**Item 1.01 Entry into a Material Definitive Agreement.**

On October 4, 2006, Wright Express Corporation (the "Company") purchased put option contracts and sold call option contracts, designed to be a costless collar, on the wholesale price of gasoline and the retail price of diesel fuel with Bank of America, N.A. (collectively, the "Contracts"). The Contracts have an aggregate notional amount of approximately 9.25 million gallons of gasoline and diesel fuel and will expire on a monthly basis during the second, third and fourth quarters of 2008. The settlement of the Contracts is based upon the New York Mercantile Exchange's New York Harbor Reformulated Gasoline Blendstock for Oxygen Blending and the U.S. Department of Energy's weekly retail on-highway diesel fuel price for the month. The Contracts lock in a weighted average retail floor price of approximately \$2.47 per gallon and a weighted average retail ceiling price of approximately \$2.53 per gallon.

On October 10, 2006, the Company issued a press release announcing this transaction.

**Item 8.01 Other Events.**

On October 10, 2006, Wright Express Corporation issued a press release entitled "Wright Express Extends Its Existing Fuel-Price Risk Management Program through the 4Q 2008." A copy of the press release is attached as exhibit 99.1 and is incorporated by reference in its entirety.
