Schlumberger N.V. (Schlumberger Limited)	SLB		11.00%	0.47%	10.53%	75%	00083JKJ6

<sup>2</sup>The Securities have a term of six months, so you will receive a pro rated amount of this per annum rate based on such six-month period.

Offerings: This Term Sheet relates to six separate offerings of securities (“the Securities”). Each Security offered is linked to one, and only one, of the Underlying Shares. The Underlying Shares are set forth in the table above. You may participate in any of the Securities offerings or, at your election, in two or more of the offerings. This Term Sheet does not, however, allow you to purchase a Security linked to a basket of some or all of the Underlying Shares described above. Each Security has a term of six months.

Coupon Payment Dates: Coupons on the Securities are payable monthly in arrears on the 25th day of each month starting on December 25, 2009 and ending on the maturity date.

Initial Price:

Edgar Filing: ABN AMRO HOLDING N V - Form FWP

100% of the closing price of the applicable Underlying Shares on the Pricing Date, subject to adjustment as described in the accompanying Product Supplement.

Knock-In Level: A percentage of the applicable initial price, as set forth in the table above.

Redemption Amount: For each \$1,000 face amount of Security, a number of the applicable Underlying Shares linked to such Security equal to \$1,000 divided by the applicable initial price.

Underlying Shares	Page Number	Initial Price	Knock-In Price	Redemption Amount	Aggregate Agent's Commission <sup>3</sup>	Aggregate Proceeds to Issuer
Freeport-McMoRan Copper & Gold Inc.						
Peabody Energy Corporation						
Caterpillar Inc.						
National Oilwell Varco, Inc.						
Halliburton Company						
Schlumberger N.V. (Schlumberger Limited)						

<sup>3</sup>For all offerings, the agent will receive a commission of 2.25%. For additional information see "Plan of Distribution" (Conflicts of Interest) in this Term Sheet.

Investing in the Securities involves a number of risks. See "Risk Factors" beginning on page PS-9 of the accompanying Product Supplement No.1-I and "Risk Factors" beginning on page 9 of this Term Sheet.

The Securities are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation, the Deposit Insurance Fund or any other governmental agency, nor are they obligations of, or guaranteed, by a bank. The Securities are not guaranteed under the Federal Deposit Insurance Corporation's Temporary Liquidity Guarantee Program.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these Securities, or determined if this Term Sheet or the accompanying Product Supplement, Prospectus Supplement or Prospectus are truthful or complete. Any representation to the contrary is a criminal offense.

The agents are not obligated to purchase the Securities but have agreed to use reasonable efforts to solicit offers to purchase the Securities. To the extent the full aggregate face amount of the Securities being offered by this Term Sheet is not purchased by investors in the offering, one or more of our affiliates may agree to purchase a part of the unsold portion, which may constitute up to 15% of the total aggregate face amount of the Securities, and to hold such Securities for investment purposes. See "Holdings of the Securities by Our Affiliates and Future Sales" under the heading "Risk Factors" and "Plan of Distribution (Conflicts of Interest)" in this Term Sheet. This Term Sheet and the accompanying Product Supplement, Prospectus Supplement and Prospectus may be used by our affiliates in connection with offers and sales of the Securities in market-making transactions.

PRICE: \$1,000 PER SECURITY

Additional Terms Specific to the Securities:

**Payment at Maturity:** The payment at maturity for each Security is based on the performance of the applicable Underlying Shares linked to such Security:

- (i) If the closing price of the applicable Underlying Shares has not fallen below the applicable knock-in level on any trading day from but not including the Pricing Date to and including the determination date, we will pay you the face amount of each Security in cash.
- (ii) If the closing price of the applicable Underlying Shares has fallen below the applicable knock-in level on any trading day from but not including the Pricing Date to and including the determination date:
  - (a) we will deliver to you a number of the applicable Underlying Shares equal to the applicable redemption amount, in the event that the closing price of the applicable Underlying Shares on the determination date is below the applicable initial price; or
  - (b) we will pay you the face amount of each Security in cash, in the event that the closing price of the applicable Underlying Shares on the determination date is at or above the applicable initial price.

