NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data)

(1) Business and Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Certain reclassifications of prior year amounts have been made to conform to the current year presentation. Subsequent events have been evaluated through the date these financial statements were issued. Additionally, the consolidated financial statements should be read in conjunction with Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, included in this Quarterly Report on Form 10-Q.

For fiscal year 2016, the Company has changed from a calendar year to a 52-53 week year (5-4-4 basis) ending on the Sunday closest to June 30. Therefore, the financial results of certain fiscal years, and the associated 14 week quarters, will not be exactly comparable to the prior and subsequent 52 week fiscal years and the associated quarters having only 13 weeks. The change was not deemed a change in fiscal year for purposes of reporting subject to Rule 13a-10 or 15d-10; hence, no transition reports are required. The Company has made the change in fiscal years on a prospective basis and thus the change will not impact the Company's financial statements as of and for the year ended June 30, 2015 or any interim period therein. The Company believes the change in fiscal years will provide numerous benefits, including more consistency between reported periods and to better align its reporting periods with the Company's peer group.

The consolidated balance sheet at June 30, 2015 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2015.

(2) Acquisitions

The company consummated seven acquisitions in fiscal year 2015. The following table summarizes the pro forma results of operations had the acquisitions occurred as of the beginning of the 2015 fiscal year:

	For the Third Quarter of Fiscal Year 2015	For the First Three Quarters of Fiscal Year 2015
Net sales	\$114,596	\$326,878
Net income	4,354	8,157
Net income per share — basic	0.45	0.83
Net income per share — diluted	0.45	0.82

Certain of the acquisitions included contingent consideration liabilities based on future earnings. During the second quarter of fiscal year 2016, the Company determined that Hunter Technology Corporation ("Hunter") and Real-Time Enterprises, Inc. ("RTEmd") would not meet the required performance thresholds necessary to earn their respective contingent considerations. As a result, the Company recorded non-cash income associated with the reversal of contingent considerations of \$1,180 and \$350 for Hunter and RTEmd, respectively.

The Company has elected to adopt Accounting Standards Update No. 2015-16, Business Combinations (Topic 805) Simplifying the Accounting for Measurement-Period Adjustment. As a result, during the first three quarters of fiscal year 2016, the Company recorded adjustments to the opening balance sheets of Hunter and RTEmd as follows:

Table of Contents

Changes to goodwill:

Inventory	\$5,052
Accounts receivable	386
Property, plant and equipment	(974)
Intangible assets - customer relationships	(700)
Other assets and liabilities, net	(352)
Non-cash adjustments	3,412
Adjustment to purchase consideration	(750)
Total	\$2,662

For the second quarter of fiscal year 2016, the Company recorded depreciation expense of \$362 in cost of goods sold and amortization of intangible assets of \$26 that would have otherwise been recorded in prior periods.

Certain of the acquisitions included escrow accounts based on final working capital adjustments and other performance criteria. During the second quarter of fiscal year 2016, the Company received \$750 in adjustments to the purchase price under the terms of an acquisition agreement, as reflected in the table above.

During the third quarter of fiscal year 2016, the Company recorded an adjustment to Goodwill of \$428 which reduced certain tax liabilities related to the Company's purchase of Hunter.

(3) Inventories and Cost of Contracts in Progress

The following are the major classifications of inventory, net of interim billings:

	March 27, 2016	June 30, 2015

(5) Other Intangible Assets

The components of other intangible assets, net consist of the following:

	Net Carrying Value at June 30, 2015	Additions	Amortization	Net Carrying Value at March 27, 2016
Non-compete agreements	\$ 3,129	\$ —	\$ (715)	\$ 2,414

Other intangible assets, net	\$ 45,825	\$ 700	\$ (7,323)	\$ 39,202

(6) Debt

The Company has a revolving line-of-credit facility (the “Credit Facility”) of \$275,000, which can be expanded by up to \$100,000. The facility is secured by substantially all assets of the Company and its subsidiaries and expires on September 11, 2019.

Outstanding borrowings under the Credit Facility will bear interest, at the Company’s option, at either LIBOR, fixed for interest periods of one, two, three or six month periods, plus 1.00% to 1.75%, or at the bank’s base rate, as defined, plus 0.00% to 0.75%, based upon the Company’s Total Funded Debt/EBITDA Ratio, as defined. The Company is also required to pay commitment fees on unused portions of the Credit Facility ranging from 0.20% to 0.35%, based on the Company’s Total Funded Debt/EBITDA Ratio, as defined. The Credit Facility includes representations, covenants and events of default that are customary for financing transactions of this nature. The effective interest rate on outstanding borrowings under the Credit Facility was 2.31% at March 27, 2016. As a condition of the Credit Facility, the Company is subject to certain customary covenants, which it was in compliance with at March 27, 2016.

