PROXY STATEMENT

FOR

ANNUAL MEETING OF STOCKHOLDERS

To be held May 11, 2007

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

WHY DID YOU SEND ME THIS PROXY STATEMENT?

This proxy statement and the enclosed proxy card are furnished in connection with the solicitation of proxies by the Board of Directors of Arrhythmia Research Technology, Inc., a Delaware corporation (“**ART**” or the “**Company**”), for use at the Annual Meeting of ART stockholders to be held at the Chocksett Inn, 59 Laurelwood Road, Sterling, Massachusetts, on Friday, May 11, 2007 at 10:00 a.m., local time, and at any adjournments or postponements of the Annual Meeting. This proxy statement summarizes the information you need to make an informed vote on the proposals to be considered at the Annual Meeting. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card using the envelope provided.

WHAT PROPOSALS WILL BE ADDRESSED AT THE ANNUAL MEETING?

We will address the following proposals at the Annual Meeting:

1. The election of the nominee for Class III director identified below to serve for three years;
2. The approval of the amendment of the Arrhythmia Research Technology, Inc. 2001 Stock Option Plan to increase the number of shares of common stock available by 200,000 shares;
3. The ratification of the appointment of Carlin, Charron & Rosen LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007; and
4. Transaction of such other business as may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

Our Board of Directors has taken unanimous affirmative action with respect to each of the foregoing proposals and recommends that the stockholders vote in favor of each of the proposals.

WHO MAY VOTE ON THESE PROPOSALS?

We will send this proxy statement, the attached Notice of Annual Meeting and the enclosed proxy card on or about April 11, 2007 to all stockholders of the Company. Stockholders who owned shares of ART voting stock at the close of business on April 2, 2007 (the “**Record Date**”) are entitled to vote at the Annual Meeting on all matters properly brought before the Annual Meeting.

On the Record Date, the Company had 2,711,680 shares of issued and outstanding common stock, par value \$0.01 per share (“**Common Stock**”).

HOW MANY VOTES DO I HAVE?

Each share of Common Stock is entitled to one vote on each matter presented at the Annual Meeting.

WHY WOULD THE ANNUAL MEETING BE POSTPONED?

The Annual Meeting will be postponed if a quorum is not present on May 11, 2007. The presence in person or by proxy of a majority of the voting power of outstanding shares of capital stock of the Company as of the Record Date will constitute a quorum and is required to transact business at the Annual Meeting. If a quorum is not present, the Annual Meeting may be adjourned until a quorum is obtained.

For purposes of determining whether the stockholders have approved matters other than the election of directors, abstentions are treated as shares present or represented and voting, so abstaining has the same effect as a negative vote. Shares held by brokers who do not have discretionary authority to vote on a particular matter and who have not received voting instructions from their customers are not counted or deemed to be present or represented for the purpose of determining whether stockholders have approved that matter, but they are counted as present for the purpose of determining the existence of a quorum at the Annual Meeting.

1

HOW DO I VOTE BY PROXY?

Whether you plan to attend the Annual Meeting or not, we urge you to complete, sign and date the enclosed proxy card and return it promptly in the envelope provided. Returning the proxy card will not affect your right to attend the Annual Meeting and vote in person.

If you properly fill in your proxy card and send it to us in time to vote, your proxy (one of the individuals named on your proxy card) will vote your shares as you have directed. If you sign the proxy card but do not make specific choices, your proxy will vote your shares as recommended by the Board of Directors as follows:

1. **FOR** the nominee for Class III director identified below;
2. **FOR** approval of the amendment of the 2001 Stock Option Plan to increase the shares of common stock available by 200,000 shares; and
3. **FOR** the ratification of the appointment of Carlin, Charron & Rosen LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007.

If any other matters are presented, your proxy will vote in accordance with his or her best judgment. At the time this proxy statement went to press, we knew of no matters that needed to be acted on at the Annual Meeting other than those discussed in this proxy statement.

HOW DO I VOTE IN PERSON?

If you plan to attend the Annual Meeting and vote in person on May 11, 2007, or at a later date if the meeting is adjourned or postponed to a later date, we will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring a power of attorney executed by the broker, bank or other nominee that owns the shares of record for your benefit and authorizing you to vote the shares.

MAY I REVOKE MY PROXY?

If you give a proxy, you may revoke it at any time before it is exercised. You may revoke your proxy in three ways:

1. You may send in another proxy with a later date.
2. You may notify ART in writing (by you or your attorney authorized in writing, or if the stockholder is a corporation, under its corporate seal, by an officer or attorney of the corporation) at our principal executive offices before the Annual Meeting, that you are revoking your proxy.
3. You may vote in person at the Annual Meeting.

