REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

McDonald s Corporation

Profit Sharing Administrative Committee

Oak Brook, Illinois

We have audited the accompanying statements of net assets available for benefits of the McDonald s Corporation Profit Sharing and Savings Plan as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014 in conformity with U.S. generally accepted accounting principles.

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of McDonald s Corporation Profit Sharing and Savings Plan s financial statements. The supplemental schedule is the responsibility of the Plan s management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

4.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN

General: The McDonald s Corporation Profit Sharing and Savings Plan (the Plan) was amended and restated in its entirety as of January 1, 2012. The Plan has been amended four times subsequent to this date, on October 18, 2012, April 30, 2013, August 23, 2013 and May 30, 2014.

The Plan is administered by a committee of officers (Administrative Committee) appointed by the Chief Executive Officer of McDonald s Corporation (the Company or McDonald s). Participants should refer to the Summary Plan Description and Prospectus for a more complete description and up-to-date information.

Eligibility: In order to participate in the 401(k) feature of the Plan, all eligible employees must be at least 21 years of age, have a valid Social Security number, and be on the U.S. payroll of the Company or a participating employer. The term Company includes McDonald s Corporation and all participating employers in describing eligibility and contributions below.

Restaurant management employees and staff employees (including part-time staff employees) are eligible to make 401(k) contributions, up to 50% of eligible compensation, beginning the first day of the month after completing one full calendar month of employment. All other employees are eligible to make 401(k) contributions after one year of eligibility service as defined by the Plan document. Restaurant management employees, who are not contributing to the Plan, are enrolled automatically at a 1% contribution level as soon as they have completed one year of service and attained age 21. Matching contributions are provided to eligible employees after one year of eligibility service as defined by the Plan document.

<u>Contributions</u>: Each year, participants may contribute up to 50% of their eligible pre-tax annual compensation, as defined by the Plan subject to Internal Revenue Service (the IRS) annual limits. Highly compensated employees under IRS rules are not able to make 401(k) contributions in their second calendar year of employment until the first of the month on or after they complete one anniversary year with at least 1,000 hours of service under the Plan.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions subject to IRS limits, and in addition, may contribute more than 50% if payroll tax and other withholding requirements are met. In accordance with Plan procedures, participants may roll over money into the Plan if it is from a: Qualified Plan, Section 403(b) tax-sheltered annuity plan, Section 457 deferred compensation plan of a state or local government entity, SIMPLE 401(k) plan, Section 403(a) annuity plan, Traditional IRA, SIMPLE IRA with at least two years participation, IRA set up to receive a distribution from an eligible employer plan or Federal thrift plan under section 7701(j).

Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. The investment funds under the Plan are Stable Value Fund, Intermediate Bond Fund, Global Bond Fund, Blended Stock/Bond Fund, Diversified Stock Fund, S&P 500 Index Fund, International Stock Fund, International Stock Index Fund, Real Estate Securities Fund, Small Cap Index Fund, Aggressive Stock Fund, McDonald s Common Stock Fund, and the McDonald s ESOP Stock Fund. No more than 20% of a participant s future 401(k) contributions may be invested in the McDonald s Common Stock Fund.

The Company matches (after one year of eligibility service and attainment of age 21) 300% of the first 1% of eligible compensation (as defined by the Plan) and 100% of the next 4% of eligible compensation that a participant contributes to the Plan. A discretionary profit-sharing match may be contributed at the option of the Compensation Committee of the Board of Directors of the Company (the Board). For the year ended December 31, 2014, the Company made a 2% discretionary profit sharing match to the Plan. The discretionary match is allocated after the end of the year to participants eligible to share in matching contributions based on participant 401(k) contributions up to 1% of eligible compensation. ESOP shares, to the extent available, are used to make matching contributions.

