2Q08 Earnings Release

Quarterly Earnings Release

FOR IMMEDIATE RELEASE

**COMPAÑÍA DE TELECOMUNICACIONES DE CHILE S.A.
ANNOUNCES RESULTS FOR THE SECOND QUARTER 2008 (2Q08)**

Highlights:

Operating revenues in 2Q08, remained stable; it is worth to highlight the growth in flexible plans, broadband revenues and pay television

EBITDA in 2Q08 reached Ch\$60,882 million (US\$115.7 million), compared to Ch\$69,791 million (US\$132.7 million) in 2Q07. EBITDA margin reached 37.4% in 2Q08 compared to 42.9% in 2Q07

Net income amounted to Ch\$1,931 million (US\$3.7 million) in 2Q08, compared to net income of Ch\$4,122 million (US\$7.8 million) in 2Q07

Debt outstanding at the end of 2Q08 amounted to Ch\$408,889 million

Santiago, Chile July 23, 2008, Compañía de Telecomunicaciones de Chile S.A. (NYSE: CTC) (Telefónica Chile or the Company) today announced its consolidated quarterly financial results, submitted to an interim financial review of independent auditors, stated in Chilean GAAP (in constant Chilean pesos as of June 30, 2008) for the Second Quarter of 2008. U.S. dollar equivalent information presented in this report is based on the observed exchange rate (defined by the Chilean Central Bank) as of June 30, 2008, which equaled to Ch\$526.05 = US\$1.00. This information will be made publicly available through the Chilean Superintendencia de Valores y Seguros (SVS) and the Securities and Exchange Commission of the United States of America (www.sec.gov), as well as at the Company's website, www.telefonicachile.cl.

CONSOLIDATED RESULTS FOR 2Q08

(Comparisons refer to 2Q07)

REVENUES

Telefónica Chile's **revenues** increased slightly by 0.1% in 2Q08 from 2Q07, amounting to Ch\$162,779 million (US\$309.4 million). This variation mainly stems from growing Broadband revenues (+12.9%), Television (+60.8%), Corporate Communications (+2.4%) and plans of minutes (+2.5%), which offset the decrease in revenues from fixed and variable charges, as well as the long distance business.

OPERATING COSTS AND EXPENSES

(i) **Operating costs and expenses** (excluding depreciation) increased 9.8% in 2Q08 to Ch\$101,897 million (US\$193.7 million), mainly explained by: (i) higher direct costs of operations, which increased 13.7% due to higher TV content expenses associated to the increase in number of TV Clients, as well as higher costs of equipment sales associated with the commercialization of Puesto de Trabajo (workstations) service for the small and medium enterprises along with ongoing projects with corporations, and higher rental capacity costs due to the higher capacity offered to broadband clients since March 2008; (ii) an increase of the uncollectables provision, due to a more conservative approach and, (iii) a 21.2% increase in other operating costs due to

higher electricity rates, which have increased more than 50% since June 2007, as well as higher expenses related rent of commercial sites, information systems, and central exchanges maintenance. The above expenses were partially offset by lower salaries due to a 9.2% decrease in average number of employees compared with 2Q07, and by lower commercial expenses, which decreased 6.1% mainly due to commercial cost savings.

EBITDA

As a result, **EBITDA**¹ in 2Q08 decreased 12.8% to Ch\$60,882 million (US\$115.7 million), compared to Ch\$69,791 million (US\$132.7 million) recorded in 2Q07.

EBITDA margin² in 2Q08 was 37.4%, compared to the 42.9% recorded in 2Q07. EBITDA margin is mainly affected by higher costs, primarily associated with the growth of the television business and broadband, and indexed costs in a highly competitive environment.

DEPRECIATION

Total depreciation in 2Q08 decreased 7.8% to Ch\$51,599 million (US\$98.1 million), from Ch\$55,959 million (US\$106.7 million) in 2Q07, mainly due to the completion of the useful lives of certain assets and lower investment compared with historic levels.

<u>Operating Costs*</u>	2Q07	2Q08	Var. % 08/07
<i>(Million of Ch\$)</i>			
Personnel	24,498	22,631	-7.6%
Direct Cost Of Operations	22,212	25,261	+13.7%
Commercial Expenses	18,136	17,032	-6.1%
Uncollectables	4,507	8,580	+90.4%
Others	23,421	28,393	+21.2%
Depreciation	55,959	51,599	-7.8%
Total operating expenses	148,733	153,496	+3.2%

Change in the Operating Cost Breakdown presented in Results Information: As of 2008, the breakdown of operating has been modified and basically differs from the previous breakdown in that: (i) Personnel costs considers salaries of permanent employees as well as outsourced employees; previously only salaries of permanent employees were considered and labor costs of outsourced personnel was recorded as general expenses; (ii) Commercial Costs include sales commissions, advertising and client service costs; (iii) Direct costs of operations include sales equipment costs, interconnections and TV content and infrastructure costs; (iv) Uncollectables and Depreciation remain unchanged; and (v) Others refers to general expenses such as utilities, maintenance and others.

