BRADY CORPORATION

(Exact name of registrant as specified in charter)

Wisconsin 39-0178960
(State or other jurisdiction of (IRS Employer
incorporation or organization) Identification No.)

6555 West Good Hope Road, 53223
Milwaukee, WI

(Address of principal executive offices) (Zip Code)

(414) 358-6600

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class Name of each exchange on which registered

Class A Nonvoting Common Stock, Par Value \$.01 per share New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Edgar Filing: BRADY CORP - Form 10-K

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the non-voting common stock held by non-affiliates of the registrant as of January 31, 2016, was approximately \$989,699,158 based on the closing sale price of \$22.44 per share on that date as reported for the New York Stock Exchange. As of September 12, 2016, there were 46,966,421 outstanding shares of Class A Nonvoting Common Stock (the "Class A Common Stock"), and 3,538,628 shares of Class B Common Stock. The Class B Common Stock, all of which is held by affiliates of the registrant, is the only voting stock.

PART I

Item 1. Business

(a) General Development of Business

Brady Corporation (“Brady,” “Company,” “we,” “us,” “our”) was incorporated under the laws of the state of Wisconsin in 1911. The Company’s corporate headquarters are located at 6555 West Good Hope Road, Milwaukee, Wisconsin 53223, and the telephone number is (414) 358-6600.

Brady Corporation is a global manufacturer and supplier of identification solutions and workplace safety products that identify and protect premises, products and people. The ability to provide customers with a broad range of proprietary, customized and diverse products for use in various applications, along with a commitment to quality and service, a global footprint, and multiple sales channels, have made Brady a leader in many of its markets.

The Company’s primary objective is to build upon its market position and increase shareholder value by improving in the following key competencies:

• Operational excellence — Continuous productivity improvement and process transformation.

• Customer service — Focus on the customer and understanding customer needs.

• Innovation advantage — Technologically advanced, internally developed products drive growth and sustain gross profit margins.

• Global leadership position in niche markets.

• Digital capabilities.

• Compliance expertise.

The ability to provide customers with a broad range of proprietary, customized and diverse products for use in various applications across multiple customers and geographies, along with a commitment to quality and service, have made Brady a leader in many of its markets. The long-term sales growth and profitability of our segments will depend not only on improved demand in end markets and the overall economic environment, but also on our ability to continuously improve operational excellence, focus on the customer, develop and market innovative new products, and to advance our digital capabilities. In our Identification Solutions (“ID Solutions” or “IDS”) business, our strategy for growth includes an increased focus on key customers, industries and products and improving the efficiency and effectiveness of the research and development (“R&D”) function. In our Workplace Safety (“WPS”) business, our strategy for growth includes a focus on workplace safety critical industries, innovative new product offerings, and increased investment in digital capabilities.

The following were key initiatives supporting the strategy in fiscal 2016:

• Driving operational efficiency within our manufacturing facilities and throughout the organization to improve profitability.

• Focusing on operational excellence and providing the Company’s customers with the highest level of customer service.

• Enhancing our innovation development process to deliver high-value, innovative products that align with the Company’s target markets.

• Performing comprehensive product reviews to optimize the Company’s product offerings.

• Expanding our digital presence with a heightened focus on mobile technologies.

• Growing through focused sales and marketing efforts in selected vertical markets and strategic accounts.

• Enhancing our global employee development process to attract and retain key talent.

(b) Financial Information About Industry Segments

The information required by this Item is provided in Note 8 of the Notes to Consolidated Financial Statements contained in Item 8 - Financial Statements and Supplementary Data.

Table of Contents

(c) Narrative Description of Business

Overview

The Company is organized and managed on a global basis within two reportable segments: Identification Solutions and Workplace Safety.

The IDS segment includes high-performance and innovative identification and healthcare products that are manufactured under multiple brands, including the Brady brand, and are primarily sold through distribution to a broad range of maintenance, repair, and operations ("MRO") and original equipment manufacturing ("OEM") customers and through other channels, including direct sales, catalog marketing, and digital.

The WPS segment includes workplace safety and compliance products, which are sold under multiple brand names through catalog and digital to a broad range of MRO customers. Approximately half of the WPS business is derived from internally manufactured product and half is from externally sourced products.

Below is a summary of sales by reportable segments for the fiscal years ended July 31:

| | 2016 | 2015 | 2014 |
|-------|--------|--------|--------|
| IDS | 69.3 % | 68.8 % | 67.4 % |
| WPS | 30.7 % | 31.2 % | 32.6 % |
| Total | 100.0% | 100.0% | 100.0% |

ID Solutions

Within the ID Solutions segment, the primary product categories include:

- Facility identification and protection, which includes safety signs, pipe markers, labeling systems, spill control products, lockout/tagout devices, and software and services for auditing, procedure writing and training.

- Product identification, which includes materials and printing systems for product identification, brand protection labeling, work in process labeling, and finished product identification.

- Wire identification, which includes hand-held printers, wire markers, sleeves, and tags.

- People identification, which includes self-expiring name tags, badges, lanyards, and access control software.

- Patient identification, which includes wristbands and labels used in hospitals for tracking and improving the safety of patients.

- Custom wristbands used in the leisure and entertainment industry such as theme parks, concerts and festivals.

Approximately 65% of ID Solutions products are sold under the Brady brand. In the United States, identification products for the utility industry are marketed under the Electromark brand; spill-control products are marketed under the SPC brand; and security and identification badges and systems are marketed under the Identocard, PromoVision, and Brady People ID brands. Wire identification products are marketed under the Modernotecnica brand in Italy and lockout/tagout products are offered under the Scafftag brand in the U.K. Custom labels and nameplates are available under the Stickolor brand in Brazil; identification and patient safety products in the healthcare industry under the PDC Healthcare brand in the U.S. and Europe; and custom wristbands for the leisure and entertainment industry are available under the PDC brand in the U.S. and the PDC B.I.G. brand in Europe.

The ID Solutions segment offers high quality products with rapid response and superior service to provide solutions to customers. The business markets and sells products through multiple channels including distributors, direct sales, catalog marketing, and e-commerce. The ID Solutions sales force partners with end-users and distributors by providing technical application and product expertise.

This segment manufactures differentiated, proprietary products, most of which have been internally developed. These internally developed products include materials, printing systems, and software. IDS competes for business principally on the basis of engineering, research and development capabilities, materials expertise, customer service, product quality and price, safety expertise, and production capabilities. Competition is highly fragmented, ranging from smaller companies offering minimal product variety, to some of the world's largest major adhesive and electrical product companies offering competing products as part of their overall product lines.

ID Solutions serves customers in many industries, which include industrial manufacturing, electronic manufacturing, healthcare, chemical, oil, gas, automotive, aerospace, defense, mass transit, electrical contractors, leisure and

entertainment and telecommunications, among others.

4

Table of Contents

Workplace Safety

Within the Workplace Safety segment, the primary product categories include:

• Safety and compliance signs, tags, and labels.

• Informational and architectural signage.

• Asset tracking labels.

• First aid products.

• Industrial warehouse and office equipment.

• Labor law compliance posters.

Products within the Workplace Safety segment are sold under a variety of brands including: safety and facility identification products offered under the Seton, Emedco, Signals, Safety Signs Service and Pervaco brands; first aid supplies under the Accidental Health and Safety, Trafalgar, and Securimed brands; warehouse supplies and industrial furniture under the Runelandhs and Welco brands; wire identification products marketed under the Carroll brand; and labor law compliance posters under the Personnel Concepts brand.

The Workplace Safety segment manufactures a broad range of stock and custom identification products, and also sells a broad range of related resale products. Historically, both the Company and many of our competitors focused their businesses on catalog marketing, often with varying product niches. However, the competitive landscape is changing with the continued evolution of digital channels. Many of our competitors extensively utilize e-commerce to promote the sale of their products. A consequence of this shift is price transparency, as prices on non-proprietary products can be easily compared. Therefore, to compete effectively, we continue to focus on developing dynamic pricing capabilities and enhancing customer experience as these are critical to convert customers from traditional catalog channels to digital.

Workplace Safety primarily sells to other businesses and serves many industries, including manufacturers, process industries, government, education, construction, and utilities. The business markets and sells products through multiple channels, including catalog, telemarketing and digital.

Discontinued Operations

Discontinued operations include the Asia Die-Cut and European Die-Cut businesses ("Die-Cut"), which were announced as held for sale in the third and fourth quarters of fiscal 2013, respectively. In fiscal 2014, the Company entered into an agreement with LTI Flexible Products, Inc. (d/b/a Boyd Corporation) for the sale of Die-Cut. The first phase of the divestiture closed in the fourth quarter of fiscal 2014 and the second phase of the divestiture closed in the first quarter of fiscal 2015. The operating results of the Die-Cut businesses were reflected as discontinued operations in the consolidated statements of earnings for the years ended July 31, 2015 and 2014.

The Die-Cut business consisted of the manufacture and sale of precision converted products such as gaskets, meshes, heat-dissipation materials, antennae, dampers, filters, and similar products sold primarily to the electronics industry with a concentration in the mobile-handset and hard-disk drive industries.

Research and Development

The Company focuses its research and development ("R&D") efforts on pressure sensitive materials, printing systems and software, and it mainly supports the IDS segment. Material development involves the application of surface chemistry concepts for top coatings and adhesives applied to a variety of base materials. Systems design integrates materials, embedded software and a variety of printing technologies to form a complete solution for customer applications. In addition, the research and development team supports production and marketing efforts by providing application and technical expertise.

The Company owns patents and tradenames relating to certain products in the United States and internationally. Although the Company believes that patents are a significant driver in maintaining its position for certain products, technology in the areas covered by many of the patents continues to evolve and may limit the value of such patents. The Company's business is not dependent on any single patent or group of patents. Patents applicable to specific products extend for up to 20 years according to the date of patent application filing or patent grant, depending upon the legal term of patents in the various countries where patent protection is obtained. The Company's tradenames are valid ten years from the date of registration, and are typically renewed on an ongoing basis.

The Company spent \$35.8 million, \$36.7 million, and \$35.0 million on its R&D activities during the fiscal years ended July 31, 2016, 2015, and 2014, respectively. The decrease in R&D spending in fiscal 2016 compared to the prior year was primarily due to efficiency gains within the R&D function and to a lesser extent, the strengthening of the U.S. dollar. As of July 31, 2016, 210 employees were engaged in R&D activities for the Company.

Table of Contents

Operations

The materials used in the products manufactured consist of a variety of plastic and synthetic films, paper, metal and metal foil, cloth, fiberglass, inks, dyes, adhesives, pigments, natural and synthetic rubber, organic chemicals, polymers, and solvents for consumable identification products in addition to electronic components, molded parts and sub-assemblies for printing systems. The Company operates a coating facility that manufactures bulk rolls of label stock for internal and external customers. In addition, the Company purchases finished products for resale.

The Company purchases raw materials, components and finished products from many suppliers. Overall, we are not dependent upon any single supplier for our most critical base materials or components; however, we have chosen in certain situations to sole source, or limit the sources of materials, components, or finished items for design or cost reasons. As a result, disruptions in supply could have an impact on results for a period of time, but we believe any disruptions would simply require qualification of new suppliers and the disruption would be modest. In certain instances, the qualification process could be more costly or take a longer period of time and in rare circumstances, such as a global shortage of critical materials or components, the financial impact could be material. The Company currently operates 42 manufacturing and distribution facilities globally.

The Company carries working capital mainly related to accounts receivable and inventory. Inventory consists of raw materials, work in process and finished goods. Generally, custom products are made to order while an on-hand quantity of stock product is maintained to provide customers with timely delivery. Normal and customary payment terms range from net 30 to 90 days from date of invoice and varies by geographies.

The Company has a broad customer base, and no individual customer is 10% or more of total net sales.

Average delivery time for customer orders varies from same-day delivery to one month, depending on the type of product, customer request, and whether the product is stock or custom-designed and manufactured. The Company's backlog is not material, does not provide significant visibility for future business and is not pertinent to an understanding of the business.

Environment

Compliance with federal, state and local environmental protection laws during fiscal 2016 did not have a material impact on the Company's business, financial condition or results of operations.

Employees

As of July 31, 2016, the Company employed approximately 6,500 individuals. Brady has never experienced a material work stoppage due to a labor dispute and considers its relations with employees to be good.

(d) Financial Information About Foreign and Domestic Operations and Export Sales

The information required by this Item is provided in Note 8 of the Notes to Consolidated Financial Statements contained in Item 8 — Financial Statements and Supplementary Data.

(e) Information Available on the Internet

The Company's Corporate Internet address is <http://www.bradycorp.com>. The Company makes available, free of charge, on or through its Internet website copies of its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to all such reports as soon as reasonably practicable after such reports are electronically filed with or furnished to the SEC. The Company is not including the information contained on or available through its website as part of, or incorporating such information by reference into, this Annual Report on Form 10-K.

Table of Contents

Item 1A. Risk Factors

Investors should carefully consider the risks set forth below and all other information contained in this report and other documents we file with the SEC. The risks and uncertainties described below are those that we have identified as material, but are not the only risks and uncertainties facing us. Our business is also subject to general risk and uncertainties that affect many other companies, such as market conditions, geopolitical events, changes in laws or accounting rules, fluctuations in interest rates, terrorism, wars or conflicts, major health concerns, natural disasters or other disruptions of expected economic or business conditions. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial also may impair our business and financial results.

Business Risks

Failure to compete effectively or to successfully execute our strategy may have a negative impact on our business and financial results.

We actively compete with companies that produce and market the same or similar products, and in some instances, with companies that sell different products that are designed for the same end user. Competition may force us to reduce prices or incur additional costs to remain competitive. We compete on the basis of price, customer support, product innovation, product offering, product quality, expertise, production capabilities, and for multinational customers, our global footprint. Present or future competitors may develop and introduce new and enhanced products, offer products based on alternative technologies and processes, accept lower profit, have greater financial, technical or other resources, or have lower production costs or other pricing advantages. Any of these could put us at a disadvantage by threatening our share of sales or reducing our profit margins, which could adversely impact our business and financial results. Additionally, throughout our global business, distributors and customers may seek lower cost sourcing opportunities, which could result in a loss of business that may adversely impact our business and financial results.

Our strategy is to expand into higher-growth adjacent product categories and markets with technologically advanced new products, as well as to grow our sales generated through the digital channel. While traditional direct marketing channels such as catalogs are an important means of selling our products, an increasing number of customers are purchasing products on the internet. Our strategy to increase sales through the digital channel is an investment in our internet sales capabilities. There is a risk that we may not continue to successfully implement this strategy, or if successfully implemented, not realize its expected benefits due to the continued levels of increased competition and pricing pressure brought about by the internet. Our failure to successfully implement our strategy could adversely impact our business and financial results.

Failure to develop technologically advanced products that meet customer demands, including price expectations, could adversely impact our business and financial results.

Development of technologically advanced new products is targeted as a driver of our organic growth and profitability. Technology is changing rapidly and our competitors are innovating quickly. If we do not keep pace with developing technologically advanced products, we risk product commoditization, deterioration of the value of our brand, and reduced ability to effectively compete. We must continue to develop innovative products, as well as acquire and retain the necessary intellectual property rights in these products. If we fail to make innovations, or we launch products with quality problems, or if customers do not accept our products, then our business and financial results could be adversely affected.

Our failure or the failure of third-party service providers to protect our sites, networks and systems against security breaches, or otherwise to protect our confidential information, could adversely affect our business and financial results.

Our business systems collect, maintain, transmit and store data about our customers, vendors and others, including credit card information and personally identifiable information, as well as other confidential and proprietary information. We also employ third-party service providers that store, process and transmit proprietary, personal and confidential information on our behalf. We rely on encryption and authentication technology licensed from third parties in an effort to securely transmit confidential and sensitive information, including credit card numbers. Our security measures, and those of our third-party service providers, may not detect or prevent all attempts to hack our systems, denial-of-service attacks, viruses, malicious software, break-ins, phishing attacks, social engineering,

security breaches or other attacks and similar disruptions that may jeopardize the security of information stored in or transmitted by our sites, networks and systems or that we or our third-party service providers otherwise maintain. We and our service providers may not have the resources or technical sophistication to anticipate or prevent all types of attacks, and techniques used to obtain unauthorized access to or sabotage systems change frequently and may not be known until launched against us or our third-party service providers. In addition, security breaches can also occur as a result of non-technical issues, including intentional or inadvertent breaches by our employees or by persons with whom we have commercial relationships. Although we maintain privacy, data breach and network security liability insurance, we cannot be certain that our coverage will be adequate or cover liabilities actually incurred, or that insurance will continue to be available to us on economically reasonable

Table of Contents

terms, or at all. Any compromise or breach of our security measures, or those of our third-party service providers, could adversely impact our ability to conduct business, violate applicable privacy, data security and other laws, and cause significant legal and financial exposure, adverse publicity, and a loss of confidence in our security measures, which could have an adverse and material effect on our business and financial results.

Deterioration of or instability in the global economy and financial markets may adversely affect our business and financial results.

Our business and operating results could be affected by global economic conditions. When global economic conditions deteriorate or economic uncertainty continues, customers and potential customers may experience deterioration of their businesses, which may result in the delay or cancellation of plans to purchase our products. Our sensitivity to economic cycles and any related fluctuations in the businesses of our customers or potential customers could have a material adverse impact on our business and financial results.

Demand for our products may be adversely affected by numerous factors, some of which we cannot predict or control. This could adversely affect our business and financial results.

Numerous factors may affect the demand for our products, including:

- Future financial performance of major markets served.
- Consolidation in the marketplace allowing competitors and customers to be more efficient and more price competitive.
- Future competitors entering the marketplace.
- Decreasing product life cycles.
- Changes in customer preferences.

If any of these factors occur, the demand for our products could suffer, and this could adversely impact our business and financial results.

The loss of large customers could adversely affect our business and financial results.

While we have a broad customer base and no individual customer represents 10% or more of total sales, we conduct business with several large customers and distribution companies. Our dependence on these customers makes relationships with them important. We cannot guarantee that these relationships will be retained in the future. Because these large customers account for a significant portion of sales, they may possess a greater capacity to negotiate reduced prices. If we are unable to provide products to our customers at the quality and prices acceptable to them, some of our customers may shift their business to competitors or may substitute another manufacturer's products. If one of our large customers consolidates, is acquired, or loses market share, the result of that event may have an adverse impact on our business. The loss of or reduction of business from one or more of these large customers could have a material adverse impact on our business and financial results.

We depend on key employees and the loss of these individuals could have an adverse effect on our business and financial results.

Our success depends to a large extent upon the continued services of our key executives, managers and other skilled employees. We cannot ensure that we will be able to retain our key executives, managers and employees. The departure of key personnel without adequate replacement could disrupt our business operations. Additionally, we need qualified managers and skilled employees with technical and industry experience to operate our business successfully. If we are unable to attract and retain qualified individuals or our costs to do so increase significantly, our business and financial results could be materially adversely affected.

Failure to execute facility consolidations and maintain acceptable operational service metrics may adversely impact our business and financial results.

In prior fiscal years, we incurred unplanned operating costs related to the consolidation of certain facilities and we experienced a deterioration in key customer service metrics. We continually assess our global footprint and expect to implement additional measures to reduce our cost structure, simplify our business, and standardize our processes, and these actions could result in unplanned operating costs and business disruptions in the future. If these risks materialize, or if we fail to successfully address these inefficiencies, their effects could adversely impact our business and financial results.

Table of Contents

We are a global company headquartered in the United States. We are subject to extensive regulations by U.S. and non-U.S. governmental and self-regulatory entities at various levels of the governing bodies. Failure to comply with laws and regulations could adversely affect our business and financial results.

Our operations are subject to the risks of doing business domestically and globally, including the following:

• Delays or disruptions in product deliveries and payments in connection with international manufacturing and sales.

• Political and economic instability and disruptions.

• Imposition of duties and tariffs.

• Import, export and economic sanction laws.

• Current and changing governmental policies, regulatory, and business environments.

• Disadvantages from competing against companies from countries that are not subject to U.S. laws and regulations including the Foreign Corrupt Practices Act.

• Local labor market conditions.

• Regulations relating to climate change, air emissions, wastewater discharges, handling and disposal of hazardous materials and wastes.

• Regulations relating to health, safety and the protection of the environment.

• Specific country regulations where our products are manufactured or sold.

Laws and regulations that apply to companies doing business with the government, including audit requirements of government contracts related to procurement integrity, export control, employment practices, and the accuracy of records and recording of costs.

Further, these laws and regulations are constantly evolving and it is impossible to accurately predict the effect they may have upon our business and financial results.

We cannot provide assurance that our internal controls and compliance systems will always protect us from acts committed by employees, agents or business partners that would violate U.S. and/or non-U.S. laws, including the laws governing payments to government officials, bribery, fraud, anti-kickback and false claims rules, competition, export and import compliance, money laundering and data privacy. Any such improper actions could subject us to civil or criminal investigations in the U.S. and in other jurisdictions, could lead to substantial civil or criminal, monetary and non-monetary penalties and related lawsuits by shareholders and others, could damage our reputation, and could adversely impact our business and financial results.

We are subject to litigation, including product liability claims, that could adversely impact our business, financial results, and reputation.

We are a party to litigation that arises in the normal course of our business operations, including product warranty, product liability and recall (strict liability and negligence) claims, patent and trademark matters, contract disputes and environmental, employment and other litigation matters. We face an inherent business risk of exposure to product liability and warranty claims in the event that the use of our products is alleged to have resulted in injury or other damage. In addition, we face an inherent risk that our competitors will allege that aspects of our products infringe their intellectual property or that our intellectual property is invalid, such that we could be prevented from manufacturing and selling our products or prevented from stopping others from manufacturing and selling competing products. To date, we have not incurred material costs related to these types of claims. However, while we currently maintain insurance coverage in amounts that we believe are adequate, we cannot be sure that we will be able to maintain this insurance on acceptable terms or that this insurance will provide sufficient coverage against potential liabilities that may arise. Any claims brought against us, with or without merit, may have an adverse effect on our business, financial results and reputation as a result of potential adverse outcomes, the expenses associated with defending such claims, the diversion of our management's resources and time and the potential adverse effect to our business and financial results.

Divestitures, contingent liabilities from divested businesses and the failure to properly identify, integrate and grow acquired companies could adversely affect our business and financial results.

We continually assess the strategic fit of our existing businesses and may divest businesses that we determine do not align with our strategic plan, or that are not achieving the desired return on investment. For example, over the last

three fiscal years, we divested our Asian Die-Cut and European Die-Cut businesses. Divestitures pose risks and challenges that could negatively impact our business. For example, when we decide to sell a business or assets, we may be unable to do so on satisfactory terms and within our anticipated time-frame, and even after reaching a definitive agreement to sell a business, the sale is typically subject to pre-closing conditions which may not be satisfied. In addition, the impact of the divestiture on our revenue and net earnings may be larger than projected, which could distract management, and disputes may arise with buyers. Also, we have retained responsibility for and have agreed to indemnify buyers against certain contingent liabilities related to a number of businesses that we have sold.

Table of Contents

The resolution of these contingencies has not had a material adverse impact on our financial results, but we cannot be certain that this favorable pattern will continue.

Our historical growth has included acquisitions, and our future growth strategy may include acquisition opportunities. If our future growth strategy includes a focus on acquisitions, we may not be able to identify acquisition targets or successfully complete acquisitions due to the absence of quality companies in our target markets, economic conditions, or price expectations from sellers. Acquisitions place significant demands on management, operational, and financial resources. Recent and future acquisitions will require integration of operations, sales and marketing, information technology, and administrative operations, which could decrease the time available to focus on our other growth strategies. We cannot assure that we will be able to successfully integrate acquisitions, that these acquisitions will operate profitably, or that we will be able to achieve the desired sales growth or operational success. Our business and financial results could be adversely affected if we do not successfully integrate the newly acquired businesses, or if our other businesses suffer due to the increased focus on the acquired businesses.

Financial/Ownership Risks

The global nature of our business exposes us to foreign currency fluctuations that could adversely affect our business and financial results.

Approximately 45% of our sales are derived outside the United States. Sales and purchases in currencies other than the U.S. dollar expose us to fluctuations in foreign currencies relative to the U.S. dollar, and may adversely affect our financial statements. Increased strength of the U.S. dollar will increase the effective price of our products sold in currencies other than U.S. dollars into other countries. Decreased strength of the U.S. dollar could adversely affect the cost of materials, products, and services purchased overseas. Our sales and expenses are translated into U.S. dollars for reporting purposes, and the strengthening or weakening of the U.S. dollar could result in unfavorable translation effects, which occurred during the fiscal years 2015 and 2016. In addition, certain of our subsidiaries may invoice customers in a currency other than its functional currency, which could result in unfavorable translation effects on our business and financial results.

Failure to execute our strategies could result in impairment of goodwill or other intangible assets, which may negatively impact earnings and profitability.

We have goodwill of \$429.9 million and other intangible assets of \$59.8 million as of July 31, 2016, which represents 46.9% of our total assets. In fiscal years 2014 and 2015, the Company recorded impairment charges of approximately \$195 million related to the goodwill and other intangible assets of multiple reporting units. We evaluate goodwill and other intangible assets for impairment on an annual basis, or more frequently if impairment indicators are present, based upon the fair value of each respective asset. These valuations include management's estimates of sales, profitability, cash flow generation, capital structure, cost of debt, interest rates, capital expenditures, and other assumptions. Significant negative industry or economic trends, disruptions to our business, inability to achieve sales projections or cost savings, inability to effectively integrate acquired businesses, unexpected significant changes or planned changes in use of the assets or in entity structure, and divestitures may adversely impact the assumptions used in the valuations. If the estimated fair value of our goodwill or other intangible assets change in future periods, we may be required to record an impairment charge, which would reduce the earnings in such period and potentially future earnings.

Changes in tax legislation or tax rates could adversely affect results of operations and financial statements.

Additionally, audits by taxing authorities could result in tax payments for prior periods.

We are subject to income taxes in the U.S. and in many non-U.S. jurisdictions. As such, our earnings are subject to risk due to changing tax laws and tax rates around the world. At any point in time, there are a number of tax proposals at various stages of legislation throughout the globe. While it is impossible for us to predict whether some or all of these proposals will be enacted, it likely would have an impact on our earnings.

Our tax filings are subject to audit by U.S. federal, state and local tax authorities and by non-U.S. tax authorities. If these audits result in payments or assessments that differ from our reserves, our future net earnings may be adversely impacted.

We review the probability of the realization of our deferred tax assets on a quarterly basis based on forecasts of taxable income in both the U.S. and foreign jurisdictions. As part of this review, we utilize historical results, projected

future operating results, eligible carry-forward periods, tax planning opportunities, and other relevant considerations. Adverse changes in profitability and financial outlook in both the U.S. and/or foreign jurisdictions, or changes in our geographic footprint may require changes in the valuation allowances in order to reduce our deferred tax assets. Such changes could result in a material impact on earnings.

Table of Contents

Our annual cash needs could require us to repatriate cash to the U.S. from foreign jurisdictions, which may result in tax charges. We had no such tax charges during the fiscal years 2015 or 2016. However, in fiscal 2014, we repatriated cash to the U.S. in connection with the sale of the Die Cut businesses, which resulted in a tax charge of \$4.0 million in continuing operations.

Substantially all of our voting stock is controlled by members of the Brady family, while our public investors hold non-voting stock. The interests of the voting and non-voting shareholders could differ, potentially resulting in decisions that unfavorably affect the value of the non-voting shares.

Substantially all of our voting stock is controlled by Elizabeth Pungello Bruno, one of our Directors, and William H. Brady III, both of whom are descendants of the Company's founder. All of our publicly traded shares are non-voting. Therefore, Ms. Bruno and Mr. Brady have control in most matters requiring approval or acquiescence by shareholders, including the composition of our Board of Directors and many corporate actions. Such concentration of ownership may discourage a potential acquirer from making a purchase offer that our public shareholders may find favorable, which in turn could adversely affect the market price of our common stock or prevent our shareholders from realizing a premium over our stock price. Furthermore, this concentration of voting share ownership may adversely affect the trading price for our non-voting common stock because investors may perceive disadvantages in owning stock in companies whose voting stock is controlled by a limited number of shareholders.

Failure to meet certain financial covenants required by our debt agreements may adversely affect our business and financial results.

As of July 31, 2016, we had \$216.9 million in outstanding indebtedness. In addition, based on the availability under our credit facilities as of July 31, 2016, we had the ability to borrow an additional \$183.7 million under our revolving credit agreement. Our current revolving credit agreement and long-term debt obligations also impose certain restrictions on us. Refer to Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") within Item 7 for more information regarding our credit agreement and long-term debt obligations. If we breach any of these restrictions or covenants and do not obtain a waiver from the lenders, then subject to applicable cure periods, the outstanding indebtedness (and any other indebtedness with cross-default provisions) could be declared immediately due and payable, which could adversely affect our financial results.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The Company currently operates 42 manufacturing and distribution facilities across the globe and are split by reporting segment as follows:

IDS: Thirty facilities are used for our IDS business. Five each are located within the United States and China; four in Belgium; three in Mexico; two each in the United Kingdom, Brazil, and India; and one each in Canada, Hong Kong, Denmark, Japan, Malaysia, Singapore, and South Africa.

WPS: Twelve facilities are used for our WPS business. Four are located in France; two each are located in Australia and Germany; and one each in the Netherlands, Sweden, the United Kingdom, and the United States.

The Company's present operating facilities contain a total of approximately 2.2 million square feet of space, of which approximately 1.6 million square feet is leased. The Company believes that its equipment and facilities are modern, well maintained, and adequate for present needs.

Item 3. Legal Proceedings

The Company is, and may in the future be, party to litigation arising in the normal course of business. The Company is not currently a party to any material pending legal proceedings in which management believes the ultimate resolution would have a material effect on the Company's consolidated financial statements.

Item 4. Mine Safety Disclosures

Not applicable.

Table of Contents

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

(a) Market Information

Brady Corporation Class A Nonvoting Common Stock trades on the New York Stock Exchange under the symbol BRC. The following table sets forth the range of high and low daily closing sales prices for the Company's Class A stock as reported on the New York Stock Exchange for each of the quarters in the fiscal years ended July 31:

| | 2016 | | 2015 | | 2014 | |
|-------------|---------|---------|---------|---------|---------|---------|
| | High | Low | High | Low | High | Low |
| 4th Quarter | \$32.68 | \$26.29 | \$26.76 | \$23.15 | \$30.75 | \$24.26 |
| 3rd Quarter | \$27.82 | \$21.13 | \$28.91 | \$26.03 | \$27.89 | \$25.15 |
| 2nd Quarter | \$26.39 | \$20.84 | \$27.56 | \$23.50 | \$31.61 | \$27.36 |
| 1st Quarter | \$24.29 | \$19.52 | \$27.07 | \$21.19 | \$35.54 | \$29.19 |

There is no trading market for the Company's Class B Voting Common Stock.

(b) Holders

As of August 31, 2016, there were 1,063 Class A Common Stock shareholders of record and approximately 9,000 beneficial shareholders. There are three Class B Common Stock shareholders.

(c) Issuer Purchases of Equity Securities

The Company has a share repurchase program of the Company's Class A Nonvoting Common Stock. The plan may be implemented by purchasing shares in the open market or in privately negotiated transactions, with repurchased shares available for use in connection with the Company's stock-based plans and for other corporate purposes. The Company did not repurchase any shares during the three months ended July 31, 2016. As of July 31, 2016, there remained 2,000,000 shares to purchase in connection with this share repurchase program.

(i) Dividends

The Company has historically paid quarterly dividends on outstanding common stock. Before any dividend may be paid on the Class B Common Stock, holders of the Class A Common Stock are entitled to receive an annual, noncumulative cash dividend of \$0.01665 per share (subject to adjustment in the event of future stock splits, stock dividends or similar events involving shares of Class A Common Stock). Thereafter, any further dividend in that fiscal year must be paid on all shares of Class A Common Stock and Class B Common Stock on an equal basis. The Company believes that based on its historic dividend practice, this requirement will not impede it in following a similar dividend practice in the future.

