Form 10-Q
August 08, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q
(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2018
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE TRANSITION PERIOD FROM _____ to _____.

Commission File No. 1-13179

FLOWSERVE CORPORATION

(Exact name of registrant as specified in its charter)

New York

(State or other jurisdiction of incorporation or organization)

31-0267900

(I.R.S. Employer Identification No.)

5215 N. O'Connor Blvd., Suite 2300, Irving, Texas

(Address of principal executive offices)

75039

(Zip Code)

(972) 443-6500

(Registrant's
telephone
number,
including area
code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer (do not check if a smaller reporting company)

Edgar Filing: FLOWSERVE CORP - Form 10-Q

Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 2, 2018 there were 130,852,600 shares of the issuer's common stock outstanding.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Accounting Policies

Basis of Presentation

The accompanying condensed consolidated balance sheet as of June 30, 2018, the related condensed consolidated statements of income and comprehensive income for the three and six months ended June 30, 2018 and 2017 and the condensed consolidated statements of cash flows for the six months ended June 30, 2018 and 2017 of Flowserve Corporation are unaudited. In management's opinion, all adjustments comprising normal recurring adjustments necessary for fair statement of such condensed consolidated financial statements have been made. Where applicable, prior period information has been updated to conform to current year presentation.

The accompanying condensed consolidated financial statements and notes in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2018 ("Quarterly Report") are presented as permitted by Regulation S-X and do not contain certain information included in our annual financial statements and notes thereto. Accordingly, the accompanying condensed consolidated financial information should be read in conjunction with the audited consolidated financial statements presented in our Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Annual Report").

Argentina Highly Inflationary - Effective July 1, 2018, Argentina was designated as hyperinflationary, and as a result, we will begin to use the U.S. dollar as our functional currency in Argentina. Our Argentinian subsidiary's sales for the three and six months ended June 30, 2018 and total assets at June 30, 2018 represented approximately 1% of our consolidated sales and total assets, respectively.

Accounting Developments

Pronouncements Implemented

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" (the "New Revenue Standard" or "ASC 606"), which supersedes most of the revenue recognition requirements in "Revenue Recognition (Topic 605)" ("Topic 605"). On January 1, 2018, we adopted the New Revenue Standard using the modified retrospective method for transition, applying the guidance to those contracts which were not completed as of that date. According to our method of transition we adjusted for the cumulative effect of the changes made to our condensed consolidated balance sheet and recorded a cumulative effect adjustment to increase retained earnings by approximately \$20 million, mostly associated with the increase in percentage of completion ("POC") method revenue, as a result of initially applying the standard. We have modified our accounting policies and practices, business processes, systems and controls to support compliance with the standard requirements. Revenue recognition and related financial information for this Quarterly Report are based on the requirements of ASC 606. Accordingly, periods prior to January 1, 2018 are presented in accordance with Topic 605. Refer to Note 2 of this Quarterly Report for a discussion on our adoption of the New Revenue Standard.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities." The ASU requires entities to measure equity investments that do not result in consolidation and are not accounted for under the equity method at fair value with changes in fair value recognized in net income. The ASU also requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. The requirement to disclose the method(s) and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost on the balance sheet has been eliminated by this ASU. In February 2018, the FASB issued ASU No. 2018-03, "Technical Corrections and Improvements to Financial Instruments-Overall (Subtopic 825-10)" to clarify certain aspects of ASU No. 2016-01. Our adoption of ASU No. 2016-01 and ASU No. 2018-03 effective January 1, 2018 did not have an impact on our consolidated financial condition and results of operations.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments - A consensus of the FASB Emerging Issues Task Force." The update was issued

with the objective of reducing the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230 and other topics. Our adoption of ASU No. 2016-15 effective January 1, 2018 did not have a material impact on our consolidated statement of cash flows. In October 2016, the FASB issued ASU No. 2016-16, "Income Taxes (Topic 740) Intra-Entity Transfers of Assets Other Than Inventory." The ASU guidance requires the recognition of the income tax consequences of an intercompany asset transfer, other than transfers of inventory, when the transfer occurs. For intercompany transfers of inventory, the income tax effects will continue

5

Table of Contents

to be deferred until the inventory has been sold to a third party. Our adoption of ASU No. 2016-16 effective January 1, 2018 did not have a material impact on our consolidated financial condition and results of operations.

In November 2016, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash." The amendments in this ASU require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. Our adoption of ASU No. 2016-18 effective January 1, 2018 did not have a material impact on our consolidated statement of cash flows.

In January 2017, the FASB issued ASU No. 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business." The ASU clarifies the definition of a business and provides guidance on evaluating as to whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition clarification as outlined in this ASU affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. Our adoption of ASU No. 2017-01 effective January 1, 2018 did not have a material impact on our consolidated financial condition and results of operations.

In February 2017, the FASB issued ASU No. 2017-05, "Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets." The FASB issued this ASU to clarify the scope of subtopic 610-20, which the FASB had failed to define in its issuance of ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." We adopted ASU No. 2017-05 effective January 1, 2018, concurrently with ASU No. 2014-09. Our adoption of ASU No. 2017-05 effective January 1, 2018 did not have a material impact on our consolidated financial condition and results of operations.

In March 2017, the FASB issued ASU No. 2017-07, "Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." The ASU requires entities to disaggregate the current service cost component from the other components of net benefit cost and present it with other current compensation costs for related employees in the income statement and present the other components of net benefit cost elsewhere in the income statement and outside of operating income. Entities are required to retrospectively apply the requirement for a separate presentation in the income statement of service costs and other components of net benefit cost. We adopted the income statement presentation aspects of this new guidance on a retrospective basis. The following is a reconciliation of the effect of the reclassification of the net post-retirement benefit cost from cost of sales ("COS") and selling, general and administrative expenses ("SG&A") to other expense, net in our condensed consolidated statement of income for the three and six months ended June 30, 2017:

(Amounts in thousands)	As		
	Previously Reported	Adjustments(1)	As Reported
Three Months Ended June 30, 2017			
Cost of sales	\$(632,068)	\$ 465	\$(631,603)
Gross profit	244,995	465	245,460
Selling, general and administrative expense	(252,800)	270	(252,530)
Operating income	126,143	735	126,878
Other expense, net	(8,761)	(735)	(9,496)
Six Months Ended June 30, 2017			
Cost of sales	\$(1,229,948)	\$ 1,014	\$(1,228,934)
Gross profit	513,433	1,014	514,447
Selling, general and administrative expense	(474,885)	581	(474,304)
Operating income	175,951	1,595	177,546
Other expense, net	(19,888)	(1,595)	(21,483)

(1) We elected the practical expedient that allows us to use the amounts disclosed in prior comparative periods' pension and postretirement plan footnotes as the basis for the retrospective application of the new income statement presentation requirements. See Note 11 of this Quarterly Report for additional information on the components of the net periodic cost for retirement and postretirement benefits plans.

In May 2017, the FASB issued ASU No. 2017-09, "Compensation-Stock Compensation (Topic 718): Scope of Modification Accounting." The ASU provides guidance on the types of changes to the terms or conditions of share-based payment awards, to which an entity would be required to apply modification accounting. The ASU is applied prospectively to awards modified on or

6

Table of Contents

after the effective date. Our adoption of ASU No. 2017-09 effective January 1, 2018 did not have an impact on our consolidated financial condition and results of operations.

Pronouncements Not Yet Implemented

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)". The ASU requires that organizations that lease assets recognize assets and liabilities on the balance sheet for the rights and obligations created by those leases. The ASU will affect the presentation of lease related expenses on the income statement and statement of cash flows and will increase the required disclosures related to leases. This ASU is effective for annual periods beginning after December 15, 2018, including interim periods within those fiscal years with early adoption permitted. We are currently evaluating the impact of ASU No. 2016-02 and all related ASU's on our consolidated financial condition and results of operations. We have formed a project team and initiated the process of assessing critical components of this new guidance and the potential impact that the guidance will have on our financial position, results of operations and cash flows. This evaluation process includes a review of our leasing contracts and a completeness assessment over our lease population. We are implementing a software tool and are concurrently identifying changes to our business processes, systems and controls to support adoption of the new standard. Based on the preliminary work completed and our initial qualitative evaluation, we believe a key change upon adoption of the standard will be the balance sheet recognition of leased assets and liabilities. Also, based on the same qualitative evaluation, we believe that any changes in income statement recognition will not be material.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments-Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments." The ASU requires, among other things, the use of a new current expected credit loss ("CECL") model in order to determine our allowances for doubtful accounts with respect to accounts receivable and contract assets. The CECL model requires that we estimate our lifetime expected credit loss with respect to our receivables and contract assets and record allowances that, when deducted from the balance of the receivables, represent the net amounts expected to be collected. We will also be required to disclose information about how we developed the allowances, including changes in the factors that influenced our estimate of expected credit losses and the reasons for those changes. The amendments of the ASU are effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. We are currently evaluating the impact of ASU No. 2016-13 on our consolidated financial condition and results of operations.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment." The amendments in this ASU allow companies to apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. The amendments of the ASU are effective for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. We are currently evaluating the impact of ASU No. 2017-04 on our consolidated financial condition and results of operations.

On July 13, 2017, the FASB issued ASU No. 2017-11, "Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatory Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatory Redeemable Noncontrolling Interests with a Scope Exception." The ASU amends guidance in FASB Accounting Standards Codification ("ASC") 260, Earnings Per Share, FASB ASC 480, Distinguishing Liabilities from Equity, and FASB ASC 815, Derivatives and Hedging. The amendments in Part I of this ASU change the classification analysis of certain equity-linked financial instruments (or embedded features) with down round features. The amendments in Part II of the ASU re-characterize the indefinite deferral of certain provisions of Topic 480 that now are presented as pending content in the codification, to a scope exception. The amendments in this ASU must be applied to annual reporting periods beginning after December 15, 2018. Early adoption is permitted. We are currently evaluating the impact of ASU No. 2017-11 on our consolidated financial condition and results of operations.

On August 28, 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted improvements of Accounting for Hedging Activities." The purpose of this ASU is to better align a company's risk

management activities and financial reporting for hedging relationships. Additionally, the ASU simplifies the hedge accounting requirements and improve the disclosures of hedging arrangements. The effective date is fiscal year 2020, with early adoption permitted. We are currently evaluating the impact of ASU No. 2017-12 on our consolidated financial condition and results of operations.

On February 2018, the FASB issued ASU No. 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Comprehensive Income ("AOCI")." The ASU and its amendments were issued as a result of the enactment of the U.S. Tax Cuts and Jobs Act of 2017. The amendments of this ASU address the available options to reclassify stranded tax effects within AOCI to retained earnings in each period in which the effect of the change (or portion thereof) is recorded. Additionally, the ASU outlines the disclosure requirements for releasing income tax effects from AOCI. The ASU is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years.

Table of Contents

Early adoption is permitted. The ASU should be applied either in the period of adoption or retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act is recognized. We are currently evaluating the impact of ASU No. 2018-02 on our consolidated financial condition and results of operations.

On July 2018, the FASB issued ASU No. 2018-07, "Compensation - Stock Compensation (Topic 718) - Improvements to Non-employee Share-based Payment Accounting." The amendments of this ASU apply to all share-based payment transactions to non-employees, in which a grantor acquires goods or services to be used or consumed in a grantor's own operations, accounted under ASC 505-50, Equity-Based Payments to Non-Employees. Under the amendments of ASU 2018-07, most of the guidance on compensation to nonemployees would be aligned with the requirements for shared based payments granted to employees Topic 718. The ASU is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted. We are currently evaluating the impact of ASU No. 2018-07 on our consolidated financial condition and results of operations.

2. Revenue Recognition

We enter into contracts with customers typically having multiple commitments of goods and services including any combination of designing, developing, manufacturing, modifying, installing and commissioning of flow management equipment and providing services and parts related to the performance of such products. We evaluate the commitments in our contracts with customers to determine if the commitments are both capable of being distinct and distinct in the context of the contract in order to identify performance obligations.

We recognize revenue when (or as) we satisfy a performance obligation by transferring control of the performance obligation to a customer. Control of a performance obligation may transfer to the customer either over time or at a point in time depending on an evaluation of the specific facts and circumstances for each contract, including the terms and conditions of the contract as agreed with the customer, as well as the nature of the products or services to be provided. Our larger contracts are typically completed within a one to three-year period, while many other contracts, such as "short cycle" contracts, have a shorter timeframe for revenue recognition.

Control transfers over time when the customer is able to direct the use of and obtain substantially all of the benefits of our work as we perform. This typically occurs when products have no alternative use and we have a right to payment for performance completed to date, including a reasonable profit margin. Our contracts often include cancellation provisions that require the customer to reimburse us for costs incurred up to the date of cancellation, and some contracts also provide for reimbursement of profit upon cancellation in addition to costs incurred to date.

Our primary method for recognizing revenue over time is the POC method. We measure progress towards completion by applying an input measure based on costs incurred to date relative to total estimated costs at completion (i.e., the cost-to-cost method). This method provides a reasonable depiction of the transfer of control of products and services to customers as it ensures our efforts towards satisfying a performance obligation, as reflected by costs incurred, are included in the measure of progress used for recognition of revenue. Costs generally include direct labor, direct material and manufacturing overhead. Costs that do not contribute towards control transfer are generally immaterial, but are excluded from the measure of progress in the event they are significant.

Historically, revenue recognized under the POC method has been 5% to 10% of our consolidated sales. Under the New Revenue Standard, we have experienced an increase in the amount of revenue recognized over time. This increase is primarily due to the application of the new "transfer of control" model for revenue recognition. Under this model, revenue for performance obligations subject to contractual transfer of control during the manufacturing process are recognized over time. This includes contracts with cancellation provisions that require reimbursement for costs incurred plus a reasonable margin and for which the performance obligation has no alternative use. Revenue from products and services transferred to customers over time accounted for approximately 23% and 3% of total revenue for the three month periods ended June 30, 2018 and 2017, respectively, and 23% and 3% of total revenue for the six month periods ended June 30, 2018 and 2017, respectively.

