UNITY WIRELESS CORPORATION

Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three and six months ended June 30, 2007 and 2006 (unaudited)

1.

Basis of presentation:

The accompanying interim unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by the United States generally accepted accounting principles for a complete set of annual consolidated financial statements.

In the opinion of management, all adjustments (consisting solely of normally recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month period ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007 or for any other period.

For further information, refer to the consolidated financial statements and footnotes thereto included in Unity Wireless Corporation's (the Corporation) annual report on Form 10-KSB for the year ended December 31, 2006. Except as indicated in note 2(c), the accounting policies applied in the preparation of these interim consolidated financial statements are consistent with those applied in the consolidated financial statements filed with the Corporation's annual report.

These financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been significantly financed by short-term and long-term debt and equity transactions. At June 30, 2007, the Corporation requires additional financing to continue to operate at current levels throughout the year. Accordingly, the Corporation's future operations are dependent upon the identification and successful completion of additional long-term or permanent debt and equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that the Corporation will be successful. If it is not, the Corporation will be required to reduce operations or liquidate assets. The Corporation will continue to evaluate its projected expenditures relative to its available cash and to seek additional means of financing in order to satisfy its working capital and other cash requirements. The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Corporation be unable to continue as a going concern.

2.

Significant accounting policies:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America using the same accounting policies and methods of application as those disclosed in the Corporation's financial statements for the year ended December 31, 2006.

(a) Use of estimates:

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, particularly the recoverability of inventory, equipment, intangible assets and goodwill, and liabilities (particularly product warranty) and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(b) Comparative figures:

Certain comparative figures have been reclassified to conform to the presentation adopted in the current year.

(c)

Recent accounting pronouncement:

Effective January 1, 2007, the Company adopted FASB Interpretation No. 48 (FIN 48) entitled "Accounting for Uncertainty in Income Taxes - An interpretation of FASB Statement No. 109". This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company evaluated all the tax positions in accordance with FIN 48 and determined that there is no impact to our financial statements. The Corporation's policy is to recognize interest and penalties expense as a component of interest expense in the statement of operations. As of the date of adoption of FIN 48, the Corporation did not have any penalties or tax-related interest, and there was no tax-related interest or penalties recognized during the six months ended June 30, 2007.

Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three and six months ended June 30, 2007 and 2006 (unaudited)

(c)

Recent accounting pronouncement (continued):

As a result of the implementation of FIN 48, the Corporation performed a review of its uncertain tax positions in accordance with recognition standards established by FIN 48. Based on its review, the Corporation concluded that there are no significant unrecognized tax positions requiring recognition in the Corporation's financial statements. The Corporation does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

We conduct business globally and, as a result, file one or more income tax returns in the U.S. federal jurisdiction and various state and non-U.S. jurisdictions. In the normal course of business we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as Canada, Israel and the United States. The open tax years for these jurisdictions include 2002 to 2006. While it is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position, the Corporation does not believe that the resolution of any such issue would have a material effect on the Corporation's financial position. The resolution of any matter would be recognized as an adjustment to its provision for income taxes in the period of resolution.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FAS 115" ("SFAS No. 159"). SFAS No. 159 allows companies to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007 and will be applied prospectively. The Corporation is currently evaluating the impact of adopting SFAS No. 159 on its consolidated balance sheet, result of operations and cash flows.

c) On August 17, 2006, the Corporation acquired Celletra Ltd. (Celletra). Celletra specializes in technology that provides wireless operators with solutions to achieve optimal coverage and to improve coverage and capacity of existing cells

Under the terms of the purchase agreement, the Corporation acquired the net assets of Celletra in exchange for 70,000 shares of Series B convertible non-redeemable preferred shares and contingent consideration of 20,000 shares of Series B convertible non-redeemable preferred shares and warrants to purchase 40,000,000 shares of common stock at a prices between \$0.20 and \$0.30 expiring August 17, 2009 (or 40,000 shares of Series B Convertible Shares should

The goodwill allocated on the acquisition will not be deductible for tax purposes.

At the request of the Celletra shareholders 5% of the total preferred share consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of Unity common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If the target share price is met, the shares would be distributed. If this milestone is not achieved the shares will be returned back to the selling shareholders of Celletra. These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%) shareholders of Unity. In accordance with FAS 123(R), the Corporation has calculated the fair value of compensation

relating to these shares that may be issued to current and former employees, to be \$450,000 and has amortized the amount on a straight line basis over one year. The amortization for the six months ended June 30, 2007 was \$225,000.

11.

