Dear Shareholder,

Thank you for your continued interest in Reed's, Inc. Late 2016 saw the start of the Company's transformation into what we believe will lead to a meaningful disruptive force in the beverage industry. Having been in the industry for over 30 years, I was excited when Chris Reed reached out to me and asked me to join the Board of Directors late last year. As many of you know, I co-founded SoBe Beverage in 1995 and helped grow the brand to \$275 million in revenue over 5 years before selling the company to Pepsi for \$370 million. Similar to SoBe at the time, Reed's has the potential to be a leader in a highly attractive and growing category supported by favorable consumer trends. The Company was—and remains today—an innovation leader that started nearly 30 years ago when Chris Reed had the novel idea to incorporate the refreshing taste and health benefits of fresh ginger into an all-natural, “better for you” beverage. While we remain America's best selling ginger beer and the leading all-natural craft soda, the Company has a significant opportunity to improve its current business performance and to re-accelerate growth and expand its leadership positions in two of the fastest growing beverage categories. It is an amazing testament to entrepreneurship that Chris delivered his first homemade ginger brew in the back of his Volkswagen almost 30 years ago. Since those humble beginnings, sales of Reed's craft beverages have now surpassed 500 million bottles.

But recent years have been operationally challenging, which we are quickly addressing. First, the Company struggled to produce and fulfill our valued customer's orders, which lead to frequent “stock outs” driving lower volume and profitability. Second, in hindsight the Company expanded too quickly into adjacent categories causing a rapid increase in our product offerings and SKU's, which diluted management focus and stretched our capabilities. Third, the Company's intense focus on in-house production has led to high idle plant costs that have been a significant drag on gross margins while diverting significant capital away from sales and marketing programs needed to support the core Reed's and Virgil's brands. In addition, the investment in the plant also increased the Company's debt burden, which has impacted cash flow and deferred needed re-investment in the core brands.

We have now started a new chapter at Reed's. With new leadership in place at the Board and management level, we have a plan and we are determined to turn the Company's performance around by driving solid improvements across every area of the business. Having witnessed many of these issues over my career, I'm confident our team has actionable solutions to fix our previous mistakes. We are just getting started, but I'm encouraged by the early operational improvements coming to fruition while at the same time reinvigorating growth in both Reed's and Virgil's.

The Company is very fortunate to have the tailwind of several consumer mega trends that are driving category growth. These trends include increase demand for: i) “better for you” healthier alternatives; ii) all-natural beverages with lower or no sugar; iii) increasingly stronger, spicier and bolder flavors; iv) ginger which is viewed as a “superfood”; v) craft and premium offerings; and vi) bold flavored cocktails and premium mixers as liquor consumption continues to grow. Based on the latest syndicated sales data, the craft beverage category grew 6% year over year during the last 24 weeks and ginger beers grew 17%. This is clearly favorable, especially in relation to the total carbonated beverage industry

that declined 1%. The craft beverage category remains underdeveloped due to a lack of marketing investment and a true category champion. Unlike craft beer—which combined with imports and super premiums accounts for over 30% of total beer sales—craft soda accounts for less than 1% of carbonated beverage sales. Reed's and Virgil's have leadership positions in their respective categories with upside potential in terms of pricing and significant growth. Reed's is the only leading ginger beer that is all natural, uses cane sugar and is made from fresh ginger root to the tune of over one millions pounds per year. The ginger beer category has additionally benefited through its use in two of the fastest growing mixed drinks in the market: the Moscow Mule and the Dark N' Stormy. Those popular cocktails appeal to both Millennials and Baby Boomers and their growth trajectory is accelerating.

Despite strong category momentum and leading brands, sizeable beverage businesses are not built without dynamic leadership. I pride myself in being able to identify and assemble outstanding teams and I can now say that we have most of the key pieces in place required to drive improved operating performance. I brought Val Stalowir in specifically to lead Reed's because I knew he had the talent, the necessary experience and the drive to get the job done. Val brings all the technical and leadership skills in marketing and sales from big blue chip companies such as Quaker and Coke and he combines that with a very entrepreneurial approach. He has learned to move quickly and work aggressively having worked with founders with limited resources at emerging brands such as Boylan, Zola Acai, and Detour Bar in order to maximize results. We are also fortunate to retain Chris' innovative product development talents as he has assumed the role of Chief Innovation Officer. The team also includes other seasoned beverage professionals with decades of success and experience. I have been impressed with the amount of progress they have been able to accomplish in a very short amount of time and I am encouraged to see some of their initiatives starting to have a positive impact on the Company. To complement the management team, we also continue to evolve our Board to help support and direct management in order to maximize shareholder value. I believe the collection of individuals and experiences we have in the Boardroom will continue to provide strong and effective leadership across all of the critical functions.

Under new leadership from the board and the executive management team, we have developed a detailed plan of action to capture the identified performance improvements and drive core brand growth. The team's first priority is to dramatically simplify the business and focus on our core products. We will be moving towards an "asset light" model that will enable us to maximize investment to grow and build our core brands, reduce operational complexity, and meaningfully improve profitability. Since the start of this year, the Company successfully eliminated more than 70 SKU's and reduced our focus on the private label business, which had cannibalized production time of our core products, required significant working capital support, and came at the expense of core brand building. In addition, the team led by our new CEO is undergoing a complete operational review—we have already identified significant savings via operational improvements that are candidly commonplace in world-class beverage organizations. Management is actively working with our existing and new strategic partners to improve performance, lower input costs and working capital requirements while helping to support our refreshed growth plans. While there is much to do, I am confident these improvements will be realized over the coming quarters and years. In addition, we are also exploring divesting non-core assets that could support our new strategic direction.

We believe the Company will require additional financing to best position it for success. We are currently in the process of selecting a large and proven food and beverage investment bank to serve as our advisor for the transaction. While we are still working on the specifics, our intention is for the general financing to be minimally disruptive and available to current shareholders. We are asking you to vote today to increase the authorized share count so that we can achieve our capital raise of approximately \$10 million which we would anticipate closing by the end of the fourth quarter. We are also in talks with a handful of large investors that have already expressed interest in participating. We are confident this financing will significantly improve profitability and reaccelerate growth.

Proceeds from this offering will be used to strengthen our balance sheet and support the launch of our innovative products in our core Reed's and Virgil's brands. As an example, we intend to introduce Virgil's all-natural No Sugar beverage line in the first quarter of 2018. This exciting new product offering delivers the great taste of a full sugar beverage with only 5 calories per serving. We believe our new Virgil's No Sugar line will be a disruptive "game changer" in the multi-billion dollar diet soda market. We will also invest the proceeds in sales and marketing programs to drive growth through increased brand velocity and new doors of distribution across all channels including bars and restaurants, club, convenience stores and international markets. There are hundreds of thousands of retail doors yet to be added to the Company's footprint and penetrating some of these new channels will be aided by the introduction of the convenient and affordable can package. The Company is also in the process of a complete brand re-design for both Reed's and Virgil's along with an investment in upgrading the Company's website, social media platforms and digital presence.

We continue to make progress on our all-natural, lower sugar, craft fountain soda effort with a major fast casual restaurant chain who is dedicated to removing all of the artificial colors, ingredients and preservatives from its beverage offerings. The test results so far are encouraging in terms of sell through. We believe this represents a meaningful growth opportunity for the Company due to our unique ability to offer an all-natural craft fountain soda to restaurants that are eager to provide their customers with a natural beverage alternative that tastes great and has fewer calories. There is a good deal of exciting news we will be bringing to the market on the sales and marketing front this year and next and I am very happy to have Neal Cohane, our Senior Vice President of Sales leading that effort. I have worked with Neal for years and I am confident he and his team will deliver results. Lastly, by strengthening our

balance sheet, we will be able to partner better with our distributors, retailers, vendors and co-packers. We have had some of the same partners for many years, we appreciate their continued support and it is time that we begin to meet and exceed their expectations as we start the next chapter in the growth of Reed's.

In closing, we intend to extend Reed's leadership as America's #1 Ginger Beer and Virgil's leading position in the all-natural craft category. We believe that through our simplified and focused business model we will achieve solid revenue and margin growth. We have the right plans and management team in place. We have uniquely differentiated, "best in class" products in fast growing categories. But we are not stopping there. We will continue to drive innovation in the industry and pioneer new all-natural, no and low Sugar offerings in the "better for you" beverage space. I would like to thank you, our shareholders, for your continued support. I would also like to thank our employees, customers, suppliers, business partners and co-packers for their support and commitment to our growth. There has never been a more exciting time to be a part of Reed's.

Drink Smart, Drink Natural, Drink Reed's!

Sincerely,

/s/ John Bello

Director Independence

The board of directors has determined that five of our nominees, John Bello, Lewis Jaffe, Charles Cargile, Scott R. Grossman and James Bass do not have relationships that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these nominees is an “independent director” as defined under Section 803 of the of the NYSE American Company Guide.

Vote Required

The affirmative vote of the majority of the shares represented at the meeting and entitled to vote is required for the election of directors. Unless a stockholder indicates otherwise, each signed proxy will be voted **FOR** the election of these nominees.

The board of directors unanimously recommends a vote “FOR” the election of Valentin Stalowir, John Bello, Lewis Jaffe, Charles F. Cargile, Christopher J. Reed, Scott R. Grossman and James Bass as directors.

BOARD AND COMMITTEE MEETINGS

During the 2016 fiscal year, members of the board of directors met 20 times in various meetings. A majority of the directors and a majority of the independent directors attended all meetings. Each member of a committee of our board attended at least 75% of their respective committee meetings during the period of service.

The Company does not have a policy for board meeting or committee meeting attendance because, pursuant to our Bylaws, members constituting a majority of directors constitute a quorum for meetings of the Board and a majority of our directors, including a majority of the independent directors, regularly attend all meetings.

ATTENDANCE OF BOARD MEMBERS AT ANNUAL STOCKHOLDERS' MEETING

The Company does not have a policy for attendance of board members at annual stockholder's meetings.

BOARD STRUCTURE AND COMMITTEES

As of the date of this Proxy Statement, our board of directors has six directors and the following four standing committees: Audit Committee, Compensation Committee, Governance Committee and Operations Committee. The Audit Committee, Compensation Committee and Governance Committee were formed in January 2007. The Operations Committee was formed in May 2017. The Board added one seat, increasing the number of directors to seven for the coming year.

Board Determination of Independence

Under applicable NYSE American rules, a director will only qualify as an "independent director" if, in the opinion of the Board, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board determined that, of our current directors, John Bello, Lewis Jaffe and Charles Cargile do not have relationships that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is an "independent director" as defined under the listing standards of the NYSE American and within the meaning of the Sarbanes Oxley Act of 2002, Section 301(3). We intend to maintain at least three independent directors on our Board at all times in the future. We intend to maintain independent directors constituting our Audit Committee, Compensation Committee and Governance Committee as well.

Committees

The Board established Audit, Compensation, Governance and Operations Committees. The Board has adopted a written charter for each of these four committees that address the make-up and functioning of the Board. The Board also adopted a Code of Business Conduct and Ethics that applies to all of the Company's directors, officers and employees. The committee charters and Code of Business Conduct and Ethics are posted on our website at www.reedsinc.com.

Audit Committee. Our Audit Committee oversees our accounting and financial reporting processes, internal systems of accounting and financial controls, relationships with independent auditors and audits of financial statements. Specific responsibilities include the following:

selecting, hiring and terminating our independent auditors;

evaluating the qualifications, independence and performance of our independent auditors;

approving the audit and non-audit services to be performed by our independent auditors;

reviewing the design, implementation, adequacy and effectiveness of our internal controls and critical accounting policies;

overseeing and monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;

reviewing, with management and our independent auditors, any earnings announcements and other public announcements regarding our results of operations; and

preparing the audit committee report that the "SEC" requires in our annual proxy statement.

Our Audit Committee is comprised of Lewis Jaffe and Charles Cargile. Charles Cargile serves as Chairman of the Audit Committee. We believe Charles Cargile meets SEC requirements of an "audit committee financial expert" within the meaning of the Sarbanes Oxley Act of 2002, Section 407(b).

