UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

[X] Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 For the quarterly period ended September 30, 2018	[] Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
---	---

Commission File Number: 001-31369

CIT GROUP INC.

(Exact name of Registrant as specified in its charter)

Delaware	65-1051192
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification Number)
11 West 42nd Street New York, New York	10036
(Address of Registrant's principal executive offices)	(Zip Code)
(212) 461-5200	
(Registrant's telephone number)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of 'large accelerated filer,' 'accelerated filer', 'smaller reporting company' and 'emerging growth company' in Rule 12b-2 of the Exchange Act. (Check One): Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13, or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes ☐ No ☐

As of October 31, 2018, there were 105,592,774 shares of the registrant's common stock outstanding.

Accumulated other comprehensive loss	(199.4)	(86.5)
Treasury stock: 98,473,371 shares at September 30, 2018 and 76,275,567 shares at December 31, 2017 at cost	(4,821.0)	(3,625.2)
Total Common Stockholders' Equity	5,995.3	6,995.0
Total Equity	6,320.3	7,320.0
Total Liabilities and Equity	\$49,262.4	\$49,278.7

⁽¹⁾The following table presents information on assets and liabilities related to Variable Interest Entities ("VIEs") that are consolidated by the Company. The difference between VIE total assets and total liabilities represents the Company's interests in those entities, which were eliminated in consolidation. The assets of the consolidated VIEs will be used to settle the liabilities of those entities and, except for the Company's interest in the VIEs, are not available to the creditors of CIT or any affiliates of CIT.

Assets		
Cash and interest bearing deposits, restricted	\$76.7	\$80.4
Total loans, net of allowance for loan losses	3.0	119.1
Operating lease equipment, net	775.0	763.3
Total Assets	\$854.7	\$962.8
Liabilities		
Beneficial interests issued by consolidated VIEs (classified as long-term borrowings)	\$462.7	\$566.6
Total Liabilities	\$462.7	\$566.6

The accompanying notes are an integral part of these consolidated financial statements.

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 — BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CIT Group Inc., together with its subsidiaries (collectively "we", "our", "CIT" or the "Company"), is a bank holding company ("BHC") and a financial holding company ("FHC"). CIT was formed in 1908 and provides financing, leasing and advisory services principally to middle-market companies in a wide variety of industries, primarily in North America. CIT also provides banking and related services to commercial and individual customers through its banking subsidiary, CIT Bank, N.A. ("CIT Bank" or the "Bank"), which includes 69 branches located in Southern California and its online bank, bankoncit.com.

CIT is regulated by the Board of Governors of the Federal Reserve System ("FRB") and the Federal Reserve Bank of New York ("FRBNY") under the U.S. Bank Holding Company Act of 1956, as amended. CIT Bank is regulated by the Office of the Comptroller of the Currency of the U.S. Department of the Treasury ("OCC").

BASIS OF PRESENTATION

Basis of Financial Information

These consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q for interim financial information and accordingly do not include all information and note disclosures required by generally accepted accounting principles in the United States of America ("GAAP") for complete financial statements. The financial statements in this Form 10-Q, in the opinion of management, include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of CIT's financial position, results of operations and cash flows in accordance with GAAP. These consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Form 10-K").

The accounting and financial reporting policies of CIT conform to GAAP and the preparation of the consolidated financial statements requires management to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates and assumptions. Some of the more significant estimates include: allowance for loan losses, loan impairment, fair value determination, lease residual values, liabilities for uncertain tax positions, realizability of deferred tax assets, purchase accounting adjustments, indemnification assets, goodwill, intangible assets, and contingent liabilities, including amounts associated with discontinued operations. Additionally where applicable, the policies conform to accounting and reporting guidelines prescribed by bank regulatory authorities.

Principles of Consolidation

The accompanying consolidated financial statements include financial information related to CIT and its majority-owned subsidiaries and those VIEs where the Company is the primary beneficiary.

In preparing the consolidated financial statements, all significant intercompany accounts and transactions have been eliminated. Assets held in an agency or fiduciary capacity are not included in the consolidated financial statements.

The current period's results of operations do not necessarily indicate the results that may be expected for any other interim period or for the full year as a whole.

Discontinued Operations

Discontinued Operations as of September 30, 2018 and December 31, 2017 included assets and liabilities of (i) the Business Air business and (ii) the Financial Freedom business. Income from discontinued operations reflects the activities of the Business Air and Financial Freedom businesses for the quarter and nine months ended September 30, 2018 and 2017, and Commercial Air (a component of Aerospace) for the nine months ended September 30, 2017. We completed the sale of our Commercial Air business on April 4, 2017.

The Financial Freedom business, a former division of CIT Bank that serviced reverse mortgage loans, was acquired in conjunction with the OneWest Transaction in 2015 and was sold on May 31, 2018. The sale included all the operations, mortgage servicing rights and related servicing assets and liabilities, although certain assets and liabilities of the Financial Freedom business were still held by CIT Bank at September 30, 2018 and will continue to be held until the required investor consent is received to qualify for sale treatment. See further discussion in Note 2 — Discontinued Operations. In conjunction with the sale of the Financial Freedom business, the Company also sold its reverse mortgage portfolio, comprised of loans and related other real estate owned ("OREO") assets previously reported in continuing operations, and which was serviced by the Financial Freedom business. (Collectively, the sale of the Financial Freedom business and the reverse mortgage portfolio is referred to as the "Financial Freedom Transaction"). See further discussion in Note 3 — Loans.

SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies are included in the Company's 2017 Form 10-K. Effective January 1, 2018, CIT changed its accounting policy for revenue recognition resulting from the adoption of Accounting Standards Codification ("ASC") 606, Revenue from Contracts with Customers and subsequent related Accounting Standards Updates ("ASUs"). There were no other material changes to policies during the nine months ended September 30, 2018. Refer to Other Newly Adopted Accounting Standards for other ASUs adopted in 2018.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Revenue Recognition

On January 1, 2018, CIT adopted ASU 2014-09, Revenue Recognition - Revenue from Contracts with Customers (ASC 606) and subsequent related ASUs. ASU 2014-09 establishes the principles to apply in determining the amount and timing of revenue recognition. The core principle is that a company will recognize revenue when it transfers control of goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. The guidance introduces a five-step, principle-based model, requiring more judgment than under previous GAAP to determine when and how revenue is recognized. The standard defers to existing guidance where revenue recognition models are already in place.

"Interest Income" and "Rental Income on Operating Leases", CIT's two largest revenue items, are out of scope of the new guidance, as are many other revenues relating to other financial assets and liabilities, including loans, leases, securities, and derivatives. As a result, the implementation of the new guidance was limited to certain revenue streams within Non-Interest Income, including some immaterial bank related fees and gains or losses related to the sale and disposition of leased equipment and OREO, which is accounted for under ASC 610-20, Gains and Losses From the Derecognition of Nonfinancial Assets, and requires the Company to apply certain recognition and measurement principles of ASC 606.

CIT evaluated its in-scope revenue streams under the five-step model and concluded that ASU 2014-09 did not materially impact the current practice of revenue recognition as ASC 606 is consistent with the current accounting policy being applied by the Company for these revenues. Therefore, no change in the timing or amount of income recognized was identified. CIT also determined that costs incurred to obtain or fulfill contracts and financing components relating to in-scope revenue streams were immaterial to the Company.

Non-interest revenue, including amounts related to the sale and disposition of leased equipment and OREO, is recognized at an amount reflecting the consideration received, or expected to be received, when control of goods or services is transferred, which generally occurs when services are provided or control of leased equipment or OREO is liquidated.

ASU 2014-09 was adopted using the modified retrospective transition method. CIT elected to apply this guidance only to contracts that were not completed at the date of the initial application. The adoption did not have a significant impact on CIT's financial statements or disclosures. No adjustment to the opening balance of retained earnings was necessary.

Interest income on held for investment ("HFI") loans is recognized using the effective interest method or on a basis approximating a level rate of return over the life of the asset. Interest income includes components of accretion of the fair value discount on loans and lease receivables recorded in connection with Purchase Accounting Adjustments ("PAA"), which are accreted using the effective interest method as a yield adjustment over the remaining contractual term of the loan and recorded in interest income. If the loan is subsequently classified as assets held for sale ("AHFS"), accretion (amortization) of the discount (premium) will cease.

Rental revenue on operating leases is recognized on a straight line basis over the lease term and is included in Non-interest Income. Intangible assets related to acquisitions completed by the Company and Fresh Start Accounting ("FSA") adjustments that were applied as of December 31, 2009 (the Convenience Date), were recorded to adjust the carrying value of above or below market operating lease contracts to their fair value. The FSA adjustments (net) are amortized into rental income on a straight line basis over the remaining term of the respective lease.

The recognition of interest income (including accretion) on commercial loans (exclusive of small ticket commercial loans) is suspended and an account is placed on non-accrual status when, in the opinion of management, full collection of all principal and interest due is doubtful. All future interest accruals, as well as amortization of deferred fees, costs, purchase premiums or discounts are suspended. To the extent the estimated cash flows, including fair value of collateral, does not satisfy both the principal and accrued interest outstanding, accrued but uncollected interest at the date an account is placed on non-accrual status is reversed and charged against interest income. Subsequent interest received is applied to the outstanding principal balance until such time as the account is collected, charged-off or returned to accrual status. Loans that are on cash basis nonaccrual do not accrue interest income; however, payments designated by the borrower as interest payments may be recorded as interest income. To qualify for this treatment, the remaining recorded investment in the loan must be deemed fully collectable.

The recognition of interest income (including accretion) on consumer mortgages and small ticket commercial loans and lease receivables is suspended and all previously accrued but uncollected revenue is reversed, when payment of principal and/or interest is contractually delinquent for 90 days or more. Accounts, including accounts that have been modified, are returned to accrual status when, in the opinion of management, collection of remaining principal and interest is reasonably assured, and there is a sustained period of repayment performance for a minimum of six months.

The recognition of interest income on reverse mortgages is suspended upon the latter of the foreclosure sale date or date on which marketable title has been acquired (i.e., property becomes OREO).

The Company periodically modifies the terms of a loan in response to borrowers' financial difficulties. These modifications may include interest rate changes, principal forgiveness or payment deferments. Loans that are modified, where a concession has been made to the borrower, are accounted for as Troubled Debt Restructurings ("TDRs"). TDRs are generally placed on nonaccrual upon their restructuring and remain on non-accrual until, in the opinion of management, collection of remaining principal and interest is reasonably assured, and upon collection of six consecutive scheduled payments.

Purchased credit impaired ("PCI") loans in pools that the Company may modify as TDRs are not within the scope of the accounting guidance for TDRs.

Other Newly Adopted Accounting Standards

The following pronouncements were issued by the Financial Accounting Standards Board (“FASB”) and adopted by CIT as of January 1, 2018. Refer to Note 1 - Business and Summary of Significant Accounting Policies on Form 10-Q for the quarter ended March 31, 2018 for a detailed description of these pronouncements:

- ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities.
- ASU 2018-03, Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10).
- ASU 2016-16, Income Taxes (Topic 740): Intra - Entity Transfers of Assets Other Than Inventory.
- ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments.
- ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash.
- ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business.
- ASU 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.
- ASU 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting.
- ASU 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income.

The following pronouncements were issued by FASB and adopted by CIT as of July 1, 2018.

Intangibles – Goodwill and Other – Internal-Use Software

ASU 2018-15, Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement, aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The new guidance provides that costs incurred during the application development stage of implementation would generally be capitalized, whereas costs incurred during the preliminary project and post implementation stages would generally be expensed as incurred.

CIT early adopted ASU 2018-15 as of July 1, 2018 by applying the guidance prospectively to all implementation costs incurred after the date of adoption. Capitalized implementation costs and amortization expense related to the development of internal financial planning and workflow tools are reflected in “Other assets” and “Operating expenses” within the Company’s Condensed Consolidated Balance Sheets and Condensed Consolidated Statements of Income, respectively. The adoption did not have a material impact on CIT’s consolidated financial statements and disclosures.

Fair Value Measurement

ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement, amends ASC 820 to add, remove, and modify fair value measurement disclosure requirements. Entities are permitted to early adopt any removed or modified disclosure requirements and delay adoption of the added disclosure requirements until the standard effective date of January 1, 2020.

CIT early adopted the removed and modified disclosure requirements in ASU 2018-13 as of July 1, 2018. The amendment on changes to the narrative description of measurement uncertainty was applied prospectively for the most recent period presented. All other amendments were applied retrospectively to all periods presented. The adoption of this standard did not have a material impact on CIT's disclosures as disclosure enhancements are more qualitative in nature.

Recent Accounting Pronouncements

The following accounting pronouncements were issued by the FASB but are not yet effective for CIT.

Standard	Summary of Guidance	Effect on CIT's Financial Statements
ASU 2017-08, Receivables -Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities	<ul style="list-style-type: none"> •ASU 2017-08 shortens the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. •The new guidance applies to all entities that hold investments in callable debt securities for which the amortized cost basis exceeds the amount repayable by the issuer at the earliest call date (i.e., at a premium). •This guidance must be adopted on a modified retrospective basis through a cumulative-effect adjustment to retained earnings. 	<ul style="list-style-type: none"> •Effective for CIT as of January 1, 2019. •Based on CIT's evaluation, the adoption of this standard is not expected to have a material impact on CIT's consolidated financial statements as unamortized premiums on debt securities are immaterial. However, CIT will continue to assess new securities purchased in 2018. •CIT does not intend to early adopt this standard.
Issued March 2017

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

<p>ASU 2018-07, Compensation—Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting</p> <p>Issued June 2018</p>	<ul style="list-style-type: none"> •ASU 2018-07 supersedes ASC 505-50, Equity—Equity-Based Payments to Non-Employees and expands the scope of ASC 718 to include all share-based payment arrangements related to the acquisition of goods and services from both nonemployees and employees. As a result, most of the guidance in ASC 718 associated with employee share-based payments, including most of its requirements related to classification and measurement, applies to nonemployee share-based payment arrangement. •An entity should use a modified retrospective transition approach, with a cumulative-effect adjustment to retained earnings as of the beginning of the fiscal year, for all (1) liability-classified nonemployee awards that have not been settled as of the adoption date and (2) equity-classified nonemployee awards for which a measurement date has not been established. 	<ul style="list-style-type: none"> •Effective for CIT as of January 1, 2019. •CIT is currently evaluating the impact of this ASU; however, CIT does not expect this standard to have a material impact on its consolidated financial statements and disclosures as current accounting for nonemployee share-based payment is consistent with the requirements for employee share-based awards. •CIT does not intend to early adopt this standard.
<p>ASU 2018-14, Compensation - Retirement Benefits - Defined Benefit Plans- General (Subtopic 715-20: Disclosure Framework -Changes to the Disclosure Requirements for Defined Benefit Plans</p> <p>Issued August 2018</p>	<ul style="list-style-type: none"> •ASU 2018-14 adds, removes, and clarifies disclosure requirements related to defined benefit pension and postretirement plans. •ASU 2018-14 should be applied on a retrospective basis to all periods presented. 	<ul style="list-style-type: none"> •Effective for CIT as of January 1, 2021. However, early adoption is permitted. •The adoption of this standard is not expected to have a material impact on CIT’s disclosures as disclosure enhancements are more qualitative in nature.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

ASU 2016-02, Leases (Topic 842), and subsequent related ASUs	•The new leasing standard modifies the accounting, presentation, and disclosures for both lessors and lessees.	•Effective for CIT as of January 1, 2019. CIT expects to use the effective date of January 1, 2019 as the date of initial application. Consequently, disclosures required under the new standard will commence as of January 1, 2019. CIT does not anticipate any significant cumulative-effect adjustment to retained earnings as of January 1, 2019 as a result of adopting the new standard.
Issued February 2016	<p>•Lessees will need to recognize all leases longer than twelve months on the consolidated balance sheets as lease liabilities with corresponding right-of-use (“ROU”) assets. The FASB retained a dual model, requiring leases to be classified as either operating or finance leases. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit thresholds.</p> <p>•Lessor accounting remains similar to the current model, but updated to align with certain changes to the lessee model (e.g., certain definitions, such as initial direct costs, have been updated) and the new revenue recognition standard. The lessor model retains the approach for operating and capital/finance leases.</p> <p>•The new standard requires lessors to separate lease components from non-lease components that transfer a good or service to the customer. The lease component will be accounted for using an approach that is substantially equivalent to existing guidance. The non-lease component will be accounted for by lessors in accordance with the revenue recognition guidance or other applicable accounting</p>	<p>•CIT is continuing to evaluate the impact where it is both a lessee and a lessor:</p> <p>oLessee Accounting: CIT expects to recognize a lease liability, with a corresponding ROU asset, based on the present value of unpaid lease payments for existing operating leases longer than twelve months as of the date of adoption. The ROU asset will be adjusted per Topic 842 transition guidance for existing balances of accrued and prepaid rent, unamortized lease incentives provided by lessors, and restructuring reserve. As a result, upon adoption CIT expects to recognize a ROU asset and a corresponding lease liability in the approximate range of \$220 million to \$275 million in its consolidated balance sheets.</p> <p>oLessor accounting: CIT expects to elect the “package of practical expedients”, which permits the Company not to reassess its prior conclusions regarding lease identification, lease classification and initial direct costs. CIT does not expect the new rules to have a significant impact on classification of leases as finance or operating. Most of CIT’s finance leases will be classified as sales-type leases under ASC 842. No gain or loss would typically be recognized at lease commencement for new equipment as there will be no difference between equipment fair value and carrying amount. CIT expects to apply the operating lease practical expedient to its Rail portfolio leases and not separate non-lease components of railcar maintenance services from lease components. CIT is analyzing the impact of changes to the definition of ‘initial direct costs’ under the new guidance. Due to the narrower definition of initial direct costs, CIT expects to recognize increased upfront expenses partially offset over time by higher yield over the lease term.</p>

guidance.

- The new standard also provides lessors with an operating lease practical expedient, by class of underlying asset, not to separate non-lease components from the associated lease component if both of the following are met: (i) the timing and pattern of transfer of the nonlease components and associated lease component are the same and (ii) the lease component, if accounted for separately, would be classified as an operating lease.

- The new standard has a narrower definition of initial direct costs, and certain incremental costs previously eligible for capitalization will be expensed as incurred.

- A modified retrospective transition approach is required, applying the new standard to all leases existing at the date of initial application. An entity may choose its date of initial application as either: (1) its effective date or (2) the beginning of the earliest comparative period presented in the financial statements. Early adoption is permitted.

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

<p>ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments Issued June 2016</p>	<ul style="list-style-type: none"> •Introduces a forward-looking “expected loss” model (the “Current Expected Credit Losses” (“CECL”) model) to estimate credit losses to cover the full remaining expected life of the portfolio upon adoption, rather than the incurred loss model under current U.S. GAAP, on certain types of financial instruments. •It eliminates existing guidance for PCI loans, and requires recognition of an allowance for expected credit losses on financial assets purchased with more than insignificant credit deterioration since origination (PCD loans). •Loans previously classified as PCI will be considered PCD at adoption, with credit related discount reflected in ALLL and loan balance. •It amends existing impairment guidance for AFS securities to incorporate an allowance, which will allow for reversals of impairment losses in the event that the credit of an issuer improves. •In addition, it expands the disclosure requirements regarding an entity’s assumptions, models, and methods for estimating the ALLL. •Entities will apply the standard’s provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is adopted (modified-retrospective approach). 	<ul style="list-style-type: none"> •Effective for CIT as of January 1, 2020. Early adoption is permitted; however, CIT does not intend to early adopt the guidance. •CIT management has established a project team and an oversight committee to assess the impact of this guidance and implement this standard. The Company has completed the vendor selection process to provide the platform for CECL aggregation, analytics, and reporting. •While CIT is currently in the process of evaluating the impact of the amended guidance on its Condensed Consolidated Financial Statements, it currently expects the ALLL to increase upon adoption given that the allowance will be required to cover the full remaining expected life of the portfolio upon adoption, rather than the incurred loss model under current U.S. GAAP. The extent of this increase is still being evaluated and will depend on economic conditions and the composition of CIT’s loan and lease portfolios at adoption date.

NOTE 2 — DISCONTINUED OPERATIONS

Aerospace

As discussed in Note 2 — Discontinued Operations in our Annual Report on Form 10-K for the year ended December 31, 2017, the activity for 2017 in the following tables included Commercial Air, which was sold on April 4, 2017. The following condensed financial information also reflects the Business Air business for the quarter and nine months ended September 30, 2018 and as of September 30, 2018 and December 31, 2017. The balances for the nine months ended September 30, 2017 included both Business Air and Commercial Air.

Condensed Balance Sheet — Aerospace (dollars in millions)

	September 30, 2018	December 31, 2017
Net Loans	\$ 110.6	\$ 165.8
Operating lease equipment, net	-	18.4

Reverse Mortgage Servicing

The Financial Freedom business, a former division of CIT Bank that serviced reverse mortgage loans, was acquired in conjunction with the OneWest Transaction in 2015 and was sold on May 31, 2018. As part of the Financial Freedom Transaction, the sale of the Financial Freedom business included all the operations, mortgage servicing rights and related servicing assets and liabilities. During the second quarter of 2018, CIT recognized a net pre-tax loss on disposal of the Financial Freedom business of \$22 million in discontinued operations primarily related to reserves and transaction costs. CIT has agreed to indemnify the purchaser for potential loan defects and servicing deficiencies related to the transferred servicing rights, both of which are capped and subject to time limitations. See Note 1 – Business and Summary of Significant Accounting Policies for a description of the Financial Freedom Transaction.

At September 30, 2018, certain assets and liabilities of the Financial Freedom business were still held by CIT Bank after the sale, and will continue to be held until the required investor consent is received to qualify for sale treatment, although the economic benefit and risk of the business has been transferred to the buyer. At September 30, 2018, assets of discontinued operations primarily included Home Equity Conversion Mortgage ("HECM") loans. Liabilities included reverse mortgage servicing liabilities, secured borrowings and contingent liabilities.

As a mortgage servicer of residential reverse mortgage loans prior to the sale of Financial Freedom, the Company was exposed to contingent liabilities for breaches of servicer obligations as set forth in industry regulations established by the Department of Housing and Urban Development ("HUD") and the Federal Housing Administration ("FHA") and in servicing agreements with the applicable counterparties, such as third party investors. Under these agreements, the servicer may be liable for failure to perform its servicing obligations, which could include fees imposed for failure to comply with foreclosure timeframe requirements established by servicing guides and agreements to which CIT was a party as the servicer of the loans. The Company had established reserves for contingent servicing-related liabilities for CIT's servicer obligation that shall remain in discontinued operations until the contingency is resolved. Separately, the Company had recognized an indemnification receivable from the FDIC of \$29 million as of December 31, 2017 for covered servicing-related obligations related to reverse mortgage loans pursuant to the loss share agreement between CIT Bank and the FDIC related to the acquisition by OneWest Bank from the FDIC of certain assets of IndyMac Federal Bank FSB ("IndyMac") (the "IndyMac Transaction"). During 2018, the indemnification receivable was reduced to zero as the contingent obligation for FDIC covered loans was no longer deemed probable pursuant to ASC 450 and related ASC 805. See the Company's Report on Form 10-K for the year ended December 31, 2017, Note 5 - Indemnification Assets, for further information.

Condensed Balance Sheet — Financial Freedom (dollars in millions)

	September 30, 2018	December 31, 2017
Cash and interest bearing deposits, restricted	\$ -	\$ 7.7
Net loans ⁽¹⁾	212.1	272.8
Other assets	4.1	36.6
Assets of discontinued operation	\$ 216.2	\$ 317.1
Secured borrowings ⁽¹⁾	\$ 213.2	\$ 268.2
Other liabilities ⁽²⁾	94.0	232.3
Liabilities of discontinued operation	\$ 307.2	\$ 500.5

⁽¹⁾Net loans primarily include \$198.7 million and \$267.2 million of securitized balances at September 30, 2018 and December 31, 2017, respectively. Secured borrowings primarily relate to those receivables.

