IMPORTANT LEGAL INFORMATION

Definitions and interpretations used in this prospectus are contained on pages 10 to 16.

This prospectus constitutes an invitation to subscribe for Welkom Yizani ordinary shares, which is made in South Africa only

and is addressed to those persons to whom it may lawfully be made. The distribution of this prospectus and the public offer may be restricted by law. Persons who are in possession of this prospectus must inform themselves about and observe

any such restrictions.

The public offer is subject to the conditions set out in paragraph 3 headed "Details of the public offer" on page 17 of this prospectus.

The acquisition of Welkom Yizani ordinary shares involves risks which should be taken into account by the prospective

investors. These risks primarily relate to the performance of the underlying Media24 ordinary shares held indirectly by Welkom Yizani. Therefore, you should carefully consider the information relating to Media24 provided in this prospectus, as well as the risks related to Media24's business as described in paragraph 6.4 on page 40 of this prospectus

and the other information in this prospectus before making a decision to purchase Welkom Yizani ordinary shares.

Although information has been provided herein in relation to Welkom Yizani ordinary shares, a prospective purchaser, having

made enquiries, should use his own judgment and seek advice from an independent financial adviser as to the appropriate

value of such Welkom Yizani ordinary shares. In considering whether to invest in Welkom Yizani ordinary shares, each investor

should have regard to, among others, the following issues:

- the risks relating to Media24's business as set out in paragraph 6.4 on page 40 of this prospectus;
- the absence of tradability of Welkom Yizani ordinary shares during the Minimum Investment Period;
- the possible lack of liquidity of the Welkom Yizani ordinary shares due to the restrictive conditions on transferability as set

out in paragraph 5.17.3 on page 27;

- the possible lack of liquidity of Welkom Yizani ordinary shares as they are not listed on any stock exchange and the fact that

the market value thereof will not be readily available; and

- the interest rate risks in relation to dividends declared in respect of the Welkom Yizani preference shares.

The Welkom Yizani ordinary shares will not be listed on any stock exchange but, subject to certain limitations as set out in

paragraph 3 headed "Details of the public offer" on page 17 of this prospectus, Naspers shall use its best commercial endeavours to create a mechanism to facilitate the trading in, and also private transfers of, Welkom Yizani ordinary shares

after the Minimum Investment Period to eligible Black People and Black Groups. [23]

The Welkom Yizani ordinary shares for which subscriptions are invited in terms of this prospectus are currently new and

unissued shares in Welkom Yizani, which will be allotted and issued pursuant to successful applications for subscription.

The proceeds from the subscription for these Welkom Yizani ordinary shares will be used to pay for 20% of the purchase

price payable by Welkom Yizani to acquire Media24 Holdings ordinary shares. Media24 Holdings' sole asset is 92.31% (which

following a proposed share buy-back will become 96.99%) of the Media24 ordinary shares. The funding raised by the issue of

the Welkom Yizani preference shares in Welkom Yizani will be used to pay for the remaining 80% of the purchase

price

payable for the Media24 Holdings ordinary shares purchased by Welkom Yizani.

Unless the context clearly indicates otherwise, all information provided in this prospectus is provided as at the last practicable date.

You are, however, cautioned that this summary is of a general nature only and is neither detailed nor comprehensive. In particular, the summary does not set out all of the qualifications and limitations which may apply to, and qualify, the general information provided. Accordingly, this summary must not be read in isolation, and is not a substitute for a thorough consideration of the entire prospectus and the documents referred to herein.

The definitions and interpretations commencing on page 10 of this prospectus apply to this summary of the Media24 Empowerment Transaction.

1. WHAT IS THE PURPOSE OF THE MEDIA24 EMPOWERMENT TRANSACTION?

Naspers wishes to implement the Media24 Empowerment Transaction, which is a BEE ownership initiative in respect of Media24 in furtherance of the Naspers group's empowerment objectives. It is also intended to meet the empowerment requirements set out in the BBBEE Legislation. The equity empowerment conditions set out under the BBBEE Legislation are fixed and no dilution of the empowerment equity is permitted until the BBBEE Legislation is amended or ceases to remain in force.

3. WHAT ARE THE CONDITIONS THAT APPLY TO THE WELKOM YIZANI ORDINARY SHARES?

The following conditions apply:

to approval and verification by the WSTC;

- the Welkom Yizani ordinary shares must be held in certificated form and the share certificates must be deposited with

Link Market Services who shall hold them on your behalf until they are validly transferred in accordance with the provisions of the Media24 Holdings Shareholders Agreement and the articles; and

- no Welkom Yizani ordinary shareholder and its associate can, at any time, own more than 10% of the total number of the Welkom Yizani ordinary shares in issue.

4. WHAT ARE THE BENEFITS OF TAKING PART IN THE MEDIA24 EMPOWERMENT TRANSACTION?

The Media24 Empowerment Transaction will give you the opportunity to:

- indirectly own a stake in Media24, with the funding for 80% of this stake being provided by Naspers through the

Welkom Yizani preference shares and the remaining 20% being provided by you through your application for the Welkom Yizani ordinary shares; and

- participate in receiving cash, through dividends distributed by Welkom Yizani.

5. WHO CAN TAKE PART IN THE MEDIA24 EMPOWERMENT TRANSACTION?

7. WHAT HAPPENS WHEN TOO MANY SHARES HAVE BEEN APPLIED FOR?

Preference will be given firstly to Black Persons and thereafter to Black Groups who are preferred suppliers to Media24 in preference to other Black Groups.

If you have paid and applied for more Welkom Yizani ordinary shares than we eventually allocate to you, we will refund to you the excess amount by electronic funds transfer. You will not earn any interest on the monies which are refunded to you and you shall bear the risk in respect of such electronic funds transfer.

Your application and required documents will be pre-examined at an FNB branch and may be rejected if the application form is not completed in full or if all the necessary documentation is not attached.

All applications must be received by FNB before the Closing Date, being 15:00 on 27 October 2006.

Application forms received after the Closing Date will be disregarded. In addition any application form received, which does not contain all the documentation required or which has not been completed in full, will be rejected and your money will be returned to you by way of electronic transfer. You shall bear the risk in respect of such electronic funds transfer.

13. HOW CAN I PAY FOR MY WELKOM YIZANI ORDINARY SHARES?

- by cheque or postal order, which must be attached to the application form. The cheque must be crossed

“not transferable” with the words “or bearer” deleted and the words “Welkom Yizani” written on the back and made payable to “**Welkom Yizani**”. If the cheque is dishonoured, your application will be rejected; or

- by FNB debit card presented with your completed application form at an FNB branch; or
- by cash, at an FNB branch.

Directors reserve the right to accept payment in any other form in their sole discretion.

Please note: Credit card payments will not be accepted.

7

14. WHEN DO I HAVE TO PAY FOR MY WELKOM YIZANI ORDINARY SHARES?

The public offer will open on 29 September 2006 at 08:00 and will close on 27 October 2006 at 15:00.

Any changes to the above dates and times (if any) will be published in the South African press and lodged with the Registrar.

16. WHEN WILL MY WELKOM YIZANI ORDINARY SHARES BE ALLOCATED TO ME?

The process of allocating and issuing shares to subscribers should be completed within 30 business days after the Closing Date, and you will then be notified of the number of shares allocated to you, if any. 17. HOW WILL MY WELKOM YIZANI ORDINARY SHARES BE DELIVERED TO ME?

A statement will be sent to you to provide you with a written record of your shareholding. A share certificate will be issued,

but will be retained and held by Link Market Services on your behalf. It will be released, if necessary, for implementing any

18. WHAT MAY DISQUALIFY ME FROM THE MEDIA24 EMPOWERMENT TRANSACTION?

The following may disqualify you:

- if you fail to submit your application form with the required documentation and/or payment before or on the Closing Date;
- if you fail to meet the qualification criteria;
- if you fail to pay for the Welkom Yizani ordinary shares or Welkom Yizani has not received your payment;
- if you make any fraudulent or untrue statement in your application form;
- if you have committed an act or made an omission that disqualifies you from the Media24 Empowerment Transaction set out in the articles of Welkom Yizani; or
- if your application form is not complete or the information contained therein cannot be verified to Welkom Yizani's and Naspers' satisfaction.

