Who is Entitled to Vote; Vote Required; Quorum

As of the Record Date of November 7, 2017, there were 15,092,393 shares of Common Stock issued and outstanding; 100,000 shares of Series B Convertible Preferred Stock issued and outstanding; 454,986 shares of Series C Convertible Preferred Stock issued and outstanding; 378,776 shares of Series D Convertible Preferred Stock issued and outstanding; and 10,000 shares of Series E Convertible Preferred Stock issued and outstanding; which constitutes all of the outstanding capital stock of the Company. Shareholders are entitled to one vote for each share of Common Stock held by them. The 100,000 shares of Series B Convertible Preferred Stock will, assuming approval of Proposal 4, carry the voting power of 1,428,571 shares of Common Stock but will not carry any voting rights at the Meeting. The 454,986 shares of Series C Convertible Preferred Stock carry the voting power of 1,819,944 shares of Common Stock and will be voted on an as converted basis into shares of Common Stock along with the other shareholders of Common Stock. Neither the 378,776 shares of Series D Convertible Preferred Stock nor the 10,000 shares of Series E Convertible Preferred Stock have any voting rights.

A majority of the 15,092,393 outstanding shares of Common Stock will constitute a quorum at the Meeting.

Brokers holding shares of record for customers generally are not entitled to vote on “non-routine” matters, unless they receive voting instructions from their customers. As used herein, “uninstructed shares” means shares held by a broker who has not received such instructions from its customers on a proposal. A “broker non-vote” occurs when a nominee holding uninstructed shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that non-routine matter. In connection with the treatment of abstentions and broker non-votes, all but one of the proposals at this are considered “non-routine” matters, and brokers are not entitled to vote uninstructed shares with respect to these proposals. Only the proposal to ratify the appointment of Marcum, LLP, as the Company’s independent registered public accounting firm, is a routine matter that brokers are entitled to vote upon without receiving instructions.

Determination of whether a matter specified in the Notice of Annual Meeting of Shareholders has been approved will be determined as follows:

Those persons will be elected directors who receive a plurality of the votes cast at the Meeting in person or by proxy and entitled to vote on the election. Accordingly, abstentions or directions to withhold authority will have no effect on the outcome of the vote;

The Reincorporation will require the affirmative vote of the holders of a majority of the total outstanding shares as of the record date. Consequently, abstentions will have the effect of a vote against the reincorporation;

Approval of the conversion of 378,776 shares of the Company's Series D Preferred Stock into and exercisability of Warrants to purchase up to 1,000,000 shares of Common Stock, each as issued in accordance with the Share Exchange Agreement dated April 28, 2017, in order to comply with listing Rule 712 of the NYSE American, LLC and California law will require the affirmative vote of the holders of a majority of the total outstanding shares as of the record date. Consequently, abstentions will have the effect of a vote against the reincorporation; and

For each other matter specified in the Notice of Annual Meeting of Shareholders, the affirmative vote of a majority of the shares of Common Stock present at the meeting in person or by proxy and entitled to vote on such matter is required for approval. Abstentions will be considered shares present by proxy and entitled to vote and, therefore, will have the effect of a vote against the matter. Broker non-votes will be considered shares not present for this purpose and will have no effect on the outcome of the vote.

Directions to withhold authority to vote for directors, abstentions and broker non-votes will be counted for purposes of determining whether a quorum is present for the Meeting.

This way, your shares will be voted whether or not you attend the Annual Meeting.

Can I view these proxy materials over the Internet?

Yes. The Notice of Meeting, this Proxy Statement and accompanying proxy card, our Annual Report on Form 10-K for the year ended December 31, 2016 and the other documents appended hereto are available at: www.edocumentview.com/DPW.

How do I vote?

Either (1) mail your completed and signed proxy card(s) to Digital Power Corporation, 48430 Lakeview Blvd, Fremont, CA 94538, Attention: Corporate Secretary, (2) call the toll-free number printed on your proxy card(s) and follow the recorded instructions or (3) visit the website indicated on your proxy card(s) and follow the on-line instructions. If you are a registered shareholder and attend the meeting, then you may deliver your completed proxy card(s) or vote in person. If your shares are held by your broker or bank, in “street name”, then you will receive a form from your broker or bank seeking instructions as to how your shares should be voted. If you do not instruct your broker or bank how to vote, then your broker or bank will vote your shares if it has discretionary power to vote on a particular matter.

Am I entitled to vote if my shares are held in “street name”?

If your shares are held by a bank, brokerage firm or other nominee, you are considered the “beneficial owner” of shares held in “street name.” If your shares are held in street name, the proxy materials are being made available to you by your bank, brokerage firm or other nominee (the “record holder”), along with voting instructions. As the beneficial owner, you have the right to direct your record holder how to vote your shares, and the record holder is required to vote your shares in accordance with your instructions. If you do not give instructions to your record holder, it will nevertheless be entitled to vote your shares in its discretion on the ratification of the appointment of the independent registered public accounting firm (Proposal 2), but not on any other proposal.

As the beneficial owner of shares, you are invited to attend the annual meeting. If you are a beneficial owner, however, you may not vote your shares at the meeting unless you obtain a legal proxy, executed in your favor, from the record holder of your shares.

You will be able to attend the 2017 Annual Meeting, vote, and submit your questions during the meeting via live webcast by visiting www.proxyvote.com if you are a beneficial owner and hold your shares in “street” name and at www.investorvote.com/DPW if you are a registered holder.

How many shares must be present to hold the meeting?

A quorum must be present at the meeting for any business to be conducted. The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of Common Stock outstanding on the Record Date will constitute a quorum. Proxies received but marked as abstentions or treated as broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting.

What if a quorum is not present at the meeting?

If a quorum is not present or represented at the meeting, the holders of a majority of the shares entitled to vote at the meeting who are present in person or represented by proxy, or the chairman of the meeting, may adjourn the meeting until a quorum is present or represented. The time and place of the adjourned meeting will be announced at the time the adjournment is taken, and no other notice will be given.

Is there a deadline for submitting proxies electronically or by telephone or mail?

Proxies submitted electronically or by telephone as described above must be received by 11:59 pm PT on December 27, 2017. Proxies submitted by mail should be received before 9:00 am PT on December 28, 2017.

Can I revoke my proxy and change my vote?

You may change your vote at any time prior to the taking of the vote at the meeting. If you are the shareholder of record, you may change your vote by (1) granting a new proxy bearing a later date (which automatically revokes the earlier proxy) using any of the methods described above (and until the applicable deadline for each method), (2) providing a written notice of revocation to the Company's CEO at Digital Power Corporation, 48430 Lakeview Blvd., Fremont, California 94538-3158, prior to your shares being voted, or (3) attending the meeting and voting. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request. For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, bank, trustee or nominee following the instructions they provided, or, if you have obtained a legal proxy from your broker, bank, trustee or nominee giving you the right to vote your shares, by attending the meeting and voting.

Who can participate in the meeting?

Only shareholders eligible to vote or their authorized representatives in possession of a valid control number will be admitted as participants to the meeting.

Will my vote be kept confidential?

Yes, your vote will be kept confidential and not disclosed to the Company unless:

- required by law;
- you expressly request disclosure on your proxy; or
- there is a proxy contest.

How does the Board of Directors recommend I vote on the proposals?

Our Board recommends that you vote your shares as follows:

Unless you provide other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board as set forth in this Proxy Statement.

What if I do not specify how my shares are to be voted?

If you return a signed and dated proxy card without marking any voting selections, your shares will be voted in accordance with the Board’s recommended votes set forth immediately above, and if any other matter is properly presented at the meeting, your proxy holder (one of the individuals named on your proxy card) will vote your shares using his best judgment.

Will any other business be conducted at the meeting?

The Company’s by-laws require shareholders to give advance notice of any proposal intended to be presented at the meeting. The deadline for this notice has passed and we have not received any such notices. If any other matter properly comes before the shareholders for a vote at the meeting, however, the proxy holders will vote your shares in accordance with their best judgment.

How many votes are needed to approve each proposal?

For the election of directors, each of the six (6) nominees receiving “**For**” votes at the meeting in person or by proxy will be elected. Approval of all other matters requires the favorable vote of a majority of the votes cast on the applicable matter at the Annual Meeting other than the Reincorporation, which require the favorable vote of a majority of the issued and outstanding shares.

How will abstentions be treated?

Abstentions will be treated as shares present for quorum purposes and entitled to vote, and will have the same practical effect as votes against a proposal except in the case of the election of directors, in which case an abstention will have no impact.

What are “broker non-votes”?

Broker non-votes occur when a beneficial owner of shares held in “street name” does not give instructions to the broker or nominee holding the shares as to how to vote on matters deemed “non-routine.” Generally, if shares are held in street name, the beneficial owner of the shares is entitled to give voting instructions to the broker or nominee holding the shares. If the beneficial owner does not provide voting instructions, the broker or nominee can still vote the shares with respect to matters that are considered to be “routine,” but not with respect to “non-routine” matters. Under the rules and interpretations of the New York Stock Exchange, “non-routine” matters include director elections (whether contested or uncontested) and matters involving a contest or a matter that may substantially affect the rights or privileges of shareholders.

In connection with the treatment of abstentions and broker non-votes, the proposals at this meeting to (i) elect directors, (ii) approve a proposed change in corporate domicile from California to Delaware, (iii) approve the issuance of up to 500,000 shares of the Company’s Series B Preferred Stock and the issuance of warrants to purchase shares of Common Stock in accordance with the Preferred Stock Purchase Agreement, (iv) approve the issuance of 378,776 shares of the Company’s Series D Preferred Stock, (v) approve the issuance of 10,000 shares of the Company’s Series E Preferred Stock; (vi) approve the conversion of a \$400,000 Convertible Note convertible into 727,273 shares of Common Stock at \$0.55 per share and related warrants to purchase 666,667 shares of Common Stock at \$1.10 per share; (vii) approve the conversion of \$880,000 in the aggregate of Convertible Notes convertible into 1,466,667 shares of Common Stock at \$0.60 per share and related warrants to purchase 1,466,667 shares of Common Stock at \$0.66; (viii) approve the 2017 Stock Incentive Plan to increase in the number of shares of Common Stock to 2,000,000 shares of Common Stock under the plan; and (ix) approve the issuance of warrants to purchase 317,460 shares and options to purchase 1,000,000 shares in accordance with the Executive Employment Agreement, are considered “non-routine” matters, and brokers are not entitled to vote uninstructed shares with respect to these proposals. Only the proposal to ratify the appointment of Marcum, LLP, as the Company’s independent registered public accounting firm is a routine matter that brokers are entitled to vote shares without receiving instructions.

Our election of directors (Proposal No. 1), approval of the proposed change in corporate domicile from California to Delaware (Proposal No. 3), approval of the conversion of up to 500,000 shares of the Company's Series B Preferred Stock into Common Stock and the issuance of warrants to purchase shares of Common Stock in accordance with the Preferred Stock Purchase Agreement (Proposal No. 4), approval of the conversion of 378,776 shares of the Company's Series D Preferred Stock into Common Stock in accordance with the Share Exchange Agreement (Proposal No. 5), approval of the conversion of up to 10,000 shares of the Company's Series E Preferred Stock into shares of Common Stock in accordance with the Share Exchange Agreement (Proposal No. 6), approval of the conversion of a \$400,000 Convertible Note convertible into 727,273 shares of Common Stock at \$0.55 per share and related warrants to purchase 666,667 shares of Common Stock at \$1.10 per share (Proposal No. 7); approval of the conversion of \$880,000 in the aggregate of Convertible Notes convertible into 1,466,667 shares of Common Stock at \$0.60 per share and related warrants to purchase 1,466,667 shares of Common Stock at \$0.66 (Proposal No. 8); approval of the issuance of warrants to purchase 317,460 shares and options to purchase 1,000,000 shares in accordance with the Executive Employment Agreement (Proposal 9), and approval to adopt the 2017 Stock Incentive Plan (Proposal 10), are considered to be "non-routine" matters and as a result, brokers or nominees cannot vote your shares on these proposals in the absence of your direction.

Who is paying for this proxy solicitation?

We will pay for the entire cost of soliciting proxies. In addition to these mailed proxy materials, our directors and employees may also solicit proxies in person, by telephone or by other means of communication. Directors and employees will not be paid any additional compensation for soliciting proxies but may be reimbursed for out-of-pocket expenses incurred in connection with the solicitation. We will also reimburse brokerage firms, banks and other agents for their reasonable out-of-pocket expenses incurred in forwarding proxy materials to beneficial owners.

What does it mean if I receive more than one set of proxy materials?

If you receive more than one set of proxy materials, your shares may be registered in more than one name or in different accounts. Please complete, sign and return each proxy card to ensure that all of your shares are voted.

I share the same address with another shareholder of the Company. Why has our household only received one set of proxy materials?

The Securities and Exchange Commission's ("SEC's") rules permit us to deliver a single set of proxy materials to one address shared by two or more of our shareholders. This practice, known as "householding," is intended to reduce the Company's printing and postage costs. We have delivered only one set of proxy materials to shareholders who hold their shares through a bank, broker or other holder of record and share a single address, unless we received contrary instructions from any shareholder at that address.

How can I find out the results of the voting at the Annual Meeting?

Final voting results will be disclosed in a Form 8-K filed after the Annual Meeting.

Who can help answer my questions?

You can contact our corporate headquarters, at Digital Power Corporation, 48430 Lakeview Blvd., Fremont, California 94538-3158, or by sending a letter to Amos Kohn, our Chief Executive Officer, with any questions about the proposal described in this proxy statement or how to execute your vote.

PROPOSAL NO. 1**ELECTION OF DIRECTORS****Information about the Nominees**

At the Annual Meeting, the shareholders will elect six (6) directors to serve until the next annual meeting of Shareholders or until their respective successors are elected and qualified. In the event any nominee is unable or unwilling to serve as a director at the time of the Annual Meeting, the proxies may be voted for the balance of those nominees named and for any substitute nominee designated by the present Board or the proxy holders to fill such vacancy, or for the balance of the nominees named without nomination of a substitute, or the size of the Board may be reduced in accordance with the Bylaws of the Company. The Board has no reason to believe that any of the persons named below will be unable or unwilling to serve as a nominee or as a director if elected.

Assuming a quorum is present, the six (6) nominees receiving the highest number of affirmative votes of shares entitled to be voted for them will be elected as directors of the Company for the ensuing year. Unless marked otherwise, proxies received will be voted "FOR" the election of each of the eight nominees named below. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them in such a manner as will ensure the election of as many of the nominees listed below as possible, and, in such event, the specific nominees to be voted for will be determined by the proxy holders. All of the director nominees currently serve as directors.

*** “Audit committee financial expert” as defined in SEC regulations.

Audit Committee

Messrs. Horne, Smith, and Rosenberg currently comprise the Audit Committee of our Board. Our Board has determined that each of the current members of the Audit Committee satisfies the requirements for independence and financial literacy under the standards of the SEC and the NYSE American. Our Board has also determined that Mr. Horne qualifies as an “audit committee financial expert” as defined in SEC regulations and satisfies the financial sophistication requirements set forth in the NYSE American Rules. Mr. Horne serves as Chairman of the Audit Committee.

The Audit Committee is responsible for, among other things, selecting and hiring our independent auditors, approving the audit and pre-approving any non-audit services to be performed by our independent auditors; reviewing the scope of the annual audit undertaken by our independent auditors and the progress and results of their work; reviewing our financial statements, internal accounting and auditing procedures, and corporate programs to ensure compliance with applicable laws; and reviewing the services performed by our independent auditors to determine if the services rendered are compatible with maintaining the independent auditors' impartial opinion. Compensation Committee

Messrs. Horne, Smith, and Rosenberg currently comprise the Compensation Committee of our Board. Nominating and Governance Committee

Messrs. Smith, Horne, and Rosenberg currently comprise the Nominating and Governance Committee of our Board. Our Board has determined that each of the current members of the Nominating and Governance Committee meets the requirements for independence under the standards of the NYSE American. Mr. Rosenberg serves as Chairman of the Nominating and Governance Committee.

The Nominating and Governance Committee is responsible for, among other things, assisting our Board in identifying prospective director nominees and recommending nominees for each annual meeting of shareholders to the Board; developing and recommending governance principles applicable to our Board; overseeing the evaluation of our Board and management; and recommending potential members for each Board committee to our Board.

The Nominating and Governance Committee considers diversity when identifying Board candidates. In particular, it considers such criteria as a candidate's broad-based business and professional skills, experiences and global business

and social perspective.

In addition, the Committee seeks directors who exhibit personal integrity and a concern for the long-term interests of shareholders, as well as those who have time available to devote to Board activities and to enhancing their knowledge of the power-supply industry. Accordingly, we seek to attract and retain highly qualified directors who have sufficient time to attend to their substantial duties and responsibilities.

Board Leadership Structure and Role in Risk Oversight

Our Board as a whole is responsible for our risk oversight. Our executive officers address and discuss with our Board our risks and the manner in which we manage or mitigate such risks. While our Board has the ultimate responsibility for our risk oversight, our Board works in conjunction with its committees on certain aspects of its risk oversight responsibilities. In particular, our Audit Committee focuses on financial reporting risks and related controls and procedures; our Compensation Committee evaluates the risks associated with our compensation philosophy and programs and strives to create compensation practices that do not encourage excessive levels of risk taking that would be inconsistent with our strategies and objectives; and our Nomination and Governance Committee oversees risks associated with our Code of Ethical Conduct.

We currently separate the positions of President/Chief Executive Officer and Chairman of the Board. The Board believes that such structure is in the best interest of the Company at this time, as it allows for a more effective monitoring and objective evaluation of the performance of management.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely upon our review of Forms 3, 4 and 5 received by us, or written representations from certain reporting persons, we believe that during the during current fiscal year and the year ended December 31, 2016, all such filing requirements applicable to our officers, directors and ten percent shareholders were fulfilled with the following exceptions.

During the fiscal year 2016, Messrs. Horne, Smith and Rosenberg, and Ms. Ault each inadvertently filed late one Form 4 reporting one transaction and Mr. Kohn inadvertently file three Forms 4s late reporting eight transactions.

The Board has adopted the Code of Ethical Conduct that applies to our principal executive officer, principal financial officer, principal accounting officer, controller or person performing similar functions (collectively, the “**Financial Managers**”). The 2016 Stock Incentive Plan is in addition to the Company’s current 2012 Plan, which provides for the issuance of a maximum of 1,372,630 shares of the Company’s Common Stock to be offered to the Company’s directors, officers, employees, and consultants.

PROPOSAL NO. 3

APPROVAL OF THE REINCORPORATION OF THE COMPANY FROM CALIFORNIA TO DELAWARE

Overview

We are seeking shareholder approval to grant the Board discretionary authority to change the Company's state of incorporation from California to Delaware (the "**Reincorporation**"). If our shareholders approve this Proposal, the Board will have the sole discretion, until the 2018 Annual Meeting of Shareholders, to effectuate the Reincorporation. The Board has unanimously approved effectuating the Reincorporation, subject to approval by our shareholders, potentially securing certain third-party consents and approvals that the Board determines are in the best interests of the Company to obtain and other factors that the Board may consider. If authorized by the Board, the Reincorporation will be effectuated pursuant to the terms of a merger agreement providing for us to merge with and into a newly formed, wholly-owned subsidiary of the Company incorporated in the State of Delaware ("**DPW-Delaware**"). The name of the Company after the Reincorporation will be "DPW Holdings, Inc." Even if our shareholders approve this Proposal, the Board reserves the right not to effect the Reincorporation if the Board does not deem it to be in the best interests of the Company's shareholders. The Board believes that granting this discretion provides the Board with maximum flexibility to act in the best interests of the Company's shareholders. If this Proposal is approved by the shareholders, the Board will have the authority, in its sole discretion, without further action by the shareholders, to effect the Reincorporation. For purposes of the discussion below, the Company as it currently exists as a corporation organized under the laws of the State of California is referred to as "DPW-California" or as "we" or "us."

Shareholders are urged to read this proposal carefully, including the exhibits attached to this Proxy Statement, before voting on the Reincorporation Proposal. The following discussion summarizes material provisions of the proposed Reincorporation. This summary is subject to and qualified in its entirety by the Agreement and Plan of Merger (the "**Reincorporation Agreement**") that will be entered into in the event of Reincorporation by DPW-California and DPW-Delaware in substantially the form attached hereto as Appendix B, the Certificate of Incorporation of DPW-Delaware to be effective immediately following the Reincorporation (the "**Delaware Certificate**"), in substantially the form attached hereto as Appendix C, and the Bylaws of DPW-Delaware to be effective immediately following the Reincorporation (the "**Delaware Bylaws**"), in substantially the form attached hereto as Appendix D. Copies of the Articles of Incorporation of DPW-California filed in California, as amended to date (the "**California Articles**"), and the Bylaws of DPW-California, as amended to date (the "**California Bylaws**"), are publicly available as exhibits to the reports we have filed with the SEC and also are available for inspection at our principal executive offices. Additionally, we will send copies to shareholders free of charge upon written request to Digital Power Corporation, 48430 Lakeview Blvd., Fremont, California 94538-3158.

Reasons for the Reincorporation

Because state corporate law governs the internal affairs of a corporation, choice of a state domicile is an extremely important decision for a public company. Management and boards of directors of corporations look to state corporate law, and judicial interpretations of state law, to guide their decision-making on many key issues, including determining appropriate governance policies and procedures, ensuring that boards satisfy their fiduciary obligations to shareholders and evaluating key strategic alternatives for a corporation, including mergers, acquisitions and divestitures. Our Board and management believe that it is important for us to be able to draw upon well-established principles of corporate governance in making legal and business decisions. The primary purpose for effecting the Reincorporation, should the Board choose to effect it, would be the prominence and predictability of Delaware corporate law, which provides a reliable foundation on which our governance decisions can be based. We believe that our shareholders will benefit from the responsiveness of Delaware corporate law and the Delaware judiciary to their needs and to the needs of the corporation they own. The principal factors the Board considered in deciding to pursue and recommending that our shareholder approve the proposed Reincorporation are summarized below:

- greater predictability, flexibility and responsiveness of Delaware law to corporate needs;
- access to specialized courts;
- enhanced ability of Delaware corporations to attract and retain directors and officers; and
- more certainty with respect to indemnification and limitation of liability for directors.

Predictability, Flexibility and Responsiveness of Delaware Law. Delaware has adopted comprehensive and flexible corporate laws that are updated regularly to meet changing business circumstances. The Delaware legislature is sensitive to and experienced in addressing issues regarding corporate law and is especially responsive to developments in modern corporate law. The Delaware Secretary of State is viewed as particularly flexible and responsive in its administration of the filings required for mergers, acquisitions and other corporate transactions. Delaware has become a preferred domicile for many major American corporations and its corporate law and administrative practices have become comparatively well-known and widely understood. In addition, Delaware case law provides a well-developed body of law defining the proper duties and decision making processes expected of boards of directors in evaluating potential or proposed extraordinary corporate transactions. As a result of these factors, it is anticipated that Delaware law provides more efficiency, predictability and flexibility in our legal affairs than is presently available under California law.

Access to Specialized Courts. Delaware offers a system of specialized Chancery Courts to adjudicate cases involving corporate law issues. These courts have developed considerable expertise in dealing with corporate legal issues, as well as a substantial and influential body of case law construing Delaware's corporate law and have streamlined procedures and processes that help provide relatively quick decisions. In contrast, California does not have a similar specialized court established to hear only corporate law cases. Disputes involving questions of California corporate law are either heard by the California Superior Court, the general trial court in California that hears all manner of cases, from criminal to civil (including personal injury and marital dissolution cases) or, if federal jurisdiction exists, a federal district court.

Enhanced Ability to Attract and Retain Directors and Officers. The Board believes that the Reincorporation enhances our ability to attract and retain qualified directors and officers, as well as encourage directors and officers to continue to make independent decisions in good faith on behalf of the Company. We are in a competitive industry and compete for talented individuals to serve on our management team and on our Board. The majority of public companies are incorporated in Delaware. Not only is Delaware law more familiar to directors, it also offers greater certainty and stability from the perspective of those who serve as corporate officers and directors. The parameters of director and officer liability have been more extensively addressed in Delaware court decisions and, accordingly, are better defined and better understood than under California law. The Board believes that the Reincorporation provides appropriate protection for shareholders from possible abuses by directors and officers, while enhancing our ability to recruit and retain directors and officers. Please note that directors' personal liability is not, and cannot be, eliminated under Delaware law for intentional misconduct, bad faith conduct or any transaction from which the director derives an improper personal benefit. We believe that the better understood and comparatively stable corporate environment afforded by Delaware law would enable us to compete more effectively with other public companies in the recruitment of talented and experienced directors and officers.

More Certainty Regarding Indemnification and Limitation of Liability for Directors. In general, both California and Delaware permit a corporation to include a provision in its charter which reduces or limits the monetary liability of directors for breaches of fiduciary duties, subject to certain exceptions further discussed in "Elimination of Director Personal Liability for Monetary Damages" below. The increasing frequency of claims and litigations directed against directors and officers has greatly expanded the risks facing directors and officers of corporations in exercising their respective duties. The amount of time and money required to respond to such claims and to defend such litigation can be substantial and distracting to the directors and officers. It is our desire to reduce these risks to our directors and officers and to limit situations in which monetary damages can be recovered against directors so that we may continue to attract and retain qualified directors who otherwise might be unwilling to serve because of the risks involved. In addition, enhanced protection of directors is expected to reduce the extent to which directors, due to the threat of personal liability, are inhibited from making business decisions which, though entailing some degree of risks, are in the best interests of the Company and its shareholders. We believe that, in general, Delaware law provides greater protection to directors than California law, and that Delaware case law regarding a corporation's ability to limit director liability is more developed and provides more guidance than California law. However, the shareholders should be aware that such protection and limitation of liability inure to the benefit of directors, and the interest of the Board in recommending the approval of this Proposal may therefore not be aligned with the interests of the shareholders.

Mechanics of the Reincorporation

If the Proposal is approved by our shareholders, the Board, in its sole discretion, will determine whether the Reincorporation remains in the best interests of the Company and its shareholders. Should the Board choose to exercise this discretion and effect the Reincorporation, the Reincorporation will be effectuated by the merger of DPW-California with and into DPW-Delaware, a wholly-owned subsidiary of the Company that recently has been incorporated under the Delaware General Corporation Law (the “**DGCL**”) for purposes of the Reincorporation. The Company, as it currently exists as a California corporation, will cease to exist as a result of the merger, and DPW-Delaware will be the surviving corporation and will continue to operate our businesses as it exists prior to the Reincorporation. The existing holders of our Common Stock will own all of the outstanding shares of DPW-Delaware Common Stock, and there will be no change in number of shares owned by or in the percentage ownership of any shareholder as a result of the Reincorporation (but see “Differences between the Charters and Bylaws of DPW-California and DPW-Delaware – Classes of Common Stock” below). Assuming approval of the Reincorporation Proposal at the Annual Meeting and a decision by our Board to consummate with the Reincorporation, we currently anticipate that we will effectuate the Reincorporation as soon as reasonably practicable thereafter.

In the Reincorporation, all outstanding equity awards, including stock options to purchase DPW-California Common Stock and restricted stock units representing the right to receive DPW-California Common Stock upon vesting, that are outstanding under DPW-California's equity incentive plans, including employee benefit and incentive compensation plans immediately prior to the Reincorporation (the "**Equity Plans**"), as well as options, restricted stock units or other equity awards granted under the Equity Plans in the future, will automatically be assumed by DPW-Delaware and will represent an option or restricted stock unit, as applicable, to acquire or receive shares of DPW-Delaware on the basis of one share of DPW-Delaware Common Stock for each one share of DPW-California Common Stock relating to such award and, in the case of stock options, at an exercise price equal to the exercise price of the DPW-California option. Other than a change in the identity of the corporation to which the awards granted under the Equity Plans are subject, the terms and conditions of these equity awards will not change. In particular, the merger of DPW-California into DPW-Delaware will not be treated as a "Change in Control" under any of the Equity Plans, and therefore the provisions of the Equity Plans that provide for more favorable treatment to holders of awards in that event will not apply.

If and at the time and date on which the Reincorporation becomes effective (the "**Effective Time**"), we will be governed by the Delaware Certificate, the Delaware Bylaws and the DGCL. Although the Delaware Certificate and the Delaware Bylaws contain provisions that are similar to the provisions of the California Articles and the California Bylaws, they also include certain provisions that are different from the provisions contained in the California Articles and the California Bylaws or under the California General Corporation Law (the "**CGCL**"), as described in more detail below.

Changes to the Business of the Company as a Result of the Reincorporation

In addition to the change in corporate domicile, the Company will increase its number of authorized shares from 2,000,000 shares of Preferred Stock and 30,000,000 shares of Common Stock to 25,000,000 shares of preferred stock and 225,000,000 shares of Common Stock. The Reincorporation will not result in any change in the business, physical location, management, assets or liabilities of the Company, nor will it result in any change in location of our current officers or employees. Upon consummation of the Reincorporation, our daily business operations will continue as they are presently conducted at our principal executive offices located at 48430 Lakeview Blvd., Fremont, California 94538-3158. The consolidated financial condition and results of operations of DPW-Delaware immediately after consummation of the Reincorporation will be the same as those of DPW-California immediately prior to the consummation of the Reincorporation. In addition, upon the effectiveness of the Reincorporation, the Board of Directors of DPW-Delaware will be comprised of the persons who were elected to the Board of Directors of DPW-California at the Annual Meeting and will continue to serve until the next annual stockholders' meeting and until their successors are elected. There will be no changes in our executive officers or in their responsibilities. Upon effectiveness of the Reincorporation, DPW-Delaware will be the successor in interest to DPW-California, and the stockholders will become stockholders of DPW-Delaware, owning the same number of shares of its Common Stock as they owned of DPW-California's Common Stock.

All of our employee benefit and incentive compensation plans existing immediately prior to the Reincorporation, including the Equity Plans, will be continued by DPW-Delaware, and, as described above, each outstanding option to purchase shares of DPW-California's Common Stock and each outstanding restricted stock unit representing the right to receive one share of DPW-California Common Stock upon vesting will be converted into an option to purchase the same number of shares of DPW-Delaware's Common Stock or a restricted stock unit relating to the same number of shares of DPW-Delaware's Common Stock on the same terms, at the same price, and subject to the same conditions. The registration statements of DPW-California on file with the SEC immediately prior to the Reincorporation will be assumed by DPW-Delaware, and the shares of DPW-Delaware will continue to be listed on NYSE American.

IN THE EVENT OF A REINCORPORATION, DPW-CALIFORNIA SHARE CERTIFICATES AND BOOK-ENTRY POSITIONS WILL AUTOMATICALLY REPRESENT SHARES AND BOOK-ENTRY POSITIONS OF DPW-DELAWARE UPON THE EFFECTIVENESS OF THE REINCORPORATION. SHAREHOLDERS WHO HOLD DPW-CALIFORNIA SHARE CERTIFICATES WILL NOT BE REQUIRED TO SURRENDER OR EXCHANGE THEIR DPW-CALIFORNIA SHARE CERTIFICATES SOLELY IN CONNECTION WITH THE REINCORPORATION.

The Reincorporation Agreement provides that the Board may abandon the Reincorporation at any time prior to the Effective Time if the Board determines that the Reincorporation is inadvisable for any reason. For example, the DGCL or CGCL, may be changed to reduce the benefits that the Board is seeking to achieve through the Reincorporation, or the costs of operating as a Delaware corporation may be increased, although we do not know of any such changes under consideration. The Reincorporation Agreement may be amended at any time prior to the Effective Time, either before or after the shareholders have voted to adopt the proposal, subject to applicable law. We will re-solicit shareholder approval of the Reincorporation if the terms of the Reincorporation Agreement are materially changed.

Anti-Takeover Implications

Delaware, like many other states, permits a domestic corporation to adopt various measures designed to reduce a corporation's vulnerability to unsolicited takeover attempts through provisions in the corporate charter or bylaws or otherwise, and provides default legal provisions in the DGCL that apply to certain publicly held corporations that have not affirmatively opted out, which further limits such vulnerability. The Reincorporation was not proposed to prevent such a change in control; nor is it a response to any specific attempt to acquire control known to our Board.

Nevertheless, the Reincorporation may have certain anti-takeover effects by virtue of the Company being subject to Delaware law instead of California law. For example, Section 203 of the DGCL generally prohibits certain “business combinations” (including mergers, sales and leases of assets, issuances of securities and similar transactions) with “interested stockholders” (generally a person who beneficially owns 15% or more of a corporation’s voting stock) for three years following the date that a person becomes an interested stockholder, unless: (a) before such stockholder becomes an “interested stockholder,” the board of directors approves the business combination or the transaction that resulted in the stockholder becoming an interested stockholder; (b) upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the outstanding stock of the corporation at the time of the transaction (excluding stock owned by certain persons); or (c) at the time or after the stockholder became an interested stockholder, the board of directors and at least 66 2/3% of the outstanding voting stock of the corporation approves the transaction, excluding shares held by the interested stockholder.

Our Board believes that unsolicited takeover attempts may be unfair or disadvantageous to the Company and its shareholders because a non-negotiated takeover bid may: (a) be timed to take advantage of temporarily depressed stock prices; (b) be designed to foreclose or minimize the possibility of more favorable competing bids; (c) involve the acquisition of only a controlling interest in our Company’s stock or a two-tiered bid, without affording all shareholders the opportunity to receive the same economic benefits; or (d) be predicated on confidential and/or proprietary information that is not generally known by our shareholders, thereby creating a disparity of information that could negatively prejudice our shareholders. By contrast, in a transaction in which an acquirer must negotiate with our Company, our Board would evaluate our Company’s assets and business prospects to attempt to force the bidder to offer consideration equal to the true value of our Company, or to withdraw the bid.

Although our Board believes the advantages of the Reincorporation outweigh the disadvantages, our Board has carefully considered and will continue to carefully consider the detriments of the Reincorporation proposal. These include the possibility that future takeover attempts that are not approved by our Board, but which a majority of our shareholders may nonetheless deem to be in its best interests, may be discouraged. In addition, to the extent that the provisions of the DGCL would better enable the board of directors of DPW-Delaware to resist a takeover or a change in control, it could become more difficult to remove existing directors and management.

Possible Negative Considerations

Notwithstanding the belief of the Board as to the benefits to our shareholders of the Reincorporation, Delaware law has been criticized by some commentators and shareholders on the grounds that it does not afford minority shareholders the same substantive rights and protections as are available in certain other states, including California. In addition, the Delaware Certificate and the Delaware Bylaws, in comparison to the California Articles and the California Bylaws, contain certain provisions that may have the effect of reducing the rights of minority shareholders. The Reincorporation may have the effect of making it more difficult for minority shareholders to call special meetings of shareholders. In addition, the minimum annual franchise taxes payable by us in Delaware may be greater than in California.

It should also be noted that the interests of the Board of Directors and management in voting on the Reincorporation proposal may not be the same as those of shareholders since some substantive provisions of California and Delaware law apply only to directors and officers. See “Interests of Our Directors and Executive Officers in the Reincorporation” below. For a comparison of shareholders’ rights and the material substantive provisions that apply to the Board of Directors and management under Delaware and California law, see “Differences between the Charters and Bylaws of DPW-California and DPW-Delaware” below.

The members of the Board have considered the potential disadvantages of the Reincorporation and they have unanimously concluded at this time that the potential benefits of the Reincorporation outweigh the possible disadvantages of the Reincorporation.

Differences between the Charters and Bylaws of DPW-California and DPW-Delaware

The following is a comparison of certain key provisions in the Articles of Incorporation and the Bylaws of DPW-California and comparable provisions in the Certificate of Incorporation and the Bylaws of DPW-Delaware, as well as certain provisions of California law and Delaware law. These comparisons summarize certain difference that shareholders may deem important, but are not intended to list all differences, and is qualified in its entirety by reference to those documents and to the DGCL and CGCL. Shareholders are encouraged to read the Certificate of Incorporation and the Bylaws of DPW-Delaware and the Articles of Incorporation and the Bylaws of DPW-California, in their entirety. Copies of the Certificate of Incorporation and the Bylaws of DPW-Delaware are attached as Appendices C and D, respectively, to this proxy statement, and the Articles of Incorporation and the Bylaws of DPW-California are filed publicly as exhibits to the periodic reports we have previously filed with the SEC.

Provision	DPW-California	DPW-Delaware
Authorized Shares	<p>30,000,000 shares of Common Stock, no par value per share.</p> <p>1,000,000 shares of Preferred Stock, no par value per share.</p>	<p>225,000,000 shares of Common Stock, par value \$0.001 per share, consisting of 200,000,000 shares of Class A Common Stock and 25,000,000 shares of Class B Common Stock.</p>
Classes of Common Stock	<p>Only one class of Common Stock</p>	<p>25,000,000 shares of Preferred Stock, par value \$0.001 per share.</p> <p>Two classes of Common Stock. The Class A Common Stock is substantially identical to the Company's Common Stock; the Class B Common Stock carries the voting power of 10 shares of Class A Common Stock.</p>
Vote Required to Approve Merger or Sale of Company	<p>Except in limited circumstances, California law requires the affirmative vote of a majority of the outstanding shares entitled to vote in order to approve a merger of the corporation or a sale of all or substantially all the assets of the corporation, including, in the case of a merger, the affirmative vote of each class of outstanding stock. The California Articles do not include any voting requirements with respect to the approval of a merger or sale.</p>	<p>Substantially similar to California. The Delaware Certificate does not include super-majority voting requirements with respect to the approval of a merger or such an asset sale.</p>
50/90 Rule Restriction on Cash Mergers	<p>Under California law, a merger may not be consummated for cash if the purchaser owns more than 50%, but less than 90%, of the then outstanding shares (the "50/90 Rule"), unless either (i) all the shareholders consent, which is not practical for a public company, or (ii) the California Department of Business Oversight approves the merger.</p> <p>The 50/90 Rule may make it more difficult for certain acquirors to make an-all cash acquisition of the Company if the acquisition were to be opposed by the Board of DPW-California. Specifically, the 50/90 rule</p>	<p>Delaware law does not have a provision similar to California's 50/90 Rule.</p>

encourages an acquiror making an unsolicited tender offer to either tender for less than 50% of the outstanding shares or more than 90% of the outstanding shares. A purchase by such acquiror of less than 50% of the outstanding shares, however, does not allow the acquiror to gain ownership of a majority of the outstanding shares needed to approve a second step merger (for purposes of enabling the acquiror to acquire the remaining shares of the Company) and, therefore, creates risk for such an acquiror that such a favorable vote will not be obtained. On the other hand, a tender offer conditioned upon receipt of tenders from at least 90% of the outstanding shares also creates risk for the acquiror, because it is likely to be very difficult to obtain tenders from holders of at least 90% of the outstanding shares. Consequently, it is possible that these risks would discourage some potential acquirors from pursuing an all cash acquisition of the Company that is opposed by the Board of Directors.

Restrictions on Statutory Mergers or Company Sales Transactions with Interested Shareholders

Section 1203 of the CGCL, which applies to mergers or corporate acquisition transactions with interested shareholders or their affiliates, makes it a condition to the consummation of a merger or other acquisition transaction with an interested shareholder that an affirmative opinion be obtained in writing as to the fairness of the consideration to be received by the shareholders of the corporation being acquired.

Section 203 of the DGCL generally prohibits “business combinations,” including mergers, sales and leases of assets, issuances of securities and similar transactions, by a corporation or a subsidiary with an “interested stockholder” who beneficially owns 15% or more of a corporation’s voting stock, within three years after the person or entity becomes an interested stockholder, unless certain conditions, which are described in more detail above, are satisfied. Delaware corporation may elect not to be governed by Section 203 of the DGCL; however, DPW-Delaware has not made such an election.

Section 203 makes certain types of unfriendly or hostile corporate takeovers, or other non-board approved transactions involving a corporation and one or more of its significant stockholders, more difficult.

Bylaw Amendments

The California Bylaws may be amended by the affirmative vote of a majority of the outstanding shares or by action of the Board of Directors, except (i) a bylaw or amendment changing the authorized number of directors (except to fix the authorized number of directors pursuant to a by-law providing for a variable number of directors); and (ii) if the California Articles set forth the number of authorized directors of the corporation, the authorized number of directors may be changed only by an amendment as required by applicable law.

Under Delaware law, the stockholders possess the right to amend, alter or repeal the bylaws. In addition, the Delaware Certificate provides the Board the power to amend, alter or repeal the bylaws. The Delaware Bylaws may be amended by the Board or by the affirmative vote of the holders of a majority of the voting power of the Company’s outstanding shares that are entitled to vote on the amendment.

Shareholder Action by Written Consent

The California Bylaws provide that any action that may be taken at any annual or special meeting of shareholders may be taken without a meeting and without prior notice if a consent in writing, setting forth the actions so taken, is filed with the Secretary of the Company after having been signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted.

The Delaware Bylaws provide that any action that may be taken at any annual or special meeting of stockholders may be taken without a meeting and without prior notice if a consent in writing, setting forth the action so taken, is signed by holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and is delivered to the Company.

The California Bylaws provide that, in the case of election of directors, such a consent shall be effective only if signed by the holders of all outstanding shares entitled to vote for the election of directors and that shareholders may elect a director to fill a vacancy, other than a vacancy created by removal, by the written consent of a majority of all outstanding shares entitled to vote for the election of directors.

Ability of Shareholders to Call

As prescribed by California law, the California Bylaws provide that a special meeting of shareholders may be called by the Board, the Chairman of the Board, the President, or holders of shares entitled to cast not less than 10% of the votes at such meeting.

Under the DGCL, a special meeting of shareholders may be called by the board of directors or by any person authorized to do so in the certificate of incorporation or the bylaws.

Special Meetings

The Delaware Bylaws provide that a special meeting of shareholders may be called by the Board or stockholders owning shares representing not less than 20% of the voting power of the stock entitled to vote at such meeting.

Exclusive Forum Selection Provision

The California Bylaws do not contain an exclusive forum selection provision that requires certain legal actions, including shareholder derivative lawsuits, to be brought in courts located in California.

The Delaware Certificate and Bylaws contain an exclusive forum selection provision that requires certain legal actions, including stockholder derivative lawsuits, to be brought in courts located in Delaware.

Shareholder Proposal Notice

The California Bylaws provide that a written notice containing the name of any person to be nominated by any shareholder for election as a director of the Company or containing any shareholder proposal to be presented at an upcoming shareholders meeting must generally be received by the Secretary of the Company not less than 70 days prior to the first anniversary of the date the Company's proxy statement for the prior year's annual meeting was first released to shareholders.

The Delaware Bylaws contain notice provisions that are similar to those contained in the California Bylaws that require advance notice in order for a stockholder submitted director nomination or business proposal (other than proposals included in DPW-Delaware's notice of meeting pursuant to Rule 14a-8 promulgated under the Securities Exchange Act of 1934) to be properly brought before a stockholder meeting. These notice provisions are similar to the provisions in the California Bylaws except that, to be timely, the notice must be generally delivered not earlier than the close of business on the 120th day prior to such meeting and not later than the close of business on the later of the 90th day prior to such meeting or the 10th day following the day on which public announcement is first made of the date of the meeting.

Provisions

Change in Number of Directors

Under California law, a change in the number of directors must generally be approved by the shareholders, but the board of directors may fix the exact number of directors within a stated range set forth in the articles of incorporation or the bylaws, if the range has been approved by the

Under the DGCL, the number of directors will be fixed by or in the manner provided in the bylaws, unless the Delaware Certificate fixes the number of directors.

shareholders.

The California Bylaws provide that the number of directors of the Company shall not be less than five nor more than nine, with the exact number of directors to be fixed, within the limit specified, by approval of the board or the shareholders in the manner provided in the by-laws and Section 204(a) of the California Corporations Code.

The Delaware Certificate does not fix the number of directors, but provides that the Board may by resolution fix the number of directors, subject to any minimum and maximum number of directors set forth in the Bylaws.

