

BIOLIFE SOLUTIONS INC  
Form 10-Q  
November 14, 2013

---

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 0-18170

BIOLIFE SOLUTIONS, INC.  
(Exact Name of Registrant as Specified in Its Charter)

Delaware  
(State or Other Jurisdiction  
of Incorporation)

94-3076866  
(IRS Employer  
Identification No.)

3303 Monte Villa Parkway, Suite 310  
Bothell, WA 98021  
(Address of Principal Executive Offices, Including Zip Code)

(425) 402-1400  
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Edgar Filing: BIOLIFE SOLUTIONS INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company (as defined in Rule 12b-2 of the Exchange Act):

Large Accelerated Filer  Accelerated Filer   
Non-Accelerated Filer  (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The registrant had 70,414,877 shares of Common Stock, \$0.001 par value per share, outstanding as of November 1, 2013.

BIOLIFE SOLUTIONS, INC.

Notes to Financial Statements  
(unaudited)

1. Business

BioLife Solutions, Inc. ("BioLife," "us," "we," "our," or the "Company") develops, manufactures and markets patented hypothermic storage and cryopreservation solutions for cells and tissues. The Company's proprietary HypoThermosol® and CryoStor® platform of solutions are marketed to academic and commercial organizations involved in the biobanking, drug discovery, and regenerative medicine markets. BioLife's products are serum-free and protein-free, fully defined, and are formulated to reduce preservation-induced, delayed-onset cell damage and death. BioLife's enabling technology provides academic and clinical researchers significant improvements in post-thaw cell, tissue, and organ viability and function. Additionally, for our direct, distributor, and contract customers, we perform custom formulation, fill, and finish services.

2. Liquidity

We have incurred annual operating losses since inception, and may continue to incur operating losses. As of September 30, 2013, our accumulated deficit was \$56.4 million. We may not be able to successfully achieve or sustain profitability. Successful transition to profitable operations is dependent upon achieving a level of revenues adequate to support our cost structure.

3. Summary of Significant Accounting Policies

Basis of Presentation

We have prepared the accompanying unaudited financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Pursuant to these rules and regulations, we have condensed or omitted certain information and footnote disclosures we normally include in our annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). In management's opinion, we have made all adjustments (consisting only of normal, recurring adjustments) necessary to fairly present our financial position, results of operations and cash flows. Our interim period operating results do not necessarily indicate the results that may be expected for any other interim period or for the full year. These financial statements and accompanying notes should be read in conjunction with the financial statements and notes thereto in our Annual Report on Form 10-K for the year ended December 31, 2012 on file with the SEC.

There have been no material changes to our significant accounting policies as compared to the significant accounting policies described in the financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012.

Fair value of financial instruments

The carrying value of cash and cash equivalents approximate their fair value (determined based on level 1 inputs in the fair value hierarchy) based on the short-term nature of these financial instruments. The carrying values of notes payable and accrued interest approximate their fair value (determined based on level 3 inputs in the fair value hierarchy) because interest rates of notes payable approximate market interest rates.

Revenue recognition – license revenue

Revenue related to licensing agreement activity is recognized over the estimated term of the service period or when no further performance obligations exist. Payments received in advance of the related licensing agreement period are recorded as deferred revenue and recognized when earned. During the first quarter of 2013, we negotiated a new intellectual property license agreement that provides one customer with limited access to our intellectual property under certain conditions. This customer paid upfront fees for the specific rights and there are no future performance obligations. The upfront fee of \$500,000 was recognized as revenue during the quarter and \$109,167 in deferred revenue associated with this customer was recognized as all future performance obligations associated with the previous license agreements were cancelled with the agreement signed in the first quarter of 2013.