⁽²⁾ Other liabilities primarily include contingent liabilities and reverse mortgage servicing liabilities.

Loss on sale of discontinued operation, net of taxes	—	—	(16.3)	—
Income (loss) from discontinued operation, net of taxes	\$0.4	\$(4.4)	\$(27.7)	\$(3.2)

⁽¹⁾Includes amortization for the premium associated with the HECM loans and related secured borrowings.

⁽²⁾For the nine months ended September 30, 2017, other income included an impairment charge of approximately \$50 million on the mortgage servicing liability.

⁽³⁾Operating expense is comprised of salaries and benefits, professional and legal services, and other expenses such as data processing, premises and equipment, and miscellaneous charges. For the nine months ended September 30, 2017, operating expenses included a net release of the curtailment reserve of \$111 million, partially offset by an increase of \$40 million in other servicing-related reserves.

⁽⁴⁾For the quarters ended September 30, 2018 and 2017, the Company's tax rate for discontinued operation was insignificant due to the limited activity post-sale and 39%, respectively. For the nine months ended September 30, 2018 and 2017, the Company's tax rate for discontinued operation was 27% and 38%, respectively.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 3 — LOANS

Loans, excluding those reflected as discontinued operations, consist of the following:

Loans by Product (dollars in millions)

	September 30, 2018	December 31, 2017
Commercial loans	\$22,082.7	\$20,892.1
Direct financing leases and leveraged leases	2,496.8	2,685.8
Total commercial	24,579.5	23,577.9
Consumer loans	5,916.3	5,536.0
Total loans	30,495.8	29,113.9
Loans held for sale ⁽¹⁾	204.1	1,095.7
Loans and held for sale loans ⁽¹⁾	\$30,699.9	\$30,209.6

⁽¹⁾Since the Company manages the credit risk and collections of loans held for sale consistently with its loans held for investment, the aggregate amount is presented in this table.

As part of the Financial Freedom Transaction, on May 31, 2018, CIT sold its reverse mortgage portfolio comprised of loans and related OREO assets of \$884 million and recognized a net pre-tax gain on the sale of \$27 million in other non-interest income. The loans were included in loans held for sale in the above table at December 31, 2017. See Note 1 – Business and Summary of Significant Accounting Policies for a description of the Financial Freedom Transaction.

The following table presents loans, excluding loans held for sale, by segment, based on obligor location:

Loans (dollars in millions)

	September 30, 2018			December 31, 2017		
	Domestic	Foreign	Total	Domestic	Foreign	Total
Commercial Banking	\$22,518.2	\$1,577.5	\$24,095.7	\$21,368.7	\$1,790.6	\$23,159.3
Consumer Banking ⁽¹⁾	6,400.1	—	6,400.1	5,954.6	—	5,954.6
Total	\$28,918.3	\$1,577.5	\$30,495.8	\$27,323.3	\$1,790.6	\$29,113.9

⁽¹⁾

The Consumer Banking segment includes certain commercial loans, primarily consisting of a portfolio of Small Business Administration ("SBA") loans. These loans are excluded from the Consumer loan balances and included in the Commercial loan balances in the tables throughout this note.

The following table presents selected components of the net investment in loans:

Components of Net Investment in Loans (dollars in millions)

	September 30, 2018	December 31, 2017
Unearned income	\$(749.3)	\$(727.8)
Unamortized premiums	18.3	3.7
Accretable yield on PCI loans	(944.9)	(1,063.7)
Net unamortized deferred costs ⁽¹⁾	79.8	68.7

⁽¹⁾Balance relates to the Commercial Banking segment.

Certain of the following tables present credit-related information at the "class" level. A class is generally a disaggregation of a portfolio segment. In determining the classes, CIT considered the loan characteristics and methods it applies in monitoring and assessing credit risk and performance.

Credit Quality Information

The following table summarizes commercial loans by the risk ratings that bank regulatory agencies utilize to classify credit exposure and which are consistent with indicators the Company monitors. The consumer loan risk profiles are different from commercial loans, and use loan-to-value ("LTV") ratios in rating the credit quality, and therefore are presented separately below.

⁽¹⁾Other Consumer Banking loans primarily consisted of SBA loans.

The following table provides a summary of the consumer portfolio credit quality. The amounts represent the carrying value, which differ from unpaid principal balances, and include the premiums or discounts and the accretable yield and non-accretable difference for PCI loans recorded in purchase accounting. Included in the consumer single-family residential (“SFR”) loans are “covered loans” for which the Company can be reimbursed for a substantial portion of future losses under the terms of the loss sharing agreement with the FDIC related to IndyMac, which expires in March 2019. Covered loans are limited to the Legacy Consumer Mortgage (“LCM”) division. Due to continued improvement of the covered loan performance, significantly shorter remaining life of the indemnification asset in comparison to the weighted average life of the related covered loans, and significant decline in loss share claims filed

with the FDIC in the last six months, CIT performed a collectability assessment of the probable losses to be reimbursed by the FDIC for the remaining indemnification period. Separate from the higher negative yield to amortize the reductions in expected indemnification asset cash flows due to an increase in expected cash flows on the covered loans from improved credit performance, CIT recorded an impairment of \$21.2 million, in other non-interest income, to reduce the carrying value of the indemnification asset (included in other assets) to \$27.2 million in the quarter ended September 30, 2018, for the amounts deemed uncollectable within the remaining indemnification period based on CIT's loan level review of the covered loans. Indemnification assets are discussed further in our 2017 Form 10-K, Note 5 — Indemnification Assets.

Included in the consumer loan balances as of September 30, 2018 and December 31, 2017, were loans with terms that permitted negative amortization with an unpaid principal balance of \$413 million and \$484 million, respectively.

- ⁽¹⁾ As of September 30, 2018, the reverse mortgage loans were sold. As of December 31, 2017, due to their nature, reverse mortgage loans are included in Current, as they do not have contractual payments due at a specified time. During the first quarter of 2018, an immaterial error was discovered and corrected relating to the December 31, 2017 Current balance for LCM, which was understated by \$861 million, and the Current balance for Other Consumer Banking, which was overstated by \$861 million. The current presentation reflects the revised Current balances at December 31, 2017.
- ⁽²⁾ PCI loans are written down at acquisition to their fair value using an estimate of cash flows deemed to be collectible. Accordingly, such loans are no longer classified as past due or non-accrual even though they may be contractually past due as we expect to fully collect the new carrying values.

Consumer loans past due 90 days or more accruing			17.8			20.2
Total Accruing loans past due 90 days or more			\$71.4			\$31.9

⁽¹⁾Factored receivables within our Business Capital division do not accrue interest and therefore are not considered within non-accrual loan balances; however factored receivables are considered for credit provisioning purposes. Payments received on non-accrual loans are generally applied first against outstanding principal, though in certain instances where the remaining recorded investment is deemed fully collectible, interest income is recognized on a cash basis.

The table below summarizes the residential mortgage loans in the process of foreclosure and OREO:

Loans in Process of Foreclosure and OREO (dollars in millions)⁽¹⁾

	September 30, 2018	December 31, 2017
PCI	\$ 133.4	\$ 133.7
Non-PCI	21.1	140.9
Loans in process of foreclosure	\$ 154.5	\$ 274.6
OREO	\$ 32.3	\$ 52.1

⁽¹⁾As of September 30, 2018 the decrease in Non-PCI and OREO balances reflects the sale of the reverse mortgage portfolio in May 2018. As of December 31, 2017, the table included \$122.5 million of reverse mortgage loans in the process of foreclosure and \$21.0 million of reverse mortgage OREO.

Impaired Loans

The following table contains information about impaired loans and the related allowance for loan losses by class. Impaired loans exclude PCI loans. Loans that were identified as impaired at the date of the OneWest Transaction (the “Acquisition Date”) for which the Company is applying the income recognition and disclosure guidance in ASC 310-30 (Loans and Debt Securities Acquired with Deteriorated Credit Quality), are not included in the following table but are disclosed further below in Loans Acquired with Deteriorated Credit Quality.

- (1) Interest income recorded for the quarter and nine months ended September 30, 2018 while the loans were impaired was approximately \$0.1 million and \$0.7 million, respectively, of which none was recognized using the cash-basis method of accounting. Interest income recorded for the year ended December 31, 2017 while the loans were impaired was \$2.4 million, of which none was recognized using the cash-basis method of accounting.
- (2) Details of finance loans that were identified as impaired at the Acquisition Date are presented under Loans Acquired with Deteriorated Credit Quality.
- (3) Average recorded investment for the quarters and nine months ended September 30, 2018, and September 30, 2017 and year ended December 31, 2017.

Loans Acquired with Deteriorated Credit Quality

The Company applied the income recognition and disclosure guidance in ASC 310-30 (Loans and Debt Securities Acquired with Deteriorated Credit Quality) to loans that were identified as PCI as of the Acquisition Date. PCI loans were initially recorded at estimated fair value with no allowance for loan losses carried over, since the initial fair values reflected credit losses expected to be incurred over the remaining lives of the loans. The acquired loans are subject to the Company's internal credit review. See Note 4 — Allowance for Loan Losses.

Reclassification from non-accretable difference	13.9	3.6	14.7	37.3
Disposals and Other	(1.4)	(12.2)	(7.5)	(25.0)
Balance, end of period	\$944.9	\$1,116.9	\$944.9	\$1,116.9

Troubled Debt Restructuring

The Company periodically modifies the terms of loans in response to borrowers' difficulties. Modifications that include a financial concession to the borrower are accounted for as TDRs. See the Company's 2017 Form 10-K for discussion of policies on TDRs.

At September 30, 2018, the loans in trial modification period were insignificant under proprietary programs. At December 31, 2017, the loans in trial modification period were \$0.3 million under HAMP and \$12.2 million under proprietary programs. Trial modifications with a recorded investment of \$12.3 million at December 31, 2017, were accruing loans and \$0.2 million were non-accruing loans. Our experience is that substantially all of the mortgages that enter a trial payment period program are successful in completing the program requirements and are then permanently modified at the end of the trial period. Our allowance process considers the impact of those modifications that are probable to occur.

The recorded investment of TDRs, excluding those classified as PCI and those within a trial modification period discussed in the preceding paragraph, at September 30, 2018 and December 31, 2017 was \$84.6 million and \$103.5 million, of which 62% and 63%, respectively, were on non-accrual. Commercial Banking and Consumer Banking receivables accounted for 80% and 20% of the total TDRs, respectively, at September 30, 2018. Commercial Banking and Consumer Banking receivables accounted for 83% and 17% of the total TDRs, respectively at December 31, 2017. There were \$14.8 million and \$13.4 million as of September 30, 2018 and December 31, 2017, respectively, of commitments to lend additional funds to borrowers whose loan terms have been modified in TDRs.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

The recorded investment related to modifications qualifying as TDRs that occurred during the quarters ended September 30, 2018 and 2017 were \$13.1 million and \$39.0 million and \$60.9 million and \$129.7 million for the nine months ended September 30, 2018 and 2017, respectively. The recorded investment as of September 30, 2018 and 2017 of TDRs that experienced a payment default (payment default is one missed payment), during the quarters ended September 30, 2018 and 2017, and for which the payment default occurred within one year of the modification totaled \$0.4 million and \$7.5 million, respectively, and \$2.4 million and \$72.0 million for the nine months ended September 30, 2018 and 2017, respectively.

The financial impact of the various modification strategies that the Company employs in response to borrower difficulties is described below. While the discussion focuses on the September 30, 2018 amounts, the overall nature and impact of modification programs were comparable in the prior year.

The nature of modifications qualifying as TDRs based upon recorded investment at September 30, 2018 was comprised of payment deferrals for 32% and covenant relief and/or other for 68%. At December 31, 2017 TDR recorded investment was comprised of payment deferrals for 31% and covenant relief and/or other for 69%.

Payment deferrals result in lower net present value of cash flows, if not accompanied by additional interest or fees, and increased provision for credit losses to the extent applicable. The financial impact of these modifications is not significant given the moderate length of deferral periods.

Interest rate reductions result in lower amounts of interest being charged to the customer, but are a relatively small part of the Company's restructuring programs. The weighted average change in interest rates for all TDRs occurring during the quarters ended September 30, 2018 and 2017 was not significant.

Debt forgiveness, or the reduction in amount owed by borrower, results in incremental provision for credit losses, in the form of higher charge-offs. While these types of modifications have the greatest individual impact on the allowance, the amounts of principal forgiveness for TDRs occurring during quarters ended September 30, 2018 and 2017 was not significant, as debt forgiveness is a relatively small component of the Company's modification programs. The other elements of the Company's modification programs that are not TDRs, do not have a significant impact on financial results given their relative size, or do not have a direct financial impact, as in the case of covenant changes.

(1)“Other” also includes allowance for loan losses associated with loan sales and foreign currency translations. “Other reserves” represents credit loss reserves for unfunded lending commitments, letters of credit and deferred purchase agreements, all of which is recorded in Other liabilities.

(2)Gross charge-offs of amounts specifically reserved in prior periods that were charged directly to the Allowance for loan losses included \$4.0 million and \$12.0 million for the quarter and nine months ended September 30, 2018, respectively, and \$7.7 million and \$39.3 million for the quarter and nine months ended September 30, 2017, respectively. The charge-offs related to Commercial Banking for all periods.

(3)Represents loans considered impaired as part of the OneWest transaction and are accounted for under the guidance in ASC 310-30 (Loans and Debt Securities Acquired with Deteriorated Credit Quality).

NOTE 5 — INVESTMENT SECURITIES

Investments include debt and equity securities.

Investment Securities (dollars in millions)

	September 30, 2018	December 31, 2017
Available for sale securities		
Debt securities	\$ 6,053.5	\$ 6,123.6
Securities carried at fair value with changes recorded in net income		
Debt securities	—	0.4
Equity securities ⁽¹⁾	44.0	44.7
Non-marketable investments ⁽²⁾	242.0	301.2
Total investment securities	\$ 6,339.5	\$ 6,469.9

(1)Upon the adoption of ASU 2016-01 - Financial Instruments as of January 1, 2018, these investments were reclassified from available for sale securities category and the presentation of equity securities as of December 31, 2017 is conformed accordingly. For details refer to Note 1 — Business and Summary of Significant Accounting Policies.

(2)Non-marketable investments include restricted stock of the FRB and Federal Home Loan Bank ("FHLB") carried at cost of \$228.4 million at September 30, 2018, and \$258.9 million at December 31, 2017. The remaining non-marketable investments without readily determinable fair values measured under the measurement exception totaled \$13.6 million as of September 30, 2018. As of December 31, 2017, the remaining non-marketable investments of \$42.3 million included \$31.6 million of ownership interests greater than 3% in limited partnership investments including qualified Community Reinvestment Act ("CRA") investments, equity fund holdings and shares issued by customers during loan work out situations or as part of original loan investments and other equity investments without readily determinable fair values measured under the measurement exception of \$10.7 million.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Realized investment gains totaled \$4.0 million and \$4.1 million for the quarters ended September 30, 2018 and 2017, respectively, and \$12.3 million and \$4.6 million for the nine months ended September 30, 2018 and 2017, respectively, and exclude losses from other than temporary impairment (“OTTI”).

In addition, the Company had \$1.2 billion and \$1.4 billion of interest bearing deposits at banks at September 30, 2018 and December 31, 2017, respectively, which are cash and cash equivalents and are classified separately on the balance sheet.

The following table presents interest and dividends on interest bearing deposits and investments:

Interest and Dividend Income (dollars in millions)

Purchased Credit-Impaired AFS Securities

Changes in the accretable yield for PCI securities are summarized below for the quarter and nine months ended September 30, 2018 and 2017, respectively:

Changes in Accretable Yield (dollars in millions)

	September 30, 2018		September 30, 2017	
	Quarter Ended	Nine Months Ended	Quarter Ended	Nine Months Ended
Balance, beginning of period	\$30.0	\$ 101.7	\$152.0	\$ 165.0
Accretion into interest income	(1.1)	(7.7)	(6.2)	(19.1)
Reclassifications from non-accretable difference due to improving cash flows	-	0.1	-	0.5
Reclassifications to non-accretable difference due to decreasing cash flows	-	(1.0)	(0.2)	(0.9)
Disposals	(15.4)	(79.6)	(9.8)	(9.7)
Balance, end of period	\$13.5	\$ 13.5	\$135.8	\$ 135.8

The estimated fair value of PCI securities was \$40.0 million and \$312.5 million with a par value of \$49.3 million and \$387.6 million as of September 30, 2018 and December 31, 2017, respectively.

Securities Carried at Fair Value with Changes Recorded in Net Income

Upon the adoption of ASU 2016-01- Financial Instruments on January 1, 2018, CIT reclassified eligible equity securities AFS to Securities Carried at Fair Value with Changes Recorded in Net Income. As of September 30, 2018, these equity securities were carried at a fair value of \$44.0 million with an amortized cost of \$46.7 million. The unrealized losses were \$2.7 million as of September 30, 2018.

As of December 31, 2017, the amortized cost and fair value of equity securities AFS was \$45.8 million and \$44.7 million respectively. The unrealized loss of \$1.1 million as of December 31, 2017 was reclassified as a cumulative-effect adjustment to the balance sheet as of the date of adoption. There were no equity Securities Carried at Fair Value with Changes Recorded in Net Income as of December 31, 2017.

Other Than Temporary Impairment

The Company conducted and documented its periodic review of all securities with unrealized losses, which it performs to evaluate whether the impairment is other than temporary.

The Company reviewed AFS securities with unrealized losses and determined the unrealized losses were credit-related and recognized OTTI losses. There were no OTTI losses recognized for the quarter and insignificant losses for the nine months ended September 30, 2018 respectively and \$0.2 million and \$0.4 million of OTTI losses were recognized for the quarter and nine months ended September 30, 2017 respectively.

The Company reviewed debt securities classified as AFS with unrealized losses and determined that the unrealized losses were neither OTTI nor credit-related, and believes it is not more-likely-than-not that the Company will have to sell the debt securities classified as AFS with unrealized losses prior to the recovery of the amortized cost basis.

There were no adjustments related to impairment for securities without readily determinable fair values measured under the measurement exception.

There were immaterial unrealized losses on non-marketable investments.

NOTE 6 — BORROWINGS

The following table presents the carrying value of outstanding borrowings.

Borrowings (dollars in millions)

	September 30, 2018		December 31, 2017	
	CIT Inc.	Subsidiaries	Total	Total
Senior unsecured	\$3,842.3	\$ —	\$3,842.3	\$3,737.5
Subordinated unsecured debt	395.3	—	395.3	—
Secured borrowings:				
Other secured and structured financings	—	1,286.6	1,286.6	1,541.4
FHLB advances	—	3,150.0	3,150.0	3,695.5
Total Borrowings	\$4,237.6	\$ 4,436.6	\$8,674.2	\$8,974.4

Unsecured Borrowings

Revolving Credit Facility

The Revolving Credit Facility has a total commitment amount of \$500 million, with \$41.7 million maturing on January 25, 2019 and the balance maturing on February 29, 2020. The applicable margin charged under the facility is 2.00% for LIBOR Rate loans and 1.00% for Base Rate loans.

The Revolving Credit Facility was amended in February 2018 to lower the total commitments from \$750 million to \$500 million and to extend the final maturity date of the lenders' commitments from January 25, 2019 to February 29, 2020, for all but one lender that did not extend. The Revolving Credit Facility includes a covenant that requires that the Company maintain a minimum Tier 1 capital ratio of 9.0%. As of September 30, 2018, the Revolving Credit Facility was unsecured and was guaranteed by four of the Company's domestic operating subsidiaries. In addition, the applicable required minimum guarantor asset coverage ratio ranged from 1.0:1.0 to 1.5:1.0, and was 1.25:1.00 at September 30, 2018.

There were no outstanding borrowings at September 30, 2018 and December 31, 2017. The amount available to draw upon at September 30, 2018 was approximately \$458 million, with the remaining amount of approximately \$42 million being utilized for issuance of letters of credit to customers.

Senior Unsecured Notes

The following table presents the principal amounts by maturity date.

Senior Unsecured Notes (dollars in millions)

Maturity Date	Rate (%)	Date of Issuance	Par Value
May 2020	5.375%	May 2012	\$ 430.6
March 2021	4.125%	March 2018	500.0
August 2022	5.000%	August 2012	1,150.0
August 2023	5.000%	August 2013	750.0
February 2024	4.750%	August 2018	500.0
March 2025	5.250%	March 2018	500.0
Weighted average rate and total	4.928%		\$ 3,830.6

On April 9, 2018, CIT redeemed \$383 million aggregate principal amount of 5.500% senior unsecured notes due February 2019 and \$500 million aggregate principal amount of 3.875% senior unsecured notes due February 2019, at an aggregate premium of \$15.7 million. In addition to the premium payments, the loss on debt extinguishments of \$19.3 million for the quarter ended June 30, 2018 included transaction costs and acceleration of deferred costs. On September 20, 2018, CIT redeemed the remaining aggregate principal amount of approximately \$500 million of 3.875% senior unsecured notes due February 2019, at an aggregate premium of \$2.6 million. In addition to the premium payments, the loss on the debt extinguishment of \$3.5 million for the quarter ended September 30, 2018 included transaction costs and acceleration of deferred costs.

In addition to the notes shown in the above table, there is an unsecured note outstanding with a 6.0% coupon and a carrying value of \$39.6 million (par value of \$51 million) that matures in 2036.

Subordinated Unsecured Notes

In March 2018, CIT issued \$400 million aggregate principal amount of 6.125% subordinated notes with a maturity date of March 9, 2028. The notes are subordinated in right of payment to the payment of CIT's senior indebtedness and secured indebtedness, to the extent of the value of the collateral.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Secured Borrowings

At September 30, 2018, the Company had pledged \$29.6 billion of assets (including collateral for the FRB discount window that is currently not drawn). The collateral specifically identified and used to calculate available borrowings was \$13.6 billion, which included \$12.3 billion of loans, \$1.0 billion of operating lease assets, \$0.2 billion of cash and cash equivalents and \$0.1 billion of investment securities. Under the FHLB Facility, CIT Bank, N.A. may at any time grant a security interest in, sell, convey or otherwise dispose of any of the assets used for collateral, provided that CIT Bank, N.A. is in compliance with the collateral maintenance requirement immediately following such disposition and all other requirements of the facility at the time of such disposition.

FHLB Advances

As of September 30, 2018, the Company had \$5.5 billion of financing availability with the FHLB, of which \$2.3 billion was unused and available, and \$2.3 million was being utilized for issuance of letters of credit related to lease agreements. FHLB Advances as of September 30, 2018 have a weighted average rate of 2.37%. The following table includes the total outstanding FHLB Advances, and respective pledged assets⁽¹⁾.

FHLB Advances with Pledged Assets⁽¹⁾ Summary (dollars in millions)

September 30, 2018		December 31, 2017	
FHLB	Pledged	FHLB	Pledged
Advances Assets		Advances Assets	
Total \$3,150.0	\$6,602.5	\$3,695.5	\$6,154.1

⁽¹⁾For purposes of this table the term "Pledged Assets" means the assets required under the collateral maintenance requirement in connection with FHLB advances at each of the dates.

Other Secured and Structured Financings

Set forth in the following table are borrowings and pledged assets related to secured (other than FHLB) and structured financings of CIT-owned subsidiaries and consolidated VIEs. Creditors of these VIEs received ownership and/or security interests in the assets. These entities are intended to be bankruptcy remote so that such assets are not available to creditors of CIT or any affiliates of CIT until and unless the related secured borrowings have been fully discharged. These transactions do not meet accounting requirements for sales treatment and are recorded as secured borrowings. The secured and structured financings as of September 30, 2018 had a weighted average rate of 4.31%, with rates ranging from 0.65% to 5.50%.

