CAUTIONARY NOTE REGARDING OIL AND GAS RESERVE AND RESOURCE ESTIMATES

This Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, contain disclosure respecting oil and natural gas liquids (**NGLs** and, together with oil and condensate, **liquids**) and barrels of oil equivalent or **BOE** . A conversion of natural gas volumes to BOE is on the basis of six thousand cubic feet to one barrel. BOE is based on a generic energy equivalency conversion method primarily applicable at the burner tip and does not represent economic value equivalency at the wellhead. Given that the value ratio based on the current price of oil as compared to natural gas is significantly different from the energy equivalency of 6:1, utilizing a conversion on a 6:1 basis may be misleading as an indication of value, particularly if used in isolation.

The securities regulatory authorities in Canada have adopted National Instrument 51-101 - *Standards of Disclosure for Oil and Gas Activities* (**NI 51-101**), which imposes oil and gas disclosure standards for Canadian public issuers engaged in oil and gas activities. NI 51-101 permits oil and gas issuers, in their filings with Canadian securities regulatory authorities, to disclose not only proved, probable and possible reserves but also resources, and to disclose reserves and production on a gross basis before deducting royalties. Probable reserves, possible reserves and resources are of a higher risk and are less likely to be accurately estimated or recovered than proved reserves. We are required to disclose reserves in accordance with Canadian securities law requirements and the disclosure in the documents incorporated by reference in this Prospectus Supplement and the Prospectus include reserves designated as probable reserves and possible reserves. The SEC definitions of proved, probable and possible reserves are different than the definitions contained in NI 51-101; therefore, proved, probable and possible reserves disclosed in the documents incorporated by reference in this Prospectus Supplement and the Prospectus in compliance with NI 51-101 may not be comparable to United States standards. The SEC requires United States oil and gas reporting companies, in their filings with the SEC, to disclose only proved reserves after the deduction of royalties and production due to others, but permits the optional disclosure of probable and possible reserves.

Moreover, as permitted by NI 51-101, we have determined and disclosed the estimated net present value of future net revenue from our reserves in our NI 51-101 compliant reserves disclosure using forecast prices and costs. The SEC requires that reserves and related future net revenue be estimated based on historical 12-month average prices, but permits the optional disclosure of revenue estimates based on different price and cost criteria, including standardized future prices or management's own forecasts.

In addition, certain documents incorporated by reference in this Prospectus Supplement and in the Prospectus contain estimates of contingent resources. The SEC does not permit the disclosure of contingent resources in reports filed with it by United States oil and gas reporting companies. Contingent resources are not, and should not be confused with, reserves. Additional information regarding these estimates can be found in our Supplemental Disclosure Document concerning our estimated reserves and economic contingent resources dated February 29, 2016 (the **Supplemental Disclosure Document**), which is incorporated by reference in this Prospectus Supplement and in the Prospectus. The contingent resource estimates provided in the documents

Table of Contents

incorporated by reference in this Prospectus Supplement and in the Prospectus are estimates only. Actual contingent resources (and any volumes that may be reclassified as reserves) and future production from such contingent resources may be greater than or less than the estimates provided herein or in the documents incorporated by reference.

For additional information regarding the presentation of our reserves and other oil and gas information, including the primary differences between Canadian and U.S. reporting requirements, see the section entitled *Narrative Description of the Business Reserves and Other Oil and Gas Information* in our Annual Information Form dated February 29, 2016 (our **AIF**), which is incorporated by reference in this Prospectus Supplement and in the Prospectus. Certain disclosure of our reserves prepared in accordance with United States disclosure requirements is set forth in Appendix D to our AIF entitled *U.S. Protocol Disclosure of Reserves Data and Other Oil and Gas Information*.

differ materially from those expressed or implied. These assumptions include: the Corporation's actual 2017 capital expenditures will be consistent with its current plans; the Corporation's ability to access the Credit Facilities; achieving average production as specified in the Corporation's corporate guidance; availability of attractive hedges and enforceability of risk management program; effectiveness of the Corporation's resource play hub model to drive productivity and efficiencies; results from innovations; the expectation that counterparties will fulfill their obligations under the gathering, midstream and marketing agreements; access to transportation and processing facilities where Encana operates; the ability to satisfy certain closing conditions, the successful closing of, and the value of post-closing and other adjustments associated with announced divestitures; and expectations and projections made in light of, and generally consistent with, Encana's historical experience and its perception of historical trends, including with respect to the pace of technological development, the benefits achieved and general industry expectations.

Risks and uncertainties that may affect these business outcomes include: the Corporation may revise its capital expenditure program due to unanticipated events or circumstances; the ability to generate sufficient cash flow to meet the Corporation's obligations; risks inherent to closing announced divestitures on a timely basis or at all and adjustments that may reduce the expected proceeds and value to Encana; commodity price volatility; ability to secure adequate product transportation and potential pipeline curtailments; variability and discretion of Encana's board of directors (the **Board of Directors**) to declare and pay dividends, if any; the timing and costs of well, facilities and pipeline construction; business interruption and casualty losses or unexpected technical difficulties; counterparty and credit risk; risk and effect of a downgrade in credit rating, including below an investment-grade credit rating, and its impact on access to capital markets and other sources of liquidity; fluctuations in currency and interest rates; assumptions inherent in the Corporation's corporate guidance; failure to achieve anticipated results from cost and efficiency initiatives; risks inherent in marketing operations; risks associated with technology; changes in or interpretation of royalty, tax, environmental, greenhouse gas, carbon, accounting and other laws or regulations; risks associated with existing and potential future lawsuits and regulatory actions made against the Corporation; impact to the Corporation as a result of disputes arising with its partners, including the suspension by its partners of certain of their obligations and the inability to dispose of assets or interests in certain arrangements; the Corporation's ability to acquire or find additional reserves; imprecision of reserves estimates and estimates of recoverable quantities of natural gas and liquids from resource plays and other sources not currently classified as proved, probable or possible reserves or economic contingent resources, including future net revenue estimates; risks associated with past and future acquisitions or divestitures of certain assets or other transactions or receipt of amounts contemplated under the transaction agreements (such transactions which may include third-party capital investments, farm-outs or partnerships, which Encana may refer to from time to time as partnerships or joint ventures and the funds received in respect thereof which Encana may refer to from time to time as proceeds, deferred purchase price and/or carry capital, regardless of the legal form) as a result of various conditions not being met; and other risks described under Risk Factors in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein and risks and uncertainties impacting Encana's business as described from time to time in our AIF and 2015 MD&A incorporated by reference in this Prospectus Supplement and the Prospectus and in the Corporation's other periodic and continuous disclosure filings with securities regulatory authorities in Canada and the United States incorporated by reference in this Prospectus Supplement and the Prospectus.

SUMMARY

Encana Corporation

Encana is a leading North American energy producer that is focused on developing its strong portfolio of diverse resource plays producing natural gas, oil and NGLs. Encana's operations also include the marketing of natural gas, oil and NGLs. All of Encana's reserves and production are located in North America.

For a description of the Corporation's business, see *Narrative Description of the Business* in our AIF and *Encana's Business* in our 2015 MD&A and 2016 Q2 MD&A, each of which are incorporated by reference in the Prospectus.

Recent Developments

Completion of Previously Announced Asset Dispositions

On July 29, 2016, the Corporation announced that it had completed the previously announced sales of its Gordondale assets in northwestern Alberta (with an effective date of January 1, 2016) and its DJ Basin assets in Colorado (with an effective date of April 1, 2015). The proceeds received by the Corporation from these dispositions were primarily used to partially repay amounts outstanding under the Credit Facilities.

RISK FACTORS

Before deciding to invest in the Offered Shares, you should carefully consider all the information contained in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein. An investment in the Offered Shares is subject to certain risks, including risks related to the business of the Corporation, risks related to oil and natural gas operations and risks related to the Corporation's securities described in the documents incorporated by reference in this Prospectus Supplement and the Prospectus. If any event arising from these risks occurs, the Corporation's operations, anticipated financial performance, business prospects or strategies, or your investment in the Offered Shares could be materially adversely affected.

In addition to the other information contained in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, you should carefully consider the risk factors set forth under the heading *Risk Factors* in the Prospectus and in our AIF and under the heading *Risk Management* in our 2015 MD&A and 2016 Q2 MD&A. These risks are not the only risks the Corporation faces. Additional risks not presently known to the Corporation or that the Corporation incorrectly deems immaterial may also impair its business and impact your investment in the Offered Shares.

Risks Related to the Corporation's Common Shares

The Common Shares are publicly traded and are subject to various factors that have historically made the market price volatile.

The market price of the Common Shares has been, and may continue to be, subject to fluctuations and volatility. During the period from September 1, 2015 to September 16, 2016, the trading price of the Common Shares has been

as high as C\$13.87 and as low as C\$4.14 per share on the TSX and as high as US\$10.75 and as low as US\$3.01 per share on the NYSE. See *Trading Price and Volume* . The market price of the Common Shares may increase or decrease in response to a number of events and factors, including the strength of the economy generally; commodity prices; the availability and attractiveness of alternative investments; actual or anticipated variations in the Corporation's financial condition or operating results; announcements of new

S-1

Table of Contents

developments; changes in financial reports by securities analysts or failure to meet such analysts' expectations; a downgrade, suspension or withdrawal of the rating assigned by a rating agency to the Corporation's indebtedness; the occurrence of major catastrophic events; and sales of the Common Shares in the marketplace.

During the current period of low commodity prices, the securities markets have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the market price of the Common Shares. As a result, investors may not be able to resell their Common Shares at or above the Offering Price.

Future issuances or sales of Common Shares may result in dilution to present and prospective holders of Common Shares.

The Corporation's articles allow the Corporation to issue an unlimited number of Common Shares. The Corporation may raise funds for future operations through the issuance of additional Common Shares or other securities convertible into Common Shares, and may issue Common Shares pursuant to its dividend reinvestment plan. Any future issuance of Common Shares, or other securities convertible into Common Shares, may result in dilution to present and prospective holders of Common Shares.

The decision to pay dividends and the amount of such dividends is subject to the discretion of Encana's Board of Directors based on numerous factors and may vary from time to time.

Although Encana currently intends to pay quarterly cash dividends to its shareholders, these cash dividends may be reduced or suspended. The amount of cash available to Encana to pay dividends, if any, can vary significantly from period to period for a number of reasons, including, among other things: Encana's operational and financial performance; fluctuations in the realized prices for, and costs to produce, natural gas, oil and NGLs; the amount of cash required or retained for debt service or repayment; amounts required to fund capital expenditures and working capital requirements; access to equity and debt markets; foreign currency exchange rates and interest rates; and the risk factors set forth in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein.

The decision whether or not to pay dividends and the amount of any such dividends are subject to the discretion of the Board of Directors, which regularly evaluates Encana's proposed dividend payments and the solvency test requirements of the *Canada Business Corporations Act* (**CBCA**). See *Dividends* . In addition, the level of dividends per Common Share will be affected by the number of outstanding Common Shares and other securities that may be entitled to receive cash dividends or other payments. Dividends may be increased, reduced or suspended depending on Encana's operational success and the performance of its assets. The market value of the Common Shares may deteriorate if Encana is unable to meet dividend expectations in the future, and that deterioration may be material.

Risks Related to the Corporation

Because the Corporation is a Canadian corporation, certain civil liabilities and judgments may not be enforceable against it.

The Corporation is incorporated under the laws of Canada. Some of its officers and directors, and some of the experts named elsewhere in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, are residents of Canada. Many of the Corporation's assets and the assets of these persons are located outside of the United States. As a result, it may be difficult for a holder of Common Shares to initiate a lawsuit within the United States against these non-U.S. residents, or to enforce in the United States judgments that are obtained in a

U.S. court against the Corporation or these persons. It may also be difficult for a holder of Common Shares to enforce a U.S. judgment in Canada, or to succeed in a lawsuit in Canada, based solely on violations of U.S. securities laws.

S-2

Table of Contents**USE OF PROCEEDS**

The net proceeds from the sale of the Offered Shares will be approximately US\$ million (US\$ million if the Over-Allotment Option is exercised in full), after deducting the Underwriters' Fee and the estimated expenses of the Offering of approximately US\$1.0 million. The Corporation intends to use approximately half of the net proceeds received from the sale of the Offered Shares to fund a portion of its 2017 capital program. The remaining proceeds will be used to enhance the Corporation's balance sheet flexibility by repaying indebtedness under the Credit Facilities. The majority of the 2017 capital program is expected to be allocated to growing the Corporation's Permian production through increasing the number of rigs in the play, which is expected to result in approximately two times as many Permian wells on stream in 2017 as compared to 2016. The allocation of proceeds may vary depending upon numerous factors, including changes in commodity prices and increased capital efficiency. See *Risk Factors* .

The use of the net proceeds as set forth above is consistent with the Corporation's business objective of preserving balance sheet strength and accelerating growth from the Corporation's core four assets. See Encana's Business in our 2016 Q2 MD&A. For a description of the Credit Facilities, see Note 13 of our Annual Financial Statements (as defined below). Borrowings under the Credit Facilities to date have been used for working capital purposes.

CONSOLIDATED CAPITALIZATION

The following table summarizes our cash and cash equivalents and consolidated capitalization at June 30, 2016, both on an actual basis and as adjusted to give effect to the Offering and the use of proceeds therefrom and the partial repayment of amounts outstanding under the Credit Facilities from a portion of the proceeds received by the Corporation from its previously announced asset dispositions. See *Summary Recent Developments* . This table should be read together with our unaudited interim condensed consolidated financial statements as at and for the three and six-month periods ended June 30, 2016.

	As at June 30, 2016 Actual	As at June 30, 2016 As Adjusted

DESCRIPTION OF SECURITIES OFFERED

UNDERWRITING (CONFLICTS OF INTEREST)

Pursuant to the underwriting agreement (the **Underwriting Agreement**) dated September , 2016, among the Corporation and Credit Suisse Securities (Canada), Inc., J.P. Morgan Securities Canada Inc. and J.P. Morgan Securities LLC (collectively, the **Co-Lead Underwriters**) and , and (collectively with the Co-Lead Underwriters, the **Underwriters**), the Corporation has agreed to sell and the Underwriters have severally (and not jointly nor jointly and severally) agreed to purchase on the Closing Date, or such other date as may be agreed

upon by the Corporation and the Underwriters, subject to the terms and conditions stated in the Underwriting Agreement, all but not less than all of the Offered Shares at the Offering Price, payable in cash to the Corporation against delivery of such Offered Shares. The Offering Price was determined by negotiation between the Corporation and the Co-Lead Underwriters.

