(\*) Earnings before interest and taxes

(\*\*) Earnings before interest, taxes, depreciation and amortization

In 1Q12, net operating revenue reached R\$ 2.6 billion, a 12.3% growth compared to 1Q11. Costs and expenses, including construction costs, in the amount of R\$ 1.9 billion grew 0.4% over 1Q11. EBIT grew 64.6%, from R\$ 426.2 million in 1Q11 to R\$ 701.7 million in 1Q12. EBITDA increased 35.7%, from R\$ 654.3 million in 1Q11 to R\$ 888.2 million in 1Q12. The EBITDA margin was 34.5% in 1Q12 in comparison to 28.5% in the same period of the previous year. Excluding construction revenues and construction costs, the EBITDA margin was 43.3% in 1Q12 (34.9% in 1Q11).

## **2.Gross operating revenue**

Gross operating revenue from water supply and sewage collection grew from R\$ 2.0 billion in 1Q11 to R\$ 2.2 billion in 1Q12, an increase of R\$ 199.6 million or 10.0%. The main factors that led to this variation were: the increase of 3.0% in total billed volume, out of which 2.6% in water and 3.5% in sewage, and the tariff adjustment of 6.83% as of September 2011.

## **3.Construction revenue**

In 1Q12, construction revenue grew from R\$ 450.2 million to R\$ 550.9 million, an increase of R\$ 100.7 million or 22.4%, comparing to 1Q11. This variation was mainly due to higher investments in the period.

## **4.Billed volume**

The following tables show the billed water and sewage volume per customer category and region in 1Q11 and 1Q12.

### 5.1. Payroll and benefits

In 1Q12 payroll and benefits dropped R\$ 150.2 million or 27.0%, from R\$ 556.5 million to R\$ 406.3 million, due to the following:

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY  
ISSUED IN PORTUGUESE)

Version :  
1

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

### **Comments on the Company's Performance**

- Complementation of the actuarial liability totaling R\$ 157.5 million, referring to the actuarial calculation made in 1Q11 related to G0 Plan; non-recurring for the next quarters; and
- Drop of R\$ 13.6 million referring to actuarial liability of the G0 Plan. Since April of 2011, these expenses have been recognized net of the payment of the undisputed party (benefits of Law 4819/58).

The above mentioned decreases were offset by the 8% increase in wages since May 2011, with an impact of approximately R\$ 23.6 million.

### **5.2. Supplies**

In 1Q12, expenses with supplies increased by R\$ 3.3 million or 8.9%, when compared to the same period of the previous year, from R\$ 37.2 million to R\$ 40.5 million. The main factors for this variation were: (i) expenses with water and sewage systems maintenance, in the amount of R\$ 0.9 million; (ii) expenses with water and sewage connections, in the amount of R\$ 0.7 million, due to the increase and regulation in the execution of the Global Sourcing; (iii) data processing materials for new water meter reading and bill issuing equipment in the metropolitan region in the amount of R\$0.4 million; and (iv) maintenance of equipment installed in the strategic maintenance unit in the amount of R\$0.6 million.

### **5.3. Treatment supplies**

Treatment supplies expenses in 1Q12 were R\$ 1.0 million or 2.3% lower than in 1Q11, from R\$ 45.6 million to R\$ 44.6 million.

#### **5.4. Services**

In 1Q12 this item increased R\$ 33.6 million or 14.5%, from R\$ 231.4 million to R\$ 265.0 million. The main factors were:

- Paving services and replacement of sidewalks and water and sewage network maintenance in the amount of R\$ 14.1 million, due to the intensification of the fight against water losses;
- Advertising campaigns focused on social and environmental initiatives broadcast on the radio and TV such as Planeta Sustentável and Projeto Verão, totaling R\$ 9.1 million;
- Increase of R\$7.5 million related to the fleet renewal program, though leasing; and
- Public and Private Partnership Agreement of the Alto Tietê Production System, with an increase of R\$ 6.4 million as expected for the second year of the contract and start-up in September 2011, increasing the water production capacity from 10m<sup>3</sup>/s to 15m<sup>3</sup>/s.

#### **5.5. Electric power**

In 1Q12, this item increased R\$ 9.0 million, or 6.4%, from R\$ 141.3 million to R\$ 150.3 million, associated to the increase in consumption, the average tariff and the billed volume, due to the increase in production/treatment and the increase of operational stations.

#### **5.6. General expenses**

In 1Q12 general expenses increased R\$ 40.3 million or 31.6%, from R\$ 127.5 million to R\$ 167.8 million, due to:

- Increase in provision for legal contingencies in relation to 1Q11, amounting to R\$ 36.2 million; and

- Increase of R\$6.0 million in the provision for the municipal fund pursuant to the Service Agreement with the municipal government of São Paulo, due to higher revenue from the municipal government of São Paulo.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY  
ISSUED IN PORTUGUESE)

Version :  
1

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Comments on the Company's Performance**

### **5.7. Depreciation and amortization**

This item decreased R\$ 41.6 million or 18.2%, from R\$ 228.1 million to R\$ 186.5 million, due to the amortization term adjustment between the asset's useful life and the contract effectiveness, whichever is the shortest one, and the increased transfer of works in progress to operation in 2011. The main adjustment refers to the amortization of intangible assets related to the Service Agreement with the municipal government of São Paulo, non-recurring for the coming quarters.

### **5.8. Credit write-offs**

In 1Q12 credit write-offs increased R\$ 5.7 million or 17.2%, from R\$ 33.1 million to R\$ 38.8 million, mainly due to higher provisions of debits related to public entities.

### **5.9. Tax expenses**

In 1Q12 tax expenses grew R\$ 7.6 million or 27.7%, due to the payment of the Municipal Real Estate Tax – IPTU, mainly in the São Paulo municipality, in the amount of R\$ 5.7 million.

## **6. Other operating revenues and expenses**

### **6.1. Other operating revenues**

Other operating revenues increased R\$ 6.1 million or 105.2% in 1Q12, chiefly due to the recognition, on an accrual basis, of part of the funds received from the São Paulo state government for adherence to the agreement of Alienation of Exclusivity Rights for deposits of Sabesp's employees' payments from March 2007 to March 2014 with Nossa Caixa and Banco do Brasil and revenue from contractual fines with suppliers.

## 7. Financial revenues and expenses

	1Q11	1Q12	Var.	<i>R\$ million</i> %
Financial expenses				
Interest and charges on domestic loans and financing	120.1	82.2	(37.9)	(31.6)
Interest and charges on international loans and financing	19.3	20.0	0.7	3.6
Interest rate over lawsuit	28.8	52.5	23.7	82.3
Other financial expenses	8.3	15.8	7.5	90.4
<b>Total financial expenses</b>	<b>176.5</b>	<b>170.5</b>	<b>(6.0)</b>	<b>(3.4)</b>
Financial revenues	78.8	75.8	(3.0)	(3.8)
<b>Financial expenses net of revenues</b>	<b>97.7</b>	<b>94.7</b>	<b>(3.0)</b>	<b>(3.1)</b>

### 7.1. Financial expenses

In 1Q12 financial expenses dropped R\$ 6.0 million, or 3.4%. The main factors that influenced this result were:

- Decrease in interest by R\$ 37.9 million on domestic loans and financing, mainly due to the amortization of the 8th and 9th debenture in June and October 2011, respectively; and
- Higher financial expenses arising from higher incidence of interest related to lawsuits against suppliers in the amount of R\$23.7 million.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

**Comments on the Company's Performance****7.2. Financial revenues**

Financial revenues decreased by R\$ 3.0 million, due to the gradual reduction of the market interest rates obtained in financial investments.

**8.Monetary variation on assets and liabilities**

	<b>1Q11</b>	<b>1Q12</b>	<b>Var.</b>	<b>R\$ million %</b>
Monetary variation on loans and financing	19.8	8.5	(11.3)	(57.1)
Currency exchange variation on loans and financing	(69.1)	(159.2)	(90.1)	130.4
Other monetary/exchange rate variations	14.5	22.5	8.0	55.2
<b>Variation on Liabilities</b>	<b>(34.8)</b>	<b>(128.2)</b>	<b>(93.4)</b>	<b>268.4</b>
Variation on assets	12.2	11.5	(0.7)	(5.7)
<b>Net Variation</b>	<b>(47.0)</b>	<b>(139.7)</b>	<b>(92.7)</b>	<b>197.2</b>

**8.1. Monetary variation on liabilities**

The effect on the monetary variation on liabilities in 1Q12 was R\$ 93.4 million lower than in 1Q11, due to:

- Reduction of R\$90.1 million arising from the 9.05% depreciation of the yen (reference currency in JICA agreements) in 1Q12 versus a 4.34% depreciation in 1Q11;

- Decline of R\$11.3 million resulting from the 0.62% variation in the IGPM (the debentures' index) in 1Q12, versus a 2.43% variation in 1Q11;
- Increase in the amount of other financial expenses relating to lawsuits in the amount of R\$6.1 million; and
- Monetary restatements of the commitments arising from program agreements, totaling R\$ 1.4 million.

## 9. Operating indicators

In 1Q12, water loss remained practically stable, with a slight 1% variation over December 2011, 1.9% below March 2011 index.

Water connections <sup>(1)</sup>	7,332	7,526	2.6
Sewage connections <sup>(1)</sup>	5,758	5,965	3.6
Population directly served - water <sup>(2)</sup>	23.7	24.0	1.3
Population directly served - sewage <sup>(2)</sup>	20.1	20.6	2.5
Number of employees	15,153	14,725	(2.8)
Water volume produced <sup>(3)</sup>	755	770	2.0

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## Notes to the Financial Statements

(Amounts in thousands of Brazilian reais - R\$, unless otherwise stated)

### 1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, focused on the customer, and in a sustainable and competitive manner, with excellence in environmental solutions.

On March 31, 2012, the company operates water and sewage services in 363 of municipalities of the State of São Paulo, having temporarily discontinued operations in five of these municipalities, Araçoiaba da Serra, Iperó, Cajobi, Álvares Florense and Macatuba, due to judicial orders under ongoing lawsuits. Most of these municipalities operations are based on 30-year concession agreements. As of March 31, 2012, 96 concessions had expired and are being negotiated. From 2012 to 2033, 39 concessions will expire, and the remaining concessions operate on rollover basis. These concessions with indefinite terms and expired concessions under negotiation are amortized over the useful lives of the underlying assets. By March 31, 2012, 228 contracts were signed (225 contracts on December 31, 2011).

