KIMCO REALTY CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Interim Financial Statements

Business -

Kimco Realty Corporation and subsidiaries (the "Company"), affiliates and related real estate joint ventures are engaged principally in the ownership, management, development and operation of open-air shopping centers, which are anchored generally by discount department stores, grocery stores or drugstores. Additionally, the Company provides complementary services that capitalize on the Company's established retail real estate expertise.

The Company elected status as a Real Estate Investment Trust (a "REIT") for federal income tax purposes beginning in its taxable year ended December 31, 1991 and operates in a manner that enables the Company to maintain its status as a REIT. As a REIT, with respect to each taxable year, the Company must distribute at least 90 percent of its taxable income (excluding capital gain) and does not pay federal income taxes on the amount distributed to its shareholders. The Company is not generally subject to federal income taxes if it distributes 100 percent of its taxable income. Most states, where the Company holds investments in real estate, conform to the federal rules recognizing REITs. Certain subsidiaries have made a joint election with the Company to be treated as taxable REIT subsidiaries ("TRSs"), which permit the Company to engage in certain business activities which the REIT may not conduct directly. A TRS is subject to federal and state income taxes on its income, and the Company includes, when applicable, a provision for taxes in its condensed consolidated financial statements. The Company is subject to and also includes in its tax provision non-U.S. income taxes on certain investments located in jurisdictions outside the U.S. These investments are held by the Company at the REIT level and not in the Company's taxable REIT subsidiaries. Accordingly, the Company does not expect a U.S. income tax impact associated with the repatriation of undistributed earnings from the Company's foreign subsidiaries.

Principles of Consolidation -

The accompanying Condensed Consolidated Financial Statements include the accounts of the Company. The Company's subsidiaries include subsidiaries which are wholly-owned and all entities in which the Company has a controlling financial interest, including where the Company has been determined to be a primary beneficiary of a

variable interest entity (“VIE”) in accordance with the Consolidation guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”). All inter-company balances and transactions have been eliminated in consolidation. The information presented in the accompanying Condensed Consolidated Financial Statements is unaudited and reflects all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's audited Annual Report on Form 10-K for the year ended December 31, 2016 (the “10-K”), as certain disclosures in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2017, that would duplicate those included in the 10-K are not included in these Condensed Consolidated Financial Statements.

Subsequent Events -

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the condensed consolidated financial statements (see Footnote 10).

The effect of the assumed conversion of certain convertible units had an anti-dilutive effect upon the calculation of (a) Income from continuing operations per share. Accordingly, the impact of such conversions has not been included in the determination of diluted earnings per share calculations. Additionally, there were 4,010,883 and 5,108,530 stock options that were not dilutive as of June 30, 2017 and 2016, respectively.

The Company's unvested restricted share awards contain non-forfeitable rights to distributions or distribution equivalents. The impact of the unvested restricted share awards on earnings per share has been calculated using the two-class method whereby earnings are allocated to the unvested restricted share awards based on dividends declared and the unvested restricted shares' participation rights in undistributed earnings.

Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. An entity is required to apply the amendments in ASU 2017-05 at the same time it applies the amendments in ASU 2014-09 discussed below. An entity may elect to apply the amendments in ASU 2017-05 either retrospectively to each period presented in the financial statements in accordance with the guidance on accounting changes in ASC Topic 250, Accounting Changes and Error</p>	January 1, 2018; Early adoption is permitted if adopted with ASU 2014-09	Upon adoption, the Company will appropriately apply the guidance to prospective disposals of nonfinancial assets within the scope of Subtopic 610-20.

ASU 2014-09, Revenue from Contracts with Customers (Topic 606)	ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. ASU 2014-09 was anticipated to be effective for the first interim period within annual reporting periods beginning after December 15, 2016, and early adoption was not permitted.	January 1, 2018; Early adoption permitted as of original effective date, which was January 1, 2017	The Company's revenue-producing contracts are primarily leases that are not within the scope of this standard until the effective date of ASU 2016-02 discussed below. As a result, the Company does not expect the adoption to have a material impact on the Company's rental income. The Company continues to evaluate the effect the adoption will have on the Company's other sources of revenue which include management and other fee income. However, the Company currently does not believe the adoption will significantly affect the timing of the recognition of the Company's management and other fee income. The Company plans to adopt this standard using the modified retrospective approach, which requires a cumulative effect adjustment as of the date of adoption.
ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date	In August 2015, the FASB issued ASU 2015-14, which delayed the effective date of ASU 2014-09 by one year making it effective for the first interim period within annual reporting periods beginning after December 15, 2017.		
ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations	Subsequently, in March 2016, the FASB issued ASU 2016-08, which further clarifies the implementation guidance on principal versus agent considerations, and in April 2016, the FASB issued ASU 2016-10, an update on identifying performance obligations and accounting for licenses of intellectual property.		
ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying performance obligations and licensing			
ASU 2016-12, Revenue from			

Contracts with Customers (Topic 606): Narrow-scope improvements and practical expedients

Additionally, in May 2016, the FASB issued ASU 2016-12, which includes amendments for enhanced clarification of the guidance. Early adoption is permitted as of the original effective date.

ASU 2016-02, Leases (Topic 842)

This ASU sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. ASU 2016-02 supersedes the previous leases standard, Leases (Topic 840).