Other Secured and Structured Financings and Pledged Assets Summary (dollars in millions)

	September 30, 2018		December 31, 2017	
	Secured	Pledged	Secured	Pledged
	BorrowingAssets		BorrowingAssets	
Business Capital	\$697.0	\$3,070.0	\$768.8	\$2,838.6
Rail ^{(1) (2)}	589.6	1,059.5	772.6	1,272.0
Total	\$1,286.6	\$4,129.5	\$1,541.4	\$4,110.6

⁽¹⁾ At September 30, 2018, the Dutch TRS Facility related borrowings and pledged assets of \$462.7 million and \$854.7 million, respectively, were included in Rail. The Dutch TRS Facility is defined in Note 7 — Derivative Financial Instruments. See Note 14 – Subsequent Events relating to CIT’s termination of the Dutch TRS Facility on November 2, 2018 and repayment of related debt in October 2018.

⁽²⁾ At September 30, 2018, secured borrowings and pledged assets of \$103.5 million and \$179.5 million, respectively, were related to the sale of NACCO, and were transferred to the buyer upon sale of that business. See Note 14 – Subsequent Events relating to CIT’s sale of NACCO in October 2018.

Not included in the above table are secured borrowings of discontinued operations of \$213.2 million and \$268.2 million at September 30, 2018 and December 31, 2017, respectively. See Note 2 — Discontinued Operations.

FRB

There were no outstanding borrowings with the FRB Discount Window as of September 30, 2018 and December 31, 2017.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Variable Interest Entities

Described below are the results of the Company's assessment of its variable interests in order to determine its current status with regards to being the VIE primary beneficiary.

Consolidated VIEs

The Company utilizes VIEs in the ordinary course of business to support its own and its customers' financing needs. Each VIE is a separate legal entity and maintains its own books and records. The most significant types of VIEs that CIT utilizes are "on balance sheet" secured financings of pools of leases and loans originated by the Company where the Company is the primary beneficiary. Refer to the Company's 2017 Form 10-K for further discussion.

Unconsolidated VIEs

Unconsolidated VIEs include government sponsored entity ("GSE") securitization structures, private-label securitizations and limited partnership interests where the Company's involvement is limited to an investor interest in which the Company does not have the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE and limited partnership interests.

Although the economic benefit and risk has been transferred to the buyer in connection with the Financial Freedom business sale in the second quarter of 2018, until the required investor consent is obtained from the Government National Mortgage Association ("GNMA"), CIT remains the master servicer for the HECM loans and the GNMA HMBS securitizations. These are VIEs for which CIT is not the primary beneficiary, and which are reported in discontinued operations. The Company, as servicer of these HECM loans, is obligated to fund future borrower advances, which include fees paid to taxing authorities for borrowers' unpaid taxes and insurance, mortgage insurance premiums and payments made to borrowers for line of credit draws on HECM loans. In addition, the Company is required to repurchase the HECM loans once the outstanding principal balance is equal to or greater than 98% of the maximum claim amount or when the property forecloses to OREO, which reduces the secured borrowing balance. Additionally, the Company services \$127.2 million and \$140.3 million of HMBS outstanding principal balance at September 30, 2018 and December 31, 2017, respectively, for transferred loans securitized by IndyMac for which OneWest Bank prior to the acquisition had purchased the mortgage servicing rights ("MSRs") in connection with the IndyMac Transaction. The carrying value of the MSRs was not significant at September 30, 2018 and December 31, 2017. As the HECM loans are federally insured by the FHA and the secured borrowings guaranteed to the investors by GNMA, the Company does not believe maximum loss exposure as a result of its involvement is material. Upon receiving GNMA consent, CIT shall no longer have this servicer obligation and the Company will qualify for sales treatment. See Note 2 — Discontinued Operations.

The table below presents potential losses that would be incurred under hypothetical circumstances, such that the value of its interests and any associated collateral declines to zero and assuming no recovery or offset from any economic hedges. The Company believes the possibility is remote under this hypothetical scenario; accordingly, this required disclosure is not an indication of expected loss.

Unconsolidated VIEs Carrying Value (dollars in millions)

	September 30, 2018		December 31, 2017	
	Partnership		Partnership	
	Securities	Investment	Securities	Investment
Agency securities	\$5,267.0	\$ —	\$4,950.2	\$ —
Non agency securities — Other servicer	40.0	—	318.8	—
Tax credit equity investments	—	240.9	—	198.8
Equity investments	—	59.8	—	38.6
Total Assets	\$5,307.0	\$ 300.7	\$5,269.0	\$ 237.4
Commitments to tax credit investments	\$—	\$ 116.5	\$—	\$ 66.6
Total Liabilities	\$—	\$ 116.5	\$—	\$ 66.6
Maximum loss exposure ⁽¹⁾	\$5,307.0	\$ 300.7	\$5,269.0	\$ 237.4

⁽¹⁾Maximum loss exposure to the unconsolidated VIEs excludes the liability for representations and warranties, corporate guarantees and also excludes servicing advances.

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 7 — DERIVATIVE FINANCIAL INSTRUMENTS

See Note 1 — Business and Summary of Significant Accounting Policies in the Company's 2017 Form 10-K, for the description of its derivative products and transaction policies.

The following table presents fair values and notional values of derivative financial instruments, which includes the gross amounts of recognized financial assets and liabilities; the amounts offset in the consolidated balance sheet; the net amounts presented in the consolidated balance sheet; the amounts subject to an enforceable master netting arrangement or similar agreement that were not included in the offset amount above, and the amount of cash collateral received or pledged:

Fair and Notional Values of Derivative Financial Instruments⁽¹⁾ (dollars in millions)

	September 30, 2018			December 31, 2017		
	Notional	Asset Fair Value	Liability Fair Value	Notional	Asset Fair Value	Liability Fair Value
	Amount	Value	Value	Amount	Value	Value
Derivatives designated as hedging instruments						
Foreign exchange contracts	\$967.7	\$0.8	\$(11.9)	\$977.3	\$0.2	\$(18.7)
Interest rate swap - fair value hedge ⁽²⁾	250.0	—	(1.7)	—	—	—
Total derivatives designated as hedging instruments	1,217.7	0.8	(13.6)	977.3	0.2	(18.7)
Derivatives not designated as hedging instruments						
Interest rate contracts (2)	15,277.9	107.7	(91.1)	12,443.5	61.5	(39.3)
Foreign exchange contracts	2,614.7	20.7	(11.1)	1,375.5	6.9	(14.9)
Other contracts ⁽³⁾	607.5	0.1	(13.3)	468.3	0.1	(14.1)
Total derivatives not designated as hedging instruments	18,500.1	128.5	(115.5)	14,287.3	68.5	(68.3)
Gross derivative fair values presented in the Consolidated Balance Sheets	\$19,717.8	\$129.3	\$(129.1)	\$15,264.6	\$68.7	\$(87.0)
Less: Gross amounts offset in the Consolidated Balance Sheets		—	—		—	—
Net Amount Presented in the Consolidated Balance Sheet		129.3	(129.1)		68.7	(87.0)
Derivative Financial Instruments ⁽⁴⁾		(15.8)	15.8		(18.7)	18.7
Cash Collateral Pledged/(Received) ⁽⁴⁾⁽⁵⁾⁽⁶⁾		(42.0)	11.0		(8.4)	23.0
Total Net Derivative Fair Value		\$71.5	\$(102.3)		\$41.6	\$(45.3)

⁽¹⁾Presented on a gross basis.

⁽²⁾Fair value balances include accrued interest

- (3) Other derivative contracts not designated as hedging instruments include a total return swap and risk participation agreements. See Note 14 – Subsequent Events relating to CIT’s termination of the Dutch TRS Facility on November 2, 2018.
- (4) The Company accounts for swap contracts cleared by the Chicago Mercantile Exchange as “settled-to-market” effective January 2017. As a result, variation margin payments are characterized as settlement of the derivative exposure and variation margin balances are netted against the corresponding derivative mark-to-market balances. The Company’s swap contracts cleared by LCH Clearnet continue to be accounted for as “collateralized-to-market” and variation margin balances are characterized as collateral against derivative exposures. At September 30, 2018, gross amounts of recognized assets and liabilities were lower by \$12.3 million and \$2.7 million, respectively.
- (5) The Company’s derivative transactions are governed by ISDA agreements that allow for net settlements of certain payments as well as offsetting of all contracts with a given counterparty in the event of bankruptcy or default of one of the two parties to the transaction. We believe our ISDA agreements meet the definition of a master netting arrangement or similar agreement for purposes of the above disclosure. In conjunction with the ISDA agreements, the Company has entered into collateral arrangements with its counterparties, which provide for the exchange of cash depending on change in the market valuation of the derivative contracts outstanding. Such collateral is available to be applied in settlement of the net balances upon an event of default of one of the counterparties.
- (6) Collateral pledged or received is included in Other assets or Other liabilities, respectively.

Qualifying Hedges

CIT enters into interest rate swap agreements to manage interest rate exposure on its fixed-rate borrowings. The agreements that qualify for hedge accounting are designated as a fair value hedge. The following table represents the impact of fair value hedges on the condensed consolidated statements of income.

Qualifying Hedges (dollars in millions)		September 30, 2018		September 30, 2017	
		Nine Months Ended		Nine Months Ended	
	Amounts Recognized				
Recognized on derivatives	Interest Expense	\$(0.8)	\$(1.8)	\$ —	\$ —
Recognized on hedged item	Interest Expense	0.8	1.8	—	—
Net recognized on fair value hedges (No Ineffectiveness)		\$ —	\$ —	\$ —	\$ —

Total	\$ 13.4	\$ 13.4	\$ (74.7)	\$ (88.1)

Dutch TRS Facility

As of September 30, 2018, CIT's wholly-owned subsidiary, CIT TRS Funding B.V. ("BV") was party to a financing facility (the "Dutch TRS Facility") with Goldman Sachs International ("GSI"). The amount available for advances (otherwise known as the unused portion) was accounted for as a derivative ("TRS Derivative") and recorded at the estimated fair value. The total facility capacity available under the Dutch TRS Facility was \$625 million at September 30, 2018, and December 31, 2017. The utilized portion reflects the borrowing.

The aggregate "notional amount" of the TRS Derivative was \$209.7 million at September 30, 2018, and \$182.4 million at December 31, 2017. The notional amount was calculated as the maximum facility commitment amount, or \$625 million, under the Dutch TRS Facility, less the actual adjusted qualifying borrowing base outstanding of \$415.3 million at September 30, 2018, and \$442.6 million under the facility at December 31, 2017.

Based on the Company's valuation, a liability of \$13.3 million and \$14.1 million was recorded at September 30, 2018, and December 31, 2017, respectively. The decrease in liability of \$1.4 million and \$0.8 million were recognized in other non-interest income for the quarter and nine months ended September 30, 2018, respectively. An increase in liability of \$1.1 million and \$2.4 million was recognized as a reduction to other non-interest income for the quarter and nine months ended September 30, 2017, respectively.

See Note 14 – Subsequent Events relating to the Company's termination of the Dutch TRS Facility on November 2, 2018.

NOTE 8 — FAIR VALUE

Fair Value Hierarchy

The Company measures certain financial assets and liabilities at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP also establishes a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three levels. See Note 1 — Business and Summary of Significant Accounting Policies in the Company's 2017 Form 10-K for a description of its valuation process for assets and liabilities measured at fair value and fair value hierarchy.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Disclosures that follow in this note exclude assets and liabilities classified as discontinued operations.

The following table summarizes the Company's assets and liabilities measured at estimated fair value on a recurring basis.

⁽²⁾Derivative fair values include accrued interest.

See Fair Value of Financial Instruments later in this note for fair value measurements of Debt and Equity Securities Classified as AFS, Securities carried at fair value with changes recorded in net income and Derivative Assets and Liabilities.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Consideration Holdback Liability — In connection with the OneWest acquisition, the parties negotiated certain holdbacks related to select trailing risks, which totaled \$116 million and reduced the cash consideration paid at closing. As of June 30, 2018, all holdback obligations were settled with the former OneWest shareholders. As of December 31, 2017, management's estimate of the probable amount of holdback to be paid was \$46 million. Due to the significant unobservable inputs used, these measurements were classified as Level 3.

FDIC True-up Liability — The FDIC True-up liability was recorded at estimated fair value as of the Acquisition Date and is measured at fair value at each reporting date until the contingency is resolved. Due to the significant unobservable inputs used, these measurements were classified as Level 3.

The following tables summarize information about significant unobservable inputs related to the Company's categories of Level 3 financial assets and liabilities measured on a recurring basis as of September 30, 2018 and December 31, 2017.

⁽¹⁾Valuation of the derivative related to the Dutch TRS Facility.

Assets Measured at Estimated Fair Value on a Non-recurring Basis

Certain assets or liabilities are required to be measured at estimated fair value on a non-recurring basis subsequent to initial recognition. Generally, these adjustments are the result of LOCOM or other impairment accounting. In determining the estimated fair values, the Company determined that substantially all the changes in estimated fair

value were due to declines in market conditions versus instrument specific credit risk. This was determined by examining the changes in market factors relative to instrument specific factors.

The following table presents assets measured at estimated fair value on a non-recurring basis for which a non-recurring change in fair value has been recorded in the current year:

Carrying Value of Assets Measured at Fair Value on a Non-recurring Basis (dollars in millions)

		Fair Value Measurements at Reporting Date Using:			Total Gains
	Total	Level 1	Level 2	Level 3	(Losses)
September 30, 2018					
Assets held for sale	\$58.4	\$—	\$9.9	\$48.5	\$ 8.9
Other real estate owned	3.8	—	—	3.8	(1.0)
Impaired loans	87.4	—	—	87.4	(38.5)
Total	\$149.6	\$—	\$9.9	\$139.7	\$ (30.6)
December 31, 2017					
Assets held for sale	\$177.8	\$—	\$—	\$177.8	\$ (15.0)
Other real estate owned	18.8	—	—	18.8	(4.4)
Impaired loans	89.1	—	—	89.1	(21.9)
Total	\$285.7	\$—	\$—	\$285.7	\$ (41.3)

Assets of continuing operations that are measured at fair value on a non-recurring basis are as follows:

Assets Held for Sale — See Fair Value of Financial Instruments later in this note for fair value measurements of AHFS. Carrying value of AHFS with impairment approximates fair value at September 30, 2018 and December 31, 2017.

Other Real Estate Owned — Estimated fair values of OREO are reviewed on a quarterly basis and any decline in value below cost is recorded as impairment. Estimated fair value approximates carrying value and is generally based on market data, if available or broker price opinions or independent appraisals, adjusted for costs to sell. The weighted average inputs used to estimate the cost to sell were 6.7% at September 30, 2018. Significant unobservable inputs resulted in the Level 3 classification of OREO.

Impaired Loans — See Fair Value of Financial Instruments later in this note for fair value measurements of impaired loans. As of the reporting date, the carrying value of impaired loans approximated fair value.

Financial Liabilities					
Deposits ⁽⁴⁾	(29,586.5)	—	—	(29,668.6)	(29,668.6)
Derivative liabilities at fair value — non-qualifying hedges	(68.3)	—	(54.2)	(14.1)	(68.3)
Derivative liabilities at fair value — qualifying hedges	(18.7)	—	(18.7)	—	(18.7)
Borrowings ⁽⁴⁾	(9,043.8)	—	(8,281.7)	(991.2)	(9,272.9)
Credit balances of factoring clients	(1,468.6)	—	—	(1,468.6)	(1,468.6)
Other liabilities subject to fair value disclosure ⁽⁵⁾	(725.2)	—	—	(725.2)	(725.2)

⁽¹⁾Level 3 fair value at September 30, 2018, includes debt securities AFS (\$107.1 million), and non-marketable investments (\$242.0 million). Level 3 fair value at December 31, 2017 included debt securities AFS (\$385.8 million), debt securities carried at fair value with changes recorded in net income (\$0.4 million), and non-marketable investments (\$301.2 million).

⁽²⁾The indemnification assets relating to the SFR loans purchased in the OneWest Bank Transaction were measured on the same basis as the related indemnified item, and the underlying SFR loans. The estimated fair values reflect the present value of expected reimbursements under the indemnification agreements based on the loan performance discounted at an estimated market rate, and were classified as Level 3. The indemnification assets included in the above table do not include Agency claims indemnification (the balance of which was zero at September 30, 2018 and \$28.9 million at December 31, 2017), as they are not considered financial instruments.

⁽³⁾Other assets subject to fair value disclosure primarily include unsecured counterparty receivables, accrued interest receivable and miscellaneous receivables. The unsecured counterparty receivables primarily consisted of amounts owed to CIT for debt discount, return of collateral and settlements resulting from market value changes to asset-backed securities underlying the TRS. The remaining assets have carrying values that approximated fair value, generally due to their short-term nature.

⁽⁴⁾Deposits and borrowings include accrued interest, which is included in “Other liabilities”.

⁽⁵⁾Other liabilities subject to fair value disclosure include accounts payable, accrued liabilities, customer security and maintenance deposits and miscellaneous liabilities. The fair value of these approximated carrying value.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

The methods and assumptions used to estimate the fair value of each class of financial instruments were:

Derivative Assets and Liabilities — Derivatives were valued using models that incorporate inputs depending on the type of derivative. Besides the fair value of the TRS Derivative, written options on certain CIT Bank certificate of deposits and credit derivatives that were estimated using Level 3 inputs, most derivative instruments were valued using a Level 2 methodology. See Note 7 — Derivative Financial Instruments for notional principal amounts and fair values

Investment Securities —

Debt securities classified as AFS — Investments in U.S. federal government agency securities, U.S. Treasury Notes, agency pass-through and supranational securities were valued using Level 2 inputs. The market for non-Agency MBS is not active; therefore the estimated fair value was determined using a discounted cash flow technique. Given the lack of observable market data, the estimated fair value of the non-agency MBS was classified as Level 3. Non-marketable equity securities utilize Level 3 inputs to estimate fair value and were generally recorded under the cost or equity method of accounting. For investments in limited partnership equity interests, the Company used the net asset value provided by the fund manager as an appropriate measure of fair value.

Securities carried at fair value with changes recorded in net income — included equity securities AFS that were reclassified to securities carried at fair value with changes recorded in net income upon the adoption of ASU 2016-01 - Financial Instruments as of January 1, 2018. A majority were valued using Level 2 inputs and the remaining were valued using Level 1 inputs.

Assets held for sale — As there was no liquid secondary market for most AHFS, the fair value was estimated based on Level 3 inputs.

Loans — Within the Loans category, there are several types of loans as follows:

Commercial and Consumer Loans — Commercial and consumer loans are generally valued individually, while small ticket commercial loans and equipment loans are valued on an aggregate portfolio basis. As there is no liquid secondary market for most loans, the fair value was estimated based on analyses that used Level 3 inputs at both September 30, 2018 and December 31, 2017.

Impaired Loans — The value of impaired loans was assessed through the evaluation of aggregate carrying values of impaired loans relative to contractual amounts owed (unpaid principal balance) from customers. See Note 3 — Loans.

PCI loans — These loans were valued by grouping the loans into performing and non-performing groups and stratifying the loans based on common risk characteristics such as product type, FICO score and other economic attributes. Due to the significance of the unobservable inputs, these loans are classified as Level 3.

Deposits — The estimated fair value of deposits with no stated maturity, such as demand deposit accounts (including custodial deposits), money market accounts, and savings accounts was the amount payable on demand at the reporting date. The fair value of time deposits is estimated using Level 3 inputs.

Borrowings

The Level 2 fair value of borrowings were valued using market inputs and discounted value of the contractual cash flows using current estimated market discount rates for borrowings with similar terms, remaining maturities and put dates and did not require significant judgment. These borrowings include:

Unsecured debt — Unsecured debt included both senior debt and subordinated debt, which was approximately \$4.3 billion par value at September 30, 2018 and \$3.8 billion at December 31, 2017.

Secured borrowings — Secured borrowings included both structured financings and FHLB advances. Of the total estimated fair value of structured financing, approximately \$3.6 billion par value at September 30, 2018 and \$4.3 billion at December 31, 2017 were Level 2. The estimated fair value of FHLB advances was based on the discounted cash flow model. The cash flows were calculated using the contractual features of the advance and then discounted using observable rates.

The Level 3 fair value of borrowings included:

Secured borrowings — Market estimates were not available for approximately \$0.8 billion par value of structured financings at September 30, 2018, and \$1.0 billion at December 31, 2017, therefore values were estimated using Level 3 inputs.

Credit balances of factoring clients — The impact of the time value of money from the unobservable discount rate for credit balances of factoring clients is inconsequential due to the short term nature of these balances (typically 90 days or less), therefore, the carrying value approximated fair value, and the credit balances were classified as Level 3.

Other Comprehensive Loss

The amounts included in the Condensed Consolidated Statements of Comprehensive Income are net of income taxes.

Foreign currency translation reclassification adjustments impacting net income for the quarter and the nine months ended September 30, 2018 were insignificant. Foreign currency translation reclassification adjustments impacting net income for the quarter and the nine months ended September 30, 2017 were insignificant and \$26.2 million, respectively. Of the year to date 2017 balance, \$16.7 million was a result of the sale of the Commercial Air business and was recorded in gain on sale of discontinued operations. The change in income taxes associated with foreign currency translation adjustments was an increase of \$1.8 million and \$9.2 million for the quarters ended September 30, 2018 and 2017, respectively, and a decrease of \$3.2 million and an increase of \$26.3 million for the nine months ended September 30, 2018 and 2017, respectively.

The changes in benefit plans net gain/(loss) and prior service (cost)/credit reclassification adjustments impacting net income were insignificant and \$0.1 million for the quarters ended September 30, 2018 and 2017, respectively, and \$0.5 million and \$0.7 million for the nine months ended September 30, 2018 and 2017, respectively. The change in income taxes associated with changes in benefit plans net gain/(loss) and prior service (cost)/credit was insignificant for the quarters ended September 30, 2018 and 2017, respectively, and a decrease of \$0.9 million and a decrease of \$0.6 million for the nine months ended September 30, 2018 and 2017, respectively.

Reclassification adjustments impacting net income for unrealized gains/(losses) on available for sale securities was a decrease of \$2.3 million and a decrease of \$2.1 million for the quarters ended September 30, 2018 and 2017, respectively and a decrease of \$11.6 million and a decrease of \$2.3 million for the nine months ended September 30, 2018 and 2017, respectively. The change in income taxes associated with net unrealized gains/(losses) on available for sale securities was an increase of \$11.4 million and a decrease of \$2.3 million for quarters ended September 30, 2018 and 2017, respectively and an increase of \$36.9 million and a decrease of \$6.5 million for the nine months ended September 30, 2018 and 2017, respectively.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 10 — INCOME TAXES

The Company's global effective income tax rate from continuing operations including discrete tax items for the third quarter and nine months ended September 30, 2018 was 24.2% and 26.9%, respectively, up from (116.3)% in the prior year quarter and (38.7)% in the nine months ended September 30, 2017.

The quarterly income tax expense is based on a projection of the Company's annual effective tax rate. This annual effective tax rate is applied to the year-to-date consolidated pre-tax income to determine the interim provision for income taxes before discrete items. The year-to-date impact of any change in the projected annual effective tax rate from the prior quarter estimate is included in the current quarter income tax expense. The effective tax rate each period is also impacted by a number of factors, including the relative mix of domestic and international earnings, effects of changes in enacted tax laws, adjustments to the valuation allowances, and discrete items. The currently forecasted effective tax rate may vary from the actual year-end 2018 effective tax rate due to the changes in these factors.

2017 U.S. Tax Reform Legislation

The Tax Cuts and Jobs Act ("TCJA") was enacted on December 22, 2017. The TCJA required management to make certain adjustments to the Company's year-end financial statements for the effects of the law relating to the remeasurement of deferred taxes, liabilities for taxes due on mandatory deemed repatriation, liabilities for taxes due on other foreign income, and the reassessment of the Company's valuation allowance. The SEC staff has afforded registrants a measurement period to record adjustments for the effects of the law, per Staff Accounting Bulletin No. 118 Income Tax Accounting Implications of the Tax Cuts and Jobs Act, similar to the measurement period used when accounting for business combinations. As of September 30, 2018, the Company has reviewed information relating to these tax law changes, and concluded that the procedures and methods utilized in developing assumptions, estimates and judgments for final and provisional amounts recorded in the financial statements are appropriate. The Company anticipates refinements to the amounts resulting from the issuance of future legislative and accounting guidance as well as those in the normal course of business. However, management does not anticipate any adjustments to the provisional amounts arising from further analysis of these tax law changes would be material.