If control does not transfer over time, then control transfers at a point in time. We recognize revenue at a point in time at the level of each performance obligation based on the evaluation of certain indicators of control transfer, such as title transfer, risk of loss transfer, customer acceptance and physical possession. Revenue from products and services

transferred to customers at a point in time accounted for approximately 77% and 97% of total revenue for the three month periods ended June 30, 2018 and 2017, respectively, and 77% and 97% of total revenue for the six month periods ended June 30, 2018 and 2017, respectively.

A contract modification, or “change order,” occurs when the existing enforceable rights and obligations of a contract change, such as a change in the scope, price or terms and conditions. We account for a change order as a new accounting contract when the change order is limited to adding new, distinct products and services that are priced in an amount consistent with standalone selling price. Other change orders are accounted for as a modification of the existing accounting contract. When a change order occurs for a contract having in-process over time performance obligations, the effect of the change order on the transaction price

Table of Contents

and the measure of progress for the performance obligations to which it relates is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis.

Freight charges billed to customers are included in sales and the related shipping costs are included in cost of sales in our consolidated statements of income. If shipping activities are performed after a customer obtains control of a product, we apply a policy election to account for shipping as an activity to fulfill the promise to transfer the product to the customer.

We apply a policy election to exclude transaction taxes collected from customers from sales when the tax is both imposed on and concurrent with a specific revenue-producing transaction.

In certain instances, we provide guaranteed completion dates under the terms of our contracts. Failure to meet contractual delivery dates can result in late delivery penalties or liquidated damages. In the event that the transaction price of such a contract is probable of experiencing a significant reversal due to a penalty, we constrain a portion of the transaction price. This reduction to the transaction price could potentially cause estimated total contract costs to exceed the transaction price, in which case we record a provision for the estimated loss in the period the loss is first projected. In circumstances where the transaction price still exceeds total projected costs, the estimated penalty generally reduces profitability of the contract at the time of subsequent revenue recognition.

Our incremental costs to obtain a contract are limited to sales commissions. We apply the practical expedient to expense commissions as incurred for contracts having a duration of one year or less. Sales commissions related to contracts with a duration of greater than one year are immaterial to our financial statements and are also expensed as incurred.

We have not identified any material costs to fulfill a contract that qualify for capitalization under ASC 340-40.

Performance Obligations

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account for recognition of revenue. Many of our contracts have multiple performance obligations as the promise to transfer the individual goods or services, or certain groups of goods and services, is separately identifiable from other promises in the contract.

We allocate the transaction price of each contract to the performance obligations on the basis of standalone selling price and recognize revenue when, or as, control of each performance obligation transfers to the customer. For standard products, we identify the standalone selling price based on directly observable information. For customized or unique products and services, we apply the cost plus margin approach to estimate the standalone selling price. Under this method, we forecast our expected costs of satisfying a performance obligation and then add an appropriate standalone market margin for that distinct good or service.

We have elected to use the practical expedient to not adjust the transaction price of a contract for the effects of a significant financing component if, at the inception of the contract, we expect that the period between when we transfer a promised good or service to a customer and when the customer pays for that good or service will be one year or less.

A material product warranty exists when a customer has specifically requested or negotiated a warranty period that is significantly longer than our standard warranty period (i.e., a “service-type warranty”) and where the warranty obligation is material in the context of the contract. It is not common for our contracts to contain material product warranties. However, when such a warranty exists, we account for it as a separate performance obligation. We estimate the standalone selling price of the warranty obligation utilizing a cost plus margin approach and allocate a portion of the transaction price to the warranty performance obligation on the basis of estimated standalone selling price. We recognize revenue for warranty performance obligations over time on a straight line basis over the extended warranty period.

A material right option is a benefit provided to a customer in a current contract, such as an option to receive future products or services for free or at a significant discount, that is incremental to benefits widely available to similar customers that do not enter into a specific contract. It is not common for our contracts to contain material right options. However, when a material right option exists, it is accounted for as a separate performance obligation and a portion of the transaction price is allocated to the performance obligation based on the estimated standalone selling price of the option. Revenue is recognized when (or as) the customer exercises the right to acquire future products

and/or services.

On June 30, 2018, the aggregate transaction price allocated to unsatisfied (or partially unsatisfied) performance obligations was approximately \$1,335 million. We estimate recognition of approximately \$1,059 million of this amount as revenue in 2018 and an additional \$276 million in 2019 and thereafter.

Revenue recognized for performance obligations satisfied (or partially satisfied) in prior periods for the three and six months ended June 30, 2018 was not material.

9

Table of Contents

ASC 606 Adoption Impact

We applied ASC 606 only to contracts that were not substantially complete as of January 1, 2018 and reflected the aggregate impact of all contract modifications (“change orders”) that occurred before the beginning of the earliest period presented when accounting for modified contracts at transition. The following table presents the cumulative effect of the changes made to our condensed consolidated balance sheet as of January 1, 2018 related to the adoption of the New Revenue Standard:

(Amounts in thousands)	December 31, 2017	Adjustments due to adoption of New Revenue Standard	January 1, 2018
Accounts receivable, net of allowance for doubtful accounts(1)	856,711	(49,247)	807,464
Contract assets, net(2)	—	219,361	219,361

Total liabilities and equity	4,910,474	(73,618)	4,836,856

(1) Adjusted for contract assets accounted for under delivery based methods, previously reported in receivables, net.

(2) Represents our right of payment in advance of our contractual right to bill the customer.

(3) Adjusted for contract assets accounted under the over time method, previously reported in inventories, net.

(4) Adjusted for deferred revenue previously reported in accrued liabilities and reclassified to contract assets and contract liabilities.

(5) Represents contractual billings in excess of revenue recognized at the contract level, previously reported in accrued liabilities.

Table of Contents

The modified retrospective approach requires a dual reporting presentation to be disclosed in the year of adoption. The dual reporting requirement outlines the impact amount by which a financial statement line is affected in the current reporting period by the adoption of the New Revenue Standard as compared with the previous standard in effect before the adoption.

The following tables present the dual reporting requirements:

(Amounts in thousands, except percentages)	Three Months Ended June 30, 2018

Disaggregated Revenue

We conduct our operations through three business segments based on the type of product and how we manage the business:

• Engineered Product Division ("EPD") for long lead time, custom and other highly-engineered pumps and pump systems, mechanical seals, auxiliary systems and replacement parts and related services;

• Industrial Product Division ("IPD") for engineered and pre-configured industrial pumps and pump systems and related products and services; and

• Flow Control Division ("FCD") for engineered and industrial valves, control valves, actuators and controls and related services.

Our revenue sources are derived from our original equipment manufacturing and our aftermarket sales and services. Our original equipment revenues are generally related to originally designed, manufactured, distributed and installed equipment that can range from pre-configured, short-cycle products to more customized, highly-engineered equipment ("Original Equipment"). Our aftermarket sales and services are derived from sales of replacement equipment, as well as maintenance, advanced diagnostic, repair and retrofitting services ("Aftermarket"). Each of our three business segments generate Original Equipment and Aftermarket revenues.

Table of Contents

The following table presents our customer revenues disaggregated by revenue source:

Three Months Ended June 30, 2018

Contract Balances

We receive payment from customers based on a contractual billing schedule and specific performance requirements as established in our contracts. We record billings as accounts receivable when an unconditional right to consideration exists. A contract asset represents revenue recognized in advance of our right to receive payment under the terms of a contract. A contract liability represents our right to receive payment in advance of revenue recognized for a contract. The following table presents opening and closing balances of contract assets and contract liabilities, current and long-term, for the six months ended June 30, 2018:

(Amounts in thousands)	Contract Assets, net (Current)	Long-term Contract Assets, net(1)	Contract Liabilities (Current)	Long-term Contract Liabilities(2)
Beginning balance, January 1, 2018	\$219,361	3,990	\$178,515	\$ 3,925
Revenue recognized that was included in contract liabilities at the beginning of the period	—	—	(99,538)	(659)
Increase due to revenue recognized in the period in excess of billings	334,815	405	—	—
Increase due to billings arising during the period in excess of revenue recognized	—	—	107,080	—
Amounts transferred from contract assets to receivables	(279,360)	(2,167)	—	—
Currency effects and other, net	(17,592)	(435)	(14,117)	(838)
Ending balance, June 30, 2018	\$257,224	\$ 1,793	\$171,940	\$ 2,428

(1) Included in other assets, net.

(2) Included in retirement obligations and other liabilities.

3. Dispositions**IPD Asset Divestiture**

On June 29, 2018, pursuant to a plan of sale approved by management, we have executed an agreement to divest two IPD locations and associated product lines, including the related assets and liabilities. As of June 30, 2018, the assets

and liabilities

14

Table of Contents

related to this business did not meet the criteria for classification of assets held for sale due to a contingency that may potentially impact the final terms and/or timing of the divestiture. A pre-tax charge of \$17.4 million was recorded in our condensed consolidated statements of income for the period ending June 30, 2018 to write-down related inventory and long-lived assets to their estimated fair value, of which \$7.7 million was recorded in COS and \$9.7 million was recorded in SG&A. Based on the current known facts and circumstances we estimate that an additional pre-tax loss of approximately \$5 million to \$10 million will be recognized upon the closing of the transaction which is currently estimated to be in the third quarter of 2018. The estimated additional pre-tax loss primarily relates to working capital changes and cash to be transferred at the closing date. In 2017, net sales related to the business totaled approximately \$42 million, although the business produced an operating loss in each of the last two fiscal years.

Vogt

Effective July 6, 2017, we sold our FCD's Vogt product line and related assets and liabilities to a privately held company for \$28.0 million of cash received at closing. The sale resulted in a pre-tax gain of \$11.1 million recorded in gain on sale of business in the condensed consolidated statements of income in the third quarter of 2017. In 2016, net sales related to the Vogt business totaled approximately \$17 million, with earnings before interest and taxes of approximately \$4 million.

Gestra AG

Effective May 2, 2017, we sold our FCD's Gestra AG ("Gestra") business to a leading provider of steam system solutions for \$203.6 million (€178.3 million), which included \$180.8 million (€158.3 million) of cash received at closing (net of divested cash and subsequent working capital adjustments) and \$24.0 million (€20.0 million) of previous escrow amounts collected in the fourth quarter of 2017. The sale resulted in a pre-tax gain of \$130.2 million (\$79.4 million after-tax) recorded in gain on sale of business in the consolidated statements of income in 2017. The sale included Gestra's manufacturing facility in Germany as well as related operations in the U.S., the United Kingdom ("U.K."), Spain, Poland, Italy, Singapore and Portugal. In 2016, Gestra recorded revenues of approximately \$101 million (€92 million) with earnings before interest and taxes of approximately \$17 million (€15 million).

4. Stock-Based Compensation Plans

We maintain the Flowserve Corporation Equity and Incentive Compensation Plan (the "2010 Plan"), which is a shareholder-approved plan authorizing the issuance of up to 8,700,000 shares of our common stock in the form of restricted shares, restricted share units and performance-based units (collectively referred to as "Restricted Shares"), incentive stock options, non-statutory stock options, stock appreciation rights and bonus stock. Of the 8,700,000 shares of common stock authorized under the 2010 Plan, 2,187,671 were available for issuance as of June 30, 2018. In 2016 the long-term incentive program was amended to allow Restricted Shares granted after January 1, 2016 to employees who retire and have achieved at least 55 years of age and 10 years of service to continue to vest over the original vesting period ("55/10 Provision"). As of June 30, 2018, 114,943 stock options were outstanding, with a grant date fair value of \$2.0 million, which is expected to be recognized over a weighted-average period of approximately two years. No stock options were granted during the six months ended June 30, 2018, compared to 114,943 stock options granted for the same period in 2017. No stock options vested during the six months ended June 30, 2018 and 2017.

Restricted Shares – Awards of Restricted Shares are valued at the closing market price of our common stock on the date of grant. The unearned compensation is amortized to compensation expense over the vesting period of the restricted shares, except for awards related to the 55/10 Provision which are expensed in the period granted. We had unearned compensation of \$31.0 million and \$16.7 million at June 30, 2018 and December 31, 2017, respectively, which is expected to be recognized over a weighted-average period of approximately one year. These amounts will be recognized into net earnings in prospective periods as the awards vest. The total fair value of Restricted Shares vested during the three months ended June 30, 2018 and 2017 was \$2.7 million and \$2.3 million, respectively. The total fair value of Restricted Shares vested during the six months ended June 30, 2018 and 2017 was \$33.7 million and \$28.0 million, respectively.

We recorded stock-based compensation expense of \$3.4 million (\$4.4 million pre-tax) and \$2.9 million (\$4.3 million pre-tax) for the three months ended June 30, 2018 and 2017, respectively. We recorded stock-based compensation

expense of \$6.5 million (\$8.4 million pre-tax) and \$10.4 million (\$15.6 million pre-tax) for the six months ended June 30, 2018 and 2017, respectively. Performance-based shares granted in 2015 did not vest due to unachievement of performance targets resulting in 100,033 forfeited shares and a \$5.4 million reduction of stock-based compensation expense for the six months ended June 30, 2018.

15

Table of Contents

The following table summarizes information regarding Restricted Shares:

	Six Months Ended June 30, 2018	
	Shares	Weighted Average Grant-Date Fair Value
Number of unvested shares:		
Outstanding - January 1, 2018	1,203,852	\$ 47.10
Granted	754,912	44.63
Vested	(298,767)	46.44
Forfeited	(218,096)	50.25
Outstanding as of June 30, 2018	1,441,901	\$ 45.47

Unvested Restricted Shares outstanding as of June 30, 2018 included approximately 762,000 units with performance-based vesting provisions. Performance-based units are issuable in common stock and vest upon the achievement of pre-defined performance targets. Performance-based units granted prior to 2017 have performance targets based on our average annual return on net assets over a three-year period as compared with the same measure for a defined peer group for the same period. Performance-based units granted in 2017 and 2018 have performance targets based on our average return on invested capital and our total shareholder return ("TSR") over a three-year period. Most units were granted in three annual grants since January 1, 2016 and have a vesting percentage between 0% and 200% depending on the achievement of the specific performance targets. Except for shares granted under the 55/10 Provision, compensation expense is recognized ratably over a cliff-vesting period of 36 months, based on the fair value of our common stock on the date of grant, as adjusted for actual forfeitures. During the performance period, earned and unearned compensation expense is adjusted based on changes in the expected achievement of the performance targets for all performance-based units granted except for the TSR-based units. Vesting provisions range from 0 to approximately 1,523,000 shares based on performance targets. As of June 30, 2018, we estimate vesting of approximately 610,000 shares based on expected achievement of performance targets.

