Item 1.01 Entry into a Material Definitive Agreement

Item 2.01 Completion of Acquisition or Disposition of Assets.

On September 24, 2006 our wholly-owned subsidiary, CDI China, Inc. (CDI China), entered into a stock acquisition agreement with Shanghai Lang Chemical Company, Limited, a Chinese limited liability company (Lang) and its sole stockholders Jingdong Chen and Qian Zhu, pursuant to which CDI China was to acquire 51% of Lang in exchange for an initial capital infusion of \$375,000, followed by an additional capital infusion of \$326,250 on or before June 30, 2007. Under the terms of the stock exchange agreement, the condition precedents to the closing were:

the requirement that Lang deliver to CDI China, on or before October 31, 2006, audited financial statements of Lang at December 31, 2005 and for the two years then ended which reflected revenues of \$31,740,000 for the fiscal year ended December 31, 2005 and net assets of \$767,197 at December 31, 2005, and

Mr. Chen and Ms. Zhu were to enter into employment agreements with CDI Shanghai Company, Limited, a Chinese limited liability company and wholly owned subsidiary of CDI China which was to be formed to manage the daily operations of Lang.

On October 25, 2006 the transaction closed according to its terms.

At the closing of the transaction, CDI Shanghai Company, Limited entered into employment agreements with each of Mr. Chen and Ms. Zhu. Mr. Chen will serve as Vice President, Chemical Division with operational responsibilities for Lang, and Ms. Zhu will serve as Vice President of Finance, Chemical Division. The terms of the five year agreements are identical and provide for annual compensation of \$10,000 together with bonuses at the discretion of the company. The agreements contain customary confidentiality provisions.

About Lang

Lang specializes in the sale and distribution of industrial grade synthetic chemicals. It maintains a relationship with both the supplier and the customer, managing the logistics of the distribution channel. Lang is a distribution agent in the eastern section of China for manufacturers such as BASF YPC Co., Ltd, Celanese (China) Holding Co., Ltd and Lucite International (China) Chemical Industry Co., Ltd. Lang primarily distributes products to industrial manufacturing company and trading companies, including property developers, textile factories and pharmaceutical factories located in Eastern China. Products sold and distributed by Lang are used by customers as a raw materials in the production of a variety of finished products including paint, glue, plastics, textiles, leather goods as well as various medical products. Lang was founded in January 1998 by Mr. Chen and Ms. Zhu.

Edgar Filing: EVOLVE ONE INC - Form 8-K

Lang generates revenues through a commission ranging from 3% to 5% of the sale, with the amount of commission varying depending on the product sold. Lang reported revenues of \$31,737,463 and a net loss of \$63,252 for the fiscal year ended December 31, 2005 and revenues of \$23,560,105 and a net loss of \$97,140 for the fiscal year ended December 30, 2004. For the six months ended June 30, 2006, it reported revenues of \$15,421,914 and net income of \$13,942. One customer represented approximately 12% of Lang's revenues for each of the fiscal year ended December 31, 2005 and the six months ended June 30, 2006.

Lang maintains a small inventory of chemicals at various storage centers across the eastern section of China. In most cases, Lang remits full payment to the suppliers upon receipt of the products for its inventory. Approximately 20% of Lang sales are derived from smaller orders of these chemicals

Edgar Filing: EVOLVE ONE INC - Form 8-K

sold from their inventory. These chemicals, which include acrylic acid, butyl acrylate, methyl acrylate, vinyl acetate, glacial acetic acid, vinyl acetic, methanol and VAE, are typically subject to price fluctuations. Lang maintains a small inventory of these chemicals in an effort to supply the customer efficiently on short term notice and to reduce the impact of fluctuating prices. These smaller orders are generally less than 10 tons and are shipped to the customer directly from one of Lang's storage centers. at a 3% to 5% markup. Generally the customer pays the full amount of the order at the time the order is placed.

The balance of the approximately 80% of the Lang sales are derived from frequently used products which are shipped directly from the supplier to the customer. In most cases these are larger orders which Lang cannot supply from their inventory. Usually these larger orders are in excess of 10 tons and will be shipped from the suppliers to the clients directly. Lang will bill and collect payment from the customer. Generally customers will pay 10% to 20% of the purchase price as a deposit to Lang. Lang must pay the full balance to the supplier before the order is shipped. Upon receipt of the goods the customer will remit the balance of the payment for the order to Lang. Although Lang pays the suppliers upon receipt, the products can be returned with full refund only in the event there is an issue with quality.