(Continued)

5.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participant Accounts: Participants can elect, on a daily basis, to have their account balances, as well as future deferrals and Company contributions, invested in 1% increments in one or any combination of the Plan's investment funds, including Company stock. For participants who are automatically enrolled, the participant s 401(k) contributions are invested in the Blended Stock/Bond Fund and after 30 days are managed by Guided Choice, a managed account provider, unless the participant makes an investment election. Company regular matching contributions for each payroll period and Company discretionary matching contributions, if any, are invested in the McDonald's ESOP Stock Fund for employees who are automatically enrolled in the Plan until the participant elects to direct such amounts to other funds offered. A participant may change how his/her existing account balance is invested at any time, but a participant may not transfer any amount into and out of the same fund more than two times within any rolling 90 day period. Participants are always able to transfer out of any fund into the Stable Value Fund even if they exceed this limit.

Each participant s account is credited with the participant s contribution and allocations of (a) the Company s matching contribution and discretionary profit sharing match (if any) and (b) Plan earnings, and charged with an allocated portion of investment expenses. Allocations are based on participant earnings or account balances as defined in the Plan.

<u>Leveraged Employee Stock Ownership Plan (Leveraged ESOP)</u>: The trustees, individuals appointed by the Compensation Committee of the Board, are authorized to invest certain assets of the Plan in shares of Company stock and to borrow money to acquire Company stock. In September 1989, the Leveraged ESOP borrowed \$200 million and used the proceeds of the loan to purchase 27,826,084 shares of McDonald s Series B Convertible Preferred Stock. The Preferred shares were redeemed by the Company for Common Stock in 1992 and 1995. In April 1991, the trustees borrowed \$100 million to purchase 12,075,468 shares of McDonald s Series C Convertible Preferred Stock, which were redeemed by the Company for Common Stock in 1995.

The Company is required to make sufficient cash contributions to the Plan to pay the principal and interest on the loans. Released ESOP shares are used to make matching Company allocations. The ESOP shares allocated to participant accounts are held by The Northern Trust Company (Northern Trust), the custodian of the Plan. The unallocated ESOP shares are also held at Northern Trust as collateral for loans from the Company to the Plan. Unallocated ESOP dividends are invested in an interest-bearing account until the note payment is due.

In 1999, the Leveraged ESOP loans were refinanced as discussed in Note 6, so that the last loan payment and allocation of ESOP Common Stock will occur in 2018.

During 2014, 430,087 shares were released from the unallocated ESOP shares with a fair value of approximately \$41,529,000.

<u>Vesting</u>: All participants accounts under the Plan are 100% vested.

Diversification: Participants can elect to fully diversify all accounts in the Plan, regardless of age.

Loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance reduced by the participants highest outstanding loan balance during the preceding 12-month period. All loans are currently subject to a \$75 processing fee. Loan terms range from 12 months up to 4.5 years. Participants may not have more than one loan from the Plan outstanding at any time. The loans are secured by the balance in the participant s account and bear interest based on the prime rate in effect on the

first day of the month in which the loan is requested, plus 1%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: Participants who terminate their employment with the Company and all other companies or entities that are owned or controlled 80% or more by the Company are entitled to receive the interest in their Plan accounts within a reasonable time following their termination. A terminated participant with benefits in excess of \$1,000 will not receive a distribution from the Plan until age $70^{-1}/_{2}$ unless an earlier distribution is elected.

Such accounts will continue to share in the allocation of investment income, and accounts will continue to be invested in accordance with the participant s investment elections (See Note 1, Contributions). Distributions may be in the form of a lump sum or installment payments or a combination of lump sum and installment payments.

(Continued)

6.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participants who terminate employment after satisfying the requirements to make deferrals and are subsequently rehired can resume making deferrals as soon as administratively feasible.

<u>Forfeitures</u>: Amounts unclaimed for two years are considered forfeitures. These forfeitures, resulting from unclaimed amounts, are used to make a portion of the Company contribution.

In-Service Withdrawals: Participants 59 \(^1/_2\) or older and terminated participants may withdraw all or any part of their account balances under the Plan at any time. The Plan permits participants to withdraw up to 100% of their ESOP, Profit Sharing, Stock Sharing, Investment Savings, and Rollover accounts at any time.

Pass Through Dividend Election: Participants are offered the choice of having dividends earned on shares of McDonald s common stock paid directly to them in cash or reinvested in their accounts in McDonald s stock.