During the two most recent fiscal years and for the first quarter of fiscal 2017, the Company declared the following dividends per share on its Class A and Class B Common Stock for the years ended July 31:

| | 2017 | | 2016 | | | 2015 | | | |
|---------|----------|----------|----------|----------|----------|---------|---------|---------|---------|
| | 1st Qtr | 1st Qtr | 2nd Qtr | 3rd Qtr | 4th Qtr | 1st Qtr | 2nd Qtr | 3rd Qtr | 4th Qtr |
| Class A | \$0.2050 | \$0.2025 | \$0.2025 | \$0.2025 | \$0.2025 | \$0.20 | \$ 0.20 | \$ 0.20 | \$ 0.20 |
| Class B | 0.18835 | 0.18585 | 0.2025 | 0.2025 | 0.2025 | 0.1833 | 0.20 | 0.20 | 0.20 |

Table of Contents

Operating data has been impacted by the reclassification of the Die-Cut businesses into discontinued operations in fiscal years 2012, 2013, 2014, and 2015. The Company has elected to not separately disclose the cash flows related (1) to discontinued operations. Refer to Note 13 within Item 8 for further information on discontinued operations. The operating data is also impacted by acquisitions with one and three acquisitions being completed in fiscal years ended July 31, 2013 and 2012, respectively. There were no acquisitions in fiscal years 2016, 2015, or 2014.

In fiscal 2012, the Company underwent several measures to address its cost structure, including a reduction in its workforce and decreased discretionary spending. During fiscal 2013, the Company executed a business simplification project which included various measures to address its cost structure and resulted in restructuring (2) charges during fiscal 2013 and into fiscal 2014. In addition, in fiscal 2014, the Company approved a plan to consolidate facilities in the Americas, Europe, and Asia in order to enhance customer service, improve efficiency of operations, and reduce operating expenses. This plan resulted in restructuring charges during fiscal 2014 and fiscal 2015.

The Company recognized impairment charges of \$46.9 million, \$148.6 million, and \$204.4 million during the fiscal years ended July 31, 2015, 2014, and 2013, respectively. The impairment charges primarily related to the (3) following reporting units: WPS Americas and WPS APAC in fiscal 2015; PeopleID in fiscal 2014; and WPS Americas and IDS APAC in fiscal 2013. Refer to Note 2 within Item 8 for further information regarding the impairment charges.

Fiscal 2015 was significantly impacted by the impairment charges of \$46.9 million, of which \$39.8 million was non-deductible for income tax purposes. Fiscal 2014 was significantly impacted by the impairment charges of \$148.6 million, of which \$61.1 million was non-deductible for income tax purposes, and a tax charge of \$4.0 (4) million in continuing operations associated with the repatriation of the cash proceeds from the sale of the Die-Cut business. Fiscal 2013 was significantly impacted by the impairment charges of \$204.4 million, of which \$168.9 million was non-deductible for income tax purposes, as well as a tax charge of \$26.6 million associated with the funding of the Precision Dynamics Corporation ("PDC") acquisition.

The loss from discontinued operations in fiscal 2015 includes a \$0.4 million net loss on the sale of the Die-Cut business, recorded during the three months ended October 31, 2014. The earnings from discontinued operations in fiscal 2014 include a \$1.2 million net loss on the sale of the Die-Cut business recorded during the three months ended July 31, 2014. The Die-Cut business was sold in two phases. The first phase closed in the fourth quarter of fiscal 2014 and the second and final phase closed in the first quarter of fiscal 2015. The loss from discontinued (5) operations in fiscal 2013 was primarily attributable to a \$15.7 million write-down of the Die-Cut business to its estimated fair value less costs to sell. The loss from discontinued operations in fiscal 2012 was primarily attributable to the \$115.7 million goodwill impairment charge recorded during the three months ending January 31, 2012, which was related to the Die-Cut disposal group. Refer to Note 13 within Item 8 for further information regarding discontinued operations.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a global manufacturer and supplier of identification solutions and workplace safety products that identify and protect premises, products and people. The IDS segment is primarily involved in the design, manufacture, and distribution of high-performance and innovative identification and healthcare products. The WPS segment provides workplace safety and compliance products, half of which are internally manufactured and half are externally sourced. Approximately 45% of our total sales are derived outside of the United States. Foreign sales within the IDS and WPS segments are approximately 35% and 65%, respectively.

The ability to provide customers with a broad range of proprietary, customized and diverse products for use in various applications across multiple customers and geographies, along with a commitment to quality and service, have made Brady a leader in many of its markets. The long-term sales growth and profitability of our segments will depend not only on improved demand in end markets and the overall economic environment, but also on our ability to continuously improve operational excellence, focus on the customer, develop and market innovative new products, and to advance our digital capabilities. In our IDS business, our strategy for growth includes an increased focus on key

customers, industries and products and improving the efficiency and effectiveness of the research and development ("R&D") function. In our WPS business, our strategy for growth includes a focus on workplace safety critical industries, innovative new product offerings, and increased investment in digital capabilities.

Table of Contents

Results of Operations

A comparison of results of operating income (loss) from continuing operations for the fiscal years ended July 31, 2016, 2015, and 2014 is as follows:

| (Dollars in thousands) | 2016 | % Sales | 2015 | % Sales | 2014 | % Sales |
|-----------------------------------|-------------|------------|-------------|------------|-------------|------------|
| Net sales | \$1,120,625 | | \$1,171,731 | | \$1,225,034 | |
| Gross margin | 558,773 | 49.9% | 558,432 | 47.7% | 609,564 | 49.8% |
| Operating expenses: | | | | | | |
| Research and development | 35,799 | 3.2% | 36,734 | 3.1% | 35,048 | 2.9% |
| Selling, general & administrative | 405,096 | 36.1% | 422,704 | 36.1% | 452,164 | 36.9% |
| Restructuring charges | — | —% | 16,821 | 1.4% | 15,012 | 1.2% |
| Impairment charges | — | —% | 46,867 | 4.0% | 148,551 | 12.1% |
| Total operating expenses | 440,895 | 39.3% | 523,126 | 44.6% | 650,775 | 53.1% |
| Operating income (loss) | \$117,878 | 10.5% | \$35,306 | 3.0% | \$(41,211) | (3.4)% |

In fiscal 2016, sales decreased 4.4% to \$1,120.6 million, compared to \$1,171.7 million in fiscal 2015, which consisted of an organic sales decline of 0.7% and a negative currency impact of 3.7% due to the strengthening of the U.S. dollar against certain other major currencies during the year. The decline in organic sales was primarily a result of reduced demand in the Americas and APAC regions. Organic sales declined in both the IDS and WPS segments in fiscal 2016 compared to fiscal 2015. The IDS segment experienced sales declines in the Wire ID and Safety and Facility ID product lines, which were partially offset by sales growth in the Product ID and Healthcare ID product lines. Traditional catalog sales in the WPS segment declined, but were partially offset by sales growth in digital sales.

During fiscal 2015, net sales decreased 4.4% from fiscal 2014, which consisted of organic growth of 1.0% and a negative currency impact of 5.4% due to the strengthening of the U.S. dollar against certain other major currencies during the year. Organic sales within the IDS segment were up, while organic sales within the WPS segment declined.

References in this Form 10-K to “organic sales” refer to sales from continuing operations calculated in accordance with U.S. GAAP, excluding the impact of foreign currency translation. The company’s organic sales disclosures exclude the effects of foreign currency translation as foreign currency translation is subject to volatility that can obscure underlying business trends. Management believes that the non-GAAP financial measure of organic sales is meaningful to investors as it provides them with useful information to aid in identifying underlying sales trends in our businesses and facilitating comparisons of our sales performance with prior periods.

Gross margin increased 0.1% to \$558.8 million in fiscal 2016 as compared to \$558.4 million in fiscal 2015. As a percentage of sales, gross margin increased to 49.9% in fiscal 2016 from 47.7% in fiscal 2015. In the prior fiscal year we incurred on-going costs related to facility consolidation activities primarily in our Americas region which reduced our gross margin percentage to well below historical levels. These facility consolidation activities were completed during fiscal 2015, therefore the increase in gross margin percentage in 2016 was primarily due to our on-going efforts to enhance operational efficiencies in the newly consolidated facilities and return gross margin percentage to historic averages.

Gross margin decreased 8.4% to \$558.4 million in fiscal 2015 as compared to \$609.6 million in fiscal 2014. As a percentage of sales, gross margin decreased to 47.7% in fiscal 2015 from 49.8% in fiscal 2014. The decline in gross margin was due to increased costs related to facility consolidation activities in the Americas due to duplicate labor and facilities expenses as well as operating inefficiencies following the facility moves, such as additional freight costs and excess inventory and scrap charges.

Research and development expenses decreased to \$35.8 million in fiscal 2016 from \$36.7 million in fiscal 2015. The decrease in R&D spending in fiscal 2016 compared to the prior year was primarily due to efficiency gains within the R&D function and the strengthening of the U.S. dollar, which were partially offset by an increase in our investment in new products within the IDS segment to drive top line growth.

Research and development expenses increased to \$36.7 million in fiscal 2015 from \$35.0 million in fiscal 2014. The increase in R&D spending was a result of our innovation development initiative to realign the R&D processes in order to accelerate new

Table of Contents

product innovation, increased investments in emerging technologies such as RFID and sensing technologies, and increased investments in other new products.

Selling, general and administrative (“SG&A”) expenses include selling costs directly attributed to the IDS and WPS segments, as well as administrative expenses including finance, information technology, human resources and legal. SG&A expenses decreased 4.2% to \$405.1 million in fiscal 2016 compared to \$422.7 million in fiscal 2015. The decrease in SG&A expense from the prior year is primarily due to the strengthening of the U.S. dollar, reduced amortization expense of \$3.0 million and our continued efforts to control general and administrative costs, which were partially offset by an increase to incentive-based compensation.

SG&A expense decreased to \$422.7 million in fiscal 2015 compared to \$452.2 million in fiscal 2014. The decline was primarily due to the strengthening of the U.S. dollar, and to a lesser extent, reduced amortization expense of \$5.8 million, an amendment to our U.S.-based post-retirement medical benefit plan that resulted in a \$4.3 million curtailment gain, and our focused efforts to reduce expenses. This decline was partially offset by continued investments in sales personnel within the IDS segment and increased spending in the WPS segment for both on-line and traditional print advertising.

In fiscal 2014, the Company announced a restructuring plan to consolidate facilities in the Americas, Europe and Asia. The Company implemented this restructuring plan to enhance customer service, improve efficiency of our operations and reduce operating expenses. Restructuring activities related to facility consolidation activities extended into fiscal 2015 and were complete at the end of the fiscal year.

In connection with this plan, the Company incurred restructuring charges of \$16.8 million in fiscal 2015. These charges consisted of \$5.4 million of employee separation costs, \$5.2 million of facility closure related costs, \$2.0 million of contract termination costs, and \$4.2 million of non-cash asset write-offs. The charges for employee separation costs consisted of severance pay, outplacement services, medical and other benefits. Non-cash asset write-offs consisted mainly of fixed assets written off in conjunction with facility consolidations. Of the \$16.8 million recognized in fiscal 2015, \$12.1 million was incurred within the IDS segment and \$4.7 million was incurred within the WPS segment.

Restructuring charges were \$15.0 million in fiscal 2014 and consisted of \$9.3 million of employee separation costs, \$4.4 million of facility closure related costs, \$1.0 million of contract termination costs, and \$0.3 million of non-cash asset write-offs associated with the restructuring plan announced in February 2013 to reorganize into global product-based business platforms and reduce our global cost structure. Of the \$15.0 million recognized in fiscal 2014, \$9.0 million was incurred within the IDS segment and \$6.0 million was incurred within the WPS segment.

The Company performed its annual goodwill impairment assessment on May 1, 2016, and subsequently concluded that the fair value of the goodwill was substantially in excess of its carrying value at 20% or greater for all of the reporting units. No impairment charges were recorded in fiscal 2016. In conjunction with the goodwill impairment analysis, management also concluded that no other long-lived assets were impaired.

The Company's annual goodwill impairment assessment performed in fiscal 2015 indicated the WPS Americas and WPS APAC reporting units were impaired. In conjunction with the goodwill impairment analysis, management concluded that other long-lived assets were impaired. Impairment charges were \$46.9 million in fiscal 2015, which consisted of \$37.1 million in goodwill charges associated with the WPS Americas and WPS APAC reporting units and \$9.8 million related to the impairment of certain other long-lived assets.

The Company's annual goodwill impairment assessment performed in fiscal 2014 indicated that the PeopleID reporting unit was impaired. In conjunction with the goodwill impairment analysis, management concluded that other long-lived assets were impaired. Impairment charges were \$148.6 million in fiscal 2014, which consisted of \$100.4 million in goodwill and \$48.2 million in intangible assets primarily associated with the PeopleID reporting unit.

The Company generated operating income of \$117.9 million in fiscal 2016. Operating income from continuing operations was \$35.3 million in fiscal 2015; excluding impairment charges of \$46.9 million and restructuring charges

of \$16.8 million, the Company generated operating income from continuing operations of \$99.0 million in 2015. The increase of \$18.9 million in operating income was due to the improvement in gross profit margin primarily in the IDS segment as well as reduced SG&A primarily in the WPS segment. The increase was partially offset by the negative impact of currency fluctuations.

Operating income from continuing operations was \$35.3 million for fiscal 2015; excluding impairment charges of \$46.9 million and restructuring charges of \$16.8 million, the Company generated operating income from continuing operations of \$99.0 million. The Company incurred an operating loss from continuing operations of \$41.2 million in fiscal 2014; excluding impairment charges of \$148.6 million and restructuring charges of \$15.0 million, the Company generated operating income from continuing operations of \$122.4 million. The decrease of \$23.4 million was primarily due to the segment profit declines in both the IDS and WPS segments,

Table of Contents

facility consolidation costs incurred in both segments, and the negative impact of currency fluctuations during fiscal 2015 as compared to the prior year.

OPERATING INCOME (LOSS) TO NET EARNINGS (LOSS)

| (Dollars in thousands) | 2016 | % Sales | 2015 | % Sales | 2014 | % Sales |
|---|-----------|------------|-----------|------------|------------|------------|
| Operating income (loss) | \$117,878 | 10.5 % | \$35,306 | 3.0 % | \$(41,211) | (3.4)% |
| Other (expense) and income: | | | | | | |
| Investment and other (expense) income | (709) | (0.1)% | 845 | 0.1 % | 2,402 | 0.2 % |
| Interest expense | (7,824) | (0.7)% | (11,156) | (1.0)% | (14,300) | (1.2)% |
| Earnings (loss) from continuing operations before tax | 109,345 | 9.8 % | 24,995 | 2.1 % | (53,109) | (4.3)% |
| Income taxes | 29,235 | 2.6 % | 20,093 | 1.7 % | (4,963) | (0.4)% |
| Earnings (loss) from continuing operations | 80,110 | 7.1 % | 4,902 | 0.4 % | (48,146) | (3.9)% |
| (Loss) earnings from discontinued operations, net of income taxes | — | — % | (1,915) | (0.2)% | 2,178 | 0.2 % |
| Net earnings (loss) | \$80,110 | 7.1 % | \$2,987 | 0.3 % | \$(45,968) | (3.8)% |

Investment and Other Income

Investment and other expense was \$0.7 million in fiscal 2016 compared to income of \$0.8 million in fiscal 2015 and income of \$2.4 million in fiscal 2014. The decline since 2014 was primarily due to foreign currency losses, and a decline in market value of securities held in executive deferred compensation plans.

Interest Expense

Interest expense decreased to \$7.8 million in fiscal 2016 compared to \$11.2 million in fiscal 2015 and \$14.3 million in fiscal 2014. The decline since 2014 was due to the Company's declining principal balance under its outstanding debt agreements and a reduction in the weighted average interest rate.

Income Taxes

The Company's effective income tax rate was 26.7% in fiscal 2016. The effective income tax rate was reduced from the statutory tax rate of 35.0% due to certain adjustments to tax accruals and reserves, utilization of foreign tax credit carryforwards, research and development tax credits and the section 199 manufacturer's deduction.

The Company's effective income tax rate was 80.4% in fiscal 2015. The effective income tax rate was significantly impacted by impairment charges of \$46.9 million recognized during the period, as \$39.8 million of these charges were nondeductible for income tax purposes. The effective income tax rate was further impacted by \$5.0 million of foreign tax credit carryforwards from the fiscal 2014 income tax return and increases in uncertain tax positions recognized in fiscal 2015.

The Company's effective income tax rate was 9.3% in fiscal 2014. The effective income tax rate was significantly impacted by impairment charges of \$148.6 million recognized during the period, as \$61.1 million of these charges were non-deductible for income tax purposes. The effective tax rate was further impacted by increases in uncertain tax positions recognized in fiscal 2014.

Earnings (Loss) from Discontinued Operations

Discontinued operations include the Asia Die-Cut and European Die-cut businesses ("Die-Cut"), of which a portion was divested in the fourth quarter of fiscal 2014 and the remainder was divested in the first quarter of fiscal 2015. The loss from discontinued operations net of income taxes was \$1.9 million in fiscal 2015, compared to earnings from discontinued operations net of income taxes of \$2.2 million in fiscal 2014. The loss in fiscal 2015 consisted of a loss

on operations of \$1.5 million primarily related to professional fees associated with the divestiture and a \$0.4 million loss on the sale of Die-Cut, recorded during the three months ended October 31, 2014. In fiscal 2014, the Die-Cut business had net earnings from operations of \$3.4 million, offset by a net loss on the sale of Die-Cut of \$1.2 million.

Table of Contents

There was no depreciation or amortization expense recognized within discontinued operations for fiscal 2015 or fiscal 2014 as the Die-Cut business was reported as held for sale beginning in the third quarter of fiscal 2013, at which point the fixed assets and intangible assets of these businesses were no longer depreciated or amortized in accordance with applicable U.S. GAAP.

Business Segment Operating Results

The Company is organized and managed on a global basis within two reportable segments: ID Solutions and Workplace Safety. The segment results have been adjusted to reflect continuing operations in all periods presented. The sales and profit of discontinued operations are excluded from the following information.

Following is a summary of segment information for the fiscal years ended July 31, 2016, 2015, and 2014:

| (Dollars in thousands) | Years ended July 31, | | | |
|---|----------------------|-------------|-------------|----|

ID Solutions

Fiscal 2016 vs. 2015

Approximately 70% of net sales in the ID Solutions segment were generated in the Americas region, 20% in EMEA, and 10% in APAC. IDS sales decreased 3.7% to \$776.9 million in fiscal 2016, compared to \$806.5 million in fiscal 2015. Organic sales decreased 0.7% and currency fluctuations decreased sales by 3.0% due to the strengthening of the U.S. dollar against certain other major currencies during the year ended July 31, 2016, as compared to the same period in the prior year.

Organic sales in the Americas declined in the low-single digits in fiscal 2016 as compared to fiscal 2015 primarily due to a slowdown in order patterns with certain of our customers in the United States and Canada which is reflective of a general slowdown in the industrial sector. In addition, we realized double-digit declines in OEM sales in Brazil due to weak economic conditions and increased competitive pressure. The Americas region experienced sales declines in the Wire ID and Safety and Facility ID product lines, which were partially offset by sales growth in the Product ID and Healthcare ID product lines.

The IDS business in EMEA realized low-single digit organic sales growth in fiscal 2016 as compared to fiscal 2015. This increase was primarily driven by our core IDS businesses in Western and Central Europe where we have increased sales despite a lack of significant economic growth. The Product ID and Safety and Facility ID product lines in EMEA realized sales growth in 2016, which was partially offset by a sales decline in the Wire ID product line.

Organic sales in APAC declined in the mid-single digits in fiscal 2016 as compared to fiscal 2015. The region had mid-single digit declines in the first three quarters of the year and effectively flat organic sales in the fourth quarter. The overall decline in organic sales was primarily due to reduced demand in the electronics industry in China as well as other regions within Asia, which we are addressing through focused additions to our sales organization within the region.

Segment profit increased to \$169.8 million in fiscal 2016 from \$149.8 million in fiscal 2015, an increase of \$20.0 million or 13.4%. As a percent of sales, segment profit increased to 21.9% in fiscal 2016, compared to 18.6% in the prior year. The increase in segment profit was primarily driven by operational efficiencies in our manufacturing processes in the Americas and Europe.

Fiscal 2015 vs. 2014

Approximately 70% of net sales in the IDS segment were generated in the Americas region, 20% in EMEA, and 10% in APAC. IDS sales decreased 2.3% to \$806.5 million in fiscal 2015, compared to \$825.1 million in fiscal 2014. Organic sales increased 1.7% and currency fluctuations decreased sales by 4.0% due to the strengthening of the U.S. dollar against other major currencies during the year ended July 31, 2015, as compared to the same period in the prior year.

Organic sales in the Americas grew in the low-single digits in fiscal 2015 as compared to fiscal 2014. This growth was primarily within the U.S. and was driven by our continued focus on expanding the core Brady-brand businesses and an increased focus on key customers, industries and new products. Our areas of highest growth in fiscal 2015 were in the global safety and facility identification product offerings, as well as in portable printer consumables and product identification. This growth was partially offset by double-digit organic sales declines in Brazil in fiscal 2015 as compared to fiscal 2014. OEM sales were down in Brazil due to weak economic conditions and increased competitive pressure. In fiscal 2015, the Company consolidated a facility in Brazil to reduce its cost structure.

Table of Contents

Organic sales in the EMEA region also grew in the low-single digits in fiscal 2015 as compared to fiscal 2014. This increase was primarily driven by Central Europe where we increased our salesforce. Economic growth softened slightly in Western Europe, which impacted IDS sales at the beginning of the third fiscal quarter and into the fourth quarter; however, this geography had stronger sales in the first half of the year which contributed to organic sales growth for the full fiscal year as compared to the prior year.

Organic sales in Asia grew in the high-single digits in fiscal 2015 as compared to fiscal 2014. Similar to the prior year, we experienced slower growth in the fourth quarter of fiscal 2015 as compared to the preceding three quarters.

Segment profit decreased to \$149.8 million in fiscal 2015 from \$176.1 million in fiscal 2014, a decrease of \$26.3 million or 14.9%. As a percent of sales, segment profit decreased to 18.6% in fiscal 2015, compared to 21.3% in the prior year. The decline in segment profit as a percent of sales was primarily in the IDS Americas businesses and was a result of increased costs associated with facility consolidation activities such as duplicate labor and facilities expenses, as well as increased costs from operating inefficiencies in our recently consolidated facilities in North America such as additional freight costs and excess inventory and scrap charges. In addition, although a much smaller impact, the decline was also due to our geographic product mix, as Asia was our region of greatest sales growth in fiscal 2015 and generally has the lowest segment profit margins.

Workplace Safety

Fiscal 2016 vs. 2015

Approximately 50% of net sales in the WPS segment were generated in Europe, 35% in the Americas, and 15% in Australia. WPS sales decreased 5.9% to \$343.7 million in fiscal 2016, compared to \$365.2 million in fiscal 2015, which consisted of an organic sales decline of 0.8% and a negative currency impact of 5.1%. Since half of the WPS business is in Europe, the strengthening of the U.S. dollar against the Euro and British Pound during certain periods of the fiscal year had a larger impact on the WPS segment than it did on the IDS segment.

The WPS business in Europe realized low-single digit organic sales growth in fiscal 2016 compared to the prior year. The increase was primarily driven by Germany, France, and Belgium due to improvements in website functionality and key account management. These improvements led to a double-digit increase in digital sales in Europe as compared to the prior year.

Organic sales in the Americas declined in the low-single digits in fiscal 2016 compared to the prior year. This decrease was primarily in North America due to reduced demand in the industrial end markets and a decrease in sales through traditional catalog channels, which were partially offset by slight growth in digital sales.

Organic sales in Australia declined in the mid-single digits in fiscal 2016 compared to fiscal 2015. The decrease in the Australian business was due to its higher concentration in industries that are experiencing economic challenges, which include manufacturing and mining production. We continue to focus on enhancing our expertise in these industries to drive sales growth as well as addressing our cost structure to improve profitability.

Profit for the WPS segment increased to \$59.8 million in fiscal 2016 from \$56.5 million in fiscal 2015, an increase of \$3.3 million, or 5.8%. As a percentage of sales, segment profit increased to 17.4% in fiscal 2016 compared to 15.5% in the prior year. The increase in segment profit margin was mainly driven by a reduction in selling expenses and catalog advertising.

Fiscal 2015 vs. 2014

Approximately 50% of net sales in the WPS segment were generated in EMEA, 35% in the Americas, and 15% in APAC. WPS sales decreased 8.7% to \$365.2 million in fiscal 2015, compared to \$399.9 million in fiscal 2014, which consisted of an organic sales decline of 0.4% and a negative currency impact of 8.3%. Because approximately half of the WPS business is located in Western Europe and another 15% of the WPS segment is in Australia, the

strengthening of the U.S. dollar against the Euro and the Australian Dollar had a larger impact on the WPS segment than it did on the IDS segment.

Organic sales in Europe grew in the low-single digits in fiscal 2015 compared to the prior year. The growth was driven primarily by Germany, France, and the Nordics region due to improvements in website functionality and key account management. We experienced growth in both traditional catalog sales and digital sales in Europe over the prior year.

Organic sales in the Americas declined in the low-single digits in fiscal 2015 compared to fiscal 2014. This decrease was primarily due to reduced demand in the industrial end markets and a decrease in sales through traditional catalog channels.

Table of Contents

Organic sales in Australia declined in the mid-single digits in fiscal 2015 compared to fiscal 2014. Our business in Australia is diversified in many industries; however, it has a higher concentration in industries that are experiencing economic challenges, including manufacturing and mining production.

Profit for the WPS segment decreased to \$56.5 million in fiscal 2015 from \$66.2 million in fiscal 2014, a decrease of \$9.7 million, or 14.7%. As a percentage of sales, segment profit decreased to 15.5% in fiscal 2015 compared to 16.6% in the prior year. The decrease in segment profit was mainly driven by the decline in sales, increased spending for both on-line and traditional print advertising due to the timing of catalog mailings, investments in digital capabilities and the increased costs associated with facility consolidation activities in the U.S., such as duplicate labor and facilities expenses.

Liquidity & Capital Resources

Cash and cash equivalents were \$141.2 million at July 31, 2016, an increase of \$26.7 million from July 31, 2015. The significant changes were as follows:

| (Dollars in thousands) | Years ended July 31, | | |
|--|----------------------|-----------|-------------|
| | 2016 | 2015 | 2014 |
| Net cash flow provided by (used in): | | | |
| Operating activities | \$ 138,976 | \$ 93,348 | \$ 93,420 |
| Investing activities | (15,416) | (14,365) | 10,207 |
| Financing activities | (99,576) | (32,152) | (115,387) |
| Effect of exchange rate changes on cash | 2,752 | (14,173) | 2,536 |
| Net increase (decrease) in cash and cash equivalents | \$ 26,736 | \$ 32,658 | \$ (9,224) |

Fiscal 2016 vs. 2015

Net cash provided by operating activities increased to \$139.0 million during fiscal 2016 compared to \$93.3 million in the prior year. The increase in cash provided by operating activities of \$45.7 million was primarily due to an improvement in working capital of \$14.0 million and an increase in net earnings compared to the prior fiscal year. The increase to working capital was due to reduced inventory levels that were elevated in the prior year due to the facility consolidations, reduced accounts receivable levels due to improved collections in our Americas and EMEA regions, and increased accrued incentive-based compensation.

Net cash used in investing activities was \$15.4 million during fiscal 2016, compared to \$14.4 million in the prior year. Current year capital expenditures were \$17.1 million compared to \$26.7 million in the prior year due to the completion of facility consolidation activities in fiscal 2015. Prior year capital expenditures were offset by \$6.2 million in cash received for certain assets sold as part of facility consolidation activities, and \$6.1 million in net cash received from the Die-Cut divestiture.

Net cash used in financing activities was \$99.6 million during fiscal 2016, compared to \$32.2 million during the prior year. The increase in cash used in financing activities was primarily due to improved operating performance and cash flow resulting in decreased net borrowings, which were partially offset by \$23.6 million of share repurchases in fiscal 2016.

The effect of fluctuations in exchange rates increased cash balances by \$2.8 million in fiscal 2016 primarily due to cash balances held in currencies that appreciated against the U.S. dollar during the current fiscal year.

Fiscal 2015 vs. 2014

Net cash provided by operating activities decreased slightly to \$93.3 million during fiscal 2015 compared to \$93.4 million in the prior year. The prior year results included discontinued operations, which generated approximately \$2.7 million in cash from operating activities. Therefore, there was an increase in cash flow from operating activities from

continuing operations of \$2.6 million. This increase was primarily due to a change in working capital of \$36.0 million, largely offset by the decrease in segment profit of \$33.4 million. A majority of the decrease in working capital related to a decrease in prepaid catalog costs at July 31, 2015, compared to July 31, 2014, due to a reduction in catalog mailings and a change in the timing of such catalog mailings. Inventories were also built in advance of facility consolidations in fiscal 2014, whereas inventories were effectively flat in fiscal 2015.

Table of Contents

Net cash used in investing activities was \$14.4 million during fiscal 2015 primarily due to capital expenditures of \$26.7 million, partially offset by the \$6.1 million of net cash received from the Die-Cut divestiture during the three months ended October 31, 2014. In addition, certain assets were sold as part of the facility consolidation activities, which reduced cash used in investing activities by \$6.2 million compared to the prior year. Net cash provided by investing activities was \$10.2 million during fiscal 2014 due to the cash received from the first phase of the sale of the Die-Cut business of \$54.2 million, offset by \$43.4 million spent on capital expenditures in fiscal 2014.

Net cash used in financing activities was \$32.2 million during fiscal 2015, compared to \$115.4 million during the prior year. The decrease in cash used in financing activities of \$83.2 million was primarily due to increased net borrowings of \$40.1 million on the revolving loan agreement and lines of credit during fiscal 2015 and a reduction in the principal payments on long-term debt of \$18.8 million compared to the prior year. In addition, there were no share repurchases in fiscal 2015 compared to cash used of \$30.6 million on share repurchases in the prior year, and proceeds from stock option exercises were lower by \$10.5 million in fiscal 2015 compared to the prior year.

The effect of fluctuations in exchange rates reduced cash balances by \$14.2 million in fiscal 2015 due to the strengthening of the U.S. dollar against other major currencies.

The Company's cash balances are generated and held in numerous locations throughout the world. At July 31, 2016, approximately 99% of the Company's cash and cash equivalents were held outside the United States. The Company's growth has historically been funded by a combination of cash provided by operating activities and debt financing. The Company believes that its cash flow from operating activities, in addition to its borrowing capacity, are sufficient to fund its anticipated requirements for working capital, capital expenditures, common stock repurchases, scheduled debt repayments, and dividend payments for the next twelve months.

In fiscal 2014, the Company completed the first phase of the sale of its Die-Cut business and completed the second and final phase on August 1, 2014. In conjunction with the sale of this business, the Company repatriated approximately \$57 million of the cash received to the United States. The cash received from the sale of Die-Cut in fiscal 2014 resulted in \$4.0 million in income tax charges recognized in continuing operations during the fiscal year ended July 31, 2014. The Company believes that its current credit arrangements are sound and that the strength of its balance sheet will allow financial flexibility to respond to both internal growth opportunities and those available through acquisition. However, future cash needs could require the Company to repatriate additional cash to the U.S. from foreign jurisdictions, which could result in material tax charges recognized in the period in which the decisions are made.

Refer to Item 8, Note 6, "Debt" for information regarding the Company's debt holdings.

Table of Contents

Subsequent Events Affecting Financial Condition

On September 8, 2016, the Company announced an increase in the annual dividend to shareholders of the Company's Class A Common Stock, from \$0.81 to \$0.82 per share. A quarterly dividend of \$0.2050 will be paid on October 31, 2016, to shareholders of record at the close of business on October 10, 2016. This dividend represents an increase of 1.2% and is the 31st consecutive annual increase in dividends.

