CSP INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED MARCH 31, 2018 AND 2017

Organization and Business

CSP Inc. ("CSPI" or "the Company" or "we" or "our") was incorporated in 1968 and is based in Lowell, Massachusetts. CSPI and its subsidiaries develop and market IT integration solutions, advanced security and managed services, purpose built network adapters, and high-performance cluster computer systems to meet the diverse requirements of its commercial and defense customers worldwide. The Company operates in two segments, its High Performance Products ("HPP") segment and its Technology Solutions ("TS") segment.

1. Basis of Presentation

The accompanying consolidated financial statements have been prepared by the Company, without audit, and reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. All adjustments were of a normal recurring nature. Certain information and footnote disclosures normally included in the annual consolidated financial statements, which are prepared in accordance with accounting principles generally accepted in the United States, have been omitted.

Accordingly, the Company believes that although the disclosures are adequate to make the information presented not misleading, the unaudited consolidated financial statements should be read in conjunction with the footnotes contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

2. Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, including estimates and assumptions related to reserves for bad debt, reserves for inventory obsolescence, the impairment assessment of intangible assets, the calculation of estimated selling price and post-delivery support obligations used for revenue recognition, the calculation of liabilities related to deferred compensation and retirement plans and the calculation of income tax liabilities. Actual results may differ from those estimates under different assumptions or conditions.

3. Earnings Per Share of Common Stock

Basic net income (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted net income (loss) per common share reflects the maximum dilution that would have resulted from the assumed exercise and share repurchase related to dilutive stock options and is computed by dividing net income (loss) by the assumed weighted average number of common shares outstanding.

We are required to present earnings per share, or EPS, utilizing the two class method because we had outstanding, non-vested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents, which are considered participating securities.

Basic and diluted earnings per share computations for the Company's reported net income (loss) attributable to common stockholders are as follows:

	For the three months ended		For the six months ended	
	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017
	(Amounts in thousands except per share data)			
Net income (loss)	\$(594)	\$428	\$(1,794)	\$385
Less: net income attributable to nonvested common stock	—	18	—	28
Net income (loss) attributable to common stockholders	\$(594)	\$410	\$(1,794)	\$357
Weighted average total shares outstanding – basic	3,823	3,888	3,795	3,986
Less: weighted average non-vested shares outstanding	—	164	—	289
Weighted average number of common shares outstanding – basic	3,823	3,724	3,795	3,697
Potential common shares from non-vested stock awards and the assumed exercise of stock options	—	123	—	110
Weighted average common shares outstanding – diluted	3,823	3,847	3,795	3,807
Net income (loss) per share – basic	\$(0.16)	\$0.11	\$(0.47)	\$0.10
Net income (loss) per share – diluted	\$(0.16)	\$0.11	\$(0.47)	\$0.09

Non-vested restricted stock awards of 168,000 and 169,000 shares were excluded from the diluted loss per share calculation for the three and six months ended March 31, 2018, respectively, as there was a net loss and their inclusion would have been anti-dilutive.

4. Inventories

Inventories consist of the following:

	March 31, 2018	September 30, 2017
	(Amounts in thousands)	
Raw materials	\$1,067	\$ 1,334
Work-in-process	279	260
Finished goods	3,403	4,377
Total	\$4,749	\$ 5,971

Finished goods includes inventory that has been shipped, but for which all revenue recognition criteria has not been met, of approximately \$0.2 million and \$0.4 million as of March 31, 2018 and September 30, 2017, respectively.

Total inventory balances in the table above are shown net of reserves for obsolescence of approximately \$3.4 million and \$3.1 million as of March 31, 2018 and September 30, 2017, respectively.

5. Deferred Costs

Deferred costs represent costs of labor, third party maintenance and support contracts, and outside consultants related to transactions where the revenue recognition criteria has not been met.

6. Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive loss are as follows:

	March 31, September 30,	
	2018	2017
	(Amounts in thousands)	
Cumulative effect of foreign currency translation	\$(3,304)	\$ (3,214)
Cumulative unrealized loss on pension liability	(6,949)	(6,949)
Accumulated other comprehensive loss	\$(10,253)	\$ (10,163)

7. Income Taxes

On December 22, 2017, the United States enacted tax reform legislation commonly known as the Tax Cuts and Jobs Act (the "Tax Act"), resulting in significant modifications to existing law. The Company follows the guidance in SEC Staff Accounting Bulletin 118 ("SAB 118"), which provides additional clarification regarding the application of ASC Topic 740 in situations where the Company does not have the necessary information available, prepared, or analyzed in reasonable detail to complete the accounting for certain income tax effects of the Tax Act for the reporting period in which the Tax Act was enacted. SAB 118 provides for a measurement period beginning in the reporting period that includes the Tax Act's enactment date and ending when the Company has obtained, prepared, and analyzed the information needed in order to complete the accounting requirements but in no circumstances should the measurement period extend beyond one year from the enactment date.