You will receive cash in lieu of fractional shares. If due to events beyond our reasonable control, as determined by us in our sole discretion, the applicable Underlying Shares are not available for delivery at maturity we may pay you, in lieu of the applicable redemption amount, the cash value of the applicable redemption amount, determined by multiplying the applicable redemption amount by the closing price of the applicable Underlying Shares on the determination date.

Any payment at maturity is subject to the creditworthiness of ABN AMRO Bank N.V. and ABN AMRO Holding N.V., as guarantor.

<b>Trustee:</b>	Wilmington Trust Company	<b>Securities Administrator:</b>	Citibank, N.A.
<b>Denomination:</b>	\$1,000	<b>Settlement:</b>	DTC, Book Entry, Transferable
<b>Status:</b>	Unsecured, unsubordinated obligations of the Issuer and fully and unconditionally guaranteed by the Issuer's parent company, ABN AMRO Holding N.V.		
<b>Selling Restriction:</b>	Sales in the European Union must comply with the Prospectus Directive		

Where You Can Find More Information

ABN AMRO BANK N.V., or ABN AMRO, has filed a registration statement (including a Prospectus and Prospectus Supplement) with the Securities and Exchange Commission, or SEC, for the offering to which this Term Sheet relates. Before you invest, you should read the Prospectus and Prospectus Supplement in that registration statement and other documents, including the applicable Product Supplement, related to this offering that ABN AMRO has filed with the SEC for more complete information about ABN AMRO and the offering of the Securities.

You may get these documents without cost by visiting EDGAR on the SEC website at [www.sec.gov](http://www.sec.gov). Alternatively, ABN AMRO, any underwriter or any dealer participating in the offering will arrange to send you the Prospectus, Prospectus Supplement and Product Supplement No. 1-I if you request by calling toll free (866) 747-4332.

You should read this Term Sheet together with the Prospectus dated September 29, 2009, as supplemented by the Prospectus Supplement dated September 29, 2009 relating to our ABN Notes<sup>SM</sup> of which these Securities are a part, and the more detailed information contained in Product Supplement No. 1-I dated September 29, 2009. This Term Sheet, together with the documents listed below, contains the terms of the Securities and supersedes all other prior or

Edgar Filing: ABN AMRO HOLDING N V - Form FWP

contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, fact sheets, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in “Risk Factors” in the accompanying Product Supplement No. 1-I, as the Securities involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the Securities.

You may access these documents on the SEC website at [www.sec.gov](http://www.sec.gov) as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC website):

- Product Supplement No. 1-I dated September 29, 2009:  
[http://www.sec.gov/Archives/edgar/data/897878/000095010309002437/crt\\_productsupp.pdf](http://www.sec.gov/Archives/edgar/data/897878/000095010309002437/crt_productsupp.pdf)
- Prospectus Supplement dated September 29, 2009:  
[http://www.sec.gov/Archives/edgar/data/897878/000095010309002432/crt\\_prosupp2009.pdf](http://www.sec.gov/Archives/edgar/data/897878/000095010309002432/crt_prosupp2009.pdf)
- Prospectus dated September 29, 2009:  
[http://www.sec.gov/Archives/edgar/data/897878/000095010309002429/crt\\_basepro.pdf](http://www.sec.gov/Archives/edgar/data/897878/000095010309002429/crt_basepro.pdf)

Our Central Index Key, or CIK, on the SEC website is 897878. As used in this Term Sheet, the “Company,” “we,” “us” or “our” refers to ABN AMRO Bank N.V.

These Securities may not be offered or sold (i) to any person/entity listed on sanctions lists of the European Union, United States or any other applicable local competent authority; (ii) within the territory of Cuba, Sudan, Iran and Myanmar; (iii) to residents of Cuba, Sudan, Iran or Myanmar; or (iv) to Cuban Nationals, wherever located.

