Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relative to our business, which are based on management's current expectations, estimates and projections about future events and financial trends, which could affect our business. Words such as: believes, anticipates, plans, expects, intends, aims, evaluates, predicts, foresees, projects, guidelines, should and similar expressions are intended to identify forward-looking statements. These statements, however, do not guarantee future performance and involve risks and uncertainties, which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which, depending on future events, may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could modify actual results include, among others, changes in regional, national and international commercial and economic conditions; inflation rates; increase in customer delinquency on the account of borrowers in loan operations, with the consequent increase in the allowance for loan losses; loss of funding capacity; loss of clients or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, adversely affect our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place excessive reliance on these forward-looking statements. These statements are valid only as at the date they were prepared. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

Risk Factors and Critical Accounting Practices

To assure Bradesco's adherence to the best international practices for transparency and corporate governance, we point out Risk Factors and Critical Accounting Practices. We consider these factors and practices the most significant and those which could affect our daily business, the results of our operations or our financial position. We stress that Bradesco addresses the management of all risks inherent to its activities in a complete and integrated manner. This integrated approach facilitates the improvement of risk management models and avoids the existence of any gap that could jeopardize the correct identification and assessment of these risks.

Risks Relating to Brazil

1) Brazilian political and economic conditions have direct impact on our business and on the market value of our stocks and ADSs

All of our operations and clients are mainly located in Brazil. Accordingly, our financial condition and results of operations are substantially dependent on the Brazilian economy, which in the past has been characterized by frequent intervention by the Brazilian Government and volatile economic cycles. In addition, our financial condition and the market value of our stocks and ADSs may also be adversely affected by changes in policy involving exchange controls, tax and other matters, as well as factors such as: fluctuations in exchange rates, interest rate, inflation rates, and other political, diplomatic, social and economic developments inside and outside Brazil that affect the country.

We cannot control or predict which measures or policies the Brazilian Government may take in response to the current or future situation of the Brazilian economy or how these measures or policies may affect the Brazilian economy and, both directly and indirectly, our operations and revenues.

2) If Brazil undergoes a period of high inflation in the future, our revenues and the market value of our stocks and ADSs may be reduced

In the last 15 years, Brazil has undergone extremely high inflation rates, with annual rates (IGP-DI from Fundação Getulio Vargas) reaching as high as 2,708% in 1993. More recently, Brazil's inflation rates were 1.2% in 2005, 3.8% in 2006 and 1.4% in the 1st half of 2007. Inflation and governmental measures to combat it have had in past years significant negative effects on the Brazilian economy. In addition, public speculation about possible future actions has also contributed to economic uncertainty in Brazil and to heightened volatility in the Brazilian securities markets. If Brazil suffers a period of high inflation in the future, our costs may increase, our operating and net margins may decrease and, if investor's confidence lags, the price of our stocks and ADSs may drop. Inflationary pressures may curtail our ability to access foreign financial markets and may occasionally lead to further government interventions in the economy, including the introduction of government policies that may adversely affect the overall performance of the Brazilian economy.

3) Access to international capital markets by Brazilian companies is influenced by the perception of risk in emerging economies, which may harm our ability to finance our operations

The market of securities issued by Brazilian companies is influenced by economic and market conditions in Brazil and, at different levels, by the market conditions in other Latin American countries and other emerging countries. Although economic conditions in these countries may significantly differ from the Brazilian economic conditions, the investors' reaction to events in these countries may have an adverse effect in the market value of the Brazilian companies' securities. Crises in other emerging countries or economic policies in other countries, specially in United States and European Union countries, may reduce the demand of investors for Brazilian companies' securities, including ours. Any of the events described above may negatively affect the market price of our stocks and make harder or even prevent our access to capital markets and our financing in future operations in acceptable conditions.

4) Developments in other emerging markets may adversely affect the market value of our stocks and ADSs

The market value of our stocks and ADSs may be adversely affected by declines in the international financial markets and world economic conditions. The Brazilian securities market is influenced by the local and other emerging countries' economy, especially those in Latin America. Although economic conditions are different in each country, investors' reaction to developments in one country may affect the securities markets and the securities issued in other countries, including Brazil.

Occasionally, developments in other countries have adversely affected the market value of our and other Brazilian companies' stocks, as investors' high risk perception due to crises in other emerging markets may lead to reduced levels of investment in Brazil and, in addition, may hurt our ability to finance our operations through the international capital markets. If the economic situation in Latin America deteriorates, or if similar developments occur in the international financial markets in the future, the market value of our stocks and ADSs may be adversely affected.

Risks Relating to Bradesco and the Brazilian Banking and Insurance Industries

1) The Brazilian Government regulates the operations of Brazilian banks and insurance companies, and changes in prevailing laws and regulations or the imposition of new ones may adversely affect our operations and results

Brazilian banks and insurance companies are subject to extensive and continuous regulatory review by the Brazilian Government. We have no control over government regulations, which govern all facets of our operations, including the imposition of minimum reference equity and capital requirements, compulsory deposits, loan limits and other loan restrictions.

The regulatory structure governing Brazilian banks and insurance companies is continuously evolving, and the laws and regulations could be amended. Besides, the enforcement or interpretation of laws and regulations could change, and new laws and regulations could be adopted. Such changes could materially affect in a negative manner our operations and our results.

Regulatory changes affecting other businesses in which we are engaged, including our broker dealer, consortium and leasing operations, could also have an adverse effect on our operations and our results.

2) The increasingly competitive environment in the Brazilian bank and insurance industries may adversely affect our business prospects

We face significant competition in all of our principal areas of operation from other large Brazilian banks and public and private insurance companies. Brazilian regulations raise limited barriers only to market entry and do not differentiate between local or foreign commercial and investment banks and insurance companies. As a result, the growing presence of foreign banks and insurance companies in Brazil, some of which have greater resources than we do, has grown the competition both in the banking and insurance industries. The privatization of publicly-owned banks has also made the Brazilian markets for banking and other financial services more competitive.

The increased competition may negatively affect our business results and prospects by, among other things: limiting our ability to increase our customer base and expand our operations; reducing our profit margins on the banking, insurance, leasing services and other products we offer; and increasing competition for foreign investment opportunities.

Furthermore, additional publicly-owned banks and insurance companies may be privatized in the future. The acquisition of a bank or insurance company in a privatization process by one of our competitors would generally add to the acquirers' market share, and as a result we may face increased competition from the acquirer.

3) Some of our common stocks are held by two stockholders, whose interests may conflict with other investors interests

On June 30, 2007 Cidade de Deus Companhia Comercial de Participações held 48.46% of our common stocks and Fundação Bradesco directly and indirectly held 48.32% of our common stocks. As a result, these stockholders have the power to prevent a change in control of our company, even if a transaction of that nature would be beneficial to our other stockholders, as well as to approve related-party transactions or corporate reorganizations, which may not be beneficial to our other stockholders.

III

Critical Accounting Practices

Bradesco's results are susceptible to accounting policies, assumptions and estimates. It is incumbent upon the Management to adopt proper accounting policies and provide reasonable and suitable judgments and estimates when preparing the financial statements.

Our relevant accounting policies are outlined in note 3 to the consolidated financial statements included in chapter 8 of this Report.

In terms of materiality, the following 5 items outline the accounting policies deemed as critical, as well as areas requiring a greater judgment and estimate or involving a higher level of complexity, which may affect our financial condition and the results of our operations. The accounting estimates made under such context impel us to make assumptions on highly uncertain issues. In each case, if we had made other estimates, or if changes in estimates had occurred period by period, these could have significantly impacted our financial condition or the results of our operations:

1) Allowance for Loan Losses

We periodically adjust our allowance for loan losses, which include leasing operations and other operations with loan characteristic, based on the analysis of our portfolio, including probable losses estimate in these segments at the end of each period.

The determination of allowance for loan losses amount by its nature requires us to make judgments and assumptions related to our loan operations portfolio, not only on an individual basis, but also on a portfolio basis. When we revise our portfolio as a whole, various factors may affect our estimate of probable extension of losses, including the methodology we use to measure historical rates of delinquency and the historical period we take into account in such measurements. When we revise loan operations on an individual basis, we make judgments related to the factors, which most probably should affect the risk levels and which specific credit rating we should attribute. Additional factors, which may affect our determination of allowance for loan losses include:

- general economic conditions in Brazil and conditions of relevant sector;
- previous experience with borrower or relevant sector of economy, including losses recent experience;
- credit quality trends;
- guarantees amounts and quality of a loan operation;
- volume, composition and growth of our loan operations portfolio;
- Brazilian Government's monetary policy; and
- any delays when receiving information necessary to assess loan operations or confirm the deterioration of existing credit.

Our determination of allowance for loan losses is influenced by the risk rating of each loan operation. By assuming a positive fluctuation of 1% in delinquency ratio expected for our loan operations portfolio in full performance on June 30, 2007, the allowance for loan losses would increase approximately R\$44 million. Such sensitivity analysis is hypothetical and intends to illustrate the risk rating and loss severity impact on our allowance for loan losses and, thus, must not be considered as an observation of our expectations for future determinations of risk rating or future alterations in loss severity. In view of the procedures we observe, in order to determine our risk rating of loan portfolio and our assessment of loss severity, we believe that the current risk rating and the estimate of loss severity for our loan portfolio are appropriate.

For further information about our practices referring to the allowance for loan losses, see content of loan operations included in chapter 3 and notes 3e and 10 included in the chapter 8 hereof.

2) Assessment of Securities and Derivatives

The financial instruments recorded at fair value in our financial statements mainly include securities classified as for trading, available for sale and other trading assets, including derivatives. The fair value is defined as the value in which a position could be closed or sold in a transaction with a party aware of the issue and willing to trade, without any benefit.

We estimate the fair value by using market-quoted prices when available. We observe that the fair value may be affected by the volume of stocks traded and also may not reflect the control premiums resulting from stockholder agreements, those holding significant investments. However, the Management believes that market-quoted prices are the fair value best indicators.

When market-quoted prices are not available, we use models to estimate the fair value. The factors used in these models include distributors' quotations, pricing models, prices of instruments with similar characteristics and discounted cash flows. The pricing based on models also uses information about interest rates, exchange rates, options volatility, when these are relevant and available.

In the determination of fair value, when market-quoted prices are not available, we have the Management's judgment, since the models depend on our judgment concerning the weight to be attributed to different factors and the quality of information we receive. For instance, reliable market data, when estimating the impact of maintaining a high position are generally limited. Likewise, we use our judgment in the estimate of prices when there is no external parameter. Should we make incorrect assumptions or the model itself makes correlations or incorrect assumptions, the value of income or loss recorded for a specific asset or liability may be improper. The judgment shall also determine if a decline in fair value below the up-to-date cost of a security held to maturity or security available for sale is not temporary, so that to require we recognize a devaluation of up-to-date cost and we may reflect such reduction as expense. In the assessment, if devaluation is not temporary, the Management decides the historical period to be considered and the level of severity of a loss.

Such assessment methods may lead Bradesco to different results, if models used or assumptions and estimates are inaccurate.

For further information about our practices referring to the assessment of securities and derivative financial instruments, see Notes 3c, 3d and 8 included in Chapter 8 of this Report.

3) Classification of Securities

The classification of securities occurs in three categories: for trading, available for sale and held to maturity. This classification is based on the Management's intent, on the date of acquisition of securities, of maintaining or trading such securities. The accounting treatment of securities held depends on our classification upon their acquisition. Circumstantial changes may modify our strategy related to a specific security, which will require a transfer among the three categories.

The classification of securities can be found in Note 8 included in Chapter 8 of this Report.

4) Taxes on Income

The determination of the amount of our taxes and contributions is related to the analysis of our deferred tax assets and liabilities, and taxes on income payable. Generally, our assessment requires us to estimate the future values of deferred tax assets and taxes on income payable. Our assessment about the possibility of a deferred tax asset to be realized is subjective and involves evaluations and assumptions originally uncertain. The realization of deferred tax assets is subject to alterations in future tax rates and the development of our tax planning strategies. The support to our assessments and assumptions may change over time as a result of unpredictable occurrences or circumstances, influencing the determination of the value of our tax liabilities.

We constantly monitor and assess the impact of new tax laws on our liabilities, which could affect the assessments and assumptions of our analysis about the possibility of realizing deferred tax assets. For further information about Bradesco's taxes on income, see Notes 3f and 34 to our financial statements included in Chapter 8 of this Report.

5) Use of Estimates

Our Management estimates and makes assumptions, which include the amount of provisions for deferred taxes, the assumptions for the calculation of allowance for loan losses, the assumptions for calculations of technical provisions for insurance, private pension plans and certificated savings plans, the choice of useful lives of certain assets and the

determination of whether an asset or group of specific assets was deteriorated. The estimates are based on the judgment and available information. Therefore, effective results may differ from such estimates.

Corporate Strategy

We understand that the expansion of the Brazilian economy, jointly with a strong growth of the Brazilian population, will increase the demand for such services. Under such context, our main objective is to maintain the focus on the domestic market and take advantage of our position as the largest private bank in Brazil, to expand profitability, maximize value to our stockholders and generate higher returns compared to other Brazilian financial institutions.

We intend to achieve such goals with a strategy not only to continuously expand our customer base, but also to consolidate our role as the priority bank of each of our clients, so that to be their first option towards their financial services needs. Our goal is to be a Banco Completo (All-inclusive Bank) in the Brazilian market. In this regard, we strive to maintain a remarkable presence in every line of financial services.

In the banking segment, we aim at rendering the most varied range of services as a retail bank, supported by a staff with more than 80 thousand employees, a wide Service Network, including our Branches, Corporate Site Branches, Banco Postal and Bradesco Expresso (Correspondent Banks), besides the ATMs, always concerned with the expansion of business volume. We are also focused on expanding our businesses as a wholesale bank in all its aspects (investment bank and corporate business) and expand our private banking business.

In the insurance segment, we intend to consolidate Bradesco Seguros e Previdência leadership, and in relation to the supplementary private pension segment, we intend to take advantage of our ongoing expansion of demand for our private pension products.

In every line of our operation, we intend to stand out and be recognized by our clients as leaders in terms of performance and efficiency.

We understand that the essence of business success in the financial sector consists of the combination between winning the client and a team highly qualified and devoted to the rendering of services, permanently trained and with rigid discipline standards at work. Our growth plans are not only translated into seeking the addition of new clients but are also focused on the frequent improvement of products and distribution channels. It is fundamental to promote the business, the treatment given to our team in terms of qualification, promotion and creation of a solidarity culture at work, with a view to fomenting an environment where our employees may develop a career enduring during their entire professional life.

Finally, the main component of our philosophy is to conduct the business according to the highest ethical standards. Therefore, our strategy is always guided by seeking the best Corporate Governance practices and by the understanding that Bradesco, besides being a source of profits to its stockholders, should also be a building element in our society.

The key elements of our business strategy are:

- expansion by means of organic growth;
- performance based on the Bank-Insurance Model, which is a business model of a large banking institution, having as subsidiary an important insurance company, with a view to maintaining our profitability and consolidating our leadership in the insurance industry;
- increase of revenues, profitability and value to our stockholders, by consolidating our loan operations, our main activity, and the expansion of new products and services;
- maintenance of our commitment to the technological innovation;
- profitability and return to the stockholders by means of improved efficiency ratio;
- maintenance of acceptable risk levels in our operations; and
- expansion by means of strategic alliances and selective acquisitions, when these are beneficial.

1) To expand main business areas by means of organic growth

The Brazilian economy has been showing solidity over the past years and has been creating strategic opportunities for financial and insurance segments growth, mainly by means of increased business volume. We intend to take advantage of such opportunities to increase our revenues, obtain profitability and maximize value to the stockholders, as outlined as follows:

- benefiting from the opportunity in the Brazilian markets to obtain new clients with loan and financial needs only partially met, incrementing the competition for a small level of clients with higher income levels;

- expanding our financial services distribution, by using creativity in developing new products, solidly employing non-traditional means, for instance, expanding our credit cards offer and extension of loan granting to stores, by utilizing alliances with such stores and rendering services via Banco Postal;

using the distribution channels in benefit of the Bank, including our traditional branch network and technology to access the Internet in order to identify demand for new products;
offering our customer base, broadly, our products and services;
using the systems of our Branches, with a view to assessing and monitoring the use of our products by clients, so that to drive them to the appropriate sale, delivery and commercialization platforms; and
developing varied products, in compliance with the needs of our current and potential clients.

2) To operate based on the Insurance Bank Model, in order to maintain the profitability and consolidate Bradesco's leadership in the insurance industry

Our goal is to be the priority bank for our clients, thus increasing attendance according to their banking, insurance and private pension needs. We believe to be in a privileged position to capitalize the synergy among banking, insurance, private pension services and other financial activities in order to sell our traditional banking products and insurance and private pension products, by means of our branch network, our brokers and dealerships network, distribution services via Internet and our creativity in developing new distribution channels.

Concurrently, we aim at increasing profitability levels of insurance and supplementary private pension plans segments, by using the profitability measure rather than the volume of underwritten premium or amounts deposited, as observed as follows:

maintaining our current policy of carefully assessing the car insurance risks and rejecting them in events where risks are too high;
intensively trading our products; and
maintaining acceptable risk levels in our operations by means of a strategy of:

- setting priorities to insurance underwriting opportunities, according to the risk spread, between the revenue expected pursuant to the terms of insurance agreement and the amount of projected claims (statistically) to be due under the terms of such agreement;
- carrying out hedge transactions, so as to set out the mismatch between the real inflation index and provisions for adjustments of interest rates and inflation in long-term agreements;
- entering into reinsurance agreements with renowned reinsurance companies, executed by means of IRB-Brasil Resseguros (IRB), viewing to reducing the exposure to great risks; and
- using reinsurance contracts with important reinsurance companies.

3) Increased revenues from banking activities, profitability and value to stockholders, by reinforcing loan operations and expanding new products and services

We are concerned about the increase of revenues and profitability in our banking operations, with the following measures:

carrying out our traditional deposit-taking activities and loan operations, continuously seeking to improve the quality of our loan portfolio, by means of risk mitigation plans and improvement in the assessment of loan granting ratings;
building our customer base, legal entities and individuals, by offering services meeting the needs of specific clients, including foreign exchange services and import/export financing;
intensively seeking the development of paid services based on fees, such as collection and payment processing for current and potential clients;
expanding our financial services and products distributed out of our conventional means of branches, such as credit card activities, taking advantage of change in the consumers' behavior concerning the financial services consumption;
increasing our revenues from asset management and private pension plans; and
continuously building our high-income customer base, by providing a varied range of tailor-made financial products and services, and offering maximum efficiency in asset management.

4) To maintain Bradesco's commitment to technological innovation

The development of efficient means to reach clients and to process operations is a key element of our goal to increase our profitability and thus obtain coordinated growth opportunities. Recently, Bradesco resolved to reinforce such strategy with the challenge of changing our technological model, with a view to definitively maintaining Bradesco's market leadership in the industry in terms of technology. Thus, Bradesco set a task force devoted to the advance of our profile and public perception towards technology.

We believe that technology offers unequalled opportunities to reach our clients efficiently in terms of costs and with satisfactory levels of security. We maintain the commitment of being ahead in the banking automation process, by creating opportunities for Brazilians to contact us via the Internet. We expect to continue increasing the number of clients and operations carried out through the Internet, by means of techniques, such as:

- by continuously installing stations of access to the Internet (Web Points) in public sites, allowing clients to use our banking system via the Internet, whether or not they have access to a personal computer;

- by enlarging our mobile banking service (Bradesco Mobile Banking), allowing clients to carry out their banking operations via the Internet, with compatible mobile phones; and

- by providing Pocket Internet Banking for palmtops and Personal Digital Assistants (PDAs) allowing our clients to see their checking and savings accounts, credit card transactions, provide for payments, transfer funds and also obtain institutional information.

5) To obtain profitability and return to stockholders by improving the efficiency ratio

We intend to improve our efficiency levels:

- by maintaining the austerity as guideline for our cost control policy;

- by consolidating the synergies enabled by our recent acquisitions;

- by still reducing our operating costs, by means of technology investments, decreasing the costs per transaction, always maintaining our automated distribution channels updated, including our distribution systems by phone, Internet and teller machines; and

- by still incorporating institutions to be acquired in our existing system, in order to remove potential overlaps, redundancies and inefficiency.

6) To maintain acceptable risk levels in our operations

Bradesco is constantly identifying and assessing the risks inherent to the activities we developed and we maintain proper controls, ensuring the conformity of processes and capital efficient allocation, with a view to maintaining levels similar to international standards, as well as to obtain competitive advantages.

7) To enter into strategic alliances and selective acquisitions

We understand that the expansion phase of Brazilian financial institutions will occur due to the organic growth over the next years. In addition, we believe that acquisition opportunities will be smaller size institutions available. Notwithstanding, we deem that certain institutions, susceptible to be acquired, could present niche opportunities, such as consumer financing, credit cards and investment bank. Therefore, we continuously evaluate the potential strategic alliances as well as consolidation opportunities, including privatization and acquisitions proposals, and other forms, which offer potential opportunities to Bradesco increases its market share or improve its efficiency. Besides focusing on the value and the quality of assets, Bradesco takes into account potential operating synergies, crossed sales opportunities, know-how acquisitions and other advantages of potential alliance or acquisition. Our analysis of potential opportunities is guided by the impact these would have over our results.

Summarized Analysis of the Statement of Income

With the purpose of favoring the better understanding, comparability and analysis of Bradesco's results, we are disclosing the Statement of Adjusted Income, which is obtained from a series of adjustments made on the Adjusted Statement of Income. We point out that the Statement of Recurring Income will be the basis used for analysis and comments of this Report on Economic and Financial Analysis.

Below, we show tables with the Adjusted Statement of Income, the respective adjustments and the Statement of Recurring Income.

-------------------	--------------	--------------	--------------	--------------	--------------	------------	-----------	-------------

(1) the partial result of derivatives used for hedge effect of investments abroad, which in terms of Net Income, simply annuls the fiscal and tax effect (IR/CS and PIS/Cofins) of the hedge strategy.

(2) positive result recorded in the sale of our share in Arcelor in the 2nd quarter of 2007;

(3) positive result recorded in the sale of part of our share in Serasa, in the 2nd quarter of 2007;

(4) full goodwill amortization in subsidiaries in the 2nd quarter of 2007;

(5) constitution of civil provision related to Economic Plans Restitution of Excluded Indices; and

(6) activation of the fiscal credits of previous periods

Bradesco's Net Income in 1H07 reached R\$3,506 million, accounting for an 11.9% increase in relation to Net Income of the same period of the previous year. Bradesco's Stockholders' Equity amounted to R\$27,515 million as of June 30, 2007, equivalent to a 28.2% increase compared to the balance as of June 30, 2006. Consequently, the annualized return on Average Stockholders' Equity (ROAE) reached 28.8%. Total consolidated assets reached R\$290,568 million as of June 30, 2007, accounting for a 24.7% growth in relation to the balance of same date of the previous year. The annualized return on Average Assets (ROAA), in 1H07, was 2.5%. Earnings per stock reached R\$1.75.

The main items influencing net income in 1H07, compared to the previous period, can be seen below:

(a) Net Interest Income R\$798 million

Such growth is mainly due to interest component, with a share of R\$823 million (R\$1,848 million due to the increase in business volume, and R\$1,025 million to the decrease in spreads), pointing out a 19.0% increase in the volume of loan operations for individuals carried out in the twelve-month period ended on June 30, 2007, mainly concerned with consumer sales and personal loan financing, the spread of which is higher if compared to corporate loans.

(b) Allowance for Doubtful Accounts R\$(450) million

The variation is mostly due to a 22.1% increase in the volume of loan operations in the twelve-month period ended on June 30, 2007, pointing out the individual client operations, mainly under the type consumer financing, with an increase of 24.0%, which, in view of its specific characteristic requires, a higher volume of provision.

(c) Fee and Commission Income R\$1,037 million

The increase in the period is mainly due to a higher volume of operations and to Amex Brasil consolidation, pointing out the items Card Income R\$435 million, Loan Operations R\$170 million, Checking Accounts R\$152 million, Assets under Management R\$70 million, Charging R\$52 million, Custody and Brokerage Services R\$29 million and Collections R\$16 million.

(d) Personnel, Administrative and Tax Expenses R\$(839) million

Out of such amount, R\$221 million of personnel expenses is due to: (i) the increase in salary levels resulting from the collective bargaining agreement of 2006 (3.5%); (ii) higher PLR expenses R\$68 million; (iii) the consolidation of Amex Brasil and Fidelity R\$77 million; **mitigated** by: (iv) lower expenses with provision for labor proceedings R\$44 million.

The R\$492 million of other administrative expenses basically refers to: (i) the effects on increased volume of business; (ii) the investments in the improvement and optimization of the technological platform; and (iii) contractual adjustments in the period.

The R\$126 million of tax expenses derives basically from (i) the increase in PIS/Cofins expenses R\$65 million, due to the increase in taxable income; (ii) the increase in ISS expenses R\$26 million; and (iii) the higher CPMF expenses R\$15 million.

Net Income	1,705		1,705	2,302	(234)	(395)	120	49	(41)	

(1) partial result of derivatives used for hedge effect of investments abroad, which in terms of Net Income, simply annuls the fiscal and tax effect (IR/CS and PIS/Cofins) of this hedge strategy.

(2) positive result recorded in the sale of our share in Arcelor in the 2nd quarter of 2007;

(3) positive result recorded in the sale of part of our share in Serasa, in the 2nd quarter of 2007;

(4) full goodwill amortization in subsidiaries in the 2nd quarter of 2007;

(5) constitution of civil provision related to Economic Plans - Restitution of Excluded Indices; and

(6) activation of the fiscal credits of previous periods.

In the 2nd quarter of 2007, Bradesco's Net Income reached R\$1,801 million, which corresponds to a 5.6% growth when compared to the 1st quarter of 2007. Bradesco's Stockholders' Equity amounted to R\$27,515 million on June 30, 2007, an 5.7% increase in relation to March 31, 2007. Total consolidated assets reached R\$290,568 million as of June 30, 2007, growing 3.1% in the quarter.

The main items influencing net income in the 2nd quarter of 2007 compared to the previous quarter can be seen below:

(a) Net Interest Income R\$685 million

Such variation is due to the growth in the non-interest income in the amount of R\$463 million, in view of the higher TVM and treasury gains in 2Q07 and the increase in the result of interest-bearing operations in the amount of R\$222 million (R\$283 million due to the increase in business volume, especially due to consumer financing operations, and R\$61 million to the decrease in spreads).

(b) Allowance for Doubtful Accounts R\$(184) million

The increase of the expense in 2Q07 is consistent with the growth of our loan portfolio (by R\$6,718 million or 6.6%) and mainly with the growth in operations with individual clients, which, due to its characteristic, requires higher provisioning volume.

(c) Income from Insurance, Private Pension Plans and Certificated Savings Plans Operations R\$(125) million

The variation is basically due to the higher recording of technical provision in the traditional pension plan and PGBL/Traditional and VGBL products.

(d) Fee and Commission Income R\$50 million

The increase is mostly due to an expansion in the volume of operations in the quarter, reflecting substantially in the following items: Loan Operations R\$27 million; and Card Income R\$24 million.

(e) Personnel, Administrative and Tax Expenses R\$(290) million

Out of this amount, R\$189 million of personnel expenses is due to: (i) the increase in expenses with provisions for labor proceedings in the amount of R\$73 million; (ii) the increase in the PLR expense in the amount of R\$10 million; and (iii) the higher expenses incurred this quarter as compared to the previous one due to the concentration of vacation in the 1st quarter.

The R\$104 million of other administrative expenses refers basically to higher expenses with: (i) Third-party Services R\$40 million; (ii) Advertising R\$22 million; (iii) Communication R\$12 million; and (iv) Data Processing R\$9 million.

Concerning Bradesco's stockholders, domiciled in the country and overseas, on June 30, 2007, 1,366,839 stockholders were domiciled in Brazil, accounting for 99.73% of total stockholders' base and holding 72.18% of Bradesco's outstanding stocks. Whereas the number of stockholders living abroad was 3,688, representing 0.27% of total stockholders' base and holding 27.82% of Bradesco's outstanding stocks.

Bradesco's Stocks

Market Value R\$ million

N.B.: the market value considers the closing quotation of the preferred and common stocks multiplied by the respective number of stocks.

Market Value / Stockholders' Equity

Market Value/Stockholders' Equity: indicates the number of times Bradesco's market value is higher than its book value.

Formula used: number of common and preferred stocks multiplied by the closing price of common and preferred stocks of the last business day of the period. The amount is divided by the accounting stockholders' equity of the period.

Dividend Yield in percentage (accumulated over the past 12 months)

Dividend Yield: is the ratio between the dividends and/or interest on own capital distributed to stockholders over the past 12 months and the stock price, indicating the investors' return related to profit sharing.

Formula used: amount received by stockholders as dividends and/or interest on own capital (gross of IR) over the past 12 months, which is divided by the preferred stock closing price of the last business day of the period.

Payout Index in percentage

Payout Index: indicates the percentage of net income paid as dividends/interest on own capital.

Formula used: amount received by stockholders as dividends and/or interest on own capital (gross of IR), which is divided by net income adjusted by legal reserve (5% of net income).

Financial Volume Bradesco PN x Ibovespa R\$ billion (except percentage)

Earnings per Share R\$ (accumulated over the past 12 months) (*)

(*) For comparison purposes, in 2007 there was a 100% stock bonus, which was applied for previous years, and in 2005 there was also a 100% stock bonus, which was applied for previous years. Until 2004, the number of stocks was adjusted at 200% due to their splitting, and for the years prior to 2003, they were divided by 10,000 in view of their reverse split. Adjusted Net Income was used.

Appreciation Index (in percentage) Bradesco PN (BBDC4) x Ibovespa

Source: Economática

Bradesco Stock Performance

Bradesco's preferred stocks appreciated by 11.8% (adjusted by dividends), whereas Ibovespa had accrued gains of 18.7% in 2Q07. In 1H07, the accrued performance of Bradesco's preferred stocks appreciated by 8.8% (adjusted by dividends), whereas Ibovespa increased by 22.3% .

The 2nd quarter of 2007 was marked by a favorable international scenario, as the main world markets renewed their maximum historical performances, partially due to the good performance of the United States' economy. In Brazil, two rating agencies, in May, increased the sovereign ceiling to a level below the investment rate, which also contributed to a good performance of the market.

Analysis of the Statement of Income R\$ million**Income from Loan Operations and Leasing Result**

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
9,966	10,311	3.5	5,126	5,185	1.2

In the period, income was up mainly a result of: (i) the increase in the volume of the loan portfolio, which totaled R\$108,191 in June/07 against R\$88,643 in June/06, i.e., a 22.1% increase, particularly in the corporate portfolio, with an increase of 24.3%, focusing on BNDES Onlending , Guaranteed Account , Operations Abroad funds and Working Capital products. In the individual portfolio, the BNDES Onlending products, whereas in the individual growth was 19.0%, with focus on the products connected to consumer financing; which was partially **affected** by; (ii) higher exchange loss variation of 9.9% in 1H07, against an exchange loss variation of 7.5% in 1H06, affecting foreign currency indexed and/or denominated operations, which comprise 10.1% of total Loan and Leasing Operations, basically derived from corporate portfolio (excluding Advances on Foreign Exchange Contracts ACC); and (iii) decrease in average interest rates, observing the 6.0% CDI variation in 1H07, against 7.8% in 1H06.

The variation in income in the quarter was mainly due to: (i) an increase of 6.6% in the loan portfolio volume, which reached the amount of R\$108,191 in June/07, against R\$101,473 in March/07, considering that in the corporate portfolio there was an increase of 6.1%, with funds on Operations Abroad , Working Capital and portfolio the increase was 7.4%, with focus on products linked to consumer financing, which was partially **mitigated**: (ii) by the drop in the average interest rates, observing the 2.9% CDI variation in 2Q07, against 3.0% in 1Q07; and (iii) by the higher exchange loss variation of 6.1% in 2Q07, against exchange loss variation of 4.1% in 1Q07, affecting our foreign currency indexed and/or denominated operations, comprising 10.1% of total Loan and Leasing Operations, basically derived from the corporate portfolio (excluding Advances on Foreign Exchange Contracts ACC).

Income from Operations with Securities (TVM) and Derivative Financial Instruments

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
3,908	4,407	12.8	2,035	2,372	16.6

The increase in income in the period is practically due to: (i) the increase in the portfolio's average volume; which was partially **offset** by: (ii) the higher exchange loss variation of 9.9% in 1H07, against an exchange loss variation of 7.5% in 1H06, impacting on the foreign currency indexed and/or denominated operations, comprising 6.3% of the portfolio; (iii) the lower non-interest income R\$194; and (iv) the reduction in the average interest rates, observing the 6.0% CDI variation in 1H07, against 7.8% in 1H06.

The variation in income in the quarter is mainly due to: (i) the increase in the portfolio's average volume; (ii) the higher non-interest income gains of R\$376; partially **offset** by: (iii) the higher exchange loss variation of 6.1% in 2Q07, against exchange loss variation of 4.1% in 1Q07, impacting on the foreign currency indexed and/or denominated operations, comprising 6.3% of the portfolio; and (iv) the reduction in the average interest rates, observing the 2.9% CDI variation in 2Q07, against 3.0% in 1Q07.

Financial Income on Insurance, Private Pension Plans and Certificated Savings Plans

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
3,456	3,544	2.5	1,685	1,859	10.3

The variation in the period was basically due to: (i) the increase in the portfolio's average volume; (ii) the higher IGP-M variation of 1.5% in 1H07, against 1.4% in 1H06; partially **offset**: (iii) by the reduction in the average interest rates, observing the 6.0% CDI variation in 1H07, against 7.8% in 1H06; and (iv) the lower non-interest income of R\$273 in 1H07, against R\$287 in 1H06.

The variation in the quarter was substantially due to: (i) higher non-interest income of R\$160 in 2Q07, against R\$113 in 1Q07; (ii) the increase in the portfolio's average volume; partially **offset** by: (iii) the lower IGP-M variation of 0.3% in 2Q07, against 1.1% in 1Q07; and (iv) the reduction in average interest rates, accompanying the 2.9% CDI variation in 2Q07, against 3.0% in 1Q07.

Foreign Exchange Transactions

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
464	293	(36.9)	149	144	(3.4)

For a better analysis, this item should be analyzed deducted from expenses with foreign funding, used for import/export operation financing, in accordance with Note 11a. After the deductions, the result would be R\$159 in 1H06 and R\$163 in 1H07, basically due to the increase in the average volume of the exchange portfolio.

For a better analysis, this item should be analyzed deducted from expenses with foreign funding, used for import/export operation financing, in accordance with Note 11a. After such deductions, the result had an increase, being R\$72 in 1Q07 and R\$91 in 2Q07, basically due to the increase in the average volume of the exchange portfolio.

Compulsory Deposits

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
677	631	(6.8)	316	315	(0.3)

The decrease in the period is basically due to: (i) the variation in CDI of 6.0% in 1H07, against 7.8% in 1H06, used to remunerate the additional compulsory deposit; which was **offset**: (ii) by the increase in the average volume of deposits in the period.

Revenues remained practically stable in 2Q07 when compared to 1Q07.

Market Funding Operations Expenses

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
5,553	5,616	1.1	2,885	2,731	(5.3)

The variation in the period is mostly due to: (i) the increase in the average funding volume; which was **offset** by: (ii) the lower exchange loss variation of 9.9% in 1H07, against exchange loss variation of 7.5% in 1H06, impacting the foreign currency indexed and/or denominated funding; and (iii) the reduction in the average interest rates, observing the 6.0% CDI variation in 1H07, against 7.8% in 1H06, mainly affecting the time deposits expenses.

The variation in the quarter derives basically from: (i) the higher exchange loss variation of 6.1% in 2Q07, against exchange loss variation of 4.1% in 1Q07, impacting on the foreign currency indexed and/or denominated funding; (ii) the reduction in the average interest rates, following the CDI variation of 3.0% in 1Q07, against 2.9% in 2Q07, mainly affecting time deposit expenses; **offset**: (iii) by the increase in the average volume of the portfolio.

Price-level Restatement and Interest on Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
1,958	2,141	9.3	1,043	1,098	5.3

The variation in the period is basically due to: (i) the higher average volume of technical provisions, especially the VGBL product; (ii) the higher IGP-M variation of 1.5% in 1H07, against 1.4% in 1H06, one of the indexes which also remunerates the technical provisions; **mitigated**: (iii) by the reduction in the average interest rates, observing the 6.0% CDI variation in 1H07, against 7.8% in 1H06.

The variation in the quarter is mostly due to: (i) the higher average volume of technical provisions, especially the VGBL product; partially **offset** by: (ii) the lower IGP-M variation of 0.3% in 2Q07, against 1.1% in 1Q07, one of the indexes which also remunerates the technical provisions; and (iii) the drop in the average interest rates, observing the 2.9% CDI variation in 2Q07, against 3.0% in 1Q07.

Borrowings and Onlendings Expenses

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
1,035	706	(31.8)	364	342	(6.0)

The variation in the period is basically due to: (i) the higher exchange loss variation of 9.9% in 1H07, against exchange loss variation of 7.5% in 1H06, impacting on foreign currency indexed and/or denominated borrowings and onlendings, which represent 36.1% of the Borrowings and Onlendings portfolio; (ii) the decrease in average interest rates, according to the 6.0% CDI variation in 1H07, against 7.8% in 1H06; which was

The variation in the quarter is substantially due to the higher exchange loss variation of 6.1% in 2Q07, against exchange loss variation of 4.1% in 1Q07, impacting on foreign currency indexed and/or denominated borrowings and onlendings, which represent 36.1% of the Borrowing and Onlending portfolio.

mitigated by: (iii) the increase in the average funding volume, mainly represented by Finame and BNDES operations.

Net Interest Income

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
9,925	10,723	8.0	5,019	5,704	13.6

The variation of R\$798 in net interest income is basically due to the increase in interest-bearing operations of R\$823, R\$1,848 due to a growth in the average business volume, and R\$1,025 due to the decrease in spreads.

The variation of R\$685 in net interest income is due to: (i) the increase in non-interest income of R\$463, due to higher gains with treasury and TVM verified in 2Q07; and (ii) by the growth in the result of interest-bearing operations in the amount of R\$222, R\$283 due to the increase in the average business volume and R\$61 due to the decrease in spreads.

Allowance for Doubtful Accounts Expenses

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
2,054	2,504	21.9	1,160	1,344	15.9

The increase in the period of R\$450 is compatible with the growth of our loan portfolio (22.1% or R\$19,548 over the last 12 months), and with the relevant participation of individual (41.3%) which, due to its characteristic, requires higher provisioning volume, although its growth in the period (19.0% or R\$7,135) was slightly lower than the total portfolio.

The variation in the quarter is consistent with the growth of our loan portfolio and mainly with the growth in the operations with individual clients which, due to its characteristic, requires higher provisioning volume.

Fee and Commission Income

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
4,131	5,168	25.1	2,559	2,609	2.0

The increase in the period is mainly due to a hike in the volume of operations, with focus on: (i) income from cards R\$435, which includes the consolidation of Amex Brasil in the amount of R\$238; (ii) loan operations R\$170; (iii) checking account R\$152; (iv) assets management R\$70; (v) charging R\$52; (vi) custody and brokerage services R\$29; and (vii) collections R\$16.

The variation in the quarter is mostly due to expansion of businesses, substantially reflecting on: (i) loan operations R\$27; and (ii) income from cards R\$24.

Retained Premiums from Insurance, Private Pension Plans and Certificated Savings Plans

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
6,746	7,449	10.4	3,606	3,843	6.6

The growth in the period is detailed in the charts below:

The variation in the quarter is detailed in the charts below:

a) Retained Premiums from Insurance

1 st Half/2006	1 st Half/2007	Variation %	1 st Qtr./2007	2 nd Qtr./2007	Variation %
3,899	4,040	3.6	1,953	2,087	6.9

The variation in the period basically resulted from: (i) the increase in Health insurance production R\$170, substantially due to the corporate plan, in the Life line R\$55; and in the basic lines R\$46; **offset** by: (ii) the recording, in 1H06 of premiums of effective and non-issued risks, which had its accounting system changed by means of the Susep Circular 314, not affecting 1H07, in the Auto segment R\$67 and in the Basic lines R\$31; and (iii) the reduction of Auto insurance production R\$31.

The variation in the quarter is mainly due to the increase in the production of: (i) the Auto segment R\$64, basically due to the fee restatement of the trucks portfolio and to the profile adequacy, which improved our competitiveness and market penetration index; (ii) the Health line R\$52, due to the corporate plan; and (iii) the Life line R\$19.

b) Private Pension Plans Contributions

1 st Half/2006	1 st Half/2007	Variation %	1 st Qtr./2007	2 nd Qtr./2007	Variation %
2,181	2,664	22.1	1,310	1,354	3.4

The increase in the period is mainly due to: (i) the sales of VGBL product R\$875 and PGBL/Traditional products R\$102; **mitigated** by: (ii) the increase in the volume of redemption of VGBL R\$494.

N.B.: according to Susep, the recording of VGBL redemptions reduces the retained contributions.

The variation is mainly due to: (i) the sale of VGBL product R\$67; **mitigated:** (ii) by the increase in the volume of redemption of VGBL R\$13 in 2Q07.

N.B.: according to Susep, the recording of VGBL redemptions reduces the retained contributions.

c) Income on Certificated Savings Plans

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
666	745	11.9	343	402	17.2

The variation in the period is mainly due to the higher sale of certificated savings plans connected to sustainability actions.

The variation in 2Q07 is mainly due to the higher sale of certificated savings plans connected to sustainability actions.

Variation in Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(1,045)	(1,760)	68.4	(663)	(1,097)	65.5

The variation in the period is detailed in the charts below:

The variation in the quarter is detailed in the charts below:

a) Variation in Technical Provisions for Insurance

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(386)	(505)	30.8	(214)	(291)	36.0

The variation in technical provisions is directly related to the sale of insurance in their respective effectiveness periods. The main variations occurred in 1H07 were comprised of: (i) the higher constitution of provision in the Health insurance R\$499 and Life segment R\$106; **mitigated:** (ii) by the lower constitution of provision in the Auto segment R\$111. The variations occurred in 1H06 were comprised of: (i) the higher constitution of technical provision in the Health portfolio R\$290 (R\$244 of which refers to the additional provision in the Individual Health portfolio), Life segment R\$83 and Basic Lines R\$18; (ii) constitution of provision for effective and non-issued risks (PPNG) previously accounted for in memorandum accounts to meet Susep Circular 314, in the Auto R\$50 and Basic Lines R\$29 segments; and **mitigated:** (i ii) by the reversal of provision of the Auto segment R\$84.

The variation in technical provisions is directly related to the sale of insurance in their respective effectiveness periods. The main variations occurred in 2Q07 were comprised of: (i) the higher constitution of provision in the Health insurance R\$237 and Life segment R\$68; **mitigated:** (ii) by the lower constitution of provision in the Auto segment R\$21. The main variations occurred in 1Q07 were comprised of: (i) higher constitution of provision in the Individual Health insurance R\$258 (R\$236 of which refers to the complement of the extraordinary technical provision R\$387 recorded in 4Q06) and Life segment R\$38; **mitigated:** (ii) by the lower constitution of provision in the Auto segment R\$90.

b) Variation in Technical Provisions for Private Pension Plans

1st Half/2006	1st Half/2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(653)	(1,277)	95.6	(461)	(816)	77.0

Variations in technical provisions are directly related to production, combined with benefits and redemptions. The variations in the period are due to the higher recording of provisions for the VGBL R\$498 and PGBL/Traditional

Variations in technical provisions are directly related to production, combined with benefits and redemptions. The variations in the quarter are due to the higher recording of provisions for the VGBL R\$127 and PGBL/Traditional

R\$126 products.

