NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

1. DESCRIPTION OF BUSINESS AND ORGANIZATION

NeuStar, Inc. (the Company or Neustar) offers authoritative, hard-to-replicate data sets and proprietary analytics that provide insights to help clients promote and protect their businesses. The Company's proprietary, cloud-based platforms and differentiated data sets offer informative, real-time analytics, which enable clients to make actionable, data-driven decisions. The Company provides chief marketing officers a comprehensive suite of services to plan their media spend, identify and locate desired customers, invest effectively in marketing campaigns, deliver relevant offers and measure the performance of these activities. Security professionals use the Company's solutions to maximize web performance and protect against malicious attacks. The Company enables the exchange of essential operating information across multiple carriers to provision and manage services, assisting clients with fast and accurate order processing and immediate routing of customer inquiries. The Company provides communications service providers in the United States critical infrastructure that enables the dynamic routing of calls and text messages.

On June 21, 2016, the Company announced its intention to separate into two independent and publicly traded companies. One company will consist of the majority of the Company's Information Services, which consists of Marketing Services, Security Services and related Data Services. The other company will focus on providing Order Management and Numbering Services. Order Management and Numbering Services will provide Local Number Portability Administration, number administration and ancillary numbering services as well as order and inventory management solutions. The Company intends to accomplish the separation through a tax-free spin-off, which the Company expects to occur in 2017. The separation is subject to final approval by the Company's Board of Directors, as well as a number of market and regulatory conditions, including, among others, effectiveness of the Form 10 to be filed with the Securities and Exchange Commission.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unaudited Interim Financial Information

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the full fiscal year. The consolidated balance sheet as of December 31, 2015 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and notes required by U.S. GAAP for complete financial statements. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting periods. Significant estimates and assumptions are inherent in the analysis and the measurement of deferred tax assets; identification and valuation of acquired intangible assets; and recoverability of goodwill. The Company bases its estimates on historical experience and assumptions that it believes are reasonable. Actual results could differ from those estimates.

Separation Costs

In the second quarter of 2016 the Company announced its intention to separate into two independent and publicly traded companies. Separation costs are expensed as incurred and include professional fees for outside advisory

services including legal, finance, accounting and related services.

8

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

Reclassifications

Within the consolidated statement of cash flows for the nine months ended September 30, 2015, the Company reclassified \$9.0 million from cash provided by operating activities to cash used in financing activities related to the exercise of equity awards and presentation of tax benefits to conform with current period presentation.

Fair Value of Financial Instruments

Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fair Value Measurements and Disclosure Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1. Observable inputs, such as quoted prices in active markets;

Level 2. Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company evaluates assets and liabilities subject to fair value measurements on a recurring and non-recurring basis to determine the appropriate level at which to classify them for each reporting period. Due to their short-term nature, the carrying amounts reported in the accompanying unaudited consolidated financial statements approximate the fair value for cash and cash equivalents, accounts receivable, accounts payable and accrued expenses. The Company determines the fair value of its term loan facilities, the 2013 Term Facility (as defined in Note 5), the 2015 Incremental Term Facility (as defined in Note 5) and the Amended 2013 Term Facility (as defined in Note 5), using pricing service quotations as quoted by Bloomberg (Level 2) (see Note 5). The Company believes the carrying value of its Amended 2013 Revolving Facility (as defined in Note 5) approximates the fair value of the debt as the term and interest rate approximates the market rate (Level 2) (see Note 5). The Company determines the fair value of its Senior Notes using a secondary market price on the last trading day in each period as quoted by Bloomberg (Level 2) (see Note 5).

The estimated fair values of the Company's financial instruments are as follows (in thousands):

	December 31, 2015		September 30, 2016	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
2013 Term Facility (including current portion, net of discount)	\$300,328	\$296,013	\$ —	\$ —
2015 Incremental Term Facility (including current portion, net of discount)	337,947	341,326	—	—
2013 Amended Term Facility (including current portion, net of discount)	—	—	464,292	465,466
2013 Revolving Facility	175,000	175,000	—	—
Amended 2013 Revolving Facility	—	—	175,000	175,000
Senior Notes (including current portion)	300,000	249,000	300,000	273,213
Restricted Cash				

As of December 31, 2015 and September 30, 2016, cash of \$2.4 million and \$2.3 million, respectively, was restricted as collateral for certain of the Company's outstanding letters of credit and for deposits on leased facilities.

Identifiable Intangible Assets

Identifiable intangible assets are amortized over their respective estimated useful lives using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise used and are periodically reviewed for impairment. During the three and nine months ended September 30, 2016, the Company recorded an

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

intangible asset impairment charge of \$11.1 million related to an asset group (see “Impairment of Long-Lived Assets” below). There were no intangible asset impairment charges recognized during the three and nine months ended September 30, 2015.

The Company’s identifiable intangible assets are amortized as follows:

	Years	Method
Acquired technologies	3 – 8	Straight-line
Client lists and relationships	3 – 13	Straight-line
Trade names and trademarks	3	Straight-line
Non-compete agreement	3	Straight-line

Amortization expense related to identifiable intangible assets is included in depreciation and amortization expense in the consolidated statements of operations.

Impairment of Long-Lived Assets

In accordance with Property, Plant and Equipment Topic of the FASB ASC, the Company reviews long-lived assets and certain identifiable intangible assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. The Company measures recoverability of assets to be held and used by comparing the carrying amount of the assets to future undiscounted net cash flows expected to be generated by the assets. Recoverability measurement and estimating undiscounted cash flows are performed at the lowest possible level for which there are identifiable cash flows. If the carrying amount of the assets exceeds the future undiscounted cash flows expected to be generated by those assets, such assets fail the recoverability test and an impairment charge would be recognized and measured as the amount by which the carrying amount of the assets exceeds the fair value. Assets to be disposed of are recorded at the lower of the carrying amount or fair value less costs to sell.

During the third quarter of 2016, the Company determined that it will discontinue the use of certain technology acquired from Aggregate Knowledge, Inc. (AKI). The Company performed an impairment analysis and concluded that the carrying amount of the AKI asset group exceeded the estimated future undiscounted cash flows of the AKI asset group. The Company performed a recoverability test, determined that the fair value of these long-lived assets was less than the carrying value, and recorded a total impairment charge of \$11.1 million, consisting of charges of \$10.1 million to write down the carrying value of acquired technology and \$1.0 million to write down the carrying value of customer lists and relationships (see Note 4). This \$11.1 million impairment charge is included in depreciation and amortization expense on the consolidated statement of operations.

Recent Accounting Pronouncements - Effective

In September 2015, the FASB issued ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments (Topic 805): Business Combinations, which requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The standard is effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The guidance is to be applied prospectively to adjustments to provisional amounts that occur after the effective date of the standard, with earlier application permitted for financial statements that have not been issued. The Company’s adoption of this ASU did not impact its consolidated financial statements.