Off-Balance Sheet Arrangements

The Company does not have material off-balance sheet arrangements. The Company is not aware of factors that are reasonably likely to adversely affect liquidity trends, other than the risk factors described in this and other Company filings. However, the following additional information is provided to assist those reviewing the Company's financial statements.

Operating Leases — The leases generally are entered into for investments in facilities such as manufacturing facilities, warehouses and office space, computer equipment and Company vehicles.

Purchase Commitments — The Company has purchase commitments for materials, supplies, services, and property, plant and equipment as part of the ordinary conduct of its business. In the aggregate, such commitments are not in excess of current market prices and are not material to the financial position of the Company. Due to the proprietary nature of many of the Company's materials and processes, certain supply contracts contain penalty provisions for early termination. The Company does not believe a material amount of penalties will be incurred under these contracts based upon historical experience and current expectations.

Other Contractual Obligations — The Company does not have material financial guarantees or other contractual commitments that are reasonably likely to adversely affect liquidity.

Payments Due Under Contractual Obligations

The Company's future commitments at July 31, 2016, for long-term debt, operating lease obligations, purchase obligations, interest obligations, tax obligations and other obligations are as follows (dollars in thousands):

| Contractual Obligations | Payments Due by Period | | | | | |
|-----------------------------|------------------------|---------------------|--------------|--------------|-------------------------|------------------------|
| | Total | Less than 1 Year | 1-3 Years | 3-5 Years | More than 5 Years | Uncertain Timeframe |
| Long-term Debt Obligations | \$211,982 | \$49,794 | \$— | \$162,188 | \$— | \$— |
| Operating Lease Obligations | 74,768 | 16,243 | 27,125 | 15,903 | 15,497 | — |

(1) Purchase obligations include all open purchase orders as of July 31, 2016.

Other obligations represent expected payments under the Company's U.S. postretirement medical plan and (2) international pension plans as disclosed in Note 4 to the Consolidated Financial Statements, under Item 8 of this report.

Table of Contents

Inflation and Changing Prices

Essentially all of the Company's revenue is derived from the sale of its products and services in competitive markets. Because prices are influenced by market conditions, it is not always possible to fully recover cost increases through pricing. Changes in product mix from year to year, timing differences in instituting price changes, and the large amount of part numbers make it impracticable to accurately define the impact of inflation on profit margins.

Critical Accounting Estimates

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company bases these estimates and judgments on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and judgments.

The Company believes the following accounting estimates are most critical to an understanding of its financial statements. Estimates are considered to be critical if they meet both of the following criteria: (1) the estimate requires assumptions about material matters that are uncertain at the time the accounting estimates are made, and (2) material changes in the estimates are reasonably likely from period to period. For a detailed discussion on the application of these and other accounting estimates, refer to Note 1 to the Company's Consolidated Financial Statements.

Income Taxes

We operate in numerous taxing jurisdictions and are subject to regular examinations by U.S. federal, state and non-U.S. taxing authorities. Our income tax positions are based on research and interpretations of the income tax laws and rulings in each of the jurisdictions in which we do business. Due to the ambiguity of laws and rulings in each jurisdiction, the differences and interplay in tax laws between those jurisdictions, the uncertainty of how underlying facts may be construed and the inherent uncertainty in estimating the final resolution of complex tax audit matters, our estimates of income tax liabilities may differ from actual payments or assessments.

While we have support for the positions we take on our tax returns, taxing authorities may assert interpretations of laws and facts and may challenge cross-jurisdictional transactions. The Company generally re-evaluates the technical merits of its tax positions and recognizes an uncertain tax benefit when (i) there is completion of a tax audit; (ii) there is a change in applicable tax law including a tax case ruling or legislative guidance; or (iii) there is an expiration of the statute of limitations. The gross liability for unrecognized tax benefits, excluding interest and penalties, was \$15.3 million and \$21.1 million as of July 31, 2016 and 2015, respectively, of which the entire amount would reduce our effective income tax rate if recognized. Accrued interest and penalties related to unrecognized tax benefits were \$4.3 million and \$4.2 million at July 31, 2016 and 2015, respectively. We recognize interest and penalties related to unrecognized tax benefits in income tax expense (benefit) on the Consolidated Statement of Earnings. We believe it is reasonably possible that the amount of gross unrecognized tax benefits could be reduced by up to \$3.9 million in the next twelve months as a result of the resolution of worldwide tax matters, tax audit settlements, amended tax filings, and/or statute expirations, which would be the maximum amount that would be recognized through the Consolidated Statements of Earnings as an income tax benefit.

We recorded a valuation allowance for a portion of our deferred tax assets related to net operating loss and tax credit carryforwards ("carryforwards") and certain temporary differences in the amount of \$38.0 million at July 31, 2016, and \$39.9 million at July 31, 2015, based on the projected profitability of the entity in the respective tax jurisdiction. The valuation allowance is based on an evaluation of the uncertainty that the carryforwards and certain temporary differences will be realized. Our income would increase if we determine we will be able to use more carryforwards or certain temporary differences than currently expected. Conversely, our income would decrease if we determine we are unable to realize our deferred tax assets in the future.

The Company does not provide for U.S. deferred taxes on cumulative earnings of non-U.S. affiliates and associated companies that have been reinvested indefinitely. As of July 31, 2016, we have not provided U.S. deferred taxes for \$259.3 million of such earnings, since these earnings have been, and under current plans will continue to be, permanently reinvested outside the U.S. At July 31, 2016, approximately \$139.7 million of the Company's cash and

cash equivalents were held outside the United States.

Table of Contents

Goodwill and Other Indefinite-lived Intangible Assets

The allocation of purchase price for business combinations requires management estimates and judgment as to expectations for future cash flows of the acquired business and the allocation of those cash flows to identifiable intangible assets in determining the estimated fair value for purchase price allocation purposes. If the actual results differ from the estimates and judgments used in these estimates, the amounts recorded in the financial statements could result in a possible impairment of the intangible assets and goodwill or require acceleration of the amortization expense of finite-lived intangible assets. In addition, accounting guidance requires that goodwill and other indefinite-lived intangible assets be tested at least annually for impairment. If circumstances or events prior to the date of the required annual assessment indicate that, in management's judgment, it is more likely than not that there has been a reduction of fair value of a reporting unit below its carrying value, the Company performs an impairment analysis at the time of such circumstance or event. Changes in management's estimates or judgments could result in an impairment charge, and such a charge could have an adverse effect on the Company's financial condition and results of operations.

The Company has identified six reporting units within its two reportable segments, IDS and WPS, with the following goodwill balances as of July 31, 2016: IDS Americas & Europe, \$291.4 million; PeopleID, \$93.2 million; and WPS Europe, \$45.3 million. The IDS APAC, WPS Americas, and WPS APAC reporting units each have a goodwill balance of zero. Brady continues to believe that the discounted cash flow model and market multiples model provide a reasonable and meaningful fair value estimate based upon the reporting units' projections of future operating results and cash flows and replicates how market participants would value the Company's reporting units. The projections of future operating results, which are based on both past performance and the projections and assumptions used in the Company's current and long range operating plans, are subject to change as a result of changing economic and competitive conditions. Significant estimates used by management in the discounted cash flows methodology include estimates of future cash flows based on expected growth rates, price increases, fluctuations in gross profit margins and SG&A expense as a percentage of sales, capital expenditures, working capital levels, income tax rates, and a weighted-average cost of capital that reflects the specific risk profile of the reporting unit being tested. Significant negative industry or economic trends, disruptions to the Company's business, loss of significant customers, inability to effectively integrate acquired businesses, unexpected significant changes or planned changes in use of the assets or in entity structure, and divestitures may adversely impact the assumptions used in the valuations.

The Company completes its annual goodwill impairment analysis on May 1st of each fiscal year and evaluates its reporting units for potential triggering events on a quarterly basis in accordance with ASC 350, "Intangibles - Goodwill and Other." In addition to the metrics listed above, the Company considers multiple internal and external factors when evaluating its reporting units for potential impairment, including (a) U.S. GDP growth, (b) industry and market factors such as competition and changes in the market for the reporting unit's products, (c) new product development, (d) hospital admission rates, (e) competing technologies, (f) overall financial performance such as cash flows, actual and planned revenue and profitability, and (g) changes in the strategy of the reporting unit. In the event the fair value of a reporting unit is less than the carrying value, including goodwill, the Company would then perform an additional assessment that would compare the implied fair value of goodwill with the carrying amount of goodwill. The determination of the implied fair value of goodwill would require management to compare the fair value of the reporting unit to the estimated fair value of the assets and liabilities of the reporting unit. If necessary, the Company may consult valuation specialists to assist with the assessment of the estimated fair value of assets and liabilities for the reporting unit. If the implied fair value of the goodwill is less than the carrying value, an impairment charge would be recorded.

The Company considers a reporting unit's fair value to be substantially in excess of its carrying value at 20% or greater. The annual impairment testing performed on May 1, 2016, in accordance with ASC 350, "Intangibles - Goodwill and Other" ("Step One") indicated that all of the reporting units passed Step One of the goodwill impairment

test as each had a fair value substantially in excess of its carrying value.

Other Indefinite-Lived Intangible Assets

Other indefinite-lived intangible assets were analyzed in accordance with the Company's policy outlined above using the income approach. The valuation was based upon current sales projections and profitability for each asset group, and the relief from royalty method was applied. As a result of the analysis, all assets had a fair value in excess of carrying value.

New Accounting Standards

The information required by this Item is provided in Note 1 of the Notes to Consolidated Financial Statements contained in Item 8 — Financial Statements and Supplementary Data.

Table of Contents

Forward-Looking Statements

In this annual report on Form 10-K, statements that are not reported financial results or other historic information are “forward-looking statements.” These forward-looking statements relate to, among other things, the Company's future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations.

The use of words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or terminology are generally intended to identify forward-looking statements. These forward-looking statements by their nature address matters that are, to different degrees, uncertain and are subject to risks, assumptions, and other factors, some of which are beyond Brady's control, that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. For Brady, uncertainties arise from:

- Brady's ability to compete effectively or to successfully execute our strategy
- Brady's ability to develop technologically advanced products that meet customer demands
- Difficulties in protecting our websites, networks, and systems against security breaches
- Deterioration or instability in the global economy and financial markets
- Decreased demand for the Company's products
- Brady's ability to retain large customers
- Risks associated with the loss of key employees
- Brady's ability to execute facility consolidations and maintain acceptable operational service metrics
- Extensive regulations by U.S. and non-U.S. governmental and self regulatory entities
- Litigation, including product liability claims
- Divestitures and contingent liabilities from divestitures
- Brady's ability to properly identify, integrate, and grow acquired companies
- Foreign currency fluctuations
- Potential write-offs of Brady's substantial intangible assets
- Changes in tax legislation and tax rates
- Differing interests of voting and non-voting shareholders
- Brady's ability to meet certain financial covenants required by our debt agreements.

Numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive, and regulatory nature contained from time to time in Brady's U.S. Securities and Exchange Commission filings, including, but not limited to, those factors listed in the “Risk Factors” section within Item 1A of Part I of this Form 10-K.

These uncertainties may cause Brady's actual future results to be materially different than those expressed in its forward-looking statements. Brady does not undertake to update its forward-looking statements except as required by law.

Risk Factors

Refer to the information contained in Item 1A - Risk Factors.

Table of Contents

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company's business operations give rise to market risk exposure due to changes in foreign exchange rates. To manage that risk effectively, the Company enters into hedging transactions according to established guidelines and policies that enable it to mitigate the adverse effects of this financial market risk.

The global nature of the Company's business requires active participation in the foreign exchange markets. As a result of investments, production facilities and other operations on a global scale, the Company has assets, liabilities and cash flows in currencies other than the U.S. dollar. The objective of the Company's foreign currency exchange risk management is to minimize the impact of currency movements on non-functional currency transactions. To achieve this objective, the Company hedges a portion of known exposures using forward contracts. Main exposures are related to transactions denominated in the British Pound, the Euro, Canadian dollar, Australian dollar, Mexican Peso, and Singapore dollar. As of July 31, 2016, the notional amount of outstanding forward foreign exchange contracts designated as cash flow hedges was \$34.5 million. The Company uses Euro-denominated debt of €75.0 million and British Pound-denominated intercompany debt of £25.0 million designated as hedge instruments to hedge portions of the Company's net investments in its Euro and British Pound denominated foreign operations. The Company's revolving credit facility allows it to borrow up to \$150.0 million in currencies other than U.S. dollars under an alternative currency sub-limit. The Company has periodically borrowed funds in Euro and British Pounds under this sub-limit. Debt issued in currencies other than U.S. dollars acts as a natural hedge to the Company's exposure to the associated currency.

The Company also faces exchange rate risk from transactions with customers in countries outside the United States and from intercompany transactions between affiliates. Although the Company has a U.S. dollar functional currency for reporting purposes, it has manufacturing sites throughout the world and a significant portion of its sales are generated in foreign currencies. Costs incurred and sales recorded by subsidiaries operating outside of the United States are translated into U.S. dollars using exchange rates effective during the respective period. As a result, the Company is exposed to movements in the exchange rates of various currencies against the U.S. dollar. In particular, the Company has more sales in European currencies than it has expenses in those currencies. Therefore, when European currencies strengthen or weaken against the U.S. dollar, operating profits are increased or decreased, respectively.

Currency exchange rates decreased fiscal 2016 sales by 3.7% compared to fiscal 2015 as the U.S. dollar appreciated, on average, against other major currencies throughout the year. The most significant impact on sales due to currency fluctuations occurred during the first half of fiscal 2016, as sales declined by 6.6% and 5.4% in the first and second quarters, respectively, as compared to the same periods in the prior year.

The Company is subject to the risk of change in foreign currency exchange rates due to its operations in foreign countries. The Company has manufacturing facilities and sells and distributes its products throughout the world. As a result, the Company's financial results could be significantly affected by factors such as changes in foreign currency exchange rates or weak economic conditions in the foreign markets in which the Company manufactures, distributes and sells its products. The Company's operating results are principally exposed to changes in exchange rates between the U.S. dollar and the Euro, the Australian dollar, the Canadian dollar, the Mexican Peso, the Singapore dollar, the British Pound, the Brazilian Real, and the Chinese Yuan. Changes in foreign currency exchange rates for the Company's foreign subsidiaries reporting in local currencies are generally reported as a component of stockholders' investment. The Company's currency translation adjustment recorded in fiscal 2016, 2015, and 2014 as a separate component of stockholders' investment was \$1.4 million unfavorable, \$120.3 million unfavorable, and \$7.5 million favorable, respectively. As of July 31, 2016 and 2015, the Company's foreign subsidiaries had net current assets (defined as current assets less current liabilities) subject to foreign currency translation risk of \$207.7 million and \$258.5 million, respectively. The potential decrease in net current assets as of July 31, 2016, from a hypothetical 10 percent adverse change in quoted foreign currency exchange rates would be approximately \$20.8 million. This sensitivity analysis assumes a parallel shift in all major foreign currency exchange rates versus the U.S. dollar. Exchange rates rarely move in the same direction relative to the U.S. dollar due to positive and negative correlations of the various global currencies. This assumption may overstate the impact of changing exchange rates on individual

assets and liabilities denominated in a foreign currency.

The Company could be exposed to interest rate risk through its corporate borrowing activities. The objective of the Company's interest rate risk management activities is to manage the levels of the Company's fixed and floating interest rate exposure to be consistent with the Company's preferred mix. The interest rate risk management program allows the Company to enter into approved interest rate derivatives if there is a desire to modify the Company's exposure to interest rates. As of July 31, 2016, the Company had no interest rate derivatives. The Company had variable rate debt outstanding of \$116.9 million at a current weighted average interest rate of 1.4%. A hypothetical change in the interest rate of 10% from the Company's current weighted average interest rate on variable rate debt obligations of 1.4% would not have a material impact on the Company's interest expense.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Brady Corporation
Milwaukee, Wisconsin

We have audited the accompanying consolidated balance sheets of Brady Corporation and subsidiaries (the "Company") as of July 31, 2016 and 2015, and the related consolidated statements of earnings, comprehensive income (loss), stockholders' investment, and cash flows for each of the three years in the period ended July 31, 2016. Our audits also included the financial statement schedule listed in the Index at Item 15. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Brady Corporation and subsidiaries at July 31, 2016 and 2015, and the results of their operations and their cash flows for each of the three years in the period ended July 31, 2016, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of July 31, 2016, based on the criteria established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated September 15, 2016, expressed an unqualified opinion on the Company's internal control over financial reporting.

BRADY CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Years Ended July 31, 2016, 2015 and 2014

(In thousands, except share and per share amounts)

1. Summary of Significant Accounting Policies

Nature of Operations — Brady Corporation is a global manufacturer and supplier of identification solutions and workplace safety products that identify and protect premises, products and people. The ability to provide customers with a broad range of proprietary, customized, and diverse products for use in various applications, along with a commitment to quality and service, a global footprint, and multiple sales channels, have made Brady a world leader in many of its markets.

Principles of Consolidation — The accompanying consolidated financial statements include the accounts of Brady Corporation and its subsidiaries (“Brady” or the “Company”), all of which are wholly-owned. All intercompany accounts and transactions have been eliminated in consolidation.

Discontinued Operations — The results of operations of the Die-Cut businesses have been reported as discontinued operations for the years ended July 31, 2015 and 2014. There were no assets held for sale at July 31, 2016 or July 31, 2015 as the second and final phase of the Die-Cut sale closed in the first quarter of fiscal 2015. In accordance with the authoritative literature, the Company has elected to not separately disclose the cash flows related to discontinued operations. See Note 13 for additional information about the Company's discontinued operations.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events — On September 8, 2016, the Company announced an increase in the annual dividend to shareholders of the Company's Class A Common Stock, from \$0.81 to \$0.82 per share. A quarterly dividend of \$0.2050 will be paid on October 31, 2016, to shareholders of record at the close of business on October 10, 2016. This dividend represents an increase of 1.2% and is the 31st consecutive annual increase in dividends.

Fair Value of Financial Instruments — The Company believes the carrying amount of its financial instruments (cash and cash equivalents, accounts receivable and accounts payable) is a reasonable estimate of the fair value of these instruments due to their short-term nature. See Note 6 for more information regarding the fair value of long-term debt and Note 11 for fair value measurements.

Cash Equivalents — The Company considers all highly liquid investments with original maturities of three months or less when acquired to be cash equivalents, which are recorded at cost.

Accounts Receivables — Accounts receivables are stated net of allowances for doubtful accounts of \$5,144 and \$3,585 as of July 31, 2016 and 2015, respectively. No single customer comprised more than 10% of the Company's consolidated net sales in fiscal 2016, 2015 or 2014, or 10% of the Company's consolidated accounts receivable as of July 31, 2016 or 2015. Specific customer provisions are made during review of significant outstanding amounts, in which customer creditworthiness and current economic trends may indicate that collection is doubtful. In addition, provisions are made for the remainder of accounts receivable based upon the age of the receivable and the Company's historical collection experience.

Inventories — Inventories are stated at the lower of cost or market. Cost has been determined using the last-in, first-out (“LIFO”) method for certain domestic inventories (14.0% of total inventories at July 31, 2016, and 12.7% of total inventories at July 31, 2015) and the first-in, first-out (“FIFO”) or average cost methods for other inventories. Had all domestic inventories been accounted for on a FIFO basis instead of on a LIFO basis, the carrying value of inventories would have increased by \$6,929 and \$7,346 as of July 31, 2016 and 2015, respectively.

Goodwill — Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The Company completes impairment reviews for its reporting units using a fair-value method based on management's judgments and assumptions. The fair value represents the amount at which

a reporting unit could be bought or sold in a current transaction between market participants on an arms-length basis. In estimating the fair value, the Company utilizes a discounted cash flow model and market multiples approach. The estimated fair value is compared with the carrying amount of the reporting unit, including goodwill. The annual impairment testing performed on May 1, 2016, in accordance with ASC 350, "Intangibles - Goodwill and Other" ("Step One") indicated that all reporting units with remaining goodwill had a fair

Table of Contents

value substantially in excess of its carrying value. No goodwill impairment charges were recorded during the year ended July 31, 2016.

Long-Lived and Other Intangible Assets — The cost of intangible assets with determinable useful lives is amortized to reflect the pattern of economic benefits consumed on a straight-line basis, over the estimated periods benefited. Intangible assets with indefinite useful lives as well as goodwill are not subject to amortization. These assets are assessed for impairment annually or more frequently as deemed necessary.

The Company evaluates whether events and circumstances have occurred that indicate the remaining estimated useful life of long-lived and other finite-lived intangible assets may warrant revision or that the remaining balance of an asset may not be recoverable. If impairment is determined to exist, any related impairment loss is calculated by comparing the fair value of the asset to its carrying value. In fiscal 2016, long-lived and other intangible assets were analyzed for potential impairment. As a result of the analysis, no impairment charges were recorded. Refer to Note 2, "Goodwill and Other Intangible Assets" for further information.

Property, Plant, and Equipment — Property, plant, and equipment are recorded at cost. The cost of buildings and improvements and machinery and equipment is being depreciated over their estimated useful lives using primarily the straight-line method for financial reporting purposes. The estimated useful lives range from 3 to 33 years as shown below.

| Asset Category | Range of Useful Lives |
|--------------------------|-----------------------|
| Buildings & Improvements | 10 to 33 Years |
| Computer Systems | 5 Years |
| Machinery & Equipment | 3 to 10 Years |

Fully depreciated assets are retained in property and accumulated depreciation accounts until disposal. Upon disposal, assets and related accumulated depreciation are removed from the accounts and the net amount, less proceeds from disposal, is charged or credited to operations. Leasehold improvements are depreciated over the shorter of the lease term or the estimated useful life of the respective asset. Depreciation expense was \$23,375, \$27,355, and \$26,727 for the years ended July 31, 2016, 2015 and 2014, respectively.

Catalog Costs and Related Amortization — The Company accumulates all direct costs incurred, net of vendor cooperative advertising payments, in the development, production, and circulation of its catalogs on its balance sheet until such time as the related catalog is mailed. The catalog costs are subsequently amortized into selling, general, and administrative expense over the expected sales realization cycle, which is one year or less. Consequently, any difference between the estimated and actual revenue stream for a particular catalog and the related impact on amortization expense is realized within a period of one year or less. The estimate of the expected sales realization cycle for a particular catalog is based on the Company's historical sales experience with identical or similar catalogs, and an assessment of prevailing economic conditions and various competitive factors. The Company tracks subsequent sales realization, reassesses the marketplace, and compares its findings to the previous estimate, and adjusts the amortization of future catalogs, if necessary. At July 31, 2016 and 2015, \$8,290 and \$9,547, respectively, of prepaid catalog costs were included in prepaid expenses and other current assets.

Revenue Recognition — Revenue is recognized when it is both earned and realized or realizable. The Company's policy is to recognize revenue when title to the product and risk of loss have transferred to the customer, persuasive evidence of an arrangement exists, and collection of the sales proceeds is reasonably assured, all of which generally occur upon shipment of goods to customers. The majority of the Company's revenue relates to the sale of inventory to customers, and revenue is recognized when title and the risks and rewards of ownership pass to the customer. Given the nature of the Company's business and the applicable rules guiding revenue recognition, the Company's revenue recognition practices do not contain estimates that materially affect the results of operations, with the exception of estimated returns and credit memos. The Company provides for an allowance for estimated product returns and credit memos

which is recognized as a deduction from sales at the time of the sale. As of July 31, 2016 and 2015, the Company had a reserve for estimated product returns and credit memos of \$3,713 and \$3,619, respectively.

Sales Incentives — The Company accounts for cash consideration (such as sales incentives and cash discounts) given to its customers or resellers as a reduction of revenue rather than an operating expense. Sales incentives for the years ended July 31, 2016, 2015, and 2014 were \$36,084, \$36,591, and \$36,175, respectively.

Shipping and Handling Fees and Costs — Amounts billed to a customer in a sale transaction related to shipping and handling fees are reported as net sales and the related costs incurred for shipping and handling are reported as cost of goods sold.

Table of Contents

Advertising Costs — Advertising costs are expensed as incurred, except catalog and mailing costs as outlined previously. Advertising expense for the years ended July 31, 2016, 2015, and 2014 was \$74,204, \$86,090, and \$82,561, respectively.

Stock-Based Compensation — The Company has an incentive stock plan under which the Board of Directors may grant nonqualified stock options to purchase shares of Class A Nonvoting Common Stock, restricted stock unit awards ("RSUs"), or restricted and unrestricted shares of Class A Nonvoting Common Stock to employees and non-employee directors.

The options issued under the plan have an exercise price equal to the fair market value of the underlying stock at the date of grant. Restricted shares and RSUs issued under the plan have an issuance price equal to the fair market value of the underlying stock at the date of grant. The Company also grants restricted shares and RSUs to certain executives and key management employees that vest upon meeting certain financial performance conditions.

In accordance with ASC 718 "Compensation - Stock Compensation," the Company measures and recognizes the compensation expense for all share-based awards made to employees and directors based on estimated grant-date fair values. The Black-Scholes option valuation model is used to determine the fair value of stock option awards on the date of grant. The Company recognizes the compensation cost of all share-based awards at the time it is deemed probable the award will vest. This cost is recognized on a straight-line basis over the vesting period of the award. If it is determined that it is unlikely the award will vest, the expense recognized to date for the award is reversed in the period in which this is evident and the remaining expense is not recorded.

The Black-Scholes model requires the use of assumptions which determine the fair value of stock-based awards. The Company uses historical data regarding stock option exercise behaviors to estimate the expected term of options granted based on the period of time that options granted are expected to be outstanding. Expected volatilities are based on the historical volatility of the Company's stock. The expected dividend yield is based on the Company's historical dividend payments and historical yield. The risk-free interest rate is based on the U.S. Treasury yield curve in effect on the grant date for the length of time corresponding to the expected term of the option. The market value is calculated as the average of the high and the low stock price on the date of the grant.

The Company includes as part of cash flows from financing activities the benefits of tax deductions in excess of the tax-effected compensation of the related stock-based awards for options exercised and restricted shares and RSUs vested during the period. See Note 7 "Stockholder's Investment" for more information regarding the Company's incentive stock plans.

Research and Development — Amounts expended for research and development are expensed as incurred.

Other Comprehensive Income — Other comprehensive income consists of foreign currency translation adjustments, net unrealized gains and losses from cash flow hedges and net investment hedges, and the unamortized gain on the post-retirement medical plans net of their related tax effects.

Foreign Currency Translation — Foreign currency assets and liabilities are translated into United States dollars at end of period rates of exchange, and income and expense accounts are translated at the weighted average rates of exchange for the period. Resulting translation adjustments are included in other comprehensive income.

Risk Management Activities — The Company does not hold or issue derivative financial instruments for trading purposes.

Income Taxes — The Company accounts for income taxes in accordance with ASC 740 "Income Taxes", which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities. The Company

recognizes the effect of income tax positions only if sustaining those positions is more likely than not. Changes in recognition or measurement are reflected in the period in which a change in judgment occurs.

Foreign Currency Hedging — The objective of the Company's foreign currency exchange risk management is to minimize the impact of currency movements on non-functional currency transactions and minimize the foreign currency translation impact on the Company's foreign operations. While the Company's risk management objectives and strategies are driven from an economic perspective, the Company attempts, where possible and practical, to ensure that the hedging strategies it engages in qualify for hedge accounting and result in accounting treatment where the earnings effect of the hedging instrument provides substantial offset (in the same period) to the earnings effect of the hedged item. Generally, these risk management transactions will involve the use

Table of Contents

of foreign currency derivatives to protect against exposure resulting from transactions in a currency differing from the respective functional currency.

The Company recognizes derivative instruments as either assets or liabilities in the accompanying Consolidated Balance Sheets at fair value. Changes in the fair value (i.e., gains or losses) of the derivatives are recorded in the accompanying Consolidated Statements of Earnings as "Investment and other income (expense) - net" or as a component of Accumulated Other Comprehensive Income ("AOCI") in the accompanying Consolidated Balance Sheets and in the Consolidated Statements of Comprehensive Income (Loss), as discussed below.

The Company utilizes forward foreign exchange currency contracts to reduce the exchange rate risk of specific foreign currency denominated transactions. These contracts typically require the exchange of a foreign currency for U.S. dollars at a fixed rate at a future date, with maturities of less than 18 months. These instruments may or may not qualify as hedges under the accounting guidance for derivative instruments and hedging activities based upon the intended objective of the contract. Hedge effectiveness is determined by how closely the changes in the fair value of the hedging instrument offset the changes in the fair value or cash flows of the hedged item. Hedge accounting is permitted only if the hedging relationship is expected to be highly effective at the inception of the hedge and on an on-going basis. Gains or losses on the derivative related to hedge ineffectiveness are recognized in current earnings. The amount of hedge ineffectiveness was not material for the fiscal years ended July 31, 2016, 2015, and 2014.

The Company has designated a portion of its foreign exchange contracts as cash flow hedges. For these instruments, the effective portion of the gain or loss on the derivative is reported as a component of AOCI and in the cash flow hedge section of the Consolidated Statements of Comprehensive Loss, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

The Company has designated a portion of its foreign exchange contracts as net investment hedges of the Company's net investments in foreign operations. The Company also utilizes Euro-denominated debt and British Pound-denominated intercompany loans designated as hedge instruments to hedge portions of the Company's net investments in Euro and British- Pound denominated foreign operations. For net investment hedges that meet the effectiveness requirements, the net gains or losses attributable to changes in spot exchange rates are recorded as cumulative translation within AOCI and are included in the net investment hedge section of the Consolidated Statements of Comprehensive Income (Loss). Any ineffective portions are to be recognized in earnings. Recognition in earnings of amounts previously recorded in cumulative translation is limited to circumstances such as complete or substantially complete liquidation of the net investment in the hedged foreign operation.

The Company also enters into foreign exchange contracts to create economic hedges to manage foreign exchange risk exposure. The Company has not designated these derivative contracts as hedge transactions, and accordingly, the mark-to-market impact of these derivatives is recorded each period in current earnings.

See Note 12 "Derivatives and Hedging Activities" for more information regarding the Company's derivative instruments and hedging activities.

New Accounting Standards — In March 2016, the FASB issued ASU 2016-09, "Stock Compensation: Improvements to Employee Share-Based Payment Accounting," which will simplify several aspects of accounting for share-based payment transactions. The update will require, among other items, that all excess tax deficiencies or benefits be recorded as income tax expense or benefit in the statement of earnings, and not in additional paid-in capital (APIC). This guidance is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption of the ASU is permitted and the prospective transition method should be applied. The Company is currently evaluating the impact of this update on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "Leases," which replaces the current lease accounting standard. The update will require, among other items, lessees to recognize the assets and liabilities that arise from most leases on the balance sheet. This guidance is effective for annual periods beginning after December 15, 2018, and interim

periods within those annual periods. The ASU must be adopted using a modified retrospective approach and early adoption is permitted. The Company is currently evaluating the impact of this update on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which eliminates the transaction-and industry-specific revenue recognition guidance under current GAAP and replaces it with a principles-based approach for determining revenue recognition. The new guidance requires revenue recognition when control of the goods or services transfers to the customer, replacing the existing guidance which requires revenue recognition when the risks and rewards transfer to the customer. Under the new guidance, companies should recognize revenues in amounts that reflect the payment to which a company expects to be entitled in exchange for those goods or services.

Table of Contents

In March 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers - Principal versus Agent Considerations (Reporting Revenue Gross versus Net)", which amends the principal-versus-agent implementation guidance in ASU 2014-09. ASU 2016-08 clarifies the principal-versus-agent guidance in ASU 2014-09 and requires an entity to determine whether the nature of its promise to provide goods or services to a customer is performed in a principal or agent capacity and to recognize revenue in a gross or net manner based on that designation.

In May 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers - Narrow-Scope Improvements and Practical Expedients", which amends the transition, collectability, and non-cash consideration guidance in ASU 2014-09. ASU 2016-12 clarifies that, for a contract to be considered completed at transition, substantially all of the revenue must have been recognized under legacy GAAP. The amendments also clarify how an entity should evaluate the collectability threshold and when an entity can recognize nonrefundable consideration received as revenue if an arrangement does not meet the standard's contract criteria.