The obligations of an Underwriter under the Underwriting Agreement may be terminated upon the occurrence of certain stated events, including, but not limited to, if: (i) trading generally shall have been suspended or materially limited on, or by, as the case may be, the NYSE or the TSX; (ii) a material disruption in securities settlement, payment or clearance services in the United States or Canada shall have occurred; (iii) any moratorium on commercial banking activities shall have been declared by U.S. Federal or New York State, Canadian or the Province of Alberta authorities (and in the case of any of the events specified in (i) through

S-6

Table of Contents

(iii), such event, singly or together with any other such event would in the sole opinion of an Underwriter, acting reasonably and in good faith, have a material adverse effect on the market price or market value of the Offered Shares); (iv) there shall have occurred any material adverse change, financial or otherwise, in the business, operations, or condition (financial or otherwise) of the Corporation and its subsidiaries (taken as a whole) which, in the reasonable opinion of an Underwriter, would materially adversely affect the market price or market value of the Offered Shares; or (v) there should develop, occur or come into effect or existence any event, action, state, condition or financial occurrence, or any catastrophe, of national or international consequence, any law or regulation, or any other occurrence of any nature whatsoever, which in the opinion of an Underwriter, acting reasonably and in good faith, materially adversely affects, or will materially adversely affect the financial markets in Canada or the United States and have a material adverse effect on the market price or market value of the Offered Shares. If an Underwriter fails or refuses to purchase the Common Shares which it has agreed to purchase, the remaining Underwriter(s) may terminate their obligation to purchase their allotment of Common Shares, or may, but are not obligated to, purchase the Common Shares not purchased by the Underwriter or Underwriters which fail to purchase on a *pro rata* basis; provided, however, that if the aggregate number of Common Shares not so purchased is not more than 11% of the aggregate number of Common Shares agreed to be purchased by the Underwriters, then each of the other Underwriters shall be obligated to purchase severally the Common Shares not taken up, on a *pro rata* basis or in such other proportion as the Co-Lead Underwriters may specify. The Underwriters are, however, obligated to take up and pay for all of the Offered Shares if any Offered Shares are purchased under the Underwriting Agreement, but are not obligated to take up and pay for any Additional Shares.

The Underwriters are offering the Offered Shares, subject to prior sale, if, as and when issued to and accepted by them, subject to certain conditions contained in the Underwriting Agreement. The Corporation has agreed to indemnify the Underwriters, and certain related parties, against certain liabilities and expenses and to contribute to payments that the Underwriters may be required to make in respect thereof that are directly or indirectly based on or resulting from the Offering.

The Offering is being made concurrently in the United States and in all the provinces and territories of Canada. Offers may also be made on a private placement basis where permitted by applicable law. The Offered Shares will be offered in the United States and Canada through the Underwriters either directly or through their respective U.S. or Canadian broker-dealer affiliates or agents, as applicable. No Offered Shares will be offered or sold in any jurisdiction except by or through brokers or dealers duly registered under the applicable securities laws of that jurisdiction, or in circumstances where an exemption from such registered dealer requirements is available.

The Offering Price of the Offered Shares for all investors will be payable in United States dollars. All of the proceeds of the Offering will be paid to the Corporation by the Underwriters in United States dollars. The Corporation's total expenses for the Offering are estimated to be approximately US\$1.0 million, including filing fees of approximately US\$ million, legal and accounting fees and expenses of approximately US\$ million and miscellaneous fees and expenses of approximately US\$ million.

The Common Shares are listed on the TSX and the NYSE. The Corporation has applied to list the Offered Shares on the TSX and the NYSE. Listing will be subject to the Corporation fulfilling all of the listing requirements of the TSX and the NYSE.

Subscriptions for the Offered Shares will be received subject to rejection or allotment in whole or in part and the Underwriters reserve the right to close the subscription books at any time without notice. It is expected that the Corporation will arrange for the instant deposit of the Offered Shares under the book-based system of registration, to be registered to The Depository Trust Company (**DTC**) and deposited with DTC on the Closing Date. No certificates evidencing the Offered Shares will be issued to purchasers of the Offered Shares. Purchasers of the Offered Shares

will receive only a customer confirmation from the Underwriter or other registered dealer who is a DTC participant and from or through whom a beneficial interest in the Offered Shares is purchased.

S-7

Table of Contents**Over-Allotment Option**

The Corporation has granted to the Underwriters the Over-Allotment Option, exercisable in whole or in part, in the sole discretion of the Underwriters, for a period of 30 days from the closing of the Offering, to purchase up to Additional Shares at the Offering Price, to cover over-allotments, if any, and for market stabilization purposes. A person who acquires Common Shares issuable upon exercise of the Over-Allotment Option acquires such shares under this Prospectus Supplement and the Prospectus regardless of whether the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or secondary market purchases. This Prospectus Supplement and the Prospectus, qualify the distribution of the Over-Allotment Option and the distribution of the Additional Shares issuable upon exercise of the Over-Allotment Option.

Underwriters Fee

The Corporation has agreed to pay a cash fee to the Underwriters in the amount equal to % (US\$ per Offered Share) of the gross proceeds of the sale of the Offered Shares, including gross proceeds realized on the sale of Additional Shares issuable upon exercise of the Over-Allotment Option, if any.

The Underwriters propose to offer the Offered Shares initially at the price specified on the cover of this Prospectus Supplement. After the Underwriters have made a reasonable effort to sell all of the Offered Shares at the price specified on the cover page, the price may be decreased and may be further changed from time to time to an amount not greater than that set out on the cover page, and the compensation realized by the Underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Offered Shares is less than the gross proceeds paid by the Underwriters to the Corporation.

Conflicts of Interest

As described in *Use of Proceeds*, a portion of the net proceeds of the Offering may be used to pay down the Credit Facilities. Affiliates of the Underwriters are lenders to the Corporation pursuant to the Credit Facilities. As a result, affiliates of one or more of the Underwriters may receive more than 5% of the net proceeds from the Offering in the form of the repayment of such indebtedness and, therefore, be deemed to have a conflict of interest under FINRA Rule 5121(f)(5)(C)(i). Accordingly, the Offering is being conducted in compliance with FINRA Rule 5121, as administered by the Financial Industry Regulatory Authority (**FINRA**). Any Underwriter that has a conflict of interest pursuant to the rule will not confirm sales to accounts in which it exercises discretionary authority without the prior written consent of the customer. Pursuant to that rule, the appointment of a qualified independent underwriter is not necessary in connection with the Offering, as the Offering is of a class of equity securities for which there is a bona fide public market, as defined by FINRA rules.

Price Stabilization and Short Positions

Pursuant to rules and policy statements of certain Canadian provincial and territorial securities regulatory authorities, the Underwriters may not, at any time during the period ending on the date the selling process for the Offered Shares ends and all stabilization arrangements relating to the Common Shares are terminated, bid for or purchase Common Shares for their own account or for accounts over which they exercise control or direction. The foregoing restrictions are subject to certain exceptions, on the condition that the bid or purchase is not engaged in for the purpose of creating actual or apparent active trading in, or raising the price of, the Common Shares. These exceptions include bids or purchases permitted under the Universal Market Integrity Rules for Canadian Marketplaces administered by the Investment Industry Regulatory Organization of Canada relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited during the

period of distribution. Subject to the foregoing, in connection with this Offering, the Underwriters may over-allot or effect transactions that stabilize or maintain the market price of the Common Shares at levels which might not prevail on the open market. Such transactions, if commenced, may be discontinued at any time.

S-8

Table of Contents

Until the distribution of the Offered Shares is completed, SEC rules may limit the Underwriters from bidding for and purchasing Common Shares. However, the Underwriters may engage in transactions that stabilize, maintain or otherwise affect the market price of the Common Shares, such as bids or purchases to peg, fix or maintain that price in accordance with Regulation M under the U.S. Exchange Act of 1934, as amended (the **U.S. Exchange Act**).

If the Underwriters create a short position in the Common Shares in connection with the Offering, i.e., if they sell more Offered Shares than are listed on the cover of this Prospectus Supplement, the Underwriters may reduce that short position by purchasing Common Shares in the open market. The Underwriters may also elect to reduce any short position by exercising all or part of the Over-Allotment Option described above. Purchases of Common Shares to stabilize the price or to reduce a short position may cause the price of the Common Shares to be higher than it might otherwise be in the absence of such purchases. No representation is made as to the magnitude or effect of any such stabilization or other activities. The Underwriters are not required to engage in these activities.

Lock-Up Agreement

Pursuant to the Underwriting Agreement, the Corporation has agreed, subject to certain exceptions, not to directly or indirectly issue or agree to issue any Common Shares or securities or other financial instruments convertible into or having the right to acquire Common Shares, or enter into any agreement or arrangement under which the Corporation transfers to another, in whole or in part, any of the economic consequences of ownership of Common Shares, whether that agreement or arrangement may be settled by the delivery of Common Shares or other securities or cash, or agree to be bound to do so, or disclose to the public any intention to do so, for a period from the date of the Underwriting Agreement until 90 days following closing of the Offering without the prior written consent of the Co-Lead Underwriters on behalf of the Underwriters, which consent will not be unreasonably withheld; provided that, the Corporation shall not be prevented or restricted from issuing or agreeing to issue any of its Common Shares or securities or other financial instruments convertible into or having the right to acquire its Common Shares: (i) as consideration in connection with acquisitions, mergers, combinations, plans of arrangement, take-over bids, tender offers or any other similar transactions; (ii) to employees and directors of the Corporation; (iii) pursuant to the Corporation's dividend reinvestment plan; or (iv) pursuant to rights or obligations under securities or instruments outstanding on the date hereof or issued as permitted by (i), (ii) or (iii) above.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion describes certain U.S. federal income tax considerations to U.S. Holders (defined below) under present United States federal income tax laws of an investment in the Common Shares. This discussion is based upon the U.S. Internal Revenue Code of 1986, as amended (the **Code**), U.S. Treasury regulations promulgated under the Code, court decisions, and published positions of the U.S. Internal Revenue Service (**IRS**), all as in effect on the date of this Prospectus Supplement and all of which are subject to change or differing interpretations, possibly with retroactive effect, that could affect the tax considerations described below. This discussion applies only to investors that hold the Common Shares as capital assets within the meaning of Code Section 1221 (i.e., generally, for investment purposes) and that have the U.S. dollar as their functional currency. This discussion does not address any aspect of non-income taxation or state, local or non-U.S. taxation.

The following discussion does not deal with the tax considerations to any particular investor or to persons in special tax situations such as:

banks;

certain financial institutions;

insurance companies;

broker dealers;

U.S. expatriates and former long-term residents of the United States;

traders in securities that elect the mark-to-market method of accounting for their securities;

tax-exempt entities;

partnerships or other pass-through entities and any owners thereof;

regulated investment companies;

real estate investment trusts;

U.S. Holders whose functional currency is not the U.S. dollar;

S-13

Table of Contents

persons liable for alternative minimum tax;

persons holding a Common Share as part of a straddle, hedging, conversion or integrated transaction; or

persons that actually or constructively own 10% or more of the Corporation's voting stock.

PROSPECTIVE PURCHASERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS ABOUT THE APPLICATION OF THE U.S. FEDERAL TAX RULES TO THEIR PARTICULAR CIRCUMSTANCES, AS WELL AS THE STATE, LOCAL AND NON-U.S. TAX CONSIDERATIONS TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF COMMON SHARES.

For the purposes of this section, **U.S. Holder** means a beneficial owner of Common Shares that is, for U.S. federal income tax purposes:

an individual U.S. citizen or resident alien;

a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) that is organized in or under the laws of the United States, any State thereof or the District of Columbia;

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

a trust that (1) is subject to the supervision of a court within the United States and the control of one or more U.S. persons; or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership or other pass-through entity is a beneficial owner of the Common Shares, the tax treatment of a partner or other owner will generally depend upon the status of the partner (or other owner) and the activities of the entity. Holders or prospective holders of the Common Shares that are partners (or other owners) of a pass-through entity that acquires the Common Shares are urged to consult their tax advisors regarding the tax consequences of acquiring, owning and disposing of the Common Shares.

Taxation of Dividends and Other Distributions on the Common Shares

Subject to the passive foreign investment company rules discussed below, the gross amount of a distribution paid to a U.S. Holder with respect to the Common Shares (including amounts withheld to pay Canadian withholding taxes) will be included in such U.S. Holder's gross income as dividend income to the extent that the distribution is paid out of the Corporation's current or accumulated earnings and profits (as determined under U.S. federal income tax principles). The dividends will not be eligible for the dividends-received deduction allowed to corporations. With respect to non-corporate U.S. Holders, including individual U.S. Holders, dividends may constitute qualified dividend income and, thus, may be taxed at the lower applicable capital gains rate, provided that (1) the Corporation is eligible for the benefits of the United States-Canada income tax treaty or the Common Shares, with respect to which dividends are paid, are readily tradable on an established securities market in the United States; (2) the Corporation is not a passive foreign investment company (as discussed below) for either the taxable year of the Corporation in which the dividend

is paid or the preceding taxable year; and (3) certain holding period requirements are met. The Corporation expects to be eligible for the benefits of the United States-Canada income tax treaty. Further, U.S. Treasury guidance indicates that the Common Shares currently are readily tradable on an established securities market in the United States; however, there can be no assurance that the Common Shares will be considered readily tradable on an established securities market in the United States in future years. However, if the Corporation is a passive foreign investment company (**PFIC**) in the taxable year in which the dividend is paid or the preceding taxable year, dividends paid to non-corporate U.S. Holders generally will not be eligible for the preferential tax rates applicable to qualified dividend income. Dividends received on the Common Shares will be treated as income from sources outside the United States and generally will constitute passive category income for U.S. foreign tax credit limitation

S-14

Table of Contents

purposes. The rules governing the foreign tax credit are complex and involve the application of rules that depend upon a U.S. Holder's particular circumstances. Accordingly, U.S. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

To the extent that the amount of a distribution exceeds the Corporation's current and accumulated earnings and profits, it will be treated first as a tax-free return of a U.S. Holder's tax basis in its Common Shares, and to the extent the amount of the distribution exceeds its tax basis, the excess will be taxed as capital gain. The Corporation does not currently intend to calculate its earnings and profits under U.S. federal income tax principles. Therefore, U.S. Holders should expect that a distribution will be treated as a dividend.

