PS Business Parks, Inc. reports second quarter, 2003 results.

Glendale, California PS Business Parks, Inc. (AMEX: PSB), reported operating results for the second quarter ending June 30, 2003.

Net income allocable to common shareholders for the second quarter of 2003 was \$13.0 million or \$0.60 per diluted share on revenues of \$50.5 million compared to \$9.5 million or \$0.44 per diluted share on revenues of \$48.8 million for the same period in 2002. Net income allocable to common shareholders for the six months ended June 30, 2003 was \$18.8 million or \$0.87 per diluted share on revenues of \$99.1 million compared to net income allocable to common shareholders of \$22.6 million or \$1.04 per diluted share on revenues of \$96.9 million for the same period in 2002.

Net income allocable to common shareholders for the three months ended June 30, 2003 included a gain on sale of marketable securities of \$2.0 million or \$0.07 per share, gain on dispositions of real estate of \$3.5 million or \$0.12 per share and equity in income of a discontinued joint venture of \$.5 million or \$0.02 per share. The results for the three months ended June 30, 2002 included \$.1 million or less than \$0.01 per share of these items.

Net income allocable to common shareholders for the six months ended June 30, 2003 included a gain on sale of marketable securities of \$2.0 million or \$0.07 per share, gain on dispositions of real estate of \$3.5 million or \$0.12 per share and equity in income of a discontinued joint

Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

venture of \$2.3 million or \$0.08 per share. These were offset by an impairment charge on properties held for disposition of \$5.9 million or \$0.21 per share. The six months ended June 30, 2002 included approximately \$5.5 million or \$0.19 per share from gains from similar transactions.

Supplemental Measures

Funds from operations ("FFO") for the second quarter of 2003 were \$25.8 million or \$0.90 per share compared to \$27.0 million or \$0.93 per share for the same period in 2002. This represents a decrease of 3.2% in FFO per share based on 28.8 million and 29.1 million weighted average shares outstanding during the second quarter of 2003 and 2002, respectively. FFO for the six months ended June 30, 2003 was \$52.0 million or \$1.81 per share compared to \$53.1 million or \$1.83 per share for the same period in 2002. This represents a decrease of 1.1% in FFO per share based on 28.8 million and 29.1 million weighted average shares outstanding during the six months ended June 30, 2003 and 2002 respectively. FFO and FFO per share exclude depreciation or amortization, the gain on disposition of real estate and marketable securities and impairment loss, all of which are included in the calculation of net income.

The slight decrease in FFO per share is due primarily to a reduction in the straight line rent adjustment in the second quarter of 2003 compared with the same periods of 2002, the short-term dilutive effect of property dispositions offset partially by a reduction in the common shares and the equity in income of the discontinued joint venture related to incentive fees.

Funds available for Distribution (FAD) decreased 4.2% to \$20.9 million during the second quarter of 2003 from \$21.8 million during the second quarter of 2002. For the first half of 2003, FAD decreased 2.5 % from \$43.2 million to \$42.1 million. These decreases were primarily the result of higher leasing transaction costs.

The Company announced in April that it will report funds from operations in conformity with the definition provided by the National Association of Real Estate Investment Trusts and, therefore, will no longer exclude the effects of straight-lining rents from its calculation of funds from operations. The Company made this decision after review of Regulation G, governing public disclosures of non-GAAP financial measures which was recently adopted by the Securities and Exchange Commission. The impact was to decrease funds from operations by \$76,000 and less than \$0.01 per share for the three months ended June 30, 2003 and to increase funds from operations by \$777,000 or \$0.03 per share for the same period in 2002. The impact for the six months ended June 30, 2003 and 2002 is to increase funds from operations by \$559,000 or \$0.02 per share and \$1,737,000 or \$0.06 per share. The Company continues to disclose the straight-line rent adjustment and exclude it from its FAD calculation. See the Company's reconciliation of net income allocable to common shareholders to FFO and FAD on page 9 of this news release.

Property Operations

In order to evaluate the performance of the Company's overall portfolio, management analyzes the operating performance of a consistent group of properties (13.8 million net rentable square feet). These properties (herein referred to as the Same Park facilities) have been owned and operated by the Company for the comparable periods. The Same Park facilities represent approximately 93% of the square footage of the Company's portfolio at June 30, 2003.