January 1, 2019; Early adoption permitted

The Company continues to evaluate the effect the adoption will have on the Company's financial position and/or results of operations. However, the Company currently believes that the adoption will not have a material impact for operating leases where it is a lessor and will continue to record revenues from rental properties for its operating leases on a straight-line basis. However, for leases where the Company is a lessee, primarily for the Company's ground leases and administrative office leases, the Company will be required to record a lease liability and a right of use asset on its Consolidated Balance Sheets at fair value upon adoption. In addition, direct internal leasing costs will continue to be capitalized, however, indirect internal leasing costs previously capitalized will be expensed. Within the terms of the Company's leases where the Company is the lessor, the Company is entitled to receive reimbursement amounts from tenants for operating expenses such as real estate taxes, insurance and other common area maintenance ("CAM"). CAM reimbursement revenue will be accounted for in accordance with Topic 606 upon adoption of this ASU 2016-02. The Company continues to evaluate the effect the adoption will have on this source of revenue. However, the Company currently does not believe the adoption will significantly affect the timing of the recognition of the Company's CAM reimbursement revenue.

ASU	Description	Adoption Date	Effect on the financial statements or other significant matters
ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business	The update clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. ASU 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting	The update simplifies several aspects of accounting for employee share-based payment transactions for both public and nonpublic entities, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows.	January 1, 2017	The adoption did not have a material effect on the Company's financial position and/or results of operations.

5. Other Real Estate Investments

Preferred Equity Capital -

The Company previously provided capital to owners and developers of real estate properties through its Preferred Equity Program. The Company's maximum exposure to losses associated with its preferred equity investments is primarily limited to its net investment. As of June 30, 2017, the Company's net investment under the Preferred Equity Program was \$194.6 million relating to 359 properties, including 345 net leased properties. During the six months ended June 30, 2017, the Company earned \$7.4 million from its preferred equity investments. During the six months ended June 30, 2016, the Company earned \$18.7 million from its preferred equity investments, including \$10.0 million in profit participation earned from four capital transactions. These amounts are included in Equity in income of other real estate investments, net on the Company's Condensed Consolidated Statements of Income.

Kimsouth (Albertsons)-

Kimsouth Realty Inc. ("Kimsouth") is a wholly-owned subsidiary of the Company. KRS AB Acquisition, LLC (the "ABS Venture") is a subsidiary of Kimsouth that has a 14.35% noncontrolling interest (of which the Company's share is 9.8%), in AB Acquisition, LLC ("AB Acquisition"), a joint venture which owns Albertsons LLC ("Albertsons"), NAI Group Holdings Inc. and Safeway Inc. The Company holds a controlling interest in the ABS Venture and consolidates this entity.

Table of Contents

During June 2017, the Company and ABS Venture received an aggregate cash distribution of \$34.6 million from Albertsons, of which the Company's combined share was \$23.7 million with the remaining \$10.9 million distributed to the two noncontrolling interest members in the ABS Venture. This distribution exceeded the Company's carrying basis and as such was recognized as income and is included in Equity in income from other real estate investments, net on the Company's Condensed Consolidated Statements of Income.

6. Variable Interest Entities ("VIE")

Consolidated VIEs

Included within the Company's consolidated operating properties at June 30, 2017, are 24 consolidated partnership entities that are VIEs, for which the Company is the primary beneficiary. These entities have been established to own and operate real estate property. The Company's involvement with these entities is through its majority ownership and management of the properties. The entities were deemed VIEs primarily based on the fact that the unrelated investors do not have substantial kick-out rights to remove the general or managing partner by a vote of a simple majority or less and they do not have participating rights. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest. At June 30, 2017, total assets of these VIEs were \$1.2 billion and total liabilities were \$390.5 million.

The majority of the operations of these VIEs are funded with cash flows generated from the properties. The Company has not provided financial support to any of these VIEs that it was not previously contractually required to provide, which consists primarily of funding any capital expenditures, including tenant improvements, which are deemed necessary to continue to operate the entity and any operating cash shortfalls that the entity may experience.

Additionally, included within the Company's real estate development projects at June 30, 2017, are three consolidated partnership entities that are VIEs, for which the Company is the primary beneficiary. These entities have been established to develop real estate properties to hold as long-term investments. The Company's involvement with these entities is through its majority ownership and management of the properties. These entities were deemed VIEs primarily based on the fact that the equity investments at risk are not sufficient to permit the entities to finance their activities without additional financial support. The initial equity contributed to these entities was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest. At June 30, 2017, total assets of these real estate development VIEs were \$253.4 million and total liabilities were \$16.4 million.

Substantially all the projected development costs to be funded for these three real estate development projects, aggregating \$168.4 million, will be funded with capital contributions from the Company, when contractually obligated. The Company has not provided financial support to these VIEs that it was not previously contractually required to provide.