Classified Board	The California Bylaws do not provide for a classified board. Instead, directors are elected annually.	The Delaware Certificate does not provide for a classified board. As a result, DPW-Delaware’s directors will be elected annually.
Filling Vacancies on the Board	The California Bylaws provide that vacancies on the Board not caused by removal may be filled by a majority of the directors then in office, regardless of whether they constitute a quorum, or by a sole remaining director. The shareholders may elect a director or directors at any time to fill any vacancy or vacancies not filled by the directors, but any such election other than to fill a vacancy created by removal, if by written consent, shall require the consent of the holders of a majority of the outstanding shares entitled to vote thereon	The Delaware Bylaws provide that any vacancies on the Board shall, subject to the right of the holders of any series of Preferred Stock and unless the Board otherwise determines, be filled solely by the affirmative vote of a majority of the directors then in office.
Removal of Directors	Under California law, any or all of the directors may be removed without cause if the removal is approved by the outstanding shares; <i>provided</i> that no director may be removed (unless the entire board is removed) when the votes cast against removal, or not consenting in writing to the removal, would be sufficient to elect the director if voted cumulatively at an election at which the same total number of votes were cast (or, if the action is taken by written consent, all shares entitled to vote were voted) and the entire number of directors authorized at the time of the director’s most recent election were then being elected.	Under Delaware law, directors may be removed with or without cause, provided that directors may only be removed for cause if a corporation has either a classified board or cumulative voting. Because the DPW-Delaware Certificate does not establish a classified board or authorize cumulative voting, directors may be removed with or without cause.
Cumulative Voting; Vote Required	The California Articles and the California Bylaws do not provide for cumulative voting.	The Delaware Certificate does not provide for cumulative voting.
to Elect Directors; Majority Vote	California law provides that if any shareholder has given notice of his or her intention to cumulate votes for the election of directors, all other shareholders of the corporation are also entitled to cumulate their votes at such election. In the absence of such notification, directors are elected by a plurality of the votes cast. California law permits a corporation that is listed on a national securities exchange to amend its articles or bylaws to eliminate cumulative voting by approval of the board of directors and of the outstanding shares voting together as a single class.	Under Delaware law, cumulative voting is not permitted unless a corporation provides for cumulative voting rights in its certificate of incorporation. The default voting standard for the election of directors under Delaware law is a plurality vote; however, the certificate of incorporation or bylaws may specify a different vote required for the election of directors.

Indemnification

California law requires indemnification when the indemnitee has defended the action successfully on the merits. Expenses incurred by an officer or director in defending an action may be paid in advance, if the director or officer undertakes to repay such amounts if it is ultimately determined that he or she is not entitled to indemnification. California law authorizes a corporation to purchase indemnity insurance for the benefit of its officers, directors, employees and agents whether or not the corporation would have the power to indemnify against the liability covered by the policy.

California law permits a corporation to provide rights to indemnification beyond those provided therein to the extent such additional indemnification is authorized in the corporation's articles of incorporation. Thus, if so authorized, rights to indemnification may be provided pursuant to agreements or bylaw provisions which make mandatory the permissive indemnification provided by California law.

The California Articles and Bylaws authorize indemnification to the fullest extent permissible under California law.

The DGCL generally requires a corporation to indemnify a current or former director or officer against expenses incurred in defending a proceeding related to such person's service to the corporation to the extent such person has been successful on the merits or otherwise in such proceeding. In addition, Delaware law generally provides that a corporation may indemnify, among others, its present and former directors and officers against expenses (including attorney's fees), judgments, fines and amounts paid in settlement of actions, if certain requirements are met including that the individual acted in good faith and in a manner reasonably believed to be in, or not opposed to, the best interests of the corporation; except that no indemnification may be paid for judgments and settlements in actions by or in the right of the corporation.

A Delaware corporation generally may not indemnify a person against expenses to the extent the person is adjudged liable to the corporation.

The Delaware Bylaws generally provide that DPW-Delaware will indemnify, to the fullest extent authorized by the DGCL, among others, any person who was or is a party to any threatened, pending or completed action, suit or proceeding by reason of the fact

Elimination of Director Personal Liability for Monetary Damages

California law permits a corporation to eliminate the personal liability of directors for monetary damages, except where such liability is based on:

- Intentional misconduct or knowing and culpable violation of law;
- Acts or omissions that a director believes to be contrary to the best interests of the corporation or its shareholders or that involve the absence of good faith on the part of the director;

- Receipt of an improper personal benefit;

Acts or omissions that show reckless disregard for the director's duty to the corporation or its shareholders, where the director in the ordinary course of performing a director's duties should be aware of a risk of serious injury to the corporation or its shareholders;

- Acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to the corporation and its shareholders;

Transactions between the corporation and a director who has a material financial interest in such transaction; or

- Liability for improper distributions, loans or guarantees.

that such person is or was a director or officer of the Company against all expense, liability and loss (including attorneys' fees) incurred by such person in connection, therewith, subject to certain exceptions.

The DGCL permits a corporation to eliminate the personal liability of directors for monetary damages, except where such liability is based on:

- Breaches of the director's duty of loyalty to the corporation or its shareholders;
- Acts or omissions not in good faith or involving intentional misconduct or knowing violations of law;
- The payment of unlawful dividends or unlawful stock repurchases or redemption under Section 174 of the DGCL; or

Transactions in which the director derived an improper personal benefit.

Such a limitation of liability provision also may not limit a director's liability for violation of, or otherwise relieve the Company or the directors from the necessity of complying with, federal or state securities laws, or affect the availability of non-monetary remedies such as injunctive relief or rescission.

The Delaware Certificate eliminates the liability of directors for monetary damages to the fullest extent permissible under the DGCL.

The California Articles eliminate the liability of directors for monetary damages to the fullest extent permissible under California law.

Dividends and Repurchases of Shares

Under California law, a corporation may not make any distribution to its shareholders or repurchase its shares unless either:

The DGCL is more flexible than California law with respect to payment of dividends and the implementation of share repurchase programs. The DGCL generally provides that a corporation may redeem or repurchase its shares out of its surplus. Surplus is defined as the excess of a corporation's net assets (i.e., its total assets minus its total liabilities) over a corporation's statutory capital, which the Board may generally increase or decrease by resolution, subject to a statutory requirement that at a minimum a corporation's capital must equal the aggregate par

value of its
issued shares.

The amount of retained earnings of the corporation immediately prior to the distribution or payment of the price of the shares being repurchased equals or exceeds the sum of (i) the amount of the proposed distribution, *plus* (ii) the preferential dividends arrears amount, if any; or
Immediately after the distribution or share repurchase, the value of the corporation's assets would equal or exceed the sum of its total liabilities, *plus* the preferential rights amount, if any.

For purposes of determining whether a California corporation meets either of these tests, the determination may be based on any of the following:

- The corporation's financial statements;
- A fair valuation; or
- Any other method that is reasonable under the circumstances.

These tests are applied to California corporations on a consolidated basis.

Dissolution

Under California law, holders of 50% or more of a corporation's total voting power may authorize the corporation's dissolution, with or without approval of the corporation's board of directors, and this right may not be modified by the articles of incorporation.

Under the DGCL, unless the Board of Directors approves the proposal to dissolve, the dissolution must be unanimously approved by all the stockholders entitled to vote on the matter. Only if the dissolution is initially approved by the Board of Directors may the dissolution be approved by a simple majority of the outstanding shares entitled to

vote. The DGCL allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with such a board-initiated dissolution, but the Delaware Certificate contains no such supermajority voting requirement.

Delaware courts have upheld the right of Delaware corporations to include forum selection provisions in their bylaws. Such provisions normally provide that shareholders bringing derivative claims or claims alleging breaches of fiduciary duties arising from the DGCL or otherwise implicating the internal affairs of the corporation be brought exclusively in Delaware state or federal courts.

Forum Selection	Not addressed.	Under the Delaware Certificate, unless we consent in writing to the selection of an alternative forum, the Delaware Court of Chancery will be the sole and exclusive forum for any derivative action or proceeding brought on behalf of the corporation, any action asserting a claim of breach of a fiduciary duty owed by any director, officer, other employee or stockholder of the corporation to the corporation or the corporation's stockholders, any action asserting a claim arising pursuant to any provision of the DGCL or as to which the DGCL confers jurisdiction upon the Delaware Court of Chancery, any action asserting a claim arising pursuant to any provision of our Delaware Certificate or Delaware Bylaws, or any action asserting a claim governed by the internal affairs doctrine.

Interest of the Company's Directors and Executive Officers in the Reincorporation

The shareholders should be aware that certain of our directors and executive officers may have interests in the transaction that are different from, or in addition to, the interests of the shareholders generally. For example, the Reincorporation may provide officers and directors of the Corporation with more clarity and certainty in the reduction of their potential personal liability in their fiduciary roles for the Corporation, and to strengthen the ability of directors to resist takeover bids on behalf of shareholders. The Board has considered these interests, among other matters, in reaching its decision to recommend that our shareholders vote in favor of this proposal.

Certain U.S. Federal Income Tax Consequences

The following discussion summarizes certain U.S. federal income tax consequences of the Reincorporation to holders of our Common Stock. The discussion is based on the Internal Revenue Code of 1986, as amended (the "**Code**"), regulations promulgated under the Code by the U.S. Treasury Department (including proposed and temporary regulations), rulings, current administrative interpretations and official pronouncements of the Internal Revenue Service (the "**IRS**"), and judicial decisions, all as currently in effect and all of which are subject to differing interpretations or to change, possibly with retroactive effect. Such change could materially and adversely affect the U.S. federal income tax consequences described below. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described herein.

This discussion is for general information only, and does not purport to discuss all aspects of U.S. federal income taxation that may be important to a particular holder in light of its investment or tax circumstances or to holders subject to special tax rules, such as partnerships, subchapter S corporations or other pass-through entities (and investors in such entities), banks, financial institutions, tax-exempt entities, insurance companies, regulated investment companies, real estate investment trusts, trusts and estates, dealers in stocks, securities or currencies, traders in securities that have elected to use the mark-to-market method of accounting for their securities, persons holding our Common Stock as part of an integrated transaction, including a “straddle,” “hedge,” “constructive sale,” or “conversion transaction,” persons whose functional currency for tax purposes is not the U.S. dollar, former citizens or residents of the United States, persons who acquired our Common Stock pursuant to the exercise of stock options or otherwise as compensation, persons who hold our Common Stock as qualified small business stock within the meaning of Section 1202 of the Code and persons subject to the alternative minimum tax provisions of the Code. This discussion does not address any U.S. federal taxes (other than U.S. federal income taxes), any state or local taxes, or of any foreign taxes, that may be applicable to a particular holder.

This discussion is directed solely to holders that hold our Common Stock as capital assets within the meaning of Section 1221 of the Code, which generally means as property held for investment. In addition, the following discussion only addresses “U.S. persons” for U.S. federal income tax purposes, generally defined as beneficial owners of our Common Stock who are, for U.S. federal income tax purposes:

• Individuals who are citizens or residents of the United States;

• Corporations created or organized in or under the laws of the United States or of any state of the United States or the District of Columbia;

• Estates the income of which is subject to U.S. federal income taxation regardless of its source;

• Trusts if a court within the United States is able to exercise primary supervision over the administration of any such trust and one or more U.S. persons have the authority to control all substantial decisions of such trust; or

• Trusts in existence on August 20, 1996 that have valid elections in effect under applicable Treasury regulations to be treated as U.S. persons.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our Common Stock, the U.S. federal income tax treatment of a partner generally will depend on the status of the partner and the activities of the partnership. A partner of a partnership holding our Common Stock should consult its own tax advisor regarding the U.S. federal income tax consequences to the partner of the Reincorporation.

This discussion does not purport to be a complete analysis of all of the Reincorporation's tax consequences that may be relevant to holders. We urge you to consult your own tax advisor regarding your particular circumstances and the U.S. federal income and other federal tax consequences to you of the Reincorporation, as well as any tax consequences arising under the laws of any state, local, foreign or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws.

We have not requested a ruling from the IRS or an opinion of counsel regarding the U.S. federal income tax consequences of the Reincorporation. However, the Reincorporation is intended to qualify as a tax-free reorganization under Section 368(a) of the Code. Assuming that the Reincorporation qualifies as a tax-free reorganization under Section 368(a) of the Code, and subject to the qualifications and assumptions described in this proxy statement: (a) holders of DPW-California Common Stock will not recognize any gain or loss as a result of the consummation of the Reincorporation, (b) the aggregate tax basis of the DPW-Delaware Common Stock held by each holder immediately following the consummation of the Reincorporation will equal the aggregate tax basis of the DPW-California Common Stock converted therefor and (c) the holding period of the DPW-Delaware Common Stock held by each holder following the consummation of the Reincorporation will include the period during which such holder held the DPW-California Common Stock converted therefor.

Required Vote and Board Recommendation

Approval of the proposed change in corporate domicile from California to Delaware requires the receipt of the affirmative vote of the holders of a majority of the Company's issued and outstanding shares of Common Stock as of the Record Date.

Shareholders are urged to read this proposal carefully, including all of the related Exhibits attached to this Proxy Statement, before voting on Shareholder approval of the Reincorporation. The discussion above is qualified in its entirety by the Merger Agreement in substantially the form attached hereto as Appendix B, the Delaware Certificate in substantially the form attached hereto as Appendix C, and the Delaware Bylaws in substantially the form attached hereto as Appendix D.

The Board unanimously recommends a vote "FOR" the approval of the proposed change in corporate domicile from California to Delaware

PROPOSAL NO. 4

APPROVAL OF THE CONVERSION OF UP TO 500,000 SHARES OF SERIES B PREFERRED STOCK INTO SHARES OF COMMON STOCK AND THE EXERCISE OF WARRANTS TO PURCHASE SHARES OF COMMON STOCK IN ORDER TO COMPLY WITH RULE 713 OF THE NYSE AMERICAN

Terms of the Transaction

On March 9, 2017, the Company entered into a Preferred Stock Purchase Agreement (the “**Preferred Stock Purchase Agreement**”) with Philou Ventures, LLC (“**Philou**”). Philou is the Company’s largest shareholder and Kristine Ault, a director of the Company, controls and is a Manager of Philou. Pursuant to the terms of the Preferred Stock Purchase Agreement, Philou will invest up to \$5,000,000 in the Company through the purchase of Series B Convertible Preferred Stock (the “**Series B Preferred Stock**”) over the Term, as specified herein. In addition, for each share of Series B Preferred Stock purchased by Philou, Philou will receive warrants (the “**Series B Warrants**”) to purchase shares of Common Stock in a number equal to the stated value of each share of Series B Preferred Stock of \$10.00 purchased divided by \$0.70 at an exercise price equal to \$0.70 per share of Common Stock (the “**Series B Conversion Price**”). In connection with the Preferred Stock Purchase Agreement, the Company entered into a registration rights agreement with Philou.

For each share of Series B Preferred Stock purchased by Philou, Philou will receive a Series B Warrant to purchase shares of Common Stock in a number equal to the stated value of all shares of Series B Preferred Stock sold divided by \$0.70 for an exercise price equal to \$0.70 per share (the “**Series B Warrant Exercise Price**”). The exercise period will begin on the six month after, and end on the fifth year and six month anniversary of, the date of issuance. The exercise price of the Series B Warrant is subject to adjustment for stock splits, stock dividends, combinations or similar events. The Series B Warrant may be exercised for cash or, upon the failure to maintain an effective registration statement, on a cashless basis.

Pursuant to the Preferred Stock Purchase Agreement, the Company agreed to recommend that its shareholders approve the Reincorporation at its next annual meeting. In addition, the Company agreed to use its best efforts to obtain its shareholders’ approval, pursuant to NYSE American Rule 713, for the actions contemplated by the Preferred Stock Purchase Agreement as soon as possible.

Each share of Series B Preferred Stock shall be purchased at \$10.00 up to a maximum issuance of 500,000 shares of Series B Preferred Stock. Philou guaranteed that it would purchase, no later than May 31, 2017, the greater of: (i) 100,000 shares of Series B Preferred Stock or (ii) a sufficient number of shares of Series B Preferred Stock to ensure that the Company has sufficient stockholders’ equity to meet the minimum continued listing standards of the NYSE

American. Philou has purchased 100,000 shares of Series B Preferred Stock. In addition, for as long as any shares of Series B Preferred Stock remain outstanding during the Term, Philou agreed to purchase additional shares of Series B Preferred Stock in a sufficient amount in order for the Company to meet the NYSE American's minimum stockholders' equity continued listing requirement subject to the maximum number of 500,000 shares of Series B Preferred Stock (collectively, "**Guaranteed Purchases**"). In addition, at any time during the Term, Philou may, in its sole and absolute discretion, purchase additional shares of Series B Preferred Stock, up to the 500,000 share maximum ("**Voluntary Purchases**"). All consideration for Voluntary Purchases shall be delivered through a series of varying payments ("**Payments**") by Philou, at its sole and absolute discretion, during the period commencing on the closing date and ending 36 months therefrom (the "**Term**"). The Company shall have the right to request, with 90-day written notice to Philou, that Guaranteed Purchases be accelerated to meet deadlines for maintaining the minimum stockholders' equity required by the NYSE American. The Series B Preferred Stock shall not be callable by the Company for 25 years from the closing date.

Pursuant to the Preferred Stock Purchase Agreement, at any time while no fewer than one hundred thousand (100,000) Series B Preferred Stock are issued and outstanding and held by Philou, Philou shall have the right to participate in the Company's future financings under substantially the same terms and conditions as other investors in those respective financings in order to maintain its then percentage ownership interest in the Company. Philou's right to participate in such financings shall accrue and accumulate provided that it still owns at least 100,000 shares of Series B Preferred Stock.

In order to comply with NYSE American Rule 713, Philou may not (i) vote the shares of Series B Preferred Stock; (ii) convert such shares of Series B Preferred Stock into shares of Common Stock or (iii) exercise its rights under the Series B Warrant until the requirement of NYSE American Rule 713 has been met at a meeting, or by the requisite written consent, of the holders of the outstanding shares of Common Stock.

Description of the Series B Preferred Stock

Each share of Series B Preferred Stock has a stated value of \$10.00 per share and may be convertible at the holder's option into shares of Common Stock of the Company at a conversion rate of \$0.70 per share, subject to customary adjustment, upon the earlier to occur of: (i) 60 months from the closing date, or (ii) upon the filing by the Company of one or more periodic reports that, singly or collectively, evidence(s) that the Company's gross revenues have reached no less than \$10,000,000 in the aggregate, on a consolidated reporting basis, over four consecutive quarters in accordance with U.S. generally accepted accounting principles.

The Series B Conversion Price will be subject to standard anti-dilution provisions in connection with any stock split, stock dividend, subdivision or similar reclassification of the Common Stock.

Each share of Series B Preferred Stock shall have the right to receive dividends equal to one ten millionth (0.0000001) of the Company's EBITDAS calculated for a particular calendar year. Assuming the purchase of the entire \$5,000,000 of shares of Series B Preferred Stock, the holders thereof will be entitled to receive dividends equal to five percent (5%) in the aggregate of EBITDAS. Payment of dividends shall be calculated for a calendar year, payable on a quarterly basis, with payments to occur no later than 90 days in arrears from each reporting period subject to a year-end reconciliation. EBITDAS shall mean earnings before interest, taxes, depreciation, amortization, and stock-based compensation.

Philou shall have the right to designate a number of directors to the Company's Board of Directors equal to a percentage determined by the number of shares of Series B Preferred Stock (determined on an "as converted" basis) divided by the sum of the number of shares of Common Stock outstanding plus the number of shares of Series B Preferred Stock outstanding as determined on an as converted basis. Philou's percentage to designate a number of directors shall be determined each time Philou makes a purchase of shares of Series B Preferred Stock and cannot be decreased unless Philou converts or sells all or part of its shares of Series B Preferred Stock, in which case the number of directors that Philou may designate will be re-calculated. The right to designate a director shall be a contractual right granted to Philou and not to any potential subsequent owner of shares of Series B Preferred Stock.

In the case for the election of directors, the Series B Preferred Stock shall be voted on an "as converted" basis together with the Common Stock. In all other cases, the Series B Preferred Stock shall be voted in accordance with California law.

Each share of Series B Preferred Stock shall have dividend and liquidation rights in priority to any shares of Common Stock, the Company's Series A Preferred Stock (of which none are outstanding) and other subordinated securities.

At such time as (i) all shares of Common Stock issuable upon conversion of all outstanding shares of Series B Preferred Stock (the “**Series B Conversion Shares**”) shall have been registered for resale pursuant to an effective Registration Statement covering such Series B Conversion Shares, (ii) but no earlier than the twenty-fifth (25th) anniversary of the effective date, the shares of Series B Preferred Stock shall be subject to redemption in cash at the option of the Company in an amount per share equal to 120% of the greater of (a) the stated value plus all accrued and unpaid dividends, if any and (b) the fair market value of such shares of Series B Preferred Stock.

Why the Company Needs Shareholder Approval

Rule 713 of the NYSE American requires shareholder approval of a transaction, other than a public offering, involving the sale, issuance or potential issuance by an issuer of Common Stock (or securities convertible into or exercisable for Common Stock) at a price less than the greater of book or market value which together with sales by officers, directors or principal shareholders of the issuer equals 20% or more of presently outstanding Common Stock, or equal to 20% or more of presently outstanding stock for less than the greater of book or market value of the stock, or when the issuance or potential issuance of additional shares will result in a change of control of the issuer. The initial Conversion Price of the Series B Preferred Stock and the initial Exercise Price of the Warrants were higher than the market price of our Common Stock on the execution date of the Preferred Stock Purchase Agreement but may be lower than the market price upon conversion.

Accordingly, Philou is prohibited from converting the Series B Preferred Stock and/or exercising the Series B Warrants and receiving shares of the Company’s Common Stock unless shareholder approval is obtained for the Preferred Stock Purchase Agreement.

Effect of Proposal on Current Shareholders

If this Proposal No. 4 is adopted, based on the Series B Conversion Price and Series B Warrant Exercise Price (and provided the Company has sufficient authorized shares of Common Stock to allow for such conversion or exercise), up to a maximum of 2,857,142 shares of Common Stock would be issuable upon conversion of Series B Preferred Stock and exercise of the Series B Warrants. Based on the number of shares of Common Stock outstanding as of the Record Date, such shares would represent approximately 17.1% of our total outstanding shares (giving effect to such issuance). The issuance of such shares may result in significant dilution to our shareholders, and afford them a smaller percentage interest in the voting power, liquidation value and aggregate book value of the Company. The sale or any resale of the Common Stock issued upon conversion of Series B Preferred Stock and exercise of the Series B Warrants could cause the market price of our Common Stock to decline as well as result in substantial dilution to other shareholders since Philou may ultimately convert and sell the full amount issuable on conversion. This means that our current shareholders will own a smaller interest in our company and will have less ability to influence significant corporate decisions requiring shareholder approval.

Further Information.

The terms of the Certificate of Determination for the Series B Preferred Stock and the Preferred Stock Purchase Agreement, the Form of Warrants, and Form of Registration Rights Agreement are complex and only briefly summarized above. For further information, please refer to the descriptions contained in the Company's Current Report on Form 8-K filed with the SEC on March 9, 2017, and the transaction documents filed as exhibits to such report. The discussion herein is qualified in its entirety by reference to such filed transaction documents.

Required Vote and Board Recommendation

The issuance of the Series B Preferred Stock requires the receipt of the affirmative vote of a majority of the shares of the Company's Common Stock present in person or by proxy and voting at the Annual Meeting.

The Board unanimously recommends a vote "FOR" the Approval of the conversion of up to 500,000 shares of Series B Preferred Stock into shares of Common Stock and the exercise of warrants to purchase shares of Common Stock in order to comply with Rule 713 of the NYSE American.

PROPOSAL NO. 5

APPROVAL OF THE ISSUANCE OF COMMON STOCK UPON THE CONVERSION OF 378,776 SHARES OF THE COMPANY'S SERIES D PREFERRED STOCK AND UPON THE EXERCISE OF WARRANTS TO PURCHASE UP TO 1,000,000 SHARES OF COMMON STOCK, IN ACCORDANCE WITH THE SHARE EXCHANGE AGREEMENT, DATED APRIL 28, 2017, IN ORDER COMPLY WITH RULE 712 OF THE NYSE AMERICAN AND CALIFORNIA LAW

Terms of the Transaction

On April 28, 2017, the Company entered into a Share Exchange Agreement (the “**Share Exchange Agreement**”) with Microphase Corporation, a Delaware corporation (“**MPC**”); Microphase Holding Company LLC, a limited liability company organized under the laws of Connecticut (“**MHC**”), the Ergul Family Limited Partnership, a partnership organized under the laws of Connecticut (“**EFLP**”) RCKJ Trust, a trust organized under the laws of New Jersey (“**RCKJ**”) and with MHC and EFLP, the “**Significant Stockholders**”) and those additional persons who have executed the Share Exchange Agreement under the heading “Minority Stockholders” (collectively, the “**Minority Stockholders**” and with the Significant Stockholders, the “**Stockholders**”). Upon the terms and subject to the conditions set forth in the Share Exchange Agreement, the Company acquires 1,603,434 shares (the “**Subject Shares**”) of the issued and outstanding Common Stock of MPC (the “**MPC Common Stock**”), including such shares presently underlying the issued and outstanding preferred stock of MPC (the “**MPC Preferred Stock**” and with the MPC Common Stock, the “**MPC Shares**”) from the Stockholders in exchange (the “**Exchange**”) for the issuance by the Company of: (i) the Stockholders’ portion of an aggregate of 2,600,000 shares of Common Stock, no par value, of the Company, comprised of 1,842,448 shares of DPW Common Stock and 378,776 shares of Series D Convertible Preferred Stock of the Company (collectively, the “**Exchange Shares**”), which shares of Series D Convertible Preferred Stock of the Company (the “**Series D Preferred Stock**”) are, subject to shareholder approval, convertible into an aggregate of 757,552 shares of Common Stock as further described below and (ii) the Stockholders’ portion of warrants (the “**Exchange Warrants**”) to purchase an aggregate of 1,000,000 shares of DPW Common Stock (the “**Warrant Shares**”). The Exchange Shares and the Exchange Warrants are at times collectively referred to herein as the “**Exchange Securities**.” Upon the closing of the Agreement (the “**Closing**”), the Subject Shares constituted approximately 56.4% of the issued and outstanding MPC Shares, or 50.7% on a fully diluted basis.

The Share Exchange Agreement was consummated on June 2, 2017 (the “**SEA Closing Date**”). On the SEA Closing Date, the Company executed and delivered to the Stockholders the Exchange Shares and Exchange Warrants to purchase an aggregate of 1,000,000 Warrant Shares. Commencing on the SEA Closing Date and for a period of three (3) years thereafter, the Exchange Warrants may be exercised at \$1.10 per share or by means of a “cashless exercise,” subject to limitations and adjustments set forth in such warrants. A holder of the Exchange Warrants shall not be entitled to any voting rights, dividends or other rights as a stockholder of the Company prior to the exercise thereof.

Certificate of Determination of Series D Convertible Preferred Stock

Pursuant to the Share Exchange Agreement, the Company issued and delivered to the Stockholders 378,776 shares designated as Series D Preferred Stock, no par value per share, none of which had been previously issued. Each share of Series D Preferred Stock shall automatically be converted into two shares of Common Stock (“**Conversion Ratio**”), subject to adjustments. In the event the Company shall be liquidated, dissolved or wound up, the holders of Series D Preferred Stock shall be entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Common Stock, the Company’s Series A Preferred Stock, or to the holders of any other junior series of preferred stock, by reason of their ownership thereof and subject to the rights of the Company’s Series B Preferred Stock, Series C Preferred Stock and any other class or series of Company stock subsequently issued that ranks senior to the Series D Preferred Stock, an amount per share in cash or equivalent value in securities or other consideration equal to its Stated Value of \$0.01 per share. The holders of Series D Preferred Stock shall not be entitled to receive dividends and shall have no voting rights except as otherwise required by law. Upon the shareholders of Common Stock approving the issuance of the Series D Preferred Stock and for purposes of compliance with Rule 712 of the NYSE American, then each share of Series D Preferred Stock shall automatically be converted into two shares of Common Stock, for an aggregate of 757,552 shares of Common Stock.

Why the Company Needs Shareholder Approval

Rule 712 of the NYSE American requires shareholder approval of a transaction in which shares are to be issued as sole or partial consideration for an acquisition of the stock or assets of another company under certain circumstances. The Company has been advised by the NYSE American that, in its view, the issuance of the shares of Series D Preferred Stock will require shareholder approval, where the Company needs the affirmative vote of the majority shares of Common Stock present in person or by proxy at the Meeting. In addition, because the Series D Preferred Stock were issued in connection with a “share exchange” to acquire a controlling interest in Microphase, and the number of shares of Common Stock, or securities convertible into Common Stock, will exceed a threshold level, the Company will require the affirmative vote of a majority of the issued and outstanding shares of Common Stock to approve the conversion pursuant to Section 1201(b) of CGCL.

Effect of Proposal on Current Shareholders

If this Proposal No. 5 is adopted, based on the conversion of Series D Preferred Stock and the exercise of the Exchange Warrants (and provided the Company has sufficient authorized shares of Common Stock to allow for such conversion or exercise), up to a maximum of 1,757,552 shares of Common Stock would be issuable. Based on the number of shares of Common Stock outstanding as of the Record Date, such shares would represent 11.3% of our total outstanding shares (giving effect to such issuance). The issuance of such shares may result in significant dilution to our shareholders, and afford them a smaller percentage interest in the voting power, liquidation value and aggregate book value of the Company. The sale or any resale of the Common Stock issued upon conversion of Series D Preferred Stock and the exercise of the Exchange Warrants could cause the market price of our Common Stock to decline as well as result in substantial dilution to other shareholders since the Stockholders may ultimately convert and sell the full amount issuable on conversion. This means that our current shareholders will own a smaller interest in our company and will have less ability to influence significant corporate decisions requiring shareholder approval.

Further Information.

The terms of the Certificate of Determination for the Series D Preferred Stock and the Share Exchange Agreement are complex and only briefly summarized above. For further information, please refer to the descriptions contained in the Company's Current Reports on Form 8-K filed with the SEC on May 3, 2017 and June 8, 2017, and the transaction documents filed as exhibits to such reports. The discussion herein is qualified in its entirety by reference to such filed transaction documents.

Required Vote and Board Recommendation

The approval of the issuance of shares of Common Stock upon the conversion of the Series D Preferred Stock and warrants in order to comply with Rule 712 of the NYSE American and Section 1201(b) of CGCL requires the receipt of the affirmative vote of a majority of the issued and outstanding shares of Common Stock.

The Board unanimously recommends a vote "FOR" approval of the issuance of Common Stock upon the conversion of 378,776 shares of the Company's Series D Preferred Stock and upon the exercise of warrants to purchase up to 1,000,000 shares of Common Stock, in accordance with the Share Exchange Agreement, dated April 28, 2017, in order comply with Rule 712 of the NYSE American and Section 1201(b) of the CGCL.

PROPOSAL NO. 6

APPROVAL OF THE ISSUANCE OF COMMON STOCK UPON THE CONVERSION OF 10,000 SHARES OF THE COMPANY'S SERIES E PREFERRED STOCK, IN ACCORDANCE WITH THE SHARE EXCHANGE AGREEMENT, DATED APRIL 28, 2017 IN ORDER TO COMPLY WITH NYSE AMERICAN RULE 712

Terms of the Transaction

In connection with the Share Exchange Agreement and the issuance to the stockholders of the Series D Preferred Stock discussed under Proposal 5, the Company agreed to cause MPC to issue and deliver a promissory note in the principal face amount of \$450,000 (the “**Creditor Note**”) as well as 10,000 shares designated as Series E Convertible Preferred Stock, no par value per share (the “**Series E Preferred Stock**”) to an unsecured creditor of MPC (the “**Creditor**”). The Company has delivered the Creditor Note and a certificate evidencing the Series E Preferred Stock to the Creditor.

Each share of Series E Preferred Stock has a stated value equal to forty-five dollars (\$45.00) per share and is deemed Series E Parity Stock. In the event the Company shall be liquidated, dissolved or wound up, the holders of Series E Preferred Stock shall be entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Common Stock, the Company's Series A Preferred Stock, or to the holders of any other junior series of preferred stock, by reason of their ownership thereof and subject to the rights of the Company's Series B Preferred Stock, Series C Preferred Stock and any other class or series of Company stock subsequently issued that ranks senior to the Series E Preferred Stock, an amount per share in cash or equivalent value in securities or other consideration equal to \$0.01 per share. The holders of Series E Preferred Stock shall not be entitled to receive dividends and shall have no voting rights except as otherwise required by law. Upon the shareholders of Common Stock approving the issuance of the Series E Preferred Stock and for purposes of compliance with Rule 712 of the NYSE American, then each share of Series E Preferred Stock may be converted into sixty (60) shares of Common Stock, for an aggregate of 600,000 such shares.

Why the Company Needs Shareholder Approval

Rule 712 of the NYSE American requires shareholder approval of a transaction in which shares are to be issued as sole or partial consideration for an acquisition of the stock or assets of another company under certain circumstances. The Company has been advised by the NYSE American that, in its view, the issuance of the shares of Series E Preferred Stock will require shareholder approval.

Effect of Proposal on Current Shareholders

If this Proposal No. 6 is adopted, based on the conversion of Series E Preferred Stock (and provided the Company has sufficient authorized shares of Common Stock to allow for such conversion or exercise), up to 600,000 shares of Common Stock would be issuable. Based on the number of shares of Common Stock outstanding as of the Record Date, such shares would represent 3.8% of our total outstanding shares (giving effect to such issuance). The issuance of such shares may result in significant dilution to our shareholders and afford them a smaller percentage interest in the voting power, liquidation value and aggregate book value of the Company. The sale or any resale of the Common Stock issued upon conversion of Series E Preferred Stock could cause the market price of our Common Stock to decline as well as result in substantial dilution to other shareholders since the Creditor may ultimately convert and sell the full amount issuable on conversion. This means that our current shareholders will own a smaller interest in our company and will have less ability to influence significant corporate decisions requiring shareholder approval.

Further Information.

The terms of the Certificate of Determination for the Series E Preferred Stock are complex and only briefly summarized above. For further information, please refer to the descriptions contained in the Company's Current Report on Form 8-K filed with the SEC on May 3, 2017, and the transaction documents filed as exhibits to such report. The discussion herein is qualified in its entirety by reference to such filed transaction documents.

Required Vote and Board Recommendation

The issuance of the Series E Preferred Stock requires the receipt of the affirmative vote of a majority of the shares of the Company's Common Stock present in person or by proxy and voting at the Annual Meeting.

The Board unanimously recommends a vote "FOR" the approval of the issuance of 10,000 shares of the Company's Series E Preferred Stock, in accordance with the Share Exchange Agreement, dated April 28, 2017 in order to comply with Rule 712 of the NYSE American.

PROPOSAL NO. 7

APPROVAL OF THE CONVERSION OF A \$400,000 CONVERTIBLE NOTE CONVERTIBLE INTO 727,273 SHARES OF COMMON STOCK AND RELATED WARRANTS TO PURCHASE 666,667 SHARES OF COMMON STOCK IN ACCORDANCE WITH THE CONVERTIBLE NOTE PURCHASE AGREEMENT DATED AUGUST 3, 2017 IN ORDER TO COMPLY WITH RULE 713 OF THE NYSE AMERICAN.

Terms of the Transaction

On August 3, 2017, we entered into a Securities Purchase Agreement to sell a 12% Convertible (“12% Convertible Note”) and a Warrant to purchase 666,666 shares of Common Stock to an accredited investor. As described further below, the principal of the 12% Convertible Note may be converted into shares of Common Stock at \$0.55 per share and under the terms of the Warrant, up to 666,666 shares of Common Stock may be purchased at an exercise price of \$0.70 per share.

Description of the 12% Convertible Note

The 12% Convertible Note is in the principal amount of \$400,000 and was sold for \$360,000, bears interest at 12% simple interest on the principal amount, and is due on August 13, 2018. Interest only payments are due on a quarterly basis and the principal is due on August 3, 2018. The principal may be converted into our shares of Common Stock at \$0.55 per share. Subject to certain beneficial ownership limitations, the investor may convert the principal amount of the 12% Convertible Note at any time into Common Stock. The conversion price of the 12% Convertible Note is subject to adjustment for customary stock splits, stock dividends, combinations or similar events.

Description of the Warrant

The Warrant entitles the holder to purchase, in the aggregate, up to 666,666 shares of Common Stock at an exercise price of \$0.70 per share for a period of five years subject to certain beneficial ownership limitations. The Warrant is exercisable six months after the issuance date. The exercise price of the \$0.70 Warrant is subject to adjustment for customary stock splits, stock dividends, combinations or similar events. The \$0.70 Warrant may be exercised for cash or on a cashless basis.

Why the Company Needs Shareholder Approval

Rule 713 of the NYSE American requires shareholder approval of a transaction, other than a public offering, involving the sale, issuance or potential issuance by an issuer of Common Stock (or securities convertible into or exercisable for Common Stock) at a price less than the greater of book or market value which together with sales by officers, directors or principal shareholders of the issuer equals 20% or more of presently outstanding Common Stock, or equal to 20% or more of presently outstanding stock for less than the greater of book or market value of the stock, or when the issuance or potential issuance of additional shares will result in a change of control of the issuer. The initial conversion price of 12% Convertible Note was lower and the initial exercise price of the Warrants was greater than the market price of our Common Stock on the execution date of the Securities Purchase Agreement.

Accordingly, investor is prohibited from converting the 12% Convertible Note and exercising the Warrants and receiving shares of our Common Stock unless shareholder approval is obtained for the Securities Purchase Agreement.

Effect of Proposal on Current Shareholders

If this Proposal No. 7 is adopted, based on the conversion of 12% Convertible Note and exercise of Warrants, up to 1,393,940 shares of Common Stock would be issuable. Based on the number of shares of Common Stock outstanding as of the Record Date, such shares would represent 8.4% of our total outstanding shares (giving effect to such issuance). The issuance of such shares may result in significant dilution to our shareholders and afford them a smaller percentage interest in the voting power, liquidation value and aggregate book value of the Company. The sale or any resale of the Common Stock issued upon conversion of 12% Convertible Note and exercise of Warrants could cause the market price of our Common Stock to decline as well as result in substantial dilution to other shareholders since the investor may ultimately convert and sell the full amount issuable on conversion and exercise. This means that our current shareholders will own a smaller interest in our company and will have less ability to influence significant corporate decisions requiring shareholder approval.

Further Information.

The terms of the 12% Convertible Note and Warrants are complex and only briefly summarized above. For further information, please refer to the descriptions contained in the Company's Current Report on Form 8-K filed with the SEC on August 9, 2017, and the transaction documents filed as exhibits to such report. The discussion herein is qualified in its entirety by reference to such filed transaction documents.

Required Vote and Board Recommendation

The conversion of 12% Convertible Note and exercise of Warrants requires the receipt of the affirmative vote of a majority of the shares of the Company's Common Stock present in person or by proxy and voting at the Annual Meeting.

The Board unanimously recommends a vote "FOR" the approval issuance of Common Stock upon of the conversion of a \$400,000 12% Convertible Note convertible into 727,273 shares of Common Stock and Warrants to purchase 666,667 shares of Common Stock in accordance with the Securities Purchase Agreement dated August 3, 2017 in order to comply with Rule 713 of the NYSE American.

PROPOSAL NO. 8

APPROVAL OF THE CONVERSION OF \$880,000 OF CONVERTIBLE NOTES INTO AN AGGREGATE OF 1,466,667 SHARES OF COMMON STOCK AT \$0.60 PER SHARE AND RELATED EXERCISE OF WARRANTS TO PURCHASE 1,466,667 SHARES OF COMMON STOCK AT \$0.66 PER SHARE IN ACCORDANCE WITH THE CONVERTIBLE NOTE PURCHASE AGREEMENT DATED AUGUST 10, 2017, IN ORDER TO COMPLY WITH RULE 713 OF THE NYSE AMERICAN;

Terms of the Transaction

On August 10, 2017, we entered into Securities Purchase Agreements with five institutional investors to sell for an aggregate purchase price of \$800,000, 10% Senior Convertible Promissory Notes (“10% Convertible Notes”) with an aggregate principal face amount of \$880,000 and Warrants to purchase an aggregate of 1,466,667 shares of Common Stock. The principal of the 10% Convertible Notes and interest earned thereon may be converted into shares of Common Stock at \$0.60 per share and under the terms of the Warrant, up to 1,466,667 shares of Common Stock may be purchased at an exercise price of \$0.66 per share.

Description of the 10% Senior Convertible Promissory Notes

The 10% Convertible Notes are in the aggregate principal amount of \$880,000 and were sold for \$800,000 and bear simple interest at 10% on the principal amount, and principal and interest are due on February 10, 2018. Subject to certain beneficial ownership limitations, each investor may convert their respective principal amount of the 10% Convertible Note and accrued interest earned thereon at any time into shares of Common Stock at \$0.60 per share. The conversion price of the 10% Convertible Notes is subject to adjustment for customary stock splits, stock dividends, combinations or similar events.

The 10% Convertible Notes contain standard and customary events of default including, but not limited to, failure to make payments when due under the 10% Convertible Note, failure to comply with certain covenants contained in the 10% Convertible Note, or bankruptcy or insolvency of the Company. In the event of default, the Company may be required to pay the investors the principal amount due plus accrued interest earned thereon times 125%, plus any other expenses.

Upon notice and other conditions, we may at any time prior to conversion prepay the outstanding principal balance of the 10% Convertible Notes and accrued interest earned thereon by paying the following multiples of the outstanding

principal balance and accrued interest earn thereon depending on the prepayment date (i) within 30 days - 105%; (ii) 31 to 60 days - 110%; 61 to 120 days - 115%; and 120 days to maturity - 120%. In addition, the investors may, at their option, require us to repay all or a portion of the 10% Convertible Notes and interest earned thereon in the event we issue, or in a series within 6 months issues, debt or equity in the aggregate amount of \$2 million or more.

In addition, while any principal amount, interest or fees or expenses due under the 10% Convertible Notes remain outstanding and unpaid, we shall not enter into any public or private offering of its securities (including securities convertible into shares of Common Stock) with any other investor that has the effect of establishing rights or otherwise benefiting such other investor in a manner more favorable in any material respect to such other investor than the rights and benefits established in favor of the investor unless, in any such case, the investor has been provided with the same rights and benefits. Further, until the earlier of the 10% Convertible Notes repayment or conversion, we shall not enter into a variable rate transaction.

Description of Warrants

The Warrants entitles the holders to purchase, in the aggregate, up to 1,466,667 shares of Common Stock at an exercise price of \$0.66 per share for a period of five years subject to certain beneficial ownership limitations. The Warrant is exercisable six months after the issuance date. The exercise price of \$0.66 is subject to adjustment for customary stock splits, stock dividends, combinations or similar events. The Warrant may be exercised for cash or on a cashless basis.

Why the Company Needs Shareholder Approval

Rule 713 of the NYSE American requires shareholder approval of a transaction, other than a public offering, involving the sale, issuance or potential issuance by an issuer of Common Stock (or securities convertible into or exercisable for Common Stock) at a price less than the greater of book or market value which together with sales by officers, directors or principal shareholders of the issuer equals 20% or more of presently outstanding Common Stock, or equal to 20% or more of presently outstanding stock for less than the greater of book or market value of the stock, or when the issuance or potential issuance of additional shares will result in a change of control of the issuer. The initial conversion price of 10% Convertible Note was lower and the initial exercise price of the Warrants was greater than the market price of our Common Stock on the execution date of the Securities Purchase Agreement.

Accordingly, the investors are prohibited from converting the 10% Convertible Notes and exercising the Warrants and receiving shares of our Common Stock unless shareholder approval is obtained for the issuance under the Securities Purchase Agreement.

Effect of Proposal on Current Shareholders

If this Proposal No. 8 is adopted, based on the conversion of 10% Convertible Note and exercise of Warrants, up to 2,933,334 shares of Common Stock would be issuable. Based on the number of shares of Common Stock outstanding as of the Record Date, such shares would represent 16.3% of our total outstanding shares (giving effect to such issuance). The issuance of such shares may result in significant dilution to our shareholders and afford them a smaller percentage interest in the voting power, liquidation value and aggregate book value of the Company. The sale or any resale of the Common Stock issued upon conversion of 10% Convertible Note and exercise of Warrants could cause the market price of our Common Stock to decline as well as result in substantial dilution to other shareholders since the investor may ultimately convert and sell the full amount issuable on conversion and exercise. This means that our current shareholders will own a smaller interest in our company and will have less ability to influence significant corporate decisions requiring shareholder approval.

Further Information.

The terms of the 10% Convertible Notes and Warrants are complex and only briefly summarized above. For further information, please refer to the descriptions contained in the Company's Current Report on Form 8-K filed with the SEC on August 11, 2017, and the transaction documents filed as exhibits to such report. The discussion herein is qualified in its entirety by reference to such filed transaction documents.

Required Vote and Board Recommendation

The conversion of 10% Convertible Note and exercise of Warrants requires the receipt of the affirmative vote of a majority of the shares of the Company's Common Stock present in person or by proxy and voting at the Annual Meeting.

The Board unanimously recommends a vote "FOR" the approval issuance of Common Stock upon of the conversion of the 10% Convertible Note convertible into 1,466,667 shares of Common Stock and Warrants to purchase 1,466,667 shares of Common Stock in accordance with the Securities Purchase Agreement dated August 10, 2017 in order to comply with Rule 713 of the NYSE American.