Management believes that all concessions expired and not yet renewed will result in new contracts or contract extensions, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. On March 31, 2012, the carrying amount of intangible assets applied in 96 municipalities

under negotiation totals R\$6,090 million, accounting for 29.47% of total and gross revenue from these municipalities totals R\$665.3 million, accounting for 24.18% of total.

Company's operations are concentrated in the municipality of São Paulo, which accounts for 53.5% of gross revenue in March 2012 (December 2011 – 55.11%).

On June 23, 2010 the State of São Paulo through its Governor, the municipal government of São Paulo, represented by its mayor, SABESP and Regulatory Agency of Sanitation and Energy– ARSESP as intervening and consenting parties entered into an agreement to share the responsibility for the water supply and sewage services in the capital city of São Paulo for the next 30 years, renewable for same period. In addition, SABESP is the sole supplier of these services and ARSESP is liable for regulation, including tariffs, control and inspection of services.

Also, the “Water Supply and Sewage Public Utility Services Agreement” was signed on June 23, 2010. This agreement was signed between the State of São Paulo, the municipal government of São Paulo and SABESP for a 30-year period, renewable for same period, including the following activities:

- i. protection of springs in collaboration with other state and municipal authorities;
- ii. capture, transportation and treatment of raw water;;
- iii. collection, transportation, treatment and final dispose of sanitary sewage; and
- iv. adoption of other basic and environmental sanitation actions.

In the municipality of Santos, in the Baixada Santista region, which has a significant population, the Company operates supported by a public authorization deed, a similar situation in other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that it is made up of.

Concessions renewals occur based on Law 11.445, enacted on January 5, 2007, which establishes the basic sanitation regulatory framework, providing for the nationwide guidelines and basic principles for the provision of such services, such as social control, transparency, the integration of sanitation infrastructure, water resources management, and the articulation between industry policies and public policies for urban and regional development, housing, suppression of poverty, promotion of health and environmental protection, and other related issues.

The Company's shares have been listed on the "*Novo Mercado*" (New Market) segment of the BOVESPA (São Paulo Stock Exchange) since April 2002, and on the New York Stock Exchange (NYSE) as ADRs since May 2002.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Notes to the Financial Statements**

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho and Attend Ambiental. Although SABESP has no majority interest in the capital stock of these companies, the shareholders' agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees. For the purposes of accounting classification in the financial statements, these companies are considered "joint ventures", under the criteria of CPC 19.

These consolidated financial statements were approved by the Board of Directors on May 10, 2012.

## **2. PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS**

### **(i) Presentation of the Quarterly Information**

The quarterly financial information of March 31, 2012 was prepared based on CPC 21 – Interim Financial Information (parent company and consolidated) and the international standard IAS 34 – Interim Financial Reporting issued by the International Accounting Standards Board (IASB) (consolidated), applicable to the preparation of the Quarterly Financial Information – ITR, which are consistently presented with the standards issued by CVM. Therefore, this ITR considers the Circular Official Letter CVM/SNC/SEP 003 of April 28, 2011 which allows that entities report selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The quarterly financial information for the period ended March 31, 2012, therefore, does not include all the notes and reporting required by the CPC ("Brazilian Committee of Accounting Pronouncements") for the annual financial statements and, accordingly, must be read together with the financial statements under CPC and IFRS for the year ended December 31, 2011.

(ii) Parent Company and Consolidated Financial Information

The parent company financial information has been disclosed together with the consolidated financial information and were prepared based on CPC 21 provisions applicable to the preparation of the Quarterly Financial Information – ITR and presented consistently with the standards issued by CVM and with Note 2 of the Annual Financial Statements as of December 31, 2011.

The consolidated financial statements include the financial statements of the Company and its investees: Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina S.A., Águas de Castilho, Saneaqua Mairinque S.A., Aquapolo Ambiental and Attend Ambiental, which were proportionally consolidated according to the equity interest over its investees. The Company shares the control of its investees, which has the same fiscal year basis. The accounting policies of its investees are consistent with the accounting policies adopted by the Company. The consolidation processes of assets, liabilities and statement of incomes add the assets, liabilities, revenues and expenses, according to the nature, complemented by the elimination of the shares hold by the parent company in the equity and statement of income of the investees.

Although SABESP has no majority shares of its investees, the shareholders' agreement provides for the power of veto and casting vote in certain management issues, indicating participating shared control. Therefore, the financial statements were proportionally consolidated.

These are the consolidated companies:

Sesamm

On August 15, 2008, the Company, together with the companies OHL Médio Ambiente, Inima S.A.U. Unipersonal ("Inima"), Técnicas y Gestión Medioambiental S.A.U. ("TGM") and Estudos Técnicos e Projetos ETEP Ltda. ("ETEP") incorporated the company Serviços de Saneamento de Mogi Mirim S.A. - SESAMM ("SESAMM"), for a period of 30 years from the date the concession agreement with the municipality of Mogi Mirim for the purpose of providing complementary services to the sewage diversion system and implementing and operating sewage treatment system in the municipality of Mogi Mirim, including the disposal of solid waste.

SESAMM's capital as of March 31, 2012 totaled R\$ 19,532, and was represented by 19,532,409 registered shares without a par value. SABESP holds 36% of its equity interest and Inima holds another 46% of its equity interest. The Company concluded that both, SABESP and Inima, have joint control over SESAMM. Accordingly, SABESP records their interest over SESAMM applying the proportional consolidation method,

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K  
equivalent to the 36% of SESAMM's assets and liabilities, revenues and expenses.

On March 31, 2012, SESAMM's operations had not been started yet.

## **Notes to the Financial Statements**

### Águas de Andradina

On September 15, 2010, the Company, together with the company Companhia de Águas do Brasil – Cab Ambiental incorporated the company Águas de Andradina S.A., with indefinite term, for the purpose of providing water supply and sewage services to the municipality of Andradina.

On March 31, 2012, the company's capital was R\$2,908 represented by 2,908,085 registered common shares without a par value. SABESP holds 30% of its equity interest.

The operations started in October, 2010.

### Saneaqua Mairinque

On June 14, 2010, the Company, together with the company Foz do Brasil S.A. incorporated the company Saneaqua Mairinque S.A., with indefinite term, for the purpose of exploring the public utility of water supply and sewage services to the municipality of Mairinque.

On March 31, 2012, the company's capital was R\$2,000, represented by 2,000,000 registered common shares without a par value. SABESP holds 30% of its equity interest.

The operations started in October, 2010.

### Aquapolo Ambiental S.A.

On October 8, 2009, the Company, together with the company Foz do Brasil S.A. incorporated the company Aquapolo Ambiental S.A., for the purpose of producing, providing and trading reused water for Quattor Química S.A., Quattor Petriquímica S.A., Quattor Participações S.A. and other companies comprising the Petrochemical Complex.

On March 31, 2012, the company's capital was R\$36,412, represented by 42,419,045 registered common shares without a par value. SABESP holds 49% of its equity interest.

Startup is scheduled for August, 2012.

#### Águas de Castilho

On October 29, 2010, the Company, together with the company Águas do Brasil – Cab Ambiental, incorporated the company Águas de Castilho, for the purpose of providing water supply and sewage services to the municipality of Castilho. The capital of Águas de Castilho totaled R\$ 622, and was represented by 622,160 registered shares without a par value. SABESP holds 30% of its equity interest.

The operations started in January, 2011.

#### Attend Ambiental

On August 23, 2010, the Company together with Companhia Estre Ambiental S.A, incorporated the company Attend Ambiental S.A, for constructing and operating a pretreatment of non-domestic effluent station, mud transportation and related services in the city of São Paulo as well as implement similar infrastructures in other areas in Brazil and abroad. The capital totaled R\$ 2,000, and it is represented by 2,000,000 registered common shares without a par value. SABESP holds 45% of its equity interest.

Attend is at a pre-operational phase and its startup is scheduled for December 2012.

Below, a summary of SABESP'S interest in the financial statements of these investees:

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Notes to the Financial Statements**

### **3. FINANCIAL RISK MANAGEMENT**

#### **3.1 Financial Risk Factors**

The Company's operations are affected by the Brazilian economic scenario, especially foreign exchange variations, inflation and interest rates, exposing it to market risk, such as exchange rate, interest rate, credit risk and liquidity risk. The Company's global risk management is focused on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not used derivative financial instruments, although may contract forward foreign exchange operations and financing in Reais to reduce the foreign exchange risk.

##### **(a) Market Risk**

#### **Foreign Exchange Risk**

SABESP's foreign exchange exposure implies market risks related to real currency fluctuations against the U.S. dollar and Yen. SABESP's liabilities denominated in foreign currency include loans denominated in U.S. dollars and Yen, mostly.

In case of Real depreciation against the foreign currency in which debt is denominated, SABESP will incur in monetary loss in relation to this debt.

SABESP's specific foreign exchange risks are related to exposures caused by its short and long-term foreign currency-denominated debt.

The management of SABESP's foreign exchange exposure considers several current and projected economic factors, besides market conditions.

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts to hedge against this risk, but conducts an active management of debt, taking advantage of opportunities to swap expensive debts with "cheaper" debts, reducing the cost through early maturity.