All liabilities of these VIEs are non-recourse to the Company (“VIE Liabilities”). Of the 27 total VIEs, 22 are unencumbered and the assets of these VIEs are not restricted for use to settle only the obligations of these VIEs. The remaining five VIEs are encumbered by third party non-recourse mortgage debt. The assets associated with these five VIEs (“Restricted Assets”) are collateral under the respective mortgages and are therefore restricted and can only be used to settle the corresponding liabilities of the VIE. The classification of the Restricted Assets and VIE Liabilities on the Company’s Condensed Consolidated Balance Sheets are as follows (in millions):

	June 30, 2017	December 31, 2016
Restricted Assets:		
Real estate, net	\$634.1	\$ 326.9
Cash and cash equivalents	9.4	3.8
Accounts and notes receivable, net	2.3	1.6
Other assets	8.8	1.4
Total Restricted Assets	\$654.6	\$ 333.7
VIE Liabilities:

Other liabilities	59.7	37.6
Total VIE Liabilities	\$406.9	\$ 176.2

This Credit Facility, which accrues interest at a rate of LIBOR plus 87.5 basis points (2.10% as of June 30, 2017), can be increased to \$2.75 billion through an accordion feature. The Credit Facility replaces the Company's \$1.75 billion unsecured revolving credit facility that was scheduled to mature in March 2018. 11. Fair Value Measurements

All financial instruments of the Company are reflected in the accompanying Condensed Consolidated Balance Sheets at amounts which, in management's estimation, based upon an interpretation of available market information and valuation methodologies, reasonably approximate their fair values except those listed below, for which fair values are disclosed. The valuation method used to estimate fair value for fixed-rate and variable-rate debt is based on discounted cash flow analyses, with assumptions that include credit spreads, market yield curves, trading activity, loan amounts and debt maturities. The fair values for marketable securities are based on published values, securities dealers' estimated market values or comparable market sales. Such fair value estimates are not necessarily indicative of the amounts that would be realized upon disposition.

As a basis for considering market participant assumptions in fair value measurements, the FASB's Fair Value Measurements and Disclosures guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

The following are financial instruments for which the Company's estimate of fair value differs from the carrying amounts (in thousands):

	June 30, 2017		December 31, 2016	
	Carrying	Estimated	Carrying	Estimated
	Amounts	Fair Value	Amounts	Fair Value
Notes payable, net (1)	\$4,520,055	\$4,476,466	\$3,927,251	\$3,890,797
Mortgages payable, net (2)	\$870,125	\$872,448	\$1,139,117	\$1,141,047

The Company determined that the valuation of its Senior Unsecured Notes and MTNs were classified within (1)Level 2 of the fair value hierarchy and its Term Loan and Credit Facility were classified within Level 3 of the fair value hierarchy.

(2)

The Company determined that its valuation of Mortgages payable, net was classified within Level 3 of the fair value hierarchy.

The Company has certain financial instruments that must be measured under the FASB's Fair Value Measurements and Disclosures guidance, including available for sale securities. The Company currently does not have non-financial assets and non-financial liabilities that are required to be measured at fair value on a recurring basis.

The tables below present the Company's financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016, aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

During the six months ended June 30, 2017 and 2016, the Company recognized impairment charges related to adjustments to property carrying values of \$31.3 million and \$58.1 million, respectively. The Company's estimated fair values of these properties were primarily based upon estimated sales prices from (i) signed contracts or letters of intent from third party offers or (ii) a discounted cash flow model. The Company does not have access to the unobservable inputs used to determine these estimated fair values of third party offers. For the discounted cash flow model, a capitalization rate of 8.50% and a discount rate of 10.00% were utilized in the model based upon unobservable rates that the Company believes to be within a reasonable range of current market rates for this respective investment. Based on these inputs, the Company determined that its valuation of these investments was classified within Level 3 of the fair value hierarchy. (See Footnote 2 for additional discussion regarding impairment charges).

The Company accounts for equity awards in accordance with FASB’s Compensation – Stock Compensation guidance which requires that all share based payments to employees, including grants of employee stock options, restricted

stock and performance shares, be recognized in the Statement of Income over the service period based on their fair values. Fair value is determined, depending on the type of award, using either the Black-Scholes option pricing formula or the Monte Carlo method for performance shares, both of which are intended to estimate the fair value of the awards at the grant date. Fair value of restricted shares is calculated based on the price on the date of grant.

Table of Contents

At June 30, 2017, the Company had a net \$8.1 million of unrealized cumulative foreign currency translation adjustment (“CTA”) gains relating to its foreign entity investments in Canada. CTA results from currency fluctuations between local currency and the U.S. dollar during the period in which the Company held its investment. CTA amounts are subject to future changes resulting from ongoing fluctuations in the respective foreign currency exchange rates. Under generally accepted accounting principles in the United States (“GAAP”), the Company is required to release CTA balances into earnings when the Company has substantially liquidated its investment in a foreign entity. During 2015, the Company began selling properties within its Canadian portfolio and as such, the Company may, in the near term, substantially liquidate its remaining investment in Canada, which will require the then unrealized gain on foreign currency translation to be recognized as a benefit to earnings.

Executive Summary

Kimco Realty Corporation is one of the nation's largest publicly-traded owners and operators of open-air shopping centers. As of June 30, 2017, the Company had interests in 511 shopping center properties aggregating 84.1 million square feet of gross leasable area ("GLA") located in 32 states, Puerto Rico and Canada. In addition, the Company had 376 other property interests, primarily through the Company's preferred equity investments and other real estate investments, totaling 5.7 million square feet of GLA.

The executive officers are engaged in the day-to-day management and operation of real estate exclusively with the Company, with nearly all operating functions, including leasing, asset management, maintenance, construction, legal, finance and accounting, administered by the Company.