R\$228 products.

c) Variation in Technical Provisions for Certificated Savings Plans

1 st Half/2006	1 st Half/2007	Variation %	1 st Qtr./2007	2 nd Qtr./2007	Variation %
(6)	22		12	10	(16.7)

The variation is mainly due to the reversion of technical provision for contingency.

The variation is mainly due to the lower reversion of the technical provision for contingency in 2Q07.

Retained Claims

1 st Half/2006	1 st Half/2007	Variation %	1 st Qtr./2007	2 nd Qtr./2007	Variation %
(2,985)	(2,931)	(1.8)	(1,428)	(1,503)	5.3

The variation in the period is due to: (i) a decrease in reported claims in the Life R\$83, Auto R\$8 and other lines R\$25; **mitigated:** (ii) by the increase of reported claims of Health R\$46 and Basic lines R\$16.

N.B.: The claims ratio decreased from 78.5% to 76.2% between the halves.

The variation in the quarter is due to: (i) the increase in reported claims in the Health line R\$90, resulting from seasonality, as in the 1st quarters there is a decrease in utilization due to the insured and prospects vacation period; Life segment R\$5; **mitigated:** (ii) by the decrease in reported claims of the Auto R\$2, Basic lines R\$11 and other lines R\$7.

N.B.: Between the quarters, we recorded an increase in the claims ratio from 73.3% to 79.1%.

Certificated Savings Plans Draws and Redemptions

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(573)	(654)	14.1	(301)	(353)	17.3

The redemptions are directly related to revenue. The variation in the period is due to the increase in revenues from certificated savings plans.

The redemptions are directly related to revenue. The variation in the quarter is due to higher revenues from certificated savings plans.

Insurance, Private Pension Plans and Certificated Savings Plans Selling Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(494)	(522)	5.7	(260)	(262)	0.8

The variation in the period is detailed in the charts below:

The variation in the quarter is detailed in the charts below:

a) Insurance Products Selling Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(401)	(414)	3.2	(206)	(208)	1.0

In nominal terms, selling expenses remained practically steady in 1H07 when compared to 1H06. In the sale/received premium ratio, there was a slight growth in the indexes (from 11.2% in 1H06 to 11.5% in 1H07).

In nominal terms, selling expenses remained practically steady in 2Q07 when compared to 1Q07. In the sale/received premiums ratio, there was a slight growth in the indexes (from 11.4% in 1Q07 to 11.7% in 2Q07).

b) Private Pension Plans Selling Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(86)	(100)	16.3	(49)	(51)	4.1

The variation in the period is basically a result of the increase in sales of the VGBL product and, consequently, in selling expenses R\$11. The expenses remained practically stable in 2Q07 when compared to 1Q07.

c) Certificated Savings Plans Selling Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(7)	(8)	14.3	(5)	(3)	(40.0)

The expenses remained practically stable in 1H07 when compared to 1H06. The variation in the quarter derives from the lower selling expenses referring to the Pé Quente products in 2Q07.

Private Pension Plans Benefits and Redemptions Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(1,294)	(1,225)	(5.3)	(713)	(512)	(28.2)

The variation in the period is derived from: (i) the lower volume of redemptions in Traditional Plans R\$167; **mitigated** by: (ii) the higher volume of redemptions in PGBL plans R\$62; and (iii) the higher volume of benefits paid R\$36.

The variation in the quarter is mainly due to the lower volume of redemptions in PGBL plans R\$208.

Personnel Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(2,888)	(3,109)	7.7	(1,460)	(1,649)	12.9

The growth in the period is due to: (i) the increase in salary levels resulting from the 2006 collective bargaining agreement (3.5%); (ii) the higher expenses of PLR R\$68; (iii) the consolidation of Amex Brasil and Fidelity R\$77; **mitigated**: (iv) by the lower expenses with provisions for labor proceedings R\$44.

The variation in 2Q07 basically derives from: (i) the increase in expenses with provisions for labor proceedings R\$73; (ii) the lower concentration of vacation R\$48; and (iii) the higher expenses with PLR R\$10.

Other Administrative Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(2,692)	(3,184)	18.3	(1,540)	(1,644)	6.8

The increase in the period is basically due to: (i) the increase in businesses; (ii) the contractual adjustments; and (iii) the investments in the improvement and optimization of the technological platform (IT).

The variation in the quarter is basically due to increased expenses with: (i) third-party services R\$40; (ii) advertising R\$22; (iii) communication R\$12; and (iv) data processing R\$9.

Tax Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(1,041)	(1,167)	12.1	(585)	(582)	(0.5)

The increase in the period mainly derives from: (i) the PIS/Cofins increased expenses R\$65 in view of the increase of taxable income; (ii) the ISS increased expenses R\$26; and (iii) the higher expenses with CPMF R\$15.

The variation in the quarter is essentially due to: (i) the IPTU decreased expenses R\$16, due to the prepayment with discount in the 1st quarter; **offset:** (ii) by the PIS/Cofins increased expenses R\$10; and (iii) the higher expenses with CPMF R\$3.

Equity in the Earnings of Affiliated Companies

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
35	16	(54.3)	12	4	(66.7)

The variation in the period is substantially due to the lower results in affiliated companies in 1H07.

The variation in the quarter mainly derives from lower results obtained in the affiliated companies in 2Q07.

Other Operating Income

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
571	636	11.4	337	299	(11.3)

The increase in the period is due to: (i) higher reversions for operating provisions R\$141; (ii) higher result in the sale of goods R\$19; **mitigated** by: (iii) lower financial revenues R\$54; and (iv) lower revenues from the recovery of charges and expenses R\$41.

The variation in the quarter is mainly due to: (i) lower financial revenues R\$26; (ii) lower revenues from the sale of goods R\$21; (iii) lower recoveries of charges and expenses R\$2; **mitigated**: (iv) by lower reversions for operating provision R\$15.

Other Operating Expenses

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(2,014)	(2,244)	11.4	(1,142)	(1,102)	(3.5)

The increase in the period is mostly due to: (i) the higher financial expenses R\$277; (ii) the increase in sundry losses R\$146 (R\$ 58 of which from consolidation of Amex Brasil); (iii) the higher costs of services rendered R\$51; **mitigated** by: (iv) the reduction with goodwill amortization expenses R\$242; and (v) the lower operating provision recording R\$138.

The variation in the quarter basically derives from: (i) the lower expenses with operating provisions R\$57; (ii) the lower costs of services rendered R\$20; **mitigated**: (iii) by the higher sundry losses R\$27.

Operating Income

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
4,328	4,692	8.4	2,281	2,411	5.7

The increase in the period derives from: (i) the increased fee and commission income R\$1,037; (ii) the higher net interest income R\$798; (iii) the increase in the result of insurance, private pension plans and certificated savings plans operations R\$2; **offset** by: (iv) the increased personnel and administrative expenses R\$713; (v) the higher allowance for doubtful accounts expenses R\$450; (vi) the increased operating expenses (net of income) R\$165; (vii) the higher tax expenses R\$126; and (viii) the decrease in the equity in the earnings of affiliated companies R\$19.

N.B.: For a more detailed analysis of the variation of each item, we recommend the reading of each specific item.

The variation in the quarter derives from: (i) the higher net interest income R\$685; (ii) the increased fee and commission income R\$50; (iii) the lower tax expenses R\$3; (iv) the lower operating expenses (net of income) R\$2; **mitigated** by: (v) the higher personnel expenses R\$189; (vi) the higher expenses with allowance for doubtful accounts R\$184; (vii) the reduction in contribution margin of insurance, private pension plans and certificated savings plans operations R\$125; (viii) the higher administrative expenses R\$104; (ix) the decrease in the equity in the earnings of affiliated companies R\$8.

N.B.: For a more detailed analysis of the variation of each item, we recommend the reading of each specific item.

Non-Operating Income

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(20)	2		(3)	5	

The variation in the period is mainly due to higher income recorded in the sale of receivables, assets and investments.

The variation in the quarter is basically due to lower recording of other non-operating expenses.

Taxes on Income

1st Half/2006	1st Half /2007	Variation %	1st Qtr./2007	2nd Qtr./2007	Variation %
(1,171)	(1,183)	1.0	(570)	(613)	7.5

The variation on taxes on income expenses in the period reflects tax charge over earnings before taxes, adjusted of additions and exclusions, according to Note 34.

The variation on taxes on income expenses in the quarter reflects tax charge over earnings before taxes, adjusted of additions and exclusions, according to Note 34.

Equity Analysis R\$ million**Funds Available**

June			2007		
2006	2007	Variation %	March	June	Variation %
3,161	4,916	55.5	4,244	4,916	15.8

The variation in the period is due to: (i) the increased volume of funds available in domestic currency R\$1,882; **offset:** (ii) by the reduction in the volume in foreign currency R\$127.

The variation in the quarter is basically due to: (i) the increased volume in domestic currency R\$590; and (ii) by the increased volume of funds available in foreign currency R\$82.

Interbank Investments

June			2007		
2006	2007	Variation %	March	June	Variation %
27,569	27,394	(0.6)	31,601	27,394	(13.3)

The reduction in the period substantially derives from: (i) the reduction in own portfolio position in the amount of R\$5,475; (ii) the reduction in investments in interbank deposits R\$992; partially **offset:** (iii) by the increase in the own portfolio position in the amount of R\$6,292.

The variation in the quarter is basically due to: (i) the decrease in unrestricted bonds R\$ 1,800; (ii) the reduction in investments in interbank deposits R\$1,133; (iii) the reduction in the own portfolio position in the amount of R\$918; and (iv) the decrease in third-party portfolio position in the amount of R\$356.

Securities (TVM) and Derivative Financial Instruments

June			2007		
2006	2007	Variation %	March	June	Variation %
70,382	103,577	47.2	97,534	103,577	6.2

The increase in the period is substantially due to: (i) the additional funds derived from the increase in funding, particularly technical provisions for insurance, private pension plans and certificated savings plans, as well as the issuance of subordinated debt of R\$1,519; (ii) the variation in average interest rates, observing the 13.2% CDI variation in the period; partially **mitigated** by: (iii) the exchange loss variation of 11.0% in the period from June/06 to June/07, impacting on foreign currency indexed and/or denominated securities, which comprise 6.3% of the portfolio; and (iv) the redemption/maturity of securities. The portfolio profile (excluded from purchase and sale commitments), based on Management's intent, is distributed as follows: Trading Securities 64.6%;

Securities Available for Sale 22.9%; and Securities Held to Maturity 12.5%. In June/07, 53.3% of the total portfolio (excluded from purchase and sale commitments) was represented by Government Bonds, 18.5% by Private Securities and 28.2% by PGBL and VGBL fund quotas.

The variation in the quarter partially reflects: (i) the additional funds arising from increased funding, especially the technical provisions for insurance, private pension plans and certificated savings plans, as well as the issuance of subordinated debts of R\$996; (ii) the variation in average interest rates, observing the 2.9% CDI variation in 2Q07; which was partially **mitigated** by: (iii) the redemption/maturity of securities; and (iv) exchange loss variation of 6.1% in 2Q07, impacting on foreign currency indexed and/or denominated securities, which comprise 6.3% of the portfolio.

Interbank and Interdepartmental Accounts

June			2007		
2006	2007	Variation %	March	June	Variation %
18,212	20,257	11.2	19,640	20,257	3.1

The variation in the period is mainly due to: (i) the increase in volume of compulsory demand deposits of R\$1,285, due to an expansion in average balance of these deposits, basis for payment in respective periods, from R\$16,836 in June/2006 to R\$22,047 in June/2007; (ii) the increase in the volume of the compulsory of savings accounts deposits in the amount of R\$658 referring to the increase in the balance of these deposits by 14.4% in the period; and (iii) the increase in the additional compulsory on deposits R\$386; offset: (iv) by the decrease in the item "Check Clearing Services and Related Services" R\$276, in view of the accounts balance represented by checks and other documents at the end of the first half of 2007.

The variation in the quarter is basically due to: (i) the increase in the volume of compulsory demand deposits R\$526; (ii) the increase in the volume of compulsory of savings accounts deposits in the amount of R\$140; (iii) the increase in the additionally compulsory on deposits in the amount of R\$67; offset by: (iii) the decrease in the item "Checks Clearing and Relationship with Correspondents Services" in the amount of R\$187, due to the balancing of accounts, represented by checks and other documents, at the end of the quarter.

Loan and Leasing Operations

June			2007		
2006	2007	Variation %	March	June	Variation %
88,643	108,191	22.1	101,473	108,191	6.6

The increase in the period is basically due to: (i) the individual client portfolio, with a 19.0% growth, in particular in the Auto products, up by 20.3% and Personal Loan, up by 10.4%. The growth of 24.3% recorded in the corporate portfolio is the result of the 25.6% increase in micro, small and medium-sized companies portfolio, coupled with a 23.0% increase in the portfolio of large companies (Corporate). In the corporate portfolio we point out the products Operations Abroad, up by 71.0% BNDES Onlending up by 33.7% and Working Capital with an increase of 30.1%, as a result of the maintenance of the economic activity level; partially offset by: (ii) exchange loss variation of 11.0% from June/06 to June/07, impacting on foreign currency indexed and/or denominated contracts, comprising 10.1% of the total portfolio. In June/07, the portfolio was distributed at 58.7% for corporate (25.1% of which was directed to industry, public and private sectors, 14.9% to commerce, 16.9% to services, 1.3% to agribusiness and 0.5% to financial intermediation) and 41.3% for individuals. In terms of concentration, the 100 largest borrowers accounted for 22.7% of the portfolio in June/06 and for 21.4% in June/07. The Loan Portfolio under Normal Course reached the amount of R\$99,216 in June/07. Out of this total, 32.2% is falling due within up to 90 days.

N.B.1: this item includes advances on foreign exchange contracts and other receivables and does not include the allowance for doubtful accounts, as described in Note 10.

N.B.2: for a better understanding of these operations, see item loan operations, on page 78.

The variation in the quarter is mainly due to: (i) the 6.1% growth recorded in the corporate portfolio resulting from the 9.3% increase in the portfolio of micro, small and medium-sized companies and the increase of 3.0% in the portfolio of large companies (Corporate). It is worth pointing out the increase of 6.2% in Working Capital, of 7.3% in Operations Abroad and 13.3% in BNDES Onlending, as a result of the maintenance of the economic activity level. The 7.4% growth in the individual client portfolio, especially in the Auto products, with a 8.0% increase and Personal Loan, with a 5.8% increase, is a result of a stable economic scenario; offset: (ii) by the exchange loss variation of 6.1% in 2Q07, impacting foreign currency indexed and/or denominated contracts, which account for 10.1% of total portfolio. In terms of concentration, the 100 largest borrowers accounted for 22.7% of the portfolio in March/07 and 21.4% in June/07.

N.B.1: this item includes advances on exchange contracts and other receivables and does not take into account the allowance for doubtful accounts, as described in Note 10.

N.B.2: for a better understanding of these operations, see item loan operations, on page 78.

Allowance for Doubtful Accounts (PDD)

June			2007		
2006	2007	Variation %	March	June	Variation %
(5,833)	(7,033)	20.6	(6,775)	(7,033)	3.8

The variation in the PDD balance for the period was mostly due to a 22.1% increase in the volume of loan operations and in the improvement of loan evaluation tools. PDD ratio in relation to the loan portfolio increased from 6.6% in June/06 to 6.5% in June/07. Provision coverage ratios in relation to the loan portfolio under abnormal course, respectively, rated between E and H, decreased from 157.3% in June/06 to 148.4% in June/07 and, between D and H, reduced from 129.1% in June/06 to 125.6% in June/07. However, the preventive maintenance of high provision levels made all performance indicators remain in adequate levels. In the twelve-month period, PDD in the amount of R\$4,862 was recorded, R\$9 was incorporated arising from acquired institutions and R\$3,671 was written off. The exceeding PDD volume in relation to the minimum required increased from R\$1,080 in June/06 to R\$1,110 in June/07.

The increase in the PDD balance in the quarter basically reflects a 6.6% growth of the loan portfolio in the quarter, particularly, the individual client portfolio with a 7.4% growth. The PDD ratio in relation to the loan portfolio increased from 6.7% in March/07 to 6.5% in June/07, and the provision coverage ratios in relation to the loan portfolio under abnormal course, respectively, rated from E to H, increased from 148.3% in March/07 to 148.4% in June/07, and those rated from D to H increased from 123.3% in March/07 to 125.6% in June/07. In the quarter, PDD in the amount of R\$1,344 was recorded, R\$9 arose from acquired institutions and R\$1,095 was written off. The exceeding PDD volume in relation to the minimum required remained stable when compared to the balance of March/07.

Other Receivables and Assets

June			2007		
2006	2007	Variation %	March	June	Variation %
30,789	35,895	16.6	36,521	35,895	(1.7)

The variation in the period is mainly due to: (i) the increase of foreign exchange operations R\$1,924; (ii) the increase in tax credit balances R\$1,822, basically as a result of temporary provisions; and (iii) the increase in the balance of credit card operations R\$897, not included in loan operations.

N.B.: balances are deducted (net of corresponding PDD) of R\$365 in June/06 and of R\$360 in June/07, allocated to the Loan and Leasing Operations and Allowance for Doubtful Accounts items.

The variation in the quarter is basically due to: (i) the reduction in foreign exchange operations R\$1,573; **offset** by: (ii) the increase in the balance of credit card operations R\$391, not included in loan operations; and (iii) the increase in tax credit balances R\$380.

N.B.: balances are deducted (net of corresponding PDD) of R\$411 in March/07 and R\$360 in June/07, allocated to the Loan and Leasing Operations and Allowance for Doubtful Accounts items.

Permanent Assets

June			2007		
2006	2007	Variation %	March	June	Variation %
5,779	3,498	(39.5)	3,557	3,498	(1.7)

The variation in the period is mostly due to: (i) the full goodwill amortization; (ii) the transfer of Banco Espírito Santo (BES) investment to current assets; **mitigated** by: (iii) the increase in property, plant and equipment in use and leased assets and deferred charges.

The variation in the quarter is mostly due to the increase in property, plant and equipment and leased assets.

Deposits

June			2007		
2006	2007	Variation %	March	June	Variation %
78,356	82,601	5.4	84,162	82,601	(1.9)

The increase of the period is detailed in the charts below:

The variation in the quarter is detailed in the charts below:

a) Demand Deposits

June			2007		
2006	2007	Variation %	March	June	Variation %
16,646	21,019	26.3	20,115	21,019	4.5

The evolution of R\$4,373 is composed of: individuals R\$1,334 and corporate clients R\$3,039.

The variation in the quarter is due to the increase of funds stemming from individuals R\$356 and corporate clients R\$548.

b) Savings Deposits

June			2007		
2006	2007	Variation %	March	June	Variation %
24,835	28,406	14.4	27,609	28,406	2.9

The increase in the period is mainly due to: (i) the deposits made in the period; and (ii) the deposit remuneration (TR + 0.5% p.m.) reaching 8.2% in the last twelve months.

The increase in the quarter is basically due to: (i) the deposits made in the quarter; and (ii) by the deposit remuneration (TR + 0.5% p.m.), reaching 1.9% in the quarter.

c) Time Deposits

June			2007		
2006	2007	Variation %	March	June	Variation %
36,435	32,360	(11.2)	35,687	32,360	(9.3)

The decrease in the period is basically due to the migration of funds to other forms of investment by institutional investors, mainly by means of issuance of debentures and subordinated debts.

The decrease in the quarter is substantially due to the migration of funds to other forms of investment by institutional investors.

d) Interbank Deposits and Other Deposits

June			2007		
2006	2007	Variation %	March	June	Variation %
440	816	85.5	751	816	8.7

The variation in the period results from: (i) a hike in the volume of the Interbank Deposits item, at the amount of R\$68; and (ii) the increase in the Other Deposits Investment Account item R\$308.

The variation in the quarter is basically due to the increase in the volume of Interbank Deposits item, at the amount of R\$73.

Federal Funds Purchased and Securities Sold under Agreements to Repurchase

June			2007		
2006	2007	Variation %	March	June	Variation %
29,258	53,756	83.7	50,901	53,756	5.6

The variation of balance in the period derives from: (i) an increase in funding volume, using government and private securities of the own portfolio issued R\$18,215; (ii) the increase of third-party portfolio R\$4,808; and (iii) the increase in the unrestricted portfolio R\$1,475.

N.B.: include investment funds applied in purchase and sale commitments with Bradesco, whose owners are subsidiaries included in the consolidated financial statements, at the amount of R\$5,175 in June/06 and R\$11,577 in June/07.

The variation of balance in the quarter derives from: (i) an increase in funding volume, using the own portfolio R\$3,002; and (ii) the increase in the unrestricted portfolio R\$580; **offset:** (iii) by the reduction of the third-party portfolio R\$727.

N.B.: include investment funds applied in purchase and sale commitments with Bradesco, whose owners are subsidiaries included in the consolidated financial statements, in the amount of R\$10,571 in March/07 and R\$11,577 in June/07.

Funds from Issuance of Securities

June			2007		
2006	2007	Variation %	March	June	Variation %
6,201	6,645	7.2	5,879	6,645	13.0

The variation in the period basically derives from: (i) the increased balance of securities issued abroad, mainly in view of funding of securitization securities of future flow MT100; and (ii) the increase in the funding of MTN Program Issues, as per Note 16c.

In the quarter, the variation mostly derives from the increase in the balance of securities issued abroad, mainly in view of funding of securitization securities of future flow MT 100.

Interbank and Interdepartmental Accounts

June			2007		
2006	2007	Variation %	March	June	Variation %
1,963	1,926	(1.9)	1,950	1,926	(1.2)

The variation in the period is mostly due to lower volume of foreign currency payment orders.

The variation in the quarter is mostly due to lower volume of foreign currency payment orders.

Borrowings and Onlendings

June			2007		
2006	2007	Variation %	March	June	Variation %
15,485	19,165	23.8	18,634	19,165	2.8

The variation in the period is basically due to: (i) the increase in the volume of funds from domestic and foreign borrowings and onlendings, mainly by means of BNDES and Finame; which was **offset**: (ii) by exchange loss variation of 11.0% from June/06 to June/07, which impacted on the foreign currency indexed and/or denominated borrowings and onlendings liabilities, the balances of which were R\$5,807 in June/06 and R\$6,917 in June/07.

The variation in the quarter mainly results from: (i) the increase in the volume of funds from domestic borrowings and onlendings mainly by means of BNDES and Finame; which was **offset**: (ii) by the exchange loss variation of 6.1% in 2Q07, which impacted on the foreign currency indexed and/or denominated borrowings and onlendings liabilities, the balances of which were R\$7,311 in Mach/07 and R\$6,917 in June/07.

Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans

June			2007		
2006	2007	Variation %	March	June	Variation %
43,947	52,900	20.4	50,653	52,900	4.4

The increase in the period is basically due to: (i) the growth in sales of supplementary private pension plans and insurance policies; and (ii) the restatement and interest on technical provisions. The largest variations recorded were: (a) in the private pension segment, VGBL plans at R\$5,668; PGBL plans at R\$1,406 and Traditional plans at R\$236; and (b) in the insurance segment, in the Health line R\$949, partially due to the recording of additional provisions relative to the necessary amount of readjustment of the Health insurance premiums, as well as in the provisions of the Life segment R\$510.

The increase in the quarter is mainly due to: (i) the monetary restatement and interest on technical provisions; and (ii) the increase in the sales of supplementary private pension plans and insurance policies. The largest variations recorded were: (a) in the private pension segment, in VGBL plans at R\$1,296; PGBL plans at R\$329 and Traditional plans at R\$157; and (b) in the insurance segment, in Health segment R\$242, as well as in the provisions for the Life segment R\$193.

Other Liabilities, Derivative Financial Instruments and Future Taxable Income

June			2007		
2006	2007	Variation %	March	June	Variation %
41,976	52,125	24.2	49,526	52,125	5.2

The variation in the period mostly derives from: (i) the issuance of Subordinated Debt R\$1,519; (ii) the increase in the balance of items Tax and Social Security R\$2,388; (iii) the increase in Credit Cards operations R\$1,879; (iv) the increase in the Derivative Financial Instruments R\$1,727; and (v) the increase in the Exchange Portfolio R\$2,089.

The variation in the quarter is mainly due to the increase in the items: (i) Tax and Social Security R\$1,229; (ii) Subordinated Debt R\$996. **N.B.:** excludes advances on foreign exchange contracts of R\$5,851 and R\$6,128, allocated to the specific item in loan operations in March/07 and June/07, respectively.

N.B.: excludes advances on foreign exchange contracts of R\$5,767 and R\$6,128, allocated to the specific item in loan operations in June/06 and June /07, respectively.

Minority Interest in Subsidiaries

	June			2007		
2006	2007	Variation %	March	June	Variation %	
55	63	14.5	61	63	3.3	

The variation in the period is mainly due to the increase in the number of the minority stockholders of Indiana Seguros.

In the quarter, the Minority Interest in Subsidiaries item remained practically steady.

Stockholders Equity

	June			2007		
2006	2007	Variation %	March	June	Variation %	
21,461	27,515	28.2	26,029	27,515	5.7	

The variation in the period is due to: (i) the appropriation of reported net income R\$5,929; (ii) the increase in the reserve for securities and derivatives mark-to-market adjustment R\$1,353; (iii) capital increase R\$1,200; (iv) premium in stock subscription R\$18; which was partially **offset** by: (v) interest on own capital/dividends paid and provisioned R\$2,409; and (vi) treasury stock buyback R\$37.

The variation in the quarter is due to: (i) the appropriation of reported net income R\$2,302; which was **offset** by: (ii) interest on own capital and dividends paid and provisioned R\$796; (iii) the decrease in reserve for securities and derivatives mark-to-market adjustment R\$11; and (iv) treasury stock buyback R\$9.

Profitability

Bradesco's Adjusted Net Income reached R\$3,506 million in 1H07, against R\$3,132 million reached in the same period of 2006, which corresponds to an 11.9% increase. Stockholders' Equity amounted to R\$27,515 million on June 30, 2007, with a growth of 28.2% compared to the balance as of June 30, 2006. Accordingly, the annualized Return on Average Stockholders' Equity (ROAE) reached 28.8%. Total Assets added up to R\$290,568 million at the end of June 30, 2007, growing 24.7% when compared to the balance of June 30, 2006. The annualized Return on Average Assets (ROAA) in 1H07 was 2.5%. Earnings per stock reached R\$1.75.

In 2Q07, the income was R\$1,801 million, representing an increase of R\$96 million or 5.6% when compared to the Net Income in 1Q07. The annualized Return on Average Stockholders' Equity (ROAE) reached 29.5% in the quarter and the Return on Average Assets (ROAA), in 2Q07, was 2.5%. Earnings per stock reached R\$0.90.

2Q07 showed an increase in the income composing the Net Interest Income which, composed mainly by higher non-interest results, reached the amount of R\$874 million, a R\$463 million increase, compared to 1Q07, deriving, basically, from higher gains of treasury and TVM operations. In addition, the result with interest reached R\$4,830 million, a R\$222 million increase (R\$283 million related to business volume increase and R\$61 million related to spread reduction). That increase is mainly due to the growth in business volume, particularly the 6.6% growth in the volume of loan operations for individual and corporate clients, which was offset by the fall in the interest rates, which had a negative impact on the result of several of Bradesco's assets and liabilities which generate interest.

The Operating Income from Insurance, Private Pension Plans and Certificated Savings Plans showed in 2Q07 a decrease of R\$125 million, a reflection of the higher constitution of technical provision in the PGBL/Traditional and VGBL products.

In 2Q07, the allowance for doubtful accounts expenses was R\$1,344 million, an increase of R\$184 million when compared to the previous quarter. This variation is due to the growth of our loan portfolio and mainly to the growth in the operations with individual clients, which requires a higher provision volume due to its characteristic.

The Operating Efficiency Ratio, in the 12-month period ended on June 30, 2007 was 42.0%, an improvement of 0.1 percentage point when compared to the ratio of the 12-month period ended on March 30, 2007, which was 42.1%, and 1.2 percentage point when compared to the period ended on June 30, 2006, principally as a result of the combination of strict expense control with permanent efforts for increase in revenue.

The Coverage Ratio in the last 12 months [(fee and commission income)/(personnel expenses + administrative expenses)] improved 1.4 percentage point, increasing from 78.0% in March 2007 to 79.4% in June 2007 and 7.0 percentage points when compared to the 72.4% of June 2006.

Results by Business Segment

Income Breakdown in percentage

N.B: The Balance Sheet and the Statement of Income by Business Segment can be found in Note 5.

Variation in the Main Statement of Income Items

1st Half of 2007 compared to 1st Half of 2006 R\$ million

- (1) Composition: Premiums and Net Contributions of variations in Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans deducted from Claims, Redemptions, Benefits and Commissions, not including Financial Income on Insurance activities and price-level restatement and interest on Technical Provisions, which are included in the Net Interest Income.
- (2) Composition: Tax Expenses, Equity in the Earnings of Affiliated Companies, Other Operating Income, Other Operating Expenses, Non-Operating Income and Minority Interest in Subsidiaries.

2nd Quarter of 2007 compared to the 1st Quarter of 2007 R\$ million

- (1) Composition: Premiums and Net Contributions of variations in Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans deducted from Claims, Redemptions, Benefits and Commissions, not including Financial Income on Insurance activities and price-level restatement and interest on Technical Provisions, which are included in the Net Interest Income.
- (2) Composition: Tax Expenses, Equity in the Earnings of Affiliated Companies, Other Operating Income, Other Operating Expenses, Non-Operating Income and Minority Interest in Subsidiaries.

Variation in Items Composing the Net Interest Income with Exchange Adjustment

1st Half of 2007 compared to the 1st Half of 2006 R\$ million

- (1) Includes Revenues from Loan Operations + Income on Leasing Operations + Income on Foreign Exchange Transactions (Note 11a).
- (2) Includes Market Funding Expenses, excluding Expenses from Purchase and Sale Commitments + Expenses from Borrowings and Onlendings + Income on Compulsory Deposits + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (3) Includes Result of Operations with Securities, less expenses with Purchase and Sale Commitments + Financial Income on Insurance, Private Pension Plans and Certificated Savings Plans + Income on Derivative Financial Instruments + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (4) This refers to price-level restatement and interest of Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans.

2nd Quarter of 2007 compared to the 1st Quarter of 2007 R\$ million (*)

- (1) Includes Revenues from Loan Operations + Income on Leasing Operations + Income on Foreign Exchange Transactions (Note 11a).
- (2) Includes Market Funding Expenses, excluding Expenses from Purchase and Sale Commitments + Expenses from Borrowings and Onlendings + Income on Compulsory Deposits + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (3) Includes Result of Operations with Securities, less expenses with Purchase and Sale Commitments + Financial Income on Insurance, Private Pension Plans and Certificated Savings Plans + Income on Derivative Financial Instruments + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (4) This refers to price-level restatement and interest of Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans.

Financial Market Indicators**Analysis of Net Interest Income****a) Net Interest Income Adjustment**

We show separately the hedge fiscal effect referring to investments abroad in the compared periods, which in terms of Net Income, simply annuls the fiscal effect (IR/CS and PIS/Cofins) of this hedge strategy.

The fiscal effect is caused for the foreign exchange variation of investments abroad is not deductible when there is loss and not taxable when there is gain, while the derivatives result is taxable when it generates gain and deductible when it generates loss.

Thus, the gross hedge result is reflected in the Net Interest Income, in the Results of Derivative Financial Instruments account, and in the Tax Expenses and Taxes on Income accounts, the respective taxes, as shown below:

Hedge Fiscal Effect of Investments Abroad R\$ million

Effect in the Accounts	Effect in the 1 st Half of 2006				Effect in the 1 st Half of 2007			
	Net Interest Income	Tax Expenses	IR/CS	Net Income	Net Interest Income	Tax Expenses	IR/CS	Net Income
Partial Result of the Hedge of Investments Abroad	796	(37)	(258)	501	1,382	(64)	(448)	870
Foreign Exchange Variation of Investments Abroad	(501)			(501)	(870)			(870)
Total	295	(37)	(258)		512	(64)	(448)	

Effect in the Accounts	Effect in the 1 st Quarter of 2007				Effect in the 2 nd Quarter of 2007			
	Net Interest Income	Tax Expenses	IR/CS	Net Income	Net Interest Income	Tax Expenses	IR/CS	Net Income

% Adjusted over Average Assets	9.3	7.8		7.5	8.2	

b) Comments on the Adjusted Net Interest Income Variation

In 1H07, the adjusted net interest income reached R\$10,723 million, an 8.0% increase on the R\$9,925 million recorded in 1H06. The result in 2Q07 was R\$5,704 million, a 13.6% increase compared to the R\$5,019 million in 1Q07. The analytical opening of the net interest income result among interest and non-interest results is shown below:

Adjusted Net Interest Income Breakdown

	R\$ million					
	1st Half		Variation	2007		Variation
	2006	2007		1st Qtr.	2nd Qtr.	
Interests due to volume			1,848			283
Interests due to spreads			(1,025)			(61)
(=) Net Interest Income Interest	8,615	9,438	823	4,608	4,830	222
(+) Net Interest Income Non-Interest	1,310	1,285	(25)	411	874	463
(=) Adjusted Net Interest Income	9,925	10,723	798	5,019	5,704	685

The interest net interest income in 1H07 amounted to R\$9,438 million against R\$8,615 million recorded in the same period of the previous year, accounting for an increase of 9.6% or R\$823 million. This variation was essentially due to the increase in the volume of operations, which positively affected the interest net interest income in R\$1,848 million, offsetting the drop of R\$1,025 million resulting from the spreads shrinkage occurred between the periods compared.

Comparing 2Q07 and 1Q07, the interest net interest income amounted to R\$4,830 million, an increase of R\$222 million. This variation was positively impacted in R\$283 million as a result of the increase in volumes. The drop in spreads, however, had an adverse effect on the net interest income in R\$61 million.

The evolution of loan operations significantly contributed to the increase of the financial intermediation result, as it grew by 6.6% only this quarter and 22.1% in the last 12 months, amounting to R\$108.2 billion at the end of 2Q07.

The loan operations portfolios, mainly responsible for the increase of the net interest income, were the consumer financing operations portfolios.

We point out that the partnerships entered into with retail networks for the management of the Private Label credit cards also contributed to the increase of loan operations. The management of Private Label credit cards comprises Bradesco's products and services trading and the acquisition of credit card operations of Amex Brasil, which impacted mainly on the comparison between 1H07 and 1H06, since the merger of this company was in June 2006.

Despite the exchange loss variation of 6.1% in 2Q07 and of 9.9% in 1H07, the balance of loan operations indexed and/or denominated borrowings and onlendings (excluding ACCS) increased by 20.0% in dollars and 12.7% in reais in the quarter. In the last 12 months, the increase was 70.5% and 51.7%, respectively, mainly due to the increased volume of operations carried out in Branches and Subsidiaries abroad.

Another highlight was the growth of checking accounts base, reaching the number of 303 thousand new checking accounts in 2Q07, 275 thousand of which for individual clients and 28 thousand for corporate clients. This growth positively impacted on, among others, the expansion of the volume of demand and savings deposits which, during 2Q07, increased 4.5% and 2.9%, respectively. The comparison between the last 12 months shows a higher increase of 26.3% in demand and 14.4% in savings deposits. It is worth pointing out that this growth was essential to mitigate the drop of spread of the funding operations due to the decrease in the interest rates (Selic).

Below, we can observe the interest net interest income comparing the quarterly history since 2005:

The annualized interest net interest income rate amounted to 7.0% in 2Q07, the same as the previous quarter. The operations with individual clients had a growth of 7.4% in the last quarter, higher than the 6.1% growth in corporate clients operations. It is worth pointing out that the spreads in operations with individual clients are higher than those with corporate clients. They require, however, higher allowance for doubtful accounts, due to the higher delinquency level.

The result of the adjusted net interest income coming from non-interest results in 2Q07 showed an increase of R\$463 million when compared to 1Q07. This is due to higher gains with securities and treasury. In 1H07, the net interest income from non-interest results was practically the same as the previous year.

Fee and Commission Income increased by 25.1 % in the 1st half of 2007 totaling R\$5,168 million, which represents a R\$1,037 million growth when compared to the same period of the previous year.

The main items that influenced the expansion of Fee and Commission Income between the periods were:

the growth of 61.9%, represented by the increase of R\$435 million in the item *Income from Cards*, related to the increase of 20.4% of the cards base, from 52.5 million to 63.2 million, influenced by the consolidation of Amex Brasil;

the strategy of client segmentation (Private, Prime, Corporate, Middle Market and Retail), jointly with the tariff realignment and client base growth, which boosted the item *Checking Accounts*, up by R\$152 million;

the increase in the volume of Loan Operations, especially to individuals, with highlights to the products *Personal Loan* and *Vehicles*, which was the major factor for the increase in the item *Revenues from Loan Operations*, with a R\$170 million improvement; and

the volume growth of 17.2% in assets under management, from R\$137.6 billion on June 30, 2006 to R\$161.3 billion on June 30, 2007, which was the main reason for the growth in the item *Assets under Management*, which increased by R\$70 million.

When compared to the previous quarter, Fee and Commission Income showed an expansion of 2.0%, with a R\$50 million growth, as a result of the increased volume of businesses in 2Q07, pointing out increases in the items *Loan Operations* R\$27 million and *Income from Cards* R\$ 24 million.

Total Administrative and Personnel Expenses	2,736	2,844	5,580	3,000	3,293	6,293

In 1H07, Administrative and Personnel Expenses showed a R\$713 million increase when compared to 1H06, reaching R\$6,293 million against R\$5,580 million in the same period of 2006. The nominal variation of Administrative Expenses between the periods showed a R\$492 million increase, reaching R\$3,184 million, mainly due to: (i) the increase in businesses; (ii) the contractual adjustments in the period; and (iii) the investments in the improvement and optimization of the technological platform.

Personnel Expenses increased R\$221 million when compared to the same period of 2006, reaching R\$3,109 million, mainly: (i) the increase in the salary levels, resulting from the Collective Bargaining Agreement of 2006 (3.5%); (ii) higher PLR expenses R\$68; (iii) the consolidation of Amex Brasil and Fidelity R\$77; **mitigated**: (iv) by the lower

expenses with provisions for labor proceedings R\$44.

When compared to the previous quarter, Administrative and Personnel Expenses increased R\$293 million in 2Q07, a hike of 9.8%, increasing from R\$3,000 million in 1Q07 to R\$3,293 million in 2Q07.

Administrative Expenses increased by R\$104 million when compared to the previous quarter, basically due to the increase in expenses with: (i) outsourced services R\$40 million; (ii) advertising R\$22 million; (iii) communications R\$12 million; and (iv) data processing R\$9 million.

Personnel Expenses in 2Q07 increased R\$189 million basically due to: (i) the increase in provision for labor proceedings of R\$73 million; (ii) the increase in the expenses with PLR of R\$10 million; and (iii) higher expenses in this quarter related to higher concentration of vacation in 1Q07.

Operating Efficiency Ratio in percentage

The Operating Efficiency Ratio (year-to-date) up to June 2007 was 42.0%, an increase of 0.1 percentage point when compared to the 12-month period ended in March 2007. It is also worth mentioning the higher net interest income in R\$754 million, basically stemming from the interest component, stimulated by an increment in business volume, with highlights to an increase in the volume of loan operations for individuals, mainly focused on consumer financing, the profitability of which is higher if compared to the corporate loans, and to an increased fee and commission income, in R\$518 million, as a result of the increase in the average volume of transactions, the fee realignment and the segmentation process.

The Coverage Ratio accumulated in the last 12 months (fee and commission income)/ (personnel expenses + administrative expenses) improved 1.4 percentage point, increasing from 78.0% in March 2007 to 79.4% in June 2007, and 7.0 percentage points when compared to the 72.4% of June 2006.

Classification of Securities by Segment in percentage

(*) Insurance/Certificated Savings Plans

(**) Other Activities

N.B.:

The composition of Securities Portfolio consolidated by issuer, maturity, business segment and category can be found in Note 8.

Loan Operations

The consolidated balance of loan operations (according to the concept defined by Bacen which does not include debentures, guarantees, loans to be granted, credit letters, interbank deposit certificates etc.) reached at the end of 2Q07 a total of R\$108.2 billion, representing a 6.6% increase in the quarter and a 22.1% growth in the last twelve months.

There was a higher growth in operations destined to individuals compared to the previous quarter, while the growth for corporate entities is still higher in the last twelve months.

Loan Operations Total Portfolio

The loans and onlendings balance indexed and/or denominated in foreign currency (excluding ACCs) reached the amount of U\$5.7 billion in June 2007, showing a growth of 20.0% in dollars in the quarter and of 12.7% in Reais, recording in the quarter an increase in its share in the total loan portfolio. In the last twelve months, the growth was 68.9% and 50.3%, respectively, mainly due to the higher volume of operations carried out in branches and subsidiaries abroad.

Loan Operations By Purpose

The loan portfolio for individuals showed an upturn when compared to the previous quarter, with evolution of 7.4% in the quarter, accruing 19.0% in the last twelve months. The main products responsible for the portfolio growth in the quarter were the vehicles financing and personal loan.

Loan Operations Individual

In the graph below, for analysis purposes of the portfolio for individuals, the types related to the consumer financing were considered (vehicles, personal loan, leasing, assets financing and credit card in the latter, the amounts related to cash and credit purchases store owners and which are not in the total loan operations are included). The balance reached the amount of R\$40.1 billion in June 2007, representing an 8.3% growth in the quarter and 24.0% in the last twelve months. We point out the vehicle financing and the payroll-deductible loans that are linked to payroll charges types, for its guarantees and characteristics, provided the portfolio with an adequate loan risk level. Thus, these two portfolios represented, at the end of 2Q07, 60.5% of the total consumer financing balance.

Loan Operations Consumer Financing

Loan Operations

The performance of loans granted to companies also presented an upturn in the quarter and in the last twelve months, with an evolution of 6.1% and 24.3%, respectively. Such behavior in the quarter was influenced by the good performance of the BNDES onlendings portfolios and operations carried out in the branches and subsidiaries abroad.

Loan Operations Corporate

The graph below shows the growth of the main five types of products destined to corporate entities services, which represented 64.1% of the total loan portfolio in June.

Loan Operations Main Types Corporate

It is worth pointing out the increase in the relative share in the micro, small and medium-sized companies loan portfolio in the quarter and in the last twelve months, which has increased over the average of the portfolio as a whole.

Loan Operations Client Characteristics

	R\$ billion							
	2006		2007		Variation (%)			
	June	%	March	%	June	%	Quarterly	Last twelve months

Total	88.6	100.0	101.5	100.0	108.2	100.0	6.6	22.1

Loan Operations By Type R\$ million

The evolution of balance and share in the type of loans and discounted securities in 2Q07 and in the last twelve months is once more worthy of mentioning due to its performance, which is higher than the growth of the portfolio. It is also worth pointing out the growth in the balance of operations with Sureties and Guarantees granted, mainly carried out with clients of the Corporate segment.

We present below the total loan operations, including Sureties and Guarantees and credit card (cash and credit purchases store owners), which presented a growth of 6.9% in 2Q07 and 22.9% in the last twelve months.

R\$ million

(2) According to concept defined by the Brazilian Central Bank.
(3) Cash and credit purchases store owners.

Loan Operations Delinquency

In June 2007, the delinquency ratio in the consolidated portfolio remained steady when compared to the previous quarter.

Loan Operations Delinquency over 90 days %

Loan Operations Portfolio Movement

The movement of the consolidated loan portfolio in the last twelve months showed the adequacy and consistency of the loan evaluation instruments used in the concession process, maintaining its quality, as shown in the tables below:

Loan Operations Portfolio Movement Between June 2006 and 2007

Loan Operations Portfolio Movement by Rating between June 2006 and 2007

The balance of the Checking Accounts of Bradesco Organization at the end of 1H07 was R\$21.0 billion, representing an increase of 26.3% compared to the balance at the end of June 2006, which was R\$16.6 billion.

