please refer to the Merger Completion Report filed with the Financial Services Commission on March 25, 2013. In connection with this merger, SK Broadband did not issue any new shares.

(2) Share Exchange

On March 20, 2015, the board of directors of SK Broadband resolved to approve the Share Exchange. The Share Exchange was approved at the extraordinary meeting of shareholders held on May 6, 2015. Subsequent to the Share Exchange, the Company will be the parent company of SK Broadband with 100% ownership and will remain a listed corporation on the KRX KOSPI Market, and SK Broadband will become a wholly-owned subsidiary of the Company and will be delisted from the KRX KOSDAQ Market. There will be no change in the share ownership interest of the Company s existing shareholders or the Company s management in connection with the Share Exchange.

Share Exchange ratio: Shareholders of one common share of SK Broadband will be allotted 0.0168936 common shares of SK Telecom

Shares to be exchanged: 2,471,883 registered common shares of SK Telecom

Date of Share Exchange agreement: March 23, 2015

Record date: April 6, 2015

Announcement date for the proceeding of the Share Exchange as a small-scale share swap: April 6, 2015

Meeting of board of directors for approval of the Share Exchange: May 6, 2015

Date of the Share Exchange: June 9, 2015

ø The aforementioned schedule of events is subject to change due to consents or approvals required under applicable laws or based on discussions with relevant institutions. Please refer to the Form 6-K furnished to the SEC on March 20, 2015, the Form 6-K/A furnished to the SEC on April 8, 2015 and the Form CB filed with the SEC on April 21, 2015 for other relevant information.

11

[SK Planet]

(1) Merger

On January 11, 2013, the Company acquired the remaining 50% equity stake in SK Marketing & Company, a company providing e-commerce and advertising services, from SK Innovation Co., Ltd. and gained control of both SK Marketing & Company and its subsidiary, M&Service Co., Ltd. The Company thereafter contributed the 100% equity stake in SK Marketing & Company to SK Planet and merged SK Marketing & Company into SK Planet as of February 1, 2013. In connection with this merger, the merger ratio between SK Planet and SK Marketing & Company was 1.2927317:1 and SK Planet issued 12,927,317 of its common stock.

On April 22, 2013, the board of directors of SK Planet resolved to merge Madsmart, Inc., its wholly-owned subsidiary, into SK Planet to enhance the competitiveness of its platform business and provide faster service to customers by merging the ICT capabilities of the two companies. The merger was effective as of June 1, 2013 and SK Planet did not issue any new shares in connection with the merger.

[SK Communications]

(1) Disposition of shares of SK i-media

Pursuant to the resolution of its board of directors on December 21, 2011, SK Communications sold all of the shares of SK i-media Co., Ltd. it owns to LK Media Tec Co., Ltd. for Won 1 million of cash.

(2) Disposition of shares of U-Land

Pursuant to the resolution of its board of directors on October 17, 2011, SK Communications sold all of the shares of U-Land Co., Ltd. (a 29.85% equity interest) it owns to SK Planet for Won 10 million.

(3) Disposition of the Cyworld service

Pursuant to the resolution of its board of directors on March 8, 2014, SK Communications sold its Cyworld service and certain related assets to Cyworld Co., Ltd. for Won 2,824 million.

(4) Disposition of shares of Service-In

On November 19, 2012, SK Communications sold all of its shares (80,000 common shares) in Service-In Co., Ltd., its subsidiary, to the chief executive officer of Service-In Co., Ltd., pursuant to a resolution of its board of directors of October 31, 2012.

[PS&Marketing]

On February 20, 2014, the board of directors of PS&Marketing resolved to acquire the retail distribution business, including related assets, liabilities, contracts and human capital of the information technology and mobile wing of SK

Networks. On the same day, the board of directors of PS&Marketing also resolved to acquire retail stores, including their assets and liabilities, of LCNC Co., Ltd (LCNC). The acquisitions were completed on April 30, 2014 at a purchase price of Won 124.5 billion for the assets acquired from SK Networks and a purchase price of Won 10 billion for the assets acquired from LCNC.

[M&Service]

Upon the merger between SK Marketing & Company, which held 100% equity stake in M&Service, and SK Planet on February 1, 2013, SK Planet holds 100% equity stake in M&Service.

12

[Neosnetworks]

On March 31, 2015, Noes Networks acquired the unmanned electronic security business of Joeun Safe to expand its unmanned security business. The acquisition cost, which had been reported on January 5, 2015 as Won 19.4 billion subject to adjustment depending on the customer transfer rate, is currently determined to be Won 14.0 billion, and the final acquisition cost will be determined on September 30, 2015 based on the customer transfer rate as of such date. Joeun Safe was spun off from its parent company Joeun System in 2006, and has the fourth largest market share in the Korean unmanned security industry. Upon this acquisition, it is expected that the Company will quickly expand into the unmanned security market.

[Iriver]

(1) Merger of Iriver CS Co., Ltd. (Iriver CS)

Pursuant to the resolution of its board of directors on November 18, 2014, Iriver decided to merge with Iriver CS, its wholly-owned subsidiary, with Iriver as the surviving entity. The merger was completed based on the merger ratio of 1:0 with no capital increase. The merger date and merger registration date are January 31, 2015 and February 2, 2015, respectively.

(2) New Establishment of groovers Japan Co. Ltd. (groovers Japan)

On February 25, 2015, Iriver newly established its overseas subsidiary, groovers Japan, for the purpose of strengthening new business opportunities in Japan.

E. Other Important Matters related to Management Activities

[SK Telecom]

(1) Issuance of bonds

On May 14, 2014, the Company issued four tranches of fixed-rate unsecured bonds in the principal amounts of Won 50 billion (with an annual interest rate of 3.301% and a maturity date of May 14, 2019), Won 150 billion (with an annual interest rate of 3.637% and a maturity date of May 14, 2024), Won 50 billion (with embedded options, an annual interest rate of 4.725% and a maturity date of May 14, 2029), and Won 50 billion (with embedded options, an annual interest rate of 4.72% and a maturity date of May 14, 2029).