The Board and the Naspers board of directors may also disqualify any person from becoming a shareholder in Welkom

Yizani in their sole discretion.

19. WHAT ARE THE CONSEQUENCES OF BEING DISQUALIFIED?

Your application for Welkom Yizani ordinary shares will be rejected and any funds received from you will be returned to

you, without interest.

20. WHAT ARE THE CONSEQUENCES IF I AM DISQUALIFIED AFTER I RECEIVE AN ALLOTMENT OF THE WELKOM YIZANI ORDINARY SHARES?

If the disqualification or default occurs or is discovered after the Welkom Yizani ordinary shares have already been allotted, Naspers shall be entitled to ask you to sell to it all of your Welkom Yizani ordinary shares at PAR VALUE. This is intended to punish fraud and to protect Welkom Yizani and its other shareholders. This call option is set out in the articles of Welkom Yizani.

Note that should you, when applying for Welkom Yizani ordinary shares or at any time thereafter, misrepresent your BEE status/rating or commit any action which amounts to fronting (as contemplated in the BBBEE Legislation), you run

the risk of either being disqualified from participating in the Media24 Empowerment Transaction (with your application

for Welkom Yizani ordinary shares accordingly being rejected), or being required to sell the Welkom Yizani ordinary shares that were issued to you pursuant to the public offer, at their PAR VALUE, in accordance with the articles.

21. WHY IS THERE A MINIMUM INVESTMENT PERIOD?

The Minimum Investment Period serves to:

- allow for a reasonable period of time to provide the potential opportunity for Welkom Yizani’s investment in Media24 Holdings to accrue value, considering the initial composition of equity and preference share funding in the capital that Welkom Yizani will raise to buy the interest in Media24 Holdings; and
- ensure that efficient mechanisms are put in place for the Welkom Yizani ordinary shares to be traded.

8

22. IS THERE CAPITAL PROTECTION?

No, there is no capital protection. The Welkom Yizani ordinary shares purchased through the Media24 Empowerment Transaction will be subject to all the normal investment risks faced by the ordinary shareholders of other companies.

23. MAY I EXIT THE MEDIA24 EMPOWERMENT TRANSACTION DURING THE REQUIRED MINIMUM INVESTMENT PERIOD OR THEREAFTER?

No, but you may exit after the Minimum Investment Period.

status/rating than yourself, in terms of the articles.

25. WHAT IF I BECOME INSOLVENT AND MY ESTATE IS SEQUESTERED INVOLUNTARILY DURING THE MINIMUM INVESTMENT PERIOD?

Then your estate will be permitted to transfer your shares to an eligible Black Person having at least a similar or higher

BEE status/rating than yourself, in terms of the articles.

26. CAN I TRANSFER MY WELKOM YIZANI ORDINARY SHARES OR MY RIGHTS OR INTERESTS THERETO TO ANY THIRD PARTY DURING THE MINIMUM INVESTMENT PERIOD?

this will indicate the performance of its underlying investment.

29. HOW CAN I TRACK MOVEMENTS IN WELKOM YIZANI'S ORDINARY SHARE PRICE?

During the Minimum Investment Period, the Welkom Yizani ordinary shares will not be traded. After the Minimum Investment Period, it is intended that the Welkom Yizani ordinary shares will be tradable on the Trading Market (as defined) or privately and their price will be based on the free market price between a willing BEE buyer and a willing seller.

30. HOW WILL I TRADE MY WELKOM YIZANI ORDINARY SHARES AFTER THE MINIMUM INVESTMENT PERIOD?

After the expiry of the Minimum Investment Period, Naspers shall use its best commercial endeavours to create a mechanism to facilitate the public trading in, and also private transfers of, Welkom Yizani ordinary shares, but only to eligible Black People and Black Groups.

Welkom Yizani, unless otherwise permitted by the Welkom Yizani preference holders and on the basis that Welkom Yizani is not in default, shall use the ordinary cash dividends and other cash income received from Media24 Holdings in the following order of priority as set out in the articles:

- firstly, Welkom Yizani shall pay or provide a reasonable amount from time to time, but not exceeding R50 000 per annum (escalating each year), for the costs, including income tax and/or Capital Gains Tax and/or any other statutory costs payable by Welkom Yizani and expenses incurred, or to be incurred, by Welkom Yizani in the course of:

5.7

Welkom Yizani preference shares [8(c), 16]

5.7.1

Details of the preference shares issued to Naspers and the rights and privileges thereof

Naspers has committed, through the Welkom Yizani preference share subscription agreement, to provide preference share funding in an amount of up to R584 000 000 to Welkom Yizani to purchase Media24 Holdings ordinary shares and such additional funding as may be required to pay the expenses incurred by the Company in respect of the Media24 Empowerment Transaction. In other words, for each Welkom Yizani ordinary share subscribed for in terms of this public offer, Naspers will subscribe for four Welkom Yizani preference shares at R10,00 per Welkom Yizani preference share.

Welkom Yizani preference dividends are ordinarily calculated daily at the rate of 75% of prime.

However, in the event that Welkom Yizani fails to pay a preference dividend in terms of the priority of payments, or fails to redeem the Welkom Yizani preference shares when required to do so, or otherwise defaults in respect of the Welkom Yizani preference shares, the amount in default will attract an accumulated dividend at the default rate of prime plus 2% until the default is cured. The Welkom Yizani preference dividends will also be increased, if necessary, to keep the net after tax return to the Welkom Yizani preference holders the same in the event of:

- (i) any change in law, regulation or practice (or interpretation or application thereof); or
- (ii) a change in the rate of tax; or
- (iii) the imposition of any tax, penalty or interest imposed on the Welkom Yizani preference holder should any allowances or deductions claimed by them in respect of their preference shareholding be disallowed, reversed or reduced; or
- (iv) should the Welkom Yizani preference holder(s) be subject to any tax not taken into account in determining the initial net after tax return.

The Welkom Yizani preference dividends will also be decreased, if necessary, to keep the net after tax return to Welkom Yizani preference holders the same in the event of any favourable change in law, regulation or practice (or interpretation or application thereof) or rate of tax.

In terms of the Welkom Yizani preference share subscription agreement and the Constitutional Documents, Welkom Yizani is not permitted to raise any other borrowings from third party funders.

5.7.2

Trigger Events

Trigger Events are defined in the articles and, broadly speaking, include the following:

- certain 'insolvency' or credit default type events. These include:
 - (a) if Welkom Yizani is placed into provisional or final liquidation, or sequestration or judicial management or a resolution is passed or proposed therefor;
 - (b) if Welkom Yizani makes, or attempts to make, or recommends, any general offer of compromise with its creditors; or
 - (c) (unless steps to rescind the judgement, award or attachment order are initiated and expeditiously pursued) if a court judgement or arbitration award in an amount of R5 million or more is made against Welkom Yizani or, if any of its assets with an aggregate market value of R10 million or more are subjected to judicial attachment, and Welkom Yizani fails to procure that the order or judgement is rescinded or reversed, or the attachment order lifted, as the case may be, within 30 business days of such judgement, award or attachment order;

- if Welkom Yizani defaults under (or repudiates) any Transaction Document to which it is a party (including the articles), and fails to remedy the default following notice from the majority Welkom Yizani preference holders;
-

if any material adverse change (as defined in the articles) occurs in relation to Welkom Yizani which is not remedied following notice from the majority of the Welkom Yizani preference holders;

•

if at any time it is or becomes unlawful for Welkom Yizani to perform or comply with all or any of its obligations under any Transaction Document to which it is a party, which obligations are or are deemed to be material, of any such obligations are not, or cease to be, legal, valid, binding and/or enforceable;

•

if Welkom Yizani receives any notice of any proceedings at the instance of, or before, any court of law, governmental or *quasi*-governmental authority, having jurisdiction over it and/or its assets, which proceedings involve or are intended to result in Welkom Yizani being or becoming obliged to dispose of any of its assets having a value (individually or collectively) equal to or exceeding R100 000.