After being completely reformulated, we implemented in April 2007 the Bradesco's New Statement for Individuals. Designed after analysis of competitors and clients' suggestions, we had as purpose to make it clearer and objective, and enabling a higher control and understanding of information to our clients.

Number of Checking Accounts Individuals and Corporate in thousands

Savings Accounts

At the end of 1H07, the balance of Bradesco Organization Savings Accounts totaled R\$28.4 billion, corresponding to a 17.5% market share in the Brazilian Savings and Loan System (SBPE) and ensured the leadership of Bradesco among all private banks in the Brazilian Financial System.

Savings Account Deposits R\$ billion

Due to our accumulated profitability in 1H07 (TR + 0.5% per month), the Savings Account had an increase of 3.9%, and our balance had a growth of 2.9% in the period, mitigated by the withdraws occurred. The fall in the interest rates observed in the market made savings accounts more appealing, causing a different seasonal behavior in which investments offset withdrawals, thus resulting in a balance higher than the levels as in December 2006.

Operating Risk

Grupo Bradesco de Seguros, integrating Bradesco Organization, in permanent commitment to comply with the laws and regulations, has adapted its processes and activities, by means of the utilization of methodologies and resources aligned with the best market practices, mainly those related to risk management.

Within this aspect, in order to comply with the guidelines established by the New Capital Basel Accord (Basel II), provisions of the monetary authority, and alignment to future definitions related to Solvability II, we carried out the survey and analysis of the events related to operating risk, enabling the improvement in the management and knowledge of losses and their causes. The disseminations of the operating risk management culture on several levels, the disclosure of corporate policies and establishment of continuous monitoring procedure of exposure levels are inserted in this context.

Awards/Recognition

1 Bradesco Seguros e Previdência was elected the most remembered company and the preferred one in the Insurance Company category by the research *Marcas de Quem Decide* (Brands of People Who Decide Survey), conducted by QualiData Institute in partnership with Jornal do Comércio do Rio Grande do Sul. In its ninth edition, the survey was carried out with businessmen and self-employed professionals of Rio Grande do Sul, and encompassed 100 categories of products, services and companies.

2 Grupo Bradesco de Seguros e Previdência received the *Segurador Brasil 2007* award, in the Best Global Performance (with Health Insurance) category. The award was promoted by Segurador Brasil magazine and its purpose is to acknowledge the leadership, performance and achievements of the companies of the sector in the previous year, in addition to showing a scenario involving the importance of companies and entities in the implementation and in the development of concepts, products and services for the Brazilian insurance market.

3 Bradesco Seguros e Previdência conquered the Top of Mind award, promoted by *Amanhã* magazine of Rio Grande do Sul, being the most remembered brand among the customers of this state in the Insurance Company category. For this survey, 1,200 interviews were carried out, comprising people from both genders, aged from 16 to 65 years from all household income classes, from January 3 to 17, 2007. This is the first time the Insurance Company category is included in the survey.

4 Grupo Bradesco de Seguros e Previdência received the *As Melhores Seguradoras do Brasil* award, for being appointed as the Largest Insurance Group in Brazil by Awards Earned, Net Income, Shareholders Equity and Total Assets. Fundação Getulio Vargas (FGV) award, by means of *Conjuntura Econômica* magazine, issued by the Brazilian Institute of Economy (IBRE), of FGV, considers the companies economic and financial performance in 2006.

5 Bradesco Seguros e Previdência received the *Top de Marketing ADVB 2007* award. The Brazilian Association of Sales and Marketing Managers (ADVB) granted this award due to the Christmas Tree of Bradesco Seguros e Previdência A gift for the Brazilian Family case. The award aims at recognizing organizations which stimulate the creation and permanence of its product, service or brand by means of innovative and consistent marketing strategies.

6 Bradesco Seguros e Previdência received the e-finance award, of Management of Mainframe Systems Development. The award promoted by *Executivos Financeiros* magazine aims at pointing out the implementations of more innovative infrastructure and application solutions in the IT and Telecommunications area which contributed to the improvement of services rendered by financial institutions operating in Brazil.

7 Bradesco Seguros e Previdência received the *Gaiivota de Ouro* trophy for Excellence in Total Insurances. Promoted by *Seguro Total* magazine, the award aims at recognizing the companies, products/services, innovative actions and people who contributed to the growth and strengthening of the insurance market.

Sponsorships

1 Bradesco Seguros e Previdência was one of the sponsors of the *III Seminário de Petróleo e Gás* (Third Oil and Gas Seminar), promoted by the Brazilian Institute of Economy IBRE and *Conjuntura Econômica* magazine, of Fundação Getulio Vargas, on March 20, 2007, at the Stock Exchange Auditorium, in Rio de Janeiro. The event gathered approximately 250 professionals, among officers and executives of the Oil and Gas sector.

2 Bradesco Seguros e Previdência was one of the main supporting companies of the campaign *Vote Cristo. Ele é uma Maravilha* (Vote Christ. He's a Wonder), which had the purpose of electing the Christ Redeemer as one of the seven new wonders on a worldwide choice, promoted by the Swiss institution New 7 Wonders Foundation, which aims at protecting and disclosing the humanity's heritage.

3 Bradesco Seguros e Previdência promoted, on May 20, the *Corrida e Caminhada da Longevidade* (Running and Walk for Longevity), in Rio de Janeiro. The initiative intends to arouse interest for the theme and stimulate people to increase their quality of life by practicing physical exercises.

4 Bradesco Seguros e Previdência is once more the sponsor of the Series *O Globo/Dell Arte Concertos Internacionais Temporada 2007* (Globo/Dell Arte International Concerts Season 2007), with presentations at the Municipal Theater of Rio de Janeiro, from May to November 2007.

Growth in Technical Provisions for Health R\$ million

Number of Insured of the Health Insurance Lines in thousands

When comparing June 2007 to June 2006, Bradesco Saúde maintained its noteworthy market position (source: ANS). Brazilian companies are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.7 million customers, of which 2.5 million pertain to the corporate segment.

The large share of corporate insurance in the total portfolio of Bradesco Saúde (89.8% in June/2007) confirms the insurance company's high level of expertise and personalization in the corporate insurance services, a distinct advantage in the Supplementary Health Insurance market.

More than 15 thousand companies in Brazil have acquired Bradesco Saúde insurance products. Out of Brazil's 100 largest companies in terms of revenues, 32 are Bradesco's insurance clients and out of the country's 50 largest companies, 28% are Bradesco Saúde's clients. (source: *Exame magazine's Maiores e Melhores de julho de 2006* Biggest and Best List, July 2006).

In this half year, a new version of SIGE (Grantor Management Information System), important tool available for the management of health and dental insurance of Bradesco Saúde's corporate clients, was implemented.

Finally, emphasis should also be given to the user-friendly nature of the Bradesco Saúde Portal (www.bradescosauade.com.br), which, in addition to providing information on available products, also offers access to a number of services for the insured, prospects and brokers.

Awards/Recognition

1 Bradesco Saúde was elected the best company in the Health Insurance category and featured among the ten best companies in the survey The Top 100 Best HR Suppliers in Brazil, promoted by Gestão & RH Editora. The survey was conducted among Human Resources managers of the one thousand largest and best companies to work for, according to Exame magazine.

2 Bradesco Saúde received the *Gaivota de Ouro* trophy for Excellence in Health Portfolio. Promoted by Seguro Total magazine, the award aims at recognizing the companies, products/services, innovative actions and people who contribute to the growth and strengthening of the insurance market.

Highlight

Bradesco Saúde was one of the sponsors of the Supplementary Health Forum, promoted by Sincor-SP, on June 14, at Hotel Maksoud Plaza, in São Paulo. Debates and lectures on important issues, such as available products, individual plans, plans for small and medium-sized companies and opportunities for the broker were carried out.

	1 st Qtr.	2 nd Qtr.	1 st Half	1 st Qtr.	2 nd Qtr.	1 st Half
Auto/RE	766	612	1,378	604	693	1,297

Number of Auto/RE Insured in thousands

In this half, Grupo Bradesco maintained an outstanding position among the main insurance companies in the Brazilian Basic Line (RE) Insurance Market, with a 7.6% share of total market sales in this area.

The Brazilian economic growth has been providing the obtainment of new insurances in the Great Risks area, due to the establishment of new industries, expansion of industrial park of several companies and circulation of goods in the Brazilian ports, highways and railroads. In addition, the development of the oil area and growth of aircraft fleet in Brazil has determined new business opportunities in the Oil and Aeronautic Risks segment.

In Lines related to Equity Insurances, Bradesco Auto/RE has updated the insurance programs of its main clients, by means of partnerships with brokers specialized in the segment and closeness to Bradesco Corporate and Bradesco Empresas.

The Transportation segment is still the main focus, with material investments to improve new businesses, specially, among others, the qualification of Managers of Transportation Products, which will be established in the main Brazilian Economic Centers, and the creation of Bradesco Cargo System, a complete Transports Insurance Management System in the Internet.

In the mass market insurance segment of Basic Lines, whose products are designed to individuals, self-employed professionals and SMEs, the launch of new products and continuous improvement of processes and systems has contributed to the growth of the client base, mainly in the residential and equity insurances, such as *Bradesco Seguro Residencial* and *Bradesco Seguro Empresarial*. These products were updated, and a new system for sale in the Internet was developed, which enabled a faster and more efficient contracting process.

Another positive aspect is the increase in sales of agricultural machinery and equipment, which enables opportunities of contracting insurance lines related to these segments: *Bradesco Seguro Equipamentos*, *Bradesco Seguro Benfeitorias*, *Bradesco Seguro Penhor Rural Público* and *Bradesco Seguro Penhor Rural Privado*.

In the Auto/RCF Line, despite of the strong competition, the Insurance Company has increased its client base, mainly due to the creation of products for specific publics, such as *Bradesco Seguro Exclusivo Cliente Bradesco*, for Banco Bradesco's account holders, *Auto Mulher*, for the female public, and *Auto Corretor*, for insurance brokers.

One of the positive factors for the second half is the growth in sales of new vehicles, which contributes to the increase of insurance production of this line.

Bradesco Group's market share of the Auto/RCF portfolio, up to May 2007, was 13.3% .

Awards/Recognition

1 Bradesco Auto/RE Companhia de Seguros received the *Segurador Brasil 2007* award, in the Best Performance in Residential Risks category. The award is promoted by Segurador Brasil magazine and its purpose is to acknowledge the leadership, performance and achievements of the companies of the sector in 2006, in addition to showing a scenario involving the importance of companies and entities in the implementation and in the development of concepts, products and services for the Brazilian insurance market.

2 Bradesco Auto/RE Companhia de Seguros received the *Top de Marketing ADVB 2007* award. The Brazilian Association of Sales and Marketing Managers (ADVB) granted this award due to *Bradesco Seguro Auto Mulher Um Produto Exclusivo e Diferenciado Para o Público Feminino* (an exclusive and special product for the female public) case. The award aims at recognizing organizations which stimulate the creation and permanence of its product, service or brand by means of innovative and consistent marketing strategies.

3 Bradesco Auto/RE Companhia de Seguros received the *Gaivota de Ouro* trophy for Excellence in Auto Portfolio . Promoted by Seguro Total magazine, the award aims at recognizing the companies, products, services, innovative actions and people who contributed to the growth and strengthening of the insurance market.

In June 2007, the Investment Portfolio reached R\$46.4 billion.

Increase in Number of Participants in thousands

Increase in Life Insurance and Personal Accidents Insured in thousands

Thanks to its solid structure, innovative product policy and trusted market standing, Bradesco Vida e Previdência maintained its leadership of both markets in which it operates, with a 38.2% share of income from private pension plans and VGBL and a 15.3% share of life insurance premiums and personal accident.

Bradesco is also sole leader in VGBL plans, with a 41.3% share, and a 29.1% share in PGBL (sources: Susep Superintendence of Private Insurance and Fenaprevi National Federation of Private Pension Plans and Life), respectively (May/2007 data).

The number of Bradesco Vida e Previdência clients reached 16.2%, in June 2007, compared to June 2006, surpassing the record of 1.8 million private pension plans and VGBL participants and 10.1 million life insurance and personal accident insured. This significant increase was prompted by the strength of the Bradesco Brand name and by the use of an appropriate management and sales policies.

Technical provisions totaled R\$45.4 billion in June 2007, an increase of 20.9% as compared to June 2006. In May 2007, the Portfolio of Investments in Private Pensions Plans and VGBL totaled R\$45.6 billion, comprising 41.5% of all market resources.

Awards/Recognitions

The quality of services rendered by Bradesco Vida e Previdência was recognized with the achievement of the following awards:

Prêmio Segurador Brasil 2007 (2007 Brazil Insurer Award)

Best Performance in Private Pension Plans Segurador Brasil magazine

Melhor Empresa de Previdência (Best Private Pension Plans Company)

Balanço Financeiro 2007 magazine, of Gazeta Mercantil

Conjuntura Econômica magazine

Gaivota de Ouro Trophy

The Fundo Bradesco Master II Previdência FI Renda Fixa was awarded with:

Maximum grade of 5 diamonds, by Gazeta Mercantil

Top de Marketing ADVB 2007 Award

Market Leadership with the Prev Jovem Bradesco case

Bradesco Capitalização

Bradesco Capitalização's outstanding position in the certificated savings plans market is the result of its transparent operating policy, which is focused on adjusting its products to meet the potential consumer demand.

Regionally, Bradesco Capitalização is a leading company in two Brazilian states, according to the latest figures for May 2007 published by Susep. The company's market share was 29.3% in Amazonas and 27.2% in São Paulo.

Aiming at offering the bond that best suits its clients' different profiles and budgets, a number of products were developed, which vary in accordance with the type of payment (single or monthly), contribution terms, regularity of draws and related prize amounts. That phase was important due to the closeness to the public, by means of the consolidation of *Pé Quente Bradesco* family products.

Continuing the consolidation process of traditional products, in March 2007, the product *Pé Quente Bradesco Sorte Dia&Noite* was launched. The monthly-paid new product arouses interest due to the low value installments (R\$10.00) and offers raffles of R\$25 thousand, gross, every Saturday, and one special prize of R\$50 thousand from July to December. The public may obtain this new product through the Internet, Fone Fácil Bradesco and ATMs.

We also point out the important performance of social-environmental products, such as *Pé Quente Bradesco SOS Mata Atlântica*, which, in addition to enabling the formation of a financial reserve, contributes to reforestation projects of Fundação SOS Mata Atlântica, as well as *Pé Quente Bradesco GP Ayrton Senna*, whose great competitive advantage is the destination of a percentage of the amount collected with bonds to social projects of Instituto Ayrton Senna and *O Câncer de Mama no Alvo da Moda* (Breast Cancer in the Fashion Target). Upon acquiring this last product, the client contributes to the development of projects of prevention, early diagnosis and treatment of cancer in Brazil, since part of the amount collected is given to IBCC – Brazilian Institute of Cancer Control.

Rating

Standard & Poor's increased from brAA+/Positive to brAAA/Stable the rating of Bradesco Capitalização, which is the only company of the certificated savings plans segment with this rating. The solid financial and equity protection standard that Bradesco Capitalização ensures to its clients contributed to the result.

Quality Management System

Bradesco Capitalização S.A. was the first private certificated savings plans company in Brazil to receive ISO 9002 Certification. In December 2005, it received again the certification of its quality management system, in the ISO 9001:2000 version within the scope of Bradesco Certificated Savings Plans Management. Granted by Fundação Vanzolini, it shows the quality of its internal processes and confirms the principle which is the origin of Bradesco Certificated Savings Plans: good products, good services and permanent evolution.

Income from Certificated Savings Plans Market Share (%)

Technical Provisions for Certificated Savings Plans Market Share (%)

Source: Susep

Growth in Technical Provisions for Certificated Savings Plans R\$ million

Due to the growing strengthening of the Technical Provisions volume, Bradesco Capitalização reached the amount of R\$2.4 billion in June 2007, and, according to May 2007 data, released by Susep, it holds 20.6% of the total volume of Technical Provisions in the market.

All these results convey safety and reaffirm the financial solidity and the ability to honor the commitments assumed with clients.

Number of Clients of Certificated Savings Plans in thousands

As a result of a customer loyalty building policy, focused on the quality of the customer service and on the offer of innovative products, Bradesco Capitalização ended 1H07 amounting to 2.3 million clients.

Outstanding Traditional Certificated Savings Plans in thousands

Outstanding Certificated Savings Plans With Transfer of Draw Participation Rights in thousands

Outstanding Certificated Savings Plans in thousands

The outstanding certificated savings plans portfolio increased from 13.4 million in June 2006 to 14.4 million in June 2007. Out of this total, 68.9% comprise bonds with Transfer of Draw Participation Rights modality, including: Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa, etc.

Considering that the purpose of this type of certificated savings plans is to add value to partners products or even to provide incentives for customer due payments, these bonds are sold with reduced terms and grace periods and at a lower unit purchase price.

Awards/Acknowledgment

1 Bradesco Capitalização received the Top of Quality 2007 award from the Ordem dos Parlamentares do Brasil (OPB), an institute with a 30-year tradition. The award was created by OPB to acknowledge, distinguish and reward the work of companies that contribute to the Country's social-economic development.

2 Bradesco Capitalização received the *Troféu Desbravadores* (Pathfinders Trophy), for the Company's pioneering nature, and the *Troféu Segurador Ambiental* (Environmental Insurer Trophy), for its actions in the preservation of the environment with the certificated savings plan *Pé Quente Bradesco SOS Mata Atlântica*, at the ceremony of the *Prêmio Segurador Brasil 2007* (2007 Brazil Insurer award). The award, promoted by *Segurador Brasil* magazine, aims at acknowledging the leadership, performance and achievements of the companies of the sector in the previous year, in addition to showing a scenario involving the importance of companies and entities in the implementation and in the development of concepts, products and services for the Brazilian insurance market.

3 Bradesco Capitalização received the *Top de Marketing ADVB 2007* award. The Brazilian Association of Sales and Marketing Managers (ADVB) granted this award due to the Marketing focused on Products and Services strengthens Bradesco Capitalização Position case. The award aims to acknowledge organizations which stimulate the creation and permanence of its product, service or brand by means of innovative and consistent marketing strategies.

4 Bradesco Capitalização received the *Balanço Financeiro* award, as the best company in the Certificated Savings Plans category. The award, promoted by *Gazeta Mercantil* newspaper based on study of Consultoria Austin Rating, considers the growth, performance and results obtained in 2006.

5 Bradesco Capitalização received the *Top Social 2007* award of the Brazilian Association of Sales and Marketing Managers (ADVBSM). The case awarded was *Pé Quente Bradesco o Câncer de Mama no Alvo da Moda* (Breast Cancer in the Fashion Target). This award is one of the most important in the sector and intends to evaluate and point out socially responsible actions.

6 Bradesco Capitalização received three *Gaivota de Ouro* trophies: The Best Certificated Savings Plans Company , Outstanding Product in 2006 (*Pé Quente Bradesco O Câncer de Mama no Alvo da Moda*) and Excellence in Social-environmental Responsibility (*Pé Quente Bradesco SOS Mata Atlântica*). Promoted by Seguro Total magazine, the award aims at recognizing the companies, products, services, innovative actions and people who contribute to the growth and strengthening of the insurance market.

Profile

Banco Finasa offers financing lines of direct loan to consumer for acquisition of passenger vehicles, transportation and other goods and services, in addition to leasing and personal loan operations.

Operating in a special way of trading products, by means of partnerships with stores and resale, Banco Finasa complements the distribution network of Bradesco Organization's financing products.

Combined with Bradesco's innate vocation for the granting of financing, Banco Finasa also continued with the policy to enter into operational agreements with large car makers, auto and truck resale and implements, in addition to important retail chains.

For the new business prospect, Banco Finasa contracts the services of Finasa Promotora de Vendas, its wholly-owned subsidiary which, through its 392 branches established nationwide and a structure of business partners, represented in June 2007 by 18,455 auto dealers and 21,616 stores selling furniture and home décor, auto parts, IT programs and equipment, home improvement material, tires, tourism and telephony, amongst others. At the end of 1H07, Finasa Promotora recorded 5,055 employees, 81% of which were directly performing in new businesses prospect.

Operating Performance

In 1H07, the Bank surpassed the amount of R\$20 billion in financing portfolio, leasing and personal loan, ending the half year with R\$20.686 billion, a growth of 24.1% over the same period in 2006. The production of new businesses increased, on average, from R\$1.267 billion/month in 1H06 to R\$1.514 billion/month in 1H07, with a growth of 19.5%.

The balances of the operations showed the following growth, per type:

- (1) The corporate name of Banco Bradesco BBI S.A. was approved at the Special Stockholders Meeting held on May 31, 2006, after the incorporation by Banco Bem S.A. of stocks issued by Bram Bradesco Asset Management S.A. Distribuidora de Títulos e Valores Mobiliários and Bradesco S.A. Corretora de Títulos e Valores Mobiliários.

Incorporated by Bradesco, in February 2006, Bradesco BBI S.A. has the purpose of consolidating its operations in the areas of Capital Markets, Mergers and Acquisitions, Project Financing, Structured

Operations and Treasury. Among other duties, it will develop the businesses of structuring, originating, distributing and managing the clients assets, flows and financial inventories.

Capital Markets

During 1H07, BBI coordinated important variable and fixed income transactions, which amounted to R\$12.6 billion. That volume represents 31.4% of the total amount of stocks issues, stocks deposit certificates, debentures, FIDCs and promissory notes recorded by the Brazilian Securities and Exchange Commission (CVM) in the same period.

We highlight our participation as joint bookrunner in the public offerings of stocks of Marfrig Frigoríficos e Comércio de Alimentos S.A., in the amount of R\$1.2 billion and Drogasil S.A., in the amount of R\$447.5 million. As coordinators, we highlight the operations of JBS S.A., in the amount of R\$1.6 billion, LOG-IN Logística Intermodal S.A., in the amount of R\$848.2 million and PDG Realty S.A. Empreendimentos e Participações, in the amount of R\$724.5 million.

In fixed income, we participated as leader coordinators, among other transactions, in the public offering of debentures of Ultrapar Participações S.A., in the amount of R\$675.0 million and in the public distribution of promissory notes of Cesp Companhia Energética de São Paulo, in the amount of R\$119.0 million. We point out our coordination in the issue of debentures of Cyrela Brazil Realty S.A., in the amount of R\$500.0 million, and of Companhia Brasileira de Distribuição, in the amount of R\$779.6 million.

In addition to the local market, BBI also operates in the international capital markets, originating, structuring debt transactions (commercial papers, notes and bonds) for placement with foreign investors. Among the operations we took part in, we highlight CVRD's bond in the total amount of US\$3.8 billion, and the Minerva Overseas Ltd. bond, in the amount of US\$150.0 million, with the subsequent reopening in a further US\$50 million.

Mergers and Acquisitions

BBI is also responsible for financial advisory services in mergers, acquisitions, spin-offs, joint ventures, corporate restructuring and privatization.

In 1H07, we provided advisory services in three important operations: the acquisition of Banco BMC S.A. by Banco Bradesco S.A., the acquisition of the sugar and alcohol businesses of Grupo Tavares de Mello by Louis Dreyfus Commodities Bioenergia S.A and the sale of part of the stake held by Bradesco Organization at Serasa S.A.

Project Financing

BBI has a solid track record playing the role of financial advisor and structurer for several greenfield projects in the Project and Corporate Finance categories, always seeking the best financing solution for projects. It operates in the most important sectors of the economy and has an excellent relationship with several different promotion agencies, such as BNDES, BID and IFC, as well as with export credit agencies (ECAs).

In 1H07, among the projects carried out by BBI, it is worth pointing out the completion of the long-term financing advisory and structuring, in the amount of approximately R\$490.0 million, in the Project Finance type, for Itumbiara Transmissora de Energia S.A., a 811-km power transmission line between Cuiabá (state of Mato Grosso) and Itumbiara (state of Minas Gerais).

Structured Operations

The Structured Operations area develops structures used to segregate credit risks, through securitization, using Special Purpose Entities (SPEs), Loan Grants with shared risk, Credit Right Investment Funds (FIDCs), Certificates of Real Estate Receivables (CRIs) and Medium- and Long-term Financing Structuring, based on receivables and/or other collaterals.

In addition, this area is capable of structuring models of properly protected medium and long-term financings based on pre-defined cash flows pursuant to specific covenants and guarantees, which minimize the risks of each transaction, and seek solutions with the purpose of meeting the specific needs of the companies, such as decrease in the use of

working capital, increase in liquidity, optimization of the financial and tax costs, demobilization, and structured financings. It coordinates syndicated loan processes, including the extension of debts, which can be refinanced, structured by the commercial Bank or by third parties.

Within this context, it creates efficient solutions of specific structures focused on the financing and the execution of acquisition finance operations, highlighting, in 1H07, the acquisition finance of Companhia Açucareira Vale do Rosário, in the amount of R\$1.3 billion, FIDC CESP IV, Cesp Companhia Energética de São Paulo, in the amount of R\$1.3 billion and FIDC Hiper, Supermercados G. Barbosa, in the amount of R\$155.0 million.

Treasury

BBI's Treasury operates in the following areas:

Clients: present in local and foreign markets, the Treasury is able to distribute fixed income products in the primary market and, more strongly, in the secondary markets. The interest rates, currencies, commodities and loan derivatives are also part of a range of products offered to clients;

Markets: performance in different markets, focusing on product pricing for customers; and

Structuring: capacity of originating tailor-made products for the different types of clients.

Leasing Companies

On June 30, Bradesco Organization controlled the following leasing companies: Bradesco Leasing S.A. Arrendamento Mercantil, Zogbi Leasing S.A. Arrendamento Mercantil and Bankpar Arrendamento Mercantil S.A., besides the leasing portfolio of Banco Finasa S.A., which is directly shown in its financial statements.

Leasing Performance Aggregated Bradesco

Leasing operations are carried out by Bradesco Leasing S.A. Arrendamento Mercantil and Banco Finasa S.A.

On June 30, leasing operations brought to present value totaled R\$4.8 billion.

Bradesco Organization's leasing companies are positioned amongst sector leaders, according to ABEL (Brazilian Association of Leasing Companies), with an 11.1% share of this market (reference date: May 2007). This good performance is rooted in its branch network integrated operations and the maintenance of its diversified business strategies in various market segments, in particular, the implementation of operating agreements with major industries, mainly in the transportation vehicles and machinery/equipment industries.

The following graph presents the breakdown of Bradesco's aggregated leasing portfolio by type of asset:

Operating Overview

Bradesco Consórcios sells automobile, trucks, tractors, agricultural implements and real properties plans, according to the rules of the Brazilian Central Bank.

Referring to the sale of plans offered, the company relies on Banco Bradesco Branches Network, liable for higher Bradesco Consórcios share in the consortium purchase plan market. The extensive nature and security associated with the Bradesco Brand are added advantages for expanding consortium purchase plan sales.

Segmentation

Banco Bradesco's entry into this market is part of its strategy to offer the most complete range of products and services options to its clients, with a view to providing all social classes with the opportunity to purchase items at accessible prices through the consortium quota system, and filling a market gap, especially taking into account that, in relation to real estate product, there is currently high housing deficit in the country.

Operating Performance

The different way of trading products (Real Estate, Automobiles, Trucks, Tractors and Agricultural Implements) with a specialized and focused team, provided Bradesco Consórcios with a growth of 38.5% in 2Q07 when compared to the same period of the previous year.

Bradesco has been playing an important role in the consortium purchase plan industry, providing the population with access to loan for the acquisition of personal and real property. The freedom to select an asset is one of the main characteristics of the plans sold by Bradesco Consórcios, since the consortium member is free to choose, according to value of the Letter of Credit, the automobile, real property, truck, tractor or agricultural implement of his/her preference when he/she wins the draw.

In 2Q07, 88 groups were inaugurated and 38.1 thousand consortium quotas were sold. Until June 2007, we recorded total accumulated sales exceeding 306.5 thousand consortium quotas, achieving sales results in excess of R\$9.6 billion and recording 123.9 thousand draws, with 94.2 thousand properties delivered and 1,614 active groups.

Active Consortium Quotas

Total Active Consortium Quotas

Leadership

According to a strategy defined by the Organization, Bradesco Consórcios leads the Automobile and Real Estate segments, and searches for a highlighting position in the segment of Trucks, Tractors and Agricultural Implements.

In the Real Estate segment, Bradesco ended June with 112,852 active quotas. In the Automobile segment, Bradesco ended with 159,660 active quotas, maintaining a lead position in relation to consortium management companies associated with car makers, consolidated in the market, such as Volkswagen, Fiat and General Motors.

In the Trucks, Tractors and Agricultural Implements segment, Bradesco ended this quarter with 9,002 active quotas moving up from the 11th place in March 2006 to the 7th place in June 2007 in Bacen's ranking. This data proves that the public is getting to know the advantages to acquire an asset, such as Trucks, Tractors and Agricultural Implements, by means of a consortium.

Leadership (Real Estate and Automobile) is conquered and consolidated as a result of ongoing and determined efforts, motivated by the enthusiasm and strength of the Bradesco Branch Network.

Bradesco Corretora ended 1H07 in the 14th position of the São Paulo Stock Exchange Bovespa among the 88 participant brokers. 42,364 investors were served in such period, executing 820,082 stock calls and put orders, summing up a volume corresponding to R\$22,469 million. Bradesco Corretora has been participating with Bovespa in the event *Bovespa vai até você* (Bovespa reaches you), with a view to popularizing the stock market.

In 1H07, Bradesco Corretora traded 1,885 thousand contracts at the Brazilian Mercantile & Futures Exchange BM&F, with a financial volume of R\$129,736 million, reaching the 26th position in the ranking among the 72 participant brokers. It has been driving its efforts to proceed with the expansion of businesses, as well as to disseminate future markets. Concerning the agricultural sector, Bradesco Corretora has been directly acting in the main producing regions of the country, through visits, lectures, and participation in agribusiness fairs and exhibitions. Jointly with BM&F, it has been sponsoring the clients' visit from various regions of the country to São Paulo, for visits to BM&F and Bradesco Corretora. It has also been receiving producers, teachers, opinion makers and dealers of goods physical market. It also takes part in the trading of future mini-contracts of Bovespa, U.S. dollar, *Boi Gordo* (live cattle) and coffee Indices through the Web Trading system, with a view to offering an alternative to carry out derivative operations of price protection, directly at the trading floor. The intermediation of future market operations is certified by NBR ISO 9001:2000.

In 1H07, Home Broker Bradesco reached the 2nd position in the ranking of Bovespa's broker dealers. In May, Bradesco Corretora obtained the record amount of R\$1.031 billion of traded volume by means of electronic channel, and is the 1st brokerage firm related to the financial conglomerate to exceed the amount of R\$1 billion. As a result, we obtained a volume of R\$5,217 million in 1H07, with a growth of 165.0% as compared to 1H06. The client base in the period evolved 55.3% compared to 1H06 with an increase of 28,754 new registrations and 41,003 e-mails received in 1H07. The executed orders in 1H07 were 641,467, showing a 141.5% increase as compared to the previous half.

Home Broker Bradesco was elected the Best Brazilian Website related to Home Broker in the sixth edition of E-finance Award, created by Executivos Financeiros magazine. The investor's interest in the variable income market is growing every day, due to an increasingly favorable economic scenario, and the Internet has been the easiest and least expensive channel.

Continuing the expansion process of its Retail Area, Bradesco Corretora inaugurated the Stock Rooms in the branches of Aldeota/Fortaleza, USP/São Paulo and Monsenhor Celso/Curitiba in June 2007.

Home Broker's intermediation of stocks through the Internet (Shopinvest) is certified by NBR ISO 9001:2000 and GoodPriv@cy Data Protection Label (2002 edition).

Edgar Filing: BANK BRADESCO - Form 6-K

SANA Automatic System of Trading Stocks is certified by NBR ISO 9001:2000.

With a total volume traded of R\$63.4 million in 1H07, Bradesco Corretora maintained a highlighting position in the market, operating in Public Offerings for Share Purchase, Primary and Secondary Public Distributions and Special Operations and Privatization Auctions, assisting a total of 16,643 clients among individuals and legal entities, in the Public Distributions.

Bradesco Corretora offers to its clients a complete investment analysis service with coverage of the main sectors and companies of the Brazilian market. Our team of analysts is comprised of sector specialists who disclose their opinions to clients in an equitable way by means of follow-up reports and guides of stocks. Moreover, clients also count on analyses of the team of economists of Banco Bradesco, one of the most important ones of the Brazilian market.

In addition, it offers non-resident investors representation service in operations conducted in the financial and capital markets, under the terms of the CMN (Brazilian Monetary Council) Resolution no. 2,689, of January 26, 2000.

It also offers the Tesouro Direto (Direct Treasury) Program, which allows the individual client to invest in federal government bonds via the Internet; he/she just has to register at Bradesco Corretora via the Website www.bradesco.com.br.

The Net Income recorded in 1H07 amounted to R\$18.8 million.

The Stockholders Equity, on June 30, 2007, reached R\$94.5 million, equivalent to 41.7% of total assets, which added up to R\$226.4 million.

Bradesco Securities, Inc., a wholly-owned subsidiary of Banco Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of stock purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Deposit Certificates, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by the more than 90 ADR programs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets, which is designed to offer support for global economy investors who invest part of this flow in

countries such as Brazil.

The Board of Governors of the Federal Reserve System considers Banco Bradesco to be a Financial Holding Company that enables the expansion of Bradesco Securities activities.

This status is given following a rigorous analysis of various aspects determined in US banking legislation, including Banco Bradesco's high level of capitalization and the quality of its Management, which will allow the Bank, either directly or through its subsidiaries, to operate in the US market, whenever considered convenient, carrying out financial activities under the same conditions as local banks, in particular the following:

Securities market (underwriting, private placement and market-making);

Acquisitions, mergers, portfolio management and financial services (merchant banking);

Mutual funds portfolio management; and

Sale of insurance.

Thus, Banco Bradesco has strengthened its role in the Investment Banking segment, expanding its opportunity to explore various financial activities in the US market, and contributing to the increase in the volume of transactions carried out with Brazilian companies.

Market Segmentation

Focusing its actions on relationship, the segmentation process in Bradesco is aligned to the market trend of grouping together customers with similar profiles, allowing a personalized customer service and increasing gains of productivity and quickness. That process provides the Bank with larger flexibility and competitiveness in the execution of its business strategy, providing dimension to operations for both individual and corporate customers, concerning quality and specialization, in specific demands of sundry customer profiles.

Bradesco Corporate Banking

Mission and Values

Bradesco Corporate's mission is to meet the clients' needs, developing long-term ethical and innovative relationship in harmony with stockholders' interest.

The area's main values that permeate its day-to-day activities comprise the following:

- teamwork;
- ongoing pursuit of innovation and excellence in customer service;
- transparency in all its actions;
- commitment to self-development;
- adherence to strategic guidelines;
- creativity, flexibility and initiative; and
- agile delivery to clients.

Background and Achievements

The Corporate Banking segment was introduced in 1999, designed to serve companies from its target market. Based on a customer rather than a product standpoint, it maintains a centralized relations management, offering as well as traditional products, structured, Tailor-made and Capital Markets solutions, through Managers who have a clear vision of risk, market, economic industries and relationship.

Bradesco Corporate's absolute commitment with quality, the essence of a long-term effort, started to take shape in 2000, when the company was granted the ISO 9000 which is a reference for efficiency in the service providing, evaluated by clients. Its Management System is being improved with the adoption of practices acknowledged by the market, resulting in the achievement of the Banas Quality Management Award in 2006, and the Paulista Quality Management Award - Golden Medal in 2007, which indicates companies with the best management practices, for its efficiency and quality.

Bradesco Corporate

The concern about seeking solutions with significant added value for the Institution is reflected in the partnerships entered into with major retail networks for consumer sales financing, made feasible as a result of the relationship and familiarity with this industry's production chain and the synergy which exists among the Bank's segments.

The resources comprising assets (credit, bonds and guarantees) and liabilities (deposits, funds and portfolios) amounted to R\$90.9 billion.

Target Market

The 1,312 economic groups comprising Bradesco Corporate's target market, which is mostly comprised of large corporations which record sales results in excess of R\$350 million/year are located in the states of São Paulo, both the capital and inner state, Rio de Janeiro, Minas Gerais, Paraná, Rio Grande do Sul, Santa Catarina, Goiás, Pernambuco and Bahia.

Bradesco Empresas (Middle Market)

Bradesco Empresas (Middle Market) segment was implemented with a view to offering services to companies with sales results from R\$30 million to R\$350 million/year, through 68 exclusive branches in the main Brazilian capitals.

Bradesco Empresas aims at offering the best business management, such as: Loans, Financings, Investments, Foreign Trade, Derivatives, Cash Management and Structured Operations, targeting customers' satisfaction and results to the Organization.

The 68 branches are strategically distributed throughout Brazil as follows: 41 in Southeast, 16 in South, 4 in Mid-West, 3 in Northeast and 2 in North.

Bradesco Empresas is formed by a team of 370 Relationship Managers, who are included in the Anbid Certification Program, serving on average 31 economic groups per Manager, on a tailor-made concept, encompassing 23,556 companies from all sectors of the economy.

Bradesco Empresas manages funds, among loan operations, guarantees, deposits, funds and collections, of approximately R\$37.8 billion.

In the pursuit of ongoing quality, Bradesco Empresas Department was granted the NBR ISO 9001:2000 certification by Fundação Carlos Alberto Vanzolini in the scope Bradesco Empresas Segment Management, attesting to the Bank's commitment to process improvement and client satisfaction.

Bradesco Private Banking

Bradesco Private Banking, through its highly qualified and specialized professionals, offers the Bank's high-income individual customers with minimum funds available for investment of R\$1 million, an exclusive line of products and services aimed at increasing their equity by maximizing returns. Therefore, according to a Tailor-Made concept, the most appropriate financial solution is sought, considering each client's profile, providing advisory services for asset

allocation and fiscal, tax and successory guidance.

Aiming the proximity to its customer base, Bradesco Private Banking has two offices in the cities of São Paulo and Rio de Janeiro, as well as 9 service units in Porto Alegre, Blumenau, Curitiba, Belo Horizonte, Brasília, Salvador, Recife, Fortaleza and Uberlândia.

Bradesco Private Banking is also certified by ISO 9001:2000 with scope on the Relationship Management of High Net Wealth Individual Clients , as well as with the certification GoodPriv@cy (Data Protection Label 2002 Edition) granted by IQNet (The International Quality Network), in the Management of Privacy of Data Used in the Relationship with High Net Wealth Clients .

Bradesco Prime

Background

The Prime Segment started its activities in May 2003 with 109 exclusive branches distributed around the country, aiming at offering clients complete solutions by means of financial auditing and a special portfolio of products and channels.

Since 2005, the Bradesco Prime Department has been certified by Fundação Carlos Alberto Vanzolini, rule NBR ISO 9001:2000, under the scope Bradesco Prime Segment Management, enhancing Bradesco's commitment to continuously improving processes and pursuing clients' satisfaction.

Along its years of existence, Prime has achieved a highlighting position in the Brazilian high-income market and has consolidated its position as the largest segment in customer service network, with 214 branches, strategically located.

Mission and Values

Bradesco Prime's mission is to be the client's first Bank, focusing on relationship quality and in offering appropriate solutions to their needs, with prepared staff, adding value to stockholders and employees, within ethical and professional standards.

When developing their activities, the employees of the Prime Segment are guided by Bradesco Organization's values, which are as follows:

- Client as the Organization's reason of existence;

- Ethical and transparent relationship with clients, stockholders, investors, partners and employees;

- Belief in people's values and their capacity for development;

- Respect for the human being's dignity, by preserving the individuality and the privacy and not admitting the practice of discriminatory acts due to social condition, creed, color, race, sex, faith or political ideology;

- Pioneering work in technology and solutions for clients;

- Social responsibility, especially investments in education; and

- Ability to face with determination different economic cycles and the dynamics of social changes.

Target-market and Main Competitive Advantages

Aligned with the commitment to providing all its clients with a Complete Bank, Bradesco Prime operates in the segment of high income clients, having as target-public individuals with income of R\$4 thousand or higher or with investments of R\$50 thousand or higher.

Bradesco Prime's customers are provided with:

- VIP branches specifically designed to provide comfort and privacy;

Personalized products and services, such as the Bradesco Prime Loyalty Program, which aims to encourage the relationship between the clients and the Bank, by means of the offer of increasing benefits;

Customized service by the Relationship Managers who, due to their small client portfolios, are able to dedicate special attention to each client and who are continually enhancing their professional qualification; all of them take part in the Certification Program of Anbid;

Relationship channels such as: exclusive Internet Banking (www.bradescoprime.com.br), with the competitive advantage of the online chat, in which a financial consultant interacts with the clients in real time, the Call Center with an exclusive assistance center, in addition to an extensive Customer Service Network, comprised of its branches, ATM equipment and Banco24horas throughout Brazil.

In the branches below, Prime offers special services and technologies, such as:

Prime Digital Branch: focused on customer service via call center with a team of managers available at extended business hours (from 8:00 am to 8:00 pm, 7 days a week, including bank holidays).

Prime Branch at Cidade de Deus, Latin America's first Wireless Branch, where managers use remote connected equipment, enabling client to conduct his/her business from his/her own facilities.

Bradesco Retail

Bradesco maintains its Retail specialty, serving with high quality service all segments of the Brazilian population level. Such open-door philosophy is supported by an extensive customer service network. Thus, it is possible to reach the possible largest number of companies and people, in all regions of the country, including those with lower development level, reflecting the effort in the democratization of banking products and services, social inclusion and income distribution. The Bank has more than 16 million individuals and corporate customers account holders, who carry out millions of transactions daily at our branches, service branches, Banco Postal (Postal Bank) branches and Bradesco Expresso, comprising Brazil's largest Customer Service Network, besides thousands of teller machines, providing ease and convenient services over extended hours.

In addition to the extensive service network, clients are offered the comfort of alternative service channels such as Fone Fácil (Easy Phone) service, Internet Banking and Bradesco Celular, which are already used for a significant portion of daily transactions.

The Retail segment has been focusing on the growth in the client base and the loan portfolio. Another important aspect is the development of financial products, tailor-made to meet the customers' profile in an ongoing effort to offer quality, agile and reliable services to all customers, in particular, bearing in mind the value of customer relations.

Significant investments have been made in staff training, aiming at qualifying employees for customized and efficient customer service, seeking to preserve relations and increase the customers' loyalty to the Bank.

Bradesco Retail not only has more than 2,700 branches and 2,500 service branches (PAB/PAE), but also makes available a Digital Branch, operating in a virtual environment and offering courier service. The Digital Branch has a team of managers who serve its clients, regardless of location, from 8:00 am to 10:00 pm, seven days a week.

Banco Postal (Postal Bank)

Banco Postal is a brand through which Bradesco offers its products and services in all the Brazilian cities, in a partnership with the Brazilian Post Office Company (ECT). It is an example of success of Correspondent Banks, due to its large scope, products and services portfolio, and the social role it plays in society.

Banco Postal is present in more than 4.9 thousand cities of Brazil, with 5,709 branches. Around 1.7 thousand of these branches were set up in cities which, until then, were devoid of banks, benefiting a population of approximately 18 million people, who had the opportunity to, for the first time in their lives, obtain a check book, make a deposit in a savings account, or contracting loan operation.

Thanks to Banco Postal, thousands of beneficiaries of the Brazilian Social Security Institute (INSS) can now receive their benefits in the comfort of a branch close to their homes, without having to go long distances on boats or along unsafe roads, and without spending a good part of their earnings on the trip.