Compensation Committee. Our Compensation Committee assists our Board in determining and developing plans for the compensation of our officers, directors and employees. Our Compensation Committee is comprised of John Bello, Lewis Jaffe and Charles Cargile. In affirmatively determining the independence of a director who will serve on the compensation committee, the Company's Board considered all factors specifically relevant to whether the director has a relationship to the Company which is material to the director's ability to be independent from management in

connection with the duties of a committee member, including, without limitation: (1) the source of compensation of the director, including any consulting, advisory or other compensatory fee paid by the Company; and (2) whether the director is affiliated with the Company, or an affiliate of the Company.

Specific responsibilities include the following:

- approving the compensation and benefits of our executive officers;
- reviewing the performance objectives and actual performance of our officers; and
- administering our stock option and other equity compensation plans.

Governance Committee. Our Governance Committee assists the Board by identifying and recommending individuals qualified to become members of our Board, reviewing correspondence from our stockholders, and establishing, evaluating and overseeing our corporate governance guidelines. Our Governance Committee is currently comprised of John Bello, Lewis Jaffe and Charles Cargile.

Specific responsibilities include the following:

evaluating the composition, size and governance of our board of directors and its committees and making recommendations regarding future planning and the appointment of directors to our committees;

establishing a policy for considering stockholder nominees for election to our board of directors; and

evaluating and recommending candidates for election to our board of directors.

Operations Committee. Our Operations Committee assists the Board in fulfilling its oversight responsibilities for matters relating to the Company's operations, particularly those aspects, which are most likely to affect stockholder value. Our Operations Committee is currently comprised of John Bello, Lewis Jaffe and Christopher Reed. In furtherance of this purpose, the Operations Committee has the following general oversight responsibilities:

Specific responsibilities include the following:

reviewing and providing strategic advice and counsel to the Company regarding the business operations; and

presenting to the Board an independent assessment of the Company's business operations as it relates to strategic initiatives.

Leadership Structure

The business of our Company is managed under the direction of the board of directors, whose members are elected by the Company's stockholders. The basic responsibility of the Board is to lead the Company by exercising its business judgment to act in what each director believes to be in the best interests of the Company and its stockholders. Our Chairman and Chief Executive Officer positions are separate. Our Board believes that having separate positions and having an independent director serve as Chairman is the appropriate leadership structure for us at this time and demonstrates our commitment to good corporate governance. Our board of directors believes that separating Chairman and Chief Executive Officer positions and having an independent director serve as Chairman is the appropriate leadership structure for us at this time and demonstrates our commitment to good corporate governance. Our Board is led by an independent Chairman, John Bello. Our Chief Executive Officer, Valentin Stalowir, also serves as a member of the Board. We believe that this leadership structure enhances the accountability of the Chief Executive Officer to the Board, strengthens the Board's independence from management and benefits independent risk oversight of the Company's day-to-day risk management activities. In addition, separating these roles allows Mr. Stalowir to focus his efforts on running our business and managing the Company in the best interests of our stockholders, while we are able to benefit from Mr. Bello's prior experience as a chairman of other company boards.

Risk Oversight

The Board is responsible for overseeing management and the business affairs of the Company, which includes the oversight of risk. In exercising its oversight, the Board allocated some areas of focus to its committees and has retained areas of focus for itself. Pursuant to its charter, the Audit Committee is responsible for assuring that the Board is provided the information and resources to assess management's handling of the Company's approach to risk management. The Audit Committee also has oversight responsibility for the Company's financial risk (such as accounting, finance, internal control and tax strategy), and the Audit Committee or the full Board receives and reviews, as appropriate, the reports of the Company's internal auditors regarding the results of their annual Company-wide risk assessment and internal audit plan. Reports of all internal audits are provided to the Audit Committee. The Compensation Committee oversees compliance with the Company's executive compensation plans and related laws and policies. The Governance Committee oversees compliance with governance-related laws and policies. The Board as a whole has responsibility for overseeing management's handling of the Company's strategic and operational risks. Throughout the year, senior management reports to the Board the risks that may be material to the Company, including those disclosed in the Company's quarterly and annual reports filed with the SEC. The goal of these processes is to achieve serious and thoughtful Board-level attention to the nature of the material risks faced by the Company and the adequacy of the Company's risk management process and system. While the Board recognizes that the risks which the Company faces are not static, and that it is not possible to mitigate all risk and uncertainty all of the time, the Board believes that the Company's approach to managing its risks provides the Board with the proper foundation and oversight perspective with respect to management of the material risks facing the Company.

Executive Sessions of Non-Management and Independent Directors

During 2017, the Company's non-management directors, all of whom are considered to be "independent" as defined under the listing standards of the NYSE American and within the meaning of the Sarbanes Oxley Act of 2002, Section 301(3), were provided with the opportunity to meet in executive sessions of the Board in which management directors and other members of management did not participate. At each audit committee meeting, the independent Board members are afforded time to ask questions of the auditors and/or hold private discussions without the Company management present.

Stockholder Communications with Our Board of Directors

Our Board established a process for stockholders to communicate with the board of directors or with individual directors. Stockholders who wish to communicate with our Board or with individual directors should direct written correspondence to our principal executive offices located at 13000 South Spring Street, Los Angeles, California 90061, attention: Judy Holloway Reed, Secretary. Any such communication must contain:

- a representation that the stockholder is a holder of record of our capital stock;
- the name and address, as they appear on our books, of the stockholder sending such communication; and
- the class and number of shares of our capital stock that are beneficially owned by such stockholder.

Our Secretary will forward such communications to our board of directors or the specified individual director to whom the communication is directed unless such communication is unduly hostile, threatening, illegal or similarly inappropriate, in which case the Secretary has the authority to discard the communication or to take appropriate legal action regarding such communication.

Nomination of Directors

Our Governance Committee determines the required selection criteria and qualifications of director nominees based upon our needs at the time nominees are considered. In general, directors should possess the highest personal and professional ethics, integrity and values, and be committed to representing the long-term interests of our stockholders. Moreover, our Governance Committee will strive to ensure that at least one director meets the criteria for an "audit committee financial expert" as defined by SEC rules and that at least 50% of the directors comprising the Board meet

the definition of “independent director” under NYSE American rules.

In addition to the above considerations, the Governance Committee will consider criteria such as strength of character and leadership skills; general business acumen and experience; broad knowledge of the industry; age; number of other board seats; and willingness to commit the necessary time to ensure an active board whose members work well together and possess the collective knowledge and expertise required by the board of directors. The Governance Committee will consider these same criteria for candidates regardless of whether the candidate was identified by the Governance Committee, by stockholders, or any other source.

The Governance Committee will consider qualified candidates for possible nomination that are submitted by our stockholders. Stockholders wishing to make such a submission may do so by sending the requisite information to the Governance Committee at the address indicated herein under the heading “Stockholder Communications with Our Board of Directors.” Any recommendations submitted to the Chairman should be in writing and should include whatever supporting material the stockholder considers appropriate in support of that recommendation, but must include the information that would be required under the rules of the SEC in a proxy statement soliciting proxies for the election of such candidate and a signed consent of the candidate to serve as a director of Reed’s, if elected.

The Governance Committee conducts a process of making a preliminary assessment of each proposed nominee based upon the resume and biographical information provided, an indication of the candidate's willingness to serve and other background information, business experience, and leadership skills, all to the extent available and deemed relevant by the Governance Committee. This information is evaluated against the criteria set forth above and our specific needs at that time. Based upon a preliminary assessment of the candidate(s), those who appear best suited to meet our needs may be invited to participate in a series of interviews, which are used as a further means of evaluating potential candidates. On the basis of information learned during this process, the Governance Committee determines which candidate(s) to recommend to the Board to submit for election at the next stockholder meeting. The Governance Committee uses the same process for evaluating all candidates, regardless of the original source of the nomination.

Our goal is to seek to achieve a balance of knowledge and experience on our Board. To this end, we seek nominees with the highest professional and personal ethics and values, an understanding of our business and industry, diversity of business experience and expertise, a high level of education, broad-based business acumen, and the ability to think strategically. Although we use the criteria listed above as well as other criteria to evaluate potential nominees, we do not have a stated minimum criteria for nominees. The Board does not use different standards to evaluate nominees depending on whether they are proposed by our directors and management or by our stockholders. To date, we have not paid any third parties to assist us in finding director nominees.

The company's independent registered public accounting firm and management report annually to the audit committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed.

Management is responsible for preparing the company's financial statements so that they comply with generally accepted accounting principles and fairly presents the company's financial condition, results of operations and cash flows; issuing financial reports that comply with the requirements of the SEC; and establishing and maintaining adequate internal control structures and procedures for financial reporting. The audit committee's responsibility is to monitor and oversee these processes.

In furtherance of its role, the audit committee has an annual agenda, which includes periodic reviews of the company's internal controls and of areas of potential exposure for the company such as litigation matters. The Committee meets at least quarterly and reviews the company's interim financial results and earnings releases prior to their publication.

In this context, the audit committee has reviewed and discussed with management (i) the audited financial statements of the company for the fiscal year ended December 31, 2016, (ii) the company's evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2016 and (iii) the related opinions by the company's independent registered public accounting firm. Types of Awards;

Incentive and Nonstatutory Stock Options

The Plan allows for the issuance of incentive stock options intended to qualify under Section 422 of the Code, nonstatutory stock options.

Optionees receive the right to purchase a specified number of shares of common stock at a specified option price and subject to such other terms and conditions as are specified in connection with the option grant. Only our employees may receive “incentive stock options” as defined in Section 422 of the Code. An option that is not intended to be an “incentive stock option” is a “nonstatutory stock option.” Options may not be granted at an exercise price that is less than 100% of the fair market value of the common stock on the effective date of grant. Under present law, incentive stock options may not be granted at an exercise price less than 110% of the fair market value in the case of stock options granted to optionees holding more than 10% of the total combined voting power of all classes of our stock or any of

our subsidiaries. Subject to the provisions of the Plan, stock options may not be granted for a term in excess of 10 years (and, under present law, five years in the case of incentive stock options granted to optionees holding greater than 10% of the total combined voting power of all classes of our stock or any of our subsidiaries).

Other Stock-Based Awards

The Committee may from time to time grant equity-based or equity-related awards not otherwise described herein in such amounts and on such terms as it shall determine, subject to the terms and conditions set forth in the Plan. Without limiting the generality of the preceding sentence, each such "Other Stock-Based Award" may (i) involve the transfer of actual shares of common stock to Participants, either at the time of grant or thereafter, or payment in cash or otherwise of amounts based on the value of shares of common stock, (ii) be subject to performance-based and/or service-based conditions, (iii) be in the form of stock appreciation rights, phantom stock, restricted stock, restricted stock units, performance shares, deferred share units, or share-denominated performance units, (iv) be designed to comply with applicable laws of jurisdictions other than the United States, and (v) be designed to qualify as performance based compensation; provided, that each Other Stock-Based Award shall be denominated in, or shall have a value determined by reference to, a number of shares of common stock that is specified at the time of the grant of such award.

Effective Date and Term of Plan

The Plan shall become effective on September 29, 2017, subject to approval by our shareholders. No Awards shall be granted under the Plan after the expiration of 10 years from the effective date.

Federal Income Tax Consequences

The following generally summarizes the United States federal income tax consequences that generally will arise with respect to Awards granted under the Plan. This summary is based on the federal tax laws in effect as of the date of this Proxy Statement. In addition, this summary assumes that all Awards are exempt from, or comply with, the rules under Section 409A of the Code regarding nonqualified deferred compensation. Changes to these laws or assumptions could alter the tax consequences described below.

Incentive Stock Options. A participant will not have income upon the grant of an incentive stock option. Also, except as described below, a participant will not have income upon exercise of an incentive stock option if the participant has been employed by us or our corporate parent or 50% or more-owned corporate subsidiary at all times beginning with the option grant date and ending three months before the date the participant exercises the option. If the participant has not been so employed during that time, then the participant will be taxed as described below under “Nonstatutory Stock Options.” The exercise of an incentive stock option may subject the participant to the alternative minimum tax.

