**Report of Independent Auditors**

(Translation of a report originally issued in Spanish--See Note 2 (b))

To the Shareholders and Directors of  
Compañía de Telecomunicaciones de Chile S.A.:

1. We have reviewed the accompanying consolidated balance sheets of Compañía de Telecomunicaciones de Chile S.A. and Subsidiaries (the Company ) as of September 30, 2006 and 2005 and the related consolidated statements of income and cash flow for the nine-month periods then ended. These interim consolidated financial statements are the responsibility of the Company s management. The accompanying Management s Discussion and Analysis of the Consolidated Financial Statements is not an integral part of these financial statements, and therefore, this report does not cover this item.
2. We conducted our reviews in accordance with generally accepted auditing standards in Chile for a review of interim financial information. A review of interim financial information consists principally of applying analytical procedures to the financial statements and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Chile, the objective of which is the expression of an opinion regarding the consolidated financial statement taken as whole. Accordingly, we do not express such an opinion.
3. Based on our reviews of the interim consolidated financial statements as of September 30, 2006 and 2005, we are not aware of any material modifications that are required for them to be in conformity with accounting principles generally accepted in Chile.

Andrés Marchant V.

Notes to the Consolidated Financial Statements

## 1. Composition of Consolidated Group and Registration with the Securities Registry:

- a) Compañía de Telecomunicaciones de Chile ( Telefónica Chile, the Parent Company when referred to on an individual basis or the Company when referred to in conjunction with its subsidiaries) is a publicly-held corporation that is registered in the Securities Registry under No. 009 and is therefore subject to supervision by the Chilean Superintendency of Securities and Insurance ( SVS ).
- b) Subsidiary companies registered with the Securities Registry:

SUBSIDIARIES	TAXPAYER No.	Registration Number	Participation (direct & indirect)	
			2006 %	2005 %
Telefónica Larga Distancia S.A.	96,551,670-0	456	99.18	99.16
Telefónica Asistencia y Seguridad S.A.	96,971,150-8	863	99.99	99.99

## 2. Summary of Significant Accounting Policies:

### (a) Accounting period:

The interim consolidated financial statements correspond to the nine-month periods ended September 30, 2006 and 2005.

### (b) Basis of preparation:

These interim consolidated financial statements have been prepared in accordance with Generally Accepted Accounting Principles in Chile ( Chilean GAAP ) and standards set forth by the Chilean Superintendency of Securities and Insurance ( SVS ). In the event of any discrepancies in these regulations, SVS regulations supersede Chilean GAAP. Certain accounting practices applied by the Company that conform to Chilean GAAP may not conform to generally accepted accounting principles in the United States ( US GAAP ) or International Financial Reporting Standards ( IFRS ). For the convenience of the reader, these financial statements have been translated from Spanish to English.

The Company's consolidated financial statements as of June 30 and December 31 of each year are prepared in order to be reviewed and audited, respectively, in accordance with current legal regulations. With respect to the quarterly financial statements as of March 31 and September 30, the Company voluntarily submits these to an interim financial information review performed in accordance with regulations established for this type of review, described in Generally Accepted Auditing Standard No. 45 Section No. 722, issued by the Chilean Association of Accountants.

### (c)

**Basis of presentation:**

The interim consolidated financial statements for 2005 and their notes have been adjusted for comparison purposes by 3.7% in order to allow comparison with the 2006 interim consolidated financial statements. For comparison purposes, certain reclassifications have been made to the 2005 interim consolidated financial statements.

**2. Summary of Significant Accounting Policies**, continued:**(d) Basis of consolidation:**

These interim consolidated financial statements include the assets, liabilities, income and cash flows of the Parent Company and subsidiaries. Significant intercompany transactions have been eliminated, and the participation of minority investors has been recognized under Minority Interest (See Note 20).

**Companies included in consolidation:**

As of September 30, 2006, the consolidated group ( the Company ) is composed of Compañía de Telecomunicaciones de Chile S.A. and the following subsidiaries:

TAXPAYER No.	Company Name	Ownership Percentage			2005 Total

1) On January 26, 2006, Telefónica Internet S.A. sold its entire ownership interest of 449,081 shares in Telefónica Multimedia Chile S.A. to Telefónica Chile for ThCh\$1,624,273 (historical). On the same date, CTC Equipos y Servicios S.A. sold its entire ownership interest of 1 share to Telefónica Chile S.A. for ThCh\$4. On April 19, the company Tecnonáutica S.A. changed its legal name to Telefónica Multimedia Chile S.A.

2) On January 27, 2006, Telefónica Empresas CTC Chile sold its entire ownership interest of 215,099 shares in Telefónica Internet Empresas S.A. to Telefónica Chile for ThCh \$1,468,683 (historical).

On January 26, CTC Equipos y Servicios S.A. sold its entire ownership interest of 16 shares to Telefónica Chile for ThCh \$132.

3) On March 1, 2006, Telefónica Chile absorbed the subsidiary CTC Equipos y Servicios de Telecomunicaciones S.A. after purchasing 1 share of that company from third parties for ThCh\$11 on February 28, 2006.

4) On April 21, 2006 Telefónica Mundo S.A. changed its name to Telefónica Larga Distancia S.A. On May 1, 2006, it absorbed the subsidiary Globus 120 S.A.

**2. Summary of Significant Accounting Policies**, continued:**(e) Price-level restatement:**

The interim consolidated financial statements have been adjusted by applying price-level restatement standards, in accordance with Chilean GAAP, in order to reflect the changes in the purchasing power of the currency during both periods. The accumulated variation in the CPI as of September 30, 2006 and 2005, for initial balances, is 2.5% and 2.4%, respectively.

**(f) Basis of conversion:**

Assets and liabilities in US\$ (United States dollars), Euros, Brazilian Reales and UF (Unidad de Fomento) have been converted to pesos at the exchange rates as of each period end:

YEAR	US\$	EURO	BRAZILIAN REAL	UF
2006	537.03	680.99	247.54	18,401.15
2005	529.20	636.13	237.29	17,717.56

Foreign currency translation differences resulting from the application of this Standard are credited or charged to income for the period.