23

If any Trigger Event occurs, or Welkom Yizani fails, when required, to redeem a Welkom Yizani preference share in issue in full, the Welkom Yizani preference holders shall have the right:

- (under power of attorney) to sell all or any of the assets of Welkom Yizani including, but not limited to, the Media24 Holdings ordinary shares;
- to solely administer the funds received on behalf of Welkom Yizani; and
- to vote at the meetings of Welkom Yizani, as further set out in paragraph 5.7.4 below.

5.7.3

Redemption rights and rights on deregistration, winding up or judicial management

The Welkom Yizani preference shares are redeemable on any of the following:

- after 10 years or such extended period as Naspers may permit from the date on which the Welkom Yizani preference shares were subscribed for; or
- following a Trigger Event (at the instance of the Welkom Yizani preference holders); or
- *before* three years and one day from the date of subscription out of available cash in the Company, as stipulated in paragraph 5.6 on page 21 of this prospectus (at the instance of Welkom Yizani), such redemption being voluntary; or
- *after* three years and one day from the date of subscription out of available cash in the Company as stipulated in paragraph 5.6 on page 21 of this prospectus, such redemption being compulsory.

The Welkom Yizani preference shares may not be redeemed (other than with the consent of the majority of Welkom Yizani preference holders) to less than the Pref Threshold.

In the event of the deregistration, winding up or judicial management of Welkom Yizani, the Welkom Yizani preference holders will be entitled to receive the outstanding amount owing on their preference funding from Welkom Yizani (as well as a fractional portion of the remaining residue), before the Welkom Yizani ordinary shareholders can receive liquidation payments in respect of their ordinary shares.

5.7.4

Welkom Yizani preference shares' voting rights

Welkom Yizani preference shares do not generally entitle the Welkom Yizani preference holders to vote at general meetings of Welkom Yizani.

However, in limited circumstances, Welkom Yizani preference holders are entitled to attend and vote at such meetings. Broadly speaking, these are:

- if (but only for so long as) Welkom Yizani is in default in paying any preference dividend or in redeeming any Welkom Yizani preference share which is required to be redeemed;
- if (but only for so long as) any Trigger Event has occurred; and/or
- if any resolutions are proposed in respect of certain matters as set out in the articles.

In addition, none of the following actions may be taken by the Company without the permission of, or special resolution by, the Welkom Yizani preference holders:

- any change to the terms of the Welkom Yizani preference shares;
- any reduction or variation in the share capital or stated capital of the Company (except as envisaged in the Welkom Yizani preference shares subscription agreement or the articles);

- any use of the share premium account other than to redeem the Welkom Yizani preference shares or other purposes permitted in the articles; and

- the creation or issue of any shares having rights ranking in priority to, or equally with, the Welkom Yizani preference shares.

5.7.5

Proceedings at the Company's meetings at which Welkom Yizani preference holders can vote

At and in respect of any such meetings of Welkom Yizani, the provisions of the articles in relation to the calling of such meetings and the voting of Welkom Yizani ordinary shareholders apply *mutatis mutandis* to the Welkom Yizani preference holder; provided that no resolution relating to certain matters stated in the articles may be passed at any meeting of Welkom Yizani unless the majority of the Welkom Yizani preference holders have voted in favour of that resolution. At any meeting at which the Welkom Yizani preference holders are entitled to vote, the Welkom Yizani preference holders will, on a poll, be

24

entitled to a vote for each Welkom Yizani preference share held by them equal to that portion of the total votes of the Company which the nominal value of the Welkom Yizani preference share bears to the aggregate amount of all shares in issue by Welkom Yizani as required under section 195 of the Act. In respect of such matters, each Welkom Yizani ordinary share shall similarly entitle the holder thereof to a vote equal to that portion of the total votes of the Company which the nominal value of the Welkom Yizani ordinary share bears to the aggregate nominal amount of all Welkom Yizani shares in issue.

5.8

Operations of Welkom Yizani [6(b) and 6(e)]

Periodically, Welkom Yizani expects to receive ordinary dividends from its investment in Media24 Holdings. These ordinary dividends will be used for the purposes as set out in paragraph 5.6 on page 21 of this prospectus.

5.9

Acquisition of Media24 Holdings ordinary shares by Welkom Yizani

In terms of the Media24 Holdings sale and purchase agreement, Welkom Yizani will, using the funds raised from the issue of Welkom Yizani ordinary shares and Welkom Yizani preference shares, acquire the Sale Shares from Naspers (“the Sale Shares”).

The Sale Shares are sold with effect from the Implementation Date, from which date all risk in and benefits attaching to them will pass to Welkom Yizani.

The purchase price for each Sale Share is R50,00. Payment of the purchase price shall be made by Welkom Yizani to Naspers, in cash, on the Implementation Date, by way of electronic funds transfer to the bank account specified by Naspers in writing (free of exchange and bank commission and free of set-off or any other withholding or deduction and free of any levies, surcharge, sales tax, value-added tax, withholding tax or any other taxes, duties or imposts levied from time to time). Notwithstanding the foregoing, Naspers shall be entitled to set off the subscription price for the Welkom Yizani preference shares against the payment of the purchase price.

5.9.1

Warranties

In terms of the Media24 Holdings sale and purchase agreement, Naspers has given the following warranties to Welkom Yizani that, to the best of its knowledge and belief:

- it is and will be the sole registered and beneficial owner of the Sale Shares and will be reflected in the register of members of Media24 Holdings as the sole owner of the Sale Shares;
- it has the necessary power and authority to enter into and perform its obligations under the Media24 Holdings sale and purchase agreement;
- no person has, as at the Implementation Date, any right or option or right of first refusal to acquire any of the Sale Shares or to subscribe for or take up any of the unissued Media24 Holdings ordinary shares, nor are any of the Sale Shares subject to any lien or other preferential right;
- Naspers is entitled to dispose of the Sale Shares to Welkom Yizani and that upon delivery thereof to Welkom Yizani, Welkom Yizani will be the beneficial owner of the Sale Shares to the exclusion of all others.

Naspers shall not be liable to Welkom Yizani for payment of damages in respect of any breaches of the warranties contained in the Media24 Holdings sale and purchase agreement, unless a claim is made in writing therefor on or before the first anniversary of the Implementation Date setting out such details as are available on the specific matter in respect of which the claim is made, including an estimate of the amount of such claim. The maximum liability of Naspers for damages under this agreement, including but not limited to damages for breach of warranty, shall not exceed the purchase price actually paid to Naspers for the Sale Shares.

5.9.2

Co-operation and support

Each of Welkom Yizani and Naspers undertakes (at its own expense) to co-operate with and assist the other, and to procure that Media24 Holdings does so as well, by providing the respective shareholders with such information, records and documents pertaining to Media24 Holdings as may be reasonably required from time to time by Welkom Yizani and/or Naspers for accounting purposes and/or for the preparation and/or filing by the respective parties of any submissions to any relevant tax authorities or any other regulatory authorities from time to time.

It is intended that Welkom Yizani will, at the discretion of the Welkom Yizani preference holders and in the manner as legislated in the articles, declare a maximum of up to 20% of the ordinary dividends received from Media24 Holdings to the Welkom Yizani ordinary shareholders for as long as the number of Welkom Yizani preference shares in existence exceeds the Pref Threshold. Accordingly, until such time as the Welkom Yizani preference shares in issue are redeemed to a level at or below the Pref Threshold, 80% of the ordinary dividends received from Media24 Holdings will be utilized to pay the preference dividend and (where permitted or required) to redeem the Welkom Yizani preference shares (see section 5.6 above).

