RENN Fund, Inc.

NOTES TO SCHEDULE OF INVESTMENTS

As of March 31, 2018 (Unaudited)

Note 1 - Organization

RENN Fund, Inc. (the "Fund"), is a registered, non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act").

The Fund, a Texas corporation, was organized and commenced operations in 1994 and is registered under and pursuant to the provisions of Section 8(a) of the 1940 Act.

The investment objective of the Fund is to provide shareholders with above-market rates of return through capital appreciation and income by a long-term, value oriented investment process that invests in a wide variety of financial instruments, including but not limited to, common stocks, fixed income securities including convertible and non-convertible debt securities or loans, distressed debt, warrants and preferred stock, exchange traded funds and exchange traded notes, and other instruments.

Prior to a special shareholder meeting held on June 29, 2017 (the "Special Meeting"), RENN Capital Group, Inc. ("RENN Group"), a Texas corporation, served as the Investment Advisor to the Fund. At the Special Meeting, shareholders approved Horizon Asset Management LLC ("Horizon" or the "Investment Advisor"), a registered investment adviser and wholly owned subsidiary of Horizon Kinetics LLC ("Horizon Kinetics"), as its investment manager. In its capacity as investment manager, RENN Group was responsible for the selection, evaluation, structure, valuation, and administration of the Fund's investment portfolio, subject to the supervision of the Board of Directors. Since that time, Horizon has been responsible for the aforementioned responsibilities.

On December 5, 2017 The Renn Fund, Inc. (Cayman) was organized as a limited liability company, and is a wholly owned subsidiary of the Fund. The consolidated financial statements of the Fund include The Renn Fund, Inc. (Cayman), a limited liability company in which the Fund may invest. The Renn Fund, Inc. (Cayman) is a wholly-owned subsidiary; therefore all inter-company accounts and transactions are eliminated. For the period ended March 31, 2018 the Fund had no transactions associated with the subsidiary.

Note 2 - Fair Value Measurements

Edgar Filing: RENN Fund, Inc. - Form N-Q

Investments are carried at fair value, as determined in good faith by Horizon, subject to the approval of the Fund's Board of Directors. The fair values reported are subject to various risk including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities, and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a daily basis, as is necessary, Horizon prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

RENN Fund, Inc.

NOTES TO SCHEDULE OF INVESTMENTS (Continued)

As of March 31, 2018 (Unaudited)

The unlisted preferred stock of companies with common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. The Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the-money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Advisor will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, *Fair Value Measurements*, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of March 31, 2018:

Edgar Filing: RENN Fund, Inc. - Form N-Q

	Level 1	Level 2	Level 3	Total
Convertible Bonds	\$-	\$-	\$-	\$-

RENN Fund, Inc.**NOTES TO SCHEDULE OF INVESTMENTS (Continued)****As of March 31, 2018 (Unaudited)**

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise. There were no transfers between levels during the period ended March 31, 2018.

One portfolio company is being classified as Level 3. AnchorFree, Inc. is a private company and at March 31, 2018, the investment was valued primarily using forecasted revenues and thus qualifies as a Level 3 security. The following table summarizes the valuation techniques and significant unobservable inputs used in determining fair value measurements for those investments classified as Level 3 as of March 31, 2018:

Quantitative Information about Level 3 Fair Value Measurements

Portfolio Investment Company	Valuation Technique	Input	Value at 3/31/18
Convertible Preferred	Market Approach	Revenue Multiple	\$1,989,443
Common Stock	Market Approach	Revenue Multiple	128,146

Note 3 - Investments in Affiliated Issuers

An affiliated issuer is an entity in which the Fund has ownership of at least 5% of the voting securities, or where the Fund has a director on the issuer's board. In this instance, affiliation is based on the fact that Russell Cleveland serves as a director for both the Fund and AnchorFee, Inc. Issuers that are affiliates of the Fund at period-end are noted in the Fund's Schedule of Investments. Additional security purchases and the reduction of certain securities shares outstanding of existing portfolio holdings that were not considered affiliated in prior years may result in the Fund owning in excess of 5% of the outstanding shares at period-end. The table below reflects transactions during the period with entities that are affiliates as of March 31, 2018 and may include acquisitions of new investments, prior year holdings that became affiliated during the period and prior period affiliated holdings that are no longer affiliated as of period-end.

Name of Issuer and Title of Issue	Value Beginning of Period	Purchases	Sales Proceeds	Net Realized	Change in Unrealized Appreciation	Value End of Period

NOTES TO SCHEDULE OF INVESTMENTS (Concluded)

As of March 31, 2018 (Unaudited)

Note 4 - Federal Income Tax Information

At March 31, 2018, gross unrealized appreciation and depreciation on investments owned by the Fund, based on cost for federal income tax purposes, were as follows:

Cost of Investments	\$16,818,063
Gross Unrealized Appreciation	\$2,114,046
Gross Unrealized Depreciation	(10,232,071)
Net Unrealized Depreciation	\$(8,118,025)

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.