PROPOSAL NO. 9

APPROVAL OF ISSUANCE OF WARRANTS TO PURCHASE 317,460 SHARES OF COMMON STOCK AT AN EXERCISE PRICE OF \$0.01 PER SHARE AND OPTIONS TO PURCHASE 1,000,000 SHARES OF COMMON STOCK AT AN EXERCISE PRICE OF \$0.65 PER SHARE, AND ISSUANCE OF SHARES OF COMMON STOCK ISSUABLE UPON EXERCISE OF SUCH WARRANTS AND OPTIONS, IN ACCORDANCE WITH THE EXECUTIVE EMPLOYMENT AGREEMENT, DATED NOVEMBER 30, 2016, AS SUBSEQUENTLY AMENDED ON FEBRUARY 22, 2017 IN ORDER TO COMPLY WITH NYSE AMERICAN RULE 711

Terms of the Transaction

On November 30, 2016, as amended on February 22, 2017, the Company entered into an employment agreement with Amos Kohn to serve as President and Chief Executive Officer with an effective date of September 22, 2016. For his services, Mr. Kohn will be paid a salary of \$300,000 per annum increasing to \$350,000 per annum provided that the Company achieves revenues in the aggregate amount of at least \$10,000,000 as determined in accordance with U.S. GAAP for the trailing four calendar quarters.

In addition, Mr. Kohn shall be eligible for an annual cash bonus equal to a percentage of his annual base salary based on achievement of applicable performance goals determined by the Company's compensation committee after conferring with Mr. Kohn. The target amount of Mr. Kohn's annual performance bonus shall be 25% to 50% of his then annual base salary but may be greater upon mutual agreement between Mr. Kohn and the compensation committee.

Further, Mr. Kohn is entitled to receive equity participation as follows: (i) ten-year warrants to purchase 317,460 shares of the Company's Common Stock (the "**Warrant Grant**") at an exercise price of \$0.01 per share subject to vesting quarterly over two years effective January 1, 2017; and (ii) ten-year options to purchase 1,000,000 shares of the Company's Common Stock at an exercise price of \$0.65 per share. The option to purchase 1,000,000 shares of Common Stock is subject to the following vesting schedule: (1) options to purchase 500,000 shares of Common Stock shall vest upon the effective date; (2) options to purchase 250,000 shares of Common Stock shall vest ratably over six months beginning with the first month after the effective date; and (3) options to purchase 250,000 shares of Common Stock shall vest ratably over twelve months beginning with the first month after the effective date. As part of the grant of the options to purchase 1,000,000 shares, Mr. Kohn forfeited options to purchase 535,000 shares of Common Stock previously granted to him under the Company's Incentive Share Option Plans.

In the event that Mr. Kohn is terminated by the Company without cause, or if Mr. Kohn resigns for good reason, Mr. Kohn shall be entitled to (i) all annual salary earned prior to the termination date, any earned but unpaid portion of Mr. Kohn's annual performance bonus for the year preceding in which such termination occurred and any earned but unpaid paid time off; (ii) an amount equal to 100% of Mr. Kohn's then in effect annual base salary plus an additional 1/12th of Mr. Kohn's annual base salary for each year of employment with the Company prior to such termination; (iii) an amount equal to the average of Mr. Kohn's two prior years' annual bonuses (with such average not to exceed 50% of the Mr. Kohn's annual base salary in effect at the time of termination) prorated for the portion of the year that executive was employed; (iv) accelerated vesting of all outstanding unvested stock options and other equity arrangements subject to vesting and held by Mr. Kohn through the termination date and the Company's right to repurchase Mr. Kohn's restricted stock shall cease; and (v) to the extent required by COBRA, continuation of group health benefits pursuant to the Company's standard programs or in effect at the termination date at Company expense for a period of not less than 18 months.

If Mr. Kohn is terminated without cause, or resigns for good reason within 12 months of a change of control, Mr. Kohn shall be entitled to receive: (i) payment in a lump sum of Mr. Kohn annual base salary for 24 months and any accrued, unused paid time-off; (ii) accelerated vesting of all outstanding unvested stock options and other equity arrangements subject to vesting and the Company's right to repurchase Mr. Kohn restricted stock shall cease; and (iii) to the extent required by COBRA, continuation of group health benefits pursuant to the Company's standard programs or in effect at the termination date at the Company's expense for a period of not less than 18 months.

Why the Company Needs Shareholder Approval

Rule 711 of the NYSE American requires shareholder approval with respect to the establishment of (or material amendment to) a stock option or purchase plan or other equity compensation arrangement pursuant to which options or stock may be acquired by officers, directors, employees, or consultants.

Effect of Proposal on Current Shareholders

If this Proposal No. 9 is adopted, based on the issuance of shares pursuant to the Executive Employment Agreement (and provided the Company has sufficient authorized shares of Common Stock to allow for such exercise), a maximum of 1,317,460 shares of Common Stock would be issuable. Based on the number of shares of Common Stock outstanding as of the Record Date, such shares would represent 8% of our total outstanding shares (giving effect to such issuance). The issuance of such shares may result in significant dilution to our shareholders, and afford them a smaller percentage interest in the voting power, liquidation value and aggregate book value of the Company. The sale or any resale of the Common Stock issued pursuant to the Executive Employment Agreement could cause the market price of our Common Stock to decline.

Further Information.

The terms of the Executive Employment Agreement are complex and only briefly summarized above. For further information, please refer to the descriptions contained in the Company's Current Report on Form 8-K filed with the SEC on December 5, 2016, and on February 27, 2017 and the transaction documents filed as exhibits to such report. The discussion herein is qualified in its entirety by reference to such filed transaction documents.

Required Vote and Board Recommendation

Approval of the Executive Employment Agreement requires the receipt of the affirmative vote of a majority of the shares of the Company's Common Stock present in person or by proxy and voting at the Annual Meeting.

The Board unanimously recommends a vote "FOR" the approval of the issuance of warrants to purchase 317,460 shares of Common Stock at an exercise price of \$0.01 per share and options to purchase 1,000,000 shares of Common Stock at an exercise price of \$0.65 per share, and shares of Common Stock issuable upon exercise of such warrants, in accordance with the Executive Employment Agreement, dated November 30, 2016, as subsequently amended on February 22, 2017 in order to comply with Rule 711 of the NYSE American.

PROPOSAL NO. 10

APPROVAL OF THE 2017 STOCK INCENTIVE PLAN

Overview

On September 18, 2017, the Board adopted, upon the recommendation of the Compensation Committee, the 2017 Stock Incentive Plan (the “**2017 Plan**”), subject to and effective upon shareholder approval at the Annual Meeting. We are asking our shareholders to approve the 2017 Plan in order to permit the Company to use the 2017 Plan to achieve the Company's performance, recruiting, retention and incentive goals.

The 2017 Plan includes a variety of forms of awards, including stock options, stock appreciation rights, restricted stock, restricted stock units and dividend equivalents to allow the Company to adapt its incentive program to meet the needs of the Company in the changing business environment in which the Company operates.

We strongly believe that the approval of the 2017 Plan is essential to our continued success. We believe that equity is an important and significant component of our employees' compensation. The Board further believes that equity incentives motivate high levels of performance, align the interests of our employees and shareholders by giving directors, employees and consultants the perspective of an owner with an equity stake in the Company, and provide an effective means of recognizing their contributions to the success of the Company. The Board and management believe that the ability to grant equity incentives will be important to the future success of the Company and is in the best interests of the Company's shareholders.

The potential dilution resulting from issuing all of the proposed 2,000,000 shares under the 2017 Plan would be 11.7% on a fully-diluted basis.

If approved, the 2017 Plan will constitute the first such plan ever adopted by the Company. Assuming shareholders approve the 2017 Plan, the 2017 Plan will be effective as the date of the Annual Meeting.

We are seeking shareholder approval of the 2017 Plan in order to satisfy certain legal requirements, including making awards under it eligible for beneficial tax treatment. In addition, the Board regards shareholder approval of the 2017 Plan as desirable and consistent with good corporate governance practices.

Summary of the 2017 Plan

The following is a description of the principal terms of the 2017 Plan. The summary is qualified in its entirety by the full text of the 2017 Plan, which is attached as Appendix E to this Proxy Statement.

General. The 2017 Plan would authorize the grant to eligible individuals of (1) stock options (incentive and nonstatutory), (2) restricted stock, (3) stock appreciation rights, or SARs, (4) restricted stock units, and (5) other stock-based compensation.

Stock Subject to the 2017 Plan. The maximum number of shares of our Common Stock that may be issued under the 2017 Plan is 2,000,000 shares, which amount will be increased to the extent that compensated granted under the 2017 Plan are forfeited, expire or are settled for cash (except as otherwise provided in the 2017 Plan).

Substitute awards (awards made or shares issued by the Company in assumption of, or in substitution or exchange for, awards previously granted, or the right or obligation to make future awards, in each case by a company acquired by the Company or any Company subsidiary or with which the Company or any subsidiary combines) will not reduce the shares authorized for grant under the 2017 Plan, nor will shares subject to a substitute award be added to the shares available for issuance or transfer under the 2017 Plan.

No Liberal Share Recycling. Notwithstanding anything to the contrary, any and all stock that is (i) withheld or tendered in payment of an option exercise price; (ii) withheld by the Company or tendered by the grantee to satisfy any tax withholding obligation with respect to any award; (iii) covered by a SAR that it is settled in stock, without regard to the number of shares of stock that are actually issued to the grantee upon exercise; or (vi) reacquired by the Company on the open market or otherwise using cash proceeds from the exercise of options, shall not be added to the maximum number of shares of stock that may be issued under the 2017 Plan.

Limits per Participant. With respect to awards intended to qualify as performance-based compensation under Section 162(m) of the Code, the 2017 Plan provides that, subject to adjustment as provided in the 2017 Plan, no participant may, in any 12-month period (i) be granted options or SARs with respect to more than 750,000 shares of our Common Stock, (ii) earn more than 500,000 shares of our Common Stock under restricted stock awards, restricted stock unit awards, performance awards and/or other share-based awards, or (iii) earn more than \$5,000,000 under an award; provided, however, that each of these limitations shall be multiplied by two (2) with respect to awards granted to a participant during the first calendar year in which the participant commences employment with us or any of our subsidiaries.

Notwithstanding any other provision of the 2017 Plan to the contrary, no non-employee director may be granted awards during any calendar year in excess of \$350,000 in total value, either in cash, shares of stock or a combination of cash and stock, provided, however, that in extraordinary circumstances, that limit can be increased to \$500,000.

Eligibility. Employees of, and consultants to, our Company or its affiliates and members of our Board are eligible to receive equity awards under the 2017 Plan. Only our employees, and employees of our parent and subsidiary corporations, if any, are eligible to receive Incentive Stock Options. Employees, directors (including non-employee directors) and consultants of or for our Company and its affiliates are eligible to receive Nonstatutory Stock Options, Restricted Stock, Purchase Rights and any other form of award the 2017 Plan authorizes.

Purpose. The purpose of the 2017 Plan is to promote the interests of the Company and its shareholders by providing executive officers, employees, non-employee directors, and key advisors of the Company and its defined subsidiaries with appropriate incentives and rewards to encourage them to enter into and remain in their positions with the Company and to acquire a proprietary interest in the long-term success of the Company, as well as to reward the performance of these individuals in fulfilling their personal responsibilities for long-range and annual achievements.

Administration. Unless otherwise determined by the Board, the Compensation Committee administers the 2017 Plan. The Compensation Committee is composed solely of “non-employee directors” within the meaning of Rule 16b-3 under the Exchange Act, “outside directors” within the meaning of Section 162(m) of the Internal Revenue Code, and “independent directors” within the meaning of NYSE American listing standards. The Compensation Committee has the power, in its discretion, to grant awards under the 2017 Plan, to select the individuals to whom awards are granted, to determine the terms of the grants, to interpret the provisions of the 2017 Plan and to otherwise administer the 2017 Plan. Except as prohibited by applicable law or any rule promulgated by a national securities exchange to which the Company may in the future be subject, the Compensation Committee may delegate all or any of its responsibilities and powers under the 2017 Plan to one or more of its members, including, without limitation, the power to designate participants and determine the amount, timing and term of awards under the 2017 Plan. In no event, however, shall the Compensation Committee have the power to accelerate the payment or vesting of any award, other than in the event of death, disability, retirement or a change of control of the Company.

The 2017 Plan provides that members of the Compensation Committee shall be indemnified and held harmless by the Company from any loss or expense resulting from claims and litigation arising from actions related to the 2017 Plan.

Term. If approved, the 2017 Plan is effective December 28, 2017 and awards may be granted through December 27, 2027. No awards may be granted under the 2017 Plan subsequent to that date. The Board may suspend or terminate the 2017 Plan without shareholder approval or ratification at any time or from time to time.

Amendments. Subject to the terms of the 2017 Plan, the Compensation Committee as administrator has the sole discretion to interpret the provisions of the 2017 Plan and outstanding awards. Our Board generally may amend or terminate the 2017 Plan at any time and for any reason, except that no amendment, suspension, or termination may impair the rights of any participant without his or her consent, and except that approval of our shareholders is required for any amendment which:

- Increases the number of shares of Common Stock subject to the 2017 Plan;
- Decreases the price at which grants may be granted;
- Reprices existing options;
- Materially increases the benefits to participants; or
- Changes the class of persons eligible to receive grants under the 2017 Plan.

Repricing Prohibition. Other than in connection with certain corporate events, the Compensation Committee shall not, without the approval of the Company's shareholders, (a) lower the option price per share of an option or SAR after it is granted, (b) cancel an Option or SAR when the exercise price per share exceeds the fair market value of one share in exchange for cash or another award (other than in connection with a change of control), or (c) take any other action with respect to an Option or SAR that would be treated as a repricing under the rules and regulations of the principal U.S. national securities exchange on which the Company's shares are then listed.

Minimum Vesting Requirement. Grantees of full-value awards (i.e., awards other than options and SARs), will be required to continue to provide services to the Company or an affiliated company) for not less than one-year following the date of grant in order for any such full-value Awards to fully or partially vest (other than in case of death, disability or a Change of Control). Notwithstanding the foregoing, up to five percent (5%) of the available shares of stock authorized for issuance under the 2017 Plan may provide for vesting of full-value awards, partially or in full, in less than one-year.

Adjustments upon Changes in Capitalization. In the event of any merger, reorganization, consolidation, recapitalization, dividend or distribution (whether in cash, shares or other property, other than a regular cash dividend), stock split, reverse stock split, spin-off or similar transaction or other change in our corporate structure affecting our Common Stock or the value thereof, appropriate adjustments to the 2017 Plan and awards will be made as the Board determines to be equitable or appropriate, including adjustments in the number and class of shares of stock available for issuance under the 2017 Plan, the number, class and exercise or grant price of shares subject to awards outstanding under the 2017 Plan, and the limits on the number of awards that any person may receive.

Change of Control. Agreements evidencing awards under the 2017 Plan may provide that upon a Change of Control (as defined in the 2017 Plan), unless otherwise provided in the agreement evidencing an award), outstanding Awards may be cancelled and terminated without payment if the consideration payable with respect to one share of Stock in connection with the Change of Control is less than the exercise price or grant price applicable to such Award, as applicable.

Notwithstanding any other provisions of the 2017 Plan to the contrary, the vesting, payment, purchase or distribution of an Award may not be accelerated by reason of a Change of Control for any participant unless the Grantee's employment is involuntarily terminated as a result of the Change of Control as provided in the Award agreement or in any other written agreement, including an employment agreement, between us and the participant. If the Change of Control results in the involuntary termination of participant's employment, outstanding awards will immediately vest, become fully exercisable and may thereafter be exercised.

Generally, under the 2017 Plan, a Change of Control occurs upon (i) the consummation of a reorganization, merger or consolidation of our Company with or into another entity, pursuant to which our shareholders immediately prior to the transaction do not own more than 50% of the total combined voting power after the transaction, (ii) the consummation of the sale, transfer or other disposition of all or substantially all of our assets, (iii) certain changes in the majority of our Board from those in office on the effective date of the 2017 Plan, (iv) the acquisition of more than 50% of the total combined voting power in our outstanding securities by any person, or (v) the Company is dissolved or liquidated.

Types of Awards

Stock Options. Incentive Stock Options and Nonstatutory Stock Options are granted pursuant to award agreements adopted by our Compensation Committee. Our Compensation Committee determines the exercise price for a stock option, within the terms and conditions of the 2017 Plan; provided, that the exercise price of an Incentive Stock Option cannot be less than 100% of the fair market value of our Common Stock on the date of grant. Options granted under the 2017 Plan vest at the rate specified by our Compensation Committee.

The Compensation Committee determines the term of stock options granted under the 2017 Plan, up to a maximum of 10 years, except in the case of certain Incentive Stock Options, as described below. The Compensation Committee will also determine the length of period during which an optionee may exercise their options if an optionee's relationship with us, or any of our affiliates, ceases for any reason; for Incentive Stock Options, this period is limited by applicable law. The Compensation Committee may extend the exercise period in the event that exercise of the option following termination of service is prohibited by applicable securities laws. In no event, however, may an option be exercised beyond the expiration of its term unless the term is extended in accordance with applicable law.

Acceptable consideration for the purchase of Common Stock issued upon the exercise of a stock option will be determined by the Compensation Committee and may include (a) cash or its equivalent, (b) delivering a properly executed notice of exercise of the option to us and a broker, with irrevocable instructions to the broker promptly to deliver to us the amount necessary to pay the exercise price of the option, (c) any other form of legal consideration that may be acceptable to the Compensation Committee or (d) any combination of (a), (b) or (c).

Unless the Compensation Committee provides otherwise, options are generally transferable in accordance with applicable law, provided that any transferee of such options agrees to become bound by the terms of the 2017 Plan. An optionee may also designate a beneficiary who may exercise the option following the optionee's death.

Incentive or Nonstatutory Stock Options. Incentive Stock Options may be granted only to our employees, and the employees of our parent or subsidiary corporations, if any. The Compensation Committee may grant awards of Incentive or Nonstatutory Stock Options that are fully vested on the date made, to any of our employees, directors or consultants. Option Awards are granted pursuant to award agreements adopted by our Compensation Committee. To the extent required by applicable law, the aggregate fair market value, determined at the time of grant, of shares of our Common Stock with respect to Incentive Stock Options that are exercisable for the first time by an optionee during any calendar year may not exceed \$100,000. To the extent required by applicable law, no Incentive Stock Option may be granted to any person who, at the time of the grant, owns or is deemed to own stock possessing more than 10% of our total combined voting power or that of any of our affiliates unless (a) the option exercise price is at least 110% of the fair market value of the stock subject to the option on the date of grant and (b) the term of the incentive stock option does not exceed five years from the date of grant.

Stock Appreciation Rights. A SAR is the right to receive stock, cash, or other property equal in value to the difference between the grant price of the SAR and the market price of the Company's Common Stock on the exercise date. SARs may be granted independently or in tandem with an Option at the time of grant of the related Option. An SAR granted in tandem with an Option shall be exercisable only to the extent the underlying Option is exercisable. An SAR confers on the grantee a right to receive an amount with respect to each share of Common Stock subject thereto, upon exercise thereof, equal to the excess of (A) the fair market value of one share of Common Stock on the date of exercise over (B) the grant price of the SAR (which in the case of an SAR granted in tandem with an Option shall be equal to the exercise price of the underlying Option, and which in the case of any other SAR shall be such price as the Compensation Committee may determine but in no event shall be less than the fair market value of a share of Common Stock on the date of grant of such SAR).

Restricted Stock and Restricted Stock Units. Restricted Stock is Common Stock that the Company grants subject to transfer restrictions and vesting criteria. A Restricted Stock Unit is a right to receive stock or cash equal to the value of a share of stock at the end of a specified period that the Company grants subject to transfer restrictions and vesting criteria. The grant of these awards under the 2017 Plan are subject to such terms, conditions and restrictions as the Compensation Committee determines consistent with the terms of the 2017 Plan.

At the time of grant, the Compensation Committee may place restrictions on Restricted Stock and restricted stock units that shall lapse, in whole or in part, only upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year, and if the award is granted to a 162(m) Officer, the grant of the award and the establishment of the Performance Goals shall be made during the period required under Internal Revenue Code Section 162(m). Except to the extent restricted under the award agreement relating to the Restricted Stock, a grantee granted Restricted Stock shall have all of the rights of a shareholder including the right to vote Restricted Stock and the right to receive dividends.

Unless otherwise provided in an award agreement, upon the vesting of a Restricted Stock Unit, there shall be delivered to the grantee, within 30 days of the date on which such award (or any portion thereof) vests, the number of shares of Common Stock equal to the number of restricted stock units becoming so vested.

Other Stock-Based Awards. The 2017 Plan also allows the Compensation Committee to grant "Other Stock-Based Awards," which means a right or other interest that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, Common Stock. Subject to the limitations contained in the 2017 Plan, this includes, without limitation, (i) unrestricted stock awarded as a bonus or upon the attainment of Performance Goals or otherwise as permitted under the 2017 Plan and (ii) a right to acquire stock from the Company containing terms and conditions prescribed by the Compensation Committee. At the time of the grant of Other Stock-Based Awards, the Compensation Committee may place restrictions on the payout or vesting of Other Stock-Based Awards that shall lapse, in whole or in part, only upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year, and if the award is granted to a 162(m) Officer, the grant of the Award and the establishment of the Performance Goals shall be made during the period required under Internal Revenue Code Section 162(m). Other Stock-Based Awards may not be granted with the

right to receive dividend equivalent payments.

Performance Awards. Performance awards provide participants with the opportunity to receive shares of our Common Stock, cash or other property based on performance and other vesting conditions. Performance awards may be granted from time to time as determined at the discretion of the Board, or the Compensation Committee (as applicable). Subject to the share limit and maximum dollar value set forth above under “*Limits per Participant*,” the Board, or the Compensation Committee (as applicable), has the discretion to determine (i) the number of shares of Common Stock under, or the dollar value of, a performance award and (ii) the conditions that must be satisfied for grant or for vesting, which typically will be based principally or solely on achievement of performance goals.

Performance Criteria. With respect to awards intended to qualify as performance-based compensation under Code Section 162(m), a committee of “outside directors” (as defined in Code Section 162(m)) with authority delegated by our Board will determine the terms and conditions of such awards, including the performance criteria. The performance goals for restricted stock awards, restricted stock units, performance awards or other share-based awards shall be based on the attainment of specified levels of one or any combination of the following:

the attainment of certain target levels of, or a specified percentage increase in, revenues, earnings, income before taxes and extraordinary items, net income, operating income, earnings before or after deduction for all or any portion of income tax, earnings before interest, taxes, depreciation and amortization or a combination of any or all of the foregoing;

the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax profits including, without limitation, that attributable to continuing and/or other operations;

the attainment of certain target levels of, or a specified increase in, operational cash flow;

the achievement of a certain level of, reduction of, or other specified objectives with regard to limiting the level of increase in, all or a portion of, the Company’s bank debt or other long-term or short-term public or private debt or other similar financial obligations of the Company, which may be calculated net of such cash balances and/or other offsets and adjustments as may be established by the Compensation Committee;

earnings per share or the attainment of a specified percentage increase in earnings per share or earnings per share from continuing operations;

the attainment of certain target levels of, or a specified increase in return on capital employed or return on invested capital;

the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax return on shareholders’ equity;

the attainment of certain target levels of, or a specified increase in, economic value added targets based on a cash flow return on investment formula;

the attainment of certain target levels in, or specified increases in, the fair market value of the shares of the Company’s Common Stock;

the growth in the value of an investment in the Company’s Common Stock;

the attainment of a certain level of, reduction of, or other specified objectives with regard to limiting the level in or increase in, all or a portion of controllable expenses or costs or other expenses or costs;

gross or net sales, revenue and growth of sales revenue (either before or after cost of goods, selling and general administrative expenses, research and development expenses and any other expenses or interest);

total shareholder return;

return on assets or net assets;

return on sales;

operating profit or net operating profit;

operating margin;

gross or net profit margin;

cost reductions or savings;

productivity;

operating efficiency;

working capital;

market share;

customer satisfaction; and

to the extent that an Award is not intended to comply with Section 162(m) of the Code, other measures of performance selected by the Board.

The performance goals may be based solely by reference to our performance or the performance of one or more of our subsidiaries, parents, divisions, business segments or business units, or based upon the relative performance of other companies or upon comparisons of any of the indicators of performance relative to other companies. The authorized committee of outside directors may also exclude under the terms of the performance awards, the impact of an event or occurrence that the committee determines should appropriately be excluded, including (i) restructurings, discontinued operations, extraordinary items, and other unusual or non-recurring charges, or (ii) changes in generally accepted accounting principles or practices.

In connection with the approval of the 2017 Plan, the shareholders also are being asked to approve the above criteria for purposes of Section 162(m) of the Code.

New Plan Benefits under the 2017 Plan

Because future awards under the 2017 Plan will be granted in the discretion of the Compensation Committee, the type, number, recipients, and other terms of such awards cannot be determined at this time.

U.S. Federal Income Tax Considerations

The following is a brief description of the material United States federal income tax consequences associated with awards under the 2017 Plan. It is based on existing United States laws and regulations, and there can be no assurance that those laws and regulations will not change in the future. Tax consequences in other countries may vary. This information is not intended as tax advice to anyone, including participants in the 2017 Plan.

Stock Options. Neither incentive stock option grants nor non-qualified stock option grants cause any tax consequences to the participant or the Company at the time of grant. Upon the exercise of a non-qualified stock option, the excess of the market value of the shares acquired over their exercise price is ordinary income to the participant and is deductible by the Company. The participant's tax basis for the shares is the market value thereof at the time of exercise. Any gain or loss realized upon a subsequent disposition of the stock will generally constitute capital gain, in connection with which the Company will not be entitled to a tax deduction.

Upon the exercise of an incentive stock option, the participant will not realize taxable income, but the excess of the fair market value of the stock over the exercise price may give rise to alternative minimum tax. When the stock acquired upon exercise of an incentive stock option is subsequently sold, the participant will recognize income equal to the difference between the sales price and the exercise price of the option. If the sale occurs after the expiration of two years from the grant date and one year from the exercise date, the income will constitute long-term capital gain. If the sale occurs prior to that time, the participant will recognize ordinary income to the extent of the lesser of the gain realized upon the sale or the difference between the fair market value of the acquired stock at the time of exercise and the exercise price; any additional gain will constitute capital gain. The Company will be entitled to a deduction in an amount equal to the ordinary income recognized by the participant, but no deduction in connection with any capital gain recognized by the participant. If the participant exercises an incentive stock option more than three months after his or her termination of employment due to retirement or other separation other than death or disability, or more than twelve months after his or her termination of employment due to death or permanent disability, he or she is deemed to have exercised a non-qualified stock option.

Compensation realized by participants on the exercise of non-qualified stock options or the disposition of shares acquired upon exercise of any incentive stock options should qualify as performance-based compensation under the Code and thus not be subject to the \$1,000,000 deductibility limit of Code Section 162(m).

Stock Appreciation Rights. A participant granted a stock appreciation right under the 2017 Plan will not recognize income, and the Company will not be allowed a tax deduction, at the time the award is granted. When the participant exercises the stock appreciation right, the amount of cash and the fair market value of any shares of stock or other consideration received will be ordinary income to the participant and the Company will be allowed a corresponding federal income tax deduction at that time. Compensation realized by the participant on the exercise of the stock appreciation right should qualify as performance-based compensation under the Code and thus not be subject to the

\$1,000,000 deductibility limit of Code Section 162(m).

Restricted Stock. Restricted stock is not taxable to a participant at the time of grant, but instead is included in ordinary income (at its then fair market value) when the restrictions lapse. A participant may elect, however, to recognize income at the time of grant, in which case the fair market value of the restricted shares at the time of grant is included in ordinary income and there is no further income recognition when the restrictions lapse. If a participant makes such an election and thereafter forfeits the restricted shares, he or she will be entitled to no tax deduction, capital loss or other tax benefit. The Company is entitled to a tax deduction in an amount equal to the ordinary income recognized by the participant, subject to any applicable limitations under Code Section 162(m).

A participant's tax basis for restricted shares will be equal to the amount of ordinary income recognized by the participant. The participant will recognize capital gain (or loss) on a sale of the restricted stock if the sale price exceeds (or is lower than) such basis. The holding period for restricted shares for purposes of characterizing gain or loss on the sale of any shares as long- or short-term commences at the time the participant recognizes ordinary income pursuant to an award. The Company is not entitled to a tax deduction corresponding to any capital gain or loss of the participant.

Restricted Stock Units. A participant will not recognize income, and the Company will not be allowed a tax deduction, at the time a restricted stock unit award is granted. Upon receipt of shares of stock (or the equivalent value in cash or any combination of cash and the Company Common Stock) in settlement of a restricted stock unit award, a participant will recognize ordinary income equal to the fair market value of the stock and cash received as of that date (less any amount he or she paid for the stock and cash), and the Company will be allowed a corresponding federal income tax deduction at that time, subject to any applicable limitations under Code Section 162(m).

Performance Awards. A participant will not recognize income, and the Company will not be allowed a tax deduction, at the time a performance award is granted (for example, when the performance goals are established). Upon receipt of stock or cash (or a combination thereof) in settlement of a performance award, the participant will recognize ordinary income equal to the fair market value of the stock and cash received, and the Company will be allowed a corresponding federal income tax deduction at that time, subject to any applicable limitations under Code Section 162(m).

Code Section 409A. If an award is subject to Code Section 409A (which relates to nonqualified deferred compensation plans), and if the requirements of Section 409A are not met, the taxable events as described above could apply earlier than described, and could result in the imposition of additional taxes and penalties. All awards that comply with the terms of the 2017 Plan, however, are intended to be exempt from the application of Code Section 409A or meet the requirements of Section 409A in order to avoid such early taxation and penalties.

Tax Withholding. The Company has the right to deduct or withhold, or require a participant to remit to the Company, an amount sufficient to satisfy federal, state and local taxes (including employment taxes) required by law to be withheld with respect to any exercise, lapse of restriction or other taxable event arising as a result of the 2017 Plan. The Compensation Committee may, at the time the award is granted or thereafter, require or permit that any such withholding requirement be satisfied, in whole or in part, by delivery of, or withholding from the award, shares having a fair market value on the date of withholding equal to the amount required to be withheld for tax purposes.

Required Vote and Board Recommendation

Approval of the 2017 Plan requires the receipt of the affirmative vote of the holders of a majority of the shares of the Company's Common Stock present in person or by proxy and voting at the Annual Meeting.

The Board unanimously recommends a vote “FOR” the approval of the 2017 Stock Incentive Plan

For his services, Mr. Kohn will be paid a salary of \$300,000 per annum increasing to \$350,000 per annum provided that the Company achieves revenues in the aggregate amount of at least \$10,000,000 as determined in accordance with U.S. GAAP for the trailing four calendar quarters.

In addition, Mr. Kohn shall be eligible for an annual cash bonus equal to a percentage of his annual base salary based on achievement of applicable performance goals determined by the Company's compensation committee after conferring with Mr. Kohn. Further, Mr. Kohn is entitled to receive equity participation as follows: (i) ten-year warrants to purchase 317,460 shares of the Company's Common Stock (the "Warrant Grant") at an exercise price of \$0.01 per share subject to vesting quarterly over two years effective January 1, 2017; and (ii) ten-year options to purchase 1,000,000 shares of the Company's Common Stock at an exercise price of \$0.65 per share. The purpose of both the 2016 Stock Incentive Plan and 2012 Plan is to advance the interests of the Company by providing to key employees of the Company and its affiliates, who have substantial responsibility for the direction and management of the Company, as well as certain directors and consultants of the Company, additional incentives to exert their best efforts on behalf of the Company, to increase their proprietary interest in the success of the Company, to reward outstanding performance and to provide a means to attract and retain persons of outstanding ability to the service of the Company.

401(k) Plan

We have adopted a tax-qualified employee savings and retirement plan, or 401(k) plan, which generally covers all of our full-time employees. Pursuant to the 401(k) plan, eligible employees may make voluntary contributions to the plan up to a maximum of 5% of eligible compensation. The 401(k) plan permits, but does not require, matching contributions by Digital Power on behalf of plan participants. We match contributions at the rate of (1) \$1.00 for each \$1.00 contributed, up to 3% of the base salary and (2) \$0.50 for each \$1.00 contributed thereafter, up to 5% of the base salary. We are also permitted under the plan to make discretionary contributions. The 401(k) plan is intended to qualify under Sections 401(k) and 401(a) of the Internal Revenue Code of 1986, as amended. Contributions to such a qualified plan are deductible by the Company when made, and neither the contributions nor the income earned on those contributions is taxable to plan participants until withdrawn. All 401(k) plan contributions are credited to separate accounts maintained in trust.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The following information sets forth certain related transactions between us and certain of our shareholder of directors during the fiscal year ended December 31, 2016. Prior to September 22, 2016, Telkooor was our largest shareholder and Telkooor's Chief Executive Officer, Benzi Diamant, was our Chairman of the Board. Effective September 22, 2016, Telkooor sold all of its shares of Common Stock of the Company to Philou Ventures, and as a result, Philou Ventures is our largest shareholder. Philou Ventures' Manager is Kristine L. Ault, one of our directors. Ms. Ault is the spouse of Milton C. Ault, III, who is our Executive Chairman of the Board.

Telkoor Telecom, Ltd.

As previously disclosed, on September 5, 2016, we entered into a securities purchase agreement with Philou Ventures, and Telkoor pursuant to which Telkoor agreed to purchase all of Telkoor's 2,714,610 shares of the Common Stock in the Company, constituting approximately 40.06% of the then Company's outstanding shares of Common Stock. In consideration for such shares, Philou agreed to pay Telkoor \$1.5 million.

In conjunction with the securities purchase agreement, we entered into a rescission agreement with Telkoor in order to resolve all financial issues between the parties, including the repurchase by Telkoor of 1,136,666 shares of Common Stock of Telkoor beneficially owned by us for book value.

Finally, as part of the securities purchase agreement, we have agreed to pay Mr. Diamant \$7,500 for a period of eighteen months from September 5, 2016, for consulting services.

Relationship with Telkoor Power Supplies Ltd.

During the years ended December 31, 2016 and 2015, we purchased approximately \$0 and \$594,000, respectively, of products from Telkoor Power Supplies, Ltd., a wholly-owned subsidiary of our largest then shareholder, Telkoor, of which Ben-Zion Diamant was the Chief Executive Officer and its controlling shareholder. We had no written agreement for the purchase of these products, other than purchase orders that are placed in the ordinary course of business when the products are needed. In January 2016, Telkoor sold its commercial intellectual property to Advice Electronics Ltd. As a result, of that date no further orders have been placed with Telkoor.

Purchase of IP by Digital Power Limited ("DPL") from Telkoor Power Supplies ("TPS")

On August 25, 2010, we and our wholly-owned subsidiary, DPL, entered into an agreement with TPS, a wholly-owned subsidiary of our largest then shareholder, Telkoor, of which Mr. Diamant is the Chief Executive Officer and controlling shareholder. Pursuant to such agreement, (1) TPS sold, assigned and conveyed to DPL all of its rights, title and interest in and to the intellectual property associated with the Compact Peripheral Component Interface 600 W AC/DC power supply series (the "Assets") and (2) DPL granted to TPS an irrevocable license to sell the Assets in Israel on an exclusive basis. In consideration for the purchase of the Assets, DPL paid TPS \$480,000. The consideration for the license provided to TPS to sell the Assets in Israel is a royalty fee of 15% of TPS's direct production costs of sales, due on a quarterly basis. In accordance with the agreement, the consideration for the IP may be reduced over a four-year period in the event annual sales for each year between 2011 and 2014 are less than a fixed

threshold of units on an annual basis based upon an offset value per unit as described in the agreement. If there is a shortfall in sale of units in one annual period and in the subsequent period we sell more than the fixed unit threshold, this difference will be offset from any reduced consideration in any annual periods between 2011 and 2014. As a result of lower than anticipated sales by our DPL subsidiary of the Compact Peripheral Component Interface 600W AC/DC power supply series (CPCI 600W) through 2013, we amended our agreement with Telkoor (effective January 1, 2014 for the duration of the original agreement or until the shortfall of CPCI 600W product sales will be offset) to include additional products in addition to the original CPCI 600W product. As of December 31, 2015, the shortfall of sales of CPCI 600W products is greater than the outstanding royalties due. In January 2016, Telkoor sold its assets, including its subsidiary TPS, to Advice Electronics Ltd. Following this asset sale, the IP agreement between the Company and Telkoor was terminated.

Acquisition of Shares of Telkoor

On June 16, 2011 we acquired 1,136,666 shares of Telkoor, a then major shareholder of the Company which was listed on the Tel Aviv Stock Exchange, for \$0.88 (NIS 3) per share, which represented 8.8% of the outstanding shares of Telkoor. As a result of this transaction, an existing manufacturing agreement between Digital Power and Telkoor was updated and extended. Until September 30, 2012 the investment was accounted for as an available-for-sale investment and then reclassified the accounting of the investment at cost less accumulated impairments derived from independent appraisals or available market valuations. As of December 31, 2015 the shares represented 8.4% of the outstanding shares of Telkoor which have since de-listed from the Tel Aviv Stock Exchange.

On September 22, 2016, the Company sold such shares back to Telkoor for \$90,000.

Manufacturing Agreements with Telkooor and Advice Electronics Ltd.

On December 31, 2012, we entered into a Manufacturing Rights Agreement (the “Manufacturing Agreement”) with Telkooor, pursuant to which among other things, Telkooor granted us the non-exclusive right to directly place purchase orders for certain products from third party manufacturers for the purpose of marketing, selling and distributing the products for telecom, industrial, medical and military market segments in North and South America in consideration for the payment of royalty fees by us to Telkooor. The royalty fees paid by us to Telkooor under the Manufacturing Agreement are between 5% and 25%, depending on the product. The Manufacturing Agreement has a term of five years from the date of signature. During the agreement, Telkooor agreed not to directly or indirectly participate or engage, or assist any other party in engaging or preparing to engage, our customers in North and South America in connection with the sale or distribution of any of the products under the Manufacturing Agreement.

In January 2016, Telkooor sold all its commercial IP to Advice Electronics Ltd. (“Advice”), an Israeli company. As part of the agreement with Advice, we entered into a new agreement with Advice, according to which our manufacturing rights for certain Telkooor products will be granted to us through August 2017 against royalty payments to Advice, after which we will be entitled to distribute the products under our branding until December 2020. The term of the agreement with Advice has been extended through August 1, 2018.

Avalanche International, Corp.

During the quarter ended December 31, 2016, Avalanche International, Corp. (“Avalanche”) issued to the Company two \$525,000 12% Convertible Promissory Notes, with identical terms, dated October 5, 2016 and November 30, 2016. In consideration for the issuance of the Notes, the Company loaned \$1,000,000 to Avalanche of which \$950,000 was funded as of December 31, 2016, and the remaining \$50,000 was funded on February 17, 2016. The Notes accrue simple interest at 12% per annum and are convertible into shares of Avalanche Common Stock at \$0.74536 per share.

At any time after six months from the date of the Notes, the Company may convert the principal and interest into shares of Avalanche Common Stock. The conversion price of the Notes is subject to adjustment for customary stock splits, stock dividends, combinations or similar events. The Notes contain standard and customary events of default including, but not limited to failure to make payments when due under the Notes and bankruptcy or insolvency of Avalanche.

On February 22, 2017, subsequent to year-end, Avalanche issued the Company a third \$525,000 12% Convertible Promissory Note (the “Third Note”). During the period from February 22, 2017 to March 3, 2017, the Company funded \$172,371 pursuant to this Third Note.

Avalanche is a holding company which on March 3, 2017, entered into a share exchange agreement with MTIX and the three shareholders of MTIX. Upon the terms and subject to the conditions set forth in the share exchange agreement, Avalanche will acquire MTIX from the sellers through the transfer of all issued and outstanding ordinary shares of MTIX by the sellers to Avalanche. MTIX has developed a cost effective and environment friendly material synthesis technology for textile applications utilizing the proprietary MLSE™ system which uses a combination of high voltage plasma and laser energy to imbue fabrics with desirable technical characteristics. On March 15, 2017, the Company announced that it had entered into a \$50 million purchase order with MTIX to manufacture, install and service fabric treatment machines that utilize MTIX's proprietary MLSE™ system.

Milton C. Ault, III and William Horne, two of our directors, are directors of Avalanche. In addition, based on Avalanche's Form 10-K for the year ended November 30, 2015, Philou Ventures is the largest shareholder of Avalanche. Philou Ventures is our largest shareholder, and Kristine L. Ault, Milton C. Ault, III's spouse, is the manager of Philou Ventures.

PART I

ITEM 1. Business.

General

We are a growth company seeking to increase our revenues through acquisitions. Our strategy reflects our management and Board's current philosophy that occurred as a result of a change in control completed in September 2016. Our acquisition and development target strategy includes companies that have developed a “new way of doing business” in mature, well-developed industries experiencing changes due to new technology; companies that may become profitable or more profitable through efficiency and reduction of costs; companies that are related to our core business in the commercial and defense industries; and companies that will enhance our overall revenues. It is our goal to substantially increase our gross revenues in the near future.

We were originally a solution-driven organization that designs, develops, manufactures and sells high-grade customized and flexible power system solutions for the medical, military, telecom and industrial markets. Although we intend to seek growth through acquisitions, we will continue to focus on high-grade and custom product designs for the commercial, medical and military/defense markets, where customers demand high density, high efficiency and ruggedized products to meet the harshest and/or military mission critical operating conditions.

We also have operations located in Europe through our wholly-owned subsidiary, Digital Power Limited ("DPL"), Salisbury, England, which operates under the brand name of "Gresham Power Electronics" ("Gresham"). DPL designs, manufactures and sells power products and system solutions mainly for the European marketplace, including power conversion, power distribution equipment, DC/AC (Direct Current/Active Current) inverters and UPS (Uninterrupted Power Supply) products. Our European defense business is specialized in the field of naval power distribution products.

We are a California corporation formed in 1969 and located in the heart of the Silicon Valley at 48430 Lakeview Blvd, Fremont, California 94538-3158. Our phone number is 510-657-2635 and our website address is www.digipwr.com.

Recent Events – Change of Control

On September 5, 2016, we entered into a securities purchase agreement with Philou Ventures, LLC (“Philou Ventures”), a Wyoming limited liability company, and Telkooor Telecom Ltd., an Israeli company (“Telkooor”) pursuant to which the Philou Ventures agreed to purchase all of Telkooor’s 2,714,610 shares of the common stock in the Company, constituting approximately 40.06% of the Company’s then outstanding shares of common stock. In consideration for such shares, Philou Ventures agreed to pay Telkooor \$1.5 million. On September 22, 2016, the sale between Telkooor and Philou Ventures closed and Philou Ventures became the Company’s largest shareholder with Telkooor no longer being associated with the Company. Further, in conjunction therewith, Messrs. Israel Levi, Haim Yatim, and Ben-Zion Diamant resigned from the board of directors of the Company and the remaining members of the board of directors of the Company consisting of Mr. Amos Kohn and Mr. Moti Rosenberg filled one of the vacancies caused by the resignations by appointing Mr. Robert O. Smith to the board. Shortly thereafter, on October 13, 2016, Kristine Ault and William Horne were appointed to the board of directors.

Strategy

Our strategy to increase revenues through acquisitions was developed after a review of our current business. While we continue to maintain our core business of power system solutions for the military-aerospace, medical and industrial-telecommunication industries, we have determined that significant organic growth in these industries will be challenging due to our limited releases of new products offerings, insufficient sales and marketing force as a result of deferring research and development of new products because of limited working capital, and lack of financial size in industries traditionally dominated by more large, well established and capitalized power system solution companies.

Therefore, we believe that the best strategy for us and our shareholders is to invest our core business to support releases of advanced new power technologies and to expand our customer base and market share in our major serving markets. To support the organic growth, we have hired number of additional personal and investing to enhance our product offerings with state of the art technology. While we implementing new organic growth strategy, we are focusing on finding and acquiring companies which have developed new technology and but have been unable to exploit the technology because the lack of capital; companies that are run inefficiently due to the lack of experience or mismanagement; companies that can benefit from our expertise in the commercial and defense industries or companies that enhance our overall revenues. Further, as discussed below, we have made a recent investment in Avalanche International, Corp. which has acquired rights to a company that has developed a cost effective and environment friendly material synthesis technology for textile applications.

As a result of this strategy of revenue growth through acquisitions, we have hired a number of additional personnel and consultants to assist in identifying, analyzing, negotiating and acquiring potential companies and we will need to raise a substantial amount of capital for acquisitions and for supporting our infrastructure. We may invest in and continue to invest in companies that may experience losses until they can be integrated with our operations or until our

cost reduction and efficiency changes can be implemented. Because of our increase in infrastructure expenses to seek new opportunities and investing in companies that demonstrate revenue potential, but our initially incurring losses, we anticipate to continue to experience losses in the near future until revenues from these acquisitions exceed our expenses.

