PROSPECTUS SUMMARY

Business Overview

Genius Brands International, Inc. (“we”, “us”, “our”, or the “Company”) is a global content and brand management company that creates and licenses multimedia content. Led by industry veterans, the Company distributes its content in all formats as well as a broad range of consumer products based on its characters. In the children's media sector, the Company's portfolio features “content with a purpose” for toddlers to tweens, which provides enrichment as well as entertainment including the award-winning *Baby Genius*; new preschool property *Rainbow Rangers*; preschool property debuting on Netflix *Llama Llama*; tween music-driven brand *SpacePop*; adventure comedy *Thomas Edison's Secret Lab*® available on public broadcast stations and the Company's Kid Genius Carton Channel on Comcast's Xfinity on Demand, Roku, AppleTV, and Amazon Prime; Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett. The Company is also co-producing an all-new adult-themed animated series, *Stan Lee's Cosmic Crusaders*, with Stan Lee's Pow! Entertainment and *The Hollywood Reporter*.

In addition, the Company acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include *Llama Llama* and Celescence Technologies.

The Company commenced operations in January 2006, assuming all the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC,

its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On November 4, 2016, the Company filed a certificate to change its Articles of Incorporation to effect a reverse split on a one-for-three basis (the “2016 Reverse Split”). The 2016 Reverse Split became effective on November 9, 2016. All common stock (“Common Stock”) share and per share information in this Quarterly Report on Form S-1 (“Form S-1”), including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the 2016 Reverse Split, unless otherwise indicated.

Our Products

Original Content

We own and produce original content that is meant to entertain and enrich toddlers to tweens as well as families. It is generally a three-year cycle from the inception of an idea, through production of the content and development and distribution of a range of consumer products to retail, creating an inevitable lag time between the creation of the intellectual property to the realization of economic benefit of those assets. Our goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. Our portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories. Our portfolio of original content includes:

Content in Production

Llama Llama: We are currently in production on fifteen half-hour animated episodes to premiere on Netflix in early 2018. *Llama Llama*’s creators include Oscar-winning director Rob Minkoff (*The Lion King*), director Saul Blinkoff (*Doc McStuffins*), showrunner Joe Purdy, art director Ruben Aquino (*Frozen*) and Emmy-winning producers Jane Startz and Andy Heyward. Based on the *NY Times* #1 best-selling children’s books of the same name, the animated series centers on young Llama Llama’s first steps in growing up and facing childhood milestones. Each episode will be structured around a childhood milestone coupled with a life lesson learned by Llama Llama and his friends, told with a sense of humor, vitality, and understanding. The global licensing program was unveiled in June 2016 at the Licensing Expo held in Las Vegas.

Rainbow Rangers: From Shane Morris, the writer of *Frozen*, and Rob Minkoff, the director of *The Lion King*, *Rainbow Rangers* is an animated series about the adventures of seven magical girls from Kaleidoscopia, a fantastic land on the other side of the rainbow. The Rangers serve as Earth's guardians and first-responders. When there's trouble for the people or animals of the Earth, the Rangers ride a rainbow across the sky to save the day. We have partnered with Mattel Inc.'s Fisher Price Toys as the master toy partner for the new series, and Viacom's Nick Jr. has licensed the series for broadcast in the US. International broadcast agreements are currently being negotiated in numerous territories.

Content in Development

Stan Lee's Cosmic Crusaders: *Stan Lee's Cosmic Crusaders* is a co-production between us, Stan Lee's POW! With 52 eleven-minute episodes greenlit for production, the first four episodes premiered exclusively on THR.com with one episode that aired during Comic-Con International 2016. *Stan Lee's Cosmic Crusaders* is the first series to launch on THR.com and will be promoted through *The Hollywood Reporter's* YouTube channel, Facebook, Twitter and Instagram pages.

Licensed Content

Augmenting our original content, we act as an agent for established brands which attempts to maximize our existing infrastructure while creating incremental sources of revenue for us without additional overhead. These brands include *Llama Llama* and Celescence Technologies, a microencapsulation technology that releases fragrance and is used to scent products.

Kid Genius Cartoon Channel

In April 2015, we partnered with Comcast to launch the new Kid Genius Cartoon Channel on Xfinity on Demand. With Xfinity, Kid Genius Cartoon Channel is currently in over 22 million homes. In November 2016, we partnered with a leading kids' app distributor adding Over-The-Top ("OTT") distribution expanding the channel onto platforms such as Roku, Apple TV, Amazon Fire and Google thus reaching an additional 40 million homes. Our plans are to continue this roll-out into 2017 adding additional reach with the goal of being in over 80 million homes. Kid Genius Cartoon Channel combines the powerful value of owning a channel in its own right with the ability to promote our brands and products. In September 2017, we announced that we had partnered with Amazon Prime to launch Kid Genius Cartoon Channel Plus, a subscription video on demand channel available to the approximately 80 million subscribers to Amazon Prime for \$3.99 per month.

