Global Revolving Credit Facility

On October 24, 2018, Digital Realty Trust, L.P., which we refer to as the operating partnership, together with its subsidiaries Digital Singapore Jurong East Pte. Ltd., Digital HK JV Holding Limited, Digital Singapore 1 Pte. Ltd., Digital Gough, LLC, Digital Stout Holding, LLC, Digital Euro Finco, L.P., Digital Japan, LLC, Digital Osaka 3 TMK, Digital Osaka 4 TMK, Moose Ventures LP, and Digital Australia Finco Pty Ltd, as borrowers, and Digital Realty Trust, Inc. and Digital Euro Finco LLC together with the operating partnership as guarantors, the banks, financial institutions and other institutional lenders listed therein, as the initial lenders, each issuing bank and swing line bank as listed therein, Citibank, N.A., as administrative agent, Bank of America, N.A. and JPMorgan Chase Bank, N.A., as syndication agents, and Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citibank, N.A., and JPMorgan Chase Bank, N.A., as joint lead arrangers and joint bookrunners, entered into an Amended and Restated Global Senior Credit Agreement (the “Global Senior Credit Agreement”) for a \$2.35 billion senior unsecured revolving credit facility, which we refer to as the global revolving credit facility, that replaced the \$2.0 billion revolving credit facility executed on January 15, 2016. The global revolving credit facility provides for borrowings in Australian Dollars, British Pounds Sterling, Canadian Dollars, Euros, Hong Kong Dollars, Japanese Yen, Singapore Dollars, and U.S. Dollars, and includes the ability to add additional currencies in the future. The global revolving credit facility also provides for a letter of credit sub-facility with an aggregate sub-limit of the equivalent in the applicable currencies of up to approximately \$115,000,000. The global revolving credit facility matures on January 24, 2023 with two six-month extension options. In addition, we have the ability from time to time to increase the size of the global revolving credit facility and the unsecured term loans (discussed below), in any combination, by up to \$1.25 billion, subject to receipt of lender commitments and other conditions precedent.

The interest rate for borrowings under the global revolving credit facility is, at the option of the borrower, based on a floating rate or base rate, plus a margin based on the credit rating of our long-term senior unsecured debt. As of October 24, 2018, the applicable rate for floating rate advances was the applicable index plus 90 basis points, and the applicable rate for base rate advances was the applicable index plus 0 basis points. An annual facility fee subject to pricing based on the credit rating of our long-term senior unsecured debt is payable quarterly in respect of the commitments under the global revolving credit facility, and as of October 24, 2018, was 20 basis points. Under the global revolving credit facility, we also have the ability to make U.S. Dollar-denominated competitive bid borrowings, which will bear interest at the rates offered by the lenders participating in such competitive bid advances. We are also required to pay certain fees to the administrative agent and letter of credit issuers under the global revolving credit facility. During the term of the global revolving credit facility, we may borrow, repay and re-borrow amounts available under the global revolving credit facility, subject to voluntary reduction of the swing line, letter of credit and revolving credit commitments.

Borrowings under the global revolving credit facility are guaranteed by Digital Realty Trust, Inc., Digital Euro Finco LLC and the operating partnership. In specified circumstances, additional guarantors are required to be added. The global revolving credit facility contains various restrictive covenants, including limitations on our ability to make certain investments or merge with another company, and requirements to maintain financial coverage ratios, including with respect to unencumbered assets. In addition, the global revolving credit facility restricts Digital Realty Trust, Inc. from making distributions to its stockholders, or redeeming or otherwise repurchasing shares of its capital stock, after the occurrence and during the continuance of an event of default, except in limited circumstances including as necessary to enable Digital Realty Trust, Inc. to maintain its qualification as a REIT and to avoid the payment of income or excise tax.

In addition, the global revolving credit facility includes events (including, without limitation, a non-payment under the loan, a breach of warranties and representations in any material respect, non-compliance with covenants by a borrower, cross-default for payment defaults and cross-acceleration for other defaults under material debt or a change of control) which, if not cured within the time period, if any, specified would constitute an event of default. Upon the

occurrence and continuance of such events of default, the lenders holding more than a majority of the commitments and loans (including letter of credit advances) may elect to accelerate the outstanding principal and accrued and unpaid interest under the global revolving credit facility. Further, outstanding principal and accrued and

---

unpaid interest thereon automatically accelerate upon the entry of an order for relief with respect to any borrower under any bankruptcy, insolvency or other similar law.

As of October 24, 2018, certain of the joint lead arrangers and joint bookrunners or their affiliates are tenants of ours, and certain other lenders have other relationships with us.

The foregoing description of the global revolving credit facility is only a summary and is qualified in its entirety by reference to the Global Senior Credit Agreement, a copy of which will be filed as an exhibit to our Annual Report on Form 10-K for the year ended December 31, 2018.