<u>Voting</u>: Participants are entitled to direct the Trustees in voting shares of McDonald s stock credited to their accounts as well as those shares not voted by other participants and unallocated shares held in the ESOP feature of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

<u>Use of Estimates</u>: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

<u>Investment Valuation</u>: The Plan s investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan s principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used for investments of the Plan.

Common stocks and American Depository Receipts: The fair values of publicly traded common stocks and American Depository Receipts (ADR) are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

(Continued)

7.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Mutual funds: The fair values of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (level 1 inputs). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Treasury securities: Fair values of U.S. Treasury bonds reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Mortgage-backed securities: Mortgage-backed securities (MBS) are types of asset-backed securities that are secured by a mortgage, or more commonly a collection (pool) of mortgages. The mortgages are sold to a group of individuals (a government agency or investment bank) that securitizes, or packages, the loans together into a security that can be sold to investors. The mortgages of MBS may be residential or commercial, depending on whether it is an Agency MBS or a Non-Agency MBS. The structure of an MBS may be known as pass-through, where the interest and principal payments from the borrower or homebuyer pass through it to the MBS holder, or it may be more complex, made up of a pool of other MBSs. Other types of MBS include collateralized mortgage obligations (CMO s, often structured as real estate mortgage investment conduits) and collateralized debt obligations (CDOs). These are classified within level 2 of the fair value hierarchy. Fair value is estimated based on models that consider the estimated cash flows of each debt tranche of the issuer, establish a benchmark yield, and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche including, but not limited to, the prepayment speed assumptions and attributes of the collateral.

Corporate bonds: Corporate bonds are debt securities issued by corporations and sold to investors and are valued using recently executed transactions, market price quotations (where observable), bond spreads or credit default swap spreads. When observable price quotations are not available, fair value is determined based on cash flow models with yield curves, bond, or single-name credit default swap spreads and recovery rates based on collateral values as key inputs. Corporate bonds are categorized within level 2 of the fair value hierarchy.

Collective trusts: The fair values of investments in collective trusts are valued as determined by the custodian based on their net asset values and recent transaction prices. The investment objectives and underlying investments of the collective trusts vary, with some holding short term investments for principal preservation, diversified portfolios of domestic or international stocks, some holding securities of companies in a particular industry sectors, some holding short-term and/or medium-term corporate, government and government agency bonds, some holding a blend of asset back securities and corporate bonds, and others holding a blend of various domestic and international stocks. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. The collective trusts invest primarily in securities traded on nationally recognized securities exchanges and active dealer markets and are classified within level 2 of the fair value hierarchy.

Stable value fund: The plan investments include a Stable Value Fund which is a unitized fund managed by JPMorgan solely for the Plan. The Stable Value Fund includes synthetic guaranteed investment contracts which are comprised of collective trusts, short term investments and benefit responsive wrapper contracts (see Note 4).

Wrapper contracts: Benefit responsive wrapper contracts with various insurance carriers are utilized to provide market and cash flow risk protection to the Plan for the Stable Value Fund. The fair values of the wrapper contracts associated with the synthetic investment contracts within the Stable Value Fund have been based upon the estimated replacement costs of the wrap contracts projected for the duration of the

associated portfolio and discounted back to the financial statement dates (level 3 inputs).

Contract value of the synthetic guaranteed investment contracts represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses.

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2014 (amounts in thousands):

Fair Value Measurements Using Significant Unobservable Inputs (Level

	(Wrapper	Contracts)
Beginning balance, January 1, 2014	\$	112
Change in fair value of fully benefit-responsive investment contract*		(27)
Ending balance, December 31, 2014	\$	85

* Unrealized appreciation (depreciation) of the wrapper contracts associated with the fully benefit-responsive investment contract is reported as an increase (decrease) in Plan investments and as an offsetting decrease (increase) in the adjustment from fair value to contract value reported in the 2014 statement of net assets available for benefits, with no effect on the 2014 change in net assets available for benefits.

Participant Loans: Participant loans are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants account balances.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Fair Value of Long-Term Debt</u>: The fair value of the Plan s long-term debt is estimated based on the current rates available to the Plan for debt of the same remaining maturities (level 2). As of December 31, 2014, the estimated fair value and carrying value of the Plan s long-term debt was \$17,929,000 and \$15,971,000, respectively. As of December 31, 2013, the estimated fair value and carrying value of the Plan s long-term debt was \$26,521,000 and \$23,179,000, respectively.