A participant will have income upon the sale of the stock acquired under an incentive stock option, which we refer to as ISO stock, at a profit (if sales proceeds exceed the exercise price). The type of income will depend on when the participant sells the ISO stock. If a participant sells the ISO stock more than two years after the option was granted and more than one year after the option was exercised, then all of the profit will be long-term capital gain. If a participant sells the ISO stock prior to satisfying these waiting periods, then the participant will have engaged in a disqualifying disposition and a portion of the profit will be ordinary income and a portion may be capital gain. This capital gain will be long-term if the participant has held the ISO stock for more than one year and otherwise will be short-term. If a participant sells the ISO stock at a loss (sales proceeds are less than the exercise price), then the loss will be a capital loss. This capital loss will be long-term if the participant held the ISO stock for more than one year and otherwise will be short-term.

Nonstatutory Stock Options. A participant will not have income upon the grant of a nonstatutory stock option. A participant will have compensation income upon the exercise of a nonstatutory stock option equal to the fair market value of the stock on the day the participant exercised the option less the exercise price. Upon sale of the stock, which we refer to as NSO stock, the participant will have capital gain or loss equal to the difference between the sales proceeds and the fair market value of the NSO stock on the day the option was exercised. This capital gain or loss will be long-term if the participant has held the NSO stock for more than one year and otherwise will be short-term.

Other Stock-Based Awards. The tax consequences associated with any Other Stock-Based Award granted under the Plan will vary depending on the specific terms of the Award. Among the relevant factors are whether or not the Award has a readily ascertainable fair market value, whether or not the Award is subject to forfeiture provisions or restrictions on transfer, the nature of the property to be received by the participant under the Award and the participant's holding period and tax basis for the Award or underlying common stock.

Tax Consequences to Reed's. There will be no tax consequences to us except that we will be entitled to a deduction when a participant has compensation income. Any such deduction will be subject to the limitations of Section 162(m) of the Code.

Vote Required

The affirmative vote of the majority of the shares represented at the meeting and entitled to vote is required for approval of the Reed's, Inc. 2017 Incentive Compensation Plan.

The board unanimously recommends a vote "FOR" approval of this Proposal No. 2.

PROPOSAL 3 – AMENDMENT OF REED’S CERTIFICATE OF INCORPORATION TO INCREASE THE AMOUNT OF AUTHORIZED SHARES OF COMMON STOCK FROM 19,500,000 TO 40,000,000 SHARES

Increase of Authorized Common Stock in General

As of the record date, we had a total of 19,500,000 authorized shares of common stock, 15,164,311 issued and outstanding shares of common stock, 19,472,161 outstanding shares of common stock, on a fully diluted basis, taking into account shares issuable upon exercise of outstanding options and warrants and conversion of outstanding notes, and 1,026,834 shares available under the Company’s available incentive compensation plans.

The ability to issue equity is fundamental to our growth strategy:

In order to implement our growth strategy, we intend to raise additional financing through the issuance of equity securities prior to the end of fiscal 2017.

We are not currently in compliance with NYSE American market’s continued listing standards. We previously qualified by exception to the listing rules based on meeting the trading standards of public float, number of shareholders and market capitalization. We have until December 22, 2017 to regain compliance. We have determined that an increase in shareholder’s equity through the sale of equity securities in one of more financing transactions may help to bring us back into compliance.

The availability of equity incentive compensation is necessary for the Company to attract and retain attract, retain and motivate the most high-performing executives and key employees who ultimately drive Company performance. We currently do not an adequate number of shares available for reservation or issuance for equity compensation grants.

As a post closing covenant to the Warrant Exercise Agreement dated April 21, 2017 with Raptor/ Harbor Reeds SPV, LLC, we agreed to amend to Reed’s Charter to effect at minimum of a 5,000,000 share increase in the Reed’s authorized common stock.

Our Board adopted a resolution seeking authorization of our stockholders to amend our certificate of incorporation (the “Charter”) to increase our number of authorized shares of Common Stock from 19,500,000 to 40,000,000 shares (the “Increase”). It is proposed that Article IV of the Company’s Charter be amended to read in its entirety as follows (assuming approval of both Proposals Nos. 3 and 4):

“Section 1. The total number of shares of capital stock which the Corporation is authorized to issue is Forty Two Million Five Hundred Thousand (42,000,500), of which Forty Million (40,000,000) shall be shares of Common Stock

having a par value of \$.0001 per share, Five Hundred Thousand (500,000) shall be shares of Preferred Stock having a par value of \$10.00 per share, and Two Million (2,000,000) shall be shares of Preferred Stock having a par value of \$0.01 per share. The Preferred Stock may be issued from time to time in one or more series. The Board of Directors is hereby authorized, subject to limitations prescribed by law, to fix by resolution or resolutions the designations, powers, preferences, and rights and the qualifications, limitations, or restrictions thereof, of each such series of Preferred Stock, including without limitation, authority to fix by resolution or resolutions the dividend rights, dividend rate, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), redemption price or prices, and liquidation preferences of any wholly unissued series of Preferred Stock, and the number of shares constituting such series and the designation thereof, or any of the foregoing. The Board of Directors is further authorized to increase (but not above the total number of authorized shares of the class) or decrease (but not below the number of shares of any such series then outstanding) the number of shares of any series, the number of which was fixed by it, subsequent to the issue of shares of such series then outstanding, subject to the powers, preferences, and rights and the qualifications, limitations, and restrictions thereof stated in the resolution of the Board of Directors originally fixing the number of shares of such series. If the number of shares of any series is so decreased, then the shares constituting such decrease shall resume the status which they had prior to the adoption of the resolution originally fixing the number of shares of such series.”

To effect the Increase as proposed, we will file an amendment to our Charter, with the Secretary of State of Delaware, substantially in the form as set forth above, providing that our authorized common stock will be 40,000,000 shares.

Three million of the additional authorized shares will be reserved for issuance under the Company’s 2017 Reed’s Inc. Incentive Compensation Plan, as further described Proposal No. 2. The Company intends to issue shares underlying options and/or restricted stock to Valentin Stalowir, the Company’s Chief Executive Officer, pursuant to the terms of his employment agreement. The remainder will be available for issuance from time to time to enable us to respond to future business opportunities requiring the issuance of shares, including common stock-based financings, acquisition or strategic joint venture transactions involving the issuance of common stock, and for other general purposes that the Board may deem advisable. We are seeking approval for the amendment at this time because we are currently seeking opportunities that may require prompt action, and the Board believes the delay and expense in seeking approval for additional authorized common stock at a special meeting of shareholders could deprive us of the ability to take advantage of potential opportunities. Without an increase in the number of authorized shares of common stock, the Company may be constrained in its ability to raise capital and may lose important business opportunities, which could adversely affect our financial performance and growth.

The Board does not intend to issue any common stock except on terms that the Board deems to be in the best interests of the Company and its then existing stockholders.

If the stockholders do not approve this Proposal, then the Company will not have needed additional shares available.

Certain Disadvantages of the Increase

If the authorized number of shares of common stock increases from 19,500,000 to 40,000,000 shares as proposed by this Proposal No. 3, the Company will be able to issue more shares of common stock which could result in additional dilution to current stockholders and which could have a negative effect on the market price of our common stock.

Principal Effects of the Increase

The Increase will affect all of our holders of common stock uniformly and will not affect any stockholder's percentage ownership interests in our Company. We will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended.

Anti-Takeover Effects

Release No. 34-15230 of the staff of the Securities Exchange Commission requires disclosure and discussion of the effects of any proposal that may be used as an anti-takeover device. Although not a factor in the decision by our Board to effect the increase of our authorized shares of common stock, one of the effects of having increased additional shares of our authorized common stock available for issuance may be to enable the Board to render more difficult or to discourage an attempt to obtain control of the Company by means of a merger, tender offer, proxy contest, or otherwise, and thereby protect the continuity of then present management. Unless prohibited by the regulations of applicable law or other agreements or restrictions, a sale of shares of common stock by us or other transactions in which the number of our outstanding shares of common stock would be increased could dilute the interest of a party attempting to obtain control of us. The increase in available authorized common stock may make it more difficult for, prevent or deter a third-party from acquiring control of the Company or changing our Board and management, as well as inhibit fluctuations in the market price of our shares that could result from actual or rumored takeover attempts.

The Increase is not being proposed in response to any effort of which we are aware to accumulate shares of common stock or obtain control of the Company. While it is possible that our management could use the Increase to resist or frustrate a third-party transaction providing an above-market premium that is favored by a majority of stockholders, we do not intend to construct or enable any anti-takeover defense or mechanism on its behalf. We have no intent or plans to employ the Increase as an anti-takeover device and do not have any plans or proposals to adopt any other provisions or enter into other arrangements that may have material anti-takeover consequences.

In addition to the Increase, provisions of our governing documents and applicable provisions of Delaware law may also have anti-takeover effects, making it more difficult for or preventing a third-party from acquiring control of the Company or changing our Board and management. These provisions may also have the effect of deterring hostile takeovers or delaying changes in the Company's control or in our management.

The Charter and bylaws do not provide for cumulative voting in the election of directors. The combination of the present ownership by a relative few stockholders of a significant portion of the Company's voting capital stock and lack of cumulative voting makes it more difficult for other stockholders to replace the members of the Board or for

another party to obtain control of the Company by replacing our Board.

Potential Consequences if Stockholder Approval is Obtained

The potential future issuances and sales of shares of our common stock would likely have a dilutive effect on a stockholder's percentage voting power and, consequently, could lead to a decrease in the market price of our common stock.

Vote Required

The affirmative vote of the majority of the outstanding shares of our common stock is required to amend our Charter to effect an increase in its authorized common stock from 19,500,000 to 40,000,000 shares.

The board unanimously recommends a vote "FOR" approval of this Proposal No. 3.

PROPOSAL 4 – AMENDMENT OF THE COMPANY’S CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED BLANK CHECK PREFERRED STOCK FROM 500,000 TO 2,500,000

Authorization of up to 2,500,000 Shares of Blank-Check Preferred Stock in General

As of the record date, we had a total of 500,000 authorized shares of blank check preferred stock, par value \$10.00 per share. The primary purpose of the authorization of an additional 2,000,000 shares of blank-check preferred stock in the Charter is for general corporate purposes, including, without limitation, capital raising, merger and acquisition opportunities, the issuance of stock dividends or stock splits, and other general corporate purposes.

The effect of the adoption of Proposal No. 4 would be to grant the Board the authority to issue shares of preferred stock in one or more series, with such rights, preferences and designations, as it deems necessary or advisable without any additional action by the Company’s shareholders, unless otherwise required by law or by the rules and policies of the NYSE American market or any other quotation system or exchange upon which the shares of common stock of the Company are listed and trade. With regard to such proposed blank check preferred stock, the Board’s authority to determine the terms of any such shares of preferred stock would include, but not be limited to (i) the designation of each class or series and the number of shares that will constitute each such class or series; (ii) the dividend rate for each class or series; (iii) the price at which, and the terms and conditions on which, the shares of each class or series may be redeemed, if such shares are redeemable; (iv) the terms and conditions, if any, upon which shares of each class or series may be converted into shares of other classes or series of shares of the Company, or other securities; and (v) the voting rights for each class or series. Shares of preferred stock that are issued by the Company and subsequently redeemed or converted into another security of the Company would be available to be reissued by the Company, and the Board may set the terms of the reissued shares as they deem appropriate, in the same manner, and subject to the same limitations, as the authorized preferred shares permit.

The Board made no decisions or commitments with respect to the use of the requested shares of blank check preferred stock, and it has no plans to commence an offering of any of the Company’s shares related thereto at this time. The Board believes, however, that approval of Proposal No. 4 will provide the flexibility to take advantage of opportunities as they arise.

