EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 2000

LETTER TO SHAREHOLDERS

[PHOTO OF THOMAS J. FETTER PRESIDENT]

As most investors know, municipal bonds have long occupied a unique position among investment asset classes. Historically, the \$1.5 trillion municipal market has financed a broad range of important public projects, including utilities, transportation facilities, hospitals, education, economic development and housing projects. These projects address the needs of local and state communities, generate new employment opportunities and improve the quality of life for many citizens. We thought it might be helpful to shareholders to begin a series of discussions with a broad overview of this vital market.

REVENUE BONDS: PROVIDING FINANCING  
FOR ESSENTIAL, FEE-BASED SERVICES...

Roughly two-thirds of all municipal bond issuance over the past decade has consisted of revenue bonds. These bonds are issued by entities that charge their customers a fee to provide essential services and include a very broad range of issuers. Electric and water utilities, airport and turnpike authorities, housing projects and hospitals are just a few examples of entities that issue revenue bonds. Interest payments to bondholders are paid from user fees paid for services.

For investors, credit quality is critical. Municipal bond analysts look for trends that may impact an issuer's revenue base, which could include shifts in demographics within the customer base, a rise or fall in competitive rates for water or electric power, or changes in insurance reimbursements for medical procedures. Those trends bear close watching, for any significant change may have a major impact on the value of the investment.

GENERAL OBLIGATION BONDS:  
BACKED BY THE "FULL FAITH AND CREDIT"  
OF THE ISSUER...

General obligation bonds (GOs) constitute the remaining one-third of the municipal market. Issued by states, counties, cities, towns, villages and school districts, GOs are backed by the full faith and credit of the issuer,

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

as represented by the unlimited taxing power of the jurisdiction. Because of that taxing power, GOs are often accorded a fairly high credit quality, dependent, of course, on the creditworthiness of the community in question.

[EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC]

-----  
MUNICIPAL BOND YIELDS EXCEEDED TREASURY YIELDS

30-Year AAA-rated General Obligation (GO) Bonds*.....	5.67%
Taxable equivalent yield is 39.6% tax bracket.....	9.39%
30-Year Treasury bond.....	5.61%

Principal and interest payments of Treasury securities are guaranteed by the U.S. government.

\*GO yields are a compilation of a representative variety of general obligations and are not necessarily representative of the Trust's yield. Statistics as of November 30, 2000.

Past performance is no guarantee of future sales.

Source: Bloomberg L.P.

-----  
Investors analyze a community's economic base, looking for sound fundamentals and a strong tax revenue base. In cases where that tax base is threatened, credit quality may be jeopardized. For example, New York City was close to bankruptcy in 1975 and its GO bonds performed very poorly. However, as the City's fortunes improved in the 1980s and 1990s, its revenue base improved significantly, leading to an upgrade in its bonds.

At Eaton Vance, we have long been major participants in the municipal market, and have been active in bringing municipal alternatives to investors. While the importance of the municipal market is apparent in the projects that improve our lives, we believe that municipal bonds play an equally important role for today's tax-conscious investors. We will continue to seek promising opportunities in this important market.

Sincerely,  
/s/ Thomas J. Fetter

MANAGEMENT DISCUSSION

[PHOTO OF THOMAS M. METZOLD PORTFOLIO MANAGER]

## Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

### INVESTMENT ENVIRONMENT

- Following several years of remarkable growth, the U.S. economy finally showed signs of slowing in the second half of 2000. Last year's rise in interest rates, engineered by the Federal Reserve to check inflation, has resulted in lower corporate profits, slower capital investment and weaker consumer demand.
- In contrast to a disappointing 1999, when municipal bonds declined under the weight of rising interest rates, signs of weaker economic growth have prompted an impressive rally in 2000. The Fed's moves generated hopes among fixed-income investors that rates may soon be lowered, improving the outlook for the bond markets.
- Municipal yields, which generally peaked in January, have since declined in response to weakening economic indicators. Accordingly, bond prices, which move in the opposite direction of interest rates, have moved higher.