Recent Accounting Pronouncements - Not Yet Effective

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. This standard clarifies how certain cash receipts and cash payments should be classified on the statement of cash flows. The standard is effective for interim and annual reporting periods beginning after December 15, 2017, although early adoption is permitted. The Company currently intends to adopt this standard on January 1, 2018 and is currently evaluating the impact of adoption on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation—Stock Compensation (Topic 718). This standard makes several modifications to Topic 718 related to the accounting for forfeitures, employer tax withholding on share-based compensation and the financial statement presentation of excess tax benefits or deficiencies. ASU 2016-09 also clarifies the statement of cash flows presentation for certain components of share-based awards. The standard is effective for interim and

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

annual reporting periods beginning after December 15, 2016, although early adoption is permitted. The Company currently intends to adopt this standard on January 1, 2017 and is currently evaluating the impact of adoption on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases. ASU 2016-02 requires that long-term lease arrangements be recognized on the balance sheet. The standard is effective for interim and annual periods beginning after December 31, 2018, and early adoption is permitted. The Company is currently evaluating the impact of adoption on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). Under this standard, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. On July 9, 2015, the FASB decided to defer by one year the effective dates of the standard. As a result, the standard will be effective for annual and interim periods beginning after December 15, 2017. Companies may adopt the standard as early as the original effective date (i.e. annual reporting periods beginning after December 15, 2016). Early adoption prior to that date is not permitted. The standard allows for either full retrospective adoption, meaning the standard is applied to all of the periods presented, or a modified retrospective adoption, meaning the standard is applied only to the most current period presented. The Company is currently evaluating the impact of adoption on its consolidated financial statements.

3. ACQUISITIONS

Bombora Acquisition

On July 30, 2015, the Company acquired Bombora Technologies Pty Ltd (Bombora) and expanded the Company's registry services. As of September 30, 2016, the final purchase price was \$87.7 million. During the nine months ended September 30, 2016, the Company completed the allocation of the purchase price, which did not result in any material changes to either the purchase price or the preliminary valuation of acquired assets and assumed liabilities. Pro forma financial information for this acquisition has not been presented because the financial impact is not material.

MarketShare Acquisition

On December 9, 2015, the Company completed its acquisition of MarketShare Partners, LLC (MarketShare), a marketing analytics technology provider to major brands. The acquisition of MarketShare expanded the Company's marketing services by creating a complete data-driven solution for Chief Marketing Officers as they plan, optimize and allocate their entire marketing budget and resources across all channels.

The transaction was accounted for under the acquisition method of accounting in accordance with the Business Combination Topic of the FASB ASC. The total preliminary purchase price was \$442.4 million, consisting of cash consideration of \$429.1 million and non-cash consideration of \$13.3 million paid in shares of NeuStar Class A Common Stock, which shares are subject to certain transfer restrictions. During the nine months ended September 30, 2016, the Company recorded working capital and escrow adjustments of \$1.3 million, reducing the preliminary purchase price to \$441.1 million. In addition, the Company adjusted its preliminary valuation of acquired assets and assumed liabilities based upon new information that was received pertaining to acquisition date fair values. During the nine months ended September 30, 2016, the Company adjusted the preliminary valuation the deferred tax asset balance by \$16.7 million, the accounts payable and accrued expenses balance by \$1.0 million, and the accounts receivable balance by \$0.3 million.

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

The allocation of the preliminary purchase price is pending the finalization of the fair value of acquired deferred income tax assets and assumed income and non-income based tax liabilities. The following table summarizes the current preliminary purchase price allocation based on the estimated fair value of the acquired assets and assumed liabilities and reflects the measurement period adjustments recorded during the nine months ended September 30, 2016 (in thousands):

Cash and cash equivalents	\$7,504	
Accounts receivable	8,954	
Prepays and other assets	6,344	
Accounts payable and accrued expenses	(9,330)
Deferred revenue	(2,062)
Deferred tax asset	5,844	
Net tangible assets acquired	17,254	
Customer relationships	30,000	
Acquired identified technology	100,000	
Goodwill	293,832	
Total preliminary purchase price allocation	\$441,086	

As of September 30, 2016, of the total goodwill balance of \$293.8 million, approximately \$203.0 million is expected to be deductible for tax purposes.

Pro Forma Financial Information for the MarketShare Acquisition

The following unaudited pro forma financial information summarizes the Company's results of operations for the period indicated as if the Company's acquisition of MarketShare had been completed as of the beginning of the earliest period presented. These pro forma amounts (unaudited and in thousands) are not indicative of the results that would have actually been obtained if the acquisition occurred as of the beginning of the periods presented and should not be construed as representative of the future consolidated results of operations or financial condition of the combined entity. The pro forma financial information for all periods presented also includes the effect of the related 2015 acquisition financing, amortization expense from the acquired intangible assets, adjustments to interest expense and related tax effects.

	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
Pro forma revenue	\$ 275,183	\$ 807,648
Pro forma income from operations	\$ 73,573	\$ 209,037
Pro forma net income	\$ 41,112	\$ 103,061

Caller Authentication Assets Acquisition

On December 18, 2015, the Company acquired caller authentication assets from Transaction Network Services, Inc., enhancing its position in the caller authentication market that includes subscriber data storage, database management, caller identification and verification services. As of September 30, 2016, the estimated preliminary purchase price was \$220.0 million, of which \$22.0 million was deposited into escrow to satisfy post-closing indemnification claims. The preliminary purchase price is subject to the finalization of the acquisition date fair value of acquired deferred income tax assets and assumed non-income based tax liabilities. Pro forma financial information for this acquisition has not been presented because the financial impact is not material.

4. GOODWILL AND INTANGIBLE ASSETS

Goodwill

The Company's goodwill as of December 31, 2015 and September 30, 2016 is as follows (in thousands):

	December 31, 2015	Acquisitions	Adjustments (1)	Foreign Currency Translation	September 30, 2016
Gross goodwill	\$1,280,585	\$	—\$(17,655)	\$ 3,437	\$1,266,367
Accumulated impairments (93,602)	—	—	—	—	(93,602)
Net goodwill	\$1,186,983	\$	—\$(17,655)	\$ 3,437	\$1,172,765

(1) During the nine months ended September 30, 2016, the Company adjusted the preliminary purchase price paid for certain of its 2015 acquisitions based on adjustments to the preliminary valuation of assets acquired and liabilities assumed in the 2015 acquisitions (see Note 3).

Intangible Assets

Intangible assets consist of the following (in thousands):

	December 31, 2015	September 30, 2016	Weighted- Average Amortization Period (in years)
Intangible assets:			
Client lists and relationships	\$578,085	\$581,685	8.9

Intangible assets, net	\$529,279	\$447,902	

During the third quarter of 2016, the Company performed a recoverability test of its AKI asset group and determined that the fair value of these long-lived assets was less than the carrying value. The Company recorded an impairment charge of \$11.1 million, consisting of charges of \$10.1 million to write down the carrying value of acquired technology and \$1.0 million to write down the carrying value of customer lists and relationships.

Amortization expense related to intangible assets, which is included in depreciation and amortization expense, was approximately \$16.5 million and \$23.8 million for the three months ended September 30, 2015 and 2016, respectively, and \$48.0 million and \$72.4 million for the nine months ended September 30, 2015 and 2016, respectively.

Amortization expense related to intangible assets for the years ended December 31, 2016, 2017, 2018, 2019, 2020 and

thereafter is expected to be

13

Table of Contents

Long-term portion	\$ 957,509	\$ 819,793	

Credit Facilities and Senior Notes

On January 22, 2013, the Company entered into a credit facility that provided for a \$325 million senior secured term loan facility (2013 Term Facility) and a \$200 million senior secured revolving credit facility (2013 Revolving Facility, and together with the 2013 Term Facility, the 2013 Credit Facilities). In addition, the Company closed an offering of \$300 million aggregate principal amount of senior notes (Senior Notes).

