Form 10-Q
August 14, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE
QUARTERLY
PERIOD ENDED:
June 30, 2012

Commission file
number:
1-14527

EVEREST REINSURANCE HOLDINGS, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

22-3263609
(I.R.S. Employer
Identification No.)

477 Martinsville Road

Post Office Box 830
Liberty Corner, New Jersey 07938-0830
(908) 604-3000

(Address, including zip code, and telephone number, including area code,
of registrant's principal executive office)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES X NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

YES X NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
X	

Edgar Filing: EVEREST REINSURANCE HOLDINGS INC - Form 10-Q

Non-accelerated
filer

Smaller
reporting
company

(Do not check if smaller
reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO X

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Number of Shares Outstanding At August 1, 2012
Common Shares, \$0.01 par value	1,000

The Registrant meets the conditions set forth in General Instruction H (1)(a) and (b) of Form 10-Q and is therefore filing this form with the reduced disclosure format permitted by General Instruction H of Form 10-Q.

Table of Contents

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the Three and Six Months Ended June 30, 2012 and 2011

1. GENERAL

As used in this document, “Holdings” means Everest Reinsurance Holdings, Inc., a Delaware company and direct subsidiary of Everest Underwriting Group (Ireland) Limited (“Holdings Ireland”); “Group” means Everest Re Group, Ltd. (Holdings Ireland’s parent); “Bermuda Re” means Everest Reinsurance (Bermuda), Ltd., a subsidiary of Group; “Everest Re” means Everest Reinsurance Company and its subsidiaries, a subsidiary of Holdings (unless the context otherwise requires); and the “Company” means Holdings and its subsidiaries.

2. BASIS OF PRESENTATION

The unaudited consolidated financial statements of the Company for the three and six months ended June 30, 2012 and 2011 include all adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for a fair statement of the results on an interim basis. Certain financial information, which is normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), has been omitted since it is not required for interim reporting purposes. The December 31, 2011 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. The results for the three and six months ended June 30, 2012 and 2011 are not necessarily indicative of the results for a full year. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the years ended December 31, 2011, 2010 and 2009 included in the Company’s most recent Form 10-K filing.

All intercompany accounts and transactions have been eliminated.

Certain reclassifications and format changes have been made to prior period amounts to conform to the current period presentation.

Application of Recently Issued Accounting Standard Changes

Intangibles-Goodwill or Other. In September 2011, the Financial Accounting Standards Board (“FASB”) amended the authoritative guidance for disclosures on Goodwill Impairment. The amendment allows an entity first to assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis in determining whether it is necessary to perform the two-step goodwill impairment test. This guidance is effective for periods beginning after December 15, 2011. The Company implemented this guidance as of January 1, 2012.

Presentation of Comprehensive Income. In June 2011, FASB issued amendments to existing guidance to provide two alternatives for the presentation of comprehensive income. Components of net income and comprehensive income can either be presented within a single, continuous financial statement or be presented in two separate but consecutive financial statements. The Company has chosen to present the components of net income and comprehensive income in a single, continuous financial statement. The guidance is effective for reporting periods beginning after December 15, 2011. The Company implemented this guidance as of January 1, 2012.

Common Fair Value Measurement. In May 2011, FASB issued amendments to existing guidance to achieve common fair value measurement and disclosure requirements between GAAP and International Financial Reporting Standards. The amendments change wording used to describe many GAAP fair value measurement requirements and disclosures.

FASB does not intend for the amendments to cause a change in application of fair value accounting guidance. The guidance is effective for reporting periods beginning after December 15, 2011. The Company implemented this guidance prospectively as of January 1, 2012.

Table of Contents

Treatment of Insurance Contract Acquisition Costs. In October 2010, the FASB issued authoritative guidance for the accounting for costs associated with acquiring or renewing insurance contracts. The guidance identifies the incremental direct costs of contract acquisition and costs directly related to acquisition activities that should be capitalized. This guidance is effective for reporting periods beginning after December 15, 2011. The Company implemented this guidance as of January 1, 2012 and determined that \$7,215 thousand of previously deferrable acquisition costs will be expensed during 2012 and the first quarter of 2013, including \$1,958 thousand and \$3,371 thousand of previously deferrable acquisition costs expensed in the three and six months ended June 30, 2012, respectively. If the guidance had been applicable for the prior periods, the Company would have expensed \$1,823 thousand and \$3,442 thousand of deferrable acquisition costs during the three and six months ended June 30, 2011, respectively.

Improving Disclosures About Fair Value Measurements. In January 2010, the FASB amended the authoritative guidance for disclosures on fair value measurements. Effective for interim and annual reporting periods beginning after December 15, 2009, the guidance requires a new separate disclosure for: significant transfers in and out of Level 1 and 2 and the reasons for the transfers; and provided clarification on existing disclosures to include: fair value measurement disclosures by class of assets and liabilities and disclosure on valuation techniques and inputs used to measure fair value that fall in either Level 2 or Level 3. The Company implemented this guidance effective January 1, 2010. Effective for interim and annual reporting periods beginning after December 15, 2010, the guidance requires another new separate disclosure in regards to Level 3 fair value measurements in that, the period activity will present separately information about purchases, sales, issuances and settlements. Comparative disclosures shall be required only for periods ending after initial adoption. The Company implemented this guidance beginning with the third quarter of 2010.

3. INVESTMENTS

The amortized cost, market value and gross unrealized appreciation and depreciation of available for sale, fixed maturity and equity security investments, carried at market value, are as follows for the periods indicated:

Foreign government securities	733,814	57,437	(2,602)	788,649
Foreign corporate securities	670,544	29,421	(10,924)	689,041
Total fixed maturity securities	\$4,880,654	\$ 261,842	\$ (35,468)	\$5,107,028
Equity securities	\$15	\$ -	\$ (5)	\$10

The \$800,017 thousand of foreign government securities at June 30, 2012 included \$85,358 thousand of European sovereign securities. Approximately 48.1%, 15.7%, 12.2%, 7.2% and 5.6% of European Sovereign Securities represented securities held in the governments of France, the United Kingdom, Sweden, Netherlands and Austria, respectively. No other countries represented more than 5% of the European sovereign securities. The Company held no sovereign securities of Portugal, Italy, Ireland, Greece or Spain at June 30, 2012.

In accordance with FASB guidance, the Company reclassified the non-credit portion of other-than-temporary impairments from retained earnings into accumulated other comprehensive income (loss), on April 1, 2009. The table below presents the pre-tax cumulative unrealized appreciation (depreciation) on those corporate securities, for the periods indicated:

(Dollars in thousands)	At June 30, 2012	At December 31, 2011
Pre-tax cumulative unrealized appreciation (depreciation)	\$ 566	\$ 635

The amortized cost and market value of fixed maturity securities are shown in the following table by contractual maturity. Mortgage-backed securities are generally more likely to be prepaid than other fixed maturity securities. As the stated maturity of such securities may not be indicative of actual maturities, the totals for mortgage-backed and asset-backed securities are shown separately.

(Dollars in thousands)	At June 30, 2012		At December 31, 2011	
	Amortized Cost	Market Value	Amortized Cost	Market Value
Fixed maturity securities – available for sale				
Due in one year or less	\$367,937	\$366,220	\$224,406	\$223,507

Table of Contents

The changes in net unrealized appreciation (depreciation) for the Company's investments are derived from the following sources for the periods as indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Dollars in thousands)	2012	2011	2012	2011
Increase (decrease) during the period between the market value and cost of investments carried at market value, and deferred taxes thereon:				
Fixed maturity securities	\$(3,358)	\$56,368	\$10,697	\$39,430
Fixed maturity securities, other-than-temporary impairment	(49)	(15)	(69)	5
Equity securities	1	-	3	-
Other invested assets	-	(3,165)	-	(1,730)
Change in unrealized appreciation (depreciation), pre-tax	(3,406)	53,188	10,631	37,705
Deferred tax benefit (expense)	1,175	(18,621)	(3,745)	(13,195)
Deferred tax benefit (expense), other-than-temporary impairment	17	5	24	(2)
Change in unrealized appreciation (depreciation), net of deferred taxes, included in stockholder's equity	\$(2,214)	\$34,572	\$6,910	\$24,508

The Company frequently reviews all of its fixed maturity, available for sale securities for declines in market value and focuses its attention on securities whose fair value has fallen below 80% of their amortized cost at the time of review. The Company then assesses whether the decline in value is temporary or other-than-temporary. In making its assessment, the Company evaluates the current market and interest rate environment as well as specific issuer information. Generally, a change in a security's value caused by a change in the market, interest rate or foreign exchange environment does not constitute an other-than-temporary impairment, but rather a temporary decline in market value. Temporary declines in market value are recorded as unrealized losses in accumulated other comprehensive income (loss). If the Company determines that the decline is other-than-temporary and the Company does not have the intent to sell the security; and it is more likely than not that the Company will not have to sell the security before recovery of its cost basis, the carrying value of the investment is written down to fair value. The fair value adjustment that is credit or foreign exchange related is recorded in net realized capital gains (losses) in the Company's consolidated statements of operations and comprehensive income (loss). The fair value adjustment that is non-credit related is recorded as a component of other comprehensive income (loss), net of tax, and is included in accumulated other comprehensive income (loss) in the Company's consolidated balance sheets. The Company's assessments are based on the issuers current and expected future financial position, timeliness with respect to interest and/or principal payments, speed of repayments and any applicable credit enhancements or breakeven constant default rates on mortgage-backed and asset-backed securities, as well as relevant information provided by rating agencies, investment advisors and analysts.

Retrospective adjustments are employed to recalculate the values of asset-backed securities. All of the Company's asset-backed and mortgage-backed securities have a pass-through structure. Each acquisition lot is reviewed to recalculate the effective yield. The recalculated effective yield is used to derive a book value as if the new yield were applied at the time of acquisition. Outstanding principal factors from the time of acquisition to the adjustment date are used to calculate the prepayment history for all applicable securities. Conditional prepayment rates, computed with life to date factor histories and weighted average maturities, are used in the calculation of projected prepayments for pass-through security types.