The following table sets forth the principal products distributed by Lang for the fiscal year ended December 31, 2005:

<u>Product</u>	<u>Approximate % of total revenues</u>
Glacial acetic acid and acetic acid derivatives	44%
Acrylic acid and acrylic ester	29%
VAE and PVA	18%
Other products	9%

Lang's distribution network covers the eastern section of China. The following table sets forth the principal geographical areas for the sales of its products based on its fiscal 2005 revenues:

<u>Region</u>	<u>Approximate % of revenues</u>
Shanghai area	48%
Jiangsu area	41%
Zhejiang area	10%
Other areas	1%

It utilizes storage centers located in Shanghai as well as Qidong City and Jiangyin City in Jiangsu Province to provide the infrastructure to support its distribution channels. These storage centers aggregate approximately 119,000 cubic feet of liquid storage tanks and approximately 38,000 square feet of warehouse space used for solid or dry materials. The storage centers located in Shanghai and Qidong City are operated by unrelated third parties and Lang uses the storage space on an as needed basis. The Jiangyin City storage facility is owned by Lang. The total storage cost for Lang for fiscal 2005 and the six months ended June 30, 2006 was \$27,056 and \$7,925, respectively.

Edgar Filing: EVOLVE ONE INC - Form 8-K

Regulation of the Chemical Industry within China is monitored by The Ministry of China Chemical Industry. Industry participants are governed by the Industrial Chemical Control Law (ICCL) issued by the Ministry of China Chemical Industry. The Shanghai provincial government issues licenses for the distribution of chemical products in China. Shanghai Lang Chemical Company, Limited received the license to operate within the chemical industry in January 1998, the license expires in January 2018.

Edgar Filing: EVOLVE ONE INC - Form 8-K

The company believes they are in substantial compliance with all provisions of those registrations, inspections and licenses and have no reason to believe that they will not be renewed as required by the applicable rules of the Central Government and Shanghai City.

Lang has 17 full time employees, of which five are in management, two are in accounting, six are in sales, two are in the international trade department and the remaining two are in the logistics department. Lang's management includes Mr. Jingdong Chen and Ms. Qian Zhu who are the CEO and Chairman and CFO, respectively. Mr. Chen and Ms. Zhu are husband and wife.

Lang's principal executive offices are located at Suite 901, No. 970, Da Liang Rd., Shanghai, China in a 3,270 square foot office space owned by Ms. Zhu. Lang owns an office space located at 58 Jinqiao Rd, Suite 21A Shanghai with total space of approximately 4,360 square feet. Currently Lang does not have any personnel in this space and there are no Lang operations at this location.

Lang also owns a storage facility in the Jiangsu Province is located in the Beixin Fine Chemical Industrial Park, Qidong, Jiangsu Province. This facility, which consists of a 105,000 cubic foot storage tank area and 21,800 square feet of warehouse, is owned and operated by Lang. Lang purchased the land in April 2005 at a cost of \$308,900 and it owns the warehouse, storage area as well as the land use rights.

From time to time Lang engages in transactions with related parties, including the following:

Lang rents its principal executive offices from Ms. Zhu, an officer and principal shareholder of the company. In lieu of paying rent for the use of these facilities, Lang has permitted Ms. Zhu to rent the office space owned by Lang which it does not presently use and retain any funds she receives from the rental of that space. It is anticipated that this arrangement will cease following the closing of the transaction herein described, and

From time to time Shanghai Liyuan Chemical Corporation, Ltd., an inactive company owned by Mr. Chen, an officer and principal shareholder of the company, advances funds to Lang for working capital. The advances are non-interest bearing, unsecured and payable on demand. At December 31, 2005 and June 30, 2006 Lang owed this related party \$1,085,155 and \$689,715, respectively. In addition, from time to time Lang has advanced funds to Mr. Chen. At December 31, 2005 and June 30, 2006 he owed Lang \$227,570 and \$229,472, respectively. Following the closing of the transaction herein described, Lang will no longer borrow funds from, or advances funds to, Mr. Chen or is related entity. It is presently anticipated that the net amount Lang owes Mr. Chen, which was \$460,243 at June 30, 2006, will be forgiven by him prior to the end of fiscal 2006, although no formal agreements have been reached at this time.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Shanghai Lang Chemicals Co., Ltd was established in January 1998 with registered capital of \$625,000 USD (5 MM RMB). Shanghai Lang Chemicals Co., Ltd. (Lang) is located in the Shanghai region of the Yangtze River delta

Lang operates a storage facility located at the Jiangsu Province in the Beixin Fine Chemical Industrial Park, in the city of Qidong of the Jiangsu Province. This facility consists of a 105,000 cubic foot storage tank area and 21,800 Sq ft. warehouse.

