Non-GAAP Financial Measures

We present non-GAAP measures in various places within this prospectus supplement, the accompanying prospectus and the documents incorporated herein or therein by reference, including, but not limited to, Operating Assets Net Operating Income (NOI), Earnings Before Taxes (EBT), MPC Net Contribution, Adjusted Operating Assets EBT and Net Debt. Non-GAAP measures such as NOI, EBT, MPC Net Contribution, Adjusted Operating Assets EBT and Net Debt are not measurements of our financial performance under accounting principles generally accepted in the United States (GAAP), and should not be considered as alternatives to other performance measures derived in accordance with GAAP.

We believe EBT provides useful information about the operating performance of each segment and its properties as further discussed below. EBT may be calculated differently by other companies in our industry, limiting its usefulness as a comparative measure. EBT, as it relates to each business segment, represents the revenues less expenses of each

segment, including interest income, interest expense, and equity in earnings of real estate and other affiliates. EBT excludes corporate expenses and other items that are not allocable to the

S-iii

segments. We present EBT because we use this measure, among others, internally to assess the core operating performance of our assets. We also present this measure because we believe certain investors use it as a measure of a company's historical operating performance and its ability to service and incur debt. We believe that the inclusion of certain adjustments to net income (loss) to calculate EBT is appropriate to provide additional information to investors. A reconciliation of EBT (including Adjusted Operating Assets EBT) to consolidated net income (loss) as computed in accordance with GAAP has been presented in Note 17 to our audited consolidated financial statements (the Audited Financials) and the notes to those financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2016 (the Form 10-K) and in Note 16 to our unaudited financial statements (the Unaudited Financials) included in our Form 10-Q for the three and nine month period ended September 30, 2017 (the Form 10-Q), which is incorporated by reference into this prospectus supplement. For our Operating Assets, we also provide a measure of Adjusted Operating Assets EBT, which additionally excludes depreciation and amortization, development related demolition and marketing costs and provision for impairment. A reconciliation of Adjusted Operating Assets EBT to Operating Assets EBT is included in the Operating Assets segment discussion in Management's discussion and analysis of financial condition and results of operations in the Form 10-K and Form 10-Q.

We believe that NOI is a useful supplemental measure of the performance of our ownership, management and redevelopment or repositioning of real estate assets currently generating revenues (Operating Assets) because it provides a performance measure that, when compared year over year, reflects the revenues and expenses directly associated with owning and operating real estate properties and the impact on operations from trends in rental and occupancy rates and operating costs. We define NOI as operating revenues (rental income, tenant recoveries and other revenue) less operating expenses (real estate taxes, repairs and maintenance, marketing and other property expenses). NOI excludes straight line rents and amortization of tenant incentives, net interest expense, ground rent amortization, demolition costs, amortization, depreciation, development related marketing costs and Equity in earnings from certain of our partnerships and joint ventures for the development and operation of real estate assets (Real Estate and Other Affiliates). We use NOI to evaluate our operating performance on a property by property basis because NOI allows us to evaluate the impact that factors, which vary by property, such as lease structure, lease rates and tenant base have on our operating results, gross margins and investment returns. Although we believe that NOI provides useful information to investors about the performance of our Operating Assets, due to the exclusions noted above, NOI should only be used as an additional measure of the financial performance of such assets and not as an alternative to GAAP net income (loss). For reference, and as an aid in understanding our computation of NOI, a reconciliation of Operating Assets NOI to Operating Assets EBT has been presented in the Operating Assets segment discussion in Management's discussion and analysis of financial condition and results of operations in the Form 10-K and a reconciliation of EBT to consolidated net income (loss) as computed in accordance with GAAP has been presented in Note 17 to the Audited Financials and Note 16 to the Unaudited Financials.

We believe that Net Debt is a useful supplemental measure to our financing commitments because it excludes certain short term liquidity sources, which better reflects our long and short term obligations. Net Debt is defined as mortgages, notes and loans payable, including our ownership share of debt of our Real Estate and Other Affiliates, reduced by short term liquidity sources to satisfy such obligations such as our ownership share of cash and cash equivalents and Special Improvement District (SID) and Municipal Utility District (MUD) receivables. Although net debt is not a recognized GAAP financial measure, it is readily computable from existing GAAP information and we believe, as with our other non-GAAP measures, that such information is useful to our investors and other users of our financial statements. For reference, and as an aid in understanding our computation of Net Debt a reconciliation of Total Debt as computed in accordance with GAAP to Net Debt has been presented in Management's discussion and analysis of financial condition and results of operations Liquidity and capital resources in the Form 10-K.

We believe MPC Net Contribution is a useful supplemental measure because certain investors measure the value of the assets in this segment based on their contribution to liquidity and capital available for investment. MPC Net Contribution is defined as MPC segment EBT, plus MPC cost of sales, depreciation and amortization, and net collections from SID bonds and MUD receivables, reduced by MPC development and land acquisition expenditures. Although MPC Net Contribution can be computed from GAAP elements of income and cash flows, it is not a GAAP based operational metric and should not be used to measure operating performance of the MPC assets as a substitute for GAAP measures of such performance nor should it be used as a comparison metric with other comparable businesses. A reconciliation of segment EBT to consolidated net income (loss) as computed in accordance with GAAP is presented in Note 17 to the Audited Financials and Note 16 to the Unaudited Financials.

Forward-looking statements give our expectations about the future and are not guarantees. We caution you not to rely on these forward-looking statements.

In this prospectus supplement, the accompanying prospectus and the documents incorporated herein and therein by reference, for example, we make forward-looking statements discussing our expectations about:

These forward-looking statements present our estimates and assumptions only as of the date of this prospectus supplement or, in the case of statements included in documents incorporated by reference, as of the date of such document. Except as may be required by law, we undertake no obligation to modify or revise any forward-looking statements to reflect events or circumstances occurring after the date of this prospectus supplement. Factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements include:

our inability to obtain operating and development capital, including our inability to obtain debt capital from lenders and the capital markets;

a prolonged recession in the national economy and adverse economic conditions in the homebuilding, condominium development, retail, office and hospitality sectors;

our inability to compete effectively;

the negative impact of decreased oil prices on the economic growth of, and demand for our properties in, the Houston, Texas region;

potential natural disasters (including any potential negative impact from Hurricane Harvey on the Houston Texas region), terrorist activity, acts of violence, breaches of our data security, contamination of our properties by hazardous or toxic substances, or other similar disruptions, as well as losses that are not insured or exceed the applicable insurance limits;

S-vi

our ability to obtain the necessary governmental permits for the development of our properties and necessary regulatory approvals pursuant to an extensive entitlement process involving multiple and overlapping regulatory jurisdictions, which often require discretionary action by local governments;

increased construction costs exceeding our original estimates, delays or overruns, claims for construction defects, or other factors affecting our ability to develop, redevelop or construct our properties;

regulation of the portion of our business that is dedicated to the formation and sale of condominiums, including regulatory filings to state agencies, additional entitlement processes and requirements to transfer control to a condominium association's board of directors in certain situations, as well as defaults by purchasers on their obligations to purchase condominiums;

our inability to control certain of our properties due to the joint ownership of such property and our inability to successfully attract desirable strategic partners;

substantial stockholders, including the Selling Stockholder, having influence over us, whose interests may be adverse to ours or yours;

the potential impact of the recently enacted U.S. tax reform legislation; and

the other risks described in "Risk Factors" beginning on page S-4 below and in the Form 10-K.

Any factor could, by itself, or together with one or more other factors, adversely affect our business, results of operations, plans, objectives, future performance or financial condition. There may also be other factors that we have not described in this prospectus supplement, the accompanying prospectus or the documents incorporated by reference that could cause results to differ from our expectations. Given these risks and uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. These forward-looking statements present our estimates and

assumptions only as of the date of this prospectus supplement or, in the case of documents incorporated by reference, as of the date of such document. Except as may be required by law, we undertake no obligation to modify or revise any forward-looking statements to reflect events or circumstances occurring after the date of this prospectus supplement.

Market and Industry Data and Forecast

Any market or industry data contained in this prospectus supplement, the accompanying prospectus or the documents incorporated by reference herein or therein is based on a variety of sources, including internal data and estimates, independent industry publications, government publications, reports by market research firms, and other published independent sources. Industry publications and other published sources generally state that the information contained therein has been obtained from third party sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such information. Our internal data and estimates are based

upon information obtained from trade and business organizations and other contacts in the markets in which we operate and our management's understanding of industry conditions, and such information has not been verified by any independent sources. Accordingly, investors should not place undue reliance on such data and information as these estimates involve risks and uncertainties and are subject to change based on various factors, including those discussed under Cautionary Statement Regarding Forward-Looking Statements and Risk Factors.

