## **Item 1.01. Entry into a Material Definitive Agreement.**

### **1. Senior Secured Credit Facilities**

On March 19, 2007, Freeport-McMoRan Copper & Gold Inc., a Delaware corporation (“FCX”), entered into a new senior secured credit agreement with JP Morgan Chase Bank, N.A. (“JP Morgan”), as administrative agent and collateral agent, Merrill Lynch, Pierce, Fenner & Smith Incorporated (“Merrill”), as syndication agent, and each of the lenders and issuing banks party thereto, and an amended and restated senior secured credit agreement with JP Morgan, as administrative agent, security agent, joint account assets security agent and collateral agent, Merrill, as syndication agent, U.S. Bank National Association, as FI Trustee, and each of the lenders and issuing banks party thereto. JP Morgan Securities, Inc. and Merrill acted as joint lead arrangers and joint bookrunners for these credit agreements.

The senior credit facilities provide senior secured financing of \$11.5 billion, consisting of:

- \$1.5 billion 5-year revolving credit facility, which consists of \$1.0 billion under the new credit agreement and \$500 million under the amended and restated credit agreement;
- \$2.5 billion 5-year Tranche A term loan facility under the new credit agreement; and
- \$7.5 billion 7-year Tranche B term loan facility under the new credit agreement.

The revolving credit facilities are available for letters of credit and loans. The new senior credit facilities are being used to fund FCX’s acquisition of Phelps Dodge Corporation (the “Acquisition”), pay transaction costs, refinance existing debt and for working capital and general corporate purposes.

### **Interest rates and fees**

Pricing for the Tranche A term loan facility and the revolving credit facility is, at the option of FCX, LIBOR or base rate, plus a spread to be determined by reference to a grid based on ratings. Initially, the spreads for the Tranche A term loan facility and the revolving credit facility are LIBOR plus 150 basis points (1.50 percent) per annum or base rate plus 50 basis points (0.50 percent) per annum. In addition, FCX will pay a commitment fee on the unused portion of the revolving credit facility at a rate to be determined by reference to a grid based on ratings. Initially, the commitment fee on the unused portion of the revolving credit facility is 37.5 basis points (0.375 percent) per annum. Pricing for the Tranche B term loan facility is LIBOR plus 175 basis points (1.75 percent) per annum or base rate plus 75 basis points (0.75 percent) per annum, at the option of FCX. Notwithstanding the foregoing, the spreads applicable to all loans under the senior credit facilities will increase by 100 basis points (1.00 percent) if FCX does not provide the collateral agent under the senior credit facilities with certain additional collateral within certain periods of time after the closing of the Acquisition.

### **Prepayments**

The new senior credit facilities will require FCX to prepay outstanding term loans, subject to certain exceptions, with 50 percent of all equity proceeds and excess cash flow, as defined in the new credit agreement, and 100 percent of the net cash proceeds of all assets sales (unless reinvested within specified periods) and issuances of debt not permitted by the terms of the new senior credit facilities. The percentage of equity proceeds required to be prepaid on outstanding loans will decline to 25 percent to the extent that the outstanding indebtedness of FCX and its subsidiaries, net of certain cash, drops below \$12.5 billion and will decline to 0 percent to the extent that the outstanding indebtedness of FCX and its subsidiaries, net of certain cash, drops below \$7.5 billion. The percentage of excess cash flow, as defined in the new credit agreement, required to be prepaid on outstanding loans under the new senior credit facilities will decline to 25 percent to the extent that the leverage ratio, as defined in the new credit agreement, of FCX drops below

4.0x (or 3.0x if FCX does not provide the collateral agent under the senior credit facilities with certain additional collateral within certain periods of time after the closing of the Acquisition) and to 0 percent to the extent that the ratio drops below 3.0x (or 2.0x if the additional collateral is not provided within the specified periods).

---

## **Guarantees**

All obligations under the senior credit facilities and certain interest rate protection and other permitted hedging arrangements and obligations in respect of certain cash management and purchasing card arrangements are unconditionally guaranteed by most of FCX's existing and subsequently acquired or organized material domestic and certain foreign subsidiaries. The revolving loans of FCX under the \$500 million amended and restated credit agreement are also guaranteed by PT Freeport Indonesia and certain other Indonesian subsidiaries of FCX.

## **Security**

All obligations under the senior credit facilities and certain interest rate protection and other permitted hedging arrangements and obligations in respect of certain cash management and purchasing card arrangements are secured by (i) the stock of FCX's material domestic subsidiaries and 65 percent (or, in certain cases, 100 percent) of the stock of certain first-tier foreign subsidiaries, (ii) the intercompany indebtedness owed to FCX by its subsidiaries and (iii) deposits and investment accounts of FCX. The revolving loans under the \$500 million amended and restated credit agreement are also secured by substantially all of the assets of PT Freeport Indonesia. Notwithstanding the foregoing, all obligations under the senior credit facilities will be secured by substantially all the assets of FCX and certain domestic subsidiaries if FCX does not provide the collateral agent under the senior credit facilities with a pledge of stock of certain subsidiaries held directly by FCX within a certain period of time after the closing of the Acquisition.

## **Certain covenants**

The senior credit facilities contain a number of negative covenants that, among other things, restrict, subject to certain exceptions, FCX's ability or the ability of FCX's subsidiaries to: incur additional indebtedness (including guarantee obligations); create liens on assets; enter into sale and leaseback transactions; engage in mergers, liquidations and dissolutions; sell assets; pay dividends, distributions and other payments in respect of capital stock, and purchase FCX capital stock in the open market; repay certain indebtedness, including \$6.0 billion of its notes, consisting of \$1.5 billion aggregate principal amount of its 8.25% Senior Notes due April 1, 2015, \$3.5 billion aggregate principal amount of its 8.375% Senior Notes due April 1, 2017 and \$1 billion aggregate principal amount of its Senior Floating Rate Notes due April 1, 2015 (collectively, the "Notes"), or amend the agreements relating thereto; engage in certain transactions with affiliates; change FCX's fiscal year; create restrictions on FCX's ability to receive distributions from subsidiaries or create liens on FCX or FCX's subsidiaries' assets; and change FCX's lines of business. In addition, the financial covenants under the senior secured credit facilities require FCX, at any time that any revolving loans or letters of credit are outstanding, not to exceed a maximum total leverage ratio or a maximum secured leverage ratio. The senior secured credit facilities also contain customary affirmative covenants and representations.

## **Events of default**

The senior secured credit facilities specify certain customary events of default, including, among others: failure to pay principal, interest or other amounts; material inaccuracy of representations and warranties; violation of covenants; cross events of default; certain bankruptcy and insolvency events; certain events under the Employee Retirement Income Security Act; certain undischarged judgments; change of control and governmental appropriation of a material portion of FCX's, and FCX's subsidiaries' assets.

## **Certain Relationships**

The lenders and the initial purchasers of the Notes or their respective affiliates have in the past engaged, and may in the future engage, in transactions with and perform services, including commercial banking, financial advisory and investment banking services, for FCX and its affiliates in the ordinary course of business for which they have received

or will receive customary fees and expenses. In connection with the Acquisition, JP Morgan and Merrill or their respective affiliates have provided financial advisory services to, and have received financial advisory fees from FCX. In connection with the Notes offering, affiliates of JP Morgan and Merrill and certain of the lenders acted as representatives of the several underwriters of the Notes and participated in other financing aspects relating to the Acquisition.