Lang specializes in the sale and distribution of industrial grade synthetic chemicals. Lang acts a third party agent in the sale of synthetic chemicals from the supplier to the customer; in addition Lang acts a distributor of synthetic chemicals to customers. Products sold and distributed by Lang are used by customers as a raw material in the production of a variety of finished products such as: paint, glue, plastics, textiles, leather goods as well as various medical products. Lang is a distribution agent in the eastern section of China for manufacturers such as BASF YPC Co., Ltd, Celanese (China) Holding Co., Ltd and Lucite International (China) Chemical Industry Co., Ltd. Lang has exclusive distribution rights for products manufactured by BASF YPC Co., Ltd, which covers eastern sections of China, specifically, Jiangsu, Zhejiang, and Shanghai provinces. The exclusive distribution rights for BASF YPC Co., Ltd products were awarded to Lang in November 2005 and expire in December 2006. Lang has a relationship with BASF YPC Co., Ltd, since November 2005. Lang has a relationship with Celanese (China) Holding Co., Ltd since 2001. Lang has a relationship with Lucite International (China) Chemical Industry Co., Ltd. since 2003.

Shanghai Lang Chemicals Co., Ltd (Lang or the Company) is a distributor of finely processed industrial grade synthetic chemical products. Primarily Lang distributes four primary product categories; Glacial acetic acid and acetic acid derivatives, Acrylic acid and acrylic ester, Vinyl acetate-ethylene (VAE) and Polyvinyl alcohol (PVA).

Edgar Filing: EVOLVE ONE INC - Form 8-K

Lang has 17 full time employees, 5 employees are management, 2 are working for accounting department, 6 are working for sales department, 2 are working for international trade department and 2 are working for logistic department.

Lang specializes in the sale and distribution of industrial grade synthetic chemicals. Lang acts as a third party agent in the sale of synthetic chemicals from the supplier to the customer as well Lang acts a distributor of synthetic chemicals to customers. Lang maintains a relationship with both the supplier and the customer, managing the logistics of the distribution channel. Lang operates three distribution centers in the eastern section of China. Lang collects payment from the customer upon delivery of goods, charges a commission and remits the balance to the supplier. Generally Lang collects a fee of approximately 3%-5%. Lang collects when delivery of the goods is accepted by the customer. Lang invoices and collects payment from the customer. The fee varies slightly depending on the product to be distributed. Glacial acetic acid and the related derivatives is the most significant contribution to revenues.

The Company (Continued)

Lang maintains a small inventory of chemicals at various storage centers across the eastern section of China. Approximately 20% of Lang revenues are derived from sales made from inventory held by Lang. These orders tend to be smaller orders which can be supplied from the inventory of Lang. These chemicals typically are witness to price fluctuations and as such Lang maintains an inventory from which to supply customers. These chemicals such as acrylic acid, butyl acrylate, methyl acrylate, vinyl acetate, glacial acetic acid, vinyl acetic, methanol, VAE are chemicals which are in steady demand from the market. As such Lang maintains a small inventory of these chemicals in an effort to supply the customer efficiently on short term notice and to reduce the impact of fluctuating prices. In most cases, Lang remits full payment to the suppliers upon receipt of the products. Approximately 20% of Lang sales are derived from smaller orders of these chemicals sold from their inventory. These smaller orders are generally less than 10 tons and will be shipped to the customer directly from one of Lang's storage centers. Lang will then sell the product from its own inventory at a 3-5% markup. Generally the customer pays the full amount of the order at the time the order is placed.

The balance of the approximately 80% of the Lang sales are derived from frequently used products which are shipped directly from the supplier to the customer. In most cases these are larger orders which Lang cannot supply from their inventory. Usually these larger orders are in excess of 10 tons and will be shipped from the suppliers to the clients directly. Lang will bill and collect payment from the customer. Ordinarily customers will pay 10%-20% of the purchase price as a deposit to Lang. Lang must pay the full balance to the supplier before the order is shipped. Upon receipt of the goods the customer will remit the balance of the payment for the order to Lang. Although Lang pays the suppliers upon receipt, the products can be returned with full refund only in the event there is an issue with quality.

Our function is to manage distribution of chemicals within China. Our distribution network covers the eastern section of China. We utilize storage centers in eastern China. These storage centers provide an infrastructure for Lang to support a distribution channel. These storage centers are comprised of storage tanks and warehouses from which we can store and then divert products to the customer. Liquid products are held in storage tanks, while solid or dry materials are held in warehouse space. Lang does not operate its own storage centers, each of the storage facilities are an unrelated third party. Lang uses the storage space on an as needed basis. The total storage cost for Lang was \$27,056 USD for the period ending December 31, 2005 and \$57,955 USD for the period ending December 31, 2004. In 2004 the storage related costs were higher due to uncharacteristically high levels of Glacial acetic acid derivatives in August 2004. For the month of August 2004, Lang incurred approximately \$19,100 USD in storage expenses. Lang utilizes storage centers located in the following cities; Shanghai, Qidong City (Jiangsu Province), Jiangyin City (Jiangsu Province), Zhangjiagang City (Jiangsu Province).