The aggregate market value and gross unrealized losses related to investments in an unrealized loss position at June 30, 2012 were \$797,096 thousand and \$24,354 thousand, respectively. There were no unrealized losses on a single

issuer that exceeded 0.03% of the market value of the fixed maturity securities at June 30, 2012. In addition, as indicated on the above table, there was no significant concentration of unrealized losses in any one market sector. The \$5,021 thousand of unrealized losses related to fixed maturity securities that have been in an unrealized loss position for less than one year were generally comprised of domestic and foreign corporate securities as well as agency residential mortgage-backed securities. Of these unrealized losses, \$2,909 thousand were related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The \$19,331 thousand of unrealized losses related to fixed maturity securities in an unrealized loss position for more than one year related primarily to domestic and foreign corporate securities, foreign government securities and commercial mortgage-backed securities. Of these unrealized losses, \$15,971 thousand were related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The non-investment grade securities with unrealized losses were mainly comprised of corporate securities, with the majority representing a large number of short duration, floating interest rate bank loan securities. The gross unrealized depreciation for mortgage-backed securities included \$57 thousand related to sub-prime and alt-A loans. In all instances, there were no projected cash flow shortfalls to recover the full book value of the investments and the related interest obligations. The mortgage-backed securities still have excess credit coverage and are current on interest and principal payments.

Table of Contents

The Company, given the size of its investment portfolio and capital position, does not have the intent to sell these securities; and it is more likely than not that the Company will not have to sell the security before recovery of its cost basis. In addition, all securities currently in an unrealized loss position are current with respect to principal and interest payments.

The tables below display the aggregate market value and gross unrealized depreciation of fixed maturity and equity securities, by security type and contractual maturity, in each case subdivided according to length of time that individual securities had been in a continuous unrealized loss position for the periods indicated:

The aggregate market value and gross unrealized losses related to investments in an unrealized loss position at December 31, 2011 were \$845,092 thousand and \$35,473 thousand, respectively. There were no unrealized losses on a single issuer that exceeded 0.09% of the market value of the fixed maturity securities at December 31, 2011. In addition, as indicated on the above table, there was no significant concentration of unrealized losses in any one market sector. The \$13,710 thousand of unrealized losses related to fixed maturity securities that have been in an unrealized loss position for less than one year were generally comprised of domestic and foreign corporate securities as well as commercial and agency residential mortgage-backed securities. Of these unrealized losses, \$5,635 thousand were related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The \$21,758 thousand of unrealized losses related to fixed maturity securities in an unrealized loss position for more than one year related primarily to domestic and foreign corporate and foreign government securities. Of these unrealized losses, \$15,880 thousand were related to securities that were rated investment grade by at least one nationally recognized statistical rating organization. The non-

Table of Contents

investment grade securities with unrealized losses were mainly comprised of corporate securities, with the majority representing a large number of short duration, floating interest rate bank loan securities. The gross unrealized depreciation for mortgage-backed securities included \$56 thousand related to sub-prime and alt-A loans. In all instances, there were no projected cash flow shortfalls to recover the full book value of the investments and the related interest obligations. The mortgage-backed securities still have excess credit coverage and are current on interest and principal payments.

Other invested assets, at fair value, is comprised of common shares of the Company's ultimate parent, Group. At June 30, 2012, the Company held 9,719,971 shares of Group representing 15.8% of the total outstanding shares.

The components of net investment income are presented in the table below for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Dollars in thousands)	2012	2011	2012	2011

Total net investment income	\$74,206	\$84,459	\$155,448	\$171,591

The Company records results from limited partnership investments on the equity method of accounting with changes in value reported through net investment income. Due to the timing of receiving financial information from these partnerships, the results are generally reported on a one month or quarter lag. If the Company determines there has been a significant decline in value of a limited partnership during this lag period, a loss will be recorded in the period in which the Company identifies the decline.

The Company had contractual commitments to invest up to an additional \$89,651 thousand in limited partnerships at June 30, 2012. These commitments will be funded when called in accordance with the partnership agreements, which have investment periods that expire, unless extended, through 2016.

Table of Contents

The components of net realized capital gains (losses) are presented in the table below for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Dollars in thousands)	2012	2011	2012	2011
Fixed maturity securities, market value:				
Other-than-temporary impairments	\$(467)	\$-	\$(6,141)	\$(13,611)
Gains (losses) from sales	2,432	(5,978)	3,933	(18,288)
Fixed maturity securities, fair value:				
Gain (losses) from sales	(180)	565	5,027	(950)
Gains (losses) from fair value adjustments	(1,706)	(40)	1,325	(3,523)
Equity securities, market value:

Gross losses from sales	(3,345)	(928)	(7,854)	(1,399)

Table of Contents

4. FAIR VALUE

The Company's fixed maturity and equity securities are primarily managed by third party investment asset managers. The investment asset managers obtain prices from nationally recognized pricing services. These services seek to utilize market data and observations in their evaluation process. They use pricing applications that vary by asset class and incorporate available market information and when fixed maturity securities do not trade on a daily basis the services will apply available information through processes such as benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. In addition, they use model processes, such as the Option Adjusted Spread model to develop prepayment and interest rate scenarios for securities that have prepayment features.

In limited instances where prices are not provided by pricing services or in rare instances when a manager may not agree with the pricing service, price quotes on a non-binding basis are obtained from investment brokers. The investment asset managers do not make any changes to prices received from either the pricing services or the investment brokers. In addition, the investment asset managers have procedures in place to review the reasonableness of the prices from the service providers and may request verification of the prices. In addition, the Company continually performs analytical reviews of price changes and tests the prices on a random basis to an independent pricing source. No material variances were noted during these price validation procedures. In limited situations, where financial markets are inactive or illiquid, the Company may use its own assumptions about future cash flows and risk-adjusted discount rates to determine fair value. The Company made no such adjustments at June 30, 2012 and December 31, 2011.

The Company internally manages a small public equity portfolio which had a fair value at June 30, 2012 of \$42,751 thousand and all prices were obtained from publically published sources.

Equity securities in U.S. denominated currency are categorized as Level 1, Quoted Prices in Active Markets for Identical Assets, since the securities are actively traded on an exchange and prices are based on quoted prices from the exchange. Equity securities traded on foreign exchanges are categorized as Level 2 due to potential foreign exchange adjustments to fair or market value.

Fixed maturity securities are generally categorized as Level 2, Significant Other Observable Inputs, since a particular security may not have traded but the pricing services are able to use valuation models with observable market inputs such as interest rate yield curves and prices for similar fixed maturity securities in terms of issuer, maturity and seniority. Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk) are categorized as Level 3, Significant Unobservable Inputs. These securities include broker priced securities.

As of June 30, 2012 and December 31, 2011, all Level 3 fixed maturity securities, were priced using single non-binding broker quotes since prices for these securities were not provided by normal pricing service companies. The single broker quotes are provided by market makers or broker-dealers who are recognized as market participants in the markets in which they are providing the quotes. The prices received from brokers are reviewed for reasonableness by our asset managers and management.

Other invested assets, at fair value, are categorized as Level 1, Quoted Prices in Active Markets for Identical Assets, since the securities are shares of the Company's parent, which are actively traded on an exchange and the price is based on a quoted price.

Table of Contents

The following table presents the fair value measurement levels for all assets, which the Company has recorded at fair value (fair and market value) as of the period indicated:

(Dollars in thousands)	June 30, 2012	Fair Value Measurement Using:

5. CAPITAL TRANSACTIONS

On October 14, 2011, the Company renewed its shelf registration statement on Form S-3ASR with the SEC, as a Well Known Seasoned Issuer. This shelf registration statement can be used by Group to register common shares, preferred shares, debt securities, warrants, share purchase contracts and share purchase units; by Holdings to register debt securities and by Everest Re Capital Trust III ("Capital Trust III") to register trust preferred securities.

6. CONTINGENCIES

In the ordinary course of business, the Company is involved in lawsuits, arbitrations and other formal and informal dispute resolution procedures, the outcomes of which will determine the Company's rights and obligations under insurance and reinsurance agreements. In some disputes, the Company seeks to enforce its rights under an agreement or to collect funds owing to it. In other matters, the Company is resisting attempts by others to collect funds or enforce alleged rights. These disputes arise from time to time and are ultimately resolved through both informal and formal means, including negotiated resolution, arbitration and litigation. In all such matters, the Company believes that its positions are legally and commercially reasonable. The Company considers the statuses of these proceedings when determining its reserves for unpaid loss and loss adjustment expenses.

Aside from litigation and arbitrations related to these insurance and reinsurance agreements, the Company is not a party to any other material litigation or arbitration.

In 1993 and prior, the Company had a business arrangement with The Prudential Insurance Company of America (“The Prudential”) wherein, for a fee, the Company accepted settled claim payment obligations of certain property and casualty insurers, and, concurrently, became the owner of the annuity or assignee of the annuity proceeds funded by the property and casualty insurers specifically to fulfill these fully settled obligations. In these circumstances, the Company would be liable if The Prudential, which has an A+ (Superior) financial strength rating from A.M. Best Company (“A.M. Best”), was unable to make the annuity payments. The table below presents the estimated cost to replace all such annuities for which the Company was contingently liable for the periods indicated:

(Dollars in thousands)	At June 30, 2012	At December 31, 2011
	\$ 143,735	\$ 143,447

Table of Contents

Prior to its 1995 initial public offering, the Company purchased annuities from an unaffiliated life insurance company with an A+ (Superior) financial strength rating from A.M. Best to settle certain claim liabilities of the company. Should the life insurance company become unable to make the annuity payments, the Company would be liable for those claim liabilities. The table below presents the estimated cost to replace all such annuities for which the Company was contingently liable for the periods indicated:

(Dollars in thousands)	At June 30, 2012	At December 31, 2011
	\$ 28,002	\$ 27,634

7. OTHER COMPREHENSIVE INCOME (LOSS)

The following table presents the components of comprehensive income (loss) in the consolidated statements of operations for the periods indicated:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Unrealized appreciation (depreciation) ("URA(D)") on securities arising during the period				
URA(D) of investments - temporary	\$(3,357)	\$53,203	\$10,700	\$37,700