Our Board adopted a resolution seeking authorization of our stockholders to amend our Charter to authorize up to an additional 2,000,000 shares of blank-check preferred stock (the “Authorization”). It is proposed that Article IV of the Company’s Charter be amended to read in its entirety as follows (assuming approval of both Proposals Nos. 3 and 4):

“Section 1. The total number of shares of capital stock which the Corporation is authorized to issue is Forty Two Million Five Hundred Thousand (42,000,500), of which Forty Million (40,000,000) shall be shares of Common Stock having a par value of \$.0001 per share, Five Hundred Thousand (500,000) shall be shares of Preferred Stock having a par value of \$10.00 per share, and Two Million (2,000,000) shall be shares of Preferred Stock having a par value of \$.01 per share. The Preferred Stock may be issued from time to time in one or more series. The Board of Directors is hereby authorized, subject to limitations prescribed by law, to fix by resolution or resolutions the designations, powers, preferences, and rights and the qualifications, limitations, or restrictions thereof, of each such series of Preferred Stock, including without limitation, authority to fix by resolution or resolutions the dividend rights, dividend rate, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), redemption price or prices, and liquidation preferences of any wholly unissued series of Preferred Stock, and the number of shares constituting such series and the designation thereof, or any of the foregoing. The Board of Directors is further authorized to increase (but not above the total number of authorized shares of the class) or decrease (but not below the number of shares of any such series then outstanding) the number of shares of any series, the number of which was fixed by it, subsequent to the issue of shares of such series then outstanding, subject to the powers, preferences, and rights and the qualifications, limitations, and restrictions thereof stated in the resolution of the Board of Directors originally fixing the number of shares of such series. If the number of shares of any series is so decreased, then the shares constituting such decrease shall resume the status which they had prior to the adoption of the resolution originally fixing the number of shares of such series.”

To effect the Authorization as proposed, we will file an amendment to our Charter, substantially as set forth above, with the Secretary of State of Delaware providing an additional 2,000,000 authorized shares of preferred stock with a par value of \$0.001 per share, and the Board shall have the ability issue shares of preferred stock in one or more series, with such rights, preferences and designations, as it deems necessary or advisable without any additional action by the Company's shareholders. We may subsequently abandon the proposed increase if our Board deems it advisable.

Certain Disadvantages of the Authorization

If Proposal No. 4 is approved, the availability of undesignated blank-check preferred stock may have certain negative effects on the rights of holders of the Common Stock. The actual effect of the issuance of any shares of preferred stock upon the rights of holders of Common Stock cannot be stated until the Board determines the specific rights of the holders of such preferred stock. With regard to any proposed new class of blank-check preferred stock, the Board's authority to determine the terms of any such shares of preferred stock would include, but not be limited to, (i) the designation of each class or series and the number of shares that will constitute each such class or series; (ii) the dividend rate for each class or series; (iii) the price at which, and the terms and conditions on which, the shares of each class or series may be redeemed, if such shares are redeemable; (iv) the terms and conditions, if any, upon which shares of each class or series may be converted into shares of other classes or series of shares of the Company, or other securities; and (v) the voting rights for each class or series. The proposed amendment will permit the Board, without future stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights, which are superior to and could adversely affect the voting power or other rights of the holders of our Common Stock. Specifically, we will be in a position to issue securities which would grant to the holders thereof, preferences or priorities over the holders of Common Stock with respect to, among other things, liquidation, dividends and voting. This could result in holders of Common Stock receiving less in the event of a liquidation, dissolution or other winding up of our company, reduce the amount of funds, if any, available for dividends on Common Stock, and dilute the voting power of the holders of our Common Stock.

Shares of preferred stock that are issued by the Company and subsequently redeemed or converted into another security of the Company would be available to be reissued by the Company and the Board may set the terms of the reissued shares as they deem appropriate, in the same manner, and subject to the same limitations, as the authorized preferred shares permit.

Principal Effects of the Authorization

If our stockholders approve this Proposal 4 authorizing the Authorization, the Authorization would effectively enable the Company to utilize such shares for general corporate purposes, including, without limitation, capital raising, merger and acquisition opportunities, the issuance of stock dividends or stock splits, and other general corporate purposes. The Authorization, in and of itself, will not affect any stockholder's percentage ownership interests in our Company. We will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended.

Anti-Takeover Effects

Release No. 34-15230 of the staff of the SEC requires disclosure and discussion of the effects of any proposal that may be used as an anti-takeover device. The blank-check preferred stock could be used, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. For example, the Board could designate and issue a series of preferred stock in an amount that sufficiently increases the number of outstanding shares to overcome a vote by the holders of our Common Stock or with rights and preferences that include special voting rights to veto a change in control. The effect of such provisions could delay or frustrate a merger, tender offer or proxy contest, the removal of incumbent directors, or the assumption of control by shareholders. Please note that the creation of the blank-check preferred stock has not been proposed by the Board for an anti-takeover related purpose and the Board has no knowledge of any current efforts to obtain control of the Company or to effect large accumulations of our voting stock.

Our Charter and bylaws do not provide for cumulative voting in the election of directors. The combination of the present ownership by a relative few stockholders of a significant portion of the Company's voting capital stock and lack of cumulative voting makes it more difficult for other stockholders to replace the members of the Board or for another party to obtain control of the Company by replacing our Board.

Potential Consequences if Stockholder Approval is Obtained

This Proposal would enable the Company to utilize the issuance of blank-check preferred stock shares for general corporate purposes, including, without limitation, capital raising, merger and acquisition opportunities, the issuance of stock dividends or stock splits, and other general corporate purposes. The availability of undesignated blank-check preferred stock may have certain negative effects on the rights of the holders of our Common Stock. The actual effect of the issuance of any shares of blank-check preferred stock upon the rights of holders of Common Stock cannot be stated until the Board determines the specific rights of the holders of such blank-check preferred stock.

Vote Required

The affirmative vote of the majority of the outstanding shares of our common stock is required to effect an amendment to our Charter to increase our blank check preferred by 2,000,000 shares.

The board unanimously recommends a vote “FOR” approval of this Proposal No. 4.

PROPOSAL NO. 5: APPROVAL OF ISSUANCE OF SECURITIES IN ONE OR MORE NON-PUBLIC OFFERINGS WHERE THE MAXIMUM DISCOUNT AT WHICH SECURITIES WILL BE OFFERED AT A PRICE WILL BE EQUIVALENT TO A DISCOUNT OF UP TO 25% BELOW THE MARKET PRICE OF OUR COMMON STOCK IN ACCORDANCE WITH NYSE AMERICAN COMPANY GUIDE SECTION 713

Our common stock is currently listed on NYSE American market and, as such, we are subject to NYSE American market rules. Section 713 of the NYSE American Company Guide requires us to obtain stockholder approval prior to the issuance of our common stock in connection with certain non-public offerings involving the sale, issuance or potential issuance by the Company of common stock (and/or securities convertible into or exercisable for common stock) equal to 20% or more of the common stock outstanding before the issuance. Shares of our common stock issuable upon the exercise or conversion of warrants, options, debt instruments, preferred stock or other equity securities issued or granted in such non-public offerings will be considered shares issued in such a transaction in determining whether the 20% limit has been reached.

In recognition of our immediate need to raise capital through one or more financing transactions that will involve the sale of equity securities, we agreed to include this Proposal No. 5 in this Proxy Statement as a post closing covenant to the Warrant Exercise Agreement dated July 13, 2017 with Raptor/Harbor Reeds SPV, LLC. Since we may seek additional capital that triggers the requirements of Section 713, we are seeking stockholder approval now to enable us to move quickly to take full advantage of any opportunities that may develop in the equity markets. Raptor /Harbor Reeds SPV, LLC, as of the date hereof, is a 15% beneficial owner of our securities.

Additionally, we are not currently in compliance with NYSE American market’s continued listing standards. We previously qualified by exception to the listing rules based on meeting the trading standards of public float, number of shareholders and market capitalization. We have until December 22, 2017 to regain compliance. We have determined that an increase in shareholders’ equity may help to bring us back into compliance.

We may effectuate the approved offerings or transactions in one or more transactions, subject to the limitations herein. We may seek to raise additional capital to implement our business strategy and enhance our overall capitalization as well as to meet our continuing shareholder's equity requirements and listing standards pursuant to the NYSE American market rules. We have not determined the particular terms for such prospective offerings.

We hereby submit this Proposal No. 5 to our stockholders for their approval of the potential issuance of shares of our common stock, or securities convertible into our common stock, in one or more non-public capital-raising transactions, or offerings:

The aggregate number of shares issued in the offerings will not exceed 6,000,000 shares of our common stock, subject to adjustment for any reverse stock split effected prior to the offerings (including pursuant to preferred stock, options, warrants, convertible debt or other securities exercisable for or convertible into common stock);
The total aggregate consideration will not exceed \$8,000,000;

The maximum discount at which securities will be offered (which may consist of a share of common stock and a warrant for the issuance of up to an additional share of common stock) will be equivalent to a discount of up to 25% below the market price of our common stock at the time of issuance in recognition of the limited public float of our traded common stock and historical volatility making the pricing discount of our stock required by investors at any particular time difficult, at this time, to predict;

Such offerings will occur, if at all, on or before December 28, 2017; and

Such other terms as the board of directors shall deem to be in the best interests of the Company and its stockholders, not inconsistent with the foregoing.

The issuance of shares of our common stock, or other securities convertible into shares of our common stock, in accordance with any offerings would dilute, and thereby reduce, each existing stockholder's proportionate ownership in our common stock. The stockholders do not have preemptive rights to subscribe to additional shares that may be issued by the Company in private offerings in order to maintain their proportionate ownership of the common stock.

The issuance of shares of common stock in one or more non-public offerings could have an anti-takeover effect. Such issuance could dilute the voting power of a person seeking control of the Company, thereby deterring or rendering more difficult a merger, tender offer, proxy contest or an extraordinary corporate transaction opposed by the Company.

The Board of Directors has not yet determined the terms and conditions of any offerings. As a result, the level of potential dilution cannot be determined at this time, but as discussed above, we may not issue more than 6,000,000 shares of common stock in the aggregate pursuant to the authority requested from stockholders under this proposal (subject to adjustment for any reverse stock split). It is possible that if we conduct a non-public stock offering, some of the shares we sell could be purchased by one or more investors who could acquire a large block of our common stock. This would concentrate voting power in the hands of a few stockholders who could exercise greater influence on our operations or the outcome of matters put to a vote of stockholders in the future.

We cannot determine what the actual net proceeds of the offerings will be until they are completed, but as discussed above, the aggregate dollar amount of the non-public offerings will be no more than \$8,000,000. If all or part of the offerings is completed, the net proceeds will be used for general corporate purposes. We currently have no arrangements regarding any specific transaction with investors, so we cannot predict whether we will be successful should we seek to raise capital through any offerings.

Vote Required

The affirmative vote of the majority of the shares represented at the meeting and entitled to vote is required for approval of the issuance of securities in one or more non-public offerings, as required by and in accordance with Section 713.

The board of directors recommends a vote “FOR” this Proposal No. 5.

PROPOSAL NO. 6: APPROVAL OF ANY CHANGE OF CONTROL THAT COULD RESULT FROM THE POTENTIAL ISSUANCE OF SECURITIES IN ONE OR MORE NON-PUBLIC OFFERINGS AS AUTHORIZED BY THE STOCKHOLDERS IN PROPOSAL No. 5 IN ACCORDANCE WITH NYSE AMERICAN COMPANY GUIDE SECTION 713

NYSE American Company Guide Section 713 requires us to obtain stockholder approval prior to certain issuances with respect to common stock or securities convertible into common stock that will result in a change of control of the Company. This rule does not specifically define when a change in control of a Company may be deemed to occur. However, guidance suggests that a change of control would occur, subject to certain limited exceptions, if after a transaction a person or an entity will hold 20% or more of the Company's then outstanding capital stock. For the purpose of calculating the holdings of such person or entity, NYSE American market would take into account, in addition to the securities received by such person or entity in the transaction, all of the shares owned by such person or entity unrelated to the transaction and would assume the conversion of any convertible securities held by such person or entity. The issuance of securities pursuant to Proposal No. 5, as applicable, if authorized by the stockholders, could result in a change in control. We are seeking the stockholders' approval on any change in control in accordance with NYSE American Company Guide Section 713 in the event that potential issuance of securities in the offerings proposed in Proposal 5 would result in a change in control.

Vote Required

The affirmative vote of the majority of the shares represented at the meeting and entitled to vote is required for approval of any change of control that could result from the potential issuance of securities in the non-public offerings following approval of Proposal No. 5.

The board of directors recommends a vote "FOR" this Proposal No. 6.

**PROPOSAL 7: APPROVAL OF AMENDMENT TO BYLAWS
TO AUTHORIZE BOARD OF DIRECTORS TO SET MAXIMUM SIZE OF BOARD
BETWEEN FIVE (5) AND NINE (9) SEATS, FROM TIME TO TIME**

The Board is seeking stockholder approval of an amendment to the Company's Bylaws to allow the board to set the maximum size of the Board between five (5) and nine (9) seats, from time to time, in the Board's sole discretion. This amendment will allow the Board flexibility to expand the board to bring on new directors. Currently, the maximum

size of the Board is set between five (5) and seven (7) seats

If the amendment is adopted, it will become effective immediately.