5. Derivative Instruments and Hedges

Our risk management and foreign currency derivatives and hedging policy specifies the conditions under which we may enter into derivative contracts. See Notes 1 and 7 to our consolidated financial statements included in our 2017 Annual Report and Note 7 of this Quarterly Report for additional information on our derivatives. We enter into foreign exchange forward contracts to hedge our cash flow risks associated with transactions denominated in currencies other than the local currency of the operation engaging in the transaction.

Foreign exchange contracts with third parties had a notional value of \$287.2 million and \$235.6 million at June 30, 2018 and December 31, 2017, respectively. At June 30, 2018, the length of foreign exchange contracts currently in place ranged from 13 days to 27 months.

We are exposed to risk from credit-related losses resulting from nonperformance by counterparties to our financial instruments. We perform credit evaluations of our counterparties under foreign exchange contracts agreements and expect all counterparties to meet their obligations. We have not experienced credit losses from our counterparties.

The fair values of foreign exchange contracts are summarized below:

	June 30, December 31,	
(Amounts in thousands)	2018	2017
Current derivative assets	\$ 689	\$ 2,489
Noncurrent derivative assets	9	177
Current derivative liabilities	2,960	284
Noncurrent derivative liabilities	129	56

Current and noncurrent derivative assets are reported in our condensed consolidated balance sheets in prepaid expenses and other and other assets, net, respectively. Current and noncurrent derivative liabilities are reported in our condensed consolidated balance sheets in accrued liabilities and retirement obligations and other liabilities, respectively.

Table of Contents

The impact of net changes in the fair values of foreign exchange contracts are summarized below:

(Amounts in thousands)	Three Months		Six Months	
	Ended June 30, 2018	2017	Ended June 30, 2018	2017
Loss recognized in income	\$(123)	\$(2,226)	\$(1,227)	\$(329)

Gains and losses recognized in our condensed consolidated statements of income for foreign exchange contracts are classified as other expense, net.

In March 2015, we designated €255.7 million of our €500.0 million Euro senior notes discussed in Note 6 as a net investment hedge of our investments in certain of our international subsidiaries that use the Euro as their functional currency. We used the spot method to measure the effectiveness of our net investment hedge. Under this method, for each reporting period, the change in the carrying value of the Euro senior notes due to remeasurement of the effective portion is reported in accumulated other comprehensive loss on our condensed consolidated balance sheet and the remaining change in the carrying value of the ineffective portion, if any, is recognized in other expense, net in our condensed consolidated statement of income. We evaluate the effectiveness of our net investment hedge on a prospective basis at the beginning of each quarter. We did not record any ineffectiveness for the six months ended June 30, 2018 and 2017.

6. Debt

Debt, including capital lease obligations, consisted of:

(Amounts in thousands, except percentages)	June 30, 2018	December 31, 2017
1.25% EUR Senior Notes due March 17, 2022, net of unamortized discount and debt issuance costs of \$4,598 and \$5,335	\$ 579,552	\$ 594,465
4.00% USD Senior Notes due November 15, 2023, net of unamortized discount and debt issuance costs of \$2,393 and \$2,590	297,607	297,410
3.50% USD Senior Notes due September 15, 2022, net of unamortized discount and debt issuance costs of \$2,912 and \$3,230	497,088	496,770
Term Loan Facility, interest rate of 3.83% at June 30, 2018 and 3.19% at December 31, 2017, net of debt issuance costs of \$401 and \$585	134,599	164,415
Capital lease obligations and other borrowings	16,024	22,197
Debt and capital lease obligations	1,524,870	1,575,257
Less amounts due within one year	69,923	75,599
Total debt due after one year	\$ 1,454,947	\$ 1,499,658
Senior Credit Facility		

As discussed in Note 10 to our consolidated financial statements included in our 2017 Annual Report, our credit agreement provides for an initial \$400.0 million term loan (“Term Loan Facility”) and a \$800.0 million revolving credit facility (“Revolving Credit Facility”) and, together with the Term Loan Facility, the “Senior Credit Facility”) with a maturity date of October 14, 2020. As of June 30, 2018 and December 31, 2017, we had no amounts outstanding under the Revolving Credit Facility. We had outstanding letters of credit of \$76.3 million and \$94.8 million at June 30, 2018 and December 31, 2017, respectively, which together with financial covenant limitations based on the terms of our Senior Credit Facility, contributed to the reduction of our borrowing capacity to \$432.6 million and \$644.8 million, respectively. Our compliance with applicable financial covenants under the Senior Credit Facility is tested quarterly, and we complied with all applicable covenants as of June 30, 2018.

We may prepay loans under our Senior Credit Facility in whole or in part, without premium or penalty, at any time. A commitment fee, which is payable quarterly on the daily unused portions of the Senior Credit Facility, was 0.20% (per annum) during the period ended June 30, 2018. During the six months ended June 30, 2018, we made scheduled

repayments of \$30.0 million under our Term Loan Facility. We have scheduled repayments of \$15.0 million due in each of the next four quarters on our Term Loan Facility.

Table of Contents

7. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models may be applied. Assets and liabilities recorded at fair value in our condensed consolidated balance sheets are categorized by hierarchical levels based upon the level of judgment associated with the inputs used to measure their fair values. Recurring fair value measurements are limited to investments in derivative instruments. The fair value measurements of our derivative instruments are determined using models that maximize the use of the observable market inputs including interest rate curves and both forward and spot prices for currencies, and are classified as Level II under the fair value hierarchy. The fair values of our derivatives are included in Note 5. Our financial instruments are presented at fair value in our condensed consolidated balance sheets, with the exception of our long-term debt. The estimated fair value of our long-term debt, excluding the Senior Notes, approximates the carrying value and is classified as Level II under the fair value hierarchy. The carrying value of our debt is included in Note 6. The estimated fair value of our Senior Notes at June 30, 2018 was \$1,371.4 million compared to the carrying value of \$1,374.2 million. The estimated fair value of the Senior Notes is based on Level I quoted market rates. The carrying amounts of our other financial instruments (e.g., cash and cash equivalents, accounts receivable, net, accounts payable and short-term debt) approximated fair value due to their short-term nature at June 30, 2018 and December 31, 2017.

8. Inventories

Inventories, net consisted of the following:

	June 30, 2018	December 31, 2017
(Amounts in thousands)		
Raw materials	\$355,700	\$358,827
Work in process	223,925	548,250
Finished goods	177,123	215,849
Less: Progress billings	—	(160,044)
Less: Excess and obsolete reserve	(81,423)	(78,609)
Inventories, net	\$675,325	\$884,273

In the three months ended June 30, 2018, we recorded a \$7.7 million inventory charge related to the potential divestiture of two IPD locations and related product lines, and resulted in a decrease to finished goods. Refer to Note 3 of this Quarterly Report for further discussion.

As a result of our adoption of the New Revenue Standard as of January 1, 2018, progress billings and work in process amounts associated with contracts accounted under the over time method were either recognized as COS or reclassified into contract assets, net or contract liabilities. Refer to Note 2 of this Quarterly Report for a discussion on our adoption of the New Revenue Standard.

Table of Contents

9. Earnings Per Share

The following is a reconciliation of net earnings of Flowserve Corporation and weighted average shares for calculating net earnings per common share. Earnings per weighted average common share outstanding was calculated as follows:

	Three Months Ended June 30,	
(Amounts in thousands, except per share data)	2018	2017
Net earnings of Flowserve Corporation	\$13,220	\$41,878
Dividends on restricted shares not expected to vest	—	—
Earnings attributable to common and participating shareholders	\$13,220	\$41,878
Weighted average shares:		
Common stock	130,816	130,646
Participating securities	28	86
Denominator for basic earnings per common share	130,844	130,732
Effect of potentially dilutive securities	382	609
Denominator for diluted earnings per common share	131,226	131,341
Earnings per common share:		
Basic	\$0.10	\$0.32
Diluted	0.10	0.32
	Six Months Ended June 30,	
(Amounts in thousands, except per share data)	2018	2017
Net earnings of Flowserve Corporation	\$28,363	\$60,929
Dividends on restricted shares not expected to vest	—	—
Earnings attributable to common and participating shareholders	\$28,363	\$60,929
Weighted average shares:		
Common stock	130,765	130,520
Participating securities	38	127
Denominator for basic earnings per common share	130,803	130,647
Effect of potentially dilutive securities	358	661
Denominator for diluted earnings per common share	131,161	131,308
Earnings per common share:		
Basic	\$0.22	\$0.47
Diluted	0.22	0.46

Diluted earnings per share above is based upon the weighted average number of shares as determined for basic earnings per share plus shares potentially issuable in conjunction with stock options and Restricted Shares.

10. Legal Matters and Contingencies

Asbestos-Related Claims

We are a defendant in a substantial number of lawsuits that seek to recover damages for personal injury allegedly caused by exposure to asbestos-containing products manufactured and/or distributed by our heritage companies in the past. While the overall number of asbestos-related claims has generally declined in recent years, there can be no assurance that this trend will continue, or that the average cost per claim will not further increase. Asbestos-containing materials incorporated into any such products were encapsulated and used as internal components of process equipment, and we do not believe that any significant emission of asbestos fibers occurred during the use of this equipment.

Our practice is to vigorously contest and resolve these claims, and we have been successful in resolving a majority of claims with little or no payment. Historically, a high percentage of resolved claims have been covered by applicable insurance or indemnities from other companies, and we believe that a substantial majority of existing claims should continue to be covered by insurance or indemnities. Accordingly, we have recorded a liability for our estimate of the most likely settlement of asserted claims and a related receivable from insurers or other companies for our estimated recovery, to the extent we believe that the

19

Table of Contents

amounts of recovery are probable and not otherwise in dispute. While unfavorable rulings, judgments or settlement terms regarding these claims could have a material adverse impact on our business, financial condition, results of operations and cash flows, we currently believe the likelihood is remote.

Additionally, we have claims pending against certain insurers that, if resolved more favorably than reflected in the recorded receivables, would result in discrete gains in the applicable quarter. We are currently unable to estimate the impact, if any, of unasserted asbestos-related claims, although future claims would also be subject to then existing indemnities and insurance coverage.

United Nations Oil-for-Food Program

In mid-2006, the French authorities began an investigation of over 170 French companies, of which one of our French subsidiaries was included, concerning suspected inappropriate activities conducted in connection with the United Nations Oil for Food Program. As previously disclosed, the French investigation of our French subsidiary was formally opened in the first quarter of 2010, and our French subsidiary filed a formal response with the French court. In July 2012, the French court ruled against our procedural motions to challenge the constitutionality of the charges and quash the indictment. Hearings occurred on April 1-2, 2015, and the Company presented its defense and closing arguments. On June 18, 2015, the French court issued its ruling dismissing the case against the Company and the other defendants. However, on July 1, 2015, the French prosecutor lodged an appeal and we anticipate that the hearing for the appeal will be held in 2018. We currently do not expect to incur additional case resolution costs of a material amount in this matter. However, if the French authorities ultimately take enforcement action against our French subsidiary regarding its investigation, we may be subject to monetary and non-monetary penalties, which we currently do not believe will have a material adverse financial impact on our company.

Other

We are currently involved as a potentially responsible party at five former public waste disposal sites in various stages of evaluation or remediation. The projected cost of remediation at these sites, as well as our alleged "fair share" allocation, will remain uncertain until all studies have been completed and the parties have either negotiated an amicable resolution or the matter has been judicially resolved. At each site, there are many other parties who have similarly been identified. Many of the other parties identified are financially strong and solvent companies that appear able to pay their share of the remediation costs. Based on our information about the waste disposal practices at these sites and the environmental regulatory process in general, we believe that it is likely that ultimate remediation liability costs for each site will be apportioned among all liable parties, including site owners and waste transporters, according to the volumes and/or toxicity of the wastes shown to have been disposed of at the sites. We believe that our financial exposure for existing disposal sites will not be materially in excess of accrued reserves.

As previously disclosed in our 2017 Annual Report, we terminated an employee of an overseas subsidiary after uncovering actions that violated our Code of Business Conduct and may have violated the Foreign Corrupt Practices Act. We completed our internal investigation into the matter, self-reported the potential violation to the United States Department of Justice (the "DOJ") and the SEC, and continue to cooperate with the DOJ and SEC. We previously received a subpoena from the SEC requesting additional information and documentation related to the matter and have completed our response to the subpoena. We currently believe that this matter will not have a material adverse financial impact on the Company, but there can be no assurance that the Company will not be subjected to monetary penalties and additional costs.

We are also a defendant in a number of other lawsuits, including product liability claims, that are insured, subject to the applicable deductibles, arising in the ordinary course of business, and we are also involved in other uninsured routine litigation incidental to our business. We currently believe none of such litigation, either individually or in the aggregate, is material to our business, operations or overall financial condition. However, litigation is inherently unpredictable, and resolutions or dispositions of claims or lawsuits by settlement or otherwise could have an adverse impact on our financial position, results of operations or cash flows for the reporting period in which any such resolution or disposition occurs.

Although none of the aforementioned potential liabilities can be quantified with absolute certainty except as otherwise indicated above, we have established reserves covering exposures relating to contingencies, to the extent believed to be reasonably estimable and probable based on past experience and available facts. While additional exposures

beyond these reserves could exist, they currently cannot be estimated. We will continue to evaluate and update the reserves as necessary and appropriate.