Other comprehensive income (loss), net of tax	\$(9,092)	\$34,236	\$6,313	\$35,253

The following table presents the components of accumulated other comprehensive income (loss), net of tax, in the consolidated balance sheets for the periods indicated:

(Dollars in thousands)	At June 30, 2012	At December 31, 2011
URA(D) on securities, net of deferred taxes		
Temporary	\$153,682	\$ 146,727
Non-credit, OTTI	368	413
Total unrealized appreciation (depreciation) on investments, net of deferred taxes	154,050	147,140
Foreign currency translation adjustments, net of deferred taxes	80,621	83,185
Pension adjustments, net of deferred taxes	(53,568)	(55,535)
Accumulated other comprehensive income (loss)	\$181,103	\$ 174,790

8. CREDIT FACILITY

Effective August 15, 2011, the Company entered into a new three year, \$150,000 thousand unsecured revolving credit facility with a syndicate of lenders, replacing the August 23, 2006 five year senior revolving credit facility. Both the August 15, 2011 and August 23, 2006 revolving credit agreements, which have similar terms, are referred to as the "Holdings Credit Facility". Citibank N.A. is the administrative agent for the Holdings Credit Facility. The Holdings Credit Facility may be used for liquidity and general corporate purposes. The Holdings Credit Facility provides for the borrowing of up to \$150,000 thousand with interest at a rate selected by Holdings equal to either, (1) the Base Rate (as defined below) or (2) a periodic fixed rate equal to the Eurodollar Rate plus an applicable margin. The Base Rate means a fluctuating interest rate per annum in effect from time to time to be equal to the higher of (a) the rate of interest publicly announced by

Table of Contents

Citibank as its base rate, (b) 0.5% per annum above the Federal Funds Rate or (c) 1% above the one month London Interbank Offered Rate (“LIBOR”), in each case plus the applicable margin. The amount of margin and the fees payable for the Holdings Credit Facility depends upon Holdings’ senior unsecured debt rating.

The Holdings Credit Facility requires Holdings to maintain a debt to capital ratio of not greater than 0.35 to 1 and Everest Re to maintain its statutory surplus at \$1,875,000 thousand plus 25% of future aggregate net income and 25% of future aggregate capital contributions after December 31, 2010, which at June 30, 2012, was \$1,965,407 thousand. As of June 30, 2012, the Company was in compliance with all Holdings Credit Facility covenants.

The following table summarizes outstanding letters of credit and/or borrowings for the periods indicated:

(Dollars in thousands)		At June 30, 2012			At December 31, 2011		
Bank	Commitment	In Use	Date of Maturity/Expiry	Loan	Commitment	In Use	Date of Maturity/Expiry
Citibank Holdings Credit Facility	\$ 150,000	\$ -			\$ 150,000	\$ -	
Total revolving credit borrowings		-				-	
Total letters of credit		5,020	12/31/2012			5,020	12/31/2012
Total Citibank Holdings Credit Facility	\$ 150,000	\$ 5,020			\$ 150,000	\$ 5,020	

The following table presents the costs incurred in connection with the Holdings Credit Facility for the periods indicated:

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Credit facility fees incurred	\$ 138	\$ 89	\$ 305	\$ 179

9. TRUST AGREEMENTS

A subsidiary of the Company, Everest Re, has established a trust agreement, which effectively uses Everest Re’s investments as collateral, as security for assumed losses payable to a non-affiliated ceding company. At June 30, 2012, the total amount on deposit in the trust account was \$143,351 thousand.

10. SENIOR NOTES

The table below displays Holdings’ outstanding senior notes. Market value is based on quoted market prices, but due to limited trading activity, these senior notes are considered Level 2 in the fair value hierarchy.

June 30, 2012	December 31, 2011
Consolidated Balance	Consolidated Balance

Edgar Filing: EVEREST REINSURANCE HOLDINGS INC - Form 10-Q

(Dollars in thousands)	Date Issued	Date Due	Principal Amounts	Sheet Amount	Market Value	Sheet Amount	Market Value
5.40% Senior notes	10/12/2004	10/15/2014	\$ 250,000	\$ 249,882	\$ 261,950	\$ 249,858	\$ 251,370

Interest expense incurred in connection with these senior notes is as follows for the periods indicated:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Interest expense incurred	\$3,387	\$3,387	\$6,774	\$6,773

Table of Contents

11. LONG TERM SUBORDINATED NOTES

The table below displays Holdings' outstanding fixed to floating rate long term subordinated notes. Market value is based on quoted market prices, but due to limited trading activity, these subordinated notes are considered Level 2 in the fair value hierarchy.

(Dollars in thousands)	Date Issued	Original Principal Amount	Maturity Date		June 30, 2012		December 31, 2011	
			Scheduled	Final	Consolidated Balance Sheet Amount	Market Value	Consolidated Balance Sheet Amount	Market Value
6.6% Long term subordinated notes	04/26/2007	\$ 400,000	05/15/2037	05/01/2067	\$ 238,355	\$ 236,174	\$ 238,354	\$ 210,195

During the fixed rate interest period from May 3, 2007 through May 14, 2017, interest will be at the annual rate of 6.6%, payable semi-annually in arrears on November 15 and May 15 of each year, commencing on November 15, 2007, subject to Holdings' right to defer interest on one or more occasions for up to ten consecutive years. During the floating rate interest period from May 15, 2017 through maturity, interest will be based on the 3 month LIBOR plus 238.5 basis points, reset quarterly, payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year, subject to Holdings' right to defer interest on one or more occasions for up to ten consecutive years. Deferred interest will accumulate interest at the applicable rate compounded semi-annually for periods prior to May 15, 2017, and compounded quarterly for periods from and including May 15, 2017.

Holdings can redeem the long term subordinated notes prior to May 15, 2017, in whole but not in part at the applicable redemption price, which will equal the greater of (a) 100% of the principal amount being redeemed and (b) the present value of the principal payment on May 15, 2017 and scheduled payments of interest that would have accrued from the redemption date to May 15, 2017 on the long term subordinated notes being redeemed, discounted to the redemption date on a semi-annual basis at a discount rate equal to the treasury rate plus an applicable spread of either 0.25% or 0.50%, in each case plus accrued and unpaid interest. Holdings may redeem the long term subordinated notes on or after May 15, 2017, in whole or in part at 100% of the principal amount plus accrued and unpaid interest; however, redemption on or after the scheduled maturity date and prior to May 1, 2047 is subject to a replacement capital covenant. This covenant is for the benefit of certain senior note holders and it mandates that Holdings receive proceeds from the sale of another subordinated debt issue, of at least similar size, before it may redeem the subordinated notes.

On March 19, 2009, Group announced the commencement of a cash tender offer for any and all of the 6.60% fixed to floating rate long term subordinated notes. Upon expiration of the tender offer, the Company had reduced its outstanding debt by \$161,441 thousand.

Interest expense incurred in connection with these long term subordinated notes is as follows for the periods indicated:

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	2012	2011	2012	2011
Interest expense incurred	\$3,937	\$3,937	\$7,874	\$7,874

Table of Contents

12. JUNIOR SUBORDINATED DEBT SECURITIES PAYABLE

The following table displays Holdings' outstanding junior subordinated debt securities due to Everest Re Capital Trust II ("Capital Trust II"), a wholly owned finance subsidiary of Holdings. Fair value is primarily based on the quoted market price of the related trust preferred securities, and as such, these securities are considered Level 2 under the fair value hierarchy.

(Dollars in thousands)	Date Issued	Date Due	Amount Issued	June 30, 2012		December 31, 2011	
				Consolidated Balance Sheet Amount	Fair Value	Consolidated Balance Sheet Amount	Fair Value
6.20% Junior subordinated debt securities	03/29/2004	03/29/2034	\$ 329,897	\$ 329,897	\$ 335,145	\$ 329,897	\$ 326,313

Holdings may redeem the junior subordinated debt securities before their maturity at 100% of their principal amount plus accrued interest as of the date of redemption. The securities may be redeemed, in whole or in part, on one or more occasions at any time on or after March 30, 2009; or at any time, in whole, but not in part, within 90 days of the occurrence and continuation of a determination that the Trust may become subject to tax or the Investment Company Act.

Interest expense incurred in connection with these junior subordinated debt securities is as follows for the periods indicated:

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Interest expense incurred	\$5,114	\$5,114	\$10,227	\$10,227

Holdings considers that the mechanisms and obligations relating to the trust preferred securities, taken together, constitute a full and unconditional guarantee by Holdings of Capital Trust II's payment obligations with respect to their trust preferred securities.

Capital Trust II will redeem all of the outstanding trust preferred securities when the junior subordinated debt securities are paid at maturity on March 29, 2034. The Company may elect to redeem the junior subordinated debt securities, in whole or in part, at any time on or after March 30, 2009. If such an early redemption occurs, the outstanding trust preferred securities would also be proportionately redeemed.

There are certain regulatory and contractual restrictions on the ability of Holdings' operating subsidiaries to transfer funds to Holdings in the form of cash dividends, loans or advances. The insurance laws of the State of Delaware, where Holdings' direct insurance subsidiaries are domiciled, require regulatory approval before those subsidiaries can pay dividends or make loans or advances to Holdings that exceed certain statutory thresholds. In addition, the terms of Holdings Credit Facility (discussed in Note 8) require Everest Re, Holdings' principal insurance subsidiary, to maintain a certain statutory surplus level as measured at the end of each fiscal year. At December 31, 2011, \$2,108,692 thousand of the \$2,763,171 thousand in net assets of Holdings' consolidated subsidiaries were subject to the foregoing regulatory restrictions.

Table of Contents

13. SEGMENT REPORTING

During the quarter ended September 30, 2011, the Company realigned its reporting segments to reflect recent changes in the type and volume of business written. The Company previously reported the results of Marine & Aviation, Surety, Accident and Health (“A&H”) Reinsurance and A&H Primary operations as a separate segment—Specialty Underwriting. The A&H primary business, which is a relatively new line of business for the Company, has increased significantly, representing approximately 2% of premiums earned and is projected to continue to grow. The A&H primary business is better aligned with the Insurance reporting segment based on the similarities of this business with those businesses already reflected in the Insurance segment. The other operating units included in the Specialty Underwriting segment would have encompassed less than 5% of the Company’s premiums earned and their volume is projected to remain approximately 6%. As a result of the size of these remaining operating units and their similarity to the business reported within U.S. Reinsurance, they have been reclassified to the U.S. Reinsurance segment. There has been no change to the International reporting segment. The Company has restated all segment information for prior years to conform to the new reporting segment structure.