A significant amount of the Company's financial debt is indexed to the U.S. dollar and Yen, in the total amount of R\$2,891.8 million on March 31, 2012 (R\$3,053.4 million on December 31, 2011). The Company's exposure to foreign exchange risk is the following:

	3/31/2012		3/31/2011	
	Foreign currency	R\$	Foreign currency	R\$
Loans and financing – US\$	1,110,522	2,023,482	1,082,277	1,762,705
Loans and financing – Yen	38,465,554	850,473	40,489,000	793,989
Loans and financing interest and charges - US\$		30,750		30,511
Loans and financing interest and charges - Yen		2,057		577
Borrowing costs		(14,986)		(12,017)
<b>TOTAL</b>		<b>2,891,776</b>		<b>2,575,765</b>

On March 31, 2012, if Real had appreciated or depreciated by 10% compared to the U.S. dollar and the Yen with all other variables kept afloat, the effect on income after taxes and shareholders' equity for the period would have been approximately R\$191,846 (March 2011– R\$170,793), mainly as a result of foreign currency gains or losses with the conversion of foreign currency-denominated loans.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

Version :  
1

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

**Notes to the Financial Statements**

<b>Simulation of appreciation/depreciation of the Real by 10%</b>	<b><u>3/31/2012</u></b>	<b><u>3/31/2011</u></b>
Foreign currency-denominated loans and interest rates	2,906,762	2,587,782
U.S. Dollar/Yen variation	<u>10%</u>	<u>10%</u>
Appreciation or depreciation of the Real	290,676	258,778
Income Tax/Social Contribution Rate	<u>34%</u>	<u>34%</u>
Income tax /Social Contribution	<u>98.830</u>	<u>87.985</u>
Appreciation or depreciation of the Real, net of taxes.	<u>191.846</u>	<u>170.793</u>

**Interest rate risk**

This risk derives from the possibility that the Company may incur in losses due to interest rate fluctuations that increase financial expenses related to loans and financing.

The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, so that to evaluate the need of replacing its debts.

Below, the Company's loans and financing expressed in Reais subject to variable interest rate:

	<b>3/31/2012</b>	<b>12/31/2011</b>
UPR <sup>(i)</sup>	2,273,662	2,364,126
CDI <sup>(ii)</sup>	1,306,793	1,882,341
TJLP <sup>(iv)</sup>	885,243	886,138
IPCA <sup>(v)</sup>	675,106	187,697
Leasing	84,271	49,609
Total loans and financing in local currency	5,225,075	5,369,911

- (i) UPR - Reference Standard Unit
- (ii) CDI - Interbank Deposit Certificate
- (iii) IGP-M - General Market Price Index
- (iv) TJLP – Long-Term Interest Rate
- (v) IPCA – Extended Consumer Price Index

Another risk faced by the Company is the non-correlation between the monetary adjustment indexes of its debt and services revenues. Water supply and sewage treatment tariff adjustment do not necessarily follow the increases in loans and financing adjustment indexes and interest rates affecting the Company's debt.

On March 31, 2012, if Reais-denominated loans interest rates had changed around 1%, with all other variables kept afloat, the effect on income after taxes would have been approximately R\$34,485 (2011 – R\$36,589), mainly as a result of lower or higher interest expenses in variable rate loans.

(b) Credit risk

The credit risk results from cash equivalents, bank deposits and financial institutions, as well as credit exposure to customers, including outstanding accounts receivable. By force of law, the Company shall invest its cash surplus exclusively with Banco do Brasil (rating AA+(bra)). The credit risks are mitigated by sales to a widely and geographically spread customer base.

The maximum exposure to credit risk on the reporting date is the carrying amount of securities classified as cash equivalents, deposits at Banks and financial institutions, trade accounts receivable, balances with related parties and indemnities on the balance sheet date. Notes 5 to 9.

(c) Liquidity Risk

The Company's liquidity mainly relies on cash generated by operating activities, loans with financial institutions of the state and federal governments and financing in the local and international markets. The liquidity risk management considers the assessment of liquidity requirements to ensure that the Company has enough cash to meet its operating and capital expenditures.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

**Notes to the Financial Statements**

The cash surplus held by the Company is invested in interest-bearing current accounts, time deposits, short-term deposits and marketable securities, electing instruments with proper maturities or sufficient liquidity to provide enough margin as determined by aforementioned estimates.

The table below analyzes the Company's financial liabilities, by maturity dates, including the amounts of principal and interest rates to be paid in accordance with contractual clauses.

	<b>April to December 2012</b>	<b>2013</b>	<b>2014, 2015 and 2016</b>	<b>2017 onwards</b>	<b>Total</b>
On March 31, 2012					
Loans and financing	1,196,580	1,544,771	3,390,796	5,834,508	11,966,655
Contractors and suppliers	207,118	-	-	-	207,118
Services payable	307,110	-	-	-	307,110

	<b>2012</b>	<b>2013</b>	<b>2014, 2015 and 2016</b>	<b>2017 onwards</b>	<b>Total</b>
On December 31, 2011					
Loans and financing	2,115,837	1,689,526	3,008,577	5,162,889	11,976,829
Contractors and suppliers	255,557	-	-	-	255,557
Services payable	383,116	-	-	-	383,116

There are no collaterals provided by the Company to be disclosed.

(d) Sensitivity analysis

We present as follows a chart that shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial liabilities, calculated at a rate projected until the final settlement of each contract, converted into market value (Scenario I) with 25% appreciation (Scenario II) and 50% appreciation (Scenario III).

This sensitivity analysis has as objective to measure the impact of changes in market variables over said financial instruments of the Company, considering constant all other market indicators. These amounts, when settled, may differ from those evidenced above, due to estimates applied in its preparation process.

Banco do Brasil, CEF (i)	TR increase	1,791,540,579	2,078,687,983	2,446,410,526
Debentures (ii)	TJLP increase	335,810,995	376,284,303	409,245,280
Debentures (ii)	CDI increase	1,304,622,421	1,365,450,511	1,429,453,243
Debentures (ii)	IPCA increase	545,838,958	572,157,869	583,465,485
Debentures (ii)	TR increase	393,033,995	432,004,385	477,803,322
IDB, IBRD and Eurobonds (iii)	US\$ increase	2,140,428,893	2,452,328,866	2,764,228,839
JICA (iv)	Yen increase	975,699,694	1,219,624,618	1,463,549,541

(i) The contracts with Banco do Brasil and CEF were projected until final maturity, at contractual rates (Projected TR + spread) and discounted at present value by TR x DI, both rates were obtained from BM&F. For scenarios II and III, a deterioration of 25% and 50%, respectively, was considered in discount rates;

(ii) Debentures were projected until final maturity date (IPCA, DI, TJLP or TR) discounted at present value at forward market of interest rates, published by ANBIMA in the secondary market and March 31, 2012 as reference date and the Company's securities traded in the domestic market. For scenarios II and III we considered a deterioration of 25% and 50%, respectively, in discount rates. For debentures indexed to DI, a sensitivity analysis was conducted based on 25% and 50% increase of DI market's curve.

(iii) Contracts with IDB, IBRD were projected until final maturity in original currency, using the contractual interest rates, discounted at present value using forward Libor rate at Bloomberg. Eurobonds were priced at market value according to the quotes published by Bloomberg. All amounts obtained were converted into Reais at the exchange rate on March 31, 2012. For Scenarios II and III, we considered 25% and 50% increases, respectively, in exchange rates.

(iv) The contracts with JICA were projected until the final maturity in original currency, using the interest rates contracted and discounted at present value, using forward Tibor rate at Bloomberg. The amounts obtained were converted into Reais using the exchange rate on March 31, 2012. For Scenarios II and III were considered 25% and 50% increases, respectively, in exchange rates.

(e) Credit quality of the financial assets

The credit quality of the financial assets that are not past due or are subject to provision for impairment may be assessed by reference to the external credit ratings (if any) or to the historic information on default ratio of the counterparties. For the credit quality of the counterparties which are financial institutions, such as deposits and financial investments, the Company considers the lowest rating of the counterparty disclosed by the three main international credit rating agencies (Moody's, Fitch and S&P), pursuant to in-house policy for market risk management:

**3.2 Capital management**

The Company's objectives when managing its capital are to safeguard its capacity of continuing offering return to shareholders and benefits to the other stakeholders, in addition to maintaining an ideal capital structure to reduce this cost.

The Company monitors capital based on financial leverage ratios. This ratio corresponds to the net debt divided by total capital. The net debt, in turn, corresponds to total loans and financing less cash and cash equivalents. Total capital is calculated through the sum of shareholders' equity, as evidenced in parent company's balance sheet, with net debt.

	<b>PARENT COMPANY</b>	
	<b>3/31/2012</b>	<b>12/31/2011</b>
Total loans and financing	8,116,851	8,423,332

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## Notes to the Financial Statements

### CONSOLIDATED

	3/31/2012	12/31/2011
Total loans and financing	8,295,285	8,596,295
Less: cash and cash equivalents	(2,019,264)	(2,149,989)
Net debt	6,276,021	6,446,306
Total equity capital	11,037,809	10,545,896
Total Capital	17,313,830	16,992,202
Leverage Ratio	36%	37%

On March 31, 2012, the leverage ratio of the Company was reduced to 36.0%, as compared to 37.0% on December 31, 2011, due to the increase in equity capital deriving from income verified in the quarter.

### 3.3 Fair value estimate

We presuppose that balances of trade accounts receivable and accounts payable to suppliers by carrying amount, less impairment, approximate their fair values.

The fair value was measured in accordance with the following hierarchy of fair value measurement:

- Quoted prices (not adjusted) in active markets for identical assets and liabilities (level 1).

- Information, in addition to prices quoted included in level 1, which are adopted by the market for assets or liabilities, whether directly, such as prices, or indirectly, derived from prices (level 2).
- Inserts for asset or liability that are not based on data adopted by the market, i.e. non observable inserts (level 3).

The single financial instrument measured at fair value by the Company is represented by short-term investments in bank deposit certificates (CDB), classified as cash equivalents, in the amounts of R\$1,956,664 and R\$2,027,785 on March 31, 2012 and December 31, 2011 (parent company) and R\$1,964,356 and R\$2,031,122 on March 31, 2012 and December 31, 2011 (consolidated), respectively. These investments are financial assets measured at fair value through profit or loss, measured in accordance with level 2.

### 3.4 Financial instruments

The Company operates with several financial instruments, pointing out cash and cash equivalents, including financial investments, and loans and financing as described below.