Valuation Allowances

The Company established valuation allowances ("VAs") against certain U.S. federal, U.S. state, and international deferred tax assets ("DTAs") that are not expected to be realized in the future. The Company maintained a VA of \$208.6 million against U.S. state DTAs on certain state net operating losses and a \$28.6 million VA against certain non-U.S. reporting entities' net DTAs as of September 30, 2018.

In 2017, the Company reported a net \$177.4 million U.S. income tax benefit comprised of a gross \$234.2 million tax benefit on a capital loss of \$610.5 million realized on the liquidation of a wholly-owned foreign subsidiary partially offset by a \$56.8 million charge to establish a VA against the unused portion of the capital loss. As a result of the

change in the U.S. Federal income tax rate from 35 percent to 21 percent beginning in 2018, the VA against the capital loss carryforwards was revalued to \$39.6 million as of December 31, 2017. As of the third quarter of 2018, the Company maintained a U.S. Federal and state VA of \$15.8 million against certain capital loss carryforwards, down from \$39.6 million as of December 31, 2017. The reduction was attributable to changes in expected capital gains and additional net capital gains recognized year to date in the normal course of business as well as a reduction to the DTA on capital loss carryforward and associated VA. The Company will recognize the income tax benefit on the remaining portion of the DTA subject to the VA to the extent of additional capital gains. Capital losses can be carried forward for five years to offset capital gains.

The Company's ability to recognize DTAs is evaluated on a quarterly basis to determine if there are any significant events that would affect its ability to utilize existing DTAs. If events are identified that affect its ability to utilize its DTAs, VAs may be adjusted accordingly.

Liabilities for Uncertain Tax Positions

The Company's liability for uncertain tax positions ("UTPs") before interest and penalties was \$13.3 million at September 30, 2018 and \$13.5 million at December 31, 2017. The Company anticipates changes to its UTP liability upon the resolution of open tax matters and closure of statutes of limitations. The Company's accrued liability for interest and penalties totaled \$7.1 million at September 30, 2018 and \$6.3 million at December 31, 2017. Management believes that it is reasonably possible the total potential liability may be increased or decreased by \$5 to \$10 million within the twelve months following the reporting date because of anticipated settlement with taxing authorities. The Company recognizes accrued interest and penalties on unrecognized tax benefits in income tax expense.

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 11 — COMMITMENTS

The accompanying table summarizes credit-related commitments and guarantees, as well as purchase and funding commitments:

Commitments (dollars in millions)

	September 30, 2018		December 31, 2017	
	Due to Expire			
	Within	After	Total	Total
	One	One	Outstanding	Outstanding
	Year	Year		
Financing Commitments				
Financing assets ⁽¹⁾	\$2,421.3	\$4,061.7	\$ 6,483.0	\$ 6,351.1
Letters of credit				
Standby letters of credit	31.2	211.1	242.3	213.3
Other letters of credit	11.4	0.7	12.1	16.3
Guarantees				
Deferred purchase agreements	2,082.7	—	2,082.7	2,068.1
Purchase and Funding Commitments				
Rail and other purchase commitments ⁽¹⁾	393.2	33.8	427.0	222.9

⁽¹⁾In preparing the quarter-end financial statements as of March 31, 2018, the Company discovered and corrected an immaterial error impacting December 31, 2017 "Financing assets" and "Rail and other purchase commitments", which were understated by \$113.4 million (\$86.6 million for financing assets and \$26.8 million for purchase commitments). The current presentation has been revised to reflect the corrected balances at December 31, 2017.

Discontinued Operations

Financing commitments include HECM reverse mortgage loan commitments associated with Financial Freedom discontinued operations of \$24 million at September 30, 2018 and \$34 million at December 31, 2017 due to CIT's servicer obligation to repurchase the loan out of the GNMA HMBS securitization pools once the outstanding principal balance is equal to or greater than 98% of the maximum claim amount or when the property forecloses to OREO. On May 31, 2018, the Company completed the sale of the Financial Freedom business and reverse mortgage loan portfolio in connection with the Financial Freedom Transaction. At September 30, 2018, the required investor (GNMA) consent remains outstanding; although the economic benefit and risk of the business has been transferred to the buyer. Upon receiving the GNMA consent, CIT shall no longer have this servicer repurchase obligation. See Note 2 — Discontinued Operations.

Financing Commitments

Commercial

Financing commitments, referred to as loan commitments or lines of credit, primarily reflect CIT's agreements to lend to its customers, subject to the customers' compliance with contractual obligations. Included in the table above are commitments that have been extended to and accepted by customers, clients or agents, but on which the criteria for funding have not been completed of \$1,616.3 million at September 30, 2018 and \$950.3 million at December 31, 2017. Financing commitments also include credit line agreements to Business Capital clients that are cancellable by us only after a notice period. The notice period is typically 90 days or less. The amount available under these credit lines, net of the amount of receivables assigned to us, was \$135 million at September 30, 2018 and \$190 million at December 31, 2017. As financing commitments may not be fully drawn, may expire unused, may be reduced or canceled at the customer's request, and may require the customer to be in compliance with certain conditions, total commitment amounts do not necessarily reflect actual future cash flow requirements.

At September 30, 2018, substantially all undrawn financing commitments were senior facilities. Most of the Company's undrawn and available financing commitments are in the Commercial Banking segment.

The table above excludes uncommitted revolving credit facilities extended by Business Capital to its' clients for working capital purposes. In connection with these facilities, Business Capital has the sole discretion throughout the duration of these facilities to determine the amount of credit that may be made available to its clients at any time and whether to honor any specific advance requests made by its clients under these credit facilities.

Consumer

The Company sold its reverse mortgage portfolio in connection with the Financial Freedom Transaction on May 31, 2018. Prior to the sale, the Company was committed to fund draws on certain reverse mortgages in conjunction with loss sharing agreements with the FDIC from the OneWest acquisition. The FDIC agreed to indemnify the Company for losses on the first \$200 million of draws that occur subsequent to the purchase date (post March 2009). As of December 31, 2017, \$134 million had been advanced on the reverse mortgage loans post March 2009 with exposure for additional draws of \$66 million. See Note 5 — Indemnification Assets of the Company's 2017 Form 10-K for further discussion on the loss sharing agreements with the FDIC.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

Separately, the Company is committed to fund draws on certain home equity lines of credit (“HELOCs”). Under the HELOC participation and servicing agreement entered into with the FDIC, the FDIC agreed to reimburse the Company for a portion of the draws that the Company funded on the purchased HELOCs from the OneWest acquisition.

Letters of Credit

In the normal course of meeting the needs of clients, CIT sometimes enters into agreements to provide financing and letters of credit. Standby letters of credit obligate the issuer of the letter of credit to pay the beneficiary if a client on whose behalf the letter of credit was issued does not meet its obligation. These financial instruments generate fees and involve, to varying degrees, elements of credit risk in excess of amounts recognized in the Condensed Consolidated Balance Sheets. To minimize potential credit risk, CIT generally requires collateral and in some cases additional forms of credit support from the client.

Deferred Purchase Agreements

A Deferred Purchase Agreement (“DPA”) is provided in conjunction with factoring, whereby CIT provides a client with credit protection for trade receivables without purchasing the receivables. The trade receivable terms are generally 90 days or less. If the client’s customer is unable to pay an undisputed receivable solely as the result of credit risk, then CIT purchases the receivable from the client. The outstanding amount in the table above is the maximum potential exposure that CIT would be required to pay under all DPAs. This maximum amount would only occur if all receivables subject to DPAs default in the manner described above, thereby requiring CIT to purchase all such receivables from the DPA clients.

The table above includes \$2,020 million and \$1,979 million of DPA credit protection at September 30, 2018 and December 31, 2017, respectively, related to receivables which have been presented to us for credit protection after shipment of goods has occurred and the customer has been invoiced. The table also includes \$62 million and \$89 million available under DPA credit line agreements, net of the amount of DPA credit protection provided at September 30, 2018 and December 31, 2017, respectively. The DPA credit line agreements specify a contractually committed amount of DPA credit protection and are cancellable by us only after a notice period. The notice period is typically 90 days or less.

The methodology used to determine the DPA liability is similar to the methodology used to determine the allowance for loan losses associated with the finance loans, which reflects embedded losses based on various factors, including expected losses reflecting the Company’s internal customer and facility credit ratings. The liability recorded in Other Liabilities related to the DPAs totaled \$6.6 million and \$5.3 million at September 30, 2018 and December 31, 2017, respectively.

Purchase and Funding Commitments

CIT’s purchase commitments primarily relate to the Rail and Equipment Finance businesses.

Other Commitments

The Company has commitments to invest in affordable housing investments, and other investments qualifying for community reinvestment tax credits. These commitments were \$116 million at September 30, 2018 and \$67 million at December 31, 2017. These commitments are payable on demand and are recorded in other liabilities.

NOTE 12 — CONTINGENCIES

Litigation and other Contingencies

CIT is involved, and from time to time in the future may be involved, in a number of pending and threatened judicial, regulatory, and arbitration proceedings as well as proceedings, investigations, examinations and other actions brought or considered by governmental and self-regulatory agencies. These matters arise in connection with the conduct of CIT's business. At any given time, CIT may also be in the process of responding to subpoenas, requests for documents, data and testimony relating to such matters and engaging in discussions to resolve the matters (all of the foregoing collectively being referred to as, "Litigation"). While most Litigation relates to individual claims, CIT is also subject to putative class action claims and similar broader claims.

In view of the inherent difficulty of predicting the outcome of Litigation matters, particularly when such matters are in their early stages or where the claimants seek indeterminate damages, CIT cannot state with confidence what the eventual outcome of the pending Litigation will be, what the timing of the ultimate resolution of these matters will be, or what the eventual loss, fines, or penalties related to each pending matter will be, if any. In accordance with applicable accounting guidance, CIT establishes reserves for Litigation when those matters present loss contingencies as to which it is both probable that a loss will occur and the amount of such loss can be reasonably estimated. Based on currently available information, CIT believes that the outcome of Litigation that is currently pending will not have a material adverse effect on the Company's financial condition, but may be material to the Company's operating results or cash flows for any particular period, depending in part on its operating results for that period. The actual results of resolving such matters may be substantially higher than the amounts reserved.

Table of Contents

CIT Group Inc. and Subsidiaries – Notes to Condensed Consolidated Financial Statements (Unaudited)

For certain Litigation matters in which the Company is involved, the Company is able to estimate a range of reasonably possible losses in excess of established reserves and insurance. For other matters for which a loss is probable or reasonably possible, such an estimate cannot be determined. For Litigation and other matters where losses are reasonably possible, management currently estimates the aggregate range of reasonably possible losses as up to \$65 million in excess of any established reserves and any insurance we reasonably believe we will collect related to those matters. This estimate represents reasonably possible losses (in excess of established reserves and insurance) over the life of such Litigation, which may span a currently indeterminable number of years, and is based on information currently available as of September 30, 2018. The Litigation matters underlying the estimated range will change from time to time, and actual results may vary significantly from this estimate.

Those Litigation matters for which an estimate is not reasonably possible or as to which a loss does not appear to be reasonably possible, based on current information, are not included within this estimated range and, therefore, this estimated range does not represent the Company's maximum loss exposure.

The foregoing statements about CIT's Litigation are based on the Company's judgments, assumptions, and estimates and are necessarily subjective and uncertain. The Company has several hundred threatened and pending judicial, regulatory and arbitration proceedings at various stages. Several of the Company's significant Litigation matters are described below.

Brazilian Tax Matter

Banco Commercial Investment Trust do Brasil S.A. ("Banco CIT"), CIT's Brazilian bank subsidiary, was sold in a stock sale in the fourth quarter of 2015, thereby transferring the legal liabilities of Banco CIT to the buyer. Under the terms of the stock sale, CIT remains liable for indemnification to the buyer for any losses resulting from certain Imposto Sobre Circulacao de Mercadorias e Servicos ("ICMS") tax appeals relating to disputed local tax assessments on leasing services and importation of equipment (the "ICMS Tax Appeals").

Notices of infraction were issued to Banco CIT relating to the payment of ICMS taxes charged by Brazilian states in connection with the importation of equipment. The state of São Paulo claims that Banco CIT should have paid it ICMS taxes for tax years 2006 - 2009 because Banco CIT, the purchaser, was located in São Paulo. Instead, the ICMS taxes were paid to the state of Espirito Santo where the imported equipment arrived. A regulation issued by São Paulo in December 2013 reaffirms a 2009 agreement by São Paulo to conditionally recognize ICMS tax payments made to Espirito Santo. An assessment related to taxes paid to Espirito Santo was upheld in a ruling issued by the administrative court in May 2014. That ruling has been appealed. Another assessment related to taxes paid to Espirito Santo remains pending. Petitions seeking São Paulo's recognition of the taxes paid to Espirito Santo were also filed in a general amnesty program. In the first quarter of 2018, CIT was advised that the larger of the two amnesty petitions had been granted and dismissal of that matter is pending with the court.

Hawaiian Foreclosure Litigation Claims

Based on recent rulings of the Hawaii Supreme Court, lawsuits have been filed against CIT in Hawaii alleging technical violations in non-judicial foreclosures. Similar cases have been filed against other mortgage lenders in

Hawaii. The Hawaii Supreme Court did not establish a clear methodology for calculating alleged damages if a violation is proven and there is substantial dispute in this regard. In many instances the borrower had no equity in the home at the time of foreclosure. Damages sought in these cases include any lost equity, compensation for loss of use of the house and, in some cases, treble or punitive damages under Hawaii's unfair practices law.

HUD OIG Investigation

In 2009, OneWest Bank acquired the reverse mortgage loan portfolio and related servicing rights of Financial Freedom Senior Funding Corporation, including HECM loans, from the FDIC as Receiver for IndyMac Federal Bank. HECM loans are insured by the FHA, and administered by HUD. In addition, Financial Freedom is the servicer of HECM loans owned by third party investors. Beginning in the third quarter of 2015, the Office of the Inspector General for HUD (the "HUD OIG"), served a series of subpoenas on the Company regarding HECM loans. The subpoenas requested documents and other information related to Financial Freedom's HECM loan origination and servicing business, including the curtailment of interest payments on HECM insurance claims. On May 16, 2017, CIT entered into a settlement of approximately \$89 million to resolve the servicing related claims. The settlement was within CIT's existing reserves and included interest to be reimbursed to HUD. CIT has provided information and documents responsive to the subpoena's request for information relating to the mortgage originations and does not currently expect the outcome of the remaining loan origination matter to have a material adverse effect on CIT's financial condition or results of operations.

NY Attorney General

In the second quarter of 2017, the Office of the Attorney General of the State of New York ("NYAG"), served a subpoena on the Company regarding HECM loans. The subpoena requested documents and other information related to Financial Freedom's HECM loan business in the State of New York. The NYAG subsequently withdrew the subpoena and has requested the Company's continued voluntary cooperation with the inquiry. The Company has cooperated with the NYAG's office and has produced certain documents. The Company does not have sufficient information to make an assessment of the outcome or the impact of the NYAG's ongoing inquiry.

NOTE 14 — SUBSEQUENT EVENTS

Sale of NACCO

On October 4, 2018, CIT sold NACCO, the Company's European railcar leasing business. With the closing of the NACCO sale, CIT fully divested its interest in NACCO as of October 4, 2018. Railcar loans and leases of approximately \$1.2 billion were sold and we expect to recognize a pretax gain of approximately \$30-35 million in the fourth quarter. The Company expects to use a portion of the net proceeds received of approximately \$1.1 billion to fund the termination of the Dutch TRS Facility (discussed below) and the redemption of a related Railcar Securitization (defined below). The remaining proceeds will be used to return capital to shareholders under the remaining amount of the Company's common equity capital return, to reduce unsecured debt (discussed below), and for general corporate purposes.

Termination of Dutch TRS Facility

On October 5, 2018, BV issued an Optional Termination Notice (as that term is defined for purposes of that certain Master Agreement) to GSI to terminate the \$625 million Dutch TRS Facility between BV and GSI. Pursuant to the Optional Termination Notice, the Dutch TRS Facility was terminated on November 2, 2018 (the "Optional Termination Date").

The exercise of BV's option to terminate the Dutch TRS Facility prior to maturity required a payment to GSI on November 2, 2018 of the present value of the remaining facility fee (the "Optional Termination Fee"). The Optional Termination Fee and the reduction of the liability associated with the TRS Derivative are expected to result in net pretax charges for the Company of approximately \$70 - \$75 million in the fourth quarter of 2018.

Redemption of the Railcar Securitization

On October 25, 2018, CIT repaid approximately \$465 million of secured financings of the Company's railcar asset backed securitization vehicle (the "Railcar Securitization"), which was the reference obligation under the Dutch TRS Facility. In addition, the termination of the Dutch TRS Facility and redemption of the associated reference obligation Railcar Securitization resulted in the unencumbering of approximately \$775 million of railcar assets.

On November 1, 2018, the Company sold approximately \$350 million of railcar assets in the Railcar Securitization to CIT Bank.

Approximately \$300 million of proceeds from the sale of NACCO, net of cash held by the securitization trust and other collateral held by the securitization trustee and the counterparty on the Dutch TRS Facility, was used for the redemption of the Railcar Securitization and the termination of the Dutch TRS Facility, including payment of the Optional Termination Fee.

Debt Redemptions

On October 19 and November 2, 2018, we announced our intent to redeem the outstanding 5.375% senior unsecured notes due May 2020, which totaled approximately \$431 million at September 30, 2018, which we will redeem using net proceeds from the NACCO sale and the sale of rail assets to CIT Bank. The unsecured debt redemptions are expected to result in debt extinguishment losses of approximately \$15 million in the fourth quarter.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Item 3. Quantitative and Qualitative Disclosures about Market Risk

CIT Group Inc., together with its subsidiaries (collectively "we", "our", "CIT" or the "Company"), is a bank holding company ("BHC") and regulated by the Board of Governors of the Federal Reserve System ("FRB") and the Federal Reserve Bank of New York ("FRBNY") under the U.S. Bank Holding Company Act of 1956, as amended. CIT Bank, N.A. is regulated by the Office of the Comptroller of the Currency of the U.S. Department of the Treasury ("OCC").

Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures about Market Risk ("MD&A") contain financial terms that are relevant to our business, and a Glossary of key terms is included in Item 1. Business Overview in our Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Form 10-K").

Management uses certain non-GAAP financial measures in its analysis of the financial condition and results of operations of the Company. See "Non-GAAP Financial Measurements" for a reconciliation of these financial measures to comparable financial measures based on U.S. GAAP.

Throughout this MD&A we reference specific "Notes" to our financial statements. These are notes to the Condensed Consolidated Financial Statements in Item 1. Financial Statements.

SUMMARY OF 2018 FINANCIAL RESULTS

The following table summarizes the Company's results in accordance with GAAP as included in the Condensed Consolidated Statements of Income, along with the quarter ended June 30, 2018. We also provide results that are not in accordance with GAAP, and are reconciled to GAAP in the "Non-GAAP Financial Measurements" section at the end of this MD&A.

Results of Operations (dollars in millions)

	Quarters Ended			Nine Months Ended	
	September 30, 2018	June 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017

Income from continuing operations available to common shareholders for the third quarter was down from the year-ago and prior quarters, as each quarter was impacted by varying amounts of noteworthy items that are discussed in various sections of the MD&A. Compared to the year-ago quarter, income from continuing operations available to common shareholders excluding

Table of Contents

noteworthy items¹ was down, as lower net finance revenue and an increase in the provision for credit losses offset higher other non-interest income and lower operating expenses. The improvement from the prior quarter excluding noteworthy items reflected lower operating expenses and income taxes, along with no semi-annual preferred dividend paid in the current quarter, partially offset by a decline in other non-interest income and higher credit costs. The results per diluted common share excluding noteworthy items compared to the prior quarters also reflects the decline in the average number of diluted common shares outstanding due to significant share repurchases. For the nine months ended September 30, 2018, higher credit and borrowing costs offset higher other non-interest income and lower operating expenses.

Net income available to common shareholders and net income available to common shareholders excluding noteworthy items² were down from the year-ago quarter and up from the prior quarter. While the trends reflected the results from continuing operations, the decline from the year-ago nine months was also affected by the loss in discontinued operations in 2018, compared to income in the year-ago period.

The following table reflects the reconciliation of income from continuing operations and net income excluding noteworthy items² for the quarter and nine months ended September 30, 2018, to our results in accordance with GAAP.

Noteworthy Adjustments to 2018 Results (dollars in millions, except per share amounts)

First Quarter Items								
NACCO suspended depreciation			(6.8)	(0.06)			(6.8)	(0.06)

Non-GAAP Results (certain EPS balances may not sum due to rounding)	\$352.5	\$2.86	\$341.2	\$2.77
SUBSEQUENT EVENTS				

In October 2018 we sold NACCO, our European Railcar business. The sale included \$1.2 billion of loans and leases that were in AHFS, and we expect to recognize a pretax gain of approximately \$30-35 million in the fourth quarter.

- We also terminated the Dutch TRS Facility on November 2, 2018, which is expected to result in a net pretax charge of approximately \$70-75 million in the fourth quarter that reflects the present value of the facility fee over the remaining term of nearly 10 years, net of the reduction of the liability associated with the TRS Derivative.

In October 2018, we redeemed all of the outstanding notes of the Company's Railcar Securitization related to the Dutch TRS Facility of approximately \$465 million, which resulted in approximately \$775 million of rail assets becoming unencumbered.

On November 1, 2018, the Company sold approximately \$350 million of the recently unencumbered railcar assets in the Railcar Securitization to CIT Bank, where there is more efficient deposit-based financing.

On October 19 and November 2, 2018, we announced our intent to redeem the outstanding 5.375% senior unsecured notes due May 2020, which totaled approximately \$431 million at September 30, 2018, which we will redeem using net proceeds from the NACCO sale and the sale of rail assets to CIT Bank. The unsecured debt redemptions are expected to result in debt extinguishment losses of approximately \$15 million in the fourth quarter.

Due to the reduction of borrowings of nearly \$1 billion in the fourth quarter, and the termination of the Dutch TRS Facility, we expect to realize the benefit of lower interest expense going forward. See Note 14 — Subsequent Events.

¹ Income from continuing operations excluding noteworthy items and other non-interest income excluding noteworthy items are non-GAAP measures; see "Non-GAAP Financial Measurements" for a reconciliation of non-GAAP to GAAP financial information.

² Net income excluding noteworthy items is a non-GAAP measure; see "Non-GAAP Financial Measurements" for a reconciliation of non-GAAP to GAAP financial information.

Table of Contents

DISCONTINUED OPERATIONS

At September 30, 2018, discontinued operations was comprised of Business Air and as discussed below, certain assets and liabilities of Financial Freedom, a reverse mortgage servicing business that we sold on May 31, 2018. At September 30, 2018, although the economic benefit and risk of the Financial Freedom business has been transferred to the buyer, certain assets and liabilities of the Financial Freedom business remain in discontinued operations until the required investor consent is received. The sale is described further in Note 2 — Discontinued Operations.

The Financial Freedom business, a former division of CIT Bank that serviced reverse mortgage loans, was sold on May 31, 2018 and included all the operations, mortgage servicing rights and related servicing assets and liabilities. CIT recognized an after tax loss on disposal of the Financial Freedom business of \$16 million in discontinued operations in the second quarter, related primarily to reserves and transaction costs.

Income from discontinued operations was \$2 million in the current quarter, compared to losses of \$3 million in the year-ago quarter and \$20 million in the prior quarter. Excluding noteworthy items, of which there were none in the current quarter, there was a loss in the year-ago quarter of \$1 million and a loss of \$7 million in the prior quarter. For the nine months ended September 30, 2018 and 2017, net loss from discontinued operations totaled \$25 million in 2018, compared to income of \$214 million in 2017. Excluding noteworthy items, the current year to date loss was \$11 million, compared to income of \$56 million in the year-ago period. Noteworthy items are listed in "Non-GAAP Financial Measurements".