We reserve the right to withdraw, cancel or modify any offering of the Securities and to reject orders in whole or in part prior to their issuance.

3

---

## SUMMARY

This Term Sheet relates to six separate offerings of Securities. Each Security offered is linked to one, and only one, of the Underlying Shares described on the cover page. The purchaser of any offering will acquire a Security linked to only one of the Underlying Shares not to a basket or index of some or all of the Underlying Shares. You may participate in any of the offerings or, at your election, in several or all of the offerings.

The following summary does not contain all the information that may be important to you. You should read this summary together with the more detailed information that is contained in Product Supplement No. 1-I and in the accompanying Prospectus and Prospectus Supplement. You should carefully consider, among other things, the matters set forth in “Risk Factors” in the Product Supplement No. 1-I, which are summarized on page 9 of this Term Sheet. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

What are the Securities?

The Securities are non-principal protected securities issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities will pay periodic cash payments at a fixed rate. We refer to the payments as the coupon or coupon payments and the fixed rate as the coupon rate. The Securities are senior notes of ABN AMRO Bank N.V. These Securities combine certain features of debt and equity by offering a fixed coupon rate on the face amount while the payment at maturity is determined based on the performance of the common stock, which we refer to as the Underlying Shares of an Underlying Company. Therefore your principal is at risk but you have no opportunity to participate in any appreciation of the applicable Underlying Shares.

Any payment on the Securities is subject to the creditworthiness of ABN AMRO Bank N.V. and ABN AMRO Holding N.V. as guarantor.

What will I receive at maturity of the Securities?

The payment at maturity of the Securities will depend on (i) whether or not the closing price of the applicable Underlying Shares to which it is linked fell below the applicable knock-in level on any trading day during the knock-in period, and if so, (ii) the closing price of the applicable Underlying Shares on the determination date. Except in certain circumstances described under “Description of Securities — Closing Price” in the accompanying Product Supplement, we will usually determine the closing price for any listed Underlying Shares by reference to the last reported sale price, during regular trading hours (or if listed on The NASDAQ Stock Market LLC, the official closing price), on the primary U.S. securities exchange on which the Underlying Shares are traded.

- If the closing price of the applicable Underlying Shares has not fallen below the applicable knock-in level on any trading day during the knock-in period, we will pay you the face amount of each Security in cash.
- If the closing price of the applicable Underlying Shares has fallen below the applicable knock-in level on any trading day during the knock-in period, we will either:
  - deliver to you the applicable redemption amount, in exchange for each Security, in the event that the closing price of the applicable Underlying Shares on the determination date is below the applicable closing price on the pricing date (subject to adjustment), which we refer to as the initial price of such Underlying Shares (the market value of the applicable redemption amount on the determination date will always be less than the face amount of \$1,000 per Security); or

- pay you the face amount of each Security in cash, in the event that the closing price of the applicable Underlying Shares is at or above the applicable initial price on the determination date.

If due to events beyond our reasonable control, as determined by us in our sole discretion, the applicable Underlying Shares are not available for delivery at maturity we may pay you, in lieu of the applicable redemption amount, the cash value of the applicable redemption amount, determined by multiplying the applicable redemption amount by the closing price of the applicable Underlying Shares on the determination date.

The “redemption amount” is equal to \$1,000 divided by the applicable initial price of the applicable Underlying Shares. The applicable initial price and consequently the applicable redemption amount may be adjusted for certain corporate events, such as a stock split, affecting the Underlying Company.

The payment at maturity is further subject to adjustment in certain circumstances, such as a stock split or merger, which we describe in “Description of Securities — Adjustment Events” in the accompanying Product Supplement No. 1-I.

Any payment at maturity is subject to the creditworthiness of ABN AMRO Bank N.V. and ABN AMRO Holding N.V., as guarantor.

