PORTFOLIO MANAGERS' LETTER

HIGHLAND CREDIT STRATEGIES FUND

Dear Shareholders:

We are pleased to provide you with our first annual shareholder report for Highland Credit Strategies Fund (the "Fund"), for the period ended December 31, 2006. The Fund commenced investment operations on June 29, 2006. On December 29, 2006 (the last day the New York Stock Exchange was open for trading prior to the end of the calendar year), the net asset value of the Fund was \$20.08 per share, as compared to \$19.06 on June 29, 2006. On December 29, 2006, the closing market price of the Fund's shares on the New York Stock Exchange was \$21.16 per share, as compared to \$20.18 on June 29, 2006. During the period ended December 31, 2006, the Fund distributed to common shareholders \$0.60 per share.

THE FUND'S INVESTMENTS:

The total return on the Fund's per share market price, assuming reinvestment of dividends, for the period ended December 31, 2006 was 9.06%. The total return on the Fund's net assets was 8.60% for the period ended December 31, 2006. The

variation in total returns is attributable to the increase in the market price of the Fund's shares of 5.80% relative to an increase in the net asset value of the Fund's shares of 5.35% during the period.

DIVIDEND DECLARATION:

On February 13, 2007, the Board of Directors declared a dividend of \$0.15 per common share, payable on the last day of business for the month of February 2007.

Respectfully submitted,

FINANCIAL STATEMENTS

DECEMBER 31, 2006 HIGHLAND CREDIT STRATEGIES FUND

A GUIDE TO UNDERSTANDING THE FUND'S FINANCIAL STATEMENTS

INVESTMENT PORTFOLIO

The Investment Portfolio details all of the Fund's holdings and their market value as of the last day of the reporting period. Portfolio holdings are organized by type of asset and industry to demonstrate areas of concentration and diversification.

STATEMENT OF ASSETS AND LIABILITIES

This statement details the Fund's assets, liabilities, net assets and common share price as of the last day of the reporting period. Net assets are calculated by subtracting all the Fund's liabilities (including any unpaid expenses) from the total of the Fund's investment and non-investment assets. The net asset value per common share is calculated by dividing net assets by the number of common shares outstanding as of the last day of the reporting period.

STATEMENT OF OPERATIONS

This statement reports income earned by the Fund and the expenses accrued by the Fund during the reporting period. The Statement of Operations also shows any net gain or loss the Fund realized on the sales of its holdings during the period as well as any unrealized gains or losses recognized over the period. The total of these results represents the Fund's net increase or decrease in net assets from operations applicable to common shareholders.

STATEMENT OF CHANGES IN NET ASSETS

This statement details how the Fund's net assets were affected by its operating results, distributions to common shareholders and shareholder transactions from common shares (e.g., subscriptions, redemptions and dividend reinvestments) during the reporting period. The Statement of Changes in Net Assets also details changes in the number of common shares outstanding.

STATEMENT OF CASH FLOWS

This statement reports net cash and foreign currency provided or used by operating, investing and financing activities and the net effect of those flows on cash and foreign currency during the period.

FINANCIAL HIGHLIGHTS

The Financial Highlights demonstrate how the Fund's net asset value per common share was affected by the Fund's operating results. The Financial Highlights also disclose the performance and certain key ratios (e.g., net expenses and net investment income as a percentage of average net assets).

NOTES TO FINANCIAL STATEMENTS

These notes disclose the organizational background of the Fund, its significant accounting policies (including those surrounding security valuation, income recognition and distributions to shareholders), federal tax information, fees and compensation paid to affiliates and significant risks and contingencies.

(a) Senior loans in which the Fund invests generally pay interest at rates which are periodically predetermined by reference to a base lending rate plus a premium. (Unless otherwise identified by footnote (d), all senior loans carry a variable rate interest.) These base lending rates are generally (i) the Prime Rate offered by one or more major U.S. banks, (ii) the lending rate offered by one or more European banks such as the London Inter-Bank Offered Rate ("LIBOR") or (iii) the Certificate of Deposit rate. Rate shown represents the weighted average rate at December 31, 2006. Senior loans, while exempt from registration under the Security Act of 1933, as amended (the "1933 Act"), contain certain restrictions on resale and cannot be sold publicly. Senior secured floating rate loans often

require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown.

