NORWOOD FINANCIAL CORP
Form 10-Q
November 14, 2006

N/A
Former name, former address and former fiscal year, if changed since last report.

Indicate by check (x) whether the registrant (1) has filed all reports required to be filed by Section 13 or $15(\mathrm{~d})$ of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes [x] No [ ]

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or non-accelerated filer. See definition of "accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer [ ] Accelerated filer [ ] Non-accelerated filer [x]
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of Exchange Act): Yes [ ] No [x]

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class Outstanding as of November 13, 2006
----------------------------------------------

Common stock, par value $\$ 0.10$ per share
$2,795,335$

Notes to Unaudited Consolidated Financial Statements
-------------------------------------------------------------1

1. Basis of Presentation

The consolidated financial statements include the accounts of Norwood Financial Corp. (Company) and its wholly-owned subsidiary, Wayne Bank (Bank) and the Bank's wholly-owned subsidiaries, WCB Realty Corp., Norwood Investment Corp. and WTRO Properties. All significant intercompany transactions have been eliminated in consolidation.

## 2. Estimates

The accompanying unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates. The financial statements reflect, in the opinion of management, all normal, recurring adjustments necessary to present fairly the financial position of the Company. The operating results for the three and nine month periods ended September 30,2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006 or any other future interim period.

These statements should be read in conjunction with the consolidated financial statements and related notes which are incorporated by reference in the Company's Annual Report on Form 10-K for the year-ended December 31, 2005.

## 3. Earnings Per Share

On April 11, 2006, the Company declared a 5\% stock dividend on common stock outstanding payable May 26,2006 to shareholders of record on May 12 , 2006. The stock dividend resulted in the issuance of 135,157 additional common shares. All per share data has been adjusted for the effect of the stock dividend.

Basic earnings per share represents income available to common stockholders divided by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company relate solely to outstanding stock options and are determined using the treasury stock method.

The following table sets forth the computations of basic and diluted earnings per share:
(in thousands)

* References to share amounts and per-share amounts reflect the 5\% stock dividend distributed to shareholders on May 26, 2006.

7
4. Stock-Based Compensation
---------------------------

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement No. $123(R)$, "Share-Based Payment." Statement No. 123(R) replaces Statement No. 123, "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." Statement No. $123(R)$ requires the fair value of share-based payment transactions to be recognized as compensation costs in the financial statements over the period than an employee provides service in exchange for the award. The fair value of the share-based payments is estimated using the Black-Scholes option-pricing model. The Company adopted Statement No. $123(R)$ effective January 1, 2006, using the modified-prospective transition method. Under the modified prospective method, companies are required to record compensation cost for new and modified awards over the related vesting period of such awards and record compensation cost prospectively for the unvested portion, at the date of

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

adoption, of previously issued and outstanding awards over the remaining vesting period of such awards. No change to prior periods presented is permitted under the modified prospective method. The Company did not issue any stock options in 2005 (1) As outstandng options as of December 31, 2005 was fully vested. The Company's shareholders approved the Norwood Financial Corp 2006 Stock Option Plan at the annual meeting on April 25, 2006. As a result, the Company awarded 25, 200 options, all of which have a twelve month vesting period. Included in the results for the three and nine months ended September 30, 2006 were $\$ 51,000$ and $\$ 85,000$ respectively in compensation costs relating to the adoption of Statement No. $123(R)$. Net income for the three and nine months ended September 30, 2006 was reduced by approximately $\$ 34,000$ and $\$ 56,000$ respectively. As of September 30, 2006, there was approximately $\$ 119,000$ of total unrecognized compensation cost related to nonvested options under the plan.

The following table illustrates the effect on net income and earnings per share, for the three and nine months ended September 30, 2005, if the Company had applied the fair value recognition provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation to stock-based compensation:

18.96
4.9

The fair value of options granted for the period ended September 30, were estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions:

There were no new options granted for the nine months ended September 30, 2005.

## 5. Cash Flow Information

For the purposes of reporting cash flows, cash and cash equivalents include cash on hand, amounts due from banks, interest-bearing deposits with banks and federal funds sold.