**(g) Time deposits:**

Time deposits are carried at cost plus adjustments, where applicable, and accrued interest up to period end.

**(h) Marketable securities:**

Fixed-income securities are recorded at their price-level restated acquisition value, plus interest accrued as of each period end using the real rate of interest determined as of the date of purchase, or at their market value, whichever is less.

**(i) Inventories:**

Equipment held for sale is carried at price-level restated acquisition or development cost or market value, whichever is less.

Inventories estimated to be used during the next twelve months are classified as current assets and their cost is price-level restated. The obsolescence provision has been determined on the basis of a survey of materials with slow turnover.

**(j) Allowance for doubtful accounts:**

Different percentages are applied when calculating the allowance for doubtful accounts, depending on the aging of such accounts. The allowance for debts exceeding 120 days, or 180 days in the case of large customers (corporations), is for 100% of the amount receivable.

**2. Summary of Significant Accounting Policies**, continued:

**(k) Property, plant and equipment:**

Property, plant and equipment are carried at their price-level restated acquisition or construction cost.

Property, plant and equipment acquired up to December 31, 1979 are carried at their appraisal value, as stipulated in Article 140 of D.F.L. No. 4, and those acquired subsequently are carried at their acquisition value, except for those assets which are carried at the appraisal value recorded as of September 30, 1986, as authorized in SVS Circular No. 550. All these values have been price-level restated.

**(l) Depreciation of property, plant and equipment:**

Depreciation has been calculated and recorded on a straight-line basis over the estimated useful lives of the assets. The average annual financial depreciation rate of the Company is approximately 8.35% .

**(m) Leased assets:**

Leased assets with a purchase option and whose contracts meet the characteristics of a financial lease are recorded in a similar fashion to the acquisition of property, plant and equipment, by recognizing the full obligation and interest on an accrual basis. These assets are not legally owned by the Company; therefore, until it exercises the purchase option they cannot be freely disposed of.

**(n) Intangibles:**

**i) Rights to underwater cable:**

Corresponds to the rights acquired by the Company for the use of an underwater cable to transmit voice and data. This right is amortized over the term of the respective contracts, with a maximum of 25 years.

**ii) Software licenses:**

Software licenses are valued at their price-level restated acquisition cost. Amortization is calculated using the straight-line method over their estimated useful life, which does not exceed 4 years.

**(ñ) Investments in related companies:**

These investments are accounted for under the equity method, which recognizes the investor's share of income on an accrual basis. For investments abroad, the valuation methodology applied is that defined in Technical Bulletin No. 64. These investments are controlled in dollars, since they are in countries deemed to be unstable and their activities are not an extension of the operations of the Parent Company.

**(o) Goodwill:**

Corresponds to the valuation differences that are created when adjusting the cost of the investments, by adopting the equity method or making a new purchase. Goodwill and negative goodwill amortization periods have been determined considering aspects such as the nature and characteristics of the business and the estimated period of return of the investment (See Note 12).

**2. Summary of Significant Accounting Policies**, continued:

**(p) Transactions with repurchase agreements:**

Purchases of securities under agreement to resell are recorded as fixed rate securities and are classified under Other Current Assets (See Note 8).

**(q) Obligations with the public:**

Bonds payable are presented in liabilities at the par value of the issued bonds (see note 17b). The difference between the par and placement value, determined on the basis of the designated interest rate for the transaction, is deferred and amortized using the straight-line method over the term of the respective bond (See Notes 8 and 14).

Commercial paper is presented in liabilities at its placement value, plus accrued interest (See Note 17a).

Costs directly related to the placement of these obligations are deferred and amortized using the straight-line method over the term of the respective liability.

**(r) Current and deferred income taxes:**

Income tax is recorded on the basis of taxable net income. Deferred taxes on all temporary differences, usable tax loss carry forwards, and other events that create differences between the tax and accounting values are recognized in accordance with Technical Bulletins No. 60 and its modifications issued by the Chilean Association of Accountants and as established by SVS Circular No.1,466 dated January 27, 2000.

**(s) Staff severance indemnities:**

For employees who qualify for this benefit, the Company's staff severance indemnities obligation is provided for by applying the present value of the obligation using an annual discount rate of 6%, considering estimates such as the future service period of the employee, mortality rate of employees and salary increases determined on the basis of actuarial calculations (see Note 19).

Costs for past services of the employees produced by changes in the actuarial bases are deferred and amortized over the employees' average future years of service.

**(t) Revenue recognition:**

The Company's revenues are recognized on an accrual basis in accordance with Chilean GAAP. Since billing dates are different from the accounting close date, as of the date of preparation of these consolidated financial statements provisions have been established for services provided and not billed, which are determined on the basis of contracts, traffic, prices and current conditions for the period. These amounts are recorded under Trade Accounts Receivable.

**2. Summary of Significant Accounting Policies, continued:**

**(u) Foreign currency forwards:**

The Company has entered into foreign currency investment and hedging futures. The latter have been purchased to cover the foreign exchange variations for the Company's current foreign currency obligations.

These instruments are valued in accordance with Technical Bulletin No. 57 of the Chilean Association of Accountants.

The rights and obligations acquired are detailed in Note 27, reflecting in the balance sheet only the net right or obligation at period end, classified according to the maturity of each contract under Other Current Assets or Other Payables, as applicable.

**(v) Interest rate coverage:**

Interest on loans for which associated interest rate swaps have been entered into is recorded recognizing the effect of those contracts on the interest rate established in such loans. The rights and obligations acquired therein are shown under Other Payables or under Other Current Assets, as applicable (See Note 27).

**(w) Computer software:**

The cost of software purchased is deferred and amortized using the straight-line method over a maximum period of four years and classified under Other property, plant and equipment.

**(x) Cumulative translation adjustment:**

The Company recognizes in this equity reserve account the difference from exchange rate fluctuations and the Consumer Price Index (C.P.I.) from restating its investments abroad. These investments are controlled in United States dollars. The balance in this account is credited (or charged) to income in the same period in which the net income or loss on the total or partial disposal of these investments is recognized.