Edgar Filing: EVOLVE ONE INC - Form 8-K

Lang has 6 salespersons in the Shanghai headquarters. These salespersons are employees of Lang. Salespersons are compensated with salary; they do not earn a sales commission. From time to time salesmen can potentially be awarded an annual bonus. Salespersons operate from the headquarters in Shanghai, traveling to other provinces for sales appointments. The main duty of the salesperson is to maintain good relationships with existing clients and develop new clients as well.

Notes to the Financial Statements

December 31, 2005 and 2004

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

Summary of Significant Accounting Policies

The financial statements have been prepared on the historical cost basis, except for the certain financial instruments. The principal accounting policies adopted are set out below.

Basis of Financial Statements

Lang Chemical maintains its records and prepares its financial statements in accordance with accounting principles generally accepted in China. Certain adjustments and reclassifications have been incorporated in the accompanying financial statements to conform to accounting principles generally accepted in the United States of America. These adjustments were not recorded in the statutory books of account. The accounting policies have been consistently applied by the Company.

Cash and Cash Equivalents

Lang Chemical classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents.

Inventories

Inventories, consisting of raw materials and finished goods related to the Company's products are stated at the lower of cost or market utilizing the first in first out method.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable consists primarily of amounts due to the company from normal business activities. The company maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required. As of December 31, 2005 and 2004, the company recorded allowance for doubtful accounts of \$107,105 and \$44,421 respectively.

Summary of Significant Accounting Policies (Continued)

Property and Equipment

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight line method over the estimated economic lives of the assets, which are from five to ten years. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable.

Fair Value of Financial Instruments

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts reported in the balance sheet for cash, accounts receivable, accounts payable and accrued expenses, loans and amounts due from related parties approximate their fair market value based on the short-term maturity of these instruments.

Revenue Recognition

Edgar Filing: EVOLVE ONE INC - Form 8-K

The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, the Company records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectibility is reasonably assured. The following policies reflect specific criteria for the various revenues streams of the Company: The Company's revenues from the sale of products are recorded when the goods are shipped, title passes, and collectibility is reasonably assured.

Advertising Costs

Advertising is expensed as incurred. Advertising expenses were immaterial for the years ended December 31, 2005 and 2004.

Foreign Currencies

Transactions and balances in other currencies are converted into U.S. dollars in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, "Foreign Currency Translation," and are included in determining net income or loss.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date. Revenues and expenses are translated at weighted average exchange rates for the period to approximate translation at the exchange rates prevailing at the dates those elements are recognized in the financial statements. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive loss.

The reporting currency is the U.S. dollar. The functional currency of the Company is the local currency, the Chinese dollar or Renminbi ("RMB"). The financial statements of the Company are translated into United States dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions are included in the consolidated statements of operations and were not material during the periods presented due to fluctuations between the Chinese dollar ("RMB") and the United States dollar. The cumulative translation adjustment and effect of exchange rate changes on cash at December 31, 2005 and 2004 were \$19,952 and \$0 respectively.

On July 21, 2005, the central government of China allowed the Chinese dollar or RMB to fluctuate, ending its decade-old valuation peg to the U.S. dollar. The new RMB rate reflects an approximately 2% increase in value against the U.S. dollar. Historically, the Chinese government has benchmarked the RMB exchange ratio against the U.S. dollar, thereby mitigating the associated foreign currency exchange rate fluctuation risk. The Company does not believe that its foreign currency exchange rate fluctuation risk is significant, especially if the Chinese government continues to benchmark the RMB against the U.S. dollar.

Income Taxes

Edgar Filing: EVOLVE ONE INC - Form 8-K

Income tax expense is based on reported income before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws. Valuation allowances are recognized to reduce the deferred tax assets to the amount that is more likely than not to be realized. In assessing the likelihood of realization, management considers estimates of future taxable income.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income

The Company uses Statement of Financial Accounting Standards No. 130 (SFAS 130) "Reporting Comprehensive Income". Comprehensive income is comprised of net income and all changes to the statements of members' equity, except those due to investments by members, changes in members' equity and distributions to members. For the Company, comprehensive income for the year ended December 31, 2005 and 2004 included net income and foreign currency translation adjustments.

NOTE 7 INCOME TAX

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" "SFAS 109". SFAS 109 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and the tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax losses and tax credit carry forwards. SFAS 109 additionally requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets.

The Company's operations in China are governed by the Income Tax Law of the People's Republic of China concerning Foreign Investment Enterprises and Foreign Enterprises and local income tax laws (the PRC Income Tax Law). Pursuant to the PRC Income Tax Law, wholly-owned foreign enterprises are subject to tax at a statutory rate of 33% (30% state income tax plus 3% local income tax).