ASU 2014-09 (and related updates) is effective for the Company beginning in fiscal 2019. Entities have the option of using either a full retrospective or a modified retrospective approach for the adoption of the standard. The Company is currently evaluating the impact of this update on its consolidated financial statements.

2. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill by reportable segment for the years ended July 31, 2016 and 2015, were as follows:

| | IDS | WPS | Total |
|-----------------------------|-----------|-----------|-----------|
| Balance as of July 31, 2014 | \$412,289 | \$102,715 | \$515,004 |
| Impairment charge | — | (37,112) | (37,112) |
| Translation adjustments | (29,503) | (15,190) | (44,693) |
| Balance as of July 31, 2015 | \$382,786 | \$50,413 | \$433,199 |
| Translation adjustments | 1,743 | (5,071) | (3,328) |
| Balance as of July 31, 2016 | \$384,529 | \$45,342 | \$429,871 |

Goodwill at July 31, 2016 and 2015 included \$118,637 and \$209,392 of accumulated impairment losses within the IDS and WPS segments, respectively, for a total of \$328,029. There were no impairment charges recorded during fiscal 2016. The decrease of \$3,328 in the carrying amount of goodwill as of July 31, 2016 compared to July 31, 2015 was due to the effect of currency fluctuations during the fiscal year.

The annual impairment testing performed on May 1, 2016, in accordance with ASC 350, "Intangibles - Goodwill and Other" ("Step One") indicated that all of the reporting units with remaining goodwill (IDS Americas & Europe, PeopleID, and WPS Europe) passed Step One of the goodwill impairment test as each had a fair value substantially in excess of its carrying value.

During fiscal 2015, goodwill with carrying amounts of \$26,246 and \$10,866 in the WPS APAC and WPS Americas reporting units, respectively, was written off entirely, resulting in impairment charges of \$37,112.

Table of Contents

Other Intangible Assets

Other intangible assets include patents, tradenames, customer relationships, non-compete agreements and other intangible assets with finite lives being amortized in accordance with the accounting guidance for other intangible assets. The net book value of these assets was as follows:

| | July 31, 2016 | | | | July 31, 2015 | | | |
|--------------------------------------|--|-----------------------|--------------------------|----------------|--|-----------------------|--------------------------|----------------|
| | Weighted Average Amortization Period (Years) | Gross Carrying Amount | Accumulated Amortization | Net Book Value | Weighted Average Amortization Period (Years) | Gross Carrying Amount | Accumulated Amortization | Net Book Value |
| Amortized other intangible assets: | | | | | | | | |
| Patents | 5 | \$12,252 | \$(11,063) | \$1,189 | 5 | \$12,073 | \$(10,641) | \$1,432 |
| Tradenames and other | 5 | 14,359 | (13,709) | 650 | 5 | 14,375 | (12,471) | 1,904 |
| Customer relationships | 7 | 135,795 | (100,830) | 34,965 | 7 | 136,693 | (94,537) | 42,156 |
| Non-compete agreements and other | 4 | 9,153 | (9,142) | 11 | 4 | 9,076 | (9,032) | 44 |
| Unamortized other intangible assets: | | | | | | | | |
| Tradenames | N/A | 22,991 | — | 22,991 | N/A | 23,352 | — | 23,352 |
| Total | | \$194,550 | \$(134,744) | \$59,806 | | \$195,569 | \$(126,681) | \$68,888 |

The decrease in the gross carrying amount of other intangible assets as of July 31, 2016 compared to July 31, 2015 was primarily due to the effect of currency fluctuations during the year.

In fiscal 2015, tradenames and customer relationships primarily associated with the WPS APAC and WPS Americas reporting units were written down to fair value. As a result, the Company recognized impairment charges of \$6,651 during fiscal 2015.

Amortization expense on intangible assets during fiscal 2016, 2015, and 2014 was \$9,056, \$12,103 and \$17,871, respectively. The amortization over each of the next five fiscal years is projected to be \$7,068, \$6,379, \$6,101, \$5,581 and \$5,534 for the fiscal years ending July 31, 2017, 2018, 2019, 2020 and 2021, respectively.

3. Other Comprehensive (Loss) Income

Other comprehensive (loss) income consists of foreign currency translation adjustments, unrealized gains and losses from cash flow hedges and net investment hedges, and the unamortized gain on post-retirement plans, net of their related tax effects.

The following table illustrates the changes in the balances of each component of accumulated other comprehensive loss, net of tax, for the periods presented:

| | Unrealized gain (loss) on cash flow hedges | Gain on postretirement plans | Foreign currency translation adjustments | Accumulated other comprehensive (loss) income |
|---|--|------------------------------|--|---|
| Ending balance, July 31, 2014 | \$(12) | \$ 4,854 | \$ 59,314 | \$ 64,156 |
| Other comprehensive (loss) income before reclassification | 829 | 2,236 | (73,098) | (70,033) |
| Amounts reclassified from accumulated other comprehensive (loss) income | (808) | (3,652) | (34,697) | (39,157) |
| Ending balance, July 31, 2015 | \$ 9 | \$ 3,438 | \$(48,481) | \$(45,034) |

Edgar Filing: BRADY CORP - Form 10-K

| | | | | |
|---|-----------|----------|--------------|--------------|
| Other comprehensive (loss) income before reclassification | (986) | 445 | (7,643) | (8,184) |
| Amounts reclassified from accumulated other comprehensive (loss) income | 120 | (1,647) | — | (1,527) |
| Ending balance, July 31, 2016 | \$ (857) | \$ 2,236 | \$ (56,124) | \$ (54,745) |

The increase in accumulated other comprehensive loss as of July 31, 2016 compared to July 31, 2015, was primarily due to the appreciation of the U.S. dollar against certain other currencies during the twelve-month period. The foreign currency translation adjustments column in the table above includes foreign currency translation, foreign currency translation on intercompany notes and the impact of settlements of net investment hedges, net of tax. Of the total \$1,527 in amounts reclassified from AOCI, the

Table of Contents

\$120 loss on cash flow hedges was reclassified into cost of products sold, and the \$1,647 net gain on post-retirement plans was reclassified into SG&A on the Consolidated Statement of Earnings in fiscal 2016.

The following table illustrates the income tax (expense) benefit on the components of other comprehensive income:

| | 2016 | 2015 | 2014 |
|---|-----------|-----------|-----------|
| Income tax (expense) benefit related to items of other comprehensive (loss) income: | | | |
| Net investment hedge translation adjustments | \$(1,804) | \$(8,450) | \$302 |
| Long-term intercompany loan settlements | — | — | 579 |
| Cash flow hedges | 192 | (308) | 28 |
| Pension and other post-retirement benefits | 738 | 949 | (1,898) |
| Other income tax adjustments | (2,154) | (415) | (58) |
| Income tax expense related to items of other comprehensive (loss) income | \$(3,028) | \$(8,224) | \$(1,047) |

4. Employee Benefit Plans

The Company provides postretirement medical benefits (the “Plan”) for eligible regular full and part-time domestic employees (including spouses) who retired prior to January 1, 2016, as outlined by the Plan. Employer contributions to the plan are based on the employee’s age and service at retirement. The Plan was amended effective March 16, 2015 to eliminate postretirement medical benefits for eligible domestic employees retiring on or after January 1, 2016. This amendment resulted in a decrease in the accumulated postretirement benefit obligation of \$4,490 and recognition of a curtailment gain of \$4,296 in fiscal 2015. The curtailment gain was recorded in SG&A on the Consolidated Statements of Earnings.

The accounting guidance on defined benefit pension and other postretirement plans requires full recognition of the funded status of defined benefit and other postretirement plans on the balance sheet as an asset or a liability. The guidance also requires that unrecognized prior service costs/credits, gains/losses, and transition obligations/assets be recorded in AOCI, thus not changing the income statement recognition rules for such plans.

The Plan is unfunded and recorded as a liability in the accompanying Consolidated Balance Sheets as of July 31, 2016 and 2015. The following table provides a reconciliation of the changes in the Plan’s accumulated benefit obligation during the years ended July 31:

| | 2016 | 2015 |
|----------------------------------|---------|---------|
| Obligation at beginning of year | \$4,135 | \$8,056 |
| Service cost | 9 | 210 |
| Interest cost | 114 | 222 |
| Actuarial (gain) loss | (38) | 502 |
| Benefit payments | (420) | (365) |
| Plan amendments | — | (1,935) |
| Curtailment gain | — | (2,555) |
| Obligation at end of fiscal year | \$3,800 | \$4,135 |

As of July 31, 2016 and 2015, amounts recognized as liabilities in the accompanying Consolidated Balance Sheets consist of:

| | 2016 | 2015 |
|-----------------------|---------|---------|
| Current liability | \$499 | \$659 |
| Non-current liability | 3,301 | 3,476 |
| | \$3,800 | \$4,135 |

As of July 31, 2016 and 2015, pre-tax amounts recognized in accumulated other comprehensive loss in the accompanying Consolidated Balance Sheets consist of:

Table of Contents

| | | |
|----------------------|---------|---------|
| | 2016 | 2015 |
| Net actuarial gain | \$6,048 | \$6,655 |
| Prior service credit | — | 1,035 |
| | \$6,048 | \$7,690 |

Net periodic benefit (gain) cost for the Plan for fiscal years 2016, 2015, and 2014 includes the following components:

| | Years Ended July 31, | | |
|--|----------------------|-----------|--------|
| | 2016 | 2015 | 2014 |
| Net periodic postretirement benefit (gain) cost included the following components: | | | |
| Service cost | \$9 | \$210 | \$674 |
| Interest cost | 114 | 222 | 534 |
| Amortization of prior service credit | (1,035) | (1,169) | (203) |
| Amortization of net actuarial gain | (646) | (804) | (265) |
| Curtailed gain | — | (4,296) | — |
| Periodic postretirement benefit (gain) cost | \$(1,558) | \$(5,837) | \$740 |

The estimated net actuarial gain that will be amortized from accumulated other comprehensive income into net periodic postretirement benefit cost over the next fiscal year is \$544. No prior service credit remains due to the plan amendment to eliminate post-retirement benefits for employees retiring after January 1, 2016.

The following assumptions were used in accounting for the Plan:

| | 2016 | 2015 | 2014 |
|--|--------|--------|--------|
| Weighted average discount rate used in determining accumulated postretirement benefit obligation | 2.50 % | 3.00 % | 3.50 % |
| Weighted average discount rate used in determining net periodic benefit cost | 3.00 % | 3.41 % | 4.00 % |
| Assumed health care trend rate used to measure APBO at July 31 | 7.50 % | 7.00 % | 7.50 % |
| Rate to which cost trend rate is assumed to decline (the ultimate trend rate) | 5.50 % | 5.50 % | 5.50 % |
| Fiscal year the ultimate trend rate is reached | 2018 | 2018 | 2018 |

The discount rate utilized in preparing the accumulated postretirement benefit obligation liability was decreased to 2.50% in fiscal 2016 from 3.00% in fiscal 2015 as a result of a decrease in the bond yield as of the Company's measurement date of July 31, 2016.

A one-percentage point change in assumed health care cost trend rates would have the following effects on the Plan:

| | One-Percentage Point Increase | One-Percentage Point Decrease |
|--|-------------------------------|-------------------------------|
| Effect on future service and interest cost | \$ 3 | \$ (3) |
| Effect on accumulated postretirement benefit obligation at July 31, 2016 | 17 | (18) |

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid during the years ending July 31:

| | |
|-------------------|--------|
| 2017 | \$ 499 |
| 2018 | 449 |
| 2019 | 377 |
| 2020 | 359 |
| 2021 | 339 |
| 2022 through 2026 | 1,342 |

The Company sponsors defined benefit pension plans that are primarily unfunded and provide an income benefit upon termination or retirement for certain of its international employees. As of July 31, 2016 and 2015, the accumulated pension

Table of Contents

obligation related to these plans was \$7,120 and \$6,020, respectively. As of July 31, 2016 and 2015, pre-tax amounts recognized in accumulated other comprehensive loss in the accompanying Consolidated Balance Sheets were losses of \$1,161 and \$1,361, respectively. The net periodic benefit cost for these plans was \$795, \$724, and \$286 during the years ended July 31, 2016, 2015 and 2014, respectively.

The Company has retirement and profit-sharing plans covering substantially all full-time domestic employees and certain employees of its foreign subsidiaries. Contributions to the plans are determined annually or quarterly, according to the respective plans, based on earnings of the respective companies and employee contributions. Accrued retirement and profit-sharing contributions of \$3,380 and \$2,743 were included in other current liabilities on the accompanying Consolidated Balance Sheets as of July 31, 2016 and 2015, respectively. The amounts charged to expense for these retirement and profit sharing plans were \$10,407, \$9,912, and \$10,830 during the years ended July 31, 2016, 2015 and 2014, respectively.

The Company also has deferred compensation plans for directors, officers and key executives which are discussed below. At July 31, 2016 and 2015, \$18,758 and \$18,321, respectively, of deferred compensation was included in other long-term liabilities in the accompanying Consolidated Balance Sheets.

During fiscal 1998, the Company adopted a new deferred compensation plan that invests solely in shares of the Company's Class A Nonvoting Common Stock. Participants in a predecessor phantom stock plan were allowed to convert their balances in the old plan to this new plan. The new plan was funded initially by the issuance of shares of Class A Nonvoting Common Stock to a Rabbi Trust. All deferrals into the new plan result in purchases of Class A Nonvoting Common Stock by the Rabbi Trust. No deferrals are allowed into a predecessor plan. Shares held by the Rabbi Trust are distributed to participants upon separation from the Company as defined in the plan agreement. During fiscal 2002, the Company adopted a new deferred compensation plan for executives and non-employee directors that allows future contributions to be invested in shares of the Company's Class A Nonvoting Common Stock or in certain other investment vehicles. Prior deferred compensation deferrals must remain in the Company's Class A Nonvoting Common Stock. All participant deferrals into the new plan result in purchases of Class A Nonvoting Common Stock or certain other investment vehicles by the Rabbi Trust. Balances held by the Rabbi Trust are distributed to participants upon separation from the Company as defined in the plan agreement. On May 1, 2006, the plan was amended to require that deferrals into the Company's Class A Nonvoting Common Stock must remain in the Company's Class A Nonvoting Common Stock and be distributed in shares of the Company's Class A Nonvoting Common Stock. On May 21, 2014, the Director Deferred Compensation Plan was amended to allow participants to transfer funds from other investment funds into the Company's Class A Nonvoting Common Stock. Funds are not permitted to be transferred from the Company's Class A Nonvoting Common Stock into other investment funds until six months after the Director resigns from the Board. No such amendment was made to the Executive Deferred Compensation Plan.

5. Income Taxes

Earnings (loss) from continuing operations consists of the following:

| | Years Ended July 31, | | |
|---------------|----------------------|----------|-------------|
| | 2016 | 2015 | 2014 |
| United States | \$61,349 | \$(582) | \$(134,596) |
| Other Nations | 47,996 | 25,577 | 81,487 |
| Total | \$109,345 | \$24,995 | \$(53,109) |

Table of Contents

Income tax expense (benefit) from continuing operations consists of the following:

| | Years Ended July 31, | | |
|--|----------------------|------------|------------|
| | 2016 | 2015 | 2014 |
| Current income tax expense (benefit): | | | |
| United States | \$5,048 | \$9,075 | \$(1,137) |
| Other Nations | 19,929 | 18,806 | 19,513 |
| States (U.S.) | 1,348 | (352) | 1,090 |
| | \$26,325 | \$27,529 | \$19,466 |
| Deferred income tax expense (benefit): | | | |
| United States | \$3,946 | \$(5,906) | \$(22,754) |
| Other Nations | (1,387) | (1,868) | (1,803) |
| States (U.S.) | 351 | 338 | 128 |
| | \$2,910 | \$(7,436) | \$(24,429) |
| Total income tax expense (benefit) | \$29,235 | \$20,093 | \$(4,963) |

Deferred income taxes result from temporary differences in the recognition of revenues and expenses for financial statement and income tax purposes.

The approximate tax effects of temporary differences are as follows:

| | July 31, 2016 | | |
|--|---------------|-------------|-----------|
| | Assets | Liabilities | Total |
| Inventories | \$5,142 | \$(153) | \$4,989 |
| Prepaid catalog costs | — | (1,577) | (1,577) |
| Employee benefits | 6,347 | — | 6,347 |
| Accounts receivable | 1,619 | (15) | 1,604 |
| Fixed Assets | 2,847 | (2,695) | 152 |
| Intangible Assets | 1,144 | (31,777) | (30,633) |
| Capitalized R&D expenditures | 855 | — | 855 |
| Deferred compensation | 20,549 | — | 20,549 |
| Postretirement benefits | 4,152 | — | 4,152 |
| Tax credit carry-forwards and net operating losses | 56,790 | — | 56,790 |
| Less valuation allowance | (37,992) | — | (37,992) |
| Other, net | 10,918 | (15,173) | (4,255) |
| Total | \$72,371 | \$(51,390) | \$20,981 |

Table of Contents

| | July 31, 2015 | | |
|--|---------------|-------------|-----------|
| | Assets | Liabilities | Total |
| Inventories | \$4,387 | \$(197) | \$4,190 |
| Prepaid catalog costs | — | (2,179) | (2,179) |
| Employee benefits | 1,612 | — | 1,612 |
| Accounts receivable | 1,136 | (14) | 1,122 |
| Fixed Assets | 3,344 | (3,213) | 131 |
| Intangible Assets | 1,242 | (26,570) | (25,328) |
| Capitalized R&D expenditures | 1,140 | — | 1,140 |
| Deferred compensation | 19,549 | — | 19,549 |
| Postretirement benefits | 3,563 | — | 3,563 |
| Tax credit carry-forwards and net operating losses | 66,744 | — | 66,744 |
| Less valuation allowance | (39,922) | — | (39,922) |
| Other, net | 9,538 | (12,475) | (2,937) |
| Total | \$72,333 | \$(44,648) | \$27,685 |

In November 2015, the FASB issued new accounting guidance on the balance sheet classification of deferred taxes. The new guidance requires that all deferred taxes be presented as non-current on the Consolidated Balance Sheets. In the fourth quarter of fiscal 2016, the Company adopted this guidance and reclassified current deferred tax assets and current deferred tax liabilities from prepaid expenses and other current assets and other current liabilities, respectively, to deferred income taxes and other liabilities, respectively, in prior-period Consolidated Balance Sheets to conform to the current period's presentation. The impact of this reclassification on the July 31, 2015 Consolidated Balance Sheet was a reclassification of \$12,442 from prepaid expenses and other current assets to deferred income taxes and \$254 from other current liabilities to other liabilities.

Tax loss carry-forwards at July 31, 2016 are comprised of:

Foreign net operating loss carry-forwards of \$119,874, of which \$89,637 have no expiration date and the remainder of which expire within the next eight years.

State net operating loss carry-forwards of \$42,095, which expire from 2017 to 2034.

Foreign tax credit carry-forwards of \$14,381, which expire from 2021 to 2025.

State research and development credit carry-forwards of \$11,526, which expire from 2017 to 2031.

The valuation allowance decreased by \$1,930 during the fiscal year ended July 31, 2016, primarily due to the appreciation of the U.S. Dollar against the Swedish Krona and the utilization of net operating loss carryforwards in China and India. These decreases were partially offset by the increase in valuation allowances in Brazil due to the generation of current year net operating losses. If realized or reversed in future periods, substantially all of the valuation allowance would impact the income tax rate.

The valuation allowance increased by \$2,513 during the fiscal year ended July 31, 2015, mainly due to increased valuation allowances against state tax credit carryforwards and increased valuation allowances in certain jurisdictions, including Brazil, China, Sweden, and the United Kingdom. These increases were partially offset by reductions in the tax rates applied to valuation allowances in the United Kingdom.

Table of Contents

Rate Reconciliation

A reconciliation of the tax computed by applying the statutory U.S. federal income tax rate to earnings (loss) from continuing operations before income taxes to the total income tax expense is as follows:

| | Years Ended July 31, | | |
|---|----------------------|---------|---------|
| | 2016 | 2015 | 2014 |
| Tax at statutory rate | 35.0 % | 35.0 % | 35.0 % |
| Impairment charges (1) | — % | 55.8 % | (40.3)% |
| State income taxes, net of federal tax benefit (2) | 0.8 % | 1.6 % | (1.1)% |
| International rate differential | 0.4 % | (2.2)% | (1.3)% |
| Rate variances arising from foreign subsidiary distributions | 0.5 % | (0.3)% | (7.5)% |
| Adjustments to tax accruals and reserves (3) | (3.7)% | 17.8 % | 25.5 % |
| Research and development tax credits and section 199 manufacturer's deduction | (3.6)% | (3.9)% | 3.6 % |
| Non-deductible divestiture fees and account write-offs | (0.4)% | (4.8)% | (5.2)% |
| Deferred tax and other adjustments (4) | (1.4)% | (21.1)% | 0.7 % |
| Other, net | (0.9)% | 2.5 % | (0.1)% |
| Effective tax rate | 26.7 % | 80.4 % | 9.3 % |

For the year ended July 31, 2015, \$39.8 million of the total impairment charge of \$46.9 million recorded is (1) nondeductible for income tax purposes. For the year ended July 31, 2014, \$61.1 million of the total impairment charge of \$148.6 million recorded is nondeductible for income tax purposes.

(2) The year ended July 31, 2014 includes a \$3.1 million increase in valuation allowances against certain state tax credit carryforwards.

The years ended July 31, 2014 and 2015 include increases in current year uncertain tax positions, while the year (3) ended July 31, 2016 includes reductions of uncertain tax positions resulting from the closure of audits and lapses in statutes of limitations.

(4) The year ended July 31, 2015 includes \$5.0 million of foreign tax credit carryforward from the fiscal 2014 U.S. tax return.

Table of Contents

Uncertain Tax Positions

The Company follows the guidance in ASC 740, "Income Taxes" regarding uncertain tax positions. The guidance requires application of a "more likely than not" threshold to the recognition and de-recognition of tax positions. A reconciliation of unrecognized tax benefits (excluding interest and penalties) is as follows:

| | |
|--|-----------|
| Balance at July 31, 2013 | \$37,575 |
| Additions based on tax positions related to the current year | 4,596 |
| Additions for tax positions of prior years | — |
| Reductions for tax positions of prior years | (14,569) |
| Lapse of statute of limitations | (3,711) |
| Settlements with tax authorities | (5,832) |
| Cumulative Translation Adjustments and other | (210) |
| | |
| Balance as of July 31, 2014 | \$17,849 |
| Additions based on tax positions related to the current year | 5,862 |
| Additions for tax positions of prior years | — |
| Reductions for tax positions of prior years | (280) |
| Lapse of statute of limitations | (805) |
| Settlements with tax authorities | (221) |
| Cumulative Translation Adjustments and other | (1,272) |
| | |
| Balance as of July 31, 2015 | \$21,133 |
| Additions based on tax positions related to the current year | 3,093 |
| Additions for tax positions of prior years | 1,290 |
| Reductions for tax positions of prior years | (9,369) |
| Lapse of statute of limitations | (344) |
| Settlements with tax authorities | (456) |
| Cumulative Translation Adjustments and other | (53) |
| | |
| Balance as of July 31, 2016 | \$15,294 |

The \$15,294 of unrecognized tax benefits, if recognized, would affect the Company's effective income tax rate. The Company has classified \$9,304 and \$15,402, excluding interest and penalties, of the reserve for uncertain tax positions in Other Liabilities on the Consolidated Balance Sheets as of July 31, 2016 and 2015, respectively. The Company has classified \$5,990 and \$5,731, excluding interest and penalties, as a reduction of long-term deferred income tax assets on the Consolidated Balance Sheets as of July 31, 2016 and 2015, respectively.

The Company recognizes interest and penalties related to unrecognized tax benefits within income tax expense (benefit) on the Consolidated Statements of Earnings.

Interest expense is recognized on the amount of potentially underpaid taxes associated with the Company's tax positions, beginning in the first period in which interest starts accruing under the respective tax law and continuing until the tax positions are settled. The Company recognized an increase of \$3 and decreases of \$157 and \$498 in interest expense during the years ended July 31, 2016, 2015, and 2014, respectively. There was a \$66 increase to the reserve for uncertain tax positions for penalties during the year ended July 31, 2016, no changes during the fiscal year ended July 31, 2015, and an increase of \$25 for the year ended July 31, 2014. These amounts are net of reversals due to reductions for tax positions of prior years, statute of limitations, and settlements. At July 31, 2016 and 2015, the Company had \$1,530 and \$1,531, respectively, accrued for interest on unrecognized tax benefits. Penalties are accrued if the tax position does not meet the minimum statutory threshold to avoid the payment of a penalty.

At July 31, 2016 and 2015, the Company had \$2,730 and \$2,664, respectively, accrued for penalties on unrecognized tax benefits.

The Company estimates that it is reasonably possible that the unrecognized tax benefits may be reduced by \$3,878 within twelve months as a result of the resolution of worldwide tax matters, tax audit settlements, amended tax filings, and/or statute

Table of Contents

expirations. The maximum amount that would be recognized through the Consolidated Statements of Earnings as an income tax benefit is \$3,878.

During the year ended July 31, 2016, the Company recognized \$428 of tax benefits (including interest and penalties) associated with the lapse of statutes of limitations. The Company also recognized \$10,728 of tax benefits (including interest and penalties) associated with the reduction of tax positions for prior years due to the closure of tax audits. The Company and its subsidiaries file income tax returns in the U.S., various state, and foreign jurisdictions. The following table summarizes the open tax years for the Company's major jurisdictions:

| Jurisdiction | Open Tax Years |
|-------------------------|----------------|
| United States — Federal | F' 15 — F' 16 |
| France | F' 12 — F' 16 |
| Germany | F' 09 — F' 16 |
| United Kingdom | F' 14 — F' 16 |

Unremitted Earnings

The Company does not provide for U.S. deferred taxes on cumulative earnings of non-U.S. affiliates and associated companies that have been reinvested indefinitely. These earnings relate to ongoing operations and at July 31, 2016, were approximately \$259,334. These earnings have been reinvested in non-U.S. business operations, and the Company does not intend to repatriate these earnings to fund U.S. operations. It is not practicable to determine the income tax liability that would be payable if such earnings were not indefinitely reinvested. At July 31, 2016, \$139,747 of the total \$141,228 in cash and cash equivalents was held outside of the U.S.

6. Debt

On May 13, 2010, the Company completed a private placement of €75.0 million aggregate principal amount of senior unsecured notes to accredited institutional investors. The €75.0 million of senior notes consists of €30.0 million aggregate principal amount of 3.71% Series 2010-A Senior Notes, due May 13, 2017 and €45.0 million aggregate principal amount of 4.24% Series 2010-A Senior Notes, due May 13, 2020, with interest payable on the notes semiannually. This private placement was exempt from the registration requirements of the Securities Act of 1933. The notes have been fully and unconditionally guaranteed on an unsecured basis by the Company's domestic subsidiaries.

During fiscal 2006 and 2007, the Company completed two private placement note issuances totaling \$350 million in ten-year fixed rate notes with varying maturity dates to institutional investors at interest rates varying from 5.30% to 5.33%. The notes must be repaid equally over seven years, with interest payable on the notes due semiannually on various dates throughout the year. The private placements were exempt from the registration requirements of the Securities Act of 1933. The notes were not registered for resale and may not be resold absent such registration or an applicable exemption from the registration requirements of the Securities Act of 1933 and applicable state securities laws. The notes have certain prepayment penalties for repaying them prior to the maturity date. Under the debt agreement, the Company made scheduled principal payments of \$42.5 million in fiscal years 2016 and 2015, respectively. The final principal payment for the 2006 series of notes was made during fiscal 2016, while the final principal payment for the 2007 series of notes is due in fiscal 2017. The Company intends to utilize our revolving credit facility to fund private placement principal payments due during the fiscal year ended July 31, 2017, and therefore the maturities are included in "Long-term obligations, less current maturities" on the Consolidated Balance Sheets as of July 31, 2016.

On September 25, 2015, the Company and certain of its subsidiaries entered into an unsecured \$300,000 multi-currency revolving loan agreement with a group of six banks. Under the new revolving loan agreement, which has a final maturity date of September 25, 2020, the Company has the option to select either a base interest rate (based upon the higher of the federal funds rate plus one-half of 1%, the prime rate of Bank of America plus a margin based on the Company's consolidated leverage ratio, or the one-month LIBOR rate plus 1%) or a Eurocurrency interest rate (at the LIBOR rate plus a margin based on the Company's consolidated leverage ratio). At the Company's option, and subject to certain conditions, the available amount under the revolving loan agreement may be increased from \$300,000 up to \$450,000. During fiscal 2016, the Company drew \$10,000 from its revolving loan agreement in order to fund general corporate needs and the maximum amount outstanding throughout the year was \$135,000. As of

July 31, 2016, the outstanding balance on the credit facility was \$112,000 and the Company had outstanding letters of credit under the revolving loan agreement of \$4,261. There was \$183,739 available for future borrowing under the credit facility, which can be increased to \$333,739 at the Company's option, subject to certain conditions. The revolving loan agreement has a final maturity date of September 25, 2020. As such, the borrowing is included in "Long-term obligations, less current maturities" on the Consolidated Balance Sheets.

Table of Contents

The Company has two multi-currency lines of credit in China with capacity of \$10,000 each. These lines of credit support USD-denominated or CNY-denominated borrowing to fund working capital and operations for the Company's Chinese entities and are due on demand. The borrowings under these facilities may be made for a period up to one year from the date of borrowing with interest on the USD-denominated borrowings incurred equal to U.S. dollar LIBOR on the date of borrowing plus a margin based upon duration and on the CNY-denominated borrowings incurred equal to the local China rate based upon duration. There is no ultimate maturity on the facilities and they are subject to periodic review and repricing. The Company is not required to comply with any financial covenants as part of the agreements. The maximum amount outstanding on these facilities was \$10,411 and the Company repaid \$5,483 during fiscal 2016. As of July 31, 2016, the aggregate outstanding balance on these lines of credit in China was \$4,928 and there was \$15,072 available for future borrowings. Due to the short-term nature of these credit facilities, the borrowings are classified as "Notes payable" within current liabilities on the Consolidated Balance Sheets.

The Company's debt agreements require it to maintain certain financial covenants, including a ratio of debt to the trailing twelve months EBITDA, as defined in the debt agreements, of not more than a 3.5 to 1.0 ratio (leverage ratio) and the trailing twelve months EBITDA to interest expense of not less than a 3.0 to 1.0 ratio (interest expense coverage). As of July 31, 2016, the Company was in compliance with these financial covenants, with the ratio of debt to EBITDA, as defined by the agreements, equal to 1.4 to 1.0 and the interest expense coverage ratio equal to 19.9 to 1.0.

Total debt consists of the following as of July 31, 2016:

| | 2016 | 2015 |
|---|-----------|-----------|
| Euro-denominated notes payable in 2017 at a fixed rate of 3.71% | \$33,459 | \$32,960 |
| Euro-denominated notes payable in 2020 at a fixed rate of 4.24% | 50,188 | 49,442 |
| USD-denominated notes payable through 2016 at a fixed rate of 5.30% | — | 26,143 |
| USD-denominated notes payable through 2017 at a fixed rate of 5.33% | 16,335 | 32,743 |
| USD-denominated borrowing on revolving loan agreement at a weighted average rate of 1.3136% and 1.2740% as of July 31, 2016 and 2015, respectively | 112,000 | 102,000 |
| USD-denominated borrowing on revolving loan agreement at a weighted average rate of 1.9501% as of July 31, 2015. | — | 1,836 |
| CNY-denominated borrowing on revolving loan agreement at a weighted average rate of 4.0042% and 4.6634% as of July 31, 2016 and 2015, respectively (USD equivalent) | 4,928 | 8,575 |
| | \$216,910 | \$253,699 |
| Less notes payable | (4,928) | (10,411) |
| Total long-term debt | \$211,982 | \$243,288 |

The Company had outstanding letters of credit of \$4,261 and 3,327 at July 31, 2016 and July 31, 2015, respectively. The estimated fair value of the Company's long-term obligations was \$218,977 and \$252,254 at July 31, 2016 and July 31, 2015, respectively, as compared to the carrying value of \$211,982 and \$243,288 at July 31, 2016 and July 31, 2015, respectively. The fair value of the long-term obligations, which were determined using the market approach based upon the interest rates available to the Company for borrowings with similar terms and maturities, were determined to be Level 2 under the fair value hierarchy. Due to the short-term nature and variable interest rate pricing of the Company's revolving debt in China, it is determined that the carrying value of the debt equals the fair value of the debt.