20

Table of Contents

11. Retirement and Postretirement Benefits

Components of the net periodic cost for retirement and postretirement benefits for the three months ended June 30, 2018 and 2017 were as follows:

	U.S. Defined Benefit Plans		Non-U.S. Defined Benefit Plans		Postretirement Medical Benefits	
	2018	2017	2018	2017	2018	2017
(Amounts in millions)						
Service cost	\$5.1	\$4.9	\$1.8	\$1.7	\$ —	\$ —
Interest cost	3.9	4.1	2.1	2.2	0.2	0.2
Expected return on plan assets	(6.4)	(6.0)	(2.1)	(2.1)	—	—
Amortization of prior service cost	0.1	0.1	—	—	0.1	0.1
Amortization of unrecognized net loss (gain)	1.4	1.5	0.9	0.8	(0.3)	(0.2)
Net periodic cost recognized	\$4.1	\$4.6	\$2.7	\$2.6	\$ —	\$ 0.1

Components of the net periodic cost for retirement and postretirement benefits for the six months ended June 30, 2018 and 2017 were as follows:

	U.S. Defined Benefit Plans		Non-U.S. Defined Benefit Plans		Postretirement Medical Benefits	
	2018	2017	2018	2017	2018	2017
(Amounts in millions)						
Service cost	\$11.1	\$11.1	\$3.6	\$3.4	\$ —	\$ —
Interest cost	7.9	8.4	4.4	4.4	0.4	0.4
Expected return on plan assets	(12.9)	(12.2)	(4.3)	(4.2)	—	—
Amortization of prior service cost	0.1	0.1	—	—	0.1	0.1
Amortization of unrecognized net loss (gain)	2.8	3.0	1.8	1.7	(0.4)	(0.1)
Net periodic cost recognized	\$9.0	\$10.4	\$5.5	\$5.3	\$ 0.1	\$ 0.4

Effective January 1, 2018 we adopted ASU No. 2017-07, "Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." Refer to Note 1 included in this Quarterly Report for a discussion on the adoption of the standard.

The components of net periodic cost for retirement and postretirement benefits other than service costs are included in other expense, net in our condensed consolidated statement of income.

12. Shareholders' Equity

Dividends – Generally, our dividend date-of-record is in the last month of the quarter, and the dividend is paid the following month. Any subsequent dividends will be reviewed by our Board of Directors and declared in its discretion dependent on its assessment of our financial situation and business outlook at the applicable time.

Share Repurchase Program – On November 13, 2014, our Board of Directors approved a \$500.0 million share repurchase authorization. Our share repurchase program does not have an expiration date, and we reserve the right to limit or terminate the repurchase program at any time without notice. We had no repurchases of shares of our outstanding common stock for both of the three and six months ended June 30, 2018 and 2017. As of June 30, 2018, we had \$160.7 million of remaining capacity under our current share repurchase program.

13. Income Taxes

On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act of 2017 (the “Act”), which significantly changed U.S. tax law. The Act, among other things, lowered the Company’s U.S. statutory federal income tax rate from 35% to 21% effective January 1, 2018, while imposing a deemed repatriation tax on deferred foreign income and implementing a modified territorial tax system. While the Act provides for a territorial tax system, beginning in 2018, it provides for two new anti-base erosion provisions, the global intangible low-taxed income (“GILTI”) provision and the base-erosion and anti-abuse tax (“BEAT”) provision which effectively creates a new minimum tax on certain future foreign earnings.

21

Table of Contents

The Company included reasonable estimates of the income tax effects in applying the provisions of the Act in accordance with Accounting Standards Codification Topic 740, Income Taxes (ASC Topic 740) and following the guidance in SEC Staff Accounting Bulletin No. 118 (“SAB 118”). As a result, the impacts from the Act may differ, primarily related to deemed repatriated earnings and associated withholding taxes, from these provisional amounts, possibly materially, due to, among other things, additional analysis, changes from interpretations enacted and assumptions the Company has made, additional regulatory guidance that may be issued, and actions the Company may take as a result of the Act. Due to the timing of the Act and the substantial changes it brings, SAB 118 provides registrants a measurement period to report the impact of the new U.S. tax law. The financial reporting impact of the Act is expected to be completed no later than the fourth quarter of 2018. The impacts of these changes were reflected in the 2017 provisional tax expense, as discussed in Note 15 to our consolidated financial statements included in our 2017 Annual Report. The Company has elected to account for the GILTI provision in the period in which it is incurred.

For the three months ended June 30, 2018, we earned \$28.3 million before taxes and provided for income taxes of \$13.5 million resulting in an effective tax rate of 47.8%. For the six months ended June 30, 2018, we earned \$53.4 million before taxes and provided for income taxes of \$22.1 million resulting in an effective tax rate of 41.4%. The effective tax rate varied from the U.S. federal statutory rate for the three and six months ended June 30, 2018 primarily due to the net impact of foreign operations, including losses in certain foreign jurisdictions for which no tax benefit was provided.

For the three months ended June 30, 2017, we earned \$103.1 million before taxes and provided for income taxes of \$60.9 million resulting in an effective tax rate of 59.1%. For the six months ended June 30, 2017, we earned \$127.7 million before taxes and provided for income taxes of \$66.2 million resulting in an effective tax rate of 51.8%. The effective tax rate varied from the U.S. federal statutory rate for the three and six months ended June 30, 2017 primarily due to the net impact of foreign operations, losses in certain foreign jurisdictions for which no tax benefit was provided and taxes related to the sale of the Gestra business.

As of June 30, 2018, the amount of unrecognized tax benefits decreased by \$2.2 million from December 31, 2017. With limited exception, we are no longer subject to U.S. federal income tax audits for years through 2015, state and local income tax audits for years through 2012 or non-U.S. income tax audits for years through 2011. We are currently under examination for various years in Austria, Canada, France, Germany, India, Indonesia, Italy, Japan, Mexico, Saudi Arabia, the U.S. and Venezuela.

It is reasonably possible that within the next 12 months the effective tax rate will be impacted by the resolution of some or all of the matters audited by various taxing authorities. It is also reasonably possible that we will have the statute of limitations close in various taxing jurisdictions within the next 12 months. As such, we estimate we could record a reduction in our tax expense of approximately \$15 million within the next 12 months.

14. Segment Information

The following is a summary of the financial information of the reportable segments reconciled to the amounts reported in the condensed consolidated financial statements:

Three Months Ended June 30, 2018

(Amounts in thousands)	EPD	IPD	FCD	Subtotal–Reportable Segments	Eliminations and All Other	Consolidated Total
Sales to external customers	\$471,178	\$196,291	\$305,660	\$ 973,129	\$ —	\$ 973,129
Intersegment sales	9,493	9,433	811	19,737	(19,737)	—
Segment operating income (loss)	51,024	(20,459)	46,422	76,987	(30,276)	46,711

Three Months Ended June 30, 2017(1)

(Amounts in thousands)	EPD	IPD	FCD	Subtotal–Reportable Segments	Eliminations and All Other	Consolidated Total
------------------------	-----	-----	-----	------------------------------	----------------------------	--------------------

15. Accumulated Other Comprehensive Loss

The following table presents the changes in accumulated other comprehensive loss ("AOCL"), net of tax for the three months ended June 30, 2018 and 2017:

(Amounts in thousands)	2018				2017			
	Foreign currency translation items(1)	Pension and other post-retiremen effects	Cash flow hedging activity	Total(1)	Foreign currency translation items(1)	Pension and other post-retiremen effects	Cash flow hedging activity	Total(1)
Balance - April 1	\$(365,330)	\$(116,065)	\$(1,062)	\$(482,457)	\$(449,823)	\$(136,046)	\$(1,135)	\$(587,004)
Other comprehensive (loss) income before reclassifications	(60,997)	3,788	97	(57,112)	33,765	(2,661)	(19)	31,085
Amounts reclassified from AOCL	—	2,029	—	2,029	552	1,519	—	2,071
Net current-period other comprehensive (loss) income	(60,997)	5,817	97	(55,083)	34,317	(1,142)	(19)	33,156
Balance - June 30	\$(426,327)	\$(110,248)	\$(965)	\$(537,540)	\$(415,506)	\$(137,188)	\$(1,154)	\$(553,848)

(1) Includes foreign currency translation adjustments attributable to noncontrolling interests of \$3.9 million for April 1, 2018 and 2017, and \$4.7 million and \$3.9 million at June 30, 2018 and 2017, respectively. Includes net investment hedge gains of \$12.5 million and losses of \$12.5 million, net of deferred taxes, for the three months ended June 30, 2018 and 2017, respectively. Amounts in parentheses indicate debits.

Table of Contents

The following table presents the reclassifications out of AOCL:

(Amounts in thousands)	Affected line item in the statement of income	Three Months Ended June 30,	
		2018(1)	2017(1)
Foreign currency translation items			
Release of cumulative translation adjustments due to sale of business	Gain on sale of business	\$—	\$(552)
	Tax benefit	—	—
	Net of tax	\$—	\$(552)
Pension and other postretirement effects			
Amortization of actuarial losses(2)	Other expense, net	\$(1,975)	\$(2,204)
Prior service costs(2)	Other expense, net	(78)	(57)
	Tax benefit	24	742
	Net of tax	\$(2,029)	\$(1,519)

(1) Amounts in parentheses indicate decreases to income. None of the reclass amounts have a noncontrolling interest component.

(2) These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 11 for additional details.

The following table presents the changes in AOCL, net of tax for the six months ended June 30, 2018 and 2017:

(Amounts in thousands)	2018				2017

	Tax benefit	587	1,560
	Net of tax	\$(3,742)	\$(3,156)

(1) Amounts in parentheses indicate decreases to income. None of the reclass amounts have a noncontrolling interest component.

(2) These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 11 for additional details.

16. Realignment Programs

In the first quarter of 2015, we initiated a realignment program ("R1 Realignment Program") to reduce and optimize certain non-strategic QRCs and manufacturing facilities. In the second quarter of 2015, we initiated a second realignment program ("R2 Realignment Program") to better align costs and improve long-term efficiency, including further manufacturing optimization through the consolidation of facilities, a reduction in our workforce, the transfer of activities from high-cost regions to lower-cost facilities and the divestiture of certain non-strategic assets.

The R1 Realignment Program and the R2 Realignment Program (collectively the "Realignment Programs") consist of both restructuring and non-restructuring charges. Restructuring charges represent costs associated with the relocation or reorganization of certain business activities and facility closures and include related severance costs.

Non-restructuring charges are primarily employee severance associated with workforce reductions to reduce redundancies. Expenses are primarily reported in COS or SG&A, as applicable, in our condensed consolidated statements of income. We anticipate a total investment in these programs of approximately \$360 million, including projects in process or under final evaluation. We anticipate to incur the remaining charges throughout the remainder of 2018.

Table of Contents

Generally, the aforementioned charges will be paid in cash, except for asset write-downs, which are non-cash charges. The following is a summary of total charges, net of adjustments, related to the Realignment Programs:

Three Months Ended June 30, 2018

(Amounts in thousands)	EPD	IPD	FCD	Subtotal-Reportable Segments	Eliminations and All Other	Consolidated Total

SG&A	20,337	19,506	8,886	48,729	11,939	60,668
	\$57,895	\$42,665	\$24,336	\$ 124,896	\$ 11,947	\$ 136,843
Total Realignment Charges						
COS	\$85,807	\$72,592	\$40,557	\$ 198,956	\$ 8	\$ 198,964
SG&A	39,096	36,926	18,328	94,350	12,246	106,596
Income tax expense(2)	10,400	9,300	1,800	21,500	—	21,500
Total	\$135,303	\$118,818	\$60,685	\$ 314,806	\$ 12,254	\$ 327,060

(1) Includes \$47.7 million of restructuring charges, primarily COS, related to the R1 Realignment Program.

(2) Income tax expense includes exit taxes as well as non-deductible costs.

Restructuring charges represent costs associated with the relocation or reorganization of certain business activities and facility closures and include costs related to employee severance at closed facilities, contract termination costs, asset write-downs and other costs. Severance costs primarily include costs associated with involuntary termination benefits. Contract termination costs include costs related to termination of operating leases or other contract termination costs. Asset write-downs include accelerated depreciation of fixed assets, accelerated amortization of intangible assets, divestiture of certain non-strategic assets and inventory write-downs. Other costs generally include costs related to employee relocation, asset relocation, vacant facility costs (i.e., taxes and insurance) and other charges.

The following is a summary of restructuring charges, net of adjustments, for the Realignment Programs:

Three Months Ended June 30, 2018					
(Amounts in thousands)	Severance	Contract Termination	Asset Write-Downs	Other	Total

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and notes thereto, and the other financial data included elsewhere in this Quarterly Report. The following discussion should also be read in conjunction with our audited consolidated financial statements, and notes thereto, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" ("MD&A") included in our 2017 Annual Report.

Table of Contents

EXECUTIVE OVERVIEW

Our Company

We believe that we are a world-leading manufacturer and aftermarket service provider of comprehensive flow control systems. We develop and manufacture precision-engineered flow control equipment integral to the movement, control and protection of the flow of materials in our customers' critical processes. Our product portfolio of pumps, valves, seals, automation and aftermarket services supports global infrastructure industries, including oil and gas, chemical, power generation and water management, as well as general industrial markets where our products and services add value. Through our manufacturing platform and global network of Quick Response Centers ("QRCs"), we offer a broad array of aftermarket equipment services, such as installation, advanced diagnostics, repair and retrofitting. We currently employ approximately 16,000 employees in more than 50 countries.

Our business model is significantly influenced by the capital spending of global infrastructure industries for the placement of new products into service and aftermarket services for existing operations. The worldwide installed base of our products is an important source of aftermarket revenue, where products are expected to ensure the maximum operating time of many key industrial processes. Over the past several years, we have significantly invested in our aftermarket strategy to provide local support to drive customer investments in our offerings and use of our services to replace or repair installed products. The aftermarket portion of our business also helps provide business stability during various economic periods. The aftermarket business, which is primarily served by our network of 172 QRCs located around the globe, provides a variety of service offerings for our customers including spare parts, service solutions, product life cycle solutions and other value-added services. It is generally a higher margin business compared to our original equipment business and a key component of our business strategy.

Our operations are conducted through three business segments that are referenced throughout this MD&A:

• **EPD** for long lead time, custom and other highly-engineered pumps and pump systems, mechanical seals, auxiliary systems and replacement parts and related services;

• **IPD** for engineered and pre-configured industrial pumps and pump systems and related products and services; and

• **FCD** for engineered and industrial valves, control valves, actuators and controls and related services.

