PROSPECTUS SUMMARY

This summary highlights some information from this prospectus. It may not contain all the information important to making an investment decision. You should read the following summary together with the more detailed information regarding our Company and the securities being sold in this offering, including “Risk Factors” and other information incorporated by reference herein.

Business Overview

Genius Brands International, Inc. (“we”, “us”, “our”, or the “Company”) is a global content and brand management company that creates and licenses multimedia content. Led by industry veterans, we distribute our content in all formats as well as a broad range of consumer products based on its characters. In the children's media sector, our portfolio features “content with a purpose” for toddlers to tweens, which provides enrichment as well as entertainment including the award-winning *Baby Genius*; new preschool property *Rainbow Rangers*, debuting November 5, 2018 on Nickelodeon; preschool property *Llama Llama* that debuted on Netflix in December 2017 and has already been picked up by Netflix for a second season; tween music-driven brand *SpacePop*; adventure comedy *Thomas Edison's Secret Lab*® available on public broadcast stations and our Genius Brands Network on Comcast's Xfinity on Demand, Roku, AppleTV, Amazon Fire, YouTube and Amazon Prime; Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett. We also have a partnership with Stan Lee's Pow! Entertainment for which we manage creation, production, licensing and management of original Stan Lee superhero programs.

In addition, we act as licensing agent for Llama Llama, leveraging our existing licensing infrastructure to expand this brand into new product categories, new retailers, and new territories

We were incorporated in California on January 3, 2006 and reincorporated in Nevada in October 2011. We commenced operations in January 2006, assuming all of the rights and obligations of our then Chief Executive Officer, under an Asset Purchase Agreement between us and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, we (i) changed our domicile to Nevada from California, and (ii) changed our name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, we changed our trading symbol from “PENT” to “GNUS.”

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and the sole member of A Squared (the “Parent Member”), and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions

contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became our wholly-owned subsidiary. As a result of the Merger, we acquired the business and operations of A Squared.

Our principal executive offices are located at 301 North Canon Drive, Suite 305, Beverly Hills, California 90210. Our telephone number is 310-273-4222. We maintain an Internet website at www.gnusbrands.com. The information contained on, connected to or that can be accessed via our website is not part of this prospectus. We have included our website address in this prospectus as an inactive textual reference only and not as an active hyperlink.

Summary of Risk Factors

Our business is subject to a number of risks and uncertainties that you should understand before making an investment decision. As of March 31, 2018, we had an accumulated deficit of \$42,641,849. Additional risks are discussed more fully in the section entitled “Risk Factors” following this prospectus summary. These risks include, but are not limited to, the following:

- We have a history of net losses and our future profitability is uncertain.

- We may be required to raise additional funds to finance our operations; we may not be able to do so when necessary, and/or the terms of any financings may not be advantageous to us.

- If we lose key personnel or are unable to attract and retain necessary talent, we may be unable to continue to grow and develop our business profitably.

Third parties may claim that we infringe their intellectual property, and we could suffer significant litigation or licensing expense as a result.

Raising additional funds may cause dilution to our existing stockholders, restrict our operations or require us to relinquish rights to our technologies.

Trading volume in our stock is low and an active trading market for our common stock may not be available on a consistent basis to provide stockholders with adequate liquidity. Our stock price may be extremely volatile, and our stockholders could lose a significant part of their investment.

Concentration of ownership among our existing officers, directors and principal stockholders may prevent other stockholders from influencing significant corporate decisions and depress our stock price.

Offering of Common Stock and Concurrent Private Placement of Warrants

On October 3, 2017, we entered into a Securities Purchase Agreement (the “Purchase Agreement”) with certain investors named therein (the “Investors”), pursuant to which we agreed to issue and sell, in a registered direct offering directly to the Investors (the “Registered Offering”), an aggregate of 1,647,691 shares (the “Shares”) of common stock, at an offering price of \$3.90 per share for gross proceeds of approximately \$6,425,995, before deducting the placement agent fee and related offering expenses.

In a concurrent private placement (the “Private Placement” and together with the Registered Offering, the “Offerings”), we agreed to issue to the Investors who participated in the Registered Offering warrants (the “Warrants”) exercisable for one share of common stock for each Share purchased in the Registered Offering for an aggregate of 1,647,691 shares of Common Stock at an exercise price of \$3.90 per share. Each Warrant was immediately exercisable on the date of its issuance and expire five years from that date. The Warrants and the shares of our common stock issuable upon the exercise of the Warrants were not registered under the Securities Act of 1933, as amended (the “Securities Act”), were not offered pursuant to a registration statement and were offered pursuant to the exemption provided in Section 4(a)(2) under the Securities Act, and Rule 506(b) promulgated thereunder. Shares of common stock underlying the Warrants are being registered for resale by the selling security holders pursuant to the Registration Statement of which this prospectus forms a part. We closed such Offerings on October 5, 2017.

RISK FACTORS

An investment in shares of our common stock involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information appearing elsewhere in this prospectus, including our financial statements and related notes thereto, before deciding to invest in our common stock. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition, results of operations and future growth prospects. In these circumstances, the market price of our common stock could decline, and you may lose all or part of your investment. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosure we make in our reports filed with the Securities and Exchange Commission.

RISKS RELATING TO OUR BUSINESS

We have incurred net losses since inception.

We have a history of operating losses and incurred net losses in each fiscal quarter since our inception. For the three months ended March 31, 2018, we generated net revenues of \$93,213 and incurred a net loss of \$1,263,464, while for the three months ended March 31, 2017, we generated net revenue of \$198,091 and incurred a net loss of \$1,316,234. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders' equity, net current assets and working capital.

We will need to generate additional revenue and/or reduce costs to achieve profitability. We are beginning to generate revenues derived from our existing properties, properties in production, and new brands being introduced into the marketplace. However, the ability to sustain these revenues and generate significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of our control.

We will need additional financing to continue our operations. If we are unable to obtain additional financing on acceptable terms, we will need to curtail or cease our development plans and operations.

As of March 31, 2018, we had approximately \$6,223,310 of available cash, cash equivalents, and restricted cash. Additional funds may be required to fund operations which could be raised through the issuance of equity securities and/or debt financing. There is no assurance that any type of financing on terms acceptable to us will be available or will otherwise occur. Debt financing must be repaid regardless of whether we generate revenues or cash flows from operations and may be secured by substantially all of our assets. Any equity financing or debt financing that requires

the issuance of warrants or other equity securities to the lender would cause the percentage ownership by our current stockholders to be diluted, which dilution may be substantial. Also, any additional equity securities issued may have rights, preferences or privileges senior to those of existing stockholders. Any equity financing at a price below the then current conversion price of our Series A Convertible Preferred Stock will result in an adjustment to the conversion ratio, applicable to such securities, resulting in the issuance of additional shares of our common stock upon the conversion of our Series A Convertible Preferred Stock, which would further dilute our other stockholders.

If we are not able to obtain sufficient capital, we may then be forced to limit the scope of our operations.

We expect that as our business continues to evolve we will need additional working capital. If adequate additional debt and/or equity financing is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors could have a material adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we could be forced to cease our activities and dissolve our company. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our revenues and results of operations may fluctuate from period to period.

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until the animated content and ancillary consumer products are in the market and could fluctuate thereafter even when the content and products are in the marketplace. There is significant lead time in developing and producing animated content before that content is in the marketplace. Unanticipated delays in entertainment production can delay the release of the content into the marketplace. Structured retail windows that dictate when new products can be introduced at retail are also out of our control. While we believe that we have mitigated this in part by creating a slate of properties at various stages of development or production as well as representing certain established brands which contribute immediately to cash flow, any delays in the production and release of our content and products or any changes in the preferences of our customers could result in lower than anticipated cash flows.

As with our cash flows, our revenues and results of operations depend significantly upon the appeal of our content to our customers, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate from period to period. The results of one period may not be indicative of the results of any future period. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our common stock to fluctuate.

Production cost will be amortized according to the individual film forecasting methodology. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue, we would be required to adjust amortization of related production costs. These adjustments would adversely impact our business, operating results and financial condition.

Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of our products. In addition, an increase in price levels generally, or in price levels in a particular sector, could result in a shift in consumer demand away from the animated content and consumer products we offer, which could also decrease our revenues, increase our costs, or both.

Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.

While trends in the toddler to tween sector change quickly, we respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an on-going basis. However, we operate in extremely competitive industries where the ultimate appeal and popularity of content and products targeted to this sector can be difficult to predict. We believe our focus on “content with a purpose” serves an underrepresented area of the toddler to tween market; however, if the interest of our audience trends away from our current properties toward other offerings based on current media, movies, animated content or characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

We face competition from a variety of retailers that sell similar merchandise and have better resources than we do.

The industries in which we operate are competitive, and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. Indirectly through our licensing arrangements, we compete for retailers as well as other outlets for the sale and promotion of our licensed merchandise. Our primary competition comes from competitors such as The Walt Disney Company, Nickelodeon Studios, and the Cartoon Network.

We have sought a competitive advantage by providing “content with a purpose” which are both entertaining and enriching for children and offer differentiated value that parents seek in making purchasing decisions for their children. While we do not believe that this value proposition is specifically offered by our competitors, our competitors have greater financial resources and more developed marketing channels than we do which could impact our ability, through our licensees, to secure shelf space thereby decreasing our revenues or affecting our profitability and results of operations.

The production of our animated content is accomplished through third-party production and animation studios around the world, and any failure of these third-parties could negatively impact our business.

As part of our business model to manage cash flows, we have partnered with a number of third-party production and animation studios around the world for the production of our new content in which these partners fund the production of the content in exchange for a portion of revenues generated in certain territories. We are reliant on our partners to produce and deliver the content on a timely basis meeting the predetermined specifications for that product. The delivery of inferior content could result in additional expenditures by us to correct any problems to ensure marketability. Further, delays in the delivery of the finished content to us could result in our failure to deliver the product to broadcasters to which it has been pre-licensed. While we believe we have mitigated this risk by aligning the economic interests of our partners with ours and managing the production process remotely on a daily basis, any failures or delays from our production partners could negatively affect our profitability.

If we fail to honor our obligations under the terms of our third-party supplier or loan agreements, our business may be adversely affected.

On January 10, 2017, we entered into an amendment of our home entertainment Distribution Agreement with Sony pursuant to which, among other things, Sony agreed to pay \$1,489,583 which was owed and payable by us to DADC for certain disk manufacturing and replication services, thereby terminating the agreement with DADC.

In connection with such transaction, we (i) granted Sony home entertainment rights in territories worldwide in addition to the United States and Canada and (ii) issued Sony 301,231 shares of our common stock at \$4.945 per share, Sony's exclusive territory for exercising its home entertainment distribution rights under the distribution agreement was extended from the United States and Canada to worldwide, and the amount of advances subject to recoupment by Sony out of royalty payments that would otherwise be due to us under the Distribution Agreement was increased by the amount of the payment to DADC. Future cash flow from the distributed products under the distribution agreement, if any, will be impacted by the additional recoupment obligation and additional rights granted. In connection with the above issuance of our shares, we entered into a subscription agreement with Sony, effective as of January 17, 2017.

Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our licensees do not successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

The failure of others to promote our products may adversely affect our business.

The availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our properties. In addition, although we may have agreements for the advertising and promotion of our products through our licensees, we will not be in direct control of those marketing efforts and those efforts may not be done in a manner that will maximize sales of our products and may have a material adverse effect on our business and operations.

We may not be able to keep pace with technological advances.

The entertainment industry in general, and the music and motion picture industries in particular, continue to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. As it is also impossible to predict the overall effect these factors could have on our ability to compete effectively in a changing market, if we are not able to keep pace with these technological advances, our revenues, profitability and results from operations may be materially adversely affected.

Failure in our information technology and storage systems could significantly disrupt the operation of our business.

Our ability to execute our business plan and maintain operations depends on the continued and uninterrupted performance of our information technology (“IT”) systems. IT systems are vulnerable to risks and damages from a variety of sources, including telecommunications or network failures, malicious human acts and natural disasters. Moreover, despite network security and back-up measures, some of our and our vendors’ servers are potentially vulnerable to physical or electronic break-ins, including cyber-attacks, computer viruses and similar disruptive problems. These events could lead to the unauthorized access, disclosure and use of non-public information. The techniques used by criminal elements to attack computer systems are sophisticated, change frequently and may originate from less regulated and remote areas of the world. As a result, we may not be able to address these techniques proactively or implement adequate preventative measures. If our computer systems are compromised, we could be subject to fines, damages, litigation and enforcement actions, and we could lose trade secrets, the occurrence of which could harm our business. Despite precautionary measures to prevent unanticipated problems that could affect our IT systems, sustained or repeated system failures that interrupt our ability to generate and maintain data could adversely affect our ability to operate our business.

Our internal computer systems, or those of our collaborators or other contractors or consultants, may fail or suffer security breaches, which could result in a material disruption and cause our business and reputation to suffer.

In the ordinary course of business, our internal computer systems and those of our current and any future collaborators and other contractors or consultants are vulnerable to damage from computer viruses, unauthorized access, natural disasters, terrorism, war and telecommunication and electrical failures. While we do not believe that we have experienced any such material system failure, accident or security breach to date, if such an event were to occur and cause interruptions in our operations, it could adversely affect our business operations, whether due to a loss of our trade secrets or other proprietary information or other similar disruptions. Any such access, disclosure or other loss of such information could result in legal claims or proceedings and damage our reputation.

Loss of key personnel may adversely affect our business.

Our success greatly depends on the performance of our executive management team, including Andy Heyward, our Chief Executive Officer. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition.

Our management team currently owns a substantial interest in our voting stock.

As of June 8, 2018, our management team and Board of Directors beneficially owned or controlled (including conversions, options or warrants exercisable or convertible within 60 days) a combined 2,528,225, or 26.18%, of our shares currently outstanding (including conversions, options or warrants exercisable or convertible within 60 days). Sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock. Additionally, management has the ability to control any proposals submitted to shareholders, including corporate actions and board changes which may not be in accordance with the votes of other shareholders.

Litigation may harm our business or otherwise distract management.

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

Our vendors and licensees may be subject to various laws and government regulations, violation of which could subject these parties to sanctions which could lead to increased costs or the interruption of normal business operations that could negatively impact our financial condition and results of operations.