This prospectus supplement, the accompanying prospectus and the documents incorporated herein and therein by reference also contain certain estimates or projections of certain financial results or other items, including NOI, EBT capital expenditures, budgeted project costs and lot sales. These estimates and projections are based upon our internal data and reflect management's belief, as of the date of this prospectus supplement, the accompanying prospectus or such incorporated document, as applicable, of such financial result or item for the applicable period or date but are based on assumptions (including, in the case of NOI, as described above, and in the case of projected budgets, estimated costs of construction and development), some of which inevitably will not materialize or will be subject to revisions, which may be significant. If one or more assumptions are not met, or unanticipated events occur, or market conditions change, these estimates and projections may not be achieved. No representation can be or is being made with respect to our ability to achieve these estimates or projections, and investors should not place undue reliance on such estimates or projections as they involve risks and uncertainties and are subject to change based on various factors, including those discussed under Cautionary Statement Regarding Forward-Looking Statements and Risk Factors in this prospectus supplement and in the Form 10-K and in the other documents incorporated by reference in this prospectus supplement and the accompanying prospectus.

PROSPECTUS SUPPLEMENT SUMMARY

This summary contains basic information about us and the sale of securities being offered by the Selling Stockholder. It does not contain all of the information you should consider before investing. You should read this entire prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein carefully, including the section entitled "Risk Factors" and our consolidated and combined financial statements and the notes thereto incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision.

Overview

We are a developer and operator of master planned communities and mixed use properties. Our mission is to be the preeminent developer of master planned communities and mixed-use properties. We create timeless places and extraordinary experiences that we believe inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities (MPCs), in the ownership, management and redevelopment of revenue-generating real estate assets (Operating Assets), and in the development of other real estate assets in the form of entitled and unentitled land and residential condominium developments. We expect to generate income from the growth of our operating asset portfolio, through the continued development of strategic project opportunities, and from ongoing MPC land development and home site sales. We generate cash flow from the operations of our operating properties and the sale of land in our MPC business, which funds the development of strategic development opportunities in order to generate meaningful growth in recurring income which translates to our Operating Assets segment. We are focused on maximizing value from our existing assets, and we continue to develop and manage our assets to achieve this goal. We are headquartered in Dallas, Texas, and our assets are located across the United States.

We were incorporated in Delaware on July 1, 2010 to receive certain assets and liabilities of GGP, Inc., formerly known as General Growth Properties, Inc. (GGP and collectively with its subsidiaries, our predecessors), in connection with our predecessors' emergence from bankruptcy. We completed our spin-off from GGP on November 9, 2010. Through our predecessors, we have been in business for several decades.

Selling Stockholder

The selling stockholders in this offering are Pershing Square Holdings, Ltd. (PSH) and Pershing Square, L.P. (PSLP). As of January 2, 2018, certain funds advised by Pershing Square Capital Management, L.P., a Delaware limited partnership, including the Selling Stockholder (collectively, Pershing Square), beneficially owned 4,704,534 shares of our common stock representing approximately 10.9% of our outstanding common stock. As of that same date, Pershing Square had economic exposure to approximately 5,399,839 notional shares of our common shares under cash-settled total return swaps, bringing Pershing Square's total aggregate economic exposure to 10,104,373 shares of our common stock (approximately 23.5% of our outstanding common stock). See also Selling Stockholder elsewhere in this prospectus supplement. We have been advised by Pershing Square that PSH is selling shares of our common stock in order to facilitate the ability of its public shareholders to buy or own PSH public shares in excess of certain ownership limits set forth in its organizational documents and that PSLP is selling shares of our common stock for portfolio management reasons.

NYSE trading symbol HHC .

386,182 shares of our common stock issuable upon exercise of outstanding stock options as of January 2, 2018, with a weighted average exercise price of \$90.22 per share;

2,004,541 shares of our common stock available for granting of awards under our Amended and Restated 2010 Incentive Plan, (the **2010 Plan**); and

2,103,485 shares of our common stock issuable upon the exercise of management warrants, with a weighted average exercise price of \$124.02 per share.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following risk factors and the risk factors in the Form 10-K as well as the other information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment in our company. If any of the following risks actually occur, our business, prospects, financial condition and results of operations could be materially and adversely affected. In such an event, the trading price of our common stock could decline and you could lose part or all of your investment.

Risks Related to Our Indebtedness

Our substantial indebtedness could adversely affect our business, prospects, financial condition and results of operations.

We have a significant amount of indebtedness. As of September 30, 2017, our total consolidated debt was \$3.0 billion.

Additionally, we may incur substantial additional indebtedness from time to time, including project indebtedness at our subsidiaries. If we incur more indebtedness, the risks related to our level of indebtedness could intensify. Specifically, a high level of indebtedness could have important consequences including, but not limited to the following:

making it more difficult for us to satisfy our obligations with respect to our indebtedness;

limiting our ability to obtain additional financing to fund future working capital, capital expenditures, debt service requirements, execution of our business strategy or other general corporate requirements, or requiring us to make non-strategic divestitures, particularly when the availability of financing in the capital markets is limited;

requiring a substantial portion of our cash flow to be dedicated to debt service payments instead of other purposes, thereby reducing the amount of cash flow available for working capital, capital expenditures, acquisitions, dividends and other general corporate purposes;

increasing our vulnerability to general adverse economic and industry conditions, including increases in interest rates, particularly given that certain indebtedness bears interest at variable rates;

limiting our ability to capitalize on business opportunities, reinvest in and develop properties, and to react to competitive pressures and adverse changes in government regulations;

placing us at a disadvantage compared to other, less leveraged competitors;

limiting our ability, or increasing the costs, to refinance indebtedness; and

resulting in an event of default if we fail to satisfy our obligations under our indebtedness, which default could result in all or part of our indebtedness becoming immediately due and payable and, in the case of our secured debt, could permit the lenders to foreclose on our assets securing such debt.

Any of the above listed factors and others unknown to us at this time could have a material adverse effect on our business, prospects, financial condition and results of operations.

Risks Related to our Common Stock and this Offering

There is a risk of investor influence over our company that may be adverse to our best interests and those of our other stockholders.

Upon completion of this offering, it is expected that Pershing Square will beneficially own approximately 5.1% of our outstanding common stock and have economic exposure under cash-settled total return swaps to an

additional 5,399,839 notional shares of our common stock, equaling a fully diluted economic interest of approximately 17.7% of our outstanding shares. Because Pershing Square is expected to beneficially own less than 10% of our outstanding common stock on a fully diluted basis after the completion of this offering, it will no longer have the right to designate any directors to serve on our board of directors pursuant to the stockholder agreement between us and Pershing Square. However, the current directors previously designated by Pershing Square will continue to serve on our board of directors after the completion of this offering, including the chairman, Mr. William Ackman. Accordingly, Pershing Square will continue to have the ability to influence our policies and operations, including the appointment of management, future issuances of our common stock or other securities, the payment of dividends, if any, on our common stock, the incurrence or modification of debt by us, amendments to our amended and restated certificate of incorporation and amended and restated bylaws and the entering into of extraordinary transactions, and its interests may not in all cases be aligned with your interests.

In addition, under the stockholder agreement between us and Pershing Square, if we make a public or non-public offering of our common stock (or securities convertible or exchangeable into common stock), Pershing Square has a right to acquire the securities for the same price and on the same terms up to the amount needed for it to maintain its aggregate proportionate common stock-equivalent interest in the Company on a fully diluted basis. This right will terminate for Pershing Square when it beneficially owns less than 5% of our outstanding shares on a fully diluted basis.

The concentration of ownership of our outstanding common stock held by Pershing Square and other substantial stockholders, combined with Pershing Square's additional economic exposure under cash-settled total return swaps, may make some transactions more difficult or impossible without the support of these stockholders, or more likely with the support of these stockholders. The interests of our substantial stockholders could conflict with or differ from the interests of our other stockholders. For example, the concentration of ownership held by Pershing Square and other substantial stockholders, even if these stockholders are not acting in a coordinated manner, could allow Pershing Square and other substantial stockholders to influence our policies and strategy and could delay, defer or prevent a change of control or impede a merger, takeover or other business combination that management and our board of directors believe may otherwise be favorable to us and our other stockholders.

Our stock price may change significantly following the offering, and you may not be able to resell shares of our common stock at or above the price you paid or at all, and you could lose all or part of your investment as a result.