During the three months ended March 31, 2018, the Company recorded an income tax benefit of \$128 thousand. The tax expense for the six months ended March 31, 2018 was \$974 thousand. During the three months ended December 31, 2017, the Company recorded a provisional net income tax expense of approximately \$1.1 million related to Tax Act. This included a provisional estimate in the amount of \$649 thousand related to the one-time deemed repatriation transition tax on unrepatriated foreign earnings. The provisional amount was based on information currently available, including estimated tax earnings and profits from foreign investments. The Company also recorded a provisional estimate for a one-time tax expense of \$490 thousand which consisted primarily of the remeasurement of deferred tax assets and liabilities from 34% to 21%. These expenses were recorded discretely in the three months ended December 31, 2017.

The Company is using a blended federal rate of roughly 24% for the fiscal year ending September 30, 2018 and will use the 21% for periods after fiscal year 2018.

The provisions above are estimates, and accordingly, changes to these estimates will be recorded in subsequent quarters as more information and guidance becomes available.

8. Pension and Retirement Plans

The Company has defined benefit and defined contribution plans in the United Kingdom, Germany and the U.S. In the United Kingdom and Germany, the Company provides defined benefit pension plans and defined contribution plans for some of its employees. In the U.S., the Company provides benefits through supplemental retirement plans to certain former employees. The U.S. supplemental retirement plans have life insurance policies which are not plan assets but were purchased by the Company as a vehicle to fund the costs of the plan. The Company also provides for officer death benefits through post-retirement plans to certain officers of the Company in the U.S. All of the Company's defined benefit plans are closed to newly hired employees and have been since September 2009.

The Company funds its pension plans in amounts sufficient to meet the requirements set forth in applicable employee benefits laws and local tax laws. Liabilities for amounts in excess of these funding levels are accrued and reported in the consolidated balance sheets.

The Company's pension plan in the United Kingdom is the only plan with plan assets. The plan assets consist of an investment in a commingled fund which in turn comprises a diversified mix of assets including corporate equity securities, government securities and corporate debt securities.

The components of net periodic benefit costs related to the U.S. and international plans are as follows:

	For the Three Months Ended March 31,					
	2018			2017		
	Foreign	U.S.	Total	Foreign	U.S.	Total
	(Amounts in thousands)					
Pension:

Capital expenditures	41	43	—	22	65	106	
Depreciation and amortization	55	53	2	62	117	172	

One additional customer, C, accounted for accounts receivable of 10% or more, but did not account for revenue of 10% or more. Accounts receivable from customer C totaled approximately \$2.7 million, or 12%, of consolidated accounts receivable as of March 31, 2018. We believe that the Company is not exposed to any significant credit risk with respect to the

13

accounts receivable with these customers as of March 31, 2018. No other customers accounted for 10% or more of total consolidated accounts receivable as of March 31, 2018.

10. Dividends

On December 19, 2017, the Company's board of directors declared a cash dividend of \$0.11 per share which was paid on January 16, 2018 to shareholders of record as of December 29, 2017, the record date.

On February 12, 2018, the Company's board of directors declared a cash dividend of \$0.11 per share which was paid on March 16, 2018 to shareholders of record as of February 28, 2018, the record date.

11. New accounting standards not adopted as of March 31, 2018

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in GAAP when it becomes effective. The new standard is effective for the Company on October 1, 2018, and it does not plan to early adopt this ASU. The standard outlines a five-step model whereby revenue is recognized as performance obligations within a contract are satisfied. The standard also requires new, expanded disclosures regarding revenue recognition. We are utilizing a bottom-up approach to analyze the standard's impact on our contract portfolio, comparing our historical accounting policies and practices, and identifying potential differences from applying the requirements of the new standard to our contracts. While this assessment continues, we have not yet completed our determination of the impacts of the standard or the effect of these impacts on our consolidated financial statements. The Company has selected the modified retrospective approach as its transition method. Because the new standard will impact our business processes, systems and controls, we are developing a comprehensive change management project plan to guide the implementation.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330) Simplifying the Measurement of Inventory, which requires entities to measure inventory at the lower of cost and net realizable value, except for inventory measured using last-in, first-out (LIFO) or the retail inventory method. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. This ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017 and requires prospective application, with early adoption permitted as of the beginning of an interim or annual reporting period. The Company has not yet assessed the potential impact of implementing this ASU on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), an amendment of the FASB Accounting Standards Codification. This ASU requires lessees to recognize a right-of-use asset and lease liability for most lease arrangements. The new standard is effective for the Company on October 1, 2019. The standard mandates a modified retrospective transition method for all entities and early adoption is permitted. The Company is evaluating the effect that ASU 2016-02 will have on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-08 (Topic 606), Principal versus Agent Considerations (Reporting Revenue Gross versus Net) to clarify the implementation guidance on principal versus agent considerations. The amendments in this update provides additional guidance on indicators to assist an entity in determining whether it controls a specified good or service before it is transferred to the customer and does not change the core principle of previously issued guidance. The amendments in this Topic are effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within those annual periods. The Company does not expect the implementation of this ASU to have a material impact on our consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, Classification of Certain Cash Receipts and Cash Payments, an amendment of the FASB Accounting Standards Codification. This ASU will reduce diversity in practice for classifying cash payments and receipts in the statement of cash flows for a number of common transactions. It will also clarify when identifiable cash flows should be separated versus classified based on their predominant source or use. This ASU is effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The Company is evaluating the effect that ASU 2016-15 will have on its consolidated financial statements and related disclosures.