Our vendors and licensees may operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments may regulate aspects of their businesses, including the production or distribution of our content or products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we believe our vendors and licensees take all the steps necessary to comply with these laws and regulations, there can be no assurance that they are compliant or will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could increase our costs or decrease our revenue resulting in a negative impact on our business, financial condition and results of operations.

Protecting and defending against intellectual property claims may have a material adverse effect on our business.

Our ability to compete in the animated content and entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited, or no, practical protection in some jurisdictions. It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, although we own most of the music and intellectual property included in our products, there are some titles which the music or other elements are in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. If litigation is necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition.

RISKS RELATING TO OUR COMMON STOCK

Our stock price may be subject to substantial volatility, and stockholders may lose all or a substantial part of their investment.

Our common stock currently trades on the Nasdaq Capital Market. There is limited public float, and trading volume historically has been low and sporadic. As a result, the market price for our common stock may not necessarily be a reliable indicator of our fair market value. The price at which our common stock trades may fluctuate as a result of a number of factors, including the number of shares available for sale in the market, quarterly variations in our operating results, actual or anticipated announcements of new releases by us or competitors, the gain or loss of significant customers, changes in the estimates of our operating performance, market conditions in our industry and the economy as a whole.

If we fail to maintain effective internal controls over financial reporting, the price of our common stock may be adversely affected.

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our common stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer's independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing, and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our common stock.

We are authorized to issue “blank check” preferred stock without stockholder approval, which could adversely impact the rights of holders of our common stock.

Our Articles of Incorporation authorize us to issue up to 10,000,000 shares of blank check preferred stock. Any additional preferred stock that we issue in the future may rank ahead of our common stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our common stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of common stock, which could dilute the value of common stock to current stockholders and could adversely affect the market price, if any, of our common stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of our company. Although we have no present intention to issue any additional shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

We do not expect to pay dividends in the future and any return on investment may be limited to the value of our common stock.

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as our Board of Directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our common stock, and in any event, a decision to declare and pay dividends is at the sole discretion of our Board of Directors. If we do not pay dividends, our common stock may be less valuable because the return on investment will only occur if its stock price appreciates.

Our outstanding Series A Convertible Preferred Stock contains anti-dilution provisions that, if triggered, could cause substantial dilution to our then-existing common stock holders which could adversely affect our stock price.

Our outstanding Series A Convertible Preferred Stock contains anti-dilution provisions to benefit the holders thereof. As a result, if we, in the future, issue common stock or grant any rights to purchase our common stock or other securities convertible into our common stock for a per share price less than the then existing conversion price of the Series A Convertible Preferred Stock, an adjustment to the then current conversion price would occur. This reduction in the conversion price could result in substantial dilution to our then-existing common stockholders as well as give rise to a beneficial conversion feature reported on our statement of operations. Either or both of which could adversely affect the price of our common stock.

Offers or availability for sale of a substantial number of shares of our common stock may cause the price of our common stock to decline.

If our stockholders sell substantial amounts of our common stock in the public market upon the expiration of any statutory holding period under Rule 144, or shares issued upon the exercise of outstanding options or warrants, it could create a circumstance commonly referred to as an “overhang” and, in anticipation of which, the market price of our common stock could fall. The existence of an overhang, whether or not sales have occurred or are occurring, also could make more difficult our ability to raise additional financing through the sale of equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

In general, under Rule 144, a non-affiliated person who has held restricted shares of our common stock for a period of six months may sell into the market all of their shares, subject to us being current in our periodic reports filed with the Commission.

As of June 8, 2018, approximately 5,305,793 shares of common stock of the 8,516,969 shares of common stock issued and outstanding are free trading. Additionally, as of June 8, 2018, there were 1,140,000 shares of common stock underlying the Series A Convertible Preferred Stock that could be sold pursuant to Rule 144. As of the same date, there are 2,238,359 shares of common stock underlying outstanding warrants that could be sold pursuant to Rule 144 to the extent permitted by any applicable vesting requirements as well as 1,861,030 shares of common stock underlying registered warrants. Lastly, as of March 30, 2018, there are 1,236,390 shares of common stock underlying outstanding options granted and 430,277 shares reserved for issuance under our Genius Brands International, Inc. Amended 2015 Incentive Plan, all of which are unregistered but will become eligible for sale in the public market to the extent permitted by any applicable vesting requirements and Rule 144 under the Securities Act.

Concentration of ownership among our existing officers, directors and principal stockholders may prevent other stockholders from influencing significant corporate decisions and depress our stock price.

Based on the number of shares outstanding as of June 8, 2018, our officers, directors and stockholders who hold at least 5% of our stock beneficially own a combined total of approximately 55.56% of our outstanding common stock, including shares of common stock subject to preferred shares, stock options, and warrants that are currently convertible or exercisable or will be convertible or exercisable within 60 days after June 8, 2018. If these officers, directors, and principal stockholders or a group of our principal stockholders act together, they will be able to exert a significant degree of influence over our management and affairs and control matters requiring stockholder approval, including the election of directors and approval of mergers, business combinations or other significant transactions. The interests of one or more of these stockholders may not always coincide with our interests or the interests of other stockholders. For instance, officers, directors, and principal stockholders, acting together, could cause us to enter into transactions or agreements that we would not otherwise consider. Similarly, this concentration of ownership may have the effect of delaying or preventing a change in control of our company otherwise favored by our other stockholders.

Certain statements made or incorporated by reference in this prospectus and our other filings with the Securities and Exchange Commission, in our press releases and in statements made by or with the approval of authorized personnel constitute forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and are subject to the safe harbor created thereby. Overview

The management's discussion and analysis is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Results of Operations

Three months Ended March 31, 2018 and 2017

Our summary results for the three months ended March 31, 2018 and 2017 are below.

Revenues

	Three Months Ended March 31, 2018	Three Months Ended March 31, 2017	Change	% Change
Television & Home Entertainment	\$3,754	\$43,373	\$(39,619)	(91)%
Licensing & Royalties	66,812	153,213	(86,401)	(56)%
Genius Brands Network	22,009	1,505	20,504	1362%
Product Sales	638	–	638	N/A
Total Revenue	\$93,213	198,091	\$(104,878)	(53)%

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television, VOD, or SVOD in domestic and international markets and the sale of DVDs for home entertainment through our partners. Fluctuations in Television & Home Entertainment revenue occur period over period based on the achievement of revenue recognition criteria such as the start of a license period and the delivery of the content to the customer. During the three months ended March 31, 2018, compared to March 31, 2017, Television & Home Entertainment revenue decreased \$39,619 or 91% primarily due to the cumulative effect adjustment made as a result of adopting new accounting standard ASC 606. The impact of the adoption reduced revenues for the three months ended March 31, 2018 by \$68,184.

Licensing and royalty revenue includes items for which we license the rights to our copyrights and trademarks of our brands and those of the brands for which we act as a licensing agent. During the three months ended March 31, 2018, compared to March 31, 2017, this licensing and royalty revenue decreased \$86,401 or 56% primarily due to decreases in revenues from our *SpacePop* property that was launched in June of 2016. There was no comparable title released during 2017.

Advertising sales are generated on the Kid Genius Cartoon Channel in the form of either flat rate promotions or advertising impressions served. Advertising sales increased by \$20,504 during the three months ended March 31, 2018 compared to the three months ended March 31, 2017 due to increased advertising impressions served and additional ad campaigns in 2018 as we continue to grow this area of the business.

Expenses

Three Months Ended	Three Months Ended	Change	% Change
--------------------------	--------------------------	--------	-------------

Edgar Filing: Genius Brands International, Inc. - Form POS AM

	March 31, 2018	March 31, 2017		
Marketing and Sales	\$60,980	89,504	\$(28,524)	(32)%
Direct Operating Costs	(26,749)	23,069	(49,818)	(216)%
General and Administrative	1,322,452	1,400,925	(78,473)	(6)%
Total Operating Expenses	\$1,356,683	1,513,498	\$(156,815)	(10)%

Marketing and sales expenses decreased \$28,524 for the three months ended March 31, 2018 compared to March 31, 2017 primarily due to fewer new releases in 2018.

Direct operating costs include costs of our product sales, unamortizable post-production costs, film and television cost amortization expense, and participation expense related to agreements with various animation studios, post-production studios, writers, directors, musicians or other creative talent with which we are obligated to share net profits of the properties on which they have rendered services. During the three months ended March 31, 2018, we recorded film and television cost amortization expense of \$26,738 and participation expense of \$3,472 compared to March 31, 2017 expenses of \$4,604 and \$12,667, respectively. This increase in amortization expense is related to adjustments made to certain film ultimates which increased the amortization rate. The decrease in participation expense is directly related to decreased Television & Home Entertainment and Licensing and Merchandising revenue in the current period compared to the prior period. In March of 2018, we negotiated a \$120,000 reduction in the dubbing costs for the Llama Llama series which were accrued during the fourth quarter of 2017 when the series was delivered to Netflix. This reduction resulted in a partial reversal of the accrual during the three months ended March 31, 2018.

General and administrative expenses consist primarily of salaries, employee benefits, share-based compensation related to stock options, insurances, rent, depreciation and amortization as well as other professional fees related to finance, accounting, legal and investor relations. General and administrative costs for three months ended March 31, 2018 decreased \$78,473 compared to the same period in 2017. This decrease includes: (i) decreases in share-based compensation expense of \$174,140 related to the grant of options to officers, directors, employees and consultants in the fourth quarter of 2015 and in 2016; and (ii) decreases in professional fees of \$61,069. These decreases were partially offset by increases in other general and administrative expenses of \$150,136.

	Year Ended December 31, 2017	Year Ended December 31, 2016	Change	% Change
Television & Home Entertainment	\$4,815,491	\$ 356,150	\$4,459,341	1,252%

Total Revenue	\$5,335,728	\$ 866,875	\$4,468,853	516%

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television, VOD, or SVOD in domestic and international markets and the sale of DVDs for home entertainment through our partners. Fluctuations in Television & Home Entertainment revenue occur period over period based on the achievement of revenue recognition criteria such as the start of a license period and the delivery of the content to the customer. During the year ended December 31, 2017 compared to December 31, 2016, Television & Home Entertainment revenue increased \$4,459,341 or 1252% due to the delivery of *Llama Llama* to Netflix in December 2017 without comparable activity in the prior period.

Licensing and royalty revenue includes items for which we license the rights to our copyrights and trademarks of our brands and those of the brands for which we act as a licensing agent. During the year ended December 31, 2017 compared to December 31, 2016, this category increased \$8,921 or 2% primarily due to increases in revenues from our *SpacePop* property.

The Genius Brands Network generates revenue in the form of either flat rate promotions, advertising impressions served, or our share of subscriptions to our channels. Revenues from the Genius Brands Network increased 15% over the prior year as the Network's household reach grew thus increasing the number of impressions served as well as the introduction of the SVOD platform on Amazon Prime.

Product sales represent physical products in which we hold intellectual property rights such as trademarks and copyrights to the characters and which are manufactured and sold by us directly. During the year ended December 31, 2017, product sales associated with Warren Buffett's *Secret Millionaire Club* decreased by \$4,544 (33%) as a result of a different product offering and price point as compared to that period in the prior year.

Expenses

	Year Ended December 31, 2017	Year Ended December 31, 2016	Change	% Change
Marketing and Sales	\$662,373	\$1,035,128	\$(372,755)	(36)%
Direct Operating Costs	4,257,427	279,217	3,978,210	1,425%
General and Administrative	5,329,718	6,017,391	(687,673)	(11)%
Total Operating Expenses	\$10,249,518	\$7,331,736	\$2,917,782	40%

Marketing and sales expenses decreased \$372,755 for the year ended December 31, 2017 compared to the prior year period primarily due to modest decreases in spending related to sponsorships and promotions pursuant to our *SpacePop* marketing plan as well as fees paid to a consultant for execution of a distribution contract in the prior period without similar activity in the current period.

Direct operating costs include costs of our product sales, non-capitalizable film costs, film and television cost amortization expense, and participation expense related to agreements with various animation studios, post-production studios, writers, directors, musicians or other creative talent with which we are obligated to share net profits of the properties on which they have rendered services. Increases in direct operating costs in the year ended December 31, 2017 compared to the prior period reflect increases in film amortization expense, participation expense, and dubbing costs related to the delivery of *Llama Llama* to Netflix in the fourth quarter of 2017.

General and administrative expenses consist primarily of salaries, employee benefits, share-based compensation related to stock options, insurances, rent, depreciation and amortization as well as other professional fees related to finance, accounting, legal and investor relations. General and administrative costs for the year ended December 31, 2017, decreased \$687,673 compared to the same period in 2016. This change resulted from decreases in share-based compensation expense of \$917,839 offset by increases in professional fees of \$158,809, salaries and wages of \$71,157, and bad debt expense of \$66,502. Fluctuations in other general and administrative expenses comprise the balance of the variance.

Liquidity and Capital Resources

Working Capital

As of March 31, 2018, we had current assets of \$8,854,964, including cash, cash equivalents, and restricted cash of \$6,223,310, and current liabilities of \$4,258,470, including certain trade payables of \$925,000 to which we dispute the claim, resulting in working capital of \$4,596,494, compared to working capital of \$7,116,279 as of December 31, 2017.

Net working capital decreased \$2,519,785. Working capital increased as a result of the \$1,800,000 of proceeds received for the sale of common stock and warrants to accredited investors in connection with the January 2018 Private Placement. We issued and sold warrants to purchase 592,000 shares of common stock at an exercise price of \$3.00 per share. The increase was more than offset by production costs of *Rainbow Rangers* and general overhead incurred during the three months ended March 31, 2018 including the lease deposits of \$358,103.

Credit Facility

On August 8, 2016, Llama Productions LLC, our wholly-owned subsidiary, closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the “Facility”) with Bank Leumi USA to produce our animated series *Llama Llama* (the “Series”). The Series is configured as fifteen half-hour episodes comprised of thirty 11 minute programs to be delivered to Netflix in Fall 2017. The Facility is secured by the license fees we will receive from Netflix for the delivery of the Series as well as our copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, we deposited \$1,000,000 into a cash account to be used solely for the production of the series. During the fourth quarter of 2017, the facility was reduced from \$5,295,000 to \$4,843,416 and a portion of the collateral was released to use, leaving \$583,673 in restricted cash as of December 31, 2017. During the three months ended March 31, 2018 the facility was repaid \$1,125,000 and the remaining collateral was released and used to further pay down the loan. The facility net balance as of March 31, 2018 is \$2,689,320.