The U.S. Reinsurance operation writes property and casualty reinsurance and specialty lines of business, including Marine, Aviation, Surety and A&H business, on both a treaty and facultative basis, through reinsurance brokers, as well as directly with ceding companies primarily within the U.S. The International operation writes non-U.S. property and casualty reinsurance through Everest Re’s branches in Canada, Singapore and through offices in Brazil, Miami and New Jersey. The Insurance operation writes property and casualty insurance, including medical stop loss insurance, directly and through general agents, brokers and surplus lines brokers within the U.S. and Canada.

These segments are managed independently, but conform with corporate guidelines with respect to pricing, risk management, control of aggregate catastrophe exposures, capital, investments and support operations. Management generally monitors and evaluates the financial performance of these operating segments based upon their underwriting results.

Underwriting results include earned premium less losses and LAE incurred, commission and brokerage expenses and other underwriting expenses. Underwriting results are measured using ratios, in particular loss, commission and brokerage and other underwriting expense ratios, which, respectively, divide incurred losses, commissions and brokerage and other underwriting expenses by premiums earned.

The Company does not maintain separate balance sheet data for its operating segments. Accordingly, the Company does not review and evaluate the financial results of its operating segments based upon balance sheet data.

U.S. Reinsurance (Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,

Income (loss) before taxes	\$178,237	\$10,560	\$471,413	\$(96,036)

The Company produces business in the U.S. and internationally. The net income deriving from assets residing in the individual foreign countries in which the Company writes business are not identifiable in the Company's financial records. Based on gross written premium, the table below presents the largest country, other than the U.S., in which the Company writes business, for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Dollars in thousands)	2012	2011	2012	2011
Canada	\$27,835	\$39,232	\$75,275	\$83,184

No other country represented more than 5% of the Company's revenues.

Table of Contents

14. RELATED-PARTY TRANSACTIONS

Parent

Group's Board of Directors approved an amended share repurchase program authorizing Group and/or its subsidiary Holdings to purchase Group's common shares through open market transactions, privately negotiated transactions or both. The table below represents the amendments to the share repurchase program for the common shares approved for repurchase.

Amendment Date (Dollars in thousands)	Common Shares Authorized for Repurchase
09/21/2004	\$ 5,000,000
07/21/2008	5,000,000
02/24/2010	5,000,000
02/22/2012	5,000,000
	\$ 20,000,000

As of June 30, 2012, Holdings held 9,719,971 common shares of Group, which it had purchased in the open market between February 1, 2007 and March 8, 2011. The table below represents the total purchase price for these common shares purchased.

(Dollars in thousands)

Total purchase price	\$835,371
----------------------	-----------

Holdings reports these purchases as other invested assets, fair value, in the consolidated balance sheets with changes in fair value re-measurement recorded in net realized capital gains (losses) in the consolidated statements of operations and comprehensive income (loss). The following table presents the dividends received on these common shares that are reported as net investment income in the consolidated statements of operations and comprehensive income (loss) for the period indicated.

Outside Directors

During the normal course of business, the Company, through its affiliates, engages in insurance and brokerage and commission business transactions, with companies controlled by or affiliated with one or more of its outside directors. Such transactions, individually and in the aggregate, are not material to the Company's financial condition, results of operation and cash flows.

Affiliated Companies

During the fourth quarter of 2011, the Company sold its subsidiaries, Everest Insurance Company of Canada ("Everest Canada") and Premiere Insurance Underwriting Services ("Premiere"), to an affiliated company, Holdings

Ireland. Holdings Ireland is a direct subsidiary of Group, the Company's ultimate parent. The Company sold the subsidiaries to Holdings Ireland for \$61,005 thousand, which was the book value of the subsidiaries as of September 30, 2011.

Everest Global Services, Inc. ("Global Services"), an affiliate of Holdings, provides centralized management and home office services, through a management agreement, to Holdings and other affiliated companies within Holdings' consolidated structure. Services provided by Everest Global include executive managerial services, legal services, actuarial services, accounting services, information technology services and others.

Table of Contents

The following table presents the expenses incurred by Holdings from services provided by Everest Global for the periods indicated.

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Expenses incurred	\$18,239	\$15,370	\$36,373	\$30,447

Affiliates

The table below represents affiliated quota share reinsurance agreements ("whole account quota share") for all new and renewal business for the indicated coverage period:

(Dollars in thousands)

Coverage Period	Ceding Company	Percent Ceded	Assuming Company	Type of Business	Single Occurrence Limit	Aggregate Limit
01/01/2002-12/31/2002	Everest Re	20.0 %	Bermuda Re	property / casualty business	\$ -	\$ -

(1) The single occurrence limit is applied before the loss cessions to either Bermuda Re or Everest International.

(2) The aggregate limit is applied before the loss cessions to either Bermuda Re or Everest International.

(3) Amounts shown are Canadian dollars.

Table of Contents

For premiums earned and losses incurred for the period January 1, 2002 through December 31, 2002, Everest Re, Everest National Insurance Company and Everest Security Insurance Company entered into an Excess of Loss Reinsurance Agreement with Bermuda Re, covering workers' compensation losses occurring on and after January 1, 2002, as respect to new, renewal and in force policies effective on that date through December 31, 2002. The table below represents Bermuda Re's liability limits for any losses per one occurrence.

(Dollars in thousands)	Liability Limits	
	Exceeding	Not to Exceed
Losses per one occurrence	\$100,000	\$ 150,000

The table below represents loss portfolio transfer reinsurance agreements whereby net insurance exposures and reserves were transferred to an affiliate.

(Dollars in thousands)

Effective Date	Transferring Company	Assuming Company	% of Business or Amount of Transfer		Covered Period of Transfer
09/19/2000	Mt. McKinley Everest Re (Belgium Branch)	Bermuda Re	100	%	All years
10/01/2001	Everest Re	Bermuda Re	100	%	All years
10/01/2008	Everest Re	Bermuda Re	\$ 747,022		01/01/2002-12/31/2007

The following tables summarize the premiums and losses ceded by the Company to Bermuda Re and Everest International, respectively, and premiums and losses assumed by the Company from Everest Canada for the periods indicated:

Bermuda Re (Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Ceded written premiums	\$341,220	\$368,614	\$740,288	\$749,422
Ceded earned premiums	427,461	380,353	825,493	760,400
Ceded losses and LAE (a)	211,805	294,364	468,180	785,077

Everest International (Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Ceded written premiums	\$439	\$175	\$694	\$639
Ceded earned premiums	875	4,436	1,967	14,041
Ceded losses and LAE	523	3,995	(1,576)	6,913

Everest Canada (Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Assumed written premiums	\$5,476	\$-	\$8,643	\$-
Assumed earned premiums	3,514	-	7,366	-

Assumed losses and LAE	2,109	-	4,420	-
------------------------	-------	---	-------	---

(a) Ceded losses and LAE include the Mt. McKinley loss portfolio transfer that constitutes losses ceded under retroactive reinsurance and therefore, in accordance with FASB guidance, a deferred gain on retroactive reinsurance is reflected in other expenses on the consolidated statements of operations and comprehensive income (loss).

Everest Re sold net assets of its UK branch to Bermuda Re and provided Bermuda Re with a reserve indemnity agreement allowing for indemnity payments of up to 90% of 25.0 million of the excess of 2002 and prior reserves, provided that any recognition of profit from the reserves for 2002 and prior underwriting years is taken into account. The limit available under this agreement was fully exhausted at December 31, 2004.

Table of Contents

15. INCOME TAXES

The Company is domiciled in the United States and has subsidiaries domiciled within the United States with significant branches in Canada and Singapore. The Company's non-U.S. branches are subject to income taxation at varying rates in their respective domiciles.

The Company generally will use the estimated annual effective tax rate approach for calculating its tax provision for interim periods as prescribed by ASC 740-270, Interim Reporting. Under the estimated annual effective tax rate approach, the estimated annual effective tax rate is applied to the interim year-to-date pre-tax income to determine the income tax expense or benefit for the year-to-date period. The tax expense or benefit for a quarter represents the difference between the year-to-date tax expense or benefit for the current year-to-date period less such amount for the immediately preceding year-to-date period. Management considers the impact of all known events in its estimation of the Company's annual pre-tax income and effective tax rate.

During the second quarter of 2012, the Company identified an understatement in its Deferred tax asset account of \$9,257 thousand. The understatement resulted from differences between filed and recorded amounts that had accumulated over several prior periods. The Company corrected this understatement in its June 30, 2012 financial statements, resulting in an additional \$9,257 thousand income tax benefit included in the income tax expense (benefit) caption in the Consolidated Statements of Operations and Comprehensive Income (Loss) and increased net income for the same amount for the quarter ended June 30, 2012. The Company also increased its Deferred tax asset in its Consolidated Balance Sheets by the same amount. The Company recorded a similar adjustment of \$12,417 thousand during the first quarter of 2012, for a total six-month adjustment of \$21,674 thousand. The Company believes that the out of period adjustments are immaterial to its June 30, 2012 financial statements and to all prior periods. As such, the Company has not restated any prior period amounts.

16. ACQUISITIONS

During the first quarter of 2011, the Company made several acquisitions to expand its domestic and Canadian insurance operations. Below are descriptions of the transactions.

On January 2, 2011, the Company acquired the entire business and operations of Heartland Crop Insurance, Inc. ("Heartland") of Topeka, Kansas for \$55,000 thousand in cash, plus contingent payments in future periods based upon achievement of performance targets. Heartland is a managing general agent specializing in crop insurance.

On January 28, 2011, the Company acquired the entire business and operations of Premiere of Toronto, Canada. Premiere is a managing general agent specializing in entertainment and sports and leisure risks. On January 31, 2011, the Company acquired the renewal rights and operations of the financial lines business of Executive Risk Insurance Services, Ltd. ("Executive Risk") of Toronto, Canada. The financial lines business of Executive Risk mainly underwrites Directors and Officers Liability, Fidelity, and Errors and Omissions Liability.