On October 28, 2014, the Company issued three tranches of fixed-rate unsecured bonds in the principal amounts of Won 160 billion (with an annual interest rate of 2.53% and a maturity date of October 28, 2019), Won 150 billion (with an annual interest rate of 2.66% and a maturity date of October 28, 2021), and Won 190 billion (with an annual interest rate of 2.82% and a maturity date of October 28, 2024).

On February 26, 2015, the Company issued three tranches of fixed-rate unsecured bonds in the principal amounts of Won 100 billion (with an annual interest rate of 2.40% and a maturity date of February 26, 2022, Won 150 billion (with an annual interest rate of 2.49% and a maturity date of February 26, 2025), and Won 50 billion (with an annual interest rate of 2.61% and a maturity date of February 26, 2030).

(2) Issuance of hybrid securities

On June 7, 2013, the Company issued Won 400 billion principal amount of hybrid securities in the form of unguaranteed subordinated bonds with an annual interest rate of 4.21%, which interest rate is adjusted five years after the date of issuance. The Company classified the hybrid securities as equity as there is no contractual obligation to deliver financial assets to the bondholders. The maturity date of the hybrid securities is June 7, 2073, which can be extended by the Company without any notice or announcement.

(3) Conversion of convertible notes

On April 7, 2009, the Company issued convertible notes with a maturity of five years in the principal amount of US\$332,528,000 with an annual interest rate of 1.75%. In 2013, holders exercised their conversion rights with respect to an aggregate principal amount of US\$326,023,000 of the convertible notes. The Company delivered 1,241,337 treasury shares in respect of US\$170,223,000 of the exercised aggregate principal amount and delivered cash in respect of the remainder due to the limit on foreign ownership. In connection with such conversion, the Company recognized Won 135,108 million in financial expenses in 2013. On November 13, 2013, the Company exercised its early redemption right and on December 13, 2013, redeemed the US\$6,505,000 principal amount of convertible notes not converted by noteholders. A 20-day volume weighted average pricing formula was used for the delivery of cash made in place of treasury shares. Due to such calculation, the Company still had US\$91,108,507 outstanding in payables as of December 31, 2013. The amount was delivered in full as of January 6, 2014 and currently has no amount outstanding.

[SK Broadband]

SK Broadband acquired subscriberships of regional cable and other service providers on several different occasions. Such acquisitions were intended to secure a stable subscriber base for its broadband Internet service and, at the same time, increase the service coverage area. Because such acquisitions were conducted on a relatively small scale and involved purchase of subscriberships, SK Broadband did not believe such acquisitions rose to the level of purchasing an entire business line from another company or were likely to have a material impact on its business, and therefore decided that such acquisitions did not require resolutions of its shareholders.

3. Total Number of Shares

ø The information below is as based on the shareholder registry as of April 6, 2015, which is the record date for purposes of dissenting on the Share Exchange being conducted in accordance with the procedures for a small-scale share swap.

A. Total Number of Shares

II. BUSINESS

Each company in the consolidated entity is a separate legal entity providing independent services and products. The business is primarily separated into (1) the wireless business consisting of cellular voice, wireless data and wireless Internet services, (2) the fixed-line business consisting of fixed-line telephone, high speed Internet, data and network lease services, among others, and (3) other businesses consisting of platform services and Internet portal services, among others.

1. Business Overview

Set forth below is a summary business description of material consolidated subsidiaries.

Classification	Company name SK Telecom Co., Ltd.	Description of business Wireless voice and data telecommunications services via digital wireless networks
Wireless	PS&Marketing Co., Ltd.	Sale of fixed-line and wireless telecommunications products through wholesale, retail and online distribution channels
	SK Broadband Co., Ltd.	High-speed Internet, TV, telephone, commercial data and other fixed-line services and management of the transmission system for online digital contents
Fixed-line		Various media-related services, such as channel management, including video on demand, and mobile IPTV services
	SK Telink Co., Ltd.	International wireless direct-dial 00700 services, pre-paid international card calling services, voice services using Internet protocol and Mobile Virtual Network Operator (MVNO) services
	SK Planet Co., Ltd.	Various platform services such as 11th Street, T Store, T-Map Navigation and Hoppin in the application, commerce and new media areas, among others
Other business	SK Communications Co., Ltd.	Integrated portal services through NATE and instant messaging services through NATE-ON
	M&Service Co., Ltd.	

System software development, distribution and technical support services and other online information services

SK Planet America

LLC

Digital contents provider and sourcing services

Shopkick Management Investment business

Company, Inc.

[Wireless Business]

A. Industry Characteristics

As of March 31, 2015, the Korean mobile communication market can be considered to have reached its maturation stage with more than a 100% penetration rate. However, the Korean mobile communications market continues to improve in the quality of services with the help of advances in network-related technology and the development of highly advanced LTE-A, LTE and 3G smartphones which enable the provision of convergence services for multimedia contents, mobile commerce, telematics, new media and other related services. In addition, through the commercialization of LTE network in July 2011 and LTE-A network in June 2013, B2B businesses, such as the corporate connected workforce business which can directly contribute to an enhancement in productivity, are expected to grow rapidly. In the first half of 2014, wideband LTE-A service was commercialized and on December 29, 2014, tri-band LTE-A service with a maximum speed of 300 Mbps was also commercialized. Such achievements were the building blocks towards the Company s LTE penetration reaching over 60% this quarter (61.5%).

18

B. Growth Potential

(Unit: in 1,000 persons)

		As of March 31	, As o	f December	31,
Classification		2015	2014	2013	2012
	SK Telecom	26,079	29,613	27,352	26,961
Number of subscribers Others (KT, MVNO	Others (KT, LGU+)	26,283	27,595	27,328	26,663
	MVNO	4,967			
	Total	57,329	57,208	54,680	53,624

C. Domestic and Overseas Market Conditions

The Korean mobile communication market includes the entire population of Korea with mobile communication service needs, and almost every Korean is considered a potential user. Sales revenue related to data services is expected to increase due to the increasing popularity of smartphones and high-speed wireless networks. The importance of the business-to-business segment, which creates added value by selling and developing various solutions, is also growing. Seasonal and economic fluctuations have much less impact on the Korean mobile communication market compared to other industries.