The following tables summarize the pre-depreciation historical operating results of the Same Park facilities and the entire portfolio.

- (2) Preferred distributions include amounts paid to preferred shareholders of \$3,924,000 and preferred unitholders in the operating partnership of \$4,810,000.

Property Dispositions

The Company has identified several properties for disposition. Three properties, including a 57,000 square foot office building in Lakewood, California and two flex facilities in Nashville, Tennessee totaling 138,000 square feet were sold during the second quarter with net proceeds of approximately \$11.4 million. A gain on the Lakewood property of \$3.2 million and a gain of \$300,000 on the sale of the Nashville properties were recognized in the second quarter. In addition, the Company previously announced it was under contract to sell a group of five office and flex buildings with a 3.5 acre parcel of land in Beaverton, Oregon for net proceeds of \$34.5 million. This contract was subsequently terminated and the Company has not determined whether it will ultimately dispose of some or all of these properties. An impairment loss of \$5.9 million based on the estimated proceeds from the disposition of the Beaverton, Oregon properties was recognized in the first quarter of 2003. On July 29, 2003 the Company sold a one acre parcel of land for \$775,000, resulting in a gain of approximately \$45,000.

Joint Venture Property Dispositions

Through a joint venture with an institutional investor, the Company held a 25% equity interest in an industrial park in the City of Industry submarket of Los Angeles, California. Initially, the joint venture consisted of 14 buildings totaling 294,000 square feet. During 2002, the joint venture sold eight buildings totaling 170,000 square feet. During January, 2003, five of the remaining six buildings were sold and the Company recognized gains of approximately \$1.1 million as a result of these sales and incentive compensation of \$0.7 million. The final property was sold in April, 2003, resulting in a gain of approximately \$300,000 and incentive compensation of approximately \$200,000 which was recognized during the second quarter of 2003.

Property Acquisitions

In June, the Company acquired a master-planned business park known as Orange County Business Center at a cost of approximately \$46 million. The acquisition was funded with the Company's existing cash and cash equivalents. The park consists of five low-rise multi-tenant office buildings (437,000 square feet). The Park is located in the Santa Ana suburb of Orange County and is approximately 73% occupied with 26% of the square footage expiring through December 31, 2003. The largest tenant is National Water and Power, which occupies 55,415 square feet or 13% of the Park. This acquisition expands the Company's presence in Orange County to 1.5 million square feet and its overall presence in Southern California to approximately 3.6 million square feet. The acquisition increases the Company's total square footage to 14.9 million rentable square feet.

Gain on sale of marketable securities

During the second quarter, the Company disposed of its marketable equity securities generating net proceeds of approximately \$7.6 million and a gain on sale of the securities of approximately \$2 million.

Distributions Declared

The Board of Directors declared a quarterly dividend of \$0.29 per common share on July 31, 2003. Distributions were also declared on the various series of depositary shares, each representing 1/1,000 of a share of preferred stock listed below. Distributions are payable September 30, 2003 to shareholders of record on September 15, 2003.

- (1) Funds from operations (FFO) is a term defined by the National Association of Real Estate Investment Trusts, Inc. (NAREIT) by which real estate investment trusts (REITs) may be compared. It is generally defined as net income, computed in accordance with generally accepted accounting principals, before depreciation, amortization, minority interest in income and extraordinary items. The Company considers FFO to be a useful measure of the operating performance of a REIT, which provides investors with a

Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

basis to evaluate the operations and the cash flows of a REIT. FFO does not represent net income or cash flow from operations as defined by GAAP. FFO computations do not factor out the REIT's requirement to make either capital expenditures or principal payments on debt. The Company excludes gains/losses on disposition of real estate impairment loss and gains/losses on sale of marketable securities to more accurately reflect cash flow from real estate operations. Other REITs may not make these adjustments in computing FFO.

- (2) Funds available for distribution (FAD) is computed by deducting from consolidated FFO recurring capital expenditures, tenant improvements, capitalized leasing commissions, and the straight line rent adjustment from FFO and adding stock based compensation expense. Like FFO, the Company considers FAD to be a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD does not represent net income or cash flow from operations as defined by GAAP.