Common stock (continued):

On February 19, 2007, certain holders of a warrant with an expiry date of December 13, 2011 and an exercise price of \$0.10 agreed to set aside their right to exercise 27,961,185 warrants until such time that the Corporation has obtained approval from its stockholders to increase the authorized share capital to at least 500,000,000. 7,010,495 of these warrants are held by a Corporation with representation on the Board of Directors

In considering the accounting for these warrants, the Corporation determined that the warrants should continue to be classified as equity under EITF 00-19 as the warrants will either be exercised into common shares under the warrant agreement (if the Corporation obtains an increase in the number of authorized shares to at least 500,000,000) or they will ultimately expire unexercised. There is no remedy available to the holder of a warrant, if they are not able to exercise the warrants under the agreement because the warrant holders agreed to waive their rights to exercise such warrants during the waiver period. As the warrants can only be exercised into common shares of the Company and there are no other settlement provisions, the Company concluded that the warrants should be treated as equity. If the Corporation is unable to obtain approval from its stockholders to increase the number of authorized shares to at least 500,000,000, the warrant holders are entitled rights to cashless exercise their warrants subsequent to June 30, 2007 as long as sufficient authorized share capital is available. As of June 30, 2007, the Corporation had not yet obtained approval from its stockholders to increase the number of authorized shares to at least 500,000,000 (see note 17)

In connection with equity financings during the six months ended June 30, 2007 for \$1,955,560, the Company issued warrants to purchase 33,676,006 shares of common stock at an exercise price of \$0.10 per share. In considering the accounting for these warrants, the Corporation determined that the warrants should continue to be classified as equity under EITF 00-19 as the warrants will either be exercised into common shares under the warrant agreement or they will ultimately expire unexercised. There is no remedy available to the holder of a warrant, if they are not able to exercise the warrants under the agreement. Pursuant to the terms of the agreement, the Corporation is not required to set aside sufficient share capital to issue common stocks upon exercise of warrants until sufficient authorized share capital to issue the shares is obtained and the registration statement is declared effective. As of June 30, 2007, the Corporation had not yet obtained approval from its stockholders to increase the number of authorized shares. As the warrants can only be exercised into common shares of the Corporation and there are no other settlement provisions, the Corporation concluded that the warrants should be treated as equity.

The Corporation is currently a party to three actions in the Supreme Court of British Columbia, Vancouver Registry, brought by three different suppliers of the Corporation for approximately \$620,000 in total.

The Corporation provides for costs related to contingencies when a loss is probable and the amount is reasonably determinable. It is the opinion of management, based in part on advice of legal counsel, that the ultimate resolution of these contingencies, to the extent not previously provided for, will not have a material adverse effect on the financial condition of the Corporation.

(b)

Contingent liability on sale of products:

(i)

Under a license agreement, the Corporation is committed to make royalty payments based on the sales of products using certain technologies. Royalties are calculated based on 5% to 6% of sales of licensed products sold integrating the XNN Technology into various products to a minimum of \$150,000 within twelve months subsequent to the first commercial sales of the integrated product. No such sales have occurred to June 30, 2007.

(ii)

Under an agreement with the Government's National Research Council Canada IRAP (IRAP) program, the Corporation received conditionally repayable government assistance amounting to \$454,665 (CDN\$483,491) to support the development of a multi-carrier linear power amplifier. Under the terms of the agreement, an amount up to a maximum of \$681,997 (CDN\$725,236) is to be repaid at a rate of 1.5% of quarterly gross revenue commencing on September 1, 2003, on a quarterly basis. For the six-month period ended June 30, 2007, the Corporation recorded \$17,256 (CDN\$19,371) as royalties expense and \$46,213 (CDN\$52,469) in 2006.

(iii)

Under an agreement with the Canada Israel Industrial Research & Development Foundation, the Corporation is eligible to receive conditionally repayable government assistance amounting to \$329,133 (CDN\$350,000) to support the development of a multi-carrier linear power amplifier. To date, the Corporation claimed gross proceeds of \$109,711 (CDN\$ 116,667) in 2005, which have been recorded as government grant income as a reduction of expenses incurred. Under the terms of the agreement, commencing with the first commercial transaction, the assistance is repayable to the extent of 2.5% of yearly gross sales until 100% of the grant has been repaid. As of June 30, 2007, the Corporation has not yet commenced the commercialization of such product, and thus no repayment is required.

Item 2. Management's Discussion and Analysis or Plan of Operation

The following discussion of the financial condition, changes in financial condition, and results of operations of Unity Wireless Corporation should be read in conjunction with our most recent financial statements and notes appearing: (1) in this Form 10-QSB; and (2) the Form 10-KSB for the year ended December 31, 2006 filed on April 17, 2007.