**(y) Statement of cash flows:**

For the purposes of preparing the Statement of Cash Flows according to Technical Bulletin No. 50 of the Chilean Association of Accountants and SVS Circular No.1,312, the Company defines cash equivalents as securities under agreements to resell and time deposits maturing in less than 90 days.

Cash flows related to the Company's line of business and all cash flows not defined as from investing or financing activities are included under Cash Flows from Operating Activities.

**(z) Correspondents:**

The Company currently has agreements with foreign correspondents, which set the conditions that regulate international traffic. The correspondents are charged or paid according to net traffic receivable/payable and the rates set in each agreement.

This receivable/payable is recorded on an accrual basis; the costs and income for the period are recognized on an accrual basis, and the net balances receivable and payable of each correspondent are recorded under Trade Accounts Receivable or Accounts Payable, as applicable.

**3. Accounting Changes:**

**a) Accounting changes**

During the periods covered in these interim consolidated financial statements, there have been no changes to the accounting principles used.

**b) Change in estimate**

**i) Changes in actuarial hypotheses discount rate**

During the first quarter of 2006 an evaluation was performed of the market interest rate used to calculate the current value of staff severance indemnities. After completing this analysis, the Company decided to reduce the discount rate from 7% to 6%. As a result of these modifications, the Company recorded deferred tax assets of ThCh\$ 2,797,402 (historical) in 2006, which will be amortized over the future years of service of the employees that qualify for this benefit.

**ii) Change in estimate of international traffic**

During 2005 we surveyed the correspondents process, in order to implement an automated system to measure, value and determine international traffic provisions. This work allowed us to optimize information regarding values pending billing or payment for the concept of international traffic.

This new methodology generated a change in the estimate of provisions and purging of real net balances of accounts receivable and payable to correspondents, which altogether resulted in adjustments to these accounts of ThCh\$8,960,168 (historical) during the third quarter of 2005.

**4. Marketable Securities:**

The balance of marketable securities is as follows:

The conditions of the agreement related to intercompany transactions between the Company and its equity-method investees and its mercantile current account are both short and long-term, denominated in US dollars and accrue interest at a variable rate adjusted to market rates (US\$ + Market Spread).

In the case of Sales and Services Rendered, these mature in the short-term (less than a year) and the maturity terms for each case varies based on the related transaction.

- (1) Between May and September 2006, the Company negotiated a collective agreement for 38 and 48 months with part of its employees, granting them, among other benefits, a negotiation bonus. This bonus was paid in July, August and September 2006. The total benefit amounted to ThCh \$ 2,756,430 (historical), and is deferred using the straight-line method during the term of the collective agreement. The long-term portion is presented under Others (in Other Assets) (Note 14).
- (2) This amount corresponds to the cost (net of amortization) of the mandatory reserve paid to the Central Bank of Chile and disbursements incurred for foreign loans obtained by the Company to finance its investment plan. The long-term portion is presented under Others (in Other Assets) (Note 14).
- (3) Corresponds to the short-term portion to be amortized due to changes in the actuarial hypotheses and for the concept of loans to employees. The long-term portion is presented under Other (in Other Assets) (Note 14).

(1) Leased assets have a gross value of ThCh\$504,997 and ThCh\$488,345 for the concept of buildings for 2006 and 2005, respectively, with accumulated depreciation of ThCh\$62,897 and ThCh\$59,692 for 2006 and 2005, respectively.

(2) Until December 31, 2002, works in progress included capitalization of the related borrowing costs, as per Technical Bulletin No. 31 of the Chilean Association of Accountants, and therefore, the gross property, plant and equipment balance includes interest of ThCh\$198,250,122. Accumulated depreciation for this interest amounts to ThCh\$136,400,074 and ThCh\$124,111,139 for 2006 and 2005, respectively.

A depreciation charge for the period amounting to ThCh\$148,020,564 and ThCh\$145,920,331 for 2006 and 2005, respectively, was recorded as an operating cost, and a depreciation charge of ThCh\$8,942,671 for 2006 and ThCh\$5,286,815 for 2005 as an administrative and selling cost. Depreciation of property, plant and equipment that is temporarily out of service is made up mainly of telephone equipment under repair and incurred depreciation amounting to ThCh\$879,772 and ThCh\$2,211,169 in 2006 and 2005, which is classified under Other Non-operating Expenses (note 22b).

(1) The Company records its investment in TBS Celular using the equity method since it exercises significant influence through the business group to which it belongs, as established in paragraph N° 4 of Circular N° 1,179 issued

by the Superintendency of Securities and Insurance and ratified in Title II of Circular N° 1,697. Although Telefónica Chile only has a 2.61% direct participation in TBS Celular, its parent company, Telefónica España, has direct and indirect participation exceeding 20% ownership of the capital stock of that company.

(2) The Extraordinary Shareholders Meeting agreed to the dissolution of Empresa de Tarjetas Inteligentes S.A. During September 2005, the Chilean Internal Revenue Service authorized the closing of this company.

(3) The equity value as of September 30, 2006 and 2005 was recognized on the basis of the interim financial statements which did not undergo a limited review.

As of the date of these financial statements, there are no liabilities for hedge instruments assigned to foreign investments. The Company intends to reinvest net income from foreign investments on a permanent basis; therefore, there is no potentially remittable net income.

**12. Goodwill:**

The detail of goodwill is as follows:

(1) As indicated in Note 2d) No. 1 as a product of the sale made on January 26, 2006, the Board of Directors of Telefónica Internet Empresas S.A. agreed to sell the shares of Telefónica Multimedia Chile S.A. to Telefónica Chile S.A. This sale was made at book value, not considering goodwill in the price, which required the extraordinary recognition of the total balance of goodwill as of that date.

(2) On January 27, 2006 Telefónica Empresas CTC Chile sold its entire ownership interest of 215,099 shares to Telefónica Chile S.A. for ThCh\$1,468,683.