Business Air loans and leases totaled \$111 million at September 30, 2018, down from \$134 million at June 30, 2018 and \$184 million at December 31, 2017.

Further details of discontinued operations, along with condensed balance sheets and income statements are included in Note 2 — Discontinued Operations. See also Note 12 — Contingencies for discussion related to the servicing obligations of the Financial Freedom business.

Unless specifically noted, the discussions and data presented throughout the following sections reflect CIT balances on a continuing operations basis.

NET FINANCE REVENUE

Net Finance Revenue ("NFR")³ and Net Finance Margin ("NFM")³ are key metrics used by management to measure the profitability of our earning assets. NFR includes interest and yield-related fee income on our loans, rental income on our operating lease equipment, and interest and dividend income on interest-bearing cash and investments, less funding costs and depreciation, maintenance and other operating lease expenses from our operating lease equipment. The consolidated financial statements include the effects of Purchase Accounting Accretion ("PAA"). Accretion and amortization of certain purchase accounting adjustments primarily impact interest income and interest expense, and are summarized in a table later in this section.

Net finance revenue, net finance margin, net operating lease revenue and average earnings assets, and respective amounts excluding noteworthy items are non-GAAP measures. See “Non-GAAP Measurements” for reconciliation of non-GAAP to GAAP financial information.

⁽¹⁾The average balances presented are derived based on month end balances during the year. Tax exempt income was not significant in any of the periods presented. Average rates are impacted by PAA.

⁽²⁾The balance and rate presented is calculated net of average credit balances for factoring clients.

⁽³⁾Non-accrual loans and related income are included in the respective categories.

⁽⁴⁾ Operating lease rental income is a significant source of revenue; therefore we have presented the rental revenues net of depreciation and net of maintenance and other operating lease expenses.

⁽⁵⁾AEA is a non-GAAP measure. See "Non-GAAP Financial Measurements" for a reconciliation of non-GAAP to GAAP financial information.

The following table presents disaggregated quarter-over-quarter changes in net interest revenue and operating lease margins as presented in the preceding table between volume (level of lending or borrowing) and rate (rates charged customers or incurred on borrowings). Volume change is calculated as change in volume times the previous rate, while rate change is change in rate times the previous volume. The rate/volume change, change in rate times change in volume, is allocated between volume change and rate change at the ratio each component bears to the absolute value of their total.

Table of Contents

NFR is driven by revenues on loans and leases and was \$389 million in the current quarter, unchanged from the prior quarter and down from \$401 million in the year-ago quarter. NFR in both the current and prior quarter included a \$9 million benefit from the suspension of depreciation expense related to NACCO, compared to \$8 million in the year-ago quarter. When operating lease equipment is in AHFS, depreciation is suspended, resulting in a benefit to NFR. The impact from suspended depreciation is further explained later in this section. Excluding noteworthy items, NFR was \$381 million in the current quarter, compared to \$380 million in the prior quarter and \$393 million in the year-ago quarter. Compared to the prior quarter, NFR excluding noteworthy items was relatively unchanged, as a benefit from an \$8.5 million prepayment on a lease (compared to a \$4 million prepayment in the prior quarter) and lower maintenance costs in Rail were mostly offset by higher deposit costs. Compared to the year-ago quarter, NFR excluding noteworthy items decreased due to a reduction in PAA, as higher funding costs were mostly offset by higher interest income in the Commercial Banking segment and on investment securities.

Revenues generated on our interest-bearing cash and investments are indicative of the rising interest rate environment. The returns may fluctuate depending on the composition of the investments, interest rates and credit spreads. The year-ago nine month average balance and income was elevated due to the funds received on the sale of Commercial Air.

NFM excluding noteworthy items was 3.36%, compared to 3.29% in the prior quarter and 3.46% in the year-ago quarter. The increase in NFM compared to the prior quarter reflected higher yields on commercial loans, deployment of cash, which was elevated last quarter due to the reverse mortgage portfolio sale, and an increase in net operating lease revenue. These were partially offset by higher deposit costs, reflecting continued upward market trends, and the full quarter impact of the sale of the reverse mortgage portfolio, which were higher-yielding assets. The decline from the year-ago quarter reflected lower PAA, while higher yields on loans and investments were partially offset by higher deposit costs.

For the nine months ended September 30, 2018, NFR was down compared to 2017, reflecting lower PAA and higher deposit costs. Borrowing costs in the current year reflected an increase in FHLB costs, primarily driven by rate increases, and the impact of the subordinated debt issued in March 2018 and other unsecured debt issued in 2018. The year-ago period included \$23 million in interest expense on approximately \$5.8 billion of unsecured senior debt that previously was allocated to discontinued operations but was recorded in continuing operations following the Commercial Air sale on April 4, 2017, until the redemption of that debt later in the quarter. Partially offsetting this cost was \$9 million in interest income related to the elevated cash balances for the period between the closing of the Commercial Air sale and the related liability management and capital actions. NFM was up 4 basis points (“bps”), reflecting mix shift in assets and the noteworthy items in the prior year. Excluding noteworthy items, NFR and NFM were down following similar trends noted above for the quarter.

While we explain in the Risk Management section that our balance sheet has a moderate amount of asset sensitivity, there are factors in addition to rising interest rates that have impacted and may continue to impact our NFR, including PAA, rising deposit betas, spread compression, a mix shift in earning assets and repricing down of railcar renewal rates.

AEA decreased from the prior quarter, reflecting the deployment of interest-bearing cash into certain liability and capital management actions and the full impact of the reverse mortgage portfolio sale in May. AEA for the nine months ended September 30, 2017 included elevated cash balances for the period between the closing of the Commercial Air sale and related liability management and capital actions. Excluding the Commercial Air impact,

AEA decreased 2% as the decline in interest-bearing cash deposits and run-off and sales of the noted portfolios, offset growth in Commercial Banking.

The composition of our average funding mix was virtually unchanged from the prior quarter as follows:

Average Funding Mix

	Quarters Ended					
	September 30, 2018		September 30, 2018		September 30, 2017	
Deposits	78 %		77 %		78 %	
Unsecured borrowings	11 %		11 %		11 %	
Secured Borrowings:						
Structured financings	3 %		3 %		4 %	
FHLB advances	8 %		9 %		7 %	

These proportions will fluctuate in the future depending upon our funding activities. In October 2018 we repaid approximately \$465 million of structured financings related to Rail, the purchaser of NACCO assumed approximately \$100 million of structured financings, and we announced in October and November 2018 redemptions of \$431 million of senior unsecured notes in the fourth quarter. See Funding and Liquidity section and Note 14 – Subsequent Events for further details.

Table of Contents

The following table details further the rates of interest bearing liabilities.

Interest-Bearing Deposits and Borrowings — Average Balances and Rates for the Quarters Ended (dollars in millions)

	September 30, 2018			June 30, 2018			September 30, 2017

FHLB advances	2,967.4	17.4	2.35 %	3,711.0	20.5	2.21 %	2,583.0	9.5	1.47 %
Other credit facilities ⁽¹⁾	—	2.5	— %	—	4.9	— %	—	4.0	— %
Borrowings Allocated to discontinued operations	(215.4)	(2.5)		(233.4)	(2.8)		(307.4)	(3.5)	
Total borrowings	8,692.2	90.8	4.18 %	9,437.0	94.6	4.01 %	8,591.6	84.1	3.92 %
Total interest-bearing liabilities	\$38,427.6	\$213.9	2.23 %	\$38,986.6	\$205.2	2.11 %	\$37,411.8	\$176.7	1.89 %

⁽¹⁾Balance includes interest expense related to facility fees and amortization of deferred costs on unused portions of credit facilities, including the Revolving Credit Facility and total return swaps.

We remain focused on optimizing our mix of deposits. Compared to the year-ago quarter, we have increased the percentage of non-maturity deposits relative to total deposits in conjunction with our strategy to optimize deposit costs through the rate cycle, while working within our risk management discipline. Compared to the prior quarter, time deposits were up as we offered attractive rates on shorter-term CDs. The table above reflects increased savings and online money market deposits compared to both the year-ago and prior quarters. In addition, we reduced sweep accounts and time deposits in the brokered channel. The deposit cost increases from the year-ago and prior quarters also reflected the impact from the increases in the short-term interest rate. See Funding and Liquidity section for tables

that reflects period end deposits by type and by channel.

Borrowing costs increased compared to the year-ago quarter and was down from the prior quarter. The reduction from the prior quarter was primarily driven by decreased FHLB advance levels, while the increase from the year-ago quarter was impacted by rising rates. During the 2018 third quarter, we further extended our unsecured maturities and issued \$500 million of unsecured notes at 4.750% due in February 2024 and repaid approximately \$500 million of 3.875% unsecured notes due in February 2019. In the first quarter of 2018 we issued \$1 billion of senior unsecured notes at a weighted average coupon rate of 4.69% and a weighted term of 5 years, and \$400 million of unsecured subordinated debt at 6.125% in conjunction with our capital plan that allowed us to return \$400 million of common equity. Most of the proceeds of the senior unsecured borrowings issued in the first quarter were used in April to repay \$500 million of the 3.875% senior unsecured notes due in February 2019 and \$383 million of 5.500% senior unsecured notes due in February 2019. During this period, we extended the weighted average maturity profile of the combined unsecured senior and subordinated notes to 4.9 years at September 30, 2018 from 4.1 years at March 31, 2018.

The following table reflects our total deposit base, interest bearing and non-interest-bearing deposits, and related rate:

Gross yields (interest income plus rental income on operating leases as a % of AEA) in Commercial Banking were up from the year-ago and prior quarters. The Commercial Finance increases in gross yields from the year-ago and prior quarters were primarily driven by the benefit of higher short-term interest rates, partially offset by a decline in PAA. Higher interest recoveries also contributed to the increase from the prior quarter. Gross yields in Rail were up from the year-ago and prior quarters, benefiting from a \$8.5 million lease prepayment (compared to a \$4 million prepayment benefit in the prior quarter) and higher utilization, which was partially offset by lease rates that continued to re-price lower on average across the North American portfolio. The Real Estate Finance gross yield improved from the year-ago and prior quarters, driven by the benefit of higher short term interest rates that more than offset lower PAA and prepayment related benefits. Gross yields in Business Capital were up from the year-ago quarter and flat with the prior quarter, reflecting asset mix.

Table of Contents

Consumer Banking gross yields were down from the year-ago quarter, reflecting lower PAA, and down slightly from the prior quarter. Although both divisional gross yields were up, impact of the sale of the reverse mortgage portfolio, lower PAA and the dynamics of the AEA weighting for each division caused the segment level gross yield to be down compared to the year-ago and prior quarters. Gross yields in the Other Consumer Banking division reflect the benefit of the higher interest rate environment as that division grows its portfolio. Gross yields in LCM were up, as rising interest rates and lower negative interest income on the indemnification assets offset lower PAA. Each of the periods includes negative interest income associated with amortizing the indemnification asset on single family residential mortgage loans. The negative interest income on the indemnification asset was down about \$2 million from the prior quarter and \$3 million from the year-ago quarter. The negative amounts reduce interest income and are due to lower expected reimbursable losses under the loss share agreement, reflecting better than expected credit performance of the covered loans. While we expect the yield to remain negative, the level can increase or decrease as the indemnification assets amortize over the remaining contract period, which expires in March 2019. NFM in Consumer Banking is higher than gross yields as this segment receives credit from the other segments for the value of the deposits generated.

As of September 30, 2018, the remaining accretable purchase accounting adjustment was \$653 million, of which \$68 million related to Commercial Banking and \$585 million related to Consumer Banking. This compares to \$733 million of remaining accretable purchase accounting adjustment as of December 31, 2017, of which \$97 million related to Commercial Banking and \$636 million related to Consumer Banking. The remaining accretable purchase accounting adjustment in Consumer Banking is expected to run off at a rate consistent with the run-off of the underlying mortgages, which has averaged 10-15% annually and we are expecting accretion of the remaining Commercial Banking purchase accounting adjustment to continue to trend lower. However, amounts may vary quarter to quarter from fluctuations in prepayments, which results in a loan's remaining purchase accounting adjustments being accelerated into interest income. (See footnote 1 to the following table).

The following table displays PAA by segment and division for both interest income and interest expense.

Purchase Accounting Accretion (dollars in millions)

	Quarters Ended September 30, 2018 PAA Recognized in:			June 30, 2018 PAA Recognized in:			September 30, 2017 PAA Recognized in:

- (1) Included in the above are accelerated recognition of approximately \$6.3 million, \$15.3 million and \$6.4 million for the quarters ended September 30, 2018 and 2017 and June 30, 2018, respectively.
- (2) Debt and deposits acquired in the OneWest Bank acquisition were recorded at a net premium, therefore the PAA of that adjustment decreases interest expense.
- (3) The decline from the year-ago quarter reflects the transfer of the reverse mortgage portfolio to AHFS at the end of the third quarter of 2017.

The following table sets forth the details on net operating lease revenues.

Net Operating Lease Data (dollars in millions)

	Quarters Ended September 30, 2018		June 30, 2018		September 30, 2017		Nine Months Ended September 30, 2018		September 30, 2017	
Rental income on operating leases	\$264.3	13.16 %	\$261.3	13.09 %	\$252.3	12.94 %	\$779.2	13.02 %	\$754.8	13.18 %
Depreciation on operating lease equipment	78.0	3.88 %	77.2	3.87 %	71.1	3.64 %	231.6	3.87 %	222.0	3.88 %
Maintenance and other operating lease expenses	56.6	2.82 %	63.5	3.18 %	57.9	2.97 %	177.5	2.97 %	165.0	2.88 %
Net operating lease revenue and %	\$129.7	6.46 %	\$120.6	6.04 %	\$123.3	6.33 %	\$370.1	6.18 %	\$367.8	6.42 %
Average operating lease equipment, including amounts held for sale	\$8,031.8		\$7,980.3		\$7,797.6		\$7,979.8		\$7,637.1	

Net operating lease revenue, which is a component of NFR, is driven principally by the performance of the Rail portfolio within the Commercial Banking segment. Net operating lease revenue was up from the year-ago and prior quarters on strong utilization, portfolio growth, lower maintenance costs and benefits from a lease prepayment (\$8.5 million in the current quarter compared to a \$4 million prepayment benefit in the prior quarter). In each of the quarters, net operating lease revenue benefited from suspended depreciation, \$9 million for the current and prior quarters and \$8 million in the year-ago quarter, related to the European Rail business, NACCO, which was in AHFS. See Note 14 – Subsequent Events for disclosure of the sale of NACCO in October 2018. If the suspended depreciation were included, the operating lease margins would have been 6.03%, 5.92% and

Table of Contents

5.61%, for the current, year-ago and prior quarters, respectively. Suspended depreciation is discussed further below.

North America railcar utilization, including commitments to lease, remained at 98% unchanged from June 30, 2018. Overall lease rates of cars renewing priced down 15% compared to the rates on expiring leases, which, although better than our guidance, continues to reflect excess capacity in the market. We continue to expect downward pressure, and anticipate re-pricing to be down 20%-30% on average through 2019, reflecting continued pressure from tank car lease rates, which are coming due for renewal at a faster pace and at rates that are down from peak levels.

Depreciation is recognized on railcars and other operating lease equipment. Depreciation was up driven primarily by asset growth. Once a long-lived asset is classified as AHFS, depreciation expense is no longer recognized, and the asset is evaluated for impairment with any such charge recorded in other income. There were no related impairment charges recorded in the periods presented. Consequently, net operating lease revenue includes rental income on operating lease equipment classified as AHFS, but there is no related depreciation expense.

Maintenance and other operating lease expenses tend to be variable and relate to the Rail portfolio. The decline from the prior quarter was driven by lower freight expenses in the North America portfolio and lower costs in the NACCO portfolio. The increase in 2018 for the nine month comparison reflected increased volume from remarketing cars and pulling cars from storage and sending into service.

CREDIT METRICS

The following provides information on certain credit metrics, including non-accrual loan and net charge-off levels, as well as the provision for credit losses and allowance for loan losses, that management uses to track the credit quality of the portfolio.

Non-accrual loans totaled \$318 million (1.04% of loans), compared to \$292 million (0.99% of loans) at June 30, 2018, and \$221 million (0.76% of loans) at December 31, 2017.

The provision for credit losses was \$38 million, up from the prior quarter provision of \$33 million and up from a \$30 million provision in the year-ago quarter. The year-ago-quarter provision included a noteworthy item of a \$15 million charge related to the reverse mortgage portfolio transferred to held for sale in connection with the Financial Freedom Transaction. Our assets are primarily commercial and a large part of our consumer loans are carried at a significant discount, which reduces charge-offs in our LCM division. As a result, the provision for credit losses is primarily driven by the Commercial Banking segment.

Net charge-offs were \$26 million (0.35% of average loans) in the current quarter, up from \$15 million (0.21% of average loans) in the prior quarter and down from \$42 million (0.58% of average loans) in the year-ago quarter. The increase from the prior quarter was driven by the Commercial Banking segment. The prior year quarter included \$20 million of charge-offs related to the transfer of the reverse mortgage portfolio to AHFS.

The following table presents detail on our allowance for loan losses, including charge-offs and recoveries and provides summarized components of the provision and allowance:

Allowance for Loan Losses (dollars in millions)

Edgar Filing: CIT GROUP INC - Form 10-Q

	Quarters Ended			Nine Months Ended

Allowance for loan losses as a percent of loans/Commercial	1.87 %	1.90 %	1.73 %		

⁽¹⁾The provision for credit losses also includes amounts related to reserves on unfunded loan commitments, letters of credit, and deferred purchase agreements, all of which are reflected in other liabilities. The balances included in other liabilities totaled \$47 million, \$45 million, and \$44 million at September 30, 2018, June 30, 2018 and September 30, 2017, respectively. “Other” also includes allowance for loan losses associated with loan sales and foreign currency translations.

Table of Contents

The allowance for loan losses was \$477 million (1.57% of loans) at September 30, 2018, compared to \$467 million (1.59% of loans) at June 30, 2018 and \$419.5 million (1.47% of loans) at September 30, 2017. The current quarter provision for credit losses included an increase to the allowance for loan losses, primarily due to asset growth in the Commercial Banking segment.

See Note 3 — Loans for details regarding the unpaid principal balance, carrying value and allowance for loan losses related to PCI loans.

Loan Net Carrying Value (dollars in millions)

	Loans	Allowance for Loan Losses	Net Carrying Value
September 30, 2018

The following tables present information on non-accruing loans, which includes loans in AHFS for each period, and when added to other real estate owned (“OREO”) and other repossessed assets, sums to non-performing assets. PCI loans are excluded from these tables as they are written down at acquisition to their fair value using an estimate of cash flows deemed to be collectible. Accordingly, such loans are no longer classified as past due or non-accrual even though they may be contractually past due, because we expect to fully collect the new carrying values of these loans.

Table of ContentsNon-accrual Loans (dollars in millions)⁽¹⁾

	September 30, 2018	December 31 2017
Non-accrual loans		
U.S.	\$ 298.3	\$ 211.1
Foreign	19.8	9.8
Non-accrual loans	\$ 318.1	\$ 220.9
Troubled Debt Restructurings

Consumer Banking	35.1	0.55 %	20.3	0.34 %
Non-Strategic Portfolios	8.3	NM	9.8	NM
Total	\$318.1	1.04 %	\$220.9	0.76 %

NM — Not meaningful; Non-accrual loans include loans held for sale. All of NSP non-accrual loans reflected loans held for sale; since there were no portfolio loans, no % is displayed.

Non-accrual loans were up from December 31, 2017, driven by various loans across different industries in Commercial Finance. Non-accrual loans in Consumer Banking were up, driven by non-PCI loans in LCM.

Approximately 64% of our non-accrual accounts were paying currently compared to 52% at December 31, 2017. Our impaired loan carrying value (including PAA discount and charge-offs) to outstanding unpaid principal balances approximated 73% compared to 76% at December 31, 2017. For this purpose, impaired loans comprise principally non-accrual loans over \$500,000 and TDRs.

Total delinquency (30 days or more) was 1.4% of loans at September 30, 2018 and 1.3% of loans at December 31, 2017. Delinquency status of loans and loans held for sale are presented in Note 3 — Loans.

The tables that follow reflect loan carrying values of accounts that have been modified, excluding PCI loans.

TDRs and Modifications (dollars in millions)

	September 30, 2018			December 31 2017		
		%			%

Total other non-interest income, excluding noteworthy items ⁽¹⁾	\$96.8	\$106.1	\$90.1	\$307.6	\$261.9
Total non-interest income	\$350.5	\$396.7	\$315.6	\$1,105.5	\$981.8
Factoring volume	\$7,999.0	\$6,648.9	\$7,205.9	\$22,073.9	\$19,748.8

⁽¹⁾Total non-interest income, excluding noteworthy items are non-GAAP balances, see reconciliations to GAAP balance in Non-GAAP Financial Measurements.

Rental Income on Operating Lease Equipment

Rental income on operating leases from equipment we lease is generated in the Rail and Business Capital divisions in the Commercial Banking segment and recognized principally on a straight line basis over the lease term. Rental income is discussed in “Net Finance Revenues” and “Results by Business Segment”. See also our 2017 Form 10-K, Note 6 — Operating Lease Equipment in Item 8. Financial Statements and Supplementary Data for information on operating leases.

Other Non-Interest Income

Other non-interest income was down compared to the prior quarter. For the quarter ended September 30, 2018, other revenues included aggregate noteworthy items of a \$10 million net charge. CIT recorded an impairment charge (included in other revenues) of \$21 million to reduce the indemnification asset (included in other assets) for the amounts deemed uncollectable within the remaining indemnification period. See further disclosure in Note 3 – Loans (Credit Quality Information section). Partially offsetting this impairment was an \$11 million benefit from a release of a valuation reserve related to AHFS in China within the NSP segment. Other revenues benefited last quarter from \$29 million in Consumer Banking related to the Financial Freedom transaction, primarily a \$27 million gain on the sale of

the reverse mortgage portfolio. Excluding noteworthy items, total other non-interest income⁴ was down. Factoring commissions increased from seasonally higher volumes, partially offset by a lower average commission rate. Other revenues in the prior quarter also included a \$6 million benefit from a release of reserves related to the OneWest acquisition and income of \$5 million related to the reverse mortgage portfolio, which was sold on May 31, 2018 as part of the Financial Freedom Transaction.

Other non-interest income in the current quarter, excluding noteworthy items, increased from the year-ago quarter, reflecting higher income from bank-owned life insurance (“BOLI”). The year-ago quarter included \$27 million in aggregate of noteworthy items, including a \$5 million write-down of OREO, a \$9 million impairment on reverse mortgage related assets and a \$12 million write-down of the reverse mortgage portfolio that was moved to AHFS, all related to the Financial Freedom Transaction and included in other revenues.

For the nine months ended September 30, 2018, other non-interest income was up compared to 2017. Excluding noteworthy items, total other non-interest income was up, reflecting BOLI income.

⁴ Other non-interest income excluding noteworthy items is a non-GAAP measure; see “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information.

Net Efficiency Ratio excluding noteworthy items ⁽²⁾	53.9 %	53.8 %	55.5 %	54.8 %	57.3 %	

⁽¹⁾Operating expenses excluding restructuring costs and intangible asset amortization as a % of AEA is a non-GAAP measure; see “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information.

⁽²⁾Net efficiency ratio and net efficiency ratio excluding noteworthy items are non-GAAP measurements used by management to measure operating expenses (before restructuring costs and intangible amortization) to the level of total net revenues. See “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information and description of the calculation.

Depreciation on Operating Lease Equipment

Depreciation expense is driven by rail equipment and smaller ticket equipment, such as office equipment, in Commercial Banking. Depreciation expense is discussed in “Net Finance Revenue.”