#### Concentrations of credit risk and business risk

In the three and nine months ended September 30, 2013, we derived approximately 54% and 55%, respectively, of our product revenue from our relationship with one contract manufacturing customer. No other customer accounted for more than 10% of revenue in the three or nine months ended September 30, 2013. At September 30, 2013, one contract manufacturing customer accounted for 39% of gross accounts receivable and no other customer accounted for more than 10% of gross accounts receivable. In the three and nine months ended September 30, 2012, we derived approximately 60% and 38%, respectively, of our product revenue from our relationship with one contract manufacturing customer, which we commenced deliveries to in the second quarter of 2012. At December 31, 2012, one contract manufacturing customer accounted for 36% of gross accounts receivable and one other customer accounted for 11% of gross accounts receivable. All license revenue recognized in the nine months ended September 30, 2013 and 2012 was derived from one customer.

### Stock-based compensation

The value, at the date of grant, of stock awarded under restricted stock unit grants is amortized as compensation expense over the vesting period.

### Recent Accounting Pronouncements

There have been no new accounting pronouncements during the nine month period ended September 30, 2013, as compared to our Annual Report on Form 10-K for the year ended December 31, 2012, that are of significance, or potential significance, to us.

### 4. Inventory

Inventory consists of the following at September 30, 2013 and December 31, 2012:

	September 30, 2013	December 31, 2012
Raw materials	\$ 192,096	\$ 398,510
Work in progress	150,784	116,319
Finished goods	66,315	141,568
Total	\$ 409,195	\$ 656,397

During the nine months ended September 30, 2012, the Company recorded a nonreciprocal, non-monetary receipt of inventory in the amount of \$87,215. This amount was also recorded as Other Income in the Statement of Operations during the nine month period ended September 30, 2012. The transaction was accounted for at fair value on the date the inventory was received.

### 5. Deferred Rent

Deferred rent consists of the following at September 30, 2013 and December 31, 2012:

	September 30, 2013	December 31, 2012
Landlord-funded leasehold improvements	\$ 1,059,186	\$ 900,989
Less accumulated amortization	(109,127 )	(39,187 )
Total (current portion \$111,250)	950,059	861,802
Straight line rent adjustment	79,498	88,277
Total deferred rent	\$ 1,029,557	\$ 950,079

During the nine month period ended September 30, 2013, the Company recorded an additional \$191,583 in deferred rent relating to leasehold improvements funded by the Company's landlord as incentives under the facility lease, offset by payments to the landlord of \$33,386. During the three and nine month periods ended September 30, 2013, the Company recorded \$23,925 and \$69,940, respectively, in deferred rent amortization of these landlord funded leasehold improvements.

Straight line rent adjustment represents the difference between cash rent payments and the recognition of rent expense on a straight-line basis over the terms of the lease.

## 6. Share-based Compensation

## Stock Options

The fair value of share-based payments made with stock options to employees and non-employee directors was estimated on the measurement date using the Black-Scholes model using the following weighted average assumptions.

	Three Month Period Ended September 30,		Nine Month Period Ended September 30,	
	2013	2012	2013	2012
Risk free interest rate	2.25%	0.71%	2.25%	0.78%
Dividend yield	0.0%	0.0%	0.0%	0.0%
Expected term (in years)	7	7	7	6.6
Volatility	105.20%	101.57%	105.20%	102.76%

We recorded stock compensation expense for the three and nine month periods ended September 30, 2013 and 2012, as follows:

	Three Month Period Ended September 30,		Nine Month Period Ended September 30,	
	2013	2012	2013	2012
Research and development costs	\$ 5,893	\$ 6,954	\$ 19,801	\$ 20,441
Sales and marketing costs	1,265	630	2,525	840
General and administrative costs	71,294	42,720	120,608	118,542
Cost of product sales	9,782	6,830	32,853	14,924
Total	\$ 88,234	\$ 57,134	\$ 175,787	\$ 154,747

Management applies an estimated forfeiture rate that is derived from historical employee termination data. The estimated forfeiture rate applied for the three and nine month periods ended September 30, 2013 and 2012 was approximately 7%.

