Roni Al-Dor, President and CEO, commented "We proudly report our fourth consecutive quarter of operational profit. With the \$20 million private placement behind us, and our new CFO and new VP of R&D firmly in place, we are ready to expand and grow. I am particularly excited by, and proud of, our existing customers who have entered into new agreements with us for the porting and migration of the Sapiens solution to new platforms. We will capitalize on our unique position to grow with our existing customers and to capture new customers in the multi-billion dollar insurance markets."

Comment Regarding Non-GAAP

Sapiens' management believes that the presentation of Non-GAAP measures can enhance the understanding of the company's ongoing economic performance, and provides useful information to investors regarding financial and business trends relating to the company's financial condition and results of operations. Sapiens therefore uses internally the Non-GAAP information to evaluate and manage the Company's operations.

These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Sapiens

believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Sapiens' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Sapiens' results of operations in conjunction with the corresponding GAAP measures.

Please refer to the Reconciliation of GAAP to Non-GAAP Results at the end of this release.