Set forth below is the historical market share of the Company.

		(Unit: in percentages)			
	As of March 31,	As of December 3		er 31,	
Classification	2015	2014	2013	2012	
Mobile communication services	49.5	50.0	50.0	50.3	

^{*} Source: MSIP website and each Korean telecommunications company s respective earnings releases (including MVNOs).

D. Business Overview and Competitive Strengths

The Company is seeking to transform itself from a telecommunications service provider into a comprehensive ICT service provider. It has continued to innovate the scope of its services and achieved strong growth in subscribers amid fierce competition and rate cuts. As a result, for the quarter ended March 31, 2015, the Company recorded Won 4.2 trillion in revenue and Won 0.4 trillion in operating income on a consolidated basis and Won 3.1 trillion in revenue and Won 0.4 trillion in operating income on a separate basis.

^{*} Source: Ministry of Science, ICT and Future Planning (MSIP) website. MVNO subscribers disclosed separately starting in 2015.

The number of subscribers (including MVNO subscribers) as of March 31, 2015 was 28.38 million, a decrease of approximately 230,000 from the previous quarter due to the termination of pre-paid wireless telephone subscribers that were not using their service for a long period of time. In particular, the number of smartphone subscribers as of March 31, 2015 was 19.76 million, an increase of approximately 270,000 from the previous quarter, including 17.4 million LTE subscribers, solidifying the Company s market leadership. Following the launch of commercial LTE services in July 2011, the Company became the first telecommunications service provider in the world to launch commercial wideband LTE-A services in June 2014. In December 2014, the Company launched tri-band LTE-A services. By launching various high quality services utilizing the LTE-A and wideband LTE networks such as group video conference call services, full high definition mobile IPTV streaming services, and T Baseball Multiview, which allows users to watch multiple baseball games on one screen, the Company plans to provide an innovative user experience, enhance customer satisfaction and increase profitability.

The Company has proved that it has superior network quality compared to its competitors according to the Korea Communications Commission quality evaluations. The Company has also proved to be the leader in Korea s top three customer satisfaction indices: according to the National Customer Satisfaction Index, Korean Customer Satisfaction Index and Korean Standard Service Quality Index, the Company has continued to hold the leading position for 18 years, 18 years and 16 years, respectively.

19

SK Telink, a consolidated subsidiary of the Company, expanded its operations to the MVNO business based on its technical expertise and know-how obtained in its international telecommunications business and launched its MVNO service, 7Mobile, which is offered at reasonable rates and provides excellent quality. SK Telink is increasing its efforts to develop low-cost distribution channels and create niche markets through targeted marketing towards customers with lower average revenue per user. An MVNO leases the networks of a mobile network operator (MNO) and provides wireless telecommunication services under its own brand and fee structure, without owning telecommunication networks or frequencies.

Network O&S, a subsidiary of the Company responsible for the operation of the Company s base stations and related transmission and power facilities, offers quality fixed-line and wireless network services to customers, including mobile office products to business customers.

PS&Marketing, a subsidiary of the Company, provides a sales platform for products of the Company and SK Broadband including fixed-line and wireless telecommunication products which address customers needs for various convergence products. PS&Marketing provides differentiated service to clients through the establishment of new sales channels and product development.

[Fixed-line Business]

A. Industry Characteristics

As subscribers to various bundled wireless and fixed-line products are continuing to increase, the IPTV business is evolving to satisfy diverse customer needs for media services through differentiated service offerings including mobile IPTV, bundled wireless and IPTV products and ultra-high definition services for smart televisions. The market for our corporate business is also growing with cloud computing, mobile offices and other new information and communications technologies being commercialized. The increased usage of smartphones and tablet computers, the pilot programming of commercial ultra-high definition television broadcasting services and competition for wideband LTE services has greatly increased data traffic, thereby further emphasizing the importance of fixed-line network infrastructure that is capable of handling large capacities of data traffic with stability and efficiency.

B. Growth Potential

(Unit: in 1,000 persons)

			As of Dece	ember 31,
Classification		As of March 31, 2015	2014	2013
Fixed-line	High-speed Internet	19,335	19,199	18,738
Subscribers	Fixed-line telephone	16,785	16,939	17,620
Subscribers	IPTV (real-time)	10,840	10,840	8,522

^{*} Source: MSIP website and Korea Communications Commission website

^{*} The number of IPTV subscribers as of March 31, 2015 has not yet been disclosed by the MSIP so the number as of December 31, 2014 is shown instead.

C. Cyclical Nature and Seasonality

High-speed Internet, fixed-line telephone and IPTV services are mature markets that are generally not sensitive to cyclical economic changes due to the easing of competition resulting from the decrease in differentiation between service providers and the nature of the respective services. The telecommunications services market overall is not expected to be particularly affected by economic downturns due to the low income elasticity of demand for telecommunication services.

Set forth below is the historical market share of the Company.

		(Unit: in percentages)			
	As of March 31,	As of December 31,			
Classification	2015	2014	2013	2012

IPTV	26.0	26.1	23.8	22.0	

- * Source: MSIP website and the Korea Communications Commission website.
- * With respect to VoIP services, the market share was calculated based on the number of VoIP subscribers among the Company, KT and LG U+.
- * The number of IPTV subscribers as of March 31, 2015 has not yet been disclosed by the MSIP so the number as of December 31, 2014 is shown instead.