### MANAGEMENT DISCUSSION

- The market price of Eaton Vance Municipal Income Trust lagged the underlying NAV significantly. In our view, that disparity reflected temporary investor concerns amid continuing volatility in the equity markets and still-to-be-resolved economic uncertainties. Because historically these disparities have tended to narrow over time, we believe that the Trust represented unusually good value at November 30, 2000.
- The Trust was able to establish some capital losses during the year to offset potential capital gains, thereby helping to reduce tax liability. This strategy also afforded the Trust the opportunity to potentially increase income by using the proceeds to purchase higher-yielding bonds.
- In a low supply environment, management continued to work to strengthen the Trust's call protection and other structural characteristics. Municipal supply has been low because government surpluses at the state and federal levels have lessened funding needs.

### THE TRUST

#### PERFORMANCE FOR THE PAST YEAR

- Based on share price (traded on the New York Stock Exchange), the Trust had a total return of 2.05% for the year ended November 30, 2000. That return was the result of a decline in share price from \$11.6875 on November 30, 1999 to \$11.125 on November 30, 2000, and the reinvestment of \$0.785 in regular monthly dividends.
- Based on net asset value, the Trust had a total return of 9.31% for the year period ended November 30, 2000. That return was the result of an increase in net asset value from \$11.72 on November 30, 1999 to \$11.95 on November 30, 2000, and the reinvestment of all distributions.
- Based on the most recent dividend and a share price of \$11.125, the Trust had a market yield of 6.70% at November 30, 2000. (1) The Trust's market yield is equivalent to a taxable yield of 11.09%. (2)

#### RATING DISTRIBUTION (3)

TRUST INFORMATION  
 AS OF NOVEMBER 30, 2000

PERFORMANCE (4)

-----  
 Average Annual Total Returns (by market value, New York Stock Exchange)  
 -----

One Year	2.05%
Life of Trust (1/29/99)	-9.68%

Average Annual Total Returns (at net asset value)  
 -----

One Year	9.31%
Life of Trust (1/29/99)	-6.10%

For federal income tax purposes, 100% of the total dividends paid by the Fund from net investment income during the year ended November 30, 2000 was designated as an exempt-interest dividend.

FIVE LARGEST CATEGORIES (3)  
 -----

Hospital	17.4%
General Obligations	12.3%
Industrial Development Revenue	9.3%
Issued Transportation*	7.5%
Housing	7.4%

\*Private insurance does not reduce the interest rate risks that are associated with these investments.

(1) The Trust's market yield is calculated by dividing the most recent dividend per share by the share price at the end of the period and annualizing the result.

(2) Taxable-equivalent yield assumes maximum 39.6% federal income tax rate. A lower rate would result in a lower tax-equivalent figure.

(3) Rating Distribution and Largest Categories are determined by dividing the total market value of the holdings by the total net assets of the Trust.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

Rating Distribution and Largest Categories are subject to change.

(4) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested.

Past performance is no guarantee of future results. Investment return and market price will fluctuate so that shares, when sold, may be worth more or less than their original cost.

AMT - Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

At November 30, 2000, the concentration of the Trust's investments in the various states, determined as a percentage of net assets, is as follows:

California	10.8%
Texas	14.1%
Others, representing less than 10% individually	74.0%

## Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

The Trust invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2000, 19.0% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by financial institutions ranged from 3.5% to 6.4% of total investments.

- (1) Security has been issued as an inverse floater bond.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.
- (3) Security has been issued as a leveraged inverse floater bond.
- (4) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (5) Non-income producing.

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2000

NOTES TO FINANCIAL STATEMENTS

1 Significant Accounting Policies

---

Eaton Vance Municipal Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The Trust was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated December 10, 1998. The Trust's investment objective is to achieve current income exempt from regular federal income tax by investing primarily in investment-grade municipal obligations.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles.