The following is a summary of stock option activity for the nine month period ended September 30, 2013, and the status of stock options outstanding at September 30, 2013:

	Nine Month Period Ended September 30, 2013	
	Shares	Wtd. Avg. Exercise Price
Outstanding at beginning of year	20,329,602	\$ 0.09
Granted	175,000	0.75
Exercised	(355,855)	0.07
Unvested Shares Forfeited	(380,000)	0.12
Expired	(25,000)	0.08
Outstanding at September 30, 2013	19,743,747	\$ 0.09
Stock options exercisable at September 30, 2013	16,261,588	\$ 0.08

Fair value of options granted during the three and nine months ended September 30, 2013 was approximately \$0.63. Weighted average fair value of options granted was \$0.11 and \$0.08 per share for the three and nine month periods ended September 30, 2012, respectively.

As of September 30, 2013, there was \$13,838,469 of aggregate intrinsic value of outstanding stock options, including \$11,565,711 of aggregate intrinsic value of exercisable stock options. Intrinsic value is the total pretax intrinsic value for all “in-the-money” options (i.e., the difference between the Company’s closing stock price on the last trading day of the quarter and the exercise price, multiplied by the number of shares) that would have been received by the option holders had all option holders exercised their options on September 30, 2013. This amount will change based on the fair market value of the Company’s stock.

As of September 30, 2013, we had approximately \$342,383 of unrecognized compensation expense related to unvested stock options. We expect to recognize this compensation expense over a weighted average period of approximately 2.1 years.

#### Restricted Stock

During the three months ended September 30, 2013, the Company granted 66,667 restricted stock units to a Director under the 2013 Performance Incentive Plan, which was approved on June 20, 2013. The stock units were granted at the price of \$0.75 per share, which was the fair value of the stock on the grant date. The Company recognized \$50,000 in stock compensation related to this grant in the third quarter of 2013, which is included in General and Administrative expenses. This grant was converted to Common Stock upon grant, as it was fully vested on the date of the grant. At September 30, 2013, there were no unvested restricted stock units outstanding.

#### 7. Warrants

At September 30, 2013, we had 7,406,250 warrants outstanding and exercisable with a weighted average exercise price of \$0.07. There were no warrants issued, forfeited or expired in the nine month period ended September 30,

2013. During the nine months ended September 30, 2013, 312,500 warrants were exercised with a value of \$0.08 per share, for proceeds of \$25,000. The outstanding warrants have expiration dates between November 2013 and May 2017.

During the quarter ended June 30, 2012, the Company issued a total of 2,000,000 warrants to the current note holders as consideration for restructuring of their existing promissory notes. The warrants were valued using the Black-Scholes option pricing model resulting in a total value of \$137,995 which was recorded as Deferred Financing Costs on the Balance Sheet and is being amortized to expense over the revised term of the notes.

During the three and nine month periods ended September 30, 2013, the Company recorded \$14,263 and \$42,322, respectively, in amortization of deferred financing costs. During the three and nine month periods ended September 30, 2012, the Company recorded \$18,397 and \$60,142, respectively, in amortization of deferred financing costs.

## 8. Net Loss per Common Share

Basic net loss per common share is calculated by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated using the weighted average number of common shares outstanding plus dilutive common stock equivalents outstanding during the period. Common stock equivalents are excluded for the three and nine month periods ended September 30, 2013 and 2012, respectively, since the effect is anti-dilutive due to the Company's net losses. Common stock equivalents include stock options and warrants.

Basic weighted average common shares outstanding, and the potentially dilutive securities excluded from loss per share computations because they are anti-dilutive, are as follows as of September 30, 2013 and 2012, respectively:

	Three Month Period Ended September 30,		Nine Month Period Ended September 30,	
	2013	2012	2013	2012
Basic and diluted weighted average common stock shares outstanding	70,106,312	69,679,854	70,005,207	69,679,854
Potentially dilutive securities excluded from loss per share computations:				
Common stock options	19,743,747	20,248,227	19,743,747	20,248,227
Common stock purchase warrants	7,406,250	7,718,750	7,406,250	7,718,750

## 9. Commitments &amp; Contingencies

## Legal Proceedings

We are a party in a number of legal matters filed in the state of New York by the Company or John G. Baust, the Company's former Chief Executive Officer, and members of his extended family, that are described more fully in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. During the nine months ended September 30, 2013, there were no significant developments related to these complaints. We have not made any accrual related to future litigation outcomes as of September 30, 2013 and December 31, 2012.