Our business segments share a focus on industrial flow control technology and have a high number of common customers. These segments also have complementary product offerings and technologies that are often combined in applications that provide us a net competitive advantage. Our segments also benefit from our global footprint and our economies of scale in reducing administrative and overhead costs to serve customers more cost effectively. For example, our segments share leadership for operational support functions, such as research and development, marketing and supply chain.

The reputation of our product portfolio is built on more than 50 well-respected brand names such as Worthington, IDP, Valtek, Limitorque, Durco, Edward, Anchor/Darling, SIHI, Halberg and Durametallc, which we believe to be one of the most comprehensive in the industry. Our products and services are sold either directly or through designated channels to more than 10,000 companies, including some of the world's leading engineering, procurement and construction ("EPC") firms, original equipment manufacturers, distributors and end users.

We continue to leverage our QRC network to be positioned as near to customers as possible for service and support in order to capture valuable aftermarket business. Along with ensuring that we have the local capability to sell, install and service our equipment in remote regions, it is equally imperative to continuously improve our global operations. We continue to expand our global supply chain capability to meet global customer demands and ensure the quality and timely delivery of our products. Additionally, we continue to devote resources to improving the supply chain processes across our business segments to find areas of synergy and cost reduction and to improve our supply chain management capability to ensure it can meet global customer demands. We also remain focused on improving on-time delivery and quality, while managing warranty costs as a percentage of sales across our global operations, through the assistance of a focused Continuous Improvement Process ("CIP") initiative. The goal of the CIP initiative, which includes lean manufacturing, six sigma business management strategy and value engineering, is to maximize service fulfillment to customers through on-time delivery, reduced cycle time and quality at the highest internal productivity. During the first six months of 2018, our financial results continued to be challenged by cautious customer capital investment, primarily in the oil and gas industry and pricing pressures. With continued stability in oil prices, at

improved levels beginning in the second half of 2017, we anticipate that customers will increase maintenance and short cycle investment during 2018.

In the second quarter of 2018 we formally launched and committed resources to our Flowserve 2.0 Transformation, a program designed to transform our business model to drive operational excellence, reduce complexity, accelerate growth and better leverage our global platform.

Table of Contents

RESULTS OF OPERATIONS — Three and six months ended June 30, 2018 and 2017

Effective January 1, 2018, we adopted ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" and all related ASUs ("New Revenue Standard"), using the modified retrospective method for transition. For a discussion related to our adoption of the New Revenue Standard requirements refer to Notes 1 and 2 to our condensed consolidated financial statements included in this Quarterly Report.

Throughout this discussion of our results of operations, we discuss the impact of fluctuations in foreign currency exchange rates. We have calculated currency effects on operations by translating current year results on a monthly basis at prior year exchange rates for the same periods.

In 2015, we initiated Realignment Programs that consist of both restructuring and non-restructuring charges that are further discussed in Note 16 to our condensed consolidated financial statements included in this Quarterly Report. The Realignment Programs will continue throughout 2018 and the total charges for Realignment Programs by segment are detailed below for the three months ended June 30, 2018 and 2017:

Three Months Ended June 30, 2018						
(Amounts in thousands)	EPD	IPD	FCD	Subtotal—Reportable Segments	Eliminations and All Other	Consolidated Total
Total Realignment Program Charges

Total	\$13,485	\$4,476	\$1,766	\$ 19,727	\$ 1,014	\$ 20,741
Three Months Ended June 30, 2017						
(Amounts in thousands)	EPD	IPD	FCD	Subtotal—Reportable Segments	Eliminations and All Other	Consolidated Total
Total Realignment Program Charges						
COS	\$6,937	\$3,698	\$3,479	\$ 14,114	\$ —	\$ 14,114
SG&A	7,297	6,865	1,974	16,136	1,455	17,591
Total	\$14,234	\$10,563	\$5,453	\$ 30,250	\$ 1,455	\$ 31,705

Table of Contents

The total charges for Realignment Programs by segment are detailed below for the six months ended June 30, 2018 and 2017:

(Amounts in thousands)	Six Months Ended June 30, 2018				Subtotal—Reportable Segments	Eliminations and All Other	Consolidated Total
	Engineered Product Division	Industrial Product Division	Flow Control Division				
Total Realignment Program Charges							
COS	\$16,572	\$ 3,778	\$ 3,035	\$ 23,385	\$ —	\$ 23,385	
SG&A	3,910	1,808	1,067	6,785	2,045	8,830	
Total	\$20,482	\$ 5,586	\$ 4,102	\$ 30,170	\$ 2,045	\$ 32,215	
	Six Months Ended June 30, 2017						
(Amounts in thousands)	Engineered Product Division	Industrial Product Division	Flow Control Division	Subtotal—Reportable Segments	Eliminations and All Other	Consolidated Total	
Total Realignment Program Charges							
COS	\$5,364	\$9,909	\$ 3,880	\$ 19,153	\$ —	\$ 19,153	
SG&A	7,229	10,560	2,647	20,436	2,630	23,066	
Total	\$12,593	\$20,469	\$ 6,527	\$ 39,589	\$ 2,630	\$ 42,219	

We anticipate a total investment in these Realignment Programs of approximately \$360 million, including projects in process or under final evaluation. Since inception of the Realignment Programs in 2015, we have incurred charges of \$327.1 million and we expect to incur the remaining charges throughout the remainder of 2018.

Based on actions under our Realignment Programs, we estimate that we have achieved cost savings of approximately \$123 million for the six months ended June 30, 2018, as compared with \$93 million in the same period of 2017.

Approximately \$78 million of those savings are in COS with the remainder in SG&A. Upon completion of the Realignment Programs, we expect run-rate cost savings of approximately \$230 million, of which the vast majority is anticipated to be achieved in 2018, and an approximate 20% reduction in our global workforce, relative to early 2015 workforce levels. Actual savings could vary from expected savings, which represent management's estimate to date.

Consolidated Results

Bookings, Sales and Backlog

(Amounts in millions)	Three Months Ended June 30,	
	2018	2017
Bookings	\$1,037.3	\$971.3
Sales	973.1	877.1
(Amounts in millions)	Six Months Ended June 30,	
	2018	2017
Bookings	\$1,965.8	\$1,928.1
Sales	1,893.1	1,743.4

Table of Contents

We define a booking as the receipt of a customer order that contractually engages us to perform activities on behalf of our customer with regard to manufacturing, service or support. Bookings recorded and subsequently canceled within the year-to-date period are excluded from year-to-date bookings. Bookings for the three months ended June 30, 2018 increased by \$66.0 million, or 6.8%, as compared with the same period in 2017. The increase included currency benefits of approximately \$17 million. The increase was driven by increases in the oil and gas, general and chemical industries, partially offset by decreased bookings in the power generation industry. The increase was primarily due to customer aftermarket bookings. The three months ended June 30, 2017 included bookings of approximately \$11 million related to FCD's businesses that were divested in the second and third quarter of 2017.

Bookings for the six months ended June 30, 2018 increased by \$37.7 million, or 2.0%, as compared with the same period in 2017, which included 2017 bookings for an order of approximately \$80 million to provide pumps and related equipment for the Hengli Integrated Refining Complex Project in China which did not recur. The increase included currency benefits of approximately \$66 million. The increase was primarily driven by the general and chemical industries, partially offset by decreased bookings in the oil and gas and water industries. The increase was due to customer aftermarket bookings. The six months ended June 30, 2017 included bookings of approximately \$39 million related to FCD's businesses that were divested in the second and third quarter of 2017.

Sales for the three months ended June 30, 2018 increased by \$96.0 million, or 10.9%, as compared with the same period in 2017. The increase included currency benefits of approximately \$17 million. The increase was more heavily-weighted to aftermarket sales with increased sales into North America, Asia Pacific, Africa, Latin America and the Middle East, partially offset by decreased sales in Europe. The impact of the adoption of the New Revenue Standard increased sales by approximately \$11 million for the three months ended June 30, 2018. The three months ended June 30, 2017 included sales of approximately \$10 million related to FCD's businesses that were divested in the second and third quarter of 2017. Net sales to international customers, including export sales from the U.S., were approximately 64% and 63% of total sales for the three months ended June 30, 2018 and 2017, respectively.

Sales for the six months ended June 30, 2018 increased by \$149.7 million, or 8.6%, as compared with the same period in 2017. The increase included currency benefits of approximately \$66 million. The increase was more heavily-weighted to aftermarket sales with increased sales into North America, Asia Pacific and Africa, partially offset by decreased sales in the Middle East and Europe. The impact of the adoption of the New Revenue Standard increased sales by approximately \$81 million for the six months ended June 30, 2018. The six months ended June 30, 2017 included sales of approximately \$36 million related to FCD's businesses that were divested in the second quarter of 2017. Net sales to international customers, including export sales from the U.S., were approximately 63% of total sales for both the six months ended June 30, 2018 and 2017.

Backlog represents the aggregate value of booked but uncompleted customer orders and is influenced primarily by bookings, sales, cancellations and currency effects. Backlog of \$1,829.2 million at June 30, 2018 decreased by \$204.2 million, or 10.0%, as compared with December 31, 2017. Currency effects provided a decrease of approximately \$51 million. The impact of the initial adoption of the New Revenue Standard reduced backlog by approximately \$237 million at January 1, 2018. Approximately 35% of the backlog at June 30, 2018 was related to aftermarket orders.

Backlog includes our unsatisfied (or partially unsatisfied) performance obligations of approximately \$1,335 million and approximately \$494 million of customer orders that are generally subject to the possibility of customer cancellation for convenience without penalty ("Cancellable Backlog"). We have historically experienced very low cancellation rates such that any potential subsequent reversals of Cancellable Backlog are not expected to be material.

The remaining portion of our total backlog is not cancellable without a substantive penalty and therefore represents remaining performance obligations as discussed in Note 2 to our condensed consolidated financial statements included in this Quarterly Report.

Gross Profit and Gross Profit Margin

	Three Months Ended June 30,	
(Amounts in millions, except percentages)	2018	2017
Gross profit	\$286.1	\$245.5

Edgar Filing: FLOWSERVE CORP - Form 10-Q

Gross profit margin	29.4 %	28.0 %
	Six Months Ended	
	June 30,	
(Amounts in millions, except percentages)	2018	2017
Gross profit	\$557.5	\$514.4
Gross profit margin	29.4 %	29.5 %

33

Table of Contents

Gross profit for the three months ended June 30, 2018 increased by \$40.6 million, or 16.5%, as compared with the same period in 2017. Gross profit margin for the three months ended June 30, 2018 of 29.4% increased from 28.0% for the same period in 2017. The impact of the adoption of the New Revenue Standard had a favorable impact on gross profit margin for the three months ended June 30, 2018 of approximately 50 basis points. The increase in gross profit margin was primarily attributed to a \$16.9 million charge for costs related to a contract to supply oil and gas platform equipment to an end user in Latin America in the second quarter of 2017 that did not recur, the favorable impact of increased sales on our absorption of fixed manufacturing costs and increased savings related to our Realignment Programs, partially offset by revenue recognized on lower margin projects and a \$7.7 million charge for cost incurred related to the write-down of inventory associated with the potential divestiture of two IPD locations and related product lines. Aftermarket sales increased to approximately 50% of total sales, as compared with approximately 49% of total sales for the same period in 2017.

Gross profit for the six months ended June 30, 2018 increased by \$43.1 million, or 8.4%, as compared with the same period in 2017. Gross profit margin for the six months ended June 30, 2018 of 29.4% decreased slightly from 29.5% for the same period in 2017. The impact of the adoption of the New Revenue Standard had an unfavorable impact on gross profit margin for the six months ended June 30, 2018 of approximately 50 basis points. The decrease in gross profit margin was primarily attributed to revenue recognized on lower margin projects and a \$7.7 million charge for cost incurred related to the write-down of inventory associated with the potential divestiture of two IPD locations and related product lines, substantially offset by a \$16.9 million charge for costs related to a contract to supply oil and gas platform equipment to an end user in Latin America in the second quarter of 2017 that did not recur, the favorable impact of increased sales on our absorption of fixed manufacturing costs and increased savings related to our Realignment Programs. Aftermarket sales increased to approximately 50% of total sales, as compared with approximately 48% of total sales for the same period in 2017.

Selling, General and Administrative Expense

	Three Months Ended June 30,	
(Amounts in millions, except percentages)	2018	2017
SG&A	\$240.8	\$252.5
SG&A as a percentage of sales	24.7 %	28.8 %
	Six Months Ended June 30,	
(Amounts in millions, except percentages)	2018	2017
SG&A	\$470.0	\$474.3
SG&A as a percentage of sales	24.8 %	27.2 %

SG&A for the three months ended June 30, 2018 decreased by \$11.7 million, or 4.6%, as compared with the same period in 2017. Currency effects yielded an increase of approximately \$4 million. SG&A as a percentage of sales for the three months ended June 30, 2018 decreased 410 basis points as compared with the same period in 2017 primarily due to decreased charges related to our Realignment Programs, a \$26.0 million impairment charge related to our manufacturing facility in Brazil in the second quarter of 2017 that did not recur and increased sales leverage, partially offset by increased broad-based annual incentive compensation expense and an impairment charge of \$9.7 million related to the long-lived assets associated with the potential divestiture of two IPD locations and associated product lines.

SG&A for the six months ended June 30, 2018 decreased by \$4.3 million, or 0.9%, as compared with the same period in 2017. Currency effects yielded an increase of approximately \$13 million. SG&A as a percentage of sales for the six months ended June 30, 2018 decreased 240 basis points as compared with the same period in 2017 primarily due to decreased charges related to our Realignment Programs, a \$26.0 million impairment charge related to our

manufacturing facility in Brazil in the second quarter of 2017 that did not recur, increased sales leverage and lower stock-based compensation expense, partially offset by increased implementation costs associated with our adoption of the New Revenue Standard, increased broad-based annual incentive compensation expense and an impairment charge of \$9.7 million related to the long-lived assets associated with the potential divestiture of two IPD locations and related product lines.