Estimated fair values of financial instruments are the following:

Contractors and suppliers	207,118	207,118	255,557	255,557

To obtain fair value of loans and financing, the following criteria have been adopted:

- (i) The contracts with Banco do Brasil and CEF (Federal Savings Bank) were projected until final maturity at contractual rates (TR projected + spread) and discounted at present value by  $TR \times DI$ , both rates were obtained from BM&F.
- (ii) Debentures were projected until final maturity date (IPCA, DI, TJLP or TR) discounted at present value at forward market of interest rates published by ANBIMA in the secondary market and March 31, 2012 as reference date and the Company's securities traded in the domestic market.
- (iii) Financing – BNDES are instruments considered by face value adjusted until maturity date, which are indexed by TJLP, which is a specific mode not compared to any other market rate. Therefore, the Company has elected to report as market value the amount recorded on March 31, 2012.
- (iv) Other financing in domestic currency is considered by face value adjusted until maturity date, discounted at present value using the forward market of interest rates. Forward rates were obtained at BM&F Bovespa website.
- (v) The contracts with IDB, IBRD were projected until final maturity in original currency, using contractual interest rates and discounted at present value applying forward Libor rate at Bloomberg. Eurobonds contracts were priced by market quote published by Bloomberg. All the amounts obtained were converted into Reais at the exchange rate of March 31, 2012.
- (vi) The contracts with JICA were projected until final maturity in original currency, using contractual interest rates and discounted at present value, applying forward Tibor rate at Bloomberg. The amounts obtained were converted into Reais at the exchange rate of March 31, 2012.
- (vii) Leasing is an instrument considered by its face value updated until maturity date and indexed by a contractual fixed rate, which is a specific mode not be compared to any other market rate. Therefore, the Company reports as market value the amount recorded on March 31, 2012.

1ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO**Notes to the Financial Statements****4. MAIN ACCOUNTING JUDGMENTS AND ESTIMATES**

The estimates and judgments are continuously evaluated based on the historical experience and other factors, including the expectations of future events believed to be reasonable under the circumstances. There was no change in relation to the Annual Financial Statements on December 31, 2011, according to Note 5.

**5. CASH & CASH EQUIVALENTS**

	<b>PARENT COMPANY</b>		<b>CONSOLIDATED</b>	
	<b><u>3/31/2012</u></b>	<b><u>12/31/2011</u></b>	<b><u>3/31/2012</u></b>	<b><u>12/31/2011</u></b>
Cash and Banks	54,708	114,794	54,908	118,867
Cash Equivalents	<u>1,956,664</u>	<u>2,027,285</u>	<u>1,964,356</u>	<u>2,031,122</u>
	2,011,372	2,142,079	2,019,264	2,149,989

The variation in the period from January to March 2012 derives from operating cash flow of the Company's activities.

In March, the average yield of financial investments corresponds to 100.19% of CDI.

**6. RESTRICTED CASH**

On March 31, 2012, the Company recorded restricted cash, in current assets, in the amount of R\$84,998, of which R\$5,003 refer to BNDES collateral and R\$79,531 refer to the collection deriving from services rendered to parties related to the municipal government of São Paulo, net of taxes. These funds should be reinvested in the water and sewage systems of the City of São Paulo.

The variation occurred in the period from January to March 2012, when compared to the Financial Statements of December 31, 2011, mainly refers to the decrease in the balance of the São Paulo Municipal Government's account.

Current	1,107,220	1,072,015
Non-current (v)	322,850	333,713

In the period between January to March 2012, there was no relevant changes in the operations presented in the financial statements of December 31, 2011.

The consolidated balance totals the amount of R\$1,430,751 (December 2011 – R\$1,406,372), and the difference of R\$681 (December 2011 – R\$644) in relation to the balance of the parent company, referring to accounts receivable from investees, Aguas de Andradina, R\$358, Saneaqua Mairinque, R\$175, and Aguas de Castilho R\$148.

- (i) General customers - residential and small and medium-sized companies.
  
- (ii) Special customers - large consumers, commercial, industries, condominium and special billing consumers (industrial waste, wells, etc.).
  
- (iii) Agreements - installment payments of past-due receivables, plus monetary adjustment and interest.
  
- (iv) Wholesale - municipal governments - The balance of trade accounts receivable at wholesale refers to the sale of treated water to the municipalities which are liable for distribution, billing and collection with end consumers. Few municipalities contest at court the tariffs charged by SABESP and do not pay the amounts under litigation. The past due amounts that are substantially included in the allowance for doubtful accounts are classified under non-current assets.

------------------	--------	--------

In the period between January to March 2012, there were no relevant changes in relation to the operations reported in the financial statements of December 31, 2011.

(i) Water and sewage services

The Company provides water supply and sewage collection services to the State Government and other Companies related thereto, under terms and conditions considered by Management as usual in the market, except as to the form of settlement of the credits that may occur under the conditions mentioned in items (iii), (iv) and (v).

(ii) Reimbursement of supplementary retirement and pension benefits paid

It refers to additional amounts of retirement and pension plan benefits provided for in the State of São Paulo's Law 4819/58 ("Benefits") paid by the Company to former employees or retirees.

Pursuant to the Agreement referred to in (iii), GESP recognizes to be liable for the charges deriving from Benefits, provided that payment criteria are observed, established by the Personnel Expense State Department – DDPE, based on legal guidance provided by Legal Consulting of the Treasury Department and the State Attorney General's Office – PGE.

As explained in item (vi) during the validation by Gesp of the amounts due to the Company due to Benefits, discrepancies were raised as to the calculation criteria and eligibility of Benefits applied by the Company.

On March 31, 2012 and December 31, 2011, 2,469 and 2,492 retirees, respectively, received additional retirement, and in the periods ended March 31, 2012 and December 31, 2011, the Company paid R\$28,556 and R\$124,421, respectively. There were 12 active employees on March 31, 2012, who will be eligible to these benefits upon retirement, as compared to 14 on December 31, 2011.

ISSUED IN PORTUGUESE)

Version :  
1

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## Notes to the Financial Statements

In January 2004, supplementary retirement and pension payments were transferred to the Treasury Department and would be made according to calculation criteria defined by PGE. Due to court decision, the responsibility for the payments returned to SABESP as originally established.

### (iii) Gesp Agreement

On December 11, 2001, the Company, GESP (through the State Department of Treasury Affairs, currently the Treasury Department) and the Department of Water and Electric Power – DAEE, and the Department of Water Resources, Sanitation and Works, currently, Department of Sanitation and Water Resources, as intervening party, entered into the Instrument of Recognition and Consolidation of Obligations, Payment Commitment and Other Covenants (“GESP Agreement”) aiming at solving pending issues between GESP and the Company related to water and sewage services as to Benefits.

In view of the strategic relevance of the reservoirs in Taiacupeba, Jundiai, Biritiba, Paraitinga and Ponte Nova (“Reservoirs”), to guarantee the maintenance of water volume of Alto Tiete, the Company agreed to receive them as part of the reimbursement referring to the Benefits. The Reservoirs to be transferred to the Company by DAEE, which in turn would subrogate under credit the same amount with GESP. However, the Public Prosecution Office of the State of São Paulo contested the legal validity of this agreement, whose main argument is the lack of specific legislative authorization for the disposal of DAEE’s assets. The Company’s legal counsels assess the risk of losses as probable, if it does not obtain said legislative authorization, which would prevent the transfer of respective reservoirs as partial amortization of balance receivable.

### (iv) First Amendment to the Gesp Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original Gesp Agreement, (1) consolidating and recognizing the amounts due by the State Government for water supply

and sewage collection services rendered, monetarily adjusted until February 2004; (2) formally authorizing the offset of amounts due by the State Government with interest on equity declared by the Company and any other debit with the State Government as of December 31, 2003, monetarily adjusted until February 2004; and (3) defining the payment conditions of remaining liabilities of the State Government for the water supply and sewage collection services rendered.

(v) Second Amendment to the Gesp Agreement

On December 28, 2007, the Company and the State of São Paulo through the Treasury Department signed the second amendment to the original GESP agreement agreeing with the installment payment of remaining balance of the First Amendment, amounting R\$133,709 on November 30, 2007 to be paid in 60 monthly and consecutive installments, beginning on January 2, 2008. The amount of installments is monetarily adjusted according to the IPCA-IBGE variation, plus monthly interest of 0.5%.

The State Government and SABESP agreed to immediately resume the compliance with their mutual obligations under new assumptions: (a) implementation of an electronic account management system to facilitate and speed up the monitoring of payment processes and budget management procedures; (b) structuring of the Water Rational Use Program (PURA) to rationalize the consumption of water, water and sewage bills under the responsibility of the State Government; (c) establishment, by the State Government of budget criteria so as to avoid the reallocation of amounts to a specific water and sewage account as of 2008; (d) possibility of registering state authorities and entities in a delinquency system or reference file; (e) possibility of interrupting water supply to state authorities and entities in the event of failure to pay water and sewage bills.

(vi) Third Amendment to the Gesp Agreement

On November 17, 2008, Gesp, Sabesp and DAEE, entered into the Third Amendment to the GESP Agreement, and acknowledged to owe to Sabesp the amount of R\$915,251, monetarily adjusted until September, 2008 by IPCA-IBGE, corresponding to the Undisputed Amount, calculated by FIPECAFI (Institute Foundation of Accounting, Actuarial and Financial Researches). SABESP temporarily accepted the Reservoirs (see item (iii) above) as part of the payment of the Undisputed Amount and offered to temporary settlement to GESP, establishing a financial credit of R\$696,283, corresponding to the value of the Reservoirs at Alto Tietê System. The Company did not recognize the amount receivable of R\$696,283 related to the reservoirs, as their transfer by the State Government is uncertain. The final settlement will only occur with the effective transfer of ownership at the appropriate real estate registry office. The remaining balance of R\$218,967 has been paid in 114 monthly and consecutive installments, in the amount of R\$1,920 each, annually adjusted by the IPCA/FIPE, plus monthly interest rate of 0.5%, the first installment due on November 25, 2008.

SABESP and the State Government of São Paulo are working together in order to obtain the legislative authorization so that to make feasible the transfer of Reservoirs to SABESP, thus, overcoming the legal uncertainty caused by the Public Civil action that contents the lack of specific legislation for the transfer of reservoirs ownership.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Notes to the Financial Statements**

The Third Amendment also provides for the regularization of the monthly flow of benefits. While SABESP is responsible for the monthly payments, the State Government shall reimburse the Company based on criteria identical to those applied in the calculation of the Undisputed Amount. With no preventive court decision, the State Government will directly bear the monthly payment flow of the amount considered undisputed.