As of March 27, 2016, the Company had approximately \$150,729 available under its \$275,000 credit facility, reflecting borrowings of \$123,400 and certain letters of credit outstanding of \$871.

The Company entered into capital leases in the third quarter of fiscal year 2016 with a total value of \$656.

(7) Fair Value Measurements

The Financial Accounting Standards Board (“FASB”) ASC topic entitled Fair Value Measurements and Disclosures defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The accounting guidance classifies the inputs used to measure fair value as follows: Level 1 - unadjusted quoted prices in active markets for the identical asset or liability, Level 2 - observable inputs for the asset or liability, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability, and Level 3 - unobservable inputs for the asset or liability.

The fair value of the Company’s Credit Facility (See Note 6, Debt) approximates its carrying value as the rates on these borrowings are variable and repriced based on current market conditions. Due to the current nature of the Company’s accounts receivable and accounts payable, their fair values approximate their carrying value.

The Company holds marketable equity securities of \$841 and \$846 at March 27, 2016 and June 30, 2015, respectively, that it classifies as available-for-sale and are recorded in other current assets at March 27, 2016 and other non-current assets at June 30, 2015 on the Consolidated Balance Sheets. These securities are carried at fair value with unrealized gains and losses reflected in Accumulated Other Comprehensive Income and are classified as Level 1 in the fair value hierarchy.

(8) Income Taxes

The Company recognized a discrete income tax benefit of \$536 in the second quarter of fiscal year 2016 as a result of the reversal of previously accrued contingent purchase price consideration liability. The Company's effective income tax rate for interim periods was determined based on the Company's estimated annual effective tax rate for the applicable year using the federal statutory income tax rate, permanent tax differences, foreign income taxes and state income taxes. Excluding the discrete income tax event described above, the Company's estimated annual effective tax rate for the fiscal year was determined to be approximately 35.0%.

Table of Contents

(9) Defined Benefit Pension Plan

The Company has a frozen defined benefit pension plan. The Company recorded net periodic pension expense of \$7 and income of \$38 for the third quarters of fiscal years 2016 and 2015, respectively. The Company recorded net periodic pension income of \$16 and \$115 for the first three quarters of fiscal years 2016 and 2015, respectively. No contributions were made to the pension plan during fiscal years 2016 and 2015.

(10) Commitments and Contingencies

From time to time, the Company is involved in various legal proceedings relating to claims arising in the ordinary course of business. The Company is not currently a party to any such legal proceedings, the adverse outcome of which, individually or in the aggregate, is expected to have a material adverse effect on the Company's financial condition or results of operations. Additionally, the Company believes it has sufficient insurance coverage to effectively mitigate any litigation exposure. On

October 1, 2015, the Company settled an outstanding legal matter with L-3 for \$2,500. The settlement amount was fully

accrued on the Company's consolidated balance sheet as of September 27, 2015.

The Company is a party to an environmental remediation matter in Albuquerque, New Mexico. As of March 27, 2016 and June 30, 2015, Sparton had accrued approximately \$7,228 and \$7,792, respectively, as its estimate of the remaining minimum future discounted financial liability regarding this matter, of which approximately \$674 is classified as a current liability and included on the balance sheets in other accrued expenses. See the Company's Annual Report on Form 10-K for the year ended June 30, 2015 for further information.

The Company is subject to audits by certain federal government agencies, including the Defense Contract Audit Agency and the Defense Contract Management Agency. The agencies audit and evaluate government contracts and government contractors' administrative processes and systems. These agencies review the Company's performance on contracts, pricing practices, cost structure, financial capability and compliance with applicable laws, regulations and standards. They also review the adequacy of the Company's internal control systems and policies, including the Company's purchasing, accounting, estimating, compensation and management information processes and systems. The Company works closely with these agencies to ensure compliance. From time to time, the Company is notified of claims related to noncompliance arising from the audits performed by agencies. Such claims have historically been subject to actions of remediation and/or financial claims that are typically subject to negotiated settlements. The Company believes that it has appropriate reserves established for outstanding issues and is not aware of any other issues of noncompliance that would have a material effect on the Company's financial position or results of operations.