Taxation of Disposition of the Common Shares

Subject to the PFIC rules discussed below, a U.S. Holder will recognize taxable gain or loss on any sale, exchange or other taxable disposition of a Common Share equal to the difference between the amount realized for the Common Share and its adjusted tax basis in the Common Share. The gain or loss will be capital gain or loss. Non-corporate U.S. Holders, including individual U.S. Holders, that have held the Common Share for more than one year, are currently eligible for reduced tax rates. The deductibility of capital losses is subject to limitations. Any such gain or loss that a U.S. Holder recognizes will be treated as U.S. source gain or loss for foreign tax credit limitation purposes.

Passive Foreign Investment Company

The Corporation does not believe it was a PFIC, for U.S. federal income tax purposes, for its taxable year ended December 31, 2015, and it does not expect to be a PFIC for its current taxable year ending December 31, 2016. This expectation for the current taxable year is based on, among other things, the Corporation's estimates of the current and anticipated value of its assets as determined, in part, on the expected price of the Common Shares following the Offering. The Corporation's actual PFIC status for any taxable year will not be determinable until the close of the taxable year, and, accordingly, there is no guarantee that it will not be a PFIC for the current taxable year or any future taxable year. A non-U.S. corporation is considered to be a PFIC for any taxable year if either:

at least 75% of its gross income is passive income (e.g., dividends, interest and gains from the sale or exchange of investment property and certain rents and royalties); or

at least 50% of the value of its assets (based on an average of the quarterly values of the assets during a taxable year) is attributable to assets that produce or are held for the production of passive income.

For the purposes of the PFIC tests described above, the Corporation will be treated as owning its proportionate share of the assets and earning its proportionate share of the income of any other corporation in which it owns, directly or indirectly, more than 25% (by value) of the stock.

The determination as to whether a company is a PFIC is made each year and this determination is highly fact intensive. As a result, the Corporation's PFIC status may change. In particular, PFIC status will be determined, in part, on the market price of the Common Shares, which is likely to fluctuate after the Offering. If the Corporation is a PFIC for any taxable year during which a U.S. Holder holds the Common Shares, the Corporation will continue to be treated as a PFIC with respect to such U.S. Holder for all succeeding years during which it holds the Common Shares. In addition, for the purposes of the PFIC rules, a U.S. Holder will be deemed to own its proportionate shares of any of the Corporation's subsidiaries that are treated as PFICs.

If the Corporation is a PFIC for any taxable year during which a U.S. Holder holds the Common Shares, such U.S. Holder will be subject to adverse tax rules with respect to any excess distribution received and any gain realized from a sale, exchange or other disposition (including certain pledges) of the Common Shares, unless the U.S. Holder makes a mark-to-market election as discussed below. Distributions received in a taxable year that are greater than 125% of the average annual distributions received by a U.S. Holder during the

S-15

Table of Contents

shorter of the three preceding taxable years or such U.S. Holder's holding period for the Common Shares will be treated as an excess distribution. Under these special tax rules:

the excess distribution or gain will be allocated ratably over a U.S. Holder's holding period in the Common Shares;

the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which the Corporation became a PFIC, will be treated as ordinary income; and

the amount allocated to each of the other taxable years will be subject to the highest tax rate on ordinary income in effect for such U.S. Holder for that year, and an interest charge applicable to underpayments of tax would be imposed on the resulting tax liability as if that tax liability had been due for each such year.

The tax liability for amounts allocated to years prior to the year of disposition or excess distribution cannot be offset by any net operating losses for such years, and gains (but not losses) realized on the sale of the Common Shares cannot be treated as capital gains, even if a U.S. Holder holds the Common Shares as capital assets.

Alternatively, a U.S. Holder of marketable stock (as defined below) in a PFIC may make a mark-to-market election for such stock in a PFIC to elect out of the tax treatment discussed in the two preceding paragraphs. If a U.S. Holder makes a mark-to-market election for its Common Shares, it will include in income each year an amount equal to the excess, if any, of the fair market value of its Common Shares as of the close of its taxable year over its adjusted basis in such Common Shares. Such U.S. Holder would be allowed a deduction for the excess, if any, of the adjusted basis of the Common Shares over their fair market value as of the close of the taxable year. However, deductions are allowable only to the extent of any net mark-to-market gains on the Common Shares included in such U.S. Holder's income for prior taxable years. Amounts included in income under a mark-to-market election, as well as gain on the actual sale or other disposition of the Common Shares, are treated as ordinary income. Ordinary loss treatment also applies to the deductible portion of any mark-to-market loss on the Common Shares, as well as to any loss realized on the actual sale or disposition of the Common Shares, to the extent that the amount of such loss does not exceed the net mark-to-market gains previously included for such Common Shares. An electing U.S. Holder's basis in the Common Shares will be adjusted to reflect any such income or loss amounts. The mark-to-market election will be effective for the taxable year for which the election is made and all subsequent taxable years, unless the Common Shares cease to be marketable stock or the IRS consents to the revocation of the election.

The mark-to-market election is available only for marketable stock, which is stock that is traded in other than de minimis quantities on at least 15 days during each calendar quarter (i.e., regularly traded) on a qualified exchange, including the NYSE, or other market, as defined in applicable U.S. Treasury regulations. The Corporation expects that the Common Shares will continue to be listed on the NYSE and, consequently, the mark-to-market election would be available to U.S. Holders if the Corporation were to be or become a PFIC and if the Common Shares were regularly traded. However, were the Corporation to be or become a PFIC, a mark-to-market election may not be available with respect to any subsidiary PFICs that a U.S. Holder would be deemed to own. Accordingly, the excess distribution rules, discussed above, may apply with respect to any subsidiary PFICs that a U.S. Holder would be deemed to own.

Alternatively, a U.S. Holder of stock in a PFIC may make a qualified electing fund election with respect to such PFIC to elect out of the tax treatment discussed above. A U.S. Holder that makes a valid qualified electing fund election with respect to a PFIC will include in gross income for a taxable year such U.S. Holder's pro rata share of the PFIC's

earnings and profits for the taxable year. However, the qualified electing fund election is available only if the PFIC provides such U.S. Holder with certain information regarding its earnings and profits as required under applicable U.S. Treasury regulations. The Corporation does not currently intend to prepare or provide the information that would enable a U.S. Holder to make a qualified electing fund election.

If a U.S. Holder holds the Common Shares in any year in which the Corporation is a PFIC, such U.S. Holder will be required to file IRS Form 8621, or any other form specified by the U.S. Treasury Department, for each such year. U.S. Holders are urged to consult their own tax advisors regarding the application of the PFIC rules to an investment in the Common Shares.

Additional Tax on Investment Income

A non-corporate U.S. Holder whose income exceeds certain thresholds may be subject to a 3.8% tax on the lesser of (A) the U.S. Holder's net investment income for the relevant taxable year, and (B) the excess of the U.S. Holder's modified adjusted gross income for the taxable year over a certain threshold. Net investment income includes, among other things, dividends and net gain from disposition of property (other than property held in a trade or business). U.S. Holders are urged to consult their own tax advisor regarding the additional tax on investment income.

Information Reporting and Backup Withholding

Dividend payments with respect to the Common Shares and proceeds from the sale, exchange or redemption of the Common Shares will be subject to information reporting to the IRS and may be subject to possible U.S. backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes any other required certification or who is otherwise exempt from backup withholding. U.S. Holders who are required to establish their exempt status must provide such certification on IRS Form W-9. U.S. Holders are urged to consult their tax advisor regarding the application of the information reporting and backup withholding rules.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's U.S. federal income tax liability, and such U.S. Holder may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS and timely furnishing any required information.

U.S. return disclosure obligations (and related penalties for failure to disclose) apply to certain U.S. individuals who hold specified foreign financial assets if the total value of all such assets is more than US\$50,000 on the last day of the tax year or more than US\$75,000 at any time during the tax year. The definition of specified foreign financial assets may include the Common Shares. U.S. Holders are urged to consult their own tax advisor regarding the application of these disclosure obligations.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Blake, Cassels & Graydon LLP, counsel to the Corporation, and Norton Rose Fulbright Canada LLP, counsel to the Underwriters, the following is a summary of the principal Canadian federal income tax considerations under the Tax Act generally applicable to a holder who acquires as beneficial owner Offered Shares under the Offering and who, for purposes of the Tax Act and at all relevant times, deals at arm's length with, and is not affiliated with, the Corporation and the Underwriters and acquires and holds the Offered Shares as capital property (a **Holder**). Generally, the Offered Shares will be considered to be capital property to a Holder provided that the Holder does not use or hold the Offered Shares in the course of carrying on a business of buying and selling securities and such Holder has not acquired them in one or more transactions considered to be an adventure or concern in the nature of trade.

This summary does not apply to a Holder (i) that is a financial institution for purposes of the mark-to-market rules contained in the Tax Act; (ii) that is a specified financial institution as defined in the Tax Act; (iii) an interest in which is a tax shelter investment as defined in the Tax Act; (iv) that reports its Canadian tax results (as defined in the Tax

Act) in a currency other than Canadian currency; or (v) that has entered or will enter into, with respect to the Offered Shares, a derivative forward agreement, as defined in the Tax Act. Such Holders should consult their own tax advisors with respect to an investment in Offered Shares.

S-17

Table of Contents

This summary is based on the facts set out in this Prospectus Supplement and the Prospectus, the provisions of the Tax Act, the Regulations and the Canada-U.S. Tax Convention in force as of the date prior to the date hereof, and counsel's understanding of the current administrative policies and assessing practices of the Canada Revenue Agency (the **CRA**) published in writing by the CRA and publicly available prior to the date hereof. This summary takes into account all specific proposals to amend the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the **Tax Proposals**) and assumes that the Tax Proposals will be enacted in the form proposed, although no assurance can be given that the Tax Proposals will be enacted in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law or in the administrative policies or assessing practices of the CRA, whether by way of judicial, legislative or governmental decision or action. This summary is not exhaustive of all possible Canadian federal income tax considerations, and does not take into account other federal or any provincial, territorial or foreign income tax legislation or considerations, which may differ materially from those described in this summary.

This summary is of a general nature only and is not, and is not intended to be, and should not be construed to be, legal or tax advice to any particular Holder, and no representations concerning the tax consequences to any particular Holder are made. The tax consequences of acquiring, holding and disposing of Offered Shares will vary according to the Holder's particular circumstances. **Holders should consult their own tax advisors regarding the tax considerations applicable to them having regard to their particular circumstances.**

For purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Offered Shares (including dividends, adjusted cost base and proceeds of disposition) must be expressed in Canadian dollars. Any amount denominated in United States dollars or other foreign currency must generally be converted into Canadian dollars using the rate of exchange quoted by the Bank of Canada (or such other rate accepted by the Canada Revenue Agency) on the date on which the amount first arose.

Taxation of Resident Holders

The following portion of the summary applies to a Holder who, for purposes of the Tax Act and any applicable income tax treaty or convention, is or is deemed to be resident in Canada at all relevant times (a **Resident Holder**). A Resident Holder to whom Offered Shares might not constitute capital property may make, in certain circumstances, an irrevocable election permitted by subsection 39(4) of the Tax Act to have the Offered Shares, and all other Canadian securities as defined in the Tax Act, held by such Resident Holder in the taxation year of the election and in all subsequent taxation years, treated as capital property. Resident Holders should consult their own tax advisors regarding this election.

Dividends on Offered Shares

Dividends received or deemed to be received on the Offered Shares by a Resident Holder who is an individual (other than certain trusts) will be included in the individual's income and will be subject to the gross-up and dividend tax credit rules applicable to taxable dividends received by individuals from taxable Canadian corporations, as defined in the Tax Act, including the enhanced gross-up and dividend tax credit rules applicable to any dividends designated by the Corporation as eligible dividends in accordance with the Tax Act. The Corporation has, by notice on its website, indicated that all dividends paid on its Common Shares will be designated as eligible dividends until notification of change is posted on its website. There may be limits on the ability of the Corporation to designate dividends as eligible dividends. Dividends received by individuals (other than certain trusts) may give rise to alternative minimum tax under the Tax Act, depending on the individual's circumstances.

Dividends received or deemed to be received on the Offered Shares by a Resident Holder that is a corporation will be included in computing the corporation's income and will generally be deductible in

S-18

Table of Contents

computing its taxable income. In certain circumstances, subsection 55(2) of the Tax Act will treat a taxable dividend received by a Resident Holder that is a corporation as a gain from the disposition of capital property or proceeds of disposition. Resident Holders that are corporations should consult their own tax advisors having regard to their own circumstances. A Resident Holder that is a private corporation or a subject corporation, each as defined in the Tax Act, may be liable to pay a 38 1/3% refundable tax under Part IV of the Tax Act on dividends received (or deemed to be received) on the Offered Shares to the extent that such dividends are deductible in computing the Resident Holder's taxable income. A Resident Holder that is, throughout the relevant taxation year, a Canadian-controlled private corporation (as defined in the Tax Act) may be liable to pay an additional refundable tax on its aggregate investment income (as defined in the Tax Act), including any dividends or deemed dividends that are not deductible in computing the Resident Holder's taxable income.

Disposition of Offered Shares

Generally, upon a disposition (or a deemed disposition) of an Offered Share (other than in a disposition to the Corporation that is not a sale in the open market in the manner in which shares would normally be purchased by any member of the public in an open market), a Resident Holder will realize a capital gain (or a capital loss) equal to the amount by which the Resident Holder's proceeds of disposition are greater (or less) than the Resident Holder's adjusted cost base of such share and any reasonable costs of the disposition. The adjusted cost base to the Resident Holder of an Offered Share acquired pursuant to this Offering will, at any particular time, be determined by averaging the cost of such share with the adjusted cost base of all Common Shares of the Corporation owned by the Resident Holder as capital property at that time, if any. The tax treatment of capital gains and capital losses is discussed below under *Taxation of Capital Gains and Capital Losses*.