In October 2016, the FASB issued ASU No. 2016-16, Intra-Entity Transfers of Assets Other Than Inventory, an amendment of the FASB Accounting Standards Codification. This ASU requires the seller and buyer to recognize at the transaction date the current and deferred income tax consequences of intercompany asset transfers (except transfers of inventory). Under current GAAP, the seller and buyer defer the consolidated tax consequences of an intercompany asset transfer from the period of the transfer to a future period when the asset is transferred out of the consolidated group, or otherwise affects consolidated earnings. This standard will cause volatility in companies' effective tax rates, particularly for those that transfer intangible assets to foreign subsidiaries. For public entities, the new standard is effective for annual and interim periods in fiscal years beginning after December 15, 2017. An entity may early adopt the standard but only at the beginning of an annual period for which it has not issued or made available for issuance financial statements (interim or annual). The Company is evaluating the effect that ASU 2016-16 will have on its consolidated financial statements and related disclosures.

In January 2017, FASB issued ASU No. 2017-01, "Business Combinations Clarifying the Definition of a Business" (Topic 805) ("ASU No. 2017-01"). ASU 2017-01 provides a framework to use in determining when a set of assets and activities is a business. ASU 2017-01 provides more consistency in applying the business combination guidance, reduces the costs of application, and makes the definition of a business more operable. ASU 2017-01 is effective for interim and annual periods within those annual periods beginning after December 15, 2017. The Company is currently evaluating the impact ASU 2017-01 will have on the Company's results of operations, financial position and disclosures.

In March 2017, the FASB issued ASU No. 2017-07, Compensation Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, an amendment of the FASB Accounting Standards Codification. This ASU requires employers that sponsor defined benefit pension and/or other post-retirement benefit plans to report the service cost component of net benefit cost in the same line item as other compensation costs arising from services rendered by the pertinent employees during the period. Employers are required to present the other components of net benefit costs in the income statement separately from the service cost component and outside a subtotal of income from operations. Additionally, only the service cost component of net periodic pension cost will be eligible for asset capitalization. For public entities, the new standard is effective for annual periods beginning after December 15, 2017, including interim periods within that annual period. Early adoption is permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance. This ASU should be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic postretirement benefit cost in the income statement and prospectively, on and after the effective date, for the capitalization of the service cost component of net periodic pension cost and net periodic postretirement benefit in assets. The Company is evaluating the effect that ASU 2017-07 will have on its consolidated financial statements and related disclosures.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The discussion below contains certain forward-looking statements including, but not limited to, among others, statements concerning future revenues and future business plans. Forward-looking statements include statements in which we use words such as "expect", "believe", "anticipate", "intend", "project", "estimate", "should", "could", "may", "plan", "predict", "project", "will", "would" and similar expressions. Although we believe the expectations reflected in such forward-looking statements are based on reasonable assumptions, the forward-looking statements are subject to significant risks and uncertainties, and thus we cannot assure you that these expectations will prove to have been correct, and actual results may vary from those contained in such forward-looking statements. We discuss many of these risks and uncertainties in Item 1A under the heading "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017. Factors that may cause such variances include, but are not limited to, our dependence on a small number of customers for a significant portion of our revenue, our high dependence on contracts

with the U.S. federal government, our reliance in certain circumstances on single sources for supply of key product components, intense competition in the market segments in which we operate, and the recent changes in the U.S. Tax laws which are still under review by us. Given these uncertainties, you should not place undue reliance on these forward-looking statements. Also, forward-looking statements represent our estimates and assumptions only as of the date of this document. Except as required by law, we do not undertake any obligation to publicly update or revise any forward-looking statements contained in this report, whether as a result of new information, future events or otherwise. This management's discussion and analysis of financial condition and results of operations should be read in conjunction with our financial statements and the related notes included elsewhere in this filing and in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates, including those related to uncollectible receivables, inventory valuation, impairment assessment of intangibles, income taxes, deferred compensation and retirement plans, as well as estimated selling prices used for revenue recognition and contingencies. We base our estimates on historical performance and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. A description of our critical accounting policies is contained in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017 in the “Critical Accounting Policies” section contained in Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

Overview of the three months ended March 31, 2018

Our revenues decreased by approximately \$3.3 million, or 13%, to \$22.0 million for the three months ended March 31, 2018 as compared to \$25.3 million for the three months ended March 31, 2017. The decrease in revenue is the result of a decrease of \$1.7 million in our TS segment, combined with a \$1.6 million decrease in our HPP segment. Our gross margin percentage was unchanged at 22% of revenues for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. Operating income decreased by approximately \$1.3 million from operating income of \$622 thousand for the three months ended March 31, 2017 to an operating loss of \$723 thousand for the three months ended March 31, 2018, primarily as a result of a \$765 thousand decrease in gross profit combined with an increase of \$580 thousand in operating expenses. The increase in operating expenses was primarily the result of higher variable compensation costs and increased costs for sales and engineering hires in our U.S division of the TS segment and increased engineering costs in our HPP segment. Our income tax expense decreased by approximately \$339 thousand resulting in an income tax benefit of \$128 thousand for the three months ended March 31, 2018 as compared to an income tax expense of \$211 thousand for the three months ended March 31, 2017. The decrease to the income tax expense was primarily due to the decrease in operating income.