The text of the amendment to the Bylaws is as follows:

“Article II, SECTION 2. NUMBER. The number of members of the Corporation's Board of Directors shall not be less than one (1) nor more than nine (9), as fixed from time to time by resolution of the Board of Directors, except that in the absence of any such designation, such number shall be five (5). All the Directors shall be of full age and at least one shall be a citizen of the United States. Each director shall be elected for a term of one (1) year and until his or her successor is elected and qualified, except as otherwise provided herein or required by law. The presence of a majority of all Directors shall be necessary at any meeting to constitute a quorum for the transaction of business. Meetings of the Directors may be held within or without the state of Delaware. Whenever the authorized number of directors is increased between annual meetings of the stockholders, a majority of the directors then in office shall have the power to elect such new directors for the balance of a term and until their successors are elected and qualified. Any decrease in the authorized number of directors shall not become effective until the expiration of the term of the directors then in office unless, at the time of such decrease, there shall be vacancies on the board which are being eliminated by the decrease.”

The board of directors unanimously recommends a vote “FOR” approval of amendment to bylaws to authorize board of directors to set maximum size of board between five (5) and nine (9) seats, from time to time.

Audit Committee Pre-Approval Policies and Procedures

Under the SEC’s rules, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent registered public accounting firm in order to ensure that they do not impair the auditors’ independence. The Commission’s rules specify the types of non-audit services that an independent auditor may not provide to its audit client and establish the Audit Committee’s responsibility for administration of the engagement of the independent registered public accounting firm.

Consistent with the SEC’s rules, the Audit Committee Charter requires that the Audit Committee review and pre-approve all audit services and permitted non-audit services provided by the independent registered public

accounting firm to us or any of our subsidiaries. The Audit Committee may delegate pre-approval authority to a member of the Audit Committee and if it does, the decisions of that member must be presented to the full Audit Committee at its next scheduled meeting. Accordingly, 100% of audit services and non-audit services described in this Item 14 were pre-approved by the Audit Committee.

There were no hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees.

PROPOSAL 9: Stockholder Proposal Entitled “shareholder Proxy Access”.

The Company received notice of the intention of a shareholder to present a proposal for voting at the Annual Meeting. The proposal will be voted on only if properly presented at the Annual Meeting. In accordance with the rules of the Securities and Exchange Commission, the proposal and supporting statement are set forth below as received from the shareholder proponent. All statements contained in the proposal and supporting statement are the sole responsibility of the shareholder proponent and the Company and the Board disclaim any responsibility for their content. The Company will provide the name, address and shareholdings of the shareholder proponent upon oral or written request directed to the Company’s Secretary.

As explained below, the Board recommends that you vote “AGAINST” this Proposal No. 9 shareholder proposal entitled “Shareholder Proxy Access”.

The Board of Reed’s Inc. does not support the adoption of the resolution proposed below and asks shareholders to consider management’s response, which follows the shareholder proposal.

[REED - Rule 14a-8 Proposal, July 20, 2017]

Proposal [9] - Shareholder Proxy Access

RESOLVED: Shareholders of Reeds, Inc. (the “Company” or “Reeds”) ask the board of directors (the “Board”) to amend its bylaws or other documents, as necessary, to provide proxy access for shareholders as follows:

- Nominating shareholders or shareholder groups (“Nominators”) must beneficially own 3% or more of the Company’s
1. outstanding common stock (“Required Stock”) continuously for at least three years and pledge to hold such stock through the annual meeting.
 2. Nominators may submit a statement not exceeding 500 words in support of each nominee to be included in the Company proxy.
 3. The number of shareholder-nominated candidates eligible to appear in proxy materials shall be one quarter of the directors then serving or two, whichever is greater
 4. No limitation shall be placed on the number of shareholders that can aggregate their shares to achieve the 3% of Required Stock
 5. No limitation shall be placed on the re-nomination of shareholder nominees by

Nominators based on the number or percentage of votes received in any election

6. The Company shall not require that Nominators pledge to hold stock after the annual meeting if their nominees fail to win election.

7. Loaned securities shall be counted as belonging to a nominating shareholder if the shareholder represents it has the legal right to recall those securities for voting purposes and will hold those securities through the date of the annual meeting.

Supporting Statement:

The SEC's universal proxy access Rule 14a-11 (<https://www.sec.gov/rules/final/2010/339136.pdf>) was vacated after a court decision regarding the SEC's cost-benefit analysis. Therefore, proxy access rights must be established on a company-by-company basis. Subsequently, *Proxy Access in the United States: Revisiting the Proposed SEC Rule* (<http://www.cfapubs.org/doi/pdf/10.2469/ccb.v2014.n9.1>) a cost-benefit analysis by CFA Institute, found proxy access would "benefit both the markets and corporate boardrooms, with little cost or disruption," raising US market capitalization by up to \$140.3 billion. *Public Versus Private Provision of Governance: The Case of Proxy Access* (<http://ssrn.com/abstract=2635695>) found a 0.5 percent average increase in shareholder value for proxy access targeted firms.

Proxy Access: Best Practices

(http://www.cii.org/files/publications/misc/08_05_15_Best%20Practices%20-

[0/020Proxy%20Access.pdf](http://www.cii.org/files/publications/misc/08_05_15_Best%20Practices%20-%20Proxy%20Access.pdf)) by the Council of Institutional Investors, "highlights the most troublesome provisions" in recently implemented access bylaws, such as the fact that even if the 20 largest public pension fund members were able to aggregate their shares, they would not meet the 3% criteria at most companies examined by the Council.

Adoption of bylaws with *all* the requested elements outlined above would help ensure meaningful proxy access is available to shareholders, even groups made up entirely of small shareholders, which is of critical importance at Reeds. Shareholders are tired of an unprofitable decade, constant refinancing and share dilution, as well as uncreative hand picked boards. Give shareholders an opportunity to choose two board directors who will know they work for us because we will be the ones nominating them-

Increase Shareholder Value

Vote for Shareholder Proxy Access Enhancement — Proposal [9]

James McRitchie, 9295 Yorkship Court, Elk Grove, CA 95758 sponsors this proposal

Board Recommendation

Our Board has carefully considered the foregoing stockholder proposal and unanimously recommends a vote **AGAINST** this "Shareholder Proxy Access" Proposal No. 9 for the following reasons:

The proposal is unnecessary because the Company's governing documents and policies already provide the Company's stockholders with the opportunity for meaningful input into the director nomination and election process.

We have an established record of best governance practices that are responsive to shareholders.

This proposal, if adopted by the Company, could result in repeated, disruptive and divisive director elections without benefit to the stockholders as a whole.

Proxy access sets up a procedure that creates an uneven playing field in which the Company bears substantial expense while a stockholder proponent of nominees need expend little resources to promote their candidacy.

To the Company's knowledge, the proponent did not submit this stockholder proposal based on any perceived Company-specific governance problem or shortcoming.

The proposal is unnecessary because the Company's governing documents and policies already provide the Company's stockholders with the opportunity for meaningful input into the director nomination and election process.

The Company's Board has delegated to its Governance Committee the responsibility to identify, evaluate and recommend nominees for election to the Board. As discussed under "Board Structure and Committees; Nomination of Directors" in this Proxy Statement, in identifying potential director candidates, the Governance Committee relies on any source available for the identification and recommendation of candidates, including stockholders. The Committee does not intend to alter the manner in which it evaluates candidates based on whether the candidate is recommended by a stockholder or not. Additionally, the Company's bylaws permit stockholders to nominate director candidates for consideration at annual stockholder meetings and to solicit proxies in favor of those candidates.

The Governance Committee endeavors to achieve for the Board an overall balance of diversity of experience at policy-making levels with a complimentary mix of skills and professional experience in areas relevant to the Company's business, while also ensuring that the size of the Board is appropriate to function effectively and efficiently. The Board believes that its Governance Committee is in the best position to review and recommend director nominees who have the skills and qualifications to enhance the effectiveness of the Board and who are free from conflicts of interest and will represent the interests of all stockholders and not just those with special interests. Proxy access bypasses the Governance Committee's process by placing directly into nomination candidates who may fail to meet the independence or other qualifications established by the Board or who may fail to contribute to the mix of needed skills and professional experience.

We have an established record of best governance practices and are responsive to shareholders.

Any shareholder may nominate directors pursuant to the Company's amended and restated bylaws and solicit proxies for director nominees under federal proxy rules;

Any shareholder may submit proposals for consideration at the Company's annual meeting and for inclusion in the Company's proxy statement, subject to certain conditions and SEC rules and regulations;

Stockholder may express their views on our executive compensation program through an annual "say-on-pay" vote;

We have majority voting;

Our Board adopted a director resignation policy consistent with the Company's majority voting standard and we have adopted changes to the advance notice provision in our bylaws to address the potential problem of a holdover director;

Five of seven of our Board nominees are independent under the rules of NYSE American Market; and

Our Chief Executive Officer and Chairman positions are separate.

This proposal, if adopted by the Company, could result in repeated, expensive, disruptive and divisive director elections without benefit to the stockholders as a whole.

Bypasses Current Processes

The Board's Governance Committee serves an important function in considering the effectiveness of the Board and in identifying, assessing and recommending nominees who possess a combination of skills, professional experience and diversity of background necessary to oversee the Company's business. The Governance Committee also considers

whether a candidate would contribute to an effective, well-rounded and diverse Board that operates openly and collaboratively and represents the best interests of all shareholders. Nominees proposed through proxy access are not subject to any evaluation or screening by the Governance Committee and therefore proxy access could result in loss of important skills, experience and diversity on the Board.

Furthermore, there is no limit on the ability of shareholders, even the same ones, to advance additional candidates in subsequent years, and the proxy access proposal does not require that nominating shareholders disclaim any intent to effect a change in control. Such shareholders' true intentions would be unknown. Such lack of important safeguards against abuse of the proxy access mechanism is not in the best interest of our shareholders and could cause abrupt changes in our Board.

Increasing Likelihood of Special Interest Directors

In addition, stockholder activists could publicize and promote special interest agendas at the expense of the Company's stockholders by nominating directors for the Board, which could lead to the election of "special interest directors" who may be inclined to represent the interests of the stockholders who nominated them and not the interests of all of the Company's stockholders. The nomination of candidates through the proponent's proxy access proposal would convert each such Board election into a contested election in which the proposed director nominees would only need to win a plurality of votes to be elected.

Disruption

This proposal, if implemented, could have a tremendously disruptive effect by turning director elections into proxy contests, effectively requiring the expenditure of significant management resources in a manner inconsistent with the creation of stockholder value and discouraging qualified directors from serving on the Board. One of the principal reasons that the United States Court of Appeals for the District of Columbia invalidated the Securities Exchange Commission's proxy access rule was that the Court determined that the Securities Exchange Commission did not adequately assess the potential for increased proxy contests and the increased expenses and distractions resulting from proxy contests.

Further, a director elected by one shareholder group in one year may face successful opposition from a director nominated by another shareholder group in a subsequent year, setting up ongoing instability on the Board. The potential disruption of perennial proxy contests would substantially distract the Board from its highest value activities, would contravene our shareholders' focus on the adoption of governance practices that enhance their long-term economic interests, and could discourage highly qualified candidates from serving on the Board, causing higher turnover and resulting in a less experienced Board.

Proxy access sets up a procedure that creates an uneven playing field in which the Company bears substantial expense while a stockholder proponent of nominees need expend little resources to promote their candidacy. Electronic delivery of proxy materials has substantially reduced the cost of third-party solicitations of proxy statements.

Proxy access sets up a procedure that creates an uneven playing field in which the Company bears substantial expense while a stockholder proponent of nominees for election need expend little resources to promote their candidacy. The Company already bears the expense of filing and distributing proxy materials, which would be required to include the proponents' stockholder nominees, and the Board is likely to feel compelled to undertake an additional and expensive campaign to inform stockholders of the reasons the Board's nominees, and not the proponents' nominees, should be elected. Further, a stockholder activist seeking to publicize and promote a special interest agenda could use the threat of a contested election solely to extract concessions from the Company relating to that special interest.