Core Business – Power Systems Solutions

We provide the highest density, highest efficiency and high-grade flexibility power supply products and systems. We provide full custom, standard and modify-standard product solutions and value-added services to diverse industries and markets including military-aerospace, medical and industrial- telecommunication. We believe that our solutions leverage a combination of low leakage power emissions, very high power density with superior power efficiency, flexible design leveraging customize firmware and short time to market.

A-5

Our strategy is to be the supplier of choice to those companies and OEMs requiring high-quality power system solutions where custom design, superior product, high quality, time to market and very competitive prices are critical to business success. We believe that we provide advanced custom product design services to deliver high-grade products that reach a high level of efficiency and density and can meet rigorous environmental requirements. Our customers benefit from a direct relationship with us that support all of their needs for designing and manufacturing power solutions and products. By implementing our advanced core technology, including process implementation in integrated circuits, we can provide cost reductions to our customers by replacing their existing power sources with our custom design cost-effective products. Our target market segments include the industrial- telecommunication, medical, and military-aerospace industries.

Custom Power System Solution. We provide high-grade custom power system solutions to several customers in multiple industry segments. Our custom solution technology includes full Digital Signal Processing (“DSP”) control, digital load sharing intelligent power management and customizable firmware. The products feature high power density, special layout and multiple outputs to meet each of our customer’s unique requirements. We combine our power design capabilities with the latest circuit designs to provide complete power solutions for virtually any need. In the design of custom power solutions, we work closely with our customers’ engineering teams to develop mechanical enclosures to ensure 100% compatibility with any hosted platform.

Our standard contract for custom power solutions includes a multi-year high-volume production forecast that allows us to secure long-term production guarantees (and therefore possible savings on manufacturing costs for volume orders) while providing an environment that promotes the development of our intellectual property (“IP”) portfolio. We believe that this business model provides an incentive to our customers to be committed to high-volume production orders.

High-Grade Flexibility Series Power Supply Product. We offer our feature rich based power rectifiers that support flexible configuration and high-grade design implementation. This includes innovative designs and implementation including DSP control for Power Factor Correction (“PFC”) and DC/DC, synchronous rectifier outputs under DSP control, two phase PFC, hot pluggable, current sharing and other features. While some of our customers have special requirements that include a full custom design, other customers may require only certain electrical changes to standard power supply products, such as modified output voltages and unique status and control signals, and mechanical repackaging tailored to fit the specific application. We offer a wide range of standard and modified standard products that can be easily integrated with any platform across our diversified market segments.

Value-Added Services. In addition to our custom solutions and high-grade flexibility series proprietary products that we offer, we also provide value-added services to original equipment manufacturers (“OEMs”). We incorporate an OEM’s selected electronic components, enclosures, cable assemblies and other compliance components into our power system solutions to produce a power subassembly that is compatible with the OEM’s own equipment and specifically tailored to meet the OEM’s needs. We purchase parts and components that the OEM itself would otherwise attach to, or integrate with, our power systems, and provide the OEM with the integration and installation service, thus eliminating a complex, time-consuming and costly integration. We believe that this value-added service is well suited

to those OEMs who wish to reduce their vendor base and minimize their investment in manufacturing that leads to increased fixed costs. Based on these value-added services, the OEMs do not need to build assembly facilities to manufacture their own power sub-assemblies and thus are not required to purchase individual parts from many vendors.

Our products have a warranty period from date of shipment to the customer.

Markets

We sell our custom power system solutions, high-grade flexibility series power supply products and value-added services to customers in a diverse range of commercial and defense industries and markets throughout the world, with an emphasis on North America and Europe. Our current customer base consists of approximately 220 companies, some of which are served through our partner channels. We serve the North American power electronics market primarily through our domestic corporation, Digital Power Corporation; the European marketplace is served through DPL, our wholly-owned subsidiary.

We sell products to our OEM customers through direct sales or through our sales channels, including our manufacturers' representatives and distributors. Our sales strategy is to identify and focus on strategic accounts. This strategy allows us to maintain a close and direct relationship with such accounts, which positions us as the supplier of choice for these customers' challenging, innovative and demanding new product requirements. In striving for additional market share, we simultaneously seek to strengthen our traditional sales channels of manufacturer representatives and distributors. We plan to continue to build more channels and increase our market share through 2017.

Commercial Customers. We serve global commercial markets including medical, telecom, and industrial companies. Our products are used in a variety of applications and operate in a broad range of systems where customers require mission critical power reliability and occasionally extreme environmental conditions.

Military/Defense Customers. We have developed a broad range of rugged product solutions for the military and defense market, featuring the ability to withstand harsh environments. These ruggedized product solutions, which include both custom modifications and full custom designs, are designed for combat environments and meet the requirements of our defense customers. We manufacture our military products by a domestic manufacturer that complies with US International Traffic in Arms Regulations ("ITAR") and is certified to perform such manufacturing services. We are compliant with the US ITAR regulations and are an approved vendor for the U.S. Air Force, Navy and Army.

At the core of every military electronic system is a power supply. Mission critical systems require rugged high performance power platforms that will operate and survive the harsh environmental conditions placed upon such systems. Our power supplies, which include the following, function effectively in these severe military environments, including Missiles – Ground-to-Air, Air-to-Air and Sea-to-Air; Naval – Naval power conversion and distribution; Mobile and Ground Communications – Active Protection, Communications and Navigation; Artillery – Gyro modular azimuth position and navigation system; Surveillance, test equipment; and UAV (Unmanned Aerial Vehicle) – Very lightweight power systems.

Our military products meet the relevant defense standards MIL-STD in accordance with the Defense Standardization Program Policies and Procedures. Space, weight, output power, electromagnetic compatibility, power density and multiple output requirements are only part of the challenges that any military power supply design faces. With many decades of experience, our engineering teams meet these tough challenges. Our power supplies are a critical component of many major weapon systems worldwide.

Our wholly-owned subsidiary DPL develops and manufactures some military and defense products mainly being deployed in international naval fleets.

Digital Power Limited (Gresham Power Electronics)

Digital Power Limited, our wholly-owned subsidiary organized and headquartered in Salisbury, United Kingdom , designs, manufactures, and distributes switching power supplies, uninterruptible power supplies, and power conversion and distribution equipment frequency converters for the commercial and military markets, under the name Gresham Power Electronics (“Gresham”). Frequency converters manufactured by Gresham are used by naval warships to convert their generated 60-cycle electricity supply to 400 cycles. This 400-cycle supply is used to power their critical equipment such as gyro, compass, and weapons systems. Gresham also designs and manufactures transformer rectifiers for naval use. Typically, these provide battery supported back up for critical DC systems, such as machinery and communications. In addition, higher power rectifiers are used for the starting and servicing of helicopters on naval vessels, and Gresham now supplies these as part of overall helicopter start and servicing systems. We believe that Gresham products add diversity to our product line, provide greater access to the United Kingdom and European markets, and strengthen our engineering and technical resources.

Manufacturing and Testing

Consistent with our strategy of focusing on custom design products and high-grade flexibility series products, we aim to maintain a high degree of flexibility in our manufacturing through the use of strategically focused contract manufacturers. We select contract manufacturers to ensure that they will meet our near term cost, delivery, and quality goals. In addition, we believe these relationships will eventually give us access to new markets and beneficial cross-licensing opportunities. The competitive nature of the power supply industry has placed continual downward pressure on selling prices. In order to achieve our low cost manufacturing goals with labor-intensive products, we have entered into manufacturing agreements with certain contract manufacturers domestically and in Asia.

We sell certain products that are developed, manufactured and sold to us by Advice Electronics Ltd. (“Advice”), an Israeli company that acquired the assets and commercial operations of our major shareholder Telkooor in January 2016. We entered into a manufacturing and royalty rights agreement with Advice in January 2016. This agreement formalized the business relationship between Advice and us in order to allow us to continue manufacturing certain of Telkooor’s products (currently owned by Advice) and the respective royalty charge.

In June 2015, OHM Power Solutions Ltd. (“Ohm”) acquired from Telkooor its entire military assets and military operation. The asset sale between Telkooor and Ohm does not affect our ability to manufacturing and sell certain of Telkooor’s military products.

We are continually improving our internal processes, while monitoring the processes of our contract manufacturers, to ensure the highest quality and consistent manufacturing of our power solutions. We test all of our products under stress operating conditions per defined test procedures we developed as part of the production process. This approach ensures that our customers can use our power supplies right out of the box. Customer specific testing services are offered with custom designed test stands to simulate operation within our customer applications.

Compliance with international safety agency standards is critical in every application, and power solutions play a major role in meeting these compliance requirements. Our safety engineers and quality assurance teams help ensure that our custom products are designed to meet all safety requirements and are appropriately documented to expedite safety approval processes.

Regulatory Requirements

We and our contract manufacturing partners are required to meet applicable regulatory, environmental, emissions, safety and other requirements where specified by the customer and accepted by us or as required by local regulatory or legal requirements. The products that we market and sell in Europe may be subject to the 2003 European Directive on Restriction of Hazardous Substances (“RoHS”), which restricts the use of six hazardous materials in the manufacture of certain electronic and electrical equipment, as well as the 2002 European Directive on Waste Electrical and Electronic Equipment (“WEEE”), which determines collection, recycling and recovery goals for electrical goods. In July 2006, our industry began phasing in RoHS and WEEE requirements in most geographical markets with specific emphasis on consumer-based products. We believe that RoHS and WEEE-compliant components may be subject to longer lead-times and higher prices as the industry transitions to these new requirements.

Some of our products are subject to ITAR regulation and restrictions, which is administered by the U.S. Department of State. ITAR controls not only the export of certain products specifically designed, modified, configured or adapted for military systems, but also the export of related technical data and defense services and foreign production. We obtain required export licenses for any exports subject to ITAR. Compliance with ITAR may require a prolonged period of time; if the process of obtaining required export licenses for products subject to ITAR is delayed, it could have a materially adverse effect on our business, financial condition, and operating results. Any future restrictions or charges may be imposed by the United States or any other foreign country. In addition, from time to time, we enter into defense contracts to supply technology and products to foreign countries for programs that are funded and governed by the e U.S. Foreign Military Financing program.

Sales and Marketing

We market our products directly through our internal sales force as well as through our channel partners including independent manufacturer representatives (Reps) and distributors. Each manufacturing Rep promotes our products in a particular assigned geographic territory. Generally, the Reps have the opportunity to earn exclusive access to all potential customers in the assigned territory as a result of achieving its marketing and sales goals as defined in the representative agreement. Our manufacturer representative agreements provide for a commission equal to 5% of gross sales of new “design-in” and 1.75% to 2.0% of gross sales for retention, payable after products were shipped to the customer in the assigned territory. Typically, either we or the Reps are entitled to terminate the Rep agreement upon 30 days’ written notice.

Historically, we have also sold products through multiple power focused distributors. Distributors are not assigned to a particular geographical territory. Each of these arrangements can be terminated by either party upon 30 days’ written notice.

We provide comprehensive collateral including product data sheets, participation in trade shows, and our website, www.digipwr.com. We use our website to emphasize our capabilities and marketing direction. All products specifications are uploaded onto our website and accessible to the marketplace. We will continue to enhance our website by adding more features and functionalities, such as e-commerce, that will allow our customers to make direct purchases through our website. Our future promotional activities will likely include advertising in industry-specific publications, as well as public relations for our new products.

Engineering and Technology

Our engineering and product development efforts are primarily directed toward developing new products in connection with custom product design and modification of our standard power systems to provide a broad array of individual models.

Our new custom product solutions are driven by our ability to provide to our customers advanced technology that meets their product needs and supports special operation and environmental requirements, with a short turnaround time and a very competitive price point. We believe that we are successfully executing our strategic account focus, as evidenced by the award of second and third generation product development contracts from some of these customers. Our standard contract for custom power solutions includes a multi-year high-volume production forecast that could allow us to secure long-term production guarantees while providing an environment that promotes the development of our IP portfolio.

We also outsource some of our product development projects to engineering partners in order to achieve the best technological and product design results for the targeted application customer requirements. When required, we also modify standard products to meet specific customer requirements, including, but not limited to, redesigning commercial products to meet MIL-STD requirements for military applications based on commercial off the shelf (“COTS”) products and for other customized product requirements, when applicable. We continually seek to improve our product power density, adaptability, and efficiency, while attempting to anticipate changing market demands for increased functionality, such as PFC controlled DSP, customized firmware and improved EMI (electromagnetic interference) filtering. We continue to attempt to differentiate all of our products from commodity-type products by enhancing, modifying and customizing our existing product portfolio, using our engineering integrating laboratory located in California.

Competition

The power system solutions industry is highly fragmented and characterized by intense competition. Our competition includes hundreds of companies located throughout the world, some of which have advantages over us in terms of labor and component costs, and some of which may offer products comparable in quality to ours. Many of our competitors, including Bel Fuse), Artesyn Embedded Technologies, TDK-Lambda, Delta Electronics, Murata and Mean-Well Power Supplies, have substantially greater fiscal and marketing resources and geographic presence than we do. If we are successful in increasing our revenues, competitors may notice and increase competition efforts with our customers. We also face competition from current and prospective customers who may decide to internally design and manufacture power supplies needed for their products. Furthermore, certain larger OEMs tend to contract only with larger power supply manufacturers.

We anticipate in the current economic situation, that additional competitors may enter into strategic alliances or even acquisitions. Competition could thus become more problematic if consolidation trends in the electronics industry continue and some of the OEMs to whom we sell our products are acquired by larger OEMs. To remain competitive, we must continue to compete favorably on the basis of value by providing reliable manufacturing, offering customer-driven engineering services including custom design and manufacturing, continuously improving quality and reliability levels, and offering flexible and reliable delivery schedules.

We believe that our power system solutions and advanced technology is superior to our competitors' power supplies mainly because they use the latest power technology processing and controls which make these power supplies highly customized and efficient. The power-to-volume ratio, makes our power solutions more compact compared to what is offered by our competitors and is suitable in custom infrastructures to meet our customers' requirements.

Another advantage of our power system solutions product line is based on the "Flexible" series that employs adjustable power range and a selectable number of output product design platforms. We believe we have a competitive position with our targeted customers who need a high-quality, compact product, which can be readily modified to meet the customer's unique requirements. We have designed the base model power system platform so that it can be quickly and economically modified and adapted to the specific power needs of any hosting platform or OEM. This "flexibility" approach has allowed us to provide samples of modified power systems to OEM customers only a few days after initial consultation, an important capability given the emphasis placed by OEMs on "time to market." It also results in very low non-recurring engineering ("NRE") expenses. Because of reduced NRE expenses, we do not generally charge our OEM customers for NRE related to tailoring a power system to a customer's specific requirements. We believe this gives us an advantage over our competitors, many of which charge their customers for NRE expenses.

Raw Materials

The raw materials for power supplies principally consist of electronic components. These raw materials are available from a variety of sources, and thus we are not dependent on any one supplier. We generally allow our subcontractors to purchase components based on orders received or forecasts to minimize our risk of unusable inventory. To the extent necessary, we may allow them to procure materials prior to orders received to obtain shorter lead times and to achieve quantity discounts following a risk assessment. In addition, we have decided to directly procure certain long lead-time electronic components in an effort to reduce our lead-time.

Many raw material vendors have reduced capacities, closed production lines and, in some cases, discontinued operations. As a result, some materials are no longer available to support some of our products requiring us to search for cross materials or, in certain circumstances, redesign some of our products to conform to currently available materials.

Intellectual Property

We rely upon a combination of trade secrets, industry expertise, confidential procedures, and contractual provisions to protect our intellectual property. We believe that because our products are continually updated and revised, obtaining patents would be costly and not beneficial. However, in the future, as we continue to develop unique core technology, we may seek to obtain patents for some of the core technology. On July 10, 2012, our trademark, “DP Digital Power Flexible Power” was registered with the United States Patent and Trademark Office.

A-10

Research and Development

During the years ended December 31, 2016 and 2015, we spent approximately \$709,000 and \$894,000, respectively, on research and development.

Employees

As of December 31, 2016 we had 26 employees located in the United States and the United Kingdom, of whom six were engaged in engineering and product development, seven in sales and marketing, seven in general operations and six in general administration and finance. All but two of these employees are employed on a full-time basis. None of our employees are currently represented by a trade union. We consider our relations with our employees to be good.

Recent Investments - Avalanche International, Corp.

We have made an investment in Avalanche International Corp. (“Avalanche”) through a series of convertible loans in the aggregate amount of approximately \$1,530,000 as of March 31, 2017. Avalanche is a development stage company whose primary business includes manufacturing and distributing of premium vape liquid and distributor of vape accessories and the development and operating of restaurants. More recently, in March 2017, Avalanche contractually acquired the rights to MTIX Limited, an English company located in Huddersfield, West Yorkshire, U.K. that owns the proprietary rights for the development of a cost effective and environmentally friendly material synthesis technology for textile applications. MTIX’s Multiplexed Laser Surface Enhancement “MLSE^{EM}” technology utilizes combined high powered pulsed UV laser and atmospheric plasma to create high energy reaction zone at substrate interface promoting rapid synthesis to achieve the required functional treatments. On March 15, 2017, we announced that we had entered into a \$50 million purchase order with MTIX to manufacture, install and service fabric treatment machines that utilize MTIX’s proprietary MLSE^{EM} system. The purchase order is subject to standard terms and conditions including that MTIX can cancel its order at any time subject to payment for expenses incurred and other contractually agreed expenses owed due to the cancellation of the purchase order. No assurance can be given that MTIX will order \$50 million in fabric machines which are the subject of the purchase order.

ITEM 1A. Risk Factors

An investment in our securities is speculative and involves a high degree of risk. Our business, financial condition or results of operations could be adversely affected by any of these risks. You should carefully consider the following factors as well as the other information contained in other reports that we file with the SEC before deciding to invest

in our securities. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. Past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results or trends in future periods. If any of these risks actually occurs, our business, business prospects, financial condition or results of operations could be seriously harmed. This could cause the trading price of our shares of common stock to decline, resulting in a loss of all or part of your investment. Please also read carefully the section “Forward-Looking Statements” at the beginning of this Annual Report.

We generated operating and net losses for the years ended December 31, 2016 and 2015.

We have historically experienced operating and net losses, and anticipate continuing to experience such losses in the future. For the years ended December 31, 2016 and 2015, we had an operating loss of approximately \$1,219,000 and \$1,003,000 and net losses of approximately \$1,122,000 and \$1,096,000, respectively. Although we have actively taken steps to increase our revenue and reduce manufacturing and operating costs, we anticipate incurring operating and net losses in the future until we increase revenues.

Our Growth Strategy Is Risky.

Our growth strategy through acquisitions is risky. Some of the companies that we have identified to acquire or make a significant investment in may not have a developed business or are experiencing inefficiencies and incurring losses. Therefore, we may lose our investment in the event that these companies' businesses do not develop as planned or that we are unable to achieve the cost efficiencies or reduction of losses as anticipated.

Further, in order to implement our growth plan, we have hired additional staff and consultants to review potential investments and implement our plan. As a result, we have substantially increased our infrastructure and costs. If we fail to quickly find new companies that provide revenue to offset our costs, we will continue to experience losses. No assurance can be given that our product development and investments will produce sufficient revenues to offset these increases in expenditures.

If we do not satisfy the NYSE requirements for continued listing or are unable to fulfill our compliance plan, our common stock could be delisted from NYSE.

The listing of our common stock on the NYSE MKT is contingent on our compliance with the NYSE MKT's conditions for continued listing. On December 18, 2015, we were notified by the NYSE MKT that we were no longer in compliance with the NYSE MKT continued listing standards because our last reported stockholders' equity was below continued listing standards. The NYSE MKT requires that a listed company's stockholders' equity be \$4.0 million or more if it has reported losses from continuing operations and/or net losses in three of its four most recent fiscal years. The NYSE MKT has indicated that we may be required to attain stockholders' equity of \$6.0 million or more if we experience a loss for the year ended December 31, 2016, which we did experience.

Following submission of our compliance plan demonstrating how we intend to regain compliance with the continued listing standards, we were notified on March 9, 2016 that the NYSE MKT granted us a listing extension on the basis of our plan until June 19, 2017. We are subject to periodic review by NYSE MKT staff during the extension period. Failure to make progress consistent with the plan or to regain compliance with the continued listing standards by the end of the extension period could result in our common stock being delisted from the NYSE MKT.

There is no assurance that we will be able to regain compliance with the abovementioned standard or any other applicable NYSE MKT continued listing standard. Upon such an occurrence, trading of our common stock will be suspended by the NYSE MKT and we may be delisted by the NYSE MKT. In the event our common stock is no longer listed for trading on the NYSE MKT, our trading volume and share price may decrease and we may experience further difficulties in raising capital which could materially affect our operations and financial results.

We Will Need to Raise Additional Capital to Increase our Stockholders' Equity and to Fund our Operations in Furtherance of Our Business Plan.

We will need to quickly raise additional capital in order to increase our stockholders' equity in order to meet the NYSE MKT continued listing standards and to fund our operations in furtherance of our business plan. The proposed financing may include shares of common stock, shares of preferred stock, warrants to purchase shares of common stock or preferred stock, debt securities, units consisting of the forgoing securities, equity investments from strategic development partners or some combination of each. Any additional equity financings may be financially dilutive to, and will be dilutive from an ownership perspective to our stockholders, and such dilution may be significant based upon the size of such financing. Additionally, we cannot assure that such funding will be available on a timely basis, in needed quantities, or on terms favorable to us, if at all.

A-12

A Principal Stockholder Has Significant Influence Over Us.

Per its filings with the SEC, Philou Ventures own approximately 30.8% of our current outstanding common stock. As a result, they will be able to exert a significant degree of influence over our management and affairs and over matters requiring stockholder approval, including the election of directors, any merger, consolidation or sale of all or substantially all of the combined company's assets, and any other significant corporate transaction. Their interests may not always coincide with those of our other stockholders.

A Principal Stockholder Has Certain Rights to Maintain Its Ownership Interest in Us

In connection with entering into a Series B Preferred Stock purchase agreement with Philou Ventures, we granted the right to Philou Ventures to participate in future offering under substantially the same term of such offerings in order to allow Philou Ventures to maintain its ownership interest. If exercised by Philou Ventures, this contractual right granted to it has the effect of allowing Philou Ventures to maintain its interest in us and dilute existing shareholders' ownership interests.

Our Success Is Dependent On Key Management

Our success depends substantially on the performance of certain key officers and personnel, in particular their ability to identify, acquire and operate new businesses and opportunities. The loss of services of Messrs. Ault or Kohn could have a material adverse effect on our business, results of operations, financial condition and prospects. We have not obtained key person insurance for these individuals.

We Have Pledged All Of Our Assets.

We have entered into a 12% Secured Convertible Note with a face value of \$530,000 due October 20, 2019, that is secured by all of our assets. The 12% Secured Convertible Note includes standard events of default. If we default under the 12% Secured Convertible Note, the holder may accelerate the due date of our repayment obligation. At such time, we may not have enough available cash to repay the 12% Secured Convertible Note and the holder could take control of and sell our pledged assets. An event of default could significantly harm our financial condition, operating results, business, and prospects and cause the price of our common stock to decline.

We depend on Advice Electronics Ltd. (“Advice”) to maintain the technology used to manufacture our products and to manufacture some of our products. We also depend on the right to manufacture certain products subject to royalty payments with Advice.

In January 2016, Telkooor, a prior affiliate, sold its entire commercial assets to Advice which included without limitation product IP, manufacturing rights, customer base, inventory, staff and technological capabilities. Following such transaction, we entered into a manufacturing and distribution agreement with Advice. This agreement allows us to manufacture certain Advice products (formerly owned by Telkooor) through August 2017 against royalty payments. From August 2017 through December 2020, subject to Advice's consent, we will be allowed to continue distributing and selling certain Advice products while keeping product branding under our brand, after which we will be entitled to distribute the products under Digital Power Corporation brand until December 2020.

A-13

We depend on Advice to design and retain product technology up to date and for manufacturing capabilities for certain of the products that we sell. If Advice is unable or unwilling to continue designing or manufacturing our products in required volumes and with a certain level of quality on a timely basis, that could lead to loss of sales and adversely affect our operating results and cash position. We also depend on Advice's intellectual property and ability to transfer production to third party manufacturers. Failure to obtain new products in a timely manner or delay in delivery of products to customers will have an adverse effect on our ability to meet our customers' expectations. In addition, we operate in highly competitive markets where our ability to sell Advice's products could be adversely affected by Advice's agreements with third parties, long lead-times and the high cost of Advice's products. Also, in 2012, Telkoo's products manufacturing lead-times increased, which hindered our ability to respond to our customers' needs in timely manner. Advice's principal offices, research and development and manufacturing facilities are located in Israel. Political, economic, and military conditions in Israel directly affect Advice operations. We are also dependent upon Advice's terms and conditions with its contract manufacturers for some of our products, which terms and conditions may not always be in our best interest. In 2010, we purchased certain IP from Telkoo in order to reduce our dependency on Telkoo with respect to a certain line of products. We also entered into a Manufacturing Rights Agreement with Advice in 2016, pursuant to which we were granted the non-exclusive right to directly place purchase orders for certain products from a third party manufacturer in consideration for payment of royalties to Advice. This agreement currently accounts for a significant portion of our sales. In the event this agreement is terminated for any reason, it would materially affect our financial position.

We are dependent upon our ability, and our contract manufacturers' ability, to timely procure electronic components.

Because of the global economy, many raw material vendors have reduced capacities, closed production lines and, in some cases, even discontinued their operations. As a result, there is a global shortage of certain electronic components, which has extended our production lead-time and our production costs. Some materials are no longer available to support some of our products, thereby requiring us to search for cross materials or, even worse, redesign some of our products to support currently-available materials. Such redesign efforts may require certain regulatory and safety agency re-submittals, which may cause further production delays. While we have initiated actions that we believe will limit our exposure to such problems, the dynamic business conditions in many of our markets may challenge the solutions that have been put in place, and issues may recur in the future.

In addition, some of our products are manufactured, assembled and tested by third party subcontractors and contract manufacturers located in Asia. While we have had relationships with many of these third parties in the past, we cannot predict how or whether these relationships will continue in the future. In addition, changes in management, financial viability, manufacturing demand or capacity, or other factors, at these third parties could hurt our ability to manufacture our products.

Our strategic focus on our custom power supply solution competencies and concurrent cost reduction plans may be ineffective or may limit our ability to compete.

As a result of our strategic focus on custom power supply solutions, we will continue to devote significant resources to developing and manufacturing custom power supply solutions for a large number of customers, where each product represents a uniquely tailored solution for a specific customer's requirements. Failure to meet these customer product requirements or a failure to meet production schedules and/or product quality standards may put us at risk with one or more of these customers. Moreover, changes in market conditions and strategic changes at the direction of our customers may affect their decision to continue to purchase from us. The loss of one or more of our significant custom power supply solution customers could have a material adverse impact on our revenues, business or financial condition.

We have also implemented a series of initiatives designed to increase efficiency and reduce costs. While we believe that these actions will reduce costs, they may not be sufficient to achieve the required operational efficiencies that will enable us to respond more quickly to changes in the market or result in the improvements in our business that we anticipate. In such event, we may be forced to take additional cost-reducing initiatives, including those involving our personnel, which may negatively impact quarterly earnings and profitability as we account for severance and other related costs. In addition, there is the risk that such measures could have long-term adverse effects on our business by reducing our pool of talent, decreasing or slowing improvements in our products or services, making it more difficult for us to respond to customers, limiting our ability to increase production quickly if and when the demand for our solutions increases and limiting our ability to hire and retain key personnel. These circumstances could cause our earnings to be lower than they otherwise might be.

We are dependent upon our ability to attract, retain and motivate our key personnel.

Our success depends on our ability to attract, retain and motivate our key management personnel, including, but not limited to, our President and Chief Executive Officer, our Vice President of Finance, marketing and sales personnel, and key engineers necessary to implement our business plan and to grow our business. Competition for certain specific technical and management skill sets is intense. If we are unable to identify and hire the personnel that we need to succeed, or if one or more of our present key employees were to cease to be associated with us, our future results could be adversely affected.

We depend upon a few major customers for a majority of our revenues, and the loss of any of these customers, or the substantial reduction in the quantity of products that they purchase from us, would significantly reduce our revenues and net income.

We currently depend upon a few major OEMs and other customers for a significant portion of our revenues. If our major OEM customers will reduce or cancel their orders scaling back some of their activities, our revenues and net income would be significantly reduced. Furthermore, diversions in the capital spending of certain of these customers to new network elements have and could continue to lead to their reduced demand for our products, which could, in turn, have a material adverse effect on our business and results of operations. If the financial condition of one or more of our major customers should deteriorate, or if they have difficulty acquiring investment capital due to any of these or other factors, a substantial decrease in our revenues would likely result. We are dependent on the electronic equipment industry, and accordingly will be affected by the impact on that industry of current economic conditions.

Substantially all of our existing customers are in the electronic equipment industry, and they manufacture products that are subject to rapid technological change, obsolescence, and large fluctuations in demand. This industry is further characterized by intense competition and volatility. The OEMs serving this industry are pressured for increased product performance and lower product prices. OEMs, in turn, make similar demands on their suppliers, such as us, for increased product performance and lower prices. Such demands may adversely affect our ability to successfully compete in certain markets or our ability to sustain our gross margins.

Our reliance on subcontract manufacturers to manufacture certain aspects of our products involves risks, including delays in product shipments and reduced control over product quality.

Since we do not own significant manufacturing facilities, we must rely on, and will continue to rely on, a limited number of subcontract manufacturers to manufacture our power supply products. Our reliance upon such subcontract manufacturers involves several risks, including reduced control over manufacturing costs, delivery times, reliability and quality of components, unfavorable currency exchange fluctuations, and continued inflationary pressures on many

of the raw materials used in the manufacturing of our power supply products. If we were to encounter a shortage of key manufacturing components from limited sources of supply, or experience manufacturing delays caused by reduced manufacturing capacity, inability of our subcontract manufacturers to procure raw materials, the loss of key assembly subcontractors, difficulties associated with the transition to our new subcontract manufacturers or other factors, we could experience lost revenues, increased costs, and delays in, or cancellations or rescheduling of, orders or shipments, any of which would materially harm our business.

We outsource, and are dependent upon developer partners for, the development of some of our custom design products.

We made an operational decision to outsource some of our custom design products to numerous developer partners. This business structure will remain in place until the custom design volume justifies expanding our in house capabilities. Incomplete product designs that do not fully comply with the customer specifications and requirements might affect our ability to transition to a volume production stage of the custom designed product where the revenue goals are dependent on the high volume of custom product production. Furthermore, we rely on the design partners' ability to provide high quality prototypes of the designed product for our customer approval as a critical stage to approve production.

We face intense industry competition, price erosion and product obsolescence, which, in turn, could reduce our profitability.

We operate in an industry that is generally characterized by intense competition. We believe that the principal bases of competition in our markets are breadth of product line, quality of products, stability, reliability and reputation of the provider, along with cost. Quantity discounts, price erosion, and rapid product obsolescence due to technological improvements are therefore common in our industry as competitors strive to retain or expand market share. Product obsolescence can lead to increases in unsaleable inventory that may need to be written off and, therefore, could reduce our profitability. Similarly, price erosion can reduce our profitability by decreasing our revenues and our gross margins. In fact, we have seen price erosion over the last several years on most of the products we sell, and we expect additional price erosion in the future.

Our future results are dependent on our ability to establish, maintain and expand our manufacturers' representative OEM relationships and our other relationships.

We market and sell our products through domestic and international OEM relationships and other distribution channels, such as manufacturers' representatives and distributors. Our future results are dependent on our ability to establish, maintain and expand our relationships with OEMs as well as with manufacturers' representatives and distributors to sell our products. If, however, the third parties with whom we have entered into such OEM and other arrangements should fail to meet their contractual obligations, cease doing, or reduce the amount of their, business with us or otherwise fail to meet their own performance objectives, customer demand for our products could be adversely affected, which would have an adverse effect on our revenues.

We may not be able to procure necessary key components for our products, or we may purchase too much inventory or the wrong inventory.

The power supply industry, and the electronics industry as a whole, can be subject to business cycles. During periods of growth and high demand for our products, we may not have adequate supplies of inventory on hand to satisfy our customers' needs. Furthermore, during these periods of growth, our suppliers may also experience high demand and, therefore, may not have adequate levels of the components and other materials that we require to build products so that we can meet our customers' needs. Our inability to secure sufficient components to build products for our customers could negatively impact our sales and operating results. We may choose to mitigate this risk by increasing the levels of inventory for certain key components. Increased inventory levels can increase the potential risk for excess and obsolescence should our forecasts fail to materialize or if there are negative factors impacting our customers' end markets. If we purchase too much inventory or the wrong inventory, we may have to record additional inventory reserves or write-off the inventory, which could have a material adverse effect on our gross margins and on our results of operations.

Although we depend on sales of our legacy products for a meaningful portion of our revenues, these products are mature and their sales will decline.

A relatively large portion of our sales have historically been attributable to our legacy products. We expect that these products may continue to account for a meaningful percentage of our revenues for the foreseeable future. However, these sales are declining. Although we are unable to predict future prices for our legacy products, we expect that prices for these products will continue to be subject to significant downward pressure in certain markets for the reasons described above. Accordingly, our ability to maintain or increase revenues will be dependent on our ability to expand our customer base, to increase unit sales volumes of these products and to successfully, develop, introduce and sell new products such as custom design and value added products. We cannot assure you that we will be able to expand our customer base, increase unit sales volumes of existing products or develop, introduce and/or sell new products.

A-16

Our operating results may vary from quarter to quarter.

Our operating results have in the past been subject to quarter-to-quarter fluctuations, and we expect that these fluctuations will continue, and may increase in magnitude, in future periods. Demand for our products is driven by many factors, including the availability of funding for our products in our customers' capital budgets. There is a trend for some of our customers to place large orders near the end of a quarter or fiscal year, in part to spend remaining available capital budget funds. Seasonal fluctuations in customer demand for our products driven by budgetary and other concerns can create corresponding fluctuations in period-to-period revenues, and we therefore cannot assure you that our results in one period are necessarily indicative of our revenues in any future period. In addition, the number and timing of large individual sales and the ability to obtain acceptances of those sales, where applicable, have been difficult for us to predict, and large individual sales have, in some cases, occurred in quarters subsequent to those we anticipated, or have not occurred at all. The loss or deferral of one or more significant sales in a quarter could harm our operating results for such quarter. It is possible that, in some quarters, our operating results will be below the expectations of public market analysts or investors. In such events, or in the event adverse conditions prevail, the market price of our common stock may decline significantly.

Failure of our information technology infrastructure to operate effectively could adversely affect our business.

We depend heavily on information technology infrastructure to achieve our business objectives. If a problem occurs that impairs this infrastructure, the resulting disruption could impede our ability to record or process orders, manufacture and ship in a timely manner, or otherwise carry on business in the normal course. Any such events could cause us to lose customers or revenue and could require us to incur significant expense to remediate.

We are subject to certain governmental regulatory restrictions relating to our international sales.

Some of our products are subject to International Traffic In Arms Regulation ("ITAR"), which are interpreted, enforced and administered by the U.S. Department of State. ITAR regulation controls not only the export, import and trade of certain products specifically designed, modified, configured or adapted for military systems, but also the export of related technical data and defense services as well as foreign production. Any delays in obtaining the required export, import or trade licenses for products subject to ITAR regulation and rules could have a material adverse effect on our business, financial condition, and/or operating results. In addition, changes in United States export and import laws that require us to obtain additional export and import licenses or delays in obtaining export or import licenses currently being sought could cause significant shipment delays and, if such delays are too great, could result in the cancellation of orders. Any future restrictions or charges imposed by the United States or any other country on our international sales or foreign subsidiary could have a materially adverse effect on our business, financial condition, and/or operating results. In addition, from time to time, we have entered into contracts with the Israeli Ministry of Defense which were governed by the U.S. Foreign Military Financing program ("FMF"). Any such future sales would be subject to these regulations. Failure to comply with ITAR or FMF rules could have a material adverse effect on our

financial condition, and/or operating results.

We depend on international operations for a substantial majority of our components and products.

We purchase a substantial majority of our components from foreign manufacturers and have a substantial majority of our commercial products assembled, packaged, and tested by subcontractors located outside the United States. These activities are subject to the uncertainties associated with international business operations, including trade barriers and other restrictions, changes in trade policies, governmental regulations, currency exchange fluctuations, reduced protection for intellectual property, war and other military activities, terrorism, changes in social, political, or economic conditions, and other disruptions or delays in production or shipments, any of which could have a materially adverse effect on our business, financial condition, and/or operating results.

A-17

We depend on international sales for a portion of our revenues.

Sales to customers outside of North America accounted for 40.2% and 55.8% of net revenues for the years ended December 31, 2016 and 2015, and we expect that international sales will continue to represent a material portion of our total revenues. International sales are subject to the risks of international business operations as described above, as well as generally longer payment cycles, greater difficulty collecting accounts receivable, and currency restrictions. In addition, DPL, our wholly-owned subsidiary in the United Kingdom, supports our European and other international customers, distributors, and sales representatives, and therefore is also subject to local regulation. International sales are also subject to the export laws and regulations of the United States and other countries.

If our accounting controls and procedures are circumvented or otherwise fail to achieve their intended purposes, our business could be seriously harmed.

We evaluate our disclosure controls and procedures as of the end of each fiscal quarter, and are annually reviewing and evaluating our internal control over financial reporting in order to comply with Securities and Exchange Commission (“SEC”) rules relating to internal control over financial reporting adopted pursuant to the Sarbanes-Oxley Act of 2002. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. If we fail to maintain effective internal control over financial reporting or our management does not timely assess the adequacy of such internal control, we may be subject to regulatory sanctions, and our reputation may decline.

The sale of our products is dependent upon our ability to satisfy the proprietary requirements of our customers.

We depend upon a relatively narrow range of products for the majority of our revenue. Our success in marketing our products is dependent upon their continued acceptance by our customers. In some cases, our customers require that our products meet their own proprietary requirements. If we are unable to satisfy such requirements, or forecast and adapt to changes in such requirements, our business could be materially harmed.

The sale of our products is dependent on our ability to respond to rapid technological change, including evolving industry-wide standards, and may be adversely affected by the development, and acceptance by our customers, of new technologies which may compete with, or reduce the demand for, our products.

Rapid technological change, including evolving industry standards, could render our products obsolete. To the extent our customers adopt such new technology in place of our products, the sales of our products may be adversely affected. Such competition may also increase pricing pressure for our products and adversely affect the revenues from such products.

Our limited ability to protect our proprietary information and technology may adversely affect our ability to compete, and our products could infringe upon the intellectual property rights of others, resulting in claims against us, the results of which could be costly.

Many of our products consist entirely or partly of proprietary technology owned by us. Although we seek to protect our technology through a combination of copyrights, trade secret laws and contractual obligations, these protections may not be sufficient to prevent the wrongful appropriation of our intellectual property, nor will they prevent our competitors from independently developing technologies that are substantially equivalent or superior to our proprietary technology. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as the laws of the United States. In order to defend our proprietary rights in the technology utilized in our products from third party infringement, we may be required to institute legal proceedings, which would be costly and would divert our resources from the development of our business. If we are unable to successfully assert and defend our proprietary rights in the technology utilized in our products, our future results could be adversely affected.

Although we attempt to avoid infringing known proprietary rights of third parties in our product development efforts, we may become subject to legal proceedings and claims for alleged infringement from time to time in the ordinary course of business. Any claims relating to the infringement of third-party proprietary rights, even if not meritorious, could result in costly litigation, divert management's attention and resources, require us to reengineer or cease sales of our products or require us to enter into royalty or license agreements which are not advantageous to us. In addition, parties making claims may be able to obtain an injunction, which could prevent us from selling our products in the United States or abroad.

If we are unable to satisfy our customers' specific product quality, certification or network requirements, our business could be disrupted and our financial condition could be harmed.

Our customers demand that our products meet stringent quality, performance and reliability standards. We have, from time to time, experienced problems in satisfying such standards. Defects or failures have occurred in the past, and may in the future occur, relating to our product quality, performance and reliability. From time to time, our customers also require us to implement specific changes to our products to allow these products to operate within their specific network configurations. If we are unable to remedy these failures or defects or if we cannot effect such required product modifications, we could experience lost revenues, increased costs, including inventory write-offs, warranty expense and costs associated with customer support, delays in, or cancellations or rescheduling of, orders or shipments and product returns or discounts, any of which would harm our business.

If we ship products that contain defects, the market acceptance of our products and our reputation will be harmed and our customers could seek to recover their damages from us.

Our products are complex, and despite extensive testing, may contain defects or undetected errors or failures that may become apparent only after our products have been shipped to our customers and installed in their network or after product features or new versions are released. Any such defect, error or failure could result in failure of market acceptance of our products or damage to our reputation or relations with our customers, resulting in substantial costs for us and our customers as well as the cancellation of orders, warranty costs and product returns. In addition, any defects, errors, misuse of our products or other potential problems within or out of our control that may arise from the use of our products could result in financial or other damages to our customers. Our customers could seek to have us pay for these losses. Although we maintain product liability insurance, it may not be adequate.

Our common stock price is volatile.

Our common stock is listed on the NYSE MKT. In the past, our trading price has fluctuated widely, depending on many factors that may have little to do with our operations or business prospects. The exercise of outstanding options and warrants may adversely affect our stock price and a shareholder's percentage of ownership. As of December 31, 2016, we had outstanding options to purchase an aggregate of 2,256,000 shares of common stock, with a weighted average exercise price of \$0.83 per share, exercisable at prices ranging from \$0.65 to \$1.69 per share and warrants to purchase up 1,749,126 shares of common stock at exercise prices ranging from \$0.01 to \$0.90 per share.

In addition, we have contractually agreed to register shares of common stock, and common stock underlying outstanding warrants and convertible debt in connection with private placement of our securities. Our shares of common stock are thinly traded. Therefore, the resale of a large number of shares of common stock and common

stock underlying warrants and convertible debt by the selling stockholders may adversely affect the market price of our common stock.

Item 2. Properties.

Our headquarters utilize 12,396 square foot of leased office, engineering, laboratory, and warehouse space in Fremont, California. Our headquarter lease commenced on November 1, 2012 and expires on June 30, 2019. The annual base rent under the lease, payable on a monthly basis, increases during the term of the lease from approximately \$138,000 during the first year to approximately \$160,000 during the final year. The lease also provides for one option to renew for a term of five years.

A-19

In September, 2010, our wholly-owned subsidiary, DPL, entered into a fifteen-year lease for its 25,000 square-foot facility in Salisbury, United Kingdom, where it designs, develops, manufactures, markets and distributes commercial and military power products for the European market. Sales and service support staff for its European network of distributors are located within the building together with other functions, such as engineering and administration. DPL's rent expense is approximately \$12,000 per month, and DPL has the option to cancel the lease after ten years.

We currently anticipate that the current leased space will be sufficient to support our current and foreseen future needs.

Item 6. Selected Financial Data.

Because we are a smaller reporting company, this section is not applicable.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

Our business strategy is to grow the Company by making strategic acquisitions. We are a solution-driven organization that designs, develops, manufactures and markets high-grade, customized and flexible power solutions for demanding applications in the medical, military, telecom, and industrial markets. Our products serve global markets worldwide. Revenues are generated from selling products to our customers directly by our sales force and through manufacturing representatives and distributors. The forgoing discussions may not be indicative of our future.

Our net loss was \$1,122,000 for the year ended December 31, 2016 compared to a net loss of \$1,096,000 for the year ended December 31, 2015. Our net loss for the year ended December 31, 2016 includes expenses that related to our growth plan and approximately \$543,000 of stock compensation expense. During 2016 our cash decreased by \$245,000.

To fulfill our business plan and strategy, we will actively seek additional capital to finance our operations for the next 12 months.

Foreign Currency Fluctuations

Our wholly-owned subsidiary, DPL, operates using the United Kingdom pound sterling. Therefore, we are subject to monetary fluctuations between the U.S. dollar and the United Kingdom pound sterling. The financial statements of the subsidiary which are included in our consolidated financial statements have been translated into U.S. dollars. For the year ended December 31, 2016 and 2015, we recorded a foreign currency translation loss of \$362,000 and \$100,000 as reported in our consolidated statements of comprehensive income (loss).

Results of Operations

The table below sets forth certain statements of operations data as a percentage of revenues for the years ended December 31, 2016 and 2015:

The following discussion and analysis should be read in connection with the consolidated financial statements and the notes thereto and other financial information included elsewhere in this Annual Report. We prepared the financial statements in accordance with U.S. generally accepted accounting principles, which requires management to make estimates, and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Year Ended December 31, 2016 Compared to Year Ended December 31, 2015

Revenues

For the year ended December 31, 2016, revenues decreased by 2.2 % to \$7,596,000 from \$7,766,000 for the year ended December 31, 2015. The decrease is attributed to a decline in value of military product orders shipped by DPL.