The following table details our results of operations in dollars and as a percentage of sales for the three months ended:

	March 31, 2018	% of sales	March 31, 2017	% of sales
(Dollar amounts in thousands)				
Total sales	\$21,982	100 %	\$ 25,316	100 %
Costs and expenses:				
Cost of sales	17,052	78 %	19,621	78 %
Engineering and development	759	3 %	573	2 %
Selling, general and administrative	4,894	22 %	4,500	18 %
Total costs and expenses	22,705	103 %	24,694	98 %
Operating income (loss)	(723)	(3)%	622	2 %
Other income	1	— %	17	— %
Income (loss) before income taxes	(722)	(3)%	639	2 %
Income tax expense (benefit)	(128)	(1)%	211	1 %

Net income (loss) \$(594) (3)% \$ 428 1 %

Revenues

Our revenues decreased by approximately \$3.3 million to \$22.0 million for the three months ended March 31, 2018 as compared to \$25.3 million of revenues for the three months ended March 31, 2017. TS segment revenues decreased by \$1.7 million, and HPP segment revenues decreased by \$1.6 million.

HPP segment revenue change was as follows for the three months ended March 31, 2018 and 2017:

	2018	2017	Decrease	
			\$	%
	(Dollar amounts in thousands)			
Products	\$1,480	\$1,993	\$(513)	(26)%
Services	315	1,427	(1,112)	(78)%
Total	\$1,795	\$3,420	\$(1,625)	(48)%

The decrease in HPP product revenues of \$513 thousand is primarily attributed to decreased Multicomputer product shipments. The decrease in HPP services revenues is primarily attributed to a \$1.1 million decrease in royalties on high-speed processing boards related to the E2D program shipped for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017.

TS segment revenue change was as follows for the three months ended March 31, 2018 and 2017:

	2018	2017	Increase (decrease)	
			\$	%
	(Dollar amounts in thousands)			
Products	\$13,704	\$16,691	\$(2,987)	(18)%
Services	6,483	5,205	1,278	25 %
Total	\$20,187	\$21,896	\$(1,709)	(8)%

The decrease in TS segment product revenues of \$3.0 million during the period was primarily the result of a decrease in product revenues of \$1.4 million in our U.K. division, combined with decreases of \$1.2 million and \$0.4 million in our German and U.S divisions, respectively. The \$1.4 million decrease in the U.K. division product revenues was primarily the result of decreased product shipments to a major customer. The decrease in TS segment product revenues was partially offset by an increase in TS segment service revenues of \$1.3 million during the period. The increase in TS segment service revenues for the period ended March 31, 2018 as compared to the prior fiscal year three month period was due primarily to an increase of \$1.2 million in our U.S. division. The \$1.2 million increase in the U.S. division service revenues was substantially the result of a \$900 thousand increase in internal services and additional third party maintenance revenues of \$300 thousand.

Our revenues by geographic area, which is based on the customer location to which the products were shipped or services rendered, were as follows for the three months ended March 31, 2018 and March 31, 2017:

	2018	%	2017	%	Decrease	
					\$	%
	(Dollar amounts in thousands)					
Americas	\$15,206	69 %	\$15,600	62 %	\$(394)	(3)%
Europe	6,562	30 %	8,910	35 %	(2,348)	(26)%
Asia	214	1 %	806	3 %	(592)	(73)%
Totals	\$21,982	100%	\$25,316	100%	\$(3,334)	(13)%

The \$2.3 million decrease in revenue to Europe is primarily the result of decreased sales by our TS segment U.K. division of \$1.3 million to a U.S. division multi-national customer, combined with decreased sales by our TS segment German division of \$1.0 million. The 0.6 million decrease in revenue to Asia is primarily the result of decreased multicomputer product sales by our HPP segment to a major customer as the result of a large one time order in the three months ended March 31, 2017.

Gross Margins

Our gross margin ("GM") decreased by \$0.8 million to \$4.9 million for the three months ended March 31, 2018 as compared to a gross margin of \$5.7 million for the three months ended March 31, 2017. The GM as a percentage of revenue was 22% for the three months ended March 31, 2018, unchanged from the three months ended March 31, 2017.