D. Business Overview and Competitive Strengths

In 1999, the Company was the first in the world to commence commercial ADSL services and on the back of its premium technology and enhanced competitiveness achieved through bundled products, it is currently expanding subscriber base across all of its businesses, including broadband Internet, telephone and IPTV. In particular, SK Broadband has positioned itself to focus on corporate customer services and IPTV services as key strategic areas for mid- to long-term growth, exploiting opportunities in new ICT-based businesses that have led to revenue growth, and providing differentiated contents in its IPTV business by securing popular programming which includes exclusive children s channels and live broadcasts of Major League Baseball games. In addition, the Company is reinforcing its leadership in the ultra-high definition broadcasting market by launching ultra-high definition services that require no set-top boxes in April 2014 and by commercializing ultra-high definition set-top boxes for the first time in Korea in September 2014. Furthermore, the Company was the first in the industry to adopt solutions to upgrade full high definition to ultra-high definition, and the Company also strengthened the line-up of ultra-high definition contents by securing access to diverse contents provided by Sony and NBC Universal. Moreover, the Company provides the greatest number of channels in full high definition in the IPTV market due to its recent upgrade of all 130 live high definition channels to full high definition.

In September 2013, the Company developed technology that compresses videos for its ultra-high definition IPTV services. During the first quarter of 2014, the Company commercialized new transmission technology that can more efficiently transmit signals on the hybrid fiber-coaxial network despite its limited frequency. Furthermore, the Company solidified its technological leadership for providing ultra-high definition broadcasting for wireless and fixed line in the IPTV industry by commercializing a unique ultra-high-definition service that can be provided directly to smart televisions without the installation of smart set-top boxes in April 2014 and started transmitting ultra-high definition contents to mobile IPTV in May 2014.

SK Telink provides international telecommunications service. SK Telink has been able to establish itself as a market leader as a result of its affordable pricing, proactive marketing and the quality of its services. It launched a mobile phone-based international calling service under the brand name 00700 in 1998, creating a new niche market within the long-distance telephony market that was otherwise dominated by existing service providers. In 2003, SK Telink was

designated a common carrier for international calling services, which allowed us to expand our international calling services to fixed-line international calling services. SK Telink plans to strategically target the convergence of wireless and fixed-line telecommunications and strengthen its existing business, including international and long-distance calling services, value-added services for local calling and B2B services, and video conference call services while aiming to satisfy the diverse needs of customers through the provision of quality solutions at reasonable prices.

[Other Business]

A. Industry Characteristics

As the number of smartphones distributed in Korea exceeds 40 million, the growth in various mobile devices has spurred the rise of the service provider with a strong platform business as the leader in the ICT market. It is becoming increasingly important to enhance competitiveness by building a platform with large data capacity to handle the increase in data transmission.

A platform business acts as an intermediary by promoting interactions among various customer groups, thereby generating new values. It is important for a platform business to continually attract subscribers and users and to create an ecosystem with certain lock-in effects. A platform can exist in various forms, including as a technological standard (iOS, Android OS), a subscriber-based service platform (Facebook, Twitter) or a marketplace (Amazon, T Store). Platform businesses are evolving and expanding globally.

21

A platform business has strong growth potential due to its connectivity with related services and ease of global expansion. Apple became a world-leading smartphone producer based on its innovative design and the competitive strength of its App Store platform. Google has created a new ecosystem of long-tail advertising by attracting millions of third parties to its advertising platform, as well as showing strong growth in mobile markets with its competitive platform based on Android OS. It is becoming increasingly important to enhance competitiveness through a database that can register and analyze purchase patterns of customers across all areas and a platform with large data capacity to utilize this database and provide differentiated services to customers.

B. Growth Potential

The scope and value generated by the platform business, including application and content marketplaces and N-screen services, continues to increase, as smartphones and tablet computers become more popular and the bandwidth and speed of network infrastructure improve. As the wireless network evolves to LTE, business opportunities for the platform business exist, including multimedia streaming, N-screen service based on cloud technology and high-definition location-based services. Since the platform business realizes profit by connecting with advertisements or commerce sites after building a critical mass of subscribers and traffic, the recent growth in the advertising and commerce markets is expected to present an opportunity for platform businesses. The importance of building a platform with large data capacity that is connected to various digital contents and commerce is expected to increase in the future.

C. Domestic and Overseas Market Conditions

(1) Commerce markets

The Company expects that online commerce markets will continue to grow due to the growth potential of the Internet shopping population, the strengthening of online business models by off-line operators, and the rapid rise of mobile commerce. Recently, due to the widespread use of smartphones and social media, the commercialization of location-based services and the development of big data technology, online to offline (or, O2O) business, which is a concept of attracting customers to offline stores using online and mobile environments, is being highlighted as a new field in the online commerce market industry.

(2) Digital contents

The growth of application marketplaces, which started with Apple s App Store, provides the platform business with new opportunities for revenue generation. The competitive paradigm is shifting from a competition among platform operators toward a competition among eco-systems that include application developers as well as platform operators.

Due to an increase in the number of devices owned by each user and an increase in network speed, each user can now enjoy music or video files anywhere and anytime by storing them in cloud servers, which is called N-screen service. Users can recommend music to other users through social networking services and this is expected to become a distribution model for digital media contents. Various service providers are competing in this market expecting a strong growth in the online and mobile video market.

D. Business Overview and Competitive Strengths

The Company plans to expand its platform ecosystem focusing on its Open & Collaboration motto in operating its commerce business such as 11th Street, Syrup, and OK Cashbag, its digital contents business such as T Store and Hoppin, and its location-based service business such as T-Map Navigation, thereby ultimately increasing its enterprise value.

(1) Commerce

11th Street, an online marketplace, has continued its growth through effective marketing and customer satisfaction. Despite its later entry into the online commerce market (launched in 2008) which was already divided between Auction and G-Market, it is leading the domestic e-commerce market and is also rapidly growing in the mobile commerce market. Growth plans involving overseas joint ventures based on 11th Street s business expertise have resulted in the successful launch of an open online commerce market in Turkey in partnership with Doğuş Group in March 2013. In Indonesia, an open market platform was successfully launched through a joint venture established in July 2013 with PT XM Axiata Tbk, a wireless telecommunications company in Indonesia. In October 2014, SK Planet and Celcom Axiata Berhad, which is a leading telecommunications service provider in Malaysia, established a joint venture, Celcom Planet, and launched online commerce services tailored to the Malaysian market in April 2015.