Maturities on long-term debt are as follows:

| Years Ending July 31, | |
|-----------------------|-----------|
| 2017 | \$49,794 |
| 2018 | — |
| 2019 | — |
| 2020 | 50,188 |
| 2021 | 112,000 |
| Total | \$211,982 |

7. Stockholders' Investment

Information as to the Company's capital stock at July 31, 2016 and 2015 is as follows:

| | July 31, 2016 | | | July 31, 2015 | | |
|--|----------------------|------------------|-----------------------|----------------------|------------------|-----------------------|
| | Shares Authorized | Shares Issued | (thousands) Amount | Shares Authorized | Shares Issued | (thousands) Amount |
| Preferred Stock, \$.01 par value | 5,000,000 | | | 5,000,000 | | |
| Cumulative Preferred Stock: | | | | | | |
| 6% Cumulative | 5,000 | | | 5,000 | | |
| 1972 Series | 10,000 | | | 10,000 | | |
| 1979 Series | 30,000 | | | 30,000 | | |
| Common Stock, \$.01 par value: Class A | 100,000,000 | 51,261,487 | \$ 513 | 100,000,000 | 51,261,487 | \$ 513 |
| Nonvoting | | | | | | |
| Class B Voting | 10,000,000 | 3,538,628 | 35 | 10,000,000 | 3,538,628 | 35 |
| | | | \$ 548 | | | \$ 548 |

Before any dividend may be paid on the Class B Common Stock, holders of the Class A Common Stock are entitled to receive an annual, noncumulative cash dividend of \$.01665 per share. Thereafter, any further dividend in that fiscal year must be paid on each share of Class A Common Stock and Class B Common Stock on an equal basis.

Other than as required by law, holders of the Class A Common Stock are not entitled to any vote on corporate matters, unless, in each of the three preceding fiscal years, the \$.01665 preferential dividend described above has not been paid in full. Holders of the Class A Common Stock are entitled to one vote per share for the entire fiscal year immediately following the third consecutive fiscal year in which the preferential dividend is not paid in full. Holders of Class B Common Stock are entitled to one vote per share for the election of directors and for all other purposes.

Upon liquidation, dissolution or winding up of the Company, and after distribution of any amounts due to holders of Preferred Stock, if any, holders of the Class A Common Stock are entitled to receive the sum of \$0.835 per share before any payment or distribution to holders of the Class B Common Stock. Thereafter, holders of the Class B Common Stock are entitled to receive a payment or distribution of \$0.835 per share. Thereafter, holders of the Class A Common Stock and Class B Common Stock share equally in all payments or distributions upon liquidation, dissolution or winding up of the Company.

The preferences in dividends and liquidation rights of the Class A Common Stock over the Class B Common Stock will terminate at any time that the voting rights of Class A Common Stock and Class B Common Stock become equal. The following is a summary of other activity in stockholders' investment for the fiscal years ended July 31, 2016, 2015, and 2014:

| | Unearned Restricted Stock | Deferred Compensation | Shares Held in Rabbi Trust, at cost | Total |
|----------------------------------|---------------------------------|--------------------------|---|------------|

Table of Contents

Deferred Compensation Plans

The Company has two deferred compensation plans, the Executive Deferred Compensation Plan and the Director Deferred Compensation Plan. Both plans allow for compensation to be deferred into either the Company's Class A Nonvoting Common Stock or in other investment funds. The Executive Deferred Compensation Plan does not allow funds to be transferred between the Company's Class A Nonvoting Common Stock and the other investment funds. The Director Deferred Compensation Plan allows participants to transfer funds from other investment funds into the Company's Class A Nonvoting Common Stock. Funds are not permitted to be transferred from the Company's Class A Nonvoting Common Stock into other investment funds until six months after the Director resigns from the Board.

At July 31, 2016, the deferred compensation balance in stockholders' investment represents the investment at the original cost of shares held in the Company's Class A Nonvoting Common Stock for the deferred compensation plans. The balance of shares held in the Rabbi Trust represents the investment in the Company's Class A Nonvoting Common Stock at the original cost of all the Company's Class A Nonvoting Common Stock held in deferred compensation plans.

Incentive Stock Plans

The Company has an incentive stock plan under which the Board of Directors may grant nonqualified stock options to purchase shares of Class A Nonvoting Common Stock, restricted stock units ("RSUs"), or restricted and unrestricted shares of Class A Nonvoting Common Stock to employees and non-employee directors.

As of July 31, 2016, the Company has reserved 4,387,087 shares of Class A Nonvoting Common Stock for outstanding stock options, RSUs and restricted shares and 2,391,385 shares of Class A Nonvoting Common Stock remain for future issuance of stock options, RSUs and restricted and unrestricted shares under the active plans. The Company uses treasury stock or will issue new Class A Nonvoting Common Stock to deliver shares under these plans.

Total stock-based compensation expense recognized by the Company during the years ended July 31, 2016, 2015, and 2014 was \$8,154 (\$5,056 net of taxes), \$4,471 (\$2,772 net of taxes), and \$5,214 (\$3,232 net of taxes), respectively. As of July 31, 2016, total unrecognized compensation cost related to share-based compensation awards that are expected to vest was \$15,318 pre-tax, net of estimated forfeitures, which the Company expects to recognize over a weighted-average period of 2.4 years.

Stock options

The stock options issued under the plan have an exercise price equal to the fair market value of the underlying stock at the date of grant and generally vest ratably over a three-year period, with one-third becoming exercisable one year after the grant date and one-third additional in each of the succeeding two years. Options issued under the plan, referred to herein as "service-based" options, generally expire 10 years from the date of grant.

The Company has estimated the fair value of its service-based stock option awards granted during the years ended July 31, 2016, 2015, and 2014 using the Black-Scholes option valuation model. The weighted-average assumptions used in the Black-Scholes valuation model are reflected in the following table:

| | | | |
|--|---------|---------|---------|
| Black-Scholes Option Valuation Assumptions | 2016 | 2015 | 2014 |
| Expected term (in years) | 6.11 | 6.05 | 5.97 |
| Expected volatility | 29.95 % | 34.01 % | 37.32 % |
| Expected dividend yield | 2.59 % | 2.48 % | 2.35 % |
| Risk-free interest rate | 1.64 % | 1.90 % | 1.80 % |

Edgar Filing: BRADY CORP - Form 10-K

| | | | |
|--|---------|---------|---------|
| Weighted-average market value of underlying stock at grant date | \$20.02 | \$22.76 | \$30.98 |
| Weighted-average exercise price | \$20.02 | \$22.76 | \$30.98 |
| Weighted-average fair value of options granted during the period | \$4.58 | \$6.12 | \$9.17 |

Table of Contents

The following is a summary of stock option activity for the fiscal year ended July 31, 2016:

| | Option Price | Options Outstanding | Weighted Average Exercise Price |
|-----------------------------|-----------------|---------------------|---------------------------------|
| Balance as of July 31, 2015 | \$20.95-\$38.31 | 3,500,951 | \$ 29.64 |
| Options granted | 19.96 - 25.35 | 881,744 | 20.02 |
| Options exercised | 20.95 - 31.07 | (194,419) | 26.98 |
| Options cancelled | 19.96 - 38.31 | (479,570) | 30.89 |
| Balance as of July 31, 2016 | \$19.96-\$38.31 | 3,708,706 | \$ 27.33 |

The total fair value of options vested during the fiscal years ended July 31, 2016, 2015, and 2014, was \$3,203, \$3,950, and \$6,605, respectively. The total intrinsic value of options exercised during the fiscal years ended July 31, 2016, 2015, and 2014 was \$811, \$208, and \$2,452, respectively.

There were 2,488,527, 2,642,955, and 3,004,348 options exercisable with a weighted average exercise price of \$30.18, \$30.88, and \$31.15 at July 31, 2016, 2015, and 2014, respectively. The cash received from the exercise of options during the fiscal years ended July 31, 2016, 2015, and 2014, was \$5,243, \$1,644, and \$12,113, respectively. The tax benefit on options exercised during the fiscal years ended July 31, 2016, 2015, and 2014 was \$308, \$79, and \$952, respectively.

The following table summarizes information about stock options outstanding at July 31, 2016:

| Range of Exercise Prices | Options Outstanding | | | Options Outstanding and Exercisable | | |
|--------------------------|---|--|---------------------------------|---|--|---------------------------------|
| | Number of Shares Outstanding at July 31, 2016 | Weighted Average Remaining Contractual Life (in years) | Weighted Average Exercise Price | Number of Shares Exercisable at July 31, 2016 | Weighted Average Remaining Contractual Life (in years) | Weighted Average Exercise Price |
| \$19.96 - \$26.99 | 1,433,278 | 8.1 | \$ 21.80 | 291,899 | 5.2 | \$ 20.97 |
| \$27.00 - \$32.99 | 1,696,428 | 4.9 | 29.05 | 1,617,628 | 4.7 | 29.12 |
| \$33.00 - \$38.31 | 579,000 | 1.3 | 37.78 | 579,000 | 1.3 | 37.78 |
| Total | 3,708,706 | 5.6 | 27.61 | 2,488,527 | 4.0 | \$ 30.18 |

As of July 31, 2016, the aggregate intrinsic value (defined as the amount by which the fair value of the underlying stock exceeds the exercise price of an option) of options outstanding and the options exercisable was \$21,358 and \$8,164, respectively.

Restricted Shares and RSUs

Restricted shares and RSUs issued under the plan have an issuance price equal to the fair market value of the underlying stock at the date of grant.

Beginning in fiscal 2014, the Company awarded RSUs that vest solely upon meeting specified service conditions, referred to herein as “service-based RSUs.” The RSUs issued under the plan generally vest ratably over a three-year period, with one-third becoming exercisable one year after the grant date and one-third additional in each of the succeeding two years. In fiscal 2015, the Company also awarded 63,668 service-based RSUs that vest ratably at the end of years 3, 4, and 5 and 395,617 service-based RSUs that vest in increments of 10%, 20%, 30%, and 40% at the end of years 1, 2, 3, and 4, respectively.

The following tables summarize the RSU and restricted share activity for the fiscal year ended July 31, 2016:

Service-Based Restricted Shares and RSUs Shares

| | | Weighted Average Grant Date Fair Value |
|-----------------------------|-----------|---|
| Balance as of July 31, 2015 | 677,454 | \$ 24.72 |
| New grants | 173,394 | 20.07 |
| Vested | (113,640) | 24.97 |
| Forfeited | (58,827) | 23.81 |
| Balance as of July 31, 2016 | 678,381 | \$ 23.57 |

53

Table of Contents

The aggregate intrinsic value of unvested RSU's expected to vest at July 31, 2016, was \$21,803. The total fair value of RSU's vested during the twelve months ended July 31, 2016 and 2015, was \$2,797 and \$805, respectively. The service-based RSUs granted during the fiscal year ended July 31, 2015, had a weighted-average grant-date fair value of \$24.28.

8. Segment Information

The Company is organized and managed on a global basis within three business platforms, ID Solutions, Workplace Safety, and PeopleID, which aggregate into two reportable segments: IDS and WPS. The Company evaluates short-term segment performance based on segment profit or loss and customer sales. Segment profit or loss does not include certain administrative costs, such as the cost of finance, information technology, human resources, legal, and executive leadership, which are managed as global functions. Restructuring charges, impairment charges, equity compensation costs, interest expense, investment and other income (expense) and income taxes are also excluded when evaluating segment performance.

Each business platform has a President or Vice-President that reports directly to the Company's chief operating decision maker, its Chief Executive Officer. Each platform has its own distinct operations, which are managed locally by its own management team, maintains its own financial reports and is evaluated based on global segment profit. The Company has determined that these business platforms comprise its three operating segments, which aggregate into the two reportable segments based on the information used by the Chief Executive Officer to allocate resources and assess performance.

Following is a summary of segment information for the years ended July 31, 2016, 2015 and 2014:

| | 2016 | 2015 | 2014 |
|---|-------------|-------------|-------------|
| Sales to External Customers: | | | |
| ID Solutions | \$776,877 | \$806,484 | \$825,123 |
| WPS | 343,748 | 365,247 | 399,911 |
| Total Company | \$1,120,625 | \$1,171,731 | \$1,225,034 |
| Depreciation & Amortization: | | | |

* Revenues are attributed based on country of origin.

** Long-lived assets consist of property, plant, and equipment, other intangible assets and goodwill.

9. Net Earnings (Loss) per Common Share

Net earnings (loss) per common share is computed by dividing net earnings (loss) (after deducting restricted stock dividends and the applicable preferential Class A Common Stock dividends) by the weighted average Common Shares outstanding of 50,541 for fiscal 2016, 51,285 for fiscal 2015, and 51,866 for fiscal 2014. The Company utilizes the two-class method to calculate earnings per share. Dividends on the Company's performance-based restricted shares are reconciling items in the basic and diluted earnings per share calculations for the respective periods presented.

Table of Contents

Reconciliations of the numerator and denominator of the basic and diluted per share computations for the Company's Class A and Class B common stock are summarized as follows:

| | Years ended July 31, | | |
|---|----------------------|-----------|------------|
| | 2016 | 2015 | 2014 |
| Numerator: (in thousands) | | | |
| Earnings (loss) from continuing operations | \$80,110 | \$4,902 | \$(48,146) |
| Less: | | | |
| Restricted stock dividends | — | — | (92) |
| Numerator for basic and diluted earnings (loss) from continuing operations per Class A Nonvoting Common Share | \$80,110 | \$4,902 | \$(48,238) |
| Less: | | | |
| Preferential dividends | (783) | (794) | (813) |
| Preferential dividends on dilutive stock options | (1) | (1) | (6) |
| Numerator for basic and diluted earnings (loss) from continuing operations per Class B Voting Common Share | \$79,326 | \$4,107 | \$(49,057) |
| Denominator: (in thousands) | | | |
| Denominator for basic earnings from continuing operations per share for both Class A and Class B | 50,541 | 51,285 | 51,866 |
| Plus: Effect of dilutive stock options | 228 | 98 | — |
| Denominator for diluted earnings from continuing operations per share for both Class A and Class B | 50,769 | 51,383 | 51,866 |
| Earnings (loss) from continuing operations per Class A Nonvoting Common Share: | | | |
| Basic | \$1.59 | \$0.10 | \$(0.93) |
| Diluted | \$1.58 | \$0.10 | \$(0.93) |
| Earnings (loss) from continuing operations per Class B Voting Common Share: | | | |
| Basic | \$1.57 | \$0.08 | \$(0.95) |
| Diluted | \$1.56 | \$0.08 | \$(0.95) |
| (Loss) earnings from discontinued operations per Class A Nonvoting Common Share: | | | |
| Basic | \$— | \$(0.04) | \$0.04 |
| Diluted | \$— | \$(0.04) | \$0.04 |
| (Loss) earnings from discontinued operations per Class B Voting Common Share: | | | |
| Basic | \$— | \$(0.04) | \$0.05 |
| Diluted | \$— | \$(0.04) | \$0.05 |
| Net earnings (loss) per Class A Nonvoting Common Share: | | | |
| Basic | \$1.59 | \$0.06 | \$(0.89) |
| Diluted | \$1.58 | \$0.06 | \$(0.89) |
| Net earnings (loss) per Class B Voting Common Share: | | | |
| Basic | \$1.57 | \$0.04 | \$(0.90) |
| Diluted | \$1.56 | \$0.04 | \$(0.90) |

Options to purchase approximately 3,172,755 and 3,568,264 shares of Class A Nonvoting Common Stock for the fiscal years ended July 31, 2016 and 2015, respectively, were not included in the computation of diluted net earnings (loss) per share as the impact of the inclusion of the options would have been anti-dilutive. In accordance with ASC 260, "Earnings per Share," all options to purchase Class A Nonvoting Common Stock were not included in the computation of diluted loss per share for fiscal 2014 since to do so would be anti-dilutive.

Table of Contents

10. Commitments and Contingencies

The Company has entered into various non-cancellable operating lease agreements. Rental expense charged to continuing operations on a straight-line basis was \$17,253, \$19,029, and \$17,344 for the years ended July 31, 2016, 2015, and 2014, respectively. Future minimum lease payments required under such leases in effect at July 31, 2016 were as follows:

| | |
|-----------------------|----------|
| Years ending July 31, | |
| 2017 | \$16,243 |
| 2018 | 14,956 |
| 2019 | 12,169 |
| 2020 | 8,708 |
| 2021 | 7,195 |
| Thereafter | 15,497 |
| | \$74,768 |

In the normal course of business, the Company is named as a defendant in various lawsuits in which claims are asserted against the Company. In the opinion of management, the liabilities, if any, which may ultimately result from lawsuits are not expected to have a material effect on the consolidated financial statements of the Company.

11. Fair Value Measurements

The Company follows the guidance in ASC 820, "Fair Value Measurements and Disclosures" as it relates to its financial and non-financial assets and liabilities. The accounting guidance applies to other accounting pronouncements that require or permit fair value measurements, defines fair value based upon an exit price model, establishes a framework for measuring fair value, and expands the applicable disclosure requirements. The accounting guidance indicates, among other things, that a fair value measurement assumes that a transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability.

The accounting guidance on fair value measurements establishes a fair market value hierarchy for the pricing inputs used to measure fair market value. The Company's assets and liabilities measured at fair market value are classified in one of the following categories:

Level 1 — Assets or liabilities for which fair value is based on unadjusted quoted prices in active markets for identical instruments that are accessible as of the measurement date.

Level 2 — Assets or liabilities for which fair value is based on other significant pricing inputs that are either directly or indirectly observable.

Level 3 — Assets or liabilities for which fair value is based on significant unobservable pricing inputs to the extent little or no market data is available, which result in the use of management's own assumptions.

Table of Contents

The following tables set forth by level within the fair value hierarchy, the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis at July 31, 2016 and July 31, 2015, according to the valuation techniques the Company used to determine their fair values.

| | Inputs Considered As Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Fair Values | Balance Sheet Classifications |
|----------------------------|---|---|----------------|--|
| July 31, 2016 | | | | |
| Trading securities | \$ 13,834 | \$ — | \$ 13,834 | Other assets |
| Foreign exchange contracts | — | 2,138 | 2,138 | Prepaid expenses and other current assets |
| Total Assets | \$ 13,834 | \$ 2,138 | \$ 15,972 | |
| Foreign exchange contracts | \$ — | \$ 738 | \$ 738 | Other current liabilities |
| Total Liabilities | \$ — | \$ 738 | \$ 738 | |
| July 31, 2015 | | | | |
| Trading securities | \$ 15,356 | \$ — | \$ 15,356 | Other assets |
| Foreign exchange contracts | — | 685 | 685 | Prepaid expenses and other current assets |
| Total Assets | \$ 15,356 | \$ 685 | \$ 16,041 | |
| Foreign exchange contracts | \$ — | \$ 1,280 | \$ 1,280 | Other current liabilities |
| Total Liabilities | \$ — | \$ 1,280 | \$ 1,280 | |

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Trading securities: The Company's deferred compensation investments consist of investments in mutual funds. These investments were classified as Level 1 as the shares of these investments trade with sufficient frequency and volume to enable us to obtain pricing information on an ongoing basis.

Foreign exchange contracts: The Company's foreign exchange contracts were classified as Level 2, as the fair value was based on the present value of the future cash flows using external models that use observable inputs, such as interest rates, yield curves and foreign exchange rates. See Note 12, "Derivatives and Hedging Activities" for additional information.

There have been no transfers of assets or liabilities between the fair value hierarchy levels, outlined above, during the fiscal years ended July 31, 2016 and July 31, 2015.

The Company's financial instruments, other than those presented in the disclosures above, include cash and cash equivalents, accounts receivable, notes payable, accounts payable, accrued liabilities and short-term and long-term debt. The fair values of cash and cash equivalents, accounts receivable, notes payable, accounts payable, and accrued liabilities approximated carrying values because of the short-term nature of these instruments. See Note 6 for information regarding the fair value of the Company's short-term and long-term debt.

The Company completes its annual goodwill impairment analysis on May 1st of each fiscal year and evaluates its reporting units for potential triggering events on a quarterly basis in accordance with ASC 350, "Intangibles - Goodwill and Other." The annual impairment testing performed on May 1, 2016, indicated that all of the reporting units passed Step One of the goodwill impairment test as each had a fair value substantially in excess of its carrying value.

The Company evaluates whether events and circumstances have occurred that indicate that the remaining estimated useful life of other intangible assets may warrant revision or that the remaining balance of an asset may not be recoverable. Management completed an assessment of other indefinite-lived and other finite-lived intangible assets in

fiscal 2016 and concluded that no long-lived assets were impaired.

During fiscal 2015, goodwill with carrying amounts of \$26,246 and \$10,866 in the WPS APAC and WPS Americas reporting units, respectively, was written off entirely, resulting in impairment charges of \$37,112. In order to arrive at the implied fair value of goodwill, the Company calculated the fair value of all of the assets and liabilities of the reporting unit as if it had been acquired in a business combination. After assigning fair value to the assets and liabilities of the reporting unit, it was determined there was no excess fair value of the reporting units over the implied fair value of goodwill and thus, the remaining goodwill balances were

Table of Contents

impaired in fiscal 2015. The goodwill balances represented a Level 3 asset measured at fair value on a nonrecurring basis subsequent to its original recognition.

During fiscal 2015, management evaluated other indefinite-lived intangible assets for recoverability using the income approach. The valuation was based upon current sales projections and profitability for each asset group, and the relief from royalty method was applied. Management evaluated other finite-lived intangible assets for recoverability using an undiscounted cash flow analysis based upon current sales projections and profitability for each asset group. This analysis resulted in an amount that was less than the carrying value of certain finite-lived intangible assets.

Management measured the impairment loss of both indefinite and finite-lived intangible assets as the amount by which the carrying amount of the assets exceeded their fair value. As a result, other intangible assets with a carrying amount of \$26,194 were written down to their estimated fair value of \$19,543. These represented Level 3 assets measured at fair value on a nonrecurring basis subsequent to their original recognition. These items resulted in a total impairment charge of \$6,651 in fiscal 2015.

During fiscal 2014, goodwill with a carrying amount of \$193,689 in the People ID reporting unit was written down to its estimated implied fair value of \$93,277, resulting in an impairment charge of \$100,412. In order to arrive at the implied fair value of goodwill, the Company calculated the fair value of all of the assets and liabilities of the reporting unit as if it had been acquired in a business combination. After assigning fair value to the assets and liabilities of the reporting unit, the result was the implied fair value of goodwill of \$93,277, which represented a Level 3 asset measured at fair value on a nonrecurring basis subsequent to its original recognition.

During fiscal 2014, management completed an assessment of other finite-lived intangible assets primarily associated with the PeopleID reporting unit and concluded that the assets were impaired. These assets were primarily associated with the acquisition of Precision Dynamics Corporation ("PDC"). Organic sales in the PDC business declined in the low single-digit percentages from fiscal 2013 to fiscal 2014. U.S. hospital admission rates are a primary driver of PDC's sales under its existing strategy, and there was a decline of approximately 2% in these rates during fiscal 2014. Therefore, management revisited its planned growth and profit for the PDC business and concluded that the growth may not materialize as expected given slower than anticipated industry growth and fewer sales synergies than originally planned.

Management evaluated other finite-lived intangible assets for recoverability using an undiscounted cash flow analysis based upon sales projections and concluded there was an indicator of impairment. Management measured the impairment loss as the amount by which the carrying amount of the customer relationships exceeded their fair value, which represented Level 3 assets measured at fair value on a nonrecurring basis subsequent to their original recognition. This resulted in an impairment charge of \$48,139 recognized in fiscal 2014, which was classified within the "Impairment charges" line item on the Consolidated Statements of Earnings and was part of the IDS reportable segment.

12. Derivatives and Hedging Activities

The Company utilizes forward foreign exchange contracts to reduce the exchange rate risk of specific foreign currency denominated transactions. These contracts typically require the exchange of a foreign currency for U.S. dollars at a fixed rate at a future date, with maturities of less than 18 months, which qualify as cash flow hedges or net investment hedges under the accounting guidance for derivative instruments and hedging activities. The primary objective of the Company's foreign currency exchange risk management program is to minimize the impact of currency movements due to transactions in other than the respective subsidiaries' functional currency and to minimize the impact of currency movements on the Company's net investment denominated in a currency other than the U.S. dollar. To achieve this objective, the Company hedges a portion of known exposures using forward foreign exchange contracts. As of July 31, 2016 and July 31, 2015, the notional amount of outstanding forward foreign exchange contracts was \$186,093 and \$139,300, respectively.

The Company hedges a portion of known exposures using forward foreign exchange contracts. Main exposures are related to transactions denominated in the British Pound, the Euro, Canadian dollar, Australian dollar, Mexican Peso, Malaysian Ringgit and Singapore dollar. Generally, these risk management transactions will involve the use of foreign currency derivatives to minimize the impact of currency movements on non-functional currency transactions.

Hedge effectiveness is determined by how closely the changes in fair value of the hedging instrument offset the changes in the fair value or cash flows of the hedged item. Hedge accounting is permitted only if the hedging relationship is expected to be highly effective at the inception of the hedge and on an on-going basis. Gains or losses on the derivative related to hedge ineffectiveness are recognized in current earnings.

Table of Contents

Cash Flow Hedges

The Company has designated a portion of its forward foreign exchange contracts as cash flow hedges and recorded these contracts at fair value on the Consolidated Balance Sheets. For these instruments, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income (“OCI”) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. At July 31, 2016 and July 31, 2015, unrealized losses of \$761 and unrealized gains of \$297 have been included in OCI, respectively. These balances are expected to be reclassified from OCI to earnings during the next twelve months when the hedged transactions impact earnings. For the years ended July 31, 2016, 2015, and 2014, the Company reclassified losses of \$199, and gains of \$1,325 and \$147 from OCI into cost of goods sold, respectively.

As of July 31, 2016 and 2015, the notional amount of outstanding forward foreign exchange contracts designated as cash flow hedges was \$34,540 and \$33,223, respectively.

Net Investment Hedges

The Company has also designated intercompany and third party foreign currency denominated debt instruments as net investment hedges. At July 31, 2016, the Company designated £25,000 of intercompany loans as net investment hedges to hedge portions of its net investment in British foreign operations. As of July 31, 2016 and 2015, the Company recognized in OCI gains of \$6,887 and \$889, respectively, on its intercompany loans designated as net investment hedges. On May 13, 2010, the Company completed the private placement of €75.0 million aggregate principal amount of senior unsecured notes to accredited institutional investors. This Euro-denominated debt obligation was designated as a net investment hedge to selectively hedge portions of its net investment in European foreign operations. As of July 31, 2016 and 2015, the cumulative balance recognized in accumulated other comprehensive income were gains of \$11,140 and \$12,512, respectively, on the Euro-denominated debt obligation. The changes recognized in other comprehensive income during the years ended July 31, 2016, 2015 and 2014 were losses of \$1,372, gains of \$18,008 and losses of \$660, respectively, on the Euro-denominated debt obligation. The Company’s foreign denominated debt obligations are valued under a market approach using publicized spot prices.

Table of Contents

Non-Designated Hedges

During the fiscal years ended July 31, 2016 and 2015, the Company recognized gains of \$2,162 and losses of \$1,705, respectively, in "Investment and other income" on the Consolidated Statements of Earnings related to non-designated hedges.

Fair values of derivative and hedging instruments in the Consolidated Balance Sheets were as follows:

| | Asset Derivatives | | | | Liability Derivatives | | | |
|---|---|------------|---|------------|--|------------|--|------------|
| | July 31, 2016 | | July 31, 2015 | | July 31, 2016 | | July 31, 2015 | |
| | Balance Sheet Location | Fair Value | Balance Sheet Location | Fair Value | Balance Sheet Location | Fair Value | Balance Sheet Location | Fair Value |
| Derivatives designated as hedging instruments | | | | | | | | |
| Cash flow hedges | | | | | | | | |
| Foreign exchange contracts | Prepaid expenses and other current assets | \$265 | Prepaid expenses and other current assets | \$518 | Other current liabilities | \$670 | Other current liabilities | \$737 |
| Net investment hedges | | | | | | | | |
| Foreign exchange contracts | Prepaid expenses and other current assets | \$— | Prepaid expenses and other current assets | \$— | Other current liabilities | \$— | Other current liabilities | \$— |
| Foreign currency denominated debt | Prepaid expenses and other current assets | \$— | Prepaid expenses and other current assets | \$— | Long term obligations, less current maturities | \$116,888 | Long term obligations, less current maturities | \$121,514 |
| Total derivatives designated as hedging instruments | | \$265 | | \$518 | | \$117,558 | | \$122,251 |
| Derivatives not designated as hedging instruments | | | | | | | | |
| Foreign exchange contracts | Prepaid expenses and other current assets | \$1,873 | Prepaid expenses and other current assets | \$168 | Other current liabilities | \$68 | Other current liabilities | \$543 |
| Total derivatives not designated as hedging instruments | | \$1,873 | | \$168 | | \$68 | | \$543 |

13. Discontinued Operations

The Company entered into an agreement with LTI Flexible Products, Inc. (d/b/a Boyd Corporation) on February 24, 2014, for the sale of the Die-Cut business. The first phase of this divestiture closed on May 1, 2014 and included the

Die-Cut businesses in Korea, Thailand and Malaysia, and the Balkhausen business in Europe. The remainder of the Die-Cut business was located in China and it was divested on August 1, 2014. The operating results have been reported as discontinued operations for the fiscal years ending July 31, 2015 and 2014.

The following table summarizes the operating results of discontinued operations for the fiscal years ending July 31, 2015 and 2014:

| | 2015 | 2014 |
|---|-----------|-----------|
| Net sales (1) | \$— | \$179,050 |
| (Loss) earnings from discontinued operations (2) | (1,201) | 6,715 |
| Income tax expense | (288) | (3,299) |
| Loss on sale of discontinued operations (3) | (487) | (1,602) |
| Income tax benefit on sale of discontinued operations (4) | 61 | 364 |
| (Loss) earnings from discontinued operations, net of tax | \$(1,915) | \$2,178 |

(1) The second and final phase of the Die-Cut divestiture closed on August 1, 2014. Thus, there were no sales from discontinued operations in fiscal 2015.

(2) The loss from discontinued operations in fiscal 2015 primarily related to professional fees and restructuring charges associated with the divestiture.

Table of Contents

The first phase of the Die-Cut divestiture was completed in the fourth quarter of fiscal 2014. A loss on the sale was recorded in the three months ended July 31, 2014 and includes \$3.9 million in liabilities retained as part of the (3) divestiture agreement. The second and final closing of the Die-Cut divestiture was completed in the first quarter of fiscal 2015 and an additional loss on the sale was recorded in the three months ended October 31, 2014.

The income tax benefit on the sale of discontinued operations in fiscal 2014 was significantly impacted by the release of a reserve for uncertain tax positions of \$4.0 million, which was triggered as a result of the Thailand stock (4) sale during the three months ended July 31, 2014. This was offset by \$3.6 million in tax expense related to the gain on the sale of the Balkhausen assets. The Thailand stock sale and the Balkhausen asset sale were included in the first phase of the Die-Cut divestiture.

There were no assets or liabilities held for sale as of July 31, 2015. In accordance with authoritative literature, accumulated other comprehensive income of \$34,697 was reclassified to the statement of earnings upon the closing of the second phase of the Die-Cut divestiture during the three months ended October 31, 2014.