On December 9, 2015, the Company amended its 2013 Credit Facilities to provide for (i) the permissibility of an incremental term facility under the 2013 Credit Agreement (the 2013 Credit Agreement), (ii) the addition of a senior secured leverage financial measurement covenant; (iii) streamlined conditions for the incurrence of an incremental term facility to be used for a permitted acquisition; (iv) a required escrow and prepayment (such prepayment to be for the benefit of the incremental facility lenders) by the Company under certain specified circumstances; and (v) certain tax related changes favorable to the Company to the terms of the 2013 Credit Agreement and related security agreement.

On December 9, 2015, the Company borrowed \$350 million under its incremental term facility (the 2015 Incremental Term Facility). The proceeds of the 2015 Incremental Term Facility were used to consummate the acquisition of MarketShare and to pay related fees and expenses.

On September 28, 2016, the Company entered into the third amendment to the 2013 Credit Facilities to (i) extend the maturity date of the 2013 Revolving Facility (the Amended 2013 Revolving Facility) to January 22, 2019, (ii) consolidate the remaining principal balance outstanding under the 2013 Term Facility and the 2015 Incremental Term Facility into a single term loan facility (the Amended 2013 Term Facility, and together with the Amended 2013 Revolving Facility, the Amended 2013 Credit Facilities) and provide a maturity date of January 22, 2019, (iii) set the annual amortization percentage of the Amended 2013 Term Facility at 22% through December 31, 2017 and 10% thereafter and (iv) lower the eurodollar rate margin and base rate margin for the Amended 2013 Term Facility to (a) if the Consolidated Leverage Ratio (as defined in the Credit Agreement) is less than 2 to 1 after March 1, 2017, 3% and

2%, respectively, and (b) if the Consolidated Leverage Ratio is 2 to 1 or greater, 3.25% and 2.25%, respectively. The Company may voluntarily prepay the borrowings under the Amended 2013 Credit Facilities at any time in minimum amounts of \$1 million or an integral multiple of \$500,000 in excess thereof. The Amended 2013 Credit Facilities provide for

14

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

mandatory prepayments with the net cash proceeds of certain debt issuances, insurance receipts, and dispositions. The Amended 2013 Credit Facilities also contain certain events of default, upon the occurrence of which, and so long as such event of default is continuing, the amounts outstanding may, at the option of the required lenders, accrue interest at an increased rate and payments of such outstanding amounts could be accelerated, or other remedies undertaken. As of September 30, 2016, outstanding borrowings under the Amended 2013 Revolving Facility were \$175.0 million and available borrowings under the same facility were \$7.0 million, exclusive of outstanding letters of credit totaling \$18.0 million.

Senior Notes

On January 22, 2013, the Company closed an offering of \$300 million aggregate principal amount of 4.50% senior notes due 2023. The Senior Notes are the general unsecured senior obligations of the Company and are guaranteed on a senior unsecured basis by certain of its domestic subsidiaries, or the Subsidiary Guarantors. Interest is payable on the Senior Notes semi-annually in arrears at an annual rate of 4.50%, on January 15 and July 15 of each year, beginning on July 15, 2013.

If the Company experiences certain changes of control together with a ratings downgrade, it will be required to offer to purchase all of the Senior Notes then outstanding at a purchase price equal to 101.00% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of purchase. If the Company sells certain assets and does not repay certain debt or reinvest the proceeds of such sales within certain time periods, it will be required to offer to repurchase the Senior Notes with such proceeds at 100.00% of their principal amount, plus accrued and unpaid interest, if any, to the date of purchase.

The Senior Notes contain customary events of default, including among other things, payment default, failure to provide certain notices and defaults related to bankruptcy events. The Senior Notes also contain customary negative covenants.

Future Principal Payments

Future principal payments under the Amended 2013 Credit Facilities and the Senior Notes as of September 30, 2016, are as follows (in thousands):

2016	\$27,439
2017	109,757
2018	49,889
2019	459,369
2020	—
Thereafter	300,000

Total future principal payments \$946,454

In October 2016, the Company made \$40.0 million in voluntary prepayments towards the outstanding principal balance of its Amended 2013 Credit Facilities.

Deferred Financing Costs

On September 28, 2016, the Company amended its 2013 Credit Facilities. Certain creditors in the 2013 Term Facility and the 2015 Incremental Term Facility reinvested in the Amended 2013 Term Facility and the change in the present value of future cash flows between the investments was less than 10%. Accordingly, the Company accounted for this refinancing event for these creditors as a debt modification. Previously deferred fees and costs for existing debt will be amortized over the term of the Amended 2013 Term Facility. Fees paid to the creditors in connection with the amendment were included in the loss on debt extinguishment. The proportionate fees incurred with third parties directly related to the modification were included in debt modification expense. Certain investors in the 2013 Term Facility and the 2015 Incremental Term Facility either did not invest in the Amended 2013 Term Facility or the change in the present value of future cash flows between the investments was greater than 10%. Accordingly, the Company accounted for this refinancing event for these investors as a debt extinguishment. Previously deferred fees

and costs for existing debt were included in the loss on debt extinguishment. Fees paid to the creditors in connection with the amendment will be amortized over the term of the Amended 2013 Term Facility. The proportionate fees incurred with third parties directly related to the modification will be amortized over the term of the Amended 2013 Term Facility.

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

Further, the borrowing capacity of certain investors under the Amended 2013 Revolving Facility was greater than or equal to the borrowing capacity under the 2013 Revolving Facility. Accordingly, fees and costs incurred related to the amendment on September 28, 2016, as well as unamortized deferred financing costs, associated with the 2013 Revolving Facility, will be amortized over the term of the Amended 2013 Revolving Facility. The borrowing capacity of certain investors under the Amended 2013 Credit Facility was less than the borrowing capacity under the 2013 Revolving Facility. Accordingly, fees paid in 2016 to the creditor and third-party costs incurred in connection with the amendment on September 28, 2016 will be amortized over the term of the Amended 2013 Revolving Facility.

Unamortized deferred financing costs associated with the 2013 Revolving Facility were written off in proportion to an investor's decrease in borrowing capacity.

In applying debt modification accounting, the Company recorded \$6.4 million in interest and other expense, comprised of \$6.0 million in loss on debt extinguishment and \$0.4 million in debt modification expense, in connection with this refinancing event.

6. STOCKHOLDERS' EQUITY

As of September 30, 2016, a total of 2,736,526 shares were available for grant or award under the Company's stock incentive plans and a total of 176,474 shares were available to be issued under the Company's Employee Stock Purchase Plan. On June 15, 2016, at the Company's annual meeting of stockholders, the Company's stockholders approved a proposal to make an additional 3,000,000 shares available for grant under the Company's stock incentive plans. These shares will become available for grant once registered on a Form S-8 filed with the SEC.

Stock-based compensation expense recognized for the three months ended September 30, 2015 and 2016 was \$10.4 million and \$11.6 million, respectively, and \$28.1 million and \$32.1 million for the nine months ended September 30, 2015 and 2016, respectively. As of September 30, 2016, total unrecognized compensation expense was estimated at \$54.6 million, which the Company expects to recognize over a weighted average period of approximately 1.4 years. Total unrecognized compensation expense as of September 30, 2016 is estimated based on outstanding non-vested stock options, non-vested restricted stock units and non-vested performance vested restricted stock units (PVRsUs). Stock-based compensation expense may increase or decrease in future periods for subsequent grants or forfeitures.