Revenues derived from our defense products for the year ended December 31, 2016 were \$2,289,000, a decrease of 22.8% from revenues of \$2,964,000 from defense products for the year ended December 31, 2015. The decrease was primarily attributable to a decrease of sales of major international naval military contracts in 2016. Revenues derived from our commercial products for the year ended December 31, 2016 increased by 10.5% to \$5,307,000 from \$4,802,000 for the year ended December 31, 2015. The increase in commercial product revenue in 2016 resulted primarily from sales of commercial products by our domestic operation.

Revenues from our domestic operations increased by 18.8% to \$4,552,000 for the year ended December 31, 2016, from \$3,833,000 for the year ended December 31, 2015. The increase in revenue is mostly attributable from a rising sales volume of commercial and military products in North America.

Revenues from our European operations (Gresham/DPL) decreased 22.6% to \$3,044,000 for the year ended December 31, 2016 compared to \$3,933,000 for the year ended December 31, 2015. The decrease was primarily attributable to a decrease of military product sales and the impact of a weakening of the British Pound and Euro against the USD.

Gross Profit Margins

Gross margins were 35.62% for the year ended December 31, 2016, compared to 34.9% for the year ended December 31, 2015. The slight increase in gross margins for the year ended December 31, 2016 compared to the prior year 2015 was mainly attributable to the increase in profitability of our commercial products sold by our U.S. operations.

Engineering and Product Development

Engineering and product development expenses were \$709,000, or 9.3% of revenues, for the year ended December 31, 2016, compared to \$894,000, or 11.5% of revenues, for the year ended December 31, 2015. The overall decrease in our engineering and product development expenses for the comparative year was primarily related to the completion of custom product development efforts for medical and broadband applications, which lowered the amount of outside contracted engineering services incurred by our U.S. operations.

Selling and Marketing

Selling and marketing expenses were \$916,000, or 12.1% of revenues, for the year ended December 31, 2016, compared to \$1,195,000, or 15.4% of revenues, for the year ended December 31, 2015. The decrease in sales and marketing expenses for the comparative period was primarily the result of reduction in sales staff. The decrease in selling and marketing expenses for the year ended December 31, 2016 compared to the year ended December 31, 2015 was primarily the result of a temporary decrease in direct manpower cost due to a reduced headcount. In July 2015 the Company hired two senior sales who were dismissed in December 2015.

General and Administrative

General and administrative expenses were \$2,300,000, or 30.29% of revenues, for the year ended December 31, 2016, compared to \$1,627,000, or 20.9% of revenues, for the year ended December 31, 2015. The increase in our general and administrative expenses for the comparative period was mainly due to higher stock based compensation expenses which accounted for a \$322,000 increase from 2015 to 2016, an increase in legal costs related to the Telkooor and Philou Ventures transaction and an increase in investor relationship costs.

Impairment of investment

No impairment related to our investment in Telkooor was recognized for the year ended December 31, 2016. For the year ended December 31, 2015, we recognized an \$110,000 impairment expense related to our Telkooor investment. On September 22, 2016, we sold our investment in Telkooor back to Telkooor for \$90,000 which was equal to the carrying amount of the investment.

Other Income, Net

Other income, net was \$77,000 for the year ended December 31, 2016 and consisted of foreign currency transaction gains of \$110,000 offset by non-cash interest expense resulting from the accretion of discount on our 12% Secured Convertible Note plus contractual interest compared to \$16,000 for the year ended December 31, 2015 which consisted only of foreign currency transaction gains.

Net Loss

For the year ended December 31, 2016, we had a net loss of \$1,122,000 compared to a net loss of \$1,096,000 for the year ended December 31, 2015.

Other comprehensive income (loss)

Other comprehensive loss was \$362,000 and \$100,000, respectively, for the years ended December 31, 2016 and 2015. The significant other comprehensive loss for the year ended December 31, 2016, which decreased our equity reflects the impact of the weakening of the British Pound on the equity of our UK-based subsidiary DPL following the referendum in the UK on membership in the European Union.

Critical Accounting Policies

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported assets, liabilities, revenues, and expenses in the accompanying consolidated financial statements. Critical accounting policies are those that require the most subjective and complex judgments, often employing the use of estimates about the effect of matters that are inherently uncertain. The following are considered our most critical accounting policies that, under different conditions or using different assumption or estimates, could show materially different results on our financial condition and results of operations.

Revenue Recognition

Revenue from product sales is recognized in accordance with the provisions of ASC 605-15, "Revenue Recognition in Financial Statements", when the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred (when risk of loss and title have transferred to the customer), the sale price is fixed or determinable and collection is reasonably assured.

We generally use customer purchase orders and contracts to determine the existence of an arrangement. Shipping documents and customer acceptance, when applicable, are used to verify delivery. We assess whether the sales price is fixed or determinable based on the payment terms associated with the transaction and whether the price is subject to

refund or adjustment. We assess collectability based primarily on the creditworthiness of the customer as determined by credit checks and analysis, as well as the customer's payment history.

Revenue on shipments to distributors and resellers is recognized on delivery. Generally, we do not grant a right of return. However, certain distributors are allowed, in the sixth month after the initial stock purchase, to rotate stock that has not been sold for other products. Revenues subject to stock rotation rights are deferred until the products are sold to the end customer or until the rotation rights expire.

Inventory Obsolescence Accruals

We periodically assess our inventory valuation by reviewing revenue forecasts and technological obsolescence. We write down the value of obsolete or unmarketable inventory to the estimated net realizable value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs would be necessary.

During 2016 and 2015, we recorded inventory write-down of \$84,000 and \$9,000, respectively.

Allowance for Doubtful Accounts

Our accounts receivable are derived from sales to customers located primarily in the U.S. and Europe. We perform ongoing credit evaluations of our customers' financial condition and currently require no collateral from our customers. An allowance for doubtful accounts for estimated losses is maintained in anticipation of the inability of customers to make required payments. The allowance for doubtful accounts as of December 31, 2016 and 2015 was \$32,000 and \$0, respectively. When we become aware that a specific customer is unable to meet its financial obligations as a result of bankruptcy or the deterioration of the customer's operating results or financial position, for example, we record a specific allowance to reflect the level of credit risk in the customer's outstanding receivable balance. We are not able to predict changes in the financial condition of customers, and if the condition or circumstances of our customers deteriorates, estimates of the recoverability of trade receivables could be materially affected and we may be required to record additional allowances. Alternatively, if our estimates are determined to be greater than the actual amounts necessary, we may decrease a portion of such allowance in future periods based on actual collection experience.

Marketable Securities

We classify our investment in shares of common stock of Telkoo and Avalanche International Corp. ("Avalanche") in accordance with Accounting Standards Codification (ASC) 320, "Investment in Debt and Equity Securities" (ASC No. 320) and ASC 325, "Investment – Other" ("ASC No. 325"). Marketable securities classified as "available for sale securities" are carried at fair value, based on quoted market prices. Unrealized gains and losses are reported in a separate component of shareholder's equity in "accumulated other comprehensive loss" in equity. When evaluating the investment for other-than-temporary impairment, we review factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and our intent to sell, or whether it is more likely than not that we will be required to sell the investment before recovery of the investment's amortized cost basis.

Equity securities that do not have readily determinable fair values (i.e., non-marketable equity securities) and are not required to be accounted for under the equity method are typically carried at cost (i.e., cost method investments), as described in ASC 325-20.

We did not record any impairment of our investments in Telkoo or Avalanche during the year ended December 31, 2016. For the year ended December 31, 2015, we recognized an impairment of our investment in Telkoo in the amount of \$110,000. On September 22, 2016, we sold our shares in Telkoo back to Telkoo for \$90,000 which represented our book value.

Equity-based Compensation Expense

We account for equity-based compensation in accordance with ASC 718, "Compensation – Stock compensation" ("ASC 718"). Under the fair value recognition provisions of this statement, share-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as an expense over the requisite service periods. Determining the fair value of share-based awards at the grant date requires the exercise of judgment, including the amount of share-based awards that are expected to be forfeited. Estimated forfeitures are based on historical pre-vesting forfeitures. If actual results differ from these estimates, equity-based compensation expense, and therefore our results of operations, could be impacted.

We estimate the fair value of stock options granted under ASC 718, using the Black-Scholes option-pricing model, which uses the following assumption:

Expected volatility is based on historical volatility, which is representative of future volatility over the expected term of the options. The expected term of options granted was determined based on the simplified method, which is calculated as the midpoint between the vesting date and the end of the contractual term of the option. The risk free interest rate is based on the yield of U.S. Treasury bonds with equivalent terms. The dividend yield is based on our historical and future expectation of dividends payouts. We have not paid cash dividends historically and have no plans to pay cash dividends in the foreseeable future.

Convertible Instruments

The Company accounts for hybrid contracts that feature conversion options in accordance with applicable GAAP. ASC 815 "Derivatives and Hedging Activities," ("ASC 815") requires companies to bifurcate conversion options from their host instruments and account for them as freestanding derivative financial instruments according to certain criteria. The criteria includes circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under other applicable GAAP with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument.

Conversion options that contain variable settlement features such as provisions to adjust the conversion price upon subsequent issuances of equity or equity linked securities at exercise prices more favorable than that featured in the hybrid contract generally result in their bifurcation from the host instrument.

The Company accounts for convertible instruments, when the Company has determined that the embedded conversion options should not be bifurcated from their host instruments, in accordance with ASC 470-20 “Debt with Conversion and Other Options” (“ASC 470-20”). Under ASC 470-20 the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. The Company accounts for convertible instruments (when the Company has determined that the embedded conversion options should be bifurcated from their host instruments) in accordance with ASC 815. Under ASC 815, a portion of the proceeds received upon the issuance of the hybrid contract are allocated to the fair value of the derivative. The derivative is subsequently marked to market at each reporting date based on current fair value, with the changes in fair value reported in results of operations.

Common Stock Warrants

The Company classifies as equity any warrants that (i) require physical settlement or net-share settlement or (ii) provide the Company with a choice of net-cash settlement or settlement in its own shares (physical settlement or net-share settlement). The Company classifies as assets or liabilities any warrants that (i) require net-cash settlement (including a requirement to net cash settle the contract if an event occurs and if that event is outside the Company’s control), (ii) gives the counterparty a choice of net-cash settlement or settlement in shares (physical settlement or net-share settlement) or (iii) that contain reset provisions that do not qualify for the scope exception. The Company assesses classification of its common stock warrants and other freestanding derivatives at each reporting date to determine whether a change in classification between assets and liabilities is required. The Company’s freestanding derivatives consist of warrants to purchase common stock that were issued in connection with its (i) convertible notes, (ii) equity funding, and (iii) officer of the Company for the services. The Company evaluated these warrants to assess their proper classification and determined that the common stock warrants meet the criteria for equity or liability classification in the balance sheet. The warrants classified as liability are initially recorded at fair value, with gains and losses arising from changes in fair value recognized in other income (expense) in the statements of operations at each period end while such instruments remain outstanding

Liquidity and Capital Resources

On December 31, 2016, we had cash and cash equivalents of \$996,000 and working capital of \$1,963,000. This compares with cash and cash equivalents of \$1,241,000 and working capital of \$2,659,000 at December 31, 2015. The decrease in cash and cash equivalents was due mainly to operational losses and our investment in Avalanche International in the form convertible notes in the aggregate amount of \$1,036,000.

Net cash used in operating activities totaled \$358,000 and \$529,000 for the years ended December 31, 2016 and December 31, 2015, respectively. The decrease in net cash used in operating activities for the year ended December 31, 2016, was principally due to a decrease in our operating loss.

Net cash used in investing activities was \$1,029,000 for the year ended December 31, 2016, compared to net cash used in investing activities of \$306,000 for the year ended December 31, 2015. The increase of the net usage of cash from investing activities was primarily related to the investment in Avalanche.

A-26

Net cash provided by financing activities was \$1,279,000 and \$0 for the year ended December 31, 2016 and December 31, 2015, respectively. The increase in financing activities related to the sale of a \$530,000 convertible note for net proceeds of \$488,000, a term loan of \$250,000 and the sale of \$541,000 in units consisting of shares of Common stock and warrants to purchase Common Stock.

Subsequent to year end through April 5, 2017, we sold 1,526,667 shares of common stock at \$0.60 to \$0.75 per share raising, in the aggregate, \$970,000 before expenses. In addition, we sold 25,000 shares of Series B Preferred Stock at \$10.00 per share in exchange for the cancellation of debt of \$250,000.

We expect to continue to incur losses for the foreseeable future and will be required to raise additional capital to continue to support our working capital requirements. We believe that the MLSE purchase order contract of \$50 million by MTIX will contribute to generate meaningful revenue and corresponding cash in 2017. In addition, we have been successful over the last 12 months in raising capital to support our working capital requirements. We will anticipate that we will continue to raise capital through public and private equity offerings, debt financings, or other means. If we are unable to secure additional capital, we may be required to curtail our current operations and take additional measures to reduce costs expenses, including reducing our workforce, eliminating outside consultants, ceasing or reducing review of potential acquisitions and reducing legal fees in order to conserve cash in order to sustain operations and meet our obligations.

Based on the above, we believe that we will have sufficient capital resources to sustain operations through at least the next twelve months from the date of this filing.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk.

Because we are a smaller reporting company, this section is not applicable

Item 8. Financial Statements and Supplementary Data.

The financial statements required by this Item 8 are included in this Annual Report following Item 15 hereof. As a smaller reporting company, we are not required to provide supplementary financial information.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure.

On December 29, 2016, we dismissed Kost Forer Gabbay and Kasierer, a member of Ernst & Young Global (“Kost Forer”) as our independent registered public accounting firm. Our Audit Committee approved the dismissal of Kost Forer. Kost Forer’s report on our consolidated financial statements as of and for the fiscal years ended December 31, 2014 and 2015 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principle.

During the fiscal years ended December 31, 2014 and 2015 and through December 29, 2016, there were (i) no disagreements with Kost Forer on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Kost Forer’s satisfaction, would have caused Kost Forer to make reference thereon in their report on the financial statements for the fiscal years ended December 31, 2014 and 2015, and (ii) no “reportable events” as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

On January 13, 2017, we, as approved by the Audit Committee, appointed Marcum LLP (“Marcum”) as our independent registered public accounting firm for the fiscal year ended December 31, 2016. During our two most recent fiscal years (fiscal years ended December 31, 2014 and 2015) and during the subsequent interim period through January 13, 2017, neither we nor anyone acting on our behalf consulted with Marcum regarding (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on our financial statements, and neither a written report nor oral advice was provided to us that Marcum concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issue; or (ii) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (as described in Item 304(a)(1)(v) of Regulation S-K).

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of December 31, 2016, we have carried out an evaluation, under the supervision of, and with the participation of, our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) under the Exchange Act) were effective as of the end of the period covered by the report to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required financial disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2016. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations

of the Treadway Commission (“COSO”) in Internal Control-Integrated 2013 Framework. The 2013 Framework is expected to help organizations design and implement internal control in light of many changes in business and operating environments since the issuance of the original framework, broaden the application of internal control in addressing operation and reporting objectives, and clarify the requirements for determining what constitutes effective internal controls. Our management has concluded that, as of December 31, 2016, our internal control over financial reporting was effective.

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management’s report was not subject to attestation by our independent registered public accounting firm pursuant to a provision under the Dodd-Frank Wall Street Reform and Consumer Protection Act which grants a permanent exemption for non-accelerated filers from complying with Section 404(b) of the Sarbanes-Oxley Act of 2002.

1. Mr. Ault held series 7, 24, and 63 licenses and managed four domestic hedge funds and one bond fund from 1998 through 2008. On April 26, 2012, as a result from an investigation by FINRA involving activities during 2008, Mr. Ault agreed to a settlement with FINRA in which he did not admit to any liability or violation of any laws or regulatory rules and that included restitution and a suspension from association with a FINRA member firm for a period of two years. As part of that settlement, Mr. Ault agreed that he would make restitution to certain investors. Mr. Ault did not within the prescribed time period make a restitution payment to certain of the investors as he was unable to locate all of them, nor did he forward the undistributed restitution in the state where the investor was known to have resided, as directed by FINRA.

2. Mr. Ault was CEO, President and Chairman of Zealous Holdings, Inc. that filed for bankruptcy protection under Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code") on February 20, 2009, in the U.S. Bankruptcy Court, Central District of California. This Chapter 11 filing was subsequently converted to a Chapter 7

filing by order of the Bankruptcy Court. Zealous Holdings, Inc. was not an entity that was entitled to a discharge under the bankruptcy code. As such Zealous Holdings, Inc. did not receive a discharge. Ultimately, Zealous Holdings, Inc. ceased doing business and was permanently closed.

3. Mr. Ault filed for bankruptcy protection under Chapter 11 of Title 11 of the United States Code (the “Bankruptcy Code”) on December 8, 2009, in the U.S. Bankruptcy Court, Central District of California. This Chapter 13 filing was subsequently converted to a Chapter 7 filing by order of the Bankruptcy Court and months later, the petition being withdrawn and dismissed without prejudice.

401(k) Plan

We have adopted a tax-qualified employee savings and retirement plan, or 401(k) plan, which generally covers all of our full-time employees. Pursuant to the 401(k) plan, eligible employees may make voluntary contributions to the plan up to a maximum of 5% of eligible compensation. ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The following information sets forth certain related transactions between us and certain of our shareholder of directors. Prior to September 22, 2016, Telkooor was our largest shareholder and Telkooor's Chief Executive Officer, Benzi Diamant, was our Chairman of the Board. Effective September 22, 2016, Telkooor sold all of its shares of common stock of the Company to Philou Ventures, and as a result, Philou Ventures is our largest shareholder. Philou Ventures' Manager is Kristine L. Ault, one of our directors. Ms. Ault is the spouse of Milton C. Ault, III, who is our Executive Chairman of the Board.

Telkooor Telecom, Ltd.

As previously disclosed, on September 5, 2016, we entered into a securities purchase agreement with Philou Ventures, and Telkooor pursuant to which Telkooor agreed to purchase all of Telkooor's 2,714,610 shares of the common stock in the Company, constituting approximately 40.06% of the then Company's outstanding shares of common stock. In consideration for such shares, Philou agreed to pay Telkooor \$1.5 million.

In conjunction with the securities purchase agreement, we entered into a rescission agreement with Telkooor in order to resolve all financial issues between the parties, including the repurchase by Telkooor of 1,136,666 shares of common stock of Telkooor beneficially owned by us for book value.

Finally, as part of the securities purchase agreement, we have agreed to pay Mr. Diamant \$7,500 for a period of eighteen months from September 5, 2016 for consulting services.

Relationship with Telkooor Power Supplies Ltd.

During the years ended December 31, 2016 and 2015, we purchased approximately \$0 and \$594,000, respectively, of products from Telkooor Power Supplies, Ltd., a wholly-owned subsidiary of our largest then shareholder, Telkooor, of which Ben-Zion Diamant was the Chief Executive Officer and its controlling shareholder. We had no written agreement for the purchase of these products, other than purchase orders that are placed in the ordinary course of business when the products are needed. In January 2016, Telkooor sold its commercial intellectual property to Advice Electronics Ltd. As a result, of that date no further orders have been placed with Telkooor.

Purchase of IP by Digital Power Limited (“DPL”) from Telkoo Power Supplies (“TPS”)

On August 25, 2010, we and our wholly-owned subsidiary, DPL, entered into an agreement with TPS, a wholly-owned subsidiary of our largest then shareholder, Telkoo, of which Mr. Diamant is the Chief Executive Officer and controlling shareholder. Pursuant to such agreement, (1) TPS sold, assigned and conveyed to DPL all of its rights, title and interest in and to the intellectual property associated with the Compact Peripheral Component Interface 600 W AC/DC power supply series (the “Assets”) and (2) DPL granted to TPS an irrevocable license to sell the Assets in Israel on an exclusive basis. In consideration for the purchase of the Assets, DPL paid TPS \$480,000. The consideration for the license provided to TPS to sell the Assets in Israel is a royalty fee of 15% of TPS's direct production costs of sales, due on a quarterly basis. In accordance with the agreement, the consideration for the IP may be reduced over a four-year period in the event annual sales for each year between 2011 and 2014 are less than a fixed threshold of units on an annual basis based upon an offset value per unit as described in the agreement. If there is a shortfall in sale of units in one annual period and in the subsequent period we sell more than the fixed unit threshold, this difference will be offset from any reduced consideration in any annual periods between 2011 and 2014. As a result of lower than anticipated sales by our DPL subsidiary of the Compact Peripheral Component Interface 600W AC/DC power supply series (CPCI 600W) through 2013, we amended our agreement with Telkoo (effective January 1, 2014 for the duration of the original agreement or until the shortfall of CPCI 600W product sales will be offset) to include additional products in addition to the original CPCI 600W product. As of December 31, 2015, the shortfall of sales of CPCI 600W products is greater than the outstanding royalties due. In January 2016, Telkoo sold its assets, including its subsidiary TPS, to Advice Electronics Ltd. Following this asset sale, the IP agreement between the Company and Telkoo was terminated.

Acquisition of Shares of Telkoo

On June 16, 2011 we acquired 1,136,666 shares of Telkoo, a then major shareholder of the Company which was listed on the Tel Aviv Stock Exchange, for \$0.88 (NIS 3) per share, which represented 8.8% of the outstanding shares of Telkoo. As a result of this transaction, an existing manufacturing agreement between Digital Power and Telkoo was updated and extended. Until September 30, 2012 the investment was accounted for as an available-for-sale investment and then reclassified the accounting of the investment at cost less accumulated impairments derived from independent appraisals or available market valuations. As of December 31, 2015 the shares represented 8.4% of the outstanding shares of Telkoo which have since de-listed from the Tel Aviv Stock Exchange.

On September 22, 2016, the Company sold such shares back to Telkoo for \$90,000.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of

DIGITAL POWER CORPORATION

We have audited the accompanying consolidated balance sheet of Digital Power Corporation (the "Company") and subsidiary as of December 31, 2015, and the related consolidated statements of operations, comprehensive loss, shareholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and subsidiary at December 31, 2015, and the consolidated results of its operations and its cash flows for year then ended in conformity with U.S. generally accepted accounting principles.

In February 2017, the Company issued demand promissory notes and warrants to purchase 333,333 shares of common stock at \$ 0.70 per share for aggregate proceeds of \$400. Further in February 2017, the holders of \$400 in demand promissory notes agreed to extinguish their \$400 of debt by purchasing 666,667 shares of common stock of the Company at \$0.60 per share (See Note 16).

On March 9, 2017, the Company entered into a preferred stock purchase agreement with Philou Ventures LLC (“Philou”), a related party entity, pursuant to which Philou agreed to invest up to \$5,000,000 in the Company through the purchase of Series B Preferred Stock over a term of 36 months (See Note 13). On March 24, 2017, Philou purchased 25,000 shares of Series B Preferred Stock pursuant to the preferred stock purchase agreement in consideration of cancellation of Company debt of \$250 due to MCKEA.

On March 15, 2017, Company entered into a subscription agreement with one investor for the sale of 500,000 shares of common stock at \$0.60 per share for the aggregate purchase price of \$300.

In March 2017, the Company was awarded a 3-year, \$50 million purchase order by MTIX Ltd. ("MTIX") to manufacture, install and service the Multiplex Laser Surface Enhancement ('MLSE) plasma-laser system (See Note 14).

On March 28, 2017, the Company issued \$270 in demand promissory notes to several investors, then on April 5, 2017, the Company canceled these promissory notes by issuing 360,000 shares of common stock at \$0.75 per share, in addition, the Company also issued warrants to purchase 180,000 shares of common stock at \$0.90 per share to these investors (See Note 16).

The Company expects to continue to incur losses for the foreseeable future and needs raise additional capital to continue its business development initiatives and to support its working capital requirements. Management believes that the MLSE purchase order of \$50 million will be a source of revenue and generating cash flows. Management believes that the Company has access to capital resources through potential public or private issuance of debt or equity securities. If the Company is unable to raise additional capital, it may be required to curtail operations and take additional measures to reduce costs, including reducing its workforce, eliminating outside consultants and reducing legal fees in order to conserve its cash in amounts sufficient to sustain operations and meet its obligations.

Based on the above, management believes that the Company has sufficient capital resources to sustain operations through at least April 10, 2018.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles ("**U.S. GAAP**").

Principles of Consolidation

The consolidated financial statements include the accounts of DPC and its wholly-owned subsidiary, DPL. All significant intercompany accounts and transactions have been eliminated in consolidation. In addition, DPC and DPL share certain employees and various costs. Such expenses are principally paid by DPC. Due to the nature of the parent and subsidiary relationship, the individual financial position and operating results of DPC and DPL may be different from those that would have been obtained had they been autonomous.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions. The Company's management believes that the estimates, judgments and assumptions used are reasonable based upon information available at the time they are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates. Key estimates include fair value of certain financial instruments, reserve for trade receivables and inventories, carrying amounts of investments, accruals of certain liabilities, and deferred income taxes and related valuation allowance.

Foreign Currency Translation

A substantial portion of the Company's revenues are generated in U.S. dollars ("*U.S. dollar*"). In addition, a substantial portion of the Company's costs are incurred in U.S. dollars. Company management has determined that the U.S. dollar is the currency of the primary economic environment in which it operates.

Accordingly, monetary accounts maintained in currencies other than the U.S. dollar are re-measured into U.S. dollars in accordance with Financial Accounting Standards Board ("*FASB*") issued Accounting Standards Codification ("*ASC*") No. 830, *Foreign Currency Matters* ("*ASC No. 830*"). All transaction gains and losses from the re-measurement of monetary balance sheet items are reflected in the statements of operations as financial income or expenses as appropriate.

The financial statements of the DPL, whose functional currency has been determined to be its local currency, British Pound (“**GBP**”), have been translated into U.S. dollars in accordance with ASC No. 830. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Statement of operations amounts have been translated using the average exchange rate in effect for the reporting period. The resulting translation adjustments are reported as other comprehensive income (loss) in the consolidated statement of comprehensive income (loss) and accumulated comprehensive income (loss) in statement of changes in stockholders' equity.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents. Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash and cash equivalents. The Company’s cash is maintained in checking accounts, money market funds and certificates of deposits with reputable financial institutions. These balances may, at times, exceed the U.S. Federal Deposit Insurance Corporation insurance limits. The Company has cash and cash equivalents of \$736 and \$868 at December 31, 2016 and 2015, respectively, in the United Kingdom (“**U.K**”). The Company has not experienced any losses on deposits of cash and cash equivalents.

Marketable Securities

The Company classifies its investments in shares of common stock of Telkooor and AVL P in accordance with ASC No. 320, *Investment in Debt and Equity Securities* (“**ASC No. 320**”) and ASC No. 325, *Investment – Other* (“**ASC No. 325**”). Marketable securities classified as “available-for-sale securities” and carried at fair value, based on quoted market prices. Unrealized gains and losses are reported in a separate component of stockholder’s equity in “accumulated other comprehensive loss” in equity. When evaluating the investment for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company’s intent to sell, or whether it is more likely than not that it will be required to sell, the investment before recovery of the investment’s amortized cost basis.

Equity securities that do not have readily determinable fair values (i.e., non-marketable equity securities) and are not required to be accounted for under the equity method are typically carried at cost (i.e., cost method investments), as described in ASC No. 325-20.

The Company classifies its investment in debt securities of AVL P in accordance with ASC No. 320 and ASC No. 825. Investment in convertible promissory notes in AVL P is classified as available-for-sale securities and is carried at fair value based on quoted market prices. Unrealized gains and losses are reported in a separate component of stockholder’s equity in “accumulated other comprehensive loss” in equity. When evaluating the investment for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company’s intent to sell, or whether it is more likely than not that it will be required to sell, the investment before recovery of the investment’s amortized cost basis. Additionally, the investment in debt securities of AVL P qualifies for application of fair value option in

accordance with ASC No. 825.

Accounts Receivable and Allowance for Doubtful Accounts

The Company's receivables are recorded when billed and represent claims against third parties that will be settled in cash. The carrying amount of the Company's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value. The Company individually reviews all accounts receivable balances and based upon an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected. The Company estimates the allowance for doubtful accounts based on historical collection trends, age of outstanding receivables and existing economic conditions. If events or changes in circumstances indicate that a specific receivable balance may be impaired, further consideration is given to the collectability of those balances and the allowance is adjusted accordingly. A customer's receivable balance is considered past-due based on its contractual terms. Past-due receivable balances are written-off when the Company's internal collection efforts have been unsuccessful in collecting the amount due. Based on an assessment as of December 31, 2016 and 2015, of the collectability of invoices, accounts receivable are presented net of an allowance for doubtful accounts of \$32 and nil, respectively

A-57

Inventories

Inventories are stated at the lower of cost or market value. Inventory write-offs are provided to cover risks arising from slow-moving items or technological obsolescence.

Cost of inventories is determined as follows:

Raw materials, parts and supplies - using the "first-in, first-out" method.

Work-in-progress and finished products - on the basis of direct manufacturing costs with the addition of indirect manufacturing costs.

The Company periodically assesses its inventories valuation in respect of obsolete and slow moving items by reviewing revenue forecasts and technological obsolescence. When inventories on hand exceed the foreseeable demand or become obsolete, the value of excess inventory, which at the time of the review was not expected to be sold, is written off.

During the years ended December 31, 2016 and 2015, the Company recorded inventory write-offs of \$84 and \$9, respectively, within the cost of revenue.

Property and Equipment, Net

Property and equipment as well as an intangible asset are stated at cost, net of accumulated depreciation and amortization. Repairs and maintenance costs are expensed as incurred. Depreciation and amortization are calculated using the straight-line method over the estimated useful lives of the assets, at the following annual rates:

	Useful lives (in years)
Computer, software and related equipment	3 - 5
Office furniture and equipment	5 - 10
Leasehold improvements	Over the term of the lease of the life of the asset,

whichever
is shorter

Long-Lived Assets

The long-lived assets of the Company are reviewed for impairment in accordance with ASC No. 360, *Property, Plant, and Equipment*, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. As of December 31, 2016 and 2015, no impairment charges were necessary.

Revenue Recognition

The Company generates revenues from the sale of its products through a direct and indirect sales force.

Revenues from products are recognized in accordance with ASC No. 605, *Revenue Recognition*, when the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the seller's price to the buyer is fixed or determinable, no further obligation exists and collectability is reasonably assured.

Generally, the Company does not grant a right of return. However, certain distributors are allowed, in the six months after the initial stock purchase, to rotate stock that has not been sold for other products. Revenues subject to stock rotation rights are deferred until the products are sold to the end customer or until the rotation rights expire.

Service revenues are deferred and recognized on a straight-line basis over the term of the service agreement. Service revenues are immaterial in proportion to the Company's revenues.

Warranty

The Company offers a warranty period for all of its products. Warranty periods range from one to two years depending on the product. The Company estimates the costs that may be incurred under its warranty and records a liability in the amount of such costs at the time product revenue is recognized. Factors that affect the Company's warranty liability include the number of units sold, historical rates of warranty claims and cost per claim. The Company periodically assesses the adequacy of its recorded warranty liability and adjusts the amounts as necessary.

As of December 31, 2016 and 2015, the Company has accrued warranty liability of \$86 and \$94, respectively.

Income Taxes

The Company determines its income taxes under the asset and liability method in accordance with FASB ASC No. 740, *Income Taxes*, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income and Comprehensive Income in the period that includes the enactment date.

The Company accounts for uncertain tax positions in accordance with ASC No. 740-10-25. ASC No. 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC No. 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. To the extent that the final tax outcome of these matters is different than the amount recorded, such differences impact income tax expense in the period in which such determination is made. Interest and penalties, if any, related to accrued liabilities for potential tax assessments are included in income tax expense. ASC No. 740-10-25 also requires management to evaluate tax positions taken by the Company and recognize a liability if the Company has taken uncertain tax positions that more likely than not would not be sustained upon examination by applicable taxing authorities. Management of the Company has evaluated tax positions taken by the Company and has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability that would require disclosure in the financial statements.

Common Stock Purchase Warrants and Other Derivative Financial Instruments

The Company classifies Common Stock purchase warrants and other free standing derivative financial instruments as equity if the contracts (i) require physical settlement or net-share settlement or (ii) give the Company a choice of net-cash settlement or settlement in its own shares (physical settlement or net-share settlement). The Company classifies any contracts that (i) require net-cash settlement (including a requirement to net cash settle the contract if an event occurs and if that event is outside the control of the Company), (ii) give the counterparty a choice of net-cash settlement or settlement in shares (physical settlement or net-share settlement), or (iii) contain reset provisions as either an asset or a liability. The Company assesses classification of its freestanding derivatives at each reporting date to determine whether a change in classification between assets and liabilities is required. The Company determined that certain freestanding derivatives, which principally consist of issuance of warrants to purchase shares of common in connection with convertible notes, units and to employers of the Company, satisfy the criteria for classification as equity instruments as these warrants do not contain cash settlement features or variable settlement provision that cause them to not be indexed to the Company's own stock.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC 718 "Compensation – Stock Compensation" ("ASC 718").

ASC 718 requires companies to estimate the fair value of equity-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as an expense over the requisite service periods in the Company's consolidated statements of operations.

The Company estimates the fair value of stock options granted under ASC 718 using the Black-Scholes option-pricing model that uses the following assumptions.

Expected volatility is based on historical volatility that is representative of future volatility over the expected term of the options. The expected term of options granted was determined based on the simplified method, which is calculated as the midpoint between the vesting date and the end of the contractual term of the option. The Company uses the simplified method as it has determined that sufficient data is not available to develop an estimate of the expected option term based upon historical participant behavior. The risk free interest rate is based on the yield of U.S. Treasury bonds with equivalent terms. The dividend yield is based on the Company's historical and future expectation of dividends payouts. The Company has not paid cash dividends historically and has no plans to pay cash dividends in the foreseeable future.

The Company recognizes share-based compensation expenses for the value of its awards based on the straight line method over the requisite service period of each of the awards.

During the years 2016 and 2015, the Company estimated the fair value of stock options granted using the Black-Scholes option pricing model with the following weighted average assumptions

	2016		2015	
Weighted average fair value	\$0.46		\$0.44	
Dividend yield	0%		0%	
Expected volatility	97.7% -	98.2%	87.6% -	88.3%
Risk-free interest rate	1.26% -	1.77%	1.60% -	1.91%
Expected life (years)	5		5.5 - 7	

Convertible Instruments

The Company accounts for hybrid contracts that feature conversion options in accordance with applicable GAAP. ASC No. 815 *Derivatives and Hedging Activities*, (“ASC 815”) requires companies to bifurcate conversion options from their host instruments and account for them as freestanding derivative financial instruments according to certain criteria. The criteria includes circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable GAAP with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument.

A-60

Conversion options that contain variable settlement features such as provisions to adjust the conversion price upon subsequent issuances of equity or equity linked securities at exercise prices more favorable than that featured in the hybrid contract generally result in their bifurcation from the host instrument.

The Company accounts for convertible instruments, when the Company has determined that the embedded conversion options should not be bifurcated from their host instruments, in accordance with ASC 470-20 "Debt with Conversion and Other Options" ("ASC 470-20"). Under ASC 470-20 the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. The Company accounts for convertible instruments (when the Company has determined that the embedded conversion options should be bifurcated from their host instruments) in accordance with ASC 815.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents, long term deposits and trade receivables.

Cash and cash equivalents are invested in banks in the U.S. and in the UK. Such deposits in the United States may be in excess of insured limits and are not insured in other jurisdictions.

Trade receivables of the Company and its subsidiary are mainly derived from sales to customers located primarily in the U.S. and in Europe. The Company performs ongoing credit evaluations of its customers and to date has not experienced any material losses. An allowance for doubtful accounts is determined with respect to those amounts that the Company and its subsidiary have determined to be doubtful of collection

Comprehensive Loss

The Company reports comprehensive loss in accordance with ASC 220, "Comprehensive Income". This Statement establishes standards for the reporting and presentation of comprehensive loss and its components in a full set of general purpose financial statements. Comprehensive loss generally represents all changes in equity during the period except those resulting from investments by, or distributions to, stockholders. The Company determined that its items of other comprehensive loss relates to changes in foreign currency translation adjustments.

Fair value of Financial Instruments

In accordance with ASC 820, “Fair Value Measurements and Disclosures”, fair value is defined as the exit price, or the amount that would be received for the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The guidance also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the factors that market participants would use in valuing the asset or liability. The guidance establishes three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Unobservable inputs reflecting the reporting entity’s own assumptions.

The carrying amounts of financial instruments carried at cost, including cash and cash equivalents, trade receivables and trade receivable – related party, investments, notes receivable, trade payables and trade payables – related party approximate their fair value due to the short-term maturities of such instruments.

As of December 31, 2016, the fair value of the Company's investments was \$1,036 (\$90 as of December 31, 2015). Investments as of December 31, 2016 were concentrated in AVLP. The Company's investment in AVLP is comprised of convertible promissory notes of \$952, net of unamortized discount and marketable equity securities of \$84 which are classified as available-for-sale investments. For investments in marketable equity securities, the Company took into consideration general market conditions, the duration and extent to which the fair value is below cost, and the Company's ability and intent to hold the investment for a sufficient period of time to allow for recovery of value in the foreseeable future. As a result of this analysis, the Company has determined that its cost basis in Avalanche equitable securities approximates the current fair value

Consistent with the guidance at ASC 835, the Company's presumption is that the fair value of its convertible promissory notes in Avalanche have a present value equivalent to the cash proceeds exchanged. Further, the discount shall be reported in the balance sheet as a direct deduction from the face amount of the convertible promissory notes. Thus, the Company has determined that the amortized cost of its convertible promissory notes approximates fair value and are subject to a periodic impairment review. The interest income, including amortization of the discount arising at acquisition, for the convertible promissory notes are included in earnings. In the future, if the Company does not expect to recover the entire amortized cost basis, the Company shall recognize other-than-temporary impairments in other comprehensive income (loss).

The categorization of a financial instrument within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table sets forth the Company's financial instruments that were measured at fair value on a recurring basis by level within the fair value hierarchy:

	Fair Value Measurement at December 31, 2016			
	Total	Level 1	Level 2	Level 3
Investments – AVLP – a related party controlled by Philou, a majority shareholder of the Company	\$1,036	\$ 84	\$ 952	\$ -

	Fair Value Measurement at December 31, 2015			
	Total	Level 1	Level 2	Level 3
Investment – Telkooor – a related party, the Company's majority shareholder until September 22, 2016	\$90	\$ -	\$ -	\$ 90

As of December 31, 2015, the Company valued the investment in Telkooor for \$90.

The following table sets forth a summary of the changes in the fair value of the Company's Level 3 financial instruments for the years ended December 31, 2016 and 2015, which are treated as investments, as follows:

	2016	2015
Balance at the beginning of year	\$90	\$207
Impairment	-	(110)
Effect of exchange rate	-	(7)
Disposition of investments	(90)	-
Balance at the end of year	\$-	\$90

Debt Discounts

The Company accounts for debt discount according to ASC No. 470-20, *Debt with Conversion and Other Options*. Debt discounts are amortized through periodic charges to interest expense over the term of the related financial instrument using the effective interest method. During the years ended December 31, 2016 and 2015, the Company recorded amortization of debt discounts of \$2 and nil, respectively

Net Loss per Share

Net loss per share is computed by dividing the net loss to common stockholders by the weighted average number of common shares outstanding. The calculation of the basic and diluted earnings per share is the same for all periods presented, as the effect of the potential common stock equivalents is anti-dilutive due to the Company's net loss position for all periods presented. The Company has included 317,460 warrants, with an exercise price of \$.01, in its earnings per share calculation for the year ended December 31, 2016. Anti-dilutive securities consisted of the following at December 31:

	2016	2015
Stock options	2,256,000	1,146,000
Warrants	1,431,666	-
Convertible notes	963,636	-
Total	4,651,302	1,146,000

Recently Issued and Adopted Accounting Standards

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, (FASB), or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the impact of recently issued standards that are not yet effective will not have a material impact on the Company's consolidated financial position or results of operations upon adoption.

In October 2016, the FASB issued updated guidance related to the recognition of income tax consequences of an intra-entity transfer of an asset other than inventory. This guidance will be effective for the first quarter of tax year 2018; however, early adoption is permitted. The Company is evaluating the impact that this guidance will have its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, "*Statement of Cash Flows (Topic 230)*" ("ASU 2016-15"), which seeks to reduce the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. For public entities, Update 2016-15 becomes effective for fiscal years

beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the provisions of Update 2016-15 and assessing the impact, if any, it may have on its consolidated financial position, results of operations, cash flows or financial statement disclosures.

In March 2016, the FASB issued ASU 2016-09, “*Compensation - Stock Compensation (Topic 718)*” (“ASU 2016-09”), which seeks to simplify accounting for share-based payment transactions including income tax consequences, classification of awards as either equity or liabilities, and the classification on the statement of cash flows. For public entities, Update 2016-09 becomes effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years, with early adoption permitted. The Company has not yet determined the effect that ASU 2016-09 will have on its consolidated financial position, results of operations or financial statement disclosures.

In March 2016, the FASB issued guidance that involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This guidance will be effective for the first quarter of tax year 2017; however, early adoption is permitted. The Company is evaluating the impact that this guidance will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "*Leases*". The new standard provides guidance intended to improve financial reporting about leasing transaction. The ASU affects all companies that lease assets such as real estate, airplanes and manufacturing equipment. The ASU will require companies that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The new standard will take effect for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The Company has not determined the potential effects of this ASU on its consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, "*Recognition and Measurement of Financial Assets and Liabilities*" ("ASU 2016-01"). ASU 2016-01 requires equity investments (excluding equity method investments and investments that are consolidated) to be measured at fair value with changes in fair value recognized in net income. Equity investments that do not have a readily determinable fair value may be measured at cost, adjusted for impairment and observable price changes. The ASU also simplifies the impairment assessment of equity investments, eliminates the disclosure of the assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at cost on the balance sheet and requires the exit price to be used when measuring fair value of financial instruments for disclosure purposes. Under ASU 2016-01, changes in fair value (resulting from instrument-specific credit risk) will be presented separately in other comprehensive income for liabilities measured using the fair value option and financial assets and liabilities will be presented separately by measurement category and type either on the balance sheet or in the financial statement disclosures. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company has not yet determined the effect that ASU 2016-01 will have on its consolidated financial position, results of operations, or financial statement disclosures.

In August 2014, the FASB issued ASU 2014-15, "*Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern.*" The amendments in this ASU are intended to provide guidance on the responsibility of reporting entity management. Specifically, this ASU provides guidance to management related to evaluating whether there is substantial doubt about the reporting entity's ability to continue as a going concern and about related financial statement note disclosures. Although the presumption that a reporting entity will continue to operate as a going concern is fundamental to the preparation of financial statements, prior to the issuance of this ASU, there was no guidance in U.S. generally accepted accounting principles (U.S. GAAP) related to the concept. Due to the lack of guidance in U.S. GAAP, practitioners and their clients often faced challenges in determining whether, when, and how a reporting entity should disclose the relevant information in its financial statements. As a result, the FASB issued this guidance to require management evaluation and potential financial statement disclosures. This ASU will be effective for financial statements with periods ending after December 15, 2016. The Company adopted the ASU during the fiscal year and corrected in this report.

In May 2014, the FASB issued ASU 2014-09, "*Revenue from Contracts with Customers (Topic 606)*" ("ASU 2014-09"). ASU 2014-09 supersedes the revenue recognition requirements in ASC Topic 605, "*Revenue Recognition*" and some cost guidance included in ASC Subtopic 605-35, "*Revenue Recognition - Construction-Type and Production-Type Contracts.*" The core principle of ASU 2014-09 is that revenue is recognized when the transfer of goods or services to customers occurs in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. ASU 2014-09 requires the disclosure of sufficient information to

enable readers of the Company's financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09 also requires disclosure of information regarding significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. ASU 2014-09 provides two methods of retrospective application. The first method would require the Company to apply ASU 2014-09 to each prior reporting period presented. The second method would require the Company to retrospectively apply ASU 2014-09 with the cumulative effect recognized at the date of initial application. ASU 2014-09 will be effective for the Company beginning in fiscal 2019 as a result of ASU 2015-14, *"Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date,"* which was issued by the FASB in August 2015 and extended the original effective date by one year. The Company is currently evaluating the impact of adopting the available methodologies of ASU 2014-09 and 2015-14 upon its financial statements in future reporting periods. The Company has not yet selected a transition method. The Company is in the process of evaluating the new standard against its existing accounting policies, including the timing of revenue recognition, and its contracts with customers to determine the effect the guidance will have on its financial statements and what changes to systems and controls may be warranted.