On January 26, CTC Equipos y Servicios de Telecomunicaciones sold its entire ownership interest of 16 shares to Telefónica Chile S.A. for ThCh\$132.

Goodwill amortization periods have been determined taking into account aspects such as the nature and characteristics of the business and estimated period of return of investment.

**13. Intangibles:**

The detail of intangibles is as follows:

Other	185,029	34,924
<b>Total</b>	<b>17,200,707</b>	<b>14,272,183</b>

(1) This amount corresponds to the cost (net of amortizations) of the mandatory reserve paid to the Chilean Central Bank and disbursements incurred for foreign loans obtained by the Company to finance its investment plan. The short-term portion is presented under Other Current Assets (Note 8).

(2) In light of the new contractual conditions derived from the organizational changes experienced by the Company, a series of studies has allowed for, beginning in 2004, modification of the variable for future years of service of employees within the basis for calculating staff severance indemnities. After concluding these studies, in 2005 other estimations were incorporated such as mortality of employees and future salary increases and includes the rate change mentioned in Note 3 b i) for 2006, all determined on the basis of actuarial calculations, as established in Technical Bulletin No. 8 of the Chilean Association of Accountants. The short-term portion is presented under Other Current Assets (Note 8)

The difference at the beginning of the year as a result of changes in the actuarial estimates constitutes actuarial gains or losses, which are deferred and amortized during the average remaining future years of service for the employees that will receive the benefit (see Note 2s).

(3) In conformity with the union agreements between the Company and its employees, loans were granted to employees, the amounts and conditions of which were based, among other aspects, on the accrued balances of staff severance indemnities when they were granted. The short-term portion is presented under Other Current Assets (Note 8)

The staff severance indemnities provision has been recorded in part at its current value, deferring and amortizing this effect over the years of average remaining service life of employees eligible for the benefit. The loan is presented under Other Long-Term Receivables.

**21. Shareholders Equity**, continued:**(c) Dividends:****i) Dividend policy:**

In accordance with Law No.18,046, unless otherwise decided at the Shareholders Meeting by unanimous vote, when there is net income at least 30% must be distributed in dividends.

Considering the cash situation, levels of projected investment and the solid financial indicators for 2005 and future years, on April 14, 2005, the Ordinary Shareholders Meeting modified the dividend distribution policy reported at the Ordinary Shareholders Meeting of April 2004, and agreed to distribute 100% of net income generated during the respective year, by means of an interim dividend in November of each year and a final dividend in May of the following year.

**ii) Dividend distributed in the period:**

On April 14, 2005, the Extraordinary Shareholders Meeting approved the payment of a final dividend (No. 168) of Ch\$ 58.84591 per share with a charge to net income for 2004 of ThCh\$56,324,775. Likewise, it approved payment of a provisional dividend (No.169) of Ch\$ 50.99095 per share, with a charge to retained earnings as of December 2004 of ThCh\$48,806,351. Both dividends were paid on May 30, 2005.

On October 27, 2005, the Board approved payment of an interim dividend (No. 170) of Ch\$11.00 per share, with a charge to 2005 net income equivalent to ThCh\$ 10,528,728.

On April 20, 2006, the Extraordinary Shareholders Meeting approved the payment of a final dividend (No. 171) of Ch\$15.31 per share with a charge to net income for 2005 of ThCh\$14,654,592. The dividend was paid on June 22, 2006.

In addition, the shareholders approved the modification of the Company's bylaws to decrease capital by ThCh\$40,200,514, in order to distribute additional cash to the shareholders in 2006. Capital distribution No. 1 was equivalent to Ch\$42 per share and Ch\$168 per ADR.

**(d) Other reserves:**

**28. Contingencies and Restrictions:**

**a) Lawsuits:**

**(i) Claims presented by VTR Telefónica S.A.:**

On September 30, 2000, VTR Telefónica S.A. filed an ordinary suit for the collection of access charges in the amount of ThCh\$2,500,000, based on the differences that would arise from the lowering of access charge rates, due to Tariff Decree No. 187 of Telefónica Chile. The initial sentence accepted VTR's claim and the compensation disputed by Telefónica Chile. The Company filed a motion to vacate and appeal, which is currently underway.

**(ii) Labor lawsuits:**

In the course of normal operations, labor lawsuits have been filed against the Company.

To date, among others, there are labor proceedings involving former employees, who claim wrongful dismissal. These employees did not sign termination releases or receive staff severance indemnities. On various occasions, the Supreme Court has reviewed the sentences handed down on the matter, accepting the argument of the Company and ratifying the validity of the terminations.

There are, in addition, other lawsuits involving former employees in some proceedings, whose staff severance indemnities have been paid and their termination releases signed, who in spite of having chosen voluntary retirement plans or having been terminated due to company needs, intend to have the terminations voided. Of these lawsuits, to date, two have received a sentence favorable to the Company, rejecting the annulments.

Certain unions have filed complaints before the Santiago Labor Courts, requesting damage payments for various concepts.

In the opinion of Management and internal legal counsel, the risk that the Company will be required to pay indemnities in the amount claimed in the previously mentioned lawsuits, in addition to other civil and labor suits in which the Company is the defendant, is remote. Management considers it unlikely that the Company's income and equity will be significantly affected by these loss contingencies. Consequently, no provisions have been established in relation to the severance indemnities claimed.

**(iii) Lawsuits against the Government:**

On October 31, 2001, Telefónica Chile filed an administrative motion before the Ministry of Transport and Telecommunications and the Ministry of Economy, requesting correction of the errors and illegalities in Tariff Decree No. 187 of 1999. On January 29, 2002, the Ministries issued a joint response rejecting the administrative recourse, after having carefully evaluated, only the viability and timeliness of the petition made, considering the set of circumstances that concur in the problem stated and the prudence that must orient public actions, adding that such rejection has had no other motivation than to protect the general interest and progress of the telecommunications services.