Overall, the Company recorded \$35,068 thousand of goodwill and \$26,903 thousand of intangible assets related to these acquisitions, which are reported as part of other assets within the consolidated balance sheets. All intangible assets recorded as part of these acquisitions will be amortized on a straight line basis over seven years.

17. SUBSEQUENT EVENTS

The Company has evaluated known recognized and non-recognized subsequent events. The Company does not have any subsequent events to report.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Industry Conditions.

The worldwide reinsurance and insurance businesses are highly competitive, as well as cyclical by product and market. As such, financial results tend to fluctuate with periods of constrained availability, high rates and strong profits followed by periods of abundant capacity, low rates and constrained profitability. Competition in the types of reinsurance and insurance business that we underwrite is based on many factors, including the perceived overall financial strength of the reinsurer or insurer, ratings of the reinsurer or insurer by A.M. Best and/or Standard & Poor's, underwriting expertise, the jurisdictions where the reinsurer or insurer is licensed or otherwise authorized, capacity and coverages offered, premiums charged, other terms and conditions of the reinsurance and insurance business offered, services offered, speed of claims payment and reputation and experience in lines written. Furthermore, the market impact from these competitive factors related to reinsurance and insurance is generally not consistent across lines of business, domestic and international geographical areas and distribution channels.

We compete in the U.S. and international reinsurance and insurance markets with numerous global competitors. Our competitors include independent reinsurance and insurance companies, subsidiaries or affiliates of established worldwide insurance companies, reinsurance departments of certain insurance companies and domestic and international underwriting operations, including underwriting syndicates at Lloyd's. Some of these competitors have greater financial resources than we do and have established long term and continuing business relationships, which can be a significant competitive advantage. In addition, the lack of strong barriers to entry into the reinsurance business and the potential for securitization of reinsurance and insurance risks through capital markets provide additional sources of potential reinsurance and insurance capacity and competition.

Worldwide insurance and reinsurance market conditions continued to be very competitive, particularly in the casualty lines of business. Generally, there was ample insurance and reinsurance capacity relative to demand. Competition and its effect on rates, terms and conditions vary widely by market and coverage yet continued to be most prevalent in the U.S. casualty insurance and reinsurance markets.

However, during 2011, the industry experienced significant losses from Australian floods, the New Zealand earthquake, the earthquake and tsunami in Japan, storms in the U.S, and the Thailand floods. It is too early to determine the impact on market conditions as a result of these events. While there have been meaningful rate increases for catastrophe coverages in some global catastrophe prone regions, particularly areas impacted by these losses, whether the magnitude of these losses is sufficient to increase rates and improve market conditions for other lines of business remains to be seen.

Overall, we believe that current marketplace conditions, particularly for catastrophe coverages, provide profit opportunities for us given our strong ratings, distribution system, reputation and expertise. We continue to employ our strategy of targeting business that offers the greatest profit potential, while maintaining balance and diversification in our overall portfolio.

Table of Contents

Financial Summary.

We monitor and evaluate our overall performance based upon financial results. The following table displays a summary of the consolidated net income (loss), ratios and stockholder's equity for the periods indicated:

	Three Months Ended June 30,		Percentage Increase/ (Decrease)		Six Months Ended June 30,		Percentage Increase/ (Decrease)
(Dollars in millions)	2012	2011			2012	2011

Revenues.

Premiums. Gross written premiums decreased by \$78.6 million, or 9.7%, for the three months ended June 30, 2012 compared to the three months ended June 30, 2011, reflecting an \$83.8 million decrease in our reinsurance business, partially offset by a \$5.2 million increase in our insurance business. Gross written premiums decreased by \$107.8 million, or 6.4%, for the six months ended June 30, 2012 compared to the six months ended June 30, 2011, reflecting a \$59.0 million decrease in our insurance business and a \$48.8 million decrease in our reinsurance business. The decreases in reinsurance premiums were primarily due to the portfolio return of premium on the non-renewal of a large Florida quota share reinsurance contract, partially offset by increases in new business and rate increases on renewals, particularly for catastrophe

Table of Contents

exposed contracts. The fluctuations in insurance premiums were primarily due to the combination of decreases due to the termination and runoff of several large casualty programs and increases from growth in crop and primary medical stop loss insurance.

Net written premiums decreased by \$70.6 million, or 17.2%, for the three months ended June 30, 2012 compared to the three months ended June 30, 2011 and decreased by \$103.3 million, or 11.9%, for the six months ended June 30, 2012 compared to the six months ended June 30, 2011. The decrease in net written premiums is in line with the decrease in gross written premiums. Premiums earned decreased \$13.6 million, or 3.0%, for the three months ended June 30, 2012 compared to the three months ended June 30, 2011 and decreased \$39.2 million, or 4.3%, for the six months ended June 30, 2012 compared to the six months ended June 30, 2011. The smaller declines in premiums earned in comparison to net written premiums were primarily attributable to the non-renewal of the large Florida quota share reinsurance contract and increases in new business and rate increases on renewals, particularly for catastrophe exposed contracts.

Net Investment Income. Net investment income decreased \$10.3 million, or 12.1%, to \$74.2 million for the three months ended June 30, 2012 compared with net investment income of \$84.5 million for the three months ended June 30, 2011, primarily as a result of a \$4.7 million decrease in investment income from our limited partnership investments and the impact from lower reinvestment rates on fixed maturities over the past several years. Net investment income decreased \$16.2 million, or 9.4%, to \$155.4 million for the six months ended June 30, 2012 compared with net investment income of \$171.6 million for the six months ended June 30, 2011, primarily as a result of a \$11.5 million decrease in investment income from our limited partnership investments and lower reinvestment rates. Net pre-tax investment income, as a percentage of average invested assets was 3.6% for the three months ended June 30, 2012 compared to 4.2% for the three months ended June 30, 2011 and was 3.8% for the six months ended June 30, 2012 compared to 4.3% for the six months ended June 30, 2011. The declines in these yields were primarily the result of fluctuations in our limited partnership income and lower reinvestment rates for the fixed income portfolio.

Net Realized Capital Gains (Losses). Net realized capital gains were \$82.6 million and net realized capital losses were \$68.2 million for the three months ended June 30, 2012 and 2011, respectively. Of the \$82.6 million, there were \$83.2 million of gains from fair value re-measurements, partially offset by \$0.5 million of other-than-temporary impairments on our available for sale fixed maturity securities and \$0.1 million of net realized capital losses from sales on our fixed maturity and equity securities. The net realized capital losses of \$68.2 million for the three months ended June 30, 2011 were the result of \$62.5 million of losses from fair value re-measurements and \$5.6 million of net realized capital losses from sales on our fixed maturity and equity securities.

Net realized capital gains were \$258.7 million and net realized capital losses were \$27.7 million for the six months ended June 30, 2012 and 2011, respectively. Of the \$258.7 million, there were \$236.0 million of gains from fair value re-measurements and \$28.9 million of net realized capital gains from sales on our fixed maturity and equity securities, partially offset by \$6.1 million of other-than-temporary impairments on our available for sale fixed maturity securities. The net realized capital losses of \$27.7 million for the six months ended June 30, 2011 were the result of \$17.5 million of net realized capital losses from sales on our fixed maturity and equity securities and \$13.6 million of other-than-temporary impairments on our available for sale fixed maturity securities, which were partially offset by \$3.5 million of gains from fair value re-measurements.

Other Income (Expense). We recorded other income of \$25.4 million and \$19.2 million for the three and six months ended June 30, 2012, respectively. We recorded other expense of \$11.6 million and \$11.5 million for the three and six months ended June 30, 2011, respectively. The changes were primarily due to fluctuations in currency exchange rates for the corresponding periods and fluctuations in the amortization of deferred gains on retroactive reinsurance agreements with affiliates.

(a) Attritional losses exclude catastrophe and Asbestos and Environmental ("A&E") losses.

(Some amounts may not reconcile due to rounding.)

Incurred losses and LAE decreased by \$19.2 million, representing 2.2 loss ratio points for the three months ended June 30, 2012 compared to the three months ended June 30, 2011. Current year catastrophe losses were lower by \$45.8 million, or 10.0 points, period over period. The \$15.0 million of current year catastrophe losses for 2012 related to U.S. storm losses. The \$60.8 million of current year catastrophe losses for 2011 related primarily to U.S. storm losses (\$24.7 million), the 2011 New Zealand earthquake (\$20.3 million) and Japanese earthquake and tsunami (\$9.5 million). Partially offsetting the decrease in current year catastrophe losses was an increase in attritional losses of \$36.0 million, or 9.9 loss ratio points, primarily due to the impact from year over year cessions under our affiliated quota share agreements resulting from movement in foreign exchange rates and changes in ceding percentages.

Incurred losses and LAE decreased by \$321.8 million, representing 32.6 loss ratio points for the six months ended June 30, 2012 compared to the six months ended June 30, 2011. Current year catastrophe losses were lower by \$335.1 million, or 36.7 points, period over period. The \$30.0 million of current year catastrophe losses for 2012 related to U.S. storm losses. The \$365.1 million of current year catastrophe

Table of Contents

losses for 2011 related primarily to the Japanese earthquake and tsunami (\$192.2 million), the 2011 New Zealand earthquake (\$110.0 million), the 2011 Australian floods (\$27.5 million) and U.S. Storms (\$24.7 million). Attritional losses increased \$27.2 million, representing 5.6 loss ratio points, due to the impact of foreign exchange and changes in our affiliated quota share agreements, partially offset by rate increases in catastrophe exposed areas and a shift in mix of business towards property catastrophe and excess of loss business, which generally carry lower attritional losses.

Commission, Brokerage, Taxes and Fees. Commission, brokerage, taxes and fees increased by \$13.1 million, or 16.3%, for the three months ended June 30, 2012 compared to the same period in 2011, and by \$12.0 million, or 7.1%, for the six months ended June 30, 2012 compared to the same period in 2011, due primarily to the one-time effect of the cancelled Florida quota share contract and the adoption of new accounting standards concerning the accounting for acquisition costs, which is increasing expenses in 2012, partially offset by an increase in excess of loss business which carries a lower commission than pro rata business and better terms.