The Securities Exchange Commission allows such proponents to distribute their proxy materials relating to their director candidates electronically by posting the materials on the Internet and giving stockholders a notice of their availability. Electronic delivery of proxy materials has substantially reduced the mailing and printing costs associated with third party solicitations. By utilizing the additional flexibility provided by electronic delivery of proxy materials, stockholders have a greater ability to express their views on and influence the outcome of annual elections than ever before.

We believe that stockholders holding 3% of the Company's outstanding shares (which would constitute approximately \$955,352 worth of shares based on the August 30, 2017 closing price), if they have a legitimate interest in selecting directors to sit on the Board, should be financially capable of bearing the expense of soliciting proxies rather than shifting those costs to the Company and, therefore, to its other stockholders.

To the Company's knowledge, the proponent did not submit this stockholder proposal based on any perceived Company-specific governance problem or shortcoming.

The proponents of this stockholder proposal submitted a similar proposal regarding proxy access at our 2016 Annual Meeting of Stockholders. That proposal was defeated by a majority vote of our stockholders. The Board is aware that the proponent has submitted this proposal to numerous in an effort to lead toward the adoption of a standard for public companies, and to the Company's knowledge, the Company was selected solely because of the industry in which it operates. The Board intends to continue to monitor developments in the area of proxy access and to listen to its stockholders, but does not believe that this "one-size-fits-all" approach is in the best interests of the Company's stockholders.

Vote Required

The affirmative vote of the majority of the shares represented at the meeting and entitled to vote is required to adopt the Shareholder Proxy Access proposal.

The board of directors recommends a vote "AGAINST" this Proposal No. 9.

HOUSEHOLDING

The SEC has adopted rules that permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement or Notice of Internet Availability of Proxy Materials addressed to those stockholders. This practice, known as “householding”, is designed to reduce the volume of duplicate information and reduce printing and postage costs.

If you and others who share your mailing address own our common stock in street name, meaning through bank or brokerage accounts, you may have received a notice that your household will receive only one annual report and proxy statement or Notice of Internet Availability of Proxy Materials from each company whose stock is held in such accounts. Unless you responded that you did not want to participate in householding, you were deemed to have consented to it and a single copy of our proxy statement and annual report or Notice of Internet Availability of Proxy Materials has been sent to your address.

We will promptly deliver separate copies of our proxy statement and annual report at the request of any stockholder who is in a household that participates in the householding of our proxy materials. You may send your request by mail to Reed’s Inc., 13000 South Spring Street, Los Angeles, California 90061, attention: Judy Holloway Reed, Secretary, or by telephone at (310) 217-9400.

STOCKHOLDER PROPOSALS FOR NEXT YEAR’S ANNUAL MEETING

Stockholder proposals for inclusion in our proxy statement: If a stockholder wishes to present a proposal to be included in our proxy statement and form of proxy for the 2018 Annual Meeting of Stockholders, the proponent and the proposal must comply with the proxy proposal submission rules of the SEC and namely, Securities Exchange Act Rule 14a-8. One of the requirements is that the proposal be received by our Secretary no later than May 4, 2018, which is 120 calendar days before September 1, 2018 - the anniversary date of this Proxy Statement was released to stockholders in connection with the 2017 Annual Meeting. If the date of next year’s annual meeting is changed by more than 30 days from the anniversary date of this year’s Annual Meeting on September 29, 2017, then the deadline is a reasonable time before we begin to print and mail proxy materials. Proposals we receive after that date will not be included in the proxy statement for the 2018 Annual Meeting of Stockholders.

Other stockholder proposals: A stockholder proposal not included in our proxy statement for the 2018 Annual Meeting of Stockholders will not be eligible for presentation at the meeting unless the stockholder gives timely notice of the proposal in writing to our Secretary at our principal executive offices and otherwise complies with the

provisions of our bylaws. The bylaws provide that we must have received the stockholder's notice not more than 120 days in advance of the one-year anniversary of the date of the previous year's Annual Meeting of Stockholders. To be timely, a stockholder proposal not included in our proxy statement for the 2018 Annual Meeting of Stockholders must be received by our Secretary no later than June 1, 2018, provided, however, that if the date of the annual meeting is more than thirty (30) days before or sixty (60) days after such anniversary date, such notice will be timely only if so delivered or mailed and received no later than the later of one hundred twenty (120) days prior to the date of the meeting or ten (10) days after the first public announcement of the date of the annual meeting. Except to the extent otherwise required by law, the adjournment of a meeting of stockholders shall not commence a new time period for the giving of a stockholder's notice as describe above. The presiding officer of the meeting may refuse to acknowledge any matter not made in compliance with the foregoing procedure and provisions of our bylaws.

We urge stockholders to submit all proposals by Certified Mail - Return Receipt Requested. Stockholder proposals should be sent to 13000 South Spring Street, Los Angeles, California 90061, attention: Judy Holloway Reed, Secretary.

3. Stock Subject to the Plan

(a) Stock Subject to the Plan

The maximum number of shares of Common Stock that may be covered by Stock Incentive Awards granted under the Plan shall not exceed 3,000,000 shares of Common Stock in the aggregate. Out of such aggregate, the maximum number of shares of Common Stock that may be covered by Options that are designated as “incentive stock options” within the meaning of section 422 of the Code shall not exceed 3,000,000 shares of Common Stock. The maximum number of shares referred to in the preceding sentences of this Section 3(a) shall in each case be subject to adjustment as provided in Section 9 and the following provisions of this Section 3. Of the shares described, one hundred percent may be delivered in connection with “full-value Awards,” meaning Stock Incentive Awards other than Options or stock appreciation rights; provided, however, that any shares granted under Options or stock appreciation rights shall be counted against the share limit on a one-for-one basis and any shares granted as full-value Stock Incentive Awards shall be counted against the share limit as one share for every one share subject to such Stock Incentive Award. Shares of Common Stock issued under the Plan may be authorized and unissued shares, treasury shares, shares purchased by the Company in the open market, or any combination of the preceding categories as the Committee determines in its sole discretion.

For purposes of the preceding paragraph, shares of Common Stock covered by Stock Incentive Awards shall only be counted as used to the extent they are actually issued and delivered to a Participant (or such Participant's permitted transferees as described in the Plan) pursuant to the Plan; provided, however, that if a Stock Incentive Award is settled for cash or if shares of Common Stock are withheld to pay the exercise price of an Option or to satisfy any tax withholding requirement in connection with a Stock Incentive Award, the shares issued (if any) in connection with such settlement, the shares in respect of which the Stock Incentive Award was cash-settled, and the shares withheld, will be deemed delivered for purposes of determining the number of shares of Common Stock that are available for delivery under the Plan. In addition, if shares of Common Stock are issued subject to conditions which may result in the forfeiture, cancellation, or return of such shares to the Company, any portion of the shares forfeited, cancelled or returned shall be treated as not issued pursuant to the Plan. In addition, if shares of Common Stock owned by a Participant (or such Participant's permitted transferees as described in the Plan) are tendered (either actually or through attestation) to the Company in payment of any obligation in connection with a Stock Incentive Award, the number of shares tendered shall be added to the number of shares of Common Stock that are available for delivery under the Plan.

Shares of Common Stock covered by Stock Incentive Awards granted pursuant to the Plan in connection with the assumption, replacement, conversion, or adjustment of outstanding equity-based awards in the context of a corporate acquisition or merger (within the meaning of section 303A.08 of the NYSE Listed Company Manual) shall not count as used under the Plan for purposes of this Section 3.

(b) Individual Award Limits

Subject to adjustment as provided in Section 9, the maximum number of shares of Common Stock that may be covered by Stock Incentive Awards granted under the Plan to any Covered Employee in any calendar year shall not exceed Fair Market Value of \$1,000,000. For purposes of the preceding sentences, the phrase "amount payable with respect to any calendar year" means the amount of cash, or value of other property, required to be paid based on the achievement of applicable Performance Measures during a Performance Period that ends in such calendar year, disregarding any deferral pursuant to the terms of a Deferred Compensation Plan unless the terms of the deferral are intended to comply with the requirements for qualified performance-based compensation under section 162(m) of the Code.

4. Administration of the Plan

The Plan shall be administered by a Committee consisting of two or more persons, each of whom qualifies as a "non-employee director" (within the meaning of Rule 16b-3 promulgated under section 16 of the Exchange Act), an "outside director" within the meaning of Treasury Regulation section 1.162-27(e)(3) and as "independent" as required by NYSE or any security exchange on which the Common Stock is listed, in each case if and to the extent required by applicable law or necessary to meet the requirements of such rule, section or listing requirement at the time of

determination. The Committee shall, consistent with the terms of the Plan, from time to time designate those individuals who shall be granted Stock Incentive Awards under the Plan and the amount, type, and other terms and conditions of such Stock Incentive Awards. All of the powers and responsibilities of the Committee under the Plan may be delegated by the Committee, in writing, to any subcommittee thereof, in which case the acts of such subcommittee shall be deemed to be acts of the Committee hereunder. The Committee may also from time to time authorize a subcommittee consisting of one or more members of the Board of Directors (including members who are employees of the Company) or employees of the Company to grant Stock Incentive Awards to persons who are not “executive officers” of the Company (within the meaning of Rule 16a-1 under the Exchange Act), subject to such restrictions and limitations as the Committee may specify and to the requirements of section 157 of the Delaware General Corporation Law.

The Committee shall have full discretionary authority to administer the Plan, including discretionary authority to interpret and construe any and all provisions of the Plan and any Award Agreement thereunder, and to adopt, amend, and rescind from time to time such rules and regulations for the administration of the Plan, including rules and regulations related to sub-plans established for the purpose of satisfying applicable foreign laws and/or qualifying for preferred tax treatment under applicable foreign tax laws, as the Committee may deem necessary or appropriate. Decisions of the Committee shall be final, binding, and conclusive on all parties. For the avoidance of doubt, the Committee may exercise all discretion granted to it under the Plan in a non-uniform manner among Participants.

The Committee may delegate the administration of the Plan to one or more officers or employees of the Company, and such administrator(s) may have the authority to execute and distribute Award Agreements, to maintain records relating to Stock Incentive Awards, to process or oversee the issuance of Common Stock under Stock Incentive Awards, to interpret and administer the terms of Stock Incentive Awards, and to take such other actions as may be necessary or appropriate for the administration of the Plan and of Stock Incentive Awards under the Plan, provided that in no case shall any such administrator be authorized (i) to grant Stock Incentive Awards under the Plan (except in connection with any delegation made by the Committee pursuant to the first paragraph of this Section 4), (ii) to take any action that would cause Stock Incentive Awards intended to qualify as Performance-Based Compensation to fail to so qualify, (iii) to take any action inconsistent with section 409A of the Code, or (iv) to take any action inconsistent with applicable provisions of the Delaware General Corporation Law. Any action by any such administrator within the scope of its delegation shall be deemed for all purposes to have been taken by the Committee and, except as otherwise specifically provided, references in this Plan to the Committee shall include any such administrator. The Committee and, to the extent it so provides, any subcommittee, shall have sole authority to determine whether to review any actions and/or interpretations of any such administrator, and if the Committee shall decide to conduct such a review, any such actions and/or interpretations of any such administrator shall be subject to approval, disapproval, or modification by the Committee.

On or after the date of grant of a Stock Incentive Award under the Plan, the Committee may (i) accelerate the date on which any such Stock Incentive Award becomes vested, exercisable, or transferable, as the case may be, (ii) extend the term of any such Stock Incentive Award, including, without limitation, extending the period following a termination of a Participant's Employment during which any such Stock Incentive Award may remain outstanding, (iii) waive any conditions to the vesting, exercisability, or transferability, as the case may be, of any such Stock Incentive Award or (iv) provide for the payment of dividends or dividend equivalents with respect to any such Stock Incentive Award; provided, that the Committee shall not have any such authority to the extent that the grant of such authority would cause any tax to become due under section 409A of the Code. Notwithstanding anything herein to the contrary, the Company shall not reprice any stock option (within the meaning of Section 711 of the NYSE American Company Guide and any other formal or informal guidance issued by the NYSE) without the approval of the shareholders of the Company.