- A Investment Valuation -- Municipal bonds are normally valued on the basis of valuations furnished by a pricing service. Taxable obligations, if any, for which price quotations are readily available are normally valued at the mean between the latest bid and asked prices. Futures contracts listed on the commodity exchanges are valued at closing settlement prices. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- B Investment Transactions -- Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Trust instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.

## Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

- C Income -- Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount on long-term debt securities when required for federal income tax purposes. The Trust will adopt the provision of the AICPA Audit and Accounting Guide for Investment Companies, as revised, effective for fiscal years beginning after December 15, 2000. As required, the Trust will begin accreting market discounts on debt securities effective January 1, 2001. Prior to this date, the Trust did not accrete market discounts on debt securities. The cumulative effect of this accounting change will have no impact on the total net assets of the Trust. The impact of this accounting change has not been determined but will result in an increase to cost of securities and a corresponding increase in net unrealized depreciation based on securities held as of December 31, 2000.
- D Federal Income Taxes -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At November 30, 2000, the Trust, for federal income tax purposes, had a capital loss carryover of \$25,572,504 which will reduce the taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Trust of any liability for federal income or excise tax. Such capital loss carryover will expire on November 30, 2007 (\$10,949,210) and November 30, 2008 (\$14,623,294). In addition, the Trust intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income taxes when received by the Trust, as exempt-interest dividends. The portion of such interest, if any, earned on private activity bonds issued after August 7, 1986, may be considered a tax preference item for investors.
- E Organization and Offering Costs -- Costs incurred by the Trust in connection with its organization have been expensed. Costs incurred by the Trust in connection with the offerings of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common shares.
- F Financial Futures Contracts -- Upon the entering of a financial futures contract, the Trust is required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Trust (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by the Trust. The Trust's investment in financial futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, the Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

12

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2000

NOTES TO FINANCIAL STATEMENTS CONT'D

- G Options on Financial Futures Contracts -- Upon the purchase of a put option on a financial futures contract by the Trust, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased

## Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

option expires, the Trust will realize a loss in the amount of the cost of the option. When the Trust enters into a closing sale transaction, the Trust will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. When the Trust exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

H Use of Estimates -- The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

J Interest Rate Swaps -- The Trust has entered into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates or as substitution for the purchase or sale of securities. Pursuant to these agreements the Trust makes monthly payments at a rate equal to a predetermined spread to the one-month LIBOR. In exchange, the Trust receives payments based on the rate of return of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Payments received or made at end of measurement period are recorded as realized gains and losses. The value of the swap is determined by changes in the relationship between two rates of interest. The Trust is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Trust does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates.

K Expense Reduction -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Trust maintains with IBT. All significant credit balances used to reduce the Trust's custodian fees are reported as a reduction of total expenses in the Statement of Operations.

### 2 Auction Preferred Shares (APS)

---

The Trust issued 2,620 shares of Auction Preferred Shares Series A and 2,620 shares of Auction Preferred Shares Series B on March 1, 1999 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividend rates ranged from 3.25% to 5.25% and from 3.25% to 5.20% for Series A and Series B Shares respectively, during the year ended November 30, 2000. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of

## Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws. The Trust pays annual fees equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

### 3 Distributions to Shareholders

---

The Trust intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding preferred shares. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the Auction Preferred Shares is generally seven days. The applicable dividend rate for the Auction Preferred Shares on November 30, 2000 was 4.10% and 3.90%, for Series A and Series B Shares, respectively. For the year ended November 30, 2000, the Trust paid dividends to Auction Preferred shareholders amounting to \$2,643,920 and \$2,686,915 for Series A and Series B Shares, respectively, representing an average APS dividend rate for such period of 4.05% and 4.06%, respectively.