	2018		2017		Increase (decrease)	
	GM\$	GM%	GM\$	GM%	GM\$	GM%
	(Dollar amounts in thousands)					
HPP	\$839	47 %	\$2,172	64 %	\$(1,333)	(17)%
TS	4,091	20 %	3,523	16 %	568	4 %
Total	\$4,930	22 %	\$5,695	22 %	\$(765)	— %

The impact of product mix within our HPP segment on gross margin for the period was as follows:

	2018		2017		Decrease	
	GM\$	GM%	GM\$	GM%	GM\$	GM%
	(Dollar amounts in thousands)					
Products	\$547	37 %	\$782	39 %	\$(235)	(2)%
Services	292	93 %	1,390	97 %	(1,098)	(4)%
Total	\$839	47 %	\$2,172	64 %	\$(1,333)	(17)%

The overall HPP segment gross margin as a percentage of sales decreased to 47% for the three months ended March 31, 2018 from 64% for the three months ended March 31, 2017. The 17% decrease in gross margin as a percentage of sales in the HPP segment was primarily attributed to decreased high margin royalty revenues and a sharper decline in higher margin services in the overall product mix.

The impact of product mix within our TS segment on gross margin for the three months ended March 31, 2018 and 2017 was as follows:

	2018		2017		Increase	
	GM\$	GM%	GM\$	GM%	GM\$	GM%
	(Dollar amounts in thousands)					
Products	\$2,078	15 %	\$2,024	12 %	\$54	3 %
Services	2,013	31 %	1,499	29 %	514	2 %
Total	\$4,091	20 %	\$3,523	16 %	\$568	4 %

The overall TS segment gross margin as a percentage of sales increased to 20% for the three month period ended March 31, 2018 from 16% for the three month period ended March 31, 2017. The overall TS segment gross margin as a percentage of sales increase was primarily due to increased product margins and increased higher margin service revenue in our U.S. division.

Operating Expenses

Engineering and Development Expenses

The engineering and development expenses incurred by our HPP segment were \$0.8 million and \$0.6 million for the three months ended March 31, 2018 and 2017, respectively. The current period expenses were primarily for Myricom

product engineering expenses incurred in connection with the development of the new Myricom ARIA security products. The increased engineering and development expenses for the three month period ended March 31, 2018 as compared to the three month period ended March 31, 2017 is primarily attributed to an increase in engineering headcount related expenses.

Selling, General and Administrative Expenses

The following table details our selling, general and administrative (“SG&A”) expense by operating segment for the three months ended March 31, 2018 and 2017:

	For the three months ended March 31,					
	2018	% of Total	2017	% of Total	\$ Increase (decrease)	% Increase (decrease)
(Dollar amounts in thousands)						
By Operating Segment:						
HPP segment	\$1,137	23 %	\$1,231	27 %	\$ (94)	(8)%
TS segment	3,757	77 %	3,269	73 %	488	15 %
Total	\$4,894	100 %	\$4,500	100 %	\$ 394	9 %

SG&A expenses increased by \$0.4 million, or 9%, for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. The increase in SG&A expenses was primarily due to a rise in the TS segment SG&A expenses attributed to increases in variable compensation in our U.S. division as a result of increased margins, and sales and engineering hires in our U.S. division, which was partially offset by a decrease in HPP segment SG&A expenses resulting substantially from decreased variable compensation costs.

Other Income/Expenses

The following table details our other income (expense) for the three months ended March 31, 2018 and 2017:

	For the three months ended,		
	March 2018	March 2017	March 31, Increase (decrease)
(Amounts in thousands)			
Interest expense	\$(18)	\$ (18)	\$ —
Interest income	4	1	3
Foreign exchange gain (loss)	(9)	28	(37)
Other income, net	24	6	18
Total other income (expense), net	\$1	\$ 17	\$ (16)

The net change to other income (expenses) of \$16 thousand for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017, was primarily driven by the net change of approximately \$37 thousand in the foreign exchange gain (loss) on foreign currency holdings in the current period as compared to the prior year period, partially offset by changes in other income of \$18 thousand.

Income Taxes

On December 22, 2017, the U.S. Tax Cuts and Jobs Act (H.R. 1) (the “Tax Act”) was enacted into law. In accordance with ASC 740, Income Taxes, the Company is required to recognize the effect of the Tax Act in the period of enactment, which was the Company’s first quarter of fiscal 2018 that ended on December 31, 2017. The many changes in the Tax Act include a permanent reduction in the maximum federal corporate income tax rate from 35% to 21% effective as of January 1, 2018. The statutory federal income tax rate applicable for the Company’s fiscal year ending September 30, 2018 is expected to be 24.3% based on a fiscal year blended rate calculation.

Our provision for income tax was a tax benefit of \$128 thousand for the three months ended March 31, 2018 as compared to a tax expense of \$211 thousand for the three months ended March 31, 2017.