<u>Unallocated Net Assets Available for Benefits</u>: Unallocated net assets available for benefits represents the fair value of shares of McDonald s common stock purchased through the ESOP which have not been released for allocation to participants accounts offset by the balance of the debt issued by the ESOP. Unallocated net assets available for benefits are reduced by the fair value of the shares as they are allocated to participants as Company matching contributions.

Payment of Benefits: Benefits are recorded at the time of payment.

NOTE 3 - INVESTMENTS

The following presents the fair values of investments that represent 5 percent or more of the Plan s net assets at December 31, 2014 and 2013 (amounts in thousands).

	2014	2013
Investments at fair value:		
McDonald s Corporation common stock	\$ 1,158,742	\$ 1,356,562
JP Morgan Chase Bank Intermediate Bond Fund	199,282	209,682
Blackrock Global Allocation Fund	248,376	222,128
NT Collective S&P500 Index Fund	302,885	244,268

NOTE 4 - INVESTMENT CONTRACTS

The Plan investments include a Stable Value Fund, managed by JPMorgan, which is a unitized fund established solely for the investment of assets of the Plan. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and JPMorgan s administrative expenses. The Stable Value Fund holds synthetic guaranteed investment contracts, with collective funds and short-term investments as underlying investments. The underlying investments and wrapper contracts of these synthetic investment contracts are included in the financial statements at fair value.

The wrapper contracts within the Stable Value Fund specify certain conditions under which distributions from the contracts would be payable at amounts below contract value. Such circumstances include the termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer s underwriting criteria for issuance of a clone wrapper contract. The contracts limit the circumstances under which the issuer may terminate the contracts. Examples of circumstances which would allow the issuer to terminate the contracts include the Plan s loss of its qualified status, un-cured material breaches of responsibilities, or material

and adverse changes to the provisions of the Plan. If one of these events were to occur, the issuer could terminate the contracts at the market value of the underlying investments. Currently, the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rates of the contracts are based on agreed-upon formulas with the issuers, as defined in the contract agreements, but cannot be less than zero. The interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions; transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contracts.

(Continued)

11.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 4 - INVESTMENT CONTRACTS (Continued)

The Plan s allocable share of the resulting gains and losses in the fair value of the investment contracts relative to the contract value is reflected as an adjustment from fair value to contract value on the statement of net assets as of December 31, 2014 and 2013.

	2014	2013
Average contract yield, in the aggregate for all contracts:		
Based on annualized earnings (1)	1.86%	1.86%
Based on interest rate credited to participants (2)	1.57%	1.61%

⁽¹⁾ Computed by dividing the annualized one-day actual earnings of the contracts on the last day of the Plan year by the fair value of the contracts investments on the same date

NOTE 5 - NONPARTICIPANT-DIRECTED INVESTMENTS

The nonparticipant directed net assets of the Plan and changes therein consist of those reflected in the financial statements as ESOP Unallocated Account.

NOTE 6 - NOTES PAYABLE

In September 1989, the Leveraged ESOP issued \$200 million of 7.67% Guaranteed ESOP Notes, Series A, for 15 years with a final maturity of September 15, 2004. In April 1991, the Leveraged ESOP issued \$100 million of 7.30% Guaranteed ESOP Notes, Series B, for 15 years with a final maturity of June 1, 2006. In November 1999, the Leveraged ESOP paid down \$84,740,000 of these notes and refinanced both the Series A and Series B Notes. At that time, the Leveraged ESOP issued a \$104,672,800, 7.11% ESOP Note, for 19 years with a final maturity of July 15, 2018, and a \$28,305,658, 7.11% ESOP Note, for three years with a final maturity of July 15, 2002. The remaining outstanding ESOP Note is a loan directly between the ESOP and the Company.

Principal and interest payments are made according to the applicable loan schedules. Dividends on the converted common stock and Company contributions are used to repay the loans.