¹ EBITDA = operating income + depreciation

² EBITDA margin = (operating income + depreciation) / total operating revenues

**OPERATING
INCOME**

OPERATING INCOME decreased 32.9% to Ch\$9,283 million (US\$17.6 million) in 2Q08 from Ch\$13,832 million (US\$26.3 million) in 2Q07. As a result, the **operating margin** for 2Q08 was 5.7% compared to 8.5% in 2Q07.

**NON- OPERATING
RESULTS**

NON-OPERATING RESULT registered a non-operating profit of Ch\$180 million (US\$0.3 million) in 2Q08 compared to a non-operating loss of Ch\$167 million (US\$0.3 million) in 2Q07.

The non-operating gain in 2Q08 is mainly explained by:

- (i) An interest income of Ch\$1,400 million (US\$2.7 million) in 2Q07, compared to Ch\$1,372 million (US\$2.6 million) in 2Q07. This increase is mainly explained by higher short term interest rates in the quarter; and,
- (ii) A monetary correction that reflects a Ch\$7,368 million (US\$14.0 million) gain due to the CPI of 2.39% registered in the quarter, which translated into gain due to the positive imbalance of fixed assets and liabilities. This compares to a gain in the monetary correction of Ch\$5,268 million (US\$10.0 million) in 2Q07 due to the CPI of 1.63% registered in 2Q07; and,
- (iii) A 124.1% increase in other non-operating income amounting to Ch\$2,107 million (US\$4.0 million) in 2Q08, due to extraordinary gain for the sale of assets (properties).

The above was partially offset by:

- (i) Financial expenses of Ch\$6,981 million (US\$13.3 million), which increased 54.8% as a result of the increase in the average debt interest rate. This is due to the fact that during year 2008, the Company hedged a portion of its debt from UF to Chilean peso denominated debt. This resulted in a higher nominal interest rate in pesos for said debt. At the same time, this higher rate was compensated by a lower monetary correction associated to the debt, as the debt was no longer denominated in the inflation-adjusted UF instruments. The financial debt remained stable, totaling Ch\$408,889 million (US\$777.3 million) as of June 30, 2008.
- (ii) Other non-operating expenses reached Ch\$3,906 million (US\$7.4 million), mainly stemming from: (i) Ch\$1,522 million (US\$2.9) in personnel severances paid in 2Q08, and (ii) Ch\$1,254 million (US\$2.4 million) in asset write-offs, mainly associated to equipments.

INCOME TAXES

INCOME TAXES: In 2Q08 Telefónica Chile recorded a total income tax charge in the amount of Ch\$7,632 million (US\$14.5 million). This compares to the Ch\$10,038 million (US\$19.1 million) tax charge in 2Q07.

Total income tax in 2Q08 consists of: (i) a charge of Ch\$3,555 million (US\$6.8 million) for deferred taxes from previous periods due to the change in accounting standards (Technical Bulletin No. 60) in year 2000, which required the Company to amortize the accumulated amount of deferred taxes from previous years, and also includes the Chilean tax rate (17%) applied to taxable net income, which differs from financial net income in that it does not consider as an expense (i) monetary correction of shareholders equity or (ii) certain

contingencies and write offs.

NET RESULT

The Company recorded **net income** of Ch\$1,931 million (US\$3.7 million) in 2Q08 compared to a net income of Ch\$4.122 million (US\$7.8 million) in 2Q07.

Net income per ADR in 2Q08 amounted to US\$0.015, compared to the net income per ADR of US\$0.033 recorded in 2Q07. Likewise, net income per share in 2Q08 equaled Ch\$2.0 as compared to Ch\$4.3 in 2Q07.

CAPEX

Capital Expenditures for Telefonica Chile and its consolidated subsidiaries amounted to Ch\$58,364 million (US\$110.9 million) for the first half of 2008. Capital expenditures were mainly associated to the development of broadband (ADSL), Pay TV, fixed telephony network and data network.

REVENUES BY BUSINESS UNIT

VOICE, NETWORK AND COMPLEMENTARY SERVICES

Voice, Network and Complementary services is divided into Telephony (voice), Access Charges and Interconnections, and Other Complementary services, which include other revenues associated to fixed telephony, such as: interior installations, equipment marketing, connections and other installations, directory advertising and Telemergencia (home security services subsidiary), and public telephones, among others. Total revenues for this segment represented 54.3% of the total operating revenues in 2Q08, amounting to Ch\$88,384 million (US\$168.0 million) and decreasing 6.4% from 2Q07. This is mainly attributable to the decline in Telephony (voice) revenues (-7.6%) and complementary services (-9.1%), which were partly offset by a 3.3% access charges increase when compared to 2Q07.