Upon extinguishing the administrative instances to correct the errors and illegalities involved in the tariff setting process of 1999, in March 2002, Telefónica Chile filed a lawsuit for damages against the State of Chile for the sum of Ch\$ 181,038,411,056, plus readjustments and interest, which covers past and future damages until May 2004. Currently a decision is pending in this case.

**28. Contingencies and Restrictions**, continued:

**(iii) Lawsuits against the Government**, continued:

Telefónica Chile and Telefónica Larga Distancia filed a plenary damage indemnity lawsuit against the Government of Chile, claiming damages due to modification of telecommunications networks related to work performed by highway concessionaries from 1996 to 2000.

The Government forced both companies to pay to transfer their communications networks due to the construction of public works on concession under the Concessions Law, and the related damages amount to:

a.- Compañía de Telecomunicaciones de Chile S.A.: Ch\$1,929,207,445

b.- Telefónica Larga Distancia S.A.: Ch\$ 2,865,208,840

The process is currently at the final sentencing stage.

**(iv) Manquehue Net:**

On June 24, 2003, Telefónica Chile filed a forced compliance of contracts complaint with damage indemnity before the mixed arbitration court of Mr. Victor Vial del Río against Manquehue Net, in the amount of Ch\$ 3,647,689,175, in addition to costs incurred during the proceeding. Likewise, and on the same date, Manquehue Net filed a compliance with discounts complaint (in the amount of UF 107,000), in addition to an obligation to perform complaint (signing of a 700 services contract). After completion of the evidence period, on June 5, 2004, the arbiter called the parties together to pronounce a sentence.

On April 11, 2005, the Court notified the first instance sentence accepting the claim made by Telefónica Chile and ordering Manquehue Net to pay approximately Ch\$ 452 million, and at the same time accepted Manquehue Net's claim and ordered Telefónica Chile to pay 47,600 UF.

Telefónica Chile filed an appeal for dismissal on the grounds of errors in the form in both cases; which are currently pending before the Court of Appeals of Santiago.

**(v) Chilectra and CGE:**

In June 2006, Telefónica Chile filed complaints against Chilectra S.A. and Río Maipo (currently CGE Distribución), in which it requests a readjusted refund of the Reimbursable Financial Contributions (AFR) ( Aportes Financieros Reembolsables ) made by the Company between 1992 and 1998, in relation to the Electrical Law. The restitution amounts claimed are ThCh\$899,658 and ThCh\$117,350, respectively. The lawsuits have recently been notified.

**28. Contingencies and Restrictions**, continued:

**(vi) Protection Motion:**

On June 28, 2006, TV channels UCTV and TVN filed a protection motion against Telefónica Chile requesting suspension of the inclusion of such signals in the Digital Television plans. On June 30, the First Court of Appeals declared the motion inadmissible, which was confirmed on July 4, when the appeals motion was rejected by the appellate court.

The complaint filed before the Supreme Court by the channels against the ministers integrating the Courtroom was declared inadmissible on July 13, 2006.

**b) Other contingencies:**

**(i) Financial restrictions:**

In order to carry out its investment plans, the Company obtained financing in the local and foreign market (notes 15, 16 and 17), which established, among others restrictions, the maximum debt that the Company may have.

The maximum debt ratio for these contracts is 1.60

Non-compliance with these clauses implies that all the obligations included in these financing contracts will be considered as due.

As of September 30, 2006, the Company is in compliance with all the financial restrictions.

**29. Third party guarantees:**

The Company has not received any guarantees from third parties.

**31. Sanctions:**

Neither the Company nor its Directors and Managers have been sanctioned by the Superintendency of Securities and Insurance or any other administrative authority during 2006 and 2005.

**32. Subsequent Events:**

On October 18, 2006, the Company informed the SVS of the acquisition of 44,173 shares of its subsidiary Telefónica Larga Distancia S.A., increasing its ownership interest to 99.25% .

On October 26, 2006, the Board of Directors of Telefónica Chile agreed to distribute an interim dividend, with a charge to net income obtained by the Company as of September 30, 2006, for a total of Ch\$10,528,727,935, equivalent to Ch\$11 per share. This dividend will be paid as of November 23, 2006.

Management is unaware of any other significant subsequent events that have occurred between October 1 and 26, 2006, and that may affect the Company's financial position or the interpretation of these interim consolidated financial statements.

**33. Environment:**

In the opinion of Management and the Company's in-house legal counsel, and because the nature of the Company's operations does not directly or indirectly affect the environment, as of the closing date of these interim consolidated financial statements, no resources have been set aside nor have any payments been made for non-compliance with municipal ordinances or to other supervising organizations.

## Management's Discussion and Analysis of the Consolidated Financial Statements

### 1. HIGHLIGHTS

#### Collective Bargaining Processes

During the third quarter of 2006, the Company successfully completed the collective bargaining processes with seven existing union organizations, which altogether comprise 2,141 employees, representing 94% of union employees. The main issues incorporated in the collective agreements were related to remuneration variability, in accordance with the structure of compensation levels and as a function of the Company's income, and annual readjustments of labor benefits and conditions. The average duration of these agreements is 48 months.

#### Decrease in Financial Debt

Telefónica Chile has continued to improve its level of indebtedness and financial ratios through a decrease in the debt level in 2006. As of September 30, 2006, the financial debt reached Ch\$414,152 million, reflecting a 17.7% decrease with respect to the financial debt of Ch\$502,943 million recorded as of September 30, 2005. The decrease in the indebtedness levels, together with the improved financing conditions and the drop in the value of the dollar, translated into a decrease of 34.4% in financial expenses as of September 30, 2006.

#### Dividends Policy

##### **Telefónica Chile**

On September 21, 2004, after taking into consideration the cash situation, levels of projected investment and solid financial indicators, the Company's Board of Directors modified the dividend distribution policy, from 30% to 100% of net income generated during the respective year. These dividends will be paid through an interim dividend in November of each year and a final dividend in May of the following year. The dividend policy for 2006 was informed at the Shareholders' Meeting of April 20, 2006.