The financial statements have been prepared on the going concern basis under which an entity is assumed to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been primarily financed by borrowing and equity transactions. Our future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that we will be successful. If we are not, we will be required to reduce operations or liquidate assets. We will continue to evaluate our projected expenditures relative to our available cash and to seek additional means of financing in order to satisfy our working capital and other cash requirements. The auditors' report on the audited consolidated financial statements for the fiscal year ended December 31, 2006 contained in the 10-KSB filed on April 17, 2007, includes an explanatory paragraph that states that as we have suffered recurring losses from operations, substantial doubt exists about our ability to continue as a going concern. The audited consolidated financial statements or the interim quarterly unaudited consolidated financial statements included with this quarterly report do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

Forward-Looking Statements

This quarterly report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "CDN\$" refer to Canadian dollars and all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our", and "Unity" mean Unity Wireless Corporation, unless otherwise indicated.

Results of Operations

Three-month period ended June 30, 2007 and 2006:

Sales and Cost of Goods Sold

Sales for the three-month period ended June 30, 2007 were \$2,621,630, an increase of 31.19% or \$623,233, from \$1,998,397 for the three-month period ended June 30, 2006. In both our historical product lines and new product lines obtained through acquisitions we have seen a greater diversification in our customer base and geographical areas where the company is now selling its expanded product offerings.

Cost of goods sold during the three-month period ended June 30, 2007 was \$2,087,647 resulting in a gross margin of \$533,983 or 20.37% of sales, compared to \$1,597,679 for the three-month period ended June 30, 2006 resulting in a gross margin of \$400,718 or 20.05% of sales.

The increase in gross margin is largely attributed to:

-

Increase in sales, resulting in increased component requirements and the company has been able to negotiate better pricing from its outsourced manufacturer due to the higher purchased volume;

-

Efficiencies and cost savings have been obtained by centralizing our manufacturing and procurement largely with one outsourced manufacturer;

-

Efficiencies and cost savings have been obtained by centralizing our final testing of products in our China facility where the company has also been able to benefit from lower payroll costs.

Operating Expenses

Research and Development

Research and development expenses for the three-month period ended June 30, 2007 were \$1,338,001, an increase of \$842,252 or 169.89%, from \$495,749 for the three-month period ended June 30, 2006. This increase was primarily the result of the additional research and development expenses from the three acquired companies (Avantray, Celerica, & Celletra) which were not part of the group as of the last period, and incurring additional R&D expenses in order to develop and fulfill requirements for specific equipment orders in both India and Russia. It is anticipated that there will be an ongoing order stream from these new, large, key accounts, including Motorola, Nokia and Ericsson. The Corporation also recorded \$188,000 as a write-down of raw materials due to obsolete inventory during the three-month period ended June 30, 2007.

Sales and Marketing

Sales and marketing expenses for the three-month period ended June 30, 2007 were \$249,797, a decrease of \$46,972, or 15.83%, from \$296,769 for the three-month period ended June 30, 2006. This decrease was primarily the result of the completion of restructuring in 2006 which reduced the number of employees in sales and marketing department.

Royalty payments for government grants

Royalty payments for government grants for the three-month period ended June 30, 2007 were \$218,061, an increase of \$188,972, from \$29,089 for the three-month period ended June 30, 2006. This increase was primarily the result of the additional royalty payments relating to the acquired companies in 2006.

Depreciation and Amortization

Depreciation and amortization expenses for the three-month period ended June 30, 2007 were \$847,014, an increase of \$757,028, from \$89,986 for the three-month period ended June 30, 2006. This increase was primarily the result of the amortization of the intangible assets recorded relating to the acquired companies in 2006. During the three-month period ended June 30, 2007, the Corporation recorded \$738,910 as the amortization of the intangibles.

Exchange Loss

Exchange loss for the three-month period ended June 30, 2007 was \$28,467, a decrease of \$5,585, from \$34,052 for the three-month period ended June 30, 2006 due to fluctuations in the currency exchange rate between the U.S. and Canada.

Interest Expense

Interest expense for the three-month period ended June 30, 2007 increased by \$74,692 to \$190,545 from \$115,853 for the three-month period ended June 30, 2006. This increase was primarily the result of the increase in interest expense from the issuance of convertible debentures in February and December of 2006.

General and Administrative

Due to the 2006 acquisition of three new companies, general and administrative expenses for the three-month period ended June 30, 2007 rose 93.18% to \$785,639, an increase of \$378,950, from \$406,689 for the three-month period ended June 30, 2006. The increase was primarily the result of the additional expenses relating to the acquired business, and the increase in the investors relations activities during the three-month period ended June 30, 2007.