Taxation of Capital Gains and Capital Losses

Generally, one-half of any capital gain (a **taxable capital gain**), realized by a Resident Holder in a taxation year must be included in the Resident Holder's income for that year and one-half of any capital loss (an **allowable capital loss**) realized by a Resident Holder in a taxation year must be deducted against taxable capital gains realized by the Resident Holder in the year. Allowable capital losses in excess of taxable capital gains realized in a particular taxation year generally may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains realized by the Resident Holder in such years, to the extent and in the circumstances described in the Tax Act.

The amount of any capital loss realized by a Resident Holder that is a corporation on the disposition (or deemed disposition) of an Offered Share may be reduced by the amount of any dividends received (or deemed to be received) by the Resident Holder on such share (or a share substituted for such share) to the extent and under the circumstances described in the Tax Act. Similar rules may apply where an Offered Share is owned by a partnership or trust of which a corporation, trust or partnership is a member or beneficiary.

A Resident Holder that is throughout the relevant taxation year a Canadian-controlled private corporation, as defined in the Tax Act, may be liable for a refundable tax on its aggregate investment income, which is defined to include an amount in respect of taxable capital gains.

Capital gains realized by an individual (other than certain trusts) may give rise to alternative minimum tax.

Taxation of Non-Resident Holders

This portion of the summary is applicable to a Holder who, at all relevant times, is neither resident in Canada nor deemed to be resident in Canada for purposes of the Tax Act and any applicable income tax treaty or convention, and who does not use or hold, (and is not deemed to use or hold) the Offered Shares in connection with carrying on a business in Canada (a **Non-Resident Holder**).

S-19

Table of Contents

This part of the summary is not applicable to a Non-Resident Holder that is an insurer that carries on an insurance business in Canada.

Dividends

Dividends paid or credited (or deemed to be paid or credited) to a Non-Resident Holder by the Corporation will be subject to Canadian withholding tax at the rate of 25%, subject to a reduction of such rate under the terms of an applicable income tax treaty or convention. In general, in the case of a Non-Resident Holder who is a resident of the United States for purposes of the Canada-U.S. Tax Convention, who is the beneficial owner of the dividend and who is eligible to claim the benefits of the Canada-U.S. Tax Convention under the limitation on benefits provisions therein, the rate of such withholding tax will be reduced to 15%. Non-Resident Holders are urged to consult their own advisors to determine their entitlement to relief under an applicable income tax treaty or convention.

Disposition of Offered Shares

A Non-Resident Holder generally will not be subject to tax under the Tax Act in respect of a capital gain realized on the disposition or deemed disposition of an Offered Share unless the Offered Share constitutes (or is deemed to constitute) taxable Canadian property of such Non-Resident Holder for purposes of the Tax Act, and the gain is not exempt from tax pursuant to the terms of an applicable income tax treaty or convention.

Provided the Offered Shares are listed on a designated stock exchange as defined in the Tax Act (which currently includes the TSX and NYSE) at the time of disposition, the Offered Shares generally will not constitute taxable Canadian property of a Non-Resident Holder unless, at any time during the 60 month period immediately preceding the disposition, (i) at least 25% of the issued shares of any class or series of the capital stock of the Corporation were owned by or belonged to any combination of (a) the Non-Resident Holder, (b) persons with whom the Non-Resident Holder did not deal at arm's length, and (c) partnerships in which the Non-Resident Holder or a person described in (b) holds a membership interest directly or indirectly through one or more partnerships; and (ii) more than 50% of the fair market value of such shares was derived, directly or indirectly, from any combination of real or immovable property situated in Canada, Canadian resource property (as defined in the Tax Act), timber resource property (as defined in the Tax Act), or options in respect of, interests in, or for civil law rights in such properties, whether or not such property exists. Notwithstanding the foregoing, Offered Shares may be deemed to be taxable Canadian property in certain circumstances specified in the Tax Act.

Non-Resident Holders whose Offered Shares may constitute taxable Canadian property should consult their own tax advisors with respect to the Canadian income tax consequences of the disposition of such shares and the potential requirement to file a Canadian income tax return in respect of the disposition depending on their particular circumstances.

RELATIONSHIP BETWEEN THE ISSUER AND CERTAIN UNDERWRITERS

Affiliates of each of the Underwriters (such affiliates are collectively, the **Lenders**) are lenders to the Corporation pursuant to the Credit Facilities. Consequently, under applicable Canadian securities laws, the Corporation may be considered a connected issuer to such Underwriters. As at September 16, 2016, approximately US\$495 million was drawn on the Credit Facilities. The Credit Facilities are unsecured and the Corporation is in compliance with all material terms of the agreements governing the Credit Facilities and has not been in default or otherwise in breach of such agreements since their relevant execution dates. The financial position of the Corporation has not changed substantially since the indebtedness of the Credit Facilities was incurred.

S-20

Table of Contents

Additionally, in the ordinary course of business, certain of the Underwriters and/or their affiliates have provided and may provide in the future investment banking, commercial banking and other financial services to the Corporation for which they have received or will receive compensation.

The decision to sell the Offered Shares pursuant to the Offering was made by the Corporation and the determination of the terms of the Offering, including the Offering Price of such Offered Shares, has been determined by negotiation between the Corporation and the Co-Lead Underwriters. The Lenders did not have any involvement in such decision or determination; however, the Lenders have been advised of the Offering and the terms thereof. As a consequence of the Offering, each of the Underwriters will receive their respective share of the Underwriters' Fee payable by the Corporation to the Underwriters and the Lenders will initially receive a portion of the net proceeds from us as a repayment of indebtedness owing under the Credit Facilities.

ABOUT THIS PROSPECTUS

Except as set forth under **Description of Debt Securities** , and unless the context otherwise requires, all references in this prospectus and any prospectus supplement to **Encana** , the **Corporation** , **we** , **us** and **our** mean Encana Corp and its consolidated subsidiaries and partnerships.

In this prospectus and in any prospectus supplement, unless otherwise specified or the context otherwise requires, all dollar amounts are expressed in United States dollars, references to **dollars** , **\$** or **US\$** are to United States dollars and all references to **C\$** are to Canadian dollars.

Unless otherwise indicated, all financial information included and incorporated by reference in this prospectus or included in any prospectus supplement is determined using U.S. GAAP.

This prospectus is part of a Registration Statement on Form F-3 relating to the Securities that has been filed with the SEC. Under the Registration Statement, we may, from time to time, sell any combination of the Securities described in this prospectus in one or more offerings up to an aggregate offering amount of US\$6,000,000,000. This prospectus provides you with a general description of the Securities that we may offer. Each time we sell Securities under this prospectus, we will provide a prospectus supplement that will contain specific information about the terms of that offering of Securities. The prospectus supplement may also add, update or change information contained in this prospectus. Before you invest in the Securities, you should read both this prospectus and any applicable prospectus supplement together with additional information described under the heading **Where You Can Find More Information** . This prospectus does not contain all of the information set forth in the Registration Statement we have filed with the SEC of which this prospectus forms a part, certain parts of which are omitted in accordance with the rules and regulations of the SEC. You may refer to the Registration Statement of which this prospectus forms a part and the exhibits to the Registration Statement for further information with respect to us and the Securities.

Certain disclosure of our reserves prepared in accordance with United States disclosure requirements is set forth in Appendix D to our AIF (as defined below) entitled **U.S. Protocol Disclosure of Reserves Data and Other Oil and Gas Information** .

This prospectus and the documents incorporated by reference in the prospectus contain, and a prospectus supplement may contain, disclosure respecting oil and natural gas liquids (**NGLs** and, together with oil and condensate, **liquids**) and barrels of oil equivalent or **BOE** . A conversion of natural gas volumes to BOE is on the basis of six thousand cubic feet to one barrel. BOE is based on a generic energy equivalency conversion method primarily applicable at the burner tip and does not represent economic value equivalency at the wellhead. Given that the value ratio based on the current price of oil as compared to natural gas is significantly different from the energy equivalency of 6:1, utilizing a conversion on a 6:1 basis may be misleading as an indication of value, particularly if used in isolation.

The securities regulatory authorities in Canada have adopted National Instrument 51-101 - *Standards of Disclosure for Oil and Gas Activities* (**NI 51-101**), which imposes oil and gas disclosure standards for Canadian public issuers engaged in oil and gas activities. NI 51-101 permits oil and gas issuers, in their filings with Canadian securities regulatory authorities, to disclose not only proved, probable and possible reserves but also resources, and to disclose reserves and production on a gross basis before deducting royalties. Probable reserves, possible reserves and resources are of a higher risk and are less likely to be accurately estimated or recovered than proved reserves. We are required to disclose reserves in accordance with Canadian securities law requirements and the disclosure in the documents incorporated by reference in this prospectus includes reserves designated as probable reserves and possible reserves. The SEC definitions of proved, probable and possible reserves are different than the definitions contained in NI 51-101; therefore, proved, probable and possible reserves disclosed in the documents incorporated by reference into

this prospectus in compliance with NI 51-101 may not be comparable to United States standards. The SEC requires United States oil and gas reporting companies, in their filings with the SEC, to disclose only proved reserves after the deduction of royalties and production due to others, but permits the optional disclosure of probable and possible reserves.

Moreover, as permitted by NI 51-101, we have determined and disclosed the estimated net present value of future net revenue from our reserves in our NI 51-101 compliant reserves disclosure using forecast prices and costs. The SEC requires that reserves and related future net revenue be estimated based on historical 12-month average prices, but permits

Table of Contents

the optional disclosure of revenue estimates based on different price and cost criteria, including standardized future prices or management's own forecasts.

In addition, certain documents incorporated by reference in this prospectus contain estimates of contingent resources. The SEC does not permit the disclosure of contingent resources in reports filed with it by United States oil and gas reporting companies. Contingent resources are not, and should not be confused with, reserves. Additional information regarding these estimates can be found in our Supplemental Disclosure Document concerning our estimated reserves and economic contingent resources dated February 29, 2016, which is incorporated by reference in this prospectus. The contingent resource estimates provided in the documents incorporated by reference in this prospectus are estimates only. Actual contingent resources (and any volumes that may be reclassified as reserves) and future production from such contingent resources may be greater than or less than the estimates provided herein or in the documents incorporated by reference.

For additional information regarding the presentation of our reserves and other oil and gas information, including the primary differences between Canadian and U.S. reporting requirements, see the section entitled "Narrative Description of the Business - Reserves and Other Oil and Gas Information" in our AIF, which is incorporated by reference in this prospectus.

Readers are cautioned against unduly relying on forward-looking statements which, by their nature, involve numerous assumptions, risks and uncertainties that may cause such statements not to occur, or results to differ materially from those expressed or implied. These assumptions include: the Corporation's ability to access its revolving credit facility; achieving average production as specified in the Corporation's corporate guidance; availability of attractive hedges and enforceability of risk management program; effectiveness of the Corporation's resource play hub model to drive productivity and efficiencies; results from innovations; the expectation that counterparties will fulfill their obligations under the gathering, midstream and marketing agreements; access to transportation and processing facilities where Encana operates; the ability to satisfy certain closing conditions, the successful closing of, and the value of post-closing and other adjustments associated with announced divestitures; and expectations and projections made in light of, and generally consistent with, Encana's historical experience and its perception of historical trends, including with respect to the pace of technological development, the benefits achieved and general industry expectations.

Risks and uncertainties that may affect these business outcomes include: the ability to generate sufficient cash flow to meet the Corporation's obligations; risks inherent to closing announced divestitures on a timely basis or at all and adjustments that may reduce the expected proceeds and value to Encana; commodity price volatility; ability to secure adequate product transportation and potential pipeline curtailments; variability and discretion of Encana's board of directors (the **Board of Directors**) to declare and pay dividends, if any; the timing and costs of well, facilities and pipeline construction; business interruption and casualty losses or unexpected technical difficulties; counterparty and credit risk; risk and effect of a downgrade in credit rating, including below an investment-grade credit rating, and its impact on access to capital markets and other sources of liquidity; fluctuations in currency and interest rates; assumptions inherent in the Corporation's corporate guidance; failure to achieve anticipated results from cost and efficiency initiatives; risks inherent in marketing operations; risks associated with technology; changes in or interpretation of royalty, tax, environmental, greenhouse gas, carbon, accounting and other laws or regulations; risks associated with existing and potential future lawsuits and regulatory actions made against the Corporation; impact to the Corporation as a result of disputes arising with its partners, including the suspension by its partners of certain of their obligations and the inability to dispose of assets or interests in certain arrangements; the Corporation's ability to acquire or find additional reserves; imprecision of reserves estimates and estimates of recoverable quantities of natural gas and liquids from resource plays and other sources not currently classified as proved, probable or possible reserves or economic contingent resources, including future net revenue estimates; risks associated with past and future acquisitions or divestitures of certain assets or other transactions or receipt of amounts contemplated under the transaction agreements (such transactions may include third-party capital investments, farm-outs or partnerships, which Encana may refer to from time to time as partnerships or joint ventures and the funds received in respect thereof which Encana may refer to from time to time as proceeds, deferred purchase price and/or carry capital, regardless of the legal form) as a result of various conditions not being met; and other risks described under Risk Factors in this prospectus and risks and uncertainties impacting Encana's business as described from time to time in the Corporation's annual report and management's discussion and analysis incorporated by reference in this prospectus and in the Corporation's other periodic filings with the SEC incorporated by reference in this prospectus.

Although the Corporation believes the expectations represented by such forward-looking statements are reasonable, there can be no assurance that such expectations will prove to be correct. Readers are cautioned that the assumptions, risks and uncertainties referenced above and in the documents incorporated by reference herein are not exhaustive. Forward-looking statements are made as of the date of this document (or, in the case of a document incorporated by reference, the date of such document incorporated by reference) and, except as required by law, the Corporation undertakes no obligation to update publicly or revise any forward-looking statements. DESCRIPTION OF DEBT SECURITIES

In this section only, we, us, our or Encana refer only to Encana Corporation without any of its subsidiaries or partnerships through which it operates. The following description describes certain general terms and provisions of the Debt Securities. We will provide the particular terms and provisions of a series of Debt Securities and a description of how the general terms and provisions described below may apply to that series in a supplement to this prospectus.