### (vii) Controversial Amount of Benefits

As mentioned before, on November 17, 2008, the Company and the State Government signed the Third Amendment to the GESP Agreement, when controversial and undisputed amounts were quantified. Efforts were endeavored to settle the referred Controversial Amount of Benefits. According to the clause four of this instrument, the Controversial Amount is represented by the difference between the Undisputed Amount and the amount effectively paid by the Company as supplementary retirement and pension benefits provided for by Law 4819/58, of original responsibility of the State Government but paid by SABESP by court decision.

The Third Amendment provides that PGE will re-analyze discrepancies that gave rise to the controversial amount of benefits provided for by Law 4819/58. At that time, this expectation was based on the PGE's intention to re-analyze the matter and also in the Company's right to reimbursement, inclusively based on external technical legal opinions.

However, new opinions issued by PGE and received on September 4 and 22, 2009 and January 4, 2010, denied the reimbursement of the amount previously defined as controversial amount.

Although negotiations with the State Government are still being maintained, it is no longer possible to ensure that the Company will recover, on a fully amicable basis, the credits related to the Controversial Amount.

Even though the negotiations with the State are still being maintained, it is no longer possible to ensure that the Company will recover, in a totally amicable way, the credits related to the Controversial Amount without dispute.

As part of the actions intended to recover the credit the Management understands as due by the State Government related to the discrepancies about the reimbursement of supplementary retirement and pension benefits paid by the Company, SABESP: (i) addressed, on March 24, 2010, a message to the Controlling Shareholder, forwarding an official letter released by the Joint Committee, proposing arbitration action by common agreement to be sent to the Arbitration Panel of Bovespa (São Paulo Stock Exchange); (ii) in June, 2010, a settlement proposal aiming at solving these pending issues has been sent to the Treasury Department. This proposal was not successful; (iii) on November 9, 2010, a lawsuit was filed against the State Government of São Paulo pleading the full reimbursement of amounts paid as benefits provided by for by State Law 4819/58 which will allow to definitively settle referred controversial amount between the Company and GESP. Despite the lawsuit, the Company will insist to reach an agreement during the progress of the lawsuit, understanding that a reasonable agreement is better to the company and its shareholders than awaiting the conclusion of the lawsuit.

The Company's Management opted for not recognizing these amounts, due to the uncertainty involving the reimbursement by the State Government. On March 31, 2012 and December 31, 2011, the amounts not recorded under assets referring to the supplementary retirement and pension benefits paid totaled R\$1,303,608 and R\$1,290,663, respectively, including the amount of R\$696,283 referring to the transfer of reservoirs at Alto Tietê system. The Company also recognized the actuarial liability referring to the supplementary retirement and pension maintained with employees and pensioners of Plan G0. On March 31, 2012 and December 31, 2011, the amounts corresponding to this actuarial liability totaled R\$1,525,536 and R\$1,512,078, respectively. For more information on the supplementary retirement and pension liabilities, see Note 17.

(b) Agreement for the use of reservoirs

In its operations, the Company uses the Guarapiranga and Billings reservoirs owned by another company controlled by the State Government. Should these reservoirs have not been available for use by the Company, then maybe water had to be caught in distant locations. The Company does not pay any fee for the use of these reservoirs, but it is liable for their maintenance and operating costs.

(c) Agreements with reduced tariffs for State and Municipal Government Entities that adhered to the Water Ration Use Program (PURA).

The Company has contracts signed with government authorities related to the State Government and municipalities operated, which are benefited with a 25% reduction in the tariff of water supply and sewage collection services, when on performance. The contracts provide for the implementation of water rational use program, which considers the reduction in water consumption.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## Notes to the Financial Statements

### (d) Collaterals

The State Government grants collaterals for few loans and financing of the Company and does not charge any fee related thereto.

### (e) Agreement for the assignment of personnel among GESP's related entities

The Company has agreements for the assignment of employees with entities related to the State Government of São Paulo, where expenses are fully transferred and monetarily reimbursed. On March 31, 2012, the expenditures with employees assigned by SABESP to other state entities amounted to R\$2,750 (March 2011 – R\$1,596).

### (f) Services contracted from GESP's related entities.

On March 31, 2012 and December 31, 2011, SABESP had an outstanding amount of R\$20,681 and R\$12,062, respectively, payable referring to services rendered by entities related to the State Government of São Paulo. Among them, we highlight electricity supply services rendered by the Companhia Energética de São Paulo – CESP, accounting for 93% of the amount on March 31, 2012.

### (g) Non-operating Assets

The Company had, on March 31, 2012 the amount of R\$21,531 (on December 31, 2011 - R\$21,531), mainly related to land assigned in loan for use to Associations, Assistance Entities, Non-Governmental Organizations and to the DAEE – Department of Water and Electricity, among others. The land assigned to DAEE amounted to R\$969.

(h) SABESPREV

The Company sponsors the defined benefit plan operated and managed by Fundação Sabesp de Seguridade Social - SABESPREV. The net actuarial liability recognized up to March 31, 2012, is R\$548,021 (December 2011 - R\$538,619).

(i) Management Fees

Compensation:

The Management's compensation policy is established according to the guidelines of the State Government of São Paulo, CODEC (State Council of Capital Defense), and is based on performance, market competitiveness or other indicators related to the Company's business and is subject to the shareholders' approval at the Annual Shareholders' Meeting.

Executives' compensation is restricted to the State Governor's compensation. The compensation of the Board of Directors corresponds to 30% of the compensation of the Officers, subject to the minimum attendance to one monthly meeting.

The objective of the compensation policy is to establish a private management model, aiming at retaining its headcount and recruit skilled professionals, with experience and motivation, considering the efficiency level currently required by the Company.

In addition to the monthly compensation, the members of the Board of Directors and the Joint Committee receive:

Bonuses:

For the purposes of compensation for companies' Management in which the State Government is the controlling shareholder, as an incentive policy, provided that the company effectively records quarterly, semi-annual and annual profit and distribute mandatory dividends to shareholders, even if as interest on equity. Annual bonus cannot exceed six times the monthly compensation of management, nor 10% of interest on equity paid by the company, whichever is the lowest amount.

Annual bonus:

It corresponds a monthly fee, calculated on a *pro-rata temporis*, in December of each year.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## Notes to the Financial Statements

The purpose of this bonus is to establish a similarity with the Christmas bonus of the labor system of the Company's employees, once the Management's relationship with the Company is governed by its Bylaws.

Benefits only paid to the Statutory Officers – meal ticket, food staple, health care plan, paid annual rest through 30-day paid leave and payment of a bonus corresponding to one third of monthly fees.

Expenses related to the compensation of members of the Board of Directors and Board of Executive Officers was R\$862 and R\$591 for the periods ended March 31, 2012 and 2011, respectively, and refers to short-term benefits. An additional amount of R\$274 referring to the bonus program was recorded in the period between January and March 2012 (March 2011 - R\$198).

(j) Loan agreement through credit facility

The Company holds interest in certain Special Purpose Entities (SPE), without majority interest but with cast vote and power of veto in certain issues. Therefore, these SPEs are considered for accounting purposes as jointly-owned subsidiaries, and are proportionally consolidated pursuant to CPC 19.

These SPEs were created to execute specific projects and will be liquidated after their completion.

In certain SPEs, the capital contributed by shareholders is not sufficient to manage their operations, therefore, SPEs need providers of capital, which mostly is not rapidly obtained, as it undergoes bureaucracy and slowdown from financial institutions.

While SPEs do not raise loans with banks, its shareholders conduct loan operation so that SPEs continue their operations, until loan is released and loan is settled with shareholders.

On January 19, 2012, the Company entered into a loan agreement through credit facility with Águas de Andradina S.A. and Águas de Castilho S.A., with the following characteristics:

<b>SPE</b>	<b>Credit limit</b>	<b>Disbursed amount</b>	<b>Amount receivable on 3/31/2012</b>	<b>Interest rate</b>	<b>Maturity</b>
Águas de Andradina	1,050	936	948	CDI + 1.16 % p.m.	7/17/2012
Águas de Castilho	480	279	283	CDI + 1.16% p.m.	7/17/2012

On March 31, 2012, the Company's financial result was affected by R\$16,000, referring to interest on loans granted to investees.

## 9. INDEMNIFICATIONS RECEIVABLE

Indemnifications receivable is a non-current asset representing amounts receivable from the municipality of Diadema as indemnification for the one-sided withdrawal of Company's water and sewage services concession in 1995. On March 31, 2012 and December 31, 2011, this asset amounted to R\$60,295. On December 31, 2010, the balance of indemnification receivable was R\$146,213, representing the municipalities of Diadema and Mauá in the amounts of R\$60,295 and R\$85,918, respectively.

The Company invested in the construction of water and sewage systems in the municipalities of Diadema and Mauá to meet its concession service commitments. For the one-sided termination of concessions in Diadema and Maua, the municipalities took over the responsibility of providing water and sewage services in those areas. At that moment, the Company reclassified the fixed asset balances related to the assets used in those municipalities to non-current assets (Indemnifications receivable).

The residual amount of items of the fixed assets related to the municipality of Diadema, reclassified in December, 1996 was R\$75,231 and the balance of indemnifications receivable from the municipality is R\$60,295 on March 31, 2012.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Notes to the Financial Statements**

SABESP filed lawsuits to collect amounts due by the municipalities. Regarding Diadema, a settlement was proposed between Diadema municipal government and Companhia de Saneamento de Diadema – Saned for the payment of indemnification, and a motion to stay execution was filed by Diadema municipal government. In July 2008, pledge of money was authorized in Saned's bank accounts and financial investments (online pledge) up to 10% of the debt's adjusted amount, and the amount of R\$2,919 was blocked and withdrawn on March 3, 2009. Subsequently, the Court of Justice resolved that the pledge should be made upon weekly deposits by Saned of the amount corresponding to 20% of everything receives in its accounts and financial investments. Saned filed appeals against this decision, and currently interlocutory appeal filed at the Federal Supreme Court is pending judgment.

In the motion to stay execution filed by the municipality of Diadema, court decision was rendered in October, 2009, recognizing the existence and enforceability of the debt and affirming that the execution against the Municipality should be made through certificate of judgment debt of the government. SABESP and the municipal government appealed against this decision. SABESP obtained favorable decision in September, 2011 from the Special Department of the Court of Justice, affirming to be constitutional the municipal law that allowed blocking the transfers of ICMS made by the State Government to the municipality (instead of payment only through certificate of judgment debt of the government).