22

Syrup is a consumer-oriented commerce service and its goal is to minimize its customers—time and efforts while maximizing the economic benefits provided by providing information about coupons and events based on time, place and occasion. To achieve this goal, Syrup combines location-based services, such as geo-fencing, a virtual perimeter technology using a global positioning system (or, GPS) and Bluetooth Low Energy (or, BLE), with big data analysis of consumption patterns. Syrup—s business partners can benefit from cost-effective marketing through Syrup by utilizing statistics and analysis regarding consumers—frequency of visits, preferred products, and consumption patterns.

OK Cashbag is a point-based loyalty marketing program which has grown to become a global top-tier loyalty marketing program since its inception in 1999. Customers have access to increased benefits through accumulation of loyalty reward points and partner companies use OK Cashbag as a marketing resource. With 39 million subscribers, OK Cashbag maintains a leading position in the industry and plans to continue strengthening its position by providing customized services befitting customers needs and market conditions.

(2) Location-based services

T-Map Navigation provides map, local information, real-time traffic information and navigation services. With cumulative subscribers of 18.1 million as of March 31, 2015, T-Map Navigation is one of the leading location-based service platforms in Korea. The Company is broadening the range of its location-based services by also providing infotainment systems to commercial vehicle businesses as well as providing localized content on its products, such as region-specific information and advertisements. The Company plans to further develop the T-Map Navigation platform by initiating open application programming interface-based services, providing services to more diverse types of devices and providing local area-based services.

(3) Digital contents

T Store, launched in September 2009, reached 23.57 million subscribers and cumulative downloads of 2.6 billion as of March 31, 2015, solidifying its leadership position in the application market and plans to widen its services to tablets and navigation devices. The Company intends to further develop T Store into a personalized gateway and mobile playground through expansion of the scope of serviceable devices, reinforcement of digital content offerings and enhancement of search services, among other things.

The Company s Hoppin service enables subscribers to enjoy wide-ranging video on demand contents. Through continual service improvements and stable service provision, Hoppin has become the leading mobile video on demand service.

(4) Social networking services (SNS) and Internet portal services

The Company s instant messenger service, Nate-On, had a market share of 28.7% in the instant messenger market in Korea with 5.45 million net users during March 2015. The Company s Internet search portal service, Nate, had a page-view market share of 4.1% as of March 31, 2015. (Source: Korean Click, based on fixed-line access)

ø Satellite DMB service

The Company launched its Hanbyul satellite in 2004 and received government approval in December 30, 2004 to provide satellite DMB services. Broadcasting through satellite DMB commenced in May 2005 and satellite DMB services expanded nationwide thereafter. On August 23, 2012, the board of directors of SK Telink resolved to discontinue operation of its satellite DMB services due to the rapid decrease in satellite DMB subscribers and the continued burden of fixed costs.

2. Major Products & Services

A. Updates on Major Products and Services

(Unit: in millions of Won and percentages)

Business	Major Companies	Item	Major Trademarks	Consolidated Sales Amount (ratio)
Wireless	SK Telecom Co., Ltd., PS&Marketing Co., Ltd., Service Ace Co., Ltd., Network O&S Co., Ltd.	Mobile communication service, wireless data service, ICT service	T and others	3,326,665 (78%)

Total 4,240,286 (100%)

[Wireless Business]

As of March 31, 2015, based on the Company s standard monthly subscription plan, the basic service fee was Won 11,000 and the usage fee was Won 1.8 per second.

[Fixed-line Business]

SK Broadband provides broadband Internet access service, telephony, TV, corporate data services and other services for both individual and corporate customers. As of March 31, 2015, broadband Internet and TV services comprised 54.3% of SK Broadband s revenue, telephony service 20.6%, corporate data services 24.5% and other telecommunications services 0.6%. Price fluctuations in the different services provided by SK Broadband are due to discounts provided for long-term contracts, changes in equipment costs and competition between companies.

[Other Business]

Set forth below are major products and services of the Company s material consolidated subsidiaries.

Business	Item	Major Trademarks

8. Other information relating to investment decisions

A. Trademark Policies

The Company manages its corporate brand and other product brands in a comprehensive way to protect and increase their value. The Company s Brand Strategy Council in charge of overseeing its systematic corporate branding operates full-time to execute decisions involving major brands and operates Brandnet, an intranet system to manage corporate brands which provides solutions including registering and licensing of the brands.

B. Business-related Intellectual Property [SK Telecom]

The Company holds 5,099 Korean-registered patents, 339 U.S.-registered patents, 228 Chinese-registered patents (all including patents held jointly with other companies) and more patents with other countries. The Company holds 932 Korean-registered trademarks and owns intellectual property rights to the design of the alphabet T. The designed alphabet T is registered in all business categories for trademarks (total of 45) and is being used as the primary brand of the Company.

[SK Broadband]

SK Broadband holds 411 Korean-registered patents relating to high-speed Internet, telephone and IPTV service. In addition, SK Broadband has applied for a patent relating to two-way broadcasting system. SK Broadband also holds a number of trademarks and service marks relating to its service and brand.

[SK Planet]

As of March 31, 2015, SK Planet held 2,559 registered patents, 112 registered design marks, 1,237 registered trademarks and five copyrights (including those held jointly with other companies) in Korea. It also holds 108 U.S.-registered patents, 86 Chinese-registered patents, 60 Japanese-registered patents, 24 E.U.-registered patents (all including patents held jointly with other companies) and 285 registered trademarks, along with a number of other intellectual property rights, in other countries.

[SK Communications]

As of March 31, 2015, SK Communications held 77 registered patents, 26 registered design rights and 700 registered trademarks in Korea.

C. Business-related Pollutants and Environmental Protection

The Company does not engage in any manufacturing and therefore does not undertake any industrial processes that emit pollutants into the air or industrial processes in which hazardous materials are used.

29

III. FINANCIAL INFORMATION

1. Summary Financial Information (Consolidated and Separate)

A. Summary Financial Information (Consolidated)

Below is the summary consolidated financial information of the Company as of March 31, 2015, December 31, 2014 and December 31, 2013 and for the quarters ended March 31, 2015 and 2014 and the years ended December 31, 2014 and 2013. The Company s reviewed consolidated financial statements as of March 31, 2015 and December 31, 2014 and for the quarters ended March 31, 2015 and 2014, which are prepared in accordance with K-IFRS, are attached hereto.