5.17.3 Restrictions applicable to the Welkom Yizani ordinary shareholders

Media24 is subject to the BBBEE Legislation. Naspers, as a consequence, must take steps to ensure that there is no dilution of the empowerment equity in Welkom Yizani. The following restrictions apply to ordinary shareholders of Welkom Yizani to achieve this result:

This paragraph applies equally to the involuntarily sequestration or compulsory liquidation of a Welkom Yizani ordinary shareholder.

5.17.3.4

Please note that, pursuant to the provisions of the Media24 Holdings Shareholders Agreement, there is no restriction on Naspers, its nominees or associates from acquiring and holding Welkom Yizani ordinary shares. - In considering any proposed transfer of Welkom Yizani ordinary shares, WSTC (or its agent) shall, for the purposes of determining the BEE status/rating of any proposed transferee, be entitled, in addition to requesting any additional documents as may be necessary, to also request that such transferee (at its own expense) provide a BEE Ownership Certificate of Compliance.

5.17.3.7

Black Participants are not and will not be entitled to enter into any agreement in terms of which their Welkom Yizani ordinary shares are used as security or encumbered in any other manner.

IF ANY PERSON CONTRAVENES ANY OF THESE RESTRICTIONS, NASPERS SHALL BE ENTITLED TO REQUIRE SUCH PERSON TO SELL TO NASPERS THE WELKOM YIZANI ORDINARY SHARES SUBJECT TO THE BREACH AT THEIR PAR VALUE.

5.17.4 *Other restrictions applicable to the Welkom Yizani ordinary shareholders*

5.17.4.1

No Welkom Yizani ordinary shareholder may at any time hold fewer than 20 Welkom Yizani ordinary shares, nor beneficially, whether individually or together with its associates, at any time hold more than 10% of the total number of Welkom Yizani ordinary shares then in issue.

5.17.4.2

No Welkom Yizani ordinary shareholder shall at any time act in concert with any other Welkom Yizani ordinary shareholder in any matter pertaining to the voting of the Welkom Yizani ordinary shares at any meeting, or the voting of the Media24 Holdings ordinary shares by Welkom Yizani at any meeting of Media24 Holdings (in accordance with the proxy

mechanism).

IF ANY PERSON CONTRAVENES THESE RESTRICTIONS, NASPERS SHALL BE ENTITLED TO REQUIRE SUCH PERSON TO SELL TO NASPERS THE WELKOM YIZANI ORDINARY SHARES SUBJECT TO THE BREACH AT THEIR PAR VALUE.

29

5.17.5 Membership

Only Black People and Black Groups eligible to become Welkom Yizani ordinary shareholders may be Welkom Yizani ordinary shareholders after the Closing Date.

Therefore, people or groups that make false declarations in respect of their BEE status/rating in the application forms shall be in breach of this provision and will be required to sell the Welkom Yizani ordinary shares allotted and issued to them to Naspers at their **PAR VALUE**.

If, at the time of acquiring Welkom Yizani ordinary shares, groups qualify to be classified as Black Groups but subsequently change their shareholding or membership such that they no longer qualify to be classified as a Black Group, those groups will also be required to sell their Welkom Yizani ordinary shares to Naspers at their **PAR VALUE**.

To the extent that, and for whatever reason (whether intentionally, negligently or accidentally), any Welkom Yizani ordinary share is held by or transferred to any Person who is not a Black Participant (“**the Non-qualifying Shareholder**”), such Welkom Yizani ordinary share shall:

- confer no right upon the Non-qualifying Shareholder to any dividend, distribution, or payment by virtue of the holding of that Welkom Yizani ordinary share, or to share otherwise in any benefit to which the ordinary shareholders are entitled by virtue of their holding Welkom Yizani ordinary shares;

- result in such Non-qualifying Shareholder being deemed, on the date on which such Welkom Yizani ordinary share was acquired by or transferred to such Non-qualifying Shareholder, to have ceded to Naspers or its nominee any voting rights attaching to such Welkom Yizani ordinary share pursuant to the Media24 Holdings Shareholders Agreement or the articles and to have irrevocably appointed Naspers or its nominee as proxy for the voting of such voting rights; and

- pursuant to the aforesaid cession of voting rights, result in Naspers or its nominee being entitled to vote such Welkom Yizani ordinary shares at any general meeting of Media24 Holdings in accordance with the proxy provisions as set out in the articles, and discussed in paragraph 5.17.6 below.

5.17.6 Voting rights in respect of Welkom Yizani ordinary shares

Each Welkom Yizani ordinary share shall represent a right to a single vote at general meetings of Media24 Holdings as proxy on behalf of Welkom Yizani. That is, initially each Welkom Yizani ordinary share shall represent one Media24 Holdings ordinary share as held by Welkom Yizani. If for any reason these proportions should change and there is no longer parity between the Welkom Yizani ordinary shares in issue and the Media24 Holdings ordinary shares held by Welkom Yizani, then the Welkom Yizani ordinary shareholders shall be entitled to so many votes at general meetings of Media24 Holdings ordinary shareholders in proportion to the Welkom Yizani ordinary shares that such shareholder holds.

5.17.7 Share certificates

Any person who beneficially holds Welkom Yizani ordinary shares shall be entitled to a certificate specifying the number of shares of which it is issued. All share certificates issued to Welkom Yizani ordinary shareholders shall, during the Company Empowerment Compliance Period:

- be endorsed as follows:

“This certificate and the shares represented hereby are transferable only in compliance with the provisions of the Media24 Holdings Shareholders Agreement, as amended from time to time, a copy of this certificate is on file with the Company Secretary of Welkom Yizani Investments Limited and in the specific circumstances contemplated in the memorandum and articles of association of the Company, a copy of which is on file with the Company Secretary of Welkom Yizani Investments Limited. Restrictions also apply to the transfer of all and any rights in and to the shares and to the granting of any encumbrances over the shares”; and

- be retained and held by Link Market Services. Such share certificates shall only be released, if necessary, for the purposes of implementing any transfer permitted in terms of the Transaction

Documents and the articles on the basis that once such transfer is implemented, all share certificates resulting from such transfer are retained and held by Link Market Services.

30

5.17.8 *The Welkom Yizani Ownership Certificate of Compliance*

5.17.8.1

Welkom Yizani and each of the Welkom Yizani ordinary shareholders acknowledge the importance to Media24 and Naspers of, *inter alia*, demonstrating the successful implementation of the Media24 Empowerment Transaction to stakeholders in Naspers and Media24, as well as to the relevant authorities. Accordingly, they acknowledge and accept that Naspers will from time to time (and at least once a year) be entitled to request from Welkom Yizani, at its sole discretion and in writing the preparation and issue of the Welkom Yizani Ownership Certificate of Compliance.

5.17.8.2

Welkom Yizani must, for so long as the Media24 Holdings Shareholders Agreement remains in force, fully co-operate with and assist Naspers and its representatives by providing them with access to all information and records which are in its possession or which it may be entitled and/or obliged to keep in its possession or to require to be placed in its possession, within 10 business days of a written request therefor from Naspers or such representatives, for purposes of enabling Naspers to obtain the issue of the Welkom Yizani Ownership Certificate of Compliance.

5.17.8.3

For the purposes of procuring the preparation of the Welkom Yizani Ownership Certificate of Compliance, Naspers shall, in its sole and absolute discretion, be entitled to request Welkom Yizani in writing to procure a BEE Ownership Certificate of Compliance in respect of any Welkom Yizani ordinary shareholder, confirming the BEE status/rating of such Welkom Yizani ordinary shareholder, within 45 days of the receipt by Welkom Yizani of such written request. In addition, Welkom Yizani shall at any time be entitled to request any Welkom Yizani ordinary shareholder to procure a BEE Ownership Certificate of Compliance, and such Welkom Yizani ordinary shareholder shall be obliged to do so within 30 days of receipt of a written request to do so. The costs of procuring such a BEE Ownership Certificate of Compliance, whether requested by Naspers or Welkom Yizani, shall be for the account of the Welkom Yizani ordinary shareholder concerned, or if such Welkom Yizani ordinary shareholder fails to meet such financial obligation, then for Welkom Yizani. Failure by the Welkom Yizani ordinary shareholder timeously to procure such a BEE Ownership Certificate of Compliance shall constitute a Welkom Yizani ordinary shareholder Default Event as contemplated in paragraph 5.17.9 below and shall trigger the call option right set out thereunder.