On December 29, 2008, Saned and the municipality of Diadema jointly with the São Paulo State Government entered into a Memorandum of Intent aiming at preparing studies and conducting negotiations to instruct decisions of Diadema and SABESP, aiming at the exclusive rendering of water and sewage services in the municipality of Diadema.

The parties agree that the pursuit of a negotiated solution for the conflicts currently existing between the companies is indispensable so that water supply, sewage collection and treatment public utility have their proper development in the city of Diadema.

In January, 2009, the parties filed joint motion pleading the suspension of new pledges, for a three-month period, in order to make feasible a settlement. The suspension was accepted by the Court of Public

Treasury and successively renewed, the last renewal occurred in March 2012, in view of negotiations of the agreement.

A public civil action filed by the Public Prosecution Office of the State of São Paulo against the agreement based on the execution filed against the municipality of Diadema and Saned is pending judgment and since 2004 has been waiting for engineering and accounting expert examination. After negotiations initiated with the municipality of Diadema, the Public Prosecution Office pleaded the dismissal of the public civil action.

Regarding Maua, a lower court decision was rendered determining that the Municipality pays the amount of R\$153.2 million as compensation for the investments made in the municipality by SABESP and for loss of profits. This award was confirmed by the Federal Supreme Court, in final and unappealable decision and SABESP has taking measures to start execution.

The residual amount of fixed assets items related to the municipality of Maua, reclassified in December, 1999 was R\$103,763 and the balance of indemnifications receivable from the municipality was R\$85,918 on December 31,2010. Court decisions have been favorable to the Company and the receipt of amounts due by municipality shall occur as certificate of judgment debt of the government, which will be recognized upon effective receipt, in view of uncertainties related to the settlement of amounts involved and the track record related to prioritizing payments of certificate of judgment debt of the government in the municipality of Mauá. In December 2011, an accounting provision was recorded corresponding to the total amount of credit held by the Company and litigation still in progress.

Based on the opinion of the legal counsel, Management continues affirming that the Company has legal right to receive the amounts corresponding to the indemnification and continues monitoring the status of legal proceedings.

#### **Intangibles arising from concession contracts**

The Company operates concession contracts including the rendering of basic and environmental sanitation, water supply and sewage collection services. These concession contracts establish rights and duties concerning the assets related to the rendering of public utilities (see Note 3.8 (a) of December 31, 2011). Contracts provide for assets that will reverse to the granting authority at the end of the concession period.

ISSUED IN PORTUGUESE)

Version :  
1

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

### **Notes to the Financial Statements**

On March 31, 2012, the Company operated in 363 municipalities in the State of São Paulo. In the most of these municipalities, the concession period is 30 years.

Services fee occurs in the form of tariff, regulated by the Regulatory Agency of Sanitation and Energy of the State of São Paulo (ARSESP).

Intangibles resulting from concession contracts include:

- (i) Concession contracts – equity value

Concession contracts provide for the assets that will reverse to the granting authority at the end of the contract, for the residual value or market value in accordance with the terms of each contract. The amortization is calculated according to the straight-line method, which considers the useful life of assets.

- (ii) Concession contracts - economic value

In the period between 1999 and 2006, negotiations related to new concessions were conducted considering the economic and financial result of the operation, determined in a valuation report issued by independent experts.

The amount determined in the respective contract, after deal is closed with the municipal authorities, by means of subscription of the Company shares or in cash, is recorded in this item and is amortized by the respective concession period (usually 30 years). On March 31, 2012 there were no pending amounts related to these payments to the municipalities.

The amortization of intangible assets occurs during the effectiveness of contracts or by the useful life of concession underlying assets (whichever is shortest) by the straight-line method.

(iii) Program Contracts

It refers to the renewal of contracts previously referred to as concession contracts whose objective is water supply, sewage and sanitation services. Assets acquired or built are amortized during the contractual term (30 years) or during the useful life of underlying assets, whichever is shortest.

(iv) Program contracts - Commitments

After the enactment of the regulatory framework in 2007, renewals of concessions started to be made through of program contracts. In some of these program contracts, the Company undertook the commitment to financially participate in social and environmental actions. The assets built and financial commitments assumed within the program contracts are recorded as intangible assets and are amortized by the straight-line method in accordance with the duration of the program contract (mostly, 30 years) or by the useful life of the assets, whichever is shortest.

On March 31, 2012, amortization expenses related to the commitments of the program contracts were R\$3,966 (March 2011 – R\$2,807).

The amounts not disbursed yet are recorded under “Other Liabilities” in current liabilities (R\$54,585 and R\$62,287 on March 31, 2012 and December 31, 2011, respectively) and non- current liabilities (R\$130,291 and R\$130,978 on March 31, 2012 and December 31, 2011, respectively).

(v) Services agreements – São Paulo

On November 14, 2007, the Company and the São Paulo Municipal Government (Parties) entered into an agreement to establish conditions to ensure stability in the rendering of basic and environmental sanitation public utilities in the municipality of São Paulo, whose main issues are:

(a) the Parties undertook the commitment of defining basic and environmental sanitation actions, complementing those of the São Paulo Municipality, investing in the implementation and continuity of programs, such as: the Clean Stream Program and the Water Rational Use Program - PURA, whose main purpose is to ensure the reduction in water consumption in public units, assuring water supply and life quality of population;

(b) as of November 14, 2007, execution date of the agreement, the total amount paid by the São Paulo Municipality to SABESP, referring to direct Management bodies, independent governmental agencies and foundations, less taxes, shall be destined to basic and environmental sanitation actions in the municipality; and

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Notes to the Financial Statements**

(c) the municipality undertakes the commitment of resuming the payment of current bills and consumption bills issued by SABESP, as of November 14, 2007, execution date of this agreement.

The agreement remains effective, but collection mentioned in item (b) is no longer allocated to a specific account for the allocation of basic and environmental sanitation actions in the municipality. The outstanding balance for the amounts collected but not allocated yet was R\$79,531 on March 31, 2012 (December 2011 - R\$90,984).

On June 23, 2010, the Company entered into an agreement with the State Government and the Municipality of São Paulo for the rendering of water supply and sewage public utilities in the municipality of São Paulo for a 30-year period, renewable for another 30 years.

On June 23, 2010, the State Government signed an agreement with municipal government of São Paulo and the Company, as well as an agreement between the State Government and Municipal Government, and SABESP and the Regulatory Agency of Sanitation and Energy of the State of São Paulo (“ARSESP”) as intervening and consenting parties, whose main aspects are the following:

1. The State and the Municipal Government assign to SABESP the right to explore the rendering of sanitation services in the capital city of São Paulo, which includes the obligation of providing services and the right to fees through tariff revenues;

2. The State and the Municipal Government define ARSESP as liable for the regulation duties, including tariffs, control and monitoring of services;

3. The valuation model used was the discounted cash flow, which considered the economic and financial sustainability of SABESP operation in the metropolitan region of São Paulo;
  
4. Cash flows consider all operating costs, taxes, investments and remuneration of opportunity cost of investors and creditors of SABESP;
  
5. The agreement provides for investments corresponding to 13% of gross revenue obtained by services rendered in the municipality of São Paulo, net of Cofins e Pasep. Investment plans, referring to execution of Sabesp shall be compatible with activities and programs foreseen in state, municipal sanitation plans and where applicable, metropolitan. The Investment Plan is not definitive and will be revised by Managing Committee every four years, especially as to investments to be made in subsequent period;
  
6. The transfer to the Municipal Fund of Environmental Sanitation and Infrastructure to be applied in sanitation-related actions of capital city establishes a charge to be recovered in tariff, according to contractual provision. This amount corresponds to seven and half percent (7.5%) of gross revenues obtained from services rendered in the municipality of São Paulo, net of Cofins and Pasep and delinquency in the period;
  
7. The opportunity cost of investors and creditors of SABESP was established by WACC methodology (weighted average cost of capital). This cost was applied as discount rate of cash flows; and
  
8. The agreement provides for the remuneration of operating net assets, preferably calculated through equity valuation or through monetarily restated carrying amount to be defined by ARSESP. In addition, the contract also provides for the remuneration of investments to be made by SABESP, so that there is no residual value at the expiration of the agreement.

The agreement with the municipality of São Paulo, which approximately accounts for 53.5% of the Company's total revenues, ensures legal and equity safety to SABESP, proper return to shareholders and rendering of quality services to its customers.

The Municipal Government of São Paulo and the Company did not reach an agreement to solve pending financial issues until the execution date of the agreement, related to the rendering of water supply and sewage collection services to households of the municipality, reason that the Company filed suit against these bills, which are accrued for losses.

(vi) New Businesses

In August 2009, the Company entered into an agreement with CASAL - Companhia de Saneamento de Alagoas, to render specialized technical services in order to implement the program to reduce losses and revenue evasion in the municipality of Maceió, for a 60-month period. Services started to be rendered in 2010.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

### **Notes to the Financial Statements**

On March 31, 2012, the amount recorded under “New businesses” was R\$15,732 (December 2011 - R\$16,477) where the amount recorded for CASAL was R\$14,395 on March 31, 2012 (December 2011 - R\$15,664).

(a) Write-off of underlying assets of intangibles

On March 31, 2012, the Company wrote-off underlying assets of intangibles in the amount of R\$905 (March 2011 - R\$622) due to obsolescence, theft, disposal and works shut down, unproductive wells and projects economically unfeasible.

(b) Capitalized interests and other financial charges

On March 31, 2012, the Company capitalized interests and monetary variation, including exchange variation in the concession intangible assets in the amount of R\$60,929 (March 2011 – R\$64,986) during the period in which assets were reported as work in progress.

(c) Construction margin

The Company is the primary responsible for the construction and installation of infrastructure related to concession, whether with its own efforts or through outsourced services, and it is significantly exposed to related risks and benefits.

Therefore, the Company recognizes the construction revenue, corresponding to additional construction costs of gross margin. Generally, concession-related constructions are outsourced by the Company. In this case, the Company's implicit margin is usually lower to cover administration costs, as well as the

assumption of primary risk. In 2012, the margin calculated was 2.3% (2.3% in 2011).

The amount of the construction margin for March 31, 2012 and March 31, 2011 was R\$12,030 and R\$10,759, respectively.