- (b) All or a portion of this position has not settled. Contract rates do not take effect until settlement date.
- (c) Senior loan notes have additional unfunded loan commitments. See Note 9.
- (d) Fixed rate senior loan.
- (e) The issuer is in default of certain debt covenants. Income is not being accrued.
- (f) Floating rate note. The interest rate shown reflects the rate in effect at December 31, 2006.
- (g) Securities exempt from registration pursuant to Rule 144A under the 1933 Act. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. At December 31, 2006, the value of these securities amounted to \$32,919,875 or 4.8% of net assets. These securities have been determined by the Investment Adviser to be liquid securities.
- (h) Securities (or a portion of securities) on loan as of December 31, 2006. See Note 8.
- (i) Restricted security, e.g., security not registered under the 1933 Act excluding Rule 144A securities. At December 31, 2006, the value of this restricted security amounted to \$346,500 or 0.1% of net assets. Additional information about the restricted security is as follows:

Acquition	Acquition

HIGHLAND CREDIT STRATEGIES FUND

NOTE 1. ORGANIZATION

Highland Credit Strategies Fund (the "Fund") is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a nondiversified, closed-end management investment company. The Fund may issue an unlimited number of common shares, par value \$0.001 per share ("Common Shares").

INVESTMENT GOAL

The Fund seeks to provide both current income and capital appreciation.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

FUND VALUATION

The net asset value of the Fund's Common Shares is calculated daily on each day that the New York Stock Exchange is open for business as of the close of the regular trading session on the New York Stock Exchange. The net asset value is calculated by dividing the value of the Fund's net assets attributable to Common Shares by the number of Common Shares outstanding.

SECURITY VALUATION

In computing the Fund's net assets attributable to Common Shares, securities with readily available market quotations use those quotations for valuation. When portfolio securities are traded on the relevant day of valuation, the valuation will be the last reported sale price on that day. If there are no such sales on that day, the security will be valued at the mean between the most recently quoted bid and asked prices provided by the principal market makers. If there is more than one such principal market maker, the value shall be the average of such means. Securities without a sale price or quotations from

principal market makers on the valuation day will be valued by an independent pricing service. If securities do not have readily available market quotations or pricing service prices, including circumstances under which such are determined not to be accurate or current (including when events materially affect the value of securities occurring between the time when market price is determined and calculation of the Fund's net asset value), such securities are valued at their fair value, as determined by Highland Capital Management, L.P. ("Highland" or the "Investment Adviser") in good faith in accordance with procedures approved by the Fund's Board of Trustees. In these cases, the Fund's net asset value will reflect the affected portfolio securities' value as determined in the judgment of the Board of Trustees or its designee instead of being determined by the market. Using a fair value pricing methodology to value securities may result in a value that is different from a security's most recent sale price and from the prices used by other investment companies to calculate their net asset values. There can be no assurance that the Fund's valuation of a security will not differ from the amount that it realizes upon the sale of such security. Short-term investments, that is, those with a remaining maturity of 60 days or less, are valued at amortized cost. Repurchase agreements are valued at cost plus accrued interest. Foreign price quotations are converted to U.S. dollar equivalents using the 4 PM London Time Spot Rate.

SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

FOREIGN CURRENCY

Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates using the current 4:00 PM London Time Spot Rate. Fluctuations in the value of the foreign currencies and other assets and liabilities resulting from changes in exchange rates between trade and settlement dates on security transactions and between the accrual and payment dates on dividends, interest income and foreign withholding taxes are recorded as unrealized foreign currency gains (losses). Realized gains (losses) and unrealized appreciation (depreciation) on investment securities and income and expenses are translated on the respective dates of such transactions. The effect of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included with the net realized and unrealized gain or loss on investment securities.

SHORT SALES

A short sale is a transaction in which the Trust sells a security it does not own in anticipation that the market price of that security will decline. When the Trust makes a short

Annual Report | 17

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

HIGHLAND CREDIT STRATEGIES FUND

sale, it must borrow the security sold short from a broker-dealer and deliver it to the buyer upon conclusion of the sale. The Trust may have to pay a fee to borrow particular securities and is often obligated to pay over any payments received on such borrowed securities. Cash held as collateral for short sales is classified as restricted cash on the Statement of Assets and Liabilities.