(11) Stock-Based Compensation

The Company has a long-term incentive plan to offer incentive and non-qualified stock options, stock appreciation rights, restricted stock or restricted stock units, performance awards and other stock-based awards, including grants of shares under the Sparton Corporation 2010 Long-Term Incentive Plan (the "2010 Plan").

The following table shows stock-based compensation expense (credit) by type of share-based award included in the consolidated statements of income:

	For the Third Quarter of Fiscal Years		For the First Three Quarters of Fiscal Years	
	2016	2015	2016	2015
Fair value (credit) expense of stock option awards	\$(111)	\$82	\$206	\$223
Restricted stock units	(444)	166	123	451
Restricted stock	(346)	252	(361)	1,044
Total stock-based compensation (credit) expense	\$(901)	\$500	\$(32)	\$1,718

During the first two quarters of fiscal year 2016, the Company awarded an aggregate of 129,800 stock options to certain members of management with an average exercise price of \$22.98. No stock options were granted during the third quarter of fiscal year 2016. The fair value of each stock option is estimated at the grant date using the Black-Scholes option pricing method.

Stock-based compensation reflects a reduction in expense in the third quarter of fiscal year 2016 as a result of the separation of certain executives from the Company.

Table of Contents

The following is a summary of activity for the first three quarters of fiscal year 2016 related to the 2010 plan:

	Stock Options	Restricted stock units	Restricted shares

Net income available to common shareholders per share:

Basic	\$0.12	\$ 0.42	\$0.38	\$ 0.59
Diluted	\$0.12	\$ 0.42	\$0.38	\$ 0.59

For the third quarters of fiscal years 2016 and 2015, there were no unvested participating restricted shares included in determining both basic and diluted earnings per share. For the first three quarters of fiscal years 2016 and 2015, 52,651 and 175,666, respectively, of unvested participating restricted shares were included in determining both basic and diluted earnings per share. The number of shares excluded from the calculation of diluted net income per share because the shares were either contingently issuable or their inclusion would be anti-dilutive was 244,912 for the first three quarters of fiscal year 2016.

(13) Restructuring Activities

During the second quarter of fiscal year 2016, the Company announced the closing of its Lawrenceville, GA manufacturing operations and the consolidation of the Irvine, CA design center into the Irvine, CA manufacturing operations to optimize the Company's manufacturing and design facility footprint and realize synergies from the Company's acquisitions. These restructuring activities are substantially complete as of the end of the third quarter of fiscal year 2016. Manufacturing activities have been transferred and the facilities are occupied by subtenants. The remaining reserve balances represent amounts for manufacturing transition at the new facilities, lease payments net of sublease income and severance payments.

Table of Contents

The table below summarizes the nature and amount of all restructuring actions for the fiscal year 2016:

(14) Business Segments

The Company has identified two reportable segments; Manufacturing & Design Services ("MDS") and Engineered Components & Products ("ECP"). The Company uses an internal management reporting system, which provides important financial data to evaluate performance and allocate the Company's resources on a segment basis. The Company's Chief Operating Decision Maker assesses segment performance and allocates resources to each segment individually.

Operating results and certain other financial information about the Company's two reportable segments for the third quarter and first three quarters of fiscal years 2016 and 2015 were as follows:

Table of Contents**(15) New Accounting Standards**

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers, which amends guidance for revenue recognition. Under the new standard, revenue will be recognized when control of the promised goods or services is transferred to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods and services. The standard creates a five-step model that will generally require companies to use more judgment and make more estimates than under current guidance when considering the terms of contracts along with all relevant facts and circumstances. These include the identification of customer contracts and separating performance obligations, the determination of transaction price that potentially includes an estimate of variable consideration, allocating the transaction price to each separate performance obligation, and recognizing revenue in line with the pattern of transfer. In August 2015, the FASB issued an amendment to defer the effective date for all entities by one year. The new standard will become effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early adoption is permitted as of annual reporting periods beginning after December 15, 2016. Companies have the option of using either a full or modified retrospective approach in applying this standard. The Company is currently in the process of evaluating the impact of adoption on its consolidated financial statements.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03 ("ASU 2015-03"), Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 changes the presentation of debt issuance costs for term debt in the balance sheet by requiring the debt issuance costs to be presented as a direct deduction from the related debt liability, rather than recorded as an asset. In August 2015, the FASB issued clarification to the guidance in ASU 2015-03 regarding presentation and subsequent measurement of debt issuance costs related to line-of-credit arrangements. The new standard provides clarification regarding costs to secure revolving lines of credit and indicates that the SEC staff would not object to an entity deferring and presenting costs associated with line-of-credit arrangements as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in these updates. The provisions of this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2015, although early adoption is permitted. When adopted, this guidance must be applied on a retrospective basis. The Company does not expect the impact of the adoption of this ASU to have a material impact on its consolidated financial statements. The Company is currently in the process of evaluating the impact of adoption on its consolidated financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-11 ("ASU 2015-11"), Simplifying the Measurement of Inventory. ASU 2015-11 clarifies that inventory should be held at the lower of cost or net realizable value. Net realizable value is defined as the estimated selling price, less the estimated costs to complete, dispose and transport such inventory. ASU 2015-11 will be effective for fiscal years and interim periods beginning after December 15, 2016. ASU 2015-11 is required to be applied prospectively and early adoption is permitted. The Company is currently in the process of evaluating the impact of adoption on its consolidated financial statements.