(d) Expropriations

Due to the execution of priority works related to the water and sewage systems, the expropriation or establishment of right-of-way in third party properties was necessary, whose owners will be refunded on amicable or on a court basis.

Assets, which are subject-matter of these expropriations shall be registered in concession intangible assets once operation is completed. On March 31, 2012, the total amount referring to expropriations was R\$1,646 (March 2011 - R\$6,699).

(e) Assets pledged as collateral

On March 31, 2012 and December 31, 2011, the Company held assets pledged as collateral in the amount of R\$249,034 for the Special Tax Installment Payment – Paes (Note 13).

(f) Public-Private Partnership - PPP

SABESP and CAB-Sistema Produtor Alto Tietê S/A, special purpose entity composed of Galvão Engenharia S.A. and Companhia Águas do Brasil – CAB Ambiental, signed in June 2008 the Public-Private Partnership agreements of the Alto Tietê Producer System.

The services agreement has a 15-year term, aiming at expanding the capacity of the Taiacupeba Water Treatment Station, from 10 to 15,000 liters per second, whose operations started in October 2011.

On March 31, 2012 and December 31, 2011, the carrying amount recorded in the Company's intangible assets, related to PPP, is R\$486,431 and R\$474,818, respectively.

(g) Impairment

No provision for impairment was recorded on March 31, 2012 and December 31, 2011.

(h) Works in progress

Works in progress are recorded under intangible assets in the amount of R\$5,695 million on March 31, 2012 (December 31, 2011 - R\$5,652 million).

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

## Notes to the Financial Statements

(i) 15<sup>th</sup> Issue of Debentures:

On February 15, 2012, the Company issued the 15<sup>th</sup> issue of Non-Convertible Unsecured Debentures, in Two Series, for Public Offering with Restricted Placement Efforts, pursuant to CVM Rule 476, with the following characteristics:

Date of Issue: 2/15/2012

Total Amount: R\$771,080, amount 77,108, in two series, unit value R\$10.

	<b>Number</b>	<b>Restatement</b>	<b>Interest Rate</b>	<b>Interest Payment</b>	<b>Amortization</b>	<b>Maturity</b>
1 <sup>st</sup> Series	287,330	-	DI + 0.99% p.a.	Half-yearly (February and August)	Annual (as of February, 2015)	February
2 <sup>nd</sup> Series	483,750	IPCA	6.20% p.a.	Annual (February)	Annual (as of February 2018)	February

Early redemption: as of the 24<sup>th</sup> month

Early redemption: none

The proceeds resulting from the funding of the 15<sup>th</sup> issue of Debentures will be allocated to the settlement of financial commitments falling due up to December 31, 2012.

(ii) Redemption of the 13<sup>th</sup> issue of Debentures

On February 17, 2012, the Company redeemed the total amount of the 13<sup>th</sup> Issue of Debentures in the amount of R\$633,343.

(iii) Variation in the period between January and March, 2012

The increase in the balance was mainly due to the drop of the U.S. dollar.

(iv) Payment schedule of loans and financing

The total volume of debt to be paid until the end of 2012 for the parent company is R\$807,394, R\$160,576 is the amount indexed to the U.S. dollar and R\$646,818 is the falling due amount of interest rates and principal of loans denominated in Reais.

## (v) Financial Commitments – “Covenants”

Some loans and financing contracts have clauses related to the compliance with certain financial ratios which are calculated quarterly.

**Debentures 11<sup>th</sup> and 12<sup>th</sup> Issue:**

- a) Adjusted current ratio (current assets divided by current liabilities, excluded from current liabilities and the amount recorded in current debts from non-current contracted by the Company) higher than 1.0; and
- b) Ebitda/Financial expenses equal to or higher than, 1.5.

The failure to comply with clauses of covenants will result in the early maturity of the contract. The failure to comply with these obligations will only be characterized when this is verified in its quarterly financial information, for at least two consecutive quarters, or even for two non- consecutive quarters within a twelve-month period.

In the failure to comply with covenants, the fiduciary agent shall convene, within 48 hours as of the date it became aware of the occurrence, a debenture holders' general meeting in order to resolve on the declaration of early maturity of debentures.

**Debentures 10th and 14th Issue:**

- a) EBITDA/NOR: equal to or higher than 38%;
- b) EBITDA/Financial expenses: equal to or higher than 2.35 and
- c) Net Bank Debt/Ebitda: lower than or equal to 3.65.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

## **Notes to the Financial Statements**

### **Federal Savings Bank– Pro-Sanitation Program:**

By means of the Performance Improvement Agreement, targets are set for financial and operating ratios (loss of invoicing, revenues evasion, cash equivalents and reduction of days of account receivable) that, based on the last two years, are projected annually for the upcoming five years.

Non fulfillment of 5 out of 8 clauses of covenants shall trigger the early maturity of the contract.

### **Debentures 15<sup>th</sup> Issue:**

#### **BNDES:**

- a) Adjusted current ratio: higher than 1.0;
- b) Ebitda/Net Operating Revenue: higher than or equal to 38%;
- c) Total connections (water and sewage) /headcount: higher than or equal to 520;
- d) Ebitda /Debt service: higher than or equal to 1.5; and

- e) Shareholders' Equity/Total Liabilities: higher than or equal to 0.8.

Non-fulfillment of the clauses of covenants shall trigger the early maturity of the contract.

**Eurobonds:**

Restrict the contracting of new debts so that:

- a) Total adjusted debt in relation to Ebitda shall not exceed 3.65; and
- b) The Company's debt service coverage ratio, determined on the date of inclusion of this debt, is not lower than 2.35.

Non fulfillment of the clauses of covenants shall trigger the early maturity of the contract.

**Inter-American Development Bank (IDB):**

The contracts 713, 896, 1,212 and 2,202 - Tariffs shall:

- a) Produce sufficient revenue to cover system exploration, including those related to the management, operation, maintenance and depreciation;
- b) Provide a profitability over fixed assets higher than 7%; and
- c) During the execution of the project, balances of loans took out on a short-term basis shall not exceed 8.5% of shareholders' equity.

Non fulfillment of the clauses of covenants shall trigger the early maturity of the contract.

On March 31, 2012, the Company complied with requirements included in its loan and financing contracts.

The Company has obtained from BNDES, exceptionally, the suspension for 13 months, as of December 2011 of the requirement to comply with special obligations set forth by contracts.

### **13. TAXES AND CONTRIBUTIONS**

#### **a) Current assets**

The item recoverable taxes of current assets is composed of outstanding balance of income tax and social contribution and amounts related to withholding income tax (IRRF) on financial investments. The balance on March 31, 2012 was R\$54,088 (R\$118,116 on December 31, 2011), a reduction of R\$64,028 in the balance occurred as a result of offset of amounts related to outstanding balance of income tax and social contribution for the year 2011 with amounts payable of same taxes for 2012. This drop was partially mitigated by the calculation of withholding income tax (IRRF) levied on financial investments interest income recognized in the quarter.

<b>Total</b>	<b>172,772</b>	<b>181,122</b>	<b>9,271</b>	<b>18,363</b>

The reduction in consolidated current liabilities of R\$8,350 mainly occurred as a result of withholding income tax levied on interest on equity in January 2012, and conversely of income tax and social contribution payable in March 2012.

The reduction of R\$9,092 in consolidated non-current liabilities occurred as a result of payment flow and adequacy of the short-term and long-term balances of the Special Tax Installment Payment Program (Paes) of the parent company, according to the information below.

The company applied for the Special Tax Installment Payment Program (Paes) on July 15, 2003, pursuant Law 10684 of May 30, 2003, including in this request the debts related to Cofins and Pasep involved in lawsuit against the application of Law 9718/98 and consolidated the remaining balance of the Tax Recovery Program (Refis). The total amount included in Paes was R\$316,953, as follows:

<b>Tax</b>	<b>Principal</b>	<b>Penalty</b>	<b>Interests</b>	<b>Total</b>
COFINS	132,499	13,250	50,994	196,743
PASEP	5,001	509	2,061	7,571
REFIS	112,639	-	-	112,639
Total	250,139	13,759	53,055	316,953

Debt has been paid in 120 months. The amounts paid in the first quarter of 2012 and in the fourth quarter of 2011 were R\$9,233 and R\$9,148, respectively. Financial expenses were recorded in the amount of R\$479 in the first quarter of 2012 and R\$817 in the first quarter of 2011. The outstanding debt on March 31, 2012 was R\$46,325. The assets pledged as collateral in previous Refis Program, in the amount of R\$249,034 continue to collateralize the amounts of Paes Program.

	<b>3/31/2012</b>	<b>12/31/2011</b>
Deferred income tax asset (i)		
recoverable within 12 months	295,229	259,784
recoverable after one year	837,364	831,589
Total deferred tax asset	1,132,593	1,091,373
Deferred tax liability (ii)		
realizable within 12 months	(35,372)	(27,282)
realizable after one year	(918,575)	(886,165)
Total deferred tax liability	(953,947)	(913,447)
Deferred tax asset (liability) in the balance sheet	178,646	177,926

(i) The Company's Management expects to realize the deferred tax asset balance in 2012 at the same ratio as 2011, and the remaining amount to be realized in the subsequent year, 2013.

(ii) Deferred tax liabilities are expected to be realized in 2012, at the same ratio as 2011, and the remaining amount to be realized in subsequent years as of 2013.

The increase in the net balance of consolidated deferred tax asset, in the amount of R\$720, occurred as a result of the calculation of tax on higher provision for losses related to the sale of water at wholesale (Note 7(c)), from provisions for contingent liabilities (Note 15) and from Pension Plan liabilities G1 (Note 16 (i)).

Deferred income tax and social contribution	720	13,380	1,573	13,418
Effective tax rate	35%	52%	35%	52%

(i) Permanent difference related to the provision for actuarial liability (Note 8 (vii)).

Transition Tax Regime – RTT

For the purposes of calculating income tax and social contribution on net income for the years 2009 and 2008, the Company and its subsidiaries adopted the RTT, which allows the legal entity to eliminate the accounting effects of Law 11,638/07 and Provisional Measure 449/08, converted into Law 11.941/09, by means of records in the tax accounting ledger - LALUR and ancillary controls, without any change in the accounting books.