The Trust intends to attempt to limit exposure to a possible market decline in the value of its portfolio securities through short sales of securities that

Highland believes possess volatility characteristics similar to those being hedged. In addition, the Trust intends to use short sales for non-hedging purposes to pursue its investment objectives. Subject to the requirements of the 1940 Act and the Internal Revenue Code of 1986, as amended (the "Code"), the Trust will not make a short sale if, after giving effect to such sale, the market value of all securities sold short by the Trust exceeds 25% of the value of its total assets.

INCOME RECOGNITION

Interest income i recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date.

FEDERAL INCOME TAX STATUS

The Fund intends to qualify each year as a "regulated investment company" under Subchapter M of the Code, and will distribute substantially all of its taxable income and gains, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Fund intends to distribute, in each calendar year, all of its net investment income, capital gains and certain other amounts, if any, such that the Fund should not be subject to federal excise tax. Therefore, no federal income or excise tax provisions are recorded.

DIVIDENDS AND DISTRIBUTIONS

The Fund plans to pay dividend distributions monthly and capital gain distributions annually to common shareholders. To permit the Fund to maintain more stable monthly dividends and annual distributions, the Fund may from time to time distribute less than the entire amount of income and gains earned in the relevant month or year, respectively. The undistributed income and gains would be available to supplement future distributions. Shareholders of the Fund will automatically have all dividends and distributions reinvested in Common Shares of the Fund issued by the Fund or purchased in the open market in accordance with the Fund's Dividend Reinvestment Plan (the "Plan") unless an election is made to receive cash. Each participant in the Plan will pay a pro rata share of brokerage commissions incurred in connection with open market purchases, and participants requesting a sale of securities through the plan agent of the Plan are subject to a sales fee and a brokerage commission.

STATEMENT OF CASH FLOWS

Information on financial transactions which have been settled through the receipt or disbursement of cash is presented in the Statement of Cash Flows. The cash and foreign currency amount shown in the Statement of Cash Flows is the amount included within the Fund's Statement of Assets and Liabilities and includes cash and foreign currency on hand at its custodian bank.

ADDITIONAL ACCOUNTING STANDARDS

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 (FIN 48) "Accounting for Uncertainty in Income Taxes". FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be booked as a tax expense in the current year and would be recognized as: a liability for unrecognized tax benefits; a reduction of an income tax refund receivable; a reduction of deferred tax asset; an increase in deferred tax liability; or a combination thereof. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157 FAIR VALUE MEASUREMENTS ("SFAS 157") was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value,

establishes a framework for measuring fair value and expands disclosures about fair value measurements.

At this time, management is evaluating the implications of FIN 48 and SFAS 157 and their impact on the financial statements have not yet been determined.

NOTE 3. FEDERAL TAX INFORMATION

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period.

Reclassifications are made to the Fund's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

HIGHLAND CREDIT STRATEGIES FUND

For the year ended December 31, 2006, permanent differences resulting primarily from section 988 gain/(loss) reclass were identified and reclassified among the components of the Fund's net assets as follows:

Overdistributed

Net Investment Accumulated Net Income Realized Loss

\$ (96,257) \$96,257

Net investment income and net realized gains (losses), as disclosed on the Statement of Operations, and net assets were not affected by these reclassifications.

The tax character of distributions paid during the year ended December 31, 2006 was as follows:

Distributions paid from: 2006

Ordinary income* \$20,704,560 Long-term capital gains --

*For tax purposes, short-term capital gains distributions, if any, are considered ordinary income distributions.

As of December 31, 2006, the components of distributable earnings on a tax basis were as follows:

NOTE 4. INVESTMENT ADVISER, ADMINISTRATION, AND TRUSTEE FEES

INVESTMENT ADVISER FEE

Highland Capital Management, L.P is the investment adviser to the Fund and receives an annual fee, paid monthly, in an amount equal to 1.00% of the average weekly value of the Fund's Managed Assets. The Fund's "Managed Assets" is an amount equal to the total assets of the Fund, including any form of leverage, minus all accrued expenses incurred in the normal course of operations, but not excluding any liabilities or obligations attributable to investment leverage obtained through (i) indebtedness of any type (including, without limitation, borrowing through a credit facility or the issuance of debt securities), (ii) the issuance of preferred stock or other preference securities, (iii) the reinvestment of collateral received for securities loaned in accordance with the Fund's investment objectives and policies, and/or (iv) any other means.