In November 2015, the FASB issued Accounting Standards Update No. 2015-17 ("ASU 2015-17"), Income Taxes (Topic 740). ASU 2015-17 requires deferred tax liabilities and assets to be classified as non-current on the consolidated condensed balance sheet. ASU 2015-17 is effective for annual reporting periods beginning after December 15, 2016 and interim periods within those fiscal years and early application is permitted and may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. The Company is currently in the process of evaluating the impact of adoption on its consolidated financial statements.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 ("ASU 2016-02"), Leases (Topic 842). ASU 2016-02 establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for capital leases and operating leases existing at, or entered into

after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company is currently in the process of evaluating the impact of adoption on its consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09 ("ASU 2016-09"), Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 will directly impact the tax administration of equity plans. ASU 2016-09 is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted and any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The Company is currently in the process of evaluating the impact of adoption on its consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following is management's discussion and analysis of certain significant events affecting Sparton Corporation's (the "Company" or "Sparton") results of operations and financial condition during the periods included in the accompanying financial statements. Additional information regarding the Company can be accessed via Sparton's website at www.sparton.com. Information provided at the website includes, among other items, the Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Quarterly Earnings Releases, News Releases and the Code of Business Conduct and Ethics, as well as various corporate charters and documents. Information on our website is not incorporated by reference into this

Form 10-Q.

For purposes of discussion and analysis, we categorize our operations as legacy business or acquired business. We reflect operations as legacy business if the underlying operation has been included in the Company's consolidated results of operations for all periods being discussed. Certain acquired businesses may be reflected as legacy business for quarterly purposes, but may be reflected as acquired business for the annual period as the results of operations were not included for the entire prior fiscal year. The table below reflects our recent acquisitions and how the results of operations will be reflected as legacy or acquired for the quarterly and annual discussion of our results of operations.

Consolidated Results of Operations

Presented below is comparative data and discussions regarding our consolidated results of operations for the third quarter and first three quarters of fiscal year 2016 compared to the third quarter and first three quarters of fiscal year 2015. Results of operations for any period less than one year are not necessarily indicative of results of operations that may be expected for a full year. The following discussion should be read in conjunction with the Unaudited Consolidated Financial Statements and Notes thereto included in Item 1 of this Quarterly Report on Form 10-Q.

The decrease in legacy business sales reflects fluctuations in customer demand as well as product insourcing in the MDS segment partially offset by increased sonobuoy sales to foreign governments in the ECP segment and increased sales from new programs.

Gross margin was negatively impacted in the third quarter of fiscal year 2016 as compared to the same quarter last year due to an unfavorable shift in product mix in the MDS segment. The increase in selling and administrative expense is due to the expenses acquired from companies purchased in the prior year.

The increase in amortization of intangible assets relates to certain intangible assets acquired as part of the acquisitions in fiscal year 2015.

Selling and administrative expenses increased as a result of acquired businesses, as well as costs in the current quarter related to executive separations, strategic alternatives review and sale process, corporate headcount reduction and nonrecurring legal and consulting costs.

Restructuring charges relate to the announced closing of the Company's Lawrenceville, GA manufacturing operations and the consolidation of the Irvine, CA design center into the Irvine, CA manufacturing operations to optimize the Company's manufacturing and design facility footprint and realize synergies from the Company's acquisitions.

Restructuring reserves were adjusted in the third quarter of fiscal year 2016 to reflect lower than expected termination benefits and higher than expected sublease income which was partially offset by higher than expected exit and other costs.