14. Unaudited Quarterly Financial Information

| | Quarters | | | | |
|--|-----------|-----------|-----------|-----------|-------------|

| Net sales | \$310,240 | \$282,628 | \$290,227 | \$288,636 | \$1,171,731 |
| Gross margin | 150,161 | 138,203 | 140,999 | 129,069 | 558,432 |
| Operating income * | 26,973 | 16,811 | 24,285 | (32,763) | 35,306 |
| Earnings from continuing operations | 15,499 | 11,584 | 17,213 | (39,394) | 4,902 |
| Earnings (loss) from discontinued operations, net of income taxes ** | (1,915) | — | — | — | (1,915) |
| Net earnings from continuing operations per Class A Common Share: | | | | | |
| Basic*** | \$0.30 | \$0.23 | \$0.34 | \$(0.77) | \$0.10 |
| Diluted*** | \$0.30 | \$0.23 | \$0.33 | \$(0.77) | \$0.10 |
| Net earnings (loss) from discontinued operations per Class A Common Share: | | | | | |
| Basic*** | \$(0.03) | \$— | \$— | \$— | \$(0.04) |
| Diluted*** | \$(0.04) | \$— | \$— | \$— | \$(0.04) |

* In fiscal 2015, the Company recorded before tax impairment charges of \$46,867 in the fourth quarter ended July 31, 2015 and before tax restructuring charges of \$4,278, \$4,879, \$4,834 and \$2,830 in the first, second, third, and fourth quarters of fiscal 2015, respectively, for a total of \$16,821.

In fiscal 2015, the loss from discontinued operations included a net loss on operations of \$1,489 primarily related to ***professional fees associated with the divestiture and a \$426 net loss on the sale of Die-Cut, recorded in the first quarter ended October 31, 2014.

*** The sum of the quarters does not equal the year-to-date total for fiscal 2015 due to the quarterly changes in weighted-average shares outstanding.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure
None.

Table of Contents

Item 9A. Controls and Procedures

Disclosure Controls and Procedures:

Brady Corporation maintains a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Company in the reports filed by the Company under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports the Company files under the Exchange Act is accumulated and communicated to the Company’s management, including the Company’s principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. The Company carried out an evaluation, under the supervision and with the participation of its management, including its President and Chief Executive Officer and its Senior Vice President and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, the Company’s President and Chief Executive Officer and Senior Vice President and Chief Financial Officer concluded that the Company’s disclosure controls and procedures are effective as of the end of the period covered by this report.

Management’s Report on Internal Control Over Financial Reporting:

The management of Brady Corporation and its subsidiaries is responsible for establishing and maintaining adequate internal control over financial reporting for the Company, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. The Company’s internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

With the participation of the President and Chief Executive Officer and Senior Vice President and Chief Financial Officer, management conducted an evaluation of the effectiveness of our internal control over financial reporting as of July 31, 2016, based on the framework and criteria established in Internal Control — Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on the assessment, management concluded that, as of July 31, 2016, the Company’s internal control over financial reporting is effective based on those criteria.

Because of the inherent limitations of internal control over financial reporting, misstatements may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company’s internal control over financial reporting, as of July 31, 2016, has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report, which is included herein.

Changes in Internal Control Over Financial Reporting:

There were no changes in the Company’s internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the Company’s most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Brady Corporation
Milwaukee, Wisconsin

We have audited the internal control over financial reporting of Brady Corporation and subsidiaries (the "Company") as of July 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of July 31, 2016, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended July 31,

2016, of the Company and our report dated September 15, 2016, expressed an unqualified opinion on those consolidated financial statements and financial statement schedule.

| Paul T. Meyer | 47 | Treasurer and Vice President - Tax |
| Patrick W. Allender | 69 | Director |
| Gary S. Balkema | 61 | Director |
| Elizabeth Pungello Bruno | 49 | Director |
| Nancy L. Gioia | 56 | Director |
| Conrad G. Goodkind | 72 | Director |
| Frank W. Harris | 74 | Director |
| Bradley C. Richardson | 58 | Director |
| Harold L. Sirkin | 56 | Director |

J. Michael Nauman - Mr. Nauman has served on the Company's Board of Directors and as the Company's President and CEO since August 2014. Prior to joining the Company, from 1994 to 2014 he held a number of senior management positions at Molex Incorporated. Mr. Nauman was Molex's Executive Vice President and President of the Global Integrated Products Division from 2009 to 2014, where he led global business units in the automotive, data communications, industrial, medical, military/aerospace and mobile sectors. From 2004 to 2009, he served as Molex's Senior Vice President and President, Global Integrated Product Division, President, Integrated Products Division and President, High Performance Products Division. Prior to joining Molex in 1994, Mr. Nauman was Controller and then President of Ohio Associated Enterprises, Inc., and a tax accountant and auditor for Arthur Andersen. He is a board member of the Arkansas Science, Technology, Engineering and Math Coalition, and Museum of Discovery. Mr. Nauman's broad operational and financial experience, as well as his leadership and strategic perspective, provide the Board with insight and expertise to drive the Company's growth and performance. Mr. Nauman holds a bachelor's of science degree in management from Case Western Reserve University, and is a certified public accountant and charter global management accountant.

Aaron J. Pearce - Mr. Pearce joined the Company in 2004 as Director of Internal Audit. From 2006 to 2008, he served as Finance Director for the Company's Asia Pacific region, and from 2008 to 2010, served as Global Tax Director. In January 2010, Mr. Pearce was appointed Vice President, Treasurer, and Director of Investor Relations, and in April 2013, was named Vice President - Finance, with responsibility for finance support to the Company's Workplace Safety and ID Solutions businesses,

Table of Contents

financial planning and analysis, and investor relations. Mr. Pearce was appointed Senior Vice President and Chief Financial Officer in September 2014, and Chief Accounting Officer in July 2015. Prior to joining the Company, Mr. Pearce was an auditor with Deloitte & Touche LLP from 1994 to 2004. He holds a bachelor's degree in business administration from the University of Wisconsin-Milwaukee and is a certified public accountant.

Thomas J. Felmer - Mr. Felmer joined the Company in 1989 and held several sales and marketing positions until being named Vice President and General Manager of Brady's U.S. Signmark Division in 1994. In 1999, Mr. Felmer moved to Europe where he led the European Signmark business for two years, then gained additional responsibility for the European direct marketing business platforms, which he also led for two years. In 2003, Mr. Felmer returned to the United States where he was responsible for Brady's global sales and marketing processes, Brady Software businesses, and integration leader of the EMED acquisition. In June 2004, he was appointed President - Direct Marketing Americas, and was named Chief Financial Officer in January 2008. In October 2013, Mr. Felmer was appointed Interim President and CEO, and served in these positions until August 2014. In September 2014, Mr. Felmer was named President - Workplace Safety. Mr. Felmer received a bachelor's degree in business administration from the University of Wisconsin - Green Bay.

Russell R. Shaller - Mr. Shaller joined the Company in June 2015 as Senior Vice President and President - ID Solutions. Prior to joining the Company, Mr. Shaller served as President, Teledyne Microwave Solutions, from 2008 to 2015, with responsibility for advanced microwave products sold into the aerospace and communications industry. Before joining Teledyne in 2008, Mr. Shaller held a number of positions of increasing responsibility at W.L. Gore & Associates, including Division Leader, Electronic Products Division from 2003 to 2008 and General Manager of Gore Photonics from 2001 to 2003. Prior to joining W.L. Gore in 1993, Mr. Shaller worked in engineering and program management positions at Westinghouse Corporation. He holds a bachelor's degree in electrical engineering from the University of Michigan, a master's degree in electrical engineering from Johns Hopkins University and a master's degree in business administration from the University of Delaware.

Helena R. Nelligan - Ms. Nelligan joined the Company as Senior Vice President - Human Resources in November 2013. Prior to joining the Company, Ms. Nelligan held a variety of human resources leadership roles at Eaton Corporation from 2005 to 2013, including Vice President of Human Resources - Electrical Products Group, Vice President - Human Resources, Electrical Sector Americas and Director Human Resources - Electrical Components Division. From 1997 to 2005, Ms. Nelligan served in human resources leadership roles with Merisant Worldwide, Inc. and British Petroleum. She holds a bachelor's degree in criminal justice and a master's degree in labor relations and human resources from Michigan State University.

Louis T. Bolognini - Mr. Bolognini joined the Company as Senior Vice President, General Counsel and Secretary in January 2013. Prior to joining the Company, he served as Senior Vice President, General Counsel and Secretary of Imperial Sugar Company from June 2008 through September 2012 and was Vice President and General Counsel of BioLab, Inc., a pool and spa manufacturing and marketing company from 1999 to 2008. Mr. Bolognini served as Assistant General Counsel to BioLab's parent company, Great Lakes Chemical Corporation, from 1990 to 1999. Mr. Bolognini served as an officer of BioLab, Inc. within a two-year period prior to the March 18, 2009 Chapter 11 bankruptcy petition filed by BioLab's parent company, Chemtura Corporation, on behalf of itself and 26 U.S. affiliates, including BioLab. He holds a bachelor's degree in political science from Miami University and a Juris Doctor degree from the University of Toledo.

Bentley N. Curran - Mr. Curran joined the Company in 1999 and held several technology leadership positions until being named Vice President of Information Technology in 2005. In October 2007, he was appointed Chief Information Officer of Brady globally. In February 2012, he was appointed to his current position, Vice President of Digital Business and Chief Information Officer. Prior to joining Brady, Mr. Curran served in a variety of technology leadership roles for Compucom and the Speed Queen Company. He holds a bachelor's degree in business

administration from Marian University and an associate of science degree in electronics and engineering systems from Moraine Park Technical College.

Paul T. Meyer - Mr. Meyer joined the Company in 2009 as Global Tax Director. In May 2013, he was appointed Treasurer, and was named Vice President - Tax in November 2013. Prior to joining the Company, Mr. Meyer worked in the corporate tax departments of GE Healthcare and JohnsonDiversey. He began his career as a tax consultant with Ernst & Young. He holds a bachelor's degree in accounting and a master's degree in taxation from the University of Wisconsin-Milwaukee.

Patrick W. Allender - Mr. Allender was elected to the Board of Directors in 2007. He serves as the Chair of the Finance Committee and as a member of the Audit and Corporate Governance Committees. He served as Executive Vice President and CFO of Danaher Corporation from 1998 to 2005 and Executive Vice President from 2005 to 2007. Additionally, he served as a public accountant at Arthur Andersen from 1968 to 1985. He has served as a director of Colfax Corporation since 2008 and Diebold, Inc. since 2011. Mr. Allender's strong background in finance and accounting, as well as his past experience as the CFO of a public company, provides the Board with financial expertise and insight.

Table of Contents

Gary S. Balkema - Mr. Balkema was elected to the Board of Directors in 2010. He currently serves as the Chair of the Management Development and Compensation Committee and is a member of the Audit and Technology Committees. From 2000 to 2011, he served as the President of Bayer Healthcare LLC and Worldwide Consumer Care Division. Mr. Balkema was also responsible for overseeing Bayer LLC USA's compliance program. He has over 20 years of general management experience. Mr. Balkema serves as a director of PLx Pharma, Inc. Mr. Balkema brings strong experience in consumer marketing skills and mergers, acquisitions and integrations. His broad operating and functional experience are valuable to the Company given the diverse nature of the Company's portfolio.

Elizabeth Pungello Bruno, Ph.D - Dr. Bruno was elected to the Board of Directors in 2003. She serves as a member of the Management Development and Compensation, Corporate Governance and Technology Committees. Dr. Bruno is the President of the Brady Education Foundation in Chapel Hill, North Carolina and a Research Associate Professor in the Developmental Psychology Program at the University of North Carolina at Chapel Hill, and has appointments at the Frank Porter Graham Development Institute and the Center for Developmental Science. Dr. Bruno also serves on the editorial board of the Journal of Marriage and Family and the Early Childhood Research Quarterly, as a reviewer for several other journals, and on a number of other non-profit boards. She is the granddaughter of William H. Brady, Jr., the founder of Brady Corporation. As a result of her substantial ownership stake in the Company, as well as her family's history with the Company, she is well positioned to understand, articulate and advocate for the rights and interests of the Company's shareholders.

Nancy L. Gioia - Ms. Gioia was elected to the Board of Directors in 2013. She serves as the Chair of the Technology Committee and is a member of the Management Development and Compensation Committee. Ms. Gioia also presently serves as a Director of Exelon Corporation where she is a member of the Finance and Risk Committee and the Generation Oversight Committee. In addition, Ms. Gioia is a former director of Inforum, a non-profit women's professional development organization. Ms. Gioia joined Ford Motor Company in 1982 and served in a variety of engineering and technology roles through her retirement in October 2014. Her senior executive leadership positions include Director, Global Connectivity, Electrical and User Experience; Director, Global Electrification; Director, Sustainable Mobility Technologies and Hybrid Vehicle Programs; Director, North America Current Vehicle Model Quality; Engineering Director, Visteon/Ford Due Diligence; Engineering Director, Small Front Wheel Drive/Rear Wheel Drive Car Platforms-North America; and Vehicle Programs Director, Lifestyle Vehicles. While at Ford Motor Company, she served on the Boards of Auto Alliance International, a joint venture of Ford Motor Company and Mazda Corporation; the Electric Drive Transportation Association; the California Plug-in EV Collaborative; and on the State of Michigan, Governor's Talent Investment Board. Ms. Gioia's extensive experience in strategy, technology and engineering solutions, as well as her general business experience, provides the Board with important expertise in product development and operations.

Conrad G. Goodkind - Mr. Goodkind was elected to the Board of Directors in 2007. He currently serves as the Chair of the Board of Directors, Chair of the Corporate Governance Committee and as a member of the Finance and Audit Committees. He previously served as Secretary of the Company from 1999 to 2007. Mr. Goodkind was a partner in the law firm of Quarles & Brady, LLP, where his practice concentrated in corporate and securities law from 1979 to 2009. Prior to 1979, he served as Wisconsin's Deputy Commissioner of Securities. Mr. Goodkind previously served as a director of Cade Industries, Inc. and Able Distributing, Inc. His extensive experience in advising companies on a broad range of transactional matters, including mergers and acquisitions and securities offerings, and historical knowledge of the Company provide the Board with expertise and insight into governance, business and compliance issues that the Company encounters.

Frank W. Harris, Ph.D - Dr. Harris was elected to the Board of Directors in 1991. He serves as a member of the Technology, Management Development and Compensation and Corporate Governance Committees. He served as the Distinguished Professor of Polymer Science and Biomedical Engineering at the University of Akron from 1983 to 2008 and Professor of Chemistry at Wright State University from 1970 to 1983. He is the founder of several

technology-based companies including Akron Polymer Systems, where he serves as President and CEO. Dr. Harris is the inventor of several commercialized products, including an optical film that realized over one billion dollars in sales. His extensive experience in technology and engineering solutions provides the Board with important expertise in new product development.

Bradley C. Richardson - Mr. Richardson was elected to the Board of Directors in 2007. He serves as the Chair of the Audit Committee and is a member of the Corporate Governance and Finance Committees. He is the Executive Vice President and CFO of PolyOne Corporation. He previously served as the Executive Vice President and CFO of Diebold, Inc. from 2009 to 2013, and as Executive Vice President Corporate Strategy and CFO of Modine Manufacturing from 2003 to 2009. Prior to Modine, he spent 21 years with BP Amoco serving in various financial and operational roles with assignments in North America, South America and Europe. Mr. Richardson previously served on the boards of Modine Manufacturing and Tronox, Inc. He brings to the Company extensive knowledge and experience in the areas of operations, strategy, accounting, tax accounting and finance, which are areas of critical importance to the Company as a global company.

Table of Contents

Harold L. Sirkin - Mr. Sirkin was elected to the Board of Directors in February 2015. He serves as a member of the Technology and Management Development and Compensation Committees. Mr. Sirkin is Senior Partner and Managing Director of the Boston Consulting Group, where he has worked since 1981. Prior to the Boston Consulting Group, Mr. Sirkin was an auditor for Deloitte, Haskins & Sells, and is a certified public accountant. His extensive experience in advising companies on a broad range of matters, including strategy, operations and new product development, as well as general business experience, provides the Board with expertise and insight to drive operations improvement and growth.

All Directors serve until their respective successors are elected at the next annual meeting of shareholders. Officers serve at the discretion of the Board of Directors. None of the Company's Directors or executive officers has any family relationship with any other Director or executive officer.

Board Leadership Structure - The Board does not have a formal policy regarding the separation of the roles of Chief Executive Officer and Chair of the Board, as the Board believes it is in the best interest of the Company to make that determination based on the position and direction of the Company and the membership of the Board. In September 2015, upon the recommendation of the Corporate Governance Committee, the Board appointed a non-executive Chair in order to harmonize the Board's leadership structure to prevailing governance practices. Prior to the appointment of the non-executive Chair, in the period beginning in fiscal 2010, the Board had formalized the position of Lead Independent Director. The duties of the non-executive Chair include, among others: chairing meetings of the Board and executive sessions of the non-management Directors; meeting periodically with the Chief Executive Officer and consulting as necessary with management on current significant issues facing the Company; facilitating effective communication among the Chief Executive Officer and all members of the Board; and overseeing the Board's shareholder communication policies and procedures. Mr. Goodkind previously served as the Lead Independent Director until August 2015 and began serving as Chair of the Board in September 2015.

The Board believes that its current leadership structure has enhanced the Board's oversight of, and independence from, Company management; the ability of the Board to carry out its roles and responsibilities on behalf of the Company's shareholders; and the Company's overall corporate governance.

Risk Oversight - The Board oversees the Company's risk management processes directly and through its committees. In general, the Board oversees the management of risks inherent in the operation of the Company's businesses, the implementation of its strategic plan, its acquisition and capital allocation program and its organizational structure. Each of the Board's committees also oversees the management of Company risks that fall within the committee's areas of responsibility. The Company's management is responsible for reporting significant risks to executives at the quarterly disclosure committee meeting. The significance of the risk is assessed by executive management and escalation to the respective board committee and Board of Directors is determined. The Company reviews its risk assessment with the Audit Committee annually.

Audit Committee Financial Expert - The Company's Board of Directors has determined that at least one Audit Committee financial expert is serving on its Audit Committee. Messrs. Richardson, Chair of the Audit Committee, and Allender and Balkema, members of the Audit Committee, are financial experts and are independent under the rules of the SEC and the New York Stock Exchange ("NYSE").

Director Independence - A majority of the Directors must meet the criteria for independence established by the Board in accordance with the rules of the NYSE. In determining the independence of a Director, the Board must find that a Director has no relationship that may interfere with the exercise of his or her independence from management and the Company. In undertaking this determination with respect to the Company's Directors other than Mr. Nauman, the Board considered the commercial relationships of the Company, if any, with those entities that have employed the Company's Directors. The commercial relationships, which involved the purchase and sale of products on customary

terms, did not exceed the maximum amounts proscribed by the director independence rules of the NYSE. Furthermore, the compensation paid to the Company's Directors by their employers was not linked in any way to the commercial relationships their employers had with the Company in fiscal 2016. After consideration of these factors, the Board concluded that the commercial relationships were not material and did not prevent the Company's Directors from being considered independent. Based on application of the NYSE independence criteria, all Directors, with the exception of Mr. Nauman, President and CEO, are deemed independent. All members of the Audit, Management Development and Compensation, and Corporate Governance Committees are deemed independent.

Meetings of Non-management Directors - The non-management Directors of the Board regularly meet alone without any members of management present. The Chair of the Board, currently Mr. Goodkind, is the presiding Director at these sessions. In fiscal 2016, there were five executive sessions. Interested parties can raise concerns to be addressed at these meetings by calling the confidential Brady hotline at 1-800-368-3613.

Table of Contents

Audit Committee Members - The Audit Committee, which is a separately-designated standing committee of the Board of Directors, is composed of Messrs. Richardson (Chair), Allender, Balkema, and Goodkind. Each member of the Audit Committee has been determined by the Board to be independent under the rules of the SEC and NYSE.

Code of Ethics - For a number of years, the Company has had a code of ethics for its employees. This code of ethics applies to all of the Company's employees, officers and Directors. The code of ethics can be viewed at the Company's corporate website, www.bradycorp.com, or may be obtained in print by any person, without charge, by contacting Brady Corporation, Investor Relations, P.O. Box 571, Milwaukee, WI 53201. The Company intends to satisfy the disclosure requirements under Item 5.05 of Form 8-K regarding an amendment to, or a waiver from, a provision of its code of ethics by placing such information on its Internet website.

Corporate Governance Guidelines - Brady's Corporate Governance Principles, as well as the charters of the Audit, Corporate Governance and Management Development and Compensation Committees, are available on the Company's Corporate website, www.bradycorp.com. Shareholders may request printed copies of these documents from Brady Corporation, Investor Relations, P.O. Box 571, Milwaukee, WI 53201.

Director Qualifications - Brady's Corporate Governance Committee reviews the individual skills and characteristics of the Directors, as well as the composition of the Board as a whole. This assessment includes a consideration of independence, diversity, age, skills, expertise, and industry backgrounds in the context of the needs of the Board and the Company. Although the Company has no policy regarding diversity, the Corporate Governance Committee seeks a broad range of perspectives and considers both the personal characteristics and experience of Directors and prospective nominees to the Board so that, as a group, the Board will possess the appropriate talent, skills and expertise to oversee the Company's businesses.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's Directors and executive officers, and persons who own more than ten percent of a registered class of the Company's equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. Executive officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file. To the Company's knowledge, based solely on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the fiscal year ended July 31, 2016, all Section 16(a) filing requirements applicable to its officers, directors and greater than 10 percent beneficial owners were complied with.

Table of Contents

Item 11. Executive Compensation

Compensation Discussion and Analysis

Overview

Our Compensation Discussion and Analysis focuses upon the Company's total compensation philosophy, the role of the Management Development & Compensation Committee (for purposes of the Compensation Discussion and Analysis section, the "Committee"), total compensation components inclusive of base salary, short-term incentives, long-term incentives, benefits, perquisites, severance amounts and change-in-control agreements for our executive officers, market and peer group data and the approach used by the Committee when determining each element of the total compensation package.

For fiscal 2016, the following executive officers' compensation is disclosed and discussed in this section (the "named executive officers" or "NEOs"):

- ¶ Michael Nauman, President, Chief Executive Officer and Director;
- ▲ Aaron J. Pearce, Senior Vice President, Chief Financial Officer and Chief Accounting Officer;
- ⚡ Louis T. Bolognini, Senior Vice President, General Counsel and Secretary;
- ⚡ Thomas J. Felmer, Senior Vice President and President - Workplace Safety; and
- ⚡ Russell R. Shaller, Senior Vice President and President - Identification Solutions.

Executive Summary

Fiscal 2016 Business Highlights

The ability to provide customers with a broad range of proprietary, customized and diverse products for use in various applications across multiple customers and geographies, along with a commitment to quality and service, have made Brady a leader in many of its markets. The long-term sales growth and profitability of our segments will depend not only on improved demand in end markets and the overall economic environment, but also on our ability to continuously improve operational excellence, focus on the customer, develop and market innovative new products, and to advance our digital capabilities. In our IDS business, our strategy for growth includes an increased focus on key customers, industries and products and improving the efficiency and effectiveness of the research and development ("R&D") function. In our WPS business, our strategy for growth includes a focus on workplace safety critical industries, innovative new product offerings, and increased investment in digital capabilities.

○ On a GAAP basis, our fiscal 2016 net earnings were \$80.1 million;

● Brady continues to demonstrate adequate cash generation to meet ongoing business needs as we generated \$139.0 million of cash flow from operating activities during the year ended July 31, 2016; and

● Our sales for the full year were \$1.12 billion, down 4.4% from fiscal 2015. Organic sales were down 0.7% and foreign currency translation decreased sales by 3.7%.

Fiscal 2016 Compensation Matters

For fiscal 2016, the Board of Directors approved a 3.7% increase in base salary for Mr. Nauman. In addition, Mr. Nauman recommended and the Committee approved increases in base salary for Messrs. Pearce and Bolognini. All increases were made to recognize the performance and current scope of responsibilities of each executive, and with regard to Messrs. Nauman and Pearce, to better align their base salary compensation with those holding comparable positions at peer companies. Messrs. Felmer and Shaller did not receive a base salary increase as Mr. Felmer's base salary is positioned above the median of the peer group and Mr. Shaller had recently joined the Company.

We had significant improvements in the profitability of the Company, exceeding our fiscal 2016 pre-established goals overall. In addition, we exceeded expectations related to the completion of the fiscal year objectives deemed critical to the execution of the Company's strategy. Therefore, our NEOs earned cash incentive awards for fiscal 2016. The cash incentive awards to NEOs were below target largely because our organic revenue growth results for fiscal 2016 fell short of our pre-established targets. The NEOs also received annual equity incentive awards consistent with award sizes of those individuals holding comparable positions at our peer companies.

As a group, 71% of the compensation that we paid to our NEOs was in the form of incentive awards, and 79% of the total incentive awards were paid in the form of equity. Fiscal 2016 grants were made in the form of time-based stock options and time-based restricted stock units. Two-thirds of the award granted to Mr. Nauman and one-half of the award granted to all other NEOs was in the form of stock options, which are inherently performance-based and have value only to the extent that the price of our

Table of Contents

stock increases. The remaining one-third of the award granted to Mr. Nauman and remaining one-half of the award granted to all other NEOs was in the form of restricted stock units that vest with the passage of time and are intended to facilitate retention.

Overall, the grant date fair value of equity awards granted to our NEOs was lower than in fiscal 2015. The decrease in aggregate award value was the result of sign-on and retention awards of time-based restricted stock units awarded to Messrs. Nauman and Pearce respectively, during fiscal 2015, which were not similarly awarded in fiscal 2016. Overall, target total compensation for our named executive officers was at the median of our peer group companies for fiscal 2016.

Recent Compensation Decisions

Effective August 28, 2015, the Company entered into a Change of Control Agreement with Mr. Shaller (the "Change of Control Agreement"). Under the terms of the Change of Control Agreement, in the event of a qualifying termination within 24 months following a change of control (as such events are defined in the Change of Control Agreement), Mr. Shaller will receive two times his base salary and two times the average bonus payment received in the three years immediately prior to the date of the change of control.

Effective September 11, 2015, the Company entered into a Change of Control Agreement with Mr. Pearce (the "Change of Control Agreement"). Under the terms of the Change of Control Agreement, in the event of a qualifying termination within 24 months following a change of control (as such events are defined in the Change of Control Agreement), Mr. Pearce will receive two times his base salary and two times the average bonus payment received in the three years immediately prior to the date of the change of control.

On May 23, 2016, the Brady Corporation 2017 Omnibus Incentive Plan (the "2017 Plan") was approved. The 2017 Plan became effective August 1, 2016. The 2017 Plan is intended (i) to provide incentives for directors and employees of the Company and its affiliates to improve corporate performance on a long-term basis, (ii) to attract and retain directors and employees and (iii) to align the long-term interests of participants with those of the Company and its shareholders. The 2017 Plan is an equity and cash-based incentive plan and includes provisions by which the Company may grant stock options, stock appreciation rights, restricted stock, restricted stock units, unrestricted stock and cash incentive awards. A total of up to 5,000,000 shares of the Company's Class A Non-Voting Common Stock have been authorized for issuance pursuant to the 2017 Plan, subject to adjustment as provided in the 2017 Plan.

Effective with the start of fiscal 2017, the Committee began granting performance-based restricted stock units. For certain executive officers, the awards represent additional compensation; for other officers, the award simply changed the overall mix of equity incentive awards granted. The performance-based restricted stock units granted have a three-year performance period with the number of shares issued at vesting determined by the Company's achievement of organic revenue and operating income growth goals over the three-year performance period. Payout opportunities will range from 0% to 200% of the target award.

Table of Contents

Executive Compensation Practices

As part of the Company's pay for performance philosophy, the Company's compensation program includes several features that maintain alignment with shareholders:

Emphasis on Variable Compensation Nearly 50% of the named executive officers' possible compensation is tied to Company performance, which is intended to drive shareholder value.

Ownership Requirements Mr. Nauman is required to own shares in the Company at a value equal to five times his base salary. Messrs. Pearce, Felmer and Shaller are required to own shares in the Company at a value equal to three times their base salaries. Mr. Bolognini is required to own shares in the Company at a value equal to two times his base salary. Our NEOs are expected to obtain the required ownership levels within five years and may not sell shares, other than to cover tax withholding requirements associated with the vesting or exercise of the equity award, until such time as they meet the requirements.

Clawback Provisions Following a review and analysis of relevant governance and incentive compensation practices and policies across our compensation peer group and other public companies, the Committee instituted a recoupment policy, effective August 2013, under which incentive compensation payments and/or awards may be recouped by the Company if such payments and/or awards were based on erroneous results. If the Committee determines that an executive officer or other key executive of the Company who participates in any of the Company's incentive plans has engaged in intentional misconduct that results in a material inaccuracy in the Company's financial statements or fraudulent or other willful and deliberate conduct that is detrimental to the Company or there is a material, negative revision of a performance measure for which incentive compensation was paid or awarded, the Committee may take a variety of actions including, among others, seeking repayment of incentive compensation (cash and/or equity) that is greater than what would have been awarded if the payments/awards had been based on accurate results and the forfeiture of incentive compensation. As this policy suggests, the Committee believes that any incentive compensation should be based only on accurate and reliable financial and operational information, and, thus, any inappropriately paid incentive compensation should be returned to the Company for the benefit of shareholders. The Committee expects that the implementation of this policy will serve to enhance the Company's compensation risk mitigation efforts. While the implemented policy affords the Committee discretion regarding the application and enforcement of the policy, the Company and the Committee will conform the policy to any requirements that may be promulgated by the national stock exchanges in the future, as mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Performance Thresholds and Caps We provide cash incentive awards based on achievement of annual performance goals with payouts that range from 0% to 200% of target opportunities. We grant equity compensation that promotes long-term financial and operating performance by delivering incremental value to executive officers to the extent our stock price increases over time. In fiscal 2017, we began granting performance-based restricted stock units to executive officers with the number of shares issued at vesting determined by the achievement of certain performance goals over a three-year period.

Securities Trading Policy Our Insider Trading Policy prohibits executive officers from trading during certain periods at the end of each quarter until after we disclose our financial and operating results. We may impose additional restricted trading periods at any time if we believe trading by executives would not be appropriate because of developments that are, or could be, material and which have not been publicly disclosed.

The Insider Trading Policy also prohibits the pledging of Company stock as collateral for loans, holding Company securities in a margin account by officers, directors or employees, and the hedging of Company securities.

Annual Risk
Reviews

The Company conducts an annual compensation-related risk review and presents findings and suggested risk mitigation actions to both the Audit and Management Development and Compensation Committees.

Table of Contents

The Company's compensation programs also maintain alignment with shareholders by not including certain features:

No Excessive Change of Control Payments Mr. Nauman's maximum cash benefit is equal to two times salary and two times target bonus plus a prorated target bonus in the year in which the termination occurs. For all other NEOs, the maximum cash benefit is equal to two times salary and two times the average bonus payment received in the three years immediately prior to the date the change of control occurs. In the event of a change of control, unexercised stock options become fully exercisable or, if canceled, each named executive officer shall be given cash or stock equal to the in-the-money value of the canceled stock options. In the event of a change of control, restricted stock units become unrestricted and fully vested.

No Employment Agreements The Company does not maintain any employment agreements with its executives. Both Mr. Nauman's Offer Letter and Mr. Shaller's Offer Letter provide that each is deemed an at-will employee, but will receive a severance benefit in the event his employment is terminated by the Company without cause or for good reason as described in the respective Offer Letter.

No Reloads, Repricing, or Options Issued at a Discount Stock options issued are not repriced, replaced, or regranted through cancellation or by lowering the option price of a previously granted option.

Compensation Philosophy and Objectives

We seek to align the interests of our executives with those of our investors by evaluating performance on the basis of key financial measurements that we believe closely correlate to long-term shareholder value. To this end, we have structured our compensation program to accomplish the following:

- Allow the Company to compete for, retain and motivate talented executives;
- Deliver compensation plans that are both internally equitable when comparing similar roles and levels within the Company and externally competitive when comparing to the external marketplace and the Company's designated peer group;
- Maintain an appropriate balance between base salary and short- and long-term incentive opportunities;
- Provide integrated compensation programs aligned to the Company's annual and long-term financial goals and realized performance;
- Recognize and reward individual initiative and achievement with the amount of compensation each executive receives reflective of the executive's level of proficiency within his or her role/job family and their level of sustained performance; and
- Institute a "pay for performance" philosophy where level of rewards are aligned to Company performance.