WHAT VOTE IS REQUIRED TO APPROVE EACH PROPOSAL?

Proposal 1: Election of Directors.

A plurality of the eligible votes cast is required to elect the director nominee. A nominee who receives a plurality means he has received more votes than any other nominee for the same director's seat.

Proposal 2: Approval of the amendment of the 2001 Stock Option Plan to increase the shares of common stock available by 200,000 shares.

The approval of Proposal 2, the amendment of the 2001 Stock Option Plan to increase the shares of common stock available by 200,000 shares requires the affirmative vote of the majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote thereon.

Proposal 3: Ratification of independent registered public accounting firm.

The approval of Proposal 3, the ratification of the appointment of our independent registered public accounting firm, requires the affirmative vote of the majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote thereon.

ARE THERE ANY DISSENTERS' RIGHTS OF APPRAISAL?

The Board of Directors is not proposing any action for which the laws of the State of Delaware, the Certificate of Incorporation or the By-Laws of ART provide a right of a stockholder to dissent and obtain appraisal of or payment for such stockholder's shares.

2

WHO BEARS THE COST OF SOLICITING PROXIES?

ART will bear the cost of soliciting proxies in the accompanying form and will reimburse brokerage firms and others for expenses involved in forwarding proxy materials to beneficial owners or soliciting their execution.

Section 16(a) of the Exchange Act requires our executive officers and directors, and persons who own more than ten percent of any publicly traded class of our equity securities, to file reports of ownership and changes in ownership of equity securities of the Company with the SEC and the American Stock Exchange. Officers, directors, and greater-than-ten-percent stockholders are required by the SEC's regulations to furnish ART with copies of all Section 16(a) forms that they file.

Based solely upon a review of Forms 3 and Forms 4 furnished to ART during the most recent fiscal year, and Forms 5 with respect to its most recent fiscal year, we believe that all such forms required to be filed pursuant to Section 16(a) of the Exchange Act were timely filed, as necessary, by the officers, directors, and security holders required to file the same during the fiscal year ended December 31, 2006, except that due to a typographical error The Chambers Medical Foundation inadvertently misreported one sale of 10 shares and due to an inadvertent reporting error from a brokerage firm Dr. Tabin incorrectly reported one 2004 transaction which he corrected in April of 2006.

The Nominating and Corporate Governance Committee assists the Board in identifying individuals qualified to be directors, oversees the composition, structure and evaluation of the Board and its committees, and develops and maintains a set of corporate governance guidelines. The Nominating and Corporate Governance Committee reviews these guidelines regularly and recommends changes as necessary or appropriate. During the fiscal year 2006, the Committee did not hold a formal meeting. The current Nominating and Corporate Governance Committee Charter is available on the Company's website, <http://www.arthrt.com/corporategovernance>.

The Audit Committee is not providing any professional certification as to the independent registered public accounting firm’s work product.

The Audit Committee’s review and discussion with the Company’s independent registered public accounting firm included matters requiring discussion pursuant to Statement on Auditing Standards No. 61 (Communications with Audit Committees). Among the matters to be communicated to the Audit Committee are: (i) methods used to account for significant unusual transactions; (ii) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus; (iii) the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditor's conclusions regarding the reasonableness of those estimates and (iv) disagreements with management over the application of accounting principles, the basis for management's accounting estimates, and the disclosures in the financial statements in addition to discussing the adequacy and effectiveness of the accounting and financial controls (including our system to monitor and manage business risk) and legal and ethical compliance programs. The Audit Committee further discussed with Carlin, Charron & Rosen LLP, matters relating to its independence, and has received the written disclosures and letter from it required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees).

On the basis of the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the Board approve the inclusion of the Company’s audited consolidated financial statements for the year ended December 31, 2006 in the Company’s Annual Report on Form 10-KSB for the fiscal year ended December 31, 2006 for filing with the SEC.