Other	6,897	30,039	21,042	
Ending balance	341,766	328,191	323,985	

(3) Policies for Allowance for Doubtful Accounts

The Company establishes allowances for doubtful accounts based on the likelihood of recoverability of trade and other receivables based on their aging at the end of the period and past customer default experience for the past two years. With respect to trade receivables relating to wireless telecommunications services, the Company considers the likelihood of recovery based on past customer default experience and the length of default in connection with the type of default (e.g., whether the customer—s service has been terminated or is continued). For such trade receivables that have been overdue for more than two years after the customer—s service has been terminated, the Company records an allowance of 100% of such receivables and for such trade receivables that have been overdue for less than two years after the customer—s service has been terminated or relates to a customer that is continuing his service, the Company records an allowance of a certain percentage of such receivable. Consistent with customary practice, the Company writes off trade and other receivables for which the prescription period has passed or that are determined to be impossible or economically too costly to collect, including receivables that are less than Won 200,000 and more than six months overdue and receivables that have been determined to be the subject of identity theft.

(4) Aging of Accounts Receivable

			As of March 31, 2015				
			From six	From one year			
		Six months or	months to one	to three	More than		
		less	year	years	three years	Total

SK Biofarm Co., Ltd.	100.0%	328,702	Biotechnology	Privately Held
SK Forest Co., Ltd.	100.0%	61,387	Forestry and Landscaping	Privately Held

^{*} The above shareholdings are based on common share holdings as of March 31, 2015.

SK Holdings is a publicly listed company and is required to submit a report of its significant business activities in accordance with Article 161 of the Financial Investment Services and Capital Markets Act. Also as a holding company, SK Holdings is required to report key management activities of its subsidiaries in accordance with Article 8 of KOSPI Market Disclosure Regulation.

The rule is applicable to subsidiaries whose book value of the holding company s shareholding exceeds 10% of its total assets based on the financial statements as of March 31, 2015. SK Innovation Co., Ltd. and SK Telecom Co., Ltd. are two such subsidiaries.

2. Matters Relevant to the Largest Shareholder

On April 20, 2015, the board of directors of SK Holdings resolved to merge with and into SK C&C Co., Ltd (SK C&C) in August 2015, subject to the approval of the respective shareholders of SK Holdings and SK C&C and the receipt of relevant regulatory consents and approvals, among other conditions.

It is expected that the combination of SK C&C s growth potential based on ICT capabilities and SK Holdings resources will lead to an improved financial structure and provide for enhanced capacity to discover new growth engines, thus leading to greater competitiveness of the two companies.

Surviving entity: SK C&C

Name of the surviving entity after the merger: SK Holdings (tentative)

Merger Ratio:

Common share of SK C&C: Common share of SK Holdings = 1:0.7367839

Preferred share of SK C&C: Preferred share of SK Holdings = 1:1.1102438

2. Contingent Liabilities [SK Telecom]

A. Material Legal Proceedings

(1) Claim for copyright license fees regarding Coloring services

On May 7, 2010, Korea Music Copyright Association (KOMCA) filed a lawsuit with the court demanding that the Company pay KOMCA license fees for the Company s Coloring services. The court rendered a judgment against the Company ordering the Company to pay Won 570 million to KOMCA, which was affirmed by the appellate court on October 26, 2011. The Company filed an appeal at the Supreme Court of Korea and the judgment was overturned on July 11, 2013. The case was remanded down to the appellate court which ruled in favor of the Company on September 4, 2014. KOMCA filed an appeal at the Supreme Court of Korea, and on January 15, 2015, the Supreme Court of Korea affirmed the Seoul High Court s decision. There is no impact on the Company s business or results of operation as the final outcome of this litigation has been rendered in favor of the Company.

B. Other Matters

None.

[SK Broadband]

A. Material Legal Proceedings

Total		1,176,005	

The Company does not believe that the outcome of any of the proceedings in which SK Broadband is named as a defendant will have a material effect on the Company s financial statements.

B. Other Contingent Liabilities

(1) Pledged assets and covenants

SK Broadband, upon approval by its board of directors, has provided guarantees for financial instruments amounting to Won 1,775 million to support employees funding for the Employee Stock Ownership Program.

Additionally, SK Broadband has provided geun mortgage amounting to Won 11.7 billion to others, including Ilsan Guksa, on a part of its buildings in connection with the leasing of the buildings.

[SK Planet]

A. Material Legal Proceedings

As of March 31, 2015, there was one pending proceeding with SK Planet as the defendant and the aggregate amount of the claim was Won 520,000. The management cannot reasonably forecast the outcome of this case and no amount in connection with this proceeding was recognized on the Company s financial statements.

B. Other Contingent Liabilities

None.

[SK Communications]

A. Material Legal Proceedings

As of March 31, 2015, the aggregate amount of claims was Won 2.1 billion. The Company successfully defended some but not all suits relating to a leak of personal information of subscribers of NATE. Relevant proceedings remain pending at various courts in Korea. The management cannot reasonably forecast the outcome of the pending proceedings, and as a result, adjustments were not made in the financial statements of the Company. The Company does not believe that the outcome of any of the proceedings in which SK Communications is named as a defendant will have a material effect on the Company s financial statements.

B. Other Contingent Liabilities

The material payment guarantees provided by third parties to SK Communications as of March 31, 2015 are set forth in the table below.

	(Unit: in thousa	ands of Won)
Financial Institution	Guarantee	Amount

	insurance for bonds	180,000

47

[PS&Marketing]

A. Other Contingent Liabilities

Shinhan Bank has provided a payment guarantee of Won 3 billion for PS&Marketing s purchase of mobile devices from Apple Korea Ltd.