Cash payments for interest for the nine months ended September 30, 2006 and 2005 were $\$ 6,340,000$ and $\$ 4,395,000$ respectively. Cash payments for income taxes in 2006 were $\$ 1,873,000$ compared to $\$ 1,746,000$ in 2005. Non-cash investing activities for 2006 and 2005 included foreclosed mortgage loans and repossession of other assets of $\$ 111,000$ and $\$ 76,000$, respectively.
6.

Comprehensive Income
Accounting principles generally accepted in the United States of America require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities such as unrealized gains and losses on available for sale securities, are reported as a separate component of the equity section of the balance sheet, such items, along with net income, are components of comprehensive income. The components of other comprehensive income and related tax effects are as follows:

| Three Months | Nine Months |
| :---: | :---: |
| ------------ | ---------- |
| Ended September 30, Ended September 30, |  |

|  | 2006 |  | 2005 |  | 2006 |  | 2005 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Unrealized holding gains/(losses) on available for sale securities | \$ | 1,285 | \$ | (664) | \$ | 799 |  | $(1,248)$ |
| Reclassification adjustment for gains realized in net income |  | (45) |  | (3) |  | ( 66 ) |  | (83) |
| Net unrealized gains/(losses) |  | 1,240 |  | (667) |  | 733 |  | $(1,331)$ |
| Income tax (benefit) |  | 423 |  | (229) |  | 250 |  | (457) |
| Other comprehensive income (loss) | \$ | 817 | \$ | (438) | \$ | 483 |  | (874) |

7. Off-Balance Sheet Financial Instruments and Guarantees

The Bank is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

A summary of the Bank's financial instrument commitments is as follows: (in thousands)

|  | Sept. 30 | Dec. 31 |
| :---: | :---: | :---: |
|  | 2006 | 2005 |
| Commitments to grant loans | \$15,993 | \$16,078 |
| Unfunded commitments under lines of credit | 34,507 | 29,969 |
| Standby letters of credit | 7,290 | 6,791 |
|  | \$57, 790 | \$52,838 |

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed

# Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q 

evaluation of the customer and generally consists of real estate.

The Bank does not issue any guarantees that would require liability recognition or disclosure, other than its standby letters of credit. Standby letters of credit written are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Generally, all letters of credit, when issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as those that are involved in extending loan facilities to customers. The Bank, generally, holds collateral and/or personal guarantees supporting these commitments. Management believes that the proceeds obtained through a liquidation of collateral and the enforcement of guarantees would be sufficient to cover the potential amount of future payment required under the corresponding guarantees. The current amount of the liability as of September 30, 2006 and December 31,2005 for guarantees under standby letters of credit issued is not material.
8. New Accounting Pronouncements

FAS 157

In September 2006, the FASB issued FASB Statement No. 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. FASB Statement No. 157 applies to other accounting pronouncements that require or permit fair value measurements. The new guidance is effective for financial statements issued for fiscal years beginning after November 15, 2007, and for interim periods within those fiscal years. We are currently evaluating the potential impact, if any, of the adoption of FASB Statement No. 157 on our consolidated financial position, results of operations and cash flows.

FAS 158

On September 29, 2006, the Financial Accounting Standards Board "FASB" issued SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans ("SFAS 158"), which amends SFAS 87 and SFAS 106 to require recognition of the overfunded or underfunded status of pension and other postretirement benefit plans on the balance sheet. Under SFAS 158, gains and losses, prior service costs and credits, and any remaining transition amounts under SFAS 87 and SFAS 106 that have not yet been recognized through net periodic benefit cost will be recognized in accumulated other comprehensive income, net of tax effects, until they are amortized as a component of net periodic cost. The measurement date - the date at which the benefit obligation and plan assets are measured - is required to be the company's fiscal year end. SFAS 158 is effective for publicly-held companies for fiscal years ending after December 15, 2006, except for the measurement date provisions, which are effective for fiscal years ending after December 15, 2008. The Company is currently analyzing the effects of SFAS 158 but does not expect its implementation will have a significant impact on the Company's financial condition or results of operations.