Why is the coupon rate on the Securities higher than the interest rate payable on your conventional debt securities with the same maturity?

The Securities offer a higher coupon rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating because you, the investor in the Securities, indirectly sell a put option to us on the applicable Underlying Shares. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher coupon rate on the Securities. As explained below under “What are the consequences of the indirect put option that I have sold you?” you are being paid the premium for taking the risk that you may receive the applicable Underlying Shares with a market value less than the face amount of your Securities at maturity, which would mean that you would lose some or all of your initial principal investment.

What are the consequences of the indirect put option that I have sold you?

The put option you indirectly sell to us creates the feature of exchangeability. This feature could result in the delivery of the applicable Underlying Shares to you, at maturity, with a market value which is less than the face amount of \$1,000 per Security. If the closing price of the applicable Underlying Shares falls below the applicable knock-in level on any trading day during the knock-in period, and on the determination date the closing price of the Underlying Shares is less than the initial price, you will receive the applicable redemption amount. The market value of the applicable Underlying Shares on the determination date will be less than the face amount of the Securities and could be zero. Therefore you are not guaranteed to receive any return of principal at maturity. If the price of the applicable Underlying Shares rises above the applicable initial price you will not participate in any appreciation in the price of the applicable Underlying Shares.

How is the redemption amount determined?

The redemption amount for each \$1,000 face amount of any Security is equal to \$1,000 divided by the applicable initial price of the Underlying Shares linked to such Security. The value of any fractional shares of the applicable Underlying Shares that you are entitled to receive, after aggregating your total holdings of the Securities linked to the applicable Underlying Shares, will be paid in cash based on the closing price of the applicable Underlying Shares on the determination date.

Do I get all my principal back at maturity?

You are not guaranteed to receive any return of principal at maturity. If the closing price of the applicable Underlying Shares falls below the applicable knock-in level on any trading day during the knock-in period, and the closing price of the applicable Underlying Shares is below the applicable initial price on the determination date, we will deliver to you applicable Underlying Shares. The market value of

such Underlying Shares on the determination date will be less than the face amount of the Securities and could be zero. Accordingly, you may lose some or all of your initial principal investment in the Securities.

What coupon payments can I expect on the Securities?

The coupon rate is fixed at issue and is payable in cash on each coupon payment date, irrespective of whether the Securities are redeemed at maturity for cash or shares.

Any coupon payment is subject to the creditworthiness of ABN AMRO Bank N.V. and ABN AMRO Holding N.V. as guarantor.

Can you give me an example of the payment at maturity?

If, for example, in a hypothetical offering, the coupon rate was 10% per annum, the initial price of the Underlying Shares was \$45.00 per share and the knock-in level for such offering was 80%, then the redemption amount would be 22.222 Underlying Shares, or \$1,000 divided by \$45.00, and the knock-in level would be \$36.00, or 80% of the initial price.

If the closing price of the hypothetical Underlying Shares fell below the knock-in level of \$36.00 on any trading day during the knock-in period, then the payment at maturity would depend on the closing price of the Underlying Shares on the determination date. In this case, if the closing price of the Underlying Shares on the determination date is \$30.00 per share, which is below the initial price, you would receive 22.222 Underlying Shares for each \$1,000 face amount of the Securities. (In actuality, because we cannot deliver fractions of a share, you would receive on the maturity date for each \$1,000 face amount of the Securities, 22 Underlying Shares plus \$6.66 cash in lieu of 0.222 fractional shares, determined by multiplying 0.222 by \$30.00, the closing price of the Underlying Shares on the determination date.) In addition, over the term of the Securities you would have received coupon payments at a rate of 10% per annum. In this hypothetical example, the market value of those 22 Underlying Shares (including the cash paid in lieu of fractional shares) that we would deliver to you at maturity for each \$1,000 face amount of Security would be \$666.66, which is less than the face amount of \$1,000, and you would have lost a portion of your initial investment. If, on the other hand, the closing price of the Underlying Shares on the determination date is \$50.00 per share, which is above the initial price, you will receive \$1,000 in cash for each \$1,000 face amount of the Securities regardless of the knock-in level having been breached. In addition, over the term of the Securities you would have received coupon payments at a rate of 10% per annum.