## Leases

In November of 2012 we signed an amended lease agreement, which expanded the premises leased by us from the landlord to approximately 26,000 rentable square feet. The term of the lease was extended to July 31, 2021. The amendment includes two (2) options to extend the term of the lease, each option is for an additional period of five (5) years, with the first extension term commencing, if at all, on August 1, 2021, and the second extension term commencing, if at all, immediately following the expiration of the first extension term. In accordance with the amended lease agreement, our monthly base rent increased to approximately \$46,000 effective August 1, 2013, with scheduled annual increases each August. We will be required to pay an amount equal to our proportionate share of certain taxes and operating expenses.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Forward Looking Statements

The statements contained in this Quarterly Report on Form 10-Q, including under the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations," include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including, without limitation, statements regarding the Company management's expectations, hopes, beliefs, intentions or strategies regarding the future. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "plan" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. The forward-looking statements contained in this Quarterly Report on Form 10-Q are based on the Company's current expectations and beliefs concerning future developments and their potential effects on the Company. There can be no assurance that future developments affecting the Company will be those that it has anticipated. These forward-looking statements involve a number of risks, uncertainties or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include those factors described in greater detail in the risk factors disclosed in our Form 10-K for the fiscal year ended December 31, 2012 filed with the SEC. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those anticipated in these forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

### Overview

Management's discussion and analysis provides additional insight into the Company and is provided as a supplement to, and should be read in conjunction with, our annual report on Form 10-K for the fiscal year ended December 31, 2012 filed with the SEC.

BioLife Solutions, Inc. ("BioLife" or the "Company"), was originally incorporated in Delaware in 1987 under the name Trans Time Medical Products, Inc. In 2002, the Company, then known as Cryomedical Sciences, Inc., and engaged in manufacturing and marketing cryosurgical products, completed a merger with its wholly-owned subsidiary, BioLife Solutions, Inc., which was engaged as a life sciences tools provider. Following the merger, the Company changed its name to BioLife Solutions, Inc.

Our product offerings include:

- Patented biopreservation media products for cells, tissues, and organs
- Generic formulations of blood stem cell freezing media products
- Custom product formulation and custom packaging services
- Contract aseptic manufacturing formulation, fill, and finish services of liquid media products

Our proprietary HypoThermosol®, CryoStor®, and generic BloodStor® biopreservation media products are marketed to the biobanking, drug discovery, and regenerative medicine markets, including hospital-based stem cell transplant centers, pharmaceutical companies, cord blood and adult stem cell banks, hair transplant centers, and suppliers of cells to the drug discovery, toxicology testing and diagnostic markets. All of our products are serum-free and protein-free, fully defined, and are manufactured under current Good Manufacturing Practices ("cGMP") using United States Pharmacopeia ("USP")/Multicompendial or the highest available grade components.

Our patented biopreservation media products are formulated to reduce preservation-induced, delayed-onset cell damage and death. Our platform enabling technology provides our customers significant shelf life extension of biologic source material and final cell products, and also greatly improved post-preservation cell, tissue, and organ viability and function. We believe that our products have been incorporated into the manufacturing, storage, shipping, freezing, and clinical delivery processes of over 50 clinical trial stage regenerative medicine products and therapies.

The discoveries made by our scientists and consultants relate to how cells, tissues, and organs respond to the stress of hypothermic storage, cryopreservation, and the thawing process. These discoveries enabled the formulation of innovative biopreservation media products that protect biologic material from preservation-related cellular injury, much of which is not apparent immediately after return to normothermic body temperature. Our product formulations have demonstrated notable reduction in apoptotic (programmed) and necrotic (pathologic) cell death mechanisms and are enabling the clinical and commercial development of dozens of innovative regenerative medicine products.