There have been four new ASUs issued amending certain aspects of ASU 2014-09, ASU 2016-08, "*Principal versus Agent Considerations (Reporting Revenue Gross Versus Net)*," was issued in March, 2016 to clarify certain aspects of the principal versus agent guidance in ASU 2014-09. In addition, ASU 2016-10, "*Identifying Performance Obligations and Licensing*," issued in April 2016, amends other sections of ASU 2014-09 including clarifying guidance related to identifying performance obligations and licensing implementation. ASU 2016-12, "*Revenue from Contracts with Customers - Narrow Scope Improvements and Practical Expedients*" provides amendments and practical expedients to the guidance in ASU 2014-09 in the areas of assessing collectability, presentation of sales taxes received from customers, noncash consideration, contract modification and clarification of using the full retrospective approach to adopt ASU 2014-09. Finally, ASU 2016-20, "*Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*," was issued in December 2016, and provides elections regarding the disclosures required for remaining performance obligations in certain cases and also makes other technical corrections and improvements to the standard. With its evaluation of the impact of ASU 2014-09, the Company will also consider the impact on its financial statements related to the updated guidance provided by these four new ASUs.

The Company has considered all other recently issued accounting standards and does not believe the adoption of such standards will have a material impact on its consolidated financial statements.

NOTE 6: INTANGIBLE ASSET, NET

On August 25, 2010, the Company entered into an agreement with Telkoo Power Supplies Ltd. ("TPS"), a subsidiary of Telkoo, pursuant to which, (i) TPS sold, assigned and conveyed to the Company all of its rights, title and interest in and to the intellectual property associated with the Compact Peripheral Component Interface 600 W AC/DC power supply series (the "Assets" or "IP") and (ii) the Company granted to TPS an irrevocable license to sell the Assets in Israel on an exclusive basis. The IP was purchased in order to decrease lead time and costs of the production process. In consideration for the purchase of the IP, the Company paid TPS an amount of \$480. The consideration for the right to sell the Assets in Israel will be paid to the Company as a yearly royalty fee of 15% of TPS's direct production costs of sales.

TPS will provide the Company training and technical support, if necessary, for a period of 60 months in order to enable the Company to properly and effectively use the IP to manufacture the Assets. In accordance with the agreement, the consideration for the IP may be reduced over a four-year period in the event that annual sales for each year between 2011 and 2014 are less than a fixed threshold of units on an annual basis based on an offset value per unit as described in the agreement. If there is a shortfall in sale of units in one annual period and in the subsequent period the Company sells more than the fixed unit threshold, this difference will be offset from any reduced consideration in any annual periods between 2011 and 2014. As a result of lower than anticipated sales by the Company of the Compact Peripheral Component Interface 600 W AC/DC power supply series (CPCI 600W) through 2013, the Company amended its agreement with Telkooor (effective January 1, 2014 for the duration of the original agreement or until the shortfall of CPCI 600W product sales will be offset) to include additional products in addition to the original CPCI 600W product. The Company will not be required to make any royalty payments to Telkooor under the manufacturing agreement with Telkooor until the shortfall of CPCI 600W product sales will be offset. As of December 31 2015 the remaining shortfall balance was \$86. During the year 2016, the Company paid royalties to Advice, Telkooor refunded \$40 from this amount by services to the Company and the balance cancelled with the recession agreement. (See Note 7)

The useful life of the IP has been determined to be five years and the amortization method is the straight-line method, as management considers this method as the most appropriate.

NOTE 13: INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and income tax purposes. Significant components of the Company's deferred tax assets are as follows:

	December 31,	
	2016	2015
Deferred tax asset:		
Net operating loss	\$2,206	\$2,233
Reserves and allowances	295	225
Tax Credit carryforward	153	153
Property and equipment	194	142
Total deferred tax asset	2,848	2,753
Valuation allowance	(2,848)	(2,753)
Deferred tax asset, net	\$—	\$—

The Company had Federal and state net operating loss carryforwards of approximately \$5,334 and \$3,622, respectively, available to offset future taxable income, expiring at various times from December 31 through December 31, 2036. In accordance with Section 382 of the Internal Revenue Code, the future utilization of the Company's net operating loss to offset future taxable income may be subject to an annual limitation as a result of ownership changes that may have occurred previously or that could occur in the future. The Company has not yet determined whether such an ownership change has occurred; however, the Company will be completing a Section 382 analysis regarding the limitation of the net operating loss.

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax assets, projected future taxable income and tax planning strategies in making this assessment. After consideration of all of the information available and due to the last five years significant losses there is substantial doubt related to the Company's ability to utilize its deferred tax assets, the Company recorded a full valuation allowance of the deferred tax asset. For the year ended December 31, 2016, the valuation allowance has increased by \$95.

The 2013 through 2016 tax years remain open to examination by the Internal Revenue Service ("**IRS**") and the 2012 through 2016 tax years remain open to examination by the California Franchise Tax Board ("**FTB**"). The IRS and FTB have the authority to examine those tax years until the applicable statute of limitations expires.

As of December 31, 2016, the Company's foreign subsidiary had accumulated losses for income tax purposes in the amount of approximately \$906. All of the Company's international accumulated losses were generated in the United Kingdom, which has a statutory tax rate of 20%. These net operating losses may be carried forward and offset against taxable income in the future for an indefinite period. The Company has not recognized a U.S. deferred income tax asset on non-U.S. losses because the Company plans to indefinitely reinvest such earnings outside the U.S. Remittances of non-U.S. earnings, if any, are based on estimates and judgments of projected cash flow needs, as well as the working capital and investment requirements of the Company's non-U.S. and U.S. operations. Material changes in the Company's estimates of cash, working capital, and investment needs could require repatriation of indefinitely reinvested non-U.S. earnings, which would be subject to U.S. income taxes and applicable non-U.S. income and withholding taxes.

The net income tax benefit consists of the following:

	December

Current		

Foreign	\$ (20)	\$ (1)
Federal	—	—
State	—	—

During the year ended December 31, 2016, the effective tax rate differed from the U.S. federal statutory rate primarily due to the change in the valuation allowance and the issuance of incentive stock options to the Company's employees. The reconciliation of income tax attributable to operations computed at the U.S. Federal statutory income tax rate of 34% to income tax expense is as follows:

	Year Ended		December 31,

The Company accounts for uncertain tax positions in accordance with ASC No. 740-10-25. ASC No. 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC No. 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. To the extent that the final tax outcome of these matters is different than the amount recorded, such differences impact income tax expense in the period in which such determination is made. Interest and penalties, if any, related to accrued liabilities for potential tax assessments are included in income tax expense. ASC No. 740-10-25 also requires management to evaluate tax positions taken by the Company and recognize a liability if the Company has taken uncertain tax positions that more likely than not would not be sustained upon examination by applicable taxing authorities. Management of the Company has evaluated tax positions taken by the Company and has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability that would require disclosure in the financial statements.

(i) As used in this Section 2(f), the following terms shall have the following meanings:

(1) “**Founder**” shall mean either Milton C. Ault III, a natural living person, or Philou Ventures, LLC, and “**Founders**” shall mean both of them.

(2) “**Class B Stockholder**” shall mean (a) the Founders, (b) any person who will become a registered holder of any shares of Class B Common Stock as a result of a Transfer by either of the Founders, and (c) any person to whom or to which shares of Class B Common Stock will be issued during the Corporation’s existence.

(3) “**Permitted Entity**” shall mean, with respect to any individual Class B Stockholder, any trust, account, plan, corporation, partnership, or limited liability company specified in Section 2(f)(iii)(2) established by or for such individual Class B Stockholder, so long as such entity meets the requirements of the exception set forth in Section 2(f)(iii)(2) applicable to such entity.

(4) “**Transfer**” of a share of Class B Common Stock shall mean any sale, assignment, transfer, conveyance, hypothecation or other transfer or disposition of such share or any legal or beneficial interest in such share, whether or not for value and whether voluntary or involuntary or by operation of law. A “**Transfer**” shall also include, without limitation, a transfer of a share of Class B Common Stock to a broker or other nominee (regardless of whether or not there is a corresponding change in beneficial ownership), or the transfer of, or entering into a binding agreement with respect to, Voting Control over a share of Class B Common Stock by proxy or otherwise; provided, however, that the following shall not be considered a “**Transfer**” within the meaning of this Section 2(f)(i)(4):

(A) the granting of a proxy to officers or directors of the Corporation at the request of the Board of Directors of the Corporation in connection with actions to be taken at an annual or special meeting of stockholders;

(B) entering into a voting trust, agreement or arrangement (with or without granting a proxy) solely with stockholders who are Class B Stockholders, that (A) is disclosed either in a Schedule 13D filed with the Securities and Exchange Commission or in writing to the Secretary of the Corporation, (B) either has a term not exceeding one (1) year or is terminable by the Class B Stockholder at any time and (C) does not involve any payment of cash, securities, property or other consideration to the Class B Stockholder other than the mutual promise to vote shares in a designated manner; or

(C) the pledge of shares of Class B Common Stock by a Class B Stockholder that creates a mere security interest in such shares pursuant to a bona fide loan or indebtedness transaction so long as the Class B Stockholder continues to exercise Voting Control over such pledged shares; provided, however, that a foreclosure on such shares of Class B Common Stock or other similar action by the pledgee shall constitute a “**Transfer**.”

(5) “**Voting Control**” with respect to a share of Class B Common Stock shall mean the power (whether exclusive or shared) to vote or direct the voting of such share of Class B Common Stock by proxy, voting agreement or otherwise.

(ii) Each share of Class B Common Stock shall be convertible into one (1) fully paid and nonassessable share of Class A Common Stock at the option of the holder thereof at any time upon written notice to the transfer agent of the Corporation.

(iii) Each share of Class B Common Stock shall automatically, without any further action, convert into one (1) fully paid and nonassessable share of Class A Common Stock upon a Transfer of such share, other than a Transfer:

(1) from a Founder, or such Founder’s Permitted Entities, to the other Founder, or such Founder’s Permitted Entities.

(2) by a Class B Stockholder who is a natural person to any of the following Permitted Entities, and from any of the following Permitted Entities back to such Class B Stockholder and/or any other Permitted Entity established by or for such Class B Stockholder:

(A) a trust for the benefit of such Class B Stockholder and for the benefit of no other person, provided such Transfer does not involve any payment of cash, securities, property or other consideration (other than an interest in such trust) to the Class B Stockholder and, provided, further, that in the event such Class B Stockholder is no longer the exclusive beneficiary of such trust, each share of Class B Common Stock then held by such trust shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock;

C-3

(B) a trust for the benefit of persons other than the Class B Stockholder so long as the Class B Stockholder has sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such trust, provided such Transfer does not involve any payment of cash, securities, property or other consideration (other than an interest in such trust) to the Class B Stockholder, and, provided, further, that in the event the Class B Stockholder no longer has sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such trust, each share of Class B Common Stock then held by such trust shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock;

(C) a trust under the terms of which such Class B Stockholder has retained a “qualified interest” within the meaning of §2702(b)(1) of the Code and/or a reversionary interest so long as the Class B Stockholder has sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such trust; provided, however, that in the event the Class B Stockholder no longer has sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such trust, each share of Class B Common Stock then held by such trust shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock;

(D) an Individual Retirement Account, as defined in Section 408(a) of the Internal Revenue Code, or a pension, profit sharing, stock bonus or other type of plan or trust of which such Class B Stockholder is a participant or beneficiary and which satisfies the requirements for qualification under Section 401 of the Internal Revenue Code; provided that in each case such Class B Stockholder has sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held in such account, plan or trust, and provided, further, that in the event the Class B Stockholder no longer has sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such account, plan or trust, each share of Class B Common Stock then held by such trust shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock;

(E) a corporation in which such Class B Stockholder directly, or indirectly through one or more Permitted Entities, owns shares with sufficient Voting Control in the corporation, or otherwise has legally enforceable rights, such that the Class B Stockholder retains sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such corporation; provided that in the event the Class B Stockholder no longer owns sufficient shares or has sufficient legally enforceable rights to enable the Class B Stockholder to retain sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such corporation, each share of Class B Common Stock then held by such corporation shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock;

(F) a partnership in which such Class B Stockholder directly, or indirectly through one or more Permitted Entities, owns partnership interests with sufficient Voting Control in the partnership, or otherwise has legally enforceable rights, such that the Class B Stockholder retains sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such partnership; provided that in the event the Class B Stockholder no longer owns sufficient partnership interests or has sufficient legally enforceable rights to enable the Class B Stockholder to retain sole dispositive power and exclusive Voting Control with respect to the shares of Class B

Common Stock held by such partnership, each share of Class B Common Stock then held by such partnership shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock; or

(G) a limited liability company in which such Class B Stockholder directly, or indirectly through one or more Permitted Entities, owns membership interests with sufficient Voting Control in the limited liability company, or otherwise has legally enforceable rights, such that the Class B Stockholder retains sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such limited liability company; provided that in the event the Class B Stockholder no longer owns sufficient membership interests or has sufficient legally enforceable rights to enable the Class B Stockholder to retain sole dispositive power and exclusive Voting Control with respect to the shares of Class B Common Stock held by such limited liability company, each share of Class B Common Stock then held by such limited liability company shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock. Notwithstanding the foregoing, if the shares of Class B Common Stock held by the Permitted Entity of a Class B Stockholder would constitute stock of a “controlled corporation” (as defined in Section 2036(b)(2) of the Code) upon the death of such Class B Stockholder, and the Transfer of shares Class B Common Stock by such Class B Stockholder to the Permitted Entity did not involve a bona fide sale for an adequate and full consideration in money or money’s worth (as contemplated by Section 2036(a) of the Code), then such shares will not automatically convert to Class A Common Stock if the Class B Stockholder does not directly or indirectly retain Voting Control over such shares until such time as the shares of Class B Common Stock would no longer constitute stock of a “controlled corporation” pursuant to the Code upon the death of such Class B Stockholder (such time is referred to as the “**Voting Shift**”). If the Class B Stockholder does not, within five (5) business days following the mailing of the Corporation’s proxy statement for the first annual or special meeting of stockholders following the Voting Shift, directly or indirectly through one or more Permitted Entities assume sole dispositive power and exclusive Voting Control with respect to such shares of Class B Common Stock, each such share of Class B Common Stock shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock.

(3) by a Class B Stockholder that is a limited liability company, or a nominee for a limited liability company, which limited liability company beneficially held more than five percent (5%) of the total outstanding shares of Class B Common Stock as of the Effective Time, to any person or entity that, at the Effective Time, was a member of such limited liability company pro rata in accordance with their ownership interests in the company and the terms of any applicable agreement binding the company and its members at the Effective Time, and any further Transfer(s) by any such member that is a partnership or limited liability company to any person or entity that was at such time a partner or member of such partnership or limited liability company pro rata in accordance with their ownership interests in the partnership or limited liability company and the terms of any applicable partnership or similar agreement binding the partnership or limited liability company. All shares of Class B Common Stock held by affiliated entities shall be aggregated together for the purposes of determining the satisfaction of such five percent (5%) threshold.

(iv) Each share of Class B Common Stock held of record by a Class B Stockholder who is a natural person, or by such Class B Stockholder's Permitted Entities, shall automatically, without any further action, convert into one (1) fully paid and nonassessable share of Class A Common Stock upon the death of such Class B Stockholder; provided, however, that if a Founder, or such Founder's Permitted Entity (in either case, the "**Transferring Founder**") Transfers exclusive Voting Control (but not ownership) of shares of Class B Common Stock to the other Founder (the "**Transferee Founder**") which Transfer of Voting Control is contingent or effective upon the death or dissolution, as applicable, of the Transferring Founder, then each share of Class B Common Stock that is the subject of such Transfer shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock upon that date which is the earlier of: (a) nine (9) months after the date upon which the Transferring Founder died or was dissolved, or (b) the date upon which the Transferee Founder ceases to hold exclusive Voting Control over such shares of Class B Common Stock; provided, further, that if the Transferee Founder shall die or be liquidated within nine (9) months following the death or dissolution of the Transferring Founder, then a trustee designated by the Transferee Founder and approved by the Board of Directors may exercise Voting Control over: (x) the Transferring Founders' shares of Class B Common Stock and, in such instance, each such share of Class B Common Stock shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock upon that date which is the earlier of: (A) nine (9) months after the date upon which the Transferring Founder died or was dissolved, or (B) the date upon which such trustee ceases to hold exclusive Voting Control over such shares of Class B Common Stock; and (y) the Transferee Founders' shares of Class B Common Stock (or shares held by an entity of the type referred to in paragraph (2) below established by or for the Transferee Founder) and, in such instance, each such share of Class B Common Stock shall automatically convert into one (1) fully paid and nonassessable share of Class A Common Stock upon that date which is the earlier of: (A) nine (9) months after the date upon which the Transferee Founder died or was dissolved, or (B) the date upon which such trustee ceases to hold exclusive Voting Control over such shares of Class B Common Stock.

(v) The Corporation may, from time to time, establish such policies and procedures relating to the conversion of the Class B Common Stock to Class A Common Stock and the general administration of this dual class common stock structure, including the issuance of stock certificates with respect thereto, as it may deem necessary or advisable, and may request that holders of shares of Class B Common Stock furnish affidavits or other proof to the Corporation as it deems necessary to verify the ownership of Class B Common Stock and to confirm that a conversion to Class A Common Stock has not occurred. A determination by the Secretary of the Corporation that a Transfer results in a conversion to Class A Common Stock shall be conclusive.

(vi) In the event of a conversion of shares of Class B Common Stock to shares of Class A Common Stock pursuant to this Section 2, such conversion shall be deemed to have been made at the time that the Transfer of such shares occurred. Upon any conversion of Class B Common Stock to Class A Common Stock, all rights of the holder of shares of Class B Common Stock shall cease and the person or persons in whose names or names the certificate or certificates representing the shares of Class A Common Stock are to be issued shall be treated for all purposes as having become the record holder or holders of such shares of Class A Common Stock. Shares of Class B Common Stock that are converted into shares of Class A Common Stock as provided in this Section 2 shall be retired and may not be reissued.

C-5

(g) Reservation of Stock. The Corporation shall at all times reserve and keep available out of its authorized but unissued shares of Class A Common Stock, solely for the purpose of effecting the conversion of the shares of Class B Common Stock, such number of its shares of Class A Common Stock as shall from time to time be sufficient to effect the conversion of all outstanding shares of Class B Common Stock into shares of Class A Common Stock.

Section 3. Change in Control Transaction.

The Corporation shall not consummate a Change in Control Transaction without first obtaining the affirmative vote, at a duly called annual or special meeting of the stockholders of the Corporation, of the holders of the greater of: (A) a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation then entitled to vote thereon, voting together as a single class, and (B) sixty percent (60%) of the voting power of the shares of capital stock present in person or represented by proxy at the stockholder meeting called to consider the Change in Control Transaction and entitled to vote thereon, voting together as a single class. For the purposes of this section, a “**Change in Control Transaction**” means the occurrence of any of the following events:

(a) the sale, encumbrance or disposition (other than non-exclusive licenses in the ordinary course of business and the grant of security interests in the ordinary course of business) by the Corporation of all or substantially all of the Corporation’s assets;

(b) the merger or consolidation of the Corporation with or into any other corporation or entity, other than a merger or consolidation which would result in the voting securities of the Corporation outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or its parent) more than fifty percent (50%) of the total voting power represented by the voting securities of the Corporation or such surviving entity or its parent outstanding immediately after such merger or consolidation; or

(c) the issuance by the Corporation, in a transaction or series of related transactions, of voting securities representing more than two percent (2%) of the total voting power of the Corporation before such issuance, to any person or persons acting as a group as contemplated in Rule 13d-5(b) under the Securities Exchange Act of 1934 (or any successor provision) such that, following such transaction or related transactions, such person or group of persons would hold more than fifty percent (50%) of the total voting power of the Corporation, after giving effect to such issuance.

Section 4. Preferred Stock.

The Board of Directors is authorized, subject to any limitations prescribed by law, to provide for the issuance of shares of Preferred Stock in series, and to establish from time to time the number of shares to be included in each such

series, and to fix the designation, power, preferences, and rights of the shares of each such series and any qualifications, limitations or restrictions thereof. Except as otherwise required by law, holders of Common Stock shall not be entitled to vote on any amendment to this Certificate of Incorporation (including any certificate of designation filed with respect to any series of Preferred Stock) that relates solely to the terms of one or more outstanding series of Preferred Stock if the holders of such affected series are entitled, either separately or together as a class with the holders of one or more other such series, to vote thereon by law or pursuant to this Certificate of Incorporation (including any certificate of designation filed with respect to any series of Preferred Stock).

ARTICLE V

The Corporation is to have perpetual existence.

ARTICLE VI

Section 1. Board of Directors.

The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors. In addition to the powers and authority expressly conferred upon them by statute or by this Certificate of Incorporation or the Bylaws of the Corporation, the directors are hereby empowered to exercise all such powers and do all such acts and things as may be exercised or done by the Corporation.

Section 2. Bylaws.

In furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to adopt, alter, amend or repeal the Bylaws of the Corporation. The affirmative vote of at least a majority of the Board of Directors then in office shall be required in order for the Board of Directors to adopt, amend, alter or repeal the Corporation's Bylaws. The Corporation's Bylaws may also be adopted, amended, altered or repealed by the stockholders of the Corporation. Notwithstanding the above or any other provision of this Certificate of Incorporation, the Bylaws of the Corporation may not be amended, altered or repealed except in accordance with Article X of the Bylaws. No Bylaw hereafter legally adopted, amended, altered or repealed shall invalidate any prior act of the directors or officers of the Corporation that would have been valid if such Bylaw had not been adopted, amended, altered or repealed.

Section 3. Controlled Company.

(a) If, at any time during which shares of capital stock of the Corporation are listed for trading on either The Nasdaq Stock Market ("**Nasdaq**"), the New York Stock Exchange or the NYSE American (in either case, "**NYSE**"), holders of the requisite voting power under the then-applicable Nasdaq or NYSE listing standards notify the Corporation in writing of their election to cause the Corporation to rely upon the applicable "controlled company" exemptions (the "**Controlled Company Exemption**") to the corporate governance rules and requirements of the Nasdaq or the NYSE (the "**Exchange Governance Rules**"), the Corporation shall call a special meeting of the stockholders to consider whether to approve the election to be held within ninety (90) days of written notice of such election (or, if the next succeeding annual meeting of stockholders will be held within ninety (90) days of written notice of such election, the Corporation shall include a proposal to the same effect to be considered at such annual meeting). The Corporation shall not elect to rely upon the Controlled Company Exemption until such time as the Corporation shall have received the approval from holders of at least sixty-six and two thirds percent (66 2/3%) of the voting power of the issued and outstanding shares of capital stock of the Corporation at such annual or special meeting.

(b) In the event such approval is obtained, for so long as shares of the capital stock of the Corporation are listed on either the Nasdaq or the NYSE and the Corporation remains eligible for the Controlled Company Exemption under the requirements of the applicable Exchange Governance Rules, then the Board of Directors shall be constituted such that (i) a majority of the directors on the Board of Directors shall be Outside Directors (as defined below), and (ii) the Corporation's compensation committee and the governance and nominating committee (or such committees serving similar functions as the Board of Directors of the Corporation shall constitute from time to time) shall consist of at least two (2) members of the Board of Directors and shall be composed entirely of Outside Directors. In the event the number of Outside Directors serving on the Board of Directors constitutes less than a majority of the directors on the Board of Directors as a result of the death, resignation or removal of an Outside Director, then the Board of Directors may continue to properly exercise its powers and no action of the Board of Directors shall be so invalidated, provided, that the Board of Directors shall promptly take such action as is necessary to appoint new Outside Director(s) to the Board of Directors.

(c) An "**Outside Director**" shall mean a director who, currently and for any of the past three years, is and was not an officer of the Corporation (other than service as the chairman of the Board of Directors) or a parent or subsidiary of the Corporation and is not and was not otherwise employed by the corporation or a parent or subsidiary of the Corporation.

Section 4. Audit Committee.

The Board of Directors of the Corporation shall establish an audit committee whose principal purpose will be to oversee the Corporation's and its subsidiaries' accounting and financial reporting processes, internal systems of control, independent auditor relationships and audits of consolidated financial statements of the Corporation and its subsidiaries. The audit committee will also determine the appointment of the independent auditors of the Corporation and any change in such appointment and ensure the independence of the Corporation's auditors. In addition, the audit committee will assume such other duties and responsibilities delegated to it by the Board of Directors and specified for it under applicable law and Exchange Governance Rules.

Section 5. Corporate Governance and Nominating Committee.

The Board of Directors of the Corporation shall establish a corporate governance and nominating committee whose principal duties will be to assist the Board of Directors by identifying individuals qualified to become members of the Board of Directors consistent with criteria approved by the Board of Directors, to recommend to the Board of Directors for its approval the slate of nominees to be proposed by the Board of Directors to the stockholders for election to the Board of Directors, to develop and recommend to the Board of Directors the governance principles applicable to the Corporation, as well as such other duties and responsibilities delegated to it by the Board of Directors and specified for it under applicable law and Exchange Governance Rules. In the event the corporate governance and nominating committee will not be recommending a then incumbent director for inclusion in the slate of nominees to be proposed by the Board of Directors to the stockholders for election to the Board of Directors, and provided such incumbent director has not notified the committee that he or she will be resigning or that he or she does not intend to stand for re-election to the Board of Directors, then, in the case of an election to be held at an annual meeting of stockholders, the corporate governance and nominating committee will recommend the slate of nominees to the Board of Directors at least thirty (30) days prior to the latest date required by the provisions of Sections 2.14 (advance notice of stockholder business) and 2.15 (advance notice of director nominations) of the Bylaws of the Corporation (as such provisions may be amended from time to time) for stockholders to submit nominations for directors at such annual meeting, or in the case of an election to be held at a special meeting of stockholders, at least ten (10) days prior to the latest date required by the provisions of Sections 2.14 and 2.15 of the Bylaws for stockholders to submit nominations for directors at such special meeting.

Section 6. Compensation Committee.

The Board of Directors of the Corporation shall establish a compensation committee whose principal duties will be to review employee compensation policies and programs as well as the compensation of the chief executive officer and other executive officers of the Corporation, to recommend to the Board of Directors a compensation program for outside members of the Board of Directors, as well as such other duties and responsibilities delegated to it by the Board of Directors and specified for it under applicable law and Exchange Governance Rules.

Section 7. Election of Directors.

Elections of directors need not be by written ballot unless the Bylaws of the Corporation shall so provide.

Section 8. Cumulative Voting.

No stockholder will be permitted to cumulate votes at any election of directors.

Section 9. Number of Directors.

The number of directors that constitute the whole Board of Directors shall be fixed exclusively in the manner designated in the Bylaws of the Corporation.

C-8

ARTICLE VII

Section 1. Limitation of Personal Liability.

To the fullest extent permitted by the General Corporation Law of Delaware as the same exists or as may hereafter be amended, a director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director. If the General Corporation Law of Delaware is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated to the fullest extent permitted by the General Corporation Law of Delaware, as so amended.

Section 2. Indemnification.

The Corporation may indemnify to the fullest extent permitted by law any person made or threatened to be made a party to an action or proceeding, whether criminal, civil, administrative or investigative, by reason of the fact that he, she, his or her testator or intestate is or was a director, officer, employee or agent at the request of the Corporation or any predecessor to the Corporation or serves or served at any other enterprise as a director, officer, employee or agent at the request of the Corporation or any predecessor to the Corporation.

Section 3. Inconsistent Provisions.

Neither any amendment or repeal of any Section of this Article VII, nor the adoption of any provision of this Certificate of Incorporation inconsistent with this Article VII, shall eliminate or reduce the effect of this Article VII, in respect of any matter occurring, or any action or proceeding accruing or arising or that, but for this Article VII, would accrue or arise, prior to such amendment, repeal or adoption of an inconsistent provision.

ARTICLE VIII

Meetings of stockholders may be held within or without the State of Delaware, as the Bylaws may provide. The books of the Corporation may be kept (subject to any provision contained in the statutes) outside of the State of Delaware at such place or places as may be designated from time to time by the Board of Directors or in the Bylaws of the Corporation.

ARTICLE IX

Section 1. Special Meetings.

Unless otherwise required by law, special meetings of the stockholders of the Corporation, for any purpose or purposes, may be called only by (i) the Board of Directors of the Corporation, (ii) the Chairman of the Board of Directors of the Corporation, (iii) the Chief Executive Officer (or, in the absence of a Chief Executive Officer, the President) of the Corporation, or (iv) a holder, or group of holders, of Common Stock holding more than twenty percent (20%) of the total voting power of the outstanding shares of capital stock of the Corporation then entitled to vote.

Section 2. Action Without a Meeting.

Any action required or permitted to be taken by the stockholders of the Corporation may, but need not, be effected at a duly called annual or special meeting of stockholders of the Corporation; any such action may also be effected by any consent in writing by such stockholders pursuant to Section 228 of the General Corporation Law of Delaware.

ARTICLE XII

The Corporation reserves the right to amend or repeal any provision contained in this Certificate of Incorporation in the manner prescribed by the laws of the State of Delaware and all rights conferred upon stockholders are granted subject to this reservation; provided, however, that notwithstanding any other provision of this Certificate of Incorporation, or any provision of law that might otherwise permit a lesser vote or no vote, but in addition to any vote of the holders of any class or series of the stock of the Corporation, and, as applicable, such other approvals of the Board of Directors of the Corporation, as are required by law or by this Certificate of Incorporation: (i) the unanimous consent of Board of Directors then in office, and the affirmative vote of the holders at least a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation then entitled to vote, shall be required to amend or repeal Article IV, Section 2, this clause (i) of Article XII; (ii) the affirmative vote of the holders of the greater of: (A) a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation then entitled to vote thereon, or (B) sixty percent (60%) of the voting power of the shares of capital stock present in person or represented by proxy at the stockholder meeting and entitled to vote thereon, shall be required to amend or repeal Article IV, Section 3 or this clause (ii) of Article XII; (iii) the consent of a majority of the members of the Board then in office, and the affirmative vote of the holders at least sixty-six and two-thirds percent (66 2/3%) of the voting power of the issued and outstanding shares of capital stock of the Corporation then entitled to vote shall be required to amend or repeal Article IV, Section 4 and Article XI or this clause (iii) of Article XII; (iv) the unanimous consent of the Board of Directors then in office and the consent of at least sixty-six and two-thirds percent (66 2/3%) of the voting power of the issued and outstanding shares of capital stock of the Corporation shall be required to amend or repeal Article VI, Section 3, 5, 6 or 7 or this clause (iv) of Article XII; and (v) the consent of at least two-thirds of the members of the Board of Directors then in office and the affirmative vote of the holders of at least a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation then entitled to vote shall be required to amend or repeal this clause (v) of Article XII.

BYLAWS

OF

DPW HOLDINGS, INC.

ARTICLE I

CORPORATE OFFICES

1.1 **Registered Office.** The registered office of DPW Holdings, Inc. (the “**Corporation**”) shall be fixed in the Corporation’s certificate of incorporation, as the same may be amended and/or restated from time to time (as so amended and/or restated, the “**Certificate**”).

1.2 **Other Offices.** The Corporation’s Board of Directors (the “**Board**”) may at any time establish other offices at any place or places where the Corporation is qualified to do business.

ARTICLE II

MEETINGS OF STOCKHOLDERS

2.1 **Place of Meetings.** Meetings of stockholders shall be held at any place within or outside the State of Delaware as designated by the Board. The Board may, in its sole discretion, determine that a meeting of stockholders shall not be held at any place, but may instead be held solely by means of remote communication as authorized by Section 211(a)(2) of the Delaware General Corporation Law (the “**DGCL**”). In the absence of any such designation or determination, stockholders’ meetings shall be held at the Corporation’s principal executive office.

2.2 **Annual Meeting.** The annual meeting of stockholders shall be held each year on a date and at a time designated by the Board. At the annual meeting, directors shall be elected and any other proper business may be transacted.

2.3 Special Meeting. Unless otherwise required by law or the Certificate, special meetings of the stockholders may be called at any time, for any purpose or purposes, only by (i) the Board, (ii) the Chairman of the Board, (iii) the chief executive officer of the Corporation, or (iv) holders of more than twenty percent (20%) of the total voting power of the outstanding shares of capital stock of the Corporation then entitled to vote.

If any person(s) other than the Board calls a special meeting, the request shall:

- (a) be in writing;
- (b) specify the general nature of the business proposed to be transacted; and
- (c) be delivered personally or sent by registered mail or by facsimile transmission to the secretary of the Corporation.

Upon receipt of such a request, the Board shall determine the date, time and place of such special meeting, which must be scheduled to be held on a date that is within ninety (90) days of receipt by the secretary of the request therefor, and the secretary of the Corporation shall prepare a proper notice thereof. No business may be transacted at such special meeting other than the business specified in the notice to stockholders of such meeting.

2.4 Notice of Stockholders' Meetings. All notices of meetings of stockholders shall be sent or otherwise given in accordance with either Section 2.5 or Section 8.1 of these bylaws not less than ten (10) nor more than sixty (60) days before the date of the meeting to each stockholder entitled to vote at such meeting, except as otherwise required by applicable law. The notice shall specify the place, if any, date and hour of the meeting, the means of remote communication, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such meeting, and, in the case of a special meeting, the purpose or purposes for which the meeting is called. Any previously scheduled meeting of stockholders may be postponed, and, unless the Certificate provides otherwise, any special meeting of the stockholders may be cancelled by resolution duly adopted by a majority of the Board members then in office upon public notice given prior to the date previously scheduled for such meeting of stockholders.

Whenever notice is required to be given, under the DGCL, the Certificate or these bylaws, to any person with whom communication is unlawful, the giving of such notice to such person shall not be required and there shall be no duty to apply to any governmental authority or agency for a license or permit to give such notice to such person. Any action or meeting which shall be taken or held without notice to any such person with whom communication is unlawful shall have the same force and effect as if such notice had been duly given. In the event that the action taken by the Corporation is such as to require the filing of a certificate with the Secretary of State of Delaware, the certificate shall state, if such is the fact and if notice is required, that notice was given to all persons entitled to receive notice except such persons with whom communication is unlawful.

Whenever notice is required to be given, under any provision of the DGCL, the Certificate or these bylaws, to any stockholder to whom (a) notice of two (2) consecutive annual meetings, or (b) all, and at least two (2) payments (if sent by first-class mail) of dividends or interest on securities during a twelve (12) month period, have been mailed addressed to such person at such person's address as shown on the records of the Corporation and have been returned undeliverable, the giving of such notice to such person shall not be required. Any action or meeting which shall be taken or held without notice to such person shall have the same force and effect as if such notice had been duly given. If any such person shall deliver to the Corporation a written notice setting forth such person's then current address, the requirement that notice be given to such person shall be reinstated. In the event that the action taken by the Corporation is such as to require the filing of a certificate with the Secretary of State of Delaware, the certificate need not state that notice was not given to persons to whom notice was not required to be given pursuant to Section 230(b) of the DGCL.

The exception in subsection (a) of the above paragraph to the requirement that notice be given shall not be applicable to any notice returned as undeliverable if the notice was given by electronic transmission.

2.5 Manner of Giving Notice; Affidavit of Notice. Notice of any meeting of stockholders shall be given:

- (a) if mailed, when deposited in the United States mail, postage prepaid, directed to the stockholder at his or her address as it appears on the Corporation's records;
- (b) if electronically transmitted, as provided in Section 8.1 of these bylaws; or
- (c) otherwise, when delivered.

An affidavit of the secretary or an assistant secretary of the Corporation or of the transfer agent or any other agent of the Corporation that the notice has been given shall, in the absence of fraud, be *prima facie* evidence of the facts stated therein.

Notice may be waived in accordance with Section 7.13 of these bylaws.

2.6 Quorum. Unless otherwise provided in the Certificate or required by law, stockholders representing a majority of the voting power of the issued and outstanding capital stock of the Corporation, present in person or represented by proxy, shall constitute a quorum for the transaction of business at all meetings of the stockholders. If such quorum is not present or represented at any meeting of the stockholders, then the chairman of the meeting, or the stockholders representing a majority of the voting power of the capital stock at the meeting, present in person or represented by proxy, shall have power to adjourn the meeting from time to time until a quorum is present or represented. At such adjourned meeting at which a quorum is present or represented, any business may be transacted that might have been transacted at the meeting as originally noticed. The stockholders present at a duly called meeting at which quorum is present may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum.

2.7 Adjourned Meeting; Notice. When a meeting is adjourned to another time or place, unless these bylaws otherwise require, notice need not be given of the adjourned meeting if the time, place if any thereof, and the means of remote communications if any by which stockholders and proxy holders may be deemed to be present in person and vote at such adjourned meeting are announced at the meeting at which the adjournment is taken. At the continuation of the adjourned meeting, the Corporation may transact any business that might have been transacted at the original meeting. If the adjournment is for more than thirty (30) days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting in accordance with the provisions of Section 2.4 and 2.5 of these bylaws.

2.8 Administration of the Meeting. Meetings of stockholders shall be presided over by the chairman of the Board or, in the absence thereof, by such person as the chairman of the Board shall appoint, or, in the absence thereof or in the event that the chairman shall fail to make such appointment, any officer of the Corporation elected by the Board. In the absence of the secretary of the Corporation, the secretary of the meeting shall be such person as the chairman of the meeting appoints.

The Board shall, in advance of any meeting of stockholders, appoint one (1) or more inspector(s), who may include individual(s) who serve the Corporation in other capacities, including without limitation as officers, employees or agents, to act at the meeting of stockholders and make a written report thereof. The Board may designate one (1) or more persons as alternate inspector(s) to replace any inspector, who fails to act. If no inspector or alternate has been appointed or is able to act at a meeting of stockholders, the chairman of the meeting shall appoint one (1) or more inspector(s) to act at the meeting. Each inspector, before discharging his or her duties, shall take and sign an oath to faithfully execute the duties of inspector with strict impartiality and according to the best of his or her ability. The inspector(s) or alternate(s) shall have the duties prescribed pursuant to Section 231 of the DGCL or other applicable law.

The Board shall be entitled to make such rules or regulations for the conduct of meetings of stockholders as it shall deem necessary, appropriate or convenient. Subject to such rules and regulations, if any, the chairman of the meeting shall have the right and authority to prescribe such rules, regulations and procedures and to do all acts as, in the judgment of such chairman, are necessary, appropriate or convenient for the proper conduct of the meeting, including without limitation establishing an agenda of business of the meeting, rules or regulations to maintain order, restrictions on entry to the meeting after the time fixed for commencement thereof and the fixing of the date and time of the opening and closing of the polls for each matter upon which the stockholders will vote at a meeting (and shall announce such at the meeting).

2.9 Voting. The stockholders entitled to vote at any meeting of stockholders shall be determined in accordance with the provisions of Section 2.11 of these bylaws, subject to Section 217 (relating to voting rights of fiduciaries, pledgors and joint owners of stock) and Section 218 (relating to voting trusts and other voting agreements) of the DGCL.

Except as otherwise provided in the provisions of Section 213 of the DGCL (relating to the fixing of a date for determination of stockholders of record) or these bylaws, each stockholder shall be entitled to that number of votes for each share of capital stock held by such stockholder as set forth in the Certificate.

In all matters, other than the election of directors and except as otherwise required by law, the Certificate or these bylaws, the affirmative vote of a majority of the voting power of the shares present or represented by proxy at the meeting and entitled to vote on the subject matter shall be the act of the stockholders. Directors shall be elected by a plurality of the voting power of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.

The stockholders of the Corporation shall not have the right to cumulate their votes for the election of directors of the Corporation.

2.10 Stockholder Action by Written Consent without a Meeting. Any action required or permitted to be taken at any Annual or Special Meeting of Stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and shall be delivered to the Corporation by delivery to its registered office in the State of Delaware, its principal place of business, or an officer or agent of the Corporation having custody of the book in which proceedings of meetings of the stockholders are recorded. Delivery made to the Corporation's registered office shall be by hand or by certified or registered mail, return receipt requested. Every written consent shall bear the date of signature of each stockholder who signs the consent and no written consent shall be effective to take the corporate action referred to therein unless, within sixty (60) days of the earliest dated consent delivered in the manner required by this Section 2.10 to the Corporation, written consents signed by a sufficient number of holders to take action are delivered to the Corporation by delivery to its registered office in the State of Delaware, its principal place of business, or an officer or agent of the Corporation having custody of the book in which proceedings of meetings of the stockholders are recorded. Any copy, facsimile or other reliable reproduction of a consent in writing may be substituted or used in lieu of the original writing for any and all purposes for which the original writing could be used, provided that such copy, facsimile or other reproduction shall be a complete reproduction of the entire original writing. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing and who, if the action had been taken at a meeting, would have been entitled to notice of the meeting if the record date for such meeting had been the date that written consents signed by a sufficient number of holders to take the action were delivered to the Corporation as provided above in this Section 2.10.

Any action required or permitted to be taken by the stockholders of the Corporation (if the Corporation has more than one stockholder at such time) must be effected at a duly called annual or special meeting of stockholders of the Corporation and may not be effected by any consent in writing by such stockholders.

2.11 Record Date for Stockholder Notice; Voting; Giving Consents. In order that the Corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, or entitled to receive payment of any dividend or other distribution or allotment of any rights, or entitled to exercise any rights in respect of any change, conversion or exchange of stock or for the purpose of any other lawful action, the Board may fix, in advance, a record date, which record date shall not precede the date on which the resolution fixing the record date is adopted and which shall not be more than sixty (60) nor less than ten (10) days before the date of such meeting, nor more than sixty (60) days prior to any other such action.

If the Board does not fix a record date in accordance with these bylaws and applicable law:

(a) The record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held.

(b) The record date for determining stockholders entitled to consent to corporate action in writing without a meeting, when no prior action by the Board is necessary, shall be the first day on which a signed written consent setting forth the action taken or proposed to be taken is delivered to the Corporation.

(c) The record date for determining stockholders for any other purpose shall be at the close of business on the day on which the Board adopts the resolution relating thereto.

A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board may fix a new record date for the adjourned meeting.

2.12 Proxies. Each stockholder entitled to vote at a meeting of stockholders may authorize another person or persons to act for such stockholder by proxy authorized by an instrument in writing or by a transmission permitted by law and filed with the secretary of the Corporation, but no such proxy shall be voted or acted upon after three (3) years from its date, unless the proxy provides for a longer period. A stockholder may also authorize another person or persons to act for him, her or it as proxy in the manner(s) provided under Section 212(c) of the DGCL or as otherwise

provided under Delaware law. The revocability of a proxy that states on its face that it is irrevocable shall be governed by the provisions of Section 212 of the DGCL.

2.13 List of Stockholders Entitled to Vote. The officer who has charge of the stock ledger of the Corporation shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list of the stockholders entitled to vote at the meeting, arranged in alphabetical order, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. The Corporation shall not be required to include electronic mail addresses or other electronic contact information on such list. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting for a period of at least ten (10) days prior to the meeting: (i) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (ii) during ordinary business hours, at the Corporation's principal place of business.

In the event that the Corporation determines to make the list available on an electronic network, the Corporation may take reasonable steps to ensure that such information is available only to stockholders of the Corporation. If the meeting is to be held at a place, then the list shall be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present. If the meeting is to be held solely by means of remote communication, then the list shall also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting.

2.14 Advance Notice of Stockholder Business. Only such business shall be conducted as shall have been properly brought before a meeting of the stockholders of the Corporation. To be properly brought before an annual meeting, business must be (a) specified in the notice of meeting (or any supplement thereto) given by or at the direction of the Board, (b) otherwise properly brought before the meeting by or at the direction of the Board, or (c) a proper matter for stockholder action under the DGCL that has been properly brought before the meeting by a stockholder (i) who is a stockholder of record on the date of the giving of the notice provided for in this Section 2.14 and on the record date for the determination of stockholders entitled to vote at such annual meeting and (ii) who complies with the notice procedures set forth in this Section 2.14. For such business to be considered properly brought before the meeting by a stockholder such stockholder must, in addition to any other applicable requirements, have given timely notice in proper form of such stockholder's intent to bring such business before such meeting. To be timely, such stockholder's notice must be delivered to or mailed and received by the secretary of the Corporation at the principal executive offices of the Corporation not later than the close of business on the 90th day, nor earlier than the close of business on the 120th day, prior to the anniversary date of the immediately preceding annual meeting; provided, however, that in the event that no annual meeting was held in the previous year or the annual meeting is called for a date that is not within thirty (30) days before or after such anniversary date, notice by the stockholder to be timely must be so received not later than the close of business on the tenth (10th) day following the day on which such notice of the date of the meeting was mailed or public disclosure of the date of the meeting was made, whichever occurs first.

