Item 1.01 Entry into a Material Definitive Agreement.

On October 26, 2006, Myers Industries, Inc. entered into the Second Amended and Restated Loan Agreement (the "Loan Agreement") with the foreign subsidiary borrowers identified therein, the lenders identified therein and JP Morgan Chase Bank, National Association, as agent for the lenders. The agreement provides for a \$250 million senior revolving credit facility expiring on October 26, 2011, which replaces our existing \$225 million facility. Amounts borrowed under the credit facility are secured by pledges of stock of our foreign subsidiaries and guaranties of certain of our domestic subsidiaries.

The new facility is a five year senior revolving credit facility in a maximum amount of up to \$250,000,000, which consists of a letter of credit subfacility, swingline subfacility and multicurrency subfacility. Amounts borrowed under the new facility will be used to replace the existing \$225 million loan agreement and for working capital and general corporate purposes. The new facility also has an accordion feature which allows us to increase the availability by up to \$100,000,000 upon the satisfaction of certain conditions. Borrowings will bear interest at the prime rate or federal funds effective rate, the British Bankers' Association LIBOR rate, the Canadian rate or the euro currency reference rate depending on the type of loan requested by us. The Loan Agreement contains certain financial covenants that require us to maintain a maximum debt to EBITDA ratio and a minimum interest coverage ratio as well as contain limitations on our annual capital expenditures and other customary terms and conditions.

The forgoing description of the Loan Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Loan Agreement attached to this Form 8-K as Exhibit 10.1 and incorporated herein by reference.

Item 2.03 Creation of a Direct Financial Obligation of an Obligation under an Off-Balance Sheet Arrangement of the Registrant.