##### **Telefónica Larga Distancia**

On September 23, 2006, the Board of Directors of Telefónica de Larga Distancia agreed to modify the dividend policy and established its intention to distribute 30% of net income generated during the respective year, through a final dividend in May of each year, which will be proposed at the Ordinary Shareholders' Meeting.

#### Capital Decrease

On May 25, 2006, the Board of Directors of Telefónica Chile agreed to pay to the shareholders the capital decrease of Ch\$40,200,513,570 (historical) (Ch\$42.00 per share) beginning on June 15, 2006, as approved at the extraordinary shareholders' meeting held on April 20, 2006

**Permit for Limited Satellite and Cable Television Service**

Through Exempt Resolution No. 1605 of December 23, 2005, the Undersecretary of Telecommunications ( Subtel ) granted Telefónica Multimedia Chile S.A. (formerly Tecnonáutica S.A.) a limited satellite television service permit to operate throughout the national territory for a renewable 10-year term. In addition, Telefónica Multimedia has a limited cable television service permit to provide services through the broadband network of Telefónica Chile.

Telefónica Multimedia began commercialization of the satellite television service. In turn, Telefónica Chile began commercializing a bundled service which includes voice, pay television and broadband.

**Modifications of the Regulatory Framework: Extension of the Length of Public Telephone Services Subscriber Number**

By means of Resolution No. 1120 of September 28, 2005, published in the Official Gazette on October 4, 2005, Subtel set a period of 10 months to extend the local telephone numbers in the Primary Zones of Valparaiso and Concepción by one digit. Furthermore, by means of Decree No. 400, of October 4, 2005, issued by the Ministry of Transport and Telecommunications, the Fundamental Telephone Numbering Technical Plan was modified in order to define the virtual mobile network area code with the number 09, and by means of Exempt Resolution No. 27 of 2006, August 19, 2006 was established as the date on which the new virtual mobile area code will begin operating.

Telefónica Chile is performing the network and systems modifications needed to enable the new regulatory requirements related to telephone numbers, which are operating normally.

**Setting Post Support Tariffs**

Telefónica Chile, together with other telecommunications companies, expressed dissent before the Panel of Experts of the Electric Law, regarding service tariffs corresponding to post supports, and proposed an annual tariff for each post support of approximately 0.02 UF. Likewise, the distribution companies also expressed their dissent before the Panel of Experts with respect to the post support tariffs, and proposed an annual tariff of between 0.4 UF and 0.5 UF per support.

### 3. ANALYSIS OF INCOME FOR THE PERIOD

#### 3.1 OPERATING INCOME

As of September 30, 2006, operating income amounted to Ch\$ 61,523 million, which represents a 10.3% decrease with respect to the previous year.

##### Operating Income

Operating income for the period amounted to Ch\$435,586 million, or a decrease of 2.6% in relation to operating income for the same period in 2005 of Ch\$447,172 million. This variation was mainly the result of the decrease in revenues from basic and long distance telephone service due to less traffic recorded in the period.

**Fixed Telephony Revenues:** Fixed telephony revenues decreased 2.5% with respect to the previous period, mainly due to a drop of 11.9% in basic telephony revenues, which resulted from a 28.0% decrease in variable charge revenues. This decrease shows the effect of lower revenues derived from the downturn in traffic per line and migration of customers to flexible plans. Similarly, fixed charge revenues from the fixed monthly network connection charge dropped 34.0% . This change is mainly explained by the incorporation of customers to flexible plans, which grew by 101.4% with respect to the previous year. Consequently, the incorporation of customers to flexible plans contributed positively to income, growing Ch\$ 32,130 million with respect to the previous year. Revenues from connections and other installations are 54.5% below the previous year's level, whereas value-added service revenues decreased by 22.8%, mainly due to the drop in average lines in use. Other basic telephony revenues increased 13.8% .

Revenues from broadband services have shown sustained growth, reaching Ch\$ 45,154 million, or 44.3% growth, in 2006, as compared to reached Ch\$ 31,292 million in 2005.

**Access charges and interconnections** increased by 17.1%, mainly due to the 35.5% increase in *other interconnection services*, where there were particularly noteworthy increases in media rental services, carrier information and connection services, and unbundling services. On the other hand, there was a 38.2% drop in revenues from **international long distance** access charges and a 20.9% drop in **domestic long distance**.

Revenues from **other fixed telephony businesses** decreased 3.1%, equivalent to Ch\$ 741 million. This change is primarily explained by the decreases in revenues of Ch\$827 million from commercialization of equipment; Ch\$ 480 million from public telephones; Ch\$ 741 million from

---

telephone book advertising; and Ch\$322 million from switchboard and dedicated ISP. The drop was offset by an increase of Ch\$ 624 million in Telemergencia's revenues, with respect to 2005. In addition, others includes income obtained from commercialization of DTH television service in the amount of Ch\$ 821 million.

***Long Distance:*** Revenues from long distance services decreased by 2.3% in comparison to 2005, due to a decrease of 9.7% in DLD and a decrease of 8.3% in Network Capacity and Circuit Rentals. However, the decline was offset by an 11.3% increase in ILD income from international services income, due to correspondent charges recorded during the third quarter of 2005.

***Corporate Communications:*** Revenue from corporate communications decreased 3.1% with respect to the previous year, due to decreases in all lines of business: 9.8% in data services, 13.4% in sales of terminal equipment, and 7.2% in complementary services. This was partly offset by a 16.1% increase in revenues from circuits and others.

***Other Businesses:*** Revenue from other businesses decreased 4%, mainly because of lower revenues from the subsidiary Telepeajes (automatic toll services).

### **Operating Costs**

Operating costs for the period amounted to Ch\$ 374,063 million, decreasing by 1.2% in relation to 2005, when they amounted to Ch\$ 378,579 million. This change is mainly explained by a Ch\$9,297 million decrease in remunerations as a product of the restructuring performed at the beginning of 2006. Furthermore, there was a 0.5% drop in other operating costs, which was offset by an increase in depreciation costs.