3. Status of sanctions, etc.

[SK Telecom]

On March 14, 2012, the Company received a correctional order from the Fair Trade Commission of Korea for an alleged violation of Article 23 of the Fair Trade Act relating to the handset subsidy practice and distribution of handsets and was imposed a fine of Won 21,928 million. The Company filed an administrative proceeding to appeal the order and the Seoul High Court ruled against it on October 29, 2014. The Company appealed the decision, and the case is currently pending before the Supreme Court of Korea.

On February 6, 2012, the Company received three penalty points and was imposed a fine of Won 3 million from the Korea Exchange for a violation of Article 35 of Korea Exchange s disclosure rules. The Company paid the fine and has been taking efforts to prevent a repetitive violation.

On June 21, 2012, the Company received a correctional order from the Korea Communications Commission in connection with its decision on whether the Company had violated regulations related to the safeguarding of location information. The Company completed the improvement of the procedures in consultation with the Korea Communications Commission by December 2012.

On July 4, 2012, the Fair Trade Commission issued correctional orders and imposed fines on the Company and seven affiliated companies for alleged unfair advantage provided to SK C&C, an affiliated company, in services fees for information technology system management and operation. The Company and SK Planet were imposed fines of Won 25,042 million and Won 1,349 million, respectively. The Company and the seven affiliated companies appealed the orders and on May 14, 2014, won the suit at the Seoul High Court. The Fair Trade Commission appealed the decision, and the case is currently pending before the Supreme Court of Korea.

On December 24, 2012, the Korea Communications Commission imposed on the Company a fine of Won 6.89 billion, imposed a suspension on acquiring new subscribers from January 31, 2013 to February 21, 2013 and issued a correctional order for providing discriminatory subsidies to subscribers. The Company paid the fine and completed the improvement of the procedures in consultation with the Korea Communications Commission by March 2013.

On January 11, 2013, the Company received a correctional order and a fine of Won 100 million from the Fair Trade Commission of Korea for alleged violation of Article 23 of the Fair Trade Act relating to the Company s transactions with its distribution network. The Company paid the fine by May 10, 2013.

On March 14, 2013, the Korea Communications Commission imposed on the Company a fine of Won 3.14 billion and issued a correctional order in a case for providing discriminatory subsidies to subscribers. The Company paid the fine and completed the improvement of the procedures in consultation with the Korea Communications Commission by April 2013.

On July 18, 2013, the Korea Communications Commission imposed on the Company a fine of Won 36.5 billion and issued a correctional order for providing discriminatory subsidies to subscribers. The Company paid the fine and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by August 2013.

On August 21, 2013, the Company received a correctional order from the Korea Communications Commission in connection with its decision on whether the Company had violated procedural regulations related to terms and conditions of usage. The Company completed the improvement of the procedures in consultation with the Korea Communications Commission by November 2013.

On September 16, 2013, the Company received a correctional order from the Korea Communications Commission in connection with its decision on whether the Company had violated regulations related to wholesale provision of telecommunication services. The Company completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by October 2013.

On November 15, 2013, the Korea Communications Commission imposed a fine of Won 676 million and issued a correctional order for limiting termination of telecommunication services. The Company paid the fine and completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by December 2013.

On December 27, 2013, the Korea Communications Commission imposed on the Company a fine of Won 56.0 billion and issued a correctional order for providing discriminatory subsidies to subscribers. The Company paid the fine and completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by January 2014.

On March 7, 2014, the MSIP imposed a suspension of operations for 45 days for failure to observe the order of the Korea Communications Commission to cease providing discriminatory subsidies to subscribers. The Company suspended its operations during the period between April 5, 2014 and May 19, 2014, and reported to the MSIP on the implementation of actions pursuant to the suspension order by May 2014.

On March 13, 2014, the Korea Communications Commission imposed on the Company a fine of Won 16.65 billion, imposed a suspension on acquiring new customers for 7 days, and issued a correctional order for providing discriminatory subsidies to subscribers. In April 2014, the Company paid the fine and completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by April 2014. The Company suspended acquisition of new customers during the period beginning September 11, 2014 and ending September 17, 2014, and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by September 2014.

On January 31, 2013, the Seoul Central District Court acquitted Mr. Jae Won Chey, our former director and vice chairman, on all charges against him. On September 27, 2013, the Seoul High Court reversed the acquittal of the above-mentioned former director, sentencing him to a prison term of three and a half years for violating the Act on the Aggravated Punishment, etc. of Specific Economic Crimes. On February 27, 2014, the Supreme Court of Korea affirmed the Seoul High Court s decision. While the court s final decision on the appealed case is not expected to have a material effect on the Company s financial position, investors should note that it is difficult to predict, among others, the market s assessment of such case.

On August 21, 2014, the Korea Communications Commission imposed on the Company a fine of Won 37.1 billion and issued a correctional order for providing discriminatory subsidies to subscribers. The Company paid the fine and completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by September 2014.

On December 4, 2014, the Korea Communications Commission imposed on the Company a fine of Won 800 million and issued a correctional order for violating the Mobile Device Distribution Improvement Act. The Company paid the

fine and completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by January 2015.

On March 12, 2015, the Korea Communications Commission imposed on the Company a fine of Won 934 million and issued a correctional order for violating the Mobile Device Distribution Improvement Act with respect to the Company s compensation programs for used handsets. The Company paid the fine and completed the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order by April 2015.

Table of Contents

On March 26, 2015, the Korea Communications Commission imposed on the Company a fine of Won 23.5 billion, imposed a suspension on acquiring new customers for seven days, and issued a correctional order for violating the Mobile Device Distribution Improvement Act. The Company paid the fine and implemented the improvement of the procedures and reported to the Korea Communications Commission on the implementation of actions pursuant to the correctional order in May 2015. The Company plans to acquire new customers thereafter.

On May 13, 2015, the Korea Communications Commission imposed on the Company a fine of Won 3.56 billion and issued a correctional order for violating its obligations to protect personal information. The Company plans to pay the fine and implement the improvement of the procedures and report to the Korea Communications Commission on the implementation of actions pursuant to the correctional order in the future.