The trading price of our common stock is likely to continue to be volatile due to the stock market's routine periods of large or extreme volatility. This volatility often has been unrelated or disproportionate to the operating performance of particular companies, including ours. You may not be able to resell your shares at or above the offering price due to a number of factors such as those listed in the documents we incorporate by reference, including the Form 10-K, under Risk Factors and the following:

results of operations that vary from the expectations of securities analysts and investors, including our ability to achieve operational success at the South Street Seaport Project;

results of operations that vary from those of our competitors;

change in expectations as to our future financial performance, including financial estimates and investment recommendations by securities analysts and investors;

declines in the market prices of stocks generally, particularly those in the real estate industry;

strategic actions by us or our competitors;

announcements by us or our competitors of new significant real-estate developments, acquisitions, joint ventures, other strategic relationships, or capital commitments;

changes in general economic or market conditions or trends in our industry or markets;

S-5

changes in business or regulatory conditions;

future sales of our common stock or other securities;

investor perceptions or the investment opportunity associated with our common stock relative to other investment alternatives;

the public's response to press releases or other public announcements by us or third parties, including our filings with the SEC;

announcements relating to litigation;

guidance, if any, that we provide to the public, any changes in this guidance, or our failure to meet this guidance;

the development and sustainability of an active trading market for our stock;

changes in accounting principles;

events or factors resulting from natural disasters, such as the impact of Hurricane Harvey in the Houston, Texas area; and

other events or factors, including those resulting from war, acts of terrorism, or responses to these events.

These broad market and industry fluctuations may adversely affect the market price of our common stock, regardless of our actual operating performance. In addition, price volatility may be greater if the public float and trading volume of our common stock is low.

In the past, following periods of market volatility, stockholders have instituted securities class action litigation. If we were involved in securities litigation, it could have a substantial cost and divert resources and the attention of executive management from our business regardless of the outcome of such litigation.

Because we have no current plans to pay cash dividends on our common stock for the foreseeable future, you may not receive any return on investment unless you sell your common stock for a price greater than that which you paid for it.

We intend to retain future earnings, if any, for future operations, expansion, and debt repayment and have no current plans to pay any cash dividends for the foreseeable future. The declaration, amount and payment of any future dividends on shares of common stock will be at the sole discretion of our board of directors. Our board of directors may take into account general and economic conditions, our financial condition, and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual, legal, tax and regulatory restrictions, implications on the payment of dividends by us to our stockholders or by our subsidiaries to us and such other factors as our board of directors may deem relevant. In addition, our ability to pay dividends is limited by

covenants of our existing indebtedness and may be limited by covenants of any future indebtedness we or our subsidiaries incur. As a result, you may not receive any return on an investment in our common stock unless you sell our common stock for a price greater than that which you paid for it.

If securities analysts do not publish research or reports about our business or if they downgrade our stock or our sector, our stock price and trading volume could decline.

The trading market for our common stock relies in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts nor the information they choose to include in their reports. Furthermore, if one or more of the analysts who do cover us downgrades our stock or our industry, or the stock of any of our competitors, or publish inaccurate or unfavorable research about our business, the price of our stock could decline. If one or more of these analysts ceases coverage of the Company or fails to publish reports on us regularly, we could lose visibility in the market, which in turn could cause our stock price or trading volume to decline.

Future sales, or the perception of future sales, by us, the Selling Stockholder or our other stockholders in the public market following this offering could cause the market price for our common stock to decline.

After the completion of this offering, the sale of additional shares of our common stock in the public market, or the perception that such sales could occur, could harm the prevailing market price of shares of our common stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

As of January 2, 2018, we had a total of 42,917,354 shares of common stock outstanding. All shares sold by the Selling Stockholder in this offering will be freely tradable without registration under the Securities Act, and without restriction by persons other than our affiliates (as defined under Rule 144 of the Securities Act (Rule 144)), including our directors, executive officers and other affiliates, whose shares may be sold only in compliance with the limitations described herein.

In connection with this offering, Pershing Square has agreed, subject to certain exceptions, not to dispose of or hedge any of our or their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date that is 120 days after the date of this prospectus supplement, except with the prior written consent of the underwriters. See Underwriting for a description of these lock-up agreements.

Upon the expiration of the lock-up agreements described above, shares held by the Selling Stockholder will be eligible for resale, subject in certain cases, to volume, manner of sale, and other limitations under Rule 144. As restrictions on resale end, the market price of our shares of common stock could drop significantly if the holders of these shares sell them or are perceived by the market as intending to sell them. These factors could also make it more difficult for us to raise additional funds through future offerings of our shares of common stock or other securities at acceptable prices or at all.

Unless otherwise indicated, the number of shares of our common stock outstanding after the completion of this offering excludes:

386,182 shares of our common stock issuable upon exercise of outstanding stock options as of January 2, 2018, with a weighted average exercise price of \$90.22 per share;

2,004,541 shares of our common stock available for granting of awards under the 2010 Plan; and

2,103,485 shares of our common stock issuable upon the exercise of management warrants, with a weighted average exercise price of \$124.02 per share.

In the future, we may also issue our securities in connection with new real estate project developments, other investments or acquisitions. The amount of shares of our common stock issued in connection with an investment or acquisition could constitute a material portion of our then-outstanding shares of our common stock. Any issuance of additional securities in connection with investments or acquisitions may result in additional dilution to you.

Anti-takeover provisions in our organizational documents and Delaware law could delay or prevent a change of control.

Certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws may have an anti-takeover effect and may delay, defer, or prevent a merger, acquisition, tender offer, takeover attempt or other change of control transaction that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by our stockholders.

These provisions provide for, among other things:

the inability of our stockholders to act by written consent;

S-7

restrictions on the ability of stockholders to call a special meeting without 15% or more of the voting power of the issued and outstanding shares entitled to vote generally in the election of our directors;

rules regarding how stockholders may present proposals or nominate directors for election at stockholder meetings;

the right of our board of directors to issue preferred stock without stockholder approval;

a requirement that, to the fullest extent permitted by law, certain proceedings against or involving us or our directors or officers be brought exclusively in the Court of Chancery in the State of Delaware; and

that certain provisions may be amended only by the affirmative vote of at least 66 2/3% of the shares of common stock entitled to vote generally in the election of directors.

In addition, we are a Delaware corporation, and Section 203 of the Delaware General Corporation Law (the "DGCL") applies to us. In general, Section 203 prevents an interested stockholder from engaging in certain business combinations with us for three years following the date that person becomes an interested stockholder subject to certain exceptions. The statute generally defines interested stockholder as any person that is the owner of 15% or more of the outstanding voting stock or is our affiliate or associate and was the owner of 15% or more of outstanding voting stock at any time within the three-year period immediately before the date of determination.

These anti-takeover provisions could make it more difficult for a third party to acquire us, even if the third-party offer may be considered beneficial by many of our stockholders. As a result, our stockholders may be limited in their ability to obtain a premium for their shares. These provisions could limit the price that investors might be willing to pay in the future for shares of our common stock. There also may be dilution of our common stock from the exercise of outstanding warrants, which may materially adversely affect the market price and negatively impact a holder's investment.

Non-U.S. Holders may be subject to U.S. federal income tax on gain recognized on the sale or disposition of shares of our common stock.

We believe we are, and expect to remain for the foreseeable future, a U.S. Real Property Holding Corporation for U.S. federal income tax purposes. As a result, a Non-U.S. Holder (as defined in "Material U.S. Federal Income and Estate Tax Considerations for Non-U.S. Holders") generally will be subject to U.S. federal income tax on any gain recognized on a sale or other disposition of shares of our common stock. However, if our common stock is regularly traded on an established market (such as the New York Stock Exchange), as defined by applicable Treasury Regulations, the gain arising from the sale or other disposition will not be subject to U.S. federal income tax as long as the Non-U.S. Holder did not actually or constructively own more than 5% of our common stock at any time during (i) the five-year period ending on the date of the sale or other disposition, or (ii) if shorter, the Non-U.S. Holder's holding period in its stock. In the event that our common stock is not, or ceases to be, regularly traded on an established market, Non-U.S. Holders would generally be subject to 15% U.S. federal withholding tax, which may be credited against any U.S. federal income tax liability owed by the Non-U.S. Holder.

Tax reform legislation could significantly impact our business, operations and stockholders.

H.R. 1, known as the Tax Cuts and Jobs Act (the "Act") and signed into law by President Trump on December 22, 2017, substantially changes U.S. federal income tax law, which could significantly impact us, our operations and our

stockholders. Prospective investors should consult their tax advisors about the potential impact of the Act on an investment in our common stock.

S-8

USE OF PROCEEDS

All of the shares of our common stock offered in this offering are being sold by the Selling Stockholder. We will not receive any of the proceeds from the sale of these shares of our common stock by the Selling Stockholder.

DESCRIPTION OF OUR CAPITAL STOCK

General

We were incorporated as a Delaware corporation on July 1, 2010. Our authorized capital stock consists of 150 million shares of common stock, \$0.01 par value per share, and 50 million shares of preferred stock, \$0.01 par value per share. Our board of directors may establish the rights and preferences of the preferred stock from time to time.

Common Stock

Each holder of our common stock is entitled to one vote for each share on all matters to be voted upon by the common stockholders, and there are no cumulative voting rights. Subject to any preferential rights of any outstanding preferred stock, holders of our common stock will be entitled to receive ratably the dividends, if any, as may be declared from time to time by our board of directors out of funds legally available for that purpose. If there is a liquidation, dissolution or winding up of our company, holders of our common stock would be entitled to ratable distribution of our assets remaining after the payment in full of liabilities and any preferential rights of any outstanding preferred stock.