The Debt Securities will be issued under an indenture (the **Indenture**) dated November 14, 2011 and entered into between us and The Bank of New York Mellon, as Trustee. The Indenture is subject to and governed by the U.S. Trust Indenture Act of 1939, as amended. The following is a summary of the Indenture which describes the material terms and provisions of the Debt Securities. However, it is the Indenture, and not this summary, that governs your rights as a holder of our Debt Securities. The Indenture has been filed with securities commissions or similar authorities in Canada and the SEC and is available on SEDAR and EDGAR, respectively. See **Where You Can Find More Information**. In addition, prospective investors should rely on information in the applicable prospectus supplement, which may provide information that is different from this prospectus. The Debt Securities of any series issued under the Indenture, including any series of Debt Securities issued pursuant to an applicable prospectus supplement, are referred to in this prospectus as the **Indenture Securities**.

We may, from time to time, issue debt instruments and incur additional indebtedness other than through the issuance of Debt Securities pursuant to this prospectus.

General

The Indenture does not limit the aggregate principal amount of Debt Securities (which may include debentures, notes and other evidences of indebtedness) that we may issue under the Indenture. It provides that Debt Securities may be issued from time to time in one or more series and may be denominated and payable in U.S. dollars or any foreign currency. The Indenture also permits us to increase the principal amount of any series of the Indenture Securities previously issued and to issue that increased principal amount. The applicable prospectus supplement will set forth the following terms and information relating to the Debt Securities being offered by us:

the specific designation and the aggregate principal amount of the Debt Securities of such series;

the extent and manner, if any, to which payment on or in respect of our Debt Securities of such series will be senior or will be subordinated to the prior payment of our other liabilities and obligations;

the percentage or percentages of principal amount at which our Debt Securities of such series will be issued;

the date or dates on which the principal of (and premium, if any, on) our Debt Securities of such series will be payable and the portion (if less than the principal amount) of the Debt Securities of such series to be payable upon a declaration of acceleration of maturity and/or the method by which such date or dates shall be determined or extended;

the rate or rates (whether fixed or variable) at which our Debt Securities of such series will bear interest, if any, and the date or dates from which such interest will accrue;

the dates on which any interest will be payable and the regular record dates for the payment of interest on our Debt Securities of such series in registered form;

the place or places where the principal of (and premium, if any, and interest, if any, on) our Debt Securities will be payable, and each office or agency where our Debt Securities of such series may be presented for registration of transfer or exchange;

if other than U.S. dollars, the currency in which our Debt Securities of such series are denominated or in which currency payment of the principal of (and premium, if any, and interest, if any, on) such Debt Securities of such series will be payable;

whether our Debt Securities of such series will be issuable in the form of one or more global securities and, if so, the identity of the depository for the global securities;

any mandatory or optional redemption or sinking fund provisions;

the period or periods, if any, within which, the price or prices at which, the currency in which and the terms and conditions upon which our Debt Securities of such series may be redeemed or purchased by us;

the terms and conditions, if any, upon which you may redeem our Debt Securities of such series prior to maturity and the price or prices at which and the currency in which our Debt Securities of such series are payable;

any index used to determine the amount of payments of principal of (and premium, if any, or interest, if any, on) our Debt Securities of such series;

the terms, if any, on which our Debt Securities may be converted or exchanged for other of our Debt Securities or Debt Securities of other entities;

any other terms of our Debt Securities of such series, including covenants and events of default which apply solely to a particular series of our Debt Securities being offered which do not apply generally to other Debt Securities, or any covenants or events of default generally applicable to our Debt Securities of such series which do not apply to a particular series of our Debt Securities;

if other than The Depository Trust Company, the person designated as the depository for the Debt Securities of such series;

any applicable material Canadian and U.S. federal income tax consequences;

whether and under what circumstances we will pay Additional Amounts (defined below under Payment of Additional Amounts) on the Debt Securities of such series in respect of certain taxes (and the terms of any such payment) and, if so, whether we will have the option to redeem the Debt Securities of such series rather than pay the Additional Amounts (and the terms of any such option);

whether the payment of our Debt Securities will be guaranteed by any other person; and

if other than denominations of US\$2,000 and any integral multiple of US\$1,000 in excess thereof, the denominations in which any securities of the series shall be issuable.

Unless otherwise indicated in the applicable prospectus supplement, the Indenture does not afford holders of our Debt Securities the right to tender such Debt Securities to us in the event that we have a change in control.

Our Debt Securities may be issued under the Indenture bearing no interest or at a discount below their stated principal amount. The Canadian and U.S. federal income tax consequences and other special considerations applicable to any such discounted Debt Securities or other Debt Securities offered and sold at par which are treated as having been issued at a discount for Canadian and/or U.S. federal income tax purposes will be described in the prospectus supplement relating to the Debt Securities.

Ranking

Unless otherwise indicated in an applicable prospectus supplement, the Debt Securities issued under the Indenture will be unsecured and unsubordinated obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness outstanding from time to time. We conduct a substantial portion of our business through corporate and partnership subsidiaries. The Debt Securities will be structurally subordinated to all existing and future indebtedness and liabilities, including trade payables, of any of our corporate or partnership subsidiaries. See Risk Factors The Debt Securities will be effectively subordinated to certain indebtedness of our corporate and partnership subsidiaries and be subject to certain reorganization risk .

Debt Securities in Global Form

The Depositary, Book-Entry and Settlement

A series of our Debt Securities may be issued in whole or in part in global form as a global security and will be registered in the name of and be deposited with a depositary, or its nominee, each of which will be identified in the prospectus supplement relating to that series. Unless and until exchanged, in whole or in part, for our Debt Securities in definitive registered form, a global security may not be transferred except as a whole by the depositary for such global security to a nominee of the depositary, by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any such nominee to a successor of the depositary or a nominee of the successor.

The specific terms of the depositary arrangement with respect to any portion of a particular series of our Debt Securities to be represented by a global security will be described in a prospectus supplement relating to such series. We anticipate that the following provisions will apply to all depositary arrangements.

Upon the issuance of a global security, the depositary therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of our Debt Securities represented by the global security to the accounts of such persons, designated as participants, having accounts with such depositary or its nominee. Such accounts shall be designated by the underwriters, dealers or agents participating in the distribution of our Debt Securities or by us if such Debt Securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary therefor or its nominee (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants).

So long as the depositary for a global security, or its nominee, is the registered owner of the global security, such depositary or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by the global security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a global security will not be entitled to have a series of our Debt Securities represented by the global security registered in their names and will not receive or be entitled to receive physical delivery of such series of our Debt Securities in definitive form.

Payments of Principal, Premium, if any, and Interest

Any payments of principal, premium, if any, and interest on global securities registered in the name of a depositary or its nominee will be made to the depositary or its nominee, as the case may be, as the registered owner of the global security representing such Debt Securities. None of us, the Trustee or any paying agent for our Debt Securities represented by the global securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the depositary for a global security or its nominee, upon receipt of any payment of principal, premium, if any, or interest, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of such depositary or its nominee. We also expect that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with

securities held for the accounts of customers registered in street name , and will be the responsibility of such participants.

Discontinuance of Depositary s Services

If a depositary for a global security representing a particular series of our Debt Securities is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by us within 90 days, we will issue such series of our Debt Securities in definitive form in exchange for a global security representing such series of our Debt Securities. In addition, we may at any time and in our sole discretion determine not to have a series of our Debt Securities represented by a global security and, in such event, will issue a series of our Debt Securities in definitive form in exchange for the global security representing such series of Debt Securities.

Table of Contents

Debt Securities in Definitive Form

A series of our Debt Securities may be issued solely as registered securities in denominations of US\$2,000 and any integral multiple of US\$1,000 in excess thereof or in such other denominations as may be set out in a prospectus supplement relating to any particular series.

An applicable prospectus supplement will indicate the places to register a transfer of our Debt Securities in definitive form. Except for certain restrictions set forth in the Indenture, no service charge will be made for any registration of transfer or exchange of such Debt Securities, but we may, in certain instances, require a sum sufficient to cover any tax or other governmental charges payable in connection with these transactions.

We shall not be required to:

issue, register the transfer of or exchange any series of our Debt Securities during a period beginning at the opening of business 15 days before the day of selection for redemption of Debt Securities of that series and ending at the close of business on the day of mailing of the relevant notice of redemption; or

register the transfer of or exchange any security, or portion thereof, called for redemption, except the unredeemed portion of any security being redeemed in part.

Unless otherwise indicated in the applicable prospectus supplement, payment of any interest will be made to the persons in whose name our Debt Securities are registered at the close of business on the day or days specified by us.

Covenants

Limitation on Liens

The Indenture provides that so long as any Indenture Securities are outstanding and subject to the provisions of the Indenture, we will not, and will not permit any of our Restricted Subsidiaries to, create, incur, assume or otherwise have outstanding any Lien securing any indebtedness for borrowed money or interest thereon (or any liability of ours or such Restricted Subsidiaries under any guarantee or endorsement or other instrument under which we or such Restricted Subsidiaries are contingently liable, either directly or indirectly, for borrowed money or interest thereon), other than Permitted Liens, without also simultaneously or prior thereto securing, or causing such Restricted Subsidiaries to secure, indebtedness under the Indenture so that the Indenture Securities are secured equally and ratably with or prior to such other indebtedness, except that we and our Restricted Subsidiaries may incur a Lien to secure indebtedness for borrowed money

Table of Contents

without securing the Indenture Securities if, after giving effect thereto, the principal amount of indebtedness for borrowed money secured by Liens created, incurred or assumed after the date of the Indenture and otherwise prohibited by the Indenture does not exceed 10% of our Consolidated Net Tangible Assets.

Notwithstanding the foregoing, transactions such as the sale (including any forward sale) or other transfer of (i) oil, gas, minerals or other resources of a primary nature, whether in place or when produced, for a period of time until, or in an amount such that, the purchaser will realize therefrom a specified amount of money or a specified rate of return (however determined), or a specified amount of such oil, gas, minerals, or other resources of a primary nature, or (ii) any other interest in property of the character commonly referred to as a production payment, will not constitute a Lien and will not result in us or a Restricted Subsidiary of ours being required to secure the Indenture Securities.

Consolidation, Amalgamation, Merger and Sale of Assets

We shall not consolidate or amalgamate with or merge into or enter into any statutory arrangement with any other corporation, partnership or trust or convey, transfer or lease all or substantially all our properties and assets to any person, unless:

the entity formed by or continuing from such consolidation or amalgamation or into which we are merged or with which we enter into such statutory arrangement or the person which acquires or leases all or substantially all of our properties and assets is a corporation, partnership or trust organized and validly existing under the laws of the United States, any state thereof or the District of Columbia or the laws of Canada or any province or territory thereof, or, if such consolidation, amalgamation, merger, statutory arrangement or other transaction would not impair the rights of the holders of the Indenture Securities, in any other country, *provided* that if such successor entity is organized under the laws of a jurisdiction other than the United States, any state thereof or the District of Columbia, or the laws of Canada or any province or territory thereof, the successor entity assumes our obligations under the Indenture Securities and the Indenture to pay Additional Amounts, with the name of such successor jurisdiction being included in addition to Canada in each place that Canada appears in Payment of Additional Amounts and Tax Redemption below;

the successor entity expressly assumes or assumes by operation of law all of our obligations under the Indenture Securities and under the Indenture;

immediately before and after giving effect to such transaction, no event of default, and no event which, after notice or lapse of time or both, would become an event of default, shall have happened and be continuing; and

certain other conditions are met.

In addition, notwithstanding anything in the Indenture, we may consolidate or amalgamate with or merge into or enter into a statutory arrangement with any direct or indirect wholly-owned Subsidiary and may convey, transfer or lease all or substantially all of our properties and assets to any direct or indirect wholly-owned Subsidiary without complying with the above provisions in a transaction or series of transactions in which we retain all of our obligations under and in respect of all outstanding Indenture Securities (hereinafter a **Permitted Reorganization**) provided that on or prior

to the date of the Permitted Reorganization we deliver to the Trustee an officer's certificate confirming that, as of the date of the Permitted Reorganization:

substantially all of our unsubordinated and unsecured indebtedness for borrowed money which ranked pari passu with the then outstanding Indenture Securities immediately prior to the Permitted Reorganization will rank no better than pari passu with the then outstanding Indenture Securities after the Permitted Reorganization; for certainty, there is no requirement for any such other indebtedness to obtain or maintain similar ranking to the then outstanding Indenture Securities and such other indebtedness may be structurally subordinated or otherwise subordinated to the then outstanding Indenture Securities; or

Table of Contents

at least two of our then current rating agencies (or if only one rating agency maintains ratings in respect of the Indenture Securities at such time, that one rating agency) have affirmed that the rating assigned by them to the Indenture Securities shall not be downgraded as a result of the Permitted Reorganization.

If, as a result of any such transactions referred to above, any of our or our Restricted Subsidiaries' Restricted Properties become subject to a Lien, then, unless such Lien could be created pursuant to the Indenture provisions described under the *Limitation on Liens* covenant above without equally and ratably securing the Indenture Securities, we, simultaneously with or prior to such transaction, will secure, or cause the applicable Restricted Subsidiary to secure, the Indenture Securities to be secured equally and ratably with or prior to the indebtedness secured by such Lien.

Payment of Additional Amounts

Unless otherwise specified in the applicable prospectus supplement, all payments made by or on behalf of us under or with respect to any series of the Indenture Securities will be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto) imposed or levied by or on behalf of the Government of Canada or any province or territory thereof or by any authority or agency therein or thereof having power to tax (hereinafter **Canadian Taxes**), unless we are required to withhold or deduct Canadian Taxes by law or by the interpretation or administration thereof. If we are so required to withhold or deduct any amount for or on account of Canadian Taxes from any payment made under or with respect to the Indenture Securities, we will pay to each holder of such Indenture Securities as additional interest such additional amounts (**Additional Amounts**) as may be necessary so that the net amount received by each such holder (including the Additional Amounts) after such withholding or deduction (and after deducting any Canadian Taxes on such Additional Amounts) will not be less than the amount such holder would have received if such Canadian Taxes had not been withheld or deducted. However, no Additional Amounts will be payable with respect to a payment made to an Indenture Securities holder (such holder, an **Excluded Holder**) in respect of the beneficial owner thereof:

with which we do not deal at arm's length (for the purposes of the *Income Tax Act* (Canada)) at the time the amount is paid or payable;

which is subject to such Canadian Taxes by reason of the Indenture Securities holder being a resident, domicile or national of, or engaged in business or maintaining a permanent establishment or other physical presence in or otherwise having some connection with Canada or any province or territory thereof otherwise than by the mere holding of the Indenture Securities or the receipt of payments thereunder; or

which is subject to such Canadian Taxes by reason of the Indenture Securities holder's failure to comply with any certification, identification, information, documentation or other reporting requirements if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Canadian Taxes.