Critical Accounting Policies

Our accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared and Llama Productions as well as its interest in Stan Lee Comics, LLC (“Stan

Lee Comics”). All significant inter-company balances and transactions have been eliminated in consolidation.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with FASB ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. We complete the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill or indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. In accordance with FASB ASC 350 Intangible Assets, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

We capitalize production costs for episodic series produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. We expense all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

We capitalize production costs for films produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. We evaluate our capitalized production costs annually and limit recorded amounts by our ability to recover such costs through expected future sales.

Additionally, for both episodic series and films, from time to time, we develop additional content, improved animation and bonus songs/features for our existing content. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

On January 1, 2018, we adopted the new accounting standard ASC 606 (Topic 606), Revenue from Contracts with Customers and all the related amendments (“new revenue standard”) using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under ASC 605, (Topic 605).

Accordingly, on January 1, 2018 we recorded a cumulative effect adjustment to beginning Accumulated Deficit in the amount of \$173,112. The impact to our financial statements for the three months ended March 31, 2018 resulting from the adoption of Topic 606 as of January 1, 2018 was a reduction of revenue in the amount \$68,184 and a corresponding reduction in costs in the amount of \$10,099 from the amounts reported. The amounts prior to adoption were not recognized pursuant to Topic 606 and would have been reported pursuant to Topic 605.

Changes to the opening balances in prepaid and other assets, film and television costs, total assets, accrued expenses, deferred revenue and total liabilities resulting from the adoption of the new guidance were as follows (thousands):

	December 31, 2017	Impact of Adoption	January 1, 2018
Prepaid and Other Assets	\$ 265	\$ (15)	\$ 250
Film and Television Costs, net	2,777	(219)	2,558
Total assets	27,713	(234)	27,479
Accrued Expenses	1,718	2	1,720
Deferred Revenue	5,085	(409)	4,676
Total liabilities	12,673	(407)	12,266

We performed an analysis of our existing revenue contracts and completed our new revenue accounting policy documentation under the new standard. The Company has identified the following six material and distinct performance obligations:

· License rights to exploit Functional Intellectual Property (Functional Intellectual Property or “functional IP” is defined as intellectual property that has significant standalone functionality for example ability be played or aired.

· Functional intellectual property derives a substantial portion of its utility from its significant standalone functionality.)

· License rights to exploit Symbolic Intellectual Property (Symbolic Intellectual Property or “symbolic IP” is intellectual property that is not functional as it does not have significant standalone use and substantially all of the utility of symbolic IP is derived from its association with the entity’s past or ongoing activities, including its ordinary business activities, such as the Company’s licensing and merchandising programs associated with its animated content.)

· Options to renew or extend a contract at fixed terms. (While this performance obligation is not significant for our current contracts, it could become significant in the future.)

· Options on future seasons of content at fixed terms. (While this performance obligation is not significant for our current contracts, it could become significant in the future.)

· Fixed fee advertising revenue generated from the Genius Brands Network

· Variable fee advertising revenue generated from the Genius Brands Network

As a result of the change, beginning January 1, 2018, we began recognizing revenue related to licensed rights to exploit functional IP in two ways. For minimum guarantees, we will recognize fixed revenue upon delivery of content and the start of the license period. For functional IP contracts with a variable component, we will estimate revenue such that it is probable there will not be a material reversal of revenue in future periods. Revenue under these types of contracts was previously recognized when royalty statements were received. We began recognizing revenue related to licensed rights to exploit symbolic IP substantially similarly to functional IP. Although it has a different recognition pattern from functional IP, the valuation method is substantially the same, depending on the nature of the license.

We sell advertising on our Kid Genius channel in the form of either flat rate promotions or impressions served. For flat rate promotions with a fixed term, we recognize revenue when all five revenue recognition criteria under FASB ASC 606 are met. For impressions served, we deliver a certain minimum number of impressions on the channel to the advertiser for which the advertiser pays a contractual CPM per impression. Impressions served are reported to us on a monthly basis, and revenue is reported in the month the impressions are served.

We recognize revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases". The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update 2016-18, “Statement of Cash Flows - Restricted Cash a consensus of the FASB Emerging Issues Task Force.” This standard requires restricted cash and cash equivalents to be included with cash and cash equivalents on the statement of cash flows under a retrospective transition approach. The guidance will become effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We have prospectively adopted ASU 2016-18. The impact to our consolidated financial position, results of operations and cash flows is minimal.

In January 2017, the FASB issued Accounting Standards Update 2017-04, “Simplifying the Test for Goodwill Impairment”, which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit’s carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates Step 2 of the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit’s goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017, permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2017, the FASB issued Accounting Standard Update 2017-09, “Compensation-Stock Compensation: Scope of Modification Accounting”, which clarifies which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. Under the new guidance, modification accounting is required if the fair value, vesting conditions or classification (equity or liability) of the new award are different from the original award immediately before the original award is modified. The standard is effective beginning January 1, 2018, with early adoption permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries and are not expected to have a material effect on our financial position, results of operations or cash flows.

Off Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Our Products

Original Content

We own and produce original content that is meant to entertain and enrich toddlers to tweens as well as families. Our goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. Our portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories. Distribution

Content

Today's global marketplace and the manner in which content is consumed has evolved to a point where we believe there is only one viable strategy, ubiquity. Kids today expect to be able to watch what they want whenever they want and wherever they want. As such, content creators now must offer direct access on multiple fronts. This includes not only linear broadcast but also digital platforms. We have strong ties to and actively solicit placement for our content from the largest linear broadcasters such as Nickelodeon, The Disney Channel, Cartoon Network, Sprout, and PBS. Similarly, on the digital side, we are partnered with Comcast's Xfinity platform as well as AppleTV, Roku, Samsung TV, Amazon Fire, Amazon Prime, Netflix, and YouTube. We replicate this model of ubiquity around the world defining content distribution strategies by market that blends the best of linear, VOD, and digital distribution.

Finally, we expanded our long term strategic partnership with Sony Pictures Home Entertainment from domestic to global in January 2017.

Consumer Products

A source of our revenue is our licensing and merchandising activities from our underlying intellectual property content. We work directly licensing properties to a variety of manufacturers, wholesalers, and retailers. We currently have across all brands in excess of 65 licensees and hundreds of licensed products in the market. Products bearing our marks can be found in a wide variety of retail distribution outlets reaching consumers in retailers such as Wal-Mart, Target, Claire's, Kohl's, Best Buy, Hudson News, Barnes & Noble, Amazon.com and many more. We often negotiate dedicated retail space on a direct basis with retailers that will include branded signage to give our brands prominence and clear communication with the consumer. License agreements that we enter into often include financial guarantees and commitments from the manufacturers guaranteeing a minimum stream of revenue for us. As licensed merchandise is sold at retail, these advances and/or minimum guarantees can earn out at which point we could earn additional revenue.

Marketing

We believe that generating awareness and consumer interest in our brands requires a dedicated 360-degree approach to marketing which we regularly deploy. Beyond the content creation and achieving distribution, consumers must become engaged with the content in all aspects of their lives. Successful marketing campaigns for our brands have

included utilizing influencers (individuals with a strong, existing social media presence who drive awareness of our brands to their followers) and influencer marketing, participating in cross promotional consumer product campaigns as well out of home advertising campaigns within theme parks and malls. Our Genius Brands Network, with distribution in over 60 million households, provides reach for cross promotion of content and consumer products. We also deploy digital and print advertising to support the brands as well as work with external public relations professionals to promote our efforts to both consumer and trade. We regularly initiate grass roots marketing campaigns and strategic partnerships with brands that align and offer value to us.

Competition

We compete against other creators of children's content including Disney, Nickelodeon, Cartoon Network, and Sesame Street as well as other small and large creators. In the crowded children's entertainment space, we compete with these other creators for both content distribution across linear, VOD, and digital platforms as well as retail shelf space for our licensed products. To compete, we are focused on our strategic positioning of "content with a purpose" which we believe is a point of differentiation embraced by the industry, as well as parents and educators. Additionally, the Kid Genius Cartoon Network, Baby Genius TV, and Kid Genius Cartoon Channel Plus enables us to increase the awareness of our brands through an owned platform.

Customers and Licensees

Typically, our business is not reliant on one or a few major customers; however, in 2017, over 80% of our revenue was attributable to the recognition of revenues earned from Netflix upon the delivery of the first season of *Llama Llama*. As of December 31, 2017, we had partnered with over 65 consumer products licensees going to market with nearly 300 stock keeping units ("SKU"). As of the same date, we licensed our content to over 40 broadcasters in over 90 territories globally as well as a number of VOD and online platforms that have a global reach. This broad cross-section of customers includes companies such as Comcast, Netflix, Sony, YouTube, Mattel, Target, Kohls, Claire's, Penguin Publishing, Manhattan Toys, Roku, Apple TV, Amazon, Google, Bertelsmann Music Group, Discovery International, and others both domestically and internationally.

Government Regulation

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). We are subject to online distribution regulations, namely the FTC's Children's Online Privacy Protection Act (COPPA) which regulates the collection of information of children younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to some of our customers is provided by third parties without recourse to us based upon a customer's failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the "CPSC") to protect the public from products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some states and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites which include our corporate website located at www.gnusbrands.com, as well as www.spacepopgirls.com, www.kidgeniustv.com, www.babygenius.com, www.smckids.com, www.slam7.com, and www.edisonsecretlab.com. These websites are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws related to children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, we are not significantly impacted by federal, state and local environmental laws and do not have significant costs associated with compliance with such laws and regulations.

Employees

As of December 31, 2017, we had 19 full-time equivalent employees and an additional seven temporary, contracted part-time or full-time equivalents in certain functions, such as legal, accounting and production management. We have 50/50 ownership agreements with the following partners and their related brands: Martha Stewart's *Martha & Friends*; and Gisele Bündchen's *Gisele & the Green Team*.

In addition to the wholly-owned or partially-owned properties listed above, we represent *Llama Llama* in the licensing and merchandising space.

Company Information

We were incorporated in California on January 3, 2006 and reincorporated in Nevada in October 2011. We commenced operations in January 2006, assuming all of the rights and obligations of our then Chief Executive Officer, under an Asset Purchase Agreement between us and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, we (i) changed our domicile to Nevada from California, and (ii) changed our name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, we changed our trading symbol from “PENT” to “GNUS.”

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and the sole member of A Squared (the “Parent Member”), and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became our wholly-owned subsidiary. As a result of the Merger, we acquired the business and operations of A Squared.

Corporate Governance

General

We believe that good corporate governance is important to ensure that the Company is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interest of the Company and its shareholders to partially combine these roles. Due to the small size of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officers positions combined.

The Company currently has eight directors, including Mr. Heyward, its Chairman, who also serves as the Company's Chief Executive Officer. The Chairman and the Board are actively involved in the oversight of the Company's day to day activities.

16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our officers, directors, and any persons who own more than 10% of common stock, to file reports of ownership of, and transactions in, our common stock with the SEC and furnish copies of such reports to us. Based solely on our review of the copies of such forms and amendments thereto furnished to us and on written representations from our officers, directors, and any person whom we understand owns more than 10% of our common stock, we found that during 2017, all Section 16(a) filing were made with the SEC on a timely basis.

Code of Conduct and Ethics

We have adopted a Corporate Code of Conduct and Ethics and Whistleblower Policy that applies to all of our officers, directors and employees. A copy of the Code of Conduct and Ethics may be obtained, free of charge, by submitting a written request to the Company or on our website at www.gnusbrands.com. Disclosure regarding any amendments to, or waivers from, provisions of the code of conduct and ethics that apply to our directors, principal executive and financial officers will be posted on the “Investor Relations-Corporate Governance” section of our website at www.gnusbrands.com or included in a Current Report on Form 8-K within four business days following the date of the amendment or waiver.

SELLING SECURITY HOLDERS

The shares of common stock being offered by the selling security holders are those issuable upon the exercise of the Warrants. For additional information regarding the issuance of these securities, see “Prospectus Summary—Offering of Common Stock and Concurrent Private Placement of Warrants” on page 2 of this prospectus. We are registering the shares of common stock in order to permit the selling security holders to offer the shares for resale from time to time. Except for the ownership of the Warrants, the transactions contemplated pursuant to the Purchase Agreement, the selling security holders have not had any material relationship with us within the past three years.

The following table sets forth certain information with respect to each selling stockholder, including (i) the shares of our common stock beneficially owned by the selling stockholder prior to this offering, (ii) the number of shares being offered by the selling stockholder pursuant to this prospectus and (iii) the selling stockholder’s beneficial ownership after completion of this offering. The registration of the shares of common stock issuable to the selling stockholders upon the exercise of the Warrants does not necessarily mean that the selling stockholders will sell all or any of such shares, but the number of shares and percentages set forth in the final two columns below assume that all shares of common stock being offered by the Selling Stockholders are sold.

The table is based on information supplied to us by the selling stockholders, with beneficial ownership and percentage ownership determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to shares of stock. This information does not necessarily indicate beneficial ownership for any other purpose. In computing the number of shares beneficially owned by a selling stockholder and the percentage ownership of that selling stockholder, shares of common stock subject to warrants held by that selling stockholder that are exercisable within 60 days after June 8, 2018, 2018, are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. The percentage of beneficial ownership after this offering is based on 8,516,969 shares of Common Stock outstanding on June 8, 2018.

This prospectus covers the resale of 1,647,691 shares of our common stock that may be sold or otherwise disposed of by the selling stockholders. Such shares are issuable to the selling stockholders upon the exercise of the Warrants. Each Warrant is immediately exercisable on the date of its issuance and expires five years from that date. All of the Warrants have an exercise price of \$3.90 per share. See “Prospectus Summary —Offering of Common Stock and Concurrent Private Placement of Warrants” above for a complete description of the Warrants. The selling security holders may sell all, some or none of their shares in this offering, but the number of shares and percentages set forth in the final two columns below assume that all shares of common stock being offered by the Selling Stockholders are sold. See “Plan of Distribution.”