Other Underwriting Expenses. Other underwriting expenses increased to \$41.1 million from \$39.2 million for the three months ended June 30, 2012 and 2011, respectively, and increased to \$80.6 million from \$77.4 million for the six months ended June 30, 2012 and 2011, respectively, due primarily to higher employee benefit plan expenses.

Corporate Expenses. Corporate expenses, which are general operating expenses that are not allocated to segments, were \$1.7 million and \$1.2 million for the three months ended June 30, 2012 and 2011, respectively, and \$3.3 million and \$2.4 million for the six months ended June 30, 2012 and 2011, respectively.

Interest, Fees and Bond Issue Cost Amortization Expense. Interest, fees and other bond amortization expense was \$12.7 million for the three months ended June 30, 2012 and 2011, respectively, and \$25.4 million for the six months ended June 30, 2012 and 2011, respectively.

Income Tax Expense (Benefit). We had income tax expense of \$52.6 million and \$131.0 million for the three and six months ended June 30, 2012, respectively. We had income tax expense of \$1.8 million and an income tax benefit of \$7.3 million for the three and six months ended June 30, 2011, respectively. Our income tax is primarily a function of the statutory tax rates coupled with the impact from tax-preferenced investment income. Variations in our effective tax rate generally result from changes in the relative levels of pre-tax income. The increases in tax expense were mainly due to the improvement in taxable income resulting from lower catastrophe losses in 2012, and also reflect tax benefits of \$9.3 million and \$21.7 million for the three and six months ended June 30, 2012, respectively, due to corrections of understatements in the deferred tax asset account.

Net Income (Loss).

Our net income was \$125.7 million and \$8.8 million for the three months ended June 30, 2012 and 2011, respectively. Our net income was \$340.4 million and our net loss was \$88.7 million for the six months ended June 30, 2012 and 2011, respectively. The increases were primarily driven by the decline in catastrophe losses in 2012 compared to the prior period.

Ratios.

Our combined ratio increased by 2.0 points to 97.6% for the three months ended June 30, 2012 compared to 95.6% for the three months ended June 30, 2011 and decreased by 29.7 points to 92.3% for the six months ended June 30, 2012 compared to 122.0% for the six months ended June 30, 2011. The loss ratio component decreased 2.2 points and 32.6 points for the three and six months ended June 30, 2012, respectively, over the same periods last year due to lower catastrophe losses. The other underwriting expense ratio component and the commission and brokerage ratio component both increased over the same period last year due to the increase in expenses explained above.

Table of Contents

Stockholder's Equity.

Stockholder's equity increased by \$350.1 million to \$3,291.5 million at June 30, 2012 from \$2,941.4 million at December 31, 2011, principally as a result of \$340.4 million of net income, \$6.9 million of unrealized appreciation on investments, net of tax, \$3.4 million of share-based compensation transactions and \$2.0 million of net benefit plan obligation adjustments, partially offset by \$2.6 million of foreign currency translation adjustments.

Consolidated Investment Results

Net Investment Income.

Net investment income decreased 12.1% to \$74.2 million for the three months ended June 30, 2012 compared to \$84.5 million for the three months ended June 30, 2011, and decreased 9.4% to \$155.4 million for the six months ended June 30, 2012 compared to \$171.6 million for the six months ended June 30, 2011. The decreases were primarily due to decreases in income from our limited partnership investments and a decline in income from our fixed maturities resulting from lower reinvestment rates.

The following table shows the components of net investment income for the periods indicated:

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Fixed maturities	\$ 54.0	\$ 59.1	\$ 108.8	\$ 119.8
Equity securities	10.1	6.5	20.4	11.6
Short-term investments and cash	0.3	0.4	0.4	0.6
Other invested assets				
Limited partnerships	9.2	13.9	20.8	32.4
Dividends from Parent's shares	4.6	4.7	9.3	9.3
Other	(0.5)	4.1	1.0	4.7
Total gross investment income	77.7	88.7	160.8	178.4
Interest debited (credited) and other expense	(3.6)	(4.3)	(5.4)	(6.8)
Total net investment income	\$ 74.2	\$ 84.5	\$ 155.4	\$ 171.6

(Some amounts may not reconcile due to rounding.)

The following tables show a comparison of various investment yields for the periods indicated:

	At June 30, 2012	At December 31, 2011
Imbedded pre-tax yield of cash and invested assets	3.4%	3.6%
Imbedded after-tax yield of cash and invested assets	2.5%	2.7%

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Annualized pre-tax yield on average cash and invested assets	3.6%	4.2%	3.8%	4.3%
Annualized after-tax yield on average cash and invested assets	2.7%	3.2%	2.8%	3.3%

Total	83.2	(62.5)	145.7	236.0	3.5	232.5
Total net realized capital gains (losses)	\$ 82.6	\$ (68.2)	\$ 150.8	\$ 258.7	\$ (27.7)	\$ 286.4

(Some amounts may not reconcile due to rounding.)

Net realized capital gains were \$82.6 million and net realized capital losses were \$68.2 million for the three months ended June 30, 2012 and 2011, respectively. For the three months ended June 30, 2012, we recorded \$83.2 million of gains due to fair value re-measurements on fixed maturity, equity securities and other invested assets, partially offset by \$0.5 million of other-than-temporary impairments on fixed maturity securities and \$0.1 million of net realized capital losses from sales of fixed maturity and equity securities. For the three months ended June 30, 2011, we recorded \$62.5 million in losses due to fair value re-measurements on other invested assets and \$5.6 million of net

realized capital losses from sales of fixed maturity and equity securities. The losses on the sales of fixed maturity securities in 2011 included the impact of selling part of our municipal bond portfolio as credit concerns arose in this market sector.

Table of Contents

Net realized capital gains were \$258.7 million and net realized capital losses were \$27.7 million for the six months ended June 30, 2012 and 2011, respectively. For the six months ended June 30, 2012, we recorded \$236.0 million of gains due to fair value re-measurements on fixed maturity, equity securities and other invested assets and \$28.9 million of net realized capital gains from sales of fixed maturity and equity securities, partially offset by \$6.1 million of other-than-temporary impairments on fixed maturity securities. For the six months ended June 30, 2011, we recorded \$17.5 million of net realized capital losses from sales of fixed maturity and equity securities and \$13.6 million of other-than-temporary impairments on fixed maturity securities, partially offset by \$3.5 million in gains due to fair value re-measurements on fixed maturities and equity securities and other invested assets. The losses on the sales of fixed maturity securities in 2011 included the impact of selling part of our municipal bond portfolio as credit concerns arose in this market sector.

Segment Results.

During the quarter ended September 30, 2011, we realigned our reporting segments to reflect recent changes in the type and volume of business written. We previously reported the results of Marine & Aviation, Surety, A&H Reinsurance and A&H Primary operations as a separate segment—Specialty Underwriting. The A&H primary business, which is a relatively new line of business for us, has increased significantly, representing approximately 2% of premiums earned and is projected to continue to grow. The A&H primary business is better aligned with the Insurance reporting segment based on the similarities of this business with those businesses already reflected in the Insurance segment. The other operating units included in the Specialty Underwriting segment would have encompassed less than 5% of our premiums earned and their volume is projected to remain approximately 6%. As a result of the size of these remaining operating units and their similarity to the business reported within U.S. Reinsurance, they have been reclassified to the U.S. Reinsurance segment. There has been no change to the International reporting segment. We have restated all segment information for prior years to conform to the new reporting segment structure.

The U.S. Reinsurance operation writes property and casualty reinsurance and specialty lines of business, including Marine, Aviation, Surety and A&H business, on both a treaty and facultative basis, through reinsurance brokers, as well as directly with ceding companies primarily within the U.S. The International operation writes non-U.S. property and casualty reinsurance through Everest Re's branches in Canada, Singapore and through offices in Brazil, Miami and New Jersey. The Insurance operation writes property and casualty insurance, including medical stop loss insurance, directly and through general agents, brokers and surplus lines brokers within the U.S and Canada.

These segments are managed independently, but conform with corporate guidelines with respect to pricing, risk management, control of aggregate catastrophe exposures, capital, investments and support operations. Management generally monitors and evaluates the financial performance of these operating segments based upon their underwriting results.

Underwriting results include earned premium less losses and LAE incurred, commission and brokerage expenses and other underwriting expenses. We measure our underwriting results using ratios, in particular loss, commission and brokerage and other underwriting expense ratios, which respectively, divide incurred losses, commissions and brokerage and other underwriting expenses by premiums earned.

Our loss and LAE reserves are our best estimate of our ultimate liability for unpaid claims. We re-evaluate our estimates on an ongoing basis, including all prior period reserves, taking into consideration all available information and, in particular, recently reported loss claim experience and trends related to prior periods. Such re-evaluations are recorded in incurred losses in the period in which the re-evaluation is made.

Table of Contents

The following discusses the underwriting results for each of our segments for the periods indicated:

U.S. Reinsurance.

The following table presents the underwriting results and ratios for the U.S. Reinsurance segment for the periods indicated.

	Three Months Ended June 30,				Six Months Ended June 30,			
(Dollars in millions)	2012	2011	Variance	% Change	2012	2011	Variance	% Change
Gross written premiums	\$ 135.5	\$ 280.2	\$ (144.8)	-51.7 %	\$ 505.0	\$ 586.3	\$ (81.4)	-13.9 %
Net written premiums	68.2	153.5	(85.3)	-55.6 %	255.4	318.6	(63.2)	-19.8 %
Premiums earned	\$ 164.1	\$ 168.9	\$ (4.7)	-2.8 %	\$ 348.0	\$ 344.6	\$ 3.4	1.0 %
Incurred losses and LAE	103.5	131.9	(28.4)	-21.5 %	213.2	274.4	(61.2)	-22.3 %
Commission and brokerage	54.7	39.1	15.6	39.9 %	99.8	82.8	17.0	20.5 %
Other underwriting expenses	10.0	9.9	0.1	1.5 %	20.8	19.8	1.0	5.0 %
Underwriting gain (loss)	\$ (4.0)	\$ (11.9)	\$ 7.9	-66.3 %	\$ 14.2	\$ (32.5)	\$ 46.6	-143.6 %
				Point Chg				Point Chg
Loss ratio	63.0 %	78.1 %		(15.1)	61.3 %	79.6 %		(18.3)
Commission and brokerage ratio	33.3 %	23.1 %		10.2	28.7 %	24.0 %		4.7
Other underwriting expense ratio	6.1 %	5.9 %		0.2	5.9 %	5.8 %		0.1
Combined ratio	102.4 %	107.1 %		(4.7)	95.9 %	109.4 %		(13.5)

(Some amounts may not reconcile due to rounding.)