The components of income before income tax consist of the following:

NOTE 11 SUBSEQUENT EVENTS (Continued)

Under the terms of the stock exchange agreement, CDI China will acquire 51% equity ownership of Shanghai Lang Chemical Company Limited in exchange for an initial capital infusion of US\$375,000 and a follow-up capital infusion of US\$326,250 to be made on or before June 30, 2007. The agreement shall be effective as of October 1, 2006. The Company's two shareholders, Messrs. Chen and Zhu each retained a 24.5% equity interest in Lang, and will remain as officers and will enter into employment agreements with CDI Shanghai Company, Limited, a wholly owned subsidiary of CDI China, Inc., on or before October 31, 2006. The purchase price was determined based on the arm's length negotiations and no finder's fees or commissions were paid in connection with the acquisition.

NOTE 12 OPERATING RISK

(a) Country risk

Currently, the Company's revenues are primarily derived from the sale of line of disinfectant product offerings to customers in the Peoples Republic of China (PRC). The Company hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that the Company will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on the Company's financial condition.

(b) Products risk

In addition to competing with other manufacturers of disinfectant product offerings, the Company competes with larger U.S. companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel. These U.S. companies may be able to offer products at a lower price. There can be no assurance that the Company will remain competitive should this occur.

(c) Exchange risk

Edgar Filing: EVOLVE ONE INC - Form 8-K

The Company can not guarantee that the current exchange rate will remain steady, therefore there is a possibility that the Company could post the same amount of profit for two comparable periods and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of Renminbi converted to US dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

(d) Political risk

Currently, PRC is in a period of growth and is openly promoting business development in order to bring more business into PRC. Additionally PRC allows a Chinese corporation to be owned by a United States corporation. If the laws or regulations are changed by the PRC government, the Company's ability to operate the PRC subsidiaries could be affected.

SHANGHAI LANG CHEMICAL COMPANY, LIMITED

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

June 30, 2006

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Shanghai Lang Chemicals Co., Ltd was established in January 1998 with registered capital of \$625,000 USD (5 MM RMB). Shanghai Lang Chemicals Co., Ltd. (Lang) is located in the Shanghai region of the Yangtze River delta

Lang operates a storage facility located at the Jiangsu Province in the Beixin Fine Chemical Industrial Park, in the city of Qidong of the Jiangsu Province. This facility consists of a 105,000 cubic foot storage tank area and 21,800 Sq ft. warehouse.

Lang specializes in the sale and distribution of industrial grade synthetic chemicals. Lang acts a third party agent in the sale of synthetic chemicals from the supplier to the customer; in addition Lang acts a distributor of synthetic chemicals to customers. Products sold and distributed by Lang are used by customers as a raw material in the production of a variety of finished products such as: paint, glue, plastics, textiles, leather goods as well as various medical products. Lang is a distribution agent in the eastern section of China for manufacturers such as BASF YPC Co., Ltd, Celanese (China) Holding Co., Ltd and Lucite International (China) Chemical Industry Co., Ltd. Lang has exclusive distribution rights for products manufactured by BASF YPC Co., Ltd, which covers eastern sections of China, specifically, Jiangsu, Zhejiang, and Shanghai provinces. The exclusive distribution rights for BASF YPC Co., Ltd products were awarded to Lang in November 2005 and expire in December 2006. Lang has a relationship with BASF YPC Co., Ltd, since November 2005. Lang has a relationship with Celanese (China) Holding Co., Ltd since 2001. Lang has a relationship with Lucite International (China) Chemical Industry Co., Ltd. since 2003.

Shanghai Lang Chemicals Co., Ltd (Lang or the Company) is a distributor of finely processed industrial grade synthetic chemical products. Primarily Lang distributes four primary product categories; Glacial acetic acid and acetic acid derivatives, Acrylic acid and acrylic ester, Vinyl acetate-ethylene (VAE) and Polyvinyl alcohol (PVA).

Lang has 17 full time employees, 5 employees are management, 2 are working for accounting department, 6 are working for sales department, 2 are working for international trade department and 2 are working for logistic department.

Lang specializes in the sale and distribution of industrial grade synthetic chemicals. Lang acts as a third party agent in the sale of synthetic chemicals from the supplier to the customer as well Lang acts a distributor of synthetic chemicals to customers. Lang maintains a relationship with both the supplier and the customer, managing the logistics of the distribution channel. Lang operates three distribution centers in the eastern

Edgar Filing: EVOLVE ONE INC - Form 8-K

section of China. Lang collects payment from the customer upon delivery of goods, charges a commission and remits the balance to the supplier. Generally Lang collects a fee of approximately 3%-5%. Lang collects when delivery of the goods is accepted by the customer. Lang invoices and collects payment from the customer. The fee varies slightly depending on the product to be distributed. Glacial acetic acid and the related derivatives is the most significant contribution to revenues.