In November 2010, in connection with our spin-off from GGP, we entered into a stockholder agreement with Pershing Square that provides that, subject to certain exceptions, if we make a public or non-public offering of our common stock (or securities convertible or exchangeable into common stock), Pershing Square has a right to acquire the securities for the same price and on the same terms up to the amount needed for it to maintain its aggregate proportionate common stock-equivalent interest in the Company on a fully diluted basis. This right will terminate for Pershing Square when it beneficially owns less than 5% of our outstanding shares on a fully diluted basis.

Other than these contractual rights in favor of Pershing Square, there are no preemptive or conversion rights or other subscription rights, and there are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of our common stock are fully paid and non-assessable. The rights, preferences and privileges of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Anti-Takeover Effects of Various Provisions of Delaware Law and our Certificate of Incorporation and Bylaws

Provisions of the DGCL and our amended and restated certificate of incorporation and bylaws could make it more difficult to acquire us by means of a tender offer, a proxy contest or otherwise, or to remove incumbent officers and directors. These provisions, summarized below, are expected to discourage certain types of coercive takeover practices and takeover bids that our board of directors may consider inadequate and to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of increased protection of our ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us outweigh the disadvantages of discouraging takeover or acquisition proposals because, among other things, negotiation of these proposals could result in improved terms for our stockholders.

Delaware Anti-Takeover Statute. We are subject to Section 203 of the DGCL, an anti-takeover statute. In general, Section 203 of the DGCL prohibits a publicly-held Delaware corporation from engaging in a business

S-9

combination with an interested stockholder for a period of three years following the time the person became an interested stockholder, unless the business combination or the acquisition of shares that resulted in a stockholder becoming an interested stockholder is approved in a prescribed manner. Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an interested stockholder is a person who, together with affiliates and associates, owns (or, if the person is an affiliate or an associate of the Company, within three years prior to the determination of interested stockholder status did own) 15% or more of a corporation's voting stock. The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

Size of Board and Vacancies. Our bylaws provide that the number of directors on our board of directors will be fixed exclusively by our board of directors. Subject to the rights of the holders of any series of preferred stock then outstanding, newly created directorships resulting from any increase in our authorized number of directors will be filled by a majority of our board of directors then in office, provided that a majority of the total number of directors is present, unless the board of directors otherwise determines that such directorships should be filled by the affirmative vote of the stockholders of record of at least a majority of the voting stock. Any vacancies in our board of directors resulting from death, resignation, retirement, disqualification, removal from office or other cause will be filled generally by the majority vote of our remaining directors in office, even if less than a quorum is present. Our amended and restated certificate of incorporation and amended bylaws permit stockholders to remove a director or directors with or without cause.

Special Stockholder Meetings. Under our amended and restated certificate of incorporation and bylaws, our board of directors may call special meetings of our stockholders. A special meeting is also required to be called by the Secretary upon written request by stockholders who together hold 15% or more of the voting power of the issued and outstanding shares of the capital stock of the Company entitled to vote generally in the election of directors.

Prohibition of Stockholder Action by Written Consent. Our amended and restated certificate of incorporation and bylaws expressly prohibit our stockholders from acting by written consent. Stockholder action must take place at an annual or a special meeting of our stockholders.

Requirements for Advance Notification of Stockholder Nominations and Proposals. Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and nomination of candidates for election as directors other than nominations made by or at the direction of our board of directors or a committee of our board of directors.

No Cumulative Voting. The DGCL provides that stockholders are denied the right to cumulate votes in the election of directors unless our certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation does not provide for cumulative voting.

Preferred Stock

Our amended and restated certificate of incorporation provides that our board of directors is authorized to provide for the issuance of shares of preferred stock in one or more series and, by filing a certificate of designations pursuant to the applicable law of the State of Delaware (hereinafter referred to as a Preferred Stock Designation), to establish from time to time for each such series the number of shares to be included in each such series and to fix the designations, powers, rights and preferences of the shares of each such series, and the qualifications, limitations and restrictions thereof. The authority of our board of directors with respect to each series of preferred stock includes, but is not limited to, determination of the following:

the designation of the series, which may be by distinguishing number, letter or title;

S-10

the number of shares of the series, which number our board of directors may thereafter (except where otherwise provided in the Preferred Stock Designation) increase or decrease (but not below the number of shares thereof then outstanding);

whether dividends, if any, shall be paid, and, if paid, the date or dates upon which, or other times at which, such dividends shall be payable, whether such dividends shall be cumulative or noncumulative, the rate of such dividends (which may be variable) and the relative preference in payment of dividends of such series;

the redemption provisions and price or prices, if any, for shares of the series;

the terms and amounts of any sinking fund provided for the purchase or redemption of shares of the series;

the amounts payable on shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company;

whether the shares of the series shall be convertible into shares of any other class or series, or any other security, of the Company or any other corporation, and, if so, the specification of such other class or series of such other security, the conversion price or prices, or rate or rates, any adjustments thereto, the date or dates on which such shares shall be convertible and all other terms and conditions upon which such conversion may be made;

restrictions on the issuance of shares of the same series or of any other class or series; and

the voting rights, if any, of the holders of shares of the series.

Expiration of Section 382 Rights Plan

On January 2, 2018, we entered into Amendment No. 2 (the "Amendment") to the Section 382 Rights Agreement, dated as of February 27, 2012 (the "Rights Agreement"), as previously amended by Amendment No. 1, dated as of February 26, 2015, by and between the Company and Computershare Trust Company, N.A., as rights agent. The Amendment accelerated the expiration of the preferred stock purchase rights (the "Rights") from March 14, 2018 to the close of business on January 2, 2018, and had the effect of terminating the Rights Agreement on that date. At the time of the termination of the Rights Agreement, all of the Rights distributed to the holders of our common stock pursuant to the Rights Agreement expired.

DIVIDEND POLICY

We have not declared any cash dividends on our common stock since our inception and do not anticipate paying any cash dividends on our common stock for the foreseeable future. Any future determination related to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including future earnings, capital requirements, restrictions under debt agreements, financial condition and future prospects and other factors our board of directors may deem relevant.

SELLING STOCKHOLDER

The following table and accompanying footnotes set forth information as of January 2, 2018 regarding the beneficial ownership of Pershing Square. Beneficial ownership of shares is determined in accordance with Rule 13d-3(d) promulgated by the SEC under the Exchange Act.

A person is a beneficial owner of a security if that person has or shares voting power, which includes the power to vote or to direct the voting of the security, or investment power, which includes the power to dispose of or to direct the disposition of the security or has the right to acquire such powers within 60 days. Percentage of beneficial ownership is based on 42,917,354 shares of our common stock outstanding as of January 2, 2018.

Ackman, who collectively share, or may be deemed to share, dispositive and voting power over all shares held for the accounts of PSLP, Pershing Square II, L.P., Pershing Square Holdings, Ltd. and Pershing Square International, Ltd., which is a Cayman Islands exempted company. Certain of the Pershing Square entities also have economic exposure under cash-settled total return swaps to an additional 5,399,839 notional shares of our common stock (approximately 12.6% of our outstanding shares), bringing Pershing Square's total aggregate economic exposure to 10,104,373 shares of our common stock (approximately 23.5% of our outstanding shares). The address of Pershing Square is 888 Seventh Avenue, 42nd Floor, New York, New York 10019.

MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following discussion is a summary of the material U.S. federal income and estate tax consequences of the purchase, ownership and disposition of our common stock by Non-US Holders (as defined below) that purchase our stock pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed, except to the extent provided below. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, (the Code), and the Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the Internal Revenue Service, (the IRS), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder of our common stock. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our common stock.

This discussion is limited to Non-U.S. Holders that hold our common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder's particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

U.S. expatriates and former citizens or long-term residents of the United States;

persons subject to the alternative minimum tax;

persons holding our common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;

banks, insurance companies, and other financial institutions;

brokers, dealers or traders in securities;

controlled foreign corporations, passive foreign investment companies, and corporations that accumulate earnings to avoid U.S. federal income tax;

partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);

tax-exempt organizations or governmental organizations;

persons deemed to sell our common stock under the constructive sale provisions of the Code;

persons who hold or receive our common stock pursuant to the exercise of any employee stock option or otherwise as compensation; and

tax-qualified retirement plans.