Banco Postal's expansion has also disseminated in the municipalities where the use of credit and debit cards and the affiliation of the commercial establishments to the Visa Network were introduced, providing more options for the local population to make their payments, besides allowing improvements in the very Postal Branches' customer service, and the reduction in operating costs and in the risks of transporting cash to the Relationship Branches.

Number of Banco Postal Branches

Bradesco Expresso

Bradesco has been increasing its share in the correspondent bank segment with the expansion of Bradesco Expresso Network, by means of partnerships entered into with supermarkets, drugstores, department stores and other retail chains.

For clients and community in general, Bradesco Expresso offers a convenient banking service, closer to the residence or workplace. For Bradesco, this is the best way to reach low-income clients, especially the population deprived of bank services, and promoting the banking inclusion, which would not be possible by means of traditional banking branches, in view of high installation and operating costs. Concerning shopkeepers, Bradesco Expresso foments a higher flow of clients and encourages them to visit the establishment many times, opening possibilities for loyalty and sales increase.

On June 30, 2007, Bradesco Expresso Network totaled 9,699 installed units.

Risk Management and Compliance

Credit Risks, Market Risks, Liquidity, Operational risks, Internal Controls and Compliance

Bradesco deems the risk management essential in all its activities, using it with the purpose of adding value to its business, to the extent this enables support to the business areas in the planning of their activities, maximizing the utilization of own funds and of third parties, in benefit of stockholders and the company.

We also understand that the risk management activity is greatly relevant, due to the growing complexity of services and products offered by the Organization, and also in view of the globalization of its business. Therefore, Bradesco is constantly improving its risk management-related activities, in pursuit of the best internationally used practices, however duly adjusted to Brazil's reality.

The Organization carries out considerable investments in activities related to risk management, especially in the qualification of employees. The purpose of these activities is enhancing the quality of risk management of the Conglomerate, and to ensure the necessary focus on these activities, which produce a strong added value.

Corporate Governance

In the wide sense, the Corporate Governance process represents the set of practices that aims to optimize the performance of a company and protect stakeholders, such as stockholders, investors, employees, etc, as well as to facilitate access to capital, add value to the company and contribute to its sustainability, involving, mainly, aspects focused on transparency, equity of treatment of shareholders and account rendering.

Under the Risk Management focus, the Corporate Governance structure at Bradesco Organization includes an effective follow-up of the risk management which protects the interests of stakeholders, internal and external parties of the company, upon the operation of 4 bylaws committees proposed by the Board of Directors and by approval of the Stockholders Meeting and, also, 34 executive committees, subordinated to the CEO and established by approval of the Board of Directors. The committees comply with specific rules of establishment, alteration and extinguishment and each one has clearly defined in its regulation: the purpose, subordination, attributions, compositions, duties and responsibilities of its members, the frequency, call and quorum of the meetings.

Governance Structure

This structure is aligned with the best practices, considering that it counts on independent Board members, Committees with specific functions and dedicated directive structure, establishing policies, guidelines and rules, and proving human resources, materials and technology focused on these activities.

Risk Management Process

Bradesco approaches the management of all the risks inherent to its activities in an integrated manner, within a process, based on the support from its Internal Controls and Compliance structure.

This view allows the ongoing improvement of its risk management models, avoiding gaps that could jeopardize the correct identification and assessment.

Risk Management

The positioning of the Risk Management and Compliance Department – DGRC in the organizational structure reflects the Organization's commitment to the issue, since the treatment and the integration of the Credit, Market and Operational risks into one independent Department bring great advantages to risk management, meeting the concepts enacted by the New Capital Accord (Basel II) and the best Corporate Governance practices.

Organizational Structure of the Risk Management and Compliance Department:

The Department also has as attribution the responsibility for the compliance with the Resolutions 2,554 (Internal Control), 3,380 (Operational risk), 3,464 (Market Risk) of the Brazilian Monetary Council, and with the provisions of the Sarbanes-Oxley Act, Section 404.

The risk management process in Bradesco comprises a virtuous circle, which involves the identification, measurement, mitigation, control, monitoring and report of these risks to several areas and Committees involved. This process is supported by a structure which comprises the Senior Management, by means of Executive Committees (responsible for the definition of the tolerance to risks in the Organization), including the Risk Management and Compliance Department to quantify and monitor risks, up to the several areas of businesses and products in the risk identification.

Identification of risks: present in the day to day of the units of businesses and products this activity considers the definition, identification and diagnostic of the risk, task made by means of the structure of Internal Controls and Compliance;

Measurement of risks: it involves the use of a series of methodologies, such as calculation of the expected and unexpected losses, calculation of VaR (Value at Risk), stress tests and use of market benchmarks;

Mitigation of risks: it represents the reduction of the gross exposure level to risks, leading to an acceptable residual by means of the adoption of instruments aiming at its transfer or implementation of effective controls, periodically revaluated and regularly tests as to its adequate execution;

Monitoring and control of risks: it uses the results of measurement models for the establishment of policies and limits. These limits are divided and monitored daily, weekly, monthly or according to each situation. In addition, we have an integrated management system which incorporates several elements, such as specific models for measurement of each one of the risks, historical data base, strict procedures of internal controls and a highly qualified team in the risk management function; and

Report of risks: for each business unit information aiming at the integrated risk management is reported in analytical and consolidated bases.

New Capital Accord Basel II

Structure and Fundamentals

One of the main functions of the central banks of several countries is the supervision of the financial system under their jurisdiction, in the sense of avoiding and mitigating possible banking crises which may deeply affect local economies.

With the financial globalization, a banking crisis in a certain country may affect the banking and economic activities of other countries, with the need of alignment of the supervision activities of the several central banks, so as to level the measurement criteria of the banking risk among the countries and ensure the solvability of the international financial market. This need was met by the Basel Capital Agreement of 1988. The main guideline of this Agreement was the requirement of minimum capital in relation to the credit risk. The supervisors of each country require from the banks under their jurisdiction a minimum capital amount in relation to their portfolio assets, weighted by the risk level determined by supervisors. Later, in 1996, the Basel Committee on Banking Supervision added market risk as one more risk factor to be considered for capital allocation.

With the evolution of the world banking scenario and the acceleration of the integration pace of several national financial systems through complex and sophisticated instruments, there was the need to improve the Capital requirement rules established 1988 and 1996. The New Capital Agreement (Basel II), disclosed in June 2004, after more than six years of studies, deepens the conquests of the previous Agreement, based on the three pillars :

The First Pillar has two main innovations concerning the previous Agreements: a) the risk weighing rules which currently are established by the regulator, may be based on internal classifications of the banks themselves; and b) the addition to the capital requirement of the amounts related to the operational risk.

The Second Pillar comes from the fact that the supervising authority excludes from the function of determining the risk level of banking assets in the internal evaluation models. The exclusion fundamental is that the banks themselves have the best capacity to determine them. On the other hand, the supervising tasks of the banking authority are added to the internal risk measurement processes of the banks under its jurisdiction.

The Third Pillar recommends to the banks a set of minimum information for the disclosure to the market, so that it can make a better evaluation based on the risks incurred by each one of the institutions in their activities.

Implementation in Brazil

As of 1994, the Central Bank of Brazil started disclosing normative rulings based on the orientations given by the Basel Agreement for follow-up of the credit risk of the financial instructions and as of 2001 for market risk.

The Notice 12,746 of the Central Bank of Brazil, as of December 2004, establishes a schedule for the implementation of the structure of the New Capital Agreement - Basel II. In Brazil, the implementation of the standardized approach is estimated for 2007/2008. This approach must be adopted by all banks of Brazil.

The Notice 12,746 also provides for the implementation of advanced approaches, as the table below:

2008	2009	Validation of internal models for market risk; Establishment of a validation schedule of the basic approach version based on internal systems, and Disclosure of criteria for the recognition of internal models for operational risk.
2009	2010	Validation of the advanced approach version based on internal systems; and Establishment of the validation schedule for the advanced approach of operational risk.
2010	2011	Validation of internal methodologies to ascertain the capital requirement for operational risk.

In accordance with the New Agreement, the Central Bank of Brazil published Resolutions 3,380 and 3,464 which deal with the implementation of structures for operational and market risk management, respectively. Resolution 3,444 was also published, changing the ascertainment rules of the Capital (Reference Equity).

Implementation of Basel II in the Bradesco Conglomerate

Based on the consulting documents disclosed by the Basel Committees and on the exercises of quantitative impacts (QIS) for implementation of Basel II, Bradesco, since 2003, is getting prepared in an integrated manner to the adequacy to the requirements proposed by these documents.

In 2004, with the publication of the definite document New Capital Accord (International Convergence on Capital Standards and Capital Measurement), an internal implementation plan was established, under the coordination of the Risk Management and Compliance Department, involving areas of Bradesco Organization, and follow-up by a structure of PMO (Project Management Office).

The main activities established for adequacy are focused on:

- historical data storage on default and operational losses;
- review of the internal control procedures;
- review of the loan granting models;
- review of limit and guarantee management processes;
- evaluation of the credit recovery management models;
- development of economic capital models for operational risk and credit; and
- certification by the internal audit of all processes related to Basel II.

All these works are directed by an Executive Committee designated by the Board of Directors, under the coordination of the Organization's CEO, showing the total commitment of our management with the implementation of Basel II.

We understand that the implementation of the approaches of Basel II, connected to the best market practices, will bring to our organization improvements to the risk management processes.

Credit Risk Management

Credit Risk is the possibility of a counterparty of a loan or financial operation might not intend nor suffer any change in its ability to comply with its contractual liabilities, thus may generate any loss for the Organization.

Loan Granting

Under the responsibility of the Loan Department, the loan process of the Organization meets the determinations of the Executive Loan Committee of the Central Bank of Brazil, in addition to being based on the goals of security, quality, liquidity and diversification in the application of the loan assets.

In a constant pursuit of agility and profitability in businesses, we use methodologies directed and adequate to each segment the Bank operates, guiding the granting of loan operations and the determination of operational limits when adequate.

Loan Policies

Within rules and Loan Policy, the branches maintain their limit values variable, according to the size and guarantees of operations, and the automatic classification is verified against global risk of client / economic group.

The loan proposals pass through an automated system and under parameters in a continuous improvement process, with a view to supplying indispensable subsidies for analysis, granting and follow-up of loans granted, minimizing the risks inherent to loan operations.

For the granting of mass loans, the specialized Credit and Behavior Scoring systems enable to attain greater agility and reliability, besides the standardization of procedures in the credit analysis and granting processes.

The Executive Loan Committee located at Bradesco's Headquarters aims at joint decision-making processes within its skills referring to consultations about limits or operations proposed by the Bradesco Conglomerate, previously analyzed and with opinion of the Loan Department.

Operations are diversified, non-selective and focused on individuals and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the loan granted.

Loan Granting

Methodology Used for Loan Portfolio and Client Classification

The credit risk assessment methodology, besides delivering data to establish minimum parameters in the loan granting and risk management, also enables to define special loan policies in view of characteristics and size of client, providing grounds not only for the correct pricing of operations, but also the definition of adequate guarantees according to each situation.

The risk ratings for corporate clients are given on a corporate basis and periodically followed up, with a view to preserving the quality of loan portfolio.

In the case of individuals, the risk ratings are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, besides standard and past relationship with Bradesco.

Credit Risk Control

Aiming at mitigating the Credit Risk, Bradesco is continuously following up the processes of loan activities, in the improvement, examination and preparation of inventories of credit risk models, on the monitoring of credit concentration and on the identification of new components that offer credit risks.

In addition, the efforts, which are focused on the utilization of advanced models of measuring risks and on the continuous improvement of processes, have reflected on the performance of the credit portfolio, both in terms of results and solidity, to various past and future scenarios.

The credit risk control is made in a corporative manner and monthly followed by the meetings of the Executive Credit Risk Management Committee, which has the following attributions:

- a) to approve strategies, policies, rules and corporate procedures related to the credit risk management, compatible with the strategic credit goals defined by the Senior Management of Bradesco Organization;
- b) to follow the performance of the credit portfolio of Bradesco Organization, aiming to ensure adequate quality and profitability, in accordance with the parameters established by the Senior Management;
- c) to follow and evaluate alternatives for credit concentration risk mitigation, aware of those people who may cause unexpected and unacceptable losses for Bradesco Organization;
- d) to follow the implementation of methodologies, models and corporate credit risk management tools;
- e) to evaluate the sufficiency of allowance for doubtful accounts for coverage of expected losses on credit operations;
- f) to follow the movements and development of the credit market, evaluating implications, risks and opportunities for Bradesco Organization; and
- g) to regularly position the CEO and the Board of Directors about its activities and make the recommendations deemed appropriate.

We point out the following credit risk management activities:

backtesting and gauging of the models used for measuring loan portfolio's risks;

active participation in the process of improving risk rating models of clients, respecting the particular characteristics of the business and product segments in which Bradesco operates;

concentration analysis, by economic groups, activities, regions etc.;

follow-up of critical risks: periodical monitoring of the main events of default, by means of individual analysis based on the growth of clients balances and recovery estimates;

backtesting and follow-up of the provisioning on expected and unexpected losses;

continuous review and restructuring of the internal processes, including roles and responsibilities, qualification, organizational structures review and IT demands; and

participation in the evaluation of credit risks upon creation or review of products;

In addition, the whole process of control comprises periodical review of projects related to the compliance with best market practices and requirements of New Capital Basel Accord, by monitoring actions in progress and identifying new gaps and needs emerged for the improvement of management process, preparing action plans.

We point out that we are focused on the adequacy of processes for alignment to the requirements of the approach IRB Advanced of Basel II.

Credit Risk Analysis

In accordance with the procedures for credit risk control and management, we point out mainly the quality topics (classification and evaluation of clients), portfolio composition and concentration (by client/economic group, activity sector and maturity).

Portfolio Quality

In relation to the previous quarter, there was a slight increase in the quality of the total portfolio, mainly due to the growth in the participation of credits classified between AA and C in the operation focused on micro, small and medium-sized companies.

Loan Operations By Rating

Loan Operations By Rating (in percentage)

	2006			2007					
	June			March			June		
	AA-C	D	E-H	AA-C	D	E-H	AA-C	D	E-H
Large Corporates	98.4	0.6	1.0	98.3	0.9	0.8	98.3	0.9	0.8
Micro, Small and Medium-sized Companies	90.9	2.9	6.2	91.3	2.7	6.0	91.9	2.5	5.6
Individuals	89.5	2.3	8.2	88.6	2.2	9.2	88.7	2.1	9.2
Total	92.4	2.0	5.6	92.2	2.0	5.8	92.4	1.9	5.7

Provisioning

The processes to constitute PDD meet the requirements of the Central Bank of Brazil, based on Resolutions 2,682 and 2,697 and complementary circulars, with the purpose of ensuring the adequate classification and quality of loan operations. The provision process is composed by stages:

evaluation and classification of the client/ Economic Group: quantitative (economic and financial indicators) and qualitative aspects (registration and behavioral data) are considered;

classification of the operation: evaluation of the classification of the client connected to the liquidity and sufficiency level of the guarantee; and

reclassification by delay and term of the operation by renegotiation.

The total provision amount is recorded by the generic (classification of the client and/or operation), specific (overdue more than 14 days) and exceeding provision (internal criteria and policies).

PDD x Delinquency x Losses (Percentage over Loan Operation Balance)

The total volume of allowance for doubtful accounts reached R\$7,033 million, representing 6.5% of the total loan portfolio (6.7%, in March 2007), ensuring the maintenance of adequate coverage levels for future losses within the current profile of the loan portfolio.

In this sense, it is important to highlight the strength of the provisioning criteria adopted, which may be proved by means of analysis of historical data of allowances for doubtful accounts and losses effectively occurred, in the subsequent period of twelve months during the analyzed period. For instance, in June 2006, for an existing provision of 6.6% of the portfolio, the loss in the twelve subsequent months was 4.1% of the portfolio, that is, the provision covered with the margin the loss which really occurred.

Portfolio Concentration

By Activity Sector

The distribution of the portfolio by economic activity sector did not have a concentration. Operations for individuals, despite their significant participation, are covered.

Items	R\$ million							
	2006				2007			
	March	%	June	%	March	%	June	%
Public Sector	1,089	1.2	1,065	1.2	967	1.0	993	0.9
Private Sector	83,337	98.8	87,578	98.8	100,506	99.0	107,198	99.1
Corporate	47,619	56.5	50,019	56.4	58,878	58.0	62,504	57.8
Industry	19,313	23.0	21,070	23.8	25,207	24.8	26,880	24.8
Commerce	12,649	15.0	12,945	14.5	15,255	15.0	16,072	14.9
Financial Intermediates	266	0.3	321	0.4	422	0.4	385	0.4
Services	14,304	16.9	14,509	16.4	16,601	16.4	17,723	16.4

Individual	35,718	42.3	37,559	42.4	41,628	41.0	44,694	41.3
Total	84,426	100.0	88,643	100.0	101,473	100.0	108,191	100.0

By Flow of Maturities

The term of operations falling due has been extended, mainly due to the consumer financing operations, which are, by their nature, of larger term. The operations with term larger than 180 days represented 52.6% of the total portfolio in June 2007, against 49.8% twelve months ago. It is worth pointing out that the increase of the average term of the portfolio has been occurring in products of lower credit risk, that is, financing of vehicles and payroll deductible loan.

Loan Operations Flow of Loan Portfolio Falling Due by Terms (in percentage)

By Debtor

In relation to the previous quarter, the concentration levels of credit operations of the total portfolio had a reduction in all intervals of debtors. In the last twelve months, the growth of the participation of the rating AA and A (excellent and great concept and economic-financial condition) in the range of the one hundred and fifty largest debtors indicated an improvement in the quality of the portfolio.

Loan Operations Portfolio Concentration (in percentage)

Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating prices and rates caused by mismatched maturities, currencies and indexes of the Institution's asset and liability portfolios. This risk has been accompanied by growing strictness by the market, with significant technical growth over the past years, with a view to avoiding, or at least, minimizing, occasional losses to institutions, due to higher complexity in operations carried out in the markets.

Market Risk Control

Market risks are managed through methodologies and models, which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The market risk control is weekly followed by the meetings of the Executive Treasury Committee, whose main attributions are:

- a) to define operation strategies for optimization of results and present positions held by the Organization;
- b) to analyze the national and international political- economic scenario;
- c) to evaluate and define investment limits in public federal, private, national and international securities;
- d) to evaluate and define limits of VaR (Value at Risk) and Stop Loss of the portfolios;
- e) to define the liquidity policy;
- f) to establish operational limits of separation of assets, liabilities and currencies; and
- g) to hold special meetings to analyze positions and situations in which the position limits, Stop Loss or VaR, are exceeded.

Among the main activities of the market risk management activities, we point out:

to follow, calculate and analyze the market risk of the positions of the Conglomerate, by means of the VaR methodology;

to follow the limits of Stop Loss established for the positions by the Senior Management;

to make backtesting of the models adopted for measurement of market risks;

to prepare sensibility analysis and simulate results in stress scenarios for the positions of the Conglomerate;

to meet the demands of regulatory bodies concerning the calculation and sending of information related to prefixed positions, as well as the requirement of resulting capital (Circulars 2,972 and 3,046); and

to analyze and follow the evolution of the markets, involving operations, quotations and liquidity of assets, including pricing methods and evaluation of structured operations and derivatives, in addition to calculation systems of volatilities and correlations.

Concerning the Resolution #3,464 of the National Monetary Council, which provides for the implementation of the market risk management structure, Banco Bradesco is aligned with the main demands carried out by the Central Bank, mainly related to policies, strategies and systems for risk management, in addition to stress tests.

Market Risk Analysis

The Organization adopts a conservative policy regarding market risk exposure, VaR (Value at Risk) limits are defined by the Executive Treasury Committee and validated by the Board of Executive Officers, compliance therewith is daily monitored by an independent area to the manager of positions. The methodology used to determine VaR has a reliability level of 97.5% and time horizon of 1 day. The volatilities and correlations used by the models are calculated on a statistical basis and are adjusted, when necessary, at facts not captured yet by the data used in the models.

The last quarter was highlighted by the increase of volatilities in the world market. This movement resulted from the deterioration of expectations of the behavior of the North American economy, in addition to a higher inflation pressure in Europe. The fear of the maintenance of the monetary tightness in the American market by a larger period and the expectation of the increase of the interest rate of other markets caused an increase in the aversion to the risk, causing an increase in the interest rate paid by North America treasury securities. However, even with these happening, the capital flow for emerging countries did not have large impacts.

Despite the increase of volatilities, the Global VaR had a reduction in the period, due to the change of the portfolio composition, mainly of prefixed risk factors and IPCA coupon.

Risk Factors	R\$ thousand					
	2006				2007	
	March	June	September	December	March	June
Pre-fixed	4,527	15,114	13,402	6,729	13,343	26,083
IGP-M	12,038	10,343	7,401	5,865	4,177	14,451
IPCA	40,900	40,855	45,753	17,108	37,787	59,679
TR	7,223	6,164	4,036	2,292	6,110	4,550
Domestic Exchange Coupon	3,410	8,609	745	2,714	467	930
Foreign Currency	8,331	851	5,734	3,154	420	5,107
Variable Income	2,053	2,935	1,198	1,552	2,743	967
Sovereign/Eurobonds and Treasuries	32,251	41,098	16,998	9,420	20,861	17,493
Other	3,413	1,002	250	73	70	5,328
Correlated Effect	(50,799)	(41,206)	(18,765)	(15,976)	(18,005)	(68,877)
VaR	63,347	85,765	76,752	32,931	67,973	65,711
Average VaR in the Quarter	60,495	71,419	75,632	62,887	55,083	75,392
Minimum VaR in the Quarter	44,856	37,556	52,850	32,931	33,700	52,317
Maximum VaR in the Quarter	74,138	100,305	107,750	82,635	78,357	109,539

N.B.: Investments abroad protected by hedge operations are not considered in the VaR calculation, since these are strategically managed differently, with amounts taking into account the tax effects, which minimize the sensitivity to risks and corresponding impacts on results, as well as foreign securities positions, which are funding-matched.

The methodology applied and current statistical models are validated daily using backtesting techniques. The backtesting compares the daily VaR calculated with the result obtained with these positions (excluding result with intraday positions, brokerage rates and commissions). The main purpose of the backtesting is to monitor, validate and evaluate the adherence to the VaR model, and the number of disruptions must be in accordance with the reliability interval previously established in the modeling. The chart below shows the daily VaR and the corresponding result of the last 12 months, in which the adverse results exceed VaR only twice, that is, the number of disruptions was within the limit defined by the reliability level adopted, showing the efficiency of the model.

Backtesting Global VaR

With the purpose of estimating the possible loss not contemplated by VaR, Banco Bradesco daily evaluates the possible impacts on the positions of stress scenarios. Stress Analysis is a tool that tries to quantify the negative impact of shocks and economic events financially unfavorable to the positions of the institution. Thus, crisis scenarios are determined for risk factors in which the Trading portfolio has a position. The average estimated loss in a stress situation would be R\$581 million in the 2nd quarter of this year, and the maximum estimated loss would be R\$865 million. In the quarter analyzed the position which would contribute the most, in terms of risk in a stress situation, was related to the IPCA coupon.

R\$ thousand

Trading Portfolio Stress Analysis	2007	
	March	June
Stress Analysis - Trading Portfolio	463,991	623,524
Average in the Quarter	434,631	580,716
Minimum in the Quarter	284,863	340,138
Maximum in the Quarter	616,011	864,533

NB: The estimated impact for the Trading portfolio is the sum of the stress calculated individually for each risk factor, without considering the possible correlations.

Besides the follow-up and control via VaR and stress analysis, a Sensitivity Analysis is made daily, which measures the effect on the portfolio of the movement of the market curves and prices.

Liquidity Risk Management

The liquidity risk management is made by the Department of Operational Control and liquidity risk management is designed to control the different mismatched settlement terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions. Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure manner.

Liquidity Risk Control

The Bradesco Conglomerate has a Liquidity Policy approved within the scope of the Executive Treasury Committee. Daily different information is consolidated and distributed - some are updated in real time - to the Treasury Department and to the Board of Executive Officers. In this Policy the minimum liquidity levels are defined to be maintained by the Banks of the Organization, as well as the liquidity management instruments in a normal scenario and a crisis scenario. The policies and controls established fully comply with Resolution #2,804 of the National Monetary Council.

The several reports comprise historical information which allows the evaluation of the behavior and level of liquidity maintained, as well as simulations for the time horizon of, at least, one year. The simulations are made with information of scenarios produced by the Department of Research and Economic Studies, and the balances of products budgeted by the Department of Budget and Control.

Management of Internal Controls and Compliance

We are continually developing policies, systems and internal controls to mitigate possible potential losses generated by our risk exposure and strengthen the processes and procedures focused on Corporate Governance. We have also adopted additional methodologies and criteria for identifying, measurement, monitoring risks and respective controls. The network of dedicated staff and the investments in technology and in personnel training and recycling, together, allow us to assert that Bradesco's Organization internal control and compliance management is effective and is in line with international standards, so as to comply with the requirements set forth by national and international regulatory agencies. The Internal Control Area is one of the units of the Risk Management and Compliance Department, and is responsible for preparing and disclosing instructions of technical nature, criteria and procedures related to internal controls and compliance providing periodical status reports to the Internal Controls and Compliance and Audit Committees and to the Board of Directors.

The Internal Controls and Compliance Committee, each half year, issues an opinion on the effectiveness of the Internal Controls System maintained in the Organization and submits it to the approval of the Board of Directors, at a specific meeting about the subject, with the following attributions:

- a) to evaluate if the recommendations of improvements in the internal controls were duly implemented by the managers;
- b) to certify the conformity of procedures with rules, regulations and applicable laws;
- c) to follow the implantation and implementation of methodologies, models and corporate management tools of the operational risk, in conformity with the applicable rules; and
- d) to appreciate the reports issued by the Regulatory Bodies and Internal and External Audits concerning the deficiencies of internal controls and respective measures of the areas involved.

Among the main items focused on internal control and compliance management, we highlight:

the internal control structure has as basis the control component and objectives contemplated in the methodology of Committee of Sponsoring Organizations - COSO and on the framework of Control Objectives for Information and related Technology - Cobit, for the Information Technology environments, and adheres to the 13 Basel Internal Control Principles and to the requirements of the Central Bank of Brazil. That structure strengthens the ongoing improvement of the process used to identify and assess controls and mitigate risks.

the Compliance Agents responsible for executing the activities for identification, classification, assessment and monitoring of risks and controls, as well as for performing adherence tests and preparing and implementing action plans, according to models defined by the Internal Control Area.

- the prevention and fight against money laundering and financing to terrorism, which follows the best market practices and is based on the internal policies Know your Client and Know your Employee . Training and awareness programs are exhaustively provided to all employees and the use of technological tools to monitor financial transactions are constantly upgraded, with a view to protecting the Institution and its management, stockholders, clients and employees. Thus, the use of the Organization in transactions or situations which may be directly or indirectly related to crimes preceding the money laundering , characterized in Law 9,613/98, and to the financing to terrorism, are avoided at most, by the knowledge of the activities of clients and, taking place, are quickly identified by the efficient monitoring exercised by our systems and notices to competent authorities.

- Information Security basically comprises a set of controls, including policies, processes, organizational structures and security rules and procedures. It aims at protecting clients and the Organization s information, in the confidentiality, integrity and availability aspects.

Bradesco Organization created the Corporate Policy on Information Security, whose guidelines are made available on our website, and maintains a formal infrastructure, whose purpose is to promote the corporate management of Information Security, and thus providing effective protection to Information Assets. The Corporate Policy on Information Security includes Privacy Guidelines, voluntarily set forth by Bradesco Organization, aiming at protecting the privacy of its clients data. This reflects the values of the Organization and reassures its commitment to the continuous improvement of Data Protection process efficiency.

A Business Continuity Plan BCP was also set forth, in which actions to be taken are standardized, in order to, in crisis periods, make effective the recovery and continuity of business crucial process, avoiding or minimizing financial losses for the Organization and its clients.

In order to maintain total compliance to these procedures, constant training and awareness programs, as well as reviews of the policies, are carried out.

In this context, Bradesco Organization obtained in June 2007, according to Form 20-F filed with the SEC U.S. Securities and Exchange Commission, the certification of its internal controls, audited by PricewaterhouseCoopers, focused on the preparation of the accounting and financial statements related to the fiscal year ended on December 31, 2006, in accordance with the requirement in Section 404 of U.S. Sarbanes-Oxley Act of 2002.

Ongoing Enhancement

Operational Risk Management

Under the corporate scope, Bradesco Organization defines operational risk as the risk of loss resulting from inadequate or faulty internal processes, people and systems and from external events which may or may not cause the interruption of businesses.

Operating Risk Control

The operational risk management is based on the preparation and implementation of methodologies and tools that standardize the format of collection and treatment of the loss historical data and is aligned to the best practices of operational risk management. The works related to operational risk are in line with the best market practices, as well as the new corporate platform, which is under validation process. This new corporate system, called - Operational Risk and Internal Control System, has the advantage of integrating in a single data base Operational Risk and Internal Controls information and will meet, inclusively, the requirements established in Section 404 of Sarbanes-Oxley Act.

This new systemic outline via the web will increment the Organization's Operational Risk Management, as it improves the activities of capture, identification, measurement, monitoring and report, by means of a unified platform, providing the necessary qualitative support given by the Internal Controls Areas to analyses made by the Operational Risk Area. It also allows to meet the guidance in the New Capital Basel Accord, the schedule established by the Brazilian Central Bank, by means of the Notice #12,746, issued in December 2004 and the requirements in Resolution #3,380 of Bacen which provides for the implementation of the operational risk management structure in financial institutions.

The historical data base of Operational Risk will complete 4 years of storage at the end of 2007, minimum provided for according to paragraph 672 of Basel II for application of the advanced methodology. The data for preparation of the model calculation are obtained by means of accounting accounts opened exclusively for registration of losses resulting from Operational Risk events. From this information internally obtained we made the calculations related to the advance method of capital allocation separated by company which comprises the financial consolidated.

The centralized operational risk management meets all activities of the Organization, including the ones of the Insurance Group. As a result of this strategy, it was possible to obtain synergy and rationalization of resources, for the convergence of implementation of concepts of Basel II and Solvability II, unifying the criteria within Bradesco Organization, in conformity with Resolution #3,380 in what concerns the financial economic consolidated statement.

Approaches and Implementation of Basel II

For purposes of operational risk management and respective capital allocation, the recommendations in the New Capital Accord - Basel II and concepts required by the Brazilian Central by means of Impact Studies carried out in 2005 and 2006, comprise the following approaches:

Basic (BIA - Basic Indicator Approach): application of a single percentage on the gross result for the year.

Standardized (STA - Standardized Approach): application of distinct percentages on gross result segregated by business lines.

Alternative (ASA - Alternative Standardized Approach): application of a fixed percentage (factor M) on the average of credit assets (Business Lines; Retail and Commercial Bank) and distinct percentages on the gross result segregated by other business lines.

Aggregated Alternative (ASA 2): guided by the Brazilian Central Bank, it is different from ASA - Alternative Standardized Approach as to the segregation of the business lines.

Advanced (AMA - Advanced Measurement Approach): the focus on losses resulting from operational events by means of the construction of proprietary models for purposes of management and capital allocation.

For the advanced approach (AMA), which is the purpose of the Organization, we used the Loss Distribution Approach methodology (LDA), which comprises the estimate of distribution of severity (loss amount) and frequency (number of events) for each Business Line and Loss Event. To model the severity, we used statistic distributions, from which we point out the exponential, gamma, weibull and lognormal. For the modeling of the frequency distribution, we used distributions of poisson, geometric and negative binomial.

We made the simulation of distributions of severity and frequency using the simulation methodology of Monte Carlo and thus we determined the distribution of aggregated loss that reflects the estimate of expected loss (EL) and exposure to risk in the horizon of certain period of time (monthly, quarterly, annually etc.), considering the businesses and controls environment existing at the time of the calculations. In the simulation methodology of aggregated losses we included the possibility of using the correlation between events of loss or business line, allowing a more accurate determination of the capital related to the exposure of Operational Risk. Key indicators of risk, controls and analysis of scenarios are used to estimate loss models considering changes in businesses and controls environments.

We consider the exposure to the Operational Risk, that is, the capital to be allocated, as the unexpected loss (UL Unexpected Loss), which is represented by the difference obtained between the expected loss (EL) and the VaR measure (Value at Risk) with 99.9% of reliability, which will be reflected on future capital allocations by the advanced method. Additionally, we calculated the TVaR (Tail Value at Risk) measure which is the expected loss value in case this is higher than the VaR with 99.9% of reliability. Below there are the classifications of losses arising from the operational risk:

Aggregated Loss value

We are contacting the world consortium of data base of losses for financial intuitions, called ORX (Operational Riskdata eXchange Association) to verify the procedures to be adopted to participate and use information made available with the intention of assisting in the calculations of analyses of scenarios and comparisons of the positioning of Bradesco concerning large global players in relation to loss events.

Operational Risk Analysis

For the standardized methods of Operational Risk, we made calculations by company which comprises the financial consolidated. Below we show the results obtained by the Basic Indicator Approach (BIA), the Alternative Standardized Approach (ASA), and the one called Aggregated Alternative Approach, provided for in the New Capital Accord, paragraph 652, footnote 97. We emphasize that the Alternative Standardized method requires a lower capital allocation when compared to the other ones.

Participation among Approaches in the Calculation of Capital Allocation for Operational Risk (*)

Approach	June	
	2007	2006

Retail and Commercial Bank	16.0%	16.0%

(*) Calculated according to the Brazilian Central Bank criteria, considering the Financial Consolidated.

Capital Management

The Organization's capital management seeks to optimize the risk to return ratio, in such a way to minimize losses through the well-defined business strategies and maximizing efficiency in the combination of factors which impact on the Capital Adequacy Ratio (Basel).

Capital Adequacy Ratio (Basel) in June 2007 R\$ million

Credit Cards

Bradesco has been increasing its share in the segment, making the most complete line of Cards available in the country. It provides Visa, American Express, Mastercard and Private Label credit cards, which stand out for the range of benefits and convenience offered to its associates.

Bradesco launched, in this half, the Bill Parceling service, which finances the bill balance from 2 to 12 fixed installments with financial costs lower than the revolving credit, increasing the clients' options for payment of the bill.

Innovatively, we launched in Brazil the Credit Card FixCard which, in addition to having reduced interest rates, allows the client to plan his/her expenditures previously knowing the value he/she will monthly pay.

We also launched the Cred Mais INSS credit card, for retirees and pensioners of INSS (Brazilian Social Security Institute) with a view to meeting the standards required by this entity and offering reduced interest rates for financings.

Bradesco has been intensifying their sales with American Express Cards by making available for their clients and Prime clients special promotions on the pre-sale of tickets, from June 4 to July 1, 2007, for the spectacle of the tour of Cirque du Soleil, *Alegria*, which will be performed in six Brazilian cities from September 14, 2007 to June 8, 2008, and which is sponsored exclusively by Bradesco and American Express Cards.

In 1H07, Bradesco increased by 45.3% its Credit Card base in relation to 2006 and the number of transactions climbed 39.2% in relation to the same period of the previous year.

The revenue of the 1st half of 2007 reached R\$14,998.2 million, a 69.3% increase compared to the same period of 2006, and the average ticket (revenue by transaction) had a 21.6% growth compared to the 1st half of 2006.

Credit Cards Base million

Credit Cards Sales Result R\$ million

Debit Cards

Aiming greater efficiency of means of payments and convenience to our clients, Bradesco launched in this first half the service Troco Fácil (Easy Change), which allows holders of Cards Visa Electron Bradesco, at the moment of the payment of the purchase with the card, to obtain change in cash in the establishments with Visanet.

Bradesco closed 1H07 with 41.0 million Debit Cards, 5.4% higher than the base in the same period of 2006.

The average quantity of transactions per Card grew 7.1% compared to the same period of the previous year, and the total quantity of transactions made by Debit Card in 2007 was 163.8 million, a 12.9% growth compared to the same period of 2006.

In terms of sales results, there was an increase of 16.9% over the same period of 2006. The financial volume reached R\$7,667.3 million, versus R\$6,560.8 million in 1H06.

Debit Cards Base million

Debit Cards Sales Result R\$ million

Private Label Cards

In this market, Bradesco operates in the segments of supermarkets through partnerships with the stores Comper, Carone, Dois Irmãos, G. Barbosa and Coop; in the segment of Retail stores in partnerships with Casas Bahia, LeaderCard and Lojas Esplanada (Grupo Deib Otoch); in the Clothing segment in partnership with Lojas Hering and Luigi Bertolli; and in the segment of drugstores with Panvel and Drogasil chains.

In this first half Bradesco and the cosmetics company O Boticário launched the Private Label Card, with many benefits to franchisees of this company and opportunities to increase the client base.

Bradesco ended the 1st half of 2007 with 6.8 million cards, with revenue of R\$1,786.1 million and 22.4 million transactions.

Meal and Food Cards

In partnership with other issuers and Visa International, Bradesco constituted Visa Vale and actively participates in the distribution of its cards.

The value proposal for this business, besides reducing the operational cost, increases the efficiency of means of payment with 100% of the electronic transactions, and offers higher security and convenience for companies and workers.

Bradesco contributes with a base of 1.3 million Visa Vale Cards in 2007, representing a growth of 24.3% compared to the same period of 2006. Sales result in the 1st half added up to R\$967.3 million, a growth of 24.9% compared to the same period of 2006.

Income from Cards

Card services revenue reached, from January to June 2007, R\$1,138.0 million, with a growth of 61.9% compared to the same period of 2006. If we exclude revenues from the American Express business, which were not in the first half of 2006, in the amount of R\$236 million, we will maintain the excellent growth of 28% against the same period of 2006, mainly in Revenues of Commissions on Purchases and several fees of services provided to clients which are card holders and affiliated establishments.

The revenues coming from interest had a 67.9% increase compared to the same period of 2006, reaching R\$1,005.0 million. The variation resulted from higher volumes of assets and incorporation of the American Express business, once the average interest rate had a 9% reduction.

Credit Card Assets

In 1H07, Credit Card assets, which include financings to the bearer, advances to establishments and credits for cash purchases or by installments, increased by 50.8% compared to the same period in 2006, ending the first half with R\$10,211.2 million, including R\$1,761.2 million coming from the American Express business.

Credit Card Assets R\$ million

Social-environmental Responsibility

Since 1993, Bradesco Cartões promotes social-environmental and humanitarian actions, transferring to philanthropic entities part of the annual fees of cards. It is worth to point out the issuance of SOS Mata Atlântica, AACD, APAE and Casas André Luiz cards. In 1H07, the R\$2.0 million was transferred.

International Area

The International Area operates under the following framework:

7 Units Abroad (Branches and Subsidiaries)

Branches:

New York	Bradesco
Grand Cayman	Bradesco
Nassau	Boavista

Subsidiaries:

Buenos Aires	Banco Bradesco Argentina S.A.
Luxembourg	Banco Bradesco Luxembourg S.A.
Tokyo	Bradesco Services Co., Ltd.
Grand Cayman	Cidade Capital Markets Ltd.

12 Operating Units in Brazil

Belo Horizonte, Blumenau, Campinas, Curitiba, Fortaleza, Manaus, Porto Alegre, Recife, Rio de Janeiro, Salvador, São Paulo and Vitória. There are also 7 exchange platforms located in Belém, Brasília, Franca, Guarulhos, Ribeirão Preto, Santos and Sorocaba.

Bradesco Organization recorded another period of strong support to the increasing insertion of the country in the worldwide foreign trade flow. The International Area's performance recorded in the 1st half of 2007 bears witness to this statement.

Export Market

The total of export contracts closed amounted to US\$19.3 billion in the 1st half of 2007, an increase of 22.9% when compared to the US\$15.7 billion recorded in the same period of 2006.

It is worth pointing out the record mark obtained in April in the closing of export exchange contracts, of US\$4.0 billion, surpassing by 11.1% the previous record of US\$3.6 billion registered in March 2007.

The market share in the period was 20.8% .

Financings to Brazilian Exports

Total financing carried out in the 1st half of 2007 reached the mark of US\$6.7 billion, surpassing by 13.6% the amount of US\$5.9 billion in the same period of 2006. This amount does not comprise the US\$388.0 million of BNDES-Exim financings lent by Bradesco's International Area.

Import Market

In this segment, import exchange closings had a better performance when compared to export. The amount of US\$7.7 billion recorded in the period registered a growth of approximately 32.8% compared to the US\$5.8 billion in 1Q06. We point out that the market, in the same period, grew only 16.5% .

The market share recorded in the period was 16.6%, which represents the best mark obtained by Bradesco's international area in the import segment.

Financings to Brazilian Imports

As a result of this performance, the amount financed by Bradesco in the 1st half of 2007 reached the amount of US\$941.9 million, surpassing by 213.8% the amount allocated to financings in the same period of 2006, which was US\$300.2 million.

Volume of Foreign Currency Trade US\$ billion

Export Market

Import Market

At the end of the 1st half of 2007, the International Area showed, in its asset portfolio, the significant balance of US\$10.4 billion, taking into consideration the amounts of financings to export and import, international guarantees granted, including confirmed export letters of credit, loans to Brazilian companies headquartered abroad and committed lines.

The evolution showed in the portfolio was 60.0% when compared to 1H06, when the balance was US\$6.5 billion.

Analytically, the following table demonstrates the balances of the several products in dollars and in reais on the reference dates of 6.30.2006 and 6.30.2007.

Foreign Trade Portfolio	June 2006		June 2007	
	US\$ million	R\$ million	US\$ million	R\$ million

Collateral				
Foreign Collateral Provided	397.8	861.0	288.9	556.2
Total Foreign Collateral Provided	397.8	861.0	288.9	556.2
Total Foreign Trade Portfolio	6,281.4	13,591.9	9,027.4	17,384.1
Loans via Branches Abroad	259.9	562.6	843.0	1,623.8
Committed Lines			567.9	1,093.9
Overall Total	6,541.3	14,154.5	10,438.3	20,101.8

With the clear purpose of intensively supporting companies operating in the foreign trade, and, mainly, those intending to enter this market, Bradesco, through its International Area, is investing in the expansion of its structure, through exchange platforms to be installed in the main export centers of the country. These platforms, added to the seven platforms already installed with the segment Bradesco Empresas, reinforce the synergy in the prospect of new clients, as well as in the increment to business with existing clients.

It is also worth pointing out that Bradesco already uses a digital certification system for foreign exchange contracts, allowing the customer to sign them electronically. That, besides making the transactions easier, speeds up the exchange operation contracting flow and reduces costs and operational risks.

The funding for the foreign trade financing is obtained from the international financial community, by means of credit lines from correspondent banks abroad. At the end of the 1st half of 2007, 96 banks, especially U.S., European and

Asian banks had extended credit lines to Bradesco.

The spreads paid by Bradesco in these fundings were, throughout this half, between 10 and 18 basis points above Libor for a period between 180 and 360 days. It is important to point out that this spread level had never been recorded in fundings performed by Brazilian banks.

It is worth recording that in addition to traditional funding with correspondent banks, aimed at financing the Brazilian foreign trade, in 1H07 Bradesco Organization raised US\$793.8 million in the international capital markets through long and medium-term public and private placements. These funds were also allocated to the financing of the foreign trade and to working capital loans. In this amount, we point out the securitization operation of US\$500.0 million, with a 7-year term, called MT100 Securitization, completed on 6.11.2007.

Cash Management Solutions

Cash management solutions are structured by an area composed of experts who conduct analysis and implementation of customized, parameterized and converging solutions, taking into account the company, its suppliers, its clients, employees, and other stakeholders, conditioned to the needs of cash management of the companies, maximizing results in the mutual view of businesses offered and operated with clients, with a technological synergy of the products and channels involved.