### **3.2 NON-OPERATING INCOME**

***Non-operating income*** obtained in the period ended on September 30, 2006 shows a deficit of Ch\$ 20,134 million, whereas in the previous period it was Ch\$ 20,504 million, which implied a 1.8% drop in the deficit. Where:

***Financial income*** decreased 46.2%, mainly because in 2005 the greater volume of funds in the 2005 period was temporarily allocated to financial investments.

---

**Other non-operating income** amounted to Ch\$1,287 million, which is lower than the Ch\$2,280 million in 2005. This difference is mainly because of lower income obtained on the sale of recovered material, as well as the effect of the sale of Intelsat shares on 2005 net income.

**Financial expenses** decreased by 34.4% in 2006, as a product of lower interest-bearing debt.

**Amortization of goodwill** increased Ch\$645 million in relation to 2005, mainly because of the full amortization of the goodwill of Tecnonáutica, due to the restructuring of the Telefonica Chile group.

**Other non-operating expenses** amounted to Ch\$12,182 million, a Ch\$6,239 million increase with respect to 2005. This increase is explained by the costs incurred in the personnel restructuring that took place at the beginning of 2006.

The Company recorded positive net **price-level restatement** in 2006 in the amount of Ch\$3,148 million, mainly due to the variations in the CPI, UF and exchange rate. It should be noted that the Company's hedging activities covered 100% of exchange rate fluctuations and 84% of interest rate fluctuations. As a result of the Chilean peso-U.S. dollar exchange rate hedges, the effect of exchange rate variation in 2005 and 2006 was neutral.

### **3.3 NET INCOME FOR THE PERIOD**

The Company recorded net income of Ch\$19,748 million for the 2006 period, compared to Ch\$22,532 million in 2005. The lower income obtained in 2006 is explained by a 10.3% decrease in operating income, which was partially offset by a 1.8% decrease in the non-operating deficit, and by the drop in income taxes.

### 3.4 RESULTS BY BUSINESS AREA

**1. Fixed Telecommunications Business:** For the fixed telecommunications business, the Company recorded a net loss of Ch\$985 million for the nine-months ended September 30, 2006, which is comparatively lower than the net income of Ch\$ 13,475 million recorded for the same period in 2005. The difference is explained in part by lower operating income, which results from lower operating revenues and higher operating costs, and in part by higher non-operating losses, mainly due to the restructuring cost incurred during the first quarter of 2006.

**2. Corporate Communications Business:** The corporate communications business contributed net income of Ch\$9,913 million, a 29.0% increase in relation to 2005, when net income was Ch\$7,682 million. The increase is mainly explained by higher operating income, due to the decrease in payroll costs, as well as smaller non-operating losses.

**3. Long Distance Business:** The Company recorded net income of Ch\$11,939 million for the long distance business for the nine months ended September 30, 2006. This figure exceeds 2005 net income of Ch\$707 million, as a result of improvements in both operating income and non-operating income, owing to the changes in international businesses, which required the recognition of extraordinary charges during the third quarter of 2005.

**4. Other Businesses** Other businesses mainly include the services of Telefónica Multimedia, Telepeajes, T-gestiona, Fundación and Tecnonautica (corresponding to 2005). These businesses altogether generated a net loss of Ch\$1,119 million in 2006, whereas during the same period the previous year they generated net income of Ch\$668 million. The difference is primarily the result of lower income obtained by Fundación and Telepeajes

<b>Net change in cash and cash equivalents for the year</b>	<b>(140,109)</b>	<b>(74,342)</b>	<b>65,767</b>	<b>-46.9%</b>

The net negative variation in cash and cash equivalents of Ch\$74,324 million in cash flows for the 2006 period, compared to the negative variation of Ch\$140,109 million in 2005, is because of a decrease in cash flows from financing activities in 2006. The decrease is mainly caused by a lower distribution of dividends. In addition, lower cash flows were allocated to investing activities, as there was less investment in short-term instruments. These effects were offset by the decrease in cash flows provided by operating activities.

The key points from the table above are the following:

The current ratio increase is the result of a 6.0% drop in current assets and a 44.0% drop in current liabilities. The change in current liabilities is explained by a decrease in financial debt in comparison to September of the previous year.

The decrease in the leverage ratio is explained by a 11.0% drop in total liabilities as well as a 4.6% decrease in shareholders' equity, which was the result of both the distribution of retained earnings through the payment of dividends and the capital decrease.

#### **6. EXPLANATION OF THE MAIN DIFFERENCES BETWEEN MARKET OR ECONOMIC VALUE AND THE BOOK VALUE OF THE COMPANY'S ASSETS**

Due to market imperfections regarding the capital assets of the sector, there is no economic or market value that can be compared to their accounting values. However, there are certain buildings with a book value equal or close to zero. These buildings have a market value, but it is not significant with respect to the Company's assets in the aggregate.

For other assets with a referential market value, such as marketable securities (shares and promissory notes), provisions have been established when the market value is less than the book value.

## **7. ANALYSIS OF MARKETS, COMPETITION AND RELATIVE MARKET SHARE**

### **Relevant Industry Information**

During the first nine months of 2006, the sector has begun to develop the concept of convergence of services and hybrid wireless solutions.

The most relevant event is the launching of Telefónica Chile's Satellite Digital TV during the second quarter of 2006. The launch of this new product was followed by rapid growth in bundled offers of voice, broadband and pay TV services. Other fixed telephony operators have replicated this offer through alliances with satellite operators.

Wireless technology continues its development through deployment of Telefónica Chile's WiFi solutions, the launching of Telsur's PHS (Personal Handy System), and the recent entrance of Transam to local telephony through the GSM standard. In turn, Entel announced the completion of the upgrade of its WLL network to Wimax.

The mobile sector continues to be highly dynamic. This year has been marked by the massive migration of Telefónica Móviles and América Móviles to the GSM standard. América Móviles changed its local brand from Smartcom to Claro toward the end of July 2006. At the same time there is great interest, mainly from retail chains, in entering the sector as virtual mobile operators (VMO).