If an entity treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding our common stock and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

**THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE.
INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE**

APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of a Non-U.S. Holder

For purposes of this discussion, a Non-U.S. Holder is any beneficial owner of our common stock that is neither a U.S. person nor an entity treated as a partnership for U.S. federal income tax purposes. A U.S. person is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

an individual who is a citizen or resident of the United States;

a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more United States persons (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions

We do not anticipate declaring or paying dividends to holders of our common stock in the foreseeable future. However, if we do make distributions of cash or property on our common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a Non-U.S. Holder's adjusted tax basis in its common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under Sale or other taxable disposition. As discussed below under Sale or other taxable disposition, if our common stock is not considered regularly traded on an established securities market, as defined by applicable Treasury Regulations, any distributions in excess of the sum of (i) the Non-U.S. Holder's share of our current and accumulated earnings and profits plus (ii) the Non-U.S. Holder's basis in our stock would be treated as gain from the sale or other disposition of such stock, and distributions would be subject to a U.S. federal withholding tax at a rate of 15% (the FIRPTA Withholding) of the amount by which the distribution exceeds the Non-U.S. Holder's share of our accumulated earnings and profits. Any FIRPTA Withholding generally may be credited against any U.S. federal income tax payable by the Non-U.S. Holder.

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder of our common stock will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such dividends are attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption,

S-16

the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States.

Any such effectively connected dividends will be subject to U.S. federal income tax on a net income basis at the regular graduated rates applicable to U.S. persons. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected dividends, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Sale or other taxable disposition

Subject to the discussion below under "Information reporting and backup withholding" and "FATCA," a Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other taxable disposition of our common stock unless:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable);

the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or

our common stock constitutes a U.S. real property interest (a "USRPI"), by reason of our status as a U.S. real property holding corporation (the "USRPHC") for U.S. federal income tax purposes.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates applicable to U.S. persons. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty), which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we are, and expect to remain for the foreseeable future, a USRPHC for U.S. federal income tax purposes. However, if our common stock is regularly traded on an established market (such as the New York Stock Exchange), as defined by applicable Treasury Regulations, the gain arising from the sale or other disposition of shares of our common stock will not be subject to U.S. federal income tax as long as the Non-U.S. Holder did not actually or constructively own more than 5% of our common stock at any time during (i) the five-year period ending on the date of the sale or other disposition, or (ii) if shorter, the Non-U.S. Holder's holding period in its stock. We believe that our common stock is currently regularly traded on an established securities market. However, no assurance can be provided that our common stock will continue to be regularly traded on an established securities market for purposes of the rules described above.

In the event that our common stock is not, or ceases to be, regularly traded on an established market (or, if our common stock is regularly traded on an established market, with respect to a Non-U.S. Holder that actually or

constructively owned more than 5% of our common stock at any time during the period described in the preceding paragraph), a Non-U.S. Holder would generally be required to file a U.S. federal income tax return and generally would be subject to U.S. federal income tax on any gain recognized on a sale or other disposition of shares of our common stock on a net income basis at the regular graduated rates applicable to U.S. persons.

S-17

Additionally, in such event, the FIRPTA Withholding generally would apply to the gross proceeds from a sale or other disposition of shares of our common stock. Any FIRPTA Withholding generally may be credited against any U.S. federal income tax liability owed by the Non-U.S. Holder. Any excess FIRPTA Withholding may be refunded if the Non-U.S. Holder provides the IRS with the required supporting information in a timely manner.

Non-U.S. Holders should consult their tax advisors regarding our status as a USRPHC and the potential U.S. tax consequences as applied to the Non-U.S. Holders' particular circumstances and the potentially applicable income tax treaties that may provide for different rules.

Information reporting and backup withholding

Payments of dividends on our common stock will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E or W-8ECI, or otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any dividends on our common stock paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of our common stock within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the certification described above and does not have actual knowledge or reason to know that such holder is a United States person, or the holder otherwise establishes an exemption. Proceeds of a disposition of our common stock conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

FATCA

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, (FATCA)) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, or gross proceeds from the sale or other disposition of, our common stock, in each case, paid to a foreign financial institution or a non-financial foreign entity (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations (including providing sufficient documentation evidencing its compliance (or deemed compliance) with FATCA), (2) the non-financial foreign entity either certifies it does not have any substantial United States owners (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain specified United States persons or United States-owned foreign entities (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

S-18

Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of dividends on our common stock, and will apply to payments of gross proceeds from the sale or other disposition of such stock on or after January 1, 2019. If a dividend payment is both subject to withholding under FATCA and subject to the withholding tax discussed above under Distributions, the withholding under FATCA may be credited against and therefore reduce such other withholding tax.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our common stock.

Federal Estate Tax

Our common stock beneficially owned by an individual who is not a citizen or resident of the United States (as defined for U.S. federal estate tax purposes) at the time of death generally will be includable in the decedent's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

UNDERWRITING

The Selling Stockholder is offering the shares of common stock described in this prospectus supplement through a number of underwriters. J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Jefferies LLC are acting as underwriters of the offering. We have entered into an underwriting agreement with the Selling Stockholder and the underwriters. Subject to the terms and conditions of the underwriting agreement, the Selling Stockholder has agreed to sell to the underwriters, and each underwriter has severally agreed to purchase the number of shares of common stock listed next to its name in the following table:

Name	Number of Shares
J.P. Morgan Securities LLC	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Jefferies LLC	

Total

The underwriters are committed to purchase all the common shares offered by us if they purchase any shares. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or the offering may be terminated.

The underwriters may offer the shares of our common stock offered hereby from time to time for sale in one or more transactions on the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by the underwriters and subject to the underwriters' right to reject any order in whole or in part. The underwriters may effect such transactions by selling the shares of our common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or purchasers of shares of our common stock for whom they may act as agents or to whom they may sell as principal. The difference between the price at which the underwriters purchase shares of our common stock and the price at which the underwriters resell such shares may be deemed underwriting compensation. Sales of such shares made outside the United States may be made by affiliates of the underwriters.

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding the underwriting discounts and commissions, will be approximately \$.

A prospectus supplement in electronic format may be made available on the web sites maintained by one or more underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated to underwriters and selling group members that may make Internet distributions on the same basis as other allocations.

We have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or

(ii) enter into any swap or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of any shares of common stock or any such other securities (regardless of whether any of these transactions are to be settled by the delivery of shares of common stock or such other securities, in cash or otherwise), in each case without the prior written consent of the

S-20

underwriters for a period of 60 days after the date of this prospectus supplement, other than customary exceptions, including, but not limited to, any shares of our common stock issued upon the exercise of options granted under our existing stock-based compensation plans.

Certain funds of Pershing Square have entered into a lock-up agreement with the underwriters pursuant to which such funds of Pershing Square, with limited exceptions, for a period of 120 days after the date of this prospectus supplement, may not, without the prior written consent of the underwriters, (1) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock (including, without limitation, common stock or such other securities which may be deemed to be beneficially owned by such funds of Pershing Square in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant) or (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the common stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or such other securities, in cash or otherwise, or (3) make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock.

We and the Selling Stockholder have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

Our common stock is listed on the NYSE under the symbol HHC.

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of common stock in the open market for the purpose of preventing or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of the common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. The underwriters may close out a short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market that could adversely affect investors who purchase in this offering.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act of 1933, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids. This means that if the underwriters purchase common stock in the open market in stabilizing transactions or to cover short sales, the underwriters that sold those shares as part of this offering may be required to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the NYSE, in the over-the-counter market or otherwise.

Other than in the United States, no action has been taken by us or the underwriters that would permit a public offering of the securities offered by this prospectus supplement in any jurisdiction where action for that purpose is required. The securities offered by this prospectus supplement may not be offered or sold, directly or indirectly, nor may this prospectus supplement or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under

S-21

circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus supplement comes are advised to inform themselves about and to observe any restrictions relating to the offering and the distribution of this prospectus supplement. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities offered by this prospectus supplement in any jurisdiction in which such an offer or a solicitation is unlawful.

For the purposes of this provision, the expression an offer of shares to the public in relation to any shares in any Relevant Member State means the communication in any form and by means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase shares, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression Prospectus Directive means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

Our common stock trades on the New York Stock Exchange, or the NYSE, under the symbol **HHC**. The last reported sales price on October 16, 2012 was \$71.58. We do not intend to list the warrants on any exchange; accordingly, there will not be an established market price for the warrants. There is currently no established market price for the warrants. We expect that the offering price for the warrants will be based on the relationship between the exercise price of the warrants and the prevailing market price for our common stock at the time of sale.

We will not receive any of the proceeds from the sale of these shares of our common stock or the warrants by the selling stockholders.

Investing in shares of our common stock or the warrants involves risks. See Risk Factors beginning on page 3 of this prospectus and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and the other reports we file with the Securities and Exchange Commission that are incorporated by reference herein to read about factors you should consider before buying shares of our common stock or the warrants.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact included in this prospectus are forward-looking statements. Forward-looking statements give our current expectations relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to current or historical facts. These statements may include words such as anticipate, estimate, expect, project, forecast, plan, intend, believe, may, likely, and other words of similar expression. Forward-looking statements should not be unduly relied upon. They give our expectations about the future and are not guarantees. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance and achievements to materially differ from any future results, performance and achievements expressed or implied by such forward-looking statements. These forward-looking statements present our estimates and assumptions only as of the date of this prospectus. Except as may be required by law, we undertake no obligation to modify or revise any forward-looking statements to reflect events or circumstances occurring after the date of this prospectus. We caution you not to rely on these forward-looking statements.