## Results of Operations

### Summary of Achievements for the Third Quarter of 2013

Core product revenue was \$1.0 million, setting a new record for the Company, driven by demand from the regenerative medicine market segment.

Execution of a strategic partnership agreement with SAVSU, wherein BioLife will exclusively market and distribute SAVSU's proprietary precision thermal packaging products to the stem cells and regenerative medicine markets.

Expansion of the Company's relationship with STEMCELL Technologies, who recently selected BioLife's CryoStor cGMP freeze media for use in the launch of over 50 new primary cell products (isolated from bone marrow, peripheral blood, umbilical cord blood, and umbilical cord tissue), to be marketed to the research community.

Addition of Robert Preti, Ph.D., President and Chief Scientific Officer of Progenitor Cell Therapy, a wholly owned subsidiary of NeoStem, Inc., to our Scientific Advisory Board.

## Comparison of Results of Operations for the Three and Nine Month Periods Ended September 30, 2013 and 2012

Percentage comparisons have been omitted within the following table where they are not considered meaningful.

## Revenue and Gross Margin

	Three Month Period Ended September 30,		% Change
	2013	2012	
Revenue:			
Core product sales	\$ 1,002,086	\$ 620,627	61%
Contract manufacturing services	1,168,405	1,055,853	15%
Licensing revenue	—	5,000	
Total revenue	2,170,491	1,681,480	29%
Cost of sales			
Cost of sales	1,281,634	1,086,031	18%
Gross profit	\$ 888,857	\$ 595,449	49%
Gross margin %	41.0%	35.4%	
	Nine Month Period Ended September 30,		% Change
	2013	2012	
Revenue:			
Core product sales	\$ 2,713,787	\$ 2,202,634	23%
Contract manufacturing services	3,337,567	1,397,136	146%
Licensing revenue	609,167	15,000	
Total revenue	6,660,521	3,614,770	84%
Cost of sales			
Cost of sales	3,817,737	2,073,909	84%
Gross profit	\$ 2,842,784	\$ 1,540,861	84%
Gross margin %	42.7%	42.6%	

**Core Product Sales.** Our core products are sold through both direct and indirect channels. Sales to our core customers in the three and nine months ended September 30, 2013 increased compared to the same periods in 2012 due primarily to higher direct product sales to the regenerative medicine market segment. Sales to the regenerative medicine segment tend to be uneven due to the pace of product evaluation, adoption, and clinical trials. We continue to gain new customers in this growing field.

**Contract Manufacturing Services.** Contract manufacturing services in 2013 represents sales of product to one significant customer. Contract manufacturing services revenue increased in the three and nine months ended September 30, 2013 due to the ramp up of business after commencing in the second quarter of 2012.

**Licensing Revenue.** During the first quarter of 2013, we negotiated a new intellectual property license agreement that provides one customer with limited access to our intellectual property under certain conditions. This customer paid upfront fees for the specific rights and there are no future performance obligations. The upfront fee of \$500,000 was recognized as revenue during the quarter and \$109,167 in deferred revenue associated with this customer was recognized as all future performance obligations associated with the previous license agreements were cancelled with the agreement signed in the first quarter of 2013.

**Cost of Sales.** Cost of sales consists of raw materials, labor and overhead expenses. Cost of sales in the three and nine months ended September 30, 2013 increased compared to the same periods in 2012 due primarily to the significant increase in sales to our contract manufacturing services customer.

**Gross Margin.** Gross margin as a percentage of revenue increased in the three months ended September 30, 2013 compared to the same period in 2012 due primarily to the significant increase in core product sales which has a higher gross margin, compared to contract manufacturing services compared to 2012. Gross margin as a percent of revenue was relatively flat for the nine months ended September 30, 2013 compared to the same period in 2012. Gross margin in the nine months ended September 30, 2013 includes the impact of recognition of significant license revenue during the quarter with no associated costs. In addition, gross margin increased during the nine months ended September 30, 2013 due to the increase in core product sales, offset by increased contract manufacturing services, which has a higher cost of sales, compared to core product sales.