The Company's strategy is to be the premier owner and operator of open-air shopping centers through investments primarily in the U.S. To achieve this strategy the Company is (i) continuing to transform the quality of its portfolio by disposing of lesser quality assets and acquiring larger, higher quality properties in key markets identified by the Company, for which substantial progress has been achieved as of June 30, 2017, (ii) simplifying its business by: (a) reducing the number of joint venture investments and (b) exiting Mexico, South America and Canada, for which the exit of South America has been completed, Mexico has been substantially completed and the Company has essentially sold all of its operating properties in Canada, (iii) pursuing redevelopment opportunities within its portfolio to increase overall value and (iv) selectively acquiring land parcels in our key markets for real estate development projects for long-term investment. As part of the Company's strategy each property is evaluated for its highest and best use, which may include residential and mixed-use components. In addition, the Company may consider other opportunistic investments related to retailer controlled real estate such as, repositioning underperforming retail locations, retail real estate financing and bankruptcy transaction support. The Company has an active capital recycling program which provides for the disposition of certain U.S. properties. If the Company accepts sales prices for any of these assets that are less than their net carrying values, the Company would be required to take impairment charges and such amounts could be material. In order to execute the Company's strategy, the Company intends to continue to strengthen its balance sheet by pursuing deleveraging efforts over time, providing it the necessary flexibility to invest opportunistically and selectively, primarily focusing on U.S. open-air shopping centers.

Revenues from rental property increased for the three months ended June 30, 2017, primarily from the combined effect of (i) the acquisition and consolidation of operating properties during 2017 and 2016, providing incremental revenues for the three months ended June 30, 2017 of \$13.8 million, as compared to the corresponding period in 2016, partially offset by (ii) a decrease in revenues of \$7.8 million for the three months ended June 30, 2017, as compared to the corresponding period in 2016, primarily due to tenant vacates during 2017 and 2016, which includes below market rent write-offs, and (iii) a decrease in revenues of \$0.3 million for the three months ended June 30, 2017, as compared to the corresponding period in 2016, due to properties sold during 2017 and 2016.

Revenues from rental property increased for the six months ended June 30, 2017, primarily from the combined effect of (i) the acquisition and consolidation of operating properties during 2017 and 2016, providing incremental revenues for the six months ended June 30, 2017 of \$27.3 million, as compared to the corresponding period in (2)2016, partially offset by (ii) a decrease in revenues of \$17.3 million for the six months ended June 30, 2017, as compared to the corresponding period in 2016, due to properties sold during 2017 and 2016 and (iii) a decrease in revenues of \$8.0 million for the six months ended June 30, 2017, as compared to the corresponding period in 2016, primarily due to tenant vacates during 2017 and 2016 which includes below market rent write-offs.

Rental property expenses include (i) rent expense relating to ground lease payments for which the Company is the lessee, (ii) real estate tax expense for consolidated properties for which the Company has a controlling ownership interest and (iii) operating and maintenance expense, which consists of property related costs including repairs and maintenance costs, roof repair, landscaping, parking lot repair, snow removal, utilities, property insurance costs, (3) security and various other property related expenses. Rental property expenses increased for the three and six months ended June 30, 2017, as compared to the corresponding periods in 2016, primarily due to the increase in real estate tax expense and acquisition/consolidation of operating properties in 2017 and 2016, partially offset by the disposition of properties during 2017 and 2016.

Depreciation and amortization increased for the three and six months ended June 30, 2017, as compared to the corresponding periods in 2016, primarily due to the acquisition/consolidation of operating properties in 2017 and (4) 2016, and write-offs relating to the Company's redevelopment projects in 2016, partially offset by property dispositions in 2017 and 2016.

General and administrative costs include employee-related expenses (salaries, bonuses, equity awards, benefits, severance costs and payroll taxes), professional fees, office rent, travel expense and other company-specific expenses. General and administrative expenses decreased \$2.7 million and \$4.1 million for the three and six months ended June 30, 2017, respectively, as compared to the corresponding periods in 2016, primarily due to reductions in public company costs, professional fees and other personnel related costs.

During the six months ended June 30, 2017 and 2016, the Company recognized impairment charges related to adjustments to property carrying values of \$31.3 million and \$58.1 million, respectively, for which the Company's estimated fair values of these properties were primarily based upon estimated sales prices from (i) signed contracts or letters of intent from third party offers or (ii) discounted cash flow models. These adjustments to property carrying values were recognized in connection with the Company's efforts to market certain properties and management's assessment as to the likelihood and timing of such potential transactions and the long-term plan for certain properties. Certain of the calculations to determine fair value utilized unobservable inputs and as such are classified as Level 3 of the fair value hierarchy.

Other income/(expense), net changed \$3.9 million to income of \$2.7 million for the six months ended June 30, 2017, as compared to an expense of \$1.2 million for the corresponding period in 2016. This change is primarily due to (i) a reduction in acquisition and demolition related costs of \$1.1 million, (ii) an increase in foreign currency translation gains of \$0.9 million and (iii) an increase in gains on land sales of \$0.6 million.

Interest expense decreased \$4.4 million and \$10.4 million for the three and six months ended June 30, 2017, respectively, as compared to the corresponding periods in 2016. This decrease is primarily the result of lower interest rates on borrowings during the three and six months ended June 30, 2017, as compared to the corresponding periods in 2016.

Benefit/(provision) for income taxes, net changed \$13.4 million to a benefit of \$1.5 million for the six months ended June 30, 2017, as compared to a provision of \$11.9 million for the corresponding period in 2016. This change is primarily due to (i) a decrease in foreign tax expense of \$29.9 million primarily relating to the sale of certain unconsolidated properties during 2016 within the Company's Canadian portfolio which were subject to foreign taxes at a consolidated reporting entity level and (ii) a decrease in tax provision of \$4.3 million resulting from the Company's merger of its taxable REIT subsidiary into a wholly-owned LLC of the Company on August 1, 2016, partially offset by (iii) a decrease in tax benefit of \$21.2 million related to impairment charges recognized during the six months ended June 30, 2016.