The Company's effective income tax rate for interim periods was determined based on the Company's estimated annual effective tax rate for the applicable year using the federal statutory income tax rate, permanent tax differences, foreign income taxes and state income taxes. The Company's estimated effective tax rate for the third quarter of fiscal year 2016 was determined to be approximately 35.0%.

Due to the factors described above, the Company reported net income of \$1.1 million, or \$0.12 per share for the third quarter of fiscal year 2016, compared to net income of \$4.1 million, or \$0.42 per share for the third quarter of fiscal year 2015.

Segment Information

The Company has two reportable segments - Manufacturing and Design Services ("MDS") and Engineered Components and Products ("ECP").

Manufacturing and Design Services Segment

MDS segment operations are comprised of contract design, manufacturing and aftermarket repair and refurbishment of sophisticated printed circuit card assemblies, sub-assemblies, full product assemblies and cable/wire harnesses for customers seeking to bring their intellectual property to market. Customers include OEM and ET customers serving the Medical & Biotechnology, Military & Aerospace and Industrial & Commercial markets. In manufacturing for its customers, this segment adheres to very strict military and aerospace specifications, Food and Drug Administration ("FDA") guidelines and approvals, in addition to product and process certifications.

Engineered Components and Products Segment

ECP segment operations are comprised of design, development and production of proprietary products for both domestic and foreign defense as well as commercial needs. Sparton designs and manufactures ASW devices known as sonobuoys for the U.S. Navy and foreign governments that meet Department of State licensing requirements. The sonobuoy product line is built to stringent military specifications and are required by International Tariff and Arms Regulations (ITAR). Our ECP segment also includes ruggedized flat panel display systems for military panel PC workstations, air traffic control and industrial and commercial marine applications.

The decrease in legacy business sales was due to fluctuations in customer demand as well customer insourcing, certain programs going end-of-life and customers managing their working capital to match end-market demands, partially offset by increased sales from new programs. MDS backlog was approximately \$160.3 million at the end of third quarter of fiscal year 2016 compared to \$117.7 million at the end of third quarter of fiscal year 2015. Commercial orders, in general, may be rescheduled or canceled without significant penalty, and, as a result, may not be a meaningful measure of future sales. A majority of the third quarter fiscal year 2016 MDS backlog is currently expected to be realized in the next 12 months.

Gross margin on MDS sales was negatively affected in the current quarter by an unfavorable shift in product mix as compared to the third quarter of the prior year. The increase in selling and administrative expense is due to the selling and administrative expenses of the acquired businesses.

The increase in selling and administrative expenses was a result of the acquisitions of Hunter Technology Corporation ("Hunter") and Real-Time Enterprises, Inc. ("RTEmd"). The increase in amortization of intangible assets is due to the amortization of customer relationships and non-compete agreements from the acquisitions. Restructuring charges relate to the previously discussed closing of the Company's Lawrenceville, GA manufacturing operations and consolidation of its Irvine, CA design center into its Irvine, CA manufacturing operations.

The increase in ECP legacy business sales reflects increased sonobuoy sales of \$2.9 million to foreign governments, partially offset by decreased sonobuoy sales of \$2.2 million to the U.S. Navy. Total sales to the U.S. Navy in the third quarters of fiscal years 2016 and 2015 were approximately \$23.4 million and \$25.7 million, respectively. For the third quarters of fiscal years 2016 and 2015, sales to the U.S. Navy accounted for 23% and 28%, respectively, of consolidated Company net sales and 62% and 71%, respectively, of ECP segment net sales. ECP backlog was approximately \$111.4 million at the end of third quarter of fiscal year 2016 compared to \$139.4 million at the end of third quarter of fiscal year 2015. A majority of the third quarter fiscal year 2016 ECP backlog is currently expected to be realized in the next 18 months.

Gross margin on ECP sales was positively impacted in the current year quarter due to a favorable shift in product mix as compared to the prior year quarter. The increase in selling and administrative expense was due to the acquired selling and administration expenses of Stealth.com as well as professional service expenses associated with governmental audits and compliance.

The increase in amortization of intangible assets is due to the amortization of customer relationships, non-compete agreements, trademarks/tradenames and unpatented technology acquired in the acquisitions of Stealth.com, KEP Marine and IED.

Internal research and development expenses reflect costs incurred for the internal development of technologies for use in navigation, oil and gas exploration and flat panel display technology. These costs include salaries and related expenses, contract labor and consulting costs, materials and the cost of certain research and development specific equipment.