Gain on Sale of Business

	Three	
	Months	
	Ended	
	June 30,	
(Amounts in millions)	2018	2017
Gain on sale of business	\$-131.3	
	Six	
	Months	
	Ended	
	June 30,	
(Amounts in millions)	2018	2017
Gain on sale of business	\$-131.3	

The gain on sale of business decreased by \$131.3 million for the three and six months ended June 30, 2018. The decrease was the result of the \$131.3 million pre-tax gain from the sale of the Gestra business in the second quarter of 2017 that did not recur. See Note 3 to our condensed consolidated financial statements included in this Quarterly Report for additional information on this sale.

Net Earnings from Affiliates

	Three	
	Months	
	Ended	
	June 30,	
(Amounts in millions)	2018	2017
Net earnings from affiliates	\$1.4	\$2.7
	Six	
	Months	
	Ended	
	June 30,	
(Amounts in millions)	2018	2017
Net earnings from affiliates	\$4.6	\$6.1

Net earnings from affiliates for the three months ended June 30, 2018 decreased \$1.3 million, or 48.1%, as compared with the same period in 2017. The decrease was primarily a result of decreased earnings of our EPD joint venture in South Korea and our FCD joint venture in China.

Net earnings from affiliates for the six months ended June 30, 2018 decreased \$1.5 million, or 24.6%, as compared with the same period in 2017. The decrease was primarily a result of decreased earnings of our EPD joint venture in South Korea.

Operating Income and Operating Margin

	Three Months	
	Ended June 30,	
(Amounts in millions, except percentages)	2018	2017
Operating income	\$46.7	\$126.9
Operating income as a percentage of sales	4.8 %	14.5 %

Edgar Filing: FLOWSERVE CORP - Form 10-Q

	Six Months Ended	
	June 30,	
(Amounts in millions, except percentages)	2018	2017
Operating income	\$92.1	\$177.5
Operating income as a percentage of sales	4.9 %	10.2 %

Operating income for the three months ended June 30, 2018 decreased by \$80.2 million, or 63.2%, as compared with the same period in 2017. The decrease included currency benefits of approximately \$2 million. The decrease was primarily a result of the \$131.3 million pre-tax gain from the sale of the Gestra business in the second quarter of 2017 that did not recur, partially offset by the \$40.6 million increase in gross profit and the \$11.7 million decrease in SG&A.

Operating income for the six months ended June 30, 2018 decreased by \$85.4 million, or 48.1%, as compared with the same period in 2017. The decrease included currency benefits of approximately \$6 million. The decrease was primarily a result of the \$131.3 million pre-tax gain from the sale of the Gestra business in the second quarter of 2017 that did not recur, partially offset by the \$43.1 million increase in gross profit and the \$4.3 million decrease in SG&A.

Table of Contents

Interest Expense and Interest Income		
Three Months Ended June 30,		
(Amounts in millions)	2018	2017
Interest expense	\$(14.9)	\$(15.0)
Interest income	1.3	0.6
Six Months Ended June 30,		
(Amounts in millions)	2018	2017
Interest expense	\$(29.8)	\$(29.6)
Interest income	3.0	1.3

Interest expense for the three and six months ended June 30, 2018 remained relatively constant, respectively, as compared with the same period in 2017. Interest income for the three and six months ended June 30, 2018 increased \$0.7 million and \$1.7 million, respectively, as compared with the same period in 2017. The increase in interest income for the three and six month periods was primarily attributable to higher average cash balances in the second quarter compared with the same period in 2017.

Other Expense, Net		
Three Months Ended June 30,		
(Amounts in millions)	2018	2017
Other expense, net	\$(4.8)	\$(9.5)
Six Months Ended June 30,		
(Amounts in millions)	2018	2017
Other expense, net	\$(11.9)	\$(21.5)

Other expense, net for the three months ended June 30, 2018 decreased \$4.7 million, as compared with the same period in 2017, due primarily to a \$2.1 million decrease in losses arising from transactions on foreign exchange contracts and a \$1.0 million decrease in losses from transactions in currencies other than our sites' functional currencies. The net change was primarily due to the foreign currency exchange rate movements in the Argentinian peso, Mexican peso, Indian rupee and British pound in relation to the U.S. dollar during the three months ended June 30, 2018, as compared with the same period in 2017.

Other expense, net for the six months ended June 30, 2018 decreased \$9.6 million, as compared with the same period in 2017, due primarily to a \$7.1 million decrease in losses from transactions in currencies other than our sites' functional currencies. The net change was primarily due to the foreign currency exchange rate movements in the Argentinian peso, Mexican peso, Indian rupee and Euro in relation to the U.S. dollar during the six months ended June 30, 2018, as compared with the same period in 2017. For a discussion related to hyperinflation in Argentina, refer to Note 1 to our condensed consolidated financial statements included in this Quarterly Report.

Tax Expense and Tax Rate

Three Months
Ended June 30,

Edgar Filing: FLOWSERVE CORP - Form 10-Q

(Amounts in millions, except percentages)	2018	2017
Provision for income taxes	\$13.5	\$60.9
Effective tax rate	47.8 %	59.1 %

Six Months
Ended June 30,

(Amounts in millions, except percentages)	2018	2017
Provision for income taxes	\$22.1	\$66.2
Effective tax rate	41.4 %	51.8 %

Table of Contents

The effective tax rate of 47.8% for the three months ended June 30, 2018 decreased from 59.1% for the same period in 2017. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2018 primarily due to the net impact of foreign operations, including losses in certain foreign jurisdictions for which no tax benefit was provided. For further information concerning our taxes, including our evaluation on the impact of the Act, please see Note 13 to our condensed consolidated financial statements included in this Quarterly Report.

The effective tax rate of 41.4% for the six months ended June 30, 2018 decreased from 51.8% for the same period in 2017. The effective tax rate varied from the U.S. federal statutory rate for the six months ended June 30, 2018 primarily due to the net impact of foreign operations, including losses in certain foreign jurisdictions for which no tax benefit was provided. For further information concerning our taxes, including our evaluation on the impact of the Act, please see Note 13 to our condensed consolidated financial statements included in this Quarterly Report.

Other Comprehensive (Loss) Income

	Three Months Ended June 30,	
(Amounts in millions)	2018	2017
Other comprehensive (loss) income	\$(55.1)	\$33.2

	Six Months Ended June 30,	
(Amounts in millions)	2018	2017
Other comprehensive (loss) income	\$(35.9)	\$67.5

Other comprehensive loss for the three months ended June 30, 2018 increased \$88.3 million compared to income of \$33.2 million in 2017. The increased loss was primarily due to foreign currency translation adjustments resulting primarily from exchange rate movements of the Euro, Argentinian peso, British pound and Indian rupee versus the U.S. dollar during the three months ended June 30, 2018, as compared with the same period in 2017.

Other comprehensive loss for the six months ended June 30, 2018 increased \$103.4 million compared to income of \$67.5 million in 2017. The increased loss was primarily due to foreign currency translation adjustments resulting primarily from exchange rate movements of the Euro, Argentinian peso, Indian rupee and British pound versus the U.S. dollar during the six months ended June 30, 2018, as compared with the same period in 2017. For a discussion related to hyperinflation in Argentina, refer to Note 1 to our condensed consolidated financial statements included in this Quarterly Report.

Business Segments

We conduct our operations through three business segments based on type of product and how we manage the business. We evaluate segment performance and allocate resources based on each segment's operating income. The key operating results for our three business segments, EPD, IPD and FCD, are discussed below.

Table of Contents

Engineered Product Division Segment Results

Our largest business segment is EPD, through which we design, manufacture, distribute and service custom and other highly-engineered pumps and pump systems, mechanical seals, auxiliary systems and spare parts (collectively referred to as "original equipment"). EPD includes longer lead-time, highly-engineered pump products and shorter cycle engineered pumps and mechanical seals that are generally manufactured more quickly. EPD also manufactures replacement parts and related equipment and provides a full array of replacement parts, repair and support services (collectively referred to as "aftermarket"). EPD primarily operates in the oil and gas, power generation, chemical and general industries. EPD operates in 47 countries with 29 manufacturing facilities worldwide, nine of which are located in Europe, nine in North America, six in Asia and five in Latin America, and it operates 120 QRCs, including those co-located in manufacturing facilities and/or shared with FCD.

	Three Months Ended June 30,			
(Amounts in millions, except percentages)	2018	2017		
Bookings	\$505.7	\$465.1		
Sales	480.7	427.7		
Gross profit	148.2	130.8		
Gross profit margin	30.8	% 30.6	%	
SG&A	99.0	123.6		
Segment operating income	51.0	9.8		
Segment operating income as a percentage of sales	10.6	% 2.3	%	
	Six Months Ended June 30,			
(Amounts in millions, except percentages)	2018	2017		
Bookings	\$930.6	\$925.1		
Sales	948.4	852.4		
Gross profit	288.1	267.7		
Gross profit margin	30.4	% 31.4	%	
SG&A	202.9	218.0		
Segment operating income	90.4	55.7		
Segment operating income as a percentage of sales	9.5	% 6.5	%	

Bookings for the three months ended June 30, 2018 increased by \$40.6 million, or 8.7%, as compared with the same period in 2017. The increase included currency benefits of approximately \$4 million. The increase in customer bookings was driven by the chemical, general and oil and gas industries, partially offset by decreased bookings in the power generation industry. Increased customer bookings of \$39.4 million into Europe, \$21.3 million into North America, \$6.3 million into the Middle East and \$5.9 million into Latin America were partially offset by decreased customer bookings of \$15.4 million into Asia Pacific and \$9.6 million into Africa. The increase was driven by increased customer aftermarket bookings. Interdivision bookings (which are eliminated and are not included in consolidated bookings as disclosed above) decreased by \$2.2 million.

Bookings for the six months ended June 30, 2018 increased by \$5.5 million, or 0.6%, as compared with the same period in 2017, which included 2017 bookings for an order of approximately \$80 million to provide pumps and related equipment for the Hengli Integrated Refining Complex Project in China which did not recur. The increase included currency benefits of approximately \$24 million. The increase in customer bookings was primarily driven by the general, chemical and power generation industries, substantially offset by decreased bookings in the oil and gas industry. Increased customer bookings of \$56.9 million into Europe, \$9.0 million into North America, \$7.3 million into Latin America and \$6.8 million into the Middle East were substantially offset by decreased customer bookings of \$67.6 million into Asia Pacific and \$2.6 million into Africa. The increase was driven by increased customer

aftermarket bookings. Interdivision bookings (which are eliminated and are not included in consolidated bookings as disclosed above) decreased by \$1.3 million.

Sales for the three months ended June 30, 2018 increased \$53.0 million, or 12.4%, as compared with the same period in 2017. The increase included currency benefits of approximately \$4 million. The increase was more heavily weighted towards aftermarket sales. The increase resulted from increased sales of \$19.6 million into North America, \$14.7 million into Africa, \$13.4 million into Asia Pacific and \$7.6 million into Latin America, partially offset by decreased sales of \$2.4 million into Europe. The impact of the adoption of the New Revenue Standard increased sales by approximately \$5 million for the three months ended June 30, 2018. Interdivision sales (which are eliminated and are not included in consolidated sales as disclosed above) increased by \$1.2 million when compared to the same period in 2017.

Table of Contents

Sales for the six months ended June 30, 2018 increased \$96.0 million, or 11.3%, as compared with the same period in 2017. The increase included currency benefits of approximately \$28 million. The increase was more heavily weighted towards aftermarket sales. The increase resulted from increased sales of \$44.5 million into North America, \$41.5 million into Asia Pacific, \$21.3 million into Africa and \$8.2 million into Latin America, partially offset by decreased sales of \$15.5 million into the Middle East and \$3.0 million into Europe. The impact of the adoption of the New Revenue Standard increased sales by approximately \$42 million for the six months ended June 30, 2018. Interdivision sales (which are eliminated and are not included in consolidated sales as disclosed above) increased by \$4.5 million when compared to the same period in 2017.

Gross profit for the three months ended June 30, 2018 increased by \$17.4 million, or 13.3%, as compared with the same period in 2017. Gross profit margin for the three months ended June 30, 2018 of 30.8% increased from 30.6% for the same period in 2017. The slight increase in gross profit margin was primarily attributable to the favorable impact of increased sales on our absorption of fixed manufacturing costs and increased savings related to our Realignment Programs, substantially offset by increased charges related to our Realignment Programs and revenue recognized on lower margin projects. The impact of the adoption of the New Revenue Standard had a favorable impact on gross profit margin for the three months ended June 30, 2018.

Gross profit for the six months ended June 30, 2018 increased by \$20.4 million, or 7.6%, as compared with the same period in 2017. Gross profit margin for the six months ended June 30, 2018 of 30.4% decreased from 31.4% for the same period in 2017. The decrease in gross profit margin was primarily attributable to increased charges related to our Realignment Programs and revenue recognized on lower margin projects, partially offset by the favorable impact of increased sales on our absorption of fixed manufacturing costs and increased savings related to our Realignment Programs.

SG&A for the three months ended June 30, 2018 decreased by \$24.6 million, or 19.9%, as compared with the same period in 2017. Currency effects provided an increase of approximately \$1 million. The decrease in SG&A is primarily attributable to a \$26.0 million impairment charge related to our manufacturing facility in Brazil in the second quarter of 2017 that did not recur and decreased charges related to our Realignment Programs, partially offset by higher selling and marketing-related expenses as compared to the same period in 2017.

SG&A for the six months ended June 30, 2018 decreased by \$15.1 million, or 6.9%, as compared with the same period in 2017. Currency effects provided an increase of approximately \$5 million. The decrease in SG&A is primarily attributable to a \$26.0 million impairment charge related to our manufacturing facility in Brazil in the second quarter of 2017 that did not recur and decreased charges related to our Realignment Programs, partially offset by higher selling and marketing-related expenses as compared to the same period in 2017.

Operating income for the three months ended June 30, 2018 increased by \$41.2 million, or 420.4%, as compared with the same period in 2017. The increase included currency benefits of approximately \$2 million. The increase was primarily due to the \$24.6 million decrease in SG&A and the \$17.4 million increase in gross profit.