Equity in income of joint ventures, net decreased \$95.5 million for the three months ended June 30, 2017, as compared to the corresponding period in 2016. This decrease is primarily due to (i) a decrease in gains of \$92.9 million resulting from fewer sales of properties and interests within various joint venture investments, including the Company's Canadian Portfolio, during the three months ended June 30, 2017, as compared to the corresponding period

in 2016, and (ii) lower equity in income of \$4.5 million primarily resulting from the sales of properties within various joint venture investments and the acquisition of partnership interests in joint ventures by the Company during 2017 and 2016, partially offset by (iii) a decrease in impairment charges of \$1.9 million recognized during 2017, as compared to 2016.

Equity in income of joint ventures, net decreased \$150.7 million for the six months ended June 30, 2017, as compared to the corresponding period in 2016. This decrease is primarily due to (i) a decrease in gains of \$146.4 million resulting from fewer sales of properties and interests within various joint venture investments, including the Company's Canadian Portfolio, during the six months ended June 30, 2017, as compared to the corresponding period in 2016, and (ii) lower equity in income of \$6.2 million primarily resulting from the sales of properties within various joint venture investments and the acquisition of partnership interests in joint ventures by the Company during 2017 and 2016, partially offset by (iii) a decrease in impairment charges of \$1.9 million recognized during 2017, as compared to 2016.

During the six months ended June 30, 2017, the Company acquired, in separate transactions, a controlling interest in three operating properties from certain joint venture partners in which the Company had noncontrolling interests. During the six months ended June 30, 2016, the Company acquired, in separate transactions, a controlling interest in one operating property and one development project from certain joint venture partners in which the Company had noncontrolling interests. The Company recorded a gain on change in control of interests of \$46.5 million related to the fair value adjustment associated with its previously held equity interest in the operating property.

Equity in income of other real estate investments, net increased \$30.4 million for the three months ended June 30, 2017, as compared to the corresponding period in 2016. This increase is primarily due to an increase of \$34.6 million in equity in income from the Albertsons joint venture resulting from a cash distribution received in excess of the Company's carrying basis during the three months ended June 30, 2017, partially offset by a decrease in earnings from and profit participation from capital transactions within the Company's Preferred Equity Program of \$4.3 million during the three months ended June 30, 2017, as compared to the corresponding period in 2016.

Equity in income of other real estate investments, net increased \$23.3 million for the six months ended June 30, 2017, as compared to the corresponding period in 2016. This increase is primarily due to an increase of \$34.6 million in equity in income from the Albertsons joint venture resulting from cash distributions received in excess of the Company's carrying basis during the six months ended June 30, 2017, partially offset by a decrease in earnings from and profit participation from capital transactions within the Company's Preferred Equity Program of \$11.3 million during the six months ended June 30, 2017, as compared to the corresponding period in 2016.

During the six months ended June 30, 2017, the Company disposed of 11 consolidated operating properties and five out-parcels, in separate transactions, for an aggregate sales price of \$157.3 million. These transactions resulted in an aggregate gain of \$21.6 million and aggregate impairment charges of \$2.4 million.

During the six months ended June 30, 2016, the Company disposed of 20 consolidated operating properties, in separate transactions, for an aggregate sales price of \$282.3 million. These transactions resulted in an aggregate gain of \$66.2 million, after income tax expense, and aggregate impairment charges of \$7.2 million.

Net income attributable to noncontrolling interests increased \$9.8 million and \$9.9 million for the three and six months ended June 30, 2017, respectively, as compared to the corresponding periods in 2016. This increase is primarily due to equity in income attributable to the Company's noncontrolling partners in the Albertsons joint venture during 2017.

Net income attributable to the Company was \$143.4 million for the three months ended June 30, 2017, as compared to \$203.4 million for the three months ended June 30, 2016. On a diluted per share basis, net income available to the Company's common shareholders for the three months ended June 30, 2017, was \$0.31 as compared to \$0.46 for the three months ended June 30, 2016. Net income attributable to the Company was \$220.1 million for the six months ended June 30, 2017, as compared to \$344.1 million for the six months ended June 30, 2016. On a diluted per share basis, net income available to the Company's common shareholders for the six months ended June 30, 2017, was \$0.46 as compared to \$0.77 for the six months ended June 30, 2016. These changes are primarily attributable to (i) a decrease in equity in income of joint ventures, net, resulting from the sales of properties within various joint venture investments and the acquisition of partnership interests in joint ventures by the Company during 2017 and 2016, and (ii) a decrease in gains on sale of operating properties, partially offset by (iii) an increase in equity in income of other real estate investments, net, (iv) a decrease in impairment charges of operating properties, (v) an increase from gain on change of control of interests and (vi) a decrease in interest expense.

Tenant Concentration

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties, avoiding dependence on any single property, and a large tenant base. At June 30, 2017, the Company's five largest tenants were TJX Companies, The Home Depot, Ahold Delhaize, Bed Bath & Beyond and Albertsons, which represented 3.6%, 2.5%, 2.1%, 1.9% and 1.8%, respectively, of the Company's annualized base rental revenues including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest.