Eliminations and Corporate Unallocated

The following table presents selected consolidated statements of income data (dollars in thousands):

	For the Third Quarter of Fiscal Years			
	2016	2015	\$ Chg	% Chg

Selling and administrative expenses unallocated	3,979	4,419	(440)	(10.0)

Total corporate selling and administrative expenses before allocation to operating segments were \$7.3 million and \$6.9 million for the third quarter of fiscal year 2016 and fiscal year 2015, respectively, or 7.1% and 7.4% of consolidated sales, respectively. Of these costs, \$3.3 million and \$2.5 million, respectively, were allocated to segment operations in each of these periods.

Income taxes	1,221	0.4		1,120	0.4	
Net income	\$3,798	1.2	%	\$5,891	2.3	%

The decrease in legacy business sales reflects fluctuations in customer demand as well as product insourcing and certain programs going end-of-life in the MDS segment, partially offset by increased sonobuoy sales to foreign governments, increased sales in ruggedized flat panel displays in the ECP segment and increased sales from new programs.

The slight increase in gross margin for the first three quarters of fiscal year 2016 as compared to the first three quarters of fiscal year 2015 primarily reflects the effect of fixed overhead costs on higher business sales. The increase in selling and administrative expense is due to the expenses from companies acquired in the prior year and increased costs at the corporate office.

The increase in amortization of intangible assets relates to certain intangible assets acquired as part of the acquisitions in fiscal year 2015. Restructuring charges relate to the previously discussed closing of the Company's Lawrenceville, GA

manufacturing operations and consolidation of its Irvine, CA design center into its Irvine, CA manufacturing operations.

Accrued contingent consideration related to Hunter of approximately \$1.2 million and RTEmd of approximately \$0.3 million, both in the MDS segment, was reversed based on the Company's determination that Hunter and RTEmd would not meet the required performance thresholds necessary to earn their respective contingent considerations.

The Company recognized a discrete income tax benefit of \$0.5 million for the first three quarters of fiscal year 2016 as a result of the reversal of previously accrued contingent purchase price consideration liability. The Company's effective income tax rate for interim periods was determined based on the Company's estimated annual effective tax rate for the applicable year using the federal statutory income tax rate, permanent tax differences, foreign income taxes and state income taxes. Excluding the discrete income tax event described above, the Company's estimated annual effective tax rate for the fiscal year was determined to be approximately 35.0%.

Due to the factors described above, the Company reported net income of \$3.8 million, or \$0.38 per share for the first three quarters of fiscal year 2016, compared to net income of \$5.9 million, or \$0.59 per share for the first three quarters of fiscal year 2015.

The decrease in legacy business sales was due to fluctuations in customer demand as well customer insourcing, certain programs going end-of-life and customers managing their working capital to match end-market demands, partially offset by increased sales by new programs.

Gross margin on MDS sales was negatively impacted in the current year by an unfavorable shift in product mix. The selling and administrative expense increase is primarily comprised of businesses acquired in the prior year.

The increase in amortization of intangible assets principally relates to the amortization of customer relationships and non-compete agreements from companies acquired in the prior year. Restructuring charges relate to the previously discussed closing of the Company's Lawrenceville, GA manufacturing operations and consolidation of its Irvine, CA design center into its Irvine, CA manufacturing operations. The reversal of accrued contingent consideration relates to Hunter and RTEmd, as previously discussed.

The increase in ECP legacy business sales reflects increased sonobuoy sales of \$14.7 million to foreign governments, increased engineering revenue to the U.S. Navy of \$5.8 million and increased ruggedized flat panel display sales of \$5.0 million (includes tuck-in acquisitions sales) partially offset by decreased sonobuoy sales to the U.S. Navy of \$2.9 million. Total sales to the U.S. Navy in the first three quarters of fiscal years 2016 and 2015 were approximately \$69.9 million and \$67.0 million, respectively. For the first three quarters of fiscal years 2016 and 2015, sales to the U.S. Navy accounted for 22% and 26%, respectively, of consolidated Company net sales and 60% and 76%, respectively, of ECP segment net sales.

Table of Contents

The slight increase in gross margin for the current year primarily reflects the effect of fixed overhead costs on higher business sales. The selling and administrative expense increase was due to the acquired selling and administration expenses of Stealth.com as well as professional service expenses associated with governmental audits and compliance. The increase in amortization of intangible assets relates to the amortization of customer relationships, non-compete agreements, tradenames and unpatented technology acquired as part of the fiscal year 2015 Stealth.com transaction, customer relationships and tradenames acquired as part of the fiscal year 2015 KEP Marine transaction and customer relationships and non-compete agreements acquired as part of the fiscal year 2015 IED transaction.