As of 2010, the Company has been adopted the same tax practices of 2008 and 2009, since the RTT became mandatory and shall be effective until the enactment of Law that rules the tax effects of the new accounting methods, seeking the tax neutrality.

## **15. PROVISIONS**

Management, based on a joint analysis with its legal counsels, recorded a provision in amount considered sufficient to cover probable losses in lawsuits. In current liabilities, under "Provisions", amounts related to lawsuits in view of execution of the judgment are R\$926,304 (December 31, 2011 - R\$764,070) and the amounts recorded under non-current liabilities, under "Provisions" are R\$737,830 (December 31, 2011 - R\$807,759). The amount paid between January and March 2012 was R\$31,708.

Total	<u>1,571,829</u>	<u>65,305</u>	<u>(35,987)</u>	<u>62,987</u>	<u>1,664,134</u>

Main variations occurred in the period additions are related to the change in expectation of loss related to customers, suppliers and labor claims. In case of write-offs due to the revised estimate and payments made in customer, other civil and labor claims.

(i) Customers - Approximately 1,516 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and accordingly the refund of amounts charged by the Company. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable.

(ii) Suppliers - Suppliers' claims include lawsuits filed by some builders alleging underpayment of monetary restatements, withholding of amounts related to the understated inflation rates deriving from Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable.

(iii) Other civil lawsuits - these mainly refer to action for damages due to property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses.

(iv) Tax lawsuits - the provision for tax contingencies mainly refers to issues connected with tax collections questioned due to different interpretation of legislation by the Company's legal counsels, duly accrued when classified as probable losses.

(v) Labor lawsuits - the Company is a party in several labor lawsuits, involving issues such as overtime, unhealthy work premium and hazardous work premium, prior notice, change of job position, salary parity and other. Most of the amount involved is under provisional or final execution at various court levels, and thus is classified as a probable loss and accordingly a provision was recognized.

(vi) Environmental lawsuits - these refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and other for the imposition of fines due to environmental damages allegedly caused by the Company. The accrued amounts not always represent the final amount to be disbursed as indemnity of alleged damages, in view of the current stage of referred lawsuits are and Management's impossibility to reasonably estimate the amounts of future disbursements.

*Lawsuits with likelihood of possible loss*

The Company is a party to lawsuits and administrative proceedings related to environmental, tax, civil and labor claims, which are considered by its legal counsels as possible losses, and are not recorded in the accounting books. The amount attributed to these lawsuits is approximately R\$2,668,200 on March 31, 2012 (December 31, 2011 - R\$2,621,800).

Other information is presented in annual financial statements of December 31, 2011, Note 16.

## Notes to the Financial Statements

### 16. EMPLOYEES BENEFITS

#### (a) Assistance Plan

Managed by Fundação Sabesp de Seguridade Social – SABESPREV, it is composed of optional health care plans, of free choice, maintained by contributions from the sponsor and the participants, which were the following:

From the Company: 8.0%, on average, on gross payroll;

From the participants: 2.2%, on base salary and bonus, which corresponds to the average of 1.4% on gross payroll.

#### (b) Pension plan

Managed by Fundação Sabesp de Seguridade Social – SABESPREV, the defined benefit plan (“Plano G1”) receives monthly contributions from the Company and from active participants.

#### **Funded Plan – G1**

Pension plan liabilities in December, 2011	538,619
Expenses recognized in 2012	<u>9,402</u>
Pension plan liabilities in March 2012	548,021

**Unfunded Plan – G0**

Pension plan liabilities in December, 2011	1,512,078
Expenses recognized in 2012	<u>13,458</u>
Pension plan liabilities in March 2012	<u>1,525,536</u>
 Total	 <u>2,073,557</u>

(i) Plan G1

On March 31, 2012, the Company had a net actuarial liability of R\$548,021 (December 2011 – R\$538,619) which represents the difference between the present value of the Company’s liabilities related to participants who are employees, retirees and pensioners and the fair value of related assets and unrecognized actuarial gains.

Aiming at settling the deficit referring to the Defined Benefit Plan (BD) G1, as of July, 2010, SABESP and SABESPREV have structured a process through which participants could elect to change from the Defined Benefit Plan to Defined Contribution Plan, the SABESPREV Mais.

The period for migrating the plan, from July to November, 2010, was suspended through injunction granted by the Court of Justice of the State of Sao Paulo on October 20, 2010, until the allegations from parties involved are analyzed.

(ii) Plan G0

The Company makes payments, due to court order, supplementary retirement and pension benefits to its former employees and pensioners provided for by State Law 4,819/58. These amounts are recorded as accounts receivable from shareholders, restricted to the amounts recognized as due by the State Government.

On March 31, 2012, the Company had a liability to the Plan G0 of R\$1,525,536 (December 2011 – R\$1,512,078). In the period between January and March 2012 the amount of R\$13,458 was recorded referring to the Company’s actuarial liability for 2012.

(c) Profit Sharing

The Company recorded referring to the Profit Sharing Plan, considering the period between January and December 2012, the amount corresponding to one payroll, by setting targets. In the first quarter of 2012, the amount of R\$14,144 was accrued (first quarter of 2011 – R\$13,150).

## Notes to the Financial Statements

### 22. SHAREHOLDERS' EQUITY

#### (a) Authorized capital

The Company is authorized to increase its capital up to the limit of R\$10,000,000 (December 31, 2011 - R\$10,000,000) by means of resolution of the Board of Directors and Fiscal Council.

#### (b) Subscribed and paid-up capital

The subscribed and paid-up capital consists of 227,836,623 common shares (December 31, 2011 - 227,836,623), book-entry, registered shares, without par value, distributed as follows:

	<b><u>Number of shares</u></b>	<b><u>%</u></b>
Treasury Department	114,508,086	50.26
Brazilian Clearing and Depository Corporation	56,036,950	24.59
The Bank Of New York ADR Department (equivalent in shares) (*)	56,663,486	24.87
Other	<u>628.101</u>	<u>0.28</u>
	<u>227,836.623</u>	<u>100.00</u>

(\*) each ADR corresponds to 2 shares

The additional dividend proposed, in the amount of R\$288,142 for the fiscal year of 2011 was approved at the Shareholders' Meeting of April 23, 2012.

Further information on shareholders' equity, such as shareholders compensation, objective and purpose of reserves can be found in Note 18 of the Annual Financial Statements of December 31, 2011.

## 23. EARNINGS PER SHARE

(a) Basic and diluted

Basic earnings per share is calculated by dividing the profit attributable to the Company's shareholders by the weighted average number of common shares issued during the year.

	<u>1Q12</u>	<u>1Q11</u>
Profit attributable to the Company's shareholders	491,913	182,793
Weighted average number of common shares issued (in thousands of shares)	<u>227.836</u>	<u>227.836</u>
Basic and diluted earnings per share (Reais per share)	2.15907	0.80230

The Company had no potential common shares outstanding, such as for instance, debt convertible into common shares. Thus, the basic and diluted earnings per share are the same.

## Notes to the Financial Statements

### 24. COMMITMENTS

#### (i) Operational rentals

On March 31, 2012, operational and facilities rentals already contracted require minimum payments as follows:

2012	64,116
2013	56,951
2014	27,085
2015	688
Total	148,840

Rental expenses for the periods ended March 31, 2012 and 2011 were R\$15,768 and R\$7,322, respectively. Figures refer to the following accounts: property rentals, rental of machinery and equipment, rental of computer equipment, car rentals, automotive equipment rental and leasing of copying machines. The operating lease contracts expire in 2015.

#### (ii) Electricity

The Company has long-term contracts for firm commitments with suppliers of electricity for own use. On March 31, 2012, the main amounts of contracts of this type are as follows:

2012	403,443
2013	134,147

2014	109,970
2015	107,405
Total	754,965

Electricity expenses for the periods ended March 31, 2012 and 2011 were R\$150,425 and R\$141,358 respectively. The firm commitment agreements expire in 2015.

## 25. SUBSEQUENT EVENTS

### PAC 2 – GROUP I - BNDES

Credit facility agreement 11.2.0975.1 and 11.2.0975.1, signed on March 5, 2012 between SABESP - Companhia de Saneamento Básico do estado de São Paulo and BNDES - Brazilian Development Bank in the total amount of R\$180,798,006.63. The loan aims the execution of expansion works and optimization of sanitary sewage systems in the municipalities of São Paulo, Itapeccerica da Serra, Embu das Artes, Carapicuíba, Osasco, São Bernardo do Campo and Cotia, as well as for the preparation of the executive project of São Lourenço Producer System. The total term is 180 months for works and 96 months for the executive project, with a 24 and 36-month grace period. Interest: TJLP + 1.72% p.a.

### PAC 2 - Group I and II - CEF

On February 28, 2012, SABESP formalized with Federal Savings Bank, thirty (30) loan operations summing up R\$133,986,167.53, which will be applied in the execution of water supply, sewage works and services and studies and projects, mainly benefiting the municipalities of the metropolitan region of São Paulo, Baixada Santista region and Campinas. Proceeds derive from FGTS – Programa Saneamento para Todos (“Sanitation Program for Everyone”) and were raised through the selection process of Ministry of Cities - PAC 2 - Groups I and II. Financial charges are: annual interest rate of 6.00%, annual risk rate of 0.30%, annual management fee of 1.40% and TR Index – Reference Rate. Grace period is up to 4 years and amortization is 20 years for water supply and sewage works and 5 years for studies and projects.

SÃO PAULO

## **Opinions and Statements / Special Review Report - Unqualified**

### **Report on review of quarterly information**

To the Board of Directors and Shareholders

Companhia de Saneamento Básico do

Estado de São Paulo – SABESP

### **Introduction**

We have reviewed the accompanying parent company and consolidated interim accounting information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP, included in the Quarterly Information Form (ITR) for the quarter ended March 31, 2012, comprising the balance sheet as at that date and the statements of income, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion on the parent**

#### **company interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

ITR – Quarterly Financial Information – March 31, 2012 - CIA SANEAMENTO BÁSICO ESTADO  
SÃO PAULO

### **Conclusion on the consolidated**

#### **interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

#### **Other matters**

#### **Statements of value added**

We have also reviewed the parent company and consolidated statements of value added for the quarter ended March 31, 2012. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.