Distribution

Content

Today's global marketplace and the manner in which content is consumed has evolved to a point where we believe there is only one viable strategy, ubiquity. Kids today expect to be able to watch what they want whenever they want and wherever they want. They, the kids, are their own programmers and therefore as content creators we now must offer direct access on multiple fronts. This includes digital distribution as well as linear broadcast. We, through our partnership with Comcast's Xfinity platform, launched the all-digital on demand network Kid Genius Cartoon Channel. Originally debuting in approximately 22 million households via Comcast, the reach of the Kid Genius Cartoon Channel and therefore all of the Genius Brands content expanded in November 2016 to approximately 40 million households through a distribution deal that brought Kid Genius Cartoon Channel into homes via AppleTV, Roku, Samsung TV, and Amazon Fire. In these homes, Genius Brands programs are always available to kids when they want it. Genius Brands also distributes its content via leading digital providers such as Netflix and Amazon giving additional instant availability to consumers of its shows. In September 2017, we announced that we had partnered with Amazon Prime to launch Kid Genius Cartoon Channel Plus, a subscription video on demand channel available to the approximately 80 million subscribers to Amazon Prime for \$3.99 per month.

We also have strong ties to and actively solicit placement for our content from the largest linear broadcasters such as Nickelodeon, The Disney Channel, Cartoon Network, Sprout, and PBS. Finally, we are a preferred partner of YouTube having successfully launched an original series with YouTube in May 2016 and making YouTube a focal point of the distribution of some of our shows. We replicate this model of ubiquity around the world defining content distribution strategies by market that blends the best of linear, VOD, and digital distribution.

Finally, we expanded our long term strategic partnership with Sony Pictures Home Entertainment from domestic to a global partnership in January 2017.

Consumer Products

A source of our revenue is our licensing and merchandising activities from our underlying intellectual property content. We work directly licensing properties to a variety of manufacturers, wholesalers, and retailers. We currently have across all brands in excess of 50 licensees and hundreds of licensed products in the market. Products bearing our marks can be found in a wide variety of retail distribution outlets reaching consumers in over 10,000 retail doors. Our licensees sell to best-in-class retailers including Wal Mart, Target, Claire's, Kohl's, Best Buy, Hudson News, Barnes & Noble, Amazon.com and many more. We often negotiate dedicated retail space on a direct basis with retailers that will

include branded signage to give our brands prominence and clear communication with the consumer. License agreements that we enter into often include financial guarantees and commitments from the manufacturers guaranteeing a minimum stream of revenue for us. As licensed merchandise is sold at retail, these advances and/or minimum guarantees are paid out, and we then earn additional revenue.

Marketing

We believe that generating awareness and consumer interest in our brands requires a dedicated 360-degree approach to marketing which we regularly deploy. Beyond the content creation and achieving distribution, consumers must become engaged with the content in all aspects of their lives. Successful marketing campaigns for our brands have included utilizing influencers (individuals with a strong, existing social media presence who drive awareness of our brands to their followers) and influencer marketing, participating in fast casual restaurant promotions, on-pack promotions with leading consumer packaged goods companies, and national live events at theme parks with companies like Six Flags. We also deploy digital and print advertising to support the brands. Finally, we work with a leading PR agency to promote our efforts to both consumer and trade. We regularly initiate grass roots marketing campaigns and strategic partnerships with brands that align and offer value to us.

Competition

We compete against other creators of children's content including Disney, Nickelodeon, Cartoon Network, and Sesame Street as well as other small and large creators. In the crowded children's entertainment space, we compete with these other creators for both content distribution across linear, VOD, and digital platforms as well as retail shelf space for our licensed products. To compete, we are focused on our strategic positioning of "content with a purpose" which we believe is a point of differentiation embraced by the industry, as well as parents and educators. Additionally, the Kid Genius Cartoon Channel and Kid Genius Cartoon Channel Plus enables us to increase the awareness of our brands through an owned platform.

Customers and Licensees

Our business is not reliant on one or a few major customers. As of December 31, 2016, we had partnered with over 50 consumer products licensees going to market with over 500 stock keeping units (“SKU”). As of the same date, we licensed our content to over 20 broadcasters in nearly 90 territories globally as well as a number of VOD and online platforms that have a global reach. This broad cross-section of customers includes companies such as Comcast, Netflix, Sony, YouTube, Mattel, Target, Kohls, Claire’s, Penguin Publishing, Manhattan Toys, Roku, Apple TV, Amazon, Google, Bertelsmann Music Group, Discovery International, and others both domestically and internationally. In 2016, approximately 19% of our revenue was attributable to the recognition of revenues earned from one customer that paid advances in 2013 and 2014 for the administration of certain music publishing right on our behalf.

Government Regulation

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). We are subject to online distribution regulations, namely the FTC’s Children’s Online Privacy Protection Act (COPPA) which regulates the collection of information of children younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to some of our customers is provided by third parties without recourse to us based upon a customer’s failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the “CPSC”) to protect the public from products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some states and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites which include our corporate website located at www.gnusbrands.com, as well as www.spacepopgirls.com, www.kidgeniustv.com, www.babygenius.com, www.smckids.com, www.slam7.com, and www.edisonsecretlab.com. These websites are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws related to children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, we are not significantly impacted by federal, state and local environmental laws and do not have significant costs associated with compliance with such laws and regulations.

Employees

As of September 30, 2017 we had 18 full-time equivalent employees and an additional seven temporary or contracted part-time or full-time equivalents in certain functions, such as legal, accounting and production management. We employ on an outsourced, as-needed basis, contractors in the fields of investor relations, public relations and production.

Intellectual Property

As of December 31, 2016, we own the following properties and related trademarks: *Secret Millionaires Club*, *Thomas Edison's Secret Lab*, "Baby Genius", "Kid Genius", "Wee Worship", "A Squared," "Kaflooy," and "Ready, Play, Learn" as well as several other names and trademarks on characters that had been developed for our content and brands. Additionally, we have trademark applications pending for *Rainbow Rangers* and *SpacePop*.