Internal research and development expenses reflect costs incurred for the internal development of technologies for use in navigation, oil and gas exploration and flat panel display technology. These costs include salaries and related expenses, contract labor and consulting costs, materials and the cost of certain research and development specific equipment.

Eliminations and Corporate Unallocated

The following table presents selected consolidated statements of income data (dollars in thousands):

	For the First Three Quarters of Fiscal Years			
	2016	2015	\$ Chg	% Chg
Intercompany sales elimination	\$(13,632)	\$(11,469)	\$(2,163)	(18.9)%
Selling and administrative expenses unallocated	12,104	13,176	(1,072)	(8.1)

Total corporate selling and administrative expenses before allocation to operating segments were \$22.2 million and \$20.0 million for the first three quarters of fiscal year 2016 and fiscal year 2015, respectively, or 7.1% and 7.8% of consolidated sales, respectively. Of these costs, \$10.1 million and \$6.7 million, respectively, were allocated to segment operations in each of these periods.

Liquidity and Capital Resources

As of March 27, 2016, the Company had approximately \$150.7 million available under its \$275.0 million credit facility, reflecting borrowings of \$123.4 million and certain letters of credit outstanding of \$0.9 million. Additionally, the Company had available cash and cash equivalents of \$0.8 million.

Outstanding borrowings under the Credit Facility will bear interest, at the Company's option, at either LIBOR, fixed for interest periods of one, two, three or six month periods, plus 1.00% to 1.75%, or at the bank's base rate, as defined, plus 0.00% to 0.75%, based upon the Company's Total Funded Debt/EBITDA Ratio, as defined. The Company is also required to pay commitment fees on unused portions of the Credit Facility ranging from 0.20% to 0.35%, based on the Company's Total Funded Debt/EBITDA Ratio, as defined. The Credit Facility includes representations, covenants and events of default that are customary for financing transactions of this nature.

As a condition of the Credit Facility, the Company is subject to certain customary covenants, with which it was in compliance at March 27, 2016.

The Company currently expects to meet its liquidity needs through a combination of sources including, but not limited to, operations, existing cash balances and its revolving line-of-credit. With the above sources providing the expected cash flows, the Company currently believes that it will have sufficient liquidity for its anticipated needs over the next 12 months, but no assurances regarding liquidity can be made.

	For the First Three Quarters of Fiscal Years	
	2016	2015
CASH FLOWS		
Operating activities, excluding changes in working capital	\$14,234	\$14,067

Operating activities	21,308	12,457
Investing activities	(4,256)	(47,178)
Financing activities	(31,132)	32,274

Net changes in working capital related cash flows in the first three quarters of fiscal year 2016 primarily reflect collections of accounts receivables and increased accounts payable and accrued expenses, partially offset by changes in inventories, prepaid expenses as well as the funding of production related to U.S. Navy contracts. Working capital related cash flows for the first three quarters of fiscal year 2015 primarily reflect increased inventories, prepayment of income taxes as well

as the funding of production related to U.S. Navy contracts during the year in excess of performance based payments received, partially offset by collections of accounts receivable.

Net cash flows from investing activities for the first three quarters of fiscal year 2016 includes cash received related to the acquisition of Hunter. Cash used in investing activities for the first three quarters of fiscal year 2015 relate to the acquisition of eMT, as well as the acquisitions of Argotec, IED, Real-time Enterprises, Inc., KEP Marine and Stealth.com. Net capital expenditures for the first three quarters of fiscal year 2016 and fiscal year 2015 were approximately \$5.2 million and \$3.9 million, respectively.

Net cash used in financing activities in the first three quarters of fiscal year 2016 reflects \$31.1 million of net payments under the Company's Credit Facility as compared to \$39.0 million in net borrowings for the first three quarters of fiscal year 2015.

Commitments and Contingencies

See Note 10, Commitments and Contingencies, of the "Notes to Unaudited Consolidated Financial Statements" in this Quarterly Report on Form 10-Q for a discussion of the Company's commitments and contingencies.