The Company (Continued)

Lang maintains a small inventory of chemicals at various storage centers across the eastern section of China. Approximately 20% of Lang revenues are derived from sales made from inventory held by Lang. These orders tend to be smaller orders which can be supplied from the inventory of Lang. These chemicals typically are witness to price fluctuations and as such Lang maintains an inventory from which to supply customers. These chemicals such as acrylic acid, butyl acrylate, methyl acrylate, vinyl acetate, glacial acetic acid, vinyl acetic, methanol, VAE are chemicals which are in steady demand from the market. As such Lang maintains a small inventory of these chemicals in an effort to supply the customer efficiently on short term notice and to reduce the impact of fluctuating prices. In most cases, Lang remits full payment to the suppliers upon receipt of the products. Approximately 20% of Lang sales are derived from smaller orders of these chemicals sold from their inventory. These smaller orders are generally less than 10 tons and will be shipped to the customer directly from one of Lang's storage centers. Lang will then sell the product from its own inventory at a 3-5% markup. Generally the customer pays the full amount of the order at the time the order is placed.

The balance of the approximately 80% of the Lang sales are derived from frequently used products which are shipped directly from the supplier to the customer. In most cases these are larger orders which Lang cannot supply from their inventory. Usually these larger orders are in excess of 10 tons and will be shipped from the suppliers to the clients directly. Lang will bill and collect payment from the customer. Ordinarily customers will pay 10%-20% of the purchase price as a deposit to Lang. Lang must pay the full balance to the supplier before the order is shipped. Upon receipt of the goods the customer will remit the balance of the payment for the order to Lang. Although Lang pays the suppliers upon receipt, the products can be returned with full refund only in the event there is an issue with quality.

Our function is to manage distribution of chemicals within China. Our distribution network covers the eastern section of China. We utilize storage centers in eastern China. These storage centers provide an infrastructure for Lang to support a distribution channel. These storage centers are comprised of storage tanks and warehouses from which we can store and then divert products to the customer. Liquid products are held in storage tanks, while solid or dry materials are held in warehouse space. Lang does not operate its own storage centers, each of the storage facilities are an unrelated third party. Lang uses the storage space on an as needed basis. The total storage cost for Lang was \$27,056 USD for the period ending December 31, 2005 and \$57,955 USD for the period ending December 31, 2004. In 2004 the storage related costs were higher due to uncharacteristically high levels of Glacial acetic acid derivatives in August 2004. For the month of August 2004, Lang incurred approximately \$19,100 USD in storage expenses. Lang utilizes storage centers located in the following cities; Shanghai, Qidong City (Jiangsu Province), Jiangyin City (Jiangsu Province), Zhangjiagang City (Jiangsu Province).

Lang has 6 salespersons in the Shanghai headquarters. These salespersons are employees of Lang. Salespersons are compensated with salary; they do not earn a sales commission. From time to time salesmen can potentially be awarded an annual bonus. Salespersons operate from the headquarters in Shanghai, traveling to other provinces for sales appointments. The main duty of the salesperson is to maintain good relationships

with existing clients and develop new clients as well.

SHANGHAI LANG CHEMICAL COMPANY, LIMITED

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

June 30, 2006

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

Summary of Significant Accounting Policies

The financial statements have been prepared on the historical cost basis, except for the certain financial instruments. The principal accounting policies adopted are set out below.

Basis of Financial Statements

Lang Chemical maintains its records and prepares its financial statements in accordance with accounting principles generally accepted in China. Certain adjustments and reclassifications have been incorporated in the accompanying financial statements to conform to accounting principles generally accepted in the United States of America. These adjustments were not recorded in the statutory books of account. The accounting policies have been consistently applied by the Company.

Cash and Cash Equivalents

Lang Chemical classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents.

Inventories

Inventories, consisting of raw materials and finished goods related to the Company's products are stated at the lower of cost or market utilizing the first in first out method.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable consists primarily of amounts due to the company from normal business activities. The company maintains an allowance for doubtful accounts to reflect the expected non-collection of accounts receivable based on past collection history and specific risks identified within the portfolio. If the financial condition of the customers were to deteriorate resulting in an impairment of their ability to make payments, or if payments from customers are significantly delayed, additional allowances might be required. As of June 30, 2006, the company recorded allowance for doubtful accounts of \$68,420.

Property and Equipment

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight line method over the estimated economic lives of the assets, which are from five to ten years. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Summary of Significant Accounting Policies (Continued)

Fair Value of Financial Instruments

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts reported in the balance sheet for cash, accounts receivable, accounts payable and accrued expenses, loans and amounts due from related parties approximate their fair market value based on the short-term maturity of these instruments.

Revenue Recognition

The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, the Company records revenue when persuasive evidence of an arrangement exists, services have been rendered or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectibility is reasonably assured. The following policies reflect specific criteria for the various revenues streams of the Company: The Company's revenues from the sale of products are recorded when the goods are shipped, title passes, and collectibility is reasonably assured.

Advertising Costs

Advertising is expensed as incurred. Advertising expenses were immaterial for the six months ended June 30, 2006 and 2005.