5.17.9 *Call option in favour of Naspers*

5.17.9.1

If, at any time during the Company Empowerment Compliance Period, Welkom Yizani and/or any of the Welkom Yizani ordinary shareholders:

5.17.9.1.1

commits an act, or there arises any event or circumstance (howsoever arising), which constitutes or results in a breach of certain specified provisions of the Media24 Holdings Shareholders Agreement, and fails to remedy this breach within 30 days of receiving written notice to do so; or

5.17.9.1.2

are, or any resolutions are proposed or taken for it to be wound up, liquidated, placed under judicial management or sequestered, as the case may be, whether provisionally or finally; or

5.17.9.1.3

compromises or attempts to compromise with any one or more of its creditors generally or offers to do so,

these events being “Default Events”, and, where Welkom Yizani has committed such Default Event, a “Welkom Yizani Default Event”, or where a Welkom Yizani ordinary shareholder has committed such event, a “Welkom Yizani Shareholder Default Event”, then:

5.17.9.1.4

as regards a Welkom Yizani ordinary shareholder Default Event:

Naspers shall notify the relevant Welkom Yizani ordinary shareholder in writing thereof and request him or her to remedy that Default Event within 30 days.

Should the Welkom Yizani ordinary shareholder fail to do so, then Naspers shall be entitled, by giving written notice to the relevant Welkom Yizani ordinary shareholder to that effect, to require such Welkom Yizani ordinary shareholder to sell to Naspers all of its Welkom Yizani ordinary shares or such lesser number thereof that would cure the breach, as Naspers may elect (“the call shares”).

The Welkom Yizani ordinary shareholder shall be obliged to sell the call shares at their par value;

31

5.17.9.1.5

as regards a Welkom Yizani Default Event:

to the extent that Naspers becomes aware of such event (provided that in relation to a breach of the Media24 Holdings Shareholders Agreement, the Default Event potentially prejudices Media24's ability to optimise its BEE rating under the BBBEE Legislation), Naspers shall notify Welkom Yizani in writing thereof and request Welkom Yizani to remedy that Welkom Yizani Default Event within 30 days of receipt of such written request. Should Welkom Yizani fail to remedy such Welkom Yizani Default Event, then Naspers shall be entitled, by giving a written notice, to require Welkom Yizani to sell to Naspers its Media24 Holdings ordinary shares at their **fair market value less 20%**.

5.17.9.2

For the purposes of this call option, "fair market value" means the fair market value as agreed in writing between Welkom Yizani and Naspers. Failing such agreement within 15 business days of either Welkom Yizani or Naspers requesting in writing such agreement, then the fair market value shall be determined by way of final and binding expert determination. The expert shall be an investment bank with experience in the media industry, agreed to in writing by Naspers and Welkom Yizani, and failing agreement within 10 days of the expiry of the aforementioned 15-day period, the expert (being an independent investment bank with experience in the media and broadcasting industry) shall be appointed by the South African Institute of Chartered Accountants at the written request of either Naspers or Welkom Yizani. In determining such fair market value, the expert shall:

- (i) value the shares which Media24 Holdings holds in Media24;
- (ii) value all the other assets and/or liabilities of Media24 Holdings (i.e. all Media24 Holdings' assets other than its equity interest in Media24) on an appropriate basis;
- (iii) value Welkom Yizani's loan account (if any) outstanding at such time; and
- (iv) act as an expert and not as an arbitrator.

5.17.10 ***Come-along right in favour of Naspers***

If Naspers receives an offer from a *bona fide* third party to purchase all the Media24 Holdings ordinary shares held in issue and all claims on loan account owing to Media24 Holdings ordinary shareholders, which Naspers wishes to accept, then Naspers shall be entitled to advise Welkom Yizani in writing of its intention to accept the offer and require Welkom Yizani to sell all of its Media24 Holdings ordinary shares and shareholders' claims to the third party.

Welkom Yizani will be obliged to sell its Media24 Holdings ordinary shares and claims against Media24 Holdings to the third party on the terms offered by the third party to, and accepted by, Naspers.

5.17.11 ***Winding up***

If Welkom Yizani is wound up, the assets remaining after payment of the debts and liabilities (including the Welkom Yizani preference shares issued to Naspers) of Welkom Yizani and the costs of the liquidation, shall be applied as follows:

—
to repay to the Welkom Yizani ordinary shareholders the amounts paid up on the shares respectively held by each of them; and

—
the balance (if any) shall be distributed among the Welkom Yizani ordinary shareholders in proportion to the number of shares, respectively, held by each of them.

In the event of the deregistration, winding up or judicial management of Welkom Yizani, the Welkom Yizani preference holders will be entitled to receive the outstanding amount owing on their preference funding from Welkom Yizani (as well as a fractional portion of the remaining residue), before the Welkom Yizani ordinary shareholders can receive any liquidation payment in respect of their ordinary shares.

Current prospects

Our print media businesses have shown good growth over the past few years. This is partly as a consequence of the extensive investments made in earlier years now coming to fruition and partly due to the favourable macro-economic conditions prevailing in South Africa.

Via Afrika continued its improvement. In particular, school book publishers Nasou Via Afrika turned in a solid performance, recapturing market share lost during implementation of Curriculum 2005.

Educor had a challenging year with the main focus being on repositioning, streamlining and refocusing the business. The Damelin Education Group's turnaround appears on track and a solid foundation is being created that can be built on in future years.

Highlights over the past year include:

- *Daily Sun* circulation grew to more than 440 000 per day, making it the widest-read print media product in South Africa.

- In response to the growth of the *Daily Sun*, printing presses were installed at the printing plant at City Deep.

- Publishing of a daily edition of the weekly tabloid, *Son*, was implemented and it rapidly grew circulation to in excess of 50 000 copies per day.

- *Weg*, the travel magazine, continued its robust growth and became the largest circulating magazine in its category.

- The new printing plant at Paarl Web Gauteng (Proprietary) Limited, was commissioned and is performing to expectations.

- Empowerment partners introduced into Paarl Web Gauteng (Proprietary) Limited and extended to Paarl Print (Proprietary) Limited.

6.4

Risks relating to Media24

There are inherent risks connected with investments in general and risks directly linked to Media24. There are also inherent risks to the industry in which Media24 operates:

6.4.1

Macro economic conditions

Approximately 35% of Media24's revenue is presently generated by advertising revenues. Advertising revenues are cyclical and are dependent upon general economic conditions. Traditionally, spending by companies on advertising and other marketing activities, and hence Media24's advertising and commercial printing revenue, decreases in times of economic slowdown or recession. In particular, Media24's advertising revenues are subject to risks arising from adverse changes in economic conditions and fluctuations in consumer confidence and spending. Consumer confidence and spending may decline as a result of numerous factors outside of Media24's control, such as rising interest rates or acts of war.

6.4.2

Increases in newsprint and magazine paper costs

Newsprint and magazine paper costs represent the single largest raw material expense for Media24. These costs fluctuate from time to time due to numerous factors beyond Media24's control, especially due to demand and supply forces, and exchange rate fluctuations between the Rand and other currencies. An increase in newsprint and magazine paper costs could adversely affect Media24's earnings and cash flow.

6.4.3

Media24's business may suffer if its printing equipment or facilities are damaged or malfunction

The newspapers, magazines and educational textbooks, and a number of third party publications are printed on printing equipment and facilities owned by the group. If one or more of our printing facilities were damaged or if operations were interrupted due to a natural disaster or otherwise, the publication of some titles or textbooks could be interrupted and Media24's operating results could be adversely affected. In the event of such damage or destruction, Media24 would need to make alternative arrangements for printing to be outsourced.