As of December 31, 2016, we hold 12 registered trademarks in multiple classes in the United States as well as additional trademarks in the United States that are associated with our other brands. We also have a number of registered and pending trademarks in Europe and other countries in which our products are sold.

As of December 31, 2016, we also held 96 motion picture, 13 sound recording and one literary work copyrights related to our video, music and written work products.

We have a two-third ownership interest in Stan Lee Comics, LLC which owns the publishing brand *Stan Lee Comics* and all properties produced therein. Stan Lee Comics, LLC is a joint venture with Stan Lee's POW! Entertainment. Stan Lee Comics, LLC is the owner of the *Stan Lee's Mighty 7* and the *Stan Lee's Cosmic Crusaders* properties.

We have 50/50 ownership agreements with the following partners and their related brands: Martha Stewart's *Martha & Friends*; and Gisele Bündchen's *Gisele & the Green Team*.

In addition to the wholly-owned or partially-owned properties listed above, we have agreements with certain intellectual property owners to represent their content as a licensing agent. We act as a licensing agent for the following established brands: *Llama Llama* and Celescence Technologies.

Company Information

We were incorporated in California on January 3, 2006 and reincorporated in Nevada in October 2011. We commenced operations in January 2006, assuming all of the rights and obligations of our then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands "Baby Genius," "Kid Genius," "123 Favorite Music" and "Wee Worship," and all then existing productions under those titles. In October 2011, we (i) changed our domicile to Nevada from California, and (ii) changed our name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the "Reincorporation"). In connection with the Reincorporation, we changed our trading symbol from "PENT" to "GNUS."

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the "Merger Agreement") with A Squared Entertainment LLC, a Delaware limited liability company ("A Squared"), A Squared Holdings LLC, a California limited liability company and the sole member of A Squared (the "Parent Member"), and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary ("Acquisition Sub"). Upon closing of the transactions

contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became our wholly-owned subsidiary. As a result of the Merger, we acquired the business and operations of A Squared.

Our principal executive offices are located at 301 North Canon Drive, Suite 305, Beverly Hills, California 90210. Our telephone number is 310-273-4222. We maintain an Internet website at www.gnusbrands.com. The information contained on, connected to or that can be accessed via our website is not part of this prospectus. We have included our website address in this prospectus as an inactive textual reference only and not as an active hyperlink.

These risks include, but are not limited to, the following:

- We have a history of net losses and our future profitability is uncertain.

- We may be required to raise additional funds to finance our operations; we may not be able to do so when necessary, and/or the terms of any financings may not be advantageous to us.

- If we lose key personnel or are unable to attract and retain necessary talent, we may be unable to continue to grow and develop our business profitably.

- Third parties may claim that we infringe their intellectual property, and we could suffer significant litigation or licensing expense as a result.

- Raising additional funds may cause dilution to our existing stockholders, restrict our operations or require us to relinquish rights to our technologies.

Trading volume in our stock is low and an active trading market for our common stock may not be available on a consistent basis to provide stockholders with adequate liquidity. Our stock price may be extremely volatile, and our stockholders could lose a significant part of their investment.

Concentration of ownership among our existing officers, directors and principal stockholders may prevent other stockholders from influencing significant corporate decisions and depress our stock price.

The number of shares of common stock that will be outstanding after this offering is based on 7,610,794 shares outstanding as of November 14, 2017, plus 1,647,691 shares issuable upon exercise of warrants issued pursuant to the Purchase Agreement (which warrants are exercisable at an exercise price of \$3.90 per share), and excludes:

- 1,176,667 shares of Common Stock issuable upon conversion of 3,530 shares of Series A Convertible Preferred Stock at a conversion price of \$3.00;
- 1,303,215 shares of Common Stock issuable upon exercise of outstanding stock options to purchase our Common Stock at a weighted average exercise price of \$8.14 per share;
- 363,452 shares of Common Stock reserved for future issuance under our 2015 Incentive Plan and 2015 Amended Incentive Plan; and
- 1,766,698 shares of Common Stock issuable upon the exercise of outstanding warrants at a weighted average exercise price of \$4.03.

RISK FACTORS

An investment in shares of our common stock involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information appearing elsewhere in this prospectus, including our financial statements and related notes thereto, before deciding to invest in our common stock. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition, results of operations and future growth prospects. In these circumstances, the market price of our common stock could decline, and you may lose all or part of your investment. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosure we make in our reports filed with the Securities and Exchange Commission.

RISKS RELATING TO OUR BUSINESS

We have incurred net losses since inception.

We have a history of operating losses and incurred net losses in each fiscal quarter since our inception. For the three months ended September 30, 2017, we generated net revenues of \$256,501 and incurred a net loss of \$1,164,406, while for the three months ended September 30, 2016, we generated net revenue of \$120,486 and incurred a net loss of \$1,530,900. For the nine months ended September 30, 2017, we generated net revenues of \$650,723 and incurred a net loss of \$3,732,183, while for the nine months ended September 30, 2016, we generated net revenue of \$648,711 and incurred a net loss of \$4,363,567. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders' equity, net current assets and working capital.

We will need to generate additional revenue to achieve profitability. We are beginning to generate revenues derived from our existing properties, properties in production, new brands being introduced into the marketplace, and incremental revenue derived from the licensing business we manage on behalf of our clients. However, the ability to sustain these revenues and generate significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of our control.