The Series A/B Notes are collateralized by unallocated shares of McDonald s common stock, valued at \$83,480,554 at December 31, 2014. All Notes are guaranteed by the Company. Holders of the Notes have no recourse against the assets of the ESOP, except for such collateralized shares, cash contributions to the ESOP, and earnings attributable to such collateralized shares or contributions. The unallocated shares of McDonald s common stock may be released from collateral under certain circumstances without the consent of the holders of the Notes.

Following are maturities of the Notes for each of the next four years (amounts in thousands):

⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contracts investments on the same date.

	Series A Notes	Series B Notes	Total
2015	\$ 4,481	\$ 2,257	\$ 6,738
2016	2,721	1,371	4,092
2017	1,962	988	2,950
2018	1,457	734	2,191
Total over remaining life of notes	\$ 10,621	\$ 5,350	\$ 15,971

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the McDonald s Corporation has the right under the Plan to allow an employer to discontinue its contributions at any time and the Company may terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(Continued)

12.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 8 - ADMINISTRATIVE FEES

The investment managers fees applicable to each investment fund are netted against the related investment income before investment income is allocated to participants accounts. Fees for managed account services provided by an independent third-party are charged directly to participant accounts only for individuals that use this service. Revenue sharing received from investments in mutual funds reduces administrative fees. Remaining administrative fees associated with the Plan are paid by the Company. Effective March 3, 2014, the Plan no longer holds investments in mutual funds with revenue sharing.

NOTE 9 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated September 24, 2013, that the Plan and related trust are designed, including amendments adopted through October 18, 2012, in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended several times since that date and was amended and restated, effective January 1, 2015, to reflect the change to a corporate trustee, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they continue to believe that the Plan is qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 - TRANSACTIONS WITH PARTIES IN INTEREST

During 2014, the Plan received \$42,746,696 in common stock dividends from the Company. In connection with the Leveraged ESOP discussed in Note 6, \$132,978,458 of debt, at an interest rate of 7.11%, was issued directly by the Company to the Plan in 1999. This loan is intended to be an exempt loan under Section 408(b)(3) of ERISA and Section 4975(d)(3) of the IRC.

During 2014, fees totaling \$3,097,000 were paid by the Plan to the managers of the investments held in the Plan and an advisor to Plan participants. These transactions qualify as party-in-interest transactions.

Certain Plan assets are held in participant loans or investments managed by Northern Trust, therefore these transactions qualify as party-in-interest. A portion of the Plan s assets are also invested in Company stock (see Note 3).

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 11 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts

reported in the statements of net assets available for benefits.

(Continued)

13.

McDONALD S CORPORATION PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 12 - FORM 5500 RECONCILIATION

Following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to net assets per the Form 5500 (amounts in thousands):

	2014	2013
Net assets available for benefits per the financial statements	\$ 3,197,568	\$ 3,278,608
Adjustment from contract value to fair value for fully benefit responsive investment contracts	1,238	(2,732)
Net assets per the Form 5500	\$ 3,198,806	\$ 3,275,876

Following is a reconciliation of the increase (decrease) in net assets available for benefits per the financial statements for the year ended December 31, 2014, to the net income per the Form 5500 (amounts in thousands):

Decrease in net assets available for benefits per the financial statements	\$ (81,040)
Change in the adjustment from contract value to fair value for fully benefit responsive investment contracts at December 31, 2014	3,970
Net loss per the Form 5500	\$ (77,070)

NOTE 13 - SUBSEQUENT EVENTS

Effective January 1, 2015 the Plan was amended and restated in its entirety.

Effective January 1, 2015, for participants who are automatically enrolled, Company regular matching contributions for each payroll period and Company discretionary matching contributions, if any, are invested in the Blended Stock/Bond Fund and after 30 days are managed by Guided Choice, a managed account provider, unless the participant makes an investment election.

Effective January 1, 2015, the trustee for the Plan is The Northern Trust Company.

Effective April 1, 2015, revenue sharing received from a mutual fund reduces the investment expenses for that Plan Fund. Thus, all administrative expenses associated with the Plan are paid by the Company and the only persons benefiting from revenue sharing are plan participants.