Contractual Obligations

Information regarding the Company's long-term debt obligations, environmental liability payments, operating lease payments and other commitments is provided in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," of the Company's Annual Report on Form 10-K for fiscal year ended June 30, 2015. As of June 30, 2015, there were \$55.2 million of non-cancelable purchase orders outstanding, \$154.5 million of debt, \$12.5 million of operating lease payments and a liability related to performance based billings on customer contracts of \$1.8 million. As of March 27, 2016, compared to June 30, 2015, the non-cancelable purchase orders outstanding has increased to \$57.4 million, debt decreased to \$123.4 million, operating lease payments, net of subleases, increased to \$12.7 million and the liability related to performance based billings has been eliminated. During the third quarter of fiscal year 2016, the Company entered into sublease agreements totaling \$1.0 million related to its Lawrenceville, GA manufacturing facility and its Irvine, CA design center, the largest of which extends through May of 2018. Other than as noted above, there have been no material changes in the nature or amount of the Company's contractual obligations since fiscal year end 2015.

Table of Contents

Off-Balance Sheet Arrangements

The Company has standby letters of credit outstanding of approximately \$0.9 million at March 27, 2016, principally to support insurance arrangements. Other than these standby letters of credit and the operating lease commitments referenced above, we have no off-balance sheet arrangements that would have a current or future material effect on our financial condition, changes in financial condition, revenue, expense, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

Our financial statements are prepared in conformity with GAAP and require us to select appropriate accounting policies. The assumptions and judgments we use in applying our accounting policies have a significant impact on our reported amounts of assets, liabilities, revenue and expenses. While we believe that the assumptions and judgments used in our estimates are reasonable, actual results may differ from these estimates under different assumptions or conditions.

We have identified the most critical accounting policies upon which our financial status depends. The critical policies were determined by considering accounting policies that involve the most complex or subjective decisions or assessments. We also have other policies considered key accounting policies; however, these policies do not meet the definition of critical accounting policies because they do not generally require us to make estimates or judgments that are complex or subjective. Our critical accounting policies include the following:

Revenue recognition

Business combinations

Goodwill and intangible assets

Percentage-of-completion accounting

Environmental contingencies

Income taxes

Commercial inventory valuation

Allowance for probable losses on receivables

Valuation of property, plant and equipment

Stock-based compensation

Pension obligations

There have been no significant changes to our critical accounting policies that are described in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of our Annual Report on Form 10-K for the year ended June 30, 2015.

New Accounting Pronouncements

See Note 15, New Accounting Standards, of the “Notes to Unaudited Consolidated Financial Statements” in this Quarterly Report on Form 10-Q for a discussion of new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company manufactures its products in the United States, Canada and Vietnam. Sales of the Company’s products are in the U.S. and foreign markets. The Company is subject to foreign currency exchange rate risk relating to intercompany activity and balances and to receipts from customers and payments to suppliers in foreign currencies. Adjustments related to the remeasurement of the Company’s Canadian and Vietnamese financial statements into U.S. dollars are included in current earnings. As a result, the Company’s financial results could be affected by factors such as changes in foreign currency exchange rates or economic conditions in the domestic and foreign markets in which the Company operates. However, minimal third party receivables and payables are denominated in foreign currencies and the related market risk exposure is considered to be immaterial.

The Company’s revolving credit line, when drawn upon, is subject to future interest rate fluctuations which could potentially have a negative impact on cash flows of the Company. The Company had \$123.4 million outstanding under its Credit Facility at March 27, 2016. A prospective increase of 100 basis points in the interest rate applicable to the Company’s outstanding borrowings under its Credit Facility would result in an increase of approximately \$1.2 million in our annual interest expense. The Company is not party to any currency exchange or interest rate protection

agreements as of March 27, 2016.

Item 4. Controls and Procedures.

Our Chief Executive Officer and our Chief Financial Officer each has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this quarterly report. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this quarterly report, our disclosure controls and procedures are effective.

There have been no changes in our internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the third quarter of fiscal year 2016 ended March 27, 2016, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

See Note 10, Commitments and Contingencies, of the “Notes to Unaudited Consolidated Financial Statements” in this Quarterly Report on Form 10-Q for a discussion of legal proceedings and other commitments and contingencies.

Item 1A. Risk Factors.

You should carefully consider the risks and uncertainties described in Part I, Item 1A., "Risk Factors," in our Annual Report on Form 10-K for the year ended June 30, 2015 and the other information in our subsequent filings with the SEC, including this Quarterly Report on Form 10-Q. Our business, financial condition, results of operations and stock price could be materially and adversely affected by any of these risks. The risks described in our Annual Report on Form 10-K are not the only ones we face. Additional risks and uncertainties that are currently unknown to us or that we currently consider to be immaterial may also impair our business or adversely affect our financial condition, results of operations and stock price.
