[LOGO OF EDAP TMS]

EDAP TMS Investor Summary
The world leader in HIFU for localized prostate cancer

Hugues de Bantel: Chief Executive Officer
Philippe Chauveau: Chairman of the Board
January 2006

Forward Looking Statements

[LOGO OF EDAP TMS]

This presentation contains, in addition to historical information, forward-looking statements that involve risks and uncertainties. These include statements regarding the Company's growth and expansion plans. Such statements are based on management's current expectations and are subject to a number of uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that may cause such a difference include, but are not limited to, those described in the Company's filings with the Securities and Exchange Commission.

Company Overview

[LOGO OF EDAP TMS]

EDAP TMS S.A. is the world leader in High Intensity Focused Ultrasound treatment for prostate cancer.

The company develops and markets Ablatherm®-HIFU, a proven minimally invasive and effective treatment option for localized prostate cancer, preserving patient quality of life. The company is also developing this technology for the treatment of certain other types of tumors.

EDAP also develops and commercializes medical equipment for treatment of urinary tract stones using Extra-corporeal Shockwave Lithotripsy (ESWL), an established treatment choice.

EDAP TMS Global Operations
EDAP is Addressing Two Major Pathologies in Urology:
Prostate Cancer & Urinary Stones

[LOGO OF EDAP TMS]

HIFU

A new advance in the treatment of prostate cancer 50% gross margin*

Approved in Europe, Canada, Russia, Australia, South East Asia

Start of US clinical trials approved by FDA

High growth market

New market, reimbursement opportunities

Site and per-use options

Make-it-happen model

LITHOTRIPSY

A mature treatment for basic urological tract stones 30% gross margin*

Provides momentum for overall business

Driven by replacement

Gaining market share

Predictable margins and cycles

Worldwide network to build on

Bringing new products to the pipe

*as of September 05

Global Growth Platform

[LOGO OF EDAP TMS]

2004 operational turnaround demonstrated cash-positive capabilities in both divisions

In 2005, market expansion was driven by the following strategy:

Expanded mobile services base and treatments

Continued strong site and treatment growth rates

Launched Ablatherm®-HIFU in new countries

Secured reimbursements in key countries, including UK

Strengthened gross margins: 41%+ as of Sept. 05

Maintained growth in high margin services contracts

Used cash to fund marketing campaigns to patients and doctors in key countries, expand to new markets

Ready for FDA trials sponsored by HealthTronics (HTRN) starting early 2006

5

Focus on Ablatherm®-HIFU

[LOGO OF EDAP TMS]

**The Market Potential for Minimally Invasive Prostate Cancer
Treatment Represents EDAP's High Growth Opportunity**

[GRAPHIC APPEARS HERE]

The Ablatherm®-HIFU Solution
EDAP is committed to:

[LOGO OF EDAP TMS]

Offer patients the best combination Safety and Efficacy

Full enlightenment of patients about existing treatment options

Preserve patient quality of life

Ablatherm-HIFU is The Solution for growing sensitivity and awareness from prostate cancer patients about:

Their safety
Their health
Their family life
Their sexual drive
Their future

[GRAPHIC APPEARS HERE]

Focus on Ablatherm®-HIFU

[LOGO OF EDAP TMS]

**The New Integrated Imaging Ablatherm:
The Most Advanced HIFU Technology with the New Dual Function Probe**

[GRAPHIC APPEARS HERE]

**Focus on Ablatherm®-HIFU
Imaging & Treating Simultaneously**

[LOGO OF EDAP TMS]

Imaging

From a transversal real-time image, the 7.5 MHz electronic ultrasound transducer can provide an accurate 3D reconstruction of the treatment area

[GRAPHIC APPEARS HERE]

Firing

High-energy ultrasound waves are focused through the rectal wall to the targeted prostate area without damaging surrounding tissues

[GRAPHIC APPEARS HERE]

**Focus on Ablatherm®-HIFU
Imaging and treating**

[LOGO OF EDAP TMS]

The firing process is visible in real time on the echographic display

[GRAPHIC APPEARS HERE]

Robotized probe placement

5 axis computer controlled movements, a very sophisticated device with fully robotized motion control for precise probe positioning

[GRAPHIC APPEARS HERE]

HIFU Market
Market Driving EDAP Forward

[LOGO OF EDAP TMS]

Prostate Cancer: 2nd most common cancer in American and European males:

231,000 new cases per year in the USA*

238,000 new cases per year in Europe**

Dramatic increase in worldwide public awareness:

Increased sensitivity toward Quality of Life

Systematic PSA screening

Huge awareness campaigns

Significant increase in Prostate Cancer cases:

Increase in life expectancy

Aging baby boomers

Growing awareness & concern related to significant side effects with traditional treatments

HIFU Market

[LOGO OF EDAP TMS]