We will need additional financing to continue our operations. If we are unable to obtain additional financing on acceptable terms, we will need to curtail or cease our development plans and operations.

As of September 30, 2017, we had approximately \$3,247,402 of available cash, cash equivalents, and restricted cash. Additional funds may be required to fund operations which could be raised through the issuance of equity securities and/or debt financing. There being no assurance that any type of financing on terms acceptable to us will be available or otherwise occur. Debt financing must be repaid regardless of whether we generate revenues or cash flows from operations and may be secured by substantially all of our assets. Any equity financing or debt financing that requires the issuance of warrants or other equity securities to the lender would cause the percentage ownership by our current stockholders to be diluted, which dilution may be substantial. Also, any additional equity securities issued may have rights, preferences or privileges senior to those of existing stockholders. Any equity financing at a price below the then current conversion price of our Series A Convertible Preferred Stock will result in an adjustment to the conversion ratio, applicable to such securities, resulting in the issuance of additional shares of our Common Stock upon the conversion of our Series A Convertible Preferred Stock, which would further dilute our other stockholders.

If we are not able to obtain sufficient capital, we may then be forced to limit the scope of our operations.

We expect that as our business continues to grow we will need additional working capital. If adequate additional debt and/or equity financing is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors could have a material adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we could be forced to cease our activities and dissolve our company. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our revenues and results of operations may fluctuate from period to period.

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until the animated content and ancillary consumer products are in the market and could fluctuate thereafter even when the content and products are in the marketplace. There is significant lead time in developing and producing animated content before that content is in the marketplace. Unanticipated delays in entertainment production can delay the release of the content into the marketplace. Structured retail windows that dictate when new products can be introduced at retail are also out of our control. While we believe that we have mitigated this in part by creating a slate of properties at various stages of development or production as well as representing certain established brands which contribute immediately to cash flow, any delays in the production and release of our content and products or any changes in the preferences of our customers could result in lower than anticipated cash flows.

As with our cash flows, our revenues and results of operations depend significantly upon the appeal of our content to our customers, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate from period to period. The results of one period may not be indicative of the results of any future period. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our Common Stock to fluctuate.

Production cost will be amortized according to the individual film forecasting methodology. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue, we would be required to adjust amortization of related production costs. These adjustments would adversely impact our business, operating results and financial condition.

Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of our products. In addition, an increase in price levels generally, or in price levels in a particular sector, could result in a shift in consumer demand away from the animated content and consumer products we offer, which could also decrease our revenues, increase our costs, or both.

Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.

While trends in the toddler to tween sector change quickly, we respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an on-going basis. However, we operate in extremely competitive industries where the ultimate appeal and popularity of content and products targeted to this sector can be difficult to predict. We believe our focus on “content with a purpose” serves an underrepresented area of the toddler to tween market; however, if the interest of our audience trends away from our current properties toward other offerings based on current media, movies, animated content or characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

We face competition from a variety of retailers that sell similar merchandise and have better resources than we do.

The industries in which we operate are competitive, and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. Indirectly through our licensing arrangements, we compete for retailers as well as other outlets for the sale and promotion of our licensed merchandise. Our primary competition comes from competitors such as The Walt Disney Company, Nickelodeon Studios, and the Cartoon Network.

We have sought a competitive advantage by providing “content with a purpose” which are both entertaining and enriching for children and offer differentiated value that parents seek in making purchasing decisions for their children. While we do not believe that this value proposition is specifically offered by our competitors, our competitors have greater financial resources and more developed marketing channels than we do which could impact our ability, through our licensees, to secure shelf space thereby decreasing our revenues or affecting our profitability and results of operations.

The production of our animated content is accomplished through third-party production and animation studios around the world, and any failure of these third-parties could negatively impact our business.

As part of our business model to manage cash flows, we have partnered with a number of third-party production and animation studios around the world for the production of our new content in which these partners fund the production of the content in exchange for a portion of revenues generated in certain territories. We are reliant on our partners to produce and deliver the content on a timely basis meeting the predetermined specifications for that product. The delivery of inferior content could result in additional expenditures by us to correct any problems to ensure marketability. Further, delays in the delivery of the finished content to us could result in our failure to deliver the product to broadcasters to which it has been pre-licensed. While we believe we have mitigated this risk by aligning the economic interests of our partners with ours and managing the production process remotely on a daily basis, any failures or delays from our production partners could negatively affect our profitability.

If we fail to honor our obligations under the terms of our third-party supplier or loan agreements, our business may be adversely affected.

On January 10, 2017, we entered into an amendment of our home entertainment Distribution Agreement with Sony pursuant to which, among other things, Sony agreed to pay \$1,489,583 which was owed and payable by us to DADC for certain disk manufacturing and replication services, thereby terminating the agreement with DADC.

In connection with such transaction, we (i) granted Sony home entertainment rights in territories worldwide in addition to the United States and Canada and (ii) issued Sony 301,231 shares of our Common Stock at \$4.945 per share, Sony's exclusive territory for exercising its home entertainment distribution rights under the distribution agreement was extended from the United States and Canada to worldwide, and the amount of advances subject to recoupment by Sony out of royalty payments that would otherwise be due to us under the Distribution Agreement was increased by the amount of the payment to DADC. Future cash flow from the distributed products under the distribution agreement, if any, will be impacted by the additional recoupment obligation and additional rights granted. In connection with the above issuance of our shares, we entered into a subscription agreement with Sony, effective as of January 17, 2017.

Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our licensees do not

successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

The failure of others to promote our products may adversely affect our business.

The availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our properties. In addition, although we may have agreements for the advertising and promotion of our products through our licensees, we will not be in direct control of those marketing efforts and those efforts may not be done in a manner that will maximize sales of our products and may have a material adverse effect on our business and operations.

We may not be able to keep pace with technological advances.

The entertainment industry in general, and the music and motion picture industries in particular, continue to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. As it is also impossible to predict the overall effect these factors could have on our ability to compete effectively in a changing market, if we are not able to keep pace with these technological advances, our revenues, profitability and results from operations may be materially adversely affected.

Failure in our information technology and storage systems could significantly disrupt the operation of our business.

Our ability to execute our business plan and maintain operations depends on the continued and uninterrupted performance of our information technology (“IT”) systems. IT systems are vulnerable to risks and damages from a variety of sources, including telecommunications or network failures, malicious human acts and natural disasters. Moreover, despite network security and back-up measures, some of our and our vendors’ servers are potentially vulnerable to physical or electronic break-ins, including cyber-attacks, computer viruses and similar disruptive problems. These events could lead to the unauthorized access, disclosure and use of non-public information. The techniques used by criminal elements to attack computer systems are sophisticated, change frequently and may originate from less regulated and remote areas of the world. As a result, we may not be able to address these techniques proactively or implement adequate preventative measures. If our computer systems are compromised, we could be subject to fines, damages, litigation and enforcement actions, and we could lose trade secrets, the occurrence of which could harm our business. Despite precautionary measures to prevent unanticipated problems that could affect our IT systems, sustained or repeated system failures that interrupt our ability to generate and maintain data could adversely affect our ability to operate our business.

Loss of key personnel may adversely affect our business.

Our success greatly depends on the performance of our executive management team, including Andy Heyward, our Chief Executive Officer. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition. The employment agreement of Stone Newman, our former President of Global Consumer Products, Worldwide Content Sales and Marketing, expired on July 14, 2017 and was not renewed.

Our management team currently owns a substantial interest in our voting stock.

As of September 30, 2017, our management team and Board of Directors beneficially own or control (including conversions, options or warrants exercisable or convertible within 60 days) a combined 1,838,159, or 28.2%, of our shares currently outstanding (including conversions, options or warrants exercisable or convertible within 60 days). Sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our Common Stock. Additionally, management has the ability to control any proposals submitted to shareholders, including corporate actions and board changes which may not be in accordance with the votes of other shareholders.

Litigation may harm our business or otherwise distract management.

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

Our vendors and licensees may be subject to various laws and government regulations, violation of which could subject these parties to sanctions which could lead to increased costs or the interruption of normal business operations that could negatively impact our financial condition and results of operations.

Our vendors and licensees may operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments may regulate aspects of their businesses, including the production or distribution of our content or products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we believe our vendors and licensees take all the steps necessary to comply with these laws and regulations, there can be no assurance that they are compliant or will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could increase our costs or decrease our revenue resulting in a negative impact on our business, financial condition and results of operations.

Protecting and defending against intellectual property claims may have a material adverse effect on our business.

Our ability to compete in the animated content and entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited, or no, practical protection in some jurisdictions. It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, although we own most of the music and intellectual property included in our products, there are some titles which the music or other elements are in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. If litigation is necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition.

RISKS RELATING TO OUR COMMON STOCK

Our stock price may be subject to substantial volatility, and stockholders may lose all or a substantial part of their investment.

Our Common Stock currently trades on the NASDAQ Capital Market. There is limited public float, and trading volume historically has been low and sporadic. As a result, the market price for our Common Stock may not necessarily be a reliable indicator of our fair market value. The price at which our Common Stock trades may fluctuate as a result of a number of factors, including the number of shares available for sale in the market, quarterly variations in our operating results, actual or anticipated announcements of new releases by us or competitors, the gain or loss of significant customers, changes in the estimates of our operating performance, market conditions in our industry and the economy as a whole.

If we fail to maintain effective internal controls over financial reporting, the price of our Common Stock may be adversely affected.

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our Common Stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer's independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing, and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our Common Stock.

We are authorized to issue “blank check” preferred stock without stockholder approval, which could adversely impact the rights of holders of our Common Stock.

Our Articles of Incorporation authorize us to issue up to 10,000,000 shares of blank check preferred stock. Any additional preferred stock that we issue in the future may rank ahead of our Common Stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our Common Stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of Common Stock, which could dilute the value of Common Stock to current stockholders and could adversely affect the market price, if any, of our Common Stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of our company. Although we have no present intention to issue any additional shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

We do not expect to pay dividends in the future and any return on investment may be limited to the value of our Common Stock.

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our Common Stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as our Board of Directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our Common Stock, and in any event, a decision to declare and pay dividends is at the sole discretion of our Board of Directors. If we do not pay dividends, our Common Stock may be less valuable because the return on investment will only occur if its stock price appreciates.

Our outstanding Series A Convertible Preferred Stock contains anti-dilution provisions that, if triggered, could cause substantial dilution to our then-existing Common Stock holders which could adversely affect our stock price.