In addition, Additional Amounts will not be payable if the beneficial owner of, or person ultimately entitled to obtain an interest in, such Indenture Securities is not the sole beneficial owner of such payments, or is a fiduciary or partnership, to the extent that any beneficial owner, beneficiary or settlor with respect to such fiduciary or any partner

or member of such partnership would not have been entitled to such Additional Amounts with respect to such payments had such beneficial owner, beneficiary, settlor, partner or member received directly its beneficial or distributive shares of such payments. In addition, Additional Amounts will not be payable with respect to any Canadian Taxes which are payable otherwise than by withholding from payments of, or in respect of, principal of, or interest on, the Indenture Securities.

We will also:

make such withholding or deduction; and

remit the full amount deducted or withheld to the relevant authority in accordance with applicable law.

We will furnish to the holders of the Indenture Securities, within 60 days after the date the payment of any Canadian Taxes is due pursuant to applicable law, certified copies of tax receipts or other documents evidencing such payment by us.

Table of Contents

We will indemnify and hold harmless each holder of Indenture Securities (other than an Excluded Holder) and upon written request reimburse each such holder for the amount (excluding any Additional Amounts that have previously been paid by us with respect thereto) of:

the payment of any Canadian Tax, together with any interest, penalties and reasonable expenses in connection therewith; and

any Canadian Taxes imposed with respect to any reimbursement under the preceding clause, but excluding any such Canadian Taxes on such holder's net income.

In any event, no Additional Amounts or indemnity amounts will be payable in excess of Additional Amounts or the indemnity amounts which would be required if the holder and beneficial owner of Indenture Securities was a resident of the United States for purposes of the Canada-U.S. Income Tax Convention (1980), as amended.

Wherever in the Indenture there is mentioned, in any context, the payment of principal (and premium, if any), interest, if any, or any other amount payable under or with respect to an Indenture Security, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Tax Redemption

Unless otherwise specified in the applicable prospectus supplement, a series of the Indenture Securities will be subject to redemption at any time, in whole and not in part, at a redemption price equal to the principal amount thereof together with accrued and unpaid interest to the date fixed for redemption, upon the giving of a notice as described below, if:

as a result of any change in or amendment to the laws (or any regulations or rulings promulgated thereunder) of Canada or of any political subdivision or taxing authority thereof or therein affecting taxation, or any change in official position regarding the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which change or amendment is announced or becomes effective on or after the later of (i) the date specified in the applicable prospectus supplement or (ii) if applicable, the date a person organized in a jurisdiction other than Canada or the United States becomes our successor pursuant to the consolidation covenant of the Indenture described above under Covenants Consolidation, Amalgamation, Merger and Sale of Assets, we or our successor reasonably determines that we or our successor have or will become obligated to pay, on the next succeeding date on which interest is due, Additional Amounts with respect to any Indenture Security of such series as described under Payment of Additional Amounts; or

on or after the later of (i) the date specified in the applicable prospectus supplement or (ii) if applicable, the date a person organized in a jurisdiction other than Canada or the United States becomes our successor pursuant to the consolidation covenant of the Indenture, any action has been taken by any taxing authority of, or any decision has been rendered by a court of competent

jurisdiction in Canada, or any political subdivision or taxing authority thereof or therein, including any of those actions specified in the paragraph immediately above, whether or not such action was taken or decision was rendered with respect to us, or our successor, or any change, amendment, application or interpretation shall be officially proposed, which, in any such case, in the written opinion to us of legal counsel of recognized standing, will likely result in us or our successor becoming obligated to pay, on the next succeeding date on which interest is due, Additional Amounts with respect to any Indenture Security of such series;

and, in any such case, we, or our successor, in our business judgment, determine that such obligation cannot be avoided by the use of reasonable measures available to us or our successor.

In the event that we elect to redeem a series of the Indenture Securities pursuant to the provisions set forth in the preceding paragraph, we shall deliver to the Trustee a certificate, signed by an authorized officer, stating that we are entitled to redeem such series of the Indenture Securities pursuant to their terms.

Table of Contents

Notice of intention to redeem such series of the Indenture Securities will be given not more than 60 nor less than 30 days prior to the date fixed for redemption and will specify the date fixed for redemption.

Provision of Financial Information

We will furnish to the Trustee, within 30 days after we file them with or furnish them to the SEC, copies, which may be in electronic format, of our annual and quarterly reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may by rules and regulations prescribe) which we are required to file with or furnish to the SEC pursuant to Section 13 or 15(d) of the Exchange Act.

Notwithstanding that we may not be required to remain subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, we will continue to provide the Trustee:

within 140 days after the end of each fiscal year, the information required to be contained in annual reports on Form 20-F, Form 40-F or Form 10-K as applicable (or any successor form); and

within 65 days after the end of each of the first three fiscal quarters of each fiscal year, the information required to be contained in reports on Form 6-K (or any successor form) which, regardless of applicable requirements shall, at a minimum, contain such information required to be provided in quarterly reports under the laws of Canada or any province thereof to security holders of a corporation with securities listed on the Toronto Stock Exchange, whether or not we have any of our securities listed on such exchange. Such information will be prepared in accordance with Canadian disclosure requirements and GAAP, to the extent permitted by the rules and regulations of the SEC, provided, however, that we shall not be obligated to file such report with the SEC if the SEC does not permit such filings.

Events of Default

The following are summaries of events of default under the Indenture with respect to any series of the Indenture Securities:

default in the payment of any interest on any Indenture Security of that series when such interest becomes due and payable, and continuance of such default for a period of 30 days;

default in the payment of the principal of (or premium, if any, on), any Indenture Security of that series when it becomes due and payable;

default in the performance, or breach, of any of our covenants or warranties in the Indenture in respect of the Indenture Securities of that series (other than a covenant or warranty a default in the performance of which or the breach of which is specifically dealt with elsewhere in the Indenture), and continuance of such default or breach for a period of 60 days after receipt by us of written notice

to us, specifying such default or breach, by the Trustee or by the holders of at least 25% in principal amount of all outstanding Indenture Securities of any series affected thereby;

if an event of default (as defined in any indenture or instrument under which we or one of our Restricted Subsidiaries has at the time of the Indenture or shall thereafter have outstanding any indebtedness for borrowed money) shall happen and be continuing, or we or any of our Restricted Subsidiaries shall have failed to pay principal amounts with respect to such indebtedness at maturity and such event of default or failure to pay shall result in such indebtedness being declared due and payable or otherwise being accelerated, in either event so that an amount in excess of the greater of US\$200,000,000 and 2% of our Shareholders' Equity shall be or become due and payable upon such declaration or otherwise accelerated prior to the date on which the same would otherwise have become due and payable (the **accelerated indebtedness**), and such acceleration shall not be rescinded or annulled, or such event of default or failure to pay under such indenture or instrument shall not be remedied or cured, whether by payment or

otherwise, or waived by the holders of such accelerated indebtedness, then (i) if the accelerated indebtedness shall be as a result of an event of default which is not related to the failure to pay principal or interest on the terms, at the times, and on the conditions set out in any such indenture or instrument, it shall not be considered an event of default for purposes of the Indenture until 30 days after such indebtedness has been accelerated, or (ii) if the accelerated indebtedness shall occur as a result of such failure to pay principal or interest or as a result of an event of default which is related to the failure to pay principal or interest on the terms, at the times, and on the conditions set out in any such indenture or instrument, then (A) if such accelerated indebtedness is, by its terms, Non-Recourse Debt to us or our Restricted Subsidiaries, it shall not be considered an event of default for purposes of the Indenture; or (B) if such accelerated indebtedness is recourse to us or our Restricted Subsidiaries, any requirement in connection with such failure to pay or event of default for the giving of notice or the lapse of time or the happening of any further condition, event or act under such other indenture or instrument in connection with such failure to pay principal or an event of default shall be applicable together with an additional seven days before being considered an event of default for purposes of the Indenture;

the entry of a decree or order by a court having jurisdiction in the premises adjudging us a bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of us under the *Bankruptcy and Insolvency Act* (Canada) (the **Bankruptcy Act**), the *Companies Creditors Arrangement Act* (Canada) (the **CCAA**) or any other applicable insolvency law, or appointing a receiver, liquidator, assignee, trustee, sequestrator (or other similar official) of us or of any substantial part of our property, or ordering the winding up or liquidation of our affairs, and the continuance of any such decree or order unstayed and in effect for a period of 90 consecutive days;

the institution by us of proceedings to be adjudicated a bankrupt or insolvent, or the consent by us to the institution of bankruptcy or insolvency proceedings against us, or the filing by us of a petition or answer or consent seeking reorganization or relief under the Bankruptcy Act, the CCAA or any other applicable insolvency law, or the consent by us to the filing of any such petition or to the appointment of a receiver, liquidator, assignee, trustee, sequestrator (or other similar official) of us or of any substantial part of our property, or the making by us of an assignment for the benefit of creditors, or the admission by us in writing of our inability to pay our debts generally as they become due; or

any other events of default provided with respect to Indenture Securities of that series.

If an event of default under the Indenture occurs and is continuing with respect to any series of the Indenture Securities, then and in every such case the Trustee or the holders of not less than 25% in aggregate principal amount of the outstanding Indenture Securities of such affected series may, subject to any subordination provisions thereof, declare the entire principal amount (or, if the Indenture Securities of that series are original issue discount Debt Securities, such portion of the principal amount as may be specified in the terms of that series) of all Indenture Securities of such series and all accrued and unpaid interest thereon to be immediately due and payable. However, at any time after a declaration of acceleration with respect to any series of the Indenture Securities has been made, but before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of the outstanding Indenture Securities of that series, by written notice to us and the Trustee under certain circumstances, may rescind and annul such acceleration.

Reference is made to the applicable prospectus supplement or supplements relating to each series of the Indenture Securities which are original issue discount Debt Securities for the particular provisions relating to acceleration of the maturity of a portion of the principal amount of such original issue discount securities upon the occurrence of any event of default and the continuation thereof.

Subject to certain limitations set forth in the Indenture, the holders of a majority in principal amount of the outstanding Indenture Securities of all series affected by an event of default shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the Indenture Securities of all series affected by such event of default.

Table of Contents

No holder of an Indenture Security of any series will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or a Trustee, or for any other remedy thereunder, unless:

such holder has previously given to the Trustee written notice of a continuing event of default with respect to the Indenture Securities of such series affected by such event of default;

the holders of at least 25% in aggregate principal amount of the outstanding Indenture Securities of such series affected by such event of default have made written request, and such holder or holders have offered reasonable indemnity, to the Trustee to institute such proceeding as Trustee; and

the Trustee has failed to institute such proceeding, and has not received from the holders of a majority or more in aggregate principal amount of the outstanding Indenture Securities of such series affected by such event of default a direction inconsistent with such request, within 60 days after such notice, request and offer.

However, such above-mentioned limitations do not apply to a suit instituted by the holder of an Indenture Security for the enforcement of payment of the principal of or any premium or interest on such Indenture Security on or after the applicable due date specified in such Indenture Security.

We will annually furnish to the Trustee a statement by certain of our officers as to whether or not we, to the best of their knowledge, are in compliance with all conditions and covenants of the Indenture and, if not, specifying all such known defaults.

Defeasance and Covenant Defeasance

Unless otherwise specified in the applicable prospectus supplement, the Indenture provides that, at our option, we will be discharged from any and all obligations in respect of the outstanding Indenture Securities of any series upon irrevocable deposit with the Trustee, in trust, of money and/or government securities which will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent chartered accountants (as evidenced by an officer's certificate delivered to the Trustee) to pay the principal of (and premium, if any, and each instalment of interest, if any, on) the outstanding Indenture Securities of such series (hereinafter referred to as a **defeasance**) (except with respect to the authentication, transfer, exchange or replacement of the Indenture Securities or the maintenance of a place of payment and certain other obligations set forth in the Indenture). Such trust may only be established if among other things:

we have delivered to the Trustee an opinion of counsel in the United States stating that (i) we have received from, or there has been published by, the Internal Revenue Service a ruling, or (ii) since the date of execution of the Indenture, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that the holders of the outstanding Indenture Securities of such series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred;

we have delivered to the Trustee an opinion of counsel in Canada or a ruling from the Canada Revenue Agency (the **CRA**) (or successor agency) to the effect that the holders of the outstanding Indenture Securities of such series should not recognize income, gain or loss for Canadian federal or provincial income tax purposes as a result of such defeasance and should be subject to Canadian federal or provincial income tax on the same amounts, in the same manner and at the same times as would have been the case had such defeasance not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that holders of the outstanding Indenture Securities of such series include holders who are not resident in Canada);

no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred and be continuing on the date of such deposit; and

we are not an insolvent person within the meaning of the Bankruptcy Act on the date of such deposit or at any time during the period ending on the 91st day following such deposit.

Table of Contents

We may exercise our defeasance option notwithstanding our prior exercise of our covenant defeasance option described in the following paragraph if we meet the conditions described in the preceding sentence at the time we exercise the defeasance option.

The Indenture provides that, at our option, unless and until we have exercised our defeasance option described in the preceding paragraph, we may omit to comply with the *Limitation on Liens* covenant, certain aspects of the *Consolidation, Amalgamation, Merger and Sale of Assets* covenant and certain other covenants and such omission shall not be deemed to be an event of default under the Indenture and the outstanding Indenture Securities upon irrevocable deposit with the Trustee, in trust, of money and/or government securities which will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent chartered accountants (as evidenced by an officer's certificate delivered to the Trustee) to pay the principal of (and premium, if any, and each installment of interest, if any, on) the outstanding Indenture Securities (hereinafter referred to as **covenant defeasance**). If we exercise our covenant defeasance option, the obligations under the Indenture other than with respect to such covenants and the events of default other than with respect to such covenants shall remain in full force and effect. Such trust may only be established if, among other things:

we have delivered to the Trustee an opinion of counsel in the United States to the effect that the holders of the outstanding Indenture Securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred;

we have delivered to the Trustee an opinion of counsel in Canada or a ruling from the CRA to the effect that the holders of the outstanding Indenture Securities should not recognize income, gain or loss for Canadian federal or provincial income or other tax purposes as a result of such covenant defeasance and should be subject to Canadian federal or provincial income and other tax on the same amounts, in the same manner and at the same times as would have been the case had such covenant defeasance not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that holders of the outstanding Indenture Securities include holders who are not resident in Canada);

no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred and be continuing on the date of such deposit; and

we are not an insolvent person within the meaning of the Bankruptcy Act on the date of such deposit or at any time during the period ending on the 91st day following such deposit.