### **Market Evolution**

Estimates indicate that as of September 2006 the fixed-line market had approximately 3.3 million lines, a drop of 3.9% with respect to September 2005. Within fixed voice consumption, there were decreases of 4.3% in local consumption, 12.9% in DLD and 13.5% in ILD with respect to the same period the previous year.

According to estimates, as of September 2006 the mobile telephone market had a total of 12.4 million subscribers, which represents growth of 14% in comparison to September 2005.

The Internet market continues with the migration from switchboard access to broadband, resulting in a 52% decrease in switchboard market access, with an estimated total of 2.18 billion annual minutes, and a 51% increase in the Broadband market, with 975,000 accesses, 58% of which use ADSL technology.

## 8. ANALYSIS OF MARKET RISK

### Financial Risk Coverage

Due to the attractive foreign interest rates in certain periods, the Company has obtained financing abroad, denominated mainly in dollars and in certain cases at a floating interest rate. Consequently, the Company faces two types of financial risks: the risk of exchange rate fluctuations and the risk of interest rate fluctuations.

### Financial risk due to foreign currency fluctuations

The Company has exchange rate hedging instruments. The purpose of these instruments is to reduce the negative impact of fluctuations of the dollar on Company results. The percentage of interest-bearing debt exposure is defined and continuously reviewed, basically considering the volatility of the exchange rate, its trend, and the cost and availability of hedging instruments for different terms.

The main hedging instruments used are Cross Currency Swaps and dollar/UF and dollar/peso exchange insurance.

As of September 30, 2006, the interest-bearing debt in original currency expressed in dollars was US\$ 774 million, including US\$ 500 million in financial liabilities in dollars, US\$ 251 million of debt expressed in UF and US\$ 22 million of debt in Chilean pesos. In this manner Ch\$ 268,515 million corresponds to debt directly exposed to the variations of the dollar.

During the period, the Company had Cross Currency Swaps, dollar/peso exchange insurance and assets in dollars that resulted, as of the end of the third quarter 2006, in close to 0% exposure to foreign exchange fluctuations.

### Financial risk due to floating interest rate fluctuations

The policy for hedging interest rates seeks to reduce the negative impact on financial expenses due to interest rate increases.

As of September 30, 2006, the Company had debt at the variable interest rates Libor and TAB, mainly for bank loans.

To protect the Company from increases in the floating interest rates, derivative financial instruments have been used, particularly Cross Currency Swaps (which cover the Libor rate), to limit the future fluctuation of interest rates. As of September 30, 2006, the use of these swaps has allowed the Company to limit its exposure to 16% of the total interest-bearing debt in Chilean pesos.

## **Industry Risks**

### **Voissnet Makes an Accusation Before the National Economic Attorney General's Office (Fiscalía Nacional Económica) and Files Suit Before the Antitrust Commission, both against Telefónica Chile**

On January 20, 2005, Telefónica Chile responded to the accusation made by Voissnet filed before the National Economic Attorney General's Office for alleged events which in Voissnet's opinion attempted to violate free competition and to impede the development and growth of Internet technology, and in particular broadband telephony and access to broadband, since they prohibit carrying voice using the Internet broadband access provided by Telefónica Chile. Voissnet's intention is for the TDLC to force Telefónica Chile to allow third parties to provide IP Telephony through the Internet using the ADSL owned by Telefónica Chile.

Telefónica Chile rejected each and every part of the accusations made by Voissnet, providing market, legal and regulatory information regarding the development of the broadband market in Chile. Subtel submitted the report requested by the TDLC in relation to the complaint presented by Voissnet, without making reference to the countersuit presented by Telefónica Chile, questioning the contractual restrictions imposed by Telefónica Chile.

In June 2006, the evidentiary hearings concluded. The Antitrust Commission set the date to hear the allegations of the parties. On August 9, 2006, the allegations of the parties were heard.

On October 26, 2006, the Company was notified of the sentence dictated by the Antitrust Commission, which partially accepted the complaint filed by Voissnet S.A. and the requirement of the National Economic Attorney General's Office and fined Telefónica Chile 1,500 UTA (Annual Tax Units).

The Company is analyzing both the verdict and the actions to be followed in this respect, and it faces a deadline of ten business days to file a complaint before the Supreme Court.

### **Public Tender to Grant Wireless Local Public Telephone Concessions on the 3,400 – 3,600 MHz Frequency Band**

On September 15, 2005, the companies participating in the public tender called by Subtel to grant wireless local public telephone concessions on the 3,400 – 3,600 MHz band delivered their proposals.

The companies participating in the tender were Telefónica Chile, Telmex Servicios Empresariales, MIC Chile S.A. (owned by Telmex Chile) and VTR.

On December 13, 2005, Subtel informed that VTR and Telmex were awarded the concessions to offer wireless local telephone throughout the country, through the preferential rights of both companies.

Telefónica Chile appealed the awarding of the concessions in conformity with the procedure established in the General Telecommunications Law. Additionally on December 27, 2005 Telefónica Chile filed a public law motion to vacate before the 2nd Civil Court of Santiago against the Ministry of Transportation and Telecommunications and Subtel, requesting that the recognition of the preferential right of Telmex Servicios Empresariales S.A. be declared null. The Court accepted the mentioned complaint for processing. On February 1, 2006, Telefónica Chile presented a complaint

---

before the General Controllershship of the Republic, claiming that the provisions for the Bases of the Public Tender to grant concessions are illegal.

Regarding the projects corresponding to Regions XI and XII, the Ministry of Transportation and Telecommunications communicated that by means of Resolutions No. 64 and No. 65, both of January 20, 2006, it assigned the regional concessions to provide wireless local telephone services in Regions XI and XII to Telefónica Chile, since it was the only bidder.

### **Implementation of SAP System**

As part of its ongoing efforts to improve customer service, Telefónica Chile has decided to implement a world class ERP application. Implementation of this system, which will contribute to better performance and generate operating cost efficiencies, was completed in August 2006.

This implementation includes the financial-economic and logistical processes of companies that form part of the Telefónica Chile Group. The SAP system is currently in its stabilization phase.