6.4.4

Litigation

The content Media24 makes available to customers through its publishing and internet businesses could result in claims against it based on a variety of grounds, including defamation, negligence, copyright or trademark infringement, obscenity or facilitating illegal activities. In particular, Media24 expects that software developers will increasingly be subject to claims asserting the infringement of other parties' proprietary rights as the number of products and competitors providing software and services increases.

Any such claim, with or without merit, could result in costly litigation or might require Media24 to enter into royalty or licensing agreements. These royalty or licensing agreements, if required, may not be available on terms acceptable to Media24 or they may not be available at all. As a result of infringement claims, a court could also issue an injunction preventing the distribution of certain products. Media24 may incur costs defending these claims.

6.4.5

Media24's businesses rely on software and hardware systems that are susceptible to failure

Interruptions to the availability of Media24's internet services or increases in the response times of Media24's services caused by the failure of Media24's software or hardware systems could reduce user satisfaction, the amount of internet traffic and Media24's attractiveness to advertisers and consumers.

The publishing business also depends upon the timely functioning of software and hardware used to print newspapers and magazines and to publish books.

Media24 is also dependent upon web browsers, telecommunication systems and other aspects of the internet infrastructure that have experienced significant system failures and electrical outages in the past.

41

Media24's operations are susceptible to outages due to fire, floods, power loss, telecommunications failures, break-ins, industrial actions and similar events. Despite Media24 implementing network security measures, servers are vulnerable to computer viruses, break-ins and similar disruptions from unauthorised tampering with its computer systems.

6.4.6

Intellectual property

Even though legal protection for Media24's intellectual property rights is generally sought, Media24 cannot be assured that its intellectual property rights will not be challenged, limited, invalidated or circumvented. Despite patent, trademark and copyright protection, third parties may be able to copy, infringe or otherwise profit from Media24's intellectual property rights without its authorisation. The lack of internet specific legislation relating to trademark and copyright protection creates a further challenge to protect content delivered through the internet and electronic platforms. If unauthorised copying or misuse of Media24's products were to occur to any substantial degree, its business and results of operations could be adversely affected. Litigation may be necessary to protect Media24's intellectual property rights, which could result in legal claims in connection with content that Media24 distributes and may require Media24 to incur significant costs or to enter into royalty or licensing agreements, which could adversely affect Media24's competitive position.

6.4.7

Competition

Media24 operates in a highly competitive and rapidly changing industry. Revenues in the print media industry are dependent primarily upon paid circulation, advertising and printing revenues. Competition for circulation and advertising revenue comes from local, regional and national newspapers, magazines, radio, television, direct mail and other communications and advertising media that operate in the same markets as Media24. Media24 may face increased competition as both local and international publishers introduce new niche titles.

Competitors that are active in the same markets as Media24 attempt to increase their market share, circulation and advertising revenues by changing the style and layout of their publications to win new customers at the expense of Media24's magazines and newspapers. In addition, Media24's competitors may reduce the cover prices of their publications to increase their circulation. Media24 may be forced to decrease the prices it charges for magazines and newspapers in response or make other changes in the way it operates. Media24's business and results of operations may be harmed as a result.

The Paarl Media group prints Media24 titles, but also has large printing contracts with outside publishers, which may be lost. Competition in magazine and book printing is tough.

Via Afrika faces competition from several South African as well as large international publishing houses. Educor, the private education subsidiary of Media24, faces competition from many different South African public universities and private educators, as well as from international educators, many of whom have greater resources and brand names.

ANNEXURE I

MEDIA24

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

PRINCIPAL ACCOUNTING POLICIES

The consolidated annual financial statements of the Group are presented in accordance with, and comply with, International

Financial Reporting Standards (“IFRS”) and International Financial Reporting Interpretations Committee (“IFRIC”) interpretations issued and effective at the time of preparing these financial statements.

The policies are consistent with those adopted by the holding company Naspers Limited and the detail summary of the policies are available on www.naspers.com under the heading Annual Financial Statements.

For the convenience of the reader, only some of the policies are listed below

PRINCIPAL ACCOUNTING POLICIES

(a)

Basis of consolidation

The consolidated annual financial statements include the results of Media24 Limited and its subsidiaries, associates, joint ventures, special purpose entities and related share incentive trusts.

Subsidiaries

Subsidiaries are those companies in which the Group, directly or indirectly, has an interest of more than half of the voting rights, or otherwise has the power to exercise control over their operations. The existence and effect of potential voting rights that are presently exercisable or convertible without restriction are considered when assessing whether the Group controls another entity. Subsidiaries are consolidated from the date that effective control is transferred to the Group and are no longer consolidated from the date that effective control ceases. Similarly, the results of a subsidiary divested during an accounting period are included in the consolidated financial statements only to the date of disposal. For certain entities, the Group has entered into contractual arrangements (such as nominee relationships and escrow arrangements) which allow the Group, along with its direct interests in such entities, to control a majority of the voting rights or otherwise have power to exercise control over the operations of such entities. Because the Group controls such entities in this manner they are considered to be subsidiaries and are therefore consolidated in the annual financial statements.

All intergroup transactions and balances are eliminated as part of the consolidation process. The interests of minority shareholders in the consolidated equity and results of the Group are shown separately in the consolidated balance sheet and income statement, respectively. Where the losses attributable to the minority shareholders in a consolidated subsidiary exceed their interest in that subsidiary, the excess, and any further losses attributable to them, are recognised by the Group and allocated to those minority interests only to the extent that the minority shareholders have a binding obligation and are able to fund the losses. Where the Group previously did not recognise the minority shareholders’ portion of losses and the subsidiary subsequently turns profitable, the Group recognises all the profits until the minority shareholders’ share of losses previously absorbed by the Group has been recovered. The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed

at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and

contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date,

irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group’s share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair

value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statement.

The Group applies the economic entity model in accounting for transactions with minority shareholders. In terms of this model, minority shareholders are viewed as equity participants of the group and all transactions are therefore accounted for as equity transactions and included in the statement of changes in equity. On acquisition of an interest

from a minority shareholder, any excess of the cost of the transaction over the acquirer's proportionate share of the net asset value acquired is allocated to a separate component of equity. Dilution profits and losses relating to non-wholly owned subsidiary entities are similarly accounted for in the statement of changes in equity in terms of the economic entity model.

46

Where necessary, accounting policies for subsidiaries have been exchanged to ensure consistency with the policies adopted by the Group.

Associated companies

Investments in associated companies are accounted for under the equity method. Associated companies are those companies in which the Group generally has between 20% and 50% of the voting rights, or over which the Group exercises significant influence, but which it does not control. Equity accounting involves recognising in the income statement the Group's share of the associate's post-acquisition results net of taxation and minority interests in the associate. The Group's share of post-acquisition movements in reserves is accounted for in the reserves of the Group. The Group's interest in the associate is carried on the balance sheet at cost, adjusted for the Group's share of the change in post-acquisition net assets, and inclusive of goodwill and other identifiable intangible assets recognised on acquisitions.

Where the Group's share of losses exceeds the carrying amount of its investment, the carrying amount of the investment as well as any loans to the associate are reduced to nil and no further losses are recognised, unless the Group has incurred obligations to the associate or the Group has guaranteed or committed to satisfy obligations of the associate. Unrealised gains and losses on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates, unless the loss provides evidence of an impairment of the asset transferred.

Joint ventures

The Group's interest in jointly controlled entities is accounted for by way of proportionate consolidation. The Group combines its share of the joint ventures' individual income and expenses, assets and liabilities and cash flows on a line-by-line basis with similar items in the Group's financial statements. The Group recognises the portion of gains or losses on the sale of assets by the Group to the joint venture that is attributable to the other venturers.