ADMINISTRATION FEE

Highland provides administrative services to the Fund. For its services, Highland receives an annual fee, payable monthly, in an amount equal to 0.20% of the average weekly value of the Fund's Managed Assets. Under a separate sub-administration agreement, Highland has delegated certain administrative functions to PFPC Inc. ("PFPC"). Highland pays PFPC directly for these sub-administration services.

FEES PAID TO TRUSTEES

The Fund pays no compensation to its Trustee and Officers who are interested persons (as defined in the 1940 Act) of the Fund and employees of Highland. The Fund pays each Trustee who is not an interested person (as defined in the 1940 Act) of the Fund an annual retainer of \$7,500 per year for services provided as a Trustee of the Fund.

NOTE 5. PORTFOLIO INFORMATION

For the period ended December 31, 2006, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$1,317,754,996 and \$381,326,418, respectively.

NOTE 6. SENIOR LOAN PARTICIPATION COMMITMENTS

The Fund may invest its assets (plus any borrowings for investment purposes) in adjustable rate senior loans ("Senior Loans") the interest rates of which float or vary periodically based upon a benchmark indicator of prevailing interest rates to domestic or foreign corporations, partnerships and other entities ("Borrowers"). If the lead lender in a typical lending syndicate becomes insolvent, enters FDIC receivership or, if not FDIC, insured enters into bankruptcy, the Fund may incur certain costs and delays in receiving payment or may suffer a loss of principal and/or interest. When the Fund purchases a participation of a Senior Loan interest, the Fund typically enters into a contractual agreement with the lender or other third party selling the participation (the "Selling Participant"), not with the Borrower directly. As such, the Fund assumes the credit risk of the Borrower, Selling Participant or other persons interpositioned between the Fund and the Borrower. The ability of Borrowers to meet their obligations may be affected by eco-

nomic developments in a specific industry. At December 31, 2006, there were no Senior Loans purchased by the Fund on a participation basis.

NOTE 7. LOAN AGREEMENT

Effective August 3, 2006, the Fund entered into a \$300,000,000 secured loan agreement with Scotia Capital ("Scotia").

At December 31, 2006, the Fund had a term loan outstanding with Scotia, totaling \$285,000,000. The interest rate charged on this loan at December 31, 2006 was 5.37%. The average daily loan balance was \$183,771,186 at weighted average interest rate of 5.34%. The Fund was required to maintain certain asset coverage with respect to the loan. Interest expense of \$3,436,058 is included on the Statement of Operations.

The Fund is required to maintain 300% asset coverage with respect to amounts outstanding under the agreement. The loan agreement asset coverage is calculated by subtracting the Fund's total liabilities, not including any bank loans and senior securities, from the Fund's total net assets and dividing such amount by the principal amount of the debt outstanding and is as follows:

		Asset Coverage
	Total Amount	per \$1,000 of
Date	Outstanding	Indebtness
12/31/2006	\$285,000,000	\$3 , 429

NOTE 8. SECURITIES LOANS

The Fund may make secured loans of its portfolio securities amounting to not more than one-third of the value of its total assets, thereby realizing additional income. The risks in lending portfolio securities, as with other extensions of credit, consist of possible delays in recovery of the securities or possible loss of rights in the collateral should the borrower fail financially. As a matter of policy, securities loans are made to unaffiliated broker-dealers pursuant to agreements requiring that loans be continuously secured by collateral in cash or short-term debt obligations at least equal at all times to the value of the securities subject to the loan. The borrower pays to the Fund an amount equal to any interest or dividends received on securities subject to the loan. The Fund retains all or a portion of the interest received on investment of the cash collateral or receives a fee from the borrower. As of December 31, 2006, the value of securities loaned by the Fund was \$2,793,238. The loans were secured with cash collateral of \$2,861,357.

9. UNFUNDED LOAN COMMITMENTS

As of December 31, 2006, the Fund had unfunded loan commitments of \$11,326,092, which could be extended at the option of the borrower, pursuant to the following loan agreements:

NOTE 10. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

INDUSTRY FOCUS

The Fund may focus its investments in instruments of only a few companies. The concentration of the Fund's portfolio in any one obligor would subject the Fund to a greater degree of risk with respect to defaults by such obligor, and the concentration of the portfolio in any one industry would subject the Fund to a greater degree of risk with respect to economic downturns relating to such industry.

NON-PAYMENT RISK

Corporate debt obligations, including Senior Loans, are subject to the risk of non-payment of scheduled interest and/or principal. Non-payment would result in a reduction of income to the Fund, a reduction in the value of the Senior Loan experiencing non-payment, and a potential decrease in the net asset value of the Fund.