[SK Broadband]

(1) Violation of the Act on Consumer Protection in Electronic Commerce

Date: July 11, 2014

Subject: SK Broadband

Sanction: SK Broadband received a correctional order (relating to the failure to notify consumers of information relating to cancellations of purchases) and a fine of Won 1 billion.

Reason and the Relevant Law: Violated Article 13 of the Act on Consumer Protection in Electronic Commerce by not having notified consumers of the procedures for cancellation of purchases for paid IPTV contents.

Status of Implementation: Implemented voluntary improvements to notify consumers of cancellation procedures for such purchase prior to a decision by the Fair Trade Commission.

Company s Plan: Implement the correctional order and pay the fine.

(2) Violation of the Act on Facilitation of the Use of Information Network and Protection of Information

Date: June 16, 2014

Subject: SK Broadband

Sanction: SK Broadband was imposed a fine of Won 3 million.

Reason and the Relevant Law: Violated Articles 59 and 76 of the Act on Facilitation of the Use of Information Network and Protection of Information and Article 76 of the Enforcement Decree of the Act by not having designated proper contacts for the users of telecommunications billing services to raise objections and protect rights and interests of the users and by not having provided the contact information on the Internet or other means of communication.

Status of Implementation: Paid the fine, designated contact persons for user protection of telecommunications billing services, provided contact information on the Company s website, and paid the fine.

Company s Plan: Designate contact persons for user protection of telecommunications billing services and provide contact information to users.

(3) Violation of the Telecommunication Business Act

Date: August 21, 2013

Subject Company: SK Broadband

50

Table of Contents

Sanction: SK Broadband received a correctional order from the Korea Communications Commission.

Reason and the Relevant Law: Violation of Article 50, Paragraph 1, Number 5 of the Telecommunications Business Act for use of subscription agreements that omitted certain material terms and conditions pertaining to high-speed Internet usage.

Status of Implementation: Completed revision of subscription agreements to include material terms and conditions pertaining to high-speed Internet usage. Has distributed information sheets on current terms and conditions to new subscribers since November 25, 2013.

Company s Plan: Improve operations including through revision of subscription agreements.

(4) Violation of the Telecommunication Business Act

Date: June 5, 2013

Subject Company: SK Broadband

Sanction: SK Broadband received a correctional order from the Korea Communications Commission.

Reason and the Relevant Law: Improperly delayed cancellations of high-speed Internet subscribers and violated Articles 42 and 50 of the Telecommunication Business Act.

Status of Implementation: Improving operating procedures to stop the prohibited practice due for completion in August, completed amendment of the terms of service and published the sanction in newspapers.

Company s Plan: Improve cancellation procedures to prevent recurrence of the cancellation delays.

(5) Violation of accounting rules

Date: December 13, 2012

Subject Company: SK Broadband

Sanction: SK Broadband was imposed a fine of Won 39 million from the Korea Communications Commission.

Reason and the relevant law: Business report for 2011 violated accounting rules under Article 49 of the Telecommunication Business Act.

Status of Implementation: Paid the fine.

Company s plan: Will improve accounting management system.

(6) Violation of the Telecommunications Business Act

Date: May 18, 2012

Subject Company: SK Broadband

Sanction: SK Broadband received a correctional order and a fine of Won 253 million

Reason and relevant law: Violation of Article 50, Paragraph 1, Number 5 of the Telecommunications Business Act and Article 50, Paragraph 1 of the related Enforcement Decree for offering discounts outside the terms and conditions of the subscription agreement to certain subscribers and thereby discriminating against certain subscribers

51

Table of Contents

Status of implementation: Paid the fine, ceased the prohibitive practice, disclosed receiving the correctional order in a newspaper advertisement and changed business practice to prevent reoccurrence.

Company s plan: Continuous management of the company s distribution network and improve the company s distribution structure.

(7) Violation of accounting rules

Date: January 20, 2012

Subject Company: SK Broadband

Sanction: SK Broadband was imposed a fine of Won 54 million from the Korea Communications Commission.

Reason and the Relevant Law: Business report for 2010 violated accounting rules under Article 49 of the Telecommunication Business Act.

Status of Implementation: Paid the fine.

Company s Plan: Will improve accounting management system.

4. Important Matters That Occurred After March 31, 2015 [SK Broadband]

On May 6, 2015, the Share Exchange and the voluntary delisting of SK Broadband from the KRX KOSDAQ Market were approved at the extraordinary meeting of shareholders.

Independent Auditors Review Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

Reviewed financial statements

We have reviewed the accompanying condensed consolidated interim financial statements of SK Telecom Co., Ltd. and its subsidiaries (the Group), which comprise the condensed consolidated statement of financial position as of March 31, 2015, the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the three-month periods ended March 31, 2015 and 2014 and notes, comprising a summary of significant accounting policies and other explanatory information.

Management s responsibility

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with Korean International Financial Reporting Standards (K-IFRS) No.1034 Interim Financial Reporting, and for such internal controls as management determines necessary to enable the preparation of condensed consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors responsibility

Our responsibility is to issue a report on these condensed consolidated interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Korean Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements referred to above are not prepared fairly, in all material respects, in accordance with K-IFRS No.1034 Interim Financial Reporting .

Other matters

The consolidated statement of financial position of the Group as of December 31, 2014, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this report, were audited by us in accordance with Korean Standards on Auditing and our report thereon, dated February 23, 2015, expressed an unqualified opinion. The accompanying condensed consolidated statement of financial position of the Group as of December 31, 2014, presented for comparative purposes, is not different from that audited by us in all material respects.

The procedures and practices utilized in the Republic of Korea to review such condensed consolidated interim financial statements may differ from those generally accepted and applied in other countries.

KPMG Samjong Accounting Corp. Seoul, Korea May 8, 2015

This report is effective as of May 8, 2015, the review report date. Certain subsequent events or circumstances, which may occur between the review report date and the time of reading this report, could have a material impact on the accompanying condensed consolidated interim financial statements and notes thereto. Accordingly, the readers of the review report should understand that the above review report has not been updated to reflect the impact of such subsequent events or circumstances, if any.