In this prospectus and the documents incorporated by reference, for example, we make forward-looking statements discussing our expectations about:

capital required for our operations and development opportunities for the properties in our Operating Assets and Strategic Developments segments following the spin-off;

expected performance of our Master Planned Communities segment and other current income producing properties;

future liquidity;

future development opportunities; and

future development spending.

Factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements include:

our history of losses;

our inability to obtain operating and development capital;

a prolonged recession in the national economy and adverse economic conditions in the retail sector;

our inability to compete effectively;

our directors may be involved or have interests in other businesses, including real estate activities and investments;

our inability to control certain of our properties due to the joint ownership of such property and our inability to successfully attract desirable strategic partners;

potential conflicts with GGP (as defined below) arising from agreements with GGP with respect to certain of our assets;

risks associated with our spin-off from GGP not qualifying as a tax-free distribution for U.S. federal income tax purposes;

substantial stockholders having influence over us, whose interests may be adverse to ours or yours; and

the other risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 incorporated by reference therein.

PROSPECTUS SUMMARY

This summary contains basic information about us and the resale of securities being offered by the selling stockholders. It does not contain all of the information you should consider before investing. You should read this entire prospectus carefully, including the section entitled Risk Factors and our consolidated and combined financial statements and the notes thereto incorporated by reference in this prospectus, before making an investment decision. Unless the context otherwise requires, references to the Company, HHC, we, us and our refer to The Howard Hughes Corporation and its subsidiaries and joint venture interests after giving effect to the spin-off.

Overview

We are a developer and operator of master planned communities and mixed use properties. We currently operate our business in three segments: Master Planned Communities, Operating Assets and Strategic Developments. We are headquartered in Dallas, Texas and our assets are located across the United States.

We were incorporated in Delaware on July 1, 2010 to receive certain assets and liabilities of GGP, Inc., formerly known as General Growth Properties, Inc. (GGP and collectively with its subsidiaries, our predecessors), in connection with our predecessors emergence from bankruptcy. We completed our spin-off from GGP on November 9, 2010.

Shareholders Agreements

In order to fund a portion of our spin-off, GGP entered into investment agreements with the Plan Sponsors (as defined below). Pursuant to the terms of those agreements, we entered into agreements (the Shareholders Agreements) with each of (i) Brookfield Retail Holdings LLC, an affiliate of Brookfield Asset Management, Inc. (and its designees, as applicable, the Brookfield Investor), (ii) The Fairholme Fund and Fairholme Focused Income Fund (collectively, Fairholme) and (iii) Pershing Square Capital Management, L.P., on behalf of Pershing Square, L.P., Pershing Square II, L.P., Pershing Square International, Ltd. and Pershing Square International V, Ltd. (collectively, together with their permitted assigns, including PSRH, Inc., Pershing Square and, together with the Brookfield Investor and Fairholme, the Plan Sponsors). The Plan Sponsors entered into agreements with Blackstone Real Estate Partners VI, L.P. (Blackstone and together with its permitted assigns, the Blackstone Investors) whereby Blackstone subscribed for approximately 7.6% of the shares of reorganized GGP and our common stock issued to each of the Plan Sponsors under the Shareholders Agreements on November 9, 2010 and, in connection therewith, received an allocation of each of the Plan Sponsor s warrants described below to acquire our common stock (collectively, the Blackstone Designation). On November 9, 2010, the Plan Sponsors and the Blackstone Investors purchased \$6.3 billion of common stock of reorganized GGP and \$250.0 million of our common stock at \$47.619048 per share.

Upon consummation of the spin-off and after giving effect to the Blackstone Designation, we issued to the Brookfield Investor, Pershing Square, Fairholme and the Blackstone Investors 2,424,618, 1,212,309, 1,212,309 and 400,764 shares of our common stock, respectively, pursuant to the Shareholders Agreements and the Blackstone Designation. Of the Plan Sponsors and the Blackstone Investors, only Pershing Square received shares of our common stock pursuant to the spin-off in the amount of 2,355,708 shares, as a result of its ownership of shares of common stock of GGP prior to November 9, 2010.

Upon consummation of our predecessors plan of reorganization, we issued to the Brookfield Investor warrants to purchase approximately 3.83 million shares of our common stock. We issued to each of Fairholme and Pershing Square warrants to purchase approximately 1.92 million shares of our common stock and to the Blackstone Investors warrants to purchase approximately 0.33 million shares of our common stock, in each case, with an initial exercise price of \$50.00 per share. The per share exercise price has been adjusted from the

originally contemplated exercise price to reflect a reduction in the number of shares that will be issued for the same aggregate consideration upon exercise of the warrants. See **Related Party Transactions and Certain Relationships Transactions Prior to the Spin-Off** contained in our 2012 Definitive Proxy Statement on Schedule 14A and incorporated by reference herein.

As of October 16, 2012, the Brookfield Investor and Pershing Square beneficially owned 6.3% and 9.4%, respectively, of our common stock (excluding shares issuable upon exercise of the warrants). As of October 10, 2012, the Brookfield Investor, Fairholme, Pershing Square and the Blackstone Investors beneficially owned 16.1%, 4.8%, 13.7% and 0.9%, respectively, of our common stock (assuming exercise by the applicable warrant holder of all of its outstanding warrants).

Each of the Plan Sponsors has participation rights in future public and private equity issuances by us, to allow them to maintain their respective percentage ownership on a fully diluted basis. These participation rights terminate when the applicable Plan Sponsor's beneficial ownership (together with its affiliates' beneficial ownership) is less than 5% on a fully diluted basis.

Risk Factors

Investing in our common stock and warrants involves a high degree of risk. See **Risk Factors** beginning on page 3 of this prospectus and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and the other reports we file with the SEC that are incorporated by reference herein for a discussion of factors you should carefully consider before investing in our common stock or the warrants.

RISK FACTORS

An investment in our common stock or warrants involves a high degree of risk. You should carefully consider the following risk factors and the risk factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and the other reports we file with the SEC that are incorporated by reference herein, as well as the other information contained in this prospectus, before making an investment in our company. If any of the following risks actually occur, our business, financial condition and/or results of operations could be materially and adversely affected. In such an event, the trading price of our common stock and warrants could decline and you could lose part or all of your investment.

Risks Related to Our Warrants

The adjustment to the exercise price for warrants and the number of shares of common stock underlying each warrant in connection with an anti-dilutive adjustment event may not adequately compensate you for any lost value of your warrants as a result of such transaction.

If a specified corporate event or transaction constituting a dilutive event occurs, under certain circumstances we will adjust the exercise price for warrants and the number of shares of common stock underlying each warrant in connection with such dilutive adjustment event. The adjustment to the exercise price for warrants and the number of shares of common stock underlying each warrant will be determined based on the date on which the dilutive event occurs or becomes effective. The adjustment to the exercise price for warrants and the number of shares of common stock underlying each warrant in connection with a dilutive event may not adequately compensate you for any lost value of your warrants as a result of such dilutive event.

Under certain circumstances, holders may have to pay U.S. federal income tax as a result of a deemed distribution with respect to our common stock or warrants even if holders do not receive a corresponding distribution of cash such as, if we adjust, or fail to adjust, the exercise price of the warrants in certain circumstances.

Holders of our common stock or warrants may be treated as having received a constructive distribution in certain circumstances, for example if we make certain adjustments to (or fail to make adjustments to) the exercise price of the warrants and such adjustment (or failure to make an adjustment) has the effect of increasing the proportionate interest of certain holders in our earnings and profits or assets. Such a distribution could be treated as a taxable dividend or capital gain for U.S. federal income tax purposes even though holders do not receive any cash with respect to such constructive distribution. In addition, you may be subject to U.S. federal withholding tax on any such constructive distribution on our common stock or warrants. You are advised to consult your independent tax advisor regarding the possibility and tax treatment of any deemed distributions for U.S. federal income tax purposes.

Until the exercise of our warrants, holders of these securities do not have identical rights as holders of our common stock, but they will be subject to all changes made with respect to our common stock.

Holders of warrants are not entitled to any rights with respect to our common stock (including, without limitation, voting rights and rights to receive any dividends or other distributions on our common stock), but they will be subject to all changes affecting our common stock. See the description of our common stock and warrants set forth in our registration statement on Form 10/A, which we filed on November 4, 2010, which we have incorporated by reference herein. Holders of our warrants will have rights with respect to our common stock only if they receive our common stock upon exercise of the warrants and only as of the date when such holder becomes a record owner of the shares of our common stock upon such exercise. For example, with respect to warrants, if an amendment is proposed to our certificate of incorporation or bylaws requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the date a warrant holder is deemed to be the owner of the shares of our common stock due upon exercise of the warrants, the exercising warrant holder will not be

entitled to vote on the amendment, although such holder will nevertheless be subject to any changes in the powers, preferences or special rights of our common stock.