Flexible plans represent 77% of total lines in service

Telephony (Voice) revenues, which include the fixed monthly charge, variable charge, connections and other installations and plans of minutes (allowed under tariff flexibility), decreased 7.6% to Ch\$56,714 million (US\$107.8 million) in 2Q08 from 2Q07. This decrease is mainly attributable to a 31.1% decrease in the fixed monthly charge and a 9.0% decrease in the variable charge. Traditional telephony (fixed monthly charge and variable charge) revenues were also affected by: (i) a 12.1% decrease in average traffic per line in 2Q08 compared to 2Q07; and (ii) a 1.4% decrease in average lines in service compared to 2Q07, mainly resulting from competition and mobile cannibalization and (iii) migration of customers to flexible plans. The aforementioned migration also generates additional revenues which partially offset these through growth of 2.5% in revenues from plans of minutes associated with tariff flexibility. As of June 30, 2008, these plans represented 76.8% of the total lines in service, including plans of minutes for corporations. The revenues associated to flexible plans represent 21.5% of the consolidated revenues.

Access charges and interconnection (Fixed Network) revenues include revenues from access charges generated by LD carriers, as well as those paid by other telecommunications operators that use Telefónica Chile's network. They also include other interconnection services in addition to access charges, such as network unbundling, interconnection of networks, information services for carriers and network services for wholesalers, among others. These revenues increased by 3.3% in 2Q08 to Ch\$14,007 million (US\$26.6 million). This difference was mainly due to an increase of 8.1% in revenues of other interconnection services. These were partially offset by decreases of 20.9% and 10.1% in access charge revenues from DLD and ILD, respectively. Long distance access charge traffic decreased 14.2% in 2Q08 from 2Q07.

Revenues from **Complementary Services** include revenues generated from telephone directory advertising as a result of the Company's contract with Publiguías, dedicated and dial-up Internet service, Telemergencia (home security services subsidiary), public telephones, interior installations, equipment marketing and connections and other installations, value-added services and other basic telephony revenues (such as operator assisted services and rural telephony, among others). These revenues decreased 9.1% in 2Q08 to Ch\$17,663 million (US\$33.6 million) compared to 2Q07. This is mainly due to lower revenues from: (i) Telemergencia home security services (-17.4%) due to greater market competition; (ii) interior installations (-19.3%) due to lower number of lines subject to fixed monthly charges; and, (iii) public telephony (-31.7%) due to a 2.3% decrease in public telephony lines in service and lower traffic as a result of mobile cannibalization. The above were partly offset by higher revenues from other basic telephony services (+18.8%) and equipment marketing (+49.9%) mainly explained by the sale of computers and telecommunications equipment related to the Puesto de Trabajo Informático (workstation) plan for small and medium enterprises, which was launched in July 2007. The plan offers Voice and Broadband services to small and medium enterprises, including the necessary equipment to provide the service.

BROADBAND

The Company consolidated its leadership position in Broadband

Broadband (ADSL) revenues, which represent 17.6% of the total revenues, amounted to Ch\$28,696 million (US\$54.5 million) in 2Q08, an increase of 12.9% with respect to 2Q07. This increase was primarily due to: (i) the 17.6% growth in ADSL connections in the quarter, driven by a commercial focus on bundled plans of broadband plus minutes of voice and digital TV (for residential customers), as well as a plan for small and medium enterprises, called *Puesto de Trabajo Informatico*, launched in July 2007 as explained previously, which led us to a market share of 49.2% as of June 30, 2008.

PAY TV

The bundling of services through a flexible offer stabilizes revenues

Revenues from the **Pay TV** business, launched in June 2006, amounted to Ch\$10,125 million (US\$19.2 million) in 2Q08, accounting for 6.2% of total revenues. As of June 30, 2008, the Company had 240,801 Pay TV clients, a 17.8% market share. The Company offers a wide number of channels and complements its offering with interactive services through IPTV (television over broadband). The interactive services include Video on Demand (VoD). Additionally, the Company is offering the personal video recorder service (PVR), which allows the client to record, pause, rewind or fast-forward any TV program.

The bundling strategy of flexible plans, broadband and television, has allowed revenues to remain stable and contributes to revenue diversification, thus 81% of total consolidated revenues are not subject to tariff regulation.