Our outstanding Series A Convertible Preferred Stock contains anti-dilution provisions to benefit the holders thereof. As a result, if we, in the future, issue Common Stock or grant any rights to purchase our Common Stock or other securities convertible into our Common Stock for a per share price less than the then existing conversion price of the Series A Convertible Preferred Stock, an adjustment to the then current conversion price would occur. This reduction in the conversion price could result in substantial dilution to our then-existing common stockholders as well as give rise to a beneficial conversion feature reported on our statement of operations. Either or both of which could adversely affect the price of our Common Stock.

Offers or availability for sale of a substantial number of shares of our Common Stock may cause the price of our Common Stock to decline.

If our stockholders sell substantial amounts of our Common Stock in the public market upon the expiration of any statutory holding period under Rule 144, or shares issued upon the exercise of outstanding options or warrants, it could create a circumstance commonly referred to as an “overhang” and, in anticipation of which, the market price of our Common Stock could fall. The existence of an overhang, whether or not sales have occurred or are occurring, also could make more difficult our ability to raise additional financing through the sale of equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

In general, under Rule 144, a non-affiliated person who has held restricted shares of our Common Stock for a period of six months may sell into the market all of their shares, subject to us being current in our periodic reports filed with the Commission.

As of September 30, 2017, approximately 3,557,216 shares of Common Stock of the 5,938,103 shares of Common Stock issued and outstanding are free trading. Additionally, as of September 30, 2017, there are 1,201,667 shares of Common Stock underlying the Series A Convertible Preferred Stock that could be sold pursuant to Rule 144. As of the same date, there are 1,553,359 shares of Common Stock underlying outstanding warrants that could be sold pursuant to Rule 144 to the extent permitted by any applicable vesting requirements. Lastly, as of September 30, 2017, there are 1,303,215 shares of Common Stock underlying outstanding options granted and 363,452 shares reserved for issuance under our Genius Brands International, Inc. Amended 2015 Incentive Plan, all of which are unregistered but will become eligible for sale in the public market to the extent permitted by any applicable vesting requirements and Rule 144 under the Securities Act.

Concentration of ownership among our existing officers, directors and principal stockholders may prevent other stockholders from influencing significant corporate decisions and depress our stock price.

Based on the number of shares outstanding as of September 30, 2017, our officers, directors and stockholders who hold at least 5% of our stock beneficially own a combined total of approximately 58.7% of our outstanding common stock, including shares of common stock subject to preferred shares, stock options, and warrants that are currently convertible or exercisable or will be convertible or exercisable within 60 days after September 30, 2017. If these officers, directors, and principal stockholders or a group of our principal stockholders act together, they will be able to exert a significant degree of influence over our management and affairs and control matters requiring stockholder approval, including the election of directors and approval of mergers, business combinations or other significant transactions. The interests of one or more of these stockholders may not always coincide with our interests or the interests of other stockholders. For instance, officers, directors, and principal stockholders, acting together, could cause us to enter into transactions or agreements that we would not otherwise consider. Similarly, this concentration of ownership may have the effect of delaying or preventing a change in control of our company otherwise favored by our other stockholders.

Our management team will have immediate and broad discretion over the use of the net proceeds from this offering and we may use the net proceeds in ways with which you disagree.

The net proceeds from this offering will be immediately available to our management to use at their discretion. We currently intend to use the net proceeds as discussed under “Use of Proceeds” in this prospectus supplement. We have not allocated specific amounts of the net proceeds from this offering for any other purposes. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not result in a favorable, or any, return for us or our stockholders. The failure of our management to use such funds effectively could have a material adverse effect on our business, prospects, financial condition, and results of operation.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and any accompanying prospectus supplements contain or incorporate by reference forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Exchange Act.

In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. Additional risks also include those described herein and in our filings with the SEC.

You should read this prospectus and the documents that we have filed as exhibits to this prospectus completely and with the understanding that our actual future results may be materially different from what we expect. We do not assume any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of securities by the selling security holders pursuant to this prospectus. We may receive up to approximately \$6,425,995 in aggregate gross proceeds from cash exercises of the warrants, based on the per share exercise price of the warrants. Any proceeds we receive from the exercise of the warrants will be used for working capital and general corporate purposes.

We are registering the shares of common stock in order to permit the selling security holders to offer the shares for resale from time to time. Except for the ownership of the Warrants, the transactions contemplated pursuant to the Purchase Agreement, the selling security holders have not had any material relationship with us within the past three years.

The following table sets forth certain information with respect to each selling stockholder, including (i) the shares of our common stock beneficially owned by the selling stockholder prior to this offering, (ii) the number of shares being offered by the selling stockholder pursuant to this prospectus and (iii) the selling stockholder’s beneficial ownership after completion of this offering. The registration of the shares of common stock issuable to the selling stockholders upon the exercise of the warrants does not necessarily mean that the selling stockholders will sell all or any of such shares.

The table is based on information supplied to us by the selling stockholders, with beneficial ownership and percentage ownership determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to shares of stock. This information does not necessarily indicate beneficial ownership for any other purpose. In computing the number of shares beneficially owned by a selling stockholder and the percentage ownership of that selling stockholder, shares of common stock subject to warrants held by that selling stockholder that are exercisable within 60 days after November 15, 2017, are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. The percentage of beneficial ownership after this offering is based on 7,610,794 shares of Common Stock outstanding on November 14, 2017.

This prospectus covers the resale of 1,647,691 shares of our common stock that may be sold or otherwise disposed of by the selling stockholders. Such shares are issuable to the selling stockholders upon the exercise of the Warrants. The Warrants are exercisable at any time after the six month anniversary of their issuance and expire six years from their initial date of issuance. All of the Warrants have an exercise price of \$3.90 per share. See “Prospectus Summary—Offering of Common Stock and Concurrent Private Placement of Warrants” above for a complete description of the warrants. The selling security holders may sell all, some or none of their shares in this offering. See “Plan of Distribution.”