By the members of the Audit Committee:

Mr. E.P. Marinos, Chairman

Dr. Julius Tabin

Mr. Jason Chambers

Audit Committee Pre-Approval of Audit and Non-Audit Services

The Audit Committee pre-approves all audit and permissible non-audit services provided to the Company by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. The Audit Committee has adopted policies and procedures for the pre-approval of services

provided by the independent registered public accounting firm. Such policies and procedures provide that management and the independent registered public accounting firm shall jointly submit to the Audit Committee a schedule of audit and non-audit services for approval as part of the annual plan for each fiscal year. In addition, the policies and procedures provide that the Audit Committee may also pre-approve particular services not in the annual plan on a case-by-case basis. Management must provide a detailed description of each proposed service and the projected fees and costs (or a range of such fees and costs) for the service. The policies and procedures require management and the independent registered public accounting firm to provide quarterly updates to the Audit Committee regarding services rendered to date and services yet to be performed.

As permitted under the Sarbanes-Oxley Act of 2002, the Audit Committee may delegate pre-approval authority to one or more of its members, for audit and non-audit services to a subcommittee consisting of one or more members of the Audit Committee. Any service pre-approved by a delegatee must be reported to the Audit Committee at the next scheduled meeting.

Nominees to the Board of Directors

Dr. Paul F. Walter is the Board of Director's nominee for re-election as Class III director to the Board of Directors. See "Information about Directors and Executive Officers" above for information relative to his business experience.

The Company's Nominating and Corporate Governance Committee identifies new director candidates through recommendations from members of the Committee, other Board members and executive officers of the Company and will consider candidates who are recommended by security holders, as described below. The Committee and the Board will consider such factors as it deems appropriate to assist in developing a Board and committees that are diverse in nature and comprised of experienced and seasoned advisors. These factors may include decision-making ability, judgment, personal integrity and reputation, experience with businesses and other organizations of comparable size, experience as an executive with a publicly traded company, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board.

Security holders who want to recommend to the Committee a candidate for director may do so by submitting to the Company's Secretary in writing biographical information about the candidate, a description of the candidate's qualifications and the candidate's consent to the recommendation. If the candidate is to be considered for nomination at the next annual meeting of stockholders, the submission must be received by the date and in accordance with the procedures described under "Stockholder Proposals and Submissions."

The Committee will evaluate new director candidates in view of the criteria described above, as well as other factors the Committee deems to be relevant, through reviews of biographical and other information, input from others, including members of the Board and executive officers of the Company, and personal discussions with the candidate when warranted by the results of these other assessments. The Committee will evaluate any director candidates recommended by security holders under the same process. In determining whether to recommend to the Board the nomination of a director who is a member of the Board, the Committee will review the Board performance of such director and solicit feedback about the director from other Board members.

Communicating with the Board

The Board desires to foster open communications with its security holders regarding issues of a legitimate business purpose affecting the Company. Each Board member is willing to accept correspondence. Communications from stockholders should be in the form of written correspondence and sent via registered mail or overnight delivery to the Company's corporate office, care of the Secretary. Electronic submissions of security holder correspondence will not be accepted. The correspondence shall include supporting documentation evidencing the security holder's stock or other holdings in the Company. The Secretary shall pass on any such communication, other than a solicitation for a product or service or a request for copies of reports filed with the Commission, to the appropriate Board member. Any security holder correspondence addressed generically to the Board of Directors will be forwarded to the Chairman of the Board.

Narrative Disclosure to Summary Compensation Table

Incentive Compensation Program. The Company's 2006 incentive plan is designed to provide an incentive for employees to achieve and surpass targeted performance goals. All of the Company's regular full time, non-union salaried employees, including the executive officers, participate in this plan. The annual bonus amount for each participant is based on one or more Company-wide performance measures. The cash bonuses payable under the program are determined as a percentage of a participant's annual base salary ranging from 3% to 17.5% for staff,

managers and vice-president/manager personnel and ranging from 15% to 20% for executive officers. The Compensation Committee normally establishes the target level for performance-based cash incentive compensation based on the Company's internal budget targets, which are reviewed and approved by the Board. The factors that the Compensation Committee considers in establishing the performance target include the aggressiveness of the budget target, the revenue and earnings growth included in the budget target as compared to the prior year, and any significant strategic initiatives that may impact the budget target. This is usually done through discussions with the Company's senior executives and with the Board. Upon completion of the fiscal year, the Compensation Committee assesses the performance of the Company based on the performance measures that it established for that year and approves the funding level of the cash incentive plan. For 2006 bonus levels for executive officers were based on a percentage of base salary assuming targeted budgeted operating profit levels were met or exceeded. The amounts paid in 2006 and 2007 to the Named Executive Officers under the 2006 incentive plan are reflected in the Summary Compensation Table under the column entitled, "Non-Equity Incentive Plan Compensation."