SAB 108

On September 13, 2006, the Securities and Exchange Commission "SEC" issued Staff Accounting Bulleting No. 108 ("SAB 108"). SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a potential current year misstatement. Prior to SAB 108, Companies might evaluate the materiality of financial-statement misstatements using either the income statement or balance sheet approach, with the income statement approach focusing on new misstatements added in the current year, and the balance sheet approach focusing on the cumulative amount of misstatement present in a company's balance

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

sheet. Misstatements that would be material under one approach could be viewed as immaterial under another approach and not be corrected. SAB 108 now requires that companies view financial statement misstatements as material if they are material according to either the income statement or balance sheet approach. The Company has analyzed SAB 108 and determined that upon adoption it will have no impact on the reported results of operations or financial condition.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 contains safe harbor provisions regarding forward-looking statements. When used in this discussion, the words believes, anticipates, contemplates, expects, and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected. Those risks and uncertainties include changes in interest rates, risks associated with the effect of opening a new branch, the ability to control costs and expenses, demand for real estate and general economic conditions. The Company undertakes no obligation to publicly release the results of any revisions to those forward-looking statements which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Critical Accounting Policies

Note 2 to the Company's consolidated financial statements (incorporated by reference in Item 8 of the form $10-K$ ) lists significant accounting policies used in the development and presentation of its financial statements. This discussion and analysis, the significant accounting policies, and other financial statement disclosures identify and address key variables and other qualitative and quantitative factors that are necessary for an understanding and evaluation of the Company and its results of operations.

Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, accounting for stock options, the valuation of deferred tax assets and the determination of other-than-temporary impairment losses on securities. Please refer to the discussion of the allowance for loan losses calculation under "Non-performing Assets and Allowance for Loan Losses" in the "Financial Condition" section. For periods ending prior to January 1, 2006, the Company accounted for stock option plans under the recognition and measurement principles of APB Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. No stock-based employee compensation was reflected in net income, as all options granted had an exercise price equal to the market value of the underlying common stock on the grant date. The Company adopted SFAS No. 123(R), "Share-Based Payment" as of January 1, 2006. However, no stock options were awarded in 2005 or for the three months ended March 31, 2006. The Norwood Financial Corp. 2006 Stock Option Plan was approved on April 25, 2006. The Company granted 25,200 options in the second quarter of 2006 . See Note 4 for a discussion of this pronouncement's impact on the company's consolidated financial statements.

The deferred income taxes reflect temporary differences in the recognition of the revenue and expenses for tax reporting and financial statement purposes, principally because certain items are recognized in different periods for financial reporting and tax return purposes. Although realization is not assured, the Company believes it is more likely than not that all deferred tax assets will be realized.

In estimating other-than-temporary impairment losses on securities, the Company considers 1) the length of time and extent to which the fair value has been less than cost 2) the financial condition of the issuer and 3) the intent and ability of the Company to hold the security to allow for a recovery to fair value.

Changes in Financial Condition

General
Total assets as of September 30,2006 were $\$ 453.2$ million compared to $\$ 433.6$ million as of December 31, 2005, an increase of $\$ 19.6$ million, or $4.5 \%$.

Securities
_---------
The fair value of securities available for sale as of September 30, 2006 was $\$ 112.4$ million compared to $\$ 115.8$ million as of December 31, 2005. The Company purchased $\$ 16.8$ million of securities to offset $\$ 20.6$ million of maturities and principal reductions on mortgage-backed securities. The purchases were principally in short-term U.S. Government sponsored agencies and pass-through mortgage-backed securities. The additional proceeds not reinvested were used to fund loan growth.

The Company has securities in an unrealized loss position. In Management's opinion, the unrealized losses reflect changes in interest rates subsequent to the acquisition of specific securities. The Company's available-for-sale portfolio has an average repricing term of 1.8 years. Interest rates in the $2-3$ year section of the treasury yield curve have increased over 100 basis points over the life of the securities impacting the fair value of individual securities. Management believes that the unrealized losses represent temporary impairment of the securities, as a result of changes in interest rates. The Company has the intent and ability to hold these investments until maturity or market price recovery.