Stock Options

The Company utilizes the Black-Scholes option pricing model to estimate the fair value of stock options granted. The following table summarizes the Company's stock option activity:

	Shares	Weighted- Average Exercise Price	Aggregate Intrinsic Value (in millions)	Weighted- Average Remaining Contractual Life (in years)
Outstanding at December 31, 2015	1,356,904	\$ 24.70		
Granted	—	—		
Exercised	(133,794)	16.28		
Forfeited	(172,559)	26.77		
Outstanding at September 30, 2016	1,050,551	\$ 25.44	\$ 1.5	2.2
Exercisable at September 30, 2016	944,211	\$ 25.33	\$ 1.5	1.9

The aggregate intrinsic value of options exercised for the nine months ended September 30, 2016 was \$1.0 million.

Performance Vested Restricted Stock Units

The fair value of a PVRsU is measured by reference to the closing market price of the Company's common stock on the date of the grant. The Company recognizes the estimated fair value of PVRsUs, net of estimated forfeitures, as

stock-based compensation expense over the vesting period, which considers each performance period or tranche separately, based upon the Company's determination of the level of achievement of the performance target. During the three months ended September 30, 2016, the Company revised its estimate of the level of achievement of the performance target for the 2016 performance year, resulting in a decrease in stock-based compensation expense. The

16

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

Company's consolidated net income for the three and nine months ended September 30, 2016 was \$53.0 million and \$122.5 million, respectively, and diluted net income per common share was \$0.96 and \$2.22 per share, respectively. If the Company had continued to use the previous estimate of achievement for each respective period, the as adjusted net income for the three and nine months ended September 30, 2016 would have been approximately \$52.2 million and \$121.0 million, respectively, and the as adjusted diluted net income per common share would have been approximately \$0.94 and \$2.19 per share, respectively.

The following table summarizes the Company's non-vested PVRSU activity for the nine months ended September 30, 2016:

	Shares	Weighted- Average Grant Date Fair Value	Aggregate Intrinsic Value (in millions)
Non-vested at December 31, 2015	1,366,572	\$ 26.78	
Granted	1,123,061	24.08	
Vested	(882,243)	28.29	
Forfeited	(211,584)	26.94	
Non-vested at September 30, 2016	1,395,806	\$ 23.63	\$ 37.1

The aggregate intrinsic value of PVRsUs vested during the nine months ended September 30, 2016 was approximately \$21.8 million. The Company repurchased 339,783 shares of common stock for an aggregate purchase price of \$8.4 million pursuant to the participants' rights under the Company's stock incentive plans to elect to use common stock to satisfy their minimum tax withholding obligations.

Restricted Stock Units

The following table summarizes the Company's restricted stock units activity for the nine months ended September 30, 2016:

	Shares	Weighted- Average Grant Date Fair Value	Aggregate Intrinsic Value (in millions)
Outstanding at December 31, 2015	2,074,120	\$ 30.42	
Granted	1,172,334	24.00	
Vested	(535,753)	32.12	
Forfeited	(231,194)	28.39	
Outstanding at September 30, 2016	2,479,507	\$ 27.21	\$ 66.0

The aggregate intrinsic value of restricted stock units vested during the nine months ended September 30, 2016 was approximately \$13.0 million. The Company repurchased 191,249 shares of common stock for an aggregate purchase price of \$4.6 million pursuant to the participants' rights under the Company's stock incentive plans to elect to use common stock to satisfy their minimum tax withholding obligations.

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

7. BASIC AND DILUTED NET INCOME PER COMMON SHARE

The following table provides a reconciliation of the numerators and denominators used in computing basic and diluted net income per common share (in thousands, except per share data):

	Three Months Ended September 30, 2015		Nine Months Ended September 30, 2015	
	2015	2016	2015	2016
Computation of basic net income per common share:				
Net income	\$50,282	\$53,031	\$141,554	\$122,527
Weighted average common shares and participating securities outstanding – basic	54,123	54,542	55,153	54,318
Basic net income per common share	\$0.93	\$0.97	\$2.57	\$2.26
Computation of diluted net income per common share:				
Weighted average common shares outstanding – basic	54,123	54,542	55,153	54,318
Effect of dilutive securities:				
Stock-based awards	1,002	890	925	809
Weighted average common shares outstanding – diluted	55,125	55,432	56,078	55,127
Diluted net income per common share	\$0.91	\$0.96	\$2.52	\$2.22

Diluted net income per common share reflects the potential dilution of common stock equivalents such as options and warrants, to the extent the impact is dilutive. Common stock options to purchase an aggregate of 754,059 and 1,190,512 shares were excluded from the calculation of the denominator for diluted net income per common share due to their anti-dilutive effect for the three months ended September 30, 2015 and 2016, respectively. Common stock options to purchase an aggregate of 776,001 and 1,433,707 shares were excluded from the calculation of the denominator for diluted net income per common share due to their anti-dilutive effect for the nine months ended September 30, 2015 and 2016, respectively.

8. RESTRUCTURING CHARGES

2016 Restructuring

During the three and nine months ended September 30, 2016, the Company recorded restructuring charges of \$2.6 million and \$11.4 million, respectively, related to estimated severance and severance-related costs.

9. INTEREST AND OTHER EXPENSE

Interest and other expense consists of the following (in thousands):

	Three Months Ended September 30, 2015		Nine Months Ended September 30, 2015	
	2015	2016	2015	2016
Interest and other expense:				
Interest expense	\$6,475	\$15,191	\$19,321	\$47,718
Loss on debt modification and extinguishment	—	6,354	—	6,354
Gain on asset disposals	(23)	(123)	(277)	(115)
Foreign currency transaction loss	323	757	934	1,024
Total interest and other expense	\$6,775	\$22,179	\$19,978	\$54,981

10. INCOME TAXES

The Company's effective tax rate, including discrete tax benefits of \$26.4 million, decreased to 17.3% for the nine months ended September 30, 2016 from 35.3% for the nine months ended September 30, 2015, primarily due to a discrete

Table of Contents

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2016

income tax benefit of \$23.1 million recorded in the third quarter of 2016 for a worthless stock deduction associated with the liquidation of one of the Company's domestic subsidiaries for tax purposes. The Company intends to treat the common stock of this subsidiary as worthless for U.S. income tax purposes on its 2016 U.S. federal and state income tax returns.

As of December 31, 2015 and September 30, 2016, the Company had unrecognized tax benefits of \$7.5 million and \$7.7 million, respectively, of which \$6.9 million and \$7.0 million, respectively, would affect the Company's effective tax rate if recognized.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. During the three and nine months ended September 30, 2015 and 2016, potential interest and penalties were insignificant. Interest and penalties are primarily due to uncertain tax positions assumed in acquisitions. To the extent interest and penalties are not assessed with respect to uncertain tax positions, amounts accrued will be reduced and reflected as a reduction of the overall income tax provision.

The Company files income tax returns in the United States federal jurisdiction and in many state and foreign jurisdictions. The tax years 2009 through 2015 remain open to examination by the major taxing jurisdictions to which the Company is subject. During the first quarter of 2016, the IRS completed an examination of the 2010 federal income tax return of Neustar Information Services, Inc. No adjustments were made as a result of the audit.

The Company anticipates that the amount of reasonably possible unrecognized tax benefits that could decrease over the next 12 months due to the expiration of certain statutes of limitations and settlement of tax audits is not material to the Company's consolidated financial statements.

11. SEGMENT INFORMATION

The Company engages in business activities as a single entity and the chief operating decision maker reviews consolidated operating results and allocates resources based on consolidated reports. The Company has a single operating segment.