Modification and Waiver

Modifications and amendments of the Indenture may be made by us and the Trustee with the consent of the holders of a majority in principal amount of the outstanding Indenture Securities of each series issued under the Indenture affected by such modification or amendment (voting as one class); *provided, however*, that no such modification or amendment may, without the consent of the holder of each outstanding Indenture Security of such affected series:

change the stated maturity of the principal of (or premium, if any), or any installment of interest, if any, on any Indenture Security;

reduce the principal amount of (or premium, if any, or interest, if any, on) any Indenture Security;

reduce the amount of principal of an Indenture Security payable upon acceleration of the maturity thereof;

change the place of payment;

change the currency of payment of principal of (or premium, if any, or interest, if any, on) any Indenture Security;

impair the right to institute suit for the enforcement of any payment on or with respect to any Indenture Security;

Table of Contents

reduce the percentage of principal amount of outstanding Indenture Securities of such series, the consent of the holders of which is required for modification or amendment of the applicable Indenture or for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults; or

modify any provisions of the Indenture relating to the modification and amendment of the Indenture or the waiver of past defaults or covenants except as otherwise specified in the Indenture.

The holders of a majority in principal amount of the outstanding Indenture Securities of any series may on behalf of the holders of all Indenture Securities of that series waive, insofar as that series is concerned, compliance by us with certain restrictive provisions of the Indenture. The holders of a majority in principal amount of outstanding Indenture Securities of any series may waive any past default under the Indenture with respect to that series, except a default in the payment of the principal of (or premium, if any, and interest, if any, on) any Indenture Security of that series or in respect of a provision which under the Indenture cannot be modified or amended without the consent of the holder of each outstanding Indenture Security of that series.

The Indenture or the Indenture Securities may be amended or supplemented, without the consent of any holder of such Indenture Securities, in order to, among other things, cure any ambiguity or inconsistency or to make any change, in any case, that does not have a materially adverse effect on the rights of any holder of such Indenture Securities.

Consent to Jurisdiction and Service

Under the Indenture, we irrevocably appoint CT Corporation System, 111 ½ Avenue, New York, New York, 10011 as our authorized agent for service of process in any suit or proceeding arising out of or relating to our Debt Securities or the Indenture and for actions brought under federal or state securities laws in any federal or state court located in New York, New York and irrevocably submit to the non-exclusive jurisdiction of any such court.

Governing Law

Our Debt Securities and the Indenture will be governed by and construed in accordance with the laws of the State of New York.

Enforceability of Judgments

Since many of our assets, as well as many of the assets of some of our officers and directors, are outside the United States, any judgment obtained in the United States against us or certain of our officers or directors, including judgments with respect to the payment of principal on any Debt Securities, may not be collectible within the United States.

DESCRIPTION OF SHARE CAPITAL

Authorized Capital

The following sets forth the terms and provisions of our existing capital. The particular terms and provisions of the common shares and/or Class A preferred shares offered by a prospectus supplement and the extent to which these general terms and provisions apply will be described in such prospectus supplement. Our authorized capital consists of an unlimited number of common shares and Class A preferred shares limited to a number equal to not more than 20 percent of the issued and outstanding number of common shares at the time of the issuance. As at August 23, 2016,

approximately 849.9 million common shares were issued and outstanding, and no Class A preferred shares were outstanding. All of our shares have no par value.

Common Shares

The following description is subject to, and qualified by reference to, the terms and provisions of Encana's articles and by-laws.

The holders of common shares are entitled to receive notice of and to attend all meetings of shareholders and are entitled to one vote per common share held at all such meetings, except at separate meetings of or on separate votes by the

Table of Contents

holders of another class or series of shares of the Corporation. Holders of common shares are also entitled to receive dividends if, as and when declared by the Board of Directors. In the event of a liquidation, dissolution or winding up of the Corporation or other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs, the holders of the common shares will, subject to the rights of the holders of any other class of shares of the Corporation entitled to receive the assets of the Corporation upon such a distribution in priority to or rateably with the holders of common shares, be entitled to participate rateably in any distribution of the assets of Encana.

The transfer agent and registrar for the common shares is CST Trust Company.

Class A Preferred Shares

Class A preferred shares may be issued in one or more series. The Board of Directors shall fix the number of shares in each series and may determine the designation, rights, privileges, restrictions and conditions attached to each series of Class A preferred shares before the issue of such series. The Class A preferred shares are entitled to priority over the common shares of the Corporation with respect to redemption, the payment of dividends, the return of capital and the distribution of assets of the Corporation in the event of the liquidation, dissolution or winding up of the Corporation's affairs. Each Class A preferred share will have certain restrictions, including that holders are not entitled to vote at any meeting of the shareholders of the Corporation, but may be entitled to vote if the Corporation fails to pay a certain number of dividends on that series of Class A preferred shares, and Class A preferred shares may, if applicable, only be convertible into another series of Class A preferred shares (and not common shares of the Corporation).

The specific terms of a series of Class A preferred shares as described in a prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. Thus, the statements made in this section may not apply to a particular series of Class A preferred shares.

Corporate Governance

Objects and Purposes of the Corporation

Encana is incorporated under the *Canada Business Corporations Act* (the **CBCA**). Encana's articles place no restrictions on the Corporation's objects and purposes.

Directors

A director who is, in any way, directly or indirectly interested in a proposed material contract or material transaction, must disclose the nature and extent of such interest to Encana in accordance with the provisions of the CBCA. Subject to certain exceptions set out in the CBCA, a director shall not vote in respect of any material contract or material transaction with Encana in which such director has an interest.

The remuneration of the directors is from time to time determined by the Board of Directors, acting upon the recommendation of the Corporation's Human Resources and Compensation Committee (the **HRC Committee**). The HRC Committee is comprised entirely of independent directors.

Pursuant to our by-laws and subject to the provisions of the CBCA, the Board of Directors may: (a) borrow money upon the credit of the Corporation, (b) issue, reissue, sell, pledge or hypothecate debt obligations of the Corporation, (c) give a guarantee on behalf of the Corporation to secure performance of an obligation of any person, or give financial assistance to any person on behalf of the Corporation by means of loan, guarantee or otherwise, and (d) mortgage, hypothecate, pledge or otherwise create a security interest in all or any property of the Corporation, owned

or subsequently acquired, to secure any obligation of the Corporation. The Board of Directors may, by resolution, delegate the powers referred to in this section to one or more director or officer of the Corporation as specified in our by-laws.

Encana's articles and by-laws contain no provisions with respect to the retirement of a director or the non-retirement of a director under an age requirement. The Board of Directors has a Director Retirement Policy which provides that, except in exceptional circumstances, directors may not stand for re-election upon reaching age 71.

Table of Contents

Redemption Provisions, Sinking Fund Provisions, Liability to Further Capital Calls and Discrimination

There are no redemption provisions or sinking fund provisions attached to any class of shares of the Corporation. There is no liability to further capital calls by the company provision attached to the shares of the Corporation. There are no provisions discriminating against any existing or prospective holder of such securities as a result of such shareholder owning a substantial number of shares, attached to any class of shares of the Corporation.

Meetings of Shareholders

Under the CBCA, an annual general meeting (**AGM**) of shareholders must be held once every fiscal year, within 15 months of the previous AGM, but no later than six months after the end of the Corporation's preceding fiscal year. We must give our shareholders written notice of the time and place of an AGM not less than 21 days and not more than 60 days before the date of the AGM. For the purpose of determining shareholders entitled to receive notice of, and to vote at, an AGM, the directors may fix in advance a date as the record date for such determination, but such record date shall not proceed by more than 60 days or by less than 21 days the date of the AGM.

Under the CBCA, our directors may, whenever they think fit, convene a meeting of shareholders, other than an AGM, at any time.

Under the CBCA, a shareholder meeting may also be called by one or more shareholders of the Corporation so long as such shareholders own not less than 5% of the issued and outstanding shares of the Corporation. After receiving such requisition, our directors must, subject to certain exceptions set out in the CBCA, call a shareholder meeting to transact the business stated in the requisition. If our directors do not call such meeting within 21 days after receiving the requisition, any shareholder who signed the requisition may call the meeting.

Pursuant to our by-laws, the only persons entitled to be present at a meeting of shareholders shall be those entitled to vote thereat, the directors, the auditor of the Corporation and others who, although not entitled to vote, are entitled or required under any provision of the CBCA, our articles or by-laws to be present. Any other person may be admitted with the consent of the meeting or of the chairman of the meeting.

Share Transfers

Our articles and by-laws do not contain any restrictions on transfers of our shares.

No Limitation on Foreign Ownership

There are no limitations on the rights of non-resident or foreign shareholders to hold or exercise voting rights associated with our common shares.

Change in Control

There are no provisions in our articles or by-laws that would have the effect of delaying, deferring or preventing a change in control of the Corporation, and that would operate only with respect to a merger, acquisition or corporate restructuring involving the Corporation.

The CBCA does not contain any provisions that would have the effect of delaying, deferring or preventing a change of control of the Corporation.

The Corporation has an amended and restated shareholder rights plan (the **Plan**) that was adopted to ensure, to the extent possible, that any take-over bid for the Corporation's securities is conducted in accordance with Canadian take-over bid rules, which allows all shareholders of the Corporation to benefit from the acquisition of a control position of 20 percent or more of the common shares and also allows the Board of Directors to have sufficient time to explore and develop all options for maximizing shareholder value in the event a person tries to acquire a control position in Encana. The Plan creates a right that attaches to each present and subsequently issued common share. Until the separation time, which typically occurs

Table of Contents

at the time of an unsolicited take-over bid, whereby a person acquires or attempts to acquire 20 percent or more of Encana's common shares, the rights are not separable from the common shares, are not exercisable and no separate rights certificates are issued. Each right entitles the holder, other than the 20 percent acquirer, from and after the separation time and before certain expiration times, to acquire one common share at 50 percent of the market price at the time of exercise. The Plan was amended, reconfirmed and approved at an annual meeting of shareholders held on May 3, 2016.

Ownership Threshold

There are no provisions in our articles, by-laws or in the CBCA governing the threshold above which shareholder ownership must be disclosed.

Changes in the Capital of the Corporation

There are no conditions imposed by our by-laws which are more stringent than those required by the CBCA.

DESCRIPTION OF SUBSCRIPTION RECEIPTS

Subscription receipts may be offered separately or together with common shares and/or other securities of Encana, including warrants. The subscription receipts will be issued under one or more subscription receipt agreements that will be entered into by Encana and an escrow agent at the time of issuance of the subscription receipts.

A subscription receipt will entitle the holder thereof to receive a common share and/or other securities of Encana, for no additional consideration, upon the completion of a particular transaction or event, typically an acquisition of the assets or securities of another entity by Encana or one or more of its subsidiaries. The subscription proceeds from an offering of subscription receipts will be held in escrow by an escrow agent pending the completion of the transaction or the termination time (the time at which the escrow terminates regardless of whether the transaction or event has occurred). Holders of subscription receipts will receive common shares and/or other securities of Encana upon the completion of the particular transaction or event or, if the transaction or event does not occur by the termination time, a return of the subscription funds for their subscription receipts together with any interest or other income earned thereon, as determined by the terms of the applicable escrow.

Holders of subscription receipts are not shareholders of Encana. The particular terms and provisions of subscription receipts offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply to them, will be described in the prospectus supplement filed in respect of such subscription receipts. This description will include, where applicable: (i) the number of subscription receipts offered; (ii) the price at which the subscription receipts will be offered; (iii) the terms, conditions and procedures pursuant to which the holders of subscription receipts will become entitled to receive common shares and/or other securities of Encana; (iv) the number of common shares and/or other securities of Encana that may be obtained upon exercise of each subscription receipt; (v) the designation and terms of any other securities with which the subscription receipts will be offered, if any, and the number of subscription receipts that will be offered with each such security; (vi) the terms relating to the holding and release of the gross proceeds from the sale of the subscription receipts plus any interest and income earned thereon; (vii) the material income tax consequences of owning, holding and disposing of the subscription receipts; and (viii) any other material terms and conditions of the subscription receipts including, without limitation, transferability and adjustment terms and whether the subscription receipts will be listed on a stock exchange.

DESCRIPTION OF WARRANTS

Warrants will typically be offered with common shares, with such securities often referred to collectively as a unit, but may be offered with subscription receipts or separately or together with other Securities and may be attached to or separate from other Securities. The warrants either will be issued under a warrant indenture or agreement that will be entered into by Encana and a trustee or warrant agent at the time of issuance of the warrants or will be represented by warrant certificates issued by Encana.

Holders of warrants are not shareholders of Encana. The particular terms and provisions of warrants offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply to them, will be

described in the prospectus supplement filed in respect of such warrants. This description will include, where applicable: (i) the title or designation of the warrants; (ii) the number of warrants offered; (iii) the number of common shares and/or other securities of Encana purchasable upon exercise of the warrants and the procedures for exercise; (iv) the exercise price of the warrants; (v) the dates or periods during which the warrants are exercisable and when they expire; (vi) the designation and terms of any other securities with which the warrants will be offered, if any, and the number of warrants that will be offered with each such security; (vii) the material income tax consequences of owning, holding and disposing of the warrants; and (viii) any other material terms and conditions of the warrants including, without limitation, transferability and adjustment terms and whether the warrants will be listed on a stock exchange.