To be in proper form, a stockholder's notice to the secretary shall be in writing and shall set forth:

- (a) the name and record address of the stockholder who intends to propose the business and the class or series and number of shares of capital stock of the Corporation which are owned beneficially or of record by such stockholder;
- (b) a representation that the stockholder is a holder of record of stock of the Corporation entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to introduce the business specified in the notice;
- (c) a brief description of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting;
- (d) any material interest of the stockholder in such business; and
- (e) any other information that is required to be provided by the stockholder pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (the "**Exchange Act**").

Notwithstanding the foregoing, in order to include information with respect to a stockholder proposal in the proxy statement and form of proxy for a stockholder's meeting, stockholders must provide notice as required by, and otherwise comply with the requirements of, the Exchange Act and the regulations promulgated thereunder.

No business shall be conducted at the annual meeting of stockholders except business brought before the annual meeting in accordance with the procedures set forth in this Section 2.14. The chairman of the meeting may refuse to acknowledge the proposal of any business not made in compliance with the foregoing procedure.

2.15 Advance Notice Of Director Nominations. Only persons who are nominated in accordance with the following procedures shall be eligible for election as directors of the Corporation, except as may be otherwise provided in the Certificate with respect to the right of holders of Preferred Stock of the Corporation to nominate and elect a specified number of directors. To be properly brought before an annual meeting of stockholders, or any special meeting of stockholders called for the purpose of electing directors, nominations for the election of director must be (a) specified in the notice of meeting (or any supplement thereto), (b) made by or at the direction of the Board (or any duly authorized committee thereof) or (c) made by any stockholder of the Corporation (i) who is a stockholder of record on the date of the giving of the notice provided for in this Section 2.15 and on the record date for the determination of stockholders entitled to vote at such meeting and (ii) who complies with the notice procedures set forth in this Section 2.15.

In addition to any other applicable requirements, for a nomination to be made by a stockholder, such stockholder must have given timely notice thereof in proper written form to the secretary of the Corporation. To be timely, a stockholder's notice to the secretary must be delivered to or mailed and received at the principal executive offices of the Corporation, in the case of an annual meeting, in accordance with the provisions set forth in Section 2.14, and, in the case of a special meeting of stockholders called for the purpose of electing directors, not later than the close of business on the tenth (10th) day following the day on which notice of the date of the special meeting was mailed or public disclosure of the date of the special meeting was made, whichever first occurs.

To be in proper written form, a stockholder's notice to the secretary must set forth:

- (a) as to each person whom the stockholder proposes to nominate for election as a director (i) the name, age, business address and residence address of the person, (ii) the principal occupation or employment of the person, (iii) the class or series and number of shares of capital stock of the Corporation which are owned beneficially or of record by the person, (iv) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nominations are to be made by the stockholder, and (v) any other information relating to such person that is required to be disclosed in solicitations of proxies for elections of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including without limitation such person's written consent to being named in the proxy statement, if any, as a nominee and to serving as a director if elected); and

- (b) as to such stockholder giving notice, the information required to be provided pursuant to Section 2.14.

Subject to the rights of any holders of Preferred Stock of the Corporation, no person shall be eligible for election as a director of the Corporation unless nominated in accordance with the procedures set forth in this Section 2.15. If the chairman of the meeting properly determines that a nomination was not made in accordance with the foregoing procedures, the chairman shall declare to the meeting that the nomination was defective and such defective nomination shall be disregarded.

ARTICLE III

DIRECTORS

3.1 **Powers**. Subject to the provisions of the DGCL and any limitations in the Certificate, the business and affairs of the Corporation shall be managed and all corporate powers shall be exercised by or under the direction of the Board.

3.2 **Number of Directors**. Subject to the rights of the holders of any series of Preferred Stock to elect directors under specified circumstances, the authorized number of directors shall be determined from time to time by resolution of the Board, provided the Board shall consist of at least five members. No reduction of the authorized number of directors shall have the effect of removing any director before that director's term of office expires.

3.3 Election, Qualification and Term of Office of Directors. Except as provided in Section 3.4 and Section 3.13 of these bylaws, directors shall be elected at each annual meeting of stockholders to hold office until the next annual meeting. Directors need not be stockholders unless so required by the Certificate or these bylaws. The Certificate or these bylaws may prescribe other qualifications for directors. Each director, including a director elected to fill a vacancy, shall hold office until such director's successor is elected and qualified or until such director's earlier death, resignation or removal.

All elections of directors shall be by written ballot, unless otherwise provided in the Certificate. If authorized by the Board, such requirement of a written ballot shall be satisfied by a ballot submitted by electronic transmission, provided that any such electronic transmission must be either set forth or be submitted with information from which it can be determined that the electronic transmission was authorized.

3.4 Resignation and Vacancies. Any director may resign at any time upon written notice or by electronic transmission to the chairman of the Board, with a copy to the secretary of the Corporation.

Subject to the rights of the holders of any series of Preferred Stock of the Corporation then outstanding and unless the Board otherwise determines, newly created directorships resulting from any increase in the authorized number of directors, or any vacancies on the Board resulting from the death, resignation, retirement, disqualification, removal from office or other cause shall, unless otherwise required by law, be filled by the affirmative vote of a majority of the remaining directors then in office, even though less than a quorum of the Board, or by a sole remaining director. When one or more directors resigns and the resignation is effective at a future date, a majority of the directors then in office, including those who have so resigned, shall have power to fill such vacancy or vacancies, the vote thereon to take effect when such resignation or resignations shall become effective, and each director so chosen shall hold office as provided in this section in the filling of other vacancies.

3.5 Place of Meetings; Meetings by Telephone. The Board may hold meetings, both regular and special, either within or outside the State of Delaware. Unless otherwise restricted by the Certificate or these bylaws, members of the Board, or any committee designated by the Board, may participate in a meeting of the Board, or any committee, by means of conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and such participation in a meeting shall constitute presence in person at the meeting.

3.6 Regular Meetings. Regular meetings of the Board may be held with at least two (2) business days prior notice at such time and at such place as shall from time to time be determined by the Board.

3.7 Special Meetings; Notice. Special meetings of the Board for any purpose or purposes may be called at any time by (i) the Board of Directors of the Corporation, (ii) the Chairman of the Board of Directors of the Corporation, (iii) the Chief Executive Officer (or, in the absence of a Chief Executive Officer, the President) of the Corporation, or (iv) a holder, or group of holders, of Common Stock holding more than twenty percent (20%) of the total voting power of the outstanding shares of capital stock of the Corporation then entitled to vote. The person(s) authorized to call special meetings of the Board may fix the place and time of the meeting.

Notice of the time and place of special meetings shall be:

- (a) delivered personally by hand, by courier or by telephone;
- (b) sent by United States first-class mail, postage prepaid;
- (c) sent by facsimile; or
- (d) sent by electronic mail,

directed to each director at that director's address, telephone number, facsimile number or electronic mail address, as the case may be, as shown on the Corporation's records.

If the notice is (i) delivered personally by hand, by courier or by telephone, (ii) sent by facsimile or (iii) sent by electronic mail, it shall be delivered or sent at least twenty-four (24) hours before the time of the holding of the meeting. If the notice is sent by United States mail, it shall be deposited in the United States mail at least four days before the time of the holding of the meeting. Any oral notice may be communicated either to the director or to a person at the office of the director who the person giving notice has reason to believe will promptly communicate such notice to the director. The notice need not specify the place of the meeting if the meeting is to be held at the Corporation's principal executive office nor the purpose of the meeting.

3.8 Quorum. Except as otherwise required by law or the Certificate, at all meetings of the Board, a majority of the authorized number of directors (as determined pursuant to Section 3.2 of these bylaws) shall constitute a quorum for the transaction of business, except to adjourn as provided in Section 3.11 of these bylaws. The vote of a majority of the directors present at any meeting at which a quorum is present shall be the act of the Board, except as may be otherwise specifically provided by statute, the Certificate or these bylaws.

3.9 Waiver of Notice. Whenever notice is required to be given under any provisions of the DGCL, the Certificate or these bylaws, a written waiver thereof, signed by the person entitled to notice, or a waiver by electronic transmission by the person entitled to notice, whether before or after the time stated therein, shall be deemed equivalent to notice. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends a meeting solely for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the directors, or members of a committee of directors, need be specified in any written waiver of notice or any waiver by electronic transmission unless so required by the Certificate or these bylaws.

3.10 Board Action by Written Consent without a Meeting. Unless otherwise restricted by the Certificate or these bylaws, any action required or permitted to be taken at any meeting of the Board, or of any committee thereof, may be taken without a meeting if all members of the Board or committee, as the case may be, consent thereto in writing or by electronic transmission and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board or committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

3.11 Adjourned Meeting; Notice. If a quorum is not present at any meeting of the Board, then a majority of the directors present thereat may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum is present.

3.12 Fees and Compensation of Directors. Unless otherwise restricted by the Certificate or these bylaws, the Board shall have the authority to fix the compensation of directors.

3.13 Removal of Directors. Subject to the rights of the holders of any series of Preferred Stock then outstanding, any director or the entire Board may be removed from office at any time, with or without cause, by the affirmative vote of the holders of at least a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation then entitled to vote in the election of directors.

3.14 Corporate Governance Compliance. Without otherwise limiting the powers of the Board set forth in Section 3.1 and provided that shares of capital stock of the Corporation are listed for trading on either the NASDAQ Stock Market (“NASDAQ”) or the New York Stock Exchange or the NYSE American (in either case, “NYSE”), the Corporation shall comply with the corporate governance rules and requirements of the NASDAQ or the NYSE, as applicable.

ARTICLE IV

COMMITTEES

4.1 Committees of Directors. The Board may designate one or more committees, each committee to consist of one or more of the directors of the Corporation. The Board may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. In the absence or disqualification of a member of a committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not such member or members constitute a quorum, may unanimously appoint another member of the Board to act at the meeting in the place of any such absent or disqualified member. Any such committee, to the extent provided in the resolution of the Board or in these bylaws, shall have and may exercise such lawfully delegable powers and duties as the Board may confer. Each committee will comply with all applicable

provisions of: the Sarbanes-Oxley Act of 2002, the rules and regulations of the Securities and Exchange Commission, and the rules and requirements of NASDAQ or NYSE, as applicable, and will have the right to retain independent legal counsel and other advisers at the Corporation's expense.

4.2 Committee Minutes. Each committee shall keep regular minutes of its meetings and report to the Board when required.

4.3 Meetings and Action of Committees. Meetings and actions of committees shall be governed by, and held and taken in accordance with, the provisions of:

(a) Section 3.5 (place of meetings and meetings by telephone);

(b) Section 3.6 (regular meetings);

(c) Section 3.7 (special meetings and notice);

(d) Section 3.8 (quorum);

(e) Section 3.9 (waiver of notice);

(f) Section 3.10 (action without a meeting); and

(g) Section 3.11 (adjournment and notice of adjournment), with such changes in the context of those bylaws as are necessary to substitute the committee and its members for the Board and its members.

Notwithstanding the foregoing:

- (a) the time of regular meetings of committees may be determined either by resolution of the Board or by resolution of the committee;
- (b) special meetings of committees may also be called by resolution of the Board; and
- (c) notice of special meetings of committees shall also be given to all alternate members, who shall have the right to attend all meetings of the committee. The Board may adopt rules for the government of any committee not inconsistent with the provisions of these bylaws.

4.4 Audit Committee. The Board shall establish an Audit Committee whose principal purpose will be to oversee the Corporation's and its subsidiaries' accounting and financial reporting processes, internal systems of control, independent auditor relationships and audits of consolidated financial statements of the Corporation and its subsidiaries. The Audit Committee will also determine the appointment of the independent auditors of the Corporation and any change in such appointment and ensure the independence of the Corporation's auditors. In addition, the Audit Committee will assume such other duties and responsibilities as the Board may confer upon the committee from time to time.

4.5 Corporate Governance and Nominating Committee. The Board shall establish a Corporate Governance and Nominating Committee whose principal duties will be to assist the Board by identifying individuals qualified to become Board members consistent with criteria approved by the Board, to recommend to the Board for its approval the slate of nominees to be proposed by the Board to the stockholders for election to the Board, to develop and recommend to the Board the governance principles applicable to the Corporation, as well as such other duties and responsibilities as the Board may confer upon the committee from time to time. In the event the Corporate Governance and Nominating Committee will not be recommending a then incumbent director for inclusion in the slate of nominees to be proposed by the Board to the stockholders for election to the Board, and provided such incumbent director has not notified the Committee that he or she will be resigning or that he or she does not intend to stand for re-election to the Board, then, in the case of an election to be held at an annual meeting of stockholders, the Committee will recommend the slate of nominees to the Board at least thirty (30) days prior to the latest date required by the provisions of Sections 2.14 and 2.15 of these bylaws for stockholders to submit nominations for directors at such annual meeting, or in the case of an election to be held at a special meeting of stockholders, at least ten (10) days prior to the latest date required by the provisions of Sections 2.14 and 2.15 of these bylaws for stockholders to submit nominations for directors at such special meeting.

4.6 Compensation Committee. The Board shall establish a Compensation Committee whose principal duties will be to review employee compensation policies and programs as well as the compensation of the chief executive officer and other executive officers of the Corporation, to recommend to the Board a compensation program for outside Board members, as well as such other duties and responsibilities as the Board may confer upon the committee from time to time.

ARTICLE V

5.1 Officers. The officers of the Corporation shall be a chief executive officer and a secretary. The Corporation may also have, at the discretion of the Board, a chairman of the Board, an executive chairman of the Board, one or more presidents, a chief financial officer, a treasurer, one or more vice presidents, one or more assistant vice presidents, one or more assistant treasurers, one or more assistant secretaries, and any such other officers as may be appointed in accordance with the provisions of these bylaws.

Any number of offices may be held by the same person, provided, however, that, except as provided in Section 5.6 below, the chairman of the Board shall not hold any other office of the Corporation.

5.2 Appointment of Officers. The Board shall appoint the officers of the Corporation, except such officers as may be appointed in accordance with the provisions of Sections 5.3 of these bylaws, subject to the rights, if any, of an officer under any contract of employment. Each officer shall hold office until his or her successor is elected and qualified or until his or her earlier resignation or removal. A failure to elect officers shall not dissolve or otherwise affect the Corporation.

5.3 Subordinate Officers. The Board may appoint, or empower the chief executive officer of the Corporation, to appoint, such other officers and agents as the business of the Corporation may require. Each of such officers and agents shall hold office for such period, have such authority, and perform such duties as are provided in these bylaws or as the Board may from time to time determine.

5.4 Removal and Resignation of Officers. Any officer may be removed, either with or without cause, by an affirmative vote of the majority of the Board at any regular or special meeting of the Board or, except in the case of an officer appointed by the Board, by any officer upon whom such power of removal has been conferred by the Board.

Any officer may resign at any time by giving written notice to the Corporation. Any resignation shall take effect at the date of the receipt of that notice or at any later time specified in that notice. Unless otherwise specified in the notice of resignation, the acceptance of the resignation shall not be necessary to make it effective. Any resignation is without prejudice to the rights, if any, of the Corporation under any contract to which the officer is a party.

5.5 Vacancies in Offices. Any vacancy occurring in any office of the Corporation shall be filled by the Board or as provided in Section 5.2.

5.6 Chairman of the Board. The chairman of the Board shall be a member of the Board and, if present, preside at meetings of the Board and exercise and perform such other powers and duties as may from time to time be assigned to him or her by the Board or as may be prescribed by these bylaws.

The chairman shall be an Outside Director (as defined in the Certificate) and shall not hold any other office of the Corporation unless the appointment of the chairman is approved by two-thirds of the members of the Board then in office, provided, however, that if there is no chief executive officer or president of the Corporation as a result of the death, resignation or removal of such officer, then the chairman of the Board may also serve in an interim capacity as the chief executive officer of the Corporation until the Board shall appoint a new chief executive officer and, while serving in such interim capacity, shall have the powers and duties prescribed in Section 5.7 of these bylaws.

5.7 Chief Executive Officer. Subject to the control of the Board and any supervisory powers the Board may give to the chairman of the Board, the chief executive officer shall have general supervision, direction, and control of the business and affairs of the Corporation and shall see that all orders and resolutions of the Board are carried into effect. The chief executive officer shall, together with any president or presidents of the Corporation, also perform all duties incidental to this office that may be required by law and all such other duties as are properly required of this office by the Board of Directors. The chief executive officer shall serve as chairman of and preside at all meetings of the stockholders. In the absence of the chairman of the Board, the chief executive officer shall preside at all meetings of the Board.

5.8 Presidents. Subject to the control of the Board and any supervisory powers the Board may give to the chairman of the Board, any president or presidents of the Corporation shall, together with the chief executive officer, have general supervision, direction, and control of the business and affairs of the Corporation and shall see that all orders and resolutions of the Board are carried into effect. A president shall have such other powers and perform such other duties as from time to time may be prescribed for him or her by the Board, these bylaws, the chief executive officer, or the chairman of the Board.

5.9 Vice Presidents. In the absence or disability of any president, the vice presidents, if any, in order of their rank as fixed by the Board or, if not ranked, a vice president designated by the Board, shall perform all the duties of a president. When acting as a president, the appropriate vice president shall have all the powers of, and be subject to all the restrictions upon, that president. The vice presidents shall have such other powers and perform such other duties as from time to time may be prescribed for them respectively by the Board, these bylaws, the chairman of the Board, the chief executive officer or, in the absence of a chief executive officer, any president.

5.10 Secretary. The secretary shall keep or cause to be kept, at the principal executive office of the Corporation or such other place as the Board may direct, a book of minutes of all meetings and actions of directors, committees of directors, and stockholders. The minutes shall show:

- (a) the time and place of each meeting;

- (b) whether regular or special (and, if special, how authorized and the notice given);
- (c) the names of those present at directors' meetings or committee meetings;
- (d) the number of shares present or represented at stockholders' meetings; and
- (e) the proceedings thereof.

The secretary shall keep, or cause to be kept, at the principal executive office of the Corporation or at the office of the Corporation's transfer agent or registrar, as determined by resolution of the Board, a share register, or a duplicate share register showing:

- (a) the names of all stockholders and their addresses;
- (b) the number and classes of shares held by each;
- (c) the number and date of certificates evidencing such shares; and
- (d) the number and date of cancellation of every certificate surrendered for cancellation.

The secretary shall give, or cause to be given, notice of all meetings of the stockholders and of the Board required to be given by law or by these bylaws. The secretary shall keep the seal of the Corporation, if one be adopted, in safe custody and shall have such other powers and perform such other duties as may be prescribed by the Board or by these bylaws.

5.11 Chief Financial Officer. The chief financial officer shall keep and maintain, or cause to be kept and maintained, adequate and correct books and records of accounts of the properties and business transactions of the Corporation, including accounts of its assets, liabilities, receipts, disbursements, gains, losses, capital, retained

earnings and shares. The books of account shall at all reasonable times be open to inspection by any director.

The chief financial officer shall deposit all moneys and other valuables in the name and to the credit of the Corporation with such depositories as the Board may designate. The chief financial officer shall disburse the funds of the Corporation as may be ordered by the Board, shall render to the chief executive officer or, in the absence of a chief executive officer, any president and directors, whenever they request it, an account of all his or her transactions as chief financial officer and of the financial condition of the Corporation, and shall have other powers and perform such other duties as may be prescribed by the Board or these bylaws.

The chief financial officer may be the treasurer of the Corporation.

5.12 Treasurer. The treasurer shall keep and maintain, or cause to be kept and maintained, adequate and correct books and records of accounts of the properties and business transactions of the Corporation, including accounts of its assets, liabilities, receipts, disbursements, gains, losses, capital, retained earnings and shares. The books of account shall at all reasonable times be open to inspection by any director.

The treasurer shall deposit all moneys and other valuables in the name and to the credit of the Corporation with such depositories as the Board may designate. The treasurer shall disburse the funds of the Corporation as may be ordered by the Board, shall render to the chief executive officer or, in the absence of a chief executive officer, any president and the directors, whenever they request it, an account of all his or her transactions as treasurer and of the financial condition of the Corporation, and shall have other powers and perform such other duties as may be prescribed by the Board or these bylaws.

5.13 Assistant Secretary. The assistant secretary, or, if there is more than one, the assistant secretaries in the order determined by the Board (or if there be no such determination, then in the order of their election) shall, in the absence of the secretary or in the event of the secretary's inability or refusal to act, perform the duties and exercise the powers of the secretary and shall perform such other duties and have such other powers as may be prescribed by the Board or these bylaws.

5.14 Assistant Treasurer. The assistant treasurer, or, if there is more than one, the assistant treasurers, in the order determined by the Board (or if there be no such determination, then in the order of their election), shall, in the absence of the chief financial officer or treasurer or in the event of the chief financial officer's or treasurer's inability or refusal to act, perform the duties and exercise the powers of the chief financial officer or treasurer, as applicable, and shall perform such other duties and have such other powers as may be prescribed by the Board or these bylaws.

5.15 Representation of Shares of Other Corporations. The chairman of the Board, the chief executive officer, any president, any vice president, the treasurer, the secretary or assistant secretary of this Corporation, or any other person authorized by the Board, the chief executive officer, a president or a vice president, is authorized to vote, represent, and exercise on behalf of this Corporation all rights incident to any and all shares or other equity interests of any other Corporation or entity standing in the name of this Corporation. The authority granted herein may be exercised either by such person directly or by any other person authorized to do so by proxy or power of attorney duly executed by such person having the authority.

5.16 Authority and Duties of Officers. In addition to the foregoing authority and duties, all officers of the Corporation shall respectively have such authority and perform such duties in the management of the business of the Corporation as may be designated from time to time by the Board.

ARTICLE VI

RECORDS AND REPORTS

6.1 Maintenance and Inspection of Records. The Corporation shall, either at its principal executive office or at such place or places as designated by the Board, keep a record of its stockholders listing their names and addresses and the number and class of shares held by each stockholder, a copy of these bylaws, as may be amended to date, minute books, accounting books and other records.

Any such records maintained by the Corporation may be kept on, or by means of, or be in the form of, any information storage device or method, provided that the records so kept can be converted into clearly legible paper form within a reasonable time. The Corporation shall so convert any records so kept upon the request of any person entitled to inspect such records pursuant to the provisions of the DGCL. When records are kept in such manner, a clearly legible paper form produced from or by means of the information storage device or method shall be admissible in evidence, and accepted for all other purposes, to the same extent as an original paper form accurately portrays the record.

Any stockholder of record, in person or by attorney or other agent, shall, upon written demand under oath stating the purpose thereof, have the right during the usual hours for business to inspect for any proper purpose the Corporation's stock ledger, a list of its stockholders, and its other books and records and to make copies or extracts therefrom. A proper purpose shall mean a purpose reasonably related to such person's interest as a stockholder. In every instance where an attorney or other agent is the person who seeks the right to inspection, the demand under oath shall be accompanied by a power of attorney or such other writing that authorizes the attorney or other agent to so act on behalf of the stockholder. The demand under oath shall be directed to the Corporation at its registered office in Delaware or at its principal executive office.

6.2 Inspection by Directors. Any director shall have the right to examine the Corporation's stock ledger, a list of its stockholders, and its other books and records for a purpose reasonably related to his or her position as a director.

ARTICLE VII

GENERAL MATTERS

7.1 Checks; Drafts; Evidences of Indebtedness. From time to time, the Board shall determine by resolution which person or persons may sign or endorse all checks, drafts, other orders for payment of money, notes or other evidences of indebtedness that are issued in the name of or payable to the Corporation, and only the persons so authorized shall sign or endorse those instruments.

7.2 Execution of Corporate Contracts and Instruments. Except as otherwise provided in these bylaws, the Board, or any officers of the Corporation authorized thereby, may authorize any officer or officers, or agent or agents, to enter into any contract or execute any instrument in the name of and on behalf of the Corporation; such authority may be general or confined to specific instances.

7.3 Stock Certificates; Partly Paid Shares. The shares of the Corporation shall be represented by certificates, provided that the Board may provide by resolution or resolutions that some or all of any or all classes or series of its stock shall be uncertificated shares. Any such resolution shall not apply to shares represented by a certificate until such certificate is surrendered to the Corporation. Notwithstanding the adoption of such a resolution by the Board, every holder of stock represented by certificates and upon request every holder of uncertificated shares shall be entitled to have a certificate signed by, or in the name of the Corporation by the chairman or vice-chairman of the Board, or any president or vice-president, and by the treasurer or an assistant treasurer, or the secretary or an assistant secretary of such Corporation representing the number of shares registered in certificate form. Any or all of the signatures on the certificate may be a facsimile. In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate has ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if he or she were such officer, transfer agent or registrar at the date of issue.

The Corporation may issue the whole or any part of its shares as partly paid and subject to call for the remainder of the consideration to be paid therefor. Upon the face or back of each stock certificate issued to represent any such partly paid shares, and upon the books and records of the Corporation in the case of uncertificated partly paid shares, the total amount of the consideration to be paid therefor and the amount paid thereon shall be stated. Upon the declaration of any dividend on fully paid shares, the Corporation shall declare a dividend upon partly paid shares of the same class, but only upon the basis of the percentage of the consideration actually paid thereon.

7.4 Special Designation on Certificates. If the Corporation is authorized to issue more than one class of stock or more than one series of any class, then the powers, designations, preferences, and relative, participating, optional or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights shall be set forth in full or summarized on the face or back of the certificate that the Corporation shall issue to represent such class or series of stock; provided, however, that, except as otherwise provided in Section 202 of the DGCL, in lieu of the foregoing requirements there may be set forth on the face or back of the certificate that the Corporation shall issue to represent such class or series of stock a statement that the Corporation will furnish without charge to each stockholder who so requests the powers, designations, preferences, and relative, participating, optional or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights.

7.5 Lost Certificates. Except as provided in this Section 7.6, no new certificates for shares shall be issued to replace a previously issued certificate unless the latter is surrendered to the Corporation and cancelled at the same time. The Corporation may issue a new certificate of stock or uncertificated shares in the place of any certificate theretofore issued by it, alleged to have been lost, stolen or destroyed, and the Corporation may require the owner of the lost, stolen or destroyed certificate, or such owner's legal representative, to give the Corporation a bond sufficient to indemnify it against any claim that may be made against it on account of the alleged loss, theft or destruction of any such certificate or the issuance of such new certificate or uncertificated shares.

7.6 Construction; Definitions. Unless the context requires otherwise, the general provisions, rules of construction, and definitions in the DGCL shall govern the construction of these bylaws. Without limiting the generality of this provision, the singular number includes the plural, the plural number includes the singular, and the term “person” includes both a Corporation and a natural person.

7.7 Dividends. The Board, subject to any restrictions contained in either (i) the DGCL, or (ii) the Certificate, may declare and pay dividends upon the shares of its capital stock. Dividends may be paid in cash, in property, or in shares of the Corporation’s capital stock. The Board may set apart out of any of the funds of the Corporation available for dividends a reserve or reserves for any proper purpose and may abolish any such reserve.

7.8 Fiscal Year. The fiscal year of the Corporation shall be fixed by resolution of the Board and may be changed by the Board.

7.9 Seal. The Corporation may adopt a corporate seal, which shall be adopted and which may be altered by the Board. The Corporation may use the corporate seal by causing it or a facsimile thereof to be impressed or affixed or in any other manner reproduced.

7.10 Transfer of Stock. Transfers of stock shall be made only upon the transfer books of the Corporation kept at an office of the Corporation or by transfer agents designated to transfer shares of the stock of the Corporation. Except where a certificate is issued in accordance with Section 7.5 of these bylaws, an outstanding certificate for the number of shares involved shall be surrendered for cancellation before a new certificate is issued therefore. Upon surrender to the Corporation or the transfer agent of the Corporation of a certificate for shares duly endorsed or accompanied by proper evidence of succession, assignment or authority to transfer, it shall be the duty of the Corporation to issue a new certificate to the person entitled thereto, cancel the old certificate, and record the transaction in its books.

7.11 Stock Transfer Agreements. The Corporation shall have power to enter into and perform any agreement with any number of stockholders of any one or more classes or series of stock of the Corporation to restrict the transfer of shares of stock of the Corporation of any one or more classes or series owned by such stockholders in any manner not prohibited by the DGCL.

7.12 Registered Stockholders. The Corporation:

(a) shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends and to vote as such owner;

(b) shall be entitled to hold liable for calls and assessments on partly paid shares the person registered on its books as the owner of shares; and

(c) shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of another person, whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of Delaware.

7.13 Waiver of Notice. Whenever notice is required to be given under any provision of the DGCL, the Certificate or these bylaws, a written waiver, signed by the person entitled to notice, or a waiver by electronic transmission by the person entitled to notice, whether before or after the time of the event for which notice is to be given, shall be deemed equivalent to notice. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends a meeting solely for the express purpose of objecting at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the stockholders need be specified in any written waiver of notice or any waiver by electronic transmission unless so required by the Certificate or these bylaws.

7.14 Charitable Foundation. The establishment by the Corporation of a charitable foundation will require Board approval, as will contributions by the Corporation to the foundation and disbursements by the foundation. The Board may delegate authority over the foundation to one or more persons who are not directors of the Corporation with the approval of two-thirds of the members of the Board.

ARTICLE VIII

NOTICE BY ELECTRONIC TRANSMISSION

8.1 Notice by Electronic Transmission. Without limiting the manner by which notice otherwise may be given effectively to stockholders pursuant to the DGCL, the Certificate or these bylaws, any notice to stockholders given by the Corporation under any provision of the DGCL, the Certificate or these bylaws shall be effective if given by a form of electronic transmission consented to by the stockholder to whom the notice is given. Any such consent shall be revocable by the stockholder by written notice to the Corporation. Any such consent shall be deemed revoked if:

- (a) the Corporation is unable to deliver by electronic transmission two consecutive notices given by the Corporation in accordance with such consent; and
- b) such inability becomes known to the secretary or an assistant secretary of the Corporation or to the transfer agent, or other person responsible for the giving of notice.

However, the inadvertent failure to treat such inability as a revocation shall not invalidate any meeting or other action. Any notice given pursuant to the preceding paragraph shall be deemed given:

- (a) if by facsimile telecommunication, when directed to a number at which the stockholder has consented to receive notice;

- (b) if by electronic mail, when directed to an electronic mail address at which the stockholder has consented to receive notice;
- (c) if by a posting on an electronic network together with separate notice to the stockholder of such specific posting, upon the later of (A) such posting and (B) the giving of such separate notice; and
- (d) if by any other form of electronic transmission, when directed to the stockholder.

An affidavit of the secretary or an assistant secretary or of the transfer agent or other agent of the Corporation that the notice has been given by a form of electronic transmission shall, in the absence of fraud, be prima facie evidence of the facts stated therein.

8.2 Definition Of Electronic Transmission. An “electronic transmission” means any form of communication, not directly involving the physical transmission of paper, that creates a record that may be retained, retrieved, and reviewed by a recipient thereof, and that may be directly reproduced in paper form by such a recipient through an automated process.

8.3 Inapplicability. Notice by a form of electronic transmission shall not apply to Section 164 (failure to pay for stock; remedies), Section 296 (adjudication of claims; appeal), Section 311 (revocation of voluntary dissolution), Section 312 (renewal, revival, extension and restoration of certificate of in Corporation) or Section 324 (attachment of shares of stock) of the DGCL.

ARTICLE IX

INDEMNIFICATION OF DIRECTORS AND OFFICERS

9.1 Power to Indemnify in Actions, Suits or Proceedings Other Than Those by or in the Right of the Corporation. Subject to Section 9.3 of this Article IX, the Corporation shall indemnify, to the fullest extent permitted by the DGCL, as now or hereafter in effect, any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation) by reason of the fact that such person (or the legal representative of such person) is or was a director or officer of the Corporation or any predecessor of the Corporation, or is or was a director or officer of the Corporation serving at the request of the Corporation as a director or officer, employee or agent of another Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, against expenses

(including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that such person's conduct was unlawful.

9.2 Power to Indemnify in Actions, Suits or Proceedings by or in the Right of the Corporation. Subject to Section 9.3 of this Article IX, the Corporation shall indemnify, to the fullest extent permitted by the DGCL, as now or hereafter in effect, any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that such person (or the legal representative of such person) is or was a director or officer of the Corporation or any predecessor of the Corporation, or is or was a director or officer of the Corporation serving at the request of the Corporation as a director, officer, employee or agent of another Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation; except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

9.3 Authorization of Indemnification. Any indemnification under this Article IX (unless ordered by a court) shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the director or officer is proper in the circumstances because such person has met the applicable standard of conduct set forth in Section 9.1 or Section 9.2 of this Article IX, as the case may be. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (i) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (ii) by a committee of such directors designated by a majority vote of such directors, even though less than a quorum, or (iii) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion or (iv) by the stockholders (but only if a majority of the directors who are not parties to such action, suit or proceeding, if they constitute a quorum of the board of directors, presents the issue of entitlement to indemnification to the stockholders for their determination). Such determination shall be made, with respect to former directors and officers, by any person or persons having the authority to act on the matter on behalf of the Corporation. To the extent, however, that a present or former director or officer of the Corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding described above, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith, without the necessity of authorization in the specific case.

9.4 Good Faith Defined. For purposes of any determination under Section 9.3 of this Article IX, to the fullest extent permitted by applicable law, a person shall be deemed to have acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, or, with respect to any criminal action or proceeding, to have had no reasonable cause to believe such person's conduct was unlawful, if such person's action is based on the records or books of account of the Corporation or another enterprise, or on information supplied to such person by the officers of the Corporation or another enterprise in the course of their duties, or on the advice of legal counsel for the Corporation or another enterprise or on information or records given or reports made to the Corporation or another enterprise by an independent certified public accountant or by an appraiser or other expert selected with reasonable care by the Corporation or another enterprise. The term "another enterprise" as used in this Section 9.4 shall mean any other Corporation or any partnership, joint venture, trust, employee benefit plan or other enterprise of which such person is or was serving at the request of the Corporation as a director, officer, employee or agent. The provisions of this Section 9.4 shall not be deemed to be exclusive or to limit in any way the circumstances in which a person may be deemed to have met the applicable standard of conduct set forth in Section 9.1 or 9.2 of this Article IX, as the case may be.

9.5 Indemnification by a Court. Notwithstanding any contrary determination in the specific case under Section 9.3 of this Article IX, and notwithstanding the absence of any determination thereunder, any director or officer may apply to the Court of Chancery in the State of Delaware for indemnification to the extent otherwise permissible under Sections 9.1 and 9.2 of this Article IX. The basis of such indemnification by a court shall be a determination by such court that indemnification of the director or officer is proper in the circumstances because such person has met the applicable standards of conduct set forth in Section 9.1 or 9.2 of this Article IX, as the case may be. Neither a contrary determination in the specific case under Section 9.3 of this Article IX nor the absence of any determination thereunder shall be a defense to such application or create a presumption that the director or officer seeking indemnification has not met any applicable standard of conduct. Notice of any application for indemnification pursuant to this Section 9.5 shall be given to the Corporation promptly upon the filing of such application. If successful, in whole or in part, the director or officer seeking indemnification shall also be entitled to be paid the expense of prosecuting such application.

9.6 Expenses Payable in Advance. To the fullest extent not prohibited by the DGCL, or by any other applicable law, expenses incurred by a person who is or was a director or officer in defending any civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding; provided, however, that if the DGCL requires, an advance of expenses incurred by any person in his or her capacity as a director or officer (and not in any other capacity) shall be made only upon receipt of an undertaking by or on behalf of such person to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the Corporation as authorized in this Article IX.

D-19

9.7 Non-Exclusivity of Indemnification and Advancement of Expenses. The indemnification and advancement of expenses provided by or granted pursuant to this Article IX shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under the Certificate, any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office, it being the policy of the Corporation that indemnification of the persons specified in Sections 9.1 and 9.2 of this Article IX shall be made to the fullest extent permitted by law. The provisions of this Article IX shall not be deemed to preclude the indemnification of any person who is not specified in Section 9.1 or 9.2 of this Article IX but whom the Corporation has the power or obligation to indemnify under the provisions of the DGCL, or otherwise. The Corporation is specifically authorized to enter into individual contracts with any or all of its directors, officers, employees or agents respecting indemnification and advances, to the fullest extent not prohibited by the DGCL, or by any other applicable law.

9.8 Insurance. To the fullest extent permitted by the DGCL or any other applicable law, the Corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation, or is or was a director, officer, employee or agent of the Corporation serving at the request of the Corporation as a director, officer, employee or agent of another Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the Corporation would have the power or the obligation to indemnify such person against such liability under the provisions of this Article IX.

9.9 Certain Definitions. For purposes of this Article IX, references to the "Corporation" shall include, in addition to the resulting Corporation, any constituent Corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors or officers, so that any person who is or was a director or officer of such constituent Corporation, or is or was a director or officer of such constituent Corporation serving at the request of such constituent Corporation as a director, officer, employee or agent of another Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, shall stand in the same position under the provisions of this Article IX with respect to the resulting or surviving Corporation as such person would have with respect to such constituent Corporation if its separate existence had continued. For purposes of this Article IX, references to "fines" shall include any excise taxes assessed on a person with respect to an employee benefit plan; and references to "serving at the request of the Corporation" shall include any service as a director, officer, employee or agent of the Corporation which imposes duties on, or involves services by, such director or officer with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner "not opposed to the best interests of the Corporation" as referred to in this Article IX.

9.10 Survival of Indemnification and Advancement of Expenses. The rights to indemnification and advancement of expenses conferred by this Article IX shall continue as to a person who has ceased to be a director or officer and shall inure to the benefit of the heirs, executors, administrators and other personal and legal representatives of such a person.

9.11 Limitation On Indemnification. Notwithstanding anything contained in this Article IX to the contrary, except for proceedings to enforce rights to indemnification (which shall be governed by Section 9.5 hereof), the Corporation shall not be obligated to indemnify any director or officer in connection with a proceeding (or part thereof) initiated by such person unless such proceeding (or part thereof) was authorized or consented to by the board of directors of the Corporation.

9.12 Indemnification of Employees and Agents. The Corporation may, to the extent authorized from time to time by the board of directors, provide rights to indemnification and to the advancement of expenses to employees and agents of the Corporation similar to those conferred in this Article IX to directors and officers of the Corporation.

9.13 Effect of Amendment or Repeal. Neither any amendment or repeal of any Section of this Article IX, nor the adoption of any provision of the Certificate or the bylaws inconsistent with this Article IX, shall adversely affect any right or protection of any director, officer, employee or other agent established pursuant to this Article IX existing at the time of such amendment, repeal or adoption of an inconsistent provision, including without limitation by eliminating or reducing the effect of this Article IX, for or in respect of any act, omission or other matter occurring, or any action or proceeding accruing or arising (or that, but for this Article IX, would accrue or arise), prior to such amendment, repeal or adoption of an inconsistent provision.

ARTICLE X

AMENDMENTS

The bylaws of the Corporation may be adopted, amended or repealed by a majority of the voting power of the stockholders entitled to vote; provided, however, that the Corporation may, in its Certificate, also confer the power to adopt, amend or repeal bylaws upon the Board. The fact that such power has been so conferred upon the Board shall not divest the stockholders of the power, nor limit their power to adopt, amend or repeal bylaws.

DPW

2017 STOCK INCENTIVE PLAN

(effective _____, 2017, subject to stockholder approval)

1 General

1.1 **Purpose.** The purposes of the DPW 2017 Stock Incentive Plan (the “**Plan**”) is to promote the interests of DPW (the “**Company**”) and the stockholders of the Company by providing (i) executive officers and other employees of the Company and its Subsidiaries (as defined below), (ii) certain advisors who perform services for the Company and its Subsidiaries and (iii) non-employee members of the Board of Directors of the Company (the “**Board**”) with appropriate incentives and rewards to encourage them to enter into and continue in the employ and service of the Company and to acquire a proprietary interest in the long-term success of the Company, as well as to reward the performance of these individuals in fulfilling their personal responsibilities for long-range and annual achievements.

1.2 **Effective Date and Term.** The Plan will become effective upon the date it is approved by the stockholders of the Company (the “**Effective Date**”). Unless terminated earlier by the Committee, the Plan will expire on the tenth (10) anniversary of the Effective Date.

1.3 **Definitions.** Capitalized terms in the Plan, unless defined elsewhere in the Plan, shall be defined as set forth below:

162(m) Term. The term “162(m) Term” means the period starting on the date when the Company’s stockholders first approve this Plan and ending on the date of the first meeting of the Company’s stockholders that occurs in the fifth year following the year in which the Company’s stockholders first approve this Plan.

1934 Act. The term “1934 Act” shall mean the Securities Exchange Act of 1934, as amended, including the rules and regulations promulgated thereunder and any successor thereto.

Affiliated Company. The term “Affiliated Company” means any company, partnership, association, organization or other entity controlled by, controlling or under common control with the Company.

Award. The term “Award” means any award or benefit granted under the Plan, including, without limitation, Options, SARs, Restricted Stock, Restricted Stock Units and Other Stock-Based Awards.

Award Agreement. The term “Award Agreement” means a written or electronic Award grant agreement under the Plan.

Change of Control. The term “Change of Control” shall be deemed to occur if and when:

(i) any person, including a “person” as such term is used in Section 14(d)(2) of the 1934 Act (a “**Person**”), is or becomes a beneficial owner (as such term is defined in Rule 13d-3 under the 1934 Act), directly or indirectly, of securities of the Company representing 50% or more of the combined voting power of the Company’s then outstanding securities;

(ii) individuals who, as of the Effective Date, constitute the Board (the “**Incumbent Board**”) cease for any reason to constitute at least a majority of the Board; provided, however, that any individual becoming a director subsequent to the Effective Date whose election, or nomination for election by the Company’s stockholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board, but excluding for this purpose any such individual whose initial assumption of office occurs as a result of either an actual or threatened election contest (as such terms are used in Rule 14a-11 of Regulation 14A promulgated under the 1934 Act) or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board;

(iii) all or substantially all of the assets of the Company are sold, transferred or distributed, or the Company is dissolved or liquidated; or

(iv) a reorganization, merger, consolidation or other corporate transaction involving the Company (a “**Transaction**”) is consummated, in each case, with respect to which the stockholders of the Company immediately prior to such Transaction do not, immediately after the Transaction, own more than 50% of the combined voting power of the Company or other corporation resulting from such Transaction in substantially the same respective proportions as such stockholders’ ownership of the voting power of the Company immediately before such Transaction.

Notwithstanding the foregoing or any other provision of this Plan, the term Change of Control shall not include a sale of assets, merger or other transaction effected exclusively for the purpose of changing the domicile of the Company. For the avoidance of doubt, solely with respect to any Award that constitutes “deferred compensation” subject to Section 409A of the Code and that is payable on account of a Change of Control (including any installments or stream of payments that are accelerated on account of a Change of Control), a Change of Control shall occur only if such event also constitutes a “change in the ownership”, “change in effective control”, and/or a “change in the ownership of a substantial portion of assets” of the Company as those terms are defined under Treasury Regulation §1.409A-3(i)(5), but only to the extent necessary to establish a time or form of payment that complies with Section 409A of the Code, without altering the definition of Change of Control for purposes of determining whether a Grantee's rights to such Award become vested or otherwise unconditional upon the Change in Control.

Code. The term “Code” means the Internal Revenue Code of 1986, as amended. A reference to any provision of the Code shall include reference to any successor provision of the Code.

Committee. The term “Committee” means the committee of the Board described in Section 2 hereof and any sub-committee established by such Committee pursuant to Section 2.4.

Covered Employee. The term “Covered Employee” means an Employee who is, or who is anticipated to become, between the time of grant and payment of the Award, a “covered employee,” as such term is defined in Section 162(m)(3) of the Code (or any successor section thereof).

Disability. The term “Disability” means “Disability” as defined in any Award Agreement to which the Grantee is a party.

Eligible Grantee. The term “Eligible Grantee” shall mean any Employee, Non-Employee Director or Key Advisor, as determined by the Committee in its sole discretion.

Employee. The term “Employee” means an active employee of the Company or a Subsidiary, but excluding any person who is classified by the Company or a Subsidiary as a “contractor” or “consultant,” no matter how characterized by the Internal Revenue Service, other governmental agency or a court, or any employee who is not actively employed, as determined by the Committee. Any change of characterization of an individual by the Internal Revenue Service or any court or government agency shall have no effect upon the classification of an individual as an Employee for purposes of this Plan, unless the Committee determines otherwise.

Fair Market Value. For purposes of determining the “Fair Market Value” of a share of Stock as of any date, the “Fair Market Value” as of that date shall be, unless otherwise determined by the Committee, the closing sale price during regular trading hours of the Stock on the date on the principal securities market in which shares of Stock is then traded; or, if there were no trades on that date, the closing sale price during regular trading hours of the Stock on the first trading day prior to that date. If the Stock is not publicly traded at the time a determination of Fair Market Value is required to be made hereunder, the determination of such amount shall be made by the Committee in such manner as it deems appropriate.

Grantee. The term “Grantee” means an Employee, Non-Employee Director or Key Advisor of the Company or a Subsidiary who has been granted an Award under the Plan.

