Pro-Dex's determination related to disclosures relating to conflict minerals is included in our Conflict Minerals Report and incorporated by reference herein.

We undertook due diligence measures, including surveying our direct suppliers through an industry-standard survey template for conflict minerals, to try to determine the sources of these minerals, which we purchase through a complex supply chain. Currently, we do not have sufficient information from all our suppliers or other sources to determine the country of origin of the conflict minerals used in our products or to identify the facilities used to process those conflict minerals.