The market price of our common stock may or may not exceed the exercise price of the warrants.

The warrants granted to the Plan Sponsors are immediately exercisable or, in the case of the Fairholme warrants, upon 90 days written notice for the first 6.5 years and without notice anytime thereafter, and will expire seven years after our November 9, 2010 spin-off. The warrants granted to Messrs. Weinreb and Herlitz and Mr. Richardson become exercisable in November 2016 and February 2017, respectively, and expire in November 2017 and February 2018, respectively. Although as of October 16, 2012, the market price of our common stock exceeded the exercise price of the warrants, we cannot provide you with any assurance that the market price of our common stock will always remain in excess of the exercise price of the warrants in any or all periods prior to the date of expiration. Any warrants not exercised by their date of expiration will expire worthless and we will be under no further obligation to the warrant holder.

Since the warrants are executory contracts, they may have no value in a bankruptcy or reorganization proceeding.

In the event a bankruptcy or reorganization proceeding is commenced by or against us, a bankruptcy court may hold that any unexercised warrants are executory contracts that are subject to rejection by us with the approval of the bankruptcy court. As a result, holders of the warrants may, even if we have sufficient funds, not be entitled to receive any consideration for their warrants or may receive an amount less than they would be entitled to if they had exercised their warrants prior to the commencement of any such bankruptcy or reorganization proceeding.

There is no public market for the warrants.

There is no established public trading market for the warrants, and we do not expect a market to develop. In addition, we do not intend to apply for quotation or listing of the warrants on any securities exchange. Without an active market, the liquidity of the warrants will be limited. There can be no assurance that a market will ever develop for the warrants. Even if a market for the warrants does develop, the price of the warrants may fluctuate and liquidity may be limited. If a market for the warrants does not develop, then purchasers of the warrants may be unable to resell the warrants or sell them only at an unfavorable price for an extended period of time, if at all. Resale prices of the warrants will depend on many factors, including:

our operating performance and financial condition;

our ability to continue the effectiveness of the registration statement, of which this prospectus is a part, covering warrants and the common stock issuable upon exercise of the warrants;

the interest of securities dealers in making a market; and

the market for similar securities.

The market price of our warrants will be directly affected by the market price of our common stock, which may be volatile.

To the extent that a secondary market for our warrants develops, we believe that the market price of our warrants will be significantly affected by the market price of our common stock. We cannot predict how the shares of our common stock will trade in the future. This may result in greater volatility in the market price of our warrants than would be expected for non-exercisable securities.

If an effective registration is not in place and a current prospectus is not available when an investor desires to exercise warrants, such investor may be unable to exercise his, her or its warrants, causing such warrants to expire worthless.

Holders of shares of common stock received pursuant to the exercise of the warrants will be able to sell their warrant shares only if a registration statement relating to such securities is then in effect, or if such transaction is

exempt from the registration requirements of the Securities Act, as amended (the "Securities Act"), and such securities are qualified for sale or exempt from qualification under the applicable securities laws of the states in which the purchaser of such securities resides. We intend to use our best efforts to keep a registration statement in effect covering warrant shares and to maintain a current prospectus relating to warrant shares until the expiration of the warrants. We cannot assure you that we will be able to do so, and if we do not maintain a current prospectus related to the warrant shares, holders may be unable to sell their warrant shares. If the prospectus relating to the warrant shares is not current, the warrants may have no value, we will have no obligation to settle the warrants for cash, the market for such warrants may be limited, and such warrants may expire worthless.

USE OF PROCEEDS

We are registering these shares of our common stock and these warrants for the benefit of the selling stockholders. We will not receive any proceeds from the resale of our common stock or the warrants under this offering.

SELLING STOCKHOLDERS

The selling stockholders, pursuant to this prospectus, may from time to time offer and sell any or all of:

the shares of our common stock set forth in the table below under the column entitled Shares of Company Stock Beneficially Owned Prior to Offering ;

the warrants to purchase the number of shares of our common stock set forth in the table below under the column entitled Shares of Common Stock Underlying Warrants Beneficially Owned Prior to Offering ; and

the common stock issuable upon the exercise of the warrants set forth in the table below under the column entitled Shares of Common Stock Underlying Warrants Beneficially Owned Prior to Offering.

When we refer to selling stockholders in the Plan of Distribution section of this prospectus, we mean the persons listed in the table below, and the pledgees, donees, permitted transferees, assignees, successors and

others who later come to hold any of the selling stockholders' interests in shares of our common stock other than through a public sale. Except as noted in this prospectus or in the reports incorporated herein by reference, none of the selling stockholders have, or within the past three years have had, any material relationship with us or any of our predecessors or affiliates and the selling stockholders are not or were not affiliated with registered broker-dealers.

Based on the information provided to us by the selling stockholders and as of the date the same was provided to us, assuming that the selling stockholders sell all of the shares of our common stock and warrants owned or beneficially owned by them that have been registered by us and do not acquire any additional shares during the offering, the selling stockholders will not own any shares other than those appearing in the column entitled "Shares of Common Stock Beneficially Owned After the Offering Number of Shares." We cannot advise you as to whether the selling stockholders will in fact sell any or all of such shares of common stock or warrants to acquire our common stock. In addition, the selling stockholders may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time and from time to time, the shares of our common stock or warrants to acquire our common stock in transactions exempt from the registration requirements of the Securities Act after the date as of which the information is set forth on the table below.

Beneficial ownership of shares is determined under SEC rules and generally includes any shares over which a person exercises sole or shared voting or investment power. Shares of common stock subject to warrants or options currently exercisable or exercisable within 60 days of the date of this prospectus are deemed to be outstanding and beneficially owned by the person and any group of which that person is a member, but are not deemed outstanding for the purpose of computing the percentage of beneficial ownership for any other person.

Except as noted by footnote, and subject to community property laws where applicable, we believe based on the information provided to us that the persons and entities named in the table below have sole voting and investment power with respect to all shares of our common stock shown as beneficially owned by them. Unless otherwise noted below, the address of the persons and entities listed in the table is c/o The Howard Hughes Corporation, 13355 Noel Road, 22nd Floor, Dallas, Texas 75240.

PLAN OF DISTRIBUTION

We are registering shares of HHC common stock and warrants issued or issuable to the selling stockholders to permit the resale of these shares of HHC common stock and warrants by the holders thereof from time to time after the date of this prospectus. We are registering: (i) shares of our common stock issued to Pershing Square and GTC, as trustee, in connection with the spin-off; (ii) warrants issued to the Brookfield Investor, Fairholme, Pershing Square and the Blackstone Investors pursuant to our predecessors' plan of reorganization; (iii) shares of our common stock issuable upon exercise of the warrants issuable to the Brookfield Investor, Fairholme, Pershing Square and the Blackstone Investors pursuant to our predecessors' plan of reorganization; (iv) shares of our common stock issued to the Brookfield Investor and Pershing Square pursuant to the Shareholders Agreements; and (v) shares of our common stock issuable upon exercise of the warrants issuable to Mr. Weinreb and Mr. Herlitz pursuant to their respective warrant purchase agreements, dated November 22, 2010, and to Mr. Richardson pursuant to his warrant purchase agreement dated February 25, 2011 (all together, the Executive Warrant Agreements). We do not know whether, when or in what amount the selling stockholders may offer the shares or warrants for sale. We expect that the offering price for our common stock will be based on the prevailing market price of our common stock at the time of sale. There is currently no established market price for the warrants. We expect that the offering price for the warrants will be based on the relationship between the exercise price of the warrants and the prevailing market price for our common stock at the time of sale.

Some of the shares of our common stock and the warrants offered hereby were originally issued to the Plan Sponsors pursuant to an exemption from the registration requirements of the Securities Act. The Blackstone Investors are permitted assignees of the rights of the Plan Sponsors. We agreed to register such shares of our common stock and the warrants pursuant to the Shareholders Agreements and the Warrant Agreement, dated November 9, 2010, between The Howard Hughes Corporation and Mellon Investor Services LLC. We also agreed to register the common stock issuable to GTC pursuant to a Registration Rights Agreement, dated November 9, 2010, between The Howard Hughes Corporation and M.B. Capital Partners III. We will pay all expenses of the registration of the shares of our common stock and the warrants pursuant to: (i) the Registration Rights Agreement, dated November 9, 2010, between The Howard Hughes Corporation, GTC and M.B. Capital; (ii) the Registration Rights Agreement, dated November 9, 2010, between The Howard Hughes Corporation and the Brookfield Investor; (iii) the Registration Rights Agreement, dated November 9, 2010, between The Howard Hughes Corporation and Fairholme; and (iv) the Registration Rights Agreement, dated November 9, 2010, between The Howard Hughes Corporation and Pershing Square (all together, the Registration Rights Agreements), including, without limitation, SEC filing fees and expenses of compliance with state securities or "blue sky" laws; provided, however, that each selling stockholder will pay all underwriting discounts and selling commissions. We will indemnify the selling stockholders against certain liabilities, including some liabilities under the Securities Act, in accordance with the Registration Rights Agreements or the selling stockholders will be entitled to contribution. We may be indemnified by the selling stockholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling stockholders specifically for use in this prospectus, in accordance with the Registration Rights Agreements or we may be entitled to contribution.