PLAN OF DISTRIBUTION

Each selling stockholder of the shares of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on the Nasdaq Capital Market or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A Selling Stockholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act of 1933, as amended (the “Securities Act”), if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the securities. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the Selling Stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for the Company to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

DESCRIPTION OF OUR CAPITAL STOCK

General

The following description of our common stock and preferred stock, together with the additional information we include in any applicable prospectus supplement summarizes some of the terms and provisions of the shares of our common stock and preferred stock that we may offer under this prospectus. These summary descriptions of our common stock and preferred stock are not meant to be complete descriptions of each security. For the complete terms of our common stock and preferred stock, please refer to our articles of incorporation, as may be amended from time to time, any certificates of designation for our preferred stock that may be authorized from time to time, and our bylaws, as amended from time to time. The Nevada Revised Statutes may also affect the terms of these securities. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer under this prospectus, we will describe the specific terms of any series of these securities in more detail in the applicable prospectus supplement. The applicable prospectus supplement for a particular offering of our common stock or preferred stock may specify different or additional terms.

Our authorized capital stock consists of 243,333,334 shares of capital stock, of which 233,333,334 are shares of common stock, par value \$0.001 per share, and 10,000,000 are shares of preferred stock, par value \$0.001.

Capital Stock Issued and Outstanding

As of June 8, 2018, we have issued and outstanding:

·8,516,969 shares of common stock; and

·3,420 shares of shares of Series A Convertible Preferred Stock which are convertible into 1,140,000 shares of common stock.

Common Stock

The holders of our common stock are entitled to one vote per share. In addition, the holders of our common stock will be entitled to receive ratably such dividends, if any, as may be declared by our Board of Directors out of legally available funds; however, the current policy of our Board of Directors is to retain earnings, if any, for operations and growth. Upon liquidation, dissolution or winding-up, the holders of our common stock will be entitled to share ratably in all assets that are legally available for distribution. The holders of our common stock will have no preemptive,

subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock, which may be designated solely by action of our board of directors and issued in the future.

Preferred Stock

Our Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

Series A Convertible Preferred Stock

We have designated six thousand (6,000) shares of preferred stock as Series A Convertible Preferred Stock. Each share of Series A Preferred Stock is convertible into shares of our common stock based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event we issue shares of our common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. Any reduction in the conversion price could result in substantial dilution to our then-existing common stockholders as well as give rise to a beneficial conversion feature reported on our statement of operations.

Accordingly, in connection with the closing of the October 2015 Private Placement, the conversion price of the Series A Preferred Stock was reduced to \$3.00. We are prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the holder would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of our common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

Options

On September 18, 2015, the Company adopted the Genius Brands International, Inc. 2015 Incentive Plan (the “2015 Plan”). The 2015 Plan was approved by our stockholders in September 2015. On December 14, 2015, the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan by 1,293,334 from 150,000 shares to 1,443,334 shares. The increase in shares available for issuance under the 2015 Plan was approved by stockholders on February 3, 2016. On May 18, 2017, the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan from 1,443,334 shares to 1,666,667 shares. The increase in shares available for issuance under the 2015 Plan was approved by stockholders on July 25, 2017.

As of June 8, 2018, there are 1,236,390 options outstanding under the 2015 Plan.

Warrants

In connection with the sale of the Company’s Series A Convertible Preferred Stock in May 2014, Chardan Capital Markets LLC (“Chardan”) acted as sole placement agent in consideration for which it received a cash fee of \$535,000 and a warrant to purchase up to 100,002 shares of the Company’s Common Stock. These warrants are exercisable immediately, have an exercise price of \$6.00 per share, and have a five-year term.

In connection with the 2015 Private Placement, the Company issued to accredited investors the Original Warrants to purchase up to an aggregate of 1,443,362 shares of Common Stock for a purchase price of \$3.00 per share. The Original Warrants are exercisable into shares of Common Stock for a period of five (5) years from issuance at an initial exercise price of \$3.30 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. The Original Warrants are exercisable immediately. The Company is prohibited from effecting an exercise of the warrants to the extent that as a result of such exercise, the holder would beneficially own more than 4.99% (subject to increase up to 9.99% upon 61 days’ notice) in the aggregate of the issued and outstanding shares of Common Stock, calculated immediately after giving effect to the issuance of shares of Common Stock upon exercise of the warrant.

In connection with the 2015 Private Placement, Chardan acted as sole placement agent in consideration for which it received a cash fee of \$300,000 and a warrant to purchase up to 141,668 shares of the Company’s Common Stock. These warrants are exercisable immediately, have an exercise price of \$3.60 per share, and have a five-year term.

On February 9, 2017, the Company entered into the Private Transaction pursuant to the Agreement with certain holders of the Original Warrants. Pursuant to the Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants, with the new warrants being identical to the Original Warrants except that the termination date of such new warrants is February 10, 2022 (the “Reload Warrants”). In addition, depending on the number of Original Warrants exercised by all holders of the Original Warrants, the Company also agreed to issue to the holders another new warrant, identical to the Original Warrant except that the exercise price of such warrant is \$5.30 and such warrant is not exercisable until August 10, 2017 (the “Market Price Warrants” and together with the Reload Warrants, the “New Warrants”).

The Company received gross proceeds of \$3,866,573 from the exercise of the Original Warrants and issued Reload Warrants to purchase an aggregate of 799,991 shares of the Company’s Common Stock and Market Price Warrants to purchase an aggregate of 371,699 shares of the Company’s Common Stock. In association with the Private Transaction, the Company recorded \$1,402,174, representing the difference in the fair market value of the Original Warrants and the New Warrants, as an adjustment to additional paid-in capital.

In a concurrent private placement to a registered direct offering in October 2017, we sold warrants to purchase 1,647,691 shares of our Common Stock (the “October 2017 Warrants”). The October 2017 Warrants were immediately exercisable at an exercise price of \$3.90 per share, subject to adjustment, and will remain exercisable for five years from issuance, but not thereafter. A holder of Warrants will not have the right to exercise any portion of its warrants if the holder, together with its affiliates, would beneficially own in excess of 4.99% of the number of shares of our Common Stock outstanding immediately after giving effect to such exercise (the “Beneficial Ownership Limitation”); provided, however, that upon notice to the Company, the holder may increase or decrease the Beneficial Ownership Limitation, provided that in no event shall the Beneficial Ownership Limitation exceed 9.99% and any increase in the Beneficial Ownership Limitation will not be effective until 61 days following notice of such increase from the holder to us. In addition, the holders of the Warrants will have the right to participate in any rights offering or distribution of assets (such as a spinoff) together with the holders of our Common Stock on an as-exercised basis. The exercise price and number of the shares of our Common Stock issuable upon the exercise of the October 2017 Warrants will be subject to adjustment for stock splits, reverse splits, and similar capital transactions. The Warrants will be exercisable on a “cashless” basis in certain circumstances.

In connection with our private placement consummated in January 2018, we issued warrants to purchase 592,000 shares of our Common Stock at an exercise price of \$3.00 per share. In addition, we issued to Chardan Capital Markets, LLC, the placement agent, a warrant to purchase 93,000 shares of our Common Stock at an exercise price of \$3.00 per share.

As of June 8, 2018, the Company has warrants outstanding to purchase up to 4,099,289 shares of common stock, excluding the warrants to purchase 1,647,691 shares of common stock contemplated by this Registration Statement.

Nevada Anti-Takeover Law and Certain Charter and Bylaw Provisions

Some features of the Nevada Revised Statutes, which are further described below, may have the effect of deterring third parties from making takeover bids for control of our company or may be used to hinder or delay a takeover bid. This would decrease the chance that our stockholders would realize a premium over market price for their shares of common stock as a result of a takeover bid.

Acquisition of Controlling Interest

The Nevada Revised Statutes contain provisions governing acquisition of a controlling interest of a Nevada corporation. These provisions provide generally that any person or entity that acquires a certain percentage of the outstanding voting shares of a Nevada corporation may be denied voting rights with respect to the acquired shares, unless the holders of a majority of the voting power of the corporation, excluding shares as to which any of such acquiring person or entity, an officer or a director of the corporation, or an employee of the corporation exercises voting rights, elect to restore such voting rights in whole or in part. These provisions apply whenever a person or entity acquires shares that, but for the operation of these provisions, would bring voting power of such person or entity in the election of directors within any of the following three ranges:

- 20% or more but less than 33 1/3%;
- 33 1/3% or more but less than or equal to 50%; or
- more than 50%.

The stockholders or board of directors of a corporation may elect to exempt the stock of the corporation from these provisions through adoption of a provision to that effect in the articles of incorporation or bylaws of the corporation. Our articles of incorporation and bylaws do not exempt our common stock from these provisions.

These provisions are applicable only to a Nevada corporation, which:

has 200 or more stockholders of record, at least 100 of whom have addresses in Nevada appearing on the stock ledger of the corporation; and

does business in Nevada directly or through an affiliated corporation.

On November 20, 2013, we amended our bylaws to provide that the provisions of NRS 78.378 and 78.3793 (“Acquisition of a Controlling Interest”) shall not apply to the Company or to any acquisition of a controlling interest in the Company by any existing or future stockholder.

Combination with Interested Stockholder

The Nevada Revised Statutes contain provisions governing combination of a Nevada corporation that has 200 or more stockholders of record with an interested stockholder. As of June 8, 2018, we had 204 stockholders of record, not including persons or entities that hold our stock in nominee or “street name” through various brokerage firms.

A corporation affected by these provisions may not engage in a combination within two years after the interested stockholder first became an interested stockholder, unless either (i) the combination or transaction by which the interested stockholder first became an interested stockholder is approved by the board of directors before the interested stockholder first became an interested stockholder, or (ii) the combination is approved by the board of directors and by the affirmative vote of the corporation's stockholders representing at least 60% of the outstanding voting power of the corporation not beneficially owned by the interested stockholder or the interested stockholder's affiliates. Generally, if approval is not obtained, then after the expiration of the two-year period, the business combination may be consummated with the approval of the board of directors of the combination or transaction by which the interested stockholder first became an interested stockholder before the person became an interested stockholder, or a majority of the voting power held by disinterested stockholders, or if the consideration to be received per share by disinterested stockholders is at least equal to the highest of:

the highest price per share paid by the interested stockholder within the two years immediately preceding the date of the announcement of the combination or within two years immediately before, or in the transaction in which he, she or it became an interested stockholder, whichever is higher;

the market value per share on the date of announcement of the combination or the date the person became an interested stockholder, whichever is higher; or

if higher for the holders of preferred stock, the highest liquidation value of the preferred stock, if any.

Generally, these provisions define an interested stockholder as a person who is the beneficial owner, directly or indirectly, of 10% or more of the voting power of the outstanding voting shares of a corporation. Generally, these provisions define combination to include any merger or consolidation with an interested stockholder, or any sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions, with an interested stockholder of assets of the corporation having:

an aggregate market value equal to 5% or more of the aggregate market value of the assets of the corporation;

an aggregate market value equal to 5% or more of the aggregate market value of all outstanding shares of the corporation; or

representing 10% or more of the earning power or net income of the corporation.

Articles of Incorporation and Bylaws

Pursuant to our Articles of Incorporation, the existence of authorized but unissued common stock and undesignated preferred stock may enable our board of directors to make more difficult or to discourage an attempt to obtain control of our Company by means of a merger, tender offer, proxy contest or otherwise, and thereby to protect the continuity

of management. If, in the due exercise of its fiduciary obligations, the board of directors were to determine that a takeover proposal was not in our best interest, such shares could be issued by the board of directors without stockholder approval in one or more transactions that might prevent or render more difficult or costly the completion of the takeover transaction by diluting the voting or other rights of the proposed acquirer or insurgent stockholder group, by putting a substantial voting block in institutional or other hands that might undertake to support the position of the incumbent board of directors, by effecting an acquisition that might complicate or preclude the takeover, or otherwise.

In addition, our Articles of Incorporation grant our board of directors broad power to establish the rights and preferences of authorized and unissued shares of preferred stock. The issuance of shares of preferred stock could decrease the amount of earnings and assets available for distribution to holders of shares of common stock. The issuance also may adversely affect the rights and powers, including voting rights, of those holders and may have the effect of delaying, deterring or preventing a change in control of our Company.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as

Notes to Financial Statements

December 31, 2017

Note 1: Organization and Business

Organization and Nature of Business

Genius Brands International, Inc. (“we”, “us”, “our”, or the “Company”) is a global content and brand management company that creates and licenses multimedia content. Led by industry veterans, the Company distributes its content in all formats as well as a broad range of consumer products based on its characters. In the children's media sector, the Company’s portfolio features “content with a purpose” for toddlers to tweens, which provides enrichment as well as entertainment including the award-winning *Baby Genius*; new preschool property *Rainbow Rangers*; preschool property *Llama Llama* that debuted on Netflix; tween music-driven brand *SpacePop*; adventure comedy *Thomas Edison's Secret Lab*® available on public broadcast stations and the Company’s Genius Brands Network on Comcast's Xfinity on Demand, Roku, AppleTV, and Amazon Prime; Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett. The Company is also developing an all-new adult-themed animated series, *Stan Lee's Cosmic Crusaders*, with Stan Lee's Pow! Entertainment and *The Hollywood Reporter*.

In addition, the Company acts as licensing agent for *Llama Llama*, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories.

The Company commenced operations in January 2006, assuming all the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC,

its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On November 4, 2016, the Company filed a certificate to change its Articles of Incorporation to effect a reverse split on a one-for-three basis (the “2016 Reverse Split”). The 2016 Reverse Split became effective on November 9, 2016. All common stock (“Common Stock”) share and per share information in this Annual Report on Form 10-K (“Form 10-K”), including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the 2016 Reverse Split, unless otherwise indicated.

Liquidity

Historically, the Company has incurred net losses. For the years ended December 31, 2017 and 2016, the Company reported net losses of \$4,908,736 and \$6,213,135, respectively. The Company reported net cash used in operating activities of \$7,186,870 and \$3,716,277 for the years ended December 31, 2017 and 2016, respectively. As of December 31, 2017, the Company had an accumulated deficit of \$41,551,497 and total stockholders’ equity of \$15,039,846. As of December 31, 2017, the Company had current assets of \$10,834,926, including cash, cash equivalents, and restricted cash of \$7,498,072 and current liabilities of \$3,718,647, including certain trade payables of \$925,000 to which the Company disputes the claim. The Company had working capital of \$7,116,279 as of December 31, 2017, compared to a working capital deficit of \$479,404 as of December 31, 2016.