The Company's cash flow activities are summarized as follows (in millions):

	Six Months Ended

Cash flows provided by operating activities for the six months ended June 30, 2017, were \$300.0 million, as compared to \$215.8 million for the comparable period in 2016. This increase of \$84.2 million is primarily attributable to (i) an increase of cash flow due to new leasing, expansion, re-tenanting of core portfolio properties and a decrease in interest expense and (ii) changes in operating assets and liabilities due to timing of receipts and payments and (iii) a change in Canadian withholding tax receivables related to the sale of various Canadian investments during 2016, partially offset by (iv) a decrease in operational distributions from the Company's joint venture programs, due to the sale of certain joint ventures during 2017 and 2016.

Table of ContentsInvesting Activities

Cash flows used for investing activities for the six months ended June 30, 2017, were \$147.4 million, as compared to cash flows provided by investing activities of \$311.3 million for the comparable period in 2016. This change of \$458.7 million resulted primarily from (i) a decrease in return of investment from liquidation of real estate joint ventures of \$149.3 million, primarily due to the liquidation of certain Canadian joint ventures in 2016, (ii) a decrease in proceeds from the sale of operating properties of \$148.1 million, (iii) a decrease in distributions from liquidation of real estate joint ventures of \$136.0 million, (iv) an increase in improvements to real estate under development of \$73.3 million (v) a decrease of \$40.6 million in reimbursements of investments in and advances to real estate joint ventures and (vi) an increase in improvements to operating real estate of \$10.9 million, partially offset by (vii) a decrease in acquisition of real estate under development of \$40.8 million, (viii) a decrease in acquisition of operating real estate and other related net assets of \$39.8 million and (ix) an increase in reimbursements of investments and advances to other real estate investments of \$29.3 million.

The Company anticipates acquiring approximately \$275.0 million to \$325.0 million of operating properties during the remainder of 2017. The Company intends to fund these acquisitions with proceeds from property dispositions, cash flow from operating activities, assumption of mortgage debt, if applicable, and availability under the Company's revolving line of credit.

The Company is actively pursuing redevelopment opportunities within its operating portfolio which it believes will increase the overall value by bringing in new tenants and improving the assets' value. The Company has identified three categories of redevelopment, (i) large scale redevelopment, which involves demolishing and building new square footage, (ii) value creation redevelopment, which includes the subdivision of large anchor spaces into multiple tenant layouts, and (iii) creation of out-parcels and pads which are located in the front of the shopping center properties. The Company anticipates its capital commitment toward these redevelopment projects and re-tenanting efforts during the remainder of 2017 will be approximately \$150.0 million to \$200.0 million. The funding of these capital requirements will be provided by cash flow from operating activities and availability under the Company's revolving line of credit.

As of June 30, 2017, the Company had in progress a total of five active real estate development projects and two additional projects held for future development located in the U.S. The Company anticipates costs to complete these projects to be approximately \$600.0 million to \$700.0 million. proceeds from issuance of stock of \$155.5 million, (vi) an increase in dividends paid of \$17.3 million, (vii) an increase in conversion/distribution of noncontrolling interests of \$12.1 million and (viii) an increase in financing origination costs of \$10.2 million.

Table of Contents

The Company continually evaluates its debt maturities, and, based on management's current assessment, believes it has viable financing and refinancing alternatives that will not materially adversely impact its expected financial results. The Company continues to pursue borrowing opportunities with large commercial U.S. and global banks, select life insurance companies and certain regional and local banks. The Company has noticed a continuing trend that, although pricing remains dependent on specific deal terms, generally spreads for non-recourse mortgage financing had been widening due to global economic issues, but have recently stabilized. However, the unsecured debt markets are functioning well and credit spreads are at manageable levels.

Debt maturities for the remainder of 2017 consist of \$230.1 million of consolidated debt; \$29.3 million of unconsolidated joint venture debt and \$5.9 million of debt on properties included in the Company's Preferred Equity Program, assuming the utilization of extension options where available. The 2017 consolidated debt maturities are anticipated to be repaid with operating cash flows, borrowings from the Company's revolving Credit Facility and debt refinancing where applicable. The 2017 debt maturities on properties in the Company's unconsolidated joint ventures and Preferred Equity Program are anticipated to be repaid through debt refinancing, unsecured credit facilities and partner capital contributions, as deemed appropriate.

The Company intends to maintain strong debt service coverage and fixed charge coverage ratios as part of its commitment to maintain its investment-grade debt ratings. The Company may, from time-to-time, seek to obtain funds through additional common and preferred equity offerings, unsecured debt financings and/or mortgage/construction loan financings and other capital alternatives.

Since the completion of the Company's IPO in 1991, the Company has utilized the public debt and equity markets as its principal source of capital for its expansion needs. Since the IPO, the Company has completed additional offerings of its public unsecured debt and equity, raising in the aggregate over \$12.6 billion. Proceeds from public capital market activities have been used for the purposes of, among other things, repaying indebtedness, acquiring interests in open-air shopping centers, funding real estate development projects, expanding and improving properties in the portfolio and other investments.

During February 2015, the Company filed a shelf registration statement on Form S-3, which is effective for a term of three years, for the future unlimited offerings, from time-to-time, of debt securities, preferred stock, depositary shares, common stock and common stock warrants. The Company, pursuant to this shelf registration statement may, from time-to-time, offer for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities.