Premiums. Gross written premiums decreased by 51.7% to \$135.5 million for the three months ended June 30, 2012 from \$280.2 million for the three months ended June 30, 2011, primarily due to the non-renewal of a large Florida quota share reinsurance contract, partially offset by increased new business and higher premium rates on renewals, particularly for catastrophe exposed risks. Net written premiums decreased 55.6% to \$68.2 million for the three months ended June 30, 2012 compared to \$153.5 million for the three months ended June 30, 2011, which is in line with the percentage decrease in gross written premiums for the quarter. Premiums earned decreased 2.8% to \$164.1 million for the three months ended June 30, 2012 compared to \$168.9 million for the three months ended June 30, 2011. The variance difference between premiums earned and net written premiums was primarily attributable to the non-renewal of the large Florida quota share reinsurance contract partially offset by increases in new business and rate increases on renewals, particularly for catastrophe exposed contracts.

Gross written premiums decreased by 13.9% to \$505.0 million for the six months ended June 30, 2012 from \$586.3 million for the six months ended June 30, 2011, primarily due to the non-renewal of a large Florida quota share reinsurance contract, partially offset by increased new business and higher premium rates on renewals, particularly for

contracts with catastrophe exposed risks. Net written premiums decreased 19.8% to \$255.4 million for the six months ended June 30, 2012 compared to \$318.6 million for the six months ended June 30, 2011, which is in line with the decrease in gross written premiums. Premiums earned increased 1.0% to \$348.0 million for the six months ended June 30, 2012 compared to \$344.6 million for the six months ended June 30, 2011. As with the quarter, the variance difference between premiums earned and net written premiums is primarily attributable to the non-renewal of the large Florida quota share reinsurance contract partially offset by increases in new business and rate increases on renewals, particularly for catastrophe exposed contracts.

(Some amounts may not reconcile due to rounding.)

Incurring losses were \$28.4 million (15.1 points) lower at \$103.5 million for the three months ended June 30, 2012 compared to \$131.9 million for the three months ended June 30, 2011, primarily as a result of the \$13.0 million (7.5 points) decrease in current year catastrophe losses and the \$10.4 million (4.6 points) decrease in current year attritional losses. The \$15.0 million of current year catastrophe losses for 2012 related to U.S. storm losses. The \$28.0 million of current year catastrophe losses for 2011 related primarily to U.S. storms (\$24.2 million) and Australian floods (\$1.4 million). The decrease in current year attritional losses was primarily due to a shift in the mix of business towards catastrophe excess of loss business, which generally has lower attritional losses.

Incurring losses were \$61.2 million (18.3 points) lower at \$213.2 million for the six months ended June 30, 2012 compared to \$274.4 million for the six months ended June 30, 2011, primarily as a result of the \$55.7 million (16.3 points) decrease in current year catastrophe losses. The \$30.0 million of current year catastrophe losses for 2012 related to U.S. storm losses. The \$85.7 million of current year catastrophe losses for 2011 related primarily to the Japanese earthquake and tsunami (\$35.6 million), U.S. storms (\$24.2 million), the New Zealand earthquake (\$22.7 million) and the Australian floods (\$2.4 million).

Table of Contents

Segment Expenses. Commission and brokerage expenses increased 39.9% to \$54.7 million for the three months ended June 30, 2012 compared to \$39.1 million for the three months ended June 30, 2011. Commission and brokerage expenses increased 20.5% to \$99.8 million for the six months ended June 30, 2012 compared to \$82.8 million for the six months ended June 30, 2011. These variances were primarily due to the one-time effect resulting from commissions of the cancelled Florida quota share contract.

Segment other underwriting expenses increased slightly to \$10.0 million for the three months ended June 30, 2012 compared to \$9.9 million for the same period in 2011 and to \$20.8 million for the six months ended June 30, 2012 compared to \$19.8 million for the same period in 2011.

International.

The following table presents the underwriting results and ratios for the International segment for the periods indicated.

(Dollars in millions)	Three Months Ended June 30,				Six Months Ended June 30,			
	2012	2011	Variance	% Change	2012	2011	Variance	% Change
Gross written premiums	\$ 349.7	\$ 288.7	\$ 61.0	21.1 %	\$ 630.2	\$ 597.6	\$ 32.6	5.5 %

Commission and brokerage ratio	23.6 %	20.3 %		3.3	22.6 %	21.3 %		1.3
Other underwriting expense ratio	4.2 %	4.3 %		(0.1)	4.3 %	4.1 %		0.2
Combined ratio	90.1 %	80.5 %		9.6	80.2 %	149.9 %		(69.7)

(Some amounts may not reconcile due to rounding.)

Premiums. Gross written premiums increased by 21.1% to \$349.7 million for the three months ended June 30, 2012 compared to \$288.7 million for the three months ended June 30, 2011, primarily due to increased premium from the Latin American and Asian regions, with the latter experiencing significant rate increases following the 2011 catastrophe loss events, which was partially offset by a lower premium impact of the shift in this business away from pro rata to excess of loss. Net written premiums increased by 13.2% to \$160.2 million for the three months ended June 30, 2012 compared to \$141.5 million for the three months ended June 30, 2011, primarily due to a increase in gross

written premiums. Premiums earned decreased by 3.3% to \$157.0 million for the three months ended June 30, 2012 compared to \$162.4 million for the three months ended June 30, 2011. The change in premiums earned relative to net written premiums was the result of timing; premiums are earned ratably over the coverage period whereas written premiums are recorded at the initiation of the coverage period.

Gross written premiums increased by 5.5% to \$630.2 million for the six months ended June 30, 2012 compared to \$597.6 million for the six months ended June 30, 2011, primarily due to increased premium from the Latin American and Asian regions, with the latter experiencing significant rate increases following the 2011 catastrophe loss events, which was partially offset by a lower premium impact of the shift in this business away from pro rata to excess of loss. Net written premiums decreased by 1.0% to \$296.5 million for the six months ended June 30, 2012 compared to \$299.6 million for the six months ended June 30, 2011, primarily due to the impact of changes in our affiliated quota share agreements. Premiums earned decreased by 7.3% to \$304.8 million for the six months ended June 30, 2012 compared to \$328.9 million for the six months ended June 30, 2011. The change in premiums earned relative to net written premiums was the result of timing; premiums are earned ratably over the coverage period whereas written premiums are recorded at the initiation of the coverage period.

Table of Contents

Incurred Losses and LAE. The following tables present the incurred losses and LAE for the International segment for the periods indicated.

		Three Months Ended June 30,

(Some amounts may not reconcile due to rounding.)

Incurred losses and LAE increased 7.7% to \$97.9 million for the three months ended June 30, 2012 compared to \$90.9 million for the three months ended June 30, 2011, representing 6.4 loss ratio points. The increase was principally due to a \$37.6 million (25.2 points) increase in attritional losses due to the impact from year over year cessions under our affiliated quota share agreements resulting from movement in foreign exchange rates and changes in ceding percentages, partially offset by a decrease in current year catastrophe losses of \$32.8 million (20.2 points). There were no current year catastrophe losses in 2012 compared to \$32.8 million of 2011 current year catastrophes, which primarily related to the New Zealand earthquake (\$20.1 million) and the Japanese earthquake and tsunami (\$8.2

million).

Incurred losses and LAE decreased 60.3% to \$162.5 million for the six months ended June 30, 2012 compared to \$409.7 million for the six months ended June 30, 2011, representing 71.2 loss ratio points. The decrease was principally due to a \$279.3 million (84.9 points) decrease in current year catastrophe losses. There were no current year catastrophe losses in 2012 compared to \$279.3 million current year catastrophes in 2011, which primarily related to the Japanese earthquake and tsunami (\$156.6 million), the New Zealand earthquake (\$87.3 million) and the Australian flood (\$25.1 million). Attritional losses increased by \$29.4 million (12.8 points) primarily due to the impact of foreign exchange and changes in our affiliated quota share agreements.

Table of Contents

Segment Expenses. Commission and brokerage expenses increased 12.2% to \$37.0 million for the three months ended June 30, 2012 compared to \$32.9 million for the three months ended June 30, 2011. Commission and brokerage expenses decreased 1.9% to \$68.7 million for the six months ended June 30, 2012 compared to \$70.1 million for the six months ended June 30, 2011. These variances were principally due to the impact of changes in our affiliated quota share agreements and a shift in the mix of business.

Segment other underwriting expenses decreased slightly to \$6.5 million for the three months ended June 30, 2012 compared to \$7.0 million for the three months ended June 30, 2011 and to \$13.3 million for the six months ended June 30, 2012 compared to \$13.4 million for the six months ended June 30, 2011.

Insurance.

The following table presents the underwriting results and ratios for the Insurance segment for the periods indicated.

(Dollars in millions)	Three Months Ended June 30,				Six Months Ended June 30,			
	2012	2011	Variance	% Change	2012	2011	Variance	% Change
Gross written premiums	\$ 247.7	\$ 242.5	\$ 5.2	2.1 %	\$ 454.9	\$ 514.0	\$ (59.0)	-11.5 %

(NM, not meaningful)								
(Some amounts may not reconcile due to rounding.)								