DESCRIPTION OF UNITS

Encana may issue units comprised of one or more of the other Securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each Security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included Security. The unit agreement under which a unit is issued may provide that the Securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The particular terms and provisions of units offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply to them, will be described in the prospectus supplement filed in respect of such units. This description will include, where applicable: (i) the designation and terms of the units and of the Securities comprising the units, including whether and under what circumstances those Securities may be held or transferred separately; (ii) any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the Securities comprising the units; (iii) whether the units will be issued in fully registered or global form; and (iv) any other material terms and conditions of the units.

DESCRIPTION OF SHARE PURCHASE CONTRACTS AND SHARE PURCHASE UNITS

Encana may issue share purchase contracts, representing contracts obligating holders to purchase from or sell to us, and obligating us to purchase from or sell to the holders, a specified number of common shares or Class A preferred shares, as applicable, at a future date or dates, and including by way of instalment. The price per common share or Class A preferred share and the number of common shares or Class A preferred shares, as applicable, may be fixed at the time the share purchase contracts are issued or may be determined by reference to a specific formula or method set forth in the share purchase contracts. Share purchase contracts will require the purchase price to be paid either at the time share purchase contracts are issued or at a specified future date. We may issue share purchase contracts in accordance with applicable laws and in such amounts and in as many distinct series as we may determine. The share purchase contracts may require us to make periodic payments to the holders of the share purchase units or vice versa, and these payments may be unsecured or prefunded and may be paid on a current or on a deferred basis. The share purchase contracts may require holders to secure their obligations under those contracts in a specified manner.

The share purchase contracts may be issued separately or as part of units, which are referred to in this prospectus as share purchase units, consisting of a share purchase contract and beneficial interests in Debt Securities, Class A preferred shares, or other securities of Encana, securing the holders' obligations to purchase the common shares or Class A preferred shares under the share purchase contracts.

Holders of share purchase contracts or share purchase units are not shareholders of Encana. The particular terms and provisions of share purchase contracts or share purchase units offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply to them, will be described in the prospectus

supplement filed in respect of such share purchase contracts or share purchase units. This description will include, where applicable: (i) whether the holder is obligated to purchase or sell, or both purchase and sell, common shares or Class A preferred shares, as applicable, and the nature and amount of each of those securities, or the method of determining those amounts; (ii) whether the share purchase contracts or share purchase units are to be prepaid or not or paid in instalments; (iii) any conditions upon which the purchase or sale will be contingent and the consequences if such conditions are not satisfied; (iv) whether settlement will be by delivery, or by reference or linkage to the value or performance of common shares or Class A preferred

shares; (v) any acceleration, cancellation, termination or other provisions relating to the settlement; (vi) the date or dates on which the sale or purchase must be made, if any; (vii) whether the share purchase contracts or share purchase units will be issued in fully registered or global form; (viii) the material income tax consequences of owning, holding and disposing; and (ix) any other material terms and conditions including, without limitation, transferability and adjustment terms and whether the share purchase contracts or share purchase units will be listed on a stock exchange.

RISK FACTORS

In addition to the risk factors set forth below, additional risk factors relating to our business are discussed in our annual report and our management's discussion and analysis, which risk factors are incorporated herein by reference. Prospective purchasers of the Securities should consider carefully the risk factors set forth below as well as the other information contained in and incorporated by reference in this prospectus and in the applicable prospectus supplement before purchasing the Securities offered hereby. If any event arising from these risks occurs, our business, prospects, financial condition, results of operations or cash flows, or your investment in the Securities could be materially adversely affected.

The common shares may be subject to price and volume fluctuations, and the market price for the common shares following an offering may drop below the offering price.

In recent years, securities markets and particularly securities of oil and gas industry participants have experienced considerable price and volume volatility, which may have been unrelated to the operating performance of the affected companies. The market price of publicly traded stock, including our common shares, is affected by many variables, including the strength of the economy generally, commodity prices, the availability and attractiveness of alternative investments and the breadth of the public market for the stock. The effect of these and other factors on the market price of securities on the stock exchanges on which we trade suggests that the trading price of the common shares may continue to be volatile. These fluctuations may affect the price of the common shares following an offering, and the market price of the common shares may drop below the offering price. As a result of this volatility, you may not be able to sell your common shares at or above the offering price.

The decision to pay dividends and the amount of such dividends is subject to the discretion of Encana's Board of Directors based on numerous factors and may vary from time to time.

Although Encana currently intends to pay quarterly cash dividends to its shareholders, these cash dividends may be reduced or suspended. The amount of cash available to Encana to pay dividends, if any, can vary significantly from period to period for a number of reasons, including, among other things: Encana's operational and financial performance; fluctuations in the realized prices for, and costs to produce, natural gas, oil and NGLs; the amount of cash required or retained for debt service or repayment; amounts required to fund capital expenditures and working capital requirements; access to equity and debt markets; foreign currency exchange rates and interest rates; and the risk factors set herein and documents incorporated by reference herein.

The decision whether or not to pay dividends and the amount of any such dividends are subject to the discretion of the Board of Directors, which regularly evaluates Encana's proposed dividend payments and the solvency test requirements of the CBCA. In addition, the level of dividends per common share will be affected by the number of outstanding common shares and other securities that may be entitled to receive cash dividends or other payments. Dividends may be increased, reduced or suspended depending on Encana's operational success and the performance of its assets. The market value of the common shares may deteriorate if Encana is unable to meet dividend expectations in the future, and that deterioration may be material.

There can be no assurance as to the liquidity of the trading market for the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units or that a trading market for such securities will develop.

Prior to an offering of Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units, there will be no public market for such securities. There can be no assurance that

Table of Contents

an active trading market for the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units will develop or be sustained. Unless otherwise specified in the applicable prospectus supplements, there is no market through which the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units may be sold and purchasers may not be able to resell such securities purchased under this prospectus and the relevant prospectus supplement. This may affect the pricing of the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units in the secondary market, the transparency and availability of trading prices and the liquidity of such securities.

Credit ratings may not reflect all risks of an investment in the Debt Securities or the Class A preferred shares and may change.

Credit ratings may not reflect all risks associated with an investment in the Debt Securities or the Class A preferred shares. Any credit ratings applied to the Debt Securities or the Class A preferred shares are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in the credit ratings will generally affect the market value of the Debt Securities or the Class A preferred shares. The credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors discussed herein on the value of the Debt Securities or the Class A preferred shares. There is no assurance that any credit rating assigned to the Debt Securities or the Class A preferred shares will remain in effect for any given period of time or that any rating will not be lowered or withdrawn entirely by the relevant rating agency. In addition, real or anticipated changes in the credit ratings can affect the cost of or terms on which we can issue the Debt Securities or the Class A preferred shares or obtain alternative financing.

Changes in interest rates may cause the market price or value of the Debt Securities and the Class A preferred shares to change.

Prevailing interest rates will affect the market price or value of the Debt Securities and the Class A preferred shares. The market price or value of the Debt Securities and the Class A preferred shares may decline as prevailing interest rates for comparable debt instruments rise, and increase as prevailing interest rates for comparable debt instruments decline.

The Debt Securities may be subject to foreign currencies risk.

Debt Securities denominated or payable in foreign currencies may entail significant risk. These risks include, without limitation, the possibility of significant fluctuations in the foreign currency markets, the imposition or modification of foreign exchange controls and potential liquidity in the secondary market. These risks will vary depending on the currency or currencies involved and will be more fully described in the applicable prospectus supplement.

The Debt Securities will be effectively subordinated to certain indebtedness of our corporate and partnership subsidiaries and be subject to certain reorganization risk.

The Indenture permits us, at any time and from time to time, to complete reorganizations with any of our wholly-owned direct or indirect subsidiaries provided that certain conditions are met. In the event of any such reorganization, the Debt Securities may continue to be obligations of us in circumstances where our assets comprise (and are potentially limited to) our ownership interest in the subsidiaries through which our operations are thereafter conducted. Such subsidiaries, which following completion of a reorganization may hold all of the assets formerly held by us, are not restricted under the Indenture with respect to subsequent asset dispositions or incurring indebtedness. See Description of Debt Securities Covenants Consolidation, Amalgamation, Merger and Sale of Assets .

The Debt Securities will be our unsubordinated and unsecured obligations and, unless otherwise provided with respect to a series of Debt Securities, will rank equally with all of our other unsecured, unsubordinated obligations. We conduct a substantial portion of our business through corporate and partnership subsidiaries. Our obligations under the Debt Securities will be structurally subordinate to all existing and future indebtedness and liabilities, including trade payables, of any of our corporate and partnership subsidiaries.

In the event that any of the Securities are redeemable, purchasers of such Securities may be adversely impacted.

If any of the Securities are redeemable at our option, as set forth in the applicable prospectus supplement, we may choose to redeem such Securities from time to time, in accordance with our rights, including when prevailing interest rates

Table of Contents

are lower than the rates borne by such securities. If prevailing rates are lower at the time of redemption, a purchaser may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on the Securities being redeemed. Redemption rights may also adversely impact a purchaser's ability to sell such Securities as the optional redemption date or period approaches.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable prospectus supplement will describe certain U.S. federal income tax consequences of the acquisition, ownership and disposition of any Securities offered thereunder by an initial investor who is a U.S. person (within the meaning of the U.S. Internal Revenue Code).

The applicable prospectus supplement will also describe certain Canadian federal income tax consequences to an investor of acquiring any Securities offered thereunder, including, for investors who are non-residents of Canada, whether the payments of principal, interest or distributions, if any, on the Securities will be subject to Canadian non-resident withholding tax.

PLAN OF DISTRIBUTION

We may offer and sell Securities to or through underwriters or dealers and also may sell Securities directly to purchasers or through agents. The Securities may be offered and sold in the United States and elsewhere where permitted by law.

The distribution of Securities may be effected from time to time in one or more transactions:

at a fixed price or prices, which may be changed;

at market prices prevailing at the time of sale; or

at prices related to such prevailing market prices to be negotiated with purchasers.

If offered on a non-fixed price basis, Securities may be offered at market prices prevailing at the time of sale or at prices to be negotiated with purchasers at the time of sale, which prices may vary as between purchasers and during the period of distribution and which may include sales of our common shares in transactions that are deemed to be at-the-market distributions, including sales made directly on the TSX and the NYSE or other existing trading markets for our common shares, and as may be set forth in an accompanying prospectus supplement. If Securities are offered on a non-fixed price basis, the underwriters', dealers' or agents' compensation will be increased or decreased by the amount by which the aggregate price paid for Securities by the purchasers exceeds or is less than the gross proceeds paid to us by the underwriters, dealers or agents.

Subject to any applicable securities legislation, and other than in relation to an at-the-market distribution, in connection with any offering of Securities, the underwriters, dealers or agents may over-allot or effect transactions which stabilize, maintain or otherwise affect the market price of the Securities at a level above that which otherwise might prevail on the open market. Such transactions may be commenced, interrupted or discontinued at any time.

In connection with the sale of Securities, underwriters may receive compensation from us or from purchasers of Securities for whom they may act as agents in the form of concessions or commissions. Underwriters, dealers and agents that participate in the distribution of Securities may be deemed to be underwriters and any commissions received by them from us and any profit on the resale of Securities by them may be deemed to be underwriting commissions under the United States Securities Act of 1933, as amended (the **Securities Act**).

If so indicated in the applicable prospectus supplement, we may authorize dealers or other persons acting as our agents to solicit offers by certain institutions to purchase the Securities directly from us pursuant to contracts providing for payment and delivery on a future date. These contracts will be subject only to the conditions set forth in the applicable prospectus supplement or supplements, which will also set forth the commission payable for solicitation of these contracts.

Table of Contents

The applicable prospectus supplement will also set forth the terms of the offering relating to particular Securities, including to the extent applicable, the initial offering price, our proceeds from the offering, the underwriting concessions or commissions, and any other discounts or concessions to be allowed or reallocated to dealers. Underwriters with respect to the particular Securities sold to or through underwriters will be named in the prospectus supplement relating to such Securities.

Under agreements which may be entered into by us, underwriters, dealers and agents who participate in the distribution of Securities may be entitled to indemnification by us against certain liabilities, including liabilities under the Securities Act, or to contributions with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. The underwriters, dealers and agents with whom we enter into agreements may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

Any offering of Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units will be a new issue of securities with no established trading market. Unless otherwise specified in a prospectus supplement, the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units will not be listed on any securities exchange or on any automated dealer quotation system. This may affect the pricing of the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units in the secondary market, the transparency and availability of trading prices, the liquidity of the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units and the extent of issuer regulation. Certain broker-dealers may make a market in the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units, but will not be obligated to do so and may discontinue any market making at any time without notice. We cannot assure you that any broker-dealer will make a market in the Debt Securities, Class A preferred shares, subscription receipts, warrants, units, share purchase contracts or share purchase units of any series or as to the liquidity of the trading market, if any, for such securities.

In compliance with the guidelines of the United States Financial Industry Regulatory Authority, Inc. (**FINRA**), the maximum underwriting compensation to be received by any FINRA member or independent broker-dealer may not exceed eight percent of the aggregate gross sales proceeds of any Securities offered hereby. In addition, if more than five percent of the net proceeds of any offering of Securities made under this prospectus will be received by any FINRA member participating in the offering or by affiliates or associated persons of such FINRA member or any participating member otherwise would have a conflict of interest under FINRA Rules, the offering will be conducted in accordance with FINRA Rule 5121.

RATIO OF EARNINGS TO FIXED CHARGES

Ratio of earnings to fixed charges (1), (2)	1.0x	(6.9)x	1.0x	7.4x	(10.5)x	(6.3)x

ENFORCEABILITY OF CIVIL LIABILITIES

We are a corporation incorporated under and governed by the CBCA. Some of our officers and directors, and some of the experts named in this prospectus, are Canadian residents, and many of our assets or the assets of our officers and directors and the experts are located outside the United States. We have appointed an agent for service of process in the United States, but it may be difficult for holders of Securities who reside in the United States to effect service within the United States upon those directors, officers and experts who are not residents of the United States. It may also be difficult for holders of Securities who reside in the United States to realize in the United States upon judgments of courts of the United States predicated upon our civil liability and the civil liability of our officers and directors and experts under the United States federal securities laws. We have been advised by our Canadian counsel, Blake, Cassels & Graydon LLP, that a judgment of a United States court predicated solely upon civil liability under U.S. federal securities laws would probably be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. We have also been advised by Blake, Cassels & Graydon LLP, however, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon U.S. federal securities laws.