10

Employment Agreements. The Company entered into an Executive Employment Agreement as of December 4, 2006 with James E. Rouse, the Company's President and Chief Executive Officer, for the five year period commencing as of October 4, 2006. The agreement replaces the prior five year employment agreement originally expiring October 4, 2006 and, as amended, extended to December 4, 2006. Under the terms of the agreement, Mr. Rouse is to receive an annual base salary commencing as of October 5, 2006 of \$230,000 subject to annual review and modification by the Board upon the recommendation of the Compensation Committee subject to minimum increases of \$10,000 as of October 5, 2007 and 2008.

The Company entered into an Executive Employment Agreement as of February 14, 2007, with David A. Garrison, the Company's Executive Vice President and Chief Financial Officer, for the five year period commencing as of January 1, 2007. Under the terms of the agreement, Mr. Garrison is to receive an annual base salary commencing as of January 1, 2007 of \$150,000.

Mr. Rouse and Mr. Garrison are entitled to participate in bonus compensation and employee benefits plans as the Company may institute from time to time in the discretion of the Compensation Committee, upon the approval of the Board of Directors. The Executive Employment Agreements provide confidentiality, non-competition and non-solicitation restrictions following termination of employment. In the event the Company terminates either Mr. Rouse or Mr. Garrison's employment agreement without "cause" or the executive terminates the agreement for "good reason" as such terms are defined in the agreements, the Company will be required to pay the greater of the executive's then current annual base compensation for the remaining period of employment as in effect immediately prior to such termination or his then current annual base compensation for twenty-four months and will provide certain medical benefits for up to 24 months. In the event of a "change of control," including merger, consolidation, a sale of all or substantially all of the Company's assets or a sale or transfer of the Company's voting securities resulting in a change in the ownership of a majority of the Company's voting securities, the Company may terminate the executive's employment, in which event he is entitled to the greater of his current base compensation up to the date of termination or his base compensation for a period of 24 months, as well as 18 months of medical and dental benefits.

Compensation Committee Procedures

The following information relating to the Compensation Committee is not soliciting materials and as such is not deemed filed with the SEC nor incorporated by reference in any filing of the Company under the Securities Act or the Exchange Act, whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language in any such filing.

The Compensation Committee is responsible for establishing and reviewing the Company's executive compensation policies, advising the full Board of Directors on all compensation matters and administering the Company's employee

benefit plans including the Stock Option Plan and Stock Award Plan. In 2006, the Committee was comprised of Dr. Paul F. Walter, Chairman, Dr. Julius Tabin, and Mr. E.P. Marinos, each of whom is an independent director.

The Compensation Committee works with management to develop relationships between pay levels, financial performance and returns to stockholders, in order to align our compensation structure with our organizational objectives. By tying compensation in part to particular goals, the Compensation Committee believes that a performance-oriented environment is created for the Company's employees and executives. All decisions of the Committee relating to compensation of the President and Chief Executive Officer and other Named Executive Officers are reviewed and approved by the other non-employee Directors.

The Company's executive compensation policies are designed to foster the Company's business goals of achieving profitable growth and premium returns to stockholders. The principal objectives of these policies are: (1) to attract, motivate and retain executives of outstanding ability and character; (2) to provide rewards based on each person's individual performance and the Company's overall financial performance and growth during the prior year by placing a portion of compensation at risk; and (3) to align the interests of executives and stockholders through long-term, equity-based incentives and programs to encourage and reward stock ownership.

12

The Compensation Committee has the authority under its charter to engage the services of outside advisors, experts and others to assist the Compensation Committee. In accordance with this authority, for fiscal year 2006, the Compensation Committee engaged Delves Group as independent outside compensation consultant. Delves provided data on competitive pay levels for executive officers and directors. It also advised the Compensation Committee on matters related to CEO, other executive officer and directors compensation matters including current compensation trends and structural compensation issues relating to the future hiring and growth. The consultant was engaged by, and reported directly to, the Compensation Committee.

Base Salary. Base salaries are intended to provide economic security for executive officers at a level sufficient to attract and retain talent. Initial salary levels are set based on the executive officer's experience and performance, pay levels for similar positions and negotiations with individual named executive officers. Thereafter, the Compensation Committee considers increases to base salaries each year based on its subjective assessment of our overall performance over the preceding year, internal factors involving the executive's experience, individual performance, and changes in responsibilities and equity issues relating to pay for other Company executives, as well as external factors involving competitive positioning, overall corporate performance, and general economic conditions. No specific formula is applied to determine the weight of each factor which may vary from one named executive officer to another.