13

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2000

NOTES TO FINANCIAL STATEMENTS CONT'D

### 4 Investment Adviser Fee and Other Transactions with Affiliates

---

The investment adviser fee, computed at an annual rate of 0.70% of the Trust's average weekly gross assets, was earned by Eaton Vance Management (EVM) as compensation for management and investment advisory services rendered to the Trust. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. For the year ended November 30, 2000, the fee was equivalent to 0.70% of the Trust's average weekly gross assets and amounted to \$2,229,471. EVM also serves as the administrator of the Trust. An administration fee, computed at the annual rate of 0.20% of the average weekly gross assets of the Trust is paid to EVM for managing and administering business affairs of the Trust. For the year ended November 30, 2000, the administrative fee amounted to \$636,917.

Trustees of the Trust that are not affiliated with the Investment Adviser may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the year ended November 30, 2000, no significant amounts have been deferred.

Certain officers and Trustees of the Trust are officers of EVM.

### 5 Investments

---

Purchases and sales of investments, other than U.S. Government securities and short-term obligations, aggregated \$212,352,360 and \$205,303,924, respectively, for the year ended November 30, 2000.

### 6 Federal Income Tax Basis of Investments

---

The cost and unrealized appreciation (depreciation) in value of the investment owned by the Trust at November 30, 2000, as computed for Federal income tax purposes, are as follows:

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

AGGREGATE COST	\$344,458,828
-----	
Gross unrealized appreciation	\$ 4,395,952
Gross unrealized depreciation	(26,754,138)
-----	
NET UNREALIZED DEPRECIATION	\$ (22,358,186)
-----	

7 Shares of Beneficial Interest

-----  
The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares. Transactions in common shares were as follows:

	YEAR ENDED NOVEMBER 30,	
	2000	1999 (1)
-----		
Sales	\$ --	\$16,100,000
Shares issued pursuant to the Trust's dividend reinvestment plan	61,394	116,900
-----		
NET INCREASE	\$61,394	\$16,216,900
-----		

(1) For the period from the start of business, January 29, 1999 to November 30, 1999.

8 Financial Instruments

-----  
The Trust regularly trades in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

A summary of obligations under these financial instruments at November 30, 2000 is as follows:

FUTURES CONTRACTS			
EXPIRATION DATE (S)	CONTRACTS	POSITION	NET UNREALIZED DEPRECIATION
-----			
3/01	100 Municipal Bond Futures	Short	\$ (78,675)
-----			

## Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

At November 30, 2000, the Trust had sufficient cash and/or securities to cover margin requirements on open future contracts.

The Trust has entered into an interest rate swap agreement with Morgan Guaranty Trust Company of New York whereby the Trust makes monthly payments at a rate equal to the one-month LIBOR minus 0.1% on the notional amount of \$10,000,000. In exchange, the Trust receives payments equal to the total return on the Municipal Market Data Rate on the same notional amount. The value of the contract, which terminates at September 1, 2001, is recorded as a payable for open swap contracts of \$43,800 at November 30, 2000.

14

EATON VANCE MUNICIPAL INCOME TRUST AS OF NOVEMBER 30, 2000

INDEPENDENT AUDITORS' REPORT

To the Trustees and Shareholders  
of Eaton Vance Municipal Income Trust:

-----  
We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Eaton Vance Municipal Income Trust (the Trust) as of November 30, 2000, the related statement of operations for the year then ended, the statements of changes in net assets and the financial highlights for the year ended November 30, 2000 and for the period from the start of business, January 29, 1999, to November 30, 2000. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. Our procedures included confirmation of securities held as of November 30, 2000 by correspondence with the custodian and brokers; where replies were received from brokers, we performed other auditing procedures. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights, referred to above, present fairly, in all material respects, the financial position of Eaton Vance Municipal Income Trust at November 30, 2000, and the results of its operations, the changes in its net assets and its financial highlights for the respective stated periods in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-30D

shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Trust's transfer agent, PFPC, Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquiries regarding the Plan can be directed to the Plan Agent, PFPC, Inc.

APPLICATION FOR PARTICIPATION IN DIVIDEND REINVESTMENT PLAN

-----  
This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.  
-----

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.