Enterprise-Wide Disclosures

Revenue by geographical areas is based on the billing address of the Company's clients. Geographic area revenue and service revenue from external clients for the three and nine months ended September 30, 2015 and 2016, and geographic area property and equipment as of December 31, 2015 and September 30, 2016 are as follows (in thousands):

	Three Months Ended September 30, 2015		Nine Months Ended September 30, 2015	
	2016	2016	2016	2016
Revenue by geographical areas:

12. SUPPLEMENTAL GUARANTOR INFORMATION

The following schedules present condensed consolidating financial information of the Company as of December 31, 2015 and September 30, 2016 and for the three and nine months ended September 30, 2015 and 2016 for (a) Neustar, Inc., the parent company; (b) certain of the Company's 100% owned domestic subsidiaries (collectively, the Subsidiary Guarantors); and (c) certain wholly-owned domestic and foreign subsidiaries of the Company (collectively, the Non-Guarantor Subsidiaries). Investments in subsidiaries are accounted for using the equity method; accordingly, entries necessary to consolidate the parent company and all of the guarantor and non-guarantor subsidiaries are reflected in the eliminations column. Intercompany amounts that will not be settled between entities are treated as contributions or distributions for purposes of these condensed consolidated financial statements. The guarantees are full and unconditional and joint and several. A Subsidiary Guarantor will be released from its obligations under the Senior Notes when: (a) the Subsidiary Guarantor is sold or sells substantially all of its assets; (b) the Subsidiary Guarantor is designated as an unrestricted subsidiary as defined by the Senior Notes; (c) the Subsidiary Guarantor's guarantee of indebtedness under the Senior Notes is released (other than discharge through repayment); or (d) the requirements for legal or covenant defeasance or discharge of the indenture have been satisfied.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements, including, without limitation, statements concerning the conditions in our industries, our operations and economic performance, and our business and growth strategy. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these other comparable terminology. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Many of these risks are beyond our ability to control or predict. These forward-looking statements are based on estimates and assumptions made by our management that we believe to be reasonable but are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those described in this report, in Part II, "Item 1A. Risk Factors" and in subsequent filings with the Securities and Exchange Commission. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as required by law.

Overview

Planned Company Separation

On June 21, 2016, we announced our intention to separate into two independent and publicly traded companies. One company will consist of the majority of our Information Services, which consists of Marketing Services, Security Services and related Data Services. The other company will focus on providing Order Management and Numbering Services. Order Management and Numbering Services will provide Local Number Portability Administration, number administration and ancillary numbering services as well as order and inventory management solutions. We intend to accomplish the separation through a tax-free spin-off, which we expect to occur in 2017. The separation is subject to final approval by our Board of Directors, as well as a number of market and regulatory conditions, including, among others, effectiveness of the Form 10 to be filed with the Securities and Exchange Commission.

Third Quarter 2016 Activity

During the third quarter, we expanded our highly competitive solutions by entering into new strategic partnerships. In particular, we entered into an advanced marketing analytics partnership with Facebook and now have a differentiated solution that chief marketing officers can rely on for attribution across various channels and for intelligent planning of marketing spend. In addition, we developed new features for our DDoS protection solution. These features provide improved speed and flexibility through enhanced automation of traffic flows, management and visibility.

During the third quarter, we generated revenue of \$300.1 million, an increase of 15% from \$261.7 million in the third quarter of 2015. This increase was driven by revenue from our 2015 acquisitions and continued demand for our solutions. Our Marketing Services revenue for the quarter increased 54% to \$63.3 million from \$41.1 million in the third quarter of 2015, and included revenue from the acquisition of MarketShare. Our Security Services revenue increased 18% to \$51.0 million from \$43.2 million in the third quarter of 2015, and included revenue from the acquisition of Bombora Technologies. Our Data Services revenue increased 14% to \$58.2 million from \$51.2 million, and included revenue from the caller authentication assets acquired from TNS. Our NPAC Services revenue increased 1% to \$127.6 million from \$126.2 million due to revenue from transition services under our contracts to provide Local Number Portability Administrator, or LNPA, services.

In addition to our continued growth in revenue, we improved our financial structure through the refinancing of our credit facilities. Specifically, we amended the terms of our 2013 Credit Facility to include a lower interest rate of LIBOR plus 325 basis points, subject to a pricing grid, and a reduced annual amortization of 22% until the end of 2017 and 10% thereafter. We also extended the maturity date by one year to January 22, 2019. This refinancing provides us with a lower cost of debt and greater financial flexibility.

On March 26, 2015, the Federal Communications Commission, or FCC, approved a competitor to serve as the next LNPA and authorized the North American Portability Management LLC, or NAPM, to begin contract negotiations

with that competitor. On April 6, 2015, we filed a Petition for Review asking the U.S. Court of Appeals for the District of Columbia Circuit to “hold unlawful, vacate, enjoin, and set aside” the FCC’s Order approving the North American Numbering Counsel’s recommendation. On June 19, 2015, the Court of Appeals granted the requests made by third-party petitioners to intervene in the case. On July 21, 2015, the Court of Appeals dismissed the FCC’s motion to hold the case in abeyance pending further FCC action and ruled that the issues raised in the FCC’s motion to dismiss should be addressed in the parties’ briefs on the

Table of Contents

merits. We filed our initial brief on September 21, 2015, the briefing schedule concluded on December 17, 2015, and oral argument before the Court of Appeals took place on September 13, 2016.

On April 7, 2015, we amended our seven regional contracts with the NAPM. Under this amendment, we will provide LNPA services for an annual fixed fee of \$496.1 million until the termination of these contracts. In addition to LNPA services, we are providing certain transition services under this amendment on a cost-plus basis. On July 1, 2016, we received a notice of non-renewal from the NAPM informing us of its election not to renew the master agreements that expire on September 30, 2016. On July 25, 2016 the FCC issued an Order approving the proposed contract between the NAPM and a competitor to serve as the next LNPA. On September 29, 2016, the NAPM provided notice to extend the term of our master contracts with NAPM and opted not to license the source code that we use to provide services to the NAPM. We will continue to provide services and transition services at the pricing terms under the current contracts until the NAPM provides at least one termination notice to us, which must establish a termination date that is 180 days after the date of notice. We cannot be certain how long we will provide LNPA services; however, we will continue to provide services under the current terms of the NAPM contracts for as long as required by NAPM. On April 20, 2016, the NAPM Transition Oversight Manager, or the TOM, published a preliminary transition timeline which extends the transition through the third quarter of 2017. The TOM subsequently issued a revised timeline that extends the transition through May 25, 2018. Based on this timeline, we do not expect that the NAPM will provide us with a termination notice establishing a termination date occurring during the next twelve months.

Prior to the April 2015 amendment, we provided LNPA services under our contracts with NAPM for a fixed fee with a 6.5% annual price escalator. These contracts were due to expire on June 30, 2015. The 2015 LNPA service fixed fee under the prior contract terms represents the impact of a 6.5% annual escalator on the 2014 LNPA service fixed fee of \$465.8 million, resulting in a 2015 LNPA service fixed fee of \$496.1 million. Under the April 7, 2015 amendment, the annual LNPA service fixed fee remains the same at \$496.1 million for the duration of the amended term of the contracts. As a result, the amendment will not have an impact on our revenue growth rate for the year ended December 31, 2016.