Incentive Compensation Program. The Company's annual cash incentive plan is designed to provide an incentive for employees to achieve and surpass targeted performance goals. All of the Company's regular full time, salaried employees, including the executive officers, participate in this plan. The annual bonus amount for each participant is based on one or more Company-wide performance measures. The Compensation Committee normally establishes the target level for performance-based cash incentive compensation based on the Company's internal budget targets, which are reviewed and approved by the Board. The factors that the Compensation Committee considers in establishing the performance target include the aggressiveness of the budget target, the revenue and earnings growth included in the budget target as compared to the prior year, and any significant strategic initiatives that may impact the budget target. This is usually done through discussions with the Company's senior executives and with the Board. Upon completion of the fiscal year, the Compensation Committee assesses the performance of the Company based on the performance measures that it established for that year and approves the funding level of the cash incentive plan.

Long-Term Incentive Compensation. The Company also grants stock options and other equity incentives under its Stock Option and Stock Award Plans in order to link compensation to the Company's long-term growth and performance and to increase stockholder value. The Committee has broad discretion to establish the terms of such grants to eligible employees of the Company and its subsidiaries. It grants awards to designated employees upon commencement of employment or following a significant change in an employee's responsibility or title based in part on the recommendation of the Company's executive officers. Awards are based on guidelines relating to the employee's position in the Company that are set by the Committee, as well as the employee's current performance and anticipated future contributions. The Committee also considers the amount and terms of stock options and stock awards previously granted to the employees and executive officers. The Committee individually evaluates these factors with respect to the employees and each executive officer and then the Committee reaches a consensus on the appropriate award. There were no grants of stock options or other equity incentives to executive officers in 2006.

Compensation of President and Chief Executive Officer. James E. Rouse was named President and Chief Executive Officer of the Company in October 2002 and served pursuant to a five-year employment agreement through October 4, 2006 at an annual rate of compensation of \$175,000. Based on advice received from the consulting firm engaged by the Compensation Committee as to competitive salaries for senior executive officers at similar public companies and on negotiations with Mr. Rouse, a new five-year employment agreement was negotiated and implemented providing annual compensation of \$230,000 per year commencing as of October 5, 2006. A discussion of other terms and conditions of the employment agreement are set forth elsewhere herein.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The following paragraphs set forth the reportable transactions in the last fiscal year between ART and its executive officers, directors or affiliates. See “Compensation of Directors and Executive Officers”, “Narrative to Summary Compensation Table”, and “Employment Agreements” for descriptions of the terms of the employment agreement between ART and the Company’s President and “Director Compensation in 2006” for a description of terms of compensation arrangements with our directors.

Transactions with Management and Others

To date, all transactions between the Company and its officers, directors or their affiliates have been approved or ratified by a majority of the directors who did not have an interest in, and who were not employed by the Company at the time of, such transaction. The Company’s Audit Committee reviews and oversees transactions between the Company and its executive officers and directors.

Dr. Tabin, a Director and stockholder of the Company, is a partner of a law firm that represents the Company with respect to patent and other intellectual property law matters. Fees for services and patent costs paid to this firm were approximately \$2,200 and \$7,800 for fiscal years ended 2006, and 2005, respectively.

CHANGES IN INDEPENDENT REGISTERED ACCOUNTING FIRM

On February 3, 2006, BDO Seidman, LLP (“**BDO**”) resigned as the Company’s independent registered public accounting firm. On that same date, the Audit Committee of the Company’s Board of Directors recommended and approved the engagement of Carlin, Charron & Rosen, LLP to serve as the independent registered public accounting firm to audit the Company’s consolidated financial statements as of and for the fiscal year ended December 31, 2005 and to serve as the Company’s independent registered public accounting firm for the fiscal year ended December 31, 2006.

The reports of BDO on the Company’s consolidated financial statements as of and for the fiscal years ended December 31, 2004 and December 31, 2003 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principle.

During the two fiscal years ended December 31, 2004 and December 31, 2003, and through February 3, 2006, there were no (1) disagreements with BDO on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to BDOs satisfaction, would have caused BDO to make reference thereto in its report on the financial statements for such years, or (2) reportable events described under Item 304(a)(1)(iv)(B) of Regulation S-B. A letter from BDO is attached to the Company’s Current Report on Form 8-K/A filed with the Commission on February 13, 2006 as Exhibit 16.1, indicating its agreement with the statements herein.