Maintenance and Other Operating Lease Expenses

Maintenance and other operating lease expenses relates to equipment ownership and leasing costs associated with the Rail portfolio and tend to be variable. Rail provides railcars primarily pursuant to full-service lease contracts under which Rail as lessor is responsible for railcar maintenance and repair. The decline from the prior quarter was driven by lower freight expenses in the North America portfolio and lower costs in the NACCO portfolio. The increase in 2018 for the nine month comparison reflected increased volume from remarketing cars and pulling cars from storage and sending into service.

Operating Expenses

Operating expenses were down from the year-ago and prior quarters. Operating expenses excluding noteworthy items and intangible assets amortization⁵ were down from the year-ago quarter on lower professional fees, partially offset by higher other non-income tax expenses. The decline from the prior quarter was driven by lower employee costs and professional fees, and the prior quarter included a benefit of a \$5 million reversal of a non-income tax-related reserve in other expenses.

Compared to the year-ago nine months, operating expenses excluding restructuring costs and intangible assets amortization were down, reflecting lower professional fees and FDIC insurance costs, partially offset by higher advertising and marketing costs, primarily in Consumer Banking.

We remain on track to reduce our annual operating expense to our target of \$1,050 million (before noteworthy items and intangible amortization) for 2018 as we continue to right-size the organization.

The net efficiency ratio excluding noteworthy items was unchanged from the prior quarter and improved from the year-ago quarter, as lower operating expenses and higher non-interest income offset a decline in NFR.

⁵ Operating expense excluding restructuring costs and intangible assets amortization is a non-GAAP measure; see “Non-GAAP Financial Measurements” for a reconciliation of non-GAAP to GAAP financial information

Table of Contents

Loss on Debt Extinguishments and Deposit Redemptions

In the current quarter, we recognized \$3 million in debt extinguishment costs associated with the redemption of approximately \$500 million of unsecured senior debt. In the prior quarter, we recognized \$19 million in debt extinguishment costs associated with the redemption of \$883 million of unsecured senior debt. The \$54 million in debt extinguishment costs in the year-ago quarter related to the redemption of \$800 million of unsecured senior debt. The year-ago nine-months also included \$165 million in debt extinguishment costs associated with the reduction of \$5.8 billion of unsecured senior debt from the proceeds of the Commercial Air sale.

INCOME TAXES

Income Tax Data (dollars in millions)

	Quarters Ended			Nine Months Ended	
	September 30,	June 30,	September 30,	September 30,	September 30,
	2018	2018	2017	2018	2017
Provision for income taxes, before noteworthy and tax discrete items	\$49.5	\$49.6	\$ 53.2	\$136.2	\$ 171.5
Tax on noteworthy items and other tax discrete items	(8.2)	7.8	(173.0)	3.8	(267.0)
Provision (benefit) for income taxes	\$41.3	\$57.4	\$ (119.8)	\$140.0	\$ (95.5)
Effective tax rate	24.2 %	28.0 %	(116.3)%	26.9 %	(38.7)%
Effective tax rate, before tax discrete items and noteworthy items ⁽¹⁾	28.2 %	26.7 %	27.4 %	27.4 %	31.6 %

⁽¹⁾Effective tax rate excluding discrete items and noteworthy items are non-GAAP measures. See “Non-GAAP Financial Measurements” for reconciliation of non-GAAP financial information.

The Company’s current quarter income tax expense before noteworthy and discrete tax items is \$49.5 million. This compares to income tax expense of \$49.6 million in the prior quarter and \$53.2 million in the year-ago quarter. The provision for income taxes before tax discrete and noteworthy items was lower in the current nine months ended period compared to the year ago nine months ended period, primarily driven by lower statutory income tax rates from U.S. tax reform, partially offset by a change in accounting policy for LIHTC investments from the equity method of accounting to the proportional method, disallowance of FDIC insurance premiums, and higher state income taxes.

The effective tax rate each quarter is impacted by a number of factors, including the relative mix of domestic and international earnings, effects of changes in enacted tax laws, adjustments to valuation allowances (“VA”), and discrete items. The future period’s effective tax rate may vary from the actual year-end 2018 effective tax rate due to the changes in these factors.

Included in the tax on noteworthy and other discrete tax items of \$3.8 million for the nine months ended September 30, 2018 was:

- \$9.9 million deferred income tax benefit recorded resulting from the release of a VA on deferred tax assets established on the capital losses generated in the prior year from an equity investment in a wholly-owned foreign subsidiary,
- \$6.9 million deferred income tax expense related to the increase to the deferred tax liability on the Company's investment in NACCO, which is classified as "held for sale,"
- \$4.5 million deferred income tax expense resulting from revaluation of U.S. state deferred tax assets and liabilities as a result of state tax rate changes,
- \$1.4 million deferred income tax benefit resulting from favorable audit resolutions with state taxing authorities on prior year U.S. state income tax returns, and
- \$3.7 million income tax expense on other tax discrete items and noteworthy items remaining as listed in the "Non-GAAP Financial Measurements" section.

Included in the tax on noteworthy and other discrete tax items of \$(267.0) million for the nine months ended September 30, 2017 was:

- \$140.4 million deferred income tax benefit related to the recognition of a \$235 million deferred tax asset on an equity investment in a wholly-owned foreign subsidiary, partially offset by a \$95 million VA,
- \$85.5 million deferred income tax benefit on the debt extinguishment costs,
- \$19.3 million current tax benefit, including interest and penalties, related to legacy OneWest Bank matters, including the release of a tax reserve upon the favorable resolution of an uncertain tax position and recognition of expected tax refunds,
- \$13.9 million in deferred income tax expense recorded related to the restructuring of legal entities in preparation for the Commercial Air sale,
- \$6.9 million deferred income tax benefit related to the recognition of a deferred tax asset related to the Company's investment in NACCO, which is now classified as "held for sale," and
- \$28.8 million income tax benefit on other tax discrete items and noteworthy items remaining as listed in the "Non-GAAP Financial Measurements" section.

Management expects the 2018 global effective tax rate to be in the range of 26% to 28%, excluding discrete tax items and noteworthy items. Furthermore, cash income taxes paid will remain minimal until the Company's net operating loss ("NOLs") carry-forwards are fully utilized.

The amount of future cash taxes will depend on the level of taxable income after utilization of the remaining NOLs, including the implications of amounts subject to the Section 382 limitation. Cash taxes were a net payment of \$2.7 million for the current quarter, compared to \$15.0 million in the prior quarter, and \$24.2 million net payment in the year-ago quarter.

Table of Contents

On July 1, 2018, New Jersey signed legislation which implements a new surtax effective January 1, 2018. Corporations will pay an additional 2.5 percent surtax in 2018 and 2019, followed by 1.5 percent surtax in 2020 and 2021 before phasing out entirely in 2022. Additionally, the newly enacted legislation changed the filing requirements of Corporations from a separate tax return basis to a mandatory combined unitary tax return basis effective January 1, 2019. The Company evaluated the impact of the enacted legislation and determined the amount was immaterial to the deferred income tax expense from the revaluation of the U.S. state deferred tax assets and liabilities. Additionally, there was an immaterial impact to the overall effective tax rate which the Company believes will remain consistent in future periods.

See Note 10 — Income Taxes for additional information.

RESULTS BY BUSINESS SEGMENT

CIT manages its business and reports its financial results in three operating segments, Commercial Banking, Consumer Banking, and Non-Strategic Portfolios, and a non-operating segment, Corporate and Other. See Non-Interest Income, Non-Interest Expenses and Credit Metrics for discussions of overall trends on these topics.

Commercial Banking

Commercial Banking is comprised of four divisions: Commercial Finance, Rail, Real Estate Finance and Business Capital. Revenue is generated from interest earned on loans, rents on equipment leased, fees and other revenue from lending and leasing activities and banking services, along with capital markets transactions and commissions earned on factoring and related activities. A detailed description of the divisions is included at the end of Item 1. Business Overview in our 2017 Form 10-K.

* See discussion below for the impact of suspended depreciation.

Pre-tax earnings in each of the quarters included a noteworthy item related to the benefit from the suspension of depreciation expense related to NACCO of \$9 million for the current and prior quarters and \$8 million for the year-ago quarter. Compared to the year-ago quarter, pre-tax earnings excluding noteworthy items of \$135 million decreased from \$185 million, primarily driven by a decline in NFR and an increase in the credit provision. Similar trends are noted for the year to date periods. Excluding noteworthy items, pre-tax earnings increased from \$134 million in the prior quarter as increases in net finance revenue and other non-interest income were mostly offset by an increase in the credit provision, and was essentially unchanged from the year-ago quarter.

AEA consisted primarily of loans and leases. As displayed in the above table, average loans and leases, net of credit balances of

Table of Contents

factoring clients, was up from the year-ago and prior quarters, mostly reflecting growth in Business Capital and Commercial Finance.

Compared to the year-ago quarter, new lending and leasing volume increased, with strong growth in Commercial Finance and equipment financing businesses in Business Capital. New lending and leasing volume increased from the prior quarter driven by growth in Commercial Finance and Real Estate Finance while new origination volume in the equipment financing businesses in Business Capital remained strong.

Factored volume of \$8.0 billion was up 11% compared to the year-ago quarter, driven primarily by increased volume in the technology industry, and up 20% from the prior quarter due to seasonal trends.

Rail AEA of \$7.8 billion was up from \$7.5 billion in the year-ago quarter and up slightly from the prior quarter. In October 2018, we completed the sale of NACCO, our European railcar business, which consisted of approximately \$1.2 billion of leases and loans in AHFS, including approximately 15,000 railcars, and we expect to recognize a pre-tax gain on sale of approximately \$30-35 million in the fourth quarter of 2018. See Note 14 – Subsequent Events. Our North America rail portfolio included approximately 117,000 railcars at September 30, 2018, and we had approximately 2,070 railcars on order from manufacturers that had deliveries scheduled into 2019. See Note 11 — Commitments in Item 1. Consolidated Financial Statements for railcar manufacturer commitment data.

Trends included:

Excluding the noteworthy items, NFR was down from the year-ago quarter and nine-months, as pressure on rental income as noted below, higher interest expense and lower PAA offset the growth in earning assets and an increase in interest income from higher interest rates on floating rate earning assets. The increase from the prior quarter reflects a benefit from an lease prepayment of \$8.5 million compared to \$4 million in the prior quarter.

NFM decreased compared to the year-ago quarter and nine-months from the mentioned decreases in NFR. Pressure on NFM was also driven by continued lower lease renewal rates on our rail portfolio, as discussed below and in the Net Finance Revenue section earlier in the MD&A. NFM was essentially unchanged compared to the prior quarter.

PAA totaled \$8 million, \$9 million and \$22 million in the current, prior and year-ago quarters, respectively. Essentially all accretion benefited interest income. See Purchase Accounting Accretion table in Net Finance Revenue section for amounts of PAA by division. The current quarter, prior and year-ago quarters included \$3 million, \$3 million and \$12 million, respectively, of PAA that was accelerated due to prepayments.

Gross yields (interest income plus rental income on operating leases as a % of AEA) in Commercial Banking were up from the year-ago and prior quarters. See Select Segment and Division Margin Metrics table and discussion that follows that table in Net Finance Revenue section for gross yields by division.

Net operating lease revenue, which is a component of NFR, is driven primarily by the performance of our rail portfolio. Rail's net rental income was up from the prior quarter, benefiting from an increase in lease prepayment benefits (\$8.5 million in the current quarter and \$4 million in the prior quarter) and increased railcar utilization. Excluding noteworthy items (suspended depreciation), compared to both the year-ago and prior quarters, net operating revenue was up, mainly driven by the increase in lease prepayment benefits, partially offset by renewal rates that continue to price lower due to excess capacity in the market. We expect renewal rates to continue to be below expiring rates through 2019, as discussed in the Net Finance Revenue section. The amount of this re-pricing will fluctuate depending on the number and types of cars renewing during any given quarter. Suspended depreciation on operating lease equipment in AHFS was noted above. If the suspended depreciation were included, the operating lease margin was 6.03%, 5.92% and 5.61%, for the current, year-ago and prior quarters, respectively. Railcar utilization in

our North America portfolio, including commitments to lease, remained at 98%, unchanged from June 30, 2018.

Consumer Banking

Consumer Banking includes Retail Banking, Consumer Lending, and SBA Lending, which are grouped together for purposes of discussion as Other Consumer Banking, and Legacy Consumer Mortgages (“LCM”). A detailed description of the divisions is included at the end of Item 1. Business Overview in our 2017 Form 10-K. See also Note 1 — Business and Summary of Significant Accounting Policies and Note 5 — Indemnification Assets in Item 8. Financial Statements and Supplementary Data in our 2017 Form 10-K for accounting and detailed discussions.

Statistical Data					
Net finance margin - NFR as a % of AEA	7.50 %	7.09 %	6.27 %	6.98 %	6.12 %
Net efficiency ratio	82.2 %	55.8 %	118.9 %	69.1 %	89.7 %
Pretax return on AEA	0.90 %	3.85 %	(2.30)%	2.07 %	(0.10)%
New business volume	\$360.0	\$482.6	\$223.2	\$1,231.2	\$527.5

Pre-tax earnings in each of the quarters included noteworthy items. The current quarter non-interest income included a \$21 million impairment charge to reduce the carrying value of the indemnification asset for the amounts deemed uncollectable within the remaining indemnification period (see Credit Quality section of Note 3 – Loans for discussion of impairment.) The year-ago quarter included \$42 million of noteworthy charges; including \$27 million on reverse mortgage related assets that were part of the Financial Freedom Transaction in non-interest income and \$15 million of charge-offs related to the reverse mortgage portfolio transfer to AHFS in the provision for credit losses. The prior quarter included \$29 million of other non-interest income related to the Financial Freedom transaction, primarily a gain on the sale of the reverse mortgage portfolio. Excluding the noteworthy items, pre-tax earnings were \$36 million, compared to \$37 million in the prior quarter and \$3 million in the year-ago quarter, and \$96 million and \$37 million for the nine months ended 2018 and 2017, respectively. Compared to the year-ago quarter and nine months, pre-tax earnings was up reflecting the increase in the benefit in interest expense received from the other segments for the value of the excess deposits Consumer Banking generates.

Average loans, including held for sale, for the quarter and nine-months ended September 30, 2018, were down compared to the year-ago periods, as run-off of the LCM portfolio and the sale of the reverse mortgage portfolio, comprised of loans and related OREO assets of \$884 million, were partially offset by new business volume in the Other Consumer Banking division. Average loan growth in Other Consumer Banking was primarily driven by

increases in residential mortgage lending in the retail and correspondent origination channels and closed loan purchases. The decline in average loans, including held for sale, from the prior quarter was driven by the full quarter impact of the reverse mortgage portfolio sold in May 2018 and run-off in LCM, partially offset by new business volumes in the Other Consumer Banking division. LCM made up \$3.0 billion of the current quarter average balance, with a significant portion covered by the loss sharing agreement with the FDIC under IndyMac. The IndyMac loss share agreement expires in March 2019, the benefit of which is recorded as an indemnification asset. See Note 2 — Discontinued Operations and Note 3 – Loans earlier in this document. See also Note 5 — Indemnification Assets in Item 8. Financial Statements and Supplementary Data of CIT's 2017 Form 10-K for more detailed discussion on the indemnification assets.

Deposits, which include deposits from the branch and online channels, increased from the prior and year-ago quarters, driven by an increase in savings and online money market accounts and in the current quarter, the increase in short term time deposits, partially offset by a decrease in interest-bearing checking accounts and also long term time deposits compared to the year-ago quarter.

Trends included:

NFR increased from the year-ago quarter and nine-months, primarily due to an increase in the benefit in interest expense described above, partially offset by the decline in interest income due to the sale of the reverse mortgage portfolio, lower PAA as the assets mature and run-off of the LCM portfolio. NFR decreased slightly compared to the prior quarter, as the increase in benefit in interest expense was offset by lower interest income due to the sale of the reverse mortgage portfolio in May 2018 and run-off of the LCM portfolio. NFM reflected similar trends. There was approximately \$10 million (including PAA of \$3 million accelerated) of net PAA (PAA less amounts of negative interest on the indemnification asset) in the current quarter, compared to \$17 million (including PAA of \$4 million accelerated) in the year-ago quarter and \$9 million (including PAA of \$3 million accelerated) in the prior quarter.

Pretax return on AEA	50.89%	(4.55)%	(4.76)%	9.47 %	(2.60)%

Income before income taxes for the current quarter reflects an \$11 million reversal of a valuation reserve in other non-interest income due to an increase in fair value of certain assets held for sale in China. In the year-ago nine-month period, the loss before income taxes included a noteworthy item of an \$8 million currency translation adjustment charge in other non-interest income related to the exit of international businesses.

The loans and leases at September 30, 2018, were all in China.

Corporate and Other

Certain items are not allocated to operating segments and are included in Corporate and Other. Some of the more significant and recurring items include interest income on investment securities, a portion of interest expense primarily related to corporate liquidity costs, mark-to-market adjustments on non-qualifying derivatives and BOLI (other non-interest income), restructuring charges, as well as certain unallocated costs and intangible assets amortization expenses (operating expenses) and loss on debt extinguishments.

Earning assets (end of period)	7,414.5	9,038.7	8,026.0	7,414.5	8,026.0

Noteworthy items decreased pre-tax income by \$3 million, \$56 million and \$19 million for the quarters ended September 30, 2018 and 2017, and June 30, 2018, respectively. Noteworthy items decreased pre-tax income by \$22 million and \$254 million for the nine months ended September 30, 2018 and 2017, respectively. Noteworthy items included loss on debt extinguishments in each of the periods. Noteworthy items in the year-ago quarter and nine months included restructuring charges, and the year-ago nine months also included interest expense partially offset by interest income, related to the timing of debt repayments and the elevated cash balances from the Commercial Air sale and the related liability management and capital actions. Noteworthy items are listed in the Non-GAAP Financial Measurements section.

Excluding noteworthy items, pre-tax income in the current quarter was \$6 million compared to \$16 million in the prior quarter and \$9 million in the year-ago quarter. Year to date excluding noteworthy items, pre-tax income totaled \$38 million in 2018 compared to a pre-tax loss of \$45 million in 2017.

Loans	3,485.8	3,254.4	2,623.5

Edgar Filing: CIT GROUP INC - Form 10-Q

Assets held for sale	11.9	19.3	4.6
Total Loans and leases	3,497.7	3,273.7	2,628.1
Total Segment - Consumer Banking			
Loans	6,400.1	6,308.7	5,954.6
Assets held for sale	11.9	19.3	865.6
Total Loans and leases	6,412.0	6,328.0	6,820.2
Non-Strategic Portfolios			
Assets held for sale	32.1	29.7	63.3
Total loans and leases	32.1	29.7	63.3
Total Loans	\$30,495.8	\$29,348.4	\$29,113.9
Total operating lease equipment, net	6,888.7	6,833.9	6,738.9
Total assets held for sale	1,380.5	1,335.8	2,263.1
Total loans and leases	\$38,765.0	\$37,518.1	\$38,115.9

Total loans and leases were up 3.3% and 1.7% from June 30, 2018 and December 31, 2017, respectively. The increase in Commercial Banking reflects higher loans and leases in the equipment finance businesses and seasonally higher factoring receivables in Business Capital and growth in Commercial Finance. Rail assets held for sale related to NACCO, our European rail business that was sold in October 2018. Consumer Banking was up compared to June 30, 2018, as originations in Other Consumer Banking was partially offset by LCM run-off. The decline in Consumer Banking from year-end reflects the sale of the reverse mortgage loan portfolio in LCM in May 2018.

Total loans and leases trends are discussed in the respective segment descriptions in the prior section, “Results by Business Segment.”

All other countries	941.9	2.4	%	905.5	2.4	%
Total	\$38,765.0	100.0	%	\$38,115.9	100.0	%

Ten Largest Accounts

Our ten largest loan and lease accounts, primarily lessors of rail assets and factoring clients, in the aggregate represented 4.6% of our total loans and leases at September 30, 2018 (the largest account was less than 1.0%). The ten largest loan and lease accounts were 4.4% of total loans and leases at December 31, 2017.

COMMERCIAL CONCENTRATIONS

Geographic Concentrations

Table of Contents

OTHER ASSETS AND OTHER LIABILITIES

The following tables present the components of other assets and other liabilities.

Other Assets (dollars in millions)

	September 30, 2018	December 31, 2017
Tax credit investments and Investments in Unconsolidated Subsidiaries	\$ 308.6	\$ 247.6
Counterparty receivables	202.0	241.3
Current and deferred federal and state tax assets	183.8	205.2
Property, furniture and fixtures	170.8	173.9
Intangible assets	95.0	113.0
Indemnification asset ⁽¹⁾	27.2	142.4
Other ⁽²⁾	574.6	472.1
Total other assets	\$ 1,562.0	\$ 1,595.5

⁽¹⁾“Indemnification asset” declined reflecting the reduction in the related estimated contingent liabilities from servicing activities to zero as disclosed in Note 2 – Discontinued Operations and an impairment charge related to covered SFR loans within the remaining indemnification period, as quantified and discussed briefly in Other Non-interest Revenues section and disclosed in Note 3 – Loans in the Credit Quality Information section.

⁽²⁾“Other” includes executive retirement plan and deferred compensation, prepaid expenses, accrued interest and dividends, servicing advances, OREO and other miscellaneous assets.

Other Liabilities (dollars in millions)

	September 30, 2018	December 31, 2017
Accrued expenses and accounts payable	\$ 576.4	\$ 584.8
Current and deferred taxes payable	229.5	204.3
Fair value of derivative financial instruments	129.1	87.5
Accrued interest payable	59.4	86.6
Other liabilities ⁽¹⁾	467.5	473.9
Total other liabilities	\$ 1,461.9	\$ 1,437.1

⁽¹⁾Other consists of liabilities for taxes other than income, fair value of derivative financial instruments, equipment maintenance reserves, cash collateral deposits and contingent liabilities and other miscellaneous liabilities.

RISK MANAGEMENT

CIT's Risk Management Group has established a Risk Governance Framework that is designed to promote appropriate risk identification, measurement, monitoring, management and control. Our policies and procedures relating to Risk Management are detailed in our Annual Report on Form 10-K for the year ended December 31, 2017.

Interest Rate Risk (a component of Market Risk)

CIT is exposed to the risk that changes in market conditions may negatively impact earnings. The risk arises from the composition of CIT's balance sheet and changes in the magnitude or shape of the yield curve. CIT looks to strategically manage this inherent risk based on prescribed guidelines and Board approved limits.

Interest rate risk can arise from many of CIT's business activities such as: lending, leasing, investments, deposit taking and funding. This risk is a result of assets and liabilities repricing at different times as interest rates change. We evaluate and monitor interest rate risk primarily through two metrics.

Net Interest Income Sensitivity ("NII Sensitivity"), which measures the net impact of hypothetical changes in interest rates on forecasted net finance revenue, for our interest rate sensitive assets, liabilities, and off-balance sheet instruments, assuming a static balance sheet over a twelve month period; and

Economic Value of Equity Sensitivity ("EVE Sensitivity"), which measures the net impact of these hypothetical changes on the value of equity by assessing the economic value of assets, liabilities and off-balance sheet instruments. The composition of our interest rate sensitive assets and liabilities generally results in a net asset-sensitive position, concentrated at the short end of the yield curve, mostly driven by moves in LIBOR, whereby our assets will reprice faster than our liabilities. Our interest rate sensitive assets generally consist of interest-bearing cash, investment securities and commercial and consumer loans. Approximately 50% of our loans are indexed to either LIBOR 1-month, LIBOR 3-month, or the PRIME rate.

Our funding sources consist mainly of non-maturity deposits and time deposits from the online, branch, brokered and commercial channels, as well as wholesale funding (unsecured and secured debt) and FHLB advances. Our funding mix consists of time deposits and unsecured debt which are fixed-rate, secured debt which is a mix of fixed and floating rate, and other deposits whose rates vary based on the market environment and competition.