At the Market Continuous Offering Program ("ATM program") –

During February 2015, the Company established an ATM program, which is effective for a term of three years, pursuant to which the Company may offer and sell shares of its common stock, par value \$0.01 per share, with an aggregate gross sales price of up to \$500.0 million through a consortium of banks acting as sales agents. Sales of the shares of common stock may be made, as needed, from time to time in “at the market” offerings as defined in Rule 415 of the Securities Act of 1933, including by means of ordinary brokers’ transactions on the NYSE or otherwise (i) at market prices prevailing at the time of sale, (ii) at prices related to prevailing market prices or (iii) as otherwise agreed to with the applicable sales agent. The Company did not sell any shares of common stock under the ATM program during the six months ended June 30, 2017. As of June 30, 2017, the Company had \$211.9 million available under this ATM program.

During March 2017, the Company issued \$400.0 million of Senior Unsecured Notes at an interest rate of 3.80% payable semi-annually in arrears which are scheduled to mature in April 2027. The Company used the net proceeds from the issuance of \$395.5 million, after the underwriting discount and related offering costs, for general corporate purposes including to pre-fund near-term debt maturities and to reduce borrowings under the Company's revolving Credit Facility.

Credit Facility -

In February 2017, the Company closed on a \$2.25 billion unsecured revolving Credit Facility with a group of banks, which is scheduled to expire in March 2021, with two additional six month options to extend the maturity date, at the Company's discretion, to March 2022. This Credit Facility, which accrues interest at a rate of LIBOR plus 87.5 basis points (2.10% as of June 30, 2017), can be increased to \$2.75 billion through an accordion feature. The Credit Facility replaces the Company's \$1.75 billion unsecured revolving credit facility that was scheduled to mature in March 2018. In addition, the Credit Facility includes a \$500.0 million sub-limit which provides the company the opportunity to borrow in alternative currencies including Canadian Dollars, British Pounds Sterling, Japanese Yen or Euros. As of June 30, 2017, the Credit Facility had a balance of \$475.0 million outstanding and \$0.5 million appropriated for letters of credit.

Pursuant to the terms of the Credit Facility, the Company, among other things, is subject covenants requiring the maintenance of (i) maximum leverage ratios on both unsecured and secured debt and (ii) minimum interest and fixed coverage ratios. The Company is currently in compliance with these covenants. The financial covenants for the Credit Facility are as follows:

Covenant	Must Be	As of June 30, 2017
Total Indebtedness to Gross Asset Value ("GAV")	<60%	40%
Total Priority Indebtedness to GAV	<35%	6%
Unencumbered Asset Net Operating Income to Total Unsecured Interest Expense	>1.75x	4.90x
Fixed Charge Total Adjusted EBITDA to Total Debt Service	>1.50x	2.83x

For a full description of the Credit Facility's covenants refer to the Amended and Restated Credit Agreement dated as of February 1, 2017, filed as Exhibit 10.1 to the Company's Current Report on Form 8-K dated January 30, 2017.

The Company had a \$650.0 million unsecured term loan (“Term Loan”) which was scheduled to mature in January 2017, with three one-year extension options at the Company’s discretion. The Term Loan accrued interest at LIBOR plus 95 basis points. During November 2016, the Company repaid \$400.0 million of borrowings under the Company’s Term Loan and in January 2017, the Company repaid the remaining \$250.0 million balance and terminated the agreement.

Mortgages Payable –

During the six months ended June 30, 2017, the Company (i) consolidated \$212.2 million of individual non-recourse mortgage debt (including fair market value adjustment of \$6.2 million) relating to a joint venture operating property which the Company now controls and (ii) paid off \$465.5 million of maturing mortgage debt (including fair market value adjustment of \$1.9 million) that encumbered 22 operating properties.

In addition to the public equity and debt markets as capital sources, the Company may, from time-to-time, obtain mortgage financing on selected properties and construction loans to partially fund the capital needs of its real estate development projects. As of June 30, 2017, the Company had over 380 unencumbered property interests in its portfolio.

Dividends –

In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows. The Company’s Board of Directors will continue to evaluate the Company’s dividend policy on a quarterly basis as the Board of Directors monitors sources of capital and evaluates the impact of the economy and capital markets availability on operating fundamentals. Since cash used to pay dividends reduces amounts available for capital investment, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion and renovation of shopping centers in its portfolio, debt reduction, the acquisition of interests in new properties and other investments as suitable opportunities arise and such other factors as the Board of Directors considers appropriate. Cash dividends paid for the six months ended June 30, 2017 and 2016 were \$252.8 million and \$235.5 million, respectively.

Although the Company receives substantially all its rental payments on a monthly basis, it generally intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution will be invested by the Company in short-term money market or other suitable instruments. On April 25, 2017, the Company’s Board of Directors declared a quarterly cash dividend of \$0.27 per common share payable to shareholders of record on July 6, 2017, which was paid on July 17, 2017. Table of Contents

All dividends on the preferred shares are scheduled to be paid on October 16, 2017, to shareholders of record on October 3, 2017.

Other-

The Company is subject to taxes on its activities in Canada, Puerto Rico and Mexico. In general, under local country law applicable to the structures the Company has in place and applicable treaties, the repatriation of cash to the Company from its subsidiaries and joint ventures in Canada, Puerto Rico and Mexico generally is not subject to withholding tax. The Company is subject to and also includes in its tax provision non-U.S. income taxes on certain investments located in jurisdictions outside the U.S. These investments are held by the Company at the REIT level and not in the Company's taxable REIT subsidiary. Accordingly, the Company does not expect a U.S. income tax impact associated with the repatriation of undistributed earnings from the Company's foreign subsidiaries.