Pursuant to the Executive Warrant Agreements: (i) Mr. Weinreb purchased a warrant to acquire 2,367,985 shares of Company common stock for a purchase price of \$15.0 million in cash, which purchase price was determined to be at current fair value; (ii) Mr. Herlitz purchased a warrant to acquire 315,731 shares of Company common stock for a purchase price of \$2.0 million in cash, which purchase price was determined to be at current fair value; and (iii) Mr. Richardson purchased a warrant to acquire 178,971 shares of company common stock for a purchase price of \$2.0 million in cash, which purchase price was determined to be at current fair value.

We agreed to register the shares of our common stock subject to the Executive Warrant Agreements with Mr. Weinreb, Mr. Herlitz and Mr. Richardson. We will pay all expenses of the registration of the shares of our common stock, including, without limitation, SEC filing fees and expenses of compliance with state securities or "blue

sky laws; provided, however, that each selling stockholder will pay all underwriting discounts and selling commissions.

We will not receive any proceeds from sales of any shares of our common stock or warrants by the selling stockholders.

The selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest selling shares received from a named selling stockholder as a gift, partnership distribution or other non-sale-related transfer after the date of this prospectus (all of whom may be selling stockholders)) may sell all or a portion of the shares of HHC common stock or warrants beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents, and any broker-dealers or agents may arrange for other broker-dealers or agents to participate in effecting sales of these securities. These underwriters or broker-dealers may act as principals, or as an agent of a selling stockholder. If the shares of HHC common stock or warrants are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of HHC common stock or warrants may be sold on any national securities exchange or automated interdealer quotation system on which the securities may be listed or quoted at the time of sale, in the over-the-counter market or in transactions otherwise than on these exchanges or systems or in the over-the-counter market and in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in a variety of transactions, which may involve crosses or block transactions. The selling stockholders may use any one or more of the following methods when selling shares or warrants:

purchases by underwriters, brokers, dealers, and agents who may receive compensation in the form of underwriting discounts, concessions or commissions from the selling stockholders and/or the purchasers of the shares or warrants for whom they may act as agent;

ordinary brokerage transactions and transactions in which the broker solicits purchasers;

one or more block trades in which a broker or dealer so engaged will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction, or in crosses in which the same broker acts as agent on both sides;

purchases by a broker or dealer (including a specialist or market maker) as principal and resale by such broker or dealer for its account pursuant to this prospectus;

an exchange distribution in accordance with the rules of any stock exchange on which the shares of HHC common stock or warrants are listed;

face-to-face privately negotiated transactions between sellers and purchasers without a broker-dealer;

an agreement between broker-dealers and the selling stockholders to sell a specified number of such shares or warrants at a stipulated price per share;

the pledge of shares or warrants as security for any loan or obligation, including pledges to brokers or dealers who may from time to time effect distributions of the shares, the warrants or other interests in the shares;

settlement of short sales or transactions to cover short sales relating to the shares or warrants entered into after the effective date of the registration statement of which this prospectus is a part;

distributions to creditors, equity holders, partners and members of the selling stockholders;

transactions in options, swaps or other derivatives (whether listed on an exchange or otherwise);

sales in other ways not involving market makers or established trading markets, including direct sales to institutions or individual purchasers; and

any combination of the foregoing or by any other legally available means.

The selling stockholders may also transfer the shares of our common stock or warrants by gift. We do not know of any arrangements by the selling stockholders for the sale of any of the shares of our common stock or warrants.

The selling stockholders also may resell all or a portion of the shares of our common stock or the warrants in open market transactions in reliance upon Rule 144 under the Securities Act, as permitted by that rule, or Section 4(1) under the Securities Act, if available, rather than under this prospectus, provided that they meet the criteria and conform to the requirements of those provisions.

Brokers or dealers engaged by the selling stockholders may arrange for other brokers or dealers to participate in sales. If the selling stockholders effect such transactions by selling shares of our common stock or warrants to or through underwriters, brokers, dealers or agents, such underwriters, brokers, dealers or agents may receive compensation in the form of discounts, concessions or commissions from the selling stockholders. Underwriters, brokers, dealers or agents may also receive compensation from the purchasers of shares of our common stock for whom they act as agents or to whom they sell as principals, or both. Such commissions will be in amounts to be negotiated, but, except as set forth in a supplement to the prospectus contained in the registration statement, in the case of an agency transaction will not be in excess of a customary brokerage commission in compliance with NASD Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with NASD IM 2440-1 and NASD IM 2440-2.

In connection with sales of the shares of our common stock, the warrants or otherwise, the selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of shares of our common stock or the warrants in the course of hedging in positions they assume. The selling stockholders may also sell these securities short, and if such short sales shall take place after the date that the registration statement is declared effective by the SEC securities, the selling stockholders may deliver the securities covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholders may also loan or pledge shares of our common stock or the warrants to broker-dealers that in turn may sell such securities, to the extent permitted by applicable law. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or one or more derivative transactions which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction). Notwithstanding the foregoing, the selling stockholders have been advised that they may not use securities registered on the registration statement to cover short sales of our common stock made prior to the date the registration statement, of which this prospectus forms a part, has been declared effective by the SEC.

Subject to any applicable company policy, the selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) may, from time to time, pledge, hypothecate or grant a security interest in some or all of the securities registered by the registration statement owned by them and, if they default in the performance of their secured obligations, the pledgees, secured parties or persons to whom the securities have been hypothecated may offer and sell such securities from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, amending, if necessary, the list of selling stockholders to include the pledgee, transferee, persons to whom the securities have been hypothecated or other successors in interest as selling stockholders under this prospectus. The plan of distribution for that selling stockholder's shares of our common stock or the warrants will otherwise remain unchanged. The selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) also may transfer and donate the shares of our common stock or the warrants in other circumstances in which case the transferees, donees, pledgees, persons to whom the securities have been hypothecated or other successors in interest thereof will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) and any broker-dealers or agents participating in the distribution of the shares of our common stock may be deemed to be underwriters within the meaning of Section 2(a)(11) of the Securities Act in connection with such sales. In such event, any profits realized by the selling stockholders and any compensation earned by such

broker-dealers or agents may be deemed to be underwriting commissions or discounts under the Securities Act. Selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) who are underwriters within the meaning of Section 2(a)(11) of the Securities Act will be subject to the applicable prospectus delivery requirements of the Securities Act including Rule 172 thereunder and may be subject to certain statutory liabilities of, including, but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act. We will make copies of this prospectus (as it may be amended or supplemented from time to time) available to the selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) for the purpose of satisfying any prospectus delivery requirements. Except as otherwise set forth herein, each selling stockholder has informed the Company that it is not a registered broker-dealer or is not an affiliate of a registered broker-dealer and does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute our common stock or the warrants. In no event shall any broker dealer receive fees, commissions and markups that, in the aggregate, would exceed eight percent (8%). Brookfield Financial US, LLC, an affiliate of Brookfield Investor, is a Delaware limited liability company formed on July 21, 2009 and a registered broker-dealer. Its registration with the SEC and Financial Industry Regulatory Authority was approved on March 31, 2010.

Under the securities laws of some states, the shares of our common stock or the warrants may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of our common stock or the warrants may not be sold unless such shares or the warrants have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with by us.

The selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) may sell the shares covered by this prospectus from time to time, and may also decide not to sell all or any of the shares they are allowed to sell under this prospectus. The selling stockholders (or their pledgees, donees, transferees, distributees or successors in interest) will act independently of us in making decisions regarding the timing, manner, and size of each sale. There can be no assurance, however, that all or any of the shares will be offered by the selling stockholders. We know of no existing arrangements between any selling stockholders and any broker, dealer, finder, underwriter, or agent relating to the sale or distribution of the securities.

Each selling stockholder (or its pledgees, donees, transferees, distributees or successors in interest) and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of our common stock or the warrants by the selling stockholder and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares of our common stock or the warrants to engage in market-making activities with respect to the shares of our common stock or the warrants. All of the foregoing may affect the marketability of the shares of our common stock or the warrants and the ability of any person or entity to engage in market-making activities with respect to the shares of our common stock or the warrants.

To the extent permitted by applicable law, this plan of distribution may be modified in a prospectus supplement or otherwise. All of the foregoing may affect the marketability of the securities offered hereby. This offering will terminate on the date that all securities offered by this prospectus have been sold by the selling stockholders.

LEGAL MATTERS

Certain legal matters will be passed upon for us by Peter F. Riley. Peter F. Riley has issued an opinion to us as to the validity of the securities offered hereby.
