Ref.: Bradesco executes memorandum of understanding with BB and Santander aiming at the consolidation of operations of their respective External Automated Teller Machines

Banco Bradesco S.A., Banco do Brasil S.A. and Banco Santander (Brasil) S.A., hereby inform that on the date hereof they have executed a memorandum of understanding with the aim of consolidating the operations of their respective External Automated Teller Machines (the External ATMs - automated teller machines installed outside the branches), such as those installed in airports, fuel stations, supermarkets, shopping centres, drugstores and bus terminals.

With the conclusion of this transaction, these Banks intend to have a business model that will permit its clients to use approximately eleven thousand External ATMs. This model would significantly increase the availability and penetration of the self-service network, and create efficiency gains when compared to the current manner that the ATM network is used by each bank.

The model contemplates the creation of a brand that will identify the consolidated network.

The memorandum of understanding is not binding. The banks intend to conclude the transaction in approximately five months, as of the current date.

Additional relevant information shall be disclosed to the market as the negotiations and future decisions evolve.

Cidade de Deus, Osasco, SP, February 11th, 2010

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