No member of the Committee shall be liable for any action, omission, or determination relating to the Plan, and the Company shall indemnify and hold harmless each member of the Committee and each other director or employee of the Company to whom any duty or power relating to the administration or interpretation of the Plan has been delegated, against any cost or expense (including counsel fees) or liability (including any sum paid in settlement of a claim with the approval of the Committee) arising out of any action, omission, or determination relating to the Plan,

unless, in either case, such action, omission, or determination was taken or made by such member, director, or employee in bad faith and without reasonable belief that it was in the best interests of the Company.

5. Eligibility

The Persons who shall be eligible to receive Stock Incentive Awards pursuant to the Plan shall be those employees, non-employee directors, consultants, and other selected service providers of the Company whom the Committee shall select from time to time, including officers of the Company, whether or not they are directors. Each Stock Incentive Award granted under the Plan shall be evidenced by an Award Agreement.

6. Options

The Committee may from time to time grant Options on such terms as it shall determine, subject to the terms and conditions set forth in the Plan. The Award Agreement shall clearly identify such Option as either an “incentive stock option” within the meaning of section 422 of the Code or as a non-qualified stock option.

(a) Exercise Price

The exercise price per share of Common Stock covered by any Option shall be not less than one hundred percent of the Fair Market Value of a share of Common Stock on the date on which such Option is granted, other than assumptions in accordance with a corporate acquisition or merger as described in Section 3.

(b) Term and Exercise of Options

(1) Each Option shall become vested and exercisable on such date or dates, during such period and for such number of shares of Common Stock as shall be determined by the Committee on or after the date such Option is granted; provided, however that no Option shall be exercisable after the expiration of ten years from the date such Option is granted; and, provided, further, that each Option shall be subject to earlier termination, expiration, or cancellation as provided in the Plan or the Award Agreement.

(2) Each Option shall be exercisable in whole or in part; provided, however that no partial exercise of an Option shall be for an aggregate exercise price of less than \$1,000 (unless waived by the Committee). The partial exercise of an Option shall not cause the expiration, termination, or cancellation of the remaining portion thereof.

(3) An Option shall be exercised by such methods and procedures as the Committee determines from time to time, including without limitation through net physical settlement or other method of cashless exercise.

(c) Special Rules for Incentive Stock Options

(1) The aggregate Fair Market Value of shares of Common Stock with respect to which “incentive stock options” (within the meaning of section 422 of the Code) are exercisable for the first time by a Participant during any calendar year under the Plan and any other stock option plan of the Company or any of its “subsidiaries” (within the meaning of section 424 of the Code) shall not exceed \$100,000. Such Fair Market Value shall be determined as of the date on which each such stock option is granted. In the event that the aggregate Fair Market Value of shares of Common Stock with respect to such incentive stock options exceeds \$100,000, then incentive stock options granted hereunder to such Participant shall, to the extent and in the order required by regulations promulgated under the Code (or any other authority having the force of regulations), automatically be deemed to be non-qualified stock options, but all other terms and provisions of such stock options shall remain unchanged. In the absence of such regulations (and authority), or in the event such regulations (or authority) require or permit a designation of the Options which shall cease to constitute incentive stock options, incentive stock options granted hereunder shall, to the extent of such excess and in the order in which they were granted, automatically be deemed to be non-qualified stock options, but all other terms and provisions of such stock options shall remain unchanged.

(2) Incentive stock options may only be granted to individuals who are employees of the Company. No incentive stock option may be granted to an individual if, at the time of the proposed grant, such individual owns stock possessing more than ten percent of the total combined Voting Power of all classes of stock of the Company or any of its “subsidiaries” (within the meaning of section 424 of the Code), unless (i) the exercise price of such incentive stock option is at least 110 percent of the Fair Market Value of a share of Common Stock at the time such incentive stock option is granted and (ii) such incentive stock option is not exercisable after the expiration of five years from the date such incentive stock option is granted.

7. Other Stock-Based Awards

The Committee may from time to time grant equity-based or equity-related awards not otherwise described herein in such amounts and on such terms as it shall determine, subject to the terms and conditions set forth in the Plan. Without limiting the generality of the preceding sentence, each such Other Stock-Based Award may (i) involve the transfer of actual shares of Common Stock to Participants, either at the time of grant or thereafter, or payment in cash or otherwise of amounts based on the value of shares of Common Stock, (ii) be subject to performance-based and/or service-based conditions, (iii) be in the form of stock appreciation rights, phantom stock, restricted stock, restricted stock units, performance shares, deferred share units, or share-denominated performance units, (iv) be designed to comply with applicable laws of jurisdictions other than the United States, and (v) be designed to qualify as Performance-Based Compensation; provided, that each Other Stock-Based Award shall be denominated in, or shall have a value determined by reference to, a number of shares of Common Stock that is specified at the time of the grant of such Stock Incentive Award.

8. Performance-Based Compensation

(a) Calculation

The amount payable with respect to a Stock Incentive Award that is intended to qualify as Performance-Based Compensation shall be determined in any manner permitted by section 162(m) of the Code.

(b) Discretionary Reduction

Unless otherwise specified in the Award Agreement, the Committee may, in its discretion, reduce or eliminate the amount payable to any Participant with respect to the Stock Incentive Award, based on such factors as the Committee may deem relevant, but the Committee may not increase any such amount above the amount established in accordance

with the relevant Performance Schedule. For purposes of clarity, the Committee may exercise the discretion provided for by the foregoing sentence in a non-uniform manner among Participants.

(c) Performance Measures

The performance goals upon which the payment or vesting of any Stock Incentive Award (other than Options and stock appreciation rights) that is intended to qualify as Performance-Based Compensation depends shall (a) be objective business criteria and shall otherwise meet the requirements of section 162(m) of the Code, including the requirement that the level or levels of performance targeted by the Committee result in the achievement of performance goals being “substantially uncertain” at the time of grant and (b) relate to one or more of the following Performance Measures: market price of the Common Stock, net earnings, earnings before or after any or all of interest, taxes, depreciation, and amortization, net income (including, net income or operating income), cash flow (including, operating cash flow, free cash flow, and cash flow return on capital), cash position, cash valued added, customer satisfaction or growth measures, safety, revenues (including net revenues, net revenue growth or gross revenue), enterprise value, financial return ratios, market performance, margins (including gross margins or operating margins), productivity or efficiency ratios, costs, profits (including net profits, net operating profits, gross profit, gross profit growth, and profit returns or margins), earnings per share, stock price, working capital turnover and targets, total shareholder return, economic value added or other value added measurements, return on assets, return on capital or invested capital, return on equity, return on sales, new product innovation, product release schedules or ship targets, product cost reduction, inventory or supply chain management activities, and budget and expense management.

A Performance Measure (i) may relate to the performance of the Participant, the Company, a Subsidiary, any business group, business unit, or other subdivision of the Company, or any combination of the foregoing, as the Committee deems appropriate and (ii) may be expressed as an amount, as an increase or decrease over a specified period, as a relative comparison to the performance of a group of comparator companies or a published or special index, or any other measure of the selected performance criteria, as the Committee deems appropriate. The measurement of any Performance Measure shall exclude the impact positive and/or negative of unusual and/or infrequently occurring items or expenses; charges for restructurings; discontinued operations; acquisitions or divestitures; the cumulative effect of changes in accounting treatment; changes in tax laws, accounting standards or principles or other laws or regulatory rules affecting reporting results; any impact of impairment of tangible or intangible assets; any impact of the issuance or repurchase of equity securities and/or other changes in the number of outstanding shares of any class of the Company's equity securities; any gain, loss, income, or expense attributable to acquisitions or dispositions of stock or assets; stock-based compensation expense; asset write-downs, in-process research and development expense; gain or loss from all or certain claims and/or litigation and insurance recoveries; foreign exchange gains and losses; any impact of changes in foreign exchange rates and any changes in currency; a change in the Company's fiscal year; and any other items, each determined in accordance with United States generally accepted accounting principles and as identified in the Company's audited financial statements, including the notes thereto.

(d) Performance Schedules

Within ninety days after the beginning of a Performance Period, and in any case before twenty-five percent of the Performance Period has elapsed, the Committee shall establish (a) Performance Targets for such Performance Period, (b) Target Awards for each Participant, and (c) Performance Schedules for such Performance Period.

(e) Committee Discretion

Nothing in this Plan is intended to limit the Committee's discretion to adopt conditions with respect to any Stock Incentive Award that is not intended to qualify as Performance-Based Compensation that relate to performance other than the Performance Measures. Furthermore, nothing in this Plan shall be construed to require the Committee to grant any Award intended to qualify as Performance-Based Compensation. The Committee may, subject to the terms of the Plan, amend previously granted Stock Incentive Awards in a way that disqualifies them as Performance-Based Compensation.

(f) Committee Determinations

Determinations by the Committee as to the establishment of Performance Measures, the level of actual achievement of Performance Targets, and the amount payable with respect to a Stock Incentive Award intended to qualify as

Performance-Based Compensation shall be recorded in writing. Specifically, the Committee shall certify in writing, in a manner conforming to applicable regulations under section 162(m) of the Code, prior to settlement of each such Stock Incentive Award granted to a Covered Employee, that the Performance Targets and other material terms upon which settlement of the Stock Incentive Award was conditioned have been satisfied.

9. Adjustment upon Certain Changes

Subject to any action by the shareholders of the Company required by law, applicable tax rules or the rules of any exchange on which shares of common stock of the Company are listed for trading:

(a) Shares Available for Grants

In the event of any change in the number of shares of Common Stock outstanding by reason of any stock dividend or split, recapitalization, merger, consolidation, combination, or exchange of shares or similar corporate change, the maximum aggregate number or type of shares of Common Stock with respect to which the Committee may grant Stock Incentive Awards, the maximum number of shares of Common Stock that may be covered by Options that are designated as “incentive stock options” within the meaning of section 422 of the Code and the maximum aggregate number of shares of Common Stock with respect to which the Committee may grant Stock Incentive Awards to any individual Participant in any year and to any non-employee director shall be appropriately adjusted or substituted by the Committee. In the event of any change in the type or number of shares of Common Stock of the Company outstanding by reason of any other event or transaction, the Committee shall, to the extent deemed appropriate by the Committee, make such adjustments to the type or number of shares of Common Stock with respect to which Stock Incentive Awards may be granted.

(b) Increase or Decrease in Issued Shares Without Consideration

In the event of any increase or decrease in the number of issued shares of Common Stock resulting from a subdivision or consolidation of shares of Common Stock or the payment of a stock dividend (but only on the shares of Common Stock), or any other increase or decrease in the number of such shares effected without receipt or payment of consideration by the Company, the Committee shall, to the extent deemed appropriate by the Committee, adjust the type or number of shares of Common Stock subject to each outstanding Stock Incentive Award and the exercise price per share of Common Stock of each such Stock Incentive Award.

(c) Certain Mergers and Other Transactions

In the event of any merger, consolidation, or similar transaction as a result of which the holders of shares of Common Stock receive consideration consisting exclusively of securities of the surviving corporation in such transaction, the Committee shall, to the extent deemed appropriate by the Committee, adjust each Stock Incentive Award outstanding on the date of such merger or consolidation so that it pertains and applies to the securities which a holder of the

number of shares of Common Stock subject to such Stock Incentive Award would have received in such merger or consolidation.

In the event of (i) a dissolution or liquidation of the Company, (ii) a sale of all or substantially all of the Company's assets (on a consolidated basis), (iii) a merger, consolidation, or similar transaction involving the Company in which the holders of shares of Common Stock receive securities and/or other property, including cash, other than shares of the surviving corporation in such transaction, the Committee shall, to the extent deemed appropriate by the Committee, have the power to:

(i) cancel, effective immediately prior to the occurrence of such event, each Stock Incentive Award (whether or not then exercisable or vested), and, in full consideration of such cancellation, pay to the Participant to whom such Stock Incentive Award was granted an amount in cash, for each share of Common Stock subject to such Stock Incentive Award, equal to the value, as determined by the Committee, of such Stock Incentive Award, provided that with respect to any outstanding Option such value shall be equal to the excess of (A) the value, as determined by the Committee, of the property (including cash) received by the holder of a share of Common Stock as a result of such event over (B) the exercise price of such Option; or

(ii) provide for the exchange of each Stock Incentive Award (whether or not then exercisable or vested) for a Stock Incentive Award with respect to (A) some or all of the property which a holder of the number of shares of Common Stock subject to such Stock Incentive Award would have received in such transaction or (B) securities of the acquiror or surviving entity and, incident thereto, make an equitable adjustment as determined by the Committee in the exercise price of the Stock Incentive Award, or the number of shares or amount of property subject to the Stock Incentive Award or provide for a payment (in cash or other property) to the Participant to whom such Stock Incentive Award was granted in partial consideration for the exchange of the Stock Incentive Award.