Overview of the six months ended March 31, 2018

Our revenues decreased by approximately \$1.3 million, or 3%, to \$44.0 million for the six months ended March 31, 2018 as compared to \$45.2 million for the six months ended March 31, 2017. The decrease in overall revenue for the six month period ended March 31, 2018 as compared to prior fiscal year six month period was the result of an approximately \$1.9 million decrease in our HPP segment revenue, partially offset by an increase of approximately \$0.6 million in our TS segment. The HPP segment revenue was primarily impacted by lower royalties recognized of approximately \$0.8 million on high-speed processing boards during the six months ended March 31, 2018 as compared \$2.2 million of royalty revenues for the six month period ended March 31, 2017. Our gross margin percentage increased overall, from 22% of revenues for the six months ended March 31, 2017, to 23% for the six months ended March 31, 2018. Our operating income decreased by approximately \$1.2 million to to an operating loss of \$0.7 million for the six month period ended March 31, 2018 as compared to operating income of \$0.5 million for the six months ended March 31, 2017, primarily as a result of increased selling and marketing expenses and increased engineering expenses. Our income tax expense increased by approximately \$778 thousand to an income tax expense of \$974 thousand for the six months ended March 31, 2018 as compared to an income tax expense of \$196 thousand for the six months ended March 31, 2017. The increase to the income tax expense was primarily due to the Tax Cuts and Jobs Act which was enacted on December 22, 2017.

The following table details our results of operations in dollars and as a percentage of sales for the six months ended:

	March 31, 2018	% of sales	March 31, 2017	% of sales
(Dollar amounts in thousands)				
Sales	\$43,981	100 %	\$ 45,232	100 %
Costs and expenses:				
Cost of sales	33,918	77 %	35,085	77 %
Engineering and development	1,457	3 %	1,169	3 %
Selling, general and administrative	9,322	21 %	8,458	19 %
Total costs and expenses	44,697	101 %	44,712	99 %
Operating income (loss)	(716)	(2)%	520	1 %
Other income (expense)	(104)	— %	61	— %
Income (loss) before income taxes	(820)	(2)%	581	1 %
Income tax expense	974	2 %	196	— %
Net income (loss)	\$(1,794)	(4)%	\$ 385	1 %

Revenues

Our total revenues decreased by \$1.3 million to \$44.0 million for the six months ended March 31, 2018 as compared \$45.2 million of revenues for the six months ended March 31, 2017.

HPP segment revenue was as follows for the six months ended March 31, 2018 and 2017:

	2018	2017	Decrease \$	%
(Dollar amounts in thousands)				
Products	\$3,087	\$3,520	\$(433)	(12)%
Services	1,178	2,651	(1,473)	(56)%
Total	\$4,265	\$6,171	\$(1,906)	(31)%

The decrease in HPP product revenues for the period of \$0.4 million was primarily the result of a decrease of approximately \$0.8 million in Multicomputer product line shipments, partially due to a large shipment in the prior fiscal year period, partially offset by an increase in Myricom product line shipments of \$0.4 million for the six months ended March 31, 2018 as compared to the six months ended March 31, 2017. The decrease in HPP services revenues of \$1.5 million for the

20

period was primarily the result of a decrease of approximately \$1.4 million in royalty revenues on high-speed processing boards related to the E2D program during the six months ended March 31, 2018 as compared to the six months ended March 31, 2017.

TS segment revenue was as follows for the six months ended March 31, 2018 and 2017:

	2018	2017	Increase (decrease)	
			\$	%
	(Dollar amounts in thousands)			
Products	\$27,740	\$29,802	\$(2,062)	(7)%
Services	11,976	9,259	2,717	29%
Total	\$39,716	\$39,061	\$655	2%

The decrease in TS segment product revenues of \$2.1 million during the period was primarily the result of a decrease in product revenues of \$1.3 million and \$1.2 million in our German and U.S. divisions, respectively, partially offset by an increase in product revenues of \$0.4 million in our U.K division. The \$1.3 million decrease in the German division product revenues was primarily the result of lowers sales volume to a major customer due to customer orders being deferred into the third quarter of 2018. The \$1.2 million decrease in the U.S. division product revenues was primarily the result of decreases in product shipments to a major customer. The increase in TS segment service revenues of \$2.7 million during the period was primarily the result of an increase of \$2.2 million and \$0.5 million in our U.S. and German divisions, respectively. The \$2.2 million increase in the U.S. division service revenues was primarily due to \$1.7 million of increased internal services and increased third party maintenance revenues of \$0.6 million.

Our revenues by geographic area, which is based on the customer location to which the products were shipped or services rendered, were as follows for the six months ended March 31, 2018 and 2017:

	For the six months ended March 31,				Decrease	
	2018	%	2017	%	\$	%
	(Dollars in thousands)					
Americas	\$28,439	65%	\$28,723	64%	\$(284)	(1)%
Europe	14,880	34%	15,407	34%	(527)	(3)%
Asia	662	1%	1,102	2%	(440)	(40)%
Totals	\$43,981	100%	\$45,232	100%	\$(1,251)	(3)%

The \$1.3 million decrease in total revenues is primarily attributed to our HPP segment. The \$0.4 million decrease in Asia is primarily the result of decreased product sales by our HPP segment to a major customer of approximately \$0.7 million, partially offset by increased sales by our TS segment of \$0.4 million. The \$0.3 million decrease in Americas is primarily due to decreased revenues by our HPP segment of approximately \$1.2 million, partially offset by increased sales by our TS segment U.S. division of approximately \$0.9 million. The \$0.5 million decrease in Europe revenue is primarily due to decreased sales by our German division of our TS segment.