The Group does not recognise its share of gains or losses from the joint venture that result from the purchase of assets by the Group from the joint venture until it resells the assets to an independent third party. However, if a loss on the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss, the loss is recognised immediately..

(b)

Investments

The Group classifies its investments into the following categories: at fair value through profit and loss, held-to-maturity, available-for-sale and loans and receivables. The classification is dependent on the purpose for which the investments were acquired. Management determines the classification of its investments at the time of purchase and re-evaluates such designation on an annual basis. At fair value through profit and loss assets have two sub-categories: financial assets held for trading and those designated at fair value through profit or loss at inception. A financial asset is classified into this category at inception if acquired principally for the purpose of selling in the short

term, if it forms part of a portfolio of financial assets in which there is evidence of short-term profit taking, or if so designated by management. For the purpose of these financial statements short term is defined as a period of three months or less. The Group does not hold financial assets for trading, therefore assets held as at fair value through profit and loss are designated as such on initial recognition. Derivatives are also classified as held for trading unless they are designated as hedges.

Investments with a fixed maturity that management has the intent and ability to hold to maturity are classified as held-to-maturity and are included in non-current assets, except for maturities within 12 months from the balance sheet date, which are classified as current assets. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Group intends to sell in the short term or that it has designated as at fair value through profit and loss or available-for-sale. All other investments, including those that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity, changes in fair value or interest rates, are classified as available-for-sale. Available-for-sale assets are included in non-current assets unless management has the express intention of holding the investment for less than 12 months from the balance sheet date or unless they will need to be sold to raise operating capital, in which case they are included in current assets.

Purchases and sales of investments are recognised on the trade date, which is the date that the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus, in the case of all financial assets not carried at fair value through profit or loss, transaction costs that are directly attributable to their acquisition. At fair value through profit and loss and available-for-sale investments are subsequently carried at fair value. Held-to-maturity investments and loans and receivables are carried at amortised cost using the effective-yield method. Realised and unrealised gains and losses arising from changes in the fair value of at-fair-value-through-profit-and-loss

47

investments are included in the income statement in the period in which they arise. Unrealised gains and losses arising from changes in the fair value of investments classified as available-for-sale are recognised in equity. The fair values of investments are based on quoted bid prices or amounts derived from cash-flow models. Fair values for unlisted equity securities are estimated using applicable price/earnings or price/cash-flow ratios refined to reflect the specific circumstances of the issuer. Equity securities for which fair values cannot be measured reliably are recognised at cost less impairment. When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments are included in the income statement as gains and losses from investment securities.

Investments are derecognised when the rights to receive cash flows from the investments have expired or where they have been transferred and the Group has also transferred substantially all risks and rewards of ownership.

(c)

Property, plant and equipment

Property, plant and equipment are stated at cost, being the purchase cost plus any cost to prepare the assets for their intended use, less accumulated depreciation and any accumulated impairment losses. Cost includes transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchase costs. Property, plant and equipment, with the exception of land, are depreciated in equal annual amounts over each asset's estimated useful economic life. Land is not depreciated as it is deemed to have an indefinite life. Depreciation periods vary in accordance with the conditions in the relevant industries, but are subject to the following maximum limits:

Land and buildings:

Factory buildings

50 years

Other buildings

50 years

Manufacturing equipment:

Printing presses

25 years

Production equipment

25 years

Office equipment:

20 years

Furniture:

20 years

Computer equipment:

Manufacturing

20 years

Office

20 years

Vehicles:

12 years

Major leasehold improvements are amortised over the shorter of their respective lease periods and estimated useful economic life.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred. Major renovations are depreciated over the remaining useful economic life of the related asset.

The carrying values of property, plant and equipment are reviewed periodically to assess whether or not the net recoverable amount has declined below the carrying amount. An asset's carrying amount is written down immediately to its recoverable amount. In the event of such impairment, the carrying amount is reduced and the reduction is charged as an expense against income.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Gains and losses on disposals are determined by comparing the proceeds with the asset's carrying amount.

(d)

Leased assets

Leases of property, plant and equipment, except land, are classified as finance leases where, substantially all risks and rewards associated with ownership of an asset are transferred from the lessor to the Group as lessee.

Assets classified as finance leases are capitalised at the lower of the fair value of the leased asset and the estimated present value of the underlying minimum lease payments, with the related lease obligation recognised at the estimated present value of the minimum lease payments. Bank rates are used to calculate present values of minimum lease payments. Capitalised leased assets are depreciated over their estimated useful lives, limited to the duration of the lease agreement.

48

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leases of assets under which substantially all the risks and rewards of ownership are effectively retained by the third-party lessor are classified as operating leases. Operating lease rentals (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

(e)

Goodwill and other intangible assets

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary, associate or joint venture at the date of acquisition. Goodwill on acquisition of subsidiaries and joint ventures are included in 'intangible assets'. Goodwill on acquisition of associates is included in 'investments in associates'. Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. Impairment is determined by assessing the recoverable amount of the cash-generating unit to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised. Patents, brand names, trademarks, title rights, software and other similar intangible assets acquired are capitalised at cost. Intangible assets with indefinite useful lives are not amortised, but tested annually for impairment and carried at cost less accumulated impairment losses. Intangible assets with finite useful lives are being amortised using the straight-line method over their estimated useful lives. The carrying amount of each intangible asset is reviewed annually and adjusted for impairment where the carrying amount exceeds the recoverable amount. The useful lives and residual values of intangible assets are reassessed on an annual basis. Amortisation periods for intangible assets with finite useful lives vary in accordance with the conditions in the relevant industries, but are subject to the following maximum limits:

Patents

5 years

Title rights

10 years

Brand names and trademarks

20 years

Software

5 years

Intellectual property rights

7 years

Subscriber base

8 years

No value is attributed to internally developed trademarks or similar rights and assets. The costs incurred to develop these items are charged to the income statement in the period in which they are incurred.

(f)

Impairment

Financial assets

The Group assesses at each balance sheet date whether there is any objective evidence that an investment or group of investments is impaired. If any such evidence exists, the entity applies the following principles for each class of financial assets to determine the amount of any impairment loss:

Financial assets carried at amortised cost:

If there is objective evidence that an impairment loss on loans and receivables or held-to-maturity investments carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been

incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced directly through profit or loss. If, in a subsequent period,

the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss shall be reversed through profit and loss. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed.

Available-for-sale financial assets:

When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there

is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity shall be removed from equity and recognised in profit or loss even though the financial asset has not been derecognised.

49

Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale shall not be reversed through profit or loss.

If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss shall be reversed, with the amount of the reversal recognised in profit or loss.

Long lived assets

The Group evaluates the carrying value of assets with indefinite useful lives annually and when events and circumstances indicate that the carrying value may not be recoverable. Indicators of possible impairment include, but are not limited to: significant underperformance relative to expectations based on historical or projected future operating results; significant changes in the manner of use of the assets or the strategy for the Group's overall business; significant negative industry or economic trends; a significant and sustained decline in an investment's share price or market capitalisation relative to its net asset value. Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment.

An impairment loss is recognised in the income statement when the carrying amount of an asset exceeds its recoverable amount. An asset's recoverable amount is the higher of the amount obtainable from the sale of an asset in an arm's-length transaction between knowledgeable willing parties, or its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. The estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purposes of assessing impairment, assets are grouped at the lowest level for which there are separately identifiable cash flows.

An impairment loss recognised for an asset in prior years is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised and the recoverable amount exceeds the new carrying amount. The reversal of the impairment is limited to the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior years. The reversal of such an impairment loss is recognised in the income statement in the same line item as the original impairment charge.

(g)

Development activities

Research and development costs

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when it is probable that the project will be profitable considering its commercial and technical feasibility and its costs can be measured reliably.

Other development expenditures that do not meet these criteria are recognised as an expense as incurred.

Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use on a straight-line basis over its useful life, not exceeding the limits stated in note (e). Development assets are tested for impairment annually, and the impairment loss is recognised in the income statement when the carrying amount of the asset exceeds its recoverable amount. This loss is also reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised and the recoverable amount exceeds the new carrying amount. The reversal of the impairment is limited to the carrying amount that would have been determined (net of amortisation) had no impairment loss been recognised in prior years. The reversal of such an impairment loss is recognised in the income statement in the same line item as the original impairment charge.

Software development costs

Costs that are directly associated with the production of identifiable and unique software products controlled by the Group, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Direct costs include the software development team's employee costs and an appropriate portion of relevant overheads. All other costs associated with developing or maintaining computer software programs

are recognised as an expense as incurred.

Website development costs

Website development costs are capitalised as intangible assets if it is probable that the expected future economic benefits attributable to the asset will flow to the Group, and its cost can be measured reliably, otherwise these costs are charged against operating profit as the expenditure is incurred.

50

(h)**Inventory**

Inventory is stated at the lower of cost or net realisable value. The cost of inventory is determined by means of the first-in-first-out basis or the weighted-average method. The majority of inventory is valued using the first-in-first-out basis, but for certain inventories with a specific nature and use which differs significantly from other classes

of inventory, the weighted average is used. The cost of finished products and work-in-progress comprises raw materials, direct labour, other direct costs and related production overheads, but excludes finance costs. Costs of inventories include the transfer from equity of any gains or losses on qualifying cash-flow hedges relating to inventory purchases. Net realisable value is the estimate of the selling price, less the costs of completion and selling expenses. Provisions are made for obsolete, unusable and unsaleable inventory and for latent damage first revealed when inventory items are taken into use or offered for sale.

(i)**Trade receivables**

Trade receivables are originally carried at fair value and subsequently measured at amortised cost using the effective interest rate method, less provision made for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the carrying amount and the estimated recoverable amount.

(j)**Provisions**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made.

The Group recognises the estimated liability on all products still under warranty at the balance sheet date.

The Group recognises a provision for onerous contracts when the expected benefits to be derived from a contract are less than the unavoidable costs of meeting the obligations under the contract. Restructuring provisions are recognised in the period in which the Group becomes legally or constructively committed to payment. Costs related to the ongoing activities of the Group are not provided in advance.

(k)**Taxation****Taxation rates**

The normal South African company tax rate used for the year ending 31 March 2006 is 29% (2005: 30%).

Deferred tax assets and liabilities for South African entities at 31 March 2006 have been calculated using this rate, being the rate that the Group expects to apply to the periods when the assets are realised or the liabilities are settled. Secondary tax on companies is calculated at 12,5%, and capital gains tax is calculated at 50% of the company tax rate. International tax rates vary from jurisdiction to jurisdiction.

(l)**Deferred taxation**

Deferred taxation is provided in full, using the balance sheet liability method, for all timing differences arising between

the tax bases of assets and liabilities and their carrying values for financial reporting purposes. Currently enacted, or where appropriate, substantially enacted tax rates are used to determine deferred taxation.

Using this method, the Group is required to make provision for deferred taxation, in relation to an acquisition, on the difference between the fair values of the net assets acquired and their tax base. Provision for taxes, mainly withholding taxes, which could arise on the remittance of retained earnings, is only made if there is a current intention to remit such earnings.

The principal timing differences arise from depreciation on property, plant and equipment, other intangibles, provisions and other current liabilities, income received in advance and tax losses carried forward. Deferred taxation assets are recognised to the extent that it is probable that future taxable profit will be available against which timing

differences and unused tax losses can be utilised.

Deferred taxation is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Secondary tax on companies (“STC”)

Dividends declared by South African companies are subject to STC, but the STC liability is reduced by dividends received during the dividend cycle. Where the dividends received exceed dividends declared within a cycle, there is no liability to pay STC. The potential tax benefits related to excess dividends received are carried forward to the next dividend cycle. Where dividends declared exceed the dividends received during a cycle, STC is payable at the

51

current STC rate. The STC expense is included in the taxation charge in the income statement in the period that the dividend is paid. Deferred tax assets are recognised on unutilised STC credits to the extent that it is probable that the Group will declare future dividends to utilise such STC credits.

(m)**Revenue recognition****Product sales**

Sales are recognised upon delivery of products and customer acceptance, net of sales taxes, VAT and discounts, and after eliminating sales within the Group.

Circulation revenue

Circulation revenue is recognised in the month in which the magazine or newspaper is sold.

Subscription fees

Internet subscription fees are earned over the period the services are provided. Subscription revenue arises from the monthly billing of subscribers for internet services provided by the Group. Revenue is recognised in the month the service is rendered. Any subscription revenue received in advance of the service being provided is recorded as deferred revenue and recognised in the month the service is provided

Advertising revenues

The Group mainly derives advertising revenues from advertisements published in its newspapers and magazines and shown online on its websites and instant messaging windows. Advertising revenues from print media products are recognised upon publication over the period of the advertising contract. Publication is regarded to be when the print media product has been delivered to the retailer and is available to be purchased by the general public. Online advertising revenues are recognised over the period in which the advertisements are displayed.

Printing and distribution

Revenues from print and distribution services are recognised upon completion of the services and delivery of the related product and customer acceptance, net of taxes, VAT and discounts, and after elimination of sales within the Group. The recognition of print services revenue is based upon delivery of the product to the distribution depot and acceptance by the distributor of the client, or where the customer is responsible for the transport of the products, acceptance by the customer or its nominated transport company. Revenues from distribution services are recognised upon delivery of the product to the retailer and acceptance thereof.

Print and distribution services are separately provided by different entities within the Group and separately contracted for by third-party customers. Where these services are provided to the same client, the terms of each separate contract are consistent with contracts where an unrelated party provides one of the services.

Revenue is recognised separately for print and distribution services as the contracts are separately negotiated based on fair value for each service.

Tuition fees

Tuition fees are non-refundable and are recognised on a percentage-of-completion method over the term of the applicable course for face-to-face learning, and for distance learning it is recognised as a percentage of cost.

(n)**Other income**

Interest and dividends received on available-for-sale financial assets are included in investment income and not as part of the fair-value movement in equity.

Interest income

Interest is accrued on a time-proportion basis, recognising the effective yield on the underlying assets.

Dividend income

Dividends are recognised when the right to receive payment is established.

(o)**Employee benefits****Retirement benefits**

The Group provides retirement benefits for its full-time employees, primarily by means of monthly contributions to a number of defined-contribution pension and provident funds in the countries in which the Group operates. The assets of these funds are generally held in separate trustee-administered funds. The Group's contributions to

retirement funds are recognised as an expense when the employees render the related service.

52

Medical aid benefits

The Group's contributions to medical aid benefit funds for employees are recognised as an expense in the period during which the employees render services to the Group.

Post-retirement medical aid benefits

Some Group companies provide post-retirement health care benefits to their retirees. The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and completing a minimum service period. The expected costs of these benefits are accrued over the period of employment, using an accounting methodology similar to that for defined benefit pension plans. Independent qualified actuaries carry out annual valuations of these obligations. All actuarial gains and losses are recognised immediately in the income statement. The actuarial valuation method used to value the obligations is the projected-unit credit method. Future benefits are projected using specific actuarial assumptions and the liability to in-service members is accrued over their expected working lifetime. These obligations are unfunded.

(p)

Equity compensation benefits

The Group grants share option/share appreciation rights (SARS) to its employees under a number of equity compensation plans. In accordance with IFRS 2, the Group has recognised an employee benefit expense in the income statement, representing the fair value of share options/SARS granted to the group's employees. A corresponding credit has been raised to liabilities for these cash-settled plans. The Group remeasures the fair value of the recognised liability at each reporting date and at the date of settlement, with any changes in fair value recognised in profit or loss for the period.

These plans are considered cash-settled plans as they are settled in cash.

(q)

Advertising expenses

Advertising expenses are expensed in the financial period in which they are incurred.