(d) Other Changes

In the event of any change in the capitalization of the Company, corporate change, corporate transaction or other event other than those specifically referred to in Sections 9(a), (b) or (c), the Committee shall, to the extent deemed appropriate by the Committee, make such adjustments in the number and class of shares subject to Stock Incentive Awards outstanding on the date on which such change occurs and in such other terms of such Stock Incentive Awards as the Committee deems appropriate.

(e) No Other Rights

Except as expressly provided in the Plan or any Award Agreement, no Participant shall have any rights by reason of any subdivision or consolidation of shares of stock of any class, the payment of any dividends or dividend equivalents, any increase or decrease in the number of shares of stock of any class or any dissolution, liquidation, merger, or consolidation of the Company or any other corporation. Except as expressly provided in the Plan, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number of shares or amount of other property subject to, or the terms related to, any Stock Incentive Award.

(f) Savings Clause

No provision of this Section 9 shall be given effect to the extent that such provision would cause any tax to become due under section 409A of the Code.

With respect to Stock Incentive Awards which are granted to Covered Employees and are intended to qualify as Performance-Based Compensation, no provision of this Section 9 shall be given effect to the extent that such provision would cause such Stock Incentive Award to fail to so qualify as Performance-Based Compensation under

section 162(m) of the Code unless the Committee expressly acknowledges and affirms such consequences.

10. Change-in-Control: Termination of Employment

(a) Change-in-Control

The consequences of a Change-in-Control, if any, will be set forth in the Award Agreement in addition to what is provided in Section 10 hereof.

(b) Termination of Employment

(1) Except as to any awards constituting stock rights subject to section 409A of the Code, termination of Employment shall mean a separation from service within the meaning of section 409A of the Code, unless the Participant is retained as a consultant pursuant to a written agreement and such agreement provides otherwise. Without limiting the generality of the foregoing, the Committee shall determine whether an authorized leave of absence, or absence in military or government service, shall constitute termination of Employment, provided that a Participant who is an employee will not be deemed to cease employment in the case of any leave of absence approved by the Company. Furthermore, no payment shall be made with respect to any Stock Incentive Awards under the Plan that are subject to section 409A of the Code as a result of any such authorized leave of absence or absence in military or government service unless such authorized leave or absence constitutes a separation from service for purposes of section 409A of the Code and the regulations promulgated thereunder.

(2) Unless otherwise specified in the Award Agreement, no Stock Incentive Award will continue to vest after termination of Employment and the consequences with respect to any Option of the termination of Employment of the Participant holding the Option shall be as follows:

(i) If the Participant's termination of Employment occurs prior to the Option's expiration date, for any reason whatsoever other than death or authorized retirement (as defined in subparagraph (ii) below), any unexercised portion of the Award shall terminate automatically.

(ii) If a Participant retires upon reaching the Company's normal retirement age or earlier, with the written consent of the Company, because of physical or mental disability (collectively, "authorized retirement"), any unexercised or unvested portion of the Option shall expire three months after the effective date of such authorized retirement. The Participant may exercise all or any vested portion of a Option from the date of his or her authorized retirement to three months thereafter.

(iii) If prior to the expiration date of the Option, the Participant dies while employed by the Company or its subsidiary or within three months of his or her authorized retirement, the Participant's estate, heirs or legatees shall have the privilege of exercising all or part of the unexercised Option within six months after the Participant's death.

Nothing contained in this Section shall extend the time for exercising all or any part of the then unexercised portion of an Option.

11. Rights Under the Plan

No Person shall have any rights as a shareholder with respect to any shares of Common Stock covered by or relating to any Stock Incentive Award until the date of the issuance of such shares on the books and records of the Company. Except as otherwise expressly provided in Section 9 hereof, no adjustment of any Stock Incentive Award shall be made for dividends or other rights for which the record date occurs prior to the date of such issuance. Nothing in this Section 11 is intended, or should be construed, to limit authority of the Committee to cause the Company to make payments based on the dividends that would be payable with respect to any share of Common Stock if it were issued or outstanding, or from granting rights related to such dividends.

The Company shall not have any obligation to establish any separate fund or trust or other segregation of assets to provide for payments under the Plan. To the extent any person acquires any rights to receive payments hereunder from the Company, such rights shall be no greater than those of an unsecured creditor.

12. No Special Employment Rights; No Right to Stock Incentive Awards

(a) Nothing contained in the Plan or any Award Agreement shall confer upon any Participant any right with respect to the continuation of his or her Employment by the Company or interfere in any way with the right of the Company at any time to terminate such Employment or to increase or decrease the compensation of the Participant from the rate in existence at the time of the grant of a Stock Incentive Award.

(b) No person shall have any claim or right to receive a Stock Incentive Award hereunder. The Committee's granting of a Stock Incentive Award to a Participant at any time shall neither require the Committee to grant a Stock Incentive Award to such Participant or any other Participant or other person at any time nor preclude the Committee from making subsequent grants to such Participant or any other Participant or other person.

13. Securities Matters

(a) The Company shall be under no obligation to affect the registration pursuant to the Securities Act of any shares of Common Stock to be issued hereunder or to effect similar compliance under any state or local laws. Notwithstanding anything herein to the contrary, the Company shall not be obligated to cause to be issued shares of Common Stock pursuant to the Plan unless and until the Company is advised by its counsel that the issuance is in compliance with all applicable laws, regulations of governmental authority, and the requirements of any securities exchange on which shares of Common Stock are traded. The Committee may require, as a condition to the issuance of shares of Common Stock pursuant to the terms hereof, that the recipient of such shares make such covenants, agreements, and representations, and that any related certificates representing such shares bear such legends, as the Committee, in its sole discretion, deems necessary or desirable.

(b) The exercise or settlement of any Stock Incentive Award (including, without limitation, any Option) granted hereunder shall only be effective at such time as counsel to the Company shall have determined that the issuance and delivery of shares of Common Stock pursuant to such exercise is in compliance with all applicable laws, regulations of governmental authority, and the requirements of any securities exchange on which shares of Common Stock are traded. The Company may, in its sole discretion, defer the effectiveness of any exercise or settlement of a Stock Incentive Award granted hereunder in order to allow the issuance of shares pursuant thereto to be made pursuant to registration or an exemption from registration or other methods for compliance available under federal or state or local securities laws. The Company shall inform the Participant in writing of its decision to defer the effectiveness of the exercise or settlement of a Stock Incentive Award granted hereunder. During the period that the effectiveness of the exercise of a Stock Incentive Award has been deferred, the Participant may, by written notice, withdraw such exercise and obtain the refund of any amount paid with respect thereto.

14. Withholding Taxes

(a) Cash Remittance

Whenever withholding tax obligations are incurred in connection with any Stock Incentive Award, the Company shall have the right to require the Participant to remit to the Company in cash an amount sufficient to satisfy federal, state, and local withholding tax requirements, if any, attributable to such event. In addition, upon the exercise or settlement of any Stock Incentive Award in cash, or the making of any other payment with respect to any Stock Incentive Award (other than in shares of Common Stock), the Company shall have the right to withhold from any payment required to be made pursuant thereto an amount sufficient to satisfy the federal, state, and local withholding tax requirements, if any, attributable to such exercise, settlement, or payment.

(b) Stock Remittance

At the election of the Participant, subject to the approval of the Committee, whenever withholding tax obligations are incurred in connection with any Stock Incentive Award, the Participant may tender to the Company (including by attestation) a number of shares of Common Stock having a Fair Market Value at the tender date determined by the Committee to be sufficient to satisfy the minimum federal, state, and local withholding tax requirements, if any, attributable to such event. Such election shall satisfy the Participant's obligations under Section 14(a) hereof, if any.

(c) Stock Withholding

At the election of the Participant, subject to the approval of the Committee, whenever withholding tax obligations are incurred in connection with any Stock Incentive Award, the Company shall withhold a number of such shares having a Fair Market Value determined by the Committee to be sufficient to satisfy the minimum federal, state, and local withholding tax requirements, if any, attributable to such event. Such election shall satisfy the Participant's obligations under Section 14(a) hereof, if any.

15. No Obligation to Exercise

The grant to a Participant of a Stock Incentive Award shall impose no obligation upon such Participant to exercise such Stock Incentive Award.

16. Transfers

Stock Incentive Awards may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of a Participant, only by the Participant; provided, however that the Committee may permit Options or other Stock Incentive Awards that are not incentive stock options to be sold, pledged, assigned, hypothecated, transferred, or disposed of, on a general or specific basis, subject to such conditions and limitations as the Committee may determine. Upon the death of a Participant, outstanding Stock Incentive Awards granted to such Participant may be exercised only by the executors or administrators of the Participant's estate or by any person or persons who shall have acquired such right to exercise by will or by the laws of descent and distribution. No transfer by will or the laws of descent and distribution of any Stock Incentive Award, or the right to exercise any Stock Incentive Award, shall be effective to bind the Company unless the Committee shall have been furnished with (a) written notice thereof and with a copy of the will and/or such evidence as the Committee may deem necessary to establish the validity of the transfer and (b) an agreement by the transferee to comply with all the terms and conditions of the Stock Incentive Award that are or would have been applicable to the Participant and to be bound by the acknowledgements made by the Participant in connection with the grant of the Stock Incentive Award.

17. Expenses and Receipts

The expenses of the Plan shall be paid by the Company. Any proceeds received by the Company in connection with any Stock Incentive Award will be used for general corporate purposes.

18. Failure to Comply

In addition to the remedies of the Company elsewhere provided for herein, failure by a Participant to comply with any of the terms and conditions of the Plan or any Award Agreement, unless such failure is remedied by such Participant within ten days after having been notified of such failure by the Committee, shall be grounds for the cancellation and forfeiture of such Stock Incentive Award, in whole or in part, as the Committee, in its absolute discretion, may determine.

19. Relationship to Other Benefits

No payment with respect to any Stock Incentive Awards under the Plan shall be taken into account in determining any benefits under any pension, retirement, profit sharing, group insurance, or other benefit plan of the Company except as otherwise specifically provided in such other plan.

20. Governing Law

The Plan and the rights of all persons under the Plan shall be construed and administered in accordance with the laws of the State of Delaware without regard to its conflict of law principles.

21. Severability

If all or any part of this Plan is declared by any court or governmental authority to be unlawful or invalid, such unlawfulness or invalidity shall not serve to invalidate any portion of this Plan not declared to be unlawful or invalid. Any Section or part of a Section so declared to be unlawful or invalid shall, if possible, be construed in a manner that will give effect to the terms of such Section or part of a Section to the fullest extent possible while remaining lawful and valid.

22. Effective Date and Term of Plan

The Effective Date of the Plan is September 29, 2017, subject to the approval of the Plan by the shareholders of the Company. No grants of Stock Incentive Awards may be made under the Plan after September 29, 2027.

23. Amendment or Termination of the Plan

The Board of Directors may at any time suspend or discontinue the Plan or revise or amend it or any Stock Incentive Award in any respect whatsoever; provided, however, that to the extent that any applicable law, tax requirement, or rule of a stock exchange requires shareholder approval in order for any such revision or amendment to be effective, such revision or amendment shall not be effective without such approval. The preceding sentence shall not restrict the Committee's ability to exercise its discretionary authority hereunder pursuant to Section 4 hereof, which discretion may be exercised without amendment to the Plan. No provision of this Section 23 shall be given effect to the extent that such provision would cause any tax to become due under section 409A of the Code. Except as expressly provided in the Plan, no action hereunder may, without the consent of a Participant, adversely affect the Participant's rights under any previously granted and outstanding Stock Incentive Award. Nothing herein shall cause a Performance-Based Award to cease to qualify under section 162(m) of the Code unless the Committee expressly acknowledges and affirms such consequences in connection with this Section 23. Nothing in the Plan shall limit the right of the Company to pay compensation of any kind outside the terms of the Plan.