In deciding to select Carlin, Charron & Rosen, LLP, the Audit Committee reviewed auditor independence issues and existing commercial relationships with Carlin, Charron & Rosen, LLP and concluded that Carlin, Charron & Rosen, LLP has no commercial relationship with the Company that would impair its independence for the fiscal year ending December 31, 2005.

During the two fiscal years ended December 31, 2004 and December 31, 2003, and through February 3, 2006, the Company did not consult with Carlin, Charron & Rosen, LLP regarding any of the matters or events set forth in Item 304(a)(2)(i) and (ii) of Regulation S-B.

PROPOSALS RECOMMENDED FOR CONSIDERATION BY STOCKHOLDERS

PROPOSAL 1

ELECTION OF DIRECTORS

The Company's By-Laws provide that the number of directors, as determined from time to time, shall not be less than two or more than six. The By-Laws further provide that the Board of Directors be divided into three classes (Class I, Class II and Class III) serving staggered three-year terms, with each class to be as nearly equal in number as possible. The Board of Directors currently consists of five seats, namely, James E. Rouse and Jason Chambers (Class I with term expiring at the 2008 Annual Meeting); E. P. Marinos and Julius Tabin (Class II with terms expiring at the 2009 Annual Meeting) and Paul F. Walter (Class III with term expiring at the 2007 Annual Meeting).

The Board of Directors, based on the recommendation of the Nominating Committee, has concluded that the nomination and re-election of Dr. Paul F. Walter as a Class III director is in the best interest of the Company and recommends stockholder approval of the re-election of Dr. Walter for a three-year term (expiring at the 2010 Annual Meeting) and until his successor has been duly elected and shall qualify.

The remaining directors will continue to serve in their positions for the remainder of their terms. Biographical information concerning Dr. Walter, and the other ART directors can be found under "Information About Directors and Executive Officers."

The persons named in the proxy will vote FOR the nominee, except where authority has been withheld as to the particular nominee.

The nominee for director receiving a plurality of the votes represented by the shares of Common Stock present in person or represented by proxy at the Annual Meeting and entitled to vote thereon will be elected as director. The nominee has consented to being named in this Proxy Statement and to serve his term if elected. As of the date of this Proxy Statement, the Board is not aware that the nominee is unable or will decline to serve as a director. If the nominee should for any reason become unavailable for election, proxies may be voted with discretionary authority by the persons appointed as proxies for any substitute designated by the Board of Directors of the Company.

The Board recommends that stockholders vote FOR the nominee for election to the Board of Directors of the Company.

PROPOSAL 2**APPROVAL OF THE AMENDMENT OF THE 2001 STOCK OPTION PLAN TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK AUTHORIZED FOR ISSUANCE BY 200,000 SHARES****General**

On April 9, 2007, the Company's Board of Directors approved an amendment to the Arrhythmia Research Technology, Inc. 2001 Stock Option Plan (the "Plan") upon the recommendation of the Compensation Committee. The amendment increases the authorized number of shares of common stock that may be issued pursuant to the Plan by 200,000 shares. In the event the amendment is approved by stockholders, there will be an aggregate of 230,000 shares available for issuance under the Plan.

The Plan was adopted by the Board of Directors on March 21, 2001, reserving 200,000 shares of common stock for the issuance of incentive stock options to employees and non-statutory stock options to employees, non-employee directors and consultants. Stockholders approved the Plan on October 5, 2001. To date, options to acquire 170,000 shares of common stock have been issued, leaving only 30,000 shares of common stock available for issuance upon exercise of future options granted under the Plan. The Board of Directors believes that stock options have been and will continue to be an important compensation element in attracting, motivating and retaining key employees and that the increase in authorized shares is necessary to permit future awards under the Plan.

The Plan is not subject to the provisions of the Employment Retirement Income Security Act and is not a "qualified plan" within the meaning of Section 401 of the Internal Revenue Code, as amended (the "Code").

The Plan is administered by the Company's Compensation Committee. Subject to the provisions of the Plan, the Committee has the authority to determine (i) which persons eligible under the Plan will be granted options (each a "Participant"); (ii) when and how the options will be granted; (iii) whether the options will be incentive stock options, non-statutory stock options, or a combination of the foregoing; (iv) the number of shares involved; (v) the exercise or purchase price; (vi) the type and duration of transfer or other restrictions; and (vii) any other terms of an option.