## Operating Expenses

Our operating expenses for the three and nine month periods ended September 30, 2013 and 2012 were:

	Three Month Period Ended September 30,		% Change
	2013	2012	
Operating Expenses:			
Research and development	\$ 160,528	\$ 110,689	45%
Sales and marketing	208,080	145,735	43%
General and administrative	630,342	487,733	29%
Operating Expenses	998,950	744,157	34%
% of revenue	46%	44%	

	Nine Month Period Ended September 30,		% Change
	2013	2012	
Operating Expenses:			
Research and development	\$ 361,404	\$ 353,837	2%
Sales and marketing	625,600	379,774	65%
General and administrative	1,856,386	1,441,852	29%
Operating Expenses	2,843,390	2,175,463	31%
% of revenue	43%	60%	

**Research and Development.** Research and Development expenses consist primarily of salaries and other personnel expenses, consulting and other outside services, laboratory supplies, and other costs. We expense all R&D costs as incurred. R&D expenses for the three and nine months ended September 30, 2013 increased compared to the same periods in 2012 primarily due to spending on consulting and supplies related to the development of new products.

**Sales and Marketing.** Sales and marketing expenses consist primarily of salaries and other personnel-related expenses, consulting, trade shows and advertising. The significant increase in the three and nine months ended September 30, 2013 compared to the same periods in 2012 was due to primarily increased personnel costs which resulted from adding team members to this team, primarily in the second quarter of 2012.

**General and Administrative Expenses.** General and administrative expenses consist primarily of salaries and other personnel-related expenses, non-cash stock-based compensation for administrative personnel and non-employee members of the board of directors, professional fees, such as accounting and legal, corporate insurance and facilities costs. The increase in general and administrative expenses in the three and nine months ended September 30, 2013 compared to the same periods in 2012 was due primarily to higher corporate costs, including higher director's fees, higher legal fees, higher consulting fees for investor relations, information technology and shareholder communication.

## Other Income (Expenses)

**Other Income.** Other income for the nine months ended September 30, 2013 is primarily the result of \$87,215 related to inventory received in a non-monetary transaction during the first quarter of 2012 and gains on the sale of equipment.

Interest Expense. The increase in interest expense in the first nine months of 2013 compared to the same period in 2012 is due to a higher debt balance related to additional borrowings of \$475,000 in the first half 2012.

Amortization of Deferred Financing Costs. Amortization of deferred financing costs represents the cost of warrants issued which are being amortized over the life of the debt.

## Liquidity

We have been unable to generate sufficient income from operations in order to meet our operating needs and have an accumulated deficit of approximately \$56 million at September 30, 2013. Of this amount, approximately \$18 million has accumulated since the merger of the Company in 2002.

We believe our current cash and cash provided by operations will satisfy our working capital requirements, debt obligations and capital expenditures for the foreseeable future. Our future capital requirements and the adequacy of our available funds will depend on many factors, including future profitable operations, debt repayment, and competing technological and market developments.

Our working capital factors, such as inventory turnover and days sales outstanding, fluctuate on a quarterly basis and, on an interim basis during the year, may require an influx of short-term working capital. The Company will continuously assess the most appropriate method of financing the Company's short and long term operations. While conditions of the credit market at any given time may impact our ability to obtain credit, the Company believes that it has the ability to raise funds, if needed, through public and private markets.

Future debt repayment or future acquisitions may be financed by a combination of cash on hand, our positive cash flow generation, a revolving credit facility, or an issuance of new debt or stock.

We have outstanding \$10.6 million principal amount of promissory notes due January 11, 2016 under the facilities held by our two most significant stockholders, secured by all of the assets of the Company (the "Facilities"). An event of default, including from the failure to observe or comply with any material covenant or condition in the promissory notes could, if not cured or waived, result in the acceleration of our outstanding indebtedness.