## Loans Receivable

Loans receivable before allowance totaled $\$ 313.7$ million compared to $\$ 290.9$ million as of December 31, 2005. Commercial real estate loans increased $\$ 6.0$ million with growth primarily in the third quarter, which offset the pay off of a short-term $\$ 6.7$ million loan originated in the first quarter of 2005 . Commercial term loans and lines of credit also increased $\$ 6.2$ million. The $\$ 12.8$ million growth in residential real estate loans has principally been in fixed -rate first lien residential mortgages and home equity loans. The Company does not originate any non-traditional mortgage products such as interest-only loans or option adjustable-rate mortgages, nor offer any terms over 30 years.

Set forth below is selected data relating to the composition of the loan portfolio at the dates indicated:

Allowance for Loan Losses and Non-performing Assets

Following is a summary of changes in the allowance for loan losses for the periods indicated:

|  | Three Months |  | Nine Months |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Ended September 30 |  | Ended September 30 |  |
| (dollars in thousands) | 2006 | 2005 | 2006 | 2005 |
| Balance, beginning | \$3,794 | \$3,600 | \$3,669 | \$3,44 |
| Provision for loan losses | 45 | 90 | 170 | 28 |
| Charge-offs | (34) | (66) | (84) | (14 |
| Recoveries | 23 | 19 | 73 |  |
| Net charge-offs | (11) | (47) | (11) | ( 8 |
| Balance, ending | \$3,828 | \$3,643 | \$3,828 | \$3,64 |
|  | $=====$ | ===== | $=====$ | = |
| Allowance to total loans | 1.22\% | 1.29\% | 1.22\% | 1.2 |
| Net charge-offs to average loans (annualized) | . $01 \%$ | . $07 \%$ | . - \% |  |

The allowance for loan losses totaled $\$ 3,828,000$ as of September 30, 2006 and represented $1.22 \%$ of total loans compared to $\$ 3,669,000$ and $1.26 \%$ as of December 31, 2005. Net charge-offs for the nine months ended September 30,2006 totaled $\$ 11,000$ declining from net charge-offs of $\$ 85,000$ for the similar period in 2005. The decrease was principally due to the lower level of repossessed automobiles, as the Company has lowered its exposure to indirect automobile lending. As a result of the lower net charge-offs, the provision for loan losses was less for the nine months ended September 30, 2006, $\$ 170,000$, compared to $\$ 280,000$ for the similar period in 2005 .

14

The Company assesses the adequacy of the allowance for loan losses on a quarterly basis. The process includes an analysis of the risks inherent in the loan portfolio. It includes an analysis of impaired loans and a historical review of credit losses by loan type. Other factors considered include: concentration of credit in specific industries; economic and industry conditions; trends in delinquencies and loan risk-rated classifications, large dollar exposures and loan growth. Management considers the allowance adequate at September 30,2006 based on the Company's criteria. However, there can be no assurance that the allowance for loan losses will be adequate to cover significant losses, if any that might be incurred in the future.

As of September 30, 2006, non-performing loans totaled $\$ 395,000$, which is . $13 \%$ of total loans compared to $\$ 353,000$, or $.12 \%$ of total loans at December 31, 2005. The following table sets forth information regarding non-performing loans and foreclosed real estate at the dates indicated:
(dollars in thousands)

Foreclosed real estate

## Deposits

--------
Total deposits as of September 30 , 2006 were $\$ 364.6$ million
increasing from $\$ 340.6$ million as of December 31, 2005. Non-interest bearing

## Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

demand deposits increased $\$ 12.4$ million or $24.4 \%$. The increase in non-interest bearing demand deposits is due in part to new commercial accounts and the seasonality of certain corporate and municipal accounts. Savings have decreased $\$ 5.9$ million as customers have moved funds to short-term time deposits which have higher yields. Time deposits less than $\$ 100,000$ increased $\$ 17.0$ million, principally due to promotional efforts in short-term certificates of deposit.

15

The following table sets forth deposit balances as of the dates indicated.

| (dollars in thousands) | September 30, 2006 | December 31, 2005 |
| :---: | :---: | :---: |
| Non-interest bearing demand | \$63,331 | \$50,891 |
| Interest bearing demand | 37,830 | 40,738 |
| Money Market | 56,703 | 52,194 |
| Savings | 47,329 | 53,311 |
| Time deposits |  |  |