Clinical Benefits: Preservation of Quality of Life

Non-Invasive:	No port, no seeds, no radiation
Effective:	Precise and definitive necrosis of the targeted area
Early Feedback:	Nadir PSA after only 3 months
Quality of Life:	Minimal side effects
Repeatable:	If needed at any time during follow up
Adaptable:	To the physician and the patient's therapeutic goals
No Therapeutic Impasse:	Alternative options still open post Ablatherm

17

HIFU Market
Less Expensive than Radiation Therapies

[LOGO OF EDAP TMS]

[CHART APPEARS HERE]

HIFU Market
2006 Market opportunities

[LOGO OF EDAP TMS]

Grow 2005 new markets: Canada, UK, Australia & Switzerland

Starting US clinical trials through relationship with HTRN

Priming the pump through cost-per-procedure (CPP) & mobile model

Approval and reimbursement in key markets:

national reimbursement process varies by country

dynamics of approval in the US

Huge potential through market education

Strengthen clinical credibility, support of key opinion leaders

Maintain technological Mastery / Leadership via strong IP

Expand HIFU to other pathologies

HIFU Market for Prostate Cancer

[LOGO OF EDAP TMS]

Growth Strategy Road Map

We have successfully met all major market challenges

[CHART APPEARS HERE]

20

**HIFU Market
FDA Trials Road Map**

[LOGO OF EDAP TMS]

- 1- FDA approval obtained to start clinical trials in the US to prove efficacy
- 2- Finalization of contracts with 10 participating clinical institutions, a mix of high profile academic sites and private practices
- 3- Ablatherm devices are being deployed and clinical staff trained to start first cases
- 4- Expect 4 sites up and running by end of February 06, and the majority of sites to be treating patients by end of first quarter 06

21

HIFU Market
Recent Market Expansion

[LOGO OF EDAP TMS]

Australia

Launched at St Vincent's Clinic, Sydney, on CPP basis in October 2005

Utilization for retreatment of brachytherapy and radiation failures

United Kingdom

Unit at Stepping Hill Hospital since April 2004

Set up Royal Marsden Hospital, London

October 2005 reimbursement approval by BUPA opened market to further sales

Launch at Guys Hospital, London

Launch of Mobile-HIFU, a private UK company

Additional selling activity in progress through distribution partner Sigmacon

HIFU Market

[LOGO OF EDAP TMS]

CPP Business Model = Growth Opportunity

Cost-per-Procedure (CPP) performed is an easy and profitable way to make this technology available to a larger number of patients as well as hospitals and clinics

Mobile business facilitates rapid access to Ablatherm HIFU technology

No upfront investment from the hospital

23

HIFU Market

[LOGO OF EDAP TMS]

Mobile Through Europe

Deploy mobile units for France, Germany, Austria, Italy, Spain, UK, Belgium and other locations

63 sites using Ablatherm-HIFU on a mobile basis at December 05 end
[GRAPHIC APPEARS HERE]

* Company's figures at Dec. 05

35

Lithotripsy Strategy

[LOGO OF EDAP TMS]

LITHOTRIPSY: Provides Momentum for Overall Business

Improved products & marketing

Create key differentiators through services

Strong Project Sales Approach vs. Equipment Sales:

Equipment

Maintenance (on site, online, preventive, corrective maintenance services)

Training programs

Financing solutions

New products in the pipe

Contract Manufacturing

36

[LOGO OF EDAP TMS]

Financials

37

EDAP TMS Financials

[LOGO OF EDAP TMS]

Profit capable at both operating division levels

Well capitalized for additional investments in growth of new and current markets

Focus on cost controls, prudent investment of capital

Strong, improving margins throughout 2005:

41% Company Gross Margin as of Sept. 05

Leverage in model for increased treatment volumes:

Increased service revenues and incremental leverage to revenue growth

38

Division Performance
EDAP HIFU Division: Euro 000s*

[LOGO OF EDAP TMS]

Investor Highlights

[LOGO OF EDAP TMS]

Focus on continued growth and expansion

Well positioned as the global leader in HIFU installations, treatment technology and clinical data

Compelling clinical benefits, growing market awareness breeding demand

Established successful model to enter and grow new key markets in Europe, Canada and the U.S.

Continued focus on reimbursement, market entry, site growth and treatment acceleration

Continued focus on revenues, costs and growth leading to profitability

43

Investor Highlights
Committed Management

[LOGO OF EDAP TMS]

Management focus on increasing company valuation

Driving HIFU approval and reimbursement in all key markets with a focus on total number of treatments

Strengthening our marketing team to drive an international marketing campaign to educate doctors, patients and reimbursement providers

44

Shareholders / Stock Performance

[LOGO OF EDAP TMS]

7,781,731 Outstanding shares*:

6,715,873 ADRs (floating)

1,065,858 Ordinary shares (non-floating)

Strong Stock Performance late 2005, reflecting HIFU potential high growth and increasing interest.

Market Cap: \$51.7 million

TTM Revenues: \$26 million

Cash: \$9.7 million

Avg. Vol.: 28,000 shares

USD as of 1/13/06