Foreign Currencies

Transactions and balances in other currencies are converted into U.S. dollars in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, "Foreign Currency Translation," and are included in determining net income or loss.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date. Revenues and expenses are translated at weighted average exchange rates for the period to approximate translation at the exchange rates prevailing at the dates those elements are recognized in the financial statements. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive loss.

SHANGHAI LANG CHEMICAL COMPANY, LIMITED

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

June 30, 2006

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

Foreign Currencies (Continued)

The reporting currency is the U.S. dollar. The functional currency of the Company is the local currency, the Chinese dollar or Renminbi ("RMB"). The financial statements of the Company are translated into United States dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions are included in the consolidated statements of operations and were not material during the periods presented due to fluctuations between the Chinese dollar ("RMB") and the United States dollar. The cumulative translation adjustment and effect of exchange rate changes on cash at June 30, 2006 were \$26,496.

On July 21, 2005, the central government of China allowed the Chinese dollar or RMB to fluctuate, ending its decade-old valuation peg to the U.S. dollar. The new RMB rate reflects an approximately 2% increase in value against the U.S. dollar. Historically, the Chinese government has benchmarked the RMB exchange ratio against the U.S. dollar, thereby mitigating the associated foreign currency exchange rate fluctuation risk. The Company does not believe that its foreign currency exchange rate fluctuation risk is significant, especially if the Chinese government continues to benchmark the RMB against the U.S. dollar.

Income Taxes

Income tax expense is based on reported income before income taxes. Deferred income taxes reflect the effect of temporary differences between asset and liability amounts that are recognized for financial reporting purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying currently enacted tax laws. Valuation allowances are recognized to reduce the deferred tax assets to the amount that is more likely than not to be realized. In assessing the likelihood of realization, management considers estimates of future taxable income.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the

Edgar Filing: EVOLVE ONE INC - Form 8-K

date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income

The Company uses Statement of Financial Accounting Standards No. 130 (SFAS 130) "Reporting Comprehensive Income". Comprehensive income is comprised of net income and all changes to the statements of members' equity, except those due to investments by members, changes in members' equity and distributions to members. For the Company, comprehensive income for the six months ended June 30, 2006 included net income and foreign currency translation adjustments.

SHANGHAI LANG CHEMICAL COMPANY, LIMITED

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

June 30, 2006

NOTE 5 OPERATING RISK

(a) Country risk

Currently, the Company's revenues are primarily derived from the sale of line of disinfectant product offerings to customers in the Peoples Republic of China (PRC). The Company hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that the Company will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on the Company's financial condition.

(b) Products risk

In addition to competing with other manufacturers of disinfectant product offerings, the Company competes with larger U.S. companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel. These U.S. companies may be able to offer products at a lower price. There can be no assurance that the Company will remain competitive should this occur.

(c) Exchange risk

The Company can not guarantee that the current exchange rate will remain steady, therefore there is a possibility that the Company could post the same amount of profit for two comparable periods and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of Renminbi converted to US dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

(d) Political risk

Currently, PRC is in a period of growth and is openly promoting business development in order to bring more business into PRC. Additionally PRC allows a Chinese corporation to be owned by a United States corporation. If the laws or regulations are changed by the PRC government,

the Company's ability to operate the PRC subsidiaries could be affected.

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION

The acquisition by China Direct, Inc. (the Company) of Shanghai Lang Chemical Company, Inc. (Lang), a privately held Chinese company, closed October 1, 2006. China Direct acquired 51% equity ownership of Shanghai Lang Chemical Company Limited in exchange for an initial capital infusion of US\$375,000 and a follow-up capital infusion of US\$326,250 to be made on or before June 30, 2007. The Company's two shareholders, Messrs. Chen and Zhu each retained a 24.5% equity interest in Lang, and remained as officers. The purchase price was determined based on arm's length negotiations and no finder's fees or commissions were paid in connection with the acquisition.

Shanghai Lang Chemical Company, Ltd (Lang) was established in January 1998 with registered capital of \$603,865 USD (Local Currency RMB 5,000,000). Shanghai Lang Chemical Co., Ltd is located in the Shanghai region of the Yangtze River delta.

Lang specializes in the sale and distribution of industrial grade synthetic chemicals. It maintains a relationship with both the supplier and the customer, managing the logistics of the distribution channel. Lang is a distribution agent in the eastern section of China for manufacturers such as BASF YPC Co., Ltd, Celanese (China) Holding Co., Ltd and Lucite International (China) Chemical Industry Co., Ltd. Lang primarily distributes products to industrial manufacturing company and trading companies, including property developers, textile factories and pharmaceutical factories located in Eastern China. Products sold and distributed by Lang are used by customers as a raw material in the production of a variety of finished products including paint, glue, plastics, textiles, leather goods as well as various medical products. Lang was founded in January 1998 by Mr. Chen and Ms. Zhu.