Equity Compensation Plan Information

The following table provides information, as of December 31, 2006, with respect to our equity compensation plans:

| Plan category | Number of securities to be issued upon exercise of outstanding options, warrants and rights (a) | Weighted-average exercise price of outstanding options, warrants and rights (b) | Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c) |
|---------------------------|--|--|--|
| Equity compensation plans | 93,000 ⁽¹⁾ | \$ 9.05 | 140,000 ⁽²⁾ |

| | | | |
|--|-----------------------|---------|------------------------|
| approved by security holders Equity compensation plans | -- | -- | -- |
| not approved by security holders | | | |
| Total | 93,000 ⁽¹⁾ | \$ 9.05 | 140,000 ⁽²⁾ |

⁽¹⁾ Excludes 20,000 shares not vested at December 31, 2006.

⁽²⁾ Includes 40,000 shares available under the 2001 Stock Option Plan and 100,000 shares available under the 2005 Stock Award Plan.

In May 2005 stockholders approved our 2005 Stock Award Plan (the “2005 Plan”) reserving 100,000 shares of common stock for the issuance of stock awards to employees, directors and consultants. The 2005 Plan authorizes the issuance of bonus stock, restricted stock, deferred stock or other stock-based awards. Additionally, in December 2003 we adopted the 2003 Stock Bonus Plan to provide a one-time award of 3,000 shares in partial payment of cash bonuses for salaried and hourly employees. The 2003 Stock Bonus Plan expired on December 31, 2003 in accordance with its terms.

Shares Subject to the Plan

Pursuant to the Plan, the aggregate number of shares of common stock that may be issued is currently 30,000 shares, subject to adjustment to prevent the dilution of rights from stock dividends, stock splits, recapitalization or similar transactions. Shareholders are being requested to approve the proposed amendment of the Plan to increase the authorized shares by 200,000. If the amendment is approved by stockholders, an aggregate of 230,000 shares will be available under the Plan for future issuances. Shares issuable under the Plan shall be authorized but unissued shares of common stock or shares of common stock reacquired by the Company in any manner.

Awards under the Plan

The Plan permits the granting of incentive stock options meeting the requirements of Section 422 of the Code and “non-qualified options” that do not meet such requirements.

The exercise price per share of each incentive stock option granted under the Plan will be not less than the fair market value of the common stock on the date of the grant of the option. Options may not be granted to an employee who, at the time of grant, owns stock possessing more than ten percent of the total combined voting power of all classes of stock of the Company or any parent or subsidiary, as defined in section 424 of the Code, unless the price per share is not less than 110% of the fair market value of the common stock on the date of grant. The aggregate fair market value (determined at the time the option is granted) of the common stock for which any employee may have incentive stock options vest in any calendar year may not exceed \$100,000. Options granted under the Plan will vest (become exercisable) either initially or in periodic installments as determined by the Committee. No option will be exercisable after the expiration of six years from the date it was granted.

The duration of an Option shall be within the sole discretion of the Compensation Committee but no more than six years after the date the Option is granted. During the Participant’s lifetime, an incentive stock option will be exercisable only by the Participant and will not be transferable except by will or by the laws of descent and distribution. A non-statutory stock option may be transferred upon such terms and conditions as the Committee may determine in its sole discretion. The Participant may designate a third party who, in the event of the death of the Participant, will be entitled to exercise the vested options, but only within the period ending on the earlier of (i) twelve months following the date of death and (ii) the expiration of the term of the option in the option agreement.

Termination of Employment

In the event a Participant is terminated as an employee, director or consultant (other than by death, disability or retirement), the Participant may exercise his or her vested options only within the period of time ending on the earlier of (i) sixty days after termination or such period of time set forth in the option agreement or (ii) expiration of the option’s term. In the event a Participant’s status as an employee, director or consultant terminates as a result of disability, the Participant’s vested options must be exercised within the period ending on the earlier of (i) twelve months following the date of death and (ii) the expiration of the term of the option in the option agreement

Federal Tax Consequences

The federal income tax discussion set forth below is intended for general information only. State and local income tax consequences are not discussed, and may vary from locality to locality. The federal income tax consequences arising with respect to options granted under the Plan will depend on the type of the option. The following provides only a general description of the application of federal income tax laws to options granted under the Plan.