At September 30, 2013, we had cash and cash equivalents of \$79,287, compared to cash and cash equivalents of \$196,478 at December 31, 2012. At September 30, 2013, we had working capital of \$426,512, compared to working capital of \$262,421 at December 31, 2012. The increase in our working capital is due primarily to an increase in our accounts receivable, offset by a smaller decrease in accounts payable.

## Net Cash Provided By Operating Activities

During the nine months ended September 30, 2013, net cash provided by operating activities was \$67,460 compared to \$686,128 for the nine months ended September 30, 2012. Cash provided by operating activities included an increase in deferred rent related to tenant improvements which were funded by our landlord, offset by payment to the landlord and amortization of deferred rent, of \$88,258 and \$766,082 during the nine months ended September 30, 2013 and 2012, respectively. Cash provided by operating activities also includes the use of cash to fund net losses and changes in operating assets and liabilities, offset by non-cash compensation related to stock options and depreciation.

## Net Cash Used in Investing Activities

Net cash used in investing activities totaled \$235,109 and \$1,170,463 during the nine months ended September 30, 2013 and 2012, respectively. Cash used in investing activities was primarily due to the increase in tenant improvements related to our expanded manufacturing facility and the purchase of equipment.

## Net Cash Provided by Financing Activities

Net cash provided by financing activities of \$50,458 during the nine months ended September 30, 2013 was the result of proceeds received from warrant and employee stock option exercises. Net cash provided by financing activities of

\$475,000 during the nine months ended September 30, 2012, resulted from funding from two existing shareholders under the existing Facilities.

At September 30, 2013, the unused portion of the Facilities was approximately \$900,000.

#### Off-Balance Sheet Arrangements

As of September 30, 2013, we did not have any off-balance sheet arrangements.

#### Critical Accounting Policies and Significant Judgments and Estimates

Management's discussion and analysis of our financial condition and results of operations is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements as well as reported revenues and expenses during the reporting periods. On an ongoing basis, we evaluate estimates, including, but not limited to those related to accounts receivable allowances, determination of fair value of share-based compensation, contingencies, income taxes, and expense accruals. We base our estimates on historical experience and on other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions.

Our critical accounting policies and estimates have not changed significantly from those policies and estimates disclosed under the heading "Critical Accounting Policies and Significant Judgments and Estimates" in Part II, Item 7, "Management's Discussion and Analysis of Financial Conditions and Results of Operations" of our Form 10-K for the fiscal year ended December 31, 2012, filed with the Securities and Exchange Commission.

## Contractual Obligations

We previously disclosed certain contractual obligations and contingencies and commitments relevant to us within the financial statements and Management Discussion and Analysis of Financial condition and Results of Operations in our Annual report on Form 10-K for the year ended December 31, 2012, as filed with the SEC on March 29, 2013. There have been no material changes to the disclosure under the heading “Contractual Obligations” in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our 2012 Form 10-K. For more information regarding our current contingencies and commitments, see note 9 to the financial statements included above.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

## Item 4. Controls and Procedures

**Evaluation of Disclosure Controls and Procedures.** We maintain disclosure controls and procedures that are designed to ensure that material information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms and to ensure that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer as appropriate, to allow timely decisions regarding required disclosure. During the quarter ended September 30, 2013 we carried out an evaluation, under the supervision and with the participation of our management, including the chief executive officer and chief financial officer, as required by the rules and regulations under the Exchange Act, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of September 30, 2013, our disclosure controls and procedures were effective.

**Changes in Internal Control over Financial Reporting.** There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2013 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

**Limitations on Effectiveness of Control.** Our management, including our chief executive officer and chief financial officer, does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our Company have been detected.

## PART II: Other Information

### Item 2. Unregistered Sales of Equity Securities

On September 16, 2013, we issued an additional 312,500 common shares to an investor in exchange for \$25,000 as a result of a warrant exercise. The foregoing transaction was exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended.

Item 6. Exhibits

See accompanying Index to Exhibits included after the signature page of this report for a list of exhibits filed or furnished with this report.