General and administrative expenses include stock-based compensation expense of \$14,545 for the three-month period ended June 30, 2007 versus \$66,009 for the three-month period ended June 30, 2006.

Share compensation expense

Celletra's share compensation expenses were \$112,500 for the three-month period ended June 30, 2007. At the request of the Celletra shareholders 5% of the total consideration, or 4,500 Preferred Shares, were issued to a trust controlled by the selling shareholders of Celletra which is instructed to issue the shares to current and former employees of Celletra, if at any time within one year after the closing date, the price per share of the Company's common stock is equal to or exceeds \$0.20 for a period of seven consecutive days. If this target share price is met, the shares are to be distributed. If this milestone is not achieved the shares will be returned back to the selling shareholders of Celletra.

These employees were not shareholders of Celletra. As a result of the shares issued to the Celletra selling shareholders, those selling shareholders became significant (ie: holding greater than 10%) shareholders of the Company. In accordance with FAS 123(R), the Company has calculated the fair value of compensation relating to these shares that may be issued to current and former employees, to be \$450,000 and has amortized the amount on a straight line basis over one year.

Other Expenses

This decrease was primarily the result of the debt modifications of the convertible notes issued in August 2004, February 2005 and February 2006 which resulted in losses on debt settlements recorded in 2006. The Corporation recorded an amortization of the premium on the convertible notes for \$76,716 against the accretion of interest in the three-month period ended June 30, 2007.

-

Efficiencies and cost savings have been obtained by centralizing our manufacturing and procurement largely with one outsourced manufacturer;

During the six-month period ended June 30, 2007, we purchased \$8,000 in equipment and disposed \$34,482 equipment.

Other than leases for premises, leased vehicles and equipment commitments for an aggregate of \$633,873 through 2009, we have no material commitments outstanding at June 30, 2007.

During the six months ended June 30, 2007 convertible notes amounting to \$1,978,594 came due and subsequent to June 30, 2007 promissory notes amounting to \$250,000 came due. The notes have not been repaid and the Company is currently negotiating new terms with the note holders. The Company is also negotiating new terms with the note holders of promissory notes, amounting to \$460,000, which came due in December 2006. None of the note or debenture holders have demanded repayment at this time.

Our capital requirements may increase in light of our current strategy to expand our customer base and to develop new products and technologies. Our operations to date have been primarily financed by sales of our equity securities and debt financing, and, the company's assets are pledged to secure convertible notes that we issued in August 2004, February 2005, March 2005, February 2006 and December 2006. For any additional financing that may be required in the near term, we may be required to obtain the consent of certain of our investors prior to the issuance of our common stock or common stock equivalents and prior to entering into an agreement to assume certain liabilities.

While convertible notes and warrant purchase Agreements dated August 31, 2004, February 11, 2005, March 24, 2005, February 28, 2006 and December 13, 2006 are outstanding, we cannot declare dividends on our common shares. As of June 30, 2007, we had working capital deficit of \$8,285,039, our operations presently have net cash outflow of \$3,304,494 for the six-month period ended June 30, 2007. Our ability to continue as a going concern may be dependent upon one or more factors, that may include: our ability obtaining further financing; an increased rate of market acceptance of our current products and any new product offerings that we may introduce; the continuing successful development of our products and related technologies; and achieving a profitable level of operations. Moving forward, although the issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders, obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitment.

Our Auditors' report on our 2006 consolidated financial statements includes an additional explanatory paragraph that states that our recurring losses from operations raise substantial doubt about our ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Inflation

We do not believe that inflation has had a significant impact on our consolidated results of operations or financial condition.

Item 3. Controls and Procedures

An evaluation has been carried out under the supervision and with the participation of our management, including our Chief Executive Officer, of the effectiveness of the design and the operation of our "disclosure controls and procedures" (as such term is defined in Rules 13a-15(e) under the Securities Exchange Act of 1934) as of June 30, 2007 (Evaluation Date). Based on such evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that, as of the Evaluation Date, the disclosure controls and procedures are reasonably designed and effective to ensure that (i) information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We have identified conditions as of June 30, 2007 that we believe are material weaknesses in internal controls due to a lack of segregation of duties in accounting and financial reporting activities as a result of the limited number of Company employees engaged in the authorization, recording, processing and reporting of transactions. Due to these deficiencies, the Chief Executive Officer performs frequent reviews of financial information to ensure that transactions are properly recorded. In addition, the Corporation has recently added additional accounting staff to ensure that segregation of duties can be properly administered. There was no change in the Company's internal control over financial reporting during the period ended June 30, 2007, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Items 3, 4, & 5 are not applicable and have been omitted.