CREDIT RISK

Investments rated below investment grade are commonly referred to as high-yield, high risk or "junk debt." They are regarded as predominantly speculative with respect to the issuing company's continuing ability to meet principal and/or interest payments. Investments in high yield Senior Loans may result in greater net asset value fluctuation than if the Fund did not make such investments.

HIGHLAND CREDIT STRATEGIES FUND

ILLIQUIDITY OF INVESTMENTS

The investments made by the Fund may be illiquid, and consequently the Fund may not be able to sell such investments at prices that reflect the Investment Adviser's assessment of their value or the amount originally paid for such investments by the Fund. Illiquidity may result from the absence of an established market for the investments as well as legal, contractual or other restrictions on their resale and other factors. Furthermore, the nature of the Fund's investments, especially those in financially distressed companies, may require a long holding period prior to profitability.

TROUBLED, DISTRESSED OR BANKRUPT COMPANIES

The Fund invests in companies that are troubled, in distress, or bankrupt. As such, they are subject to a multitude of legal, industry, market, environment and governmental forces that make analysis of these companies inherently risky. Further, the Investment Adviser relies on company management, outside experts, market participants, and personal experience to analyze potential investments for the Fund. There can be no assurance that any of these sources will prove credible, or that the resulting analysis will produce accurate conclusions.

LEVERAGE RISK

The Fund intends to use leverage through the issuance of preferred shares, borrowings from a credit facility, or both. The use of leverage, which can be described as exposure to changes in price at a ratio greater than the amount of equity invested, either through the issuance of preferred shares, borrowing or other forms of market exposure, magnifies both the favorable and unfavorable effects of price movements in the investments made by the Fund. Insofar as the Fund employs leverage in its investment operations, the Fund will be subject to substantial risks of loss.

FOREIGN SECURITIES

Investments in foreign securities involve certain factors not typically associated with investing in U.S. securities, such as risks relating to (i) currency exchange matters, including fluctuations in the rate of exchange between the U.S. dollar (the currency in which the books of the Fund are maintained) and the various foreign currencies in which the Fund's portfolio securities will be denominated and costs associated with conversion of investment principal and income from one currency into another; (ii) differences between the U.S. and foreign securities markets, including the absence of uniform accounting, auditing and financial reporting standards and practices and disclosure requirements, and less government supervision and regulation; (iii) political, social or economic instability; and (iv) the extension of credit, especially in the case of sovereign debt.

EMERGING MARKETS RISK

Investing in securities of issuers based in underdeveloped emerging markets entails all of the risks of investing in foreign securities to a heightened degree. These heightened risks include: (i) greater risks of expropriation, confiscatory taxation, nationalization, and less social political and economic stability; (ii) the smaller size of the markets for such securities and a lower volume of trading, resulting in lack of liquidity and in price volatility; and (iii) certain national policies which may restrict the Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interest.

DERIVATIVES RISK

Derivative transactions in which the Fund may engage for hedging and speculative purposes or to enhance total return, including engaging in transactions such as options, futures, swaps, foreign currency transactions including forward foreign currency contracts, currency swaps or options on currency and currency futures and other derivative transactions, involve certain risks and considerations. These risks include the imperfect correlation between the value of such instruments and the underlying assets, the possible default of the other party to the transaction or illiquidity of the derivative instruments. Furthermore, the ability to successfully use derivative transactions depends on the Investment Adviser's ability to predict pertinent market movements, which can not be assured. Thus, the use of derivative transactions may result in losses greater than if they had not been used, may require the Fund to sell or purchase portfolio securities at inopportune times or for prices other than current market value, may limit the amount of appreciation the Fund can realize on an investment or may cause the Fund to hold a security that it might otherwise sell.

SHORT SALES RISK

Short selling involves selling securities which may or may not be owned and borrowing the same securities for delivery to the purchaser, with an obligation to replace the borrowed securities at a later date. The Fund will profit from declines in the market prices to the extent such decline exceeds the transaction costs and the costs of borrowing the securities. However, since the borrowed securities must be replaced by purchases at market prices in order to close out the short position, any appreciation in the price of the borrowed securities would result in a loss. There can be no assurance that the securities necessary to cover a short position will be available for purchase.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF HIGHLAND CREDIT STRATEGIES FUND:

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations and of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Highland Credit Strategies Fund (the "Fund") at December 31, 2006, and the results of its operations, the changes in its net assets and cash flows and the financial highlights for the period from June 29, 2006 (commencement of operations) through December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit, which included confirmation of investments at December 31, 2006 by correspondence with the custodian and the banks with whom the Fund owns participations in loans, provides a reasonable basis for our opinion.