Gross Margins

Our gross margin was unchanged at approximately \$10.1 million for the six months ended March 31, 2018 as compared to the six months ended March 31, 2017 as follows:

2018	2017	Increase (decrease)
------	------	------------------------

(Dollars in thousands)

	GM\$	GM%	GM\$	GM%	GM\$	GM%
HPP	\$2,301	54 %	\$3,932	64 %	\$(1,631)	(10)%
TS	7,762	20 %	6,215	16 %	1,547	4 %
Total	\$10,063	23 %	\$10,147	22 %	\$(84)	1 %

The impact of product mix within our HPP segment on gross margin was as follows for the six months ended March 31, 2018 and 2017:

	2018		2017		Increase (decrease)	
	GM\$	GM%	GM\$	GM%	GM\$	GM%
(Dollars in thousands)						
Products	\$1,163	38 %	\$1,394	40 %	\$(231)	(2) %
Services	1,138	97 %	2,538	96 %	(1,400)	1 %
Total	\$2,301	54 %	\$3,932	64 %	\$(1,631)	(10) %

The overall HPP segment gross margin as a percentage of sales decreased to 54% for the period from 64% in the prior year period. The 10% decrease in gross margin as a percentage of sales in the HPP segment was primarily attributed to a decrease in Multicomputer high margin royalty revenues.

The impact of product mix within our TS segment on gross margin was as follows for the six months ended March 31, 2018 and 2017:

	2018		2017		Increase	
	GM\$	GM%	GM\$	GM%	GM\$	GM%
(Dollar amounts in thousands)						
Products	\$4,075	15 %	\$3,825	13 %	\$250	2 %
Services	3,687	31 %	2,390	26 %	1,297	5 %
Total	\$7,762	20 %	\$6,215	16 %	\$1,547	4 %

The gross margin as a percentage of sales for TS segment product revenues increased by 2% for the period primarily as a result of an increase in higher gross margin sales for our U.S. division. The 5% increase of gross margin as a percentage of the TS segment services sales is the result of increased margins in our U.K. division.

Engineering and Development Expenses

Engineering and development expenses increased by \$0.3 million to \$1.5 million for the six months ended March 31, 2018 as compared to \$1.2 million for the six months ended March 31, 2017. The current period expenses were primarily for Myricom product engineering expenses incurred in connection with the development of the new Myricom ARIA security products. The increased engineering and development expenses for the six month period ended March 31, 2018 as compared to the six month period ended March 31, 2017 is primarily attributed to an increase in engineering headcount related expenses.

Selling, General and Administrative Expenses

The following table details our SG&A expense by operating segment for the six months ended March 31, 2018 and 2017:

	For the six months ended March 31,					
	2018	% of Total	2017	% of Total	\$ Increase (decrease)	% Increase (decrease)
(Dollar amounts in thousands)						
By Operating Segment:						
HPP segment	\$2,283	24 %	\$2,349	28 %	\$(66)	(3) %
TS segment	7,039	76 %	6,109	72 %	930	15 %
Total	\$9,322	100 %	\$8,458	100 %	\$ 864	10 %

SG&A expenses increased by \$0.9 million, or 10%, for the six months ended March 31, 2018 as compared to the six months ended March 31, 2017. The \$0.9 million, or 15%, increase in TS segment expenses is primarily attributed to increases in variable compensation in our U.S. division as a result of increased margins, and increases for sales and engineering hires in

our U.S. division. The \$0.1 million, or 3%, decrease in HPP segment expenses is primarily attributed to decreases in variable compensation and outside consulting costs.

Other Income/Expenses

The following table details our other income (expense) for the six months ended March 31, 2018 and 2017:

	For the six months ended, March 31, Increase 2018 2017 (decrease)		
	(Amounts in thousands)		
Interest expense	\$(36)	\$ (37)	\$ 1
Interest income	9	5	4
Foreign exchange gain (loss)	(101)	82	(183)
Other income, net	24	11	13
Total other income (expense), net	\$(104)	\$ 61	\$ (165)

The decrease to other income (expenses) for the six months ended March 31, 2018 as compared to the six months ended March 31, 2017 was primarily driven by the net change of approximately \$0.2 million in the foreign exchange gain (loss) on foreign currency holdings in the current period as compared to the prior year period.