PLAN OF DISTRIBUTION

Each selling stockholder of the shares of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on the NASDAQ Capital Market or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A Selling Stockholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act of 1933, as amended (the “Securities Act”), if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the securities. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the Selling Stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for the Company to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

DESCRIPTION OF OUR CAPITAL STOCK

General

The following description of our common stock and preferred stock, together with the additional information we include in any applicable prospectus supplement or in any free writing prospectuses we have authorized for use in connection with a specific offering, summarizes some of the terms and provisions of the shares of our common stock and preferred stock that we may offer under this prospectus. These summary descriptions of our common stock and preferred stock are not meant to be complete descriptions of each security. For the complete terms of our common stock and preferred stock, please refer to our articles of incorporation, as may be amended from time to time, any certificates of designation for our preferred stock that may be authorized from time to time, and our bylaws, as amended from time to time. The Nevada Revised Statutes may also affect the terms of these securities. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer under this prospectus, we will describe the specific terms of any series of these securities in more detail in the applicable prospectus supplement. The applicable prospectus supplement for a particular offering of our common stock or preferred stock may specify different or additional terms.

Our authorized capital stock consists of 243,333,334 shares of capital stock, of which 233,333,334 are shares of common stock, par value \$0.001 per share, and 10,000,000 are shares of preferred stock, par value \$0.001.

Capital Stock Issued and Outstanding

As of November 14, 2017, we have issued and outstanding:

· 7,610,794 shares of common stock; and

· 3,530 shares of shares of Series A Convertible Preferred Stock which are convertible into 1,176,667 shares of common stock.

Common Stock

The holders of our common stock are entitled to one vote per share. In addition, the holders of our common stock will be entitled to receive ratably such dividends, if any, as may be declared by our Board of Directors out of legally available funds; however, the current policy of our Board of Directors is to retain earnings, if any, for operations and

growth. Upon liquidation, dissolution or winding-up, the holders of our common stock will be entitled to share ratably in all assets that are legally available for distribution. The holders of our common stock will have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock, which may be designated solely by action of our board of directors and issued in the future.

Preferred Stock

Our Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

Series A Convertible Preferred Stock

We have designated six thousand (6,000) shares of preferred stock as Series A Convertible Preferred Stock. Each share of Series A Preferred Stock is convertible into shares of our common stock based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event we issue shares of our common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. Any reduction in the conversion price could result in substantial dilution to our then-existing common stockholders as well as give rise to a beneficial conversion feature reported on our statement of operations.

Accordingly, in connection with the closing of the October 2015 Private Placement, the conversion price of the Series A Preferred Stock was reduced to \$3.00. We are prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the holder would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of our common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

Options

On December 29, 2008, we adopted the 2008 Stock Option Plan (the “2008 Plan”), which provides for the issuance of qualified and non-qualified stock options to officers, directors, employees and other qualified persons. The Plan is administered by the Board of Directors of the Company or a committee appointed by the Board of Directors. The number of shares of the Company’s common stock initially reserved for issuance under the Plan was 36,667. On September 2, 2011, the stockholders holding a majority of the Company’s outstanding common stock adopted an amendment to the 2008 Plan to increase the number of shares of common stock issuable under the plan to 166,667.

On September 18, 2015, the Company adopted the Genius Brands International, Inc. 2015 Incentive Plan (the “2015 Plan”). The 2015 Plan was approved by our stockholders in September 2015. The 2015 Plan as approved by the stockholders authorized the issuance up to an aggregate of 150,000 shares of common stock. On December 14, 2015, the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan by 1,293,334 from 150,000 shares to 1,443,334 shares. On May 18, 2017 the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan to 1,666,667 shares (the “Amended 2015 Incentive Plan”). The increase in shares available for issuance under the 2015 Plan was approved by stockholders on July 25, 2017. The 2015 Plan replaces the 2008 Plan with respect to grants made after approval of the 2015 Plan, and the Company will not make additional grants under the 2008 Plan after such date.

As of November 14, 2017, there are 1,303,215 options outstanding under the Amended 2015 Incentive Plan, and no options outstanding under the 2008 Plan.

Nevada Anti-Takeover Law and Certain Charter and Bylaw Provisions

Some features of the Nevada Revised Statutes, which are further described below, may have the effect of deterring third parties from making takeover bids for control of our company or may be used to hinder or delay a takeover bid. This would decrease the chance that our stockholders would realize a premium over market price for their shares of common stock as a result of a takeover bid.

Acquisition of Controlling Interest

The Nevada Revised Statutes contain provisions governing acquisition of a controlling interest of a Nevada corporation. These provisions provide generally that any person or entity that acquires a certain percentage of the outstanding voting shares of a Nevada corporation may be denied voting rights with respect to the acquired shares, unless the holders of a majority of the voting power of the corporation, excluding shares as to which any of such acquiring person or entity, an officer or a director of the corporation, or an employee of the corporation exercises voting rights, elect to restore such voting rights in whole or in part. These provisions apply whenever a person or entity acquires shares that, but for the operation of these provisions, would bring voting power of such person or entity in the election of directors within any of the following three ranges:

- 20% or more but less than 33 1/3%;
- 33 1/3% or more but less than or equal to 50%; or
- more than 50%.