LONG DISTANCE

Telefónica Larga Distancia strengthens its market leadership position, achieving a market share of 45.5% and 43.4% in DLD and ILD,

Long distance revenues include revenues from domestic and international long distance traffic, as well as revenues from the rental of the long distance network to other telecom operators. Total long distance revenues, which accounted for 8.2% of consolidated operating revenues in 2Q08, decreased 9.5% from 2Q07, amounting to Ch\$13,399 million (US\$25.5 million). The decrease in revenues is mainly explained by: (i) a decrease of 14.0% in national long distance (DLD) mainly due to lower prices, which fell 17% with respect to 2Q07, (ii) and a decrease of 8.5% in international long distance (ILD), mainly due also to lower prices, which fell 22% from 2Q07 and lower revenues from incoming ILD traffic; and, (iii) a decrease of 2.8% in the revenues of network rental. Nevertheless, as a result of the Company's commercial efforts, DLD and ILD traffics increased 3.1% and 9.1%, respectively, despite the industry contraction. As a result, DLD market share for the quarter increased 5.0 p.p. with respect to 2Q07, reaching 45.5%, and ILD market share increased 3.4 p.p. to 43.4% in 2Q08.

CORPORATE CUSTOMER COMMUNICATIONS

Stable revenues from corporate customer communications and market share of 40% in a highly competitive market

Corporate customer communications include revenues from: (i) terminal equipments, which mainly refers to the sale of voice equipment and data transmission equipment; (ii) complementary telephone services, such as digital communications for corporations (high-consumption plans); (iii) data services, including ATM, Frame Relay, housing and hosting services and services related to the IP network; and, (iv) dedicated links and others, including videoconference, Dated, E1 Links and VSAT, e-solutions, and consulting services for corporate customers.

Revenues from corporate customer communications, which accounted for 13.3% of consolidated revenues, increased 2.4% from 2Q07 to Ch\$21,574 million (US\$41.0 million) in 2Q08, and backed by an improved customer relationship management.

This variation mainly stems from an increase of 8.6% in circuits and others, due to increased revenues from advanced solutions for clients, and an increase of 6.8% in data revenues associated to the IP network (dedicated IP and digital data network Citynet), which were partly offset by a 14.3% decrease in revenues from equipment sales and a 3.6% decrease in revenues from complementary services compared to 2Q07.

In 2Q08, datared links decreased 6.0%, whereas data links through the IP network (dedicated IP) grew 30.0%, while ATM links remained stable from 2Q07.

**OTHER
BUSINESSES**

Other businesses include revenues from the administrative service subsidiary t-gestiona and others. These revenues, which accounted for 0.4% of total 2Q08 operating revenues, increased 4.5% with respect to 2Q07, amounting to Ch\$601 million (US\$1.1 million) in 2Q08.

COMPANY NEWS

FINAL DIVIDEND

On May 14, 2008, the final dividend was distributed to shareholders. The total amount paid and charged to 2007 net income was Ch\$5,050 million (US\$9.6 million) or Ch\$5.27606 per share. The sum of this dividend and interim paid in November 2007, is equivalent to 100% of 2007 net income.

CAPITAL REDUCTION

At the Extraordinary Shareholders Meeting held on April 14, 2008, shareholders approved a capital reduction of Ch\$39,243 million (US\$74.6 million), equivalent to a gross amount of Ch\$41 per share. Payment of this capital reduction was made on June 13, 2008.

TELEFÓNICA CHILE REFINANCE A US\$ 150 MILLION SYNDICATED LOAN

On June 12, 2008, Telefonica Chile refinanced an existing US\$ 150 million loan maturing December 2008 with an international loan of the same amount.

The international bank loan was structured as a Club Deal, with the participation of Banco Santander, Banesto, Bank of Tokyo, BBVA, Caja Madrid, EDC and Rabobank. The loan has a 5 year maturity, with a bullet repayment and an interest rate of LIBOR plus 60 basis points.

With this transaction, Telefónica Chile fulfills its financing needs for the current year.

Compañía de Telecomunicaciones de Chile S.A., the first South American company to list shares on the New York Stock Exchange, is the largest telecommunications enterprise in Chile, providing local service, as well as domestic and international long distance services throughout the country. Additionally, the Company leads the corporate data transmission service as well as broadband in Chile and provides equipment marketing, value-added and digital television services, among others.

This news release contains certain forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1996, including but not limited to Compañía de Telecomunicaciones de Chile S.A.'s expectations for its performance for the quarter. Forward looking statements may also be identified by words such as believes, expects, anticipates, projects, intends, should, seeks, estimates, future, or similar expressions. Forward-looking statements included in this news release are based on current expectations, but actual results may differ materially from anticipated future results due to various factors many of which are beyond the control of Compañía de Telecomunicaciones de Chile S.A. and its subsidiaries. Certain factors which could cause the actual results of Compañía de Telecomunicaciones de Chile S.A. and its subsidiaries to differ materially from the expected results include, among others, changes in Chile's regulatory framework, impact of increased competition and other factors beyond Compañía de Telecomunicaciones de Chile S.A.'s control

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