Determining Compensation

Management Development and Compensation Committee's Role

The Committee is responsible for monitoring and approving the compensation of the Company's named executive officers. The Committee approves compensation and benefit policies and strategies, approves corporate goals and objectives relative to the chief executive officer and other executive officer compensation, oversees the development process and reviews development plans of key executives, reviews compensation-related risk, administers our equity incentive plans including compliance with executive share ownership requirements, approves all severance policies or pay-outs, and consults with management regarding employee compensation generally. With respect to executive officers, at the beginning of each year, the Committee sets base salaries, approves the cash bonuses paid for the prior fiscal year, approves equity incentive awards for the new fiscal year and establishes the objective performance targets

to be achieved for the new year. When a new executive officer is hired, the Committee is involved in reviewing and approving base salary, annual incentive opportunity, sign-on incentives, annual equity awards, and other aspects of the executive's compensation.

Consultants' Role

The Committee has historically utilized the services of an executive compensation consulting firm and legal counsel to assist with the review and evaluation of compensation levels and policies on a periodic basis, as well as to provide advice with respect to new or modified compensation arrangements. In fiscal 2016, the Committee utilized the services of Meridian Compensation Partners as compensation consultants and Quarles & Brady LLP, as legal counsel, both of which were determined to be independent by the Corporate Governance Committee.

Table of Contents

Management's Role

To aid in determining compensation for fiscal 2016, management obtained data regarding comparable executive officer compensation through a standard data subscription with Equilar, Inc. For fiscal 2016, Mr. Nauman used this data to make recommendations to the Committee concerning compensation for each named executive officer other than himself. In setting compensation for our named executive officers, the Committee takes into consideration these recommendations, along with the results of the Company during the previous fiscal year, the level of responsibility, demonstrated leadership capability, the compensation levels of executives in comparable roles from within our peer group and the results of annual performance reviews which, for our chief executive officer, included a self-assessment and feedback from his direct reports and each member of the Board of Directors. In addition, during fiscal 2016, the Committee took into consideration the recommendations of its independent compensation consultant, particularly with respect to compensation elements for the chief executive officer. Mr. Nauman did not attend the portion of any committee meeting during which the Committee discussed matters related specifically to his compensation.

Tally Sheets

The Committee reviews executive officer compensation tally sheets each year. These summaries set forth the dollar amount of all components of each named executive officer's compensation, including base salary, annual target and actual cash incentive compensation, annual equity incentive compensation, the value of outstanding equity, stock option exercises during the year, stock option gains during the year, the value of Brady's contribution to retirement plans, the value of Company-provided health and welfare benefits and social security taxes paid on the executive's behalf. Reviewing this information allows the Committee to determine what an executive officer's total compensation is and how a potential change to an element of our compensation program would affect the officer's overall compensation.

Components of Compensation

Our total compensation program includes five components: base salary, annual cash incentives, long-term equity incentives, employee benefits and perquisites. Each component serves a particular purpose and, therefore, each is considered independent of the other components, although all five components combine to provide a holistic total compensation approach. We use these components of compensation to attract, retain, motivate, develop and reward our executives.

The base salary, annual cash and long-term equity incentive components are determined through a pay-for-performance approach, targeted at market median for the achievement of performance goals with an opportunity for upper quartile pay when upper quartile performance is achieved. Our compensation structure is balanced by the payment of below market median compensation to our NEOs when actual fiscal results do not meet or exceed expected financial results. The following table describes the purpose of each performance-based component and how that component is related to our pay-for-performance approach:

Table of Contents

| Compensation Component | Purpose of Compensation Component | Compensation Component in Relation to Performance |
|--|--|---|
| Base salary | A fixed level of income security used to attract and retain employees by compensating them for the primary functions and responsibilities of the position. | The base salary increase an employee receives depends upon the employee's individual performance, the employee's displayed skills and competencies and market competitiveness. |
| Annual cash incentive award | To attract, retain, motivate and reward employees for achieving or exceeding annual performance goals at Company and platform levels. | Financial performance determines the actual amount of the executive's annual cash incentive award. Award amounts are "self-funded" because they are included in the financial performance results when determining actual financial performance. An assessment of executive leadership, experience and expected future contribution, combined with market competitive grant information, are used to determine the amount of equity granted to each executive. |
| Annual equity incentive award: Time-based stock options, time-based RSUs and performance-based RSUs | To attract, retain, motivate and reward top talent for the successful creation of long-term stockholder value. | Stock options are inherently performance-based in that the stock price must increase over time to provide compensation value to the executive. Time-based RSUs serve as a strong reward and retention device, while promoting the alignment of executive decisions with Company goals and shareholder interests. Performance-based RSUs serve to align executives with shareholders and reward executives only for results achieved over a 3-year performance period. |

Establishing Our Total Compensation Component Levels

The Committee uses peer group data to test the reasonableness and competitiveness of several components of compensation, including base salaries, annual cash incentives, and long-term equity incentives of positions similar to those of our NEOs. The following 25 companies were included in the fiscal 2016 total compensation analysis conducted using publicly available data sourced through Equilar, Inc:

| | | |
|---|--------------------------------|--------------------------------|
| Actuant Corporation | ESCO Technologies Inc. | Myers Industries Inc. |
| Acuty Brands, Inc. | Federal Signal Corp. | Nordson Corporation |
| A.O. Smith Corporation | Graco Inc. | Plexus Corp. |
| Apogee Enterprises, Inc. | HB Fuller Company | Polypore International Inc. |
| Barnes Group Inc. | Hexcel Corporation | Powell Industries, Inc. |
| Clarcor Inc. | IDEX Corporation | Watts Water Technologies, Inc. |
| Curtiss-Wright Corporation II-VI Incorporated | | Zebra Technologies Corporation |
| EnPro Industries, Inc. | Modine Manufacturing Company | |
| Entegris, Inc. | Mine Safety Appliances Company | |

Based on our analysis of the fiscal 2016 peer group used for determining fiscal 2016 compensation, performed in May 2015, the base salaries of our named executive officers were generally at the median of our peers, with the exception of Mr. Felmer whose base salary was above the median. Fiscal 2016 target total compensation of our NEOs, inclusive of base salary, cash incentives and equity awards, was below the median of our peer companies, with the exception of Mr. Felmer whose target total compensation was above the median. Mr. Felmer previously served as the Company's Chief Financial Officer, which typically has a higher market value than Mr. Felmer's current role. Mr. Felmer's base salary has not increased since he accepted the role as President - Workplace Safety.

Table of Contents

Fiscal 2016 Named Executive Officer Compensation

Base Salaries

For fiscal 2016, the Board of Directors approved a 3.7% increase in base salary for Mr. Nauman. In addition, Mr. Nauman recommended and the Committee approved increases in base salary for Messrs. Pearce and Bolognini. All increases were made to recognize the performance and current scope of responsibilities of each executive, and with regard to Messrs. Nauman and Pearce, to better align their base salary with those holding comparable positions at peer companies. Messrs. Felmer and Shaller did not receive a base salary increase as Mr. Felmer's base salary was positioned above the median of the peer group and Mr. Shaller had recently joined the Company.

| Named Executive Officer | Fiscal 2015 | Fiscal 2016 | Percentage Increase | |
|-------------------------|-------------|-------------|---------------------|---|
| J. Michael Nauman | \$ 675,000 | \$ 693,750 | 3.7 | % |
| Aaron J. Pearce | 288,429 | 315,000 | 6.7 | % |
| Louis T. Bolognini | 329,902 | 333,725 | 1.5 | % |
| Thomas J. Felmer | 386,937 | 386,937 | — | % |
| Russell R. Shaller | 340,000 | 340,000 | — | % |

The salary detail in the table above reflects the annualized 12-month salary for each executive. The salaries in the Summary Compensation Table reflect fiscal year compensation earned including three (3) months at fiscal 2015 rates and nine (9) months at fiscal 2016 rates.

Annual Cash Incentive Awards

The Company is managed on a global basis with three business platforms, ID Solutions, Workplace Safety and People Identification, which aggregate into two reportable segments: ID Solutions and Workplace Safety. All named executive officers participate in an annual cash incentive plan, which is based on fiscal year financial results of the Company or a segment. Set forth below is a description of the fiscal 2016 financial measures for the annual cash incentive plan:

| Performance Metric | Definition | Weighting | NEO |
|--------------------------------|--|-----------|--------------------------------------|
| Total Company organic revenue | Total Company organic revenue is measured as total company sales from continuing operations, at actual exchange rates, excluding all acquired and divested sales. Total company organic revenue is also known as "core sales" and "base sales." Total Company organic revenue is reported quarterly and annually in the Company's 10-Q and 10-K SEC filings. | 30% | Messrs. Nauman, Pearce and Bolognini |
| Pre-tax income | Pre-tax income is defined as total Company revenues from continuing operations at actual exchange rates minus total Company expenses for the cost of doing business before deducting income tax expense. Pre-tax income excludes certain non-routine expenses such as restructuring charges and income or loss from acquisitions or divestitures completed in fiscal 2016. | 50% | Messrs. Nauman, Pearce and Bolognini |
| Segment organic revenue | Segment organic revenue is measured as segment customer sales from continuing operations, at budgeted exchange rates, excluding all acquired and divested sales. | 30% | Messrs. Felmer and Shaller |
| Segment income from operations | Segment income from operations is measured as segment sales less the segment's cost of goods sold, selling expenses and expenses of continuing operations, at budgeted exchange rates, for the current year. | 50% | Messrs. Felmer and Shaller |
| | | 20% | All NEOs |

Fiscal year objectives In fiscal 2016, the Company had seven fiscal year objectives that were established at the beginning of the fiscal year and viewed as critical to the execution of the Company's strategy. The amount funded depends on the number of fiscal year objectives achieved in fiscal 2016 at the total Company level.

The achievement of the total Company organic revenue and profit thresholds for those named executive officers whose incentive is determined by those goals, and of the segment organic revenue and profit thresholds for those named executive officers

76

Table of Contents

whose incentive is determined by those goals, in combination with the fiscal year objectives as defined above, determines how much the annual bonus pool is funded. However, if the threshold fiscal year profit related growth goal is missed within an annual cash incentive plan, no annual bonus pool is funded for that plan, regardless of the final revenue and fiscal year objective goals achieved.

The NEOs individual contribution, in line with their annual performance rating, is used as a multiplier to determine what percentage of available bonus is earned and payable to him and can range from 0% to 150%.

Messrs. Nauman, Pearce and Bolognini

The cash incentive payable to Messrs. Nauman, Pearce and Bolognini for fiscal 2016 was based on total Company organic revenue, pre-tax income and achievement of the fiscal year objectives. We use organic revenue because we believe that the long-term value of our enterprise depends on our ability to grow revenue without regard for acquisitions. We use pre-tax income to focus on effectively managing our costs while growing our revenue and we use fiscal year objectives as these are critical to the execution of the Company's strategy.

For fiscal 2016, the total Company organic revenue threshold was not achieved. However, a bonus was funded for these named executive officers for the achievement of our pre-tax income and fiscal year objective goals. The multiplier for individual performance also applies. The threshold, target, maximum and actual payout amounts for Messrs. Nauman, Pearce and Bolognini were as follows:

| Performance Measure (weighting) | Threshold | Target | Maximum | Fiscal 2016 Actual Results | | | |
|-----------------------------------|-----------|-----------|-------------------|----------------------------|---------------|---|---------------|
| Organic Revenue (30%)(millions) | \$1,130.7 | \$1,182.0 | \$1,221.7 or more | \$1,120.6 | | | |
| Pre-Tax Income (50%)(millions) | \$88.3 | \$111.0 | \$145.0 or more | \$109.3 | | | |
| Fiscal Year Objectives (20%) | 0 % | 100 % | 125 % | % 118% | | | |
| Individual Performance Multiplier | 0 % | 100 % | 150 % | % Varies (1) | | | |
| | | | | Actual Payout | Actual Payout | | Actual Payout |
| Fiscal 2016 Bonus Award | | | | (% of Target) | (% of Salary) | | (\$) |
| J.M. Nauman | 0 % | 100 % | 200 % | % 76.3% | % 76.3 | % | \$528,984 |
| A.J. Pearce | 0 % | 60 % | 120 % | % 76.3% | % 45.8 | % | \$144,113 |
| L.T. Bolognini | 0 % | 60 % | 120 % | % 61.0% | % 36.6 | % | \$122,143 |

(1) The named executive officer's individual contribution is used as a multiplier to determine what percentage of available bonus is earned and payable to him or her and can range from 0% to 150%. The individual performance multiplier used in the calculation of the final bonus payable to Messrs. Nauman, Pearce and Bolognini was 125%, 125% and 100%, respectively.

Messrs. Felmer and Shaller

The cash incentive payable to Mr. Felmer for fiscal 2016 was based on achievement of WPS segment organic revenue, WPS segment income from operations, and achievement of fiscal year objectives. The cash incentive payable to Mr. Shaller for fiscal 2016 was based on achievement of IDS segment organic revenue, IDS segment income from operations, and achievement of fiscal year objectives. We use segment organic revenue and segment income from operations goals because we believe they align Messrs. Felmer and Shaller to the management of sales and expenses directly within their control as the President-Workplace Safety, and President-Identification Solutions, respectively.

Table of Contents

For fiscal 2016, the segment organic revenue thresholds for WPS and IDS were not achieved. However, a bonus was funded for Messrs. Felmer and Shaller for the achievement of segment income from operations and fiscal year objectives. The multiplier for individual performance also applies.

For 2016, the threshold, target, maximum and actual payout amounts for Mr. Felmer were as follows:

| Performance Measure (weighting) | Threshold | Target | Maximum | Fiscal 2016 Actual Results |
|---|-----------|---------|-----------------|--|
| WPS Segment Organic Revenue (30%)(millions) | \$345.8 | \$363.0 | \$367.6 or more | \$342.8 |
| WPS Segment IFO (50%)(millions) | \$53.2 | \$65.0 | \$70.0 or more | \$59.6 |
| Fiscal Year Objectives (20%) | 0 % | 100 % | 125 | % 118% |
| Individual Performance Multiplier | 0 % | 100 % | 150 | % 100% |
| Fiscal 2016 Bonus Award | | | | Actual Payout Actual Payout Actual Payout (% of Target Salary) (\$) |
| T.J. Felmer | 0 % | 80 % | 160 | % 36.0% 28.8 % \$111,438 |

For 2016, the threshold, target, maximum and actual payout amounts for Mr. Shaller were as follows:

| Performance Measure (weighting) | Threshold | Target | Maximum | Fiscal 2016 Actual Results |
|---|-----------|---------|-----------------|--|
| IDS Segment Organic Revenue (30%)(millions) | \$554.7 | \$580.0 | \$597.0 or more | \$548.7 |
| IDS Segment IFO (50%)(millions) | \$108.5 | \$126.0 | \$140.0 or more | \$126.8 |
| Fiscal Year Objectives (20%) | 0 % | 100 % | 125 | % 118% |
| Individual Performance Multiplier | 0 % | 100 % | 150 | % 125% |
| Fiscal 2016 Bonus Award | | | | Actual Payout Actual Payout Actual Payout (% of Target Salary) (\$) |
| R.R. Shaller | 0 % | 55 % | 110 | % 91.9% 50.5 % \$171,806 |

The target annual cash incentive award that would be payable to each executive officer is calculated as a percentage of the officer's eligible compensation defined as base salary in effect during the fiscal year, pro-rated to reflect base salary adjustments throughout the fiscal year.

For fiscal 2016, the Committee reviewed the impact of unusual and unforeseen events on the payout of bonuses and determined that none would be considered in the calculation of bonus payouts. In general, the Committee regularly reviews and makes decisions on the impact of unusual events on a case-by-case basis and continually evaluates compensation policies and practices in light of ongoing developments and best practices in the area of incentive compensation.

Long-Term Equity Incentive Awards

The Company utilizes a variety of incentive vehicles including time-based stock options, performance-based RSUs (beginning in 2017) and time-based RSUs to attract, retain and motivate key employees who directly impact the long-term performance of the Company. The size and type of equity awards for executives other than the chief executive officer are determined annually by the Committee with input from the chief executive officer. With regard to the award size given to the chief executive officer, the Committee uses its discretion in combination with market competitive information obtained from Equilar, Inc. and advice from its independent compensation consultant. For fiscal 2016, the Committee reviewed historical award sizes, median levels of equity awarded to similar positions at our peer companies and the estimated value of all proposed grants. The Committee then authorized fiscal 2016 awards consisting of a combination of time-based stock options and time-based RSUs

Time-based Stock Options: The annual grant of time-based stock options in fiscal 2016 was reviewed and approved by the Committee on September 9, 2015, with an effective grant date of September 25, 2015. The exercise price is the fair market value of the stock on the grant date, which was calculated as the average of the high and low stock price on

that date. The time-based stock options generally vest one-third each year for the first three years and have a ten-year life.

Time-based RSUs: The annual grant of time-based RSUs for fiscal 2016 was reviewed and approved by the Committee on September 9, 2015, with an effective grant date of September 25, 2015. The grant date fair value was the fair market value of the

78

Table of Contents

stock on the date of grant, which was calculated as the average of the high and low stock price on that date. These time-based RSUs vest one-third each year for the first three years.

The following is a summary of the annual grant of time-based stock options and time-based RSUs made to our named executive officers on September 25, 2015:

Fiscal 2016 Annual Equity Grants

| Named Officers | Number of Time-Based Stock Options | Grant Date Fair Value | Number of Time-Based RSUs | Grant Date Fair Value |
|----------------|---|--------------------------|---------------------------------|--------------------------|
| J.M. Nauman | 301,399 | \$1,466,668 | 36,741 | \$ 733,350 |
| A.J. Pearce | 51,375 | 250,001 | 12,526 | 250,019 |
| L.T. Bolognini | 33,394 | 162,502 | 8,142 | 162,514 |
| T.J. Felmer | 56,513 | 275,004 | 13,778 | 275,009 |
| R.R. Shaller | 46,238 | 225,003 | 11,273 | 225,009 |

Other Elements of Compensation

Health and Welfare Benefits: We provide subsidized health and welfare benefits which include medical, dental, life and accidental death or dismemberment insurance, disability insurance and paid time off. Executive officers are entitled to participate in our health and welfare plans on generally the same terms and conditions as other employees, subject to limitations under applicable law. In addition, the Company maintains a supplemental executive disability policy for executives. The supplemental disability policy provides for an additional 15% of compensation, up to a maximum additional benefit of \$5,000 per month. Brady Corporation pays the premiums for these benefits; therefore, these benefits are taxable to the executive.

Retirement Benefits: Brady employees (including named executive officers) in the United States and certain expatriate employees working for its international subsidiaries are eligible to participate in the Brady Corporation Matched 401(k) Plan (the "Matched 401(k) Plan"). In addition, named executive officers in the United States and employees at many of our United States locations are also eligible to participate in the Brady Corporation Funded Retirement Plan ("Funded Retirement Plan").

Under the Funded Retirement Plan, the Company contributes 4% of the eligible earnings of each employee covered by the Funded Retirement Plan. In addition, participants may elect to have their annual pay reduced by up to 5% and have the amount of this reduction contributed to their Matched 401(k) Plan and matched with an additional 4% contribution by the Company. Participants may also elect to have up to another 45% of their eligible earnings contributed to the Matched 401(k) Plan (without an additional matching contribution by the Company and up to the maximum allowed by the IRS). The assets of the Matched 401(k) Plan and Funded Retirement Plan credited to each participant are invested by the trustee of the Plans as directed by each plan participant in a variety of investment funds as permitted by the Matched 401(k) Plan and the Funded Retirement Plan.

Due to the IRS income limitations for participating in the Matched 401(k) Plan and the Funded Retirement Plan, the named executive officers are eligible to participate in the Brady Restoration Plan. The Brady Restoration Plan is a non-qualified deferred compensation plan that allows an equivalent benefit to the Matched 401(k) Plan and the Funded Retirement Plan for named executive officer income above the IRS compensation limits.

Benefits are generally payable upon the death, disability, or retirement of the participant, or upon termination of employment before retirement, although benefits may be withdrawn from the Matched 401(k) Plan and paid to the participant if required for certain emergencies. Under certain specified circumstances, the Matched 401(k) Plan allows loans to be drawn on a participant's account. The participant is immediately fully vested with respect to employee contributions; all other contributions become fully vested over a two-year period of continuous service for the Matched 401(k) Plan and after six years of continuous service for the Funded Retirement Plan.

Deferred Compensation Arrangements: During fiscal 2002, the Company adopted the Brady Corporation Executive Deferred Compensation Plan ("Executive Deferred Compensation Plan"), under which executive officers, corporate staff

officers and certain key management employees of the Company are permitted to defer portions of their salary and bonus into a plan account, the value of which is measured by the fair value of the underlying investments. The assets of the Executive Deferred Compensation Plan are held in a Rabbi Trust and are invested by the trustee as directed by the participant in several investment funds as permitted by the Executive Deferred Compensation Plan. The investment funds available in the Executive Deferred Compensation Plan include Brady Corporation Class A Nonvoting Common Stock and various mutual funds that are provided in the Matched 401(k) Plan. On

Table of Contents

May 1, 2006, the plan was amended to require that deferrals into the Company's Class A Nonvoting Common Stock must remain in the Company's Class A Nonvoting Common Stock and be distributed in shares of the Company's Class A Nonvoting Common Stock.

At least one year prior to termination of employment, the executive must elect whether to receive their account balance following termination of employment in a single lump sum payment or by means of distribution under an Annual Installment Method. If the executive does not submit an election form or has not submitted one timely, then payment shall be made each year for a period of five years. The first payment must be one-fifth of the balance held; the second one-fourth; and so on, with the balance held in the Rabbi Trust reduced by each payment. Distributions of the Company Class A Nonvoting Common Stock are made in-kind; distributions of other assets are in cash.

Effective January 1, 2008, the Executive Deferred Compensation Plan was amended and restated to comply with the provisions of Section 409A of the Internal Revenue Code. On February 17, 2011, the Executive Deferred Compensation Plan was amended and restated to revise and clarify certain Plan terms regarding the investment of amounts in the Brady Stock Fund. Amounts deferred prior to January 1, 2005 (which were fully vested under the terms of the plan), including past and future earnings credited thereon, will remain subject to the terms in place prior to January 1, 2005.

Perquisites: Brady provides the named executive officers with the following perquisites:

Financial planning and tax preparation;

Car allowance;

Long-term care insurance; and

Personal Liability Insurance

Stock Ownership Requirements

We believe that the interests of shareholders and executives become aligned when executives become shareholders in possession of a meaningful amount of Company stock. Furthermore, this stock ownership encourages positive performance behaviors and discourages executive officers from taking undue risk. In order to encourage our executive officers and directors to acquire and retain ownership of a significant number of shares of the Company's stock, stock ownership requirements have been established.

The Board of Directors has established the following stock ownership requirements for our named executive officers:

J.M. Nauman 5 times base salary

A.J. Pearce 3 times base salary

L.T. Bolognini 2 times base salary

T.J. Felmer 3 times base salary

R.R. Shaller 3 times base salary

The stock ownership requirement for each director is five times the annual retainer.

Our NEOs are expected to obtain the required ownership levels within five years and may not sell shares, other than to cover tax withholding requirements associated with the vesting or exercise of the equity award, until such time as they meet the requirements. All NEOs other than Mr. Bolognini, who is still within his five-year acquisition period, have achieved their respective ownership levels as of the end of fiscal 2016. If an executive does not meet the above ownership level within five years of becoming subject to the requirements, the Committee may direct that the executive's after-tax payout on any incentive plans will be in Class A Nonvoting Common Stock to bring the executive up to the required level, and the executive may not sell any shares, other than to cover tax withholding requirements associated with the exercise or vesting of the equity award, until such time as they meet the requirements.

The Committee reviews the actual stock ownership levels of each of the named executive officers on an annual basis to ensure the guidelines are met. For purposes of determining whether an executive meets the required ownership level, the values of Company stock owned outright, Company stock held in the Executive Deferred Compensation Plan, Company stock owned in the Employee 401(k) Plan or pension plan and time-based restricted stock or restricted

stock units are included. In addition, the spread value of vested stock options that are “in the money” is also included. The value of performance-based restricted stock units are excluded from determining whether an executive meets the required ownership level.

Table of Contents

Insider Trading Policy

The Company's Insider Trading Policy prohibits hedging and other monetization transactions in Company securities by officers, directors and employees. The prohibition on hedging transactions includes financial instruments such as prepaid variable forwards, equity swaps, collars and exchange funds. The Insider Trading Policy also prohibits the pledging of Company stock as collateral for loans or holding Company securities in a margin account by officers, directors or employees.

Employment and Change of Control Agreements

In fiscal 2016, the Company did not have employment agreements with our executives. The Offer Letter entered into with Mr. Nauman on August 1, 2014, provides that he is deemed an at-will employee, but will receive a severance benefit equal to two times the sum of his base salary and target bonus in the event his employment is terminated without cause or for good reason as described therein. The Offer Letter entered into with Mr. Shaller on June 22, 2015, provides that he is deemed an at-will employee, but will receive a severance benefit equal to his base salary plus target bonus in the event his employment is terminated without cause or for good reason as described therein. The Board of Directors of Brady Corporation approved change of control agreements for all of the NEOs of the Company. The agreements applicable to the covered named executive officers, other than Mr. Nauman, provide a payment of an amount equal to two times their annual base salary and two times the average bonus payment received in the three years immediately prior to the date the change of control occurs in the event of termination or resignation upon a change of control. Under the terms of the Change of Control Agreement with Mr. Nauman, in the event of a qualifying termination within 24 months following a change of control (as such events are defined in the Change of Control Agreement), Mr. Nauman will receive two times his annual base salary, two times his target bonus, and the amount of his target bonus prorated based on when the termination occurs. The agreement for Mr. Felmer also provides for reimbursement of any excise taxes imposed and all of the agreements provide for up to \$25,000 of attorney fees to enforce the executive's rights under the agreement. Payments under the agreement will be spread over two years.

Under the terms of the 2012 Omnibus Incentive Stock Plan, in the event of (a) the merger or consolidation of the Corporation with or into another corporation or corporations in which the Corporation is not the surviving corporation, (b) the adoption of any plan for the dissolution of the Corporation, or (c) the sale or exchange of all or substantially all the assets of the Corporation for cash or for shares of stock or other securities of another corporation, all then-unexercised stock options become fully exercisable and all restrictions placed on restricted stock and restricted stock units will lapse. If any stock option is canceled subsequent to the events described above, the Corporation or the corporation assuming the obligations of the Corporation, shall pay an amount of cash or stock equal to the in-the-money value of the canceled stock options.

Non-Compete/Non-Solicitation/Confidentiality

Since fiscal 2013, agreements memorializing equity awards under the Company's 2012 Omnibus Incentive Stock Plan have contained non-competition, non-solicitation and confidential information covenants applicable to the award recipients. The confidential information covenant prohibits the use, disclosure, copying or duplication of the Company's confidential information other than in the course of authorized activities conducted in the course of the recipient's employment with the Company. The other covenants prohibit the NEOs, except Mr. Nauman, for 12 months after termination of employment with the Company, from (i) performing duties for or as a competitor of the Company which are the same or similar to those performed by the recipient in the 24 months prior to termination of employment with the Company or (ii) inducing or encouraging employees, vendors or clients of the Company to breach, modify or terminate relationships or agreements they had with the Company during the 24 month period prior to the recipient's termination of employment. Mr. Nauman's covenants provide for the same non-competition and non-solicitation terms generally, but extend the life of such covenants to 24 months after termination of employment with the Company.

Compliance with Tax Regulations Regarding Executive Compensation

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1 million paid to the Company's chief executive officer or the other named executive officers.

Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. The Company's executive compensation program, as currently constructed, is not likely to generate significant nondeductible compensation in excess of these limits. The Committee will continue to review these tax regulations as they apply to the Company's executive compensation program. It is the Committee's intent to preserve the deductibility of executive compensation to the extent reasonably practicable and to the extent consistent with its other compensation objectives. However, because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and related regulations, and the fact that such regulations and interpretations may change from time to time (with potentially retroactive effect), there is no certainty that compensation intended by the Committee to satisfy the requirements for deductibility under Section 162(m) will be deductible.

Table of Contents

The Committee also considers it important to retain flexibility to design compensation programs, even where compensation payable under such programs may not be fully deductible, if such programs effectively recognize a full range of criteria important to the Company's success and result in a gain to the Company that would outweigh the limited negative tax effect.

Management Development and Compensation Committee Interlocks and Insider Participation

During fiscal 2016, the Board's Management Development and Compensation Committee was composed of Messrs. Balkema, Harris, Ms. Bruno and Ms. Gioia, and Mr. Sirkin from November 18, 2015 to July 31, 2016. None of these persons has at any time been an employee of the Company or any of its subsidiaries. There are no relationships among the Company's executive officers, members of the Committee or entities whose executives serve on the Board that require disclosure under applicable SEC regulations.

Management Development and Compensation Committee Report

The Committee has reviewed and discussed the Compensation Discussion and Analysis with management; and based on the review and discussions, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's annual report on Form 10-K.

Compensation Policies and Practices

The Company's compensation policies for executive officers and all other employees are designed to avoid incentives to create undue risks to the Company. The Company's compensation programs are weighted towards offering long-term incentives that reward sustainable performance; do not offer significant short-term incentives that might drive high-risk investments at the expense of the long-term Company value; and are set at reasonable and sustainable levels, as determined by a review of the Company's economic position, as well as the compensation offered by comparable companies. Under the oversight of its Audit and Management Development and Compensation Committees, the Company reviewed its compensation policies, practices and procedures for all employees to evaluate and ensure that they do not foster risk taking beyond that deemed acceptable within the Company's business model. The Company believes that its compensation policies, practices and procedures do not encourage employees to take unnecessary or excessive risks that are reasonably likely to have a material adverse effect on the Company.

Table of Contents

Summary Compensation Table

The following table sets forth compensation awarded to, earned by, or paid to the named executive officers, who served as executive officers during the fiscal year ended July 31, 2016, for services rendered to the Company and its subsidiaries during the fiscal years ended July 31, 2016, July 31, 2015 and July 31, 2014.

(1) Represents the grant date fair value computed in accordance with accounting guidance for equity grants made or modified in the applicable year for restricted stock awards and restricted stock units ("RSUs"). The grant date fair value is calculated based on the number of shares of Class A Common Stock underlying the restricted stock awards and RSUs, times the average of the high and low trade prices of Class A Common Stock on the date of grant. The actual value of a restricted stock award or RSU will depend on the market value of the Class A Common Stock on the date the stock is sold.

(2) Represents the grant date fair value computed in accordance with accounting guidance for equity grants made or modified in the applicable year for time-based stock options. The assumptions used to determine the value of the awards, including the use of the Black-Scholes method of valuation by the Company, are discussed in Note 1 of the Notes to Consolidated Financial Statements of the Company contained in Item 8 of this Form 10-K, for the fiscal year ended July 31, 2016. The actual value, if any, which an option holder will realize upon the exercise of an option will depend on the excess of the market value of the Class A Common Stock over the exercise price on the date the option is exercised, which cannot be forecasted with any accuracy.

(3) Reflects incentive plan compensation earned during the listed fiscal years, which was paid during the next fiscal year.

(4) The amounts in this column include: matching contributions to the Company's Matched 401(k) Plan, Funded Retirement Plan and Restoration Plan, the costs of group term life insurance for each named executive officer, use of a Company car or car allowance, and associated expenses, the cost of long-term care insurance, the cost of personal liability insurance, the cost of disability insurance and other perquisites. The perquisites may include relocation assistance and annual allowances for financial and tax planning. Refer to the table below.

(5) Fiscal 2015 was the first year during the terms of Messrs. Nauman, Pearce, and Shaller in which the criteria as a Named Executive Officer were met.