ADDITIONAL INFORMATION (UNAUDITED)

DIVIDEND REINVESTMENT PLAN

HIGHLAND CREDIT STRATEGIES FUND

Unless the registered owner of Common Shares elects to receive cash by contacting the Plan Agent, all dividends declared for your Common Shares of the Trust will be automatically reinvested by PFPC, Inc. (the ""Plan Agent"), agent for shareholders in administering the Trust's Dividend Reinvestment Plan (the ""Plan"), in additional Common Shares of the Trust. If a registered owner of Common Shares elects not to participate in the Plan, you will receive all dividends in cash paid by check mailed directly to you (or, if the shares are held in street or other nominee name, then to such nominee) by PFPC, Inc., as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by sending written instructions or by contacting PFPC, Inc., as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by contacting the Plan Agent before the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some

brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares of the Trust for you.

The Plan Agent will open an account for each common shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Trust declares a dividend or other distribution (together, a ""dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Agent for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Trust (""newly issued Common Shares") or (ii) by purchase of outstanding Common Shares on the open market (""open-market purchases") on the New York Stock Exchange or elsewhere.

If, on the payment date for any dividend, the market price per Common Share plus estimated brokerage commissions is greater than the net asset value per Common Share (such condition being referred to herein as ""market premium"), the Plan Agent will invest the dividend amount in newly issued Common Shares, including fractions, on behalf of the participants. The number of newly issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value per Common Share is less than 95% of the market price per Common Share on the payment date, the dollar amount of the dividend will be divided by 95% of the market price per Common Share on the payment date.

If, on the payment date for any dividend, the net asset value per Common Share is greater than the market value per Common Share plus estimated brokerage commissions (such condition being referred to herein as ""market discount"), the Plan Agent will invest the dividend amount in Common Shares acquired on behalf of the participants in open-market purchases.

In the event of a market discount on the payment date for any dividend, the Plan Agent will have until the last business day before the next date on which the Common Shares trade on an ""ex-dividend" basis or 120 days after the payment date for such dividend, whichever is sooner (the ""last purchase date"), to invest the dividend amount in Common Shares acquired in open-market purchases. It is contemplated that the Trust will pay monthly dividends. Therefore, the period during which open-market purchases can be made will exist only from the payment date of each dividend through the date before the ""ex-dividend" date of the third month of the quarter. If, before the Plan Agent has completed its open-market purchases, the market price of a Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Agent may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend had been paid in newly issued Common Shares on the dividend payment date. Because of the foregoing difficulty with respect to open market purchases, if the Plan Agent is unable to invest the full dividend amount in open market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent may cease making open-market purchases and may invest the uninvested portion of the dividend amount in newly issued Common Shares at the net asset value per Common Share at the close of business on the last purchase date; provided that, if the net asset value per Common Share is less than 95% of the market price per Common Share on the payment date, the dollar amount of the dividend will be divided by 95% of the market price per Common Share on the payment date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan

participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

DIVIDEND REINVESTMENT PLAN (CONTINUED)

HIGHLAND CREDIT STRATEGIES FUND

There will be no brokerage charges with respect to Common Shares issued directly by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with open-market purchases. The automatic reinvestment of dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. Accordingly, any taxable dividend received by a participant that is reinvested in additional Common Shares will be subject to federal (and possibly state and local) income tax even though such participant will not receive a corresponding amount of cash with which to pay such taxes. See "Tax Matters." Participants who request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and pay a brokerage commission of \$0.05 per share sold.

The Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Trust reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence concerning the Plan should be directed to the Plan Agent at PFPC, Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809; telephone (877) 665-1287.

Timothy K. Hui Scott F. Kavanaugh James F. Leary Bryan A. Ward

ITEM 6. SCHEDULE OF INVESTMENTS.

Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Proxy Voting Policies are attached herewith.