Incentive Stock Options. A Participant is not taxed at the time an incentive stock option is granted. The tax consequences upon exercise and later disposition depend upon whether the Participant was an employee of the Company or its subsidiary at all times from the date of grant until three months preceding exercise (one year in the case of death or disability) and on whether the Participant holds the shares for more than one year after exercise and two years after the date of grant of the option. If the Participant satisfies both the employment rule and the holding rule, for regular tax purposes the Participant will not realize income upon exercise of the option and the Company will not be allowed an income tax deduction at any time. The difference between the option price and the amount realized upon disposition of the shares by the Participant will constitute a long-term capital gain or a long-term capital loss, as the case may be. Neither the employment rule nor the holding rule will apply to the exercise of an option by the estate of a Participant, provided that the Participant satisfied the employment rule as of the date of such Participant’s death. If the Participant meets the employment rule but fails to observe the holding rule, a disqualifying disposition, the Participant generally recognizes as ordinary income, in the year of the disqualifying disposition, the excess of the fair

market value of the shares at the date of exercise over the option price. Any excess of the sales price over the fair market value at the date of exercise will be recognized by the Participant as capital gain (long-term or short-term depending on the length of time the stock was held after the option was exercised). If, however, the sales price is less than the fair market value at the date of exercise, then the ordinary income recognized by the Participant is generally limited to the excess of the sales price over the option price. In both situations, the Company's tax deduction is limited to the amount of ordinary income recognized by the Participant.

17

Nonqualified Stock Options. Under present regulations, a Participant who is granted a nonqualified stock option will not realize taxable income at the time the option is granted. In general, a Participant will be subject to tax for the year of exercise on an amount of ordinary income equal to the excess of the fair market value of the shares on the date of exercise over the option price, and the Company will receive a corresponding deduction. Income tax withholding requirements apply upon exercise. The Participant's basis in the shares so acquired will be equal to the option price plus the amount of ordinary income upon which he is taxed. Upon subsequent disposition of the shares, the Participant will realize capital gain or loss, long-term or short-term, depending upon the length of time the shares are held after the option is exercised.

Different consequences will apply for a Participant subject to the alternative minimum tax.

Historical Awards and New Plan Benefits

The following table sets forth information with respect to stock option grants to the executive officers named in the Summary Compensation Table and the specified groups set forth below pursuant to the Plan as of March 31, 2007.

| Name and Principal Position | Options Granted |
|---|--------------------|
| James E. Rouse President and Chief Executive Officer | 40,000 |
| David A. Garrison Executive Vice President and Chief Financial Officer | 33,000 |
| All executive officers as a group (2 persons) | 73,000 |
| All non-executive directors as a group (4 persons) | 40,000 |
| Each associate of the above-mentioned executive officers and directors | -- |
| Each other person who received or is to receive 5% of such awards | -- |
| All employees (other than executive officers) as a group (97 persons) | 57,000 |

It is not possible to predict the individuals who will receive future options under the Plan or the number of shares of common stock covered by any future option because awards of stock options are wholly within the discretion of the Compensation Committee. The last reported sales price of the common stock underlying the Plan on March 30, 2007 was \$26.22.

Termination or Amendment of the Plan

The Plan authorizes the Board of Directors to discontinue, suspend or amend the Plan, except that no amendment, suspension or termination of the Plan or amendment of a stock option by the Board of Directors may alter or impair a grantee's rights under a stock option previously granted without the grantee's written consent. The Plan will terminate on March 20, 2011 except as to options outstanding on that date.

Recommendation and Vote

The Board seeks stockholder approval of the amendment of the Plan as required by the Plan and to satisfy certain other legal requirements, including requirements of the American Stock Exchange. In addition, the Board regards stockholder approval of the Plan as desirable and consistent with good corporate governance practices.

To be approved, this proposal requires the affirmative vote of the majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote thereon.

The Board recommends that stockholders vote FOR the proposal to amend the Arrhythmia Research Technology, Inc. 2001 Stock Option Plan to increase the authorized shares of common stock available by 200,000 shares.

No Incorporation by Reference

In the Company's filings with the SEC, information is sometimes "incorporated by reference." This means that we are referring you to information that has previously been filed with the SEC and the information should be considered as part of the filing. Based on SEC regulations, the "Audit Committee Report" and the Compensation Committee Procedures, Interlocks and Insider Participation" specifically are not incorporated by reference into any other filings with the SEC. In addition, this proxy statement includes website addresses. These website addresses are intended to provide inactive, textual references only. The information on these websites is not part of this proxy statement.

Householding of Proxy Statements

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially means extra convenience for stockholders and cost savings for companies.

A number of brokers with account holders who are our stockholders may "household" our proxy materials. In that event, a single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be householding communications to your address, householding will continue until you are notified otherwise or until

you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your broker and our Secretary in writing at 25 Sawyer Passway, Fitchburg, MA 01420 or by telephone at (978) 345-5000. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should contact their broker.