During 2017, the Company completed three transactions that enhanced cash and working capital balances:

On January 10, 2017, the Company entered into an amendment of its home entertainment distribution agreement with Sony Pictures Home Entertainment Inc. (“SPHE”) pursuant to which, among other things, SPHE paid \$1,489,583 which was owed and payable by the Company to SPHE’s sister company Sony DADC US Inc. (“DADC”) for certain disk manufacturing and replication services. In connection with such transaction, the Company issued SPHE 301,231 shares of its common stock at \$4.945 per share, SPHE’s exclusive territory for exercising its home entertainment distribution rights under the Distribution Agreement was extended from the United States and Canada to worldwide, and the amount of advances subject to recoupment by SPHE out of royalty payments that would otherwise be due to the Company under the Distribution Agreement was increased by the amount of the payment to DADC. In connection with the above issuance of our shares, the Company entered into a subscription agreement with SPHE, effective as of January 17, 2017. Collectively, these transactions are referred to as the “January 2017 Sony Transactions.”

On February 9, 2017, the Company entered into a private transaction (the “Private Transaction”) pursuant to a Warrant Exercise Agreement (the “Agreement”) with certain holders of the Company’s existing warrants (the “Original Warrants”) for which it received gross proceeds of \$3,866,573 from the exercise of the Original Warrants and issued additional warrants to these holders (see Notes 9 and 11 for additional information about the Private Transaction).

On October 3, 2017, the Company sold, in a registered direct offering, 1,647,691 shares of common stock at an offering price of \$3.90 per share and, in a concurrent private placement, warrants to purchase an aggregate of 1,647,691 shares of common stock for gross proceeds of approximately \$6,425,995 before deducting the placement agent fee and related offering expenses.

Subsequent to the end of the year, on January 8, 2018, the Company entered into a Securities Purchase Agreement with certain accredited investors pursuant to which the Company sold approximately \$1,800,000 of common stock and warrants to such investors (the “January 2018 Private Placement”). The Company issued and sold warrants to purchase 592,000 shares of common stock at an exercise price of \$3.00 per share.

While the Company believes that its anticipated cash balances, working capital, and deal pipeline will be sufficient to fund operations for the next twelve months, there can be no assurance that cash flows from operations will continue to improve in the near future or will not deteriorate during that period. If the Company is unable to attain profitable operations and attain positive operating cash flows, it may need to (i) seek additional funding, (ii) scale back its development or production plans, or (iii) reduce certain operations.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The accompanying 2017 and 2016 consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared and Llama Productions as well as its interest in Stan Lee Comics, LLC (“Stan Lee Comics”). All significant inter-company balances and transactions have been eliminated in consolidation.

Business Combination

On November 15, 2013, the Company entered into a Merger Agreement with A Squared, the Parent Member, and the Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

The financial statements have been prepared using the acquisition method of accounting in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 805 Business Combinations.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these consolidated financial statements to conform to current period classifications.

Cash, Cash Equivalents, and Restricted Cash

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents. As of December 31, 2017 and 2016, restricted cash totaled \$568,673 and \$1,000,000 which represented funds held in a cash account to be used solely for the production of *Llama Llama* as a condition of its loan agreement with Bank Leumi USA.

Allowance for Doubtful Accounts

Accounts receivable are presented on the balance sheets net of estimated uncollectible amounts. The Company assesses its accounts receivable balances on a quarterly basis to determine collectability and records an allowance for estimated uncollectible accounts in an amount approximating anticipated losses based on historical experience and future expectations. Individual uncollectible accounts are written off against the allowance when collection of the individual accounts appears doubtful. The Company had an allowance for doubtful accounts of \$110,658 as of December 31, 2017 and December 31, 2016.

Inventories

Inventories are stated at the lower of average cost or net realizable value and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable by management in the period in which it is determined to be potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$26,097 as of December 31, 2017 and December 31, 2016.

Property and Equipment

Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from two to seven years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from any dispositions of property and equipment are reflected in the statement of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with FASB ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill or indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

The Company capitalizes production costs for episodic series produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates its capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Additionally, for both episodic series and films, from time to time, the Company develops additional content, improved animation and bonus songs/features for its existing content. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

The Company recognizes revenue in accordance with FASB ASC 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with a customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

The Company's licensing and royalty revenue represents revenue generated from license agreements that are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees. Licensing income the Company recognizes as an agent is in accordance with FASB ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

The Company sells advertising on its Genius Brands Network in the form of either flat rate promotions or impressions served. For flat rate promotions with a fixed term, the Company recognizes revenue when all five revenue recognition criteria under FASB ASC 605 are met. For impressions served, the Company delivers a certain minimum number of impressions on the channel to the advertiser for which the advertiser pays a contractual CPM per impression. Impressions served are reported to the Company on a monthly basis, and revenue is reported in the month the impressions are served.

The Company recognizes revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by FASB ASC 605 Revenue Recognition.

Direct Operating Costs

Direct operating costs include costs of our product sales, non-capitalizable film costs, film and television cost amortization expense, and participation expense related to agreements with various animation studios, post-production studios, writers, directors, musicians or other creative talent with which we are obligated to share net profits of the properties on which they have rendered services.

Share-Based Compensation

As required by FASB ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our share-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant. The Company has elected to use the graded attribution method for awards which are in-substance, multiple awards based on the vesting schedule.

Earnings Per Share

Basic earnings (loss) per common share (“EPS”) is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding for the period. Diluted EPS is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or “as converted” method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive.

Income Taxes

Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets, and records a valuation allowance that reduces the deferred tax assets to an amount that represents management’s best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Concentration of Risk

The Company’s cash is maintained at two financial institutions and from time to time the balances for this account exceed the Federal Deposit Insurance Corporation’s (“FDIC”) insured amount. Balances on interest bearing deposits at banks in the United States are insured by the FDIC up to \$250,000 per account. As of December 31, 2017, the Company had four accounts with a combined uninsured balance of \$6,471,928. As of December 31, 2016, the Company had three accounts with a combined uninsured balance of \$1,136,683.

For fiscal year 2017, the Company had one customer whose total revenue exceeded 10% of the total consolidated revenue. This customer accounted for 84% of total revenue and represented 98% of accounts receivable. For fiscal year 2016, the Company had one customer whose total revenue exceeded 10% of the total consolidated revenue. That customer accounted for 19% of total revenue but represented 0% accounts receivable.

The major customer for the year ended December 31, 2017 is not necessarily the same as the major customer at December 31, 2016. There is significant financial risk associated with a dependence upon a small number of customers. The Company periodically assesses the financial strength of these customers and establishes allowances

for any anticipated bad debt. At December 31, 2017 and 2016, no allowance for bad debt has been established for the major customers as these amounts are expected to be fully collectible.

Fair value of financial instruments

The carrying amounts of cash, receivables, accounts payable, and accrued liabilities approximate fair value due to the short-term maturity of the instruments. The carrying amount of long term receivables approximate fair value due to the contractual nature of the obligation, payment schedule, and the current interest and inflation rate environments. The carrying amount of the Production Loan Facility approximates fair value since the debt carries a variable interest rate that is tied to either the current Prime or LIBOR rates plus an applicable spread.

We previously adopted FASB ASC 820 for financial instruments measured at fair value on a recurring basis. FASB ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of non-financial assets unless those contracts are within the scope of other standards (e.g. insurance contracts). This ASU will supersede all revenue recognition requirements in Topic 605, Revenue Recognition, and industry-specific guidance throughout the industry topics of the codification. The guidance's core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the revenue principles, an entity will identify the contract(s) with a customer, identify the performance obligations, determine the transaction price, allocate the transaction price to the performance obligations and recognize revenue when the performance obligation is satisfied (either over time or at a point in time). The ASU further states that an entity should disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, the FASB issued ASU 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”, which approved a one-year deferral of the effective date of the ASU from the original effective date of annual reporting periods beginning after December 15, 2016, to annual reporting periods (including interim reporting periods) beginning after December 15, 2017, with an option for early adoption of the standard on the original effective date. Additionally, in March 2016, the FASB issued ASU 2016-08, “Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)”, which clarified the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, “Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing”, that amended the revenue guidance on identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU 2016-11 “Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 805): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016, EITF Meeting”, which rescinded from the FASB Accounting Standards Codification certain SEC paragraphs as a result of two SEC Staff Announcements. The FASB also issued ASU 2016-12 “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients”, which clarified guidance on assessment of collectability, presentation of sale taxes, measurement of noncash consideration, and certain transition matters.

During 2017, the Company initiated and executed a project to evaluate the impact of these changes, which included a review of existing contracts with customers, an evaluation of the specific terms of those contracts and the appropriate treatment under the new standards, and a comparison of that new treatment to the Company’s existing accounting policies, to identify differences. The standard will be applied using the modified retrospective approach where the Company will record a cumulative effect adjustment as of the date of adoption, January 1, 2018.

The Company performed its analysis of its existing revenue contracts and has substantially completed its new revenue accounting policy documentation under the new standard. The Company has identified the following six material and distinct performance obligations:

License rights to exploit Functional Intellectual Property (Functional Intellectual Property or “functional IP” is defined as intellectual property that has significant standalone functionality for example ability be played or aired. Functional intellectual property derives a substantial portion of its utility from its significant standalone functionality.)

License rights to exploit Symbolic Intellectual Property (Symbolic Intellectual Property or “symbolic IP” is intellectual property that is not functional as it does not have significant standalone use and substantially all of the utility of symbolic IP is derived from its association with the entity’s past or ongoing activities, including its ordinary business activities for example the Company’s licensing and merchandising programs associated with its animated content.)

Options to renew or extend a contract at fixed terms. (While this performance obligation is not significant for the Company’s current contracts, it could become significant in the future.)

Options on future seasons of content at fixed terms. (While this performance obligation is not significant for the Company’s current contracts, it could become significant in the future.)

- Fixed fee advertising revenue generated from the Genius Brands Network
- Variable fee advertising revenue generated from the Genius Brands Network

As a result of the change, beginning January 1, 2018, the Company will begin recognizing revenue related to licensed rights to exploit functional IP in two ways. For minimum guarantees, the Company will recognize fixed revenue upon delivery of content and the start of the license period. For functional IP contracts with a variable component, the Company will estimate revenue such that it is probable there will not be a material reversal of revenue in future periods. Revenue under these types of contracts was previously recognized when royalty statements were received. The Company will begin recognizing revenue related to licensed rights to exploit symbolic IP substantially similarly to functional IP. Although it has a different recognition pattern from functional IP, the valuation method is substantially the same, depending on the nature of the license.

The Company is in the process of preparing the transition adjustment that will be reflected in its March 31, 2018 quarterly financial statements. The Company expects that disclosure contained in the notes to the consolidated financial statements relating to revenue recognition will expand under the new standard. The Company is evaluating the new disclosure requirements, including any necessary changes to business processes, systems, and controls to support the additional required disclosures.

The Company is also currently evaluating the potential impact on the Company's internal control over financial reporting to identify any necessary changes.

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases." The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update 2016-18, "Statement of Cash Flows - Restricted Cash a consensus of the FASB Emerging Issues Task Force." This standard requires restricted cash and cash equivalents to be included with cash and cash equivalents on the statement of cash flows under a retrospective transition approach. The guidance will become effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We have prospectively adopted ASU 2016-18 in our 2017 financial statements. Our 2016 financial statements have been reclassified to reflect the current year adoption.

In January 2017, the FASB issued Accounting Standards Update 2017-04, "Simplifying the Test for Goodwill Impairment", which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit's carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates Step 2 of the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017 permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2017, the FASB issued Accounting Standard Update 2017-09, "Compensation-Stock Compensation: Scope of Modification Accounting", which clarifies which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. Under the new guidance, modification accounting is required if the fair value, vesting conditions or classification (equity or liability) of the new award are different from the original award immediately before the original award is modified. The standard is effective beginning January 1, 2018, with early adoption permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries/transactions or special circumstances, and are not expected to have a material effect on our financial position, results of operations, or cash flows.

Pursuant to FASB ASC 350-20, Goodwill is not subject to amortization but is subject to annual review to determine if certain events warrant impairment to the Goodwill asset. Through December 31, 2017, the Company has not recognized any impairment to Goodwill.

Intangible Assets, Net

The Company had the following intangible assets as of December 31, 2017 and 2016:

Based on certain legal, regulatory, contractual, and economic factors, the Company has (a) deemed these assets to be indefinite-lived. Hence, pursuant to FASB ASC 350-30, these assets are not subject to amortization and are tested annually for impairment. Through December 31, 2017, the Company has not recognized any impairment expense related to these assets.

Pursuant to FASB ASC 350-30-35, the Company reviews these intangible assets periodically to determine if the (b) value should be retired or impaired due to recent events. Through December 31, 2017, the Company has not recognized any impairment expense related to these assets.

The Company recognizes revenue related to these contracts when all revenue recognition criteria have been met. Included in the deferred revenue balance as of December 31, 2016 is the \$2,000,000 advance against future royalty that Sony paid to the Company in the first quarter of 2016. Included in the deferred revenue balance as of December 31, 2017 is the \$2,000,000 advance against future royalties that Sony paid to the Company in the first quarter of 2016 as well as \$1,489,583 attributable to the expansion of distribution rights acquired by Sony through the January 2017 Sony Transactions.

(b) As part of the Merger in 2013, the Company assumed certain liabilities from a previous member of A Squared which has claimed certain liabilities totaling \$925,000. The Company disputes the basis for this liability. As of December 31, 2017, the Company believes that the statute of limitations applicable to the assertion of any legal claim relating to the collection of these liabilities has expired and therefore believes this liability is uncollectible.

(c) During the first quarter of 2014, the Company entered into an exclusive three-year agreement with DADC to provide all CD, DVD and Blu-ray replication, packaging and distribution to the Company's direct customers. Under the terms of the long-term, exclusive supply chain services agreement, the Company will order a minimum level of disk replication, packaging and distribution services for its content across all physical media, including DVD, CD, and Blu-ray from DADC. As consideration for these minimum order levels, the Company received a total of

\$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015. At the end of the term, the Company is obligated to repay a pro-rata portion of the advance if it has not ordered a minimum number of DVD/CD units during the term. On January 10, 2017, the Company entered into an amendment of our home entertainment Distribution Agreement with Sony pursuant to which, among other things, Sony paid DADC \$1,489,583, which was the total sum owed and payable by us to DADC for the disk replication, packaging and distribution services. In connection with such transaction, we issued Sony 301,231 shares of our common stock at \$4.945 per share, Sony's exclusive territory for exercising its home entertainment distribution rights under the Distribution Agreement was extended from the United States and Canada to worldwide, and the amount of advances subject to recoupment by Sony out of royalty payments that would otherwise be due to us under the Distribution Agreement was increased by the amount of the payment to DADC.