Among the key product and service solutions made available by Bradesco, we point out the following:

Receivables Solutions

Bradesco Online Collection

The high efficiency standards of Bradesco's online Collection service generate confidence, minimizing costs and maximizing customer returns, covering all of their Accounts Receivable management needs.

As a result of these features, Bradesco Collection is the market leader, generating other business opportunities for the Organization.

Tax Payment and Collections

Developed based on high standards of efficiency and quality, Bradesco's tax payment and collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other hand, they effectively interact with the different Government Departments in the federal, state and local scope and with Public Utility concessionaires. These are emphasized for the speed and security in processed information and amounts collected.

Payment Solutions

Pag-For (Suppliers Payment), Bradesco Net Empresa and PTRB (Electronic Payment of Taxes)

Based on the same efficiency commitment, Bradesco's payment solutions available via Net Empresa, Pag-For and PTRB products, meet all clients' needs, enabling supplier payments, tax settlements and wire transfers, via online or through the transmission of files with speed and security.

In the 1st half of 2007, payment solutions accounted for R\$319.6 billion, corresponding to 78.9 million payment transactions, enabling the management of Accounts Payable of more than 446 thousand companies.

Corporate Solutions

Bradesco Digital Certificate

Attentive to the market trends, Bradesco is accredited as Register Authority to issue the Digital Certificate, an electronic identification document ensuring integrity, authenticity and the irreversibility of any transaction or message, assisting to maintain the confidential data protected, in addition to allowing documents storage.

Bradesco Digital Certificate is legally valid and is digitally signed by a Certifying Authority, and may be used for documents digital signature.

Government Authority Solutions

The activities of the Government Authority area comprise a specialized service to entities and bodies of the Executive, Legislative and Judiciary Branches, within the federal, state and municipal scopes, in addition to Independent

Governmental Agencies, Public Foundations, Government and Mixed Companies, Armed Forces (Army, Navy and Air Force) and Auxiliary Forces (Federal, Military and Civil Police), identifying business opportunities and structuring customized solutions, also counting on a portal on the Internet (www.bradescopoderpublico.com.br), aiming at conquering new clients, strengthening relationships, and establishing a consolidated presence before the Public Authorities.

The website presents Corporate Solutions for Payments, Receipts, HR and Treasury to Governments, and has an exclusive place for Public Servants and Military Policemen, with all the products and services Bradesco makes available for these clients.

Qualified Services to the Capital Markets

Bradesco is one of the main suppliers of Qualified Services for the Capital Markets. By means of modern infrastructure and specialized team, Bradesco proposes innovative solutions, expanding service options and generating operating flexibility to its clients.

Our services:

Assets Bookkeeping

In this segment, Bradesco offers Bookkeeping Services for Stocks, Debentures, Investment Fund Quotas and Brazilian Depository Receipt – BDR. We point out the participation of Bradesco as the Depository Financial Institution of the Companies – Stocks, in the going public operations – Public Offering of Stocks (IPO), whose market share was 36% share among the operations structured in 1H07. In the operations of issuance of debentures we reached a 67% market share, considering the number of issuances carried out.

Qualified Services to the Capital Markets

Main Indicators in 1H07:

Book-Entry Stocks	192 companies, with market value of R\$510.6 billion, combining more than 2.5 million stockholders.
Book-Entry Debentures	57 companies with 83 issues, totalizing an amount of R\$66.6 billion.
Book-Entry Quotas	62 closed funds, with restated amount of R\$5.9 billion.
Brazilian Depositary Receipt BDR	2 programs, with market value of R\$146.4 million.

The investors have access to Bradesco's branch network, besides the online access, via the Internet Banking, related to their positions under custody at Bradesco and CBLC (Brazilian Clearing and Depositary Corporation).

Custody, Controllershship and Asset Management

Targeted at companies, assets, foundations, insurance companies and private pension plan entities, the provision of service for this segment has continuously grown. Part of this growth may be verified in the evolution graphic of Assets under Custody, whose increase was 16% in the 1st half.

Main Indicators in 1H07:

Custody	R\$375.3 billion in assets under custody (funds, portfolios, DRs and receivable funds).
Controllershship	R\$337.6 billion distributed in 995 investment funds and portfolios under management.
Depositary Receipt DR	R\$82.3 billion in 12 programs.
Assets under Custody Growth	R\$ billion

Business Processes

Ombudsman Area

Bradesco Organization always had the philosophy of giving voice to its clients and users of banking products and services, innovatively creating in April 1985, the service Alô Bradesco (Hello Bradesco), the first financial market communication channel for suggestions and complaints, launched five years prior to the launching of Consumer Defense Code. This channel contributed to enhance these relations and has been an important strategic tool for relations transparency.

We implemented the Ombudsman area, dealing with all manifestations, whether these stem from Alô Bradesco service, which answers by phone and e-mail, or those deriving from Brazilian Central Bank, Procon (Consumer Protection Agency) and Press. It is incumbent upon the Ombudsman to manage these manifestations, follow-up term and quality of answers offered, provide the managers of products, services and processes with updated information so that they can learn from these warnings received and anticipate compatible solutions with needs and demands of our clients.

Quality Management NBR ISO 9001:2000 Certifications

To successfully conduct and operate an organization it is necessary to direct and control it in a transparent and systematic manner. The success may result in the implementation and maintenance of a management system.

The Organization counts on a group of highly qualified professionals, responsible for the methodology definition of Bradesco Quality Management System (SGQB) and implementation process management.

Bradesco Quality Management System has as purpose to continuously improve the performance of processes, taking into consideration, at the same time, the needs of all interested parties. By means of SGQB, the Premises show their capacity to provide products/services that meet the client's requirements and the applicable regulatory requirements, aiming to increase the client's satisfaction.

Bradesco Organization, in the permanent search to provide its clients and users with the easiness and commodity that only a Complete Bank can offer, reached this acknowledgement in 185 processes certified in NBR ISO 9001:2000 related to Products and Services.

Edgar Filing: BANK BRADESCO - Form 6-K

The ISO 9001:2000 certifications are formal evidences that all the activities related to the quality of the product or service certified were planned, implemented and controlled according to an international acknowledgment rule.

Accordingly, the certifications are important competitiveness instruments ensured only to companies that show their commitment to quality.

The ISO 9001:2000 certifications motivate the Organization to advance in the quality management practices, thus adopting the Excellence Criteria Worldwide Class, which, undoubtedly represent a great differential in business management, as well as they highly contribute to issues of sustainability and corporate governance.

Data Protection and Privacy Seal GoodPriv@cy

GoodPriv@cy Data Protection and Privacy Seal is a standard established internationally, comprising requirements for the management of data protection and privacy at the organizations.

Bradesco Data Protection Management System has as purpose to standardize data protection management at Bradesco Organization and minimize risks related to violation in data protection and failures in information security, by means of the compliance with the legal and internal requirements and the continuous improvement of data protection and privacy processes.

As Bradesco Organization is a pioneer in technological innovation, it constantly invests in IT, concerning about information security in all levels, establishing procedures in the ethical treatment of personal data collected for any purpose, including the establishment of the Information Security Corporate Rules and Policy. The certifications show this practice and reassure the Organization's permanent concern about data protection of its clients and users.

At present, Bradesco Organization has 15 certifications:

Methodology for Mapping and Documentation of Processes

This is a corporate methodology whose goal is to enable the Bank's Departments to map and document the product and service processes it manages, in a systematized and standardized manner.

The result of the documentation is stored in a specific Corporate Database, from which the documentation requested is provided concomitantly, in order to comply with:

Activity-Based Costing System - ABC;

Bradesco Quality Management System - NBR ISO 9001:2000;

Internal Controls and Compliance;

the Section 404 of the Sarbanes-Oxley Act; and

Ongoing Improvement of Processes.

The methodology establishes a standardized document structure, which is adopted by the Departments and allows an overview of processes from products/services, as follows:

Organization Chart;

Product and Service Tree;

Context Diagram;

Process Macro Vision;

Process Flow; and

Activity Detailing.

The structure defined for the methodology, combined with the information on products and services, effectively allows the analysis and diagnosis for the development of operations aimed at improving processes and complying with the requirements of the management systems.

Activity-Based Costing - ABC

Designed to support the Bank in its actions to improve processes and optimize productive resources, such as practices recommended for decreasing costs, Bradesco adopts the Activity-Based Costing System - ABC, which measures the cost and performance of its activities, resources and cost centers.

Thus, the knowledge of the Bank's activities, as well as the correct measurement of the resources consumed by these activities, allows a more accurate analysis of the cost/benefit ratio of each of the Organization's productive processes and results centers.

We stress that as a result of the application of Activity-Based Costing, the Bank is now meeting the following targets: improved allocation of costs to products, channels and customers; support to qualification studies and negotiation of bank fees; subsidy to product, unit and client profitability systems; support to studies concerning outsourcing, incorporation and equipment sharing; as well as support to cost rationalization studies.

Activity-Based Management Program

Seeking to explore the potential applications of the information base of the Activity-Based Cost , we are to adopt a Cost Management model by means of the Activity-Based Management ABM, which will rapidly lead to the prevention of costs and a proactive approach regarding the identification of opportunities.

Accordingly, as processes are improved, operating performances can be seamlessly integrated with Bradesco's strategic goals, to create and/or sustain Bradesco's competitive advantages and add value both for clients and stockholders.

Thus, the future mission of Activity-Based Management is to provide permanent support to the planning and control of the Bank's business processes, ensuring that tactical and operational issues are continually improved, as well as support their strategic gearing.

Integrated Management System ERP

For purposes of providing permanent and appropriate support for its operations and in the pursuit of improving results, as well as extending its capacity to manage the Organization's resources, Bradesco adopted one of the most modern concepts for integrating organizational processes, using SAP's Integrated Management System, mySAP Business Suite solution.

This system's implementation represents an innovation in the treatment of the value chain supporting Bradesco's financial industry, comprising analyses dimensions focused on processes, people, organizational structure and technology.

Initially, the system will integrate processes in the Human Resources, Training, Material and Service Purchases, Accounts Payable, Physical and Fiscal Receiving, Fixed Assets and Accounting, in addition to the Availability Control process, for the effective follow-up of the Bank's administrative expenses.

Currently, the processes of Works Management, Maintenance Management, Currency Management, Real Estate Management, Supplies Management (Auction and Electronic Quotation), Banking Accounting and Consolidation of Financial Statements are being implemented.

The adoption of the Integrated Management Systems by the areas integrated through this technology allowed them to renew processes and review organizational structures and nearly 80 thousand system users were qualified via presence and e-learning training.

As a result of the implementation of the Integrated Management System, Bradesco will benefit most from the organization and standardization of the processes carried out in different areas, agile decision-making, secure data processing, as well as decreased operating costs and increased productivity. These factors are crucial for the Organization's growth, especially in view of current fierce competition in the financial area, prompting us to pursue increasingly effective management methods designed to ensure that all of Bradesco's business potential is properly leveraged.

Acknowledgments

In 1H07, Bradesco was the winner of the Partners of Development Award, in the financial sector. Carried out by Correio Braziliense newspaper, the award elected the ten companies that most contributed to the economic development of the country in 2006.

Bradesco stood out in the Financial Balance Award in the following categories: Best Retail Bank, Best Life and Pension Plan and Best Certificated Savings Plans. The award was promoted by Gazeta Mercantil newspaper and was based on studies of the Austin Rating consulting firm. Bradesco also received the award for Best Financial Conglomerate of the country in the Retail segment promoted by Conjuntura Econômica magazine, published by Fundação Getúlio Vargas

Valor Financeiro yearbook indicated Bradesco for the position of general leader of the financial sector in Brazil, as the bank obtained the first position among private banks, insurance companies and life and private pension companies.

According to a ranking prepared by BrandAnalytics and published by IstoÉ Dinheiro magazine, Bradesco was considered the most valuable brand of Brazil, as it appreciated 280% in two years. It is also the most valuable brand in the financial sector in Latin America, according to the ranking prepared by Brand Finance consulting firm and disclosed in a special publication of América Economia magazine.

A study performed by the Booz Allen Hamilton consulting firm, one of the largest companies of the sector in the world, appointed Bradesco as the Best Brazilian Bank concerning customer service in branches, internet and call center. The study assessed customers' perception and experience in 100 banks throughout 17 countries.

Bradesco was the only bank to obtain the maximum score of 100% in the assessment of the assistance centers of banks and cards, carried out by the National Institute of Metrology, Standardization and Industrial Quality (Inmetro). The result of the research was shown in Fantástico program, of Globo broadcasting.

A research on the quality of assistance centers promoted by Consumidor Moderno magazine and the GFK Indicator Research Institute appointed Bradesco as the winner of the Customer Service Excellence Award in two categories, Retail and High Income, with Bradesco Prime. Bradesco was also appointed as the leader bank in the fourth edition of the award The Companies that Most Respect Consumers, carried out by Consumidor Moderno magazine in partnership with TNS/Interscience, in the categories Retail Bank and Pension Plan, with 38% and 27% of preferences, respectively.

A research promoted by Info Exame magazine concerning companies in the vanguard of IT pointed out Bradesco to the leadership of the ranking of The 100 Most Connected Companies of Brazil for five consecutive years. Bradesco was also the major winner of the E-finance Award promoted by Executivos Financeiros magazine, as the best IT bank of the year since it was awarded for the largest number of categories in this edition, totaling 7 categories.

Bradesco was the investment fund managing company that obtained the best assessment from GazetaInveste magazine, a publication of Gazeta Mercantil newspaper. According to the study, Bradesco obtained the first place in the 2006 ranking with 36 of its funds rated with five diamonds. In addition to the general leadership of the ranking, Bradesco was awarded as the best fund management in three of the six main categories assessed: fixed income, exchange and variable income.

Bradesco also stood out in the ranking of the best funds managing companies of ValorInveste magazine, a publication of Valor Econômico newspaper. The study was exclusively carried out in Brazil by Standard & Poor's. Bradesco had 60 investment funds present in the list, three of which were considered five stars. The bank was also the winner of the Top Gestão 2007 award in the category Flexible Mixed Income, also published by ValorInveste.

Bradesco was chosen by Global Finance magazine, specialized in international finance, as the institution with the best quality treasury operations in Latin America, in the Best Provider of Money Market Funds category.

Grupo Bradesco de Seguros e Previdência obtained The Best Insurance Companies of Brazil award from Conjuntura Econômica magazine, a publication of Fundação Getulio Vargas, since it stood out as the major insurance group of the country due to earned premiums, net income, stockholders' equity and total assets. Bradesco Vida e Previdência was considered the best in the Supplementary Pension Plan sector.

Bradesco was also the winner in the category Best Global Performance in the Segurador Brasil 2007 Award, promoted by Segurador Brasil magazine. Bradesco Vida e Previdência was acknowledged in the category Best Performance in Private Pension Plan, and Bradesco Auto/RE in the category Best Performance in Residential Risks. Bradesco Capitalização received the Desbravadores trophy and the Segurador Ambiental trophy, with the Pé Quente Bradesco SOS Mata Atlântica certificated savings plans.

6- Social environmental Responsibility

Bradesco Organization and the Social-environmental Responsibility

Bradesco believes that successful companies are those that generate good results for all the community, adopting long-term policies whose purposes are to foment the country's sustainable development and improve wealth distribution. The Organization also understands that combining economic development, environmental preservation and social inclusion is the great challenge of the modern world, crucial for the human development and for the corporate continuity.

In conformity with these premises, Bradesco consolidates its social-environmental policy, showing concern about sustainable development, respect to the ecosystems and human dignity, undertaking to disseminate, along with its clients, a culture based on actions of social-environmental responsibility.

The entire Bradesco's Social-environmental Responsibility Corporate Policy is available at the website www.bradesco.com.br/rsa. Its purpose is:

- to search for convergence of its business goals with social-environmental responsibility aspects;
- to develop and sell products and services that respect the social-environmental awareness spirit;
- to encourage partnerships, supports and cooperation with governmental entities, NGOs and market entities;
- to choose suppliers and service providers who are engaged in practicing social-environmental responsibility;
- to maintain and promote an ethical and transparent posture on all levels of activities;
- to ensure conformity of the applicable legislation with the social-environmental issues;
- to adopt responsible policies of loan concession to clients;
- to stipulate, for borrowers of funds the obligation to maintain an action plan of risk mitigation;
- to adopt internal policies with a view to rationalizing the use of non-renewable resources;
- to promote awareness and provide training to employees, as well as guide service providers through social-environmental issues;
- to make all efforts for the society to share globalization benefits, by means of a more inclusive and equal market;
- to defend social justice principles and human rights;
- to support the education of children and youngsters, as well as the professionalization of youngsters and adults;
- to adopt internal policies of diversity valuation;
- to propagate, value and support projects targeted at the practice of sport activities in the communities;
- to develop, implement and maintain a social-environmental management system; and
- to disclose its achievements by means of the Sustainability Report.

2006 Sustainability Report

Launched in March, the 2006 Sustainability Report presents an overview of the Organization's actions in economic-financial, environmental and social areas, disseminating, among the stakeholders, the practices and concepts applied in Bradesco on a daily basis. Thus, the publication also intends to show the Organization's strategic public effective ways to contribute to the consolidation of a sustainable business network, based on ethics, respect, transparency and shared responsibility.

With the purpose of offering an even more transparent account rendering to the Organization's strategic public, the 2006 Sustainability Report adopts the indicators and guidelines suggested by the Global Reporting Initiative (GRI), including the financial sector supplement. The publication is available at Bradesco's Social-environmental Responsibility website: www.bradesco.com.br/rsa.

Bradesco Organization and the Social-environmental Responsibility

Equator Principles

Since 2004, Bradesco is a signatory of the Equator Principles, a set of social-environmental measures based on criteria defined by the International Finance Corporation (IFC), used in the evaluation and concession of financing of projects under the Project Finance category.

In July 2006, Bradesco ratified its adhesion to the new version of Equator Principles, which comprises all project financings - new or expansion ones, including its assistance, with total capital cost higher or equal to US\$10 million. The adoption of these principles is voluntary, with no dependence or support of IFC or the World Bank. Thus, the institutions which will adopt them must take them as basis for the development of practices and internal and individual loan granting policies.

In 2006, 11 projects evaluated by Bradesco were in accordance with criteria set forth by the Equator Principles.

Global Compact

Aligned with its corporate responsibility guidelines, Bradesco, in November 2005, adhered to the Global Compact principles, assuming the commitment to promote actions to contribute for the development of an inclusive and sustainable economy, increasing its performance within the social-environmental scope.

With ten main principles, based on the defense of human and labor rights, environmental protection and fight against corruption, the Global Compact is a result of an invitation made by the United Nations (UN), at the World Economic Forum in Davos, in January 1999, to companies, NGOs and other governmental and civil entities, to follow and disclose its principles.

Millennium Development Goals

Bradesco also supports the Millennium Development Goals (MDGs), a commitment executed in 2000 by 191 countries members of the UN, which seeks sustainability and the improvement of the quality of life throughout the world. Even though the initiative is executed by governments, the successful achievement of these Goals depends on society as a whole and, specially, on the business sector.

ISE Corporate Sustainability Index

In November 2006, Bradesco started integrating the Corporate Sustainability Index (ISE) new portfolio of the São Paulo Stock Exchange (Bovespa). ISE is comprised of stocks issued by companies which have a high level of commitment to sustainability and social responsibility.

The Sustainability Study Center of the São Paulo School of Business Administration of Fundação Getulio Vargas (FGV-EAESP) was contracted to evaluate the performance of the companies eligible to ISE. For that purpose, a questionnaire was developed with the triple bottom line concept, which comprises the evaluation of economic, social and environmental elements in an integrated way.

The choice of Bradesco's common and preferred stocks to comprise ISE strengthens the Organization's commitment to the good corporate governance practices in the relationship with stockholders, clients, investors, employees and the general public.

DJSI – Dow Jones Sustainability World Index

Since September 2006, Banco Bradesco started taking part in the selected group which comprises the Dow Jones Sustainability World Index (DJSI) portfolio. Currently, DJSI is comprised of 318 companies that materially demonstrate having corporate sustainability rooted in their initiatives, practices and business management.

SA 8000 Certification

Bradesco received the SA8000®:2001 international standard of social responsibility, granted by the Human Resources Management in the Administrative Center, at Avenida Paulista, in São Paulo, and in the Human Resources Department, placed in the ground floor of Prédio Novíssimo, in Cidade de Deus, Osasco (SP). Upon this recognition, the Bank became the first financial organization in America to receive the SA 8000. The certification was recommended by the certifying agency DNV – Det Norske Veritas.

3rd Bradesco Suppliers Meeting

In May 2007, Bradesco carried out the 3rd Suppliers Meeting. The event gathered representatives of more than 100 suppliers of products and services from several different segments – from furniture to security companies. This event aims at committing the suppliers of products and services to Bradesco's social-environmental guidelines, by showing the Bank's actions towards the social-environmental area and informing what the Organization expects from its suppliers about this aspect. With other support and guidance actions, the event aims at helping the suppliers to incorporate the social-environmental responsibility in the every day work.

The commitment of suppliers to the adoption of social-environmental guidelines determined by Bradesco is a determining factor for contracting new suppliers and in the continuity of existing contracts. New events will be carried out semiannually. Bradesco's target is to reach, in two years, all the Bank's 1.5 thousand suppliers. The next event will be carried out in November 2007.

Launching of Leasing to Basic Sanitation Projects

Bradesco entered into a partnership with Biosistemas, a company specialized in technology for treatment of water and industrial/urban effluents, with headquarters in São Paulo, to facilitate the access to new basic sanitation technologies. According to this agreement, the Bank created a special leasing line, offering clients special conditions in the financing of projects for the implementation of water treatment stations (ETA) and sewage treatment stations (ETE) in companies, as well as residential and commercial condominiums or other places where this environmental measure is made necessary to preserve natural resources.

The delivery term of these special lines may range from 36 to 60 months, with grace period of up to five months for the payment of the first installment. Upon the payment, the contractor enjoys all the structure installed, and became its definitive owner up to the end of the agreement period.

ISO 14001 and OHSAS 18001 Certifications

Bradesco was the first financial institution in Brazil to receive the ISO 14001 and OHSAS 18001 certifications. The unit certified was the building on Avenida Paulista, in the city of São Paulo. This is a 12-story building with 4 basements refurbished and adapted, aiming at complying with all the specifications and rules required for the referred certifications.

ISO 14001 is a rule internationally accepted which defines the requirements for establishment and operation of an Environmental Management System. OHSAS 18001 defines the requirements for an Occupational Safety and Health Management System.

Bradesco's Contribution to Preserve the Environment

Aware of the need to maintain its adequate facilities, without disregarding the environmental aspects, Bradesco has adopted practical measures that contribute to environmental preservation.

The Organization permanently seeks to apply new technologies minimizing the impact on ecosystems. It also seeks the contracted companies' commitment to the Bank's goals, as well as the ongoing awareness of our staff in pursuit of eco-efficiency.

1) World Environment Day

On June 5, 2007, Bradesco distributed more than 200 thousand native plant seedlings from Atlantic Forest in several places in the city of São Paulo, such as intersections of the main avenues and entrances of subway stations. The action was developed in partnership with Fundação SOS Mata Atlântica, which provided the seedlings.

In another action to celebrate the date, more than 7 thousand plant seedlings from the Atlantic Forest were distributed to Bradesco's employees who work in its headquarters, in Cidade de Deus, in the city of Osasco, state of São Paulo.

As a tradition, Bradesco effectively contributes to the environmental preservation and to the planet sustainability. Among other actions, it maintains a partnership with Fundação SOS Mata Atlântica, which made feasible the allocation of 21.5 million seedlings to reforestation of the Atlantic Forest.

2) Program for the Neutralization of Carbon Emissions

With a view to neutralizing its carbon emissions, Bradesco was the first bank to launch a measurement program of its direct and indirect participation in carbon dioxide (CO²) emission in the atmosphere. The proposal is that all Bradesco's business chain – including clients, suppliers and other stakeholders – takes part in this cause in the medium term.

Initially, the environmental impact caused by the Organization will be offset by the planting of 38 thousand trees (in partnership with Fundação SOS Mata Atlântica), by the purchase of carbon credits or by entering into partnerships to generate carbon credits.

On the first stage of the program, a survey of all the greenhouse effect gas emissions (GEE) referring to operations at Cidade de Deus – Bradesco's headquarters, in Osasco (SP) – was carried out, calculated in accordance with GHG Protocol methodology and ISO 14064. In 2007, the Organization will increase the inventory scope of GEE emissions.

3) Resources Consumption Rationalization

With a view to rationing electricity and water consumption, Bradesco maintains an area to manage the consumption of these strategic resources. Its attributions consist of managing agreements of demand for electricity with the concessionaires and the permanent research of more efficient and intelligent new technologies for the equipment, observing the environment preservation policy.

Bradesco has invested in the Branches Network awareness about the issue, by indicating consumption targets for each unit - based on size, quantity of equipment installed and headcount, as well as release of information about the rational use of electricity and water, by means of circulars, internal periodicals, Intranet etc.

a. Electricity

Timing machines were installed in the branches for the automatic turning-off of lights, allowing an easy utilization in scheduled hours. Turning-off lights in non-used areas and using natural light have been encouraged.

Similar care is adopted in the acquisition and installation of air-conditioning systems, such as thermo-accumulation devices, which reduce the energy consumption in peak hours. The employees are guided towards optimizing the use of lifts, air conditioning and other energy consuming equipment.

In addition, more than 250 mercury light bulbs installed in the lampposts of Cidade de Deus were replaced by sodium steam light bulbs. Approximately 30 thousand 40 Watts light bulbs have been replaced by 32 Watts light bulbs, reducing substantially energy consumption, without losing lighting efficiency.

b. Water

Same concern is expressed as to the rational use of water. Thus, our premises are periodically guided concerning the monthly follow-up of consumption and maintenance aiming at correcting possible leakage in valves, flushing and faucets. Technical measures contributing to the water consumption reduction have been adopted, such as the replacement of mechanical faucets with automatic ones for use on the headquarters premises and common valves for coupled boxes, in the building of Avenida Paulista, with an estimated reduction of 50% of consumption

The adequate garden watering, observing the best hour and periodicity, has also been deserving attention. There is a feasibility study related to the reuse of water that comes from the partial sewage treatment generated at the headquarters, with the purpose of watering and usage in the air conditioning towers. At Avenida Paulista, a former fuel tank of the generating group was adapted as a container to receive and store rain water destined to garden watering. This measure will enable an economy of up to 30 m³ in the monthly water consumption.

4) Solid Residues Destination

a. Paper and Cardboard

Currently, approximately 100 tons of paper and cardboard are collected monthly in our main administrative centers, which are submitted to a selective process. Bradesco is contemplating the possibility of its implementation in other regions. In addition, methods to assess the quantity of paper consumed by the Organization is under study, both office paper and forms. The purpose is to identify possible measures that may be adopted to reduce that consumption.

Bradesco is also seeking the standardization of dispensers and respective consumption products used in bathrooms of Cidade de Deus and administrative buildings. Besides the economic aspects and quality improvement, such measure will contribute to the aware consumption, since the new liberation system of toilet paper and paper towel inhibits the waste and reduces the consumption.

b. Metal, Glass and Plastics

At Cidade de Deus and in administrative centers, Bradesco maintains the selective collection of metal, glass and plastics. In 1H07, approximately 30 tons of these materials were recycled, arising from the maintenance process. This practice has been encouraged and improved by means of in-house campaigns and actions, in the expectation of increasing to other centers, as well as to increase the quantity of recycled products.

The use of biodegradable plastic bags was also implemented on all of Bradesco's premises. This material degrades completely within a short period of time, consumed by microorganisms, without harming the environment. At Cidade de Deus and administrative centers, plastic bags with colors corresponding to waste collected are also used, with a view at facilitating the recycling process of these materials.

c. Lamps

In Cidade de Deus buildings there are more than 36 thousand installed lamps. Monthly, more than 600 lamps are replaced. Concerned with the appropriate destination of this material, the Organization included in maintenance agreements a specific clause about the service company's obligation to conduct the ecologically correct discard. In 1H07, approximately 11 thousand lamps of the headquarters and administrative buildings were sent to recycling.

d. Other Residues

In Cidade de Deus, approximately 115,000 m² of green area is maintained, with more than 4 thousand trees cataloged under the replacement and planting program. In the maintenance of these areas, dried leaf crushers are used. The crushed material (nearly 1.5 tonne/month) is used in gardening. The parings of grass are also used as input.

5) Use of Sustainable Products

a. Recycled Paper Usage Program

This Program, a result of Bradesco's belief that it is able to contribute to the dissemination of environmental responsibility, has been gradually implemented in our Organization. The option to use recycled paper was made after long negotiations with suppliers, and even if it does not mean costs optimization, the beneficial result for the environmental was the most important factor for the change. Recycled paper is used in the production of internal and external communication material, such as posters, magazines, circulars, business cards and statements distributed to clients and in check books. Currently, nearly 90% of the paper monthly consumed is recycled.

b. Remanufactured Cartridges

For five years Bradesco has used remanufactured cartridges in printers, aiming besides cost savings at the reduction of environmental pollution. Out of 38 types of toner cartridges composing the consumption list, 27 are remanufactured products. With the constant renovation of the printing facility, an increase in use of remanufactured cartridges is expected.

c. Certified Wood

Recently pencils manufactured with certified wood were made available in the premises. The raw material used contributes to the fight against exploration of illegal wood with a predatory origin, as well as minimizing the environment degradation.

d. Biodegradable Products for Cleaning

In Cidade de Deus, biodegradable products are used in cleaning and maintenance services. Contracted companies are encouraged to use products of such type, which then will be one of the requirements to be considered in a further agreement renewal.

Such measure integrates an improvement program seeking to standardize the biodegradable products, the appropriate dilution, in conformity with the manufacturer's guidance and the obligation to present information about chemical products used on the Organization's premises.

Bradesco's Contributions to Social Issues

Finasa Sports Program

By means of Finasa Sports Program, Bradesco Organization demonstrates its support for the development of citizenship and social inclusion of children and youngsters between 9 and 18 years old.

With almost 20 years of activity, Finasa Sports entered into many partnerships, among which the most outstanding is the agreement with Osasco's Local Government. This partnership contributes to expand the Program's social reach.

Currently, the Program has a total of 148 professionals carrying out activities at state and local schools, at Osasco's city hall sport centers, at SESI-Osasco unit and at private schools, assisting nearly 3,000 girls free of charge in 52 qualification centers and 180 athletes in 13 Specialists' Centers, in volleyball and basketball.

The Program's main goal is the whole development by means of a healthy activity such as sport practice, education, health and well-being actions that help raise these girls' awareness about citizenship, so that they can be in charge of their own lives and make responsible choices in their actions before society. Most of these girls come from deprived backgrounds considered to be in a social risk situation.

It also supports the formal education process by adopting as a requirement the girls' enrollment and attendance in regular schools.

At the Training Centers, all students have guaranteed access to quality sports education, regardless of their physical characteristics, such as weight, height or abilities for sports.

The activities for children and youngsters in the Specialists' Centers, besides sports learning with medical, psychological, psychiatric and nutritional follow-up, comprise regular information on hygiene, stress, adolescence, drug use and teen pregnancy prevention, turning these places into true citizenship centers.

This program also offers, according to categories, a support structure, with benefits such as: life insurance, health care, among others, including sporting material used in training and competitions.

The sports practice, besides contributing to a healthy life, is responsible for the formation of high level athletes, enabling the players' participation in Finasa/Osasco's Adult Volleyball team and in the children's and junior Brazilian Female Volleyball and Basketball teams.

It is the first social sports program to receive funds from tax incentive, made available by the *Estatuto da Criança e do Adolescente* (Statute of Children and Adolescents), through the agreement executed between the National Council for the Rights of Children and Adolescents (Conanda) and Ministry of Sports in 2004. The Finasa Sports Program is a benchmark in sporting activities of this nature.

Social-cultural Events

In 1H07, Bradesco supported and sponsored several social-cultural events in different locations in the country. It took part in regional feasts that preserve folkloric traditions, such as the *Maior São João do Mundo* party, in Campina Grande (PB), and *Festival Folclórico de Parintins* (AM). It also took part in the Summer Festival and the Carnival of Salvador (BA), in the carnivals of Rio de Janeiro (RJ) and Olinda (PE).

Bradesco supported the presentations of the Brazilian Symphonic Orchestra, in Rio de Janeiro (RJ) and the XI Amazonas Opera Festival, in Manaus (AM), as well as the beneficent concert of classical music with the French-Chinese-American cellist Yo-Yo Ma and the Englishwoman pianist Kathryn Stott, promoted by the Hebrew Congregation of São Paulo.

It also took part in the musical concert to raise funds for the Cancer Hospital of Barretos (SP) and the event *Viva a Mata*, promoted by Fundação SOS Mata Atlântica, which occurred in Ibirapuera Park, in São Paulo (SP).

Bradesco was also present in Ribeirão Preto Agrishow (SP) and Luís Eduardo Magalhães Agrishow (BA), in Coopavel Rural Show, in Cascavel (PR), and Cattle Raising Exhibition (Expogrande) of Campo Grande (MS), among other business fairs.

The Organization was directly involved in the sponsorship of great cultural events in 1H07, with the exhibition *Darwin - Descubra o Homem e a Teoria Revolucionária que Mudou o Mundo*, which took place in the Art Museum of São Paulo (Masp); the exhibit *Imagens do Soberano - Acervo do Palácio de Versalhes*, in the Picture Gallery of the State of São Paulo; the exhibits *Leonardo da Vinci - A Exibição de um Gênio* and *Corpo Humano - Real e Fascinante*, that occurred simultaneously at Oca, in Ibirapuera Park, in São Paulo (SP).

The mega production *My Fair Lady*, masterpiece of world theatre and the best musical comedy in the Broadway history, performed in São Paulo (SP), has Bradesco Prime's exclusive sponsorship.

Bradesco Seguros e Previdência supported the campaign *Vote Cristo. Ele é uma Maravilha* (Vote Christ. He is a Wonder), which aimed at electing Christ Redeemer as one of the seven new Wonders of the world. It also sponsored the series *O Globo/Dell Arte Concertos Internacionais - Temporada 2007* (Globo/Dell Arte International Concerts 2007 Season). Bradesco Vida e Previdência carried out the II Longevity Forum, in Copacabana (RJ), which comprises debates on issues such as health, planning, security and quality of life, making people reflect on how the changes in Brazilian and world demographic structure may be faced.

Human Resources

Since the inception of Bradesco's activities, the Company acknowledges the value of its team's performance and achievement potential as the foundation to sustain Bradesco Organization's businesses.

The Company offers its employees ongoing professional development opportunities, in a healthy, safe and ethical environment, with transparent commitments and goals.

Bradesco believes in its ability to promote a sustained growth for people and through these people.

The Company seeks to maintain an excellence model in Human Resources Management, guided by respect and transparency in its relations, continuous development investment, sharing of information and human being value,

without discrimination.

Bradesco maintains a closed-career policy, whereby the admission occurs at apprentice levels. All the growth opportunities are destined to employees, allowing access to all hierarchical levels.

This assurance of professional development and growth opportunities allows employees to see the possibility of holding all the positions: leadership, supervision, management and also the senior management. That is a motivational factor for all the staff, stimulating creativity, innovation and the ceaseless search for knowledge and updating.

We may say that when a youngster joins the Organization, whose closed-career system privileges, incentives and strongly invests in the growth and development of its employees, this professional starts a career full of opportunities, connected with his/her effort and dedication.

Encouraging the professionals to exceed their limits and stimulating their creativity in search for solutions, aiming at the self satisfaction, clients' satisfaction and business expansion, have been a priority for the Bank and is one of the assumptions of its Human Resources Management Policy.

Only creative and innovative teams, highly skilled, with ensured career opportunities can surpass the goals and show excellent results that have highlighted the Organization.

The stimulus to creativity and investment in the professional and personal qualification of the employees are essential for Bradesco's success, strongly contributing to its brand solidity and the accomplishment of its market strategies.

Bradesco's performance is disseminated and is continuously expanded throughout the country, enabling job opportunities in all the operation segments.

Bradesco is a bank which takes into account, by means of its clients and partners, the diversity which is the own expression of the Brazilian social structure, with a fundamental commitment to respecting cultural and ethnical diversity. The respect to the Brazilian diversity is part of the Company's strategic vision towards good performance, since Bradesco is inserted throughout the Brazilian territory.

Certification in International Rules

In 2006, we achieved the certification of OHSAS 18001 Rule of Occupational Safety and Health that allows establishing and developing conditions that contribute to a safe and healthy work environment. The certification was recommended for the building at Avenida Paulista, 1.450, city and state of São Paulo and, in July 2007, we obtained the certification again. Aligned with the sustainability concept added to our business strategy, we implemented in 2006 the Bradesco Social Responsibility Management System, based on the SA 8000®:2001 International Rule.

This Rule establishes requirements in conformity with the Human Resources Management Policy of Bradesco Organization and has the purpose of promoting an ongoing improvement of relations and the work environment, including the commitment to respect for Human Rights, Children's Rights and Labor Fundamental Rights to its suppliers.

In 1H07, Banco Bradesco received the SA 8000®:2001 Rule certification, and is considered the first among the financial institutions in the Americas to receive an international certification in Social Responsibility.

The SA 8000®:2001 International Rule of Social Responsibility certification was recommended to Banco Bradesco in the management of the human resources that operates in the business and related companies located in the building on Avenida Paulista, no. 1.450, city and state of São Paulo, and in the Human Resource Department, located in Bradesco's headquarters, in Cidade de Deus, city of Osasco, state of São Paulo.

Aiming at expanding the scopes, Bradesco is working for the certification of the main administrative centers in the country.

A Great Place to Work

Over the last years, the Organization has shared with all its employees the satisfaction and importance of being included in indexes based on the quality of relations and the work environment.

Every year, around 4,000 employees, in all structure levels, from all lines of businesses and activities, voluntarily answer to surveys about the organizational environment through questionnaires and interviews. They assess items such as the work environment, benefits, compensation, professional development, ethics, citizenship values and social responsibility of companies.

The Company seeks to promote transparency, respect and confidence, so as to ensure a motivating and challenging organizational environment. Evidence is that Bradesco is currently recognized in several rankings.

The Company was listed for the seventh time in *Guia Você S/A - Exame As Melhores Empresas para Você Trabalhar* (The Best Companies to Work for), and in addition to being part of this selected group, Bradesco was also acknowledged among the 50 Best Companies for Women to Work for, for the fourth consecutive year. Bradesco Bank was also highlighted as one of the Best Companies for Businessmen in the Country. This list presents the companies in which the executive group, which comprises officers, managers and supervisors, reports feeling more satisfaction at work.

Guia Você S/A Exame is considered the best and most comprehensive study on the work environment in Brazil and introduced in 2006 the index of happiness at work, in which we are highlighted as we provide our employees a positive corporate environment, in the pursuit of everybody's well-being.

Bradesco was also elected one of the 100 Best Companies to Work in Brazil, in a research prepared by Great Place To Work Institute, published in a special edition of *Época* magazine.

For the third consecutive year, Bradesco stood out in the survey *As Melhores na Gestão de Pessoas* (The Best Companies in People Management) of *Valor Carreira* magazine, edited by *Valor Econômico* newspaper. It was the first bank to be in the ranking.

These results show the acknowledgment to our commitment not only to clients, but also to our employees. Improving talents with professional training, stimulating education and maintaining a fair and dynamic organizational structure, we try to offer conditions so that each employee can grow and build a solid career, from a relationship policy based on respect and valuation.

Human Resources Management Policy of Bradesco Organization

We reaffirmed the commitment with our employees formalizing guidelines for the management and development of our human resources, by means of the Human Resources Management Policy of Bradesco Organization. Basic assumptions:

- 1 To comply with all the requirements, regulating rules and legal conventions concerning work relations and environment, applicable to our activities;
- 2 To assume the public commitment of defense and protection of Human Rights, Children's Rights and Labor Fundamental Rights, in line with national and international Principles, Standards and Treaties;

- 3 To respect the diversity and dignity of the human being, preserving the individuality and privacy, not admitting the practice of discriminatory acts of any nature in the work environment and in all our relations, with the internal and external public;
- 4 To ensure the good relationship among all professionals of the Organization, maintain a safe and healthy work environment and provide conditions for great performance and productivity levels;
- 5 To contribute to the improvement in the quality of life of employees, offering conditions for the balance among work, health and family;

- 6 To encourage our professionals to surpass their limits and stimulate creativity in search for solutions, aiming at the self-achievement, clients' satisfaction and business expansion;
- 7 To promote the constant development and improvement of technical and behavioral potentialities of our employees and make available favorable mechanisms which allow them to manage their personal and professional growth plan, in order to ensure the continuous improvement of management processes; and
- 8 To ensure opportunity priority for the professional growth of people, by the permanent investment and development of internal competences, by the valuation and respect to knowledge and professional qualification acquired during the career.

Besides our principles set forth in our Human Resources Management Policy, we are implementing Bradesco Social Responsibility Management System, based on SA 8000®:2001 Rule, whose requirements aim at promoting a continuous improvement of relations and the work environment, including the commitment of respect to Human Rights, Children's Rights and Labor Fundamental Rights and to our suppliers.

Social Responsibility Requirements - SA 8000:2001 Rule

1. Child Labor
2. Forced Labor
3. Occupational Health and Safety
4. Freedom of Association and Collective Bargaining Rights
5. Discrimination
6. Disciplinary Practices
7. Working Hours
8. Compensation
9. Management System

In-house Communication

We strongly invest in our in-house communication so that our employees are effective participants of the Organization's expansion strategy of results.

Simultaneously and from any location in the country, Bradesco's employees receive key information via Intranet and e-mail.

The Organization makes available, day to day, the newsletter *Sempre em Dia* (Always Updated), with issues about the Bank's strategic direction, launch of products, quality practices and business focus.

Brochures and magazines are periodically published and addressed to each employee.

Produced according to the best quality standards, the editions in video of Bradesco TV approach, monthly, institutional messages and technical guidance. Created in 1990, Bradesco TV is one of the country's oldest corporate television projects.

The annual goals and strategies are disclosed at meetings with the Presidency, where Directors, Regional Managers, Managers of Branches and Departments of the Organization take part. All the issues are referred to respective teams.

With the purpose of making the communication between the Human Resources Department and the staff closer, more energetic and transparent, we have created ALÔ RH, an effective and fast communication channel that guides about benefits, legislation, policies and practices of human resources, in addition to responding to suggestions and complaints, with the option of anonymity, ensuring complete secrecy.

ALÔ RH's service standard implies the full understanding of doubts and the correct referral of the manifestation immediately or within 72 hours at the latest, through telephone, e-mail, or fax, constituting an effective dialog and interaction process between the company and its employees.

In 1H07, ALÔ RH recorded approximately 31.7 thousand calls that included clearing doubts, suggestions and complaints.

The Human Resources Department keeps, in its functional structure, the Union Relations area, whose mission is maintaining a permanent dialog and interaction channel with union representatives nationwide, receiving manifestations, clearing doubts, and allowing a relationship based on ease of access, energy and proactivity between the parties involved.

People Management

Bradesco maps the human capital through individual interviews with employees and their leaders, aiming at identifying corporate and essential competencies by supporting professional growth and the search for goals and results by means of the development of the competencies of the Organization's human resources.

The Company already recorded 27.6 thousand employees' profiles in this process.

Based on this knowledge, leaders and employees are gained conditions to share actions focused on improving their individual and team performance and make effective the practice of feedback by generating professional improvement and short, medium and long-term results.

The maintenance of such work is the management of competencies with the employees' and their leaders' involvement, by means of constant follow-up, guidance and technical and behavioral development.

Respect to Diversity Social Inclusion

Bradesco respects the diversity and self-respect of human being, by preserving the individuality and privacy, not accepting the practice of discriminatory acts of any nature: at the work environment and in all the Company's relations with internal and external public.