Premiums. Gross written premiums increased by 2.1% to \$247.7 million for the three months ended June 30, 2012 compared to \$242.5 million for the three months ended June 30, 2011. This increase was primarily due to the increase in crop premiums, partially offset by the run-off of terminated business. Net written premiums decreased 3.4% to \$111.1 million for the three months ended June 30, 2012 compared to \$115.0 million for the same period in 2011 due to an increase in the use of reinsurance on our crop business. Premiums earned decreased 2.8% to \$117.3 million for the three months ended June 30, 2012 compared to \$120.7 million for the three months ended June 30, 2011. The change in premiums earned is comparable to the change in net written premiums.

Gross written premiums decreased by 11.5% to \$454.9 million for the six months ended June 30, 2012 compared to \$514.0 million for the six months ended June 30, 2011. This decrease was primarily driven by the termination and runoff of several large casualty programs, partially offset by an increase in crop and A&H primary business. Net written premiums decreased 14.7% to \$214.9 million for the six months ended June 30, 2012 compared to \$251.9 million for the same period in 2011 due to the lower gross written premiums. Premiums earned decreased 7.8% to \$219.4 million for the six months ended June 30, 2012 compared to \$237.9 million for the six months ended June 30, 2011. The change in premiums earned relative to net written premiums is the result of timing; premiums are earned ratably over the coverage period whereas written premiums are recorded at the initiation of the coverage period.

(Some amounts may not reconcile due to rounding.)

Incurred losses and LAE increased by \$2.1 million, or 2.3%, to \$92.2 million for the three months ended June 30, 2012 compared to \$90.1 million for the three months ended June 30, 2011. This was due primarily to an increase of \$2.3 million (4.2 points) in attritional losses driven by the impact of changes in our affiliated quota share agreements.

Incurred losses and LAE decreased by \$13.5 million, or 7.4%, to \$168.2 million for the six months ended June 30, 2012 compared to \$181.7 million for the six months ended June 30, 2011. This was primarily due to a decrease of

\$22.0 million (3.4 points) in current year attritional losses driven by the decline in premiums earned and a shift in the mix of business towards short-tail business with lower loss ratios.

Segment Expenses. Commission and brokerage expenses decreased to \$1.7 million for the three months ended June 30, 2012 compared to \$8.3 million for the three months ended June 30, 2011 and decreased to \$12.3 million for the six months ended June 30, 2012 compared to \$15.9 million for the six months ended June 30, 2011. These declines were mainly due to changes in distribution with a higher proportion of business being done on a direct basis, which carries a lower commission expense and changes in our affiliated quota share agreements.

Segment other underwriting expenses for the three months ended June 30, 2012 increased to \$24.5 million from \$22.4 million for the three months ended June 30, 2011. Segment other underwriting expenses for the six months ended June 30, 2012 increased to \$46.6 million from \$44.3 million for the six months ended June 30, 2011. These increases were primarily due to higher employee benefit plan expenses.

Table of Contents

Market Sensitive Instruments.

The SEC's Financial Reporting Release #48 requires registrants to clarify and expand upon the existing financial statement disclosure requirements for derivative financial instruments, derivative commodity instruments and other financial instruments (collectively, "market sensitive instruments"). We do not generally enter into market sensitive instruments for trading purposes.

Our current investment strategy seeks to maximize after-tax income through a high quality, diversified, taxable and tax-preferenced fixed maturity portfolio, while maintaining an adequate level of liquidity. Our mix of taxable and tax-preferenced investments is adjusted periodically, consistent with our current and projected operating results, market conditions and our tax position. The fixed maturity securities in the investment portfolio are comprised of non-trading available for sale securities. Additionally, we have invested in equity securities.

The overall investment strategy considers the scope of present and anticipated Company operations. In particular, estimates of the financial impact resulting from non-investment asset and liability transactions, together with our capital structure and other factors, are used to develop a net liability analysis. This analysis includes estimated payout characteristics for which our investments provide liquidity. This analysis is considered in the development of specific investment strategies for asset allocation, duration and credit quality. The change in overall market sensitive risk exposure principally reflects the asset changes that took place during the period.

Interest Rate Risk. Our \$8.8 billion investment portfolio, at June 30, 2012, is principally comprised of fixed maturity securities, which are generally subject to interest rate risk and some foreign currency exchange rate risk, and some equity securities, which are subject to price fluctuations and some foreign exchange rate risk. The overall economic impact of the foreign exchange risks on the investment portfolio is partially mitigated by changes in the dollar value of foreign currency denominated liabilities and their associated income statement impact.

Interest rate risk is the potential change in value of the fixed maturity securities portfolio, including short-term investments, from a change in market interest rates. In a declining interest rate environment, it includes prepayment risk on the \$610.2 million of mortgage-backed securities in the \$5,291.0 million fixed maturity portfolio. Prepayment risk results from potential accelerated principal payments that shorten the average life and thus the expected yield of the security.

The table below displays the potential impact of market value fluctuations and after-tax unrealized appreciation on our fixed maturity portfolio (including \$580.8 million of short-term investments) for the periods indicated based on upward and downward parallel and immediate 100 and 200 basis point shifts in interest rates. For legal entities with a U.S. dollar functional currency, this modeling was performed on each security individually. To generate appropriate price estimates for mortgage-backed securities, changes in prepayment expectations under different interest rate environments were taken into account. For legal entities with non-U.S. dollar functional currency, the effective duration of the involved portfolio of securities was used as a proxy for the market value change under the various interest rate change scenarios.

	Impact of Interest Rate Shift in Basis Points									
	At June 30, 2012									
(Dollars in millions)	-200	-100	0	100	200					
Total Market/Fair Value	\$6,115.7	\$5,995.5	\$5,871.8	\$5,732.6	\$5,589.9					
Market/Fair Value Change from Base (%)	4.2	%	2.1	%	0.0	%	-2.4	%	-4.8	%
Change in Unrealized Appreciation										
After-tax from Base (\$)	\$158.5	\$80.4	\$-	\$(90.5)	\$(183.2)					

We had \$8,013.7 million and \$8,290.6 million of gross reserves for losses and LAE as of June 30, 2012 and December 31, 2011, respectively. These amounts are recorded at their nominal value, as opposed to present value, which would reflect a discount adjustment to reflect the time value of money. Since losses are paid out over a period of time, the present value of the reserves is less than the nominal value. As

Table of Contents

interest rates rise, the present value of the reserves decreases and, conversely, as interest rates decline, the present value increases. These movements are the opposite of the interest rate impacts on the fair value of investments. While the difference between present value and nominal value is not reflected in our financial statements, our financial results will include investment income over time from the investment portfolio until the claims are paid. Our loss and loss reserve obligations have an expected duration that is reasonably consistent with our fixed income portfolio.

Equity Risk. Equity risk is the potential change in fair and/or market value of the common stock and preferred stock portfolios arising from changing prices. Our equity investments consist of a diversified portfolio of individual securities and mutual funds, which invest principally in high quality common and preferred stocks that are traded on major exchanges. The primary objective of the equity portfolio is to obtain greater total return relative to bonds over time through market appreciation and income.

The table below displays the impact on fair/market value and after-tax change in fair/market value of a 10% and 20% change in equity prices up and down for the periods indicated.

(Dollars in millions)	Impact of Percentage Change in Equity Fair/Market Values				
	At June 30, 2012				
	-20%	-10%	0%	10%	20%
Fair/Market Value of the Equity Portfolio	\$ 930.9	\$ 1,047.2	\$ 1,163.6	\$ 1,279.9	\$ 1,396.3
After-tax Change in Fair/Market Value	(151.3)	(75.6)	-	75.6	151.3

Foreign Exchange Risk. Foreign currency risk is the potential change in value, income and cash flow arising from adverse changes in foreign currency exchange rates. Each of our non-U.S. (“foreign”) operations maintains capital in the currency of the country of its geographic location consistent with local regulatory guidelines. Each foreign operation may conduct business in its local currency, as well as the currency of other countries in which it operates. The primary foreign currency exposures for these foreign operations are the Singapore and Canadian Dollars. We mitigate foreign exchange exposure by generally matching the currency and duration of our assets to our corresponding operating liabilities. In accordance with FASB guidance, we translate the assets, liabilities and income of non-U.S. dollar functional currency legal entities to the U.S. dollar. This translation amount is reported as a component of other comprehensive income. As of June 30, 2012, there has been no material change in exposure to foreign exchange rates as compared to December 31, 2011.

SAFE HARBOR DISCLOSURE

This report contains forward-looking statements within the meaning of the U.S. federal securities laws. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the federal securities laws. In some cases, these statements can be identified by the use of forward-looking words such as “may”, “will”, “should”, “could”, “anticipate”, “estimate”, “expect”, “plan”, “believe”, “predict”, “potential” and “intend”. statements contained in this report include information regarding our reserves for losses and LAE, the adequacy of our provision for uncollectible balances, estimates of our catastrophe exposure, the effects of catastrophic events on our financial statements and the ability of our subsidiaries to pay dividends. Forward-looking statements only reflect our expectations and are not guarantees of performance. These statements involve risks, uncertainties and assumptions. Actual events or results may differ materially from our expectations. Important factors that could cause our actual events or results to be materially different from our expectations include those discussed under the caption “Risk Factors” in our most recently filed Annual Report on Form 10-K, Part 1, Item 1A. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk Instruments. See “Market Sensitive Instruments” in PART I – ITEM 2.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, our management carried out an evaluation, with the participation of the Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)). Based on their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, also conducted an evaluation of our internal control over financial reporting to determine whether any changes occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, there has been no such change during the quarter covered by this report.

PART II

ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of business, the Company is involved in lawsuits, arbitrations and other formal and informal dispute resolution procedures, the outcomes of which will determine the Company’s rights and obligations under insurance and reinsurance agreements. In some disputes, the Company seeks to enforce its rights under an agreement or to collect funds owing to it. In other matters, the Company is resisting attempts by others to collect funds or enforce alleged rights. These disputes arise from time to time and are ultimately resolved through both informal and formal means, including negotiated resolution, arbitration and litigation. In all such matters, the Company believes that its positions are legally and commercially reasonable. The Company considers the statuses of these proceedings when determining its reserves for unpaid loss and loss adjustment expenses.

Aside from litigation and arbitrations related to these insurance and reinsurance agreements, the Company is not a party to any other material litigation or arbitration.

ITEM 1A. RISK FACTORS

No material changes.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.