Lang generates revenues through a commission ranging from 3% to 5% of the sale, with the amount of commission varying depending on the product sold.

Lang maintains a small inventory of chemicals at various storage centers across the eastern section of China. In most cases, Lang remits full payment to the suppliers upon receipt of the products for its inventory. Approximately 20% of Lang sales are derived from smaller orders of these chemicals sold from their inventory. These chemicals, which include acrylic acid, butyl acrylate, methyl acrylate, vinyl acetate, glacial acetic acid, vinyl acetic, methanol and VAE, are typically subject to price fluctuations. Lang maintains a small inventory of these chemicals in an effort to supply the customer efficiently on short term notice and to reduce the impact of fluctuating prices. These smaller orders are generally less than 10 tons and are shipped to the customer directly from one of Lang's storage centers. at a 3% to 5% markup. Generally the customer pays the full amount of the order at the time the order is placed.

The balance of the approximately 80% of the Lang sales are derived from frequently used products which are shipped directly from the supplier to the customer. In most cases these are larger orders which Lang cannot supply from their inventory. Usually these larger orders are in excess of 10 tons and will be shipped from the suppliers to the clients directly. Lang will bill and collect payment from the customer. Generally customers will pay 10% to 20% of the purchase price as a deposit to Lang. Lang must pay the full balance to the supplier before the order is shipped. Upon receipt of the goods the customer will remit the balance of the payment for the order to Lang. Although Lang pays the suppliers upon receipt, the products can be returned with full refund only in the event there is an issue with quality.

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION

Lang utilizes storage centers located in Shanghai as well as Qidong City and Jiangyin City in Jiangsu Province to provide the infrastructure to support its distribution channels. These storage centers aggregate approximately 119,000 cubic feet of liquid storage tanks and approximately 38,000 square feet of warehouse space used for solid or dry materials. The storage centers located in Shanghai and Qidong City are operated by unrelated third parties and Lang uses the storage space on an as needed basis. The Jiangyin City storage facility is owned by Lang.

Lang has 17 full time employees, of which five are in management, two are in accounting, six are in sales, two are in the international trade department and the remaining two are in the logistics department. Lang's management includes Mr. Jingdong Chen and Ms. Qian Zhu who are the CEO and Chairman and CFO, respectively. Mr. Chen and Ms. Zhu are husband and wife.

Lang's principal executive offices are located at Suite 901, No. 970, Da Liang Rd., Shanghai, China in a 3,270 square foot office space owned by Ms. Zhu. Lang owns an office space located at 58 Jinqiao Rd, Suite 21A Shanghai with total space of approximately 4,360 square feet. Currently Lang does not have any personnel in this space and there are no Lang operations at this location.

Lang also owns a storage facility in the Jiangsu Province is located in the Beixin Fine Chemical Industrial Park, Qidong, Jiangsu Province. This facility, which consists of a 105,000 cubic foot storage tank area and 21,800 square feet of warehouse, is owned and operated by Lang. Lang purchased the land in April 2005 at a cost of \$308,900 and it owns the warehouse, storage area as well as the land use rights.

The unaudited pro forma condensed balance sheet combines the Company and Lang balance sheets as of June 30, 2006, gives pro forma effect to the above transaction as if it had occurred on June 30, 2006. The pro forma statement of operations combines the Company and Lang for the six months ended June 30, 2006, and the pro forma statement of operations for the year ended December 31, 2005 and 2004 assume that the acquisition of Lang took place on January 1, 2005 and 2004, respectively.

The pro forma information is presented for illustrative purposes only and is not necessarily indicative of the operating results or financial position that would have occurred had the acquisition of Lang by the Company occurred as of October 1, 2006 or during the period presented nor is it necessarily indicative of the future financial position or operating results.

These pro forma financial statements should be read in conjunction with the audited historical financial statements and the related notes thereto for the Company and Lang included in this Form 8-K/A dated October 26, 2006 filed with Securities Exchange Commission.

A preliminary allocation of the purchase price has been made to major categories of assets and liabilities in the accompanying pro forma financial statements based on available information. The actual allocation of purchase price and the resulting effect on income from operations may differ significantly from the pro forma amounts included herein. These pro forma adjustments represent the Company's preliminary determination of purchase accounting adjustments and are based upon available information and certain assumptions that the Company believes to be reasonable. Consequently, the amounts reflected in the pro forma financial statements are subject to change, and the final amounts may

differ substantially.

3. Pro Forma Adjustments

The pro forma adjustments are comprised of the following elements:

- (a) Reflects the payment of purchase consideration totaling \$701,250. Purchase allocation to net assets acquired is a preliminary estimate made by management. The estimate assumes that historical values of net assets acquired approximate fair value. The excess net assets acquired over purchase are allocated to property and equipment.

- (b) Reflects the minority interest of the pro forma adjustments to net income (loss) before minority interest based on 51% ownership.