The diversity appreciation is incorporated in the Human Resources Management Policy of Bradesco Organization. The guidelines of relationship with employees are based on appreciation of professionals and are in accordance with the Global Compact principles, among other international regulations concerning human rights.

Bradesco's success is based on group effort, meaning that each employee adds something so that the Organization may constantly innovate and modernize, embracing more and more the possibilities of diversity, which is a constant value in its daily operations, through client magnitude, geographical comprehensiveness and staff.

Being present in so many places shows the commitment to catering equally for all our publics. Bradesco has gone far beyond the commercialization of products and services, seeking to know better people from all the different groups in society, in order to ensure a service that meets each of their needs, and, thus, work together towards the country's sustainable development.

With a view to effectively contributing to an improved relationship of the Company with different people, as well as to maintaining a balanced internal demography, both in the admission and retention of talents, Bradesco created the Diversity Appreciation Work Group, composed of representatives of different areas.

Believing in people, understanding and welcoming differences are pioneering values present throughout Bradesco's history, making it a Bank that works towards being more and more a development agent, for which the people are in the core of everything.

The issue is broadly supported in the Code of Ethics and Social-environmental Responsibility Corporate Policy of the Organization.

Ethical Groups

We ended 1H07 with 10,111 afro-descendent employees, and 5,021 of them hold managerial positions.

Bradesco entered into a partnership with Faculdade Cidadania Zumbi dos Palmares - Unipalmares, by means of a professional qualification program which aims to contract interns, to work in important business areas of the Bank. Unipalmares' mission, by means of NGO Afrobrás, is to promote the inclusion of black people into higher education of the country.

The program is divided into various modules, with 2-year duration and also relies on a partnership with renowned institutions, such as FGV, USP, FIPE, Fipecafi and FIA.

Students work in technical and business areas of the Bank and are trained to improve themselves as citizens and qualified professionals for the job market.

The program, which started with 30 interns, was increased and currently counts on 74 students.

Inclusion Policy for Disabled People

Bradesco was one of the banks sponsoring the Professional Qualification Program of the Brazilian Banks Federation (Febraban), which qualified handicapped professionals to hold positions in the job market.

We have in our Call Center a specific part with visually impaired employees.

Currently, Bradesco has a staff of 897 disabled people.

Aiming at the contracting and retention of disabled people at the Organization, Bradesco sets forth partnerships with specialized entities and focused on the inclusion of these professionals, qualifying them and creating job opportunities in the Organization.

By means of Bradesco's website, in the link Career Opportunities, the Company offers an exclusive channel for the collection of disabled people's curriculums.

Due to the importance of the issue, Bradesco created a permanent Work Group focused on issues involving accessibility. One of the actions developed by the group was the preparation of a videotraining about accessibility to all staff.

Opportunities for Women

Bradesco ended the 1st half of 2007 with a quota of 38,170 women employees, corresponding to approximately 48% of the staff. In leading positions, Bradesco has 16,706 women, including in the Board of Executive Officers and the Board of Directors. In the Prime segment, 73% of staff is women.

Internship Program

Aiming at providing real professional development opportunities, Bradesco Organization offers an internship program to all operation and business areas, allowing the student to relate the academic learning with the practical activity. The program currently benefits 905 students.

Traineeship Programs

Information Technology students of Fundação Bradesco have the opportunity to start their professional career as employees in the Systems Development Department of the Organization by means of a structured program addressed to technical and behavioral approaches with theoretical experience in the classroom and practice in the Department.

All students approved in the selection process have been contracted.

Youth Apprentice Program

The Youth Apprentice Program was implemented by Bradesco Organization in 2004, and executed in partnership with Fundação Bradesco and other qualified entities, encompassing the administrative centers and branches throughout the country.

The program estimates the contracting of youngsters from 16 to 24 years old, having as purpose to provide personal and professional development to adolescents.

We ended the 1st half of 2007 with 869 Apprentices and we have already provided the program for about 1,309 youngsters.

Young Citizen Program

With a view to reinforcing Bradesco's actions in the Social Responsibility area, the Company entered into a partnership with São Paulo State Government by means of the Young Citizen Program – My First Job.

The purpose is to provide students with their first professional experience opportunities preparing them to exercise the citizenship, by means of paid internship, the students originated from families with higher social vulnerability, between 18 and 21 years old, regularly enrolled and effectively attending high school classes of the state public school system.

Currently we count on 251 hired youngsters, with the participation of around 487 youngsters in the program.

Occupational Health and Safety Policies

Bradesco is a company that develops actions in health, disease prevention, safety and work conditions.

The occupational safety and health aspect is approached in two premises of the Organization's Human Resource Management Policy:

Ensuring the good relationship among all the Organization's professionals, maintaining a safe and healthy work environment, and provide conditions for excellent levels of performance and productivity; and

Contributing for the improvement of employees' quality of life, offering them conditions to balance work, health and family.

Bradesco offers its employees an adequate work environment with conditions for a complete physical, mental and emotional well-being.

Bradesco invests in programs and methodologies allowing mapping and identifying the causes of symptoms and diseases occurred in the work environment and relations, viewing to promoting health and disease prevention, on a broad basis.

The issues addressed include Repetitive Stress Injury, Stress, Chemical Addiction (Alcoholism/Drugs/ Tobacco), Obesity, Cardiovascular Diseases, Sexually Transmitted Diseases, AIDS and others. Those campaigns are carried out monthly through Interação magazine and in the Sipat (Internal Week of Occupational Accident Prevention).

Since contracting, Bradesco's employees receive information and guidance on behavior and conduct adequate to the maintenance of health and improvement of life quality.

Bradesco has been an active member of the National Business Council for HIV/AIDS Prevention – CEN, which aims at promoting and strengthening the combat against such epidemic in the work environment, diffusing information to a considerable portion of workers, family members and the community as a whole about the safe ways to prevent the infection by HIV virus.

Another outstanding issue related to life quality is the balance between the employee's personal and professional life. We are permanently concerned with the working hours, so that the contract time is not surpassed, guaranteeing that employees have time for their personal commitments and leisure.

In order to offer an appropriate environment and extra emotional support to employees, the Bank created in its Call Center at the Santa Cecília building, in the city of São Paulo, a room for winding down. It is a reserved room with a different infrastructure from all other Organization environments, offering comfort and material that help to relax and soften the impact caused by the day-to-day activities in and out of the call center. The room is available to all the employees of that section in case they go through situations related to psychological and emotional aspects.

Thus, we consider that the Bradesco Occupational Safety and Health System Management reassures the commitment to the safety and health of our employees, with the adoption of ergonomic management and awareness programs about the importance of safety and health in the work environment.

Benefits

Our management model is grounded on the belief in people.

We acknowledge the value of performance and people's potential for accomplishments as being the foundation of Bradesco Organization's business.

We know that in order to have a better performance, people need to have prospects and confidence in the future, their basic needs met, and their families' well-being guaranteed. For that reason, we have put together a benefit package which, going well beyond the legal requirements, has the purpose of providing our employees and their families safety and comfort in the supply of their basic needs, professional development and special loan conditions for acquiring goods and properties.

This management strategy contributes to a healthier, more productive and participative work environment, providing conditions for great performance levels and better results.

The special benefits we provide to our employees constitute a factor of talent attraction and retention for the Organization, in addition to contributing to Bradesco Bank's acknowledgment as one of the best companies to work for in Brazil.

Health and Dental Care Insurance

Our employees and their dependents have access to Health and Dental Care plans with premiums paid for in full by the Bank. The Healthcare Insurance includes non-traditional treatments, such as dialysis, organ transplants, acupuncture, homeopathy, myopia correction, GPR (Global Postural Re-education), heart valve, physiotherapy and treatment for AIDS (with reimbursement of expenses for medicine prescriptions).

The Dental Care Insurance includes preventive and surgical treatment, oral rehabilitation, child dentistry, endodontics, periodontology and prosthodontics. Implants are offered at costs lower than the market, by means of agreements.

In 1H07, there were 1,476,242 medical and hospital consultations and 283,663 dental consultations.

Supplementary Private Pension Plan

Bradesco makes available for all its employees a Supplementary Private Pension Plan, which Bradesco contributes with 50% of the monthly installments, including in the 13th salary.

The plan guarantees coverage to the retiree, the retiree's widow or widower and their children under the age of 21, or up to the age of 24, if they are undergraduates.

Group Life Insurance

All Bradesco's employees have access to Group Life and Personal Accidents Insurance, with subsidized costs. The employees retired by INSS, who left the company without cause, are offered the option to maintain the policy, with subsidized costs.

Social Service and Psychological Assistance

Bradesco's employees and their dependents are provided with follow-up of Social Service and Psychological Assistance under situations of need and emergency.

Services are offered in most varied situations: medical treatment, accidents, decease in the family and release of special loans.

In 1H07, nearly 5.9 thousand social and psychological assistances were provided.

Such initiative shows Bradesco's concern with its employees' well-being when facing personal problems.

Snack Supply

Bradesco's employees receive snacks on a free basis all working days.

In 1H07, we invested R\$17.7 million, distributing approximately 13.2 million snacks.

Medicine

For the states of São Paulo and Rio de Janeiro, Bradesco offers agreements with the drugstores Drogasil and Drogasmil, for the acquisition of medicine at a cost lower than that practiced in the market.

Influenza Vaccination

Bradesco carries out an annual vaccination campaign against influenza, offering the vaccination free of charge to all its employees and at subsidized prices to their dependents. In the last campaign 54,098 doses of the vaccine were applied, with a cost higher than R\$1.3 million.

Leisure Activities

Bradesco maintains in Cidade de Deus, in the city of Osasco, an area with swimming pools, racetrack, soccer field, basketball, volleyball, soccer, tennis and squash courts, destined to leisure and recreation activities to employees and their dependents.

In 1H07, around 32.1 thousand people attended the facilities.

Social Loan

By means of Caixa Beneficente (Benefit Fund), the Company offers financial assistance to its employees, granting loans with subsidized fees, destined to emergency conditions, education expenditures, acquisition of orthopedic instruments, glasses, funerals, psychologists, psychiatrists and speech therapists, among others.

Credit Facilities for Acquisition of Computers, Vehicles, Real Properties and Personal Expenses

Bradesco offers loans to its employees with subsidized fees for acquisition of computers, vehicles and personal expenses. Employees and their first relatives may also finance the acquisition of residential real properties at lower interest rates.

Fee Exemption

The Bank exempts its employees to pay various fees, such as: check account maintenance, fee to open credit, issuance and annuity of credit and debit cards, financial transactions on teller machines, access to Fone Fácil, issuance of bank statements in electronic terminals and utilization of single check sheets.

Online Shopping Channel

The ShopFácil Funcionário is a special online shopping channel, through which Bradesco negotiates special discounts directly with various products suppliers. Partnerships are also executed with some stores, by means of which the employees have access to special prices and payment conditions.

Other Benefits provided for in the Collective Convention of Bank Employees:

Transportation Voucher
Meal Voucher
Food Voucher
Maternity/Paternity Leave
Funeral Assistance
Day Care/Baby Sitter Assistance
Professional Requalification Allowance

Human Resources June 2007

On June 30, 2007, Bradesco, including their subsidiaries, had 80,287 employees.

The following table presents the variation in the last periods

	December					June
	2002	2003	2004	2005	2006	2007
Banco Bradesco	53,732	59,430	62,013	61,347	63,163	63,441
Subsidiaries	8,729	9,407	11,631	12,534	13,577	16,846
Bradesco Subtotal	62,461	68,837	73,644	73,881	76,740	80,287
Banco BCN	6,105	5,203				
Subsidiaries	1,504	1,741				
BCN Subtotal	7,609	6,944				
Banco Mercantil	3,970					
Subsidiaries	353					
Mercantil Subtotal	4,323					
Amex Brasil					442	
Subsidiaries					2,124	
Amex Subtotal					2,566	
Total	74,393	75,781	73,644	73,881	79,306	80,287

We point out below some indicators of the human capital of Bradesco, in June 2007:

Training

Believing in people value and in the capacity of development of each individual is one of the values declared by the Organization, made feasible by means of a strong educational process comprising all staff, in all positions and activities developed, aiming at supporting people in their self development by means of a full strategic alignment, and motivating them to constantly seek their improvement.

The Staff Training Department is responsible for the training actions of Bradesco Organization, and by means of the Bradesco Organization Training Management process, was granted the NBR ISO 9001:2000 certification in December 2002 and the Company was certified again in December 2005. Thus it ensures an ongoing improvement of processes and the quality of actions of training, reinforcing its commitment to contributing to the development and appreciation of the staff and the employees.

Investments in educational actions to the employees of Bradesco Organization increase each year and show the importance given to the team qualification as a competitive advantage to the success of its results. Among others, these aspects make Bradesco a Complete Bank, which respects the client and shows its various actions with transparency and credibility, reflecting the value added of being a Bank which invests the most in its staff qualification and this justifies and makes the 120 reasons to be a Bradesco Client become a real belief practiced by the Organization.

For 2007, a budget of R\$69.9 million was made available, 28% higher than the average of investments made over the last 5 years, providing the continuity of the main training programs targeted at several areas of the Organization and at the implementation of new programs aimed at meeting corporate business strategies.

In this different context of knowledge management, Bradesco Organization has strongly invested in training programs that contribute to the strengthening of internal competences and to the development of talents, as a support to the mission described in the internal policy of people management: Recognizing that people are the sustaining basis of our business, we have as mission to attract, develop, recognize, manage, esteem and stimulate Bradesco Organization's talents, by means of the permanent construction of an integrated value relation among corporate activities.

From January to June 2007, trainings had 462,225 participations in the several available media: TreiNet, Videotraining, Brochures and Presence Courses. 1,028 different courses were made available, and the investments were of approximately R\$28.8 million.

Presence Courses

In the first six months of the year, there were more than 68 thousand participations in presence courses, mainly actions for Retail comprising nearly 21 thousand participants in several programs. We highlight the Client Management course, which comprises themes such as analysis of the profile, potential and needs of the portfolio for the adequate relationship management, planning of strategic actions and presentation of financial alternatives that may meet the clients' expectations and that generate loyalty and increase of assets and results of branches.

We also point out the Loan in Retail program, in partnership with Sebrae, focused on loan analysis and grant for micro and small-sized companies, with a view to contribute with the financial growth and strengthening of such public in the competitive market and the Loan Business course, whose program was implemented for the Managers of Corporate Accounts, in the Retail Segment, aiming at improving service, identifying the companies' needs through a commercial approach, negotiating appropriate credit lines, improving client loyalty and results in general, by providing the necessary knowledge and techniques for the ongoing expansion of business.

Other highlights are the courses Assistance - A New Business View and Pre-Assistance Techniques with specific focus on the quality of assistance and on the preparation and awareness of the teams directly connected to the assistance of new clients, concerning the continuous search for excellence in the provision of our services. It is worth mentioning the Assistance for Opening of Accounts and Businesses course, which aims at training employees to conduct the business process with quality and professionalism, aiming at clients' loyalty and the increase in branches' results.

With the purpose of implementing enterprising actions and behaviors aligned to strategic goals and target programs of several Segments, by identifying business opportunities and improvements in results, we continued to carry out the Enterprising Leadership program, in partnership with Ibmecc, involving the participation of Regional Officers and Managers.

In 2Q07, a training course on Rural Loan was developed, provided by Agronomist Engineers, to the employees of branches which deal with this activity. The program comprised the credit line regulations and its operationalization, providing the appropriate compliance of these operations to the needs of clients of the agribusiness sector.

In this period we also carried out the Real Estate Loan program, which provided the qualification of branches employees to commercialization and operationalization demand of Real Estate Loan Product. The program comprised financing lines and their compliance regulations.

The process of qualifying Managers of the Prime segment continued with the Managerial Development Program which comprises, among other aspects, the improvement of the business and relationship management process, the optimization of funds and the leverage of results for the clients and segments. The first class of PDHN Prime - Business Skills Development Program started in March and was concluded in May, reaching its initial goals of intensifying participants' understanding of the Organization's and Bradesco Prime's culture, policies and core businesses, besides qualifying them for the development of future activities, through the honing of technical and behavioral skills / competences and the absorption of the appropriate methodologies for carrying out the financial consulting process. We also point out the courses of Stocks and Futures Markets, Investments, in addition to the Loan Products that rescue technical and commercial aspects essential to trading, so that clients see Bradesco as a Complete Bank.

The Business and Financial Consulting Program, developed by FIA, qualified and trained the teams of Prime Relationship Managers with techniques and methodologies favoring the performance as financial and business consultant, identifying and stimulating the clients' needs aiming to present viable solutions or profitable investments, taking into account the ethical and social elements, as well as the focus on results for the client and the Organization.

The training actions to the Bank's Departments and its Affiliated Companies were also shown by means of 44,916 attendances in sundry external and internal events, made available by specialized companies, which offer vacancies to the general public and also by teams of instructors and employees of the Organization, the highlights of which are: the Training for Bradesco Seguros e Previdência involved 27,611 attendances. That training was continued in 1H07 through the name brand *UniverSeg - Universo do Conhecimento de Seguro* (Insurance Knowledge Universe), consolidating new actions that reflect the strength of the project, such as: the beginning of the first class of the MBA in Business Management with a Concentration on Insurance, in partnership with Ibmecc-RJ, benefiting 31 professionals on management and superintendence levels; The First DGTO /Auto RE Seminar, which represented a competitive edge for the accomplishment of the company's strategic objectives, as it approached the integration between the Managerial Technical/ Operational Executive Board and the new purposes of Bradesco Auto/RE; and the Program for Managerial Improvement in Insurance and Pension Plans, with 214 class-hours, prepared in partnership with FIA/USP, with the aim of aligning knowledge and improving the Financial Administrative team for better performance and results.

The Program for Qualification of Production Assistants (task force) was continued, preparing 47 new Production Assistants, in addition to the Quality and Market Profile and Interpersonal Relationship Development programs for the basic staff of the Insurance Company.

We also concluded the first class of Qualification of Transportation Product Managers, strategic project of Bradesco Auto/RE, which aims at making the portfolio more profitable by means of the expansion and maintenance of great risk clients. This process required the individual qualification of 14 new professionals, during a 372 class/hour.

The "From Broker to Broker - One Thousand Reasons to Sell Bradesco Seguro Auto" project reached the number of 600 brokers trained during this period and should end in this half year.

For the next quarter, basic product courses such as Vehicle, Equipment, Residential, Corporate, Health, Applicable Sales and Communication & Professional Development are expected to continue. These courses aim at providing the brokers who commercialize Bradesco Seguros' products, in the insurance market and in the Bank's branches, with information that sets our products apart from the competitors' ones, as sales argument.

The clearance of the program named Game Work is also estimated; that program is focused on Bradesco Auto/RE's commercialization public, and reflects a unique exercise in negotiation and competitiveness among the sales professionals.

Specifically for the internal public, the programs for the Qualification and Improvement programs Health Production, destined to preparation and improvement of professionals of Bradesco Saúde's commercialization area, Communication with Operation Channels are being developed, as well as the technical, commercial and IT areas Seminars that focus on discussing each area's guidelines jointly with the development of competences and skills by means of training.

The assistance to the needs of Finasa were shown in managerial and operational programs, such as the Information Security Speech, which made participants aware of their roles in ensuring Information Security, and supported them with measures that allow the accomplishment of actions and do not jeopardize the image and reputation of the Organization, its employees and its clients.

For Finasa Private Label, we carried out the Success in Sales event, with the main purpose of allowing commercial supervisors, leaders and clerks to develop a proactive attitude towards clients, identifying opportunities to reach results, developing an attitude of initiative before adversities and an opportunity vision. That was a training course aimed at employees of Finasa's partner, Comper.

Regarding Sports segment of Finasa, we point out the course of Teachers Qualification, which aims at preparing the Technical Staff of Finasa Sports, which comprises from trainers of sport practices to teachers, to also assume the role of transformation agents, inspiration and reference to the athletes. We also point out the Professional Image Treatment, which made athletes of Finasa Esportes in the children and junior categories aware of the importance of caring for their personal image, both in the physical aspects and in the virtual ones (relationship websites), getting to know the positive and negative consequences for the Project and for the Bradesco Organization.

We also point out the training for Scopus Tecnologia employees, mainly two courses of Supplementary Qualification for Stockers, whose main objective is to promote the development of technical storage competences in all regions in Brazil, and the Consulting Service for Dell Computers Technicians course, which enabled the development of competences and abilities necessary for the rendering of a personal quality service to individuals who have Dell equipment.

With the incorporation of American Express operations in Brazil, we promoted various training programs aiming at preparing employees recently incorporated for the transition process, stimulating the reflection and sensitiveness on acquired experiences, as well as qualifying leaders with knowledge and tools which make the change easy, thus improving the business results. Among events developed, we point out the Integration Program and Managing Changes and Transitions.

The training for Bradesco Vida e Previdência was focused on development of specific actions by segment/function. Previously it was destined only to Executive Superintendents and sale professionals, but now it comprises other publics, thus developing all BVP staff. We practiced actions, such as Qualification of New Secads, training for Business/Private Branch Products Managers. We also invested in Anbid and Loma certifications. We continued the project Movere, which aims at developing competences of Learning Guidance, Strategic Vision and Planning, People Management and Leadership, for managers of the Central Management.

For Prof. Edmundo Vasconcelos Hospital, we continued the *Mais* Project with coordinated actions to different employee levels. We are investing efforts to improve the quality of service rendered by employees to hospital's users/clients according to the Hospital Hospitality concept, present since the beginning of *Mais* Project, in 2004. We planned trainings for nurses about Professional Attitude, which aims at generating good perception of service rendered to our clients, and we are also investing in Perceptive Communication for the employees so that their first approach is efficiency. The managers are involved with the Strategic Department conducted by DTN and supported by the Training Department. The Strategic Planning suggestion was a result of the work carried out with this public since 2004, in which we develop the HPEV comprehension as a business unit.

Since the establishment of Banco Bradesco de Investimento - BBI, the Training Department has tried to contribute to the process of developing competences necessary to the business. We developed trainings focused on improvement of the ability of presenting the Organization, so as to improve the BBI image in the market.

Training for Information Technology areas continued in 1H07, with the attendance of 4,652 professionals in technical training courses, aiming at improving storage performance and information availability to internal and external clients.

In addition, with a view to the ongoing improvement of IT methods and processes, we are qualifying other 20 professionals at the Methodology and Development course, which presents quality models and solutions for the development of software to be applied in internal processes.

The Project Management Program was also continued, and there are currently 112 professionals undergoing training to be able to provide solutions ensuring quality to technology systems and obtain the PMP - Project Manager Professional certification; 6 employees are already certified. As a competitive edge, the Software Quality Certification processes, presenting several software engineering techniques and concepts about product quality, have been continued, as it is a novel certification in the Country, whose third class, in progress, is attended by 23 professionals who should join the 40 ones previously certified.

Aligned to the IT improvement Project, we have promoted leveling speeches on the new system architecture for approximately 400 professionals, in addition to carrying out technical/operational courses approaching themes on requirement collection, functional specification and ITIL, which aim at a faster and more effective service in identifying IT needs.

With the purpose of bringing forward the preparation and qualification of new professionals, generating a technical renovation and qualification atmosphere for operation in the IT areas, we are promoting IT Qualification Programs for trainees and interns. We currently have 70 trainees, coming from Fundação Bradesco, and 25 interns from renowned universities such as Poli-USP, Mackenzie, FEI and Mauá.

With the purpose of seeking the improvement in IT and technological update, 107 professionals took part in the CIAB Information Technology Congress and Exposition of Financial Institutions.

Evolution of Presence Participation in the Last Quarters

Partnerships with Universities and Colleges

Since 1996, in partnership with educational institutions, such as FIA, FIPE, Fipecafi, FGV and Ibmec, 1,802 Bradesco's employees obtained MBAs, Post-Graduate, Specialization and Masters Degree certificates, important for the maintenance of quality of information provided and for the qualification of the staff to be aligned with the most modern management practices.

This year, a class of the MBA in Controller (Fipecafi), three classes of the MBA in Banking Business (FGV) (two in São Paulo and one in Rio de Janeiro), two classes of the MBA in Online Banking Business (FGV-RJ), one class of the MBA in Bradesco Organization's Processes Management (FIA), one class of the MBA in Foreign Trade and International Operations (FIPE) and one class of the MBA in Business Management with a concentration in Insurance (Ibmec-RJ) are in progress, totaling 333 professionals from different areas of the Organization.

Certification in Investment Products

Programs that prepare for the exam of Certification in Investment Products are in progress and are specially prepared for employees who need to obtain a certification, after study of the material previously made available. In this first half, two more certification exams were made in which 1,102 professionals were certified.

The approval index reached by Bradesco in these two exams was 58.8%, while the market index stood at 53.4%. This fact consolidates the concern the Organization has to adequately prepare professionals and also the involvement shown by employees during the certification process.

These figures enabled the certification, until 1H07, of 12,302 professionals directly involved in the assistance to clients of the Branches Network and to investors qualified in compliance with the Resolution no. 3,158/03, of the Brazilian Monetary Council.

TreiNet Training through the Intranet/Internet

TreiNet, a special qualification tool that allows the dissemination of new knowledge indiscriminately and quickly to all the Organization's staff, constitutes an important instrument of personal and professional development.

Bearing witness to that are the over 1.8 million participations in the 79 available courses since its implementation in 2000. In this year, two new titles have been launched: Exchange and Foreign Trade - Export Concepts, the latter being the second course in the Exchange and Foreign Trade series, whose aim is providing information that may be useful to meet our clients' requirements and prospecting new business in the Export operations; and the APF - Análise de Ponto de Função (Function Point Analysis) course, with the purpose of providing the trainees with a technique able to determine the size of a system project before developing it, besides assisting in the estimate of costs and resources, allowing a greater assertiveness in managing budgets for Information Technology projects.

In English learning, on-line training has also been a competitive advantage, enabling the participation of around 1,000 employees in courses from basic to advanced level.

By means of Fundação Bradesco Portal, some TreiNet courses are available for clients who hold a Bradesco University Account. Moreover, by means of the website 100% broker of Bradesco Seguros e Previdência, TreiNet is also available for brokers and dealerships who sell the Organization's insurance products.

Evolution of Courses in TreiNet

Brochures and Videotraining

Based on the demands of Bradesco areas of standard and operational issues, with a view to employees' awareness, in this period we have made four Brochures available about the following themes:

New Bradesco Statement, which disclosed and clarified the changes made in the statements, so that professionals who work directly with clients may promptly answer the possible doubts concerning the new model;

Loan Operation with guarantee of Visa/Amex receivables, which guided Branch employees in relation to the Receivables theme;

Leasing, which guided Managers of the branches about Leasing, its characteristics, advantages and arguments necessary to conquer and make clients loyal by means of the product; and

Rural Loan, which provided the branches' employees with basic information on Rural Loan operations, mainly its modalities.

Five new video training courses were also launched:

Social-environmental Responsibility Sustainability, which raised employees' awareness and drew their attention to the importance of social-environmental responsibility among us, so as to create a preservation culture;

New Bradesco Statement, also available in brochure format;

Market Conquest Platform, which aims at making the managers aware to use a new research system to improve their client portfolio and increase the business volume;

American Express Cards, by means of which we disclose and guide employees about American Express cards, specially the Organization's commercial strategies and competitive advantages, benefits and advantages for the clients and the bank; and

Accessibility, which was aimed at raising employees' awareness and drawing their attention to understand how to assist people with special needs.

Social and Corporate Responsibility

We continued with the projects that focus on human valuation, such as: Youth Apprentice Program, Young Citizen Program and Internship Programs with students from different universities, among them, the Bradesco Program Unipalmares (Universidade Zumbi dos Palmares). These programs benefit youngsters in the beginning of their careers, with qualification, social inclusion, as well as personal and professional development. Also under this context, Bradesco developed preparatory training in Libras (Brazilian Language of Signs (the sign language for deaf-mute people), for employees providing direct services to disabled clients, in order to guarantee this public accessibility to our branches.

Fundação Bradesco The Bradesco Organization s Social Action

Background

Fundação Bradesco, a non-profit entity, headquartered at Cidade de Deus, Osasco - SP, was founded in 1956 and declared to be of Federal Public Utility by Decree no. 86,238, on July 30, 1981.

Aware that education lies on the roots of equal opportunities and personal and collective fulfillment, Fundação Bradesco currently holds 40 schools installed as priority in the country's most underprivileged regions, in all Brazilian states and the Federal District.

Objectives and Goals

Through the innovative action of private social investment, the main mission of Fundação Bradesco is to provide formal quality education to children, young people and adults, so that they achieve personal fulfillment through their work and the effective exercise of citizenship.

Accordingly, the reach of Fundação Bradesco has been expanded yearly, increasing the number of enrolled students from 13,080 to 108,151 over the last twenty-five years. The schools of Fundação Bradesco run free education for Kindergarten, Primary School and High School, Continued and Preliminary Education of Workers as well as High School Technical Professional Education in IT, Electronics, Industry, Management and Agribusiness. Distance learning is also offered as part of the Youth and Adult Basic Education Equivalency programs via the Tele-education and the Virtual Classroom site.

Areas and Methods of Action

Basic Education

Basic Education comprises the Kindergarten, Elementary School (first to ninth grades) and High School, comprising more than 43.2% of all students on courses provided on a free basis by Fundação Bradesco each year. In addition, the students receive free school materials, uniforms, meals and health and dental care assistance.

Fundação Bradesco is always evaluating the contemporary learning trends and, therefore, is always bringing new challenges for learning practices so that the conclusions are spread throughout all school units and that propose ongoing interaction among them.

The schools are understood as a privileged environment for citizenship values and for regarding students as original, creative human beings and culture producer. Students learn through experiences in both school and society. Hence, their potential and needs to interact and reflect on the diversity of knowledge are approached in the classrooms.

Fundação Bradesco's multi-disciplinary learning seeks to provide students with access to practical and theoretical cognitive content, based on the principle that the development process is both dialectic and constructive.

On this intent, Fundação Bradesco offers various continuing education opportunities to educators, including presence and long-distance courses.

Concomitantly to teacher education, there is the production of teaching materials and resources. Books used by students from the 1st to the 5th year of Elementary School, Philosophy material for high school, CD-ROMs and DVDs for teachers with guidelines for their work.

Technical Professional Education

Based on the commitment of offering technical professional education capable of guaranteeing to the student the continuous right to develop their skills for a fruitful and social life, Fundação Bradesco is in consonance to a new model of technical education in force in Brazil. Bradesco structured the course syllabuses, prioritizing the demands

from the market and the society from a brand new perspective, offering work preparation.

High School Technical Education

Based on the professional areas of Agribusiness, Management, Industry (Electronics) and Information Technology, a number of courses were developed and offered according to the specific needs of the communities in which the school units are located.

The syllabus of these courses aims to ensure a close relationship among work, knowledge and citizenship. The final target is to bring out creative, productive and business-minded citizens, as well as showing students the importance of permanent education.

Through offering students, who arise from underprivileged backgrounds, courses whose syllabus will facilitate their entry and re-entry into the labor market, Fundação Bradesco provides access to the emerging and fast-changing business world.

Preliminary and Continuing Qualification of Workers

Fundação Bradesco offers on a free of charge basis this mode of education, designed for the needs of update, qualification and re-qualification of workers with different school levels. There are more than 100 options for free courses, presenting flexible programs, in the same track of the labor market conditions, in the following professional areas: Management, Personal Image, (Fashion and Personal Beauty Care), Industry (Electrical, Electronics and Printing Technology), IT, Leisure and Social Development, Tourism and Hospitality (Tourism, Hospitality and Catering Services). In the Agribusiness Area, Fundação Bradesco offers courses which include Artificial Insemination techniques.

Youth and Adult Education

These students come from different regions but often have similar life histories and comprise in their majority, workers and housewives who were unable to attend or remain at school when they were supposed to. At Fundação Bradesco, they are given adult literacy courses and graduate at both Elementary and High School levels, apply for university entry, in order to improve their employment prospects and most importantly to increase their skills.

Youth and Adult Education courses are given in two segments: Youth and Adult Literacy and Tele-education for Elementary and High School Equivalency.

The Tele-education courses are offered in the own schools of the Fundação or on the premises of the companies that have entered into operating agreements with it, with flexible timetables to suit the different work shifts, once the classrooms are taken up to the companies, respecting the different working hours and avoiding the need for students to travel to the school units. Another reason for the good performance is related to the investments made by Fundação Bradesco in learning technology resources.

Developed for the parents of students who attend the schools of Fundação Bradesco, the Adult Literacy Course is structured around a socio-constructivist concept, whereby the student becomes an active subject in the learning process. The topics addressed during classes arouse interest and motivate learners, guaranteeing the success of the course.

The main purpose of the Fundação Bradesco is to prepare students to improve their life conditions, based on the acquisition of organized knowledge, since according to Bradesco's philosophy education alone is capable of forming citizens who are participative and aware of their role in society.

Material Facts

Fundação Bradesco renewed its support to *Alfabetização Solidária* (Solidary Literacy), investing R\$900 thousand. In 2007, approximately 10 thousand students and 430 teachers will be benefited with resources from Fundação Bradesco in 14 municipalities of the Northeast region with high illiteracy indices.

In June, in order to celebrate the environment month, Fundação Bradesco took part in *Viva a Mata* event, promoted by Fundação SOS Mata Atlântica in Ibirapuera Park, in São Paulo, by presenting works developed in the mini-nurseries of SOS Mata Atlântica, established in ten of its school units. Workshops were developed by the schools from Campinas/SP, Jardim Conceição/SP, Marília/SP and Osasco Unit I, with the participation of 1,935 people with the

following themes: Aromatic herbs sachets , Ink produced based on natural colorings , Antidengue vase , Efficient germination techniques in arborous species , Exploitation of banana tree fiber , Pencil-case assembly by reusing PET bottles and Brushwood and sisal accessories .

Fundação Bradesco supported and sponsored the International Exhibition of Robotics and Artificial Intelligence, carried out in São Paulo, which comprised in two pavilions the main companies and research institutions related to robotics in Brazil: Robots Exhibit, for general public, with robotics attractions and competitions, space for humanoids and educational space and Robotics Conference & Expo, with technology innovations and trends for professionals of robotics and artificial intelligence areas, as well as the handling of products involving technology to solve problems. Fundação Bradesco took part in both pavilions, presenting projects of Campinas/SP, Gravataí/RS and Osasco/SP schools.

Aiming to offer basic education in information technology and access to public services on the Internet, besides valuing citizenship with the development of actions articulated with the communities, Fundação Bradesco has implemented three more Digital Inclusion Centers (CID): in Casa Acolhida, in Belo Horizonte, in the city of Embu das Artes/SP and Lagoa Tapeba II indigenous village, in Caucaia/CE, the latter is the fourth digital inclusion center established in an indigenous community. It is a joint project between Fundação Bradesco and companies in the technology sector, aiming at fighting against the digital exclusion and expanding the service to people who live close to the Schools, in spaces managed by the community's volunteers. High School Students offer monitoring for the conduction of the activities, acting as protagonists.

Teresina School Unit celebrated 25 years of activities, with the presence of authorities who pointed out the importance of Fundação Bradesco's work for the region of the district Grande Dirceu, which has currently more than 20 thousand inhabitants. 25 years ago Fundação Bradesco was established in the community and since has graduated many students.

During the Annual General Meeting of GIFE - Group of Institutes, Foundations and Companies, the 52 attending members approved the people appointed to constitute the new Fiscal and Governance Councils for the 2007-2009 management. Teacher Denise Aguiar Alvarez Valente, Fundação Bradesco's officer and member of Bradesco's Board of Directors, was appointed as the president of GIFE Network of Social Investment.

Main Acknowledgments

South-American Competition First Lego League - Fundação Bradesco took part in the Robotics competition in São Paulo, represented by teams from Osasco - Unit I, Campinas and Gravataí schools.

The Free Access team - Team #6233 from Osasco - Unit I was awarded in three modalities:

FLL Award - Missionsst place - higher score in robotics challenges;

FLL Award - Scientific Researchst place - the team continued the work of loggerhead turtles preservation with a solution involving Nanotechnology.

FLL Award - Surprise Challenge of Alliancest place - higher score within the lower time in a challenge proposed 48 hours before the competition. The team's teacher was one of the three best trainers and was also awarded in the competition.

Conceição do Araguaia/PA School Unit was honored with the Support Motion, granted by the City Council, due to the National Day of Voluntary Action.

Pinheiro/MA School Unit was honored with the Congratulation Motion, granted by the City Council, due to the National Day of Voluntary Action.

Viva Ribeira Letter Competition: one student from the fourth grade of Elementary School of Registro/SP School Unit was awarded in this competition with a text criticizing the environmental problems faced by the city.

Drawing Competition - Conceição do Araguaia Preserving Life : one student from the eighth grade of Elementary School of Conceição do Araguaia/PA School Unit conquered the 1st place with the drawing - Acting today to enjoy tomorrow! .

Edgar Filing: BANK BRADESCO - Form 6-K

Young Writers Competition Peace : one student from the fifth grade of the Elementary School conquered the 1st place with the text The balance of the world depends on the peace which arises from the family and one student from the ninth grade conquered the 2nd place with the essay The peace also depends on me . Both students are from Teresina/PI School Unit.

Medal for the Afro-Brazilian Civic Merit: Fundação Bradesco was honored by Universidade de Cidadania Zumbi dos Palmares during the ceremony of reflection about slavery abolition in Brazil, due to the work for the black people citizenship and inclusion.

Schools Location

The majority of the Fundação Bradesco's educational units are located in the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students all over Brazil are given the opportunity to study at these schools.

7- Report of Independent Auditors

Independent Auditors' Report on the Limited Review of Supplementary Accounting Information presented in the Report on Economic and Financial Analysis and in the Statement of Social Responsibility

(A free translation from the original in Portuguese)

To the Board of Directors
Banco Bradesco S.A.

1. In connection with our audits of the financial statements of Banco Bradesco S.A. and its subsidiaries (consolidated) as of June 30, 2007 and 2006, on which we expressed an unqualified opinion in our report dated August 3, 2007, we carried out a limited review of the supplementary accounting information presented in the Report on Economic and Financial Analysis and in the Statement of Social Responsibility. This supplementary information was prepared by the Bank's management and is presented to permit additional analysis and should not be considered as an integral part of the financial statements.

2. Our work was carried out in accordance with the specific standards established by the Institute of Independent Auditors of Brazil - IBRACON, in conjunction with the Federal Accounting Council - CFC, for purposes of our review of the supplementary accounting information described in paragraph one and mainly comprised: (a) inquiries of and discussions with management responsible for the accounting, financial and operating areas of the Bank and its subsidiaries with regard to the main criteria used for the preparation of this supplementary accounting information and (b) a review of the significant information and the subsequent events which have, or could have significant effects on the financial position and operations of the Bank and its subsidiaries.

3. Based on our limited review, we are not aware of any material modifications which should be made to the supplementary information referred to above in order that such information be fairly stated, in all material respects, in relation to the financial statements taken as a whole, referred to in paragraph one.

4. As described in Note 15, the goodwill on investments in associated and subsidiary companies was amortized in the second half of 2006.

**8 - Financial Statements, Independent Auditors' Report,
Summary of the Audit Committee Report and Report of the
Fiscal Council**

Management Report

Dear Stockholders,

We are pleased to present the Consolidated Financial Statements of Banco Bradesco S.A., for the first half of 2007, pursuant to the Brazilian Corporate Law.

The Brazilian economy has shown unequivocal signs of growth. The stimulus given to families and companies to take risks increases as the basic interest rate has been constantly decreasing since September 2005. The inflation is expected to remain steady, lower than the government target. The private investment responds to the higher predictability and favorable dynamics of the domestic consumption market, enabling expectations for the loan volume increase. The positive assessment of markets in relation to the Brazilian economic principles makes Brazil Risk converges to the situation observed in countries already classified as investment grade, thus generating good perspectives for direct foreign investments.

At Bradesco Organization, among the material events of the period, the most outstanding ones were:

- **on January 23, the execution of the commitment to transfer to Bradesco the stockholding control of Banco BMC S.A. and its subsidiaries.** BMC is one of the largest private banks in payroll deductible loans. The operation reaffirms Bradesco's goals of strengthening its presence and operation in the country's consumer financing market. The acquisition process, approved by the Brazilian Central Bank in a session on 8.1.2007, will be ratified by the Companies' Special Stockholders' Meetings;
- **on March 29, the start of the ATM Outplaced Terminals Sharing between Bradesco and Banco do Brasil,** with the purpose of improving the coverage and efficiency of our services. At the end of the project, the Shared Network will rely on nearly 8,200 ATM outplaced terminals;
- **on April 27, Moody's Investors Service raised Bradesco's Bank Financing Strength Rating (BFSR) from C- to B.** This rating is the highest one granted to Brazilian banks in that category; and
- **partnership in the Credit Card segment entered into with the company O Boticário,** which operates in the cosmetics segment, comprising more than 2,400 stores throughout the country and abroad, for the launch of O Boticário Visa Credit Card; and a **partnership entered into with Drogasil,** a drugstore chain with more than 180 stores distributed in many Brazilian states, with the purpose of issuing and managing Drogasil Visa Credit Cards.

1. Income for the period

In the first half of 2007, Bradesco recorded a Net Income of R\$4.007 billion, equivalent to R\$2.00 per share, and an annualized profitability of 36.32%(*) on the average Stockholders' Equity. The annualized return on Total Assets was 2.78% as compared to 2.71% in the same period of the previous year.

Due to the main activities carried out by Bradesco Organization, taxes and contributions in the period, including paid or accrued pension taxes and contributions, totaled R\$3.607 billion, equivalent to 90% of the Net Income.

The strict control of administrative expenses, together with the permanent effort to increase revenues, has contributed to the improvement in the last 12 months of the Operating Efficiency Ratio - IEO, from 43.24% on June 30, 2006 to 41.95% on June 30, 2007.

Monthly and interim Interest on Own Capital and Dividends paid and provisioned to stockholders added up to R\$1.397 billion. Thus, for each stock, R\$0.731673 (R\$0.647204 net of withholding income tax) was attributed, including the additional of 10% for preferred stocks, and R\$0.665157 (R\$0.588367 net of withholding income tax) for common stocks.

2. Capital and Reserves

At the end of the first half of 2007, the paid-up Capital Stock was R\$18 billion. Added to Equity Reserves of R\$10.231 billion, it comprised the Stockholders Equity of R\$27.515 billion, with an evolution of 28.21% when compared to the same period of the previous year, corresponding to the equity value of R\$13.75 per stock.

The Managed Stockholders' Equity corresponds to 9.49% of the consolidated Assets, which added up to R\$290.568 billion, a 24.74% increase over June/2006. Thus, the capital adequacy ratios reached 18.17% in the financial consolidated and 16.11% in the economic-financial consolidated, therefore higher than the minimum of 11% set forth by Resolution 2,099, as of 8.17.1994, of the National Monetary Council, in accordance with the Basel Committee. At the end of the first half of 2007, the fixed assets to stockholders' equity ratio, compared to the Consolidated Reference Stockholders' Equity, was 47.43% in the financial consolidated and 8.49% in the economic-financial consolidated, thus placed within the maximum limit of 50%.

In compliance with the provisions in Article 8 of Circular 3,068, as of 11.8.2001, of the Brazilian Central Bank, Bradesco states that it has financial capacity and intention to hold to maturity the securities rated in the securities held to maturity category.