Other Accrued Expenses include estimates of expenses incurred but not yet recorded. The increase in Other (d) Accrued Expenses from the year ended December 31, 2016 to December 31, 2017 relates to estimates of final dubbing costs and participation expense related to our *Llama Llama* property.

Note 8: Production Loan Facility

On August 8, 2016, Llama Productions closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the “Facility”) with Bank Leumi USA to produce its animated series *Llama Llama*, (the “Series”) which is configured as fifteen half-hour episodes comprised of thirty 11-minute programs which were delivered to Netflix in the fourth quarter of 2017. The Facility is secured by the license fees the Company will receive from Netflix for the delivery of the Series as well as the Company’s copyright in the Series. The Facility has a term of 40 months through December 2019 and has an interest rate of either Prime plus 1% or one, three, or six-month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, the Company deposited \$1,000,000 into a cash account to be used solely to produce the Series. During the fourth quarter of 2017, the Facility was reduced from \$5,275,000 to \$4,843,416 and a portion of the collateral was released to the Company leaving \$568,673 in restricted cash as of December 31, 2017. Additionally, the Facility contains certain standard affirmative and negative non-financial covenants such as maintaining certain levels of production insurance and providing standard financial reports. As of December 31, 2017, the Company was in compliance with these covenants.

As of December 31, 2017, the Company had gross outstanding borrowing under the facility of \$4,436,528 against which financing costs of \$113,885 were applied resulting in net borrowings of \$4,322,643. On October 6, 2016, the Board of Directors of the Company authorized a reverse stock split in preparation for the Company's anticipated uplisting on the NASDAQ Capital Market.

On November 4, 2016, the Company filed a certificate of change to the Company's Articles of Incorporation with the Secretary of State of the State of Nevada to effect a one-for-three reverse stock split of the Company's issued and outstanding common stock. As a result of the 2016 Reverse Split, every three shares of the Company's issued and outstanding common stock were automatically combined and reclassified into one share of the Company's common stock. The 2016 Reverse Split affected all issued and outstanding shares of common stock, as well as common stock underlying stock options and warrants outstanding. No fractional shares were issued in connection with the 2016 Reverse Split. Stockholders who would otherwise have held a fractional share of common stock received an increase to their common stock as the common stock was rounded up to a full share. The total number of authorized shares of common stock was reduced from 700,000,000 to 233,333,334 in conjunction with the 2016 Reverse Split. The 2016 Reverse Split became effective on November 9, 2016. All disclosures of shares and per share data in these consolidated financial statements and related notes have been retroactively adjusted to reflect the reverse stock split for all periods presented.

On February 9, 2017, the Company entered into the Private Transaction pursuant to the Agreement with certain holders of the Original Warrants. Pursuant to the Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants. (See Note 11 for additional information about these warrants.) In association with the Private Transaction, the Company issued 1,171,689 shares of common stock upon exercise of a portion of the Original Warrants for which it received gross proceeds of \$3,866,573 and recording offering costs of \$464,649 for net proceeds of \$3,401,924.

On January 17, 2017, we issued to a consultant 10,112 shares of our common stock at \$4.945 per share in connection with the January 2017 Sony Transactions.

On February 9, 2017, the Company issued 1,171,689 shares of common stock in connection with the Private Transaction.

On March 14, 2017, the Company issued 8,410 shares of common stock valued at \$5.95 per share to a consultant for services rendered.

On August 1, 2017, the Company issued 6,012 shares of common stock valued at \$4.99 per share to a consultant for services rendered.

On October 3, 2017, the Company sold, in a registered direct offering, 1,647,691 shares of common stock at an offering price of \$3.90 per share and, in a concurrent private placement, warrants to purchase an aggregate of 1,647,691 shares of common stock for gross proceeds of approximately \$6,425,995 before deducting the placement agent fee and related offering expenses.

On various dates during the year ended December 31, 2017, the Company issued 455,000 shares of the Company's common stock pursuant to the conversion of 1,365 shares of Series A Convertible Preferred Stock at a conversion price of \$3.00.

Preferred Stock

The Company has 10,000,000 shares of preferred stock authorized with a par value of \$0.001 per share. The Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

As of December 31, 2017 and 2016, there were 3,530 and 4,895 shares of Series A Convertible Preferred Stock outstanding, respectively.

On May 12, 2014, the Board of Directors authorized the designation of a class of preferred stock as “Series A Convertible Preferred Stock”. On May 14, 2014, the Company filed the Certificate of Designation, Preferences and Rights of the 0% Series A Convertible Preferred Stock with the Secretary of State of the State of Nevada.

Each share of the Series A Convertible Preferred Stock is convertible into shares of the Company’s common stock, par value \$0.001 per share, based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Convertible Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Convertible Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Convertible Preferred Stock to the extent that as a result of such conversion, the investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company’s common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Convertible Preferred Stock. The shares of Series A Convertible Preferred Stock possess no voting rights.

On May 14, 2014, we entered into securities purchase agreements with certain accredited investors pursuant to which we sold an aggregate of 6,000 shares of our then newly designated Series A Convertible Preferred Stock at a price of \$1,000 per share for gross proceeds to us of \$6,000,000. Related to the sale, we incurred offering costs of \$620,085 resulting in net proceeds of \$5,379,915. The transaction closed on May 15, 2014.

As the conversion price of the Series A Convertible Preferred Stock on a converted basis was below the market price of the common stock on the closing date, this resulted in a beneficial conversion feature recorded as an “imputed” dividend of \$2,010,000. In addition, during the fourth quarter of 2015, in connection with the 2015 Private Placement in which the Company’s common stock was sold at \$3.00 per share, the conversion price of the Series A Convertible Preferred Stock decreased to \$3.00. This decrease resulted in an additional beneficial conversion feature of \$3,383,850 recognized as of the time of the 2015 Private Placement. In the future, issuance of common stock or the grant of any rights to purchase our common stock or other securities convertible into our common stock for a per share price less than the then existing conversion price of the Series A Convertible Preferred Stock would result in an adjustment to the then current conversion price of the Series A Convertible Preferred Stock. This reduction would give rise to a beneficial conversion feature recorded as an “imputed” dividend.

Note 10: Stock Options

Exercisable December 31, 2017	1,070,869	\$2.82 - 9.00	2.96 years	\$ -	\$ 7.44

During the year ended December 31, 2015, the Company granted options to purchase 1,407,775 shares of common stock to officers, directors, employees, and consultants. These stock options generally vest between one and three years, while a portion vested upon grant. The fair value of these options was determined to be \$2,402,460 using the Black-Scholes option pricing model based on the following assumptions:

Exercise Price	\$2.82 - \$12.00
Dividend Yield	0%
Volatility	100% - 137%
Risk-free interest rate	0.89% - 1.25%
Expected life of options	2.5 - 3.5 years

During the first quarter of 2016, the Company recognized \$220,564 of true-up expenses from prior periods which reflected certain revisions meant to (i) align with the graded vesting of the majority of the options granted in 2015, (ii) make adjustments in certain accounting estimates utilized in the Black-Scholes model, and (iii) reflect the accurate number of options granted in 2015. The Company assessed these adjustments individually and in aggregate and considers them immaterial to the prior periods.

During the years ended December 31, 2017 and 2016, the Company recognized \$663,958 and \$1,581,797 in share-based compensation expense, respectively. The unvested share-based compensation as of December 31, 2017 was \$128,269 which will be recognized through the second quarter of 2019 assuming the underlying grants are not cancelled or forfeited.

Note 11: Warrants

The Company has warrants outstanding to purchase up to 3,414,389 and 1,651,698 at December 31, 2017 and 2016, respectively.

In connection with the sale of the Company's Series A Convertible Preferred Stock in May 2014, Chardan Capital Markets LLC ("Chardan") acted as sole placement agent in consideration for which it received a cash fee of \$535,000 and a warrant to purchase up to 100,002 shares of the Company's common stock. These warrants are exercisable immediately, have an exercise price of \$6.00 per share, and have a five-year term.

In connection with the 2015 Private Placement, the Company issued to accredited investors the Original Warrants to purchase up to an aggregate of 1,443,362 shares of common stock for a purchase price of \$3.00 per share. The Original Warrants are exercisable into shares of common stock for a period of five (5) years from issuance at an initial exercise price of \$3.30 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. The Original Warrants are exercisable immediately. The Company is prohibited from effecting an exercise of the warrants to the extent that as a result of such exercise, the holder would beneficially own more than 4.99% (subject to increase up to 9.99% upon 61 days' notice) in the aggregate of the issued and outstanding shares of common stock, calculated immediately after giving effect to the issuance of shares of common stock upon exercise of the warrant.

In connection with the 2015 Private Placement, Chardan acted as sole placement agent in consideration for which it received a cash fee of \$300,000 and a warrant to purchase up to 141,668 shares of the Company's common stock. These warrants are exercisable immediately, have an exercise price of \$3.60 per share, and have a five-year term.

On February 9, 2017, the Company entered into the Private Transaction pursuant to the Agreement with certain holders of the Original Warrants. Pursuant to the Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants, with the new warrants being identical to the Original Warrants except that the termination date of such new warrants is February 10, 2022 (the "Reload Warrants"). In addition, depending on the number of Original Warrants exercised by all holders of the Original Warrants, the Company also agreed to issue to the holders another new warrant, identical to the Original Warrant except that the exercise price of such warrant is \$5.30 and such warrant is not exercisable until August 10, 2017 (the "Market Price Warrants" and together with the Reload Warrants, the "New Warrants").

The Company received gross proceeds of \$3,866,573 from the exercise of the Original Warrants and issued Reload Warrants to purchase an aggregate of 799,991 shares of the Company's common stock and Market Price Warrants to purchase an aggregate of 371,699 shares of the Company's common stock. In association with the Private Transaction, the Company recorded \$1,402,174, representing the difference in the fair market value of the Original Warrants and the New Warrants, as an adjustment to additional paid-in capital.

Chardan acted as financial advisor on the Private Transaction in consideration for which Chardan received \$363,617, Chardan and its designees were issued New Warrants for 115,000 shares of the Company's common stock.

On October 3, 2017, the Company sold, in a registered direct offering, 1,647,691 shares of common stock at an offering price of \$3.90 per share and, in a concurrent private placement, warrants to purchase an aggregate of 1,647,691 shares of common stock for gross proceeds of approximately \$6,425,995 before deducting the placement agent fee and related offering expenses.

Note 12: Income Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Net deferred tax liabilities consist of the following components as of December 31, 2017 and 2016:

	2017	2016
Deferred tax assets:		
NOL Carryover	\$6,406,000	\$7,544,300
Bad Debt Reserve	31,000	44,100
Inventory Reserve	7,300	10,400
Amortization	(20,200)	61,500
Accrued Compensated Absences	46,100	52,900
Charitable Contributions	3,500	5,000
Subtotal	6,473,700	7,718,200
Valuation Allowance	(6,458,800)	(7,647,300)
Deferred tax liabilities:		
Depreciation	3,700	(42,700)
Prepaid Expenses	(18,600)	(28,200)
Net Deferred Tax Asset	\$-	\$-

The income tax provision differs from the amount of income tax determined by applying the U.S. federal tax rate to pretax income from continuing operations for the years ended December 31, 2017 and 2016 due to the following:

	2017	2016
Book Loss	\$(1,669,000)	\$(2,113,000)
Meals and Entertainment	10,600	10,300
Stock Options	225,700	537,800
Tax Rate Change	2,809,700	-
Other	1,600	4,700
Valuation Allowance	(1,378,600)	1,560,200
	\$-	\$-

At December 31, 2017, the Company had net operating loss carry forwards of approximately \$23,363,000 that may be offset against future taxable income from the year 2018 through 2037. No tax benefit has been reported in the December 31, 2017 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carry forwards may be limited as to use in future years.

The Company accounts for income taxes in accordance with Accounting Standards Codification Topic 740, Income Taxes ("Topic 740"), which requires the recognition of deferred tax liabilities and assets at currently enacted tax rates for the expected future tax consequences of events that have been included in the financial statements or tax returns. A valuation allowance is recognized to reduce the net deferred tax asset to an amount that is more likely than not to be realized.

Topic 740 provides guidance on the accounting for uncertainty in income taxes recognized in a company's financial statements. Topic 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.

The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operation in the provision for income taxes. As of December 31, 2017, the Company had no accrued interest or penalties related to uncertain tax positions.

On December 22, 2017, the United States federal government enacted the Tax Cuts and Jobs Act (the "2017 Act"). The 2017 Act will have pervasive financial reporting implications for all companies with U.S. operations, including reduction of the U.S. federal corporate tax rate from 35 percent to 21 percent. We reviewed and incorporated the new tax bill implications through 2017 financial statements. We remeasured the deferred taxes at new corporation rate of 21%, which reduced the net deferred tax assets, before valuation allowance, by approximately \$2,809,700. Due to full valuation allowance, the change in deferred taxes was fully offset by the change in valuation allowance. The 2017 Act has no significant impact on the 2017 financial statements.

Due to the complexities of the 2017 Act, the SEC issued Staff Accounting Bulletin No. 118 to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the 2017 Act. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed. Any subsequent adjustment to these amounts will be recorded to current tax expense in 2018 when the analysis is complete.

The Company files income tax returns in the U.S. federal jurisdiction and in the state of California. The Company is currently subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities since inception of the Company.

Note 13: Commitments and Contingencies

The Company has various contractual obligations, which are recorded as liabilities in our consolidated financial statements. Other items, such as certain purchase commitments and other executory contracts are not recognized as liabilities in our consolidated financial statements but are required to be disclosed in the footnotes to the financial statements. For example, the Company is contractually committed to make certain minimum lease payments for the use of property under its operating lease. In addition, the Company has contractual commitments for employment agreements of certain employees.

During the first quarter of 2015, the Company entered into an agreement for new office space to which it relocated its operations upon the expiration of its prior lease. Effective May 1, 2015, the Company began leasing approximately 3,251 square feet of general office space at 301 North Canon Drive, Suite 305, Beverly Hills, California 90210 pursuant to a 35-month sub-lease that commenced on May 1, 2015. The Company will pay \$136,542 annually, subject to annual escalations of 3%.

Rental expenses incurred for operating leases during the years ended December 31, 2017 and 2016 were \$143,451 and \$140,144, respectively.