Operating income for the six months ended June 30, 2018 increased by \$34.7 million, or 62.3%, as compared with the same period in 2017. The increase included currency benefits of approximately \$6 million. The increase was primarily due to the \$20.4 million increase in gross profit and the \$15.1 million decrease in SG&A.

Backlog of \$808.6 million at June 30, 2018 decreased by \$219.1 million, or 21.3%, as compared with December 31, 2017. The impact of the initial adoption of the New Revenue Standard reduced backlog by approximately \$181 million at January 1, 2018. Currency effects provided a decrease of approximately \$33 million. Backlog at June 30, 2018 and December 31, 2017 included \$14.4 million and \$16.0 million, respectively, of interdivision backlog (which is eliminated and not included in consolidated backlog as disclosed above).

Industrial Product Division Segment Results

Through IPD, we design, manufacture, distribute and service engineered, pre-configured industrial pumps and pump systems, including submersible motors and specialty products (collectively referred to as "original equipment"). Additionally, IPD manufactures replacement parts and related equipment, and provides a full array of support services (collectively referred to as "aftermarket"). IPD primarily operates in the oil and gas, chemical, power generation and general industries. IPD operates 17 manufacturing facilities, five of which are located in the U.S, eight in Europe and four in Asia and it operates 30 QRCs worldwide, including 19 sites in Europe, six in the U.S., three in Asia and two in

Latin America, including those co-located in manufacturing facilities.

Bookings for the three months ended June 30, 2018 increased by \$21.7 million, or 10.2%, as compared with the same period in 2017. The increase included currency benefits of approximately \$7 million. The increase in customer bookings was primarily driven by the oil and gas, power generation, general and water industries. Increased customer bookings of \$16.2 million into Latin America, \$13.2 million into Europe and \$8.7 million into North America were partially offset by decreased customer bookings of \$4.8 million into Asia Pacific. The increase was more heavily weighted towards increased customer original equipment bookings. Interdivision bookings (which are eliminated and are not included in consolidated bookings as disclosed above) increased by \$1.0 million.

Bookings for the six months ended June 30, 2018 increased by \$13.4 million, or 3.2%, as compared with the same period in 2017. The increase included currency benefits of approximately \$19 million. The increase in customer bookings was primarily driven by the power generation, chemical and general industries, partially offset by a decrease in the water industry. Increased customer bookings of \$16.3 million into Latin America, \$14.1 million into Europe and \$9.0 million into Asia Pacific, were partially offset by decreased customer bookings of \$16.9 million into North America. The increase was primarily driven by increased customer aftermarket bookings. Interdivision bookings (which are eliminated and are not included in consolidated bookings as disclosed above) increased by \$3 million.

Sales for the three months ended June 30, 2018 increased \$13.9 million, or 7.2%, as compared with the same period in 2017. The increase included currency benefits of approximately \$6 million and was primarily driven by increased aftermarket sales. The increase primarily resulted from increased sales of \$7.0 million into Europe, \$4.4 million into North America and \$2.2 million into Asia Pacific. The impact of the adoption of the New Revenue Standard increased sales by approximately \$5 million for the three months ended June 30, 2018. Interdivision sales (which are eliminated and are not included in consolidated sales as disclosed above) remained relatively flat when compared to the same period in 2017.

Sales for the six months ended June 30, 2018 increased \$33.6 million, or 9.1%, as compared with the same period in 2017. The increase included currency benefits of approximately \$18 million and was primarily driven by increased aftermarket sales. The increase primarily resulted from increased sales of \$18.8 million into Europe, \$9.9 million into North America and \$2.4 million into Africa. The impact of the adoption of the New Revenue Standard increased sales by approximately \$14 million for the six months ended June 30, 2018. Interdivision sales (which are eliminated and are not included in consolidated sales as disclosed above) increased by \$3.1 million when compared to the same

period in 2017.

Gross profit for the three months ended June 30, 2018 increased by \$13.1 million, or 54.4%, as compared with the same period in 2017. Gross profit margin for the three months ended June 30, 2018 of 18.1% increased from 12.6% for the same period in 2017. The increase in gross profit margin was primarily attributable to a \$16.9 million charge for costs related to a contract to supply oil and gas platform equipment to an end user in Latin America in the second quarter of 2017 that did not recur and increased

40

Table of Contents

savings related to our Realignment Programs, partially offset by a \$7.7 million charge for cost incurred related to the write-down of inventory associated with the potential divestiture of two IPD locations and related product lines. Gross profit for the six months ended June 30, 2018 increased by \$24.2 million, or 41.1%, as compared with the same period in 2017. Gross profit margin for the six months ended June 30, 2018 of 20.6% increased from 15.9% for the same period in 2017. The increase in gross profit margin was primarily attributable to a \$16.9 million charge for costs related to a contract to supply oil and gas platform equipment to an end user in Latin America in the second quarter of 2017 that did not recur and increased savings related to our Realignment Programs, partially offset by a \$7.7 million charge for cost incurred related to the write-down of inventory associated with the potential divestiture of two IPD locations and related product lines.

SG&A for the three months ended June 30, 2018 increased by \$5.1 million, or 9.6%, as compared with the same period in 2017. Currency effects provided an increase of approximately \$1 million. The increase in SG&A is primarily due to an impairment charge on long-lived assets related to the potential divestiture of two IPD locations and related product lines of \$9.7 million, partially offset by lower charges related our Realignment Programs compared to the same period in 2017.

SG&A for the six months ended June 30, 2018 increased by \$4.6 million, or 4.5%, as compared with the same period in 2017. Currency effects provided an increase of approximately \$4 million. The increase in SG&A is primarily due to an impairment charge on long-lived assets related to the potential divestiture of two IPD locations and related product lines of \$9.7 million, partially offset by lower charges related our Realignment Programs compared to the same period in 2017.

Operating loss for the three months ended June 30, 2018 decreased by \$8.1 million, or 28.3%, as compared with the same period in 2017. The decrease included negative currency effects of approximately \$1 million. The decreased loss was primarily due to the \$13.1 million increase in gross profit, partially offset by the \$5.1 million increase in SG&A. Operating loss for the six months ended June 30, 2018 decreased by \$19.6 million, or 46.3%, as compared with the same period in 2017. The decrease included negative currency effects of approximately \$2 million. The decreased loss was primarily due to the \$24.2 million increase in gross profit, partially offset by the \$4.6 million increase in SG&A. Backlog of \$419.2 million at June 30, 2018 decreased by \$5.1 million, or 1.2%, as compared with December 31, 2017. The impact of the initial adoption of the New Revenue Standard reduced backlog by approximately \$34 million at January 1, 2018. Currency effects provided a decrease of approximately \$9 million. Backlog at June 30, 2018 and December 31, 2017 included \$16.9 million and \$17.3 million, respectively, of interdivision backlog (which is eliminated and not included in consolidated backlog as disclosed above).

Flow Control Division Segment Results

Our second largest business segment is FCD, which designs, manufactures and distributes a broad portfolio of engineered-to-order and configured-to-order isolation valves, control valves, valve automation products, boiler controls and related services. FCD leverages its experience and application know-how by offering a complete menu of engineered services to complement its expansive product portfolio. FCD has a total of 46 manufacturing facilities and QRCs in 25 countries around the world, with five of its 21 manufacturing operations located in the U.S., nine located in Europe, six located in Asia Pacific and one located in Latin America. Based on independent industry sources, we believe that FCD is the third largest industrial valve supplier on a global basis.

Bookings for the three months ended June 30, 2018 increased by \$2.4 million, or 0.8%, as compared with the same period in 2017. Bookings included currency benefits of approximately \$7 million. Increased customer bookings in the oil and gas, general and chemical industries were substantially offset by decreases in the power generation and water industries. Increased customer bookings of \$36.5 million into North America were substantially offset by decreased bookings of \$14.8 million into the Middle East, \$7.2 million into Asia Pacific, \$6.9 million into Europe, \$2.8 million into Africa and \$1.1 million into Latin America. The increase was driven by increased customer aftermarket bookings. The three months ended June 30, 2017 included bookings of approximately \$11 million related to FCD's businesses that were divested in the second and third quarter of 2017.

Bookings for the six months ended June 30, 2018 increased by \$19.7 million, or 3.1%, as compared with the same period in 2017. Bookings included currency benefits of approximately \$22 million. Increased customer bookings in the general, oil and gas and chemical industries were partially offset by decreases in the power generation and water industries. Increased customer bookings of \$64.4 million into North America were partially offset by decreased customer bookings of \$23.3 million into Europe, \$13.6 million into Middle East and \$4.8 million into Asia Pacific. The increase was driven by increased customer aftermarket bookings. The six months ended June 30, 2017 included bookings of approximately \$39 million related to FCD's businesses that were divested in the second and third quarter of 2017.

Sales for the three months ended June 30, 2018 increased \$31.1 million, or 11.3%, as compared with the same period in 2017. The increase included currency benefits of approximately \$7 million and was driven primarily by increased original equipment sales. The increase was primarily driven by increased customer sales of \$19.2 million into Asia Pacific, \$13.3 million into North America and \$3.3 million into Africa, partially offset by decreased sales of \$5.9 million into Europe. The adoption of the New Revenue Standard increased sales by approximately \$1 million for the three months ended June 30, 2018. The three months ended June 30, 2017 included sales of approximately \$10 million related to FCD's businesses that were divested in the second and third quarter of 2017.

Sales for the six months ended June 30, 2018 increased \$27.9 million, or 5.0%, as compared with the same period in 2017. The increase included currency benefits of approximately \$20 million and was more heavily-weighted to increased original equipment sales. The increase was primarily driven by increased customer sales of \$31.2 million into Asia Pacific, \$25.2 million into North America, \$6.1 million into Africa and \$2.7 million into the Middle East, partially offset by decreased customer sales of \$27.6 million into Europe and \$8.3 million into Latin America. The adoption of the New Revenue Standard increased sales by approximately \$25 million for the six months ended June 30, 2018. The six months ended June 30, 2017 included sales of approximately \$36 million related to FCD's businesses that were divested in the second of 2017.

Gross profit for the three months ended June 30, 2018 increased by \$13.1 million, or 14.9%, as compared with the same period in 2017. Gross profit margin for the three months ended June 30, 2018 of 33.0% increased from 31.9% for the same period in 2017. The increase in gross profit margin was primarily attributable to decreased charges and increased savings related to our Realignment Programs and the favorable impact of increased sales on our absorption of fixed manufacturing costs as compared to the same period in 2017. The impact of the adoption of the New Revenue

Standard had an unfavorable impact on gross profit margin for the three months ended June 30, 2018.

Gross profit for the six months ended June 30, 2018 increased by \$3.1 million, or 1.7%, as compared with the same period in 2017. Gross profit margin for the six months ended June 30, 2018 of 32.4% decreased from 33.5% for the same period in 2017. The decrease in gross profit margin was primarily attributable to revenue recognized on lower margin orders, partially offset by the positive impact of increased sales on our absorption of fixed manufacturing costs and increased savings achieved related to our Realignment Programs compared to the same period in 2017. The impact of the adoption of the New Revenue Standard had an unfavorable impact on gross profit margin for the six months ended June 30, 2018.

Table of Contents

SG&A for the three months ended June 30, 2018 decreased by \$0.7 million, or 1.3%, as compared with the same period in 2017. Currency effects provided an increase of approximately \$1 million. The decrease in SG&A is primarily due to lower charges related to our Realignment Programs compared to the same period in 2017.

SG&A for the six months ended June 30, 2018 decreased by \$2.8 million, or 2.5%, as compared with the same period in 2017. Currency effects provided an increase of approximately \$3 million. The decrease in SG&A is primarily due to lower charges related our Realignment Programs compared to the same period in 2017.

Operating income for the three months ended June 30, 2018 decreased by \$118.0 million, or 71.8%, as compared with the same period in 2017. The decrease included currency benefits of less than \$1 million. The decrease was due to the \$131.3 million pre-tax gain from the sale of the Gestra business in the second quarter of 2017, which was partially offset by the \$13.1 million increase in gross profit and the decrease in SG&A of \$0.7 million.

Operating income for the six months ended June 30, 2018 decreased by \$126.0 million, or 61.1%, as compared with the same period in 2017. The decrease included currency benefits of approximately \$1 million. The decrease was due to the \$131.3 million pre-tax gain from the sale of the Gestra business in the second quarter of 2017, which was partially offset by the \$3.1 million increase in gross profit and the decrease in SG&A of \$2.8 million.

Backlog of \$634.3 million at June 30, 2018 increased by \$16.9 million, or 2.7%, as compared with December 31, 2017. The impact of the initial adoption of the New Revenue Standard reduced backlog by approximately \$35 million at January 1, 2018. Currency effects provided a decrease of approximately \$9 million.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow and Liquidity Analysis

(Amounts in millions)	Six Months	
	Ended June 30,	
	2018	2017
Net cash flows (used) provided by operating activities	\$(56.7)	\$46.6
Net cash flows (used) provided by investing activities	(30.8)	154.8
Net cash flows used by financing activities	(87.2)	(82.5)

Existing cash, cash generated by operations and borrowings available under our existing Revolving Credit Facility are our primary sources of short-term liquidity. We monitor the depository institutions that hold our cash and cash equivalents on a regular basis, and we believe that we have placed our deposits with creditworthy financial institutions. Our sources of operating cash generally include the sale of our products and services and the conversion of our working capital, particularly accounts receivable and inventories. Our cash balance at June 30, 2018 was \$517.4 million, as compared with \$703.4 million at December 31, 2017.

Our cash balance decreased by \$186.0 million to \$517.4 million at June 30, 2018, as compared with December 31, 2017. The cash used during the first six months of 2018 included \$49.7 million in dividend payments and \$30.0 million of payments on long-term debt.

For the six months ended June 30, 2018, our cash used by operating activities was \$56.7 million, as compared with cash provided of \$46.6 million for the same period in 2017. Cash flow used by working capital increased for the six months ended June 30, 2018, due primarily to increased uses of cash related to inventories, accounts receivable, contract assets and accrued liabilities and income taxes payable.