ISO. The term “ISO” means any Option intended to be and designated as an incentive stock option within the meaning of Section 422 of the Code.

Key Advisor. The term “Key Advisor” means a consultant or other key advisor who performs services for the Company or a Subsidiary.

Non-Employee Director. The term “Non-Employee Director” means a member of the Board who is not an Employee.

NQSO. The term “NQSO” means any Option that is not designated as an ISO, or which is designated by the Committee as an ISO but which subsequently fails or ceases to qualify as an ISO.

Option. The term “Option” means a right, granted to an Eligible Grantee under Section 4.2(i), to purchase shares of Stock. An Option may be either an ISO or an NQSO.

Other Stock-Based Award. The term “Other Stock-Based Award” means a right or other interest granted to an Eligible Grantee under Section 4.2(v) of the Plan that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, Stock, including but not limited to (i) unrestricted Stock awarded as a bonus or upon the attainment of Performance Goals or otherwise as permitted under the Plan, and (ii) a right granted to an Eligible Grantee to acquire Stock from the Company containing terms and conditions prescribed by the Committee.

Performance Goals. The term “Performance Goals” means performance goals based on the attainment on an absolute or relative basis by the Company or any Subsidiary of the Company or any Affiliated Company (or any division or business unit of any such entity), or any two or more of the foregoing, of performance goals pre-established by the Committee in its sole discretion, based on one or more of the following criteria (if applicable, any performance criteria that are financial metrics, may be determined in accordance with United States Generally Accepted Accounting Principles (“GAAP”) or may be adjusted when established to include or exclude any items otherwise includable or excludable under GAAP): (i) the attainment of certain target levels of, or a specified percentage increase in, revenues, earnings, income before taxes and extraordinary items, net income, operating income, earnings before or after deduction for all or any portion of income tax, earnings before interest, taxes, depreciation and amortization or a combination of any or all of the foregoing; (ii) the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax profits including, without limitation, that attributable to continuing and/or other operations; (iii) the attainment of certain target levels of, or a specified increase in, operational cash flow; (iv) the achievement of a certain level of, reduction of, or other specified objectives with regard to limiting the level of increase in, all or a portion of, the Company’s bank debt or other long-term or short-term public or private debt or other similar financial obligations of the Company, which may be calculated net of such cash balances and/or other offsets and adjustments as may be established by the Committee; (v) earnings per share or the attainment of a specified percentage increase in earnings per share or earnings per share from continuing operations; (vi) the attainment of certain target levels of, or a specified increase in return on capital employed or return on invested capital; (vii) the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax return on stockholders’ equity; (viii) the attainment of certain target levels of, or a specified increase in, economic value added targets based on a cash flow return on investment formula; (ix) the attainment of certain target levels in, or specified increases in, the fair market value of the shares of the Company’s common stock; (x) the growth in the value of an investment in the Company’s common stock; (xi) the attainment of a certain level of, reduction of, or other specified objectives with regard to limiting the level in or increase in, all or a portion of controllable expenses or costs or other expenses or costs; (xii) gross or net sales, revenue and growth of sales revenue (either before or after cost of goods, selling and general administrative expenses, research and development expenses and any other expenses or interest); (xiii) total stockholder return; (xiv) return on assets or net assets; (xv) return on sales; (xvi) operating profit or net operating profit; (xvii) operating margin; (xviii) gross or net profit margin; (xix) cost reductions or savings; (xx) productivity; (xxi) operating efficiency; (xxii) working capital; (xxiii) market share; (xxiv) customer satisfaction; and (xxv) to the extent that an Award is not intended to comply with Section 162(m) of the Code, other measures of performance selected by the Board. Any of the above Performance Goals may be compared to the performance of a selected group of comparison companies, or a published or special index that the Committee, in its sole discretion, deems appropriate, or as compared to various stock market indices. Subject to the limitations in Section 4.2, the Committee in its sole discretion may designate additional business criteria on which the Performance Goals may be based or adjust, or modify or amend the aforementioned business criteria. The relative weights of the criteria that comprise the Performance Goals shall be determined by the Committee in its sole discretion. In establishing the Performance Goals for a performance period, the Committee may establish different Performance Goals for individual Grantees or groups of Grantees. Subject to the limitations in Section 4.2(ix)(d), the Committee in its sole discretion shall have the authority to make equitable adjustments to the Performance Goals in recognition of unusual or non-recurring events affecting the Company or any Subsidiary of the Company or any Affiliated Company or the financial statements of the Company or any Subsidiary of the Company or any Affiliated Company, in response to changes in applicable laws or regulations, including changes in generally accepted accounting principles or practices, or to account for items of gain, loss or expense determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business, as applicable. Performance Goals may include a threshold level of performance below which no Award will be earned, a level of performance at which the target amount of an Award will be earned and a level of performance at which the maximum amount of the Award will be earned.

Restricted Stock. The term “Restricted Stock” means an Award of shares of Stock to an Eligible Grantee under Section 4.2(iii) that may be subject to certain restrictions and to a risk of forfeiture. Stock issued upon the exercise of Options or SARs is not “Restricted Stock” for purposes of the plan, even if subject to post-issuance transfer restrictions or forfeiture conditions. When Restricted Stock vests, it ceases to be “Restricted Stock” for purposes of the Plan.

Restricted Stock Unit. The term “Restricted Stock Unit” means a right granted to an Eligible Grantee under Section 4.2(iv) to receive Stock or cash at the end of a specified deferral period, which right may be conditioned on the satisfaction of specified performance or other criteria.

Rule 16b-3. The term “Rule 16b-3” means Rule 16b-3, as from time to time in effect promulgated by the Securities and Exchange Commission under Section 16 of the 1934 Act, including any successor to such Rule.

Stock. The term “Stock” means shares of the common stock, par value \$0.001 per share, of the Company.

Stock Appreciation Right or SAR. The term “Stock Appreciation Right” or “SAR” means the right, granted to an Eligible Grantee under Section 4.2(ii), to be paid an amount measured by the appreciation in the Fair Market Value of Stock from the date of grant to the date of exercise of the right.

Subsidiary. The term “Subsidiary” means any present or future subsidiary corporation of the Company within the meaning of Section 424(f) of the Code, and any present or future business venture designated by the Committee in which the Company has a significant interest, including, without limitation, any subsidiary corporation in which the Company has at least a 50% ownership interest, as determined in the discretion of the Committee.

Substitute Award. The term “Substitute Award” means an Award granted or Stock issued by the Company in assumption of, or in substitution or exchange for, an award previously granted, or the right or obligation to make a future award, in all cases by a company acquired by the Company or any Subsidiary of the Company or with which the Company or a Subsidiary combines.

2 Administration

2.1 **Committee.** The authority to manage the operation of and administer the Plan shall be vested in a committee (the “**Committee**”) in accordance with this Section 2. The Committee shall be selected by the Board, and shall consist solely of two or more members of the Board who are non-employee directors within the meaning of Rule 16b-3 and are outside directors within the meaning of Code Section 162(m). Unless otherwise determined by the Board, the Company’s Compensation Committee shall be designated as the “**Committee**” hereunder.

2.2 **Powers of the Committee.** The Committee’s administration of the Plan shall be subject to the following:

(i) Subject to the provisions of the Plan, the Committee will have the authority and discretion to select from among the Eligible Grantees those persons who shall receive Awards, to determine the time or times of receipt, to determine the types of Awards and the number of shares covered by the Awards, and to establish the terms, conditions, performance criteria, restrictions, and other provisions of such Awards;

(ii) The Committee will have the authority and discretion to interpret the Plan, to establish, amend, and rescind any rules and regulations relating to the Plan, to determine the terms and provisions of any Award Agreement made pursuant to the Plan, and to make all other determinations that may be necessary or advisable for the administration of the Plan;

(iii) Any interpretation of the Plan by the Committee and any decision made by it under the Plan is final and binding on all persons; and

(iv) In managing the operation of and administering the Plan, the Committee shall take action in a manner that conforms to the articles of incorporation and by-laws of the Company, and applicable state corporate law.

2.3 **Prohibition Against Repricing.** Other than pursuant to Section 3.3, the Committee shall not, without the approval of the Company’s stockholders, (a) lower the option price per share of an Option or SAR after it is granted, (b) cancel an Option or SAR when the exercise price per Share exceeds the Fair Market Value of one share in exchange for cash or another Award (other than in connection with a Change in Control), or (c) take any other action with respect to an Option or SAR that would be treated as a repricing under the rules and regulations of the principal U.S. national securities exchange on which the Company’s shares are then listed.

2.4 **Delegation of Authority.** To the extent not inconsistent with applicable law, the rules of any national securities exchange that may in the future apply to the Company, or other provisions of the Plan, the Committee may, at any time, allocate all or any portion of its responsibilities and powers to any one or more of its members or, with respect to Awards made to Employees other than executive officers, the Chief Executive Officer, including without limitation,

the power to designate Grantees hereunder and determine the amount, timing and terms of Awards hereunder. Any such allocation or delegation may be revoked by the Committee at any time.

2.5 Indemnification. Each person who is or shall have been a member of the Committee, or the Board, shall be indemnified and held harmless by the Company against and from any loss, cost, liability or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action taken in good faith or failure to act in good faith under the Plan and against and from any and all amounts paid by him or her in settlement thereof, with the Company's approval, or paid by him or her in satisfaction of any judgment in any such action, suit or proceeding against him or her, provided he or she shall give the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall be in addition to any other rights of indemnification or elimination of liability to which such persons may be entitled under the Company's articles of incorporation or by-laws, as a matter of law, or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

2.6 Minimum Vesting Requirement for Full-Value Awards. Notwithstanding anything to the contrary, Grantees of full-value Awards (i.e., Awards other than Options and SARs), will be required to continue to provide services to the Company (or an Affiliated Company) for not less than one-year following the date of grant in order for any such full-value Awards to fully or partially vest (other than in case of death, Disability or a Change of Control). Notwithstanding the foregoing, up to five percent (5%) of the available shares of Stock authorized for issuance under the Plan pursuant to Section 3.1 may provide for vesting of full-value Awards, partially or in full, in less than one-year.

3 Available Shares of Stock under the Plan

3.1 Shares Available for Awards. Subject to the adjustments described in Section 3 herein, the maximum number of shares of Stock reserved for the grant of Awards under the Plan shall be 2,000,000. Any shares of Stock that are subject to Options or SARs shall be counted against this limit as one (1) share for every one (1) share granted, and any shares of Stock that are subject to Awards other than Options or SARs shall be counted against this limit as 1.25 shares for every one (1) share granted.

3.2 Forfeited, Cancelled and Expired Awards. Awards granted under the Plan that are forfeited, expire or are canceled or settled without issuance of Stock shall not count against the maximum number of shares that may be issued under the Plan as set forth in Section 3.1 and shall be available for future Awards under the Plan. Any Stock that again becomes available for Awards under the Plan pursuant to this Section 3.2 shall be added as (i) one (1) share for every one (1) share subject to Options or SARs granted under the Plan or options, and (ii) as 1.25 shares for every one (1) share subject to Awards other than Options or Stock Appreciation Rights granted under the Plan.

3.3 Prohibition on Share Recycling. Notwithstanding anything to the contrary, any and all Stock that is (i) withheld or tendered in payment of an Option exercise price; (ii) withheld by the Company or tendered by the Grantee to satisfy any tax withholding obligation with respect to any Award; (iii) covered by a SAR (to the extent that it is settled in Stock, without regard to the number of shares of Stock that are actually issued to the Grantee upon exercise); (iv) reacquired by the Company on the open market or otherwise using cash proceeds from the exercise of Options, shall not be added to the maximum number of shares of Stock that may be issued under the Plan as set forth in Section 3.1.

3.4 Adjustments. In the event of any change in the Company's capital structure, including but not limited to a change in the number of shares of Stock outstanding, on account of (i) any stock dividend, stock split, reverse stock split or any similar equity restructuring, or (ii) any combination or exchange of equity securities, merger, consolidation, recapitalization, reorganization, or divestiture or any other similar event affecting the Company's capital structure, to reflect such change in the Company's capital structure, the Committee shall make appropriate equitable adjustments to (a) the maximum number of shares of Stock that may be issued under the Plan as set forth in Section 3.1, (b) the number of shares of Stock issuable upon outstanding Awards, and (c) any individual Award limitations or restrictions, as applicable. In the event of any extraordinary dividend, divestiture or other distribution (other than ordinary cash dividends) of assets to stockholders, or any transaction or event described above, to the extent necessary to prevent the enlargement or diminution of the rights of Grantees, the Committee shall make appropriate equitable adjustments to the number or kind of shares subject to an outstanding Award, the exercise price applicable to an outstanding Award, and/or a Performance Goals. Any adjustments under this Section 3.3 shall be consistent with Section 409A or Section 424 of the Code, to the extent applicable, and made in a manner that does not adversely affect the exemption provided pursuant to Rule 16b-3 or qualification under Section 162(m) of the Code, to the extent each may be applicable. The Company shall give each Grantee notice of an adjustment to an Award hereunder and, upon notice, such adjustment shall be final, binding and conclusive for all purposes. Notwithstanding the foregoing, the Committee shall decline to adjust any Award made to a Grantee if such adjustment would violate applicable law.

3.5 Fractional Shares. The Company shall not be obligated to issue any fractional shares of Stock in settlement of Awards granted under the Plan. Except as otherwise provided in an Award Agreement or determined by the Committee, (i) the total number of shares issuable pursuant to the exercise, vesting or earning of an Award shall be rounded down to the nearest whole share, and (ii) no fractional shares shall be issued. The Committee may, in its discretion, determine that a fractional share shall be settled in cash.

3.6 Substitute Awards; Plans of Acquired Companies. Substitute Awards shall not count against the maximum number of shares that may be issued under the Plan as set forth in Section 3.1. In addition, shares of Stock issued in connection with awards that are assumed, converted or substituted as a result of the acquisition of another company by the Company or any Subsidiary of the Company (including by way of merger, combination or similar transaction) will not count against the number of shares of Stock that may be issued under the Plan. Available shares under a stockholder-approved plan of an acquired company (as appropriately adjusted to reflect the transaction) may be used for Awards under the Plan and do not reduce the maximum number of shares available for grant under the Plan, subject to applicable stock exchange requirements.

4 Awards

4.1 General. The term of each Award shall be for such period as may be determined by the Committee, subject to the limitations set forth below. Subject to the terms of the Plan and any applicable Award Agreement, payments to be made by the Company or any Subsidiary of the Company upon the grant, maturation, or exercise of an Award may be made in such forms as the Committee shall determine at the date of grant or thereafter, including, without limitation, cash, Stock, or other property. In addition to the foregoing, the Committee may impose on any Award or the exercise thereof, at the date of grant, such additional terms and conditions not inconsistent with the provisions of the Plan, including, but not limited to forfeiture and clawback provisions, as the Committee shall determine; provided, however, that any such terms and conditions shall not be inconsistent with Section 409A of the Code.

4.2 Types of Awards. The Committee is authorized to grant the Awards described in this Section 4.2, under such terms and conditions as deemed by the Committee to be consistent with the purposes of the Plan. Such Awards may be granted with value and payment contingent upon Performance Goals. Each Award shall be evidenced by an Award Agreement containing such terms and conditions applicable to such Award as the Committee shall determine.

(i) *Options*. The Committee is authorized to grant Options to Grantees on the following terms and conditions:

Type of Award. The Award Agreement evidencing an Option shall designate the Option as either an ISO or an NQSO, as determined in the discretion of the Committee. At the time of the grant of Options, the Committee may

a. place restrictions on the exercisability or vesting of Options that shall lapse, in whole or in part, upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year.

Exercise Price. The exercise price of each Option granted under this Section 4.2 shall be established by the Committee or shall be determined by a method established by the Committee at the time the Option is granted; provided, however, that the exercise price shall not be less than 100% of the Fair Market Value of a share of Stock

b. on the date of grant of the Award. Notwithstanding the foregoing, the exercise price of any Substitute Awards may be issued at any such price as the Committee determines necessary in order to preserve for such newly Eligible Grantee the economic value of all or a portion of such acquired entity award. No dividends or dividend equivalents will be paid on shares of Stock subject to an Option.

Exercise. Upon satisfaction of the applicable conditions relating to vesting and exercisability, as determined by the Committee and set forth in the Award Agreement, and upon provision for the payment in full of the exercise price and applicable taxes due, the Grantee shall be entitled to exercise the Option and receive the number of shares of Stock issuable in connection with the Option exercise provided, however, that no Option may be exercised more than ten years after its grant date. Except as set forth in Section 4.3, no NQSO granted hereunder may be exercised

c. after the earlier of (A) the expiration of the NQSO or (B) unless otherwise provided by the Committee in an Award Agreement, ninety days after the severance of an NQSO holder's employment or service with the Company or any Subsidiary. The shares issued in connection with the Option exercise may be subject to such conditions and restrictions as the Committee may determine, from time to time. An Option may be exercised by any method as may be permitted by the Committee from time to time, including but not limited to any "net exercise" or other "cashless" exercise method.

d. Restrictions Relating to ISOs. In addition to being subject to the terms and conditions of this Section 4.2(i), ISOs shall comply with all other requirements under Section 422 of the Code. Accordingly, ISOs may be granted only to Eligible Grantees who are employees (as described in Treasury Regulation Section 1.421-7(h)) of the Company or of any "Parent Corporation" (as defined in Code Section 424(e)) or of any "Subsidiary Corporation" (as defined in Code Section 424(f)) on the date of grant. The aggregate Fair Market Value (determined as of the time the ISO is granted) of the Stock with respect to which ISOs (under all option plans of the Company and of any Parent Corporation and of any Subsidiary Corporation) are exercisable for the first time by an Eligible Grantee during any calendar year shall not exceed \$100,000. ISOs shall not be transferable by the Eligible Grantee otherwise than by will or the laws of descent and distribution and shall be exercisable, during the Eligible Grantee's lifetime, only by such Eligible Grantee. The Committee shall not grant ISOs to any Employee who, at the time the ISO is granted, owns stock possessing (after the application of the attribution rules of Section 424(d) of the Code) more than ten percent (10%) of the total combined voting stock of the Company or of any Parent Corporation or of any Subsidiary Corporation, unless the exercise price of the ISO is fixed at not less than one hundred and ten percent (110%) of the Fair Market Value of a share of Common Stock on the date of grant and the exercise of such ISO is prohibited by its terms after the fifth (5th) anniversary of the ISO's date of grant. In addition, no ISO shall be issued to an Eligible Grantee in tandem with a NQSO issued to such Eligible Grantee in accordance with Treasury

Regulation Section 14a.422A-1, Q/A-39.

(ii) *SARs*. The Committee is authorized to grant SARs to Grantees on the following terms and conditions:

In General. SARs may be granted independently or in tandem with an Option at the time of grant of the related Option. An SAR granted in tandem with an Option shall be exercisable only to the extent the underlying Option is exercisable. Payment of an SAR may be made in cash, Stock, or a combination of the foregoing, as specified in the Award Agreement or determined in the sole discretion of the Committee. At the time of the grant of SARs, the Committee may place restrictions on the exercisability or vesting of SARs that shall lapse, in whole or in part, upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year.

Term and Exercisability of SARs. SARs shall be exercisable over the exercise period at such times and upon such conditions as the Committee may determine, as reflected in the Award Agreement; provided, however, that no SAR may be exercised more than ten years after its grant date. Except as set forth in Section 4.3, no SAR granted hereunder may be exercised after the earlier of (A) the expiration of the SAR or (B) unless otherwise provided by the Committee in an Award Agreement, ninety days after the severance of an SAR holder's employment or service with the Company or any Subsidiary.

Payment. An SAR shall confer on the Grantee a right to receive an amount with respect to each share of Stock subject thereto, upon exercise thereof, equal to the excess of (A) the Fair Market Value of one share of Stock on the date of exercise over (B) the grant price of the SAR (which in the case of an SAR granted in tandem with an Option shall be equal to the exercise price of the underlying Option, and which in the case of any other SAR shall be such price as the Committee may determine but in no event shall be less than the Fair Market Value of a share of Stock on the date of grant of such SAR). An SAR may be exercised by giving written notice of such exercise to the Committee or its designated agent. No dividends or dividend equivalents will be paid on shares of Stock subject to an SAR.

(iii) *Restricted Stock.* The Committee is authorized to grant Restricted Stock to Grantees on the following terms and conditions:

Issuance and Restrictions. Restricted Stock shall be subject to such restrictions on transferability and other restrictions, if any, as the Committee may impose at the date of grant, which restrictions may lapse separately or in combination at such times, under such circumstances, in such installments, or otherwise, as the Committee may determine. The Committee may place restrictions on Restricted Stock that shall lapse, in whole or in part, upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year. Except to the extent restricted under the Award Agreement relating to the Restricted Stock, a Grantee granted Restricted Stock shall have all of the rights of a stockholder including, without limitation, the right to vote Restricted Stock and the right to receive dividends thereon.

Certificates for Stock. Restricted Stock granted under the Plan may be evidenced in such manner as the Committee shall determine. If certificates representing Restricted Stock are registered in the name of the Grantee, such certificates shall bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Restricted Stock, and the Company may retain physical possession of the certificate.

Dividends. Except to the extent restricted under the applicable Award Agreement, cash dividends paid on Restricted Stock shall be paid at the dividend payment date subject to no restriction. Unless otherwise determined by the Committee, Stock distributed in connection with a stock split or stock dividend shall be subject to the transfer restrictions, forfeiture risks and vesting conditions to the same extent as the Restricted Stock with respect to which such Stock or other property has been distributed. Notwithstanding the foregoing, the Committee may not provide for the current payment of dividends for Restricted Stock subject to Performance Goals; for such Awards, dividends may accrue but shall not be payable unless and until the Award vests upon satisfaction of the applicable Performance Goals and all other applicable conditions to vesting.

(iv) *Restricted Stock Units.* The Committee is authorized to grant Restricted Stock Units to Grantees, subject to the following terms and conditions:

Conditions to Vesting. At the time of the grant of Restricted Stock Units, the Committee may place restrictions on Restricted Stock Units that shall lapse, in whole or in part, upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year.

Benefit upon Vesting. Unless otherwise provided in an Award Agreement, upon the vesting of a Restricted Stock Unit, there shall be delivered to the Grantee, within 30 days of the date on which such Award (or any portion thereof) vests, the number of shares of Stock equal to the number of Restricted Stock Units becoming so vested.

Dividend Equivalents. To the extent provided in an Award Agreement, subject to the requirements of Section 409A of the Code, an Award of Restricted Stock Units may provide the Grantee with the right to receive dividend equivalent payments with respect to Stock subject to the Award (both before and after the Stock subject to the Award is earned, vested, or acquired), which payments may be either made currently or credited to an account for

the Grantee, and may be settled in cash or Stock, as determined by the Committee. Any such settlements and any such crediting of dividend equivalents may, at the time of grant of the Restricted Stock Unit, be made subject to the transfer restrictions, forfeiture risks, vesting and conditions of the Restricted Stock Units and subject to such other conditions, restrictions and contingencies as the Committee shall establish at the time of grant of the Restricted Stock Unit, including the reinvestment of such credited amounts in Stock equivalents, provided that all such conditions, restrictions and contingencies shall comply with the requirements of Section 409A of the Code. Notwithstanding the foregoing in this Section 4.2(iv)(c), dividend equivalents may accrue on unearned Restricted Stock Units subject to Performance Goals but shall not be payable unless and until the applicable Performance Goals are met and certified.

Other Stock-Based Awards. The Committee is authorized to grant Awards to Grantees in the form of Other Stock-Based Awards, as deemed by the Committee to be consistent with the purposes of the Plan. At the time of the grant of Other Stock-Based Awards, the Committee may place restrictions on the payout or vesting of Other (v) Stock-Based Awards that shall lapse, in whole or in part, upon the attainment of Performance Goals; provided that such Performance Goals shall relate to periods of performance of at least one fiscal year. The Committee shall determine the terms and conditions of such Awards at the date of grant. Other Stock-Based Awards may not be granted with the right to receive dividend equivalent payments.

Settlement of Options and SARs. Shares of Stock delivered pursuant to the exercise of an Option or SAR shall be subject to such conditions, restrictions and contingencies as the Committee may establish in the applicable Award Agreement. Settlement of SARs may be made in shares of Stock (valued at their Fair Market Value at the time of (vi) exercise), in cash, or in a combination thereof, as determined in the discretion of the Committee and set forth in the Award Agreement. The Committee, in its discretion, may impose such conditions, restrictions and contingencies with respect to shares of Stock acquired pursuant to the exercise of an Option or an SAR as the Committee determines to be desirable.

Vesting; Additional Terms. Subject to Section 2.6 and except as provided in Section 4.3, other than Options, SARs, Restricted Stock, Restricted Stock Units or Other Stock-Based Awards conditioned upon the attainment (vii) of Performance Goals that relate to performance periods of at least one fiscal year, Options, SARs, Restricted Stock, Restricted Stock Units or Other Stock-Based Awards granted hereunder shall vest as determined by the Committee and set forth in the Award Agreement. The term of any Award granted under the Plan will not exceed ten years from the date of grant.

(viii) *Qualified Performance-Based Compensation.*

The Committee may determine that Restricted Stock, Restricted Stock Units or Other Stock-Based Awards granted to a Covered Employee shall be considered “qualified performance-based compensation” under section 162(m) of the Code, in which case the provisions of this Section 4.2(ix) shall apply. As required pursuant to Section 162(m) of the Code and the regulations promulgated thereunder, the Committee’s authority to grant new awards that are intended to qualify as performance-based compensation within the meaning of Section 162(m) of the Code (other than qualifying Options and qualifying SARs) shall terminate upon the first meeting of the Company’s stockholders that occurs in the fifth year following the year in which the Company’s stockholders first approve this Plan.

When Awards are made under this Section 4.2(ix), the Committee shall establish in writing (i) the objective Performance Goals that must be met, (ii) the period during which performance will be measured, (iii) the maximum amounts that may be paid if the Performance Goals are met, and (iv) any other conditions that the Committee deems appropriate and consistent with the requirements of Section 162(m) of the Code for “qualified performance-based compensation.” The Performance Goals shall satisfy the requirements for “qualified performance-based compensation,” including the requirement that the achievement of the goals be substantially uncertain at the time they are established and that the Performance Goals be established in such a way that a third party with knowledge of the relevant facts could determine whether and to what extent the Performance Goals have been met. The Committee shall not have discretion to increase the amount of compensation that is payable, but may reduce the amount of compensation that is payable, pursuant to Awards identified by the Committee as “qualified performance-based compensation.”

c. Performance Goals must be pre-established by the Committee. A Performance Goal is considered pre-established if it is established in writing not later than 90 days after the commencement of the period of service to which the Performance Goal relates, provided that the outcome is substantially uncertain at the time the Committee actually established the goal. However, in no event will a Performance Goal be considered pre-established if it is established

after 25% of the period of service (as scheduled in good faith at the time the goal is established) has elapsed.

The Committee in its sole discretion shall have the authority to make equitable adjustments to the Performance Goals in recognition of unusual or non-recurring events affecting the Company or any Subsidiary of the Company or any Affiliated Company or the financial statements of the Company or any Subsidiary of the Company or any Affiliated Company, for the following items: (1) asset write-downs; (2) litigation or claim judgments or settlements; (3) the effect of changes in tax laws, accounting principles, regulations, or other laws or regulations affecting reported results; (4) any reorganization and restructuring programs, including discontinued operations; (5) acquisitions or divestitures; (6) unusual nonrecurring or extraordinary items identified in the Company's audited financial statements, including footnotes; (7) any reorganization or change in the corporate or capital structures of the Company; (8) foreign exchange gains and losses; (9) business interruption events; (10) annual incentive payments or other bonuses; or (11) capital charges, provided such adjustment occurs in writing not later than 90 days after the commencement of the period of service to which the Performance Goal relates (and in no event later than the date that 25% of the period of service has elapsed). In addition, the Committee may specify that certain equitable adjustments to the Performance Goals will be made during the applicable Performance Period, provided such specification occurs in writing not later than 90 days after the commencement of the period of service to which the Performance Goal relates (and in no event later than the date that 25% of the period of service has elapsed).

The Committee shall certify the performance results for the performance period specified in the Award Agreement after the performance period ends. The Committee shall determine the amount, if any, to be paid pursuant to each Award based on the achievement of the Performance Goals and the satisfaction of all other terms of the Award Agreement. Subject to adjustment as provided in Section 3.4, the following limits will apply to Awards of the specified type granted to any one Grantee in any single fiscal year:

i. Appreciation Awards – Options and SARs: 750,000 shares; and

ii. Full Value Awards – Awards (other than Options and SARs) that are denominated in Shares: 500,000 shares.

In applying the foregoing limits, (a) all Awards of the specified type granted to the same Grantee in the same fiscal year will be aggregated and made subject to one limit; (b) the limits applicable to Options and SARs refer to the number of shares of Stock subject to those Awards; (c) the share limit under clause (y) refers to the maximum number of shares of Stock that may be delivered under an Award or Awards of the type specified in clause (y) assuming a maximum payout; (d) the dollar limit under clause (z) refers to the maximum dollar amount payable under an Award or Awards of the type specified in clause (z) assuming a maximum payout, (e) the respective limits for Awards of the type specified in clause (y) and clause (z) are only applicable to Awards that are intended to comply with the performance-based exception under Code Section 162(m), and (f) each of the specified limits in clauses (x), (y) and (z) is multiplied by two (2) for Awards granted to a Grantee in the year employment commences.

The Committee may provide in the Award Agreement that Awards under this Section 4.2(ix) shall be payable, in whole or in part, in the event of the Grantee's death or Disability, or under other circumstances consistent with the Treasury regulations and rulings under Section 162(m) of the Code.

Automatic Extended Exercisability in Certain Cases. Notwithstanding the foregoing provisions of this Section, if the date an Award would otherwise terminate is a date that the Grantee is prohibited from exercising the Award under the Company's insider trading policy or such other conditions under applicable securities laws as the Committee shall specify, the term of the Award shall be extended to the second business day after the Grantee is no longer so prohibited from exercising the Award, but in no event shall the Award be extended beyond the original stated term of the Award.

4.3 Change of Control of the Company.

(i) The Committee may, at the time an Award is made or at any time prior to, coincident with or after the time of a Change of Control:

provide for the cancellation of any Awards then outstanding if the surviving entity or acquiring entity (or the surviving or acquiring entity's parent company) in the Change of Control replaces the Awards with new rights of substantially equivalent value, as determined by the Committee. For an Award to be validly assumed by a successor for purpose of this Section 4.3(b), it must (x) provide such Grantee with rights and entitlements substantially equivalent to or better than the rights, terms and conditions applicable under such Award, including, but not limited to, an identical or better exercise or vesting schedules; (y) have substantially equivalent value to such Award (determined at the time of the Change in Control); and (z) be based on stock that is traded on an established U.S. securities market or an established securities market outside the United States upon which the Grantees could readily trade the stock without administrative burdens or complexities. In the event of any ambiguity or discrepancy, the determination of the Committee shall be final and binding;

b. provide that upon an involuntary termination of a Grantee's employment as a result of a Change of Control, any time periods shall accelerate, and any other conditions relating to the vesting, exercise, payment or distribution of

an Award shall be waived; or

provide that Awards shall be purchased for an amount of cash equal to the amount that could have been obtained for the shares covered by a Restricted Stock Award if it had been vested and or by an Option or SAR if it had been exercised at the time of the Change of Control, provided however that Awards outstanding as of the date of the Change in Control may be cancelled and terminated without payment if the consideration payable with respect to one share of Stock in connection with the Change in Control is less than the exercise price or grant price applicable to such Award, as applicable.

Notwithstanding any other provisions of the Plan or an Award Agreement to the contrary, the vesting, payment, purchase or distribution of an Award may not be accelerated by reason of a Change of Control for any Grantee (ii) unless the Grantee's employment is involuntarily terminated as a result of the Change of Control as provided in the Award Agreement or in any other written agreement, including an employment agreement, between us and the Grantee.

4.4 **Limitation on Award Grants to Non-Employee Directors.** The maximum number of shares of Stock subject to Awards granted during a single fiscal year to any non-employee director, taken together with any cash fees paid to such non-employee director during the fiscal year, shall not exceed \$350,000 in total value (calculating the value of any such Awards based on the grant date fair value of such Awards for financial reporting purposes); *provided*, that the Board may make exceptions to this limit for individual non-employee directors in extraordinary circumstances as the Board may determine in its sole discretion, so long as (x) the aggregate limit does not exceed \$500,000 in total value during a fiscal year and (y) the non-employee director receiving such additional compensation does not participate in the decision to award such compensation or in other contemporaneous compensation decisions involving non-employee directors.

5 Operation

5.1 **Duration.** Grants may be made under the Plan through _____, 2026. In the event of Plan termination while Awards remain outstanding, the Plan shall remain in effect as long as any Awards under it are outstanding, although no further grants may be made following Plan termination.

5.2 **Uncertificated Stock.** Nothing contained in the Plan shall prohibit the issuance of Stock on an uncertificated basis, to the extent allowed by the Company's Articles of Incorporation and Bylaws, by applicable law and by the applicable rules of any stock exchange.

5.3 **Tax Withholding.** All distributions under the Plan are subject to withholding of all applicable taxes, and the Committee may condition the delivery of any shares or other benefits under the Plan on satisfaction of the applicable withholding obligations. The Committee, in its discretion, and subject to such requirements as the Committee may impose prior to the occurrence of such withholding, may permit such withholding obligations to be satisfied through cash payment by the Grantee, through the surrender of shares of Stock which the Grantee already owns, through withholding from other compensation payable to the Grantee or through the surrender of unrestricted shares of Stock to which the Grantee is otherwise entitled under the Plan, but only to the extent of the minimum amount required to be withheld under applicable law (or, if permitted by the Company, such other withholding rate as will not cause adverse accounting consequences and is permitted under applicable IRS withholding rules).

5.4 **Use of Shares.** Subject to the limitations on the number of shares of Stock that may be delivered under the Plan, the Committee may use available shares of Stock as the form of payment for compensation, grants or rights earned or due under any other compensation plans or arrangements of the Company or a Subsidiary, including the plans and arrangements of the Company or a Subsidiary assumed in business combinations.

5.5 **Non-transferability.** Awards granted under the Plan, and during any period of restriction on transferability, shares of Common Stock issued in connection with the exercise of an Option or a SAR, or vesting of a Restricted Stock Award may not be sold, pledged, hypothecated, assigned, margined or otherwise transferred by a Grantee in any manner other than by will or the laws of descent and distribution, unless and until the shares underlying such Award have been issued, and all restrictions applicable to such shares have lapsed or have been waived by the Committee. No Award or interest or right therein shall be subject to the debts, contracts or engagements of a Grantee or his or her successors in interest or shall be subject to disposition by transfer, alienation, anticipation, pledge, encumbrance, assignment or any other means whether such disposition be voluntary or involuntary or by operation of law, by judgment, lien, levy, attachment, garnishment or any other legal or equitable proceedings (including bankruptcy and divorce), and any attempted disposition thereof shall be null and void, of no effect, and not binding on the Company in any way. Notwithstanding the foregoing, the Committee may permit Options and/or shares issued in connection with an Option or a SAR exercise that are subject to restrictions on transferability, to be transferred one time and without payment or consideration to a member of a Grantee's immediate family or to a trust or similar vehicle for the benefit of a Grantee's immediate family members. During the lifetime of a Grantee, all rights with respect to Awards shall be

exercisable only by such Grantee or, if applicable pursuant to the preceding sentence, a permitted transferee.

5.6 Form and Time of Elections. Unless otherwise specified herein, each election required or permitted to be made by any Grantee or other person entitled to benefits under the Plan, and any permitted modification, or revocation thereof, shall be in writing filed with the Committee at such times, in such form, and subject to such restrictions and limitations, not inconsistent with the terms of the Plan, as the Committee shall require.

5.7 Agreement with Company. An Award under the Plan shall be subject to such terms and conditions, not inconsistent with the Plan, as the Committee shall, in its sole discretion, prescribe. The terms and conditions of any Award to any Grantee shall be reflected in such form of written document as is determined by the Committee. A copy of such document shall be provided to the Grantee, and the Committee may, but need not, require that the Grantee shall sign a copy of such document. Such document is referred to in the Plan as an "Award Agreement" regardless of whether any Grantee signature is required.

5.8 Gender and Number. Where the context admits, words in any gender shall include any other gender, words in the singular shall include the plural and the plural shall include the singular.

5.9 Limitation of Implied Rights.

The Plan shall at all times be unfunded and neither a Grantee nor any other person shall, by reason of participation in the Plan, acquire any right in or title to any assets, funds or property of the Company or any Subsidiary whatsoever, including, without limitation, any specific funds, assets, or other property which the Company or any Subsidiary, in its sole discretion, may set aside in anticipation of a liability under the Plan. Nothing contained in (i) the Plan and no action taken pursuant hereto shall create or be construed to create a fiduciary relationship between the Company and any Grantee or any other person. A Grantee shall have only a contractual right to the Stock or amounts, if any, payable under the Plan, unsecured by any assets of the Company or any Subsidiary, and nothing contained in the Plan shall constitute a guarantee that the assets of the Company or any Subsidiary shall be sufficient to pay any benefits to any person.

The Plan does not constitute a contract of employment or service, and selection as a Grantee will not give any participating Employee, Non-Employee Director or Key Advisor the right to be retained in the employ or service of the Company or any Subsidiary, nor any right or claim to any benefit under the Plan, unless such right or claim (ii) has specifically accrued under the terms of the Plan. Except as otherwise provided in the Plan or the Award Agreement, no Award under the Plan shall confer upon the holder thereof any rights as a stockholder of the Company prior to the date on which the individual fulfills all conditions for receipt of such rights.

5.10 Section 409A. It is intended that all Options and SARs granted under the Plan shall be exempt from the provisions of Section 409A of the Code and that all other Awards under the Plan, to the extent that they constitute “non-qualified deferred compensation” within the meaning of Section 409A of the Code, will comply with Section 409A of the Code (and any regulations and guidelines issued thereunder). The Plan and any Award Agreements issued hereunder may be amended in any respect deemed by the Board or the Committee to be necessary in order to preserve compliance with Section 409A of the Code. Notwithstanding anything in this Plan to the contrary, if required by Section 409A of the Code, if a Grantee is considered a “specified employee” for purposes of Section 409A of the Code and if payment of any Award under this Plan is required to be delayed for a period of six months after “separation from service” within the meaning of Section 409A of the Code, payment of such Award shall be delayed as required by Section 409A of the Code, and the accumulated amounts with respect to such Award shall be paid in a lump sum payment within ten days after the end of the six month period. If the Grantee dies during the postponement period prior to the payment of benefits, the amounts withheld on account of Section 409A of the Code shall be paid to the Grantee’s beneficiary within sixty (60) days after the date of the Grantee’s death. For purposes of Section 409A of the Code, each payment under the Plan shall be treated as a separate payment. In no event shall a Grantee, directly or indirectly, designate the calendar year of payment. To the extent that any provision of the Plan would cause a conflict with the requirements of section 409A of the Code, or would cause the administration of the Plan to fail to satisfy the requirements of Section 409A of the Code, such provision shall be deemed null and void to the extent permitted by applicable law. Notwithstanding anything in the Plan or any Award Agreement to the contrary, each Grantee shall be solely responsible for the tax consequences of Awards under the Plan, and in no event shall the Company have any responsibility or liability if an Award does not meet any applicable requirements of Section 409A of the Code. Although the Company intends to administer the Plan to prevent taxation under Section 409A of the Code, the Company does not represent or warrant that the Plan or any Award complies with any provision of federal, state, local or other tax law.

5.11 Regulations and Other Approvals.

The obligation of the Company to sell or deliver Stock with respect to any Award granted under the Plan shall be subject to all applicable laws, rules and regulations, including all applicable federal and state securities laws, and (i) the obtaining of all such approvals by governmental agencies as may be deemed necessary or appropriate by the Committee.

Each Award is subject to the requirement that, if at any time the Committee determines, in its absolute discretion, that the listing, registration or qualification of Stock issuable pursuant to the Plan is required by any securities exchange or under any state or federal law, or the consent or approval of any governmental regulatory body is (ii) necessary or desirable as a condition of, or in connection with, the grant of an Award or the issuance of Stock, no such Award shall be granted or payment made or Stock issued, in whole or in part, unless listing, registration, qualification, consent or approval has been effected or obtained free of any conditions not acceptable to the Committee.

(iii) In the event that the disposition of Stock acquired pursuant to the Plan is not covered by a then current registration statement under the Securities Act and is not otherwise exempt from such registration, such Stock shall be restricted against transfer to the extent required by the Securities Act of 1933, as amended, or regulations thereunder, and applicable state securities laws, and the Committee may require a Grantee receiving Stock

pursuant to the Plan, as a condition precedent to receipt of such Stock, to represent to the Company in writing that the Stock acquired by such Grantee is acquired for investment only and not with a view to distribution.

- (iv) With respect to persons subject to section 16 of the 1934 Act, it is the intent of the Company that the Plan and all transactions under the Plan comply with all applicable provisions of Rule 16b-3.

All Awards under the Plan will be subject to any compensation, clawback and recoupment policies that may be applicable to the employees of the Company, as in effect from time to time and as approved by the Board or (v) Committee, whether or not approved before or after the Effective Date. Subject to the requirements of applicable law, any such compensation, clawback and recoupment policies shall apply to Awards made after the effective date of the policy.

5.12 Non-Employee Director Award Deferrals. The Committee may permit a Non-Employee Director to defer receipt of the payment of cash or the delivery of shares that would otherwise be due to such Non-Employee Director in connection with any Restricted Stock, Restricted Stock Units or Other Stock-Based Awards. If any such deferral election is permitted, the Committee shall establish rules and procedures for such deferrals and may provide for interest or other earnings to be paid on such deferrals, which rules and procedures shall be consistent with applicable requirements of Section 409A of the Code. Unless otherwise specified in a Non-Employee Director's valid election, any deferred amount will be deferred until the earliest to occur of the Non-Employee Director's death, separation from service, or Change of Control; provided that any such deferral election is made by the Non-Employee Director on or prior to December 31 of the calendar year preceding the calendar year in which any such amounts are earned, or, if such Non-Employee Director is newly eligible for purposes of Section 409A of the Code, then within 30 days following the date he or she is first eligible, and then only with respect to amounts earned after the date of the election.

6 Amendment and Termination

The Plan may be terminated or amended by the Board at any time, except that the following actions may not be taken without stockholder approval:

- (i) any increase in the number of shares that may be issued under the Plan (except by certain adjustments provided for under the Plan);
- (ii) any change in the class of persons eligible to receive ISOs under the Plan;
- (iii) any change in the requirements of Sections 4.2(i)(b) and 4.2(ii)(c) hereof regarding the exercise price of Options and the grant price of SARs;
- (iv) any repricing or cancellation and regrant of any Option or, if applicable, other Award at a lower exercise, base or purchase price, as set forth in Section 2.3; or
- (v) any other amendment to the Plan that would require approval of the Company's stockholders under applicable law, regulation or rule or stock exchange listing requirement.

Notwithstanding any of the foregoing, adjustments pursuant to Section 3 shall not be subject to the foregoing limitations of this Section 6.

7 Governing Law

The Plan and all Award Agreements entered into under the Plan shall be construed in accordance with and governed by the laws of the State of New York, except that any principles or provisions of New York law that would apply the law of another jurisdiction (other than applicable provisions of U.S. Federal law) shall be disregarded. Notwithstanding the foregoing, matters with respect to indemnification, delegation of authority under the Plan, and the legality of shares of Stock issued under the Plan, shall be governed by the Nevada Revised Statutes.

8 Severability

If any of the provision of this Plan is finally held to be invalid, illegal or unenforceable (whether in whole or in part), such provision shall be deemed modified to the extent, but only to the extent, of such invalidity, illegality or

unenforceability and the remaining provisions shall not be affected thereby; provided that, if any such provision is finally held to be invalid, illegal or unenforceable because it exceeds the maximum scope determined to be acceptable to permit such provision to be enforceable, such provision shall be deemed modified to the minimum extent necessary in order to make such provision enforceable.

9 Clawback and Non-compete

Notwithstanding any other provisions of this Plan, any Award which is subject to recovery under any law, government regulation, stock exchange listing requirement, or Company policy, will be subject to such deductions and clawback as may be required to be made pursuant to such law, government regulation or stock exchange listing requirement, or any policy adopted by the Company whether pursuant to any such law, government regulation or stock exchange listing requirement or otherwise. In addition and notwithstanding any other provisions of this Plan, any Award shall be subject to such noncompete provisions under the terms of the Agreement or any other agreement or policy adopted by the Company, including, without limitation, any such terms providing for immediate termination and forfeiture of an Award if and when a Participant becomes an employee, agent or principal of a competitor without the express written consent of the Company.