Alternatively, if the closing price of the Underlying Shares never falls below \$36.00, which is the knock-in level, on any trading day during the knock-in period, at maturity you will receive \$1,000 in cash for each Security you hold regardless of the closing price of the Underlying Shares on the determination date. In addition, over the term of the Securities you would have received coupon payments at a rate of 10% per annum.

This example is for illustrative purposes only and is based on a hypothetical offering. It is not possible to predict the closing price of any of the Underlying Shares on the determination date or at any time during the term of the Securities. For each offering, we will set the initial price, knock-in level and redemption amount on the Pricing Date.

In this Term Sheet, we have also provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning the Securities through maturity for various closing prices of the Underlying Shares on the determination date.

Do I benefit from any appreciation in the Underlying Shares over the term of the Securities?

No. The amount paid at maturity for each \$1,000 face amount of the Securities will never exceed \$1,000.

What is the minimum required purchase?

You may purchase Securities in minimum denominations of \$1,000 or in integral multiples thereof.

Is there a secondary market for Securities?

The Securities will not be listed on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be extremely limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. Investors are advised that any prices shown on any website or Bloomberg page are indicative prices only and, as such, there can be no assurance that any trade could be executed at such prices. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging of the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors — The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds" in the accompanying Product Supplement No. 1-I.

What is the relationship between ABN Amro Bank N.V., ABN Amro Holding N.V. and RBS Securities Inc.?

RBS Securities Inc., which we refer to as RBSSI, is an affiliate of ABN AMRO Bank N.V. and ABN AMRO Holding N.V. RBSSI will act as calculation agent for the Securities, and is acting as agent for each offering. RBSSI will conduct each offering in compliance with the requirements of NASD Rule 2720 of the Financial Industry Regulatory Authority, which is commonly referred to as FINRA, regarding a FINRA member firm's distribution of the securities of an affiliate. See "Risk Factors — Potential Conflicts of Interest between Holders of Securities and the Calculation Agent" and "Plan of Distribution (Conflicts of Interest)" in the accompanying Product Supplement No. 1-I.

Where can I find out more about the Underlying Company?

Because the Underlying Shares are registered under the Securities Exchange Act of 1934, as amended, each Underlying Company is required to file periodically certain financial and other information specified by the Commission which is available to the public. You should read "Public Information Regarding the Underlying Shares" in this Term Sheet to learn how to obtain public information regarding the Underlying Shares and other important information. The historical highest intra-day price, lowest intra-day price and last day closing price of the Underlying Shares are set forth under the heading "Public Information Regarding the Underlying Shares" in this Term Sheet.

What if I have more questions?

You should read "Description of Securities" in the accompanying Product Supplement No. 1-I for a detailed description of the terms of the Securities. ABN AMRO has filed a registration statement (including a Prospectus and Prospectus

Supplement) with the SEC for the offering to which this

7

---

communication relates. Before you invest, you should read the Prospectus and Prospectus Supplement in that registration statement and other documents ABN AMRO has filed with the SEC for more complete information about ABN AMRO and the offering of the Securities. You may get these documents for free by visiting EDGAR on the SEC web site at [www.sec.gov](http://www.sec.gov). Alternatively, ABN AMRO, any underwriter or any dealer participating in the offering will arrange to send you the Prospectus and Prospectus Supplement if you request it by calling toll free (866) 747-4332.