The following is a schedule of future minimum contractual obligations as of December 31, 2017, under the Company's operating leases and employment agreements:

	2018
Operating Leases	\$36,214
Employment Contracts	580,413
Total	\$616,627

In addition to employment agreements and operating leases, in the normal course of its business, the Company enters into various agreements associated with its individual properties. Some of these agreements call for the potential future payment of royalties or “profit” participations for either (i) the use of third party intellectual property, such as the case with *Stan Lee and the Mighty 7* and *Llama Llama* among others, in which the Company is obligated to share net profits with the underlying rights holders on a certain basis as defined in the respective agreements or (ii) services rendered by animation studios, post-production studios, writers, directors, musicians or other creative talent for which the Company is obligated to share with these service providers a portion of the net profits of the properties on which they have rendered services, as defined in each respective agreement.

Additionally, other agreements contain options to acquire rights to intellectual property and would require payment to the rights holders contingent upon the Company securing minimum production, broadcast, or other financing commitments from third parties.

Lastly, for its Genius Brands Network, the Company licenses content for exhibition for which the Company is obligated to pay between 35% and 100% of revenues from the channel allocated to the aforementioned content after the deduction of certain direct operating expenses.

Mr. Heyward

reimbursed the Company \$1,504 subsequent to the end of the period. As of December 31, 2016, Mr. Heyward owed the Company a total of \$1,248 for personal expenses paid by the Company requiring reimbursement. Mr. Heyward reimbursed the Company \$1,248 during the first quarter of 2017.

Notes to Condensed Financial Statements

March 31, 2018 (unaudited)

Note 1: Organization and Business -

Organization and Nature of Business

Genius Brands International, Inc. (“we,” “us,” “our,” or the “Company”) is a global content and brand management company that creates and licenses multimedia content. Led by proven industry leaders, the Company distributes its content in all formats as well as a broad range of consumer products based on its characters. In the children's media sector, the Company's portfolio features “content with a purpose” for toddlers to tweens, which provides enrichment as well as entertainment, including the award-winning *Baby Genius*, new preschool property *Rainbow Rangers*, debuting November 5, 2018 on Nickelodeon; preschool property *Llama Llama*; that debuted on Netflix in December 2017 and has already been picked up by Netflix for a second season; tween music-driven brand *SpacePop*; adventure comedy *Thomas Edison's Secret Lab*®, available on, public broadcast stations and the Company's Genius Brands Network on Comcast's Xfinity on Demand, AppleTV, Roku, Amazon Fire, You Tube and Amazon Prime; Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett. The Company also has a partnership with Stan Lee's Pow! Entertainment which it manages for creation, production, licensing and management of original Stan Lee superhero programs.

In addition, the Company acts as licensing agent for Llama Llama, leveraging its existing licensing infrastructure to expand this brand into new product categories, new retailers, and new territories.

The Company commenced operations in 2006, assuming all the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In 2011, the Company reincorporated in Nevada and changed its name to Genius Brands International, Inc. In connection with the Reincorporation, the Company changed its trading symbol to “GNUS.”

In 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a

California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions, A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company.

On November 4, 2016, the Company filed a certificate to change its Articles of Incorporation to effect a reverse split on a one-for-three basis (the “2016 Reverse Split”). The 2016 Reverse Split became effective on November 9, 2016. All common stock share and per share information in this Quarterly Report on Form 10-Q (“Form 10-Q”), including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the 2016 Reverse Split, unless otherwise indicated.

Liquidity

Historically, the Company has incurred net losses. For the three months ended March 31, 2018 and March 31, 2017, the Company reported net losses of \$1,263,464 and \$1,316,234 respectively. The Company reported net cash used in operating activities of \$1,214,107 and \$2,346,210 for the three months ended March 31, 2018, and March 31, 2017, respectively. As of March 31, 2018, the Company had an accumulated deficit of \$42,641,849 and total stockholders’ equity of \$15,593,687. At March 31, 2018, the Company had current assets of \$8,854,964, including cash, cash equivalents, and restricted cash of \$6,223,310 and current liabilities of \$4,258,470, including certain trade payables of \$925,000 to which the Company disputes the claim. The Company had working capital of \$4,596,494 as of March 31, 2018 compared to working capital of \$7,116,279 as of December 31, 2017.

On January 8, 2018, the Company entered into a Securities Purchase Agreement with certain accredited investors pursuant to which the Company sold approximately \$1,800,000 of common stock and warrants to such investors (the “January 2018 Private Placement”). The Company issued and sold warrants to purchase 592,000 shares of common stock at an exercise price of \$3.00 per share.

While the Company believes that its cash balances and working capital combined with its production facility and deal pipeline will be sufficient to fund operations for the next twelve months, there can be no assurance that cash flows from operations will continue to improve in the near future. If the Company is unable to attain profitable operations and attain positive operating cash flows, it may need to (i) seek additional funding, (ii) scale back its development or production plans, or (iii) reduce certain operations.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The accompanying 2018 and 2017 condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared and Llama Productions as well as its interest in Stan Lee Comics, LLC (“Stan Lee Comics”). All significant inter-company balances and transactions have been eliminated in consolidation.

The financial statements have been prepared using the acquisition method of accounting in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 805 Business Combinations.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these condensed consolidated financial statements to conform to current period classifications.

Cash, Cash Equivalents, and Restricted Cash

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents. As of March 31, 2018, and 2017 Restricted Cash totaled \$237 and \$568,673 respectively, which represents funds held in a cash account to be used solely for the production of *Llama Llama* as a condition of its loan agreement with Bank Leumi USA.

Allowance for Doubtful Accounts

Accounts receivable are presented on the balance sheets net of estimated uncollectible amounts. The Company assesses its accounts receivable balances on a quarterly basis to determine collectability and records an allowance for estimated uncollectible accounts in an amount approximating anticipated losses based on historical experience and future expectations. Individual uncollectible accounts are written off against the allowance when collection of the individual accounts appears doubtful. The Company had an allowance for doubtful accounts of \$110,658 as of both March 31, 2018 and December 31, 2017.

Inventories

Inventories are stated at the lower of average cost or net realizable value and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$26,097 at both March 31, 2018 and December 31, 2017.

Property and Equipment

Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from two to seven years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from any dispositions of property and equipment are reflected in the statement of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with FASB ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which

we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill or indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

The Company capitalizes production costs for episodic series produced in accordance with FASB ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with FASB ASC 926-20 Entertainment - Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates its capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Additionally, for both episodic series and films, from time to time, the Company develops additional content, improved animation and bonus songs/features for its existing content. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

On January 1, 2018, the Company adopted the new accounting standard ASC 606 (Topic 606), Revenue from Contracts with Customers and all the related amendments (“new revenue standard”) using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under ASC 605, (Topic 605).

Accordingly, on January 1, 2018 the Company recorded a cumulative effect adjustment to beginning accumulated deficit in the amount of \$173,112. The impact to our financial statements for the three months ended March 31, 2018 resulting from the adoption of Topic 606 as of January 1, 2018 was a reduction of revenue in the amount \$68,184 and a corresponding reduction in costs in the amount of \$10,099 from the amounts reported. The amounts prior to adoption were not recognized pursuant to Topic 606 and would have been reported pursuant to Topic 605.

Changes to the opening balances in prepaid and other assets, film and television costs, total assets, accrued expenses, deferred revenue and total liabilities resulting from the adoption of the new guidance were as follows (thousands):

	December 31, 2017	Impact of Adoption	January 1, 2018
Prepaid and Other Assets	\$ 265	\$ (15)	\$ 250
Film and Television Costs, net	2,777	(219)	2,558
Total assets	27,713	(234)	27,479
Accrued Expenses	1,718	2	1,720
Deferred Revenue	5,085	(409)	4,676

Total liabilities	12,673	(407)	12,266
-------------------	--------	--------	--------

The Company performed its analysis of its existing revenue contracts and has completed its new revenue accounting policy documentation under the new standard. The Company has identified the following six material and distinct performance obligations:

- License rights to exploit Functional Intellectual Property (Functional Intellectual Property or “functional IP” is defined as intellectual property that has significant standalone functionality, such as the ability be played or aired. Functional intellectual property derives a substantial portion of its utility from its significant standalone functionality.)

- License rights to exploit Symbolic Intellectual Property (Symbolic Intellectual Property or “symbolic IP” is intellectual property that is not functional as it does not have significant standalone use and substantially all of the utility of symbolic IP is derived from its association with the entity’s past or ongoing activities, including its ordinary business activities, such as the Company’s licensing and merchandising programs associated with its animated content.)

- Options to renew or extend a contract at fixed terms. (While this performance obligation is not significant for the Company’s current contracts, it could become significant in the future.)

- Options on future seasons of content at fixed terms. (While this performance obligation is not significant for the Company’s current contracts, it could become significant in the future.)

- Fixed fee advertising revenue generated from the Genius Brands Network

- Variable fee advertising revenue generated from the Genius Brands Network

As a result of the change, beginning January 1, 2018, the Company began recognizing revenue related to licensed rights to exploit functional IP in two ways. For minimum guarantees, the Company recognizes fixed revenue upon delivery of content and the start of the license period. For functional IP contracts with a variable component, the Company estimates revenue such that it is probable there will not be a material reversal of revenue in future periods. Revenue under these types of contracts was previously recognized when royalty statements were received. The Company began recognizing revenue related to licensed rights to exploit symbolic IP substantially similarly to functional IP. Although it has a different recognition pattern from functional IP, the valuation method is substantially the same, depending on the nature of the license.

The Company sells advertising on its Kid Genius channel in the form of either flat rate promotions or impressions served. For flat rate promotions with a fixed term, the Company recognizes revenue when all five revenue recognition criteria under FASB ASC 606 are met. For impressions served, the Company delivers a certain minimum number of impressions on the channel to the advertiser for which the advertiser pays a contractual CPM per impression. Impressions served are reported to the Company on a monthly basis, and revenue is reported in the month the impressions are served.

The Company recognizes revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer.

Direct Operating Costs

Direct operating costs include costs of our product sales, non-capitalizable film costs, film and television cost amortization expense, and participation expense related to agreements with various animation studios, post-production studios, writers, directors, musicians or other creative talent with which we are obligated to share net profits of the properties on which they have rendered services.

Share-Based Compensation

As required by FASB ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our share-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant. The Company has elected to use the graded attribution method for awards which are in-substance, multiple awards based on the vesting schedule.

Earnings Per Share

Basic earnings (loss) per common share (“EPS”) is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding for the period. Diluted EPS is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or “as converted” method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive.

Income Taxes

Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets and records a valuation allowance that reduces the deferred tax assets to an amount that represents management’s best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Concentration of Risk

The Company's cash is maintained at two financial institutions and from time to time the balances for this account exceed the Federal Deposit Insurance Corporation's ("FDIC") insured amount. Balances on interest bearing deposits at banks in the United States are insured by the FDIC up to \$250,000 per account. As of March 31, 2018, the Company had three accounts with a combined uninsured balance of \$5,723,310. As of December 31, 2017, the Company had four accounts with a combined uninsured balance of \$6,998,072.

For the three months ended March 31, 2018, the Company had two customers whose total revenue each exceeded 10% of the total consolidated revenue. The Company had one customer who accounted for 98% of accounts receivable balance as of March 31, 2018.

Fair value of financial instruments

The carrying amounts of cash, receivables, accounts payable, and accrued liabilities approximate fair value due to the short-term maturity of the instruments. The carrying amount of the Production Loan Facility approximates fair value since the debt carries a variable interest rate that is tied to either the current Prime or LIBOR rates plus an applicable spread.

We adopted FASB ASC 820 as of January 1, 2008, for financial instruments measured at fair value on a recurring basis. FASB ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and

Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases." The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In November 2016, the FASB issued Accounting Standards Update 2016-18, "Statement of Cash Flows - Restricted Cash a consensus of the FASB Emerging Issues Task Force." This standard requires restricted cash and cash equivalents to be included with cash and cash equivalents on the statement of cash flows under a retrospective transition approach. The guidance will become effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. Early adoption is permitted. We have prospectively adopted ASU 2016-18 in our 2017 financial statements. The impact to our consolidated financial position, results of operations and cash flows was minimal.

In January 2017, the FASB issued Accounting Standards Update 2017-04, "Simplifying the Test for Goodwill Impairment," which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit's carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates Step 2 of the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017 permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2017, the FASB issued Accounting Standard Update 2017-09, “Compensation-Stock Compensation: Scope of Modification Accounting,” which clarifies which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. Under the new guidance, modification accounting is required if the fair value, vesting conditions or classification (equity or liability) of the new award are different from the original award immediately before the original award is modified. The standard is effective beginning January 1, 2018, with early adoption permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries and are not expected to have a material effect on our financial position, results of operations, or cash flows.

As of March 31, 2018, the Company had net Film and Television Costs of \$4,336,217 compared to \$2,777,088 at December 31, 2017. The increase relates primarily to the production and development of *Rainbow Rangers* offset by the amortization of film costs associated with the revenue recognized for *Thomas Edison's Secret Lab*, *SpacePop* and

Llama Llama.

During the three months ended March 31, 2018 and 2017, the Company recorded Film and Television Cost amortization expense of \$26,738 and \$4,605, respectively.

The following table highlights the activity in Film and Television Costs of March 31, 2018, and December 31, 2017:

	Total

Note 5: Goodwill and Intangible Assets, Net*Goodwill*

In connection with the Merger in 2013, the Company recognized \$10,365,805 in Goodwill, representing the excess of the fair value of the consideration for the Merger over net identifiable assets acquired. Pursuant to FASB ASC 350-20, Goodwill is not subject to amortization but is subject to annual review to determine if certain events warrant impairment to the Goodwill asset. Through March 31, 2018, the Company has not recognized any impairment to Goodwill.

Intangible Assets, Net

The Company had the following intangible assets as of March 31, 2018, and December 31, 2017:

In connection with the Merger in 2013, the Company acquired \$1,740,000 of Identifiable Artistic-Related Assets. These assets, related to certain properties owned by A Squared and assumed by the Company, were valued using an independent firm. Based on certain legal, regulatory, contractual, and economic factors, the Company has

(a) deemed these assets to be indefinite-lived. Hence, pursuant to FASB ASC 350-30, these assets are not subject to amortization and are tested annually for impairment. Through March 31, 2018, the Company has not recognized any impairment expense related to these assets.

Pursuant to FASB ASC 350-30-35, the Company reviews these intangible assets periodically to determine if the

(b) value should be retired or impaired due to recent events. Through March 31, 2018, the Company has not recognized any impairment expense related to these assets.