- (6) Mr. Shaller received a sign-on bonus of \$115,000 in fiscal 2015 in conjunction with his appointment as Senior Vice President and President - Identification Solutions, effective June 22, 2015.

| | 9/25/2015 | 9/9/2015 | | | | | 11,273 | 19.96 | 225,009 |

(1) At its September 2015 meeting, the Management Development and Compensation Committee approved the values of the annual cash incentive award under the Company's annual cash incentive plan. The structure of the plan is described in the Compensation Discussion and Analysis above and was set prior to the

beginning of the fiscal year. Payout levels can range from 0 to 200 percent of base salary.

- (2) The exercise price and base price is the average of the high and low sale prices of the Company's Class A Common Stock as reported by the New York Stock Exchange on the date of the grant.

Table of Contents

Non-Qualified Deferred Compensation for Fiscal 2016

The following table summarizes the activity within the Executive Deferred Compensation Plan and the Brady Restoration Plan during fiscal 2016 for the named executive officers.

| Name | Executive Contributions in Last Fiscal Year (\$) | Registrant Contributions in Last Fiscal Year (\$) | Aggregate Earnings in Last Fiscal Year (\$) | Aggregate Withdrawals/ Distributions (\$) | Aggregate Balance at Last Fiscal Year End (\$) |
|----------------|--|---|---|---|--|
| J.M. Nauman | \$ 17,131 | \$ 33,608 | \$ 118 | \$ — | —\$ 58,733 |
| A.J. Pearce | 32,985 | 3,046 | 46,577 | — | 530,421 |
| L.T. Bolognini | 2,627 | 5,255 | 1,591 | — | 22,933 |
| T.J. Felmer | 4,878 | 9,755 | 208,611 | — | 3,049,448 |
| R.R. Shaller | 1,846 | 1,600 | 5 | — | 3,452 |

See discussion of the Company's nonqualified deferred compensation plan in the Compensation Discussion and Analysis. The executive contribution amounts reported here are derived from the salary and non-equity incentive plan compensation columns of the Summary Compensation Table. The registrant contribution amounts reported here are reported in the all other compensation columns of the Summary Compensation Table.

Potential Payments Upon Termination or Change in Control

As described in the Employment and Change of Control Agreements section of the Compensation Discussion and Analysis above, the Company has entered into separate severance agreements and change of control agreements with certain named executive officers.

The terms of severance arrangements are triggered if (i) the executive's employment with the Company is involuntarily terminated by the Company without cause or (ii) the executive's employment with the Company is voluntarily terminated by the executive subsequent to (a) any reduction in the total of the executive's annual base salary and target bonus without the prior written agreement of the executive, (b) a significant diminution in the authority, duties or responsibilities of the executive without the executive's prior written agreement, or (c) the relocation of the executive's position to a principal work location more than 50 miles from Milwaukee, Wisconsin and that is also further from the executive's principal place of residence, without the executive's prior written agreement. Should Messrs. Nauman's or Shaller's employment be terminated under the circumstances described above, the Company would pay Mr. Nauman a severance benefit equal to two times the sum of his base salary and target bonus and would pay Mr. Shaller a severance benefit equal to his base salary plus target bonus. The other named executive officers are not covered by severance arrangements.

The terms of the change of control agreement are triggered if, within a 24 month period beginning with the date a change of control occurs, (i) the executive's employment with the Company is involuntarily terminated other than by reason of death, disability or cause or (ii) the executive's employment with the Company is voluntarily terminated by the executive subsequent to (a) any reduction in the total of the executive's annual base salary, exclusive of fringe benefits, and the executive's target bonus in comparison with the executive's annual base salary and target bonus immediately prior to the date the change of control occurs, (b) a significant diminution in the responsibilities or authority of the executive in comparison with the executive's responsibility and authority immediately prior to the date the change of control occurs, or (c) the imposition of a requirement by the Company that the executive relocate to a principal work location more than 50 miles from the executive's principal work location immediately prior to the date the change of control occurs.

Following termination due to a change in control, executives shall be paid a multiplier of their annual base salary in effect immediately prior to the date the change of control occurs, plus a multiplier of their average bonus payment received over a three-year period prior to the date the change of control occurs. For Mr. Nauman, a multiplier of the target bonus amount in effect immediately prior to the date change of control applies instead of the average bonus

payment received over the prior three-year period. For Mr. Felmer, the Company will also reimburse the executive for any excise tax incurred by the executive as a result of Section 280(g) of the Internal Revenue Code. If the payments upon termination due to change of control result in any excise tax incurred by Messrs. Nauman, Pearce, Bolognini and Shaller as a result of Section 280(g) of the Internal Revenue Code, the officer will be solely responsible for such excise tax. The Company will also reimburse a maximum of \$25,000 of legal fees incurred by the executive in order to enforce the change of control agreement, in which the executive prevails.

The following information and tables set forth the amount of payments to each named executive officer in the event of termination of employment as a result of a change of control. No other employment agreements have been entered into between the Company and any of the named executive officers in fiscal year 2016.

Table of Contents

Assumptions and General Principles

The following assumptions and general principles apply with respect to the tables that follow in this section.

The amounts shown in the tables assume that each named executive officer terminated employment on July 31, 2016. Accordingly, the tables reflect amounts earned as of July 31, 2016, and include estimates of amounts that would be paid to the named executive officer upon the termination or occurrence of a change in control. The actual amounts that would be paid to a named executive officer can only be determined at the time of termination.

The tables below include amounts the Company is obligated to pay the named executive officer as a result of the severance agreement and executed change in control agreement. The tables do not include benefits that are paid generally to all salaried employees or a broad group of salaried employees. Therefore, the named executive officers would receive benefits in addition to those set forth in the tables.

A named executive officer is entitled to receive base salary earned during his term of employment regardless of the manner in which the named executive officer's employment is terminated. As such, this amount is not shown in the tables.

J. Michael Nauman

The following table shows the amount payable assuming that the terms of the change of control agreement were triggered on July 31, 2016, and the named executive officer had to legally enforce the terms of the agreement.

| Base Salary (\$)(1) | Bonus (\$) (2) | Restricted Stock Unit Acceleration Gain \$(3) | Stock Option Acceleration Gain \$ (4) | Legal Fee Reimbursement (\$) (5) | Total (\$) |
|---------------------|----------------|---|---------------------------------------|----------------------------------|---------------|
| \$1,400,000 | \$ 1,400,000 | \$ 3,760,155 | \$ 4,496,378 | \$ 25,000 | \$ 11,081,533 |

(1) Represents two times the base salary in effect at July 31, 2016.

(2) Represents two times the target bonus amount in effect at July 31, 2016.

(3) Represents the closing market price of \$32.14 on 116,993 unvested RSUs that would vest due to the change in control.

(4) Represents the difference between the closing market price of \$32.14 and the exercise price on 388,460 unvested, in-the-money stock options that would vest due to change in control.

(5) Represents the maximum reimbursement of legal fees allowed.

The following table shows the amount payable assuming that the severance terms of Mr. Nauman's Offer Letter were triggered on July 31, 2016 and the named executive officer had to legally enforce the severance terms of the agreement.

| Base Salary (\$)(1) | Bonus (\$) (2) | Restricted Stock Unit Acceleration Gain \$(3) | Total (\$) |
|---------------------|----------------|---|--------------|
| \$1,400,000 | \$ 1,400,000 | \$ 1,724,890 | \$ 4,524,890 |

(1) Represents two times the base salary in effect at July 31, 2016.

(2) Represents two times the target bonus amount in effect at July 31, 2016.

(3) Represents the closing market price of \$32.14 on 53,668 unvested RSUs that would vest due to termination without cause.

Aaron J. Pearce

The following table shows the amount payable assuming that the terms of the change of control agreement were triggered on July 31, 2016, and the named executive officer had to legally enforce the terms of the agreement.

| Base Salary (\$)(1) | Bonus (\$) (2) | Restricted Stock Unit Acceleration Gain \$(3) | Stock Option Acceleration Gain \$ (4) | Legal Fee Reimbursement (\$) (5) | Total (\$) |
|---------------------|----------------|---|---------------------------------------|----------------------------------|-------------|
| \$640,000 | \$- | \$ 996,404 | \$ 847,448 | \$ 25,000 | \$2,508,852 |

(1) Represents two times the base salary in effect at July 31, 2016.

(2) Represents two times the average bonus payment received in the last three fiscal year's ended July 31, 2016, 2015 and 2014.

(3) Represents the closing market price of \$32.14 on 31,002 unvested RSUs that would vest due to the change in control.

(4) Represents the difference between the closing market price of \$32.14 and the exercise price on 76,098 unvested, in-the-money stock options that would vest due to change in control.

(5) Represents the maximum reimbursement of legal fees allowed.

Table of Contents

Louis T. Bolognini

The following table shows the amount payable assuming that the terms of the change of control agreement were triggered on July 31, 2016 and the named executive officer had to legally enforce the terms of the agreement.

| Base Salary (\$)(1) | Bonus (\$)(2) | Restricted Stock Unit Acceleration Gain \$(3) | Stock Option Acceleration Gain \$(4) | Legal Fee Reimbursement (\$)(5) | Total (\$) |
|---------------------|---------------|---|--------------------------------------|---------------------------------|-------------|
| \$670,000 | \$— | \$446,650 | \$542,716 | \$25,000 | \$1,684,366 |

(1) Represents two times the base salary in effect at July 31, 2016.

(2) Represents two times the average bonus payment received in the last three fiscal year's ended July 31, 2016, 2015 and 2014.

(3) Represents the closing market price of \$32.14 on 13,897 unvested RSUs that would vest due to the change in control.

(4) Represents the difference between the closing market price of \$32.14 and the exercise price on 52,128 unvested, in-the-money stock options that would vest due to change in control.

(5) Represents the maximum reimbursement of legal fees allowed.

Thomas J. Felmer

The following table shows the amount payable assuming that the terms of the change of control agreement were triggered on July 31, 2016 and the named executive officer had to legally enforce the terms of the agreement.

| Base Salary (\$)(1) | Bonus (\$)(2) | Restricted Stock Unit Acceleration Gain \$(3) | Stock Option Acceleration Gain \$(4) | Excise Tax Reimbursement (\$) | Legal Fee Reimbursement (\$)(5) | Total (\$) |
|---------------------|---------------|---|--------------------------------------|-------------------------------|---------------------------------|-------------|
| \$773,874 | \$— | \$1,293,217 | \$998,447 | \$— | \$25,000 | \$3,090,538 |

(1) Represents two times the base salary in effect at July 31, 2016.

(2) Represents two times the average bonus payment received in the last three fiscal year's ended July 31, 2016, 2015 and 2014.

(3) Represents the closing market price of \$32.14 on 40,237 unvested RSUs that would vest due to the change in control.

(4) Represents the difference between the closing market price of \$32.14 and the exercise price on 99,239 unvested, in-the-money stock options that would vest due to change in control.

(5) Represents the maximum reimbursement of legal fees allowed.

Russell R. Shaller

The following table shows the amount payable assuming that the terms of the change of control agreement were triggered on July 31, 2016 and the named executive officer had to legally enforce the terms of the agreement.

| Base Salary (\$)(1) | Bonus (\$)(2) | Restricted Stock Unit Acceleration Gain \$(3) | Stock Option Acceleration Gain \$(4) | Legal Fee Reimbursement (\$)(5) | Total (\$) |
|---------------------|---------------|---|--------------------------------------|---------------------------------|-------------|
| \$680,000 | \$— | \$902,041 | \$438,336 | \$25,000 | \$2,045,377 |

(1) Represents two times the base salary in effect at July 31, 2016.

(2)

Represents two times the average bonus payment received in the last three fiscal year's ended July 31, 2016, 2015 and 2014.

- (3) Represents the closing market price of \$32.14 on 28,066 unvested RSUs that would vest due to the change in control.
- (4) Represents the difference between the closing market price of \$32.14 and the exercise price on 46,238 unvested, in-the-money stock options that would vest due to change in control.
- (5) Represents the maximum reimbursement of legal fees allowed.

Table of Contents

The following table shows the amount payable assuming that the severance terms of Mr. Shaller's Offer Letter were triggered on July 31, 2016 and the named executive officer had to legally enforce the severance terms of the agreement.

| Base | Salary | Bonus (\$ (2) | Total (\$ |
|------|-----------|---------------|-----------|
| | (\$)(1) | | |
| | \$340,000 | \$ 187,000 | \$527,000 |

(1) Represents one times the base salary in effect at July 31, 2016.

(2) Represents one times the target bonus amount in effect at July 31, 2016.

Potential Payments Upon Termination Due to Death or Disability

In the event of termination due to death or disability, all unexercised, unexpired stock options would immediately vest and all restricted stock awards would immediately become unrestricted and fully vested. The following table shows the amount payable to the named executive officers should this event occur on July 31, 2016.

| Name | Unvested Restricted Stock Units as of July 31, 2016 | Restricted Stock Unit Acceleration Gain \$ (1) | Unvested, In-the-Money Stock Options as of July 31, 2016 | Stock Option Acceleration Gain \$ (2) |
|-------------------|---|--|--|---------------------------------------|
| J. Michael Nauman | 116,993 | \$ 3,760,155 | 388,460 | \$ 4,496,378 |
| A.J. Pearce | 31,002 | 996,404 | 76,098 | 847,448 |
| L.T. Bolognini | 13,897 | 446,650 | 52,128 | 542,716 |
| T.J. Felmer | 40,237 | 1,293,217 | 99,239 | 998,447 |
| R.R. Shaller | 28,066 | 902,041 | 46,238 | 438,336 |

(1) Represents the closing market price of \$32.14 on unvested awards that would vest due to death or disability.

(2) Represents the difference between the closing market price of \$32.14 and the exercise price on unvested, in-the-money stock options that would vest due to death or disability.

Potential Payments Upon Termination Without Cause

In the event of termination without cause, as defined in the officer's Offer Letter or in the officer's equity agreements, as applicable, certain restricted stock awards would immediately become unrestricted and fully vested. The following table shows the amount payable to the named executive officers should this event occur on July 31, 2016.

| Name | Unvested Restricted Stock Units as of July 31, 2016 | Restricted Stock Unit Acceleration Gain \$ (1) |
|-------------------|---|--|
| J. Michael Nauman | 53,668 | \$ 1,724,890 |
| A.J. Pearce | — | — |
| L.T. Bolognini | — | — |
| T.J. Felmer | 3,333 | 107,123 |
| R.R. Shaller | — | — |

(1) Represents the closing market price of \$32.14 on unvested awards that would vest due to termination without cause.

Compensation of Directors

To ensure competitive compensation for the Directors, surveys prepared by various consulting firms and the National Association of Corporate Directors are reviewed by the Corporate Governance Committee and the Management Development and Compensation Committee, and they confer with the Board's independent compensation consultant, Meridian Compensation Partners, in making recommendations to the Board of Directors regarding Director compensation. Directors who are employees of the Company receive no additional compensation for service on the Board or on any committee of the Board.

On September 10, 2015, based on the recommendation of Meridian Compensation Partners, the Board approved revisions in the compensation structure of Directors, which became effective following the 2015 Annual Meeting of Shareholders. In fiscal

Table of Contents

2016, the annual cash retainer paid to non-management Directors was \$60,000. Each member of the Audit Committee received an annual retainer of \$15,000, and an additional annual retainer of \$15,000 was paid to the Chair; each member of the Management Development and Compensation Committee received an annual retainer of \$12,000, and an additional annual retainer of \$12,000 was paid to the Chair; and each member of the Corporate Governance, Finance and Technology Committees received an annual retainer of \$10,000, and an additional annual retainer of \$10,000 was paid to each committee Chair. These changes in compensation structure resulted in the discontinuance of meeting fees. In addition, non-management Directors are eligible to receive compensation of up to \$1,000 per day for special assignments required by management or the Board of Directors, so long as the compensation does not impair independence and is approved as required by the Board. No such fees were paid in fiscal year 2016.

In fiscal 2016, the Chair of the Board was paid an annual fee of \$50,000, consistent with the evolving role of independent board leadership and the enhanced responsibilities of the position. Mr. Goodkind served as Lead Independent Director until August 2015, and beginning in September 2015, commenced service as Chair of the Board.

Under the terms of the Brady Corporation 2012 Omnibus Incentive Stock Plan, 5,500,000 shares of the Company's Class A Common Stock have been authorized for issuance, and the Board has full and final authority to designate the non-management Directors to whom awards will be granted, the date on which awards will be granted and the number of shares of stock covered by each grant. Commencing in fiscal 2017, equity awards will be granted under the Brady Corporation 2017 Omnibus Incentive Plan.

On September 9, 2015, the Board approved an annual stock-based compensation award of \$83,000 in unrestricted shares of Class A Common Stock (having a grant date fair value of \$19.96 per share), for each non-management Director, effective September 25, 2015, with the exception of Mr. Sirkin who received restricted stock units.

Directors are also eligible to defer portions of their fees into the Brady Corporation Director Deferred Compensation Plan ("Director Deferred Compensation Plan"), the value of which is measured by the fair value of the underlying investments. The assets of the Director Deferred Compensation Plan are held in a Rabbi Trust and are invested by the trustee as directed by the participant in several investment funds as permitted by the Director Deferred Compensation Plan. The investment funds available in the Director Deferred Compensation Plan include Brady Corporation Class A Nonvoting Common Stock and various mutual funds that are provided in the Employee 401(k) Plan.

At least one year prior to termination from the Board, the Director must elect whether to receive his/her account balance following termination in a single lump sum payment or by means of distribution under an Annual Installment Method. If the Director does not submit an election form or has not submitted one timely, then payment shall be made each year for a period of ten years. The first payment must be one-tenth of the balance held; the second one-ninth; and so on, with the balance held in the Trust reduced by each payment. Distributions of the Company Class A Nonvoting Common Stock are made in-kind; distributions of other assets are in cash.

Effective January 1, 2008, the Director Deferred Compensation Plan was amended and restated to comply with the provisions of Section 409A of the Internal Revenue Code. On May 21, 2014, the Director Deferred Compensation Plan was amended to allow participants to transfer funds from other investment funds into the Company's Class A Nonvoting Common Stock. Funds are not permitted to be transferred from the Company's Class A Nonvoting Common Stock into other investment funds until six months after the Director resigns from the Board.

Director Compensation Table — Fiscal 2016

| Name | Fees Earned | Option | Stock | Total (\$) |
|---------------------|-------------------------|-------------------|--------------------|------------|
| | or Paid in Cash (\$) | Awards (\$ (1) | Awards (\$) (2) | |
| Patrick W. Allender | \$ 108,500 | \$ | —\$ 83,014 | \$ 191,514 |
| Gary S. Balkema | 112,000 | — | 83,014 | 195,014 |

Edgar Filing: BRADY CORP - Form 10-K

| | | | | |
|-----------------------|---------|---|--------|---------|
| Elizabeth P. Bruno | 95,125 | — | 83,014 | 178,139 |
| Nancy L. Gioia | 95,625 | — | 83,014 | 178,639 |

| Bradley C. Richardson | 111,875 | — | 83,014 | 194,889 |
| Harold L. Sirkin | 85,875 | — | 83,014 | 168,889 |

Table of Contents

No stock options were awarded to non-management Directors in fiscal 2016. Outstanding option awards at July 31, 2016, for each individual who served as Director in fiscal 2016 include the following: Mr. Allender, 55,800; Mr. Balkema, 35,400; Ms. Bruno, 51,800; Ms. Gioia, 8,500; Mr. Goodkind, 55,800; Mr. Harris, 51,800; Mr. Richardson, 49,800; and Mr. Sirkin, 4,250 shares. The actual value, if any, which an option holder will realize upon the exercise of an option will depend on the excess of the market value of the Company's common stock over the exercise price on the date the option is exercised, which cannot be forecasted with any accuracy.

With the exception of Mr. Sirkin, represents the fair value of shares of Brady Corporation Class A Non-Voting Common Stock granted in fiscal 2016 as compensation for their services. For Mr. Sirkin, represents the fair value of shares of time-based restricted stock units of Class A Common Stock granted in fiscal 2016 as compensation for his services. The shares of unrestricted stock and restricted stock units granted to the non-management directors were valued at the average of the high and low market price of \$19.96 on September 25, 2015. Outstanding unvested restricted stock units at July 31, 2016, totaled 5,609 units, all of which were held by Mr. Sirkin.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

(a) Security Ownership of Certain Beneficial Owners

The following table sets forth the current beneficial ownership of shareholders who are known by the Company to own more than five percent (5%) of any class of the Company's voting shares on August 2, 2016. As of that date, nearly all of the voting stock of the Company was held by two trusts controlled by direct descendants of the Company's founder, William H. Brady, as follows:

| Title of Class | Name and Address of Beneficial Owner | Amount of Beneficial Ownership | Percent of Ownership(2) |
|----------------------|---|--------------------------------|-------------------------|
| Class B Common Stock | EBL GST Non-Exempt Stock B Trust(1) c/o Elizabeth Pungello Bruno 2002 S. Hawick Ct. Chapel Hill, NC 27516 | 1,769,304 | 50 % |
| | William H. Brady III Living Trust dated November 1, 2013 (3) c/o William H. Brady III 249 Rosemont Ave. Pasadena, CA 91103 | 1,769,304 | 50 % |

The trustee is Elizabeth Pungello Bruno, who has sole voting and dispositive power and who is the remainder (1)beneficiary. Elizabeth Bruno is the great-granddaughter of William H. Brady and currently serves on the Company's Board of Directors.

(2) An additional 20 shares are owned by a third trust with different trustees.

(3) William H. Brady III is grantor of this revocable trust and shares voting and dispositive powers with respect to these shares with his co-trustee. William H. Brady III is the grandson of William H. Brady.

Table of Contents

(b) Security Ownership of Management

The following table sets forth the current beneficial ownership of each class of equity securities of the Company by each Director and Named Executive Officer individually and by all Directors and Officers of the Company as a group as of August 2, 2016. Unless otherwise noted, the address for each of the listed persons is c/o Brady Corporation, 6555 West Good Hope Road, Milwaukee, Wisconsin 53223. Except as otherwise indicated, all shares are owned directly.

| Title of Class | Name of Beneficial Owner & Nature of Beneficial Ownership | Amount of Beneficial Ownership(3)(4)(5) | Percent of Ownership |
|----------------------|---|---|----------------------|
| Class A Common Stock | Elizabeth Pungello Bruno (1) | 1,295,922 | 2.8 % |
| | Thomas J. Felmer | 412,980 | 0.9 % |
| | J. Michael Nauman | 220,085 | 0.5 % |
| | Conrad G. Goodkind | 162,390 | 0.3 % |
| | Aaron J. Pearce | 134,033 | 0.3 % |
| | Patrick W. Allender (2) | 118,867 | 0.3 % |
| | Bradley C. Richardson | 85,705 | 0.2 % |
| | Frank W. Harris | 80,688 | 0.2 % |
| | Louis T. Bolognini | 75,231 | 0.2 % |
| | Gary S. Balkema | 45,038 | 0.1 % |
| | Russell R. Shaller | 24,214 | 0.1 % |
| | Nancy L. Gioia | 12,978 | * |
| | Harold L. Sirkin | 4,417 | * |
| | All Officers and Directors as a Group (16 persons) | 2,883,586 | 6.1 % |
| Class B Common Stock | Elizabeth Pungello Bruno (1) | 1,769,304 | 50.0 % |

*Indicates less than one-tenth of one percent.

Ms. Bruno's holdings of Class A Common Stock include 806,296 shares owned by a trust for which she is a trustee and has sole dispositive and voting authority and 70,530 shares owned by trusts in which she is a co-trustee.

(1) Ms. Bruno's holdings of Class B Common Stock include 1,769,304 shares owned by a trust over which she has sole dispositive and voting authority.

(2) Mr. Allender's holdings of Class A Common Stock include 20,000 shares owned by the Patrick and Deborah Allender Irrevocable Trust.

The amount shown for all officers and directors individually and as a group (16 persons) includes options to acquire a total of 1,216,505 shares of Class A Common Stock, which are currently exercisable or will be exercisable within 60 days of July 31, 2016, including the following: Ms. Bruno, 50,384 shares; Mr. Felmer, 349,641; Mr. Nauman, 187,529 shares; Mr. Goodkind, 54,384 shares; Mr. Pearce, 114,865 shares; Mr. Allender, (3)54,384 shares; Mr. Richardson, 48,384 shares; Mr. Harris, 50,384 shares; Mr. Bolognini, 64,766 shares; Mr. Balkema, 33,984 shares; Mr. Shaller, 15,413 shares; Ms. Gioia, 5,668 shares; Mr. Sirkin, 1,417 shares; Mr. Curran, 146,799 shares; Mr. Meyer, 2,581 shares; and Ms. Nelligan, 35,922 shares. It does not include other options for Class A Common Stock which have been granted at later dates and are not exercisable within 60 days of July 31, 2016.

(4)The amount shown for all officers and directors individually and as a group (16 persons) includes unvested restricted stock units to acquire 68,065 shares of Class A Common Stock, which will vest within 60 days of July 31, 2016, including the following: Mr. Felmer, 12,919 units; Mr. Nauman, 25,539 units; Mr. Pearce, 8,155 units;

Mr. Bolognini, 6,365 units; Mr. Shaller, 3,758 units; Mr. Curran, 3,702 units; Mr. Meyer, 689 units; and Ms. Nelligan, 6,937 units. No unvested restricted stock units were held by directors which will vest within 60 days of July 31, 2016. It does not include other unvested restricted stock awards or restricted stock units to acquire Class A Common Stock which have been granted at later dates and will not vest within 60 days of July 31, 2016.

The amount shown for all officers and directors individually and as a group (16 persons) includes Class A (5) Common Stock owned in deferred compensation plans totaling 160,858 shares of Class A Common Stock, including the

following: Ms. Bruno, 2,486 shares; Mr. Felmer, 12,205 shares; Mr. Goodkind, 51,703 shares; Mr. Pearce, 3,486 shares; Mr. Allender, 44,483 shares; Mr. Richardson, 37,321 shares; Mr. Balkema, 9,054 shares; Mr. Nauman, 0 shares; Mr. Harris, 0 shares; Mr. Bolognini, 0 shares; Mr. Shaller, 0 shares; Ms. Gioia, 0 shares; and Mr. Sirkin, 0 shares.

(c) Changes in Control

No arrangements are known to the Company, which may, at a subsequent date, result in a change in control of the Company.

(d) Equity Compensation Plan Information

| Plan Category | As of July 31, 2016 | | Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c) |
|--|--|---|---|
| | Number of securities to be issued upon exercise of outstanding warrants and rights (a) | Weighted-average exercise price of outstanding options, warrants and rights (b) | |
| Equity compensation plans approved by security holders | 4,387,087 | \$ 27.33 | 2,391,385 |
| Equity compensation plans not approved by security holders | None | None | None |
| Total | 4,387,087 | \$ 27.33 | 2,391,385 |

The Company's equity compensation plan allows the granting of stock options, restricted stock, restricted stock units, and unrestricted stock to various officers, directors and other employees of the Company at prices equal to fair market value at the date of grant. The Company has reserved 5,500,000 shares of Class A Nonvoting Common Stock for issuance under the Brady Corporation 2012 Omnibus Incentive Stock Plan. Generally, options will not be exercisable until one year after the date of grant, and will be exercisable thereafter, to the extent of one-third per year and have a maximum term of ten years. Generally, restricted stock units vest one-third per year for the first three years.

The Company granted 103,055 time-based RSUs in fiscal 2014, with a weighted average grant price and fair value of \$30.99. Of the time-based RSUs granted in fiscal 2014, 8,198 units were forfeited in fiscal 2014, 26,147 units were forfeited in fiscal 2015, and 29,595 units forfeited in fiscal 2016. The Company granted 661,412 time-based RSUs in fiscal 2015, with a weighted average grant price and fair value of \$24.28. Of the time-based RSUs granted in fiscal 2015, 23,241 units were forfeited in fiscal 2015 44,477 were forfeited in fiscal 2016. The Company granted 173,394 time-based RSUs in fiscal 2016, with a weighted average grant price and fair value of \$20.07, of which 10,092 units have forfeited. As a result, as of July 31, 2015, 678,381 time-based RSUs were outstanding with a weighted average grant date fair value of \$23.57.

Item 13. Certain Relationships, Related Transactions, and Director Independence

The Company annually solicits information from its Directors in order to ensure there are no conflicts of interest. The information gathered annually is reviewed by the Company and if any transactions are not in accordance with the rules of the New York Stock Exchange or are potentially in violation of the Company's Corporate Governance Principles, the transactions are referred to the Corporate Governance Committee for approval, ratification, or other action. Further, potential affiliated party transactions are discussed at the Company's quarterly disclosure committee

meetings. In addition, pursuant to its charter, the Company's Audit Committee periodically reviews reports and disclosures of insider and affiliated party transaction with the Company, if any. Furthermore, the Company's Directors are expected to be mindful of their fiduciary obligations to the Company and to report any potential conflicts to the Corporate Governance Committee for review. Based on the Company's consideration of all relevant facts and circumstances, the Corporate Governance Committee will decide whether or not to approve such transactions and will approve only those transactions that are in the best interest of the Company. Additionally, the Company has processes in place to educate executives and employees about affiliated transactions. The Company maintains an anonymous hotline by which employees may report potential conflicts of interest such as affiliated party transactions. In undertaking its review of potential related party transactions, the Board considered the commercial relationships of the Company, if any, with those entities that have employed the Company's Directors. The commercial relationships, which involved the purchase and sale of products on customary terms, did not exceed the maximum amounts proscribed by the director

Table of Contents

independence rules of the NYSE. Furthermore, the compensation paid to the Company's Directors by their employers, was not linked in any way to the commercial relationships their employers had with the Company in fiscal 2016. After consideration of these factors, the Board concluded that none of the Directors whose employers had a commercial relationship with the Company had a material interest in the transactions and the commercial relationships were not material to the Company. Based on these factors, the Company has determined that it does not have material related party transactions that affect the results of operations, cash flow or financial condition. The Company has also determined that no transactions occurred in fiscal 2016, or are currently proposed, that would require disclosure under Item 404 (a) of Regulation S-K.

See Item 10 - Directors and Executive Officers of the Registrant for a discussion of Director independence.

Item 14. Principal Accountant Fees and Services

The following table presents the aggregate fees incurred for professional services by Deloitte & Touche LLP and Deloitte Tax LLP during the years ended July 31, 2016 and 2015. Other than as set forth below, no professional services were rendered or fees billed by Deloitte & Touche LLP or Deloitte Tax LLP during the years ended July 31, 2016 and 2015.

| | 2016 | 2015 |
|---|------------------------|----------|
| | (Dollars in thousands) | |
| Audit, audit-related and tax compliance | | |
| Audit fees (1) | \$ 1,966 | \$ 2,426 |
| Tax fees — compliance | 507 | — |
| Subtotal audit, audit-related and tax compliance fees | 2,473 | 2,426 |
| Non-audit related | | |
| Tax fees — planning and advice | 254 | 359 |
| Subtotal non-audit related fees | 254 | 359 |
| Total fees | \$ 2,727 | \$ 2,785 |

Audit fees consist of professional services rendered for the audit of the Company's annual financial statements, (1) attestation of management's assessment of internal control, reviews of the quarterly financial statements and statutory reporting compliance.

| | 2016 | 2015 |
|---|----------|----------|
| Ratio of Tax Planning and Advice Fees to Audit Fees, Audit-Related Fees and Tax Compliance Fees | 0.1 to 1 | 0.1 to 1 |

Pre-Approval Policy — The services performed by the Independent Registered Public Accounting Firm ("Independent Auditors") in fiscal 2016 were pre-approved in accordance with the pre-approval policy and procedures adopted by the Audit Committee. The policy requires the Audit Committee to pre-approve the audit and non-audit services performed by the Independent Auditors in order to assure that the provision of such services does not impair the auditor's independence. All services performed for the Company by the Independent Auditor must be approved in advance by the Audit Committee. Any proposed services exceeding pre-approved cost levels will require specific pre-approval by the Audit Committee.