## RISK FACTORS

You should carefully consider the risks of the Securities to which this Term Sheet relates and whether these Securities are suited to your particular circumstances before deciding to purchase them. It is important that prior to investing in these Securities you read the Product Supplement No. 1-I related to such Securities and the accompanying Prospectus and Prospectus Supplement to understand the actual terms of and the risks associated with the Securities. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

### Credit Risk

The Securities are issued by ABN AMRO and guaranteed by ABN AMRO Holding N.V., ABN AMRO's parent company. As a result, investors in the Securities assume the credit risk of ABN AMRO and that of ABN AMRO Holding N.V. in the event that ABN AMRO defaults on its obligations under the Securities. Any obligations or Securities sold, offered, or recommended are not deposits of ABN AMRO and are not endorsed or guaranteed by any bank or thrift, nor are they insured by the FDIC or any governmental agency. The Securities are not guaranteed under the Federal Deposit Insurance Corporation's Temporary Liquidity Guarantee Program.

### Principal Risk

The Securities are not ordinary debt securities: they are not principal protected. In addition, if the closing price of the applicable Underlying Shares falls below the applicable knock-in level on any trading day during the knock-in period, investors in the Securities will be exposed to any decline in the price of the applicable Underlying Shares below the closing price of the applicable Underlying Shares on the date the Securities were priced. Accordingly, you may lose some or all of your initial principal investment in the Securities.

### Limited Return

The amount payable under the Securities will never exceed the original face amount of the Securities plus the applicable aggregate fixed coupon payment investors earn during the term of the Securities. This means that you will not benefit from any price appreciation in the applicable Underlying Shares, nor will you receive dividends paid on the applicable Underlying Shares, if any. Accordingly, you will never receive at maturity an amount greater than a predetermined amount per Security, regardless of how much the price of the applicable Underlying Shares may increase during the term of the Securities or on the determination date. The return on a Security may be significantly less than the return on a direct investment in the applicable Underlying Shares to which the Security is linked during the term of the Security.

### Liquidity Risk

The Securities will not be listed on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing of the Securities may be very limited or non-existent. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

It is important to note that many factors will contribute to the secondary market value of the Securities, and you may not receive your full principal back if the Securities are sold prior to maturity. Such factors include, but are not limited to, time to maturity, the price of the applicable Underlying Shares, volatility and interest rates.

In addition, the price, if any, at which our affiliate or another party are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market

prices are likely to exclude, commissions, discounts or mark-ups paid with respect to the Securities, as well as the cost of hedging our obligations under the Securities.

9

---

### Holdings of the Securities by Our Affiliates and Future Sales

Certain of our affiliates may agree to purchase for investment the portion of the Securities that has not been purchased by investors in a particular offering of Securities, which initially they intend to hold for investment purposes. As a result, upon completion of such an offering, our affiliates may own up to 15% of the aggregate face amount of the Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests. For example, our affiliates may attempt to sell the Securities that they had been holding for investment purposes at the same time that you attempt to sell your Securities, which could depress the price, if any, at which you can sell your Securities. Moreover, the liquidity of the market for the Securities, if any, could be substantially reduced as a result of our affiliates holding the Securities. In addition, our affiliates could have substantial influence over any matter subject to consent of the security holders.

### Potential Conflicts of Interest

We and our affiliates play a variety of roles in connection with the issuance of the Securities, including acting as calculation agent. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the Securities. We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in any of the Underlying Shares. In particular, on or prior to the date of this Term Sheet, we, through our affiliates, may have hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Shares, options contracts on Underlying Shares listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Our purchase activity, however, could potentially have increased the initial price of the applicable Underlying Shares, and therefore increased the applicable knock-in level, below which we would be required to deliver to you at maturity applicable Underlying Shares, which, in turn, would have a value less than the face amount of your Securities.

### No Affiliation with the Underlying Company

The Underlying Companies are not affiliates of ours and are not involved with this offering in any way. The obligations represented by the Securities are our obligations, not those of the Underlying Companies. Investing in the Securities is not equivalent to investing in any of the Underlying Shares. Neither we nor Holding nor any of our affiliates have any affiliation with any of the Underlying Companies, and are not responsible for any Underlying Company's public disclosure of information, whether contained in SEC filings or otherwise.
