EBITDA is presented because management believes that EBITDA is a useful supplement to net income and other measurements under accounting principles generally accepted in the United States since it is a meaningful measure of a company's performance and ability to meet its future debt service requirements, fund capital expenditures and meet working capital requirements. EBITDA is not a measure of financial performance under accounting principles generally accepted in the United States and should not be considered as an alternative to (i) net income (or any other measure of performance under generally accepted accounting principles) as a measure of performance or (ii) cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity. The following table reconciles reported net income to EBITDA:

	Thirteen Weeks Ended		Twenty Six Weeks Ended	
	May 3, 2003	May 4, 2002	May 3, 2003	May 4, 2002
Net income	\$ 128,000	\$ 183,000	\$ 477,000	\$ 1,450,000