Highland Capital Management, L.P. (the "Adviser") has adopted proxy voting guidelines (the "Guidelines") that provide as follows:

- o The Adviser votes proxies in respect of a client's securities in the client's best economic interests and without regard to the interests of the Adviser or any other client of the Adviser.
- o Unless the Adviser otherwise determines (and documents the basis for its decision) or as otherwise provided below, the Adviser votes proxies in a manner consistent with the Guidelines.
- To avoid material conflicts of interest, the Adviser applies the Guidelines in an objective and consistent manner across client accounts. Where a material conflict of interest has been identified and the matter is covered by the Guidelines, the Adviser votes in accordance with the Guidelines. For clients that are registered investment companies, where a conflict of interest has been identified and the matter is not covered in the Guidelines, the Adviser will

disclose the conflict and the determination of the manner in which to vote to the Fund's Board. For clients that are not investment companies, where a conflict of interest has been identified and the matter is not covered in the Guidelines, the Adviser will disclose the conflict to the client and advise the client that its securities will be voted only upon the client's written direction.

o The Adviser also may determine not to vote proxies in respect of securities of any issuer if it determines it would be in its clients' overall best interests not to vote.

The Adviser's Guidelines address how it will vote proxies on particular types of matters such as changes in corporate government structures, adoption of options plans and anti-takeover proposals. For example, the Adviser generally will:

- o support management in most elections for directors, unless the board gives evidence of acting contrary to the best economic interests of shareholders;
- o support option plans, if it believes that they provide for their administration by disinterested parties and provide incentive to directors, managers and other employees by aligning their economic interests with those of the shareholders while limiting the transfer of wealth out of the company; and
- o oppose anti-takeover proposals unless they are structured in such a way that they give shareholders the ultimate decision on any proposal or offer.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(A) (1) IDENTIFICATION OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS AND DESCRIPTION OF ROLE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

The Fund's portfolio is managed by a portfolio management team. As of the date of this filing, the members of the team who are primarily responsible for the day-to-day management of the Fund's portfolio are Kurtis S. Plumer, James Dondero, Mark Okada and Patrick H. Daugherty.

KURTIS S. PLUMER, CFA - Mr. Plumer is a Partner and Senior Portfolio Manager at Highland Capital Management, L.P. ("Highland"), covering the Energy and Food sectors. Prior to joining Highland in July 1999, Mr. Plumer was a distressed high yield bond trader at Lehman Brothers in New York, where he managed a \$250

million portfolio invested in global distressed securities. While at Lehman, he also traded emerging market sovereign bonds. Prior to joining Lehman Brothers, Mr. Plumer was a corporate finance banker at NationsBanc Capital Markets, Inc. (now Bank of America Capital Markets, Inc.) where he focused on M&A and financing transactions for the bank's clients. Mr. Plumer has over 14 years of experience in distressed, high yield bond and leveraged loan products. Mr. Plumer earned a BBA in Economics and Finance from Baylor University and an MBA in Strategy and Finance from the Kellogg School at Northwestern University. Mr. Plumer has earned the right to use the Chartered Financial Analyst designation.

JAMES DONDERO, CA, CPA, CMA - Mr. Dondero is a founder and President of Highland Capital Management, L.P. ("Highland") and has served as President Mr. Dondero is a founder and President of Highland and has served as President since 1993. Mr. Dondero is also President of the funds in the Highland Fund Complex.

Formerly, Mr. Dondero served as Chief Investment Officer of Protective Life's GIC subsidiary and helped grow the business from concept to over \$2 billion between 1989 and 1993. His portfolio management experience includes investments in mortgage-backed securities, investment grade corporate bonds, leveraged bank loans, emerging markets, derivatives, preferred stocks and common stocks. From 1985 to 1989, he managed approximately \$1 billion in fixed income funds for American Express. Prior to American Express, he completed his financial training at Morgan Guaranty Trust Company. Mr. Dondero is a Beta Gamma Sigma graduate of the University of Virginia, 1984 with degrees in Accounting and Finance. Mr. Dondero is a Certified Public Accountant, Chartered Financial Analyst and a Certified Management Accountant

MARK OKADA, CFA - Mr. Okada is a Founder and Chief Investment Officer at Highland Capital Management, L.P. ("Highland"). POTENTIAL CONFLICTS OF INTERESTS