3. Funding and Asset Management

The funds raised and managed by Bradesco Organization recorded a growth of 22.69% when compared to the same period of the previous year, totaling R\$421.602 billion on June 30, distributed as follows:

R\$136.357 billion in Demand Deposits, Time Deposits, Interbank Deposits, Other Deposits, Open Market and Savings Accounts;

R\$161.281 billion in assets under management, comprising Investment Funds, Managed Portfolios and Quotas of Third-Party Funds, a 17.17% growth compared to the same period in the previous year;

R\$65.205 billion recorded in the Exchange Portfolio, Borrowings and Onlendings, Own Working Capital, Tax Payment and Collection and Related Taxes, Funds From Issuance of Securities, Subordinated Debt in the country and Other Fundings;

R\$52.900 billion in Technical Provisions for Insurance, Supplementary Private Pension Plans and Certificated Savings Plans, with an increase of 20.37% when compared to the same period of the previous year;

R\$5.859 billion in Foreign Funding, by means of public and private issuances, Subordinated Debt and Securitization of Future Financial Flows, representing US\$3.042 billion.

4. Loan Operations

At the end of the first half of 2007, the balance of consolidated loan operations totaled R\$108.191 billion, a 22.05% growth when compared to June 2006, including in this amount:

R\$6.128 billion in Advances on Foreign Exchange Contracts, for a total Portfolio of US\$7.622 billion of Export Financing;

US\$1.117 billion in operations of Import Financing in Foreign Currencies;

R\$4.848 billion in Leasing;

R\$7.903 billion in businesses in the Rural Area;

R\$40.065 billion in Consumer Financing;

R \$11.129 billion related to onlending operations of external and internal funds, mainly coming from BNDES Brazilian Development Bank.

In the Real Estate Loan segment, the Organization allocated funds in the amount of R\$1.541 billion in the first half of 2007 for house construction and acquisition, corresponding to 13,121 properties.

The consolidated balance of allowance for doubtful accounts reached R\$7.033 billion, equivalent to 6.50% of the total volume of loan operations, with R\$1.110 billion of additional provision in relation to the minimum required by the Central Bank.

5. Capital Markets Operations

Bradesco, through Banco Bradesco BBI S.A. and to support the capitalization of companies, intermediated primary and secondary operations of stocks, debentures and promissory notes, as well as operations of Credit Right Investment Funds, which totaled, in the period, R\$12.635 billion, corresponding to 31.40% of the total volume of issuances registered at the CVM – Brazilian Securities and Exchange Commission. The Bank was also highlighted in Mergers and Acquisitions, Project Financing, Structured Operations and Treasury, taking care of the structuring, origination, distribution and asset management businesses, and clients' financial flows and inventories.

6. Bradesco Customer Service Network

Bradesco Organization's Network, made available for clients and users, at the end of the first half of 2007, was comprised of 24,055 outlets, 24,498 machines of Bradesco Dia&Noite (Day&Night) ATM Network, 23,706 of them working even on weekends and holidays. In addition, more 3,504 machines of Banco24Horas (24-hour Bank) were made available for Bradesco clients for withdrawal operations, issuance of statements and balance consultation.

- 3,031 Branches in the Country (3,029 of Bradesco, 1 of Bradesco BBI and 1 of Banco Finasa);
- 3 Branches Overseas, 1 in New York, 1 in Grand Cayman and 1 in Nassau, in the Bahamas (Boavista);
- 5 Subsidiaries Overseas (Banco Bradesco Argentina S.A., in Buenos Aires, Banco Bradesco Luxembourg S.A., in Luxembourg, Bradesco Securities, Inc., in New York, Bradesco Services Co., Ltd., in Tokyo and Cidade Capital Markets Ltd., in Grand Cayman);
- 5,709 Banco Postal Branches; 9,699 Bradesco Expresso Outlets 2,645 Corporate Site Branches;
- 2,571 Outplaced Terminals of Bradesco Dia&Noite (Day&Night) ATM Network;
- 392 Branches of Finasa Promotora de Vendas, a company present in 18,455 car dealers and 21,616 stores trading furniture and home décor, auto parts, information technology programs and IT equipment, home building material, tires, tourism and telephony, among others.

7. Grupo Bradesco de Seguros e Previdência

With a strong operation in the Insurance, Supplementary Pension Plans and Certificated Savings Plans areas, Grupo Bradesco de Seguros e Previdência recorded on June 30 a Net Income of R\$1.225 billion and Stockholders' Equity of R\$8.449 billion. Net premiums issued recorded R\$9.871 billion, with a 15.28% growth compared to the same period of the previous year.

8. Corporate Governance

The adoption of the best Corporate Governance practices has enabled Bradesco Organization to improve the relationship with stockholders and other interested parties (stakeholders), as well as strengthen its performance in all operation segments.

To date, we have adopted many initiatives, such as: the monthly payment of dividends and/or interest on own capital; listing in the Level 1 of Corporate Governance of Bovespa; 100% Tag Along for common stocks and 80% for preferred stocks; Corporate Code of Ethics; Codes of Ethics for the Accounting and Financial Management Areas and for Units Involved in Third-party Funds Management and in Provision of Custody and Controllorship Services; creation of Statutory Committees of Audit, Ethical Conduct, Internal Controls and Compliance and Compensation, as well as Executive Committees of Corporate Governance, Disclosure, Social-environmental Responsibility and Expenses Evaluation, among others; transparency in information disclosure to the market in three languages (Portuguese, English and Spanish); presence of 2 independent members of the Board of Directors; since Bradesco has its stocks traded in Foreign Stock Exchanges, it prepares its financial statements according to the US GAAP, North American accounting practices; and accurate definition of the attributions of each Administrative Body.

With the intention to reaffirm the permanent commitment to strengthen the Organization and, consequently, contribute to its continuity, Bradesco Organization's Board of Directors approved the Corporate Governance Policy, as well as the Policies of Disclosure of Material Act or Fact and Trading of Securities, Internal Controls and Compliance, Corporate Social-environmental Responsibility, Human Resources Management, Information Security and Operational Risk Management.

In March 2007, the IT Governance Area was created, with the purpose of harmonizing the IT Management processes, towards the achievement of goals and real needs of the businesses resulting from strategic decisions.

The Bank has the specific Corporate Governance rating with classification AA (Great Practices), showing the Organization's commitment to its stockholders, clients, investors, employees and the general public, highlighting the different aspects of solidity, transparency, liquidity and social-environmental responsibility.

In the period, it is worth mentioning that Bradesco Organization, in compliance with Instruction 381, issued by the Brazilian Securities and Exchange Commission, did not contract or had services rendered by PricewaterhouseCoopers Auditores Independentes unrelated to the independent audit in levels higher than 5% of total costs thereof. The policy adopted complies with the principles preserving the auditor's independence, pursuant to the internationally accepted criteria, such as: the auditor shall neither audit his own work, nor perform management duties with his client or promote his interests.

The Annual Stockholders Meeting as of March 12 resolved to maintain the Fiscal Council, composed of 3 sitting members and 3 deputy members, with a term of office until 2008, being 1 sitting member and deputy chosen amongst preferred stockholders.

8.1 Internal Controls and Compliance

The Internal Controls and Compliance System adopted by Bradesco Organization is an important instrument of risk management and Corporate Governance.

More generally, it is a structured project comprising the Board of Directors, its advisory Committees, the Board of Executive Officers, Managements and all Organization's employees, with the purpose of allowing a safer, more adequate and efficient conduct of business aligned with regulations set forth by the National Monetary Council.

The Organization continuously reevaluates the flows of its processes and systems and, at the same time, has regularly performed adherence tests to assess the effectiveness of existing controls, involving the Areas, the Internal Controls and Compliance and Audit Committees, with a summarized report to the Board of Directors. The work is structured based on the main control framework, such as COSO Committee of Sponsoring Organizations of the Treadway

Commission and COBIT Control Objectives for Information and Related Technology, which comprise Business and Technology aspects, respectively, as well as PCAOB Public Company Accounting Oversight Board. It also fully complies with Sarbanes-Oxley Act.

Since Bradesco has ADRs American Depositary Receipts traded on the New York Stock Exchange and is classified in the foreign issuer category, it filed in the Securities and Exchange Commission SEC, in June 2007, the form 20-F, which has as one of its purposes to record the certification and efficiency of internal controls adopted by the Organization, as well as ensure the veracity of accounting, economic and financial information for the previous fiscal year, in compliance with Section 404 requirements of Sarbanes-Oxley Act. The certifications were issued by PricewaterhouseCoopers Auditores Independentes and by the Chief Executive Officer CEO and Chief Financial Officer CFO of the Bank. The internal controls of Bradesco Organization were proved effective in December 31, 2006.

Money Laundering Prevention

The Bank counts on a program to avoid and fight against the use of its products and services in the money laundering arising from illegal activities, including those related to corruption and terrorism cases. Therefore, it has specific policies, processes and systems to control and prevent money laundering.

The participation of the Senior Management in the Executive Committee of Money Laundering Prevention and Detection ensures the alignment between the different areas and activities of the Organization, meeting every quarter to evaluate the works and the adoption of measures necessary to maintain it in compliance with the best international

practices related to the prevention and fight against money laundering and terrorism financing.

The Know your Client and Know your Employee policies, the substantial investments in training, processes and control systems and operation monitoring allow the appropriate identification of unusual situations which, after being analyzed by an specialized team, are sent to the aforementioned Committee in order to decide whether the cases shall be submitted to competent authorities, regardless

the operation has been carried out or not. The business units have autonomy to refuse businesses and operations considered suspicious or unusual, and the unusual business proposal is refused and reported to this Committee.

Information Security

The Information Security is basically constituted by a set of controls, including policies, processes, organizational structures and security rules and procedures. It aims at protecting information of clients and Organization, in the confidentiality, integrity and availability aspects.

Bradesco Organization established the Information Security Corporate Policy, which may be found at our website www.bradesco.com.br, and maintains a formal infrastructure, with the purpose of promoting the corporate management of Information Security, providing effective protection to Information Assets. The Information Security Corporate Policy comprises Privacy Directives, voluntarily established by Bradesco Organization, with the purpose of protecting data privacy of clients, reflecting the Organization's values and reaffirming its commitment to the continuous improvement of the efficiency of the Data Protection process.

With the purpose of preserving total compliance with these procedures, constant training programs are carried out, as well as awareness of employees and reviews of policies.

8.2 Policies of Transparency and Disclosure of Information

In its relationship with investors and the market in general, 75 internal and external meetings with analysts were promoted in the period, 17 conference calls, 6 presentations to APIMEC – Association of the Capital Markets Investment Analysts and Professionals and 8 events abroad, besides quarterly release of Report on Economic and Financial Analysis, a detailed collection of information most requested by specialized readers. Bradesco also took part in the Meeting with the Investor, promoted by INI – Brazilian Institute of Investors, answering the questions of individuals investors.

At the website www.bradesco.com.br, Investor Relations Section, you can access information related to Bradesco Organization, for instance, its profile, history, ownership structure, management reports, financial results, last acquisitions, meetings at the APIMECs, in addition to other information about the financial market, in the Portuguese, English and Spanish versions.

The Bank monthly distributes a newsletter called *Cliente Sempre em Dia* (Updated News for the Client), with circulation of 700 thousand copies; quarterly, *Acionista Sempre em Dia* (Updated News for the Stockholder), with 35 thousand copies, *Revista Bradesco* (Bradesco Magazine), with 26 thousand copies and *Revista Bradesco Rural* (Bradesco Rural Magazine), with 5 thousand copies, all of them targeting external readers. Annually it publishes the Management and the Sustainability Reports.

9. Risk Management

Directly subordinated to an Executive Officer and to the CEO of the Bank and carried out independently, the risk management involves an integrated set of controls and processes, comprising credit risk, market risk and operational risk. By principle, the Organization adopts a conservative policy in terms of exposure to risks, and the guidelines and limits are defined by the Senior Management.

9.1. Credit Risk

The Credit Risk management in the Organization, aligned with the best practices, always recognizing the Brazilian market situation, is a continuous and evolutionary process of mapping, assessment and diagnosis of models, instruments, policies and procedures in force, requiring a high level of discipline and control in the analyses of

operations, preserving the integrity and independence of processes. It also aims to comply with the requirements proposed in the New Basel Accord.

9.2 Market Risk

Based on methodologies and models aligned with the best practices of the domestic and foreign markets, the market risk is carefully followed, assessed and managed, also complying with the recommendations and rules of the regulatory bodies. The market risk management policy is conservative, and the VaR (Value at Risk) limits are defined by the Senior Management and daily monitored, in an independent way.

9.3 Operational Risk Management

Bradesco Organization considers the Operational Risk Management activity essential for the generation of value added, and its success is based on the dissemination of culture, tools availability, disclosure of policies and implementation of corporate methodologies. These assumptions allow the improvement of internal processes, as well as the support to the business areas, with the purpose of improving the operational efficiency and decreasing the capital commitment.

With a continuous work to be aligned with the best market practices in the operational risk management, Bradesco is ready to meet the guidance of the New Basel Capital Accord, pursuant to the schedule established by the Brazilian Central Bank. The Organization's goal is to reach a qualification for the Capital Allocation Model by the Advanced Internal Measuring Approach (AMA), as the adoption of this method will provide lower capital allocation.

It is also worth pointing out that a new corporate systemic platform is under development, which will integrate in a single database the information of Operational Risk and Internal Controls, comprising inclusively the requirements set forth by Section 404 of the Sarbanes-Oxley Act.

10. Bradesco Organization's Social-environmental Action

10.1 Social-environmental Responsibility

The social-environmental issue and its impacts on the economic development of the country play an important role in Bradesco's strategic planning. The Bank adopted the reviewed version of the Equator Principles, ratifying the commitment of evaluating all project financing with amount equal or higher than US\$10 million. It was the first Bank to launch a measurement program of its direct and indirect participation in the emission of carbon dioxide (CO²) in the atmosphere, with the purpose of neutralizing this production, and among its consumption materials, it also started using recycled paper to make checkbooks and printed matters with the same safety, quality and reliability already seen by all the market. Currently, around 90% of the paper consumed is recycled.

In this line, and reinsuring the commitment to transparency and accountability concerning its practices, Bradesco started to adopt, in 2006, the guidelines of the Global Reporting Initiative - GRI in its Sustainability and Annual Reports.

It is worth pointing out that Bradesco is the first financial institution of the Americas to receive SA 8000® Rule, a certification granted by Social Accountability International - SAI, which evaluates the adoption of good social responsibility practices, such as respect to human rights, child rights and the main labor rights, in addition to a safe and healthy work environment.

With the purpose of disseminating the social-environmental responsibility practices, Bradesco has been carrying out, within the scope of its relationships, meetings with suppliers of products and services it consumes, of the most different segments, aiming at the diffusion and awareness about the vital importance of this matter.

At the Bank's Social-environmental Responsibility website, www.bradesco.com.br/rsa, the Social-environmental Responsibility Corporate Policy is made available, defining the guidelines about the theme, increasing the visibility of the Organization's actions towards sustainable development.

10.2 Fundação Bradesco

In the social area, the Organization is mainly focused on the educational and assistance work developed for more than 50 years by Fundação Bradesco, aimed at the education of low-income children, youngsters and adults. Through its own 40 schools set up in all Brazilian States and in the Federal District, Fundação Bradesco has already graduated and

qualified more than 662 thousand students in Elementary School, High School Technical Professional Courses, Adult and Youngster Education Courses, and Initial and Continuing Education of Workers, in the country's largest private program for investment in social education. This year, with a planned budget of R\$189.851 million, Fundação Bradesco will provide free quality education to more than 108 thousand students, of whom over 50 thousand are elementary students and will also receive free food, medical and dental assistance, uniforms and school supplies.

10.3 Finasa Sports Program

Finasa Sports Program, promoted by Bradesco Organization, has as main purpose the development of children and adolescents by means of activities such as sports, education actions, health and well-being. It is one more demonstration of support of the Organization towards citizenship and social inclusion.

Structured in 52 volleyball and basketball training centers at Fundação Bradesco in Osasco, SP, and in local schools and sports centers in the city, it currently assists 3,000 girls from 9 to 18 years of age.

11. Human Resources

Bradesco Organization, recognizing in the value of performance and in the achieving potential of people the sustenance basis of its businesses, encourages the professional improvement of its staff, by means of training programs, aiming at their qualification to always provide clients an assistance of excellence, in addition to ensuring growth opportunity and professional development. Thus, in the first half of 2007, 1,028 courses were conducted, with 462,225 participations.

It is also worth pointing out that the assistance benefits aimed at the improvement of the quality of life, well being and safety of the employees and their dependents comprised 175,633 lives on June 30.

These are facts that consolidate the Management Policy of Human Resources as one of the priorities of the Organization.

12. Recognitions

Ranking In the first half of 2007, we can highlight:

- **Latin America s most valuable brand in the financial sector**, in the ranking prepared by the consulting firm Brand Finance and disclosed by América Economia magazine;
- **Brazil s most valuable brand, by the second consecutive year**, in the ranking of Dinheiro/ BrandAnalytics. Bradesco Brand reached the value of US\$3.710 billion, 49% more than the one recorded in the previous period;
- **The Brazilian financial institution with the best placement** in the ranking of Fortune magazine, reaching the 224th place in the general classification of the 500 largest companies of the world.

Rating In the period, Standard & Poor's and Fitch Rating increased the risk rating in foreign currency of the Bank, placing it in the investment grade category.

13. Acknowledgments

All these facts shows Bradesco s commitment to always offer high standard products and services. For the achievements and advances reached, we wish to thank our stockholders and clients for their support and trust and our employees for their dedicated and efficient work.

Cidade de Deus, August 3, 2007.

Board of Directors and Board of Executive Officers

1) Operations

Banco Bradesco S.A. (Bradesco) is a private-sector publicly-held company which, operating as a Multiple Bank, carries out all types of authorized banking activities through its commercial, foreign exchange, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in Leasing, Investment Bank, Consortium Management, Insurance, Private Pension Plan and Certificated Savings Plans activities. Operations are conducted within the context of the companies comprising the Bradesco Organization, working in an integrated manner in the market.

In this context, on January 23, 2007, Bradesco executed with controlling stockholders of Banco BMC S.A. (BMC) Private Instrument for Commitment of Merger of Stocks and Other Covenants, for the acquisition of BMC and its subsidiaries BMC Asset Management Ltda., Distribuidora de Títulos e Valores Mobiliários, BMC Previdência Privada S.A. and Credicerto Promotora de Vendas Ltda. The operation comprises the transfer to Bradesco of 100% of the stocks representing BMC's capital stock. The payment will be by delivering to BMC's stockholders stocks issued by Bradesco corresponding to approximately 0.94% of its capital stock, which will be increased by R\$800 million. The merger will provide Bradesco with an increasing platform in the fastest-growing sector of the Brazil consumer financing market, as well as with a strengthened presence in the financing of SMEs. The operation was ratified by the Brazilian Central Bank (Bacen) on August 1, 2007, thus it did not impact the current financial statements.

2) Presentation of the Financial Statements

The financial statements of Bradesco include the financial statements of Banco Bradesco, its foreign branches and its direct and indirect subsidiaries and jointly controlled investments, in Brazil and abroad, and Special Purpose Entities (SPEs). They were prepared based on accounting policies determined by Brazilian Corporate Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Bacen, Brazilian Securities Commission (CVM), Brazilian Council of Private Insurance (CNSP), Superintendence of Private Insurance (Susep) and the National Agency for Supplementary Healthcare (ANS), and consider the financial statements of the leasing companies based on the capital leasing method of accounting, whereby leased assets are reclassified to the leasing operations account, deducted from the residual amount received in advance.

Accordingly, for preparation purposes, intercompany investments, asset and liability account balances, revenue, expenses and unrealized profit were eliminated from these financial statements, as well as the portions of the net income and the stockholders' equity referring to the interest of minority stockholders were highlighted. In the case of investments which are jointly controlled with other stockholders, asset, liability and income components were included in the consolidated financial statements in proportion to the percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries and in the jointly controlled investments was presented in deferred assets until June 30, 2006, and was fully amortized in 3Q06. Goodwill calculated in acquisitions after this date has been fully amortized in the periods in which the investments acquisition occurred (Note 15a). The exchange variation arising from transactions of foreign branches and subsidiaries was allocated to the statement of income accounts according to the corresponding assets and liabilities from which it was originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, provision for contingencies, other provisions, the quantification of technical provisions for insurance, supplementary pension plans and certificated savings plans and the determination of the useful life of specific assets. Actual results could differ from these estimates and assumptions.

We highlight the main ownerships included in the Consolidated Financial Statements:

		Total Ownership		
		2007		2006

- (18) Current name of Nova Paiol Participações S.A.;
- (19) Equity interest decrease due to the partial investment sale in June 2007; and
- (20) Current name of American Express do Brasil Tempo Ltda.

Supplementary Information to Financial Statements:

With the purpose of providing supplementary information, we present the cash flow statement by the indirect method and the value added statement, not required by the accounting practices adopted in Brazil and by Bacen, which have been prepared in conformity with the structure set forth in the Chart of Accounts for National Financial System Institutions (Cosif).

3) Significant Accounting Policies

a) Determination of net income

Income and expenses are determined on the accrual basis of accounting. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Income and expenses of a financial nature are prorated daily and calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated based on the straight-line method. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date.

The insurance and coinsurance premiums and commissions, net of premiums assigned in coinsurance and reinsurance and corresponding commissions, are appropriated to results upon issuance of the corresponding insurance policies and invoices and are deferred for appropriation on a straight-line basis over the terms of the insurance policies, during the risk coverage period, by means of recording and reversal of unearned premiums reserve and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsures (IRB), respectively.

The supplementary private pension plans contributions and life insurance premiums covering survival are recognized in income when effectively received.

The revenue from certificated savings plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as *Selling Expenses*, are recorded as they are incurred. Brokerage expenses are recorded when the certificated savings plans contributions are effectively received. The payment for draw redemptions is considered as expenses of the month when these occur.

The expenses for technical provisions for private pension plans and certificated savings plans are recorded at the same time as the corresponding revenues there from are recognized.

b) Interbank investments

Purchase and sale commitments subject to unrestricted movement agreements are adjusted to mark-to-market. Other assets are recorded at acquisition cost, including income earned up to the balance sheet date, net of loss accrual, when applicable.

c) Securities

Trading securities securities which are acquired for the purpose of being actively and frequently traded are adjusted to mark-to-market as a counter-entry to income for the period;

Securities available for sale securities which are not specifically intended for trading purposes or as held to maturity are adjusted to mark-to-market as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects; and

Securities held to maturity securities for which there are intention and financial capacity for maintenance in portfolio through to maturity are recorded at acquisition cost, plus income earned, as a counter-entry to income for the period.

d) Derivative financial instruments (assets and liabilities)

These are classified based on Management's intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments, which do not comply with the hedging criteria established by Bacen, particularly derivatives used to manage general exposure to risk, are recorded at market value, with the mark-to-market adjustments taken directly to income for the period.

e) Loan and leasing operations, advances on foreign exchange contracts, other receivables with characteristics of loan granting and allowance for doubtful accounts

Loan and leasing operations, advances on foreign exchange contracts and other receivables with characteristics of loan granting are classified at their corresponding risk levels in compliance with: (i) the parameters established by CMN Resolution no. 2,682, at nine levels from AA (minimum risk) to H (maximum risk); and (ii) Management's risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. Moreover, the length of the delay in payment defined in CMN Resolution no. 2,682 is also taken into account for customer risk classification purposes as follows:

Past-due period	Customer classification
From 15 to 30 days	B
From 31 to 60 days	C
From 61 to 90 days	D
From 91 to 120 days	E
From 121 to 150 days	F
From 151 to 180 days	G
More than 180 days	H

The accrual of these operations past due up to 59 days is recorded in revenues and subsequent to the 60th day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written-off against the existing allowance and controlled over, at least, a five-year period in memorandum accounts, no longer being recorded in balance sheet accounts.

Renegotiated operations are maintained, at least, with a classification equal to their prior rating. Renegotiated loan operations, already written-off against the provision and which are recorded in memorandum accounts, are classified at H level and the possible revenues derived from their renegotiation are recognized as revenue only when they are effectively received. When there is a significant amortization of the operation or when new material facts justify the risk level change, pursuant to CMN Resolution no. 2,682, the operation may be reclassified to a lower risk category.

The allowance for doubtful accounts is calculated in an amount sufficient to cover probable losses and takes into consideration Bacen rules and instructions, connected to assessments carried out by the Management, in the loan risks determination.

f) Taxes on income (asset and liability)

Tax credits on taxes on income, calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other receivables Sundry , and the provision for deferred tax liabilities on excess depreciation and mark-to-market adjustments of securities is recorded in Other liabilities Fiscal and Social security .

Tax credits on temporary additions are carried out upon use and/or reversal of the corresponding provisions on which they were recorded. Tax credits on tax losses and negative basis of social contribution will be carried out as taxable income is generated. Such tax credits are recorded based on the current expectations for their realization, taking into account the technical studies and analyses carried out by the management.

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10%. The provision for social contribution is recorded at the rate of 9% of pre-income tax. Provisions were recorded for other taxes on income in accordance with specific applicable legislation.

g) Prepaid expenses

These record investments of resources in prepayments, whose benefits or service provision will take place in future periods, therefore, they are recorded in assets considering the accrual method of accounting, which determines that income and expenses must be included in the determination of the income for the periods in which they occur, always simultaneously when they are correlated, regardless of receipt or payment.

Prepaid payments correspond to the installment already paid for service rights to be received or for the future use of financial assets or resources from third-parties.

This group is basically represented by: commission in the placement of financings, contracts in the rendering of banking services, insurance selling expenses, insurance expenses and other costs on funding abroad and advertising expenses, as described in Note 12 b.

Thus, based on the accrual method of accounting and the confrontation between income and expense , incurred costs related to corresponding assets which will generate income in subsequent periods are recorded in prepaid expenses. These assets are appropriated to the income in accordance with terms and amounts of benefits which are expected and directly written-off in the income when corresponding assets and rights are no longer part of the institution 's assets or the expected future benefits can not be realized.

h) Investments

The investments in subsidiaries, shared control subsidiaries and affiliated companies, when relevant, are valued by the equity accounting method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into Reais and their effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Custody and Settlement Chamber (Cetip) and the Mercantile and Futures Exchange (BM&F) are evaluated and adjusted at their unaudited book values, informed by the corresponding exchanges as counterentry to the account highlighted in the stockholders ' equity, and fiscal incentives and other investments are recorded at acquisition cost, less the provision for losses, when applicable.

i) Fixed assets

This is shown at acquisition cost, net of respective accumulated depreciations, calculated by the straight-line method according to the estimated useful-economic life of assets of which: real estate in use 4% p.a.; furnishings and fixtures,

machinery and equipment 10% p.a.; transport systems 20% p.a.; and data processing systems 20% to 50% p.a.

j) Deferred assets

Deferred assets are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization at 20% per annum, calculated on the straight-line method.

Goodwill in the acquisition of investments in subsidiary companies and shared control subsidiaries, based on future profitability expectation, with an amortization of 10% to 20% per annum, was recorded in deferred assets, until June 30, 2006. Goodwill as of June 30, 2006 was reviewed by the Management Bodies and was fully amortized in 3Q06, as well as goodwill calculated in 1H07, as mentioned in Note 15a.

k) Deposits and federal funds purchased and securities sold under agreements to repurchase

These are recorded at the amount of the liabilities and include, when applicable, related charges up to the balance sheet date, on a daily *pro rata* basis.

l) Provisions relating to insurance, private pension plans and certificated savings plans activities

Technical provisions are calculated according to actuarial technical notes approved by Susep and ANS, and criteria set forth by CNSP Resolution no. 162/2006.

Insurance of basic lines, life and health

The provision of unearned premiums is comprised of retained premiums which are deferred during the term of effectiveness of the insurance agreements, determining the *pro rata* day value of the unearned premium of the period of the risk to accrue (future risk of policies in effect). When this provision's insufficiency is ascertained by means of actuarial calculation, the Provision of Premium Insufficiency will be formed.

The provision of claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the amount of claims incurred and not reported by those insured/beneficiaries. The provision is established net of recoveries of co-insurance and re-insurance.

The provision of unsettled claims is established based on the estimates of payments of indemnities, net of recoveries of co-insurance and re-insurance, pursuant to notices of claims received from those insured until the balance sheet date. The provision is monetarily restated and includes all the claims under litigation.

Other provisions refers to 59-year-old or over insurance policy holders owning individual health insurance plans sold after Law 9,656/98, for remission benefits, and to offset the difference between the amounts resulting from applying to the monthly fees of the individual plan insurance the restatements authorized by the ANS annually, and those calculated based on the sector's price restatement, which burden the average amount of the indemnified events.

Supplementary private pension plans and life insurance covering survival

The mathematical provision of benefits to be granted refers to participants whose benefits have not started yet. The mathematical provision of benefits granted refers to participants already using the benefits. Mathematical provisions related to private pension plans known as traditional represent the difference between the current value of the future benefits and the current value of the future contributions, corresponding to the obligations assumed under the form of retirement plans, disability, pension and savings funds. They are calculated according to the methodology and premises set forth in Actuarial Technical Notes. The provisions linked to life insurance covering survival (VGBL) and to the private pension plans of the unrestricted benefits generating (PGBL) category represent the amount of the contributions made by the participants, net of loadings and other contractual charges, plus financial earnings generated by the investment of resources in investment funds specially established (FIEs).

The contribution insufficiency provision is constituted to complement the mathematical provisions of benefits to be granted and granted, should they not be sufficient to guarantee future commitments. The provision is calculated on an actuarial basis and takes into consideration the actuarial table AT-2000.

The financial fluctuation provision is established until the limit of 15% of the mathematical provision of benefits to be granted related to the private pension plans in the category of variable contribution with guarantee of earnings to meet possible financial fluctuations.

The administrative expenses provision is constituted to cover administrative expenses of the defined benefit and variable contribution plans. It is calculated in conformity with the methodology set forth in the Actuarial Technical Note.

Certificated savings plans

The mathematical provision for redemptions is calculated on nominal amounts of certificated savings plans and monetarily restated, when applicable, based on Actuarial Technical Notes approved by Susep.

The provisions for redemptions are established by the values of the expired certificated savings plans and also by the values of the certificated savings plans which have not expired but whose redemption has been early required by the clients. The provisions are monetarily restated based on the indexes estimated in each plan.

The provisions for unrealized and payable draws are constituted to meet premiums arising from future draws (unrealized) and also to premiums arising from draws in which clients were already selected (payable).

m) Contingent Assets and Liabilities and Legal Liabilities Tax and Social Security

The recognition, measuring and disclosure of contingent assets and liabilities and legal liabilities are made according to the criteria defined in CVM Resolution 489/05.

Contingent Assets: they are not recognized on an accounting basis, except when the Management has total control of the situation or when there are real guarantees or favorable judicial decisions, on which more resources are not provided for, characterizing the gain as practically certain. The contingent assets with probability of probable success are only disclosed in the notes to the financial statements (Note 18a);

Contingent Liabilities: they are established taking into consideration the opinion of the legal advisors, the nature of the lawsuits, the similarity with previous processes, the complexity and positioning of Courts, whenever the loss is evaluated as probable, what would cause a probable outflow of resources for the settlement of liabilities and when the amounts involved are measurable with enough safety. The contingent liabilities classified as possible losses are not recognized on an accounting basis, and they must only be disclosed in the notes, and those classified as remote do not require provision nor disclosure (Notes 18b and 18c); and

Legal Liabilities Tax and Social Security: they result from judicial proceedings related to tax liabilities, whose purpose of contestation is their legality or constitutionality, which regardless of the evaluation about the probability of success, have their amounts fully recognized in the financial statements (Note 18b).

n) Other assets and liabilities

The assets are stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations (on a daily *pro rata* basis), and provision for loss, when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary and exchange variations (on a daily *pro rata* basis).

4) Information for Comparison Purposes

There were no reclassifications or other material information in the period which may affect the comparison with the financial statements on June 30, 2007.

5) Adjusted Balance Sheet and Statement of Income by Business Segment

The following information is presented in conformity with the definitions set forth in the Chart of Accounts for National Financial System Institutions (Cosif).

- (1) For comparison purposes with the criterion adopted by Bacen Circular no. 3068 and due to securities characteristics, we are considering the derivative financial instruments under the category Trading Securities ;
- (2) These refer to investment funds and managed portfolio applied in purchase and sale commitments with Bradesco, the owners of which are subsidiaries, included in the consolidated financial statements;
- (3) The investment fund quotas were distributed according to instruments composing their portfolios and preserving the classification of funds category;
- (4) On June 30, 2007, R\$8,321,604 thousand were transferred from Securities Available for Sale to Securities Held to Maturity , due to the management s intent to its realization;
- (5) In compliance with the provisions of Article 8 of Bacen Circular no. 3068, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity s category. This financial capacity is evidenced in Note 32a, which presents the maturities of asset and liability operations on the reference date of June 30, 2007;
- (6) The number of days to maturity was based on the maturity of the securities, regardless of their accounting classification;
- (7) This column reflects book value subsequent to mark-to-market, except for securities held to maturity, whose market value is higher than the restated cost value in the amount of R\$1,539,794 thousand (March 31, 2007 R\$1,103,877 thousand and June 30, 2006 R\$789,106 thousand); and
- (8) The market value of securities is determined based on the market price available on the balance sheet date. In case no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or price quotations for instruments with similar characteristics; in case of investment funds, the restated cost reflects the market value of respective quotas.

e) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in balance sheet or memorandum accounts, for its own needs and for customers. The derivative financial instruments, when used by the Bank, aim at hedging its asset and liability positions against the effect of exchange and interest rate variations. The derivatives generally represent future commitments for exchanging currencies or indices, or purchasing and selling other financial instruments according to the terms and dates set forth in the contracts. Under the option contracts, the purchaser is entitled, but not obliged, to purchase or sell a financial instrument at a specific strike price in the future.

(1) Advances on foreign exchange contracts are recorded as a reduction of the item Other Liabilities ;

(2) The item Other receivables comprise receivables on sureties and guarantees honored, receivables on purchase of assets, securities and credit instruments receivable, income receivable on foreign exchange contracts and receivables arising from export contracts;

(3) Total loan operations includes financing of credit card operations and operations for prepaid credit card receivables in the amount of R\$4,907,717 thousand (March 31, 2007 R\$4,213,531 thousand and June 30, 2006 R\$2,362,783 thousand). Other receivables relating to credit cards in the amount of R\$5,303,513 thousand (March 31, 2007 R\$4,913,290 thousand and June 30, 2006 R\$4,406,930 thousand) are classified in the item Other Receivables Sundry and presented in Note 11b;

(4) Amounts recorded in memorandum account, which include R\$2,721,136 thousand referring to operations in which the beneficiary is Banco Bradesco S.A. Grand Cayman Branch; and

(5) Ratio between type and total portfolio with sureties and guarantees.

Additional provision (3)	1,110,257	1,102,530	1,110,257	1,079,715

- (1) For operations with installments overdue for more than 14 days;
- (2) Recorded based on the customer/transaction classification and accordingly not included in the preceding item;
- (3) The additional provision is recorded based on Management's experience and expected collection of the loan portfolio, to determine the total provision deemed sufficient to cover specific and general loan risks, as well as the provision calculated based on risk level ratings and the corresponding minimum percentage of provision established by CMN Resolution no. 2,682. The additional provision per customer was classified according to the corresponding risk levels (Note 10f); and
- (4) Comprises Credifar in 2007, Banco BEC S.A. and Amex Brasil in 2006.

h) Recovery and renegotiation

Expense from allowance for doubtful accounts, net of recoveries of written-off credits.

	R\$ thousand

Construction in progress		63,841		63,841	83,673	4,490
Subtotal		5,195,915	(3,008,393)	2,187,522	2,215,976	2,075,400
Leased Assets		40,468	(12,306)	28,162	17,864	15,911
Total on June 30, 2007		5,236,383	(3,020,699)	2,215,684		
Total on March 31, 2007		5,329,523	(3,095,683)		2,233,840	
Total on June 30, 2006		5,075,223	(2,983,912)			2,091,311

Property, plant and equipment in use of Bradesco Organization present an unrecorded increment of R\$1,205,034 thousand (March 31, 2007 R\$1,161,041 thousand and June 30, 2006 R\$1,108,382 thousand) based on appraisal reports prepared by independent experts in 2007, 2006 and 2005.

The fixed assets to stockholders equity ratio, in relation to economic-financial consolidated reference stockholders equity is 8.49% (March 31, 2007 11.45% and June 30, 2006 16.40%), and the financial consolidated basis is 47.43% (March 31, 2007 49.23% and June 30, 2006 48.03%), within the maximum 50% limit.

The difference between the fixed assets to stockholders equity ratio of the economic-financial consolidated and of the financial consolidated derives from the existence of non-financial subsidiaries which have a high liquidity and a low fixed assets to stockholders equity ratio, with the consequent increase in the fixed assets to stockholders equity ratio of the financial consolidated. Whenever necessary, we may reallocate the funds for the financial companies through the payment of dividends/interest on own capital to financial companies or corporate restructuring between the financial and non-financial companies, thus allowing the improvement of that ratio.

15) Deferred Charges**a) Goodwill**

In the 1st half of 2007, goodwill calculated by the acquisition of investments basically represented by Josema Administração e Participações S.A. (parent company of Credifar S.A. Crédito, Financiamento e Investimento) in the amount of R\$181,474 thousand, was fully amortized.

In the 2nd half of 2006, the existing goodwill was reviewed by the Management Bodies and according to the Board of Directors' resolution as of September 18, 2006 and purpose of notice to stockholders on this same date, the referred goodwill, which corresponded to R\$2,108,723 thousand, was fully amortized. The Board of Directors' proposals of this date were approved by the Special Stockholders' Meeting held on October 5, 2006.

b) Other deferred charges

- (1) This refers to installment of issuances of simple debentures not convertible into stocks of Bradesco Leasing S.A. Arrendamento Mercantil, of which one matures on May 1, 2011 and has a 102% of CDI remuneration, whose installment referring to interest is classified in the short term; and
- (2) These consist of funds obtained from banks abroad, from the issuance of notes in the international market and under National Monetary Council (CMN) Resolution no. 2,770 for:
- (i) onlending to local customers, maturing until 2011, under terms which do not exceed those of the funds obtained, with interest payable at LIBOR, plus a spread or prefixed interest; and
- (ii) foreign exchange operations for customers, through purchase and sale of foreign currencies, related to discounts of export bills, pre-financing of exports and financing of imports, substantially in the short term.

270

d) Since 2003, Bradesco Organization has been entering into certain agreements designed to optimize its funding and liquidity management activities through the use of Specific Purposes Entities (SPEs). These SPEs, named Brazilian Merchant Voucher Receivables Limited and International Diversified Payment Rights Company, are financed through long-term liabilities and settled through the future cash flows of the corresponding assets, which basically comprise:

(i) current and future flows of money orders remitted by individuals and corporate entities located abroad to beneficiaries in Brazil for which the Bank acts as paying agent; and

(ii) current and future flows of credit card receivables arising from expenses made in Brazilian territory by holders of credit cards issued outside Brazil.

The long-term securities issued by the SPEs and sold to investors will be settled through funds derived from the money order flows and credit card bills. Bradesco is obliged to redeem these securities in specific cases of default or if the SPEs' operations are discontinued.

The funds derived from the sale of current and future money orders and credit card receivables, received by the SPEs, must be maintained in a specific bank account until such time as a specific minimum limit is attained.

We present below the main features of the notes issued by the SPEs:

18) Contingent Assets and Liabilities and Legal Liabilities Tax And Social Security

a) Contingent Assets

Contingent assets were not recognized on an accounting basis in the period, however, there are proceedings whose perspective of success is probable. The main ones are:

Tax on Net Income - (ILL) R\$353,390 thousand: it pleads the return, by means of compensation or restitution, of the amounts collected as Tax on Net Income established by article 35 of Law no. 7,713/88, once the referred tax was unconstitutionally judged by the Federal Supreme Court; and

Social Integration Program (PIS) R\$101,756 thousand: it pleads the compensation of PIS on the Operating Gross Revenue, collected under the terms of the Decrees Laws no. 2,445 and no. 2,449/88, in what exceeded the amount due under the terms of the Supplementary Law no. 07/70 (PIS Repique).

b) Contingent Liabilities classified as probable losses and Legal Liabilities Tax and Social Security

Bradesco Organization is currently a defendant in a number of legal suits in the labor, civil and tax spheres, arising from the normal course of its business activities.

The provisions were recorded based on the opinion of the legal advisors; the types of lawsuit; similarity with previous lawsuits; complexity; and jurisprudence and prior court sentences, whenever loss is deemed probable.

Bradesco's Management considers that the provision recorded is sufficient to cover losses generated by the corresponding proceedings.

The liability related to the legal liability in judicial discussion is maintained until the definite gain of the lawsuit, represented by favorable judicial decision, on which resources are not provided, or its prescription.

I Labor claims

These are claims brought by former employees seeking indemnity, especially the payment of unpaid overtime. The amount of the labor claims is provisioned based on the average value determined by the total payments made of the claims ended in the last 12 months, considering the similarity of these proceedings.

Following the effective control over working hours implemented in 1992, via electronic time cards, overtime is paid regularly during the employment contract and accordingly, claims on an individual basis subsequent to 1997 substantially reduced its amounts.

II Civil lawsuits

These are claims for pain and suffering and property damages, mainly protests, bounced checks and the inclusion of information about debtors in the restricted credit registry. These lawsuits are individually controlled and provisioned for specific lawsuits based on the opinion of the legal advisors, taking into consideration the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of Courts.

The issues discussed in the lawsuits usually are not events that cause a representative impact on the financial results. Approximately 60% of the lawsuits were brought at the small claims court, in which the requests are limited to 40 minimum wages. Moreover, approximately 50% of these lawsuits are judged unfounded and the amount of the condemnation imposed corresponds to the historical average of only 5% of the total amount claimed.

At present, there are no significant administrative lawsuits in course, moved as a result of the lack of compliance with National Financial System regulations or payment of fines, which could cause representative impacts on the Bank's financial results.

III Legal Liabilities Tax and Social Security

Bradesco Organization is judicially disputing the legality and constitutionality of certain taxes and contributions, for which provisions have been recorded in full, despite the likelihood of a successful medium and long-term outcome based on the opinion of the legal advisors.

The main matters are:

CSLL R\$1,185,652 thousand: questioning of CSLL required from financial institutions in the reference years from 1995 to 1998 by rates higher than the ones applied to general legal entities, not complying with the constitutional principle of isonomy;

Cofins R\$1,312,320 thousand: it pleads to calculate and collect Cofins, as from October 2005, on the effective sales results, whose concept is in the article 2 of Supplementary Law no. 70/91, removing the unconstitutional increase of the calculation basis intended by paragraph 1 of article 3 of Law no. 9,718/98;

CSLL R\$458,636 thousand: it pleads the non collection of CSLL of the reference years from 1996 to 1998, years in which some companies of Bradesco Organization did not have employees, once the subsection I, article 195, of the Federal Constitution provides for that this contribution is only due by employers;

Edgar Filing: BANK BRADESCO - Form 6-K

INSS Autonomous Brokers R\$493,541 thousand: it discusses the incidence of the social security contribution on the remunerations paid to the autonomous service providers, established by the Supplementary Law 84/96 and subsequent regulations/amendments, to the rate of 20% and additional of 2.5%, under the argument that the services are not provided to the insurance companies, but to the insured, thus being out of the incidence field of the contribution provided for in the item I, Article 22, of Law no. 8,212/91, with new wording in Law no. 9,876/99;

IRPJ/Credit Losses R\$571,103 thousand: it pleads to deduct, for purposes of determination of the calculation basis of due IRPJ and CSLL, the amount of the effective and definite losses, total or partial, suffered in the reference years from 1997 to 2005, in the reception of credits, regardless of the compliance with the conditions and terms provided for in articles 9 to 14 of Law no. 9,430/96 which only apply to the provisory losses; and

PIS R\$246,553 thousand: it pleads the compensation of the amounts unduly overpaid in the reference years of 1994 and 1995 as contribution to PIS, corresponding to the exceeding amount to what would be due on the calculation basis constitutionally provided for, i.e. operating gross revenue, as defined in the income tax legislation concept in article 44 of Law no. 4,506/64, not included financial revenues.