Loss of the NPAC contracts will have a material adverse impact on our future operating results when compared to our current financial profile. We expect to lose approximately \$500 million of annual revenue and this loss will adversely impact our income from operations and operating margin. Additionally, this loss may have a disproportionate material negative impact on our operating margin because of the largely fixed and shared cost structure that is designed to support all of our services. As a result of the uncertain contract end date and due to our cost structure, which is organized by function, we are currently analyzing the impact of the termination of the contracts on our income from operations in an effort to quantify such impacts. Our disclosure will expand as we evaluate the cost structure that will be in place to support our ongoing business or as we learn more about the timing of the contract termination.

Given the facts and circumstances described above, we determined that the structure of our organization is appropriate at this time.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based on our unaudited consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. The preparation of these financial statements in accordance with U.S. GAAP requires us to utilize accounting policies and make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingencies as of the date of the financial statements and the reported amounts of revenue and expense during a fiscal period. The U.S. Securities and Exchange Commission, or SEC, considers an accounting policy to be critical if it is important to a company's financial condition and results of operations, and if it requires significant judgment and estimates on the part of management in its application. We have discussed the selection and development of the critical accounting policies with the audit committee of our Board of Directors, and the audit committee has reviewed our related disclosures in this report.

Although we believe that our judgments and estimates are appropriate and reasonable, actual results may differ from those estimates. In addition, while we have used our best estimates based on the facts and circumstances available to

us at the time, we reasonably could have used different estimates in the current period. Changes in the accounting estimates we use are reasonably likely to occur from period to period, which may have a material impact on the presentation of our financial condition and results of operations. If actual results or events differ materially from those contemplated by us in making these estimates, our reported financial condition and results of operations could be materially affected. See the information in our filings with the SEC from time to time, including Part II, Item 1A. “Risk Factors” in our Quarterly Report on Form 10-Q for our quarter ended June 30, 2016, or June 2016 10-Q, filed with the SEC on July 28, 2016, for certain matters that may bear on our results of operations.

Table of Contents

For a discussion of selected critical accounting policies refer to our critical accounting policies described in Part II, “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2015.

Consolidated Results of Operations

Three Months Ended September 30, 2015 Compared to Three Months Ended September 30, 2016

The following table presents an overview of our results of operations for the three months ended September 30, 2015 and 2016:

	Three Months Ended September 30,			
	2015	2016	2015 vs. 2016	
	\$	\$	\$ Change	% Change
	(unaudited)			
	(dollars in thousands, except per share data)			
Revenue	\$261,653	\$300,081	\$38,428	14.7 %
Operating expense:				
Cost of revenue (excludes depreciation and amortization shown separately below)	67,108	93,560	26,452	39.4 %
Sales and marketing	48,911	50,824	1,913	3.9 %
Research and development	6,009	6,041	32	0.5 %
General and administrative	28,617	28,040	(577)	(2.0)%

Revenue

Revenue. Revenue increased \$38.4 million driven by revenue from acquisitions closed in 2015 and demand for our Marketing and Security Services. Revenue from our Marketing Services increased \$22.2 million driven by a \$14.9 million contribution from MarketShare, acquired in the fourth quarter of 2015, and increased demand for our services that our clients use to make informed and high impact decisions to promote their products and services. Security Services revenue increased \$7.9 million driven by an increase in revenue of \$4.7 million from domain name registries and an increase in revenue of \$3.1 million resulting from demand for our DNS services. The increase in revenue from domain name registries was driven by \$3.4 million from the acquisition of Bombora Technologies completed on July 30, 2015. The remaining increase in domain name registries was driven by continued growth in the number of domain names under management.

Data Services revenue increased \$7.0 million. Revenue from caller identification services increased \$19.5 million driven by a \$15.9 million contribution from the caller authentication assets we acquired from TNS. This increase was

partially offset by a \$10.0 million decrease in revenue from the expiration of our contract to serve as the registry operator for U.S. Common

31

Table of Contents

Short Codes in 2015. In addition, revenue from user authentication and rights managements services decreased \$2.6 million.

Revenue from our NPAC Services increased \$1.4 million driven by revenue from transition services under our contracts to provide LNPA services.

Expense

Cost of revenue. Cost of revenue increased \$26.5 million, including \$18.4 million of operating expense related to acquisitions. This increase of \$26.5 million was due to an increase of \$15.3 million in costs related to our information technology and systems and an increase of \$8.3 million in personnel and personnel-related expense. The increase in costs related to our information technology and systems was driven by increased data processing, telecommunications, maintenance and hardware costs. The increase of \$8.3 million in personnel and personnel-related expense was due to a \$7.9 million increase in personnel costs driven by headcount growth and a \$0.4 million increase in stock-based compensation. In addition, royalty costs increased \$1.7 million and contractor costs increased \$1.1 million.

Sales and marketing. Sales and marketing expense increased \$1.9 million, including \$7.1 million of operating expense related to acquisitions. This increase of \$1.9 million was due to an increase of \$3.5 million in personnel and personnel-related expense and an increase of \$0.3 million in maintenance and general facilities costs. The increase of \$3.5 million in personnel and personnel-related expense was due to a \$3.8 million increase in personnel costs, partially offset by a \$0.3 million decrease in stock-based compensation. These increases were partially offset by a \$1.9 million decrease in advertising and marketing costs.

Research and development. Research and development expense for the three months ended September 30, 2016 was comparable to the research and development expense for the three months ended September 30, 2015.

General and administrative. General and administrative expense decreased \$0.6 million, including \$1.4 million of operating expense related to acquisitions completed in 2015. This decrease of \$0.6 million was due to a decrease of \$2.3 million in professional fees, partially offset by an increase of \$1.4 million in general facilities costs and an increase of \$0.3 million in personnel and personnel-related expense. The decrease in professional fees was driven by a reduction of costs to pursue new business opportunities. The increase of \$0.3 million in personnel and personnel-related expense was due to a \$1.1 million increase in stock-based compensation, partially offset by a \$0.8 million decrease in personnel costs.

Depreciation and amortization. Depreciation and amortization expense increased \$19.4 million, including \$7.8 million in depreciation and amortization expense related to assets acquired as part of our 2015 acquisitions. During the quarter, we recorded an \$11.1 million impairment charge to write down long-lived intangible assets. Amortization expense increased \$7.3 million related to other acquired intangible assets. In addition, depreciation expense increased \$1.0 million.

Restructuring charges. Restructuring charges increased \$2.6 million in connection with a restructuring initiated in the third quarter of 2016 to achieve efficiencies in connection with the integration of our recent acquisitions and the review of our go-to-market strategy.

Separation costs. During the three months ended September 30, 2016, we incurred separation costs of \$2.1 million. In the second quarter of 2016, we announced our intention to separate into two independent and publicly traded companies through a tax-free spin-off. Separation costs recorded in the third quarter related to activities supporting the planned separation. These costs include professional fees for outside advisory services including legal, finance, accounting and related services.

Interest and other expense. Interest and other expense increased \$15.4 million due to an increase of \$8.7 million in interest expense, a \$6.4 million loss on debt modification and extinguishment recorded in connection with the Amended 2013 Credit Facilities, and a net increase of \$0.4 million in foreign currency transaction losses. The increase in interest expense was driven by borrowings under the 2015 Incremental Term Facility and an increase in the interest rate under our 2013 Term Facility. On September 28, 2016, we amended our credit facilities and among other things, consolidated the remaining principal outstanding under our 2013 Term Facility and our 2015 Incremental Term Facility into a single term loan facility, or the Amended 2013 Term Facility.