The Adviser has built a professional working environment, a firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. Highland has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, the Adviser furnishes advisory services to numerous clients in addition to the Fund, and the Adviser may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts that are hedge funds or have performance or higher fees paid to the Adviser or in which portfolio managers have a personal interest in the receipt of such fees) that may be the same as or different from those made to the Fund. In addition, the Adviser, its affiliates and any of their partners, directors, officers, stockholders or employees may or may not have an interest in the securities whose purchase and sale the Adviser recommends to the Fund. Actions with respect to securities of the same kind may be the same as or different from the action that the Adviser, or any of its affiliates, or any of their partners, directors, officers, stockholders or employees or any member of their families may take with respect to the same securities. Moreover, the Adviser may refrain from rendering any advice or services concerning securities of companies of which any of the Adviser's (or its affiliates') partners, directors, officers or employees are directors or officers, or companies as to which the Adviser or any of its affiliates or the partners, directors, officers and employees of any of them has any substantial economic interest or possesses material non-public information. In addition to its various policies and procedures designed to address these issues, the Adviser includes disclosure regarding these matters to its clients in both its Form ADV and investment advisory agreements.

The Adviser, its affiliates or their partners, directors, officers and employees similarly serve or may similarly serve other entities that operate in the same or related lines of business. Accordingly, these individuals may have obligations to investors in those entities or funds or to other clients, the fulfillment of which might not be in the best interests of the Fund. As a

result, the Adviser will face conflicts in the allocation of investment opportunities to the Fund and other funds and clients. In order to enable such affiliates to fulfill their fiduciary duties to each of the clients for which they have responsibility, the Adviser will endeavor to allocate investment opportunities in a fair and equitable manner which may, subject to applicable regulatory constraints, involve pro rata co-investment by the Fund and such other clients or may involve a rotation of opportunities among the Fund and such other clients.

While the Adviser does not believe there will be frequent conflicts of interest, if any, the Adviser and its affiliates have both subjective and objective procedures and policies in place designed to manage the potential conflicts of interest between the Adviser's fiduciary obligations to the Fund and their similar fiduciary obligations to other clients so that, for example, investment opportunities are allocated in a fair and equitable manner among the Fund and such other clients. An investment opportunity that is suitable for multiple clients of the Adviser and its affiliates may not be capable of being shared among some or all of such clients due to the limited scale of the opportunity or other factors, including regulatory restrictions imposed by the 1940 Act. There can be no assurance that the Adviser's or its affiliates' efforts to allocate any particular investment opportunity fairly among all clients for whom such opportunity is appropriate will result in an allocation of all or part of such opportunity to the Fund. Not all conflicts of interest can be expected to be resolved in favor of the Fund.

The Adviser expects to apply to the SEC for exemptive relief to enable the Fund and registered investment companies advised by the Adviser to co-invest with other accounts and funds managed by the Adviser and its affiliates in certain privately-placed securities and other situations. There are no assurances that the Adviser will receive the requested relief. If such relief is not obtained and until it is obtained, the Adviser may be required to allocate some investments solely to any of the Fund, a registered fund, or another account or fund advised by the Adviser or its affiliates. This restriction could preclude the Fund from investing in certain securities it would otherwise be interested in and could adversely affect the speed at which the Fund is able to invest its assets and, consequently, the performance of the Fund.

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

Highland's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors including the relative performance of a portfolio managers underlying account, the combined performance of the portfolio managers underlying accounts, and the relative performance of the portfolio managers underlying accounts measured against other employees. The principal components of compensation include a base salary, a discretionary bonus, various retirement benefits and one or more of the incentive compensation programs established by Highland such as the Option It Plan and the Long-Term Incentive Plan.

BASE COMPENSATION. Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm, which may include the amount of assets supervised and other management roles within the firm.

DISCRETIONARY COMPENSATION. In addition to base compensation, portfolio managers may receive discretionary compensation, which can be a substantial portion of total compensation. Discretionary compensation can include a

discretionary cash bonus as well as one or more of the following:

OPTION IT PLAN. The purpose of the Plan is to attract and retain the highest quality employees for positions of substantial responsibility, and to provide additional incentives to a select group of management or highly compensated employees of the Fund so as to promote the success of the Fund.

LONG TERM INCENTIVE PLAN. The purpose of the Plan is to create positive morale and teamwork, to attract and retain key talent, and to encourage the achievement of common goals. The Plan seeks to reward participating employees based on the increased value of Highland through the use of Long-term Incentive Units.

Senior portfolio managers who perform additional management functions may receive additional compensation in these other capacities. Compensation is structured such that key professionals benefit from remaining with the firm.