Income Taxes

For the six months ended March 31, 2018, the Company recognized an income tax expense of \$974 thousand, which was primarily due to \$1.1 million recorded in the first quarter for the Tax Act. The Tax Act required the Company to revalue its U.S. deferred tax assets and liabilities to the new rate in the Company's first quarter of 2018. The Company has recorded a provisional estimate for a one-time tax expense of \$490 thousand, for the remeasurement of deferred tax assets and liabilities. The Tax Act also requires a mandatory deemed repatriation of undistributed foreign earnings and profits, at the rate of either 15.5% for cash or 8% for non-liquid assets. The Company has included a provisional estimate in the amount of \$649 thousand related to the one-time deemed repatriation transition tax on unrepatriated foreign earnings. As noted, these expenses have been recorded discretely in the three months ended December 31, 2017. The provisional amount is based on information currently available, including estimated tax earnings and profits from foreign investments. The income tax provision for the current period is not comparable to the same period of the prior year due to the impact of the Tax Act, changes in pretax income over many jurisdictions, and the impact of discrete items. Generally, fluctuations in the effective tax rate are primarily due to changes in our geographic pretax income resulting from our business mix and changes in the tax impact of permanent differences, other special items, and other discrete tax items, which may have unique tax implications depending on the nature of the item.

Liquidity and Capital Resources

Our primary source of liquidity is our cash and cash equivalents, which decreased by \$1.9 million to \$12.0 million as of March 31, 2018 from \$13.9 million as of September 30, 2017.

Significant sources of cash for the six months ended March 31, 2018 included a decrease in accounts receivable of \$4.5 million, an increase in deferred revenues of \$3.0 million, and a decrease in inventories of \$1.0 million.

Significant uses of cash for the six months ended March 31, 2018 included a decrease in accounts payable and accrued expenses of \$5.4 million, a decrease in deferred costs of \$2.0 million, a net loss of \$1.8 million, an increase in other current assets of \$1.0 million, and dividends paid of \$0.9 million.

Cash held by our foreign subsidiaries located in Germany and the United Kingdom totaled approximately \$3.7 million as of March 31, 2018 as compared to \$4.6 million as of September 30, 2017. This cash is included in our total cash and cash equivalents reported above.

If cash generated from operations is insufficient to satisfy working capital requirements, we may need to access funds through lines of credit, the equity markets, or other means. There is no assurance that we will be able to raise any such capital

on terms acceptable to us, on a timely basis or at all. If we are unable to secure additional financing, we may not be able to complete the development or enhancement of our products, take advantage of future opportunities, respond to competition or continue to effectively operate our business.

Based on our current plans and business conditions, management believes that the Company's available cash and cash equivalents, the cash generated from operations and availability on our lines of credit will be sufficient to provide for the Company's working capital and capital expenditure requirements for at least the next twelve months from the date of filing this Quarterly Report on Form 10-Q.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2018. Our Chief Executive Officer, our Chief Financial Officer and other members of our senior management team supervised and participated in this evaluation. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of March 31, 2018, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were not effective, due to the fact that we are not yet able to conclude that the material weakness described below in this Item 4 has been remediated by the changes we made in response to that material weakness.

As previously disclosed in Item 9A of our Annual Report on Form 10-K for the period ended September 30, 2017, our management identified a material weakness as of such date. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be able to be prevented or detected in a timely basis. The identified material weakness is in connection with our controls over the revenue recognition process at our foreign subsidiaries, specifically whether revenue recognition criteria have been satisfied prior to recognizing revenue and the failure to sufficiently assess gross versus net revenue indicators to certain revenue transactions. We determined that controls over the revenue recognition process were not operating effectively and the resulting control gap amounted to a material weakness in our controls over financial reporting.

During the periods following our initial identification of the material weakness referred to above, management assessed various alternatives to remediate this material weakness and we implemented changes to our system of internal controls, which included the implementation of enhanced internal auditing procedures, whereby revenue transactions are subjected to an additional review process at the corporate level to ensure the correct accounting methodology is applied to all revenue transactions. During the three months ended March 31, 2018, management continued to take actions to improve accounting operations in our European divisions. Although we have implemented such changes to our internal controls over financial reporting as described above, at this time, we cannot conclude that the material weakness has been remediated and we will continue to evaluate personnel changes and upgrade systems and processes throughout fiscal year 2018 as necessary.

Changes in Internal Control over Financial Reporting.

During the three months ended March 31, 2018, management implemented process improvements in order to improve operations in our European division in connection with the identified material weakness noted above. During the three months ended March 31, 2018, there were no other changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 6. Exhibits

Number Description

31.1* Rule 13(a)-14(a) / 15d-14(a) Certification of Chief Executive Officer

31.2* Rule 13(a)-14(a) / 15d-14(a) Certification of Chief Financial Officer

32.1* Section 1350 Certifications of Chief Executive Officer and Chief Financial Officer

101* Interactive Data Files regarding (a) our Consolidated Balance Sheets as of March 31, 2018 and September 30, 2017, (b) our Consolidated Statements of Income for the three and six months ended March, 31, 2018 and 2017, (c) our Consolidated Statements of Comprehensive Income for the three and six months ended March 31, 2018 and 2017, (d) our Consolidated Statement of Shareholders' Equity for the six months ended March 31, 2018, (e) our Consolidated Statements of Cash Flows for the six months ended March 31, 2018 and 2017 and (f) the Notes to such Consolidated Financial Statements.