Interest income. Interest income for the three months ended September 30, 2016 was comparable to the interest income for the three months ended September 30, 2015.

Provision (benefit) for income taxes. Our effective tax rate, including discrete items, for the three months ended September 30, 2016 was (17.8)%, a decrease from 32.0% for the three months ended September 30, 2015. During the third quarter of 2016, we liquidated one of our domestic subsidiaries for tax purposes. We intend to treat the common stock of this subsidiary as worthless for U.S. income tax purposes on our 2016 U.S. federal and state income tax returns. We recorded a discrete tax benefit of \$23.1 million associated with this worthless stock deduction in the third quarter of 2016. Excluding all

Table of Contents

discrete tax items, our effective tax rate was approximately 35.1% and 36.3% for the three months ended September 30, 2016 and 2015, respectively.

Nine Months Ended September 30, 2015 Compared to Nine Months Ended September 30, 2016

The following table presents an overview of our results of operations for the nine months ended September 30, 2015 and 2016:

	Nine Months Ended September 30,			
	2015	2016	2015 vs. 2016	
	\$	\$	\$ Change	% Change
	(unaudited)			
	(dollars in thousands, except per share data)			
Revenue	\$769,808	\$884,944	\$115,136	15.0 %
Operating expense:				
Cost of revenue (excludes depreciation and amortization shown separately below)	198,817	275,148	76,331	38.4 %

Diluted	56,078	55,127		

Revenue. Revenue increased \$115.1 million driven by revenue from acquisitions closed in 2015 and demand for our Marketing and Security Services. Revenue from our Marketing Services increased \$65.6 million driven by a \$40.6 million contribution from MarketShare, acquired in the fourth quarter of 2015, and increased demand for our services that help clients make informed and high impact decisions to promote their products and services.

Security Services revenue increased \$25.7 million driven by an increase in revenue of \$21.7 million from domain name registries and an increase in revenue of \$4.0 million resulting from demand for our DNS services. The increase in revenue from domain name registries was driven by \$16.5 million from the acquisition of Bombora Technologies completed on July 30, 2015, which included \$4.1 million in revenue resulting from the consolidation of the customer base. The remaining increase in domain name registries was driven by continued growth in the number of domain names under management.

Data Services revenue increased \$18.5 million. Revenue from caller identification services increased \$55.7 million driven by a \$48.2 million contribution from the caller authentication assets we acquired from TNS. This increase was partially offset by a \$29.0 million decrease in revenue from the expiration of our contract to serve as the registry

operator for U.S. Common Short Codes in 2015. In addition, revenue from user authentication and rights managements services decreased \$5.5 million, and revenue from carrier provisioning services decreased \$2.7 million due to the completion of client projects.

Table of Contents

Revenue from our NPAC Services increased \$5.2 million driven by revenue from transition services under our contracts to provide LNPA services.

Expense

Cost of revenue. Cost of revenue increased \$76.3 million, including \$60.9 million of operating expense related to acquisitions. This increase of \$76.3 million was due to an increase of \$39.1 million in costs related to our information technology and systems and an increase of \$27.9 million in personnel and personnel-related expense. The increase in costs related to our information technology and systems was driven by increased data processing, telecommunications, maintenance and hardware costs. The increase of \$27.9 million in personnel and personnel-related expense was due to a \$26.2 million increase in personnel costs driven by headcount growth and a \$1.7 million increase in stock-based compensation. In addition, royalty costs increased \$5.6 million and contractor costs increased \$3.6 million.

Sales and marketing. Sales and marketing expense increased \$13.8 million, including \$27.1 million of operating expense related to acquisitions. This increase of \$13.8 million was due to an increase of \$15.4 million in personnel and personnel-related expense and an increase of \$1.3 million in maintenance and general facilities costs. The increase of \$15.4 million in personnel and personnel-related expense was due to a \$14.5 million increase in personnel costs and a \$0.9 million increase in stock-based compensation. These increases were partially offset by a \$3.0 million decrease in advertising and marketing costs.

Research and development. Research and development expense increased \$0.4 million, including \$2.1 million of operating expense related to acquisitions. This increase of \$0.4 million was due to personnel and personnel-related expense.

General and administrative. General and administrative expense increased \$4.8 million, including \$6.3 million of operating expense related to acquisitions completed in 2015. This increase of \$4.8 million was due to an increase of \$2.9 million in personnel and personnel-related costs, a \$2.1 million gain from the sale of certain assets and liabilities in the second quarter of 2015 with no comparable benefit in the second quarter of 2016, and an increase of \$2.1 million in general facilities costs. The increase of \$2.9 million in personnel and personnel-related expense was due to a \$1.7 million increase in personnel costs and a \$1.2 million increase in stock-based compensation. These increases were partially offset by a \$2.4 million decrease in professional fees.

Depreciation and amortization. Depreciation and amortization expense increased \$37.4 million, including \$21.8 million in depreciation and amortization expense related to assets acquired as part of our 2015 acquisitions. During the third quarter, we recorded an \$11.1 million impairment charge to write down long-lived intangible assets. Amortization expense increased \$24.4 million related to other acquired intangible assets. In addition, depreciation expense increased \$2.0 million.

Restructuring expense. Restructuring charges increased \$11.4 million due to plans initiated in the first and third quarters of 2016 to achieve efficiencies in connection with the integration of our recent acquisitions and the review of our go-to-market strategy.

Separation costs. During the nine months ended September 30, 2016, we incurred separation costs of \$6.4 million. In the second quarter of 2016, we announced our intention to separate into two independent and publicly traded companies through a tax-free spin-off. Separation costs recorded during the nine months ended September 30, 2016 related to activities supporting the planned separation. These costs include professional fees for outside advisory services including legal, finance, accounting and related services.

Interest and other expense. Interest and other expense increased \$35.0 million due an increase of \$28.4 million in interest expense, a \$6.4 million loss on debt modification and extinguishment recorded in connection with the Amended 2013 Credit Facilities, and a net increase of \$0.2 million in losses on asset disposals. The increase in interest expense was driven by borrowings under the 2015 Incremental Term Facility and an increase in the interest rate under our 2013 Term Facility. On September 28, 2016, we amended our credit facilities and among other things, consolidated the remaining principal outstanding under our 2013 Term Facility and our 2015 Incremental Term Facility into a single term loan facility, or the Amended 2013 Term Facility.

Interest income. Interest income for the nine months ended September 30, 2016 was comparable to the interest income for the nine months ended September 30, 2015.

Provision for income taxes. Our effective tax rate, including discrete items, for the nine months ended September 30, 2016 was 17.3%, a decrease from 35.3% for the nine months ended September 30, 2015. During the third quarter of 2016, we liquidated one of our domestic subsidiaries for tax purposes. We intend to treat the common stock of this subsidiary as worthless for U.S. income tax purposes on our 2016 U.S. federal and state income tax returns. We recorded a discrete tax benefit of \$23.1 million associated with this worthless stock deduction in the third quarter of 2016. Excluding all

34

Table of Contents

discrete tax items, our effective tax rate was approximately 35.1% and 36.3% for the nine months ended September 30, 2016 and 2015, respectively.

Liquidity and Capital Resources

Our principal source of liquidity has been cash provided by our operating and financing activities. Our principal uses of cash have been to fund acquisitions, share repurchases, debt service requirements and capital expenditures. We anticipate that our principal uses of cash in the future will be for debt service requirements and capital expenditures. Total cash and cash equivalents were \$56.2 million at September 30, 2016, a decrease of \$32.9 million from \$89.1 million at December 31, 2015. This decrease in cash and cash equivalents was driven by cash used to reduce the outstanding principal under the 2013 Credit Facilities, partially offset by cash provided by operating activities. We believe that our existing cash and cash equivalents and cash from operations will be sufficient to fund our operations for at least the next twelve months.

