### ONE LIBERTY PROPERTIES ANNOUNCES RESULTS OF OPERATIONS FOR THE QUARTER AND NINE MONTHS ENDED SEPTEMBER 30, 2004

Great Neck, New York - November 8, 2004 - One Liberty Properties, Inc. (NYSE: OLP) today announced that for the three months ended September 30, 2004 it had revenues of \$6,347,000 and net income applicable to common stockholders of \$2,499,000, or \$.26 per share on a diluted basis. For the quarter ended September 30, 2003, the Company reported revenues of \$5,055,000 and net income applicable to common stockholders of \$1,894,000, or \$.33 per share on a diluted basis. Net income for the quarter ended September 30, 2003 includes the Company's equity in earnings of unconsolidated joint ventures of \$591,000. The weighted average number of common shares outstanding on a diluted basis was

9,762,000 and 5,740,000 for the three months ended September 30, 2004 and September 30, 2003, respectively.

The Company had revenues of \$18,195,000 and net income applicable to common stockholders of \$6,965,000, or \$.72 per share on a diluted basis, for the nine months ended September 30, 2004. Net income for the nine months ended September 30, 2004 includes the Company's equity in earnings of unconsolidated joint ventures of \$1,639,000 and gain on property and securities sales of \$74,000. This compares with revenues, net income applicable to common stockholders and net income per share on a diluted basis of \$14,281,000, \$5,582,000 and \$.98 per share, respectively, for the nine months ended September 30, 2003. Net income for the nine months ended September 30, 2003 includes the Company's equity in earnings of unconsolidated joint ventures of \$1,834,000 and gain on sale of property of \$14,000. The weighted average number of common shares outstanding on a diluted basis was 9,729,000 and 5,708,000 for the nine months ended September 30, 2004 and September 30, 2003, respectively.

Funds from operations applicable to common stockholders for the three months ended September 30, 2004 was \$3,880,000, or \$.40 per share on a diluted basis, compared to \$2,943,000, or \$.51 per share on a diluted basis, for the three months ended September 30, 2003. Funds from operations for the nine months ended September 30, 2004 was \$11,038,000, or \$1.13 per share on a diluted basis, as compared to \$8,541,000, or \$1.50 per share on a diluted basis, for the nine months ended September 30, 2003. Funds from operations, calculated in accordance with the NAREIT definition, adds back to net income depreciation of properties, the Company's share of depreciation in unconsolidated joint ventures and amortization of capitalized leasing expenses and deducts gain on sale of real estate and cash distributions paid to preferred stockholders. (See attached chart). The Company redeemed all of its outstanding preferred stock on December 30, 2003.

Commenting on the results of operations and the funds from operations, Jeffrey Fishman, President and Chief Executive Officer of the Company, noted that revenues, substantially all of which represents rental income, increased by \$1,292,000, or 25.6%, quarter versus quarter and \$3,914,000, or 27.4%, nine months versus nine months due to rental revenues earned on nine properties acquired by the Company between February 2003 and August 2004. Total expenses increased \$1,097,000, or 31.4%, quarter versus quarter, and \$3,174,000, or 32.5%, nine months versus nine months as a result of increases in depreciation and amortization due to the ownership of additional properties, in mortgage interest as the result of new mortgages placed on properties and the assumption of mortgages in connection with property acquisitions between February 2003 and March 2004, in general and administrative expenses and in real estate expenses. The increase in general and administrative expenses is principally due to an increase in professional fees resulting from property acquisitions, mortgage refinancings and compliance with the Sarbanes-Oxley Act and recently adopted accounting pronouncements, increased staffing, increases in executive compensation and amortization of restricted stock awards. The increase in general and administrative expenses in the nine months ending September 30, 2004 is also due to a non-recurring fee for the initial listing by the Company of its common stock on the New York Stock Exchange in January 2004. The increases in real estate expenses in both current periods is due in large part to the vacancy of two properties, one resulting from a tenant not renewing its lease and the other part from disaffirmance of a lease by a tenant which filed for bankruptcy protection.

In reviewing the results of operations, Mr. Fishman commented that the per share income in both 2004 periods declined in comparison to the 2003 periods due to the completion of a public offering by the Company in October 2003 resulting in a significant increase in the average weighted number of shares outstanding, combined with the fact that at September 30, 2004, the proceeds from such public offering had not yet been fully applied. He noted that in October 2004 the

Company acquired a property for approximately \$17,000,000 and that to consummate that acquisition the Company used the balance of the 2003 public offering proceeds and \$7,000,000 drawn down under its credit line. He commented further that the five properties acquired to date in 2004 were acquired at various times during the year and that these properties and properties acquired through the end of the year will positively impact 2005 revenues and net income. Mr. Fishman stated that the Company is actively engaged in seeking additional property acquisitions and is in various stages of negotiations with respect to the property acquisitions. He noted that the Company will use the cash provided from mortgage financings on recently acquired properties, funds available under the credit facility and cash provided from operations to fund these additional acquisitions.

With respect to the Company's equity in earnings of unconsolidated ventures, which decreased nine months versus nine months and increased modestly three months over three months, Mr. Fishman stated that the decrease nine months versus nine months was primarily due to the non-payment of rent at one of the Company's movie theater joint venture properties, a situation which has now been remedied, and the reversal of the straight line rent previously recognized with respect to this property and another theater property operated by the same lessee. Equity in earnings of unconsolidated joint ventures was also adversely affected in both current periods by the bankruptcy of a retail tenant (not a movie theater) occupying a property owned by a joint venture in which the Company has a 50% equity position. These decreases were offset in part in the nine month period ended September 30, 2004 and fully in the three months ended September 30, 2004 by the Company's purchase of an additional 25% interest in its other movie theater joint venture as of October 1, 2003 and the organization in August 2004 of an additional joint venture in which the Company has a 50% interest.