Funds From Operations

Funds From Operations ("FFO") is a supplemental non-GAAP financial measure utilized to evaluate the operating performance of real estate companies. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income/(loss) available to the Company's common shareholders computed in accordance with generally accepted accounting principles in the United States ("GAAP"), excluding (i) gains or losses from sales of operating real estate assets and change in control of interests, plus (ii) depreciation and amortization of operating properties and (iii) impairment of depreciable real estate and in substance real estate equity investments and (iv) after adjustments for unconsolidated partnerships and joint ventures calculated to reflect FFO on the same basis.

The Company presents FFO available to the Company's common shareholders as it considers it an important supplemental measure of our operating performance and believes it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO available to the Company's common shareholders when reporting results. Comparison of our presentation of FFO available to the Company's common shareholders to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

The Company also presents FFO available to the Company's common shareholders as adjusted as an additional supplemental measure as it believes it is more reflective of its core operating performance and provides investors and analysts an additional measure to compare the Company's performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. FFO available to the

Company's common shareholders as adjusted is generally calculated by the Company as FFO available to the Company's common shareholders excluding certain transactional income and expenses and non-operating impairments which management believes are not reflective of the results within the Company's operating real estate portfolio.

FFO is a supplemental non-GAAP financial measure of real estate companies' operating performances, which does not represent cash generated from operating activities in accordance with GAAP and therefore should not be considered an alternative for net income as a measure of liquidity. Our method of calculating FFO available to the Company's common shareholders and FFO available to the Company's common shareholders as adjusted may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Reflects the potential impact if certain units were converted to common stock at the beginning of the period, which would have a dilutive effect on FFO available to the Company's common shareholders. FFO available to the Company's common shareholders would be increased by \$267 and \$217 for the three months ended June 30, 2017 and 2016, respectively, and \$459 and \$434 for the six months ended June 30, 2017 and 2016, respectively. The effect of other certain convertible units would have an anti-dilutive effect upon the calculation of Net income available to the Company's common shareholders per share. Accordingly, the impact of such conversion has not been included in the determination of diluted earnings per share calculations.

(2) Related to gains, impairment and depreciation on operating properties, where applicable.

(3) Related to transactional (income)/expense, where applicable.

Same Property Net Operating Income ("Same property NOI")

Same property NOI is a supplemental non-GAAP financial measure of real estate companies' operating performance and should not be considered an alternative to net income in accordance with GAAP or as a measure of liquidity. The Company considers Same property NOI as an important operating performance measure because it is frequently used by securities analysts and investors to measure only the net operating income of properties that have been owned by the Company for the entire current and prior year reporting periods including those properties under redevelopment. It excludes properties under development and pending stabilization; properties are deemed stabilized at the earlier of (i) reaching 90% leased or (ii) one year following a project's inclusion in operating real estate. Same property NOI assists in eliminating disparities in net income due to the development, acquisition or disposition of properties during the particular period presented, and thus provides a more consistent performance measure for the comparison of the Company's properties.

Same property NOI available to the Company's common shareholders is calculated using revenues from rental properties (excluding straight-line rent adjustments, lease termination fees and amortization of above/below market rents) less charges for bad debt, operating and maintenance expense, real estate taxes and rent expense plus the Company's proportionate share of Same property NOI from unconsolidated real estate joint ventures, calculated on the same basis. The Company's method of calculating Same property NOI available to the Company's common shareholders may differ from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Company's primary market risk exposures are interest rate risk and foreign currency exchange rate risk. The following table presents the Company's aggregate fixed rate and variable rate debt obligations outstanding, including fair market value adjustments and unamortized deferred financing costs, as of June 30, 2017, with corresponding weighted-average interest rates sorted by maturity date. The table does not include extension options where available. Amounts are in millions.

<u>Secured Debt</u>

Average Interest Rate	-	-	-	-	2.10 %	-	2.10 %	

Based on the Company's variable-rate debt balances, interest expense would have increased by \$2.8 million for the six months ended June 30, 2017 if short-term interest rates were 1% higher.

The following table presents the Company's foreign investments and respective cumulated translation adjustments ("CTA") as of June 30, 2017. Investment amounts are shown in their respective local currencies and the U.S. dollar equivalents, CTA balances are shown in U.S. dollars:

Foreign Investment (in millions)

Country	Local Currency	U.S. Dollars	CTA Gain
Mexican real estate investments (MXN)	70.5	\$ 6.5	\$ -
Canadian real estate investments (CAD)	33.9	\$ 26.1	\$ 8.1

The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes.

Currency fluctuations between local currency and the U.S. dollar, for investments for which the Company has determined that the local currency is the functional currency, for the period in which the Company held its investment result in a CTA. This CTA is recorded as a component of Accumulated other comprehensive income (“AOCI”) on the Company’s Condensed Consolidated Balance Sheets. The CTA amounts are subject to future changes resulting from ongoing fluctuations in the respective foreign currency exchange rates. Changes in exchange rates are impacted by many factors that cannot be forecasted with reliable accuracy. Any change could have a favorable or unfavorable impact on the Company’s CTA balance. The Company’s aggregate CTA gain balance at June 30, 2017, is \$8.1 million.

Under GAAP, the Company is required to release CTA balances into earnings when the Company has substantially liquidated its investment in a foreign entity. The Company may, in the near term, substantially liquidate its remaining investment in Canada, which will require the then unrealized gain on foreign currency translation to be recognized as earnings.