(c) During the three months ended March 31, 2018 and March 31, 2017, the Company recognized \$12,999 and \$17,697, respectively, in amortization expense related to the Trademarks, Product Masters, and Other Intangible

Assets.

Deferred revenue includes both (i) variable fee contracts with licensees and customers in which the Company had collected advances and minimum guarantees against future royalties and (ii) fixed fee contracts. The Company recognizes revenue related to these contracts when all revenue recognition criteria have been met. Included in the deferred revenue balance as of March 31, 2018 and December 31, 2017 is the \$2,000,000 advance against future royalty that Sony paid to the Company in the first quarter of 2016 as well as the remaining portion of the \$1,489,583 attributable to the expansion of distribution rights acquired by Sony through the January 2017 Sony Transactions.

Note 7: Accrued Liabilities – Current

As of March 31, 2018, and December 31, 2017, the Company has the following current accrued liabilities:

	March 31, 2018	December 31, 2017
Accrued Salaries and Wages (a)	\$174,227	\$168,549
Disputed Trade Payables (b)	925,000	925,000
Other Accrued Expenses (c)	2,405,987	1,717,970
Total Accrued Liabilities - Current	\$3,505,214	\$2,811,519

(a) Accrued Salaries and Wages represent accrued vacation payable to employees.

(b) As part of the Merger in 2013, the Company assumed certain liabilities from a previous member of A Squared which has claimed certain liabilities totaling \$925,000. The Company disputes the basis for this liability. As of March 31, 2018, the Company believes that the statute of limitations applicable to the assertion of any legal claim relating to the collection of these liabilities has expired and therefore believes this liability is uncollectible.

(c) Other Accrued Expenses include estimates of expenses incurred but not yet recorded.

Note 8: Production Loan Facility

On August 8, 2016, Llama Productions closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the “Facility”) with Bank Leumi USA to produce its animated series *Llama Llama*, (the “Series”) which is configured as fifteen half-hour episodes comprised of thirty 11 minute programs that were delivered to Netflix in fall 2017. The Facility is secured by the license fees the Company will receive from Netflix for the delivery of the Series as well as the Company’s copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, the Company deposited \$1,000,000 into a cash account to be used solely to produce the Series. Additionally, the Facility contains certain standard affirmative and negative non-financial covenants such as maintaining certain levels of production insurance and providing standard financial reports. As of March 31, 2018, the Company was in compliance with these covenants.

As of March 31, 2018, the Company had gross outstanding borrowing under the facility of \$2,804,764 against which financing costs of \$115,444 were applied resulting in net borrowings of \$2,689,320. As of December 31, 2017, the

Company had gross outstanding borrowing under the facility of \$4,436,528 against which financing costs of \$113,885 were applied resulting in net borrowings of \$4,322,643.

Note 9: Stockholders' Equity

Common Stock

As of March 31, 2018, the total number of authorized shares of common stock was 233,333,334.

On October 29, 2015, the Company entered into securities purchase agreements with certain accredited investors pursuant to which the Company sold an aggregate of 1,443,362 shares of its common stock, par value \$0.001 per share, and warrants to purchase up to an aggregate of 1,443,362 shares of common stock (the “Original Warrants”) for a purchase price of \$3.00 per share and the associated warrants for gross proceeds to the Company of \$4,330,000 (“2015 Private Placement”). The closing of the 2015 Private Placement occurred on November 3, 2015. Stock offering costs were \$502,218. (See Note 11 for additional information about these warrants.)

On October 6, 2016, the Board of Directors of the Company authorized a reverse stock split in preparation for the Company’s anticipated up listing on the NASDAQ Capital Market.

On November 4, 2016, the Company filed a certificate of change to the Company’s Articles of Incorporation with the Secretary of State of the State of Nevada to effect a one-for-three reverse stock split of the Company’s issued and outstanding common stock. As a result of the 2016 Reverse Split, every three shares of the Company’s issued and outstanding common stock were automatically combined and reclassified into one share of the Company’s common stock. The 2016 Reverse Split affected all issued and outstanding shares of common stock, as well as common stock underlying stock options and warrants outstanding. No fractional shares were issued in connection with the 2016 Reverse Split. Stockholders who would otherwise hold a fractional share of common stock will receive an increase to their common stock as the common stock will be rounded up to a full share. The total number of authorized shares of common stock was reduced from 700,000,000 to 233,333,334 in conjunction with the 2016 Reverse Split. The 2016 Reverse Split became effective on November 9, 2016. All disclosures of shares and per share data in these consolidated financial statements and related notes have been retroactively adjusted to reflect the reverse stock split for all periods presented.

On February 9, 2017, the Company entered into a private transaction (the “Private Transaction”) pursuant to a Warrant Exercise Agreement with certain holders of the Company’s existing warrants (the “Original Warrants”). Pursuant to the Warrant Exercise Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants. (See Note 11 for additional information about these warrants.) In association with the Private Transaction, the Company issued 1,171,690 shares of common stock upon exercise of a portion of the Original Warrants for which it received gross proceeds of \$3,866,573 and recording offering costs of \$465,915 for net proceeds of \$3,400,658.

On January 8, 2018, the Company entered into the January 2018 Private Placement. Pursuant to a Securities Purchase Agreement, the Company issued to the Investors approximately 592,000 shares of common stock at a per share price of \$3.00 and warrants to purchase approximately 592,000 shares of common stock. The warrants were immediately exercisable, will be exercisable for a period of five years from the closing date and have an exercise price of \$3.00 per share. The closing of the sale of these securities under the Securities Purchase Agreement occurred on January 10, 2018.

As of March 31, 2018, and December 31, 2017, there were 8,202,794 and 7,610,794 shares of common stock outstanding, respectively. Below are the changes to the Company's common stock during the three months ended March 31, 2018:

Preferred Stock

The Company has 10,000,000 shares of preferred stock authorized with a par value of \$0.001 per share. The Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

As of March 31, 2018, and December 31, 2017, there were 3,530 and 3,530 shares of Series A Convertible Preferred Stock outstanding, respectively.

On May 12, 2014, the Board of Directors authorized the designation of a class of preferred stock as "Series A Convertible Preferred Stock." On May 14, 2014, the Company filed the Certificate of Designation, Preferences and Rights of the 0% Series A Convertible Preferred Stock with the Secretary of State of the State of Nevada.

Each share of the Series A Convertible Preferred Stock is convertible into shares of the Company's common stock, par value \$0.001 per share, based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Convertible Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Convertible Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Convertible Preferred Stock to the extent that as a result of such conversion, the investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company's common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Convertible Preferred Stock. The shares of Series A Convertible Preferred Stock possess no voting rights.

On May 14, 2014, we entered into securities purchase agreements with certain accredited investors pursuant to which we sold an aggregate of 6,000 shares of our then newly designated Series A Convertible Preferred Stock at a price of \$1,000 per share for gross proceeds to us of \$6,000,000. Related to the sale, we incurred offering costs of \$620,085 resulting in net proceeds of \$5,379,915. The transaction closed on May 15, 2014.

As the conversion price of the Series A Convertible Preferred Stock on a converted basis was below the market price of the common shares on the closing date, this resulted in a beneficial conversion feature recorded as an "imputed" dividend of \$2,010,000. In addition, during the fourth quarter of 2015, in connection with the 2015 Private Placement in which the Company's common stock was sold at \$3.00 per share, the conversion price of the Series A Convertible Preferred Stock decreased to \$3.00. This decrease resulted in an additional beneficial conversion feature of \$3,383,850 recognized as of the time of the 2015 Private Placement. In the future, issuance of common stock or the grant of any rights to purchase our common stock or other securities convertible into our common stock for a per share price less than the then existing conversion price of the Series A Convertible Preferred Stock would result in an adjustment to the then current conversion price of the Series A Convertible Preferred Stock. This reduction would give rise to a beneficial conversion feature recorded as an "imputed" dividend.

Note 10: Stock Options

On September 18, 2015, the Company adopted the Genius Brands International, Inc. 2015 Incentive Plan (the "2015 Plan"). The 2015 Plan was approved by our stockholders in September 2015. The 2015 Plan as approved by the stockholders authorized the issuance up to an aggregate of 150,000 shares of common stock. On December 14, 2015, the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan by 1,293,334 from 150,000 shares to 1,443,334 shares. The increase in shares available for issuance under the 2015 Plan was approved by stockholders on February 3, 2016. On May 18, 2017, the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan by 223,333

shares from 1,443,334 shares to an aggregate of 1,667,667 shares. The increase in shares available for issuance under the 2015 Plan was approved by the stockholders on July 25, 2017.

These stock options generally vest between one and three years, while a portion vested upon grant. The Company has warrants outstanding to purchase up to 4,099,389 and 3,414,389 shares as of March 31, 2018 and December 31, 2017, respectively.

In connection with the sale of the Company's Series A Convertible Preferred Stock in May 2014, Chardan Capital Markets LLC ("Chardan") acted as sole placement agent in consideration for which it received a cash fee of \$535,000 and a warrant to purchase up to 100,002 shares of the Company's common stock. The Original Warrants are exercisable into shares of common stock for a period of five (5) years from issuance at an initial exercise price of \$3.30 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. The Original Warrants are exercisable immediately. The Company is prohibited from effecting an exercise of the warrants to the extent that as a result of such exercise, the holder would beneficially own more than 4.99% (subject to increase up to 9.99% upon 61 days' notice) in the aggregate of the issued and outstanding shares of common stock, calculated immediately after giving effect to the issuance of shares of common stock upon exercise of the warrant.

In connection with the 2015 Private Placement, Chardan acted as sole placement agent in consideration for which it received a cash fee of \$300,000 and a warrant to purchase up to 141,668 shares of the Company's common stock. These warrants are exercisable immediately, have an exercise price of \$3.60 per share, and have a five-year term.

On February 9, 2017, the Company entered into the Private Transaction pursuant to the Warrant Exercise Agreement with certain holders of the Original Warrants. Pursuant to the Warrant Exercise Agreement, the holders of the Original Warrants and the Company agreed that such Original Warrant holders would exercise their Original Warrants in full, and the Company would issue to each such holder new warrants, with the new warrants being identical to the Original Warrants except that the termination date of such new warrants is February 10, 2022 (the "Reload Warrants"). In addition, depending on the number of Original Warrants exercised by all holders of the Original Warrants, the Company also agreed to issue to the holders another new warrant, identical to the Original Warrant except that the exercise price of such warrant is \$5.30 and such warrant is not exercisable until August 10, 2017 (the "Market Price Warrants" and together with the Reload Warrants, the "New Warrants").

The Company received gross proceeds of \$3,866,573 from the exercise of the Original Warrants and issued Reload Warrants to purchase an aggregate of 799,991 shares of the Company's common stock and Market Price Warrants to purchase an aggregate of 371,699 shares of the Company's common stock. Chardan acted as financial advisor on the Private Transaction in consideration for which Chardan received \$363,617 and Chardan and its designees were New Warrants for 115,000 shares of the Company's common stock.

Note 12: Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification Topic 740 Income Taxes ("Topic 740"), which requires the recognition of deferred tax liabilities and assets at currently enacted tax rates for the expected future tax consequences of events that have been included in the financial statements or tax returns. A valuation allowance is recognized to reduce the net deferred tax asset to an amount that is more likely than not to be

realized.

Topic 740 provides guidance on the accounting for uncertainty in income taxes recognized in a company's financial statements. ASC 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.

The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operation in the provision for income taxes. As of March 31, 2018, and December 31, 2017, the Company had no accrued interest or penalties related to uncertain tax positions.

On December 22, 2017, the United States federal government enacted the Tax Cuts and Jobs Act (the "2017 Act"). The 2017 Act will have pervasive financial reporting implications for all companies with U.S. operations, including reduction of the U.S. federal corporate tax rate from 35 percent to 21 percent. We reviewed and incorporated the new tax bill implications through 2017 financial statements. We remeasured the deferred taxes at new corporation rate of 21%, which reduced the net deferred tax assets, before valuation allowance, by approximately \$2,809,700. Due to full valuation allowance, the change in deferred taxes was fully offset by the change in valuation allowance. The 2017 Act has no significant impact on the financial statements for the three months ended March 31, 2018 or for the year ended December 31, 2017.

Due to the complexities of the 2017 Act, the SEC issued Staff Accounting Bulletin No. 118 to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the 2017 Act. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared, or analyzed. Any subsequent adjustment to these amounts will be recorded to current tax expense in 2018 when the analysis is complete.

The Company files income tax returns in the U.S. federal jurisdiction and in the state of California and Massachusetts. The Company is currently subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities since inception of the Company.

Note 14: Commitment and Contingencies

In the normal course of its business, the Company enters into various agreements which call for the potential future payment of royalties or “profit” participations associated with its individual properties. These profit participations can be for the use of third party intellectual property, such as the case with *Stan Lee and the Mighty 7* and *Llama Llama* among others, in which the Company is obligated to share net profits with the underlying rights holders on a certain basis as defined in the respective agreements.

In addition, in the normal course of its business, the Company enters into agreements with various service providers such as animation studios, post-production studios, writers, directors, musicians or other creative talent. As of March 31, 2018, Foothill owed the Company \$17,784 that Foothill collected on the Company’s behalf for a content license. Greg Payne owed the Company \$2,939 for expenses. These amounts were repaid on April 30, 2018.

On October 1, 2016, Llama Productions LLC entered into an animation production services agreement with Mr. Heyward for services as a producer for which he is to receive \$186,000 through the course of production of the Company’s animated series *Llama Llama*. The Nevada Revised Statutes provide that:

a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he or she acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful;

a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture,

trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by him or her in connection with the defense or settlement of the action or suit if he or she acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation. Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper; and

to the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding, or in defense of any claim, issue or matter therein, the corporation must indemnify him or her against expenses, including attorneys' fees, actually and reasonably incurred by him or her in connection with the defense.

The Nevada Revised Statutes provide that we may make any discretionary indemnification only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made:

·by our stockholders;

·by our board of directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding;

if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion;

if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion; or

by court order.

Our bylaws provide that our company shall indemnify each director, officer, and employee of our company, (i) against all the expenses (including attorneys' fees, court costs and expert witness fees), judgments, decrees and fines actually paid in settlement in connection with any action, suit or proceeding, provided that the Board shall first have determined, in its sole judgment, that the person acted in good faith and in a manner that he or she reasonably believed to be in the best interests of the company. Item 17. Undertakings.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser: each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part

of and included in the registration statement as of the date it is first used after effectiveness; provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