IV Provisions divided by nature

	R\$ thousand		
	2007		2006
	June 30	March 31	June 30
Labor proceedings	1,244,548	1,240,529	1,010,747

Payments	(226,968)	(162,203)	(31,522)
At the end of the period	1,244,548	872,299	6,046,665

- (1) It comprises, substantially, legal liabilities.

c) Contingent Liabilities classified as possible losses

Bradesco Organization maintains a follow-up system for all administrative and judicial proceedings in which the institution is the plaintiff or defendant and based on the opinion of the legal advisors classifies the lawsuits according to the expectation of non-success. In this context the contingent proceedings evaluated as risk of possible loss are not recognized on an accounting basis, and the principal is related to leasing companies ISSQN, in the amount of R\$130,942 thousand. In this proceeding, the demand of the referred tax by municipalities other than those where the companies are set up and to which the tax is collected in compliance with law is discussed.

The Special Stockholders Meeting held on October 5, 2006 resolved to increase the capital stock by R\$1,200,000 thousand, by means of the issuance of 21,818,182 new stocks, all non-par registered, book entry stocks, 10,909,152 of which are common stocks and 10,909,030 are preferred stocks, at the price of R\$55.00 per stock, by means of the private subscription by stockholders from October 19 to November 20, 2006, in the proportion of 2.226746958% on the stock position which each one had on the date of the meeting. The stockholders paid up the subscribed stocks on December 7, 2006, which correspond to 96.41% of stocks issued; the remaining stocks equivalent to 3.59% of the total offer were sold in an auction carried out on December 4, 2006 in Bovespa, and the financial settlement also occurred on December 7. The exceeding of the amount destined to the capital stock formation, in the amount of R\$18,295 thousand, calculated by the difference between the issuance price and the sale price of stocks in auction, was recorded in the item Capital Reserve Stocks Goodwill. The proceeding was ratified by Bacen on January 2, 2007.

The Special Stockholders Meeting held on March 12, 2007 resolved on a R\$3,800,000 thousand increase in the capital stock, raising it from R\$14,200,000 thousand to R\$18,000,000 thousand, by using part of the balance in the account Profit Reserves Statutory Reserve, assigning to Company's stockholders, free of charge, as a bonus, one new stock of the same type for each stock owned. 1,000,679,724 non-par registered, book-entry stocks were issued, 500,042,656 of which were common stocks and 500,637,068 were preferred stocks.

Simultaneously and in the same proportion to the transaction in the Brazilian Market, Depositary Receipts (DRs) were granted as bonus in the American (NYSE) and European (Latibex) Markets, and investors received one new DR for each DR owned, which continued to be traded in the proportion of one preferred stock to one DR, in the respective markets.

c) Interest on own capital/dividends

Non-voting preferred stocks are entitled to all rights and benefits attributed to common stocks and, in conformity with Bradesco's Bylaws, have priority to repayment of capital and 10% (ten per cent) additional of interest on own capital and/or dividends, in accordance with the provisions of Paragraph 1, item II of Article 17 of Law no. 6,404/1976, as amended in Law no. 10,303/2001.

In conformity with Bradesco's Bylaws, stockholders are entitled to interest on own capital and/or dividends, which total correspond to, at least, 30% of net income for the year, adjusted in accordance with Brazilian corporate law.

Interest on own capital is calculated based on the stockholders' equity accounts and limited to the variation in the long-term interest rate (TJLP), subject to the existence of profits, computed prior to the deduction thereof, or of retained earnings and profit reserves in amounts that are equivalent to, or exceed twice, the amount of such interest.

Bradesco's capital compensation policy aims at distributing the interest on own capital, at the maximum amount calculated in conformity with the prevailing laws, which is estimated, net of Withholding Income Tax, in the calculation of mandatory dividends of the year provided for in the Company's Bylaws.

The Board of Directors Meeting held on February 7, 2007 resolved on the approval of the Board of Executive Officers to increase by 10% the amount of the monthly interest on own capital paid to stockholders in advance pursuant to the monthly compensation system, raising it from R\$0.032775000 to R\$0.036052500, related to common stocks, and from R\$0.036052500 to R\$ 0.039657750, referring to preferred stocks, to become effective as from the interest on own capital referring to March 2007 paid on 4.2.2007, benefiting the stockholders who were registered at the Company's records as of 3.1.2007.

Edgar Filing: BANK BRADESCO - Form 6-K

The stocks resulting from the bonus resolved at the Special General Meeting held on March 12, 2007 are entitled to monthly dividends and/or interest on own capital, and, occasionally, supplementary dividends declared after March 23, 2007, but did not entail an increase in the distribution of the latter, as they aim solely at improving their liquidity. Thus, the amount of monthly interest on own capital, declared after March 23, 2007, was adjusted, decreasing from R\$0.036052500 to R\$0.018026250 per common stock, and from R\$0.039657750 to R\$0.019828875 per preferred stock, so that stockholders continue to receive an equal amount of interest on own capital.

At a Special Meeting held on March 5, 2007, the Board of Directors approved the Board of Executive Officers proposal for the payment of dividends supplementary to the interest on own capital and dividends corresponding to 2006 to stockholders, at the amount of R\$0.038062452 per common stock and R\$0.041868697 per preferred stock, whose payment was made on March 15, 2007.

At a meeting held on June 27, 2007, the Board of Directors approved the Board of Executive Officers proposal for the payment of interim dividends corresponding to 1H07 to stockholders, at the amount of R\$0.153223130 per common stock and R\$0.168545440 per preferred stock, whose payment was made on July 23, 2007.

The calculation of interest on own capital and dividends related to 1Q07 is shown as follows:

	R\$ thousand	% (1)
Net income for the half	4,006,622

Statutory reserve (2)	6,108,827	4,718,565	6,685,913

(1) Formed mandatorily based on 5% of net income for the year, until reaching 20% of paid-up capital stock, or 30% of the capital stock, accrued of capital reserves. After this limit, the appropriation is no longer mandatory. The legal reserve only may be used for capital increase or to offset losses; and

(2) With a view to maintaining the operating margin compatible with the development of Company's active operations, it may be established at 100% of remaining net income after statutory allocations and the balance limited to 95% of paid-up capital stock.

e) Treasury Stocks

Up to June 30, 2007, 780,800 common stocks and 372.800 preferred stocks were acquired and held in treasury (out of the preferred stocks, 180,800 before and 192,000 after the 100% bonus), totaling R\$75,274 thousand. The minimum, weighted average and maximum cost per stock is, respectively, R\$58.23638, R\$69.34011 and R\$85.12395 before the bonus, and R\$41.44318, R\$44.77473 and R\$ 46.81595 after the bonus.

32) Financial Instruments**a) Risk Management Process**

Bradesco approaches on an integrated basis the management of all risks inherent to its activities, supported by its Internal Controls and Compliance structure. Such multidisciplinary vision enables the improvement of risk management standards and avoids the existence of gaps which may jeopardize its correct identification and measurement.

Credit Risk Management

Credit Risk is the possibility that a counterparty of a loan or financial operation might neither intend nor suffer any change in its ability to comply with its contractual liabilities thus may generate any loss for the Organization.

Aiming at mitigation of Credit Risk, Bradesco continuously works in the follow-up of credit activities processes, in improvements, examination and preparation of inventories of credit granting and recovery standards, in the monitoring of concentrations and identification of new components offering credit risks.

In addition, efforts, focused on the use of advanced standards of risk measurement and on the ongoing improvement of processes, have reflected on loan portfolio quality and performance, in both results and strength, in the different scenarios in the past and future.

Market Risk Management

Market risk is related to the possibility of loss from fluctuating rates caused by mismatched maturities, currencies and indices of the Institution's asset and liability portfolios. Such risk has been observed by the market with an increasing severity, with a substantial technical evolution in the last years, aiming at avoiding, or at least minimizing, possible losses for institutions, taking into consideration the increase in the complexity of operations carried out in the country and abroad.

At Bradesco, market risks are managed by means of methodologies and standards adherent and compatible with the national and international market reality, enabling to base the Organization's strategic decisions with high agility and level of reliance.

(3) Leasing commitments and others, recorded in memorandum accounts.

Edgar Filing: BANK BRADESCO - Form 6-K

Bradesco adopts a conservative policy regarding market risk exposure, and VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored on a daily basis by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5% . The fluctuations and correlations used by the models are calculated on statistical bases that are used on forward-looking processes, in accordance with economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

In the chart below, we show VaR as of June 30, 2007, March 31, 2007 and June 30, 2006:

Risk factors	R\$ thousand		
	2007		2006
	June 30	March 31	June 30
Prefixed	26,083	13,343	15,114
Internal exchange coupon	930	467	8,609
Foreign currency	5,107	420	851
IGP-M	14,451	4,177	10,343
IPCA	59,679	37,787	40,855
Reference rate (TR)	4,550	6,110	6,164
Variable income	967	2,743	2,935
Sovereign/Eurobonds and Treasuries	17,493	20,861	41,098
Other	5,328	70	1,002
Correlated effect	(68,877)	(18,005)	(41,206)
VaR (Value at Risk)	65,711	67,973	85,765

Investments abroad protected by hedge operations are not being considered in the VaR calculation, as these are strategically managed differently, in amounts taking into account the tax effects, which minimize the sensitivity to risks and corresponding impacts on results, as well as foreign notes positions, which are matched with funding.

Liquidity risk

Liquidity risk management is designed to control the different unhedged settlement terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

The knowledge and monitoring of this risk are crucial, since they enable the Organization to settle transactions on a timely and secure manner.

At Bradesco Organization, liquidity risk management involves a series of controls, mainly, the establishment of technical limits, with an ongoing assessment of the positions assumed and financial instruments used.

In the chart below we show the balance sheet by maturity on June 30, 2007:

(1) Investments in investment funds are classified as up to 30 days; and

(2) Demand and savings deposits and technical provisions for insurance, private pension plans and certificated savings plans comprising VGBL and PGBL products are classified as up to 30 days, without considering average historical turnover.

Capital risk

Edgar Filing: BANK BRADESCO - Form 6-K

Bradesco's capital risk is managed to optimize the risk-return ratio, aiming at minimizing losses, through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

In the chart below, we show the Capital Adequacy Ratio as of June 30, 2007, March 31, 2007 and June 30, 2006:

Calculation Basis Adequacy Ratio (Basel)	R\$ thousand

(Note 19) 13,202,983 13,674,083 (471,100) (546,070) (485,933) (471,100) (546,070) (485,933)

Unrealized

income without

tax effects

4,491,659 3,876,944 1,781,811 1,536,557 897,711 854,506

- (1) Includes advances on foreign exchange contracts, leasing operations and other receivables with loan granting features; and
- (2) Refer to stocks of publicly-held companies not considering the increment in investments in affiliated companies.

Determination of market value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury stocks are based on the market price practiced on the balance sheet date. In case no quotation of market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics;
- Prefixed loan operations were determined by discounting estimated cash flows, using interest rates applied by Bradesco Organization for new contracts with similar features. These rates are compatible with prices practiced in the market on the balance sheet date; and
- Time deposits, funds from issuance of securities and borrowings and onlendings were calculated by discounting the difference between the cash flows under the contract terms and the rates practiced in the market on the balance sheet date.

33) Employee Benefits

Bradesco and its subsidiaries sponsor a supplementary private pension plan for employees and directors, in the modality Unrestricted Benefits Generating Plan (PGBL). The PGBL is a private pension plan of the variable contribution type, which permits the accumulation of financial resources by participants over their professional careers through contributions paid by themselves and the sponsoring company. The related resources are invested in an Exclusive Financial Investment Fund - FIE.

The PGBL is managed by Bradesco Vida e Previdência S.A. and BRAM - Bradesco Asset Management S.A. DTVM is responsible for the financial management of the FIE funds.

The contributions paid by employees and directors of Bradesco and its subsidiaries are equivalent to 4% of salary, except for participants who in 2001 opted to migrate to the PGBL plan from the defined benefit plan, whose contributions to the PGBL plan were maintained at the levels in force for the defined benefits plan at the time of migration, respecting nevertheless the 4% minimum.

The actuarial liabilities of the variable contribution plan (PGBL) are fully covered by the net assets of the corresponding FIE.

In addition to the aforementioned variable contribution plan (PGBL), former participants of the defined benefits plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the latter plan. For participants of the defined benefits plan, transferred or not to the PGBL plan, retired participants and pensioners, the

present value of the plan's actuarial liabilities is fully covered by guaranteeing assets.

Banco Alvorada S.A. (merging company of Banco Baneb S.A., which had previously merged Banco BEA) maintains a supplementary pension plan managed by Caixa de Previdência dos Funcionários do BEA - CABEA, which is currently undergoing a sponsorship withdrawal process, with reference date established on November 30, 2002 and whose sponsor's contributions ceased as from December 1, 2002. Participants also no longer contribute as from the same date. The plan's actuarial liabilities are fully covered by the plan's net assets.

Banco Alvorada S.A. (merging company of Banco Baneb S.A.) sponsors supplementary pension plans of both variable contribution and defined benefit types, through Fundação Baneb de Seguridade Social - Bases (for former Baneb employees). The actuarial liabilities of the variable contribution and defined benefit plans are fully covered by the net assets of the plans.

Banco Bradesco BBI S.A. (currently name of Banco BEM S.A.) sponsors supplementary pension plans of both defined benefit and variable contribution types, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão - Capof.

Alvorada Cartões, Crédito, Financiamento e Investimento S.A. (Alvorada CFI) (merging company of Banco BEC S.A.) sponsors a defined benefit plan by means of Cabec - Caixa de Previdência Privada do Banco do Estado do Ceará.

The funds guaranteeing the private pension plans are invested in compliance with applicable legislation (government bonds and private securities, listed company's stock and real estate properties).

Bradesco and its facilities abroad provide their employees and managers with a private pension plan with variable contribution, which enables to accumulate financial resources during the participant's professional career, by means of contributions paid by himself/herself and in equal proportion by Bradesco. The contributions of employees and managers and of Bradesco in its facilities overseas are jointly equivalent to at most 5% of the annual salary of the benefit.

Expenses with contributions made during 1H07 amounted to R\$153,121 thousand (1H06 - R\$149,801 thousand) and R\$74,517 thousand in 2Q07 (1Q07 - R\$78,604 thousand).

In addition, Bradesco and its subsidiaries offer their employees and directors a number of other benefits including: healthcare insurance, dental care, group life and personal accident insurance, as well as professional training, the expenses for which, including the aforementioned contributions, amounted to R\$667,926 thousand in 1H07 (1H06 R\$623,446 thousand) and R\$343,147 thousand in 2Q07 (1Q07 - R\$324,779 thousand).

Report of Independent Auditors

(A free translation from the original in Portuguese)

To the Board of Directors
Banco Bradesco S.A.

1. We have audited the financial statements of Banco Bradesco S.A. and its subsidiaries, comprising the consolidated balance sheets as of June 30, 2007 and 2006 and the related consolidated statements of income, of changes in stockholders' equity and of consolidated changes in financial position for the six-month periods then ended. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements.

2. We conducted our audits in accordance with auditing standards applicable in Brazil, which require that we perform the audits to obtain reasonable assurance about whether the financial statements are fairly presented in all material respects. Accordingly, our work included, among other procedures: (a) planning our audits taking into consideration the significance of balances, the volume of transactions and the accounting and internal control systems of the Bank and its subsidiaries, (b) examining, on a test basis, evidence and records supporting the amounts and disclosures in the financial statements and (c) assessing the accounting principles used and significant estimates made by the Bank's management, as well as evaluating the overall financial statement presentation.

3. In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Banco Bradesco S.A. and its subsidiaries at June 30, 2007 and 2006 and the consolidated results of their operations, the changes in stockholders' equity and the consolidated changes in their financial position for the six-month periods then ended, in accordance with accounting practices adopted in Brazil.

4. Our audits were conducted for the purpose of issuing our report on the financial statements referred to in paragraph one, taken as a whole. The statements of cash flows and of added value for the six-month periods ended June 30, 2007 and 2006, which are presented to provide additional information on Banco Bradesco S.A. and its subsidiaries, are not specifically required as an integral part of these financial statements, in accordance with accounting practices adopted in Brazil. These statements were subjected to the same audit procedures described in paragraph two and, in our opinion, are fairly presented in all material respects in relation to the financial statements taken as a whole.

5. As described in Note 15, the goodwill on investments in associated and subsidiary companies was amortized in the second half of 2006.

Summary of the Audit Committee Report

Introduction

The Audit Committee, established in Banco Bradesco S.A. (Bradesco) Special Stockholders Meeting as of 12.17.2003, is composed of four members, appointed by Bradesco's Special Meeting of the Board of Directors held on 3.12.2007, with a term of office valid until the 1st Board of Directors Meeting to be held after the Annual Stockholders Meeting of 2008, and its charter is available on the website www.bradesco.com.br, on the Corporate Governance page.

The Board of Directors of Bradesco opted for a single Audit Committee for all the companies composing the Financial Conglomerate, including the Grupo Bradesco de Seguros e Previdência companies (Insurance Group), pursuant to the 2004 CNSP Resolution 118 of the Brazilian Council of Private Insurance, which set forth the operating conditions of the Audit Committee for the Insurance, Certificated Savings Plans Companies and Supplementary Private Pension Plan open entities.

Among the Audit Committee's duties, those required by the U.S. Sarbanes-Oxley Act related to the Companies registered in the U.S. Securities and Exchange Commission and quoted on the New York Stock Exchange are also included.

The Committee has as Coordinator a member of Bradesco's Board of Directors, and the other members, including an expert, do not participate in other Organization's bodies.

It is incumbent upon the Committee to ensure the integrity and quality of financial statements of Bradesco Financial Conglomerate, including the Insurance Group companies, the observance of the internal and external rules, the effectiveness and independence of audit activity and the quality and efficiency of internal control systems.

It is the Management's responsibility to prepare the financial statements of the companies composing Bradesco Organization, and it is essential to ensure the quality of processes related to financial information, as well as control activities and risk management.

It is incumbent upon PricewaterhouseCoopers Auditores Independentes (Price), as public accountant of the financial statements to ensure that they accurately represent the equity and financial condition of the Conglomerate, pursuant to the fundamental accounting principles, the Brazilian corporate law, the rules of the Brazilian Securities and Exchange Commission - CVM, the National Monetary Council, Brazilian Central Bank, National Private Insurance Council CNSP and Superintendence of Private Insurance - Susep.

Audit Committee's Activities

The Audit Committee, as it is a Board of Directors' advisory body, has been using existing structures at the Organization to establish a direct communication channel and a structured flow of information, with content and frequency, enabling its members to render their opinion on an independent basis about the internal control systems, the quality of financial statements and the efficiency of independent and internal audits.

The Audit Committee's work program for 2007 has as focus the risks and more relevant processes for Bradesco Organization's businesses.

In order to shape an opinion on the quality of the processes assessed, the main inherent risks and the effectiveness of the correspondent controls, the Committee has held meetings, duly recorded in minutes, comprising the control and

risk management business areas in Brazil and abroad and with internal and independent auditors. Accordingly, the information on the issues deemed as relevant or critical are checked through different sources.

Internal Control System

Bradesco Organization's Internal Control System is adequate to the size and complexity of its businesses and was structured so that the controls ensuring the efficiency of its operations, financial reports generating systems and the observance of the internal and external rules, to which the transactions are subject to.

The Internal Control System is periodically evaluated in order to identify issues deserving improvements to better serve businesses and the good risk management practices at Bradesco Organization. The projects recommended by Section 404 of U.S. Sarbanes-Oxley Act were concluded within the terms required by the U.S. Securities and Exchange Commission in relation to the foreign companies quoted on the New York Stock Exchange and contributed to the improvement of the Organization's internal control environment, audited and certified by PricewaterhouseCoopers.

At meetings with various areas of the Organization, the Audit Committee had the opportunity to offer to those managers suggestions to improve their processes, observing the Management's prompt commitment in the implementation of improvements deemed as necessary.

Independent Audit

The Committee discussed with independent auditors about the planning of their services at Bradesco Organization's companies for 2007 and, during the 1st half, the Committee held meetings with teams in charge to understand the results and main conclusions of works carried out in the period.

The Committee considered that the works developed by the teams were adequate to the Organization's businesses, requiring assessments focused on credit risk, market and actuarial controls, mainly with respect to mathematical/statistic models and the respective assumptions adopted by Bradesco Organization.

Internal Audit (General Inspector's Department)

The Audit Committee requested to the Internal Audit to consider, in its planning for 2007, various works aligned to issues included in the Committee's schedule for the year.

During the 1st half of 2007, the Internal Audit reported to the Audit Committee the results and main conclusions of its works. The internal audit team has been positively developing its works focused on risks and processes and properly answering the requests of Audit Committee, so that its members may have an opinion about the issues discussed.

Consolidated Financial Statements

The Committee held meetings with the General Accounting Department, Budget and Control Department and General Inspector's Department to assess the monthly, quarterly and semi-annual financial statements. In these meetings, the aspects of preparing individual and consolidated interim balance sheets and balance sheets, notes to the financial statements and financial reports published jointly with the consolidated financial statements were analyzed and assessed.

Bradesco's accounting practices were also considered in the preparation of financial statements, as well as the observance of the fundamental accounting principles and the compliance with the applicable laws.

Prior to the disclosures of Quarterly Financial Information (IFTs) and semi-annual balance sheet, the Committee privately held meetings with Price, where they assessed the aspects of independence and control environment when generating the figures to be disclosed.

Based on reviews and discussions aforementioned, the Audit Committee recommends to the Board of Directors the approval of the audited financial statements related to the half ended on June 30, 2007.

Fiscal Council's Report

Banco Bradesco S.A.

The undersigned members of the Fiscal Council of Banco Bradesco S.A., in the exercise of their legal and statutory attributions, having examined the Management Report and the Financial Statements related to the 1st half of 2007, and in view of the limited review report of PricewaterhouseCoopers Auditores Independentes, have the opinion that the aforementioned documents, examined based on the current corporate law, fairly reflect the Company's equity and financial condition.

Glossary

Glossary of Technical Terms

Acquirer: company responsible for affiliating, maintaining and paying establishments of a Card flag. For instance, in Brazil, the only VISA acquirer is VisaNet.

Activity Based Costing: is a methodology used to facilitate the analysis of the costs of activities that consume the most significant volume of resources. The volume, relationship between cause and effect and the effectiveness with which the resources are consumed during the activities comprise the objective of the strategic ABC cost analysis, ensuring that indirect costs are directed as a priority to these activities and processes and subsequently to products, services and customers.

Added value: value created by the company as a result of its productive activities, representing the level of the company's contribution to society.

Advisor: economic/financial consultant.

Asset management companies: the main activity of these companies is to manage third-party funds. The companies may be part of a financial group, but must create operating barriers, such as a Chinese Wall to avoid possible conflicts of interest and focus their business on the management of investors' funds.

Back test: this method is used to test the validity of the statistical models used, through the comparison of historical data and data generated by the models.

Basel Capital Accord: agreement signed by the Basel Committee, Switzerland, in 1988, designed to establish new conditions for the system used to regulate and supervise banking activities (compulsory for G-10 countries). The methodology used seeks to ensure that minimum capital requirements are compatible with the degree of risk of transactions. In June 2004, this agreement was revised and related changes must be implemented by January 2007.

Basel Committee: formed by the chairmen of the central banks of the world's 10 most developed economies for purposes of introducing regulations for compliance by G-10 countries.

Bonds: government securities or corporate bonds, which are subscribed and traded.

Brazilian Depositary Receipts - BDRs: these are certificates comprising securities issued by publicly held companies headquartered abroad, negotiable in the Brazilian market.

Broker dealer: a specialized firm, which trades securities for its own account or as an intermediary for third parties.

Capital adequacy ratio (Basel): index introduced by the Basel Committee and regulated by the Brazilian Central Bank, which shows the ratio between the bank's stockholders' equity and its risk weighted assets.

Capital savings: comprise the capital paid as a lump sum to the beneficiaries indicated in the plan proposal, in the event of decease of the pension plan participant.

Cash management: cash administration.

Chinese Wall: set of procedures characterized by the clear separation between the management of the treasury funds of the financial institutions and the management of third-party funds. Regulated by the Central Bank of Brazil, it aims to avoid the conflict of interests between the financial institutions in the administration and management of its funds and the administration and management of the funds of its clients.

Claims: this is the realization of risk provided for in the insurance contract, which causes material or personal damages to the policyholders or their beneficiaries.

Claims ratio: used by insurance companies to measure the proportion of expenses for claims to earned premium. Accordingly, the lower the ratio, the better the insurance company's risk selection strategy.

Co-insurance: insurance distributed among various insurance companies, with the related risk distributed in proportion to the corresponding quota held.

Combined ratio: ratio used by the insurance companies, according to which the sum of the expenses incurred with claims, administrative expenses and selling expenses are divided by the premium earned. Accordingly, the lower the ratio, the higher the efficiency of the insurance company.

Commercial paper: securities issued by publicly held companies for purposes of raising public funds for financing working capital.

Committee of Sponsoring Organizations COSO: it is a not-for-profit entity, dedicated to improving the presentation of financial reports based on ethics, efficient internal controls and corporate governance. Its members are representatives from the industry, accounting firms, investment companies and the New York Stock Exchange.

Compliance: adherence to a set of laws, rules and instructions introduced by either governmental or internal bodies.

Compulsory deposits: this compulsory reserve is the percentage of demand deposits and the terms under which banks are obliged to deposit at the Brazilian Central Bank (Bacen). The National Monetary Council (CMN) establishes the required percentage for purposes of limiting the expansion of credit operations in the economy. The compulsory deposit is a classic Central Bank instrument used to control the volume of currency available in the banking system.

Contingent liabilities: reflect the uncertainty as to whether, when and for how much an obligation will be paid. In general, the amounts recorded as contingencies are calculated based on the progress of the related lawsuits.

Corporate finance: banks act as intermediaries in complex transactions involving corporate mergers, spin-offs and acquisitions. In this segment, in conjunction with specialized consulting firms, the banks use their experience in financial and investment transactions ensuring that they are made feasible through the use of funds, which are obtained either locally or from abroad.

Corporate governance: system by which companies are managed and monitored, involving relationships between stockholders, the board of directors, the executive board, the independent auditors, audit committee and fiscal council. Good corporate governance practices are designed to increase the company's value, facilitating access to capital and ensuring that it will continue as a going concern on a perennial basis.

Corporate Sustainability Index (ISE): Bovespa index which reflects the return of a portfolio composed of companies' stocks with the best performances regarding all dimensions related to corporate sustainability, i.e., economic-financial, social, environmental and corporate governance.

Correspondent banks: these are commercial companies or service providers contracted by banks to operate in banking services authorized by the Brazilian Central Bank (Bacen). Since they are usually located in different commercial outlets, the correspondent bank can offer extended hours, often on a 24-hour basis.

Courier: messenger service, available for use by customers, to carry out a number of bank services, including check deposits, bill payments, checkbook delivery, among others, with no need for customers to leave the home or office.

Covenants: commitments contained in any formal debt agreement establishing that certain acts must be fulfilled, while others must not be executed. These commitments are designed to protect the lender's interests and involve matters such as working capital, dividend payment and the ratio of indebtedness.

Coverage of technical reserves: is the allocation of assets, by insurance, private pension plans and savings bonds companies, in particular financial assets, in sufficient amount to cover technical reserves. These assets must offer diversity, liquidity, security and profitability. See Guarantees of technical reserves.

Coverage ratio: measures the ratio between the amount of the allowance for loan losses (PDD) and the amount of non-performing loans (D to H rated credits)

Credit scoring: is a method using statistical tools to measure the probability of loss on a credit operation based on historical data.

Consigned loan: this is a line of personal credit for companies' employees whose loan installments are deducted from payroll.

Cross selling: sale of related merchandise and services.

Depository Receipts DRs: are deposit receipts issued by a foreign institution (Depository), guaranteed by shares of a local company.

Derivatives: financial instruments used by companies, substantially for protection purposes and classified in 4 categories: futures market, swap, forward market and options.

Earned premium: the portion of an insurance premium retained which corresponds to the period of risk time passed, i.e., it is the deferral of the retained premium for the period counted from the date of the insurance coverage.

Equator Principles: it is a set of social-environmental measures, based on criteria defined by the International Finance Corporation (IFC), used in the evaluation and concession of financing of infrastructure projects known as project finance.

Eurobonds: securities with notional value expressed in U.S. dollars or other currencies and which the banks issue through institutions abroad, the resources of which will be used to finance credit operations in Brazil. These are medium to long-term securities at fixed or floating rates and with premium or discount, depending on market demand. The Eurobond market is an important source of capital for multinational companies and governments, including those located in developing countries.

Euronotes: are long-term notes, issued by governments and major companies and traded in the international financial market.

Exchange coupon rate: is the difference between the internal interest rate and the expected Brazilian exchange rate devaluation and, in general, is compatible with the composition of the remuneration offered by exchange bills in investments pegged to the variation in the U.S. dollar, i.e., the interest rate in U.S. dollar paid to an investor who

assumes the risk of investing in another currency.

Exchange exposure: assets and liabilities subject to exchange risks as a result of local currency valuation or devaluation as compared to other currencies.

Financial holding company (FHC): status granted by the U.S. Federal Reserve – FED, which permits the subsidiary company of a foreign financial institution to carry out its activities under the same conditions as local US banks. This status is awarded subsequent to a detailed analysis of key factors determined by US banking legislation. For purposes of obtaining FHC status, the institution must comply with 3 main requirements: a) it must be properly capitalized, b) properly managed and c) submit a proper request for FHC status to the Federal Reserve Board – FRB.

Financial intermediation: is a bank's main activity. The bank obtains funds from customers with resources available for investment, which are lent to borrowers. Other activities such as leasing and exchange transactions also comprise financial intermediation.

Financial margin: this is the difference between interest income and expense generated by investments, funds obtained, credit and leasing operations and foreign exchange transactions. Non-interest income also comprises financial margin, derived from securities, treasury transactions and credit recoveries.

Floating funds: permanence of third-party funds in banks for a specific period without remuneration.

Global Compact: initiative of the United Nations in which encourages participant entities to commit with guiding its actions in the sense of contributing to the development of a more inclusive and sustainable economy, broadening its scale in the social-environmental area. It is based on values aiming at promoting institutional education. The power of transparency and dialog is used to identify and disclose new practices which have as base the universal principles. It is comprised of 10 principles related to human rights, labor, environmental protection and bribery.

GoodPriv@cy: it is an international data privacy and protection seal, which comprises requirements for data protection and privacy management within the corporations.

Greenfield: implementation of new projects, i.e., those that are not characterized as expansion.

Guarantee of technical reserves: see coverage of technical reserves.

Hedge: an instrument used to offset risk investments subject to price and rate fluctuations.

Holding: it is the company holding share control over another company or a group of subsidiary companies.

Home broker: relationship channel between investors and brokerage houses, for stock market trading purposes through the online transmission of buy and sell orders via internet, permitting real time access to price quotations and share portfolio monitoring, among other resources.

Ibovespa: this is the most important Brazilian stock market performance index, as it portrays the behavior of main stocks traded on Bovespa. It is established from an imaginary Reais investment in a theoretical number of stocks (portfolio). Each stock composing this portfolio has a certain weight, which varies according to its liquidity. Frequently, both the composition and weights change so that the index may accurately represent the stock market. Its basic purpose is to work as a market behavior average index. Hence, the stocks composing this index account for more than 80% of the number of trades and financial volume traded on the spot market. As the stocks integrating this portfolio are highly representative, it is possible to affirm that if most of stocks are climbing, the market, measured by Bovespa Index, is bull, and if it is declining, it is a bear market.

Interbank accounts: comprise checks which are being cleared between banks and other notes, such as bank docket payments, as well as restricted deposits at the Brazilian Central Bank (deposits in foreign currency, deposits for

exchange contracts, payment of funds for rural credit, credits subject to the National Housing System (SFH, etc).

Interbank deposits: securities negotiated in the interbank market between financial institutions.

Interdepartmental accounts: comprise the amounts, which are in transit between the bank's branches and departments or other group member companies (brokerage firms, insurance companies, supplementary private pension entities etc.).

Investment advisory service: these are consulting services for investors and include financial advice, preparation of financial reports and management of customer funds. The services are provided by consultants who are properly registered at the regulatory organs.

Investment grade: in the establishment of investment alternatives to international investors, companies and countries are rated by the international risk rating agencies, such as Moody's, Standard & Poor's and Fitch, among others, normally in three risk levels: Investment Grade; Investment Risk; and Default. Investment grade is the safest grade, in which there is maximum trust of markets. It is when a country or a company is better evaluated by investors and manages to raise funds with lower interest rates, for it is considered of low risk.

Leasing: this is an alternative medium, or long-term, financing method, documented through an agreement in which the leasing company purchases the assets, which are then ceded for use by the lessee in exchange for payment in installments.

Libor: it is the preferential interest rate charged on foreign currency loans and prevailing in the international financial market. It is used among first-tier banks.

Market-making: the maintenance of buy and sell offers for a specific securities and preparation to buy or sell standard lots at publicly quoted prices.

Market share: percentage sales or inventories in a specific segment of a certain company. It could also be the share that a specific brand holds in the market in which it operates.

Mark-to-market: method used to adjust a security or portfolio based on present market values.

Merchant banking: activities carried out by a financial institution including investment bank activity, advisory services, and intermediary services in mergers and acquisitions.

Microcredit: is the granting of limited loan amounts to small informal business owners and microcompanies, with difficult access to the traditional financial system, especially since they are unable to offer real guarantees. This credit is used for production purposes (working capital and investment) and its main features are less bureaucracy, access by all customer income brackets and a quick and efficient approvals process.

Mobile banking (WAP): this technology allows banks to offer their customers banking services (balances, statements, institutional information consultation, rates and prices) via mobile communication equipment, such as cell phones. An option in addition to other channels, such as the Internet, magnet strip cards, branches and call centers.

Money laundering: method by which funds derived from illegal activities are incorporated into the economic system. The main purpose is to disguise the illicit origin of the funds using transactions, which cannot be traced.

Operating efficiency ratio: ratio between administrative expenses (personal + administrative) and operating income. Lower the ratio, better the efficiency of the Financial Institution.

Overnight: one-day investments, which are guaranteed by government securities or corporate bonds, comprising a transaction between two institutions involving a sale, with a repurchase commitment.

Over-the-counter market: in which transactions are not carried out in the stock exchanges. Not only shares, but also assets, including derivatives, can be traded in this market. Since they attend certain customer specifications, not provided for in stock exchange trading, over-the-counter trades are also known as tailor-made transactions.

Own position: securities maintained in stock, available for trading, derived from definitive purchases or repurchases, recorded as fixed income securities.

PGBL (Unrestricted Benefits Generating Plan): this is a supplementary private pension product destined to accumulate funds and converting them into future income. PGBL is very flexible, since amongst other facilities, it allows that funds invested in this plan may be redeemed at any time (observing the grace period). It is interesting to participant, submitting income tax return, as it is possible to deduct the contributions amount from the income tax calculation basis up to the limit of 12% of annual gross income. Upon receipt of redemption or yield, income tax will be withheld at source over total received, pursuant to prevailing laws (progressive or regressive tables).

Plano remido: in the health Insurance Line products, this is a plan in which insurance holders do not have the obligation to pay premiums to the insurance company, which, in turn, still has the obligation to pay benefits to the holder.

Privatization currency: government securities generally traded with discount and accepted by the government in payment for the acquisition of state-owned companies.

Project finance: is the combination of contracts which involve a specific business venture, inter-relating all the operating agents and the guarantees related thereto. Project finance is a technical model in which the project is the center of gravity of the interaction between the related agents. Project finance is generally used in major engineering projects.

Purchase and sale commitments: a financial investment through which the bank sells government securities or corporate bonds to the customer, and whereby the bank is committed to repurchase and the customer to resell the related securities within the terms established in the contract.

Qualified custody service: this consists of the physical and financial settlement of assets and their safekeeping, as well as the administration and information on related income. The custody service also comprises the financial settlement of derivatives, swap contracts and forward transactions.

Quality certification (ISO International Organization for Standardization): is the combination of activities carried out by an independent commercial body designed to certify, publicly and in documental form, that a determined product, process or service complies with specific requirements. ISO certification improves the company's image, facilitating purchase decisions by customers and consumers.

Rating: it is a classification mechanism of the credit quality of a company or a country. The rating aims to classify the risk of a company or country verifying if they are able to comply with the financial liabilities. This classification is made by rating agencies which, periodically, review their opinions about the rating of the company or country previously evaluated. See Rating agencies.

Rating agencies: companies experienced in analyzing the risk of public and private, financial or non-financial institutions. Based on detailed analyses, these agencies attribute a score (rating) to the companies or countries under analysis. This score serves as a risk indicator for investors. See Rating.

Reinsurance: is the ceding by the insurance company to the reinsurer of that portion of a liability which exceeds the limit of its capacity to retain risks. Reinsurance is a form of risk distribution and is contracted with IRB-Brasil Resseguros S.A., which has the monopoly on reinsurance in Brazil.

Retained premium: is the portion of an insurance premium which remains with the insurance company in the exact proportion of its retention, i.e., the portions ceded as co-insurance and re-insurance are excluded from the premium issued, as well as refunds and cancellations.

Retrocession: is the transaction used by the reinsurer to cede to the local or international market, the liabilities which exceed the limits of its capacity to retain risks, i.e., retrocession is the reinsurance of reinsurance.

SA 8000® Social Accountability: a new rule developed by SAI (Social Accountability International, a non-profit organization which promotes workers human rights all over the world). The Company with certification in this international rule adopts good social responsibility practices, such as respect to human rights, child rights and fundamental labor rights, in addition to a safe and healthy work environment, which is reflected on the Company's quality of actions and relations with its public: employees, suppliers, clients and the community in general.

SANA (Automatic System of Stocks Negotiation): structured system aiming at facilitating the participation of small individual investors in the stock market, assuring easy purchasing and selling of stocks in the Stock Market, in small lots, through computer terminals. The system can also be used in public offerings intermediation.

Sarbanes-Oxley (see Sarbanes-Oxley Act)

Sarbanes-Oxley Act, Section 404: established to restore confidence in the financial information disclosed by companies listed in the U.S. stock exchanges. The U.S. politicians, Sarbanes (senator) and Oxley (federal congressman) drew up legislation to provide improved orientation on the following: clarity in the presentation of financial information, corporate governance, internal controls process and independence of the independent auditors and increased assurance procedures. Pursuant to Section 404, both companies and their auditors must identify all key controls for each of their processes and test thoroughly the effectiveness and management appraisal capacity of these controls.

Securitization: is the financial transaction whereby a loan and other debts are converted into securities which are negotiable in the market.

SMS: short message service, used in cell phones. The service allows the user to send and receive text messages containing different types of information.

Social responsibility: is the philosophy whereby certain companies conduct their business as a partner, co-responsible for social development. The socially responsible company is capable of assimilating the interests of different stakeholders (stockholders, employees, service providers, suppliers, consumers, community, government and environment), ensuring that these interests are fully integrated into the planning of its activities, in the pursuit to meet the demands of all segments, not just those of the stockholders or owners.

Sovereign risk: this is an index calculated by the US investment bank J. P. Morgan used to measure the degree of risk to which a foreign investor is exposed when investing in a particular country. Technically, this risk is the surcharge payable in relation to the guaranteed return on US treasury bonds, since the US is considered to offer less risk to investors. Every 100 points represent 1% of additional interest as compared to US interest.

Spread: this is the difference between the interest rate charged to the borrower by the bank and the rate paid to customers for the use of the funds invested.

Stock guide: this is a report used as a guide for those interested in accompanying the performance of the secondary share market and an important tool for use in capital market area studies. Its content is updated periodically and includes information on all major listed companies. The inclusion of companies in this report is directly related to their share liquidity. The companies are grouped under different sectors, facilitating a comparative analysis of their performance (share behavior and profitability) in their own activity segment and between the different sectors.

Stress testing: a technique used to assess the response of an asset and/or liability portfolio to extreme variations in the prices, interest and exchange rates which affect these portfolios. The purpose of the stress test is to quantify possible loss on the portfolio in the event of an adverse market situation.

Structured transactions: a combination of two or more financial instruments (e.g. a purchase and sale commitment + Swap), designed to take advantage of market opportunities or secure protection against financial risks.

Subordinated debt: this is an instrument customarily used by financial institutions for obtaining funds since it is classified as tier II capital for purposes of calculating the capital adequacy ratio (Basel) and accordingly increases their credit granting capacity. In the event of bankruptcy, this debt is the ultimate obligation payable by the financial institution and is subordinate to the payment of all other creditors.

Subordinated perpetual debt: this is a security without maturity, which pays interest on a periodical basis on dates set out in advance. It includes an exclusive redemption option for the issuer after the term contractually determined has elapsed as from the issuance date.

Supplementary private pension plan: it is an instrument used to accumulate resources over the years in the form of savings to be withdrawn during retirement. This plan is supplementary to the government retirement pension scheme.

Sustainability: assumes that the companies will commit with the economic-social-environmental tripod, i.e., value generation, environmental care and social development.

Swap: financial derivative with a view to promoting the swap (simultaneously) of financial assets between economic agents involved.

Tag Along: right assured by law through which the minority stockholders holding common stocks have the power of selling their stocks for a predetermined percentage, when a publicly-held company's control is sold.

Technical reserves: these are liabilities recorded by the insurance companies to guarantee the payment to policyholders of claims occurred or which will occur in the future as a result of the risks assumed. For the supplementary private pension entities and savings bonds companies, these liabilities comprise the amounts accumulated with funds derived from the cost of the benefits contracted, for payment purposes of such benefits. All technical reserves are calculated established on actuarial bases.

Third-party position: securities with repurchase commitments not subject to resale commitments, i.e., they are the institutions own portfolio securities related to the open market, recorded as fixed income securities subject to repurchase.

Track record: accumulated experience.

Treasury stocks: own company stocks acquired to remain in treasury or for cancellation.

Underwriting: term used internationally to define the launching of stocks or debentures for public subscription, generally carried out by financial institutions authorized by the CVM, via three types of contracts: straight (the financing institution subscribes the total launch and payment is made directly to the issuing company), stand-by (the financing company is bound to subscribe the securities not acquired by the public) and best-efforts (the financing company does not assume the responsibility to subscribe the securities and returns those that were not acquired by the public to the issuing company).

Verified by Visa: electronic means of debit and credit card transactions verification at virtual stores, providing clients with greater protection and security.

VGBL (Long-term life insurance): this is a life insurance guaranteeing insured's coverage in case of his/her survival with a view to accumulating funds and converting them into future income. It works as a private pension plan, as it was developed based on PGBL. VGBL is very flexible, since amongst other facilities, it allows that funds invested in this plan may be redeemed at any time (observing the grace period). The most important difference between PGBL and VGBL is the tax treatment given to each one. While in PGBL income tax is levied over the total redeemed or received as income, in VGBL the taxation occurs only over financial investments yields, according to prevailing laws (progressive or regressive tables). VGBL is more indicated for those participants submitting simplified income tax return. In addition, this is an option for those insured who already exceeded the limit of income tax deduction in a supplementary private pension plan (12%) and who are planning to invest a bit more in his/her future.

V@R (value at risk): is the expected maximum potential loss of an asset and/or liability portfolio with pre-established confidence level and over a specific time horizon.

Web point: this is a self-service terminal providing access to Internet Banking services.

WebTA: is the online transfer of files between the Bank and its corporate customers with security, efficiency and economy, using cryptography and data compaction.

Wireless: this technology permits connection between equipment with no direct physical link. For example, internet access by cell phones is made feasible through the use of wireless technology.