The stockholders or board of directors of a corporation may elect to exempt the stock of the corporation from these provisions through adoption of a provision to that effect in the articles of incorporation or bylaws of the corporation. Our articles of incorporation and bylaws do not exempt our common stock from these provisions.

These provisions are applicable only to a Nevada corporation, which:

- has 200 or more stockholders of record, at least 100 of whom have addresses in Nevada appearing on the stock ledger of the corporation; and
- does business in Nevada directly or through an affiliated corporation.

On November 20, 2013, we amended our bylaws to provide that the provisions of NRS 78.378 and 78.3793 (“Acquisition of a Controlling Interest”) shall not apply to the Company or to any acquisition of a controlling interest in the Company by any existing or future stockholder.

Combination with Interested Stockholder

The Nevada Revised Statutes contain provisions governing combination of a Nevada corporation that has 200 or more stockholders of record with an interested stockholder. As of November 14, 2017, we had 249 stockholders of record, not including persons or entities that hold our stock in nominee or “street name” through various brokerage firms.

A corporation affected by these provisions may not engage in a combination within two years after the interested stockholder first became an interested stockholder, unless either (i) the combination or transaction by which the interested stockholder first became an interested stockholder is approved by the board of directors before the interested stockholder first became an interested stockholder, or (ii) the combination is approved by the board of directors and by the affirmative vote of the corporation’s stockholders representing at least 60% of the outstanding voting power of the corporation not beneficially owned by the interested stockholder or the interested stockholder’s affiliates. Generally, if approval is not obtained, then after the expiration of the two-year period, the business combination may be consummated with the approval of the board of directors of the combination or transaction by which the interested stockholder first became an interested stockholder before the person became an interested stockholder, or a majority of the voting power held by disinterested stockholders, or if the consideration to be received per share by disinterested stockholders is at least equal to the highest of:

- the highest price per share paid by the interested stockholder within the two years immediately preceding the date of the announcement of the combination or within two years immediately before, or in the transaction in which he, she or it became an interested stockholder, whichever is higher;
- the market value per share on the date of announcement of the combination or the date the person became an interested stockholder, whichever is higher; or
- if higher for the holders of preferred stock, the highest liquidation value of the preferred stock, if any.

Generally, these provisions define an interested stockholder as a person who is the beneficial owner, directly or indirectly, of 10% or more of the voting power of the outstanding voting shares of a corporation. Generally, these provisions define combination to include any merger or consolidation with an interested stockholder, or any sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions, with an interested stockholder of assets of the corporation having:

- an aggregate market value equal to 5% or more of the aggregate market value of the assets of the corporation;
- an aggregate market value equal to 5% or more of the aggregate market value of all outstanding shares of the corporation; or
- representing 10% or more of the earning power or net income of the corporation.

Articles of Incorporation and Bylaws

Pursuant to our Articles of Incorporation, the existence of authorized but unissued common stock and undesignated preferred stock may enable our board of directors to make more difficult or to discourage an attempt to obtain control of our Company by means of a merger, tender offer, proxy contest or otherwise, and thereby to protect the continuity of management. If, in the due exercise of its fiduciary obligations, the board of directors were to determine that a takeover proposal was not in our best interest, such shares could be issued by the board of directors without stockholder approval in one or more transactions that might prevent or render more difficult or costly the completion of the takeover transaction by diluting the voting or other rights of the proposed acquirer or insurgent stockholder group, by putting a substantial voting block in institutional or other hands that might undertake to support the position of the incumbent board of directors, by effecting an acquisition that might complicate or preclude the takeover, or otherwise.

In addition, our Articles of Incorporation grants our board of directors broad power to establish the rights and preferences of authorized and unissued shares of preferred stock. The issuance of shares of preferred stock could decrease the amount of earnings and assets available for distribution to holders of shares of common stock. The issuance also may adversely affect the rights and powers, including voting rights, of those holders and may have the effect of delaying, deterring or preventing a change in control of our Company.

Item 14. Indemnification of Directors and Officers.

The Nevada Revised Statutes provide that:

a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he or she acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful;

a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and

reasonably incurred by him or her in connection with the defense or settlement of the action or suit if he or she acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation. Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper; and

to the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding, or in defense of any claim, issue or matter therein, the corporation must indemnify him or her against expenses, including attorneys' fees, actually and reasonably incurred by him or her in connection with the defense.

The Nevada Revised Statutes provide that we may make any discretionary indemnification only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made:

·by our stockholders;

·by our board of directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding;

II-1

if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion;

if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion; or

by court order.

Our bylaws provide that our company shall indemnify each director, officer, and employee of our company, (i) against all the expenses (including attorneys' fees, court costs and expert witness fees), judgments, decrees and fines actually paid in settlement in connection with any action, suit or proceeding, provided that the Board shall first have determined, in its sole judgment, that the person acted in good faith and in a manner that he or she reasonably believed to be in the best interests of the company. Our bylaws also provide that our company may, in its discretion, pay the expenses (including attorneys' fees) incurred in defending proceeding civil action, suit or proceeding in advance of its final disposition, provided, however, that the payment of expenses incurred by a director or officer in advance of the final disposition of the proceeding shall be made only upon receipt of an undertaking by the director or officer to repay all amounts advanced if it should be ultimately determined that the director or officer is not entitled to be indemnified under the bylaws.

See Exhibit Index following the signature page to this Registration Statement.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