Increases in accounts receivable used \$32.2 million of cash flow for the six months ended June 30, 2018, as compared with cash provided of \$71.1 million for the same period in 2017. As of June 30, 2018, our days' sales outstanding ("DSO") was 75 days as compared with 85 days as of June 30, 2017. The adoption of the New Revenue Standard as of January 1, 2018 had an estimated favorable impact of 8 days on DSO as of June 30, 2018.

Increases in contract assets used \$48.9 million of cash flow for the six months ended June 30, 2018, due primarily to revenue recognized in advance of customer invoices.

Increases in inventory used \$57.4 million and \$17.3 million of cash flow for the six months ended June 30, 2018 and June 30, 2017, respectively. Inventory turns were 4.1 times at June 30, 2018, compared with 2.7 times for the same period in 2017. The adoption of the New Revenue Standard as of January 1, 2018 had an estimated favorable impact

of approximately 1.3 times on our inventory turn calculation as of June 30, 2018.

43

Table of Contents

Decreases in accounts payable used \$10.6 million of cash flow for the six months ended June 30, 2018 as compared with \$55.9 million for the same period in 2017. Decreases in accrued liabilities and income taxes payable used \$44.8 million of cash flow for the six months ended June 30, 2018, as compared with \$9.8 million for the same period in 2017.

Cash flows used by investing activities during the six months ended June 30, 2018 were \$30.8 million, as compared with cash provided of \$154.8 million for the same period in 2017. The decrease was primarily due to \$181.8 million in net proceeds from the sale of our Gestra business in the second quarter of 2017 that did not recur. Capital expenditures during the six months ended June 30, 2018 were \$31.7 million, an increase of \$2.3 million as compared with the same period in 2017. Our capital expenditures are generally focused on strategic initiatives to pursue new markets, geographic expansion, information technology infrastructure, ongoing scheduled replacements and upgrades and cost reduction opportunities. In 2018, total capital expenditures are expected to be between \$80 million and \$90 million.

Cash flows used by financing activities during the six months ended June 30, 2018 were \$87.2 million, as compared with \$82.5 million for the same period in 2017. Cash outflows during the six months ended June 30, 2018 resulted primarily from \$49.7 million of dividend payments and \$30.0 million of payments on long-term debt.

Our Senior Credit Facility matures in October 2020. Approximately 22% of our outstanding Term Loan Facility is due to mature in the remainder of 2018 and approximately 44% in 2019. As of June 30, 2018, we had available capacity of \$432.6 million on our \$800.0 million Revolving Credit Facility. Our borrowing capacity is subject to financial covenant limitations based on the terms of our Senior Credit Facility and is also reduced by outstanding letters of credit. Our Revolving Credit Facility is committed and held by a diversified group of financial institutions.

During the six months ended June 30, 2018, we made no cash contributions to our U.S. pension plan, compared to \$6 million contribution in 2017 for the same period. At December 31, 2017, our U.S. pension plan was fully funded as defined by applicable law. After consideration of our funded status, we currently anticipate making \$20 million in contributions to our U.S. pension plan in 2018, excluding direct benefits paid. We continue to maintain an asset allocation consistent with our strategy to maximize total return, while reducing portfolio risks through asset class diversification.

Considering our current debt structure and cash needs, we currently believe cash flows generated from operating activities combined with availability under our Revolving Credit Facility and our existing cash balance will be sufficient to meet our cash needs for the next 12 months. Cash flows from operations could be adversely affected by economic, political and other risks associated with sales of our products, operational factors, competition, fluctuations in foreign exchange rates and fluctuations in interest rates, among other factors. See "Cautionary Note Regarding Forward-Looking Statements" below.

On November 13, 2014, our Board of Directors approved a \$500.0 million share repurchase authorization, of which as of June 30, 2018, we have \$160.7 million of remaining capacity. While we intend to continue to return cash through dividends and/or share repurchases for the foreseeable future, any future returns of cash through dividends and/or share repurchases will be reviewed individually, declared by our Board of Directors and implemented by management at its discretion, depending on our financial condition, business opportunities and market conditions at such time.

Financing

Credit Facilities

See Note 10 to our consolidated financial statements included in our 2017 Annual Report and Note 6 to our condensed consolidated financial statements included in this Quarterly Report for a discussion of our Senior Credit Facility and covenants related to our Senior Credit Facility. We complied with all covenants through June 30, 2018.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of financial condition and results of operations are based on our condensed consolidated financial statements and related footnotes contained within this Quarterly Report. The preparation of financial statements in accordance with U.S. GAAP requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the period.

During the six months ended June 30, 2018, our critical accounting policies and methodology used in determining estimates for revenue and related expenses changed. On January 1, 2018, we adopted the New Revenue Standard using the modified retrospective method for transition and modified our accounting policies and practices to support our accounting estimates of revenue and expenses in accordance with U.S. GAAP. For a discussion related to our adoption of the New Revenue Standard and the impacts on revenue and expenses, refer to Notes 1 and 2 to our condensed consolidated financial statements included in this Quarterly Report.

Table of Contents

Critical policies for other significant estimates, for which no significant changes have occurred in the six months ended June 30, 2018, include:

•Deferred Taxes, Tax Valuation Allowances and Tax Reserves;

•Reserves for Contingent Loss;

•Retirement and Postretirement Benefits; and

•Valuation of Goodwill, Indefinite-Lived Intangible Assets and Other Long-Lived Assets.

For the other significant estimates referenced above, our critical accounting policies used in the preparation of our condensed consolidated financial statements were discussed in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2017 Annual Report.

Based on an assessment of our accounting policies and the underlying judgments and uncertainties affecting the application of those policies, we believe that our condensed consolidated financial statements provide a meaningful and fair perspective of our consolidated financial condition and results of operations. This is not to suggest that other general risk factors, such as changes in worldwide demand, changes in material costs, performance of acquired businesses and others, could not adversely impact our consolidated financial condition, results of operations and cash flows in future periods. See "Cautionary Note Regarding Forward-Looking Statements" below.

ACCOUNTING DEVELOPMENTS

We have presented the information about pronouncements not yet implemented in Note 1 to our condensed consolidated financial statements included in this Quarterly Report.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, statements concerning our future financial performance, future debt and financing levels, investment objectives, implications of litigation and regulatory investigations and other management plans for future operations and performance.

The forward-looking statements included in this Quarterly Report are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ materially from what is forecast in such forward-looking statements, and include, without limitation, the following:

• a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins;

• changes in the global financial markets and the availability of capital and the potential for unexpected cancellations or delays of customer orders in our reported backlog;

• our dependence on our customers' ability to make required capital investment and maintenance expenditures;

• risks associated with cost overruns on fixed fee projects and in accepting customer orders for large complex custom engineered products;

•

the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries;

the adverse impact of volatile raw materials prices on our products and operating margins;

- economic, political and other risks associated with our international operations, including military actions or trade embargoes that could affect customer markets, particularly North African, Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/reexport control, foreign corrupt practice laws, economic sanctions and import laws and regulations;

increased aging and slower collection of receivables, particularly in Latin America and other emerging markets;

our exposure to fluctuations in foreign currency exchange rates, particularly the Euro and British pound and in hyperinflationary countries such as Venezuela and Argentina;

our furnishing of products and services to nuclear power plant facilities and other critical applications;

potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims;

a foreign government investigation regarding our participation in the United Nations Oil-For-Food Program;

expectations regarding acquisitions and the integration of acquired businesses;

our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits;

the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets;

our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations;

the highly competitive nature of the markets in which we operate;

environmental compliance costs and liabilities;

potential work stoppages and other labor matters;

access to public and private sources of debt financing;

our inability to protect our intellectual property in the U.S., as well as in foreign countries;

obligations under our defined benefit pension plans;

risks and potential liabilities associated with cyber security threats;

our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud;

the recording of increased deferred tax asset valuation allowances in the future or the impact of tax law changes on such deferred tax assets could affect our operating results;

if we are not able to successfully execute and realize the expected financial benefits from our strategic realignment and other cost-saving initiatives, our business could be adversely affected; and

ineffective internal controls could impact the accuracy and timely reporting of our business and financial results.

These and other risks and uncertainties are more fully discussed in the risk factors identified in "Item 1A. Risk Factors" in Part I of our 2017 Annual Report and Part II of this 10-Q, and may be identified in our Quarterly Reports on Form 10-Q and our other filings with the SEC and/or press releases from time to time. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We have market risk exposure arising from changes in interest rates and foreign currency exchange rate movements in foreign exchange contracts. We are exposed to credit-related losses in the event of non-performance by counterparties to financial instruments, but we currently expect our counterparties will continue to meet their obligations given their current creditworthiness.

Interest Rate Risk

Our earnings are impacted by changes in short-term interest rates as a result of borrowings under our Senior Credit Facility, which bear interest based on floating rates. At June 30, 2018, we had \$135.0 million of variable rate debt obligations outstanding under our Senior Credit Facility with a weighted average interest rate of 3.83%. A hypothetical change of 100 basis points in the interest rate for these borrowings, assuming constant variable rate debt levels, would have changed interest expense by \$0.7 million for the six months ended June 30, 2018.

Foreign Currency Exchange Rate Risk

A substantial portion of our operations are conducted by our subsidiaries outside of the U.S. in currencies other than the U.S. dollar. Almost all of our non-U.S. subsidiaries conduct their business primarily in their local currencies, which are also their functional currencies. Foreign currency exposures arise from translation of foreign-denominated assets and liabilities into U.S. dollars and from transactions, including firm commitments and anticipated transactions, denominated in a currency other than our or a non-U.S. subsidiary's functional currency. In March 2015, we designated €255.7 million of our €500.0 million 2022 Euro Senior Notes as a net investment hedge of our investments in certain of our international subsidiaries that use the Euro as their functional currency. Generally, we view our investments in foreign subsidiaries from a long-term perspective and use capital structuring techniques to manage our investment in foreign subsidiaries as deemed necessary. We realized net (losses) gains associated with foreign currency translation of \$(61.0) million and \$34.3 million for the three months June 30, 2018 and 2017, respectively, and \$(41.5) million and \$68.1 million for the six months ended June 30, 2018 and 2017, respectively, which are included in other comprehensive loss.

We employ a foreign currency risk management strategy to minimize potential changes in cash flows from unfavorable foreign currency exchange rate movements. Where available, the use of foreign exchange contracts allows us to mitigate transactional exposure to exchange rate fluctuations as the gains or losses incurred on the foreign exchange contracts will offset, in whole or in part, losses or gains on the underlying foreign currency exposure. As of June 30, 2018, we had a U.S. dollar equivalent of \$287.2 million in aggregate notional amount outstanding in foreign exchange contracts with third parties, as compared with \$235.6 million at December 31, 2017. Transactional currency gains and losses arising from transactions outside of our sites' functional currencies and changes in fair value of non-designated foreign exchange contracts are included in our consolidated results of operations. We recognized foreign currency net losses of \$4.1 million and \$7.1 million for the three months ended June 30, 2018 and 2017, respectively, and \$12.0 million and \$18.1 million for the six months ended June 30, 2018 and 2017, respectively, which are included in other expense, net in the accompanying condensed consolidated statements of income.

Based on a sensitivity analysis at June 30, 2018, a 10% change in the foreign currency exchange rates for the six months ended June 30, 2018 would have impacted our net earnings by approximately \$2 million. This calculation assumes that all currencies change in the same direction and proportion relative to the U.S. dollar and that there are no indirect effects, such as changes in non-U.S. dollar sales volumes or prices. This calculation does not take into account the impact of the foreign currency exchange contracts discussed above.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) are controls and other procedures that are designed to ensure that the information that we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the preparation of this Quarterly Report, our management, under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2018. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2018.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

We are party to the legal proceedings that are described in Note 10 to our condensed consolidated financial statements included in "Item 1. Financial Statements" of this Quarterly Report, and such disclosure is incorporated by reference into this "Item 1. Legal Proceedings." In addition to the foregoing, we and our subsidiaries are named defendants in certain other ordinary routine lawsuits incidental to our business and are involved from time to time as parties to governmental proceedings, all arising in the ordinary course of business. Although the outcome of lawsuits or other proceedings involving us and our subsidiaries cannot be predicted with certainty, and the amount of any liability that could arise with respect to such lawsuits or other proceedings cannot be predicted accurately, management does not currently expect the amount of any liability that could arise with respect to these matters, either individually or in the aggregate, to have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors.

There are numerous factors that affect our business and results of operations, many of which are beyond our control. In addition to other information set forth in this Quarterly Report, careful consideration should be given to "Item 1A. Risk Factors" in Part I and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II of our 2017 Annual Report, which contain descriptions of significant factors that might cause the actual results of operations in future periods to differ materially from those currently expected or desired. There have been no material changes in risk factors discussed in our 2017 Annual Report and subsequent SEC filings. The risks described in this Quarterly Report, our 2017 Annual Report and in our other SEC filings or press releases from time to time are not the only risks we face. Additional risks and uncertainties are currently deemed immaterial based on management's assessment of currently available information, which remains subject to change; however, new risks that are currently unknown to us may surface in the future that materially adversely affect our business, financial condition, results of operations or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Note 12 to our condensed consolidated financial statements included in this Quarterly Report includes a discussion of our share repurchase program and payment of quarterly dividends on our common stock.

During the quarter ended June 30, 2018, we had no repurchases of common shares. As of June 30, 2018, we have \$160.7 million of remaining capacity under our current share repurchase program. The following table sets forth the activity for each of the three months during the quarter ended June 30, 2018:

Period	Total Number of Shares Tendered	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares (or Approximate Dollar Value) That May Yet Be Purchased Under the Program (in millions)
April 1 - 30	6,651	(1)\$ 43.66	—	\$ 160.7
May 1 - 31	9,820	(2)43.65	—	160.7
June 1 - 30	389	(1)40.81	—	160.7
Total	16,860	\$ 43.59	—	

Edgar Filing: FLOWSERVE CORP - Form 10-Q

- (1) Shares tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares.
Represents 7,734 shares that were tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares at an average price per share of \$43.54, and 2,086 shares purchased at a price of \$44.08 per share
- (2) by a rabbi trust that we established in connection with our director deferral plans, pursuant to which non-employee directors may elect to defer directors' quarterly cash compensation to be paid at a later date in the form of common stock.