Table of Contents

CIT Bank, N.A. sources deposits primarily through a retail branch network in Southern California, and national direct-to-consumer (via the Internet), as well as commercial and brokered channels. At September 30, 2018, deposits totaled approximately \$31 billion. The deposit rates we offer can be influenced by market conditions and competitive factors. Beta represents the correlation between changes in overall market interest rates relative to the rates paid by CIT Bank. Cumulative deposit betas on total deposits is 21% since the Fed started raising rates at the end of 2015 and approximately 45% over the last 12 months. We expect the trailing twelve month betas on total deposits to continue to ramp up to approximately 50% by the year end with continued gradual increases into 2019. Changes in interest rates, as well as actions by competitors, can affect our deposit pricing and potentially impact our ability to attract and retain deposits. In a rising rate environment, we may need to increase rates to renew maturing time deposits and attract new deposits. Rates on our savings account deposits may fluctuate due to pricing competition and may also move with short-term interest rates. We regularly test the effect of deposit rate changes on our margins and seek to achieve optimal alignment between assets and liabilities from an interest rate risk management perspective.

The table below summarizes the results of simulation modeling produced by our asset/liability management system. The simulations run require assumptions about rates, time horizons, balance sheet volumes, prepayment speeds, pricing and deposit behaviors, along with other inputs. The results presented below reflect the simulation of dollar changes in the NII Sensitivity over the next twelve months and in the EVE Sensitivity over the life of the interest rate sensitive assets, liabilities and off-balance sheet items. These simulations assume an immediate 100 basis point parallel increase or decrease and an immediate 200 basis point increase in interest rates from the market-based forward curve. The NII Sensitivity is presented based on an assumption that the balance sheet composition and size remains static over the projection period.

NII Sensitivity and EVE Sensitivity (dollars in millions)

	September 30, 2018			June 30, 2018			December 31, 2017		
	+200	+100	-100	+200	+100	-100	+200	+100	-100
	bps	bps	bps	bps	bps	bps	bps	bps	bps
NII Sensitivity	\$114	\$57	\$(64)	\$138	\$69	\$(77)	\$114	\$57	\$(56)
EVE Sensitivity	\$(535)	\$(268)	\$204	\$(406)	\$(202)	\$140	\$(374)	\$(192)	\$196

We have modified our presentation in the above table from a percentage of sensitivity in previous periods in order to provide a more transparent view of the simulation's impact from rate changes on interest sensitive assets, liabilities and off-balance sheet instruments. We have also refined the simulation to remove sensitivity related to rail operating leases as the repricing of these assets do not exhibit a correlation to the movement in interest rates and instead are primarily driven by other factors that impact supply and demand of railcars. While rail assets comprise almost 20% of our average earning assets, this change had a minimal impact on the dollar sensitivity. See the net operating lease revenue discussion in the Net Finance Revenue section of MD&A for additional information on rail operating lease re-pricing. The prior period numbers have been conformed to the current period presentation.

As of September 30, 2018, the NII Sensitivity changes from June 30, 2018 (see table above) reflect the changes in balance sheet composition from the net deployment of cash into liability reduction actions and loan originations over the quarter.

Changes in EVE Sensitivity reflect a mix shift in the composition of our deposits as well as a net reduction in cash and borrowings over the period. The changes in the balance sheet mix resulted in a net increase in duration of equity, adding to the EVE Sensitivity during the period.

As detailed above, NII Sensitivity, is positive with respect to an increase in interest rates. This position is primarily driven by our floating rate loan portfolio, which reprices frequently, and interest-bearing cash. On a net basis, we generally have more floating/repricing interest sensitive assets than liabilities in the near term. As a result, the interest rate risk sensitivity of our current portfolio is more impacted by moves in short-term interest rates in the near term. Therefore, our net finance revenue associated with the interest rate sensitive assets, liabilities and off-balance sheet items may increase if short-term interest rates rise, or decrease if short-term interest rates decline. However, changes would also be impacted by factors beyond interest rates, such as changes in balance sheet composition, spread compression and deviations from modelled deposit betas. In addition, repricing of our non interest rate sensitive assets (in particular the rail operating leases) will impact net finance revenue.

Market-implied forward rates over the future twelve months are used to determine a base interest rate scenario for the net interest income projection for the base case. This base projection is compared with those calculated under varying interest rate scenarios to arrive at NII Sensitivity. Though there are many assumptions that affect the estimates for NII Sensitivity, those pertaining to deposit pricing, deposit mix and overall balance sheet composition are particularly impactful. Management constantly evaluates the impact to its sensitivity analysis of these key assumptions.

EVE Sensitivity complements net interest income simulation and sensitivity analysis as it estimates risk exposures beyond a twelve month horizon. EVE Sensitivity modeling measures the extent to which the economic value of assets, liabilities and off-balance sheet instruments may change in response to a change in interest rates. EVE Sensitivity is calculated by subjecting the balance sheet to different rate shocks, measuring the net value of assets, liabilities and off-balance sheet instruments, and comparing those amounts with the EVE in base case calculated using a market-based forward interest rate curve. The methodology with which the operating lease assets are assessed in the EVE Sensitivity results in the table above reflects the existing contractual rental cash flows and the expected residual value at the end of the existing contract term.

Table of Contents

The simulation modeling for both NII Sensitivity and EVE Sensitivity assumes we take no action in response to the changes in interest rates and includes only impacts from interest rate related influences. NII Sensitivity generally assumes cash flows from portfolio run-off are reinvested in similar products or cash to keep the balance sheet static.

A wide variety of potential interest rate scenarios are simulated within our asset/liability management system. All interest sensitive assets, liabilities and off-balance sheet instruments are valued using discounted cash flow analysis for EVE Sensitivity. Rates are shocked up and down via a set of scenarios that include both parallel and non-parallel interest rate movements. Scenarios are also run to capture our sensitivity to changes in the shape of the yield curve. Furthermore, we evaluate the sensitivity of these results to a number of key assumptions, such as spreads and prepayments.

NII Sensitivity and EVE Sensitivity limits have been set and are monitored for certain of the key scenarios. We manage the exposure to changes in NII Sensitivity and EVE Sensitivity in accordance with our risk appetite and within Board approved limits.

We use results of our various interest rate risk analyses to formulate asset and liability management (“ALM”) strategies, in coordination with the Asset Liability Committee (“ALCO”), in order to achieve the desired risk profile, while managing our objectives for capital adequacy and liquidity risk exposures. Specifically, we may manage our interest rate risk position through certain pricing strategies for loans and deposits, our investment strategy, issuing term debt with floating or fixed interest rates, and using derivatives such as interest rate swaps, which modify the interest rate characteristics of certain assets or liabilities.

These measurements provide an estimate of our interest rate sensitivity; however, they do not account for potential changes in credit quality, size, mix, and prepayment characteristics of our balance sheet, changes in PAA, or changes in the competition for business in the industries we serve. They also do not account for other business developments that could affect net finance revenue, or for management actions that could affect net finance revenue or that could be taken to change our risk profile. Accordingly, we can give no assurance that actual results would not differ materially from the estimated outcomes of our simulations. Further, the range of such simulations does not represent our current view of the expected range of future interest rate movements.

FUNDING AND LIQUIDITY

CIT actively manages and monitors its funding and liquidity sources against relevant limits and targets. These sources satisfy funding and other operating obligations, while also providing protection against unforeseen stress events including unanticipated funding obligations, such as customer line draws, or disruptions to our access to capital markets or other funding sources. Primary sources of liquidity include cash, investment securities and credit facilities as discussed below.

Cash

Cash totaled \$1.4 billion at September 30, 2018, down from \$1.7 billion at December 31, 2017, reflecting capital returns during 2018. Cash at September 30, 2018 consisted of nearly \$1.0 billion at CIT Bank and \$0.4 billion related to the bank holding company and other operating subsidiaries.

Investment Securities

Investment securities consist primarily of High Quality Liquid Asset (“HQLA”) fixed income debt securities. Investment securities declined slightly from December 31, 2017 to \$6.3 billion at September 30, 2018, due to maturities and sales in our investment portfolio. In addition, we have \$200 million of securities purchased under agreement to resell, up from \$150 million at December 31, 2017. See Note 5 — Investment Securities for additional information on types of investment securities.

Liquidity Monitoring

The Basel III Final Rule requires banks and BHCs to measure their liquidity against specific liquidity tests. One test, referred to as the liquidity coverage ratio (“LCR”), is designed to ensure that the banking entity maintains an adequate level of unencumbered high-quality liquid assets equal to the entity’s expected net cash outflow for a 30-day time horizon under an acute liquidity stress scenario. Changes in regulatory reporting requirements resulted in CIT no longer being required to disclose its LCR. While CIT is no longer required to disclose certain liquidity measurements, the Company will continue prudent liquidity management and calculate liquidity stress metrics as part of its risk management.

Funding Sources

Funding sources consist of deposits and borrowings. The period end deposits to total funding ratio increased to 78% at September 30, 2018, from 77% at December 31, 2017. Unsecured borrowings increased to 11% from 10% at December 31, 2017. Secured borrowings decreased to 11% from 13% at December 31, 2017. The proportions of the unsecured and secured borrowings may decline in the fourth quarter due to the redemption of the Railcar Securitization and certain unsecured borrowings, as disclosed in Note 14 – Subsequent Events, and the assumption of secured debt by the buyer of NACCO in October.

See Net Finance Revenue section for a tabular presentation of our average funding mix for the quarter ended September 30, 2018, which was virtually unchanged from the quarter ended June 30, 2018.

Table of Contents

Deposits

CIT offers its deposits through various channels. The period end balances are as follows:

Deposits by Channel (dollars in millions)

	September 30, 2018			December 31, 2017		
		Percent			Percent	
	Total	of Total		Total	of Total	
Online	\$14,502.7	47 %		\$11,756.6	40 %	
Branch	11,545.4	37 %		11,665.2	39 %	
Brokered / Other Channel	2,952.8	10 %		3,618.3	12 %	
Commercial	1,824.1	6 %		2,529.2	9 %	
Total	\$30,825.0	100 %		\$29,569.3	100 %	

The following table details our period end deposit balances by type:

Deposits (dollars in millions)

	September 30, 2018			December 31, 2017		
		Percent			Percent	
	Total	of Total		Total	of Total	
Checking and Savings:						
Non-interest bearing checking	\$1,296.4	4 %		\$1,352.0	5 %	
Interest bearing checking	1,767.7	6 %		2,653.3	9 %	
Other money market / Sweeps	4,794.9	15 %		5,075.5	17 %	
Savings and Online money market accounts	8,267.5	27 %		5,986.7	20 %	
Time deposits	14,506.8	47 %		14,343.8	49 %	
Other	191.7	1 %		158.0	— %	
Total	\$30,825.0	100 %		\$29,569.3	100 %	

CIT Bank, N.A. offers a full suite of deposit offerings to its commercial and consumer customers through a network of 69 branches in Southern California and a national online platform. During 2018, we have executed on our plan to grow the online channel and we have been growing our non-maturity deposits in conjunction with our strategy to optimize deposit costs while working within our risk management discipline. Deposits increased, as growth in the online channel more than offset the decline in higher-cost deposits in the brokered channel and higher beta deposits in the commercial channel. See Net Finance Revenue section for further discussion on average balances and rates.

Borrowings

Borrowings consist of senior unsecured notes, subordinated unsecured notes and secured borrowings (structured financings and FHLB advances), all of which totaled \$8.7 billion in aggregate at September 30, 2018, down from \$9.0 billion at December 31, 2017, reflecting lower FHLB borrowings. The weighted average coupon rate of borrowings at September 30, 2018, was 3.97%, up from 3.30% at December 31, 2017, reflecting the issuance of subordinated unsecured debt and a higher rate environment.

Periodically, based on market conditions and other factors, and subject to compliance with applicable laws and regulations and terms of our existing indebtedness, including the Revolving Credit Facility, the Dutch TRS Facility and secured and unsecured borrowings, we may repay, repurchase, exchange or redeem outstanding indebtedness, or otherwise enter into transactions regarding our debt or capital structure. For example, we periodically evaluate and may engage in liability management transactions, including repurchases of outstanding senior unsecured notes funded by the issuance of, or exchanges of, newly issued unsecured borrowings, as we seek to mitigate refinancing risk by actively managing our debt maturity profile and interest cost. In Note 14 – Subsequent Events we summarized events that included the termination of the Dutch TRS Facility on November 2, 2018, redemption of the Railcar Securitization in October of 2018, and announced redemptions of senior unsecured notes.

See Note 6 — Borrowings and Note 14 – Subsequent Events.

Unsecured Borrowings

Revolving Credit Facility

There were no borrowings outstanding under the Revolving Credit Facility. As of September 30, 2018, the Company was in compliance with the minimum guarantor asset coverage ratio and the minimum Tier 1 Capital requirement.

Table of Contents

Senior Unsecured Notes

At September 30, 2018, senior unsecured notes outstanding totaled \$3.8 billion and the weighted average coupon rate was 4.97%, compared to \$3.7 billion and 4.81% at December 31, 2017. As noted in the following sentences, we redeemed various notes coming due and issued new notes that resulted in extending our maturity profile. During the first quarter, CIT issued \$500 million, aggregate principal amount of 4.125% senior unsecured notes due 2021 and \$500 million, aggregate principal amount of 5.250% senior unsecured notes due 2025. In April 2018, \$883 million of the proceeds were used to repay \$500 million of the outstanding 3.875% senior unsecured notes due February 2019 and all of the \$383 million outstanding of the 5.500% senior unsecured notes due February 2019. During the third quarter, CIT issued \$500 million aggregate principal amount of 4.75% senior unsecured notes due February 2024 and redeemed the remaining approximately \$500 million outstanding of the 3.875% senior unsecured notes due February 2019.

On October 19 and November 2, 2018, we announced our intent to redeem the outstanding 5.375% senior unsecured notes due May 2020, which totaled approximately \$431 million at September 30, 2018, which we will redeem using net proceeds from the NACCO sale and the sale of rail assets to CIT Bank. The unsecured debt redemptions are expected to result in debt extinguishment losses of approximately \$15 million in the fourth quarter.

Subordinated Unsecured Notes

During the first quarter, CIT issued \$400 million of 10-year subordinated unsecured notes with a coupon of 6.125%, which allowed us to increase the common equity distribution in accordance with the Amended Capital Plan that ended in June 2018.

The weighted average coupon of our unsecured senior and subordinated notes increased to 5.05% from 4.95% at June 30, 2018 and 4.89% at March 31, 2018, the first quarter after the issuance of the subordinated notes. During this period, we extended the weighted average maturity profile of the combined unsecured senior and subordinated notes to 4.9 years at September 30, 2018 from 4.1 years at March 31, 2018.

Secured Borrowings

We may pledge assets for secured financing transactions, which include borrowings from the FHLB and/or FRB, or for other purposes as required or permitted by law. The debt issued in conjunction with these transactions is collateralized by certain discrete receivables, loans, leases and/or underlying equipment. Certain related cash balances are restricted.

FHLB Advances

CIT Bank is a member of the FHLB of San Francisco and makes decisions regarding utilization of advances based upon a number of factors, including available collateral, liquidity needs, cost of funds and alternative sources of funding.

FHLB Balances (dollars in millions)

Edgar Filing: CIT GROUP INC - Form 10-Q

	September 30, 2018	December 31, 2017
Total borrowing capacity	\$ 5,501.7	\$ 5,217.8
Less:		
Advances	(3,150.0)	(3,695.5)
Letters of credit	(2.3)	(87.8)
Available capacity	\$ 2,349.4	\$ 1,434.5
Weighted average rate	2.37 %	1.56 %
Pledged assets	\$ 6,602.5	\$ 6,154.1

FHLB Advances and pledged assets are also discussed in Note 6 — Borrowings.

Other Secured and Structured Financings

Structured financings totaled \$1.3 billion at September 30, 2018, and \$1.5 billion at December 31, 2017. The weighted average coupon rate of structured financings was 4.31% at September 30, 2018, up from 3.75% at December 31, 2017, reflecting increases in benchmark rates and repayment of lower coupon debt tranches.

There were no structured financings at CIT Bank, N.A. at September 30, 2018, and \$74 million at December 31, 2017, which were secured by pledged assets of \$146 million. Non-CIT Bank, N.A. structured financings were \$1.3 billion and \$1.4 billion at September 30, 2018 and December 31, 2017, respectively, and were secured by \$4.1 billion of pledged assets at September 30, 2018, and \$4.0 billion of pledged assets at December 31, 2017. See Note 6 — Borrowings for a table displaying our consolidated secured financings and pledged assets.

In October 2018, we redeemed all of the Railcar Securitization related to the Dutch TRS Facility of approximately \$465 million, which resulted in approximately \$775 million of rail assets becoming unencumbered. In addition, the buyer of NACCO assumed secured borrowings, which were \$104 million at September 30, 2018 and pledged assets of \$179 million. The Optional Termination Fee and the reduction of the liability associated with the TRS Derivative are expected to result in net pretax charges for the Company of approximately \$70 - \$75 million in the fourth quarter of 2018. See Note 7 — Derivative Financial Instruments for discussion of the Dutch TRS Facility and Note 14 — Subsequent Events for discussions related to the termination of the Dutch TRS Facility and redemption of the Railcar Securitization.

Table of Contents

Credit Facilities

At September 30, 2018, we maintained additional liquidity sources in the form of:

▲ multi-year committed Revolving Credit Facility that has a total commitment of \$500 million, of which approximately \$458 million was available to be drawn; and

● Committed securitization facilities and secured bank lines totaled \$2.1 billion, of which \$936 million was unused at September 30, 2018, provided that eligible assets are available that can be funded through these facilities.
FRB

There were no outstanding borrowings with the FRB Discount Window as of September 30, 2018, or December 31, 2017. See Note 6 — Borrowings for total balances pledged, including amounts to the FRB.

Debt Ratings

Debt ratings can influence the cost and availability of short-and long-term funding, the terms and conditions on which such funding may be available, the collateral requirements, if any, for borrowings and certain derivative instruments, the acceptability of our letters of credit, and the number of investors and counterparties willing to lend to the Company. A decrease, or potential decrease, in credit ratings could impact access to the capital markets and/or increase the cost of debt, and thereby adversely affect the Company's liquidity and financial condition.

CIT and CIT Bank, N.A. debt ratings, as rated by Standard & Poor's Ratings Services ("S&P"), Fitch Ratings, Inc. ("Fitch"), Moody's Investors Service ("Moody's") and DBRS Inc. ("DBRS") are presented in the following table:

Ratings

	S&P	Fitch	Moody's	DBRS
Last Credit Update	10/12/18	1/10/18	10/17/18	4/4/18
CIT Group Inc.				
Issuer Rating	BB+	BB+	N/A	BB (high)
Long Term Senior Unsecured Debt	BB+	BB+	Ba1	BB (high)
Short Term Instruments	B	B	N/A	R-4

Deposit Rating (LT/ST)	N/A	BBB-/F3	Baa1/P-2	BBB (low) / R-2 (mid)
Outlook	Stable	Stable	Positive	Positive

N/A — Not Applicable

Rating agencies indicate that they base their ratings on many quantitative and qualitative factors, including capital adequacy, liquidity, asset quality, business mix, level and quality of earnings, and the current operating, legislative and regulatory environment, including implied government support. In addition, rating agencies themselves have been subject to scrutiny arising from the financial crisis and could make or be required to make substantial changes to their ratings policies and practices, particularly in response to legislative and regulatory changes, including as a result of provisions in the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”). Potential changes in rating methodology as well as in the legislative and regulatory environment and the timing of those changes could impact our ratings, which could impact our liquidity and financial condition.

A debt rating is not a recommendation to buy, sell or hold securities, and the ratings are subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

Contractual Commitments

Commitment Expiration for the Twelve Months Ended September 30 (dollars in millions)

	Total	2019	2020	2021	2022	2023+
Financing commitments	\$6,483.0	\$2,421.3	\$890.8	\$1,236.9	\$1,064.1	\$869.9

Liabilities for unrecognized tax benefits ⁽¹⁾	13.2	1.0	12.2	—	—	—
Total contractual commitments	\$9,260.3	\$4,940.8	\$953.8	\$1,308.6	\$1,105.3	\$951.8

⁽¹⁾The balance for 2020 reflects the remaining balance, which cannot be estimated further.

Table of Contents

At September 30, 2018, substantially all our undrawn financing commitments were senior facilities, with approximately 83% secured by commercial equipment or other assets, and the remainder comprised of cash flow or enterprise value facilities. Most of our undrawn and available financing commitments are in the Commercial Finance and Real Estate Finance divisions of Commercial Banking. The top ten undrawn commitments totaled \$635 million at September 30, 2018.

See Note 11 — Commitments for further detail.

CAPITAL

Capital Management

With the passage of the Economic Growth, Regulatory Relief and Consumer Protection Act of 2018, CIT is no longer subject to the Enhanced Prudential Standards of the Dodd-Frank Act, including supervisory stress testing and company-run stress testing under the Dodd Frank Act Stress Test (“DFAST”) or the capital planning requirements of the Comprehensive Capital Analysis and Review (“CCAR”).

While CIT was subject to CCAR, CIT submitted and received a non-objection to its 2017 Capital Plan (“Original Plan”). The plan included a quarterly cash dividend of up to \$0.16 per share and common stock repurchases of up to \$225 million for the four quarters ending June 30, 2018, including up to \$25 million of common share repurchases to offset dilution from issuances pursuant to CIT's employee stock plans. Entering 2018, CIT had up to \$100 million remaining under this plan. On February 1, 2018, the Company received a “non-objection” from the FRBNY to an amendment to the Original Plan (the “Amended Capital Plan”). The Amended Capital Plan included (i) the issuance of up to \$400 million in Tier 2 qualifying subordinated debt (which was completed in March 2018); and (ii) an increase in common equity distribution of up to \$800 million for the remainder of the four-quarter period that began July 1, 2017 and ended on June 30, 2018. CIT completed \$1,166 million of common equity share repurchases during the nine months ended September 30, 2018.

On June 28, 2018, CIT announced that the Board of Directors (the “Board”) approved a common equity capital return of up to \$750 million (exclusive of the quarterly cash dividend). The Company will determine the timing and amount of any share repurchases, special dividends, or combination of the two that may be authorized based on market conditions and other considerations. Any share repurchases may be effected in the open market, through derivative, accelerated repurchase and other negotiated transactions, and through plans designed to comply with Rule 10b5-1(c) under the Securities Exchange Act of 1934.

CIT’s capital management is discussed further in its Annual Report on Form 10-K for the year ended December 31, 2017 in the “Regulation” section of Item 1. Business Overview with respect to capital and regulatory matters, including “Capital Requirements” and “Stress Test and Capital Plan Requirements”.

Return of Capital

During the third quarter of 2018, CIT repurchased 5.5 million common shares via open market repurchases (“OMRs”) for a total of \$290.9 million, at an average price of \$52.91. During the nine months ended September 30, 2018, CIT

repurchased 21.7 million common shares for a total of \$1,165.8 million in common shares, via OMRs and a tender offer, at an average share price of \$53.83. The Company has purchased in the open market an additional \$242.0 million, or 5.0 million shares, at an average purchase price of \$48.58 from October 1 through October 31, 2018. There is \$217.1 million remaining in the current share repurchase authorization, most of which is expected to be completed by year-end.

We declared and paid the following common and preferred stock dividends in 2018:

2018 Common Stock Dividends

		Per Share
Declaration Date	Payment Date	Dividend
January 22, 2018	February 23, 2018	\$ 0.16
April 16, 2018	May 25, 2018	\$ 0.16
July 17, 2018	August 24, 2018	\$ 0.25
October 15, 2018	November 27, 2018	\$ 0.25

On October 15, 2018, the Board of Directors of the Company declared a quarterly cash dividend in the amount of \$0.25 per common share. The common stock dividend is payable on November 27, 2018 to common shareholders of record as of November 13, 2018.

On October 15, 2018, the CIT Board declared a semi-annual dividend in the amount of \$29.00 per share on the Series A preferred stock, which is payable on December 17, 2018 to preferred stockholders of record as of November 30, 2018. Previously, the company paid a \$29.00 per share dividend on June 15, 2018.