Credit Facilities

On January 22, 2013, we entered into a credit facility that provided for a \$325 million senior secured term loan facility, or 2013 Term Facility, and a \$200 million senior secured revolving credit facility, or the 2013 Revolving Facility, and together with the 2013 Term Facility, the 2013 Credit Facilities. In addition, we closed an offering of \$300 million aggregate principal amount of senior notes, or Senior Notes. On December 9, 2015, we amended our 2013 Credit Facilities to provide for a \$350 million incremental term loan, or the 2015 Incremental Term Facility. On September 28, 2016 we further amended our 2013 Credit Facilities to (i) consolidate the remaining principal outstanding under our 2013 Term Facility and our 2015 Incremental Term Facility into a single term loan facility, (ii) provide a maturity date of January 22, 2019, (iii) set the annual amortization percentage of the Amended 2013 Term Facility at 22% through December 31, 2017 and 10% thereafter and (iv) lower the eurodollar rate margin and base rate margin for the Amended 2013 Term Facility to (a) if the Consolidated Leverage Ratio (as defined in the Credit Agreement) is less than 2 to 1 after March 1, 2017, 3.00% and 2.00%, respectively, and (b) if the Consolidated Leverage Ratio is 2 to 1 or greater, 3.25% and 2.25%, respectively. The third amendment also provides that upon consummation of a spin-off separating our business into two separate companies, the commitments under the revolving credit facility will be permanently reduced to zero and we must prepay all outstanding advances under the Amended 2013 Credit Facilities.

For further discussion of this debt, refer to Note 7 to our Consolidated Financial Statements in Item 8 of Part II in our Annual Report on Form 10-K for the year ended December 31, 2015 and Note 5 to our Financial Statements in Item 1 of Part I of this report.

Discussion of Cash Flows**Cash flows from operations**

Net cash provided by operating activities for the nine months ended September 30, 2016 was \$208.7 million, as compared to \$250.7 million for the nine months ended September 30, 2015. This \$42.0 million decrease in net cash provided by operating activities was the result of a decrease in net income of \$19.0 million, an increase in non-cash adjustments of \$74.2 million and a decrease in net changes in operating assets and liabilities of \$97.2 million. Non-cash adjustments increased \$74.2 million, driven by an increase of \$37.4 million in depreciation and amortization expense, an increase of \$15.5 million in deferred income taxes, an increase of \$10.9 million in amortization of deferred financing costs and original issue discount on debt, a loss on debt modification and extinguishment of \$6.4 million recorded in the fourth quarter related to our Amended 2013 Credit Facilities, an increase of \$4.0 million in stock-based compensation, a decrease of \$0.7 million in gain on asset disposals, and a decrease of \$0.1 million in tax benefit from equity awards. These total increases of \$75.0 million in non-cash adjustments were partially offset by a decrease of \$0.6 million in the provision for doubtful accounts.

Cash provided by net changes in operating assets and liabilities decreased \$97.2 million primarily due to a decrease of \$42.3 million in accounts payable and accrued expenses, a decrease of \$37.6 million in income taxes, a net increase of \$22.3 million in accounts and unbilled receivables, a decrease of \$7.2 million in other liabilities, and a decrease of \$3.0 million in deferred costs. These total decreases of \$112.4 million in net changes in operating assets and liabilities were partially offset by an increase of \$7.4 million in deferred revenue, an increase of \$4.4 million in other assets, and

an increase of \$3.4 million in prepaid expenses and other current assets.

35

Table of Contents

Cash flows from investing

Net cash used in investing activities for the nine months ended September 30, 2016 was \$38.0 million, as compared to \$106.6 million for nine months ended September 30, 2015. This \$68.6 million decrease in net cash used in investing activities was due to a decrease of \$84.1 million in cash used for acquisitions, partially offset by an increase of \$15.6 million in cash used for purchases of property and equipment.

Cash flows from financing

Net cash used in financing activities was \$204.0 million for the nine months ended September 30, 2016, as compared to \$111.8 million for the nine months ended September 30, 2015. This \$92.3 million increase in net cash used in financing activities was due to an increase of \$173.1 million in principal payments under our 2013 Credit Facilities, an increase of \$10.2 million in debt issuance costs, a decrease of \$7.1 million in cash proceeds from the issuance of stock, an increase of \$0.7 million in cash used in principal repayments on capital lease obligations, and a decrease of \$0.1 million in tax benefit from equity awards. These total increases of \$191.2 million in cash used in financing activities was partially offset by a decrease of \$98.6 million in cash used for share repurchases and for the net down of employee shares and cash provided of \$0.3 million due to a net change in restricted cash.

Recent Accounting Pronouncements

See Note 2 to our Financial Statements in Item 1 of Part I of this report for a discussion of the effects of recent accounting pronouncements.

Off-Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For quantitative and qualitative disclosures about our market risk, see “Quantitative and Qualitative Disclosures About Market Risk” in Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. Our exposure to market risk has not changed materially since December 31, 2015.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of September 30, 2016, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective and were operating at the reasonable assurance level.

In addition, there were no changes in our internal control over financial reporting that occurred in the third quarter of 2016 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

On April 6, 2015, we filed a Petition for Review asking the U.S. Court of Appeals for the District of Columbia Circuit to “hold unlawful, vacate, enjoin, and set aside” the FCC Order issued on March 27, 2015, approving a recommendation by the North American Numbering Council for a competitor to serve as the next LNPA. Among other things, we believe the FCC Order violates the notice and comment rulemaking requirements of the Administrative Procedure Act, violates the FCC’s rules by selecting an entity that is not impartial or neutral to serve as the next LNPA and is arbitrary, capricious, an abuse of discretion or otherwise contrary to law. On June 19, 2015, the Court of Appeals granted the requests made by third-party petitioners to intervene in the case. On July 21, 2015, the Court of Appeals

dismissed the FCC's motion to hold the case in abeyance pending further FCC action and ruled that the issues raised in the FCC's motion to dismiss should be addressed in the parties' briefs on the merits. We filed our initial brief on September 21, 2015, the briefing schedule concluded on December 17, 2015, and oral argument before the Court of Appeals took place on September 13, 2016.

Table of Contents

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risks discussed in Part II, Item 1A. "Risk Factors" in our Quarterly Report on Form 10-Q for our quarter ended June 30, 2016, or June 2016 10-Q, filed with the SEC on July 28, 2016. The risks discussed in our June 2016 10-Q could materially affect our business, financial condition and future results. The risks described in our June 2016 10-Q are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table is a summary of our repurchases of common stock during each of the three months in the quarter ended September 30, 2016:

Month	Total	
	Number of Shares Purchased	Average Price Paid per Share (1)
July 1 through July 31, 2016	2,049	\$ 23.98
August 1 through August 31, 2016	3,089	24.18
September 1 through September 30, 2016	2,271	26.35
Total	7,409	\$ 24.79

The number of shares purchased includes shares of common stock tendered by employees to us to satisfy the (1)employees' minimum tax withholding obligations arising as a result of the vesting of restricted stock grants under our stock incentive plan. We purchased these shares for their fair market value on the vesting date.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

See exhibits listed under the Exhibit Index below.