Capital Composition and Ratios

The Company is subject to various regulatory capital requirements. We compute capital ratios in accordance with Federal Reserve capital guidelines for assessing adequacy of capital. The regulatory capital guidelines applicable to the Company were based on the Basel III Final Rule through September 30, 2018. At September 30, 2018 and December 31, 2017, the capital ratios of the Company and the Bank exceeded all capital adequacy requirements. The December balances in the following table present amounts in effect as of that period.

Table of Contents

In November 2017, the Federal Reserve Board, together with the OCC and FDIC adopted a final rule effective January 1, 2018 to extend the regulatory capital treatment under 2017 transition provisions for certain items, applicable to banking organizations that are not subject to advanced approaches capital rules (“Transition Final Rule”). These items include regulatory capital deductions, risk weights, and certain minority interest limitations. There were no items that exceeded the deduction threshold at September 30, 2018, for CIT and CIT Bank, therefore balances and ratios were the same for the transition basis and fully-phased-in basis.

Capital Components, Risk-Weighted Assets, and Capital Ratios (dollars in millions)

	September 30, 2018 Fully Phased-in Basis ⁽⁵⁾	December 31, 2017 Transition Basis	Fully Phased-in Basis

CIT Bank, N.A. Capital Components and Ratios			
CET1 Capital	\$4,759.4	\$4,751.6	\$4,734.2

Edgar Filing: CIT GROUP INC - Form 10-Q

Tier 1 Capital	4,759.4	4,751.6	4,734.2
Total Capital	5,193.7	5,183.3	5,165.8
Risk-Weighted Assets	34,694.1	34,527.2	34,517.2
CET1 Capital Ratio	13.7	%	13.7
Tier 1 Capital Ratio	13.7	%	13.7
Total Capital Ratio	15.0	%	15.0
Tier 1 Leverage Ratio	11.6	%	11.8

(1) See Condensed Consolidated Balance Sheets for the components of Total common stockholders' equity.

(2) Goodwill and intangible assets deductions also reflect the portion included within AHFS and assets of discontinued operations.

(3) Represents covered funds deductions required by the Volcker Rule. The balance as of December 31, 2017 also includes 20% of the deduction on DTAs arising from net operating loss and tax credit carryforwards applied to Additional Tier 1 Capital under transition basis.

(4) "Other reserves" represents additional credit loss reserves for unfunded lending commitments, letters of credit, and deferred purchase agreements, all of which are recorded in Other Liabilities.

(5) At September 30, 2018, the Transition Basis and the Fully Phased-in Basis were the same, as described in the paragraphs preceding this table.

The reconciliation of balance sheet assets to risk-weighted assets is presented below:

Risk-Weighted Assets (dollars in millions)

	September 30, 2018	December 31, 2017
Balance sheet assets	\$49,262.4	\$49,278.7
Risk weighting adjustments to balance sheet assets	(9,800.6)	(10,230.4)
Off-Balance sheet items	5,731.5	5,489.4
Risk-Weighted Assets	\$45,193.3	\$44,537.7

The 2018 off-balance sheet items primarily reflect \$2.7 billion of unused lines of credit (largely related to the Commercial Finance and Real Estate Finance divisions), \$2.1 billion of deferred purchase agreements (related to the Business Capital division), and \$0.9 billion of other items. The risk-weighted assets for off-balance sheet items as of September 30, 2018 increased slightly from

Table of Contents

December 31, 2017 mainly due to increases in rail and other purchase commitments. See Note 11 — Commitments in Item 1. Condensed Consolidated Financial Statements for further detail on commitments.

Tangible Book Value and per Share Amounts (dollars in millions, except per share amounts)

	September 30, 2018	December 31, 2017
Total common stockholders' equity	\$ 5,995.3	\$ 6,995.0
Less: Goodwill	(369.9)	(369.9)
Intangible assets	(95.0)	(113.0)
Tangible book value ⁽¹⁾	\$ 5,530.4	\$ 6,512.1
Book value per share	\$ 54.22	\$ 53.25
Tangible book value per share ⁽¹⁾	50.02	49.58

⁽¹⁾Tangible book value and tangible book value per share are non-GAAP measures. See “Non-GAAP Measurements” for reconciliation of Non-GAAP to GAAP financial information

Book value and tangible book value (“TBV”) decreased from December 31, 2017, primarily reflecting the capital actions completed through September 30, 2018. Book value per share and TBV per share increased from December 31, 2017 primarily due to the year to date repurchase of 21.7 million common shares and cumulative unrealized net losses on available for sale securities, partially offset by year to date increase in retained earnings.

CIT BANK, N.A.

The following tables present condensed financial information for CIT Bank, N.A. Trends and significant items are discussed in the previous sections of the MD&A.

Condensed Balance Sheets (dollars in millions)

	September 30, 2018	December 31, 2017

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to use judgment in making estimates and assumptions that affect reported amounts of assets and liabilities, reported amounts of income and expense and the disclosure of contingent assets and liabilities. The following estimates, which are based on relevant information available at the end of each period, include inherent risks and uncertainties related to judgments and assumptions made. We consider the estimates to be critical in applying our accounting policies, due to the existence of uncertainty at the time the estimate is made, the likelihood of changes in estimates from period to period and the potential impact on the financial statements.

Management believes that the judgments and estimates utilized for the more critical accounting estimates, such as the allowance for loan losses, loan impairments, lease residual values, realizability of deferred tax assets and goodwill, are reasonable.

We do not believe that different assumptions are more likely than those utilized, although actual events may differ from such assumptions. Consequently, our estimates could prove inaccurate, and we may be exposed to charges to earnings that could be material.

The determination of goodwill impairment requires significant judgment and the consideration of past and current performance and overall macroeconomic and regulatory environments. There is risk that if the Company does not meet forecasted financial results, such as asset volume and returns and deposit growth and rate projections, there could be incremental goodwill impairment. In addition to financial results, other inputs to the valuation, such as the discount rate and market assumptions, including stock prices of comparable companies, could negatively affect the estimated fair value of the reporting units in the future. Refer to Note 26 - Goodwill and Intangible Assets in Item 8. Financial Statements and Supplementary Data in our 2017 Form 10-K for a detailed description of the key assumptions used to identify and quantify goodwill impairment, if applicable.

There have been no significant changes to the methodologies and processes used in developing estimates relating to these items from those described in our 2017 Form 10-K.

NON-GAAP FINANCIAL MEASUREMENTS

The SEC adopted regulations that apply to any public disclosure or release of material information that includes a non-GAAP financial measure. A non-GAAP financial measure is a numerical measure of a company's historical or future financial performance or financial position that may either exclude or include amounts, or is adjusted in some way to the effect of including or excluding, as compared to the most directly comparable measure calculated and presented in accordance with GAAP financial statements.

The accompanying Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosure about Market Risk contain certain non-GAAP financial measures. We intend our non-GAAP financial measures to provide additional information and insight regarding operating results and financial position of the business and in certain cases to provide financial information that is presented to rating agencies and other users of financial information.

Table of Contents

These non-GAAP measures are not in accordance with, or a substitute for, GAAP and may be different from or inconsistent with non-GAAP financial measures used by other companies.

1. Total Net Revenue, Net Finance Revenue, and Net Operating Lease Revenue

Total net revenue is a non-GAAP measure that represents the combination of NFR and other non-interest income and is an aggregation of all sources of revenue for the Company. The source of the data is various statement of income line items, arranged in a different order, and with different subtotals than included in the statement of income, and therefore is considered non-GAAP. Total net revenue is used by management to monitor business performance and is used by management to calculate a net efficiency ratio, as discussed below.

NFR is a non-GAAP measure that represents the level of revenue earned on our loans and leases. NFR is another key performance measure used by management to monitor portfolio performance. NFR is also used to calculate a performance margin, NFM.

Due to the nature of our loans and leases, which include a higher proportion of operating lease equipment than most BHCs, certain financial measures commonly used by other BHCs are not as meaningful for our Company. As such, given our asset composition includes a high level of operating lease equipment, NFM as calculated below is used by management, compared to net interest margin (“NIM”) (a common metric used by other bank holding companies), which does not fully reflect the earnings of our portfolio because it includes the impact of debt costs of all our assets but excludes the net operating lease revenue.

Net operating lease revenue is a non-GAAP measure that represents the combination of rental income on operating leases less depreciation on operating lease equipment and maintenance and other operating lease expenses. The net operating lease revenues measurement is used by management to monitor portfolio performance and returns on its purchased equipment.

Total Net Revenue and Net Operating Lease Revenue (dollars in millions)

Net operating lease revenue (Non-GAAP)	\$129.7	\$120.6	\$ 123.3	\$370.1	\$ 367.8

2. Operating Expenses and Net Efficiency Ratio, Excluding Certain Costs

A key performance metric the Company uses to gauge the level of expenses is in comparison to the AEA. A decline in this metric could show improvement, i.e. expenses not going up at the same rate of asset growth, or decreasing at a rate in excess of asset decline. Operating expenses excluding restructuring costs and intangible asset amortization is a non-GAAP measure used by management to compare period over period expenses. Another key performance metric gauges our expense usage via our net efficiency calculation. This calculation compares the level of expenses to the level of net revenues and is calculated by dividing the operating expenses by total net revenue, as presented below. A lower result reflects a more efficient use of our expenses to generate revenue. Net efficiency ratio is a non-GAAP measurement used by management to measure operating expenses (before restructuring costs and intangible amortization) to total net revenues. We exclude the restructuring costs and intangible amortization from these calculations as they are charges resulting from our strategic initiatives and not our operating activity, and exclude noteworthy items due to their episodic nature and size. Due to the exclusions of the mentioned items, and in certain instances, other noteworthy items, these are considered non-GAAP measures, as presented in the reconciliation below.

Table of Contents

Operating Expenses Excluding Certain Costs (dollars in millions)

	Quarters Ended			Nine Months Ended	
	September 30,	June 30,	September 30,	September 30,	September 30,
	2018	2018	2017	2018	2017

Net Efficiency Ratio (Non-GAAP)	54.1 %	49.9 %	57.8 %	53.1 %	58.9 %
Net Efficiency Ratio excluding noteworthy items (Non-GAAP)	53.9 %	53.8 %	55.5 %	54.8 %	57.3 %

3. Other Non-Interest Income

Other non-interest income serves as a source of revenue for CIT. Management monitors the level absent certain items to assist in comparability with prior period levels. We exclude the noteworthy items due to their episodic nature and size. Due to the exclusions of noteworthy items, these are considered non-GAAP measures, as presented in the reconciliation below.

Other Non-Interest Income (dollars in millions)

	Quarters Ended			Nine Months Ended	
	September 30,	June 30,	September 30,	September 30,	September 30,
	2018	2018	2017	2018	2017
Other non-interest income	\$86.2	\$135.4	\$ 63.3	\$326.3	\$ 227.0
Financial Freedom Transaction impairments on reverse mortgage related assets	—	—	26.8	—	26.8
CTA charge	—	—	—	—	8.1
Gain and other revenues from sale of reverse mortgage portfolio	—	(29.3)	—	(29.3)	—
Impairment of LCM indemnification asset	21.2	—	—	21.2	—
Release of valuation reserve on AHFS	(10.6)	—	—	(10.6)	—
Total other non-interest income, excluding noteworthy items (Non-GAAP)	\$96.8	\$106.1	\$ 90.1	\$307.6	\$ 261.9

4. Earning Assets, Average Earning Assets (“AEA”) and Core Loans and Leases

Earning asset balances (period end balances) displayed in the table below are directly derived from the respective line items in the balance sheet. These represent revenue generating assets, and the average (AEA) of which provides a basis for management performance calculations, such as NFM and operating expenses as a percentage of AEA. The average is derived using month end balances for the respective period. Because the balances are used in aggregate, as well as the average, there are no direct comparative balances on the balance sheet, therefore these are considered non-GAAP measures.

Table of Contents

Earning Assets (dollars in millions)

Period End Earning Assets	Quarters Ended			Nine Months Ended	
	September 30, 2018	June 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Loans	\$30,495.8	\$29,348.4	\$28,505.3		
Operating lease equipment, net	6,888.7	6,833.9	6,724.2		
Assets held for sale	1,380.5	1,335.8	2,162.0		
Credit balances of factoring clients	(1,672.4)	(1,430.8)	(1,698.5)		
Interest-bearing cash	1,199.9	3,267.0	2,658.9		
Investment securities	6,339.5	5,907.4	5,744.8		
Securities purchased under agreement to resell	200.0	200.0	—		
Indemnification assets	27.2	70.8	171.8		
Total earning assets (Non-GAAP)	\$44,859.2	\$45,532.5	\$44,268.5		
Average Earning Assets (for the respective periods) (Non-GAAP)	\$45,377.1	\$46,229.6	\$45,454.2	\$45,559.9	\$47,535.7
AEA adjustment for Commercial Air sale impacts	—	—	—	—	(1,244.0)
AEA, excluding noteworthy items (Non-GAAP)	\$45,377.1	\$46,229.6	\$45,454.2	\$45,559.9	\$46,291.7

Certain portfolios within the segments are being managed but are being either run-off or sold. These include a legacy real estate portfolio, NACCO rail assets in AHFS, the LCM portfolio and NSP. In order to gauge the underlying level of loans and leases, management will exclude these portfolios when comparing to prior periods. By excluding these from the total of loans, operating lease equipment and AHFS balances on the balance sheet, this metric is considered non-GAAP, and is presented only to assist the reader in understanding how management views the underlying change in these asset levels in aggregate. The following table reflects the average balances for the respective periods.

Core Average Loans and Leases (dollars in millions)	Quarters Ended		
	September 30, 2018	June 30, 2018	September 30, 2017
Total average loans (incl HFS, net of credit balances)	\$28,408.7	\$28,553.9	\$27,793.1
Total average operating lease equipment (incl HFS)	8,031.8	7,980.3	7,797.6
Total average loans and leases	36,440.5	36,534.2	35,590.7
Non-core average portfolio, LCM	2,981.0	3,696.5	4,470.8
Non-core average portfolio, NACCO	1,208.6	1,226.1	1,093.4
Non-core average portfolios, NSP	27.2	43.2	104.4
Core average loans and leases	\$32,223.7	\$31,568.4	\$29,922.1

5. Tangible Book Value, ROTCE and Tangible Book Value per Share

Tangible book value (“TBV”), also referred to as tangible common equity, return on tangible common equity (“ROTCE”), and TBV per share are considered key financial performance measures by management, and are used by other financial institutions. TBV, as calculated and used by management, represents CIT’s common stockholders’ equity, less goodwill and intangible assets. ROTCE measures CIT’s net income applicable to common shareholders as a percentage of average tangible common equity. This measure is useful for evaluating the performance of CIT as it calculates the return available to common shareholders without the impact of intangible assets and deferred tax assets. The average adjusted tangible common equity is derived using averages of balances presented, based on month end balances for the period. TBV per share is calculated by dividing TBV by the outstanding number of common shares. TBV, ROTCE and TBV per share are measurements used by management and users of CIT’s financial data in assessing CIT’s use of equity. We believe the use of ratios that utilize tangible equity provides additional useful information because they present measures of those assets that can generate income.

CIT management believes TBV, ROTCE and TBV per share are important measures for comparative purposes with other institutions, but are not defined under U.S. GAAP, and therefore are considered non-GAAP financial measures.

To provide further information, management included ROTCE calculations, ROTCE calculations excluding noteworthy items and adjusted for the previously disclosed return of capital of common equity to shareholders from the net proceeds of the Commercial Air sale.

6. Net income excluding noteworthy items and income from continuing operations excluding noteworthy items
Net income excluding noteworthy items and income from continuing operations excluding noteworthy items are non-GAAP measures used by management as each excludes items from the respective line item in the GAAP statement of income. Due to the volume and size of noteworthy items, the Company believes that adjusting for these items provides the user of CIT's financial information a measure of the underlying performance of the Company and of continuing operations specifically. The non-GAAP noteworthy items are summarized in the following categories: significant due to the size of the transaction; transactions pertaining to items no longer considered core to CIT's on-going operations (e.g. sales of Non-Strategic Portfolios); legacy OneWest Bank issues prior to CIT's ownership; and other items described earlier, such as restructuring costs, even though the respective balance may not have been significant.

Table of Contents

Net Income and Income from Continuing Operations, Excluding Noteworthy Items (dollars in millions, except per share data)

	Description	Line Item	Pre-tax Balance	Income Tax ⁽²⁾	After-tax Balance	Per Share

7. Effective Tax Rate Reconciliation

The provision for income taxes before noteworthy items and tax discrete items and the respective effective tax rate are non-GAAP measures, which management uses for analytical purposes to understand the Company's underlying tax rate. Noteworthy items are presented in item 6 above, and discussed in various sections of the MD&A. The tax discrete items are discussed in the Income Tax section.

Effective Tax Rate Reconciliation - Noteworthy Items (dollars in millions)	Quarters Ended		Nine Months Ended	
	September 30,	June 30,	September 30,	September 30,

8.Regulatory

Included within this Form 10-Q are risk-weighted assets, risk-based capital and leverage ratios as calculated under Basel III capital guidelines. For banking industry regulatory reporting purposes, we report our capital in accordance with Transitional Requirements, but also monitor our capital based on a fully phased-in methodology. Such measures are considered key regulatory capital measures used by banking regulators, investors and analysts to assess the CIT (as a BHC) regulatory capital position and to compare that to other financial institutions. For information on our capital ratios and requirements, see Capital section.

Table of Contents

FORWARD-LOOKING STATEMENTS

Certain statements contained in this document are “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, as amended. All statements contained herein that are not clearly historical in nature are forward-looking and the words “anticipate,” “believe,” “could,” “expect,” “estimate,” “forecast,” “intend,” “plan,” “project,” “target” and similar expressions are generally intended to identify forward-looking statements. Any forward-looking statements contained herein, in press releases, written statements or other documents filed with the Securities and Exchange Commission or in communications and discussions with investors and analysts in the normal course of business through meetings, webcasts, phone calls and conference calls, concerning our operations, economic performance and financial condition are subject to known and unknown risks, uncertainties and contingencies. Forward-looking statements are included, for example, in the discussions about:

- our liquidity risk and capital management, including our capital plan, leverage, capital ratios, and credit ratings, our liquidity plan, and our plans and the potential transactions designed to enhance our liquidity and capital, to repay secured and unsecured debt, to issue qualifying capital instruments, including Tier 1 qualifying preferred stock, and for a return of capital,
- our plans to change our funding mix, to access new sources of funding, and to broaden our use of deposit taking capabilities, including increasing our level of commercial deposits and expanding our treasury management services,
 - our pending or potential acquisition and disposition plans, and the integration and restructuring risks inherent in such acquisitions, including the sale of our Financial Freedom reverse mortgage servicing business and NACCO, our European railcar leasing business, and our proposed sale of our Business Air loan portfolio,
- our credit risk management and credit quality,
- our asset/liability risk management,
- our funding, borrowing costs and net finance revenue,
- our operational risks, including risk of operational errors, failure of operational controls, success of systems enhancements and expansion of risk management and control functions,
- our mix of portfolio asset classes, including changes resulting from growth initiatives, new business initiatives, new products, acquisitions and divestitures, new business and customer retention,
- our legal risks, including the enforceability of our agreements, the impact of legal proceedings, and the impact of changes in laws and regulations,
- our growth rates, and
- our commitments to extend credit or purchase equipment.

All forward-looking statements involve risks and uncertainties, many of which are beyond our control, which may cause actual results, performance or achievements to differ materially from anticipated results, performance or achievements expressed or implied in these statements. Forward-looking statements are based upon management’s estimates of fair values and of future costs, using currently available information. Factors, in addition to those disclosed in “Risk Factors”, that could cause such differences include, but are not limited to:

- risks inherent in deposit funding, including reducing reliance on brokered deposits, increasing commercial deposits and retail non-maturity accounts, and expanding treasury management services,
- risks inherent in capital markets, including liquidity, changes in market interest rates and quality spreads, and our access to secured and unsecured debt and asset-backed securitization markets,
- risks inherent in a return of capital, including risks related to obtaining regulatory approval, the nature and allocation among different methods of returning capital, and the amount and timing of any capital return,
-

risks of actual or perceived economic slowdown, downturn or recession, including slowdown in customer demand for credit or increases in non-accrual loans or default rates,

• industry cycles and trends, including in oil and gas, power and energy, telecommunications, information technology, and commercial and residential real estate.

• uncertainties associated with risk management, including evaluating credit, adequacy of reserves for credit losses, prepayment risk, asset/liability risk, interest rate and currency risks, and cybersecurity risks,

• risks of implementing new processes, procedures, and systems,

• risks associated with the value and recoverability of leased equipment and related lease residual values, including railcars, telecommunications towers, technology and office equipment, information technology equipment, including data centers, and large and small industrial, medical, and transportation equipment,

• risks of failing to achieve the projected revenue growth from new business initiatives or the projected expense reductions from efficiency improvements,

• application of goodwill accounting or fair value accounting in volatile markets,

• regulatory changes and developments, including changes in laws or regulations governing our business and operations, or affecting our assets, including our operating lease equipment or changes in the regulatory environment, whether due to events or factors specific to CIT, or other large multi-national or regional banks, or the industry in general,

• risks associated with dispositions of businesses or asset portfolios, including how to replace the income associated with such businesses or asset portfolios and the risk of residual liabilities from such businesses or portfolios,

• risks associated with acquisitions of businesses or asset portfolios, including integrating and reducing duplication in personnel, policies, internal controls, and systems.

Any or all of our forward-looking statements here or in other publications may turn out to be wrong, and there are no guarantees regarding our performance. We do not assume any obligation to update any forward-looking statement for any reason.

Table of Contents

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision of and with the participation of management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities and Exchange Act of 1934, as amended (the “Exchange Act”) as of September 30, 2018. Based on such evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part Two — Other Information

Item 1. Legal Proceedings

CIT is currently involved, and from time to time in the future may be involved, in a number of judicial, regulatory, and arbitration proceedings relating to matters that arise in connection with the conduct of its business (collectively, “Litigation”), certain of which Litigation matters are described in Note 12 — Contingencies. In view of the inherent difficulty of predicting the outcome of Litigation matters, particularly when such matters are in their early stages or where the claimants seek indeterminate damages, CIT cannot state with confidence what the eventual outcome of the pending Litigation will be, what the timing of the ultimate resolution of these matters will be, or what the eventual loss, fines, or penalties related to each pending matter may be, if any. In accordance with applicable accounting guidance, CIT establishes reserves for Litigation when those matters present loss contingencies as to which it is both probable that a loss will occur and the amount of such loss can be reasonably estimated. Based on currently available information, CIT believes that the results of Litigation that is currently pending, taken together, will not have a material adverse effect on the Company’s financial condition, but may be material to the Company’s operating results or cash flows for any particular period, depending in part on its operating results for that period. The actual results of resolving such matters may be substantially higher than the amounts reserved.

For more information about pending legal proceedings, including an estimate of certain reasonably possible losses in excess of reserved amounts, see Note 12 — Contingencies.

Item 1A. Risk Factors

Risk factors remain unchanged during the quarter. For a discussion of risk factors, see Part I, Item 1A. Risk Factors, of CIT’s 2017 Form 10-K, and Forward-Looking Statements of this Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were approximately 5.5 million shares of the Company’s common stock repurchased through open market repurchases during the quarter ended September 30, 2018 as shown in the following table:

Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part	Maximum Number of Shares that May Yet
---	---------------------------------------	--	--

			of Publicly Announced Plans or Programs	be Purchased Under the Plans or Programs
July 1 - 31, 2018	2,844,700	\$ 52.14	2,844,700	—
August 1 - 31, 2018	1,384,500	\$ 53.91	1,384,500	—
September 1 - 30, 2018	1,268,260	\$ 53.54	1,268,260	—
Total Purchases	5,497,460			

On June 28, 2018, CIT announced that the Board of Directors approved a common equity capital return of up to \$750 million, beginning July 1, 2018 and to be completed by June 30, 2019. As of September 30, 2018, \$459 million remained available for return. See the Capital section for further discussion of share repurchases in October.
